SAINT GERMAIN FOUNDATION

The "I AM" Activity represents the Original, Permanent, and Highest Source of the Ascended Masters' Instruction on the Great Laws of Life, as first offered to the western world by the Ascended Master Saint Germain, through His Accredited Messengers, Mr. and Mrs. Guy W. Ballard.

In the early 1930s the Ballards established Saint Germain Foundation and Saint Germain Press, Inc. which under Saint Germain's Guidance, have expanded into worldwide organizations that offer to mankind the true Ascended Master Teachings on the Great Cosmic Word, "I AM"! Saint Germain Foundation strives to keep the "I AM" Ascended Master Instruction in Its pure, unadulterated form, free from any human interpretation, personal monetary gain, or proselytizing, as It is a Gift from the Great Ascended Masters and Cosmic Beings to bring Illumination and Perfection to mankind.

Hundreds of "I AM" Temples and Sanctuaries exist throughout the world, where the Teachings are applied in "I AM" Decree Groups. The Books of the Saint Germain Series are available in many libraries, bookstores, or directly from Saint Germain Press (address below). For further information, please contact:

DEDICATION

This series of Books is dedicated in deepest Eternal Love and Gratitude to our Beloved Master Saint Germain, the Great White Brotherhood, the Brotherhood of the Royal Teton, the Brotherhood of Mount Shasta, and those other Ascended Masters whose loving Help has been direct and without limit.

• • •

The year 1982 represented the Fiftieth Anniversary of Beloved Saint Germain's transcendent Instruction and Teaching given to the mankind of Earth through our Beloved Accredited Messengers, Mr. and Mrs. G.W. Ballard, known to you, the reader, as Godfré Ray King and Lotus Ray King–who are now Ascended! We offer this edition to Them in loving gratitude for Their Strength, Courage and Inspiration, Their Illumined Obedience and Mighty Truth of this Ascended Master Law of Love given to all who bear witness to this Great Light!

EDITOR'S NOTE

At the Request of the Ascended Master Saint Germain and Victory, the Tall Master from Venus, the material in this Book is written in a plain, direct manner with no attempt to conform to artificial literary standards or outer world authority. They said: "This series of Books must go forth in a simple, modern style which the layman can easily understand." Therefore, the Inner Light and Feeling have been held as of the first importance in presenting this Truth, and the words used to express that Light and Feeling are those which are most direct and of easiest comprehension for the reader.

The Ascended Masters never use involved terminology regardless of any human opinion; for the nearer one comes to Eternal Truth, the more direct and concise is the language in which it is clothed. In presenting this Book to our readers, we have kept the Light and Feeling first–and the literary form entirely secondary.

The material in the first two Books is simply a record of the author's experiences in the order in which the events occurred, stated as clearly as possible and in words that convey to the reader the feeling of the experiences. If the reader will bear this in mind, he too will be able to receive the Outpouring of Light which will open opportunities for similar transcendent experiences to come to him in a perfectly normal, safe, harmonious manner, for his permanent blessing and illumination.

IN LOVING SERVICE TO THE LIGHT,
LOTUS RAY KING

EDITOR'S NOTE

Every word in this series of Books was written as the Blessed Ballards, now Ascended, requested they be presented. It is not possible to place a value on the contents of this Book, as this Instruction enters into and becomes a part of our entire being and world. Therefore, the words are destined to outpicture in our lives; hence our lives become more perfect, beautiful, strong, and God-inspired.

The Ascended Masters have told us: " ... Do you not see, O Precious Ones, that it is the simplicity of thought and expression which brings the great release of the Powers of Freedom. Only in the complications of expression is the Truth so often hidden. Ever shall Saint Germain be blessed for bringing this Knowledge of the 'Mighty I AM Presence' forth in such simple language, that all may understand and apply It. So We are blessing Him as greatly as you are for that Great, Great Service He has rendered.

"We have gained Our Freedom by the same identical Application which you have before you! It is the same Application throughout the centuries, throughout all civilizations, throughout the ages! When you come into the Great Reality of the Truth, it is so simple, so far as its worded expression is concerned, that any child may understand it– because extraordinary language is but mankind's attempt to cover or make mystical the Truth, which is so simple!"

TRIBUTE

THE time has arrived when the Great Wisdom held and guarded for many centuries in the Far East is now to come forth in America at the command of those Great Ascended Masters who direct, protect, and assist in expanding the Light within mankind upon this earth.

The Great Ascended Master Saint Germain, throughout this series of Books, is one of those Powerful Cosmic Beings from the Great Host of Ascended Masters who govern this planet.

He is the same Great Masterful Presence who worked at the Court of France previous to and during the French Revolution, and whose advice, if it had been heeded, would have saved great suffering. He is indissolubly linked with America–past, present, and future; for a very important part of His Work upon this earth is the purifying, protecting and illumining of the people of America, that she may be the Carrier of the "Cup of Light" to the nations of the earth in the Golden Age that is opening before us.

America's very Freedom in the beginning of her existence was due largely to His tireless efforts in protecting and encouraging those responsible for

her inception. The drafting of the Declaration of Independence was also a direct result of His Help and Influence, and it was His Love, Protection, and Guidance which sustained Washington and Lincoln during the darkest hours of their lives.

This Beloved Brother of humanity, who works untiringly for its Light and Freedom, is even now during the present hour in America working in the world of governmental affairs and bringing about certain beneficial changes that will bless her and through her the world. Not for many years ahead will the people of America and the earth know how much of their good they owe to this Great Ascended Master to whom it is impossible to do full justice, except in deepest love, obedience and service to the Ideal for which He stands and unceasingly labors.

This intimate Knowledge of His Activities in our Country makes possible a feeling of close contact and Love for Him that becomes a living, tangible Force in the Life of the reader.

The Radiation of this Book is such as can only be given by an Ascended Master who, in this case, is the Great Beloved "Bearer of the Light," Saint Germain.

GODFRÉ RAY KING

TRIBUTE

THE Great and Beloved Ascended Master Saint Germain, one of the Great Host of Ascended Masters who has loved and assisted mankind for centuries, reminds us that to Pure Divine Love there is no obstruction anywhere in the Universe. It is the Golden Key to the mightiest Heights of Attainment! It is the Open Door to Eternal Freedom! "I AM" Freedom to the Earth! Freedom means you must become Lord of Love if you are to be Master of Life! It is the Mighty Secret of the Universe! He who is wise will enter into the Secret Place of the Most High, the Flame of Love in the Heart of the "Mighty I AM Presence."

One Beloved Master said that this Great Master Saint Germain stands waiting patiently for more of mankind to use the Authority of their own Life Streams to command the Light to take Its Dominion on the earth, that His Great Freedom may bring Happiness and Perfection to all. He is the Great God of Freedom to the Earth and all upon it!

The Beloved Ascended Master Saint Germain pours His Great Flame of Freedom to the Land of

His Heart, America, the Land of Light! America, the "Cup of Light" to the earth! America, the "Open-Ended Cross" of Mighty Saint Germain's Freedom to all Life on this earth forever!

Everyone under this Radiation owes back to Life everything each one can ever give for the Freedom and Blessings which this Great Glorious Being has brought into your lives thus far. In all Eternity there is no balance for the Illumination of those Words, "I AM," or the Love He has poured for the Victory and Freedom of the Ascension for all.

To this Glorious Being of Light who has led the way, opened the Door, and given the Light, each one should consider it his or her personal obligation to continually pour out Happiness, Purity, and the Cosmic Flame of Cosmic Love to all Life, as some balance for what this Mighty Master has done for all.

This Great Ascended Master Saint Germain has loved mankind for over seventy thousand years; and when the Life Stream has been defiant, His Love, His Divine Patience never wavered. The darker the shadows became around a Life Stream, the more He poured His Love. Can you not do likewise?

FOREWORD

IT WAS through Saint Germain's Assistance that I was privileged to have the experiences recorded in this series of Books; and permission has been granted for them to be put in a form which can be given to the public. No one can realize, unless he too has had similar Assistance, how great and eternal is my love and gratitude to Him and those other Ascended Masters whose Assistance I had.

With the exception of Saint Germain, the real names of the Ascended Masters, exact locations, records, dates, and treasures herein described are withheld intentionally–at His Command–for reasons that are obvious; because only by the Service of Love and Invitation from the Ascended Masters is the right earned to be with Them in visible, tangible, living, breathing Bodies. Any other way of approach is bound to meet with disappointment and failure, for the Great "Presence" and Power which has guarded through the centuries, guards Them still.

One's own Inner Purity, Strength, and Attainment are the only passports by which one enters into these Activities, and association with the Ascended Masters comes about. When an individual, by

conscious self-correction of his weaknesses, reaches a certain point, nothing in the universe can keep him from Them.

In America there is one of the most Ancient Foci of the Great White Brotherhood, one of the oldest Retreats of the Ascended Masters, which has been working for man's Freedom since his advent upon this planet. Some of the Activities within this Retreat are revealed to the reader that he may, if he be ready, make conscious contact through his own Inner Light with the Great Light pouring out through this Powerful Center of God-Radiance; and thereby drink once again at the Fountain of the Ancient Wisdom and carry the Crystal Cup of Peace, Love, Strength and Victory to his weary brothers.

The purpose of putting this book into the hands of the public is to convey to the individual the encouragement and strength that will lift and sustain him through the transitional period we are now in; and reveal something of the sane and sound foundation upon which the future of our Country and the coming age is, this hour, being built.

This Book is written in the embrace of the majestic, towering presence of Mount Shasta, whose apex is robed forever in that pure, glistening white, the symbol of the "Light of Eternity." Its pages are a record of the way by which I was brought in touch with the Beloved Master Saint Germain and

those other Great Ascended Masters who labor unceasingly to assist the humanity of this earth, as it struggles on the path to Peace, Love, Light, and Everlasting Perfection.

I, whose experience it was, held steadfastly to a great dominant desire from Within to see, to hear, and to know, infallibly, the Truth of Life. I was led step by step to realize and to accept the "Mighty God Presence" within my own Being, the "Light that Lighteth every man that cometh into the world"–the "Christ." A way to make contact with the "Light," Its All-Knowing Omnipresence, and Unerring Activity was revealed to me, and I give It to the reader in these pages.

I can record only a part of the events that took place and the Instruction I received. One by one my great desires have been fulfilled, because those desires were constructive and unselfish. My quest for Truth and Happiness has been long and steady, but I have found both; and no human being can take them from me because they are Eternal and come from my own Great God Self.

In presenting this experience, it is with the deepest prayer that the reader may receive the "Light," be blest and prospered on his way as he walks the Path of Truth, in which alone can permanent Happiness be found. There and there only will the seeker after "Light" find Eternal Peace and Activity in the Service

of Love. If my present effort in sending these Books forth into the world can carry some of the Love, Light, and Happiness I have received to those of earth who also have been seeking the "Light," I shall have been amply rewarded.

The saying that "Truth is stranger than fiction," applies to this Book. It is for the reader to accept or reject as he chooses, but the Ascended Masters whose help I have received, have said to me often: "The more humanity can accept Our Presence, the wider it opens the door for Us to pour greater and greater help to them; but the rejection of Us by those who do not agree with this Truth does not remove Us or change Its Activity in the Universe."

Those who do accept the Truth herein recorded will find a new and powerful "Force" entering their lives. Each copy carries with it this Mighty Presence, Its Radiation and Sustaining Power. All who study these pages honestly, deeply, sincerely, and persistently, will know and make contact with the Reality of that Presence and Power. To those who read this Work, I wish to say that these experiences are as real and true as mankind's existence on this earth today, and that they all occurred during August, September, and October of 1930, upon Mount Shasta, California, U.S.A.

GODFRÉ RAY KING

FOREWORD

IN THIS, the first Book of the Saint Germain Series, our Beloved Mr. Ballard, under the pen name of Godfré Ray King, shares with the reader his personal experiences with the Beloved Master Saint Germain, and the Great Truth of "The Eternal Law of Life." The Beloved Master explains how these transcendent experiences are attainable to all mankind through Loving Obedience, Purity, and Divine Love to each one's own Great "God Presence," the Source of all Life.

Life is waiting to surge these Gifts into your outer use, but It cannot do it until your attention goes to your Source, your "Beloved Mighty I AM Presence," and forms the bridge, as it were, or the Stream of Energy upon which the "Presence" can give the Gift.

One of the Great Ones tells us that only God can free Life from human mistakes and qualities. Throughout the centuries that mankind has lived on this earth, Life has continually reminded them:

"Call unto Me and I will answer thee!"

"Seek and ye shall find!"

"Knock and it shall be opened unto you!"

" 'I AM' the Open Door which no man can shut

into the Great Opulence of God, waiting, surging to press forward to heal me, to bless me, and to prosper me abundantly!"

The "Light" is God's Way of creating and maintaining Order, Peace, and Perfection throughout His Creation. The "Light" is your Christ-Self, your "Mighty I AM Presence"! Everyone has the same Supreme Privilege of contact with the All-Powerful Presence of God, and It is the only Power that ever did, now, or ever will raise the personal self and its world above earthly discord and limitation.

If man knew that he never ceases creating, even for an instant, he would realize, through the Presence of God within himself he could purify his miscreations and thus be free from his own limitations. He spins a cocoon of human discord around himself and goes to sleep within it, forgetting at least for a time that if he can build it, he can also break through. By using the "Wings of his Soul," Adoration and Determination, he can break through his self-created darkness. Then he lives once more at the Center of his Being in the "Light" and "Freedom" of his "God Self."

The Transcendent and Magnificent Activities of Love and Light are the natural conditions in which God created and expected His human children to manifest, obeying His Command "To Love." There is no such thing as a supernatural condition

anywhere in the Universe. All that is Transcendent, Beautiful and Perfect is natural and according to the Law of Love.

Our Beloved Ascended Master Saint Germain reminds us to understand our responsibility in compelling the outer self to draw forth that Cosmic Christ Love to do everything we desire to do in the outer life, and to keep repelled from us all that is not its own Purity and Perfection which gives us Victory.

Humanity is taught to call the Love of the Sacred Fire from the "Presence" to forgive all mistakes of the human self. Forgiveness must come first in the Great Divine Compassion of Life before Healing can be permanent. Call for whatever Sacred Fire Love is necessary to forgive all that is not that Love.

Through Illumined Obedience and Love to their own "God Presence" and to the Beloved Master Saint Germain, the "Windows of Heaven" were opened to our Beloved Ones, Mr. and Mrs. Ballard.

They, in turn, through Love, Guidance and God Wisdom, helped and will always help those who seek the "Light" and this Great Goal of Life as taught by the Great Host of Ascended Masters.

We pour to Them the Flame of Love and Gratitude from our Hearts, and thank Them for their Protecting, Loving Care, and the Inspiration

which They were to us, and for the privilege of being called Their "Family of Light." Now may the Perfection that is Theirs and Their Masterful Guardianship ever enfold all from the Ascended Masters' Octave of Light Eternal!

May we all stand as a great blazing diamond of Light, flooding our love to the Great Host of Light, and call for "That Light of God that never fails" to ever enfold our Nation, our Beloved Land of America, the "Jewel in the Heart of God"! And now to this Nation which our Beloved Ascended Master Saint Germain has loved and guarded with His Love through the centuries, we give you His Mighty Decree:

> "America! Thou shalt arise the Nation of Love and Gratitude to Life that opens the Door for the rest of the world into Freedom and Peace Eternal!"
>
> May all the nations of the world know only Peace, Harmony and Prosperity forevermore!
>
> "O Mighty Divinity! Blend Thou with me, that I may blaze forth Thy Full Victory! Pour through me Thy Flame, Thou, my God-Self Supreme, in Glory Transcendent, Thou 'Mighty I AM'!"

THE SAINT GERMAIN SERIES

The Great Ascended Master Saint Germain has told us that the Books of the Saint Germain Series in the Ascended Masters' Octave of Light are bound in Covers of Jewels.

They contain the Eternal Law of Life and will remain the Law for humanity and the Earth for thousands of years to come!

The Ascended Master Law of the "I AM" is the only way provided by Life to raise the activity of human beings into the next Octave of Life above the human. It is the only way by which individuals can correct the mistakes of the past and go forward free from them in the future. It is the means the Law of Life provides which enables the individual to give a balance back to the universal for his misuse of Life's energy–instead of making restitution individual to individual, which would become an endless chain of reactions.

That provision for bringing balance everywhere is surely the Greatest Mercy of Life to Its Creation. It is the "Grace" Jesus taught and by which He gained His Ascension. All Ascended Masters, and there are thousands of them, have used exactly this same Application to become the Perfection and Power of Life which they are now.

In reading this series of Books, you are trying to understand that which is expressing Infinitely Greater Perfection than you or other human beings of this Earth are expressing.

There are no discrepancies in this explanation of the Law as the Ascended Masters have given It. They are wholly Pure, Perfect, All-Powerful Beings who never make a mistake. The one who reads these Books should realize how little he or she knows about what is in this Magnificent Universe besides himself and of which he has never heard.

The Power and Victory of Light is taking Its Dominion in the United States of America because the Ascended Masters and Cosmic Beings have issued a Fiat for the Perfection of Life to express fully through the people of this earth. That Perfection begins in America by the Ascended Masters' Understanding and conscious use of the Great Creative Words, "I AM."

All who will use that Fiat as the Ascended Masters use It will release the same All-Powerful Victory and Perfection of the Light that They do, because They are Its Full Power and Perfection. They became Its Full Power and Perfection by using It. All can do exactly the same thing and become Perfect and All-Powerful too.

THE ASCENSION

I feel my God Flame touch my brow,
The Breath of Love–Eternal now.
I raise my eyes and lo! I see,
My own Great God Self over me.

A dazzling cloud envelops all,
I hear my own God Presence call!
I feel a surge of Love's Great Might,
I enter deep Its Breath–Its Light.

I see within this Pulsing Flame,
I listen, and hear my Secret Name.
I feel the glow–the Great Flame Breath,
"I AM" the Victor over death!

I stand forth Free–Ascended now!
To my Heart's Light, all things do bow;
"I AM" a Being of Cause alone,
And that Cause, Love–The Sacred Tone!

I pour out Life–I lift, I raise,
My heart o'erflows and sings Its praise;
My Power strengthens and inspires,
My Great Light Rays are God's Own Fires.

"I AM" a Sun! My Love Its Light!
All else grows dim–Earth lost to sight;
I know that "I AM" GOD–The One!
The Source! the Great, Great Central Sun.

UNVEILED MYSTERIES

CHAPTER I

Meeting the Master

MOUNT SHASTA stood out boldly against the western sky, surrounded at its base by a growth of pine and fir trees that made it look like a jewel of diamond-shining whiteness held in a filigree setting of green. Its snow-covered peaks glistened and changed color from moment to moment as the shadows lengthened in the sun's descent toward the horizon.

Rumor said there was a group of men–Divine Men in fact–called The Brotherhood of Mount Shasta, who formed a branch of the Great White Lodge, and that this Focus from very ancient times had continued unbroken down to the present day.

I had been sent on government business to a little town situated at the foot of the mountain, and while thus engaged, occupied my leisure time trying to unravel this rumor concerning The Brotherhood. I knew through travels in the Far East that most rumors, myths, and legends have somewhere as their origin, a deep underlying Truth that usually

remains unrecognized by all but those who are *real* students of life.

I fell in love with Shasta and each morning, almost involuntarily, saluted the Spirit of the Mountain and the Members of the Order. I sensed something very unusual about the entire locality, and in the light of the experiences that followed, I do not wonder that some of them cast their shadows before.

Long hikes on the trail had become my habit whenever I wanted to think things out alone or make decisions of serious import. Here on this great Giant of Nature I found recreation, inspiration, and peace that soothed my soul and invigorated mind and body.

I had planned such a hike, for pleasure as I thought, to spend some time deep in the heart of the mountain, when the following experience entered my life to change it so completely that I could almost believe I was on another planet, but for my return to the usual routine in which I had been engaged for months.

The morning in question, I started out at daybreak deciding to follow where fancy led, and in a vague sort of way, asked God to direct my path. By noon I had climbed high up on the side of the mountain where the view to the south was beautiful as a dream.

As the day advanced, it grew very warm and I

stopped frequently to rest and to enjoy to the full the remarkable stretch of country around the McCloud River Valley and town. It came time for lunch, and I sought a mountain spring for clear, cold water. Cup in hand, I bent down to fill it, when an electrical current passed through my body from head to foot.

I looked around, and directly behind me stood a young man who, at first glance, seemed to be someone on a hike like myself. I looked more closely and realized immediately that he was no ordinary person. As this thought passed through my mind, he smiled and addressed me saying:

"My Brother, if you will hand me your cup, I will give you a much more refreshing drink than spring water." I obeyed, and instantly the cup was filled with a creamy liquid. Handing it back to me, he said:

"Drink it."

I did so, and must have looked my astonishment. While the taste was delicious, the electrical vivifying effect in my mind and body made me gasp with surprise. I did not see him put anything into the cup, and I wondered what was happening.

"That which you drank," he explained, "comes directly from the Universal Supply, pure and vivifying as Life Itself; in fact it is Life–Omnipresent Life–for it exists everywhere about us. It is subject to our conscious control and direction, willingly obedient when we love enough, because all the

Universe obeys the behest of Love. Whatsoever I desire manifests itself when I command in Love. I held out the cup, and that which I desired for you appeared. See! I have but to hold out my hand, and if I wish to use gold–gold is here." Instantly there lay in his palm a disc about the size of a ten dollar gold-piece. Again he continued:

"I see within you a certain Inner Understanding of the Great Law, but you are not outwardly aware of It enough to produce that which you desire direct from the Omnipresent, Universal Supply. You have desired to see something of this kind so intensely, so honestly and so determinedly, it could no longer be withheld from you.

"However, precipitation is one of the least important activities of the Great Truth of Being. If your desire had not been free from selfishness and the fascination of phenomena, such an experience could not have come to you. When leaving home this morning, you thought you were coming on a hike, that is, so far as the outer activity of your mind was concerned. In the deeper, larger sense you were really following the urge of your Inner God Self that led to the person, place, and condition wherein your most intense desire could be fulfilled.

"The Truth of Life is, you cannot desire that which is not possible of manifestation somewhere in the Universe. The more intense the *feeling* within the

desire, the more quickly it will be attained. However, if one be foolish enough to desire something that will injure another of God's children or any other part of His Creation, then that person will pay the penalty in discord and failure somewhere in his own Life's experience.

"It is very important to realize fully that God's intent for every one of His children is abundance of every good and perfect thing. He created Perfection and endowed His children with exactly the same power. *They can create and maintain Perfection also*, and express God Dominion over the earth and all that is therein. Mankind was originally created in the Image and Likeness of God. The only reason all do not manifest Dominion is because they do not use their Divine Authority–that with which each individual is endowed and by which he is intended to govern his world. Thus they are not obeying the Law of Love by pouring out peace and blessing to all creation.

"This comes about through their failure to accept and acknowledge themselves as *Temples of the Most High Living God* and to hold this acknowledgment with eternal recognition. Humanity, in its present seeming limitation of time, space, and activity, is in the same condition a person in need would be to whom someone held out a handful of money. If the needy one did not step forward and accept the

money held out to him, how in the world could he ever have the benefit which it could bring?

"The mass of mankind is exactly in this state of consciousness today and will continue in it until they accept the God within their hearts as the Owner, Giver, and Doer of all the Good that has ever come into their lives and world.

"The *personal self* of every individual must acknowledge completely and unconditionally that the human or outer activity of consciousness has absolutely *nothing* of its own. Even the energy by which one recognizes the Great God Within is radiated into the personal self by the Great God Self.

"Love and praise of the Great Self Within and the *attention* maintained focused upon truth, health, freedom, peace, supply, or any other thing that you may desire for right use, persistently held in your conscious thought and feeling, will bring them into your use and world as surely as there is a Great Law of Magnetic Attraction in the Universe.

"The Eternal Law of Life is: 'What you think and feel, you bring into form; where your thought is, there you are, for you are your consciousness; and what you meditate upon, you become.'

"When one allows his mind to dwell upon thoughts of hate, condemnation, lust, envy, jealousy, criticism, fear, doubt or suspicion, and allows these feelings of irritation to generate within

him, he will certainly have discord, failure, and disaster in his mind, body and world. As long as he persists in allowing his attention to be held by such thoughts–whether they be about nations, persons, places, conditions or things–he is absorbing those activities into the substance of his mind, his body and his affairs. In fact he is compelling–*forcing*–them into his experience.

"All these discordant activities reach the individual and his world through his thought and feeling. Feeling often flashes before one is aware of the thought in the *outer* consciousness, which he might use to control it; and this kind of experience should teach him how great is the energy within his many creations which has accumulated through habit.

"The feeling activity of Life is the most unguarded point of human consciousness. It is the accumulative energy by which thoughts are propelled into the atomic substance, and thus thoughts become things. I tell you, the need of *guarding the feeling* cannot be emphasized too strongly; for control of the emotions plays the most important part of anything in Life in maintaining balance in the mind, health in the body, success and accomplishment in the affairs and world of the personal self of every individual. Thoughts can never become things until they are clothed with feeling.

"The Holy Ghost, or Holy Spirit, is the feeling

side of Life–God–the Activity of Divine Love, or the Mother Expression of Deity. This is why the sin against the Holy Ghost is referred to as that which brings such great distress, because any discord in the feeling breaks the Law of Love, which is the Law of Balance, Harmony, and Perfection.

"The greatest crime in the Universe against the Law of Love is humanity's almost ceaseless sending forth of every kind of irritable and destructive feeling.

"One day the race will come to realize and recognize that the sinister destructive forces manifesting on this earth and in its atmosphere–generated, mark you, by human thought and feeling–have only entered the affairs of individuals or nations through lack of control in the emotions in everyone's daily personal experience. Even destructive thoughts cannot express themselves as action, events, or become physical things, except by passing through the world of feeling; for it is in this phase of manifestation that the activity of coalescing the physical atom upon thought forms takes place.

"As the noise from a sudden explosion shocks the nervous system of one who hears it–setting up a trembling sensation in the cellular structure of the body–in exactly the same way do the flares of irritated feeling shock, disturb, and disarrange the finer substance in the atomic structure of the mind,

body, and world of the person who sends them out–*consciously or unconsciously*–intentionally or unintentionally.

"Discordant feeling is the producer of conditions we call disintegration, old age, lack of memory, and every other failure in the world of human experience. The effect upon the body structure is the same as that produced upon a building if the mortar holding the bricks together were to receive repeated shocks, and each day those were to be increased. This continued shock would shake apart the particles composing the mortar; the building would collapse into a chaotic mass, and the form be no more. That is what mankind is *constantly* doing to the atomic structure of the human body.

"To give expression to the discordant thoughts and feelings in oneself is the course of least resistance, and the habitual activity of the undeveloped, undisciplined and willful individual who refuses to understand the Law of his own Being and to bring the personal self, which is but his instrument of expression, into obedience to That Law.

"He who cannot or will not control his thoughts and feelings is in a bad way; for every door of his consciousness is wide open to the disintegrating activities thrown off by the minds and the emotions of other personalities. It takes neither strength, wisdom nor training to give way to unkind, destructive

impulses; and the full-grown human beings who do this are but children in their development of self-control.

"It is a blight upon the Life of mankind that so little control of the emotions is taught humanity from the cradle to the grave. *Attention* to this particular point is the greatest need in the Western World today. It is easy to give way to discordant thoughts, feelings, and activities because the mass of mankind are submerged, as it were, by environment and association entirely created by themselves.

"The individual, through his control of the outer consciousness, must make the effort to rise out of this condition by his own free will in order to transcend these limitations *permanently*, and no one can hope to rid his life and world of misery, discord, and destruction until he leashes his own thought and feeling. In this way, he refuses to let the Life flowing through his mind and body become qualified by the discord resulting from every little disturbing occurrence in the world about him.

"At first such discipline does require determined, continuous effort; for the thoughts and feelings of ninety-five percent of humanity run as uncontrolled and free as a little tramp dog.

"However, no matter how much effort it takes to bring these two activities under control, it is worth

any amount of time, energy, and effort, and no *real, permanent dominion* of one's Life and world can take place without it. It will be my pleasure and privilege to teach you the use of these Higher Laws. Their application and use will enable you to release True Wisdom and bring about All Perfection.

"The first step to the control of yourself is the stilling of *all outer activity* of both mind and body. Fifteen to thirty minutes at night before retiring and in the morning before beginning the day's work, using the following exercise will do wonders for anyone who will make the necessary effort.

"For the second step: make certain of being undisturbed, and after becoming very still, picture and *feel* your body enveloped in a Dazzling White Light. The first five minutes while holding this picture, recognize and *feel intensely* the connection between the outer self and your Mighty God Within, focusing your attention upon the heart center and visualizing it as a Golden Sun.

"The next step is the acknowledgment: 'I now joyously accept the fullness of the Mighty God Presence–the Pure Christ.' Feel the *great brilliancy* of the Light and *intensify* It in every cell of your body for at least ten minutes longer.

"Then close the meditation by the command: ***I AM a Child of the Light–I love the Light–I serve the Light–I live in the Light–I AM protected,***

illumined, supplied, sustained by the Light, and I bless the Light.

"Remember always: 'One becomes *that* upon which he meditates,' and since all things have come forth from the Light, Light is the Supreme Perfection and Control of all things.

"*Contemplation* and *adoration* of the Light compels *illumination* to take place in the mind–health, strength, and order to come into the body–and peace, harmony, and success to manifest in the affairs of every individual who will really do it and seeks to maintain it.

"All the way down the centuries in every age, under every condition, we are told by all who have expressed the greater accomplishments of Life that the Light is Supreme, the Light is everywhere, and in the Light exist all things.

"That Truth is just as true today as it was a million years ago. As far back as there is any record of humanity, the wise and great ones of all ages are portrayed with a radiation of Light about them emanating from the head and body of each.

"This Light is *real*–just as *real* as the electric lights in your homes. The day is not far distant when machines will be constructed to reveal the emanation of Light about every individual to the physical sight of anyone who cares to observe it. Such a machine will also show the contamination–

or discoloration that becomes a cloud around the Light of God, which the personal self generates through discordant thought and feeling. This, and this only, is the way by which the energy of the Great Life Stream is misused and wrongly qualified.

"If you will practice this exercise faithfully and feel it in every atom of your mind and body with deep, deep *intensity*, you will receive abundant proof of the Tremendous Activity, Power, and Perfection that abides and is forever active within the Light. When you have experienced this for even a short time, you will need no further proof. You become your own proof. The 'Light' is The Kingdom. Enter into It and BE–at Peace. Return to the Father's House.

"After the first ten days of using this exercise, it is well to do it three times a day–morning, noon, and night. We often hear the complaint, 'Oh! I cannot give all that time.' To any who are of that opinion, I wish to say simply this:

"The time the average person spends in criticizing, condemning, and blaming people, conditions, and things for not being something other than they are, if occupied with this recognition and use of the Light, will make Heaven manifest on earth for the individual who dares to try and has determination enough to maintain it. Nothing is impossible. The Light never fails!

"The Light is God's Way of creating and maintaining Order, Peace, and Perfection throughout His Creation. Every human being on this earth can have all the time he wants in which to do this when his *desire* to do it is intense enough. The *intensity* in the desire itself will reorder the world of people, conditions and things so as to provide that time–if he *earnestly* wishes to use it for his upward climb. No person in the world is an exception to that Law; for the intense desire to do anything constructive, when it becomes *intense enough*, is the God Power that releases the energy necessary to create and express the thing desired.

"Everyone has the same supreme privilege of contact with the All-Powerful Presence of God, and It is the Only Power that ever did, does now, or ever will raise the personal self and its world above earthly discord and limitation.

"My Beloved Son, try this with great determination, and know *God in You is Your Certain Victory*."

As his discourse ended, I began to realize that he must be one of the Ascended Masters, for he had not only given me proof of his Dominion over the elements by precipitation, but had instructed and explained as he did it. I sat wondering how it was that he knew me.

"My Son," he said, answering my thought at once, "I have known you for aeons. In raising your

thought–by your own conscious effort–it made my coming to you possible at this time. While I have always been in touch with you when we were both in our finer bodies, your conscious effort of reaching out to some one of the Ascended Masters opened the way for me to come to you in a much more tangible way–that is, tangible to your physical senses.

"I see you do not quite recognize me in your outer consciousness. I was present during your birth, at your mother's passing, and was instrumental in bringing you and Lotus together at the right time, that your attainment might not be delayed. Again, I assisted in bringing you and your son into association in this embodiment.

"However, be patient: Sit still a few moments, watch me closely, and I will reveal my identity to you." I did as he requested and in perhaps a full minute, I saw his face, body, and clothing become the living, breathing, tangible "Presence" of the Master Saint Germain, smiling at my astonishment and enjoying my surprise.

He stood there before me–a Magnificent God-like figure in a white jeweled robe, a Light and Love sparkling in his eyes that revealed and proved the Dominion and Majesty that are his.

"This," he explained, "is the body in which I work a great deal of the time when occupied with the welfare of mankind–unless the work I am doing

at the moment requires closer contact with the outer world of affairs, and in that case I make my body take on the characteristics and dress of the nation with which I am working at the moment."

"Oh!" I exclaimed, "now I know you, for I have seen you many times like that at the Inner levels of consciousness."

"My Son," he explained, "do you not see what *real mastery* actually is? We in the Ascended State can control the atomic structure of our world as a potter controls his clay. Every electron and atom in the universe is obedient to our desire and command because of the God Power by which we control it and of which *we have earned the right* to be the Directors.

"Mankind in the unascended state marvels at these things, but I tell you, it is no more effort for us to change the appearance and activity of our bodies than it is for the ordinary human being to change his clothes. The unfortunate condition in human consciousness that keeps individuals in their self-created limitations is their attitude of mind which either fears or ridicules what it does not understand, or, what is still worse, in its ignorance says: 'That is impossible.' A thing may not be probable under certain human conditions, but the God Self, which is the Great Light, can change all human conditions so nothing is impossible.

"Every individual has the Divine Flame of Life within him, and That God Self of him has Dominion wherever he moves in the universe. If he, because of his own mental inertia, will not exert the necessary effort to reorder his age-old habits of mind and body, he goes on bound by the chains of his own forging; but if he chooses to know the God Within himself and *dares* to give that God Self all control of his outer activities, he will receive the knowledge once more of his Dominion over all substance–which has been his from the beginning.

"The time has arrived when many of humanity are rapidly awakening, and they must in some way be made to understand that they have lived again and again in hundreds, sometimes thousands of lives, each time in a new physical body.

"The Law of re-embodiment is the activity in human growth that gives the individual an opportunity to re-establish a balance in conditions that he has *consciously* caused to be thrown out of balance. It is but one activity of the Law of compensation–cause and effect–or what might be called an automatic balancing process governing all forces everywhere in the universe. The right understanding of this Law gives one the explanation of many conditions in human experience which otherwise seem wholly unjust. It is the only logical explanation for the infinite complexities and experiences of human creation, and

reveals the operation and the Law upon which all manifestation rests. It makes one know that there is no such thing as *chance* or *accident*. All is under direct, exact, and Perfect Law. Every experience of consciousness has a former cause, and everything at the same instant is the cause of a future effect.

"If a man has injured a woman in one life, he is certain to be reincarnated in a feminine form and pass through a similar experience until he realizes and experiences *that* which he has caused another to endure. The same thing is true if a woman be unjust or injures a man. This is the only way by which one is compelled, or rather compels himself, to experience both the cause and effect of everything which he generates in the world. The individual can create and experience whatsoever he will in his own world; but if he chooses to do that which causes others to experience discord, then he compels himself to go through a similar condition until he understands what the effect of his own creation is upon the rest of the Life of the universe.

"Come with me, and let us review the physical life in which you used a feminine form in France, wherein you were a singer of splendid accomplishment with a voice of rare beauty and power."

Immediately, without the least effort on my part, I stood outside my physical body, seeing it clearly

as it reposed upon the ground. I wondered if it would be safe there on the mountainside, and in answer to my thought, Saint Germain replied:

"Do not be disturbed. Not a thing in the world can harm your body while we are away. Observe!" Instantly I saw it surrounded by a White Flame forming a circle about fifty feet in diameter.

He placed his right arm around me, and I saw we were rising rapidly from the ground, but I soon became adjusted to his vibratory action. There was no definite feeling of motion through space, but presently we looked down upon a village in the south of France, and he continued:

"Here you were born as an only child, the daughter of a beautiful woman whose life was an example of idealism far in advance of the majority in that period. Your father was a most devoted husband and companion, highly cultured, and inspired by the early Christian spirit.

"The atmospheric ether of every environment records all that has ever transpired in that locality. I will revivify these Etheric Records and you shall see living pictures giving every detail of your life.

"You sang at the church of this village and studied with a teacher who persuaded your parents to let her give you training. You made rapid progress, and then received still greater advantages when they moved to Paris. After a year of intensive study,

an opportunity came to sing before the Queen of France, and through her patronage you had appearances at many of her salons. This assured you a successful musical career. France and success lavished their gifts upon you for the next five years, and you accumulated much wealth.

"Suddenly, both parents passed through the change called death, and the shock to you was very great, followed by many weeks of serious illness. When you recovered and returned again to concert work, a new sympathetic quality had come into your voice through the recent experience of grief.

"A man who had guided much of your musical study became director of your public work, and you came to depend upon him as one who seemed worthy of trust. Then followed fourteen years of brilliant success, at the end of which you became suddenly ill and passed on within a week. Your jewels and wealth were left in care of the director to be used to help others and to fulfill certain plans for which you had worked all your life. The last rites were no sooner over than a complete change took place within him. Greed took possession entirely. Now I shall show you that man–whom you met some years ago here in America in your present life. The incident in business, I am quite sure you will remember clearly."

Here he showed me a business association in

which I had tried to help several people while in the West some ten years previously in connection with a representative from the Belgian government.

"That man," he continued, "was given a chance here to right the wrong he did you in France. He was shown the condition and knew full well the situation, for we showed it to him; but he was not yet strong enough to permit the working out of the Great Cosmic Law of Justice and balance that debt. If he had done so of his own volition, it would have given him freedom in many ways and enabled him to have progressed much more rapidly in this embodiment."

Thus does the outer life keep the individual bound to the wheel of necessity, rebirth, continued struggle and pain, until we *let* the Light of the Christ Within illumine and purify us, that we may respond only to the Plan of God–Love, Peace, and Perfection for His Creation. This is the kind of lesson one never forgets, because objective teaching records the experience in the *vision* as well as in the mind. The record in the sight is deeper and necessarily receives more attention from the outer activity of the intellect.

The essence of that long-forgotten experience certainly fixed itself in my memory permanently, for I can recall every detail of it to this day as clearly as when I observed it with him.

"Now," he went on, "let us recall another of your embodiments–one that you had in Egypt."

We rose from the earth and moved rapidly forward. I was very conscious of the Mediterranean as we passed over its beautiful waters. We went on to Karnak and Luxor, then again came into contact with the earth.

"Watch closely," he said. "This record is of a very ancient temple in Luxor, not among those whose ruins the archaeologists are exploring today but one antedating any that have been discovered so far. If they knew where to look, they would find magnificent temples in a state of almost perfect preservation."

Indicating a certain spot filled with ruins, which is all that travelers can see today, the scene became replaced by the activity in the ether as it had originally been in all its beauty and splendor, far more magnificent than anything of which the present generation has any concept.

The gardens and pools were surrounded by great pillars of white marble and rose granite. The entire locality became living–real–vibrant–and just as tangible as any physical city on earth today. It was so perfectly natural and normal that I asked how he made these experiences so vivid.

"Man and his creations," he replied, "as well as Nature, have an etheric counterpart–a pattern–which

makes its eternal impression upon the atmosphere about him wherever he goes. The pattern of the individual's activity and life experience is within his own aura all the time. A similar record exists in the aura of every locality. An Ascended Master may, if he chooses, revivify or reclothe the individual's record of former activities wherever that person happens to be; for the pattern upon which the Master coalesces the atomic structure is always in the aura of that individual. When the Master reclothes the record of a locality, he must do it in the same specific place; for such a record, when reclothed, becomes the same living form and structure that it was when first built in physical substance.

"In this way it is possible to coalesce again the physical structure of entire buildings and their surroundings–when the Ascended Master so desires for the accomplishment of some good purpose. When one has attained this God-given Dominion, he can and does reclothe and reanimate any Etheric Record he desires to make visible for the instruction and benefit of students and others.

"When he does this, *it is as real as reality itself*, and the reclothed objects can be photographed, handled, and made physically tangible to the physical senses of the one observing them.

"Notice!" he reminded me, "you are experiencing these activities in your finer body, but they are

nonetheless *real* because of that; for your physical body is only a garment which you, the Self-Conscious, thinking and experiencing individual, wear.

"It is the same as though you wore a heavy overcoat in the cold winter atmosphere and only a light suit of clothes on a very warm summer day. Experiences in your light suit of clothes would surely be no less *real* than those you lived through in your heavy overcoat. I call this to your attention that you may understand the fuller and less limited activities of Life." We examined the grounds, the surrounding country, and architecture.

"Come, let us enter," he said, and as he spoke, stepped forward and passed through the main entrance into the temple itself. We then became living *actors* and at the same time *observers* of the following experience. We passed into the main part of the temple and proceeded toward the Inner Sanctuary. The High Priest came directly up to us and seemed to know me.

"This priest of ancient days," Saint Germain explained, "is now your son." A lesser priest appeared whom I immediately felt I knew, and he remarked:

"The assisting priest was yourself." We entered the Inner Sanctuary and saw the vestal virgin guarding the Sacred Fire. She whom I now beheld

was Lotus, my beloved Twin Ray, whom I met and married some years ago, and who is the mother of our son.

The scene changed and we saw a visiting prince from a distant province plan to seize the vestal virgin for his bride. All seemed to go well until the High Priest was shown a vision of what was about to take place. It disturbed him, but he kept his own counsel.

Standing guard as the slaves of the prince entered, he watched them approach the Sanctuary. As they came nearer, he stepped forward and spoke but one word that meant:

"Stop!"

One slave, bolder than the rest, came on. The High Priest warned him back, but still he came nearer. When he reached a certain Sacred Circle of force which emanated from the Altar, the priest no longer hesitated. He stepped to the outer edge of that Protecting Radiance, raised his right hand, and pointed directly at the slave.

A flash of Flame shot forth like lightning, and the slave fell lifeless to the floor. The prince, who was watching, came forward in an insane rage.

"Stop!" commanded the priest again in a voice like a clap of thunder. The prince hesitated for a moment, stunned by the very power of the word, and the priest continued:

"Listen to me! You shall *not* desecrate the highest of God's Gifts to the Temple of Life. Begone! before you follow the example of your too brazen and misdirected slave."

The High Priest was fully conscious of the power he could wield, and as he stood watching the prince, he was the very embodiment of self-control–of illimitable force consciously held in obedience to his will. He was Majesty–crowned with Eternal Power.

The will of the prince was powerful also, but he had no control over himself; and as another wave of blind rage swept over him when he found himself again opposed, and giving full vent to lust, he rushed forward.

The priest quick as a flash raised his hand. The Flame flashed out a second time and the prince followed the fate of his former slave.

Saint Germain turned to me and explained the experience still further.

"You see," he began, "that is the way the quality within every force *reacts* upon the one who sends it out. The prince and his slave came with the qualities of hate, selfishness, and depravity within their feelings, and when the priest directed the force of which he was the master toward them, it took on their qualities the moment it touched their auras. He merely turned their own feelings and selfishness back upon themselves. The priest in his unselfish

effort to protect another was himself also protected."

That incident closed, the scene of splendor vanished, and again we stood amidst the temple ruins. Saint Germain revealed still more to me which may not be recorded here.

"There is only one way," he went on, "to avoid the cosmic wheel of cause and effect–the necessity for re-embodiment–and that is through the conscious effort to comprehend the Law of Life. One must earnestly seek the God Within, make permanent, conscious contact with that Inner Self, and hold firmly to it in the face of *every condition* in the outer life. It will be my pleasure and privilege to show you more, but only for the instruction it will bring to yourself and others. Come! We must now return." As we came near my body, he instructed again:

"Watch the circle of White Flame disappear!" I looked. It vanished. A moment later I was back in my body. The sun was sinking, and I knew it would be nearly midnight by the time we arrived home.

"Place your arm about my shoulder," said Saint Germain, "and close your eyes." I felt my body lifted from the ground, but I was not particularly conscious of moving forward. Presently, my feet touched the floor, and opening my eyes, I stood in the lodge. Saint Germain was greatly amused

when I asked how it was that we could come back in this manner without attracting the attention of the people about us, and he answered:

"We many times draw about our bodies the cloak of invisibility when moving among those in physical form," and the next second he was gone.

I had heard of the Great Ascended Masters who could take their bodies with them wherever they go and manifest or bring into visibility anything they desire to use direct from the Universal. However, to experience actual contact with one of them was a very different thing, and I tried to realize in full the marvel of the experience. To Saint Germain it was evidently a most ordinary occurrence.

I sat in quiet contemplation for a long time in deep, deep gratitude, trying to comprehend and to fully realize his explanation of The Law concerning desire. He emphasized its importance and activity as a motive power in the universe to propel forward new ideas, compelling an expansion of consciousness to take place within the Life of every individual. He had explained it by saying:

"Constructive Desire is the expanding activity within Life, for it is only in this way that greater and greater ideas, activity, and accomplishment are pushed through into expression in the outer world of substance and form. Within every *Right Desire* is the power of its fulfillment. Man is the Son of God.

He is commanded by the Father to choose how he shall direct the Life energy, and what quality he wishes his fulfilled desire to express. This he *must* do, for free will is his birthright.

"It is the function of the outer activity of the intellect to guide *all* expansion into constructive channels. This is the purpose and duty of the outer self. To allow the Great Life, or God Energy, to be used only for the gratification of the sense desires–the habit of the mass of mankind–is its destructive use and is always, *without any exception*, followed by inharmony, weakness, failure, and destruction.

"The constructive use of desire is the *conscious direction* of this limitless God-Energy by Wisdom. All desire directed by Wisdom carries some kind of blessing to the rest of creation. All desire directed by the God Within goes forth with the feeling of Love and blesses always."

The next few days I spent writing this record of my experiences. Then one morning on awakening I found a golden card lying on the table near my couch. It looked like a piece of metallic gold, and on it in beautiful shaded script of a lovely violet color was just one short sentence:

"Be at our trysting place on the mountain at seven in the morning," signed, "Saint Germain."

I put this card away carefully and could scarcely wait the intervening time, so great was

my expectancy. Early the next morning while preparing a lunch, there came a distinct impulse not to take anything with me. I obeyed and decided *to trust* that my needs would be supplied directly from the Universal.

Light of heart, I was soon on my way, determined not to miss any opportunity to ask questions if permitted. As I approached the appointed place, my body became lighter and lighter until by the time I was within a quarter of a mile, my feet scarcely touched the ground. There was no one in sight, so I sat down on a log to wait for Saint Germain, feeling no fatigue whatsoever, although my hike had been about ten miles.

As I contemplated the wonderful privilege and blessing that had come to me, I heard a twig crack and looked around expecting to see him. Imagine my surprise when not fifty feet away I saw a panther slowly approaching. My hair must have stood on end. I wanted to run, to scream–anything–so frantic was the feeling of fear within me. It would have been useless to move, for one spring from the panther would have been fatal to me.

My brain whirled, so great was my fear, but one idea came through clearly and held my attention steady. I realized that I had the Mighty "Presence of God" right within me, and that this "Presence" was all Love. This beautiful animal was a part of God's

Life also, and I made myself look at it directly in the eyes. Then came the thought that one part of God could not harm another part. I was conscious of this fact only.

A feeling of Love swept over me and went out like a Ray of Light directly to the panther, and with it went my fear. The stealthy tread ceased, and I moved slowly toward it feeling that God's Love filled us both. The vicious glare in the eyes softened; the animal straightened up and came slowly to me, rubbing its shoulder against my leg. I reached down and stroked the soft head. It looked up into my eyes for a moment and then lay down and rolled over like a playful kitten. The fur was a beautiful, dark, reddish brown–the body long, supple, and of great strength. I continued to play with it, and when I suddenly looked up, Saint Germain stood beside me.

"My Son," he said, "I saw the great strength within you or I would not have permitted so great a test. You have conquered *fear*. My congratulations! Had you not conquered the outer self, I would not have allowed the panther to harm you, but our association would have ceased for a time.

"I did not have anything to do with the panther being there. It was part of the Inner operation of the Great Law, as you will see before the association with your new-found friend ceases. Now that you have passed the test of courage, it is possible for

me to give much greater assistance. Each day you will become stronger, happier, and express much greater freedom."

He held out his hand and in a moment there appeared four little cakes of a beautiful golden brown, each about two inches square. He offered these, and I ate them at his direction. They were most delicious. Immediately I felt a quickening, tingling sensation through my entire body—a new sense of health and clearness of mind. Saint Germain seated himself beside me, and my instruction began.

CHAPTER II

The Sahara Desert

"INSTEAD of going forth from the body as in your recent experience, today we will use the Projected Consciousness," he remarked, as he placed the thumb of his right hand between my eyes and the rest of his fingers over the top of my head. A feeling like a powerful electric current passed over my entire body. Removing his hand, he continued:

"I wish you to fix firmly in mind and recall frequently for contemplation the fact that the Laws I explain and teach you to use are to bring you into a condition of Conscious Mastery over all forces and things on earth. This means that no matter what is being experienced, you are always at every instant in complete, conscious control of your own mind and body and able to use your own free will *at all times.*

"In this state of Projected Consciousness, you are completely conscious and have full mastery over all your faculties every instant. There is nothing whatsoever about any of this instruction and its use that is either of the trance or hypnotic condition

at any time; for in both trance and hypnosis the experiencing individual's Conscious Will is not functioning, which is a most dangerous and disastrous activity to *anyone* who permits it to take place in his mind and body.

"There is no Conscious Mastery or Dominion in trance or hypnotic practices, and they are *most destructive* and *dangerous* to the Soul Growth of the one who permits such practice. Please understand thoroughly that the Conscious Control, Mastery and use of the forces and things on this earth should at all times be under the direction of your Inner, or God Self, through the perfect cooperation and obedience of *all* outer faculties in both mind and body to that Inner Guidance.

"There is no such thing as Mastery without this, and those known as the Ascended Masters *never, never* intrude any activity upon the God-given prerogative of the individual's free will.

"A student may be given the experience of Projection if an Ascended Master chooses to expand his consciousness temporarily–so that he experiences things happening in two or more places at the same time. In such a condition, the student's faculties are *completely* under the control and direction of his own free will at every moment. He is fully conscious and active wherever his body may be, and also at the place

to which the Ascended Master chooses to direct his attention for the instruction.

"The reason an Ascended Master temporarily raises the consciousness of the student is to show him how he may do this same thing for himself by his own effort *consciously* and at will.

"Projected Consciousness is but increasing the rate of vibration of the atomic structure in both the mind and body of the student. This is done by the *radiation* from an Ascended Master and is an activity of the Light which increases the vibratory rate up to the keynote He sets for the experience. In the higher rate, one uses his faculties of sight and hearing exactly as he does in daily life, except that they are expanded into the next octave or zone above the human.

"Such use of our senses is the same as we experience every moment of the waking state, because we can become aware of that which is near and that which is distant at exactly the same instant. The expansion or contraction of our consciousness is dependent entirely upon what the individual desires. This is always subject to the free will and *conscious* direction of the student.

"One can of his *own choice* be conscious of a certain tree in his garden or of the entire garden. He uses the same faculty of sight to observe both, and uses it in exactly the same way. When he wants to see *all* of the garden, he makes his sight enlarge

its activity until it takes in all he desires. The larger expansion still includes the smaller; so you see, you must be conscious of the *full* control of *all* your faculties in *both* places at the same time. The activity that takes place is really an enlargement of the force field in which the sight acts.

"The use of your faculty of sight in this projection or expansion of consciousness is accomplished by the raising of the vibratory rate in the optic nerve. The whole process corresponds to the thing that takes place when one uses a field or marine glass.

"In ordinary experience, human consciousness has been accustomed to use its faculties only within certain zones or force fields, and the proof of this is that one can listen to the sound of a person's voice who is physically present in the room speaking to him, and one can also hear the bell of a telephone ring somewhere else in the house at identically the *same* instant. All the faculties of the outer activity are elastic. They may be used as either a microscope or a telescope, depending entirely upon the *desire* and *will* of the individual.

"If one can be conscious of sound in the room in which his physical body stands, and also be aware of sound two or three rooms distant by exactly the same process, in a still farther expansion of this faculty, he can hear at a more distant place. To do this one must increase the vibratory rate until it reaches into the more distant zone.

"When you contemplate this Great Inner God Activity, do you not see how *perfectly* and *readily* the outer senses merge into the Inner, and what has been two becomes *One*.

"This activity of consciousness can be applied to *all* the other senses as well as those of sight and hearing. Such a raising process is natural, normal, and harmonious–as simple as the tuning of your radios to any desired wavelength. Radio wavelengths and those of sight and hearing are parts of the same activity. Sound contains color and color contains sound. In ordinary daily experience, human beings can hear color and see sound–whenever they become *still* enough.

"Within certain octaves or zones, vibration registers upon the nerves of the eyes, and the result is what we call sight. Others register upon the nerves of the ears, and the result is what we call hearing. The average person's eyes only see objects whose vibratory rate comes within these certain octaves, for they do not see below the infrared or above the ultraviolet ray or zone. Through the Radiation of an Ascended Master, the atomic structure of the brain and eye vibrates fast enough to expand into the next octave above the human.

"This same activity can be expanded several octaves further, either by the Master's Radiation or at the command of the Inner or God Self of the individual. Many persons do have such experiences

involuntarily, but rarely understand what they mean or how they come about. In cases where individuals have had moments of Transcendent Consciousness or been highly inspired, this is what has occurred, although they seldom recognize the assistance they have been given.

"Projected Consciousness or Vision has nothing whatsoever to do with mental pictures produced by suggestions that exist only in the minds of other human beings. Such thoughts and pictures are but flashed directly into the mind of another person by the one sending the suggestion. It is the same activity that takes place when one reflects the image of the sun into a mirror and then deflects it upon the wall.

"Suggestion is as different from Projected Consciousness as thinking about a place is different from being physically present. Projection is *vivid, living, real,* as when your physical body is going through an experience; for it is the action of your Inner God Self with whom the Ascended Master is ONE–The Supreme."

Saint Germain and I then became observers and actors in a scene of long ago. Again I was outwardly conscious of going through experiences shown me in thought, feeling and action. The entire operation was as natural and normal as breathing, and the only unusual sensation about it was the feeling of

greater freedom and a sense of dominion. We both became very still for a few moments as he revivified the Etheric Records, and my instruction began.

"This is the Sahara Desert," he said, "when it was fertile country having a semitropical climate."

There were many streams of water carrying abundant moisture everywhere in the land. In the midst of this empire lay the capital, famous throughout the world for its splendor. The executive buildings were placed in the center upon a slight elevation, and from these the city itself extended equally in every direction.

"This civilization," he went on, "rose to its apex seventy thousand years ago."

We entered the city and felt an unusual rhythmic activity that gave one a strange sensation of *lightness* while walking. The people all moved about with great ease and grace. I asked Saint Germain the reason for this, and he replied:

"These people remembered their Source and knew themselves as Sons of God–hence were the possessors and operators of power and wisdom that to you may seem miraculous and superhuman. Truthfully speaking, there are no such things as miracles; for all is according to Law, and that which seems miraculous to the present concept of humanity is but the result of the application of laws to which mankind's present consciousness is

unaccustomed, and so seems strange and unusual.

"When the Reality of Life is correctly understood, all manifestation that seems miraculous to your present consciousness is found to be just as natural and normal an experience as the forming of words are to one who has learned the use of the alphabet. It is all the action of an ever-expanding, ever-progressing manifestation of Life in form, and this comes about at all times through an orderly process of Law, in love and peace.

"No matter how strange, unusual, and impossible an experience seems to humanity's present mental state, it is no proof that there is not a Greater Law and a Wiser Intelligence acting to produce greater wonders of creation surrounding us all the time.

"The knowledge of the greatest minds of humanity in the outer world today is to this Great Inner Wisdom and Power as the understanding of a small child is to the study of calculus."

In one building of the central group, we found the attendants attired in most gorgeous fabrics of soft, radiant colors that harmonized with the interior decoration. One of these acted as guide, taking us to the central building, and there he presented us to the king of this great people. The king proved to be–Saint Germain.

Beside him stood a young girl, very beautiful. She had hair like spun gold that hung almost to the

floor and eyes of a piercing violet-blue. Her entire bearing was one of loving command. I looked inquiringly at Saint Germain, wondering who she could be, and he answered:

"Lotus."

Beside her stood a young man about twenty years of age and a lad perhaps fourteen. The young man was he whom we had seen as the High Priest in the temple at Luxor, and the lad was the lesser priest. These were the children of the king. Again we four were working together.

"With this glimpse of former lives," he said, "let us enter into the activity of that blessed people. I say 'blessed' advisedly, and you shall soon see why. The majority of them still retained the full conscious use of all their wisdom and power as Sons of God, and this they wielded almost without limit, knowing full well from whence they sprang and to what they were heirs.

"The outer was but the instrument of the Divine Self, as it should be, and was only permitted to do that for which it was created. Naturally, the Great Inner Self could act unfettered, and of course the perfection and activity of that period was one of magnificent accomplishment."

At the time of this former civilization the whole empire was filled with great peace, happiness and prosperity. The King-Emperor was a Master of the

Ancient Wisdom and a real Cupbearer of the Light. He ruled by that Light, and his empire was the living example of Perfection.

"For hundreds of years," Saint Germain continued, "this Perfection was maintained without army or navy of any kind. The control of the people was vested in the care of fourteen Ascended Masters of Light, two working on each of the Seven Rays. They thus formed points of focus for the Mighty God Activity to be made visible. Under these fourteen Luminous Beings were fourteen lesser Masters who formed the heads of seven departments controlling the activities of science, industry and art. Each of the department heads guided the work under his care by conscious and direct contact with the God in himself. Hence, direct from their Source did all direction and instruction come for those under them; thus Divine Perfection was constantly flowing through without any interference from the human.

"This form of government was most remarkable, successful, and satisfactory in every way. There has never been anything on earth since that time which has even approached such heights. In the ancient records that have come down to the present day, this former civilization is always referred to as the Golden Age, and so it was in every activity of Life.

"In your beloved America in the not-so-far-

distant future will come forth a similar recognition of the Real Inner Self, and this her people will express in high attainment. She is a Land of Light, and her Light shall blaze forth brilliant as the sun at noonday among the nations of the earth. She was a Land of Great Light ages ago, and will again come into her spiritual heritage; for *nothing* can prevent it. She is strong within her own mind and body–stronger than you think; and that strength she will exert to rise out of and throw off from border to border all that weighs heavily upon her at the present time.

"America has a destiny of great import to the other nations of the earth, and Those who have watched over her for centuries *still watch*. Through Their protection and Love she shall fulfill that destiny. America! We, the Ascended Host of Light, love and guard you. America! We love you.

"A similar form of perfect government will come at a later period when you have cast off certain fetters within that hang like fungi and sap your strength as a vampire. Beloved Ones in America, be not discouraged when the seeming dark clouds hang low. Every one of them shall show you its golden lining. Back of the cloud that seems to threaten is the Crystal Pure Light of God and His Messengers, the Ascended Masters of Love and Perfection, watching over America,

the government, and her people. Again I say, 'America! We love you.'

"One by one, great awakened souls are coming forth who will become clearly conscious of their own mighty, inherent God Power, and such as these will be placed in all official positions of the government. They will be more interested in the welfare of America than in their own personal ambitions and private fortunes. Thus will another Golden Age reign upon earth and be maintained for an aeon.

"In the period just preceding this which you have been experiencing, the mass of the people used great airships for transportation purposes. As the development reached a still higher point, they had little need for them except in the outlying districts. All the official class, because they were the more spiritually advanced souls of that race, were able to go from place to place in the *finer bodies* and do all they desired, the same as in your recent experience at Luxor. They also were able to transport the physical body at will; for the use of their power to overcome gravity was as natural as breathing is to you.

"Gold was a common commodity in this age, as in all Golden Ages, because its natural emanation is a purifying, balancing, and vitalizing energy or force. It is placed within the earth by the Lords of Creation–those Great Beings of Light and Love

who create and direct worlds, systems of worlds, and the expansion of the Light in the beings upon them.

"The outer mind or intellectual knowledge of humanity, holds within it little–very little–understanding of the *real* purpose for which gold exists on this planet. It grows within the earth like a plant, and through it there is constantly pouring a purifying, vitalizing, and balancing current of energy into the very ground we walk upon, as well as into the growth of Nature and the atmosphere we breathe.

"Gold is placed upon this planet for a variety of uses, two of its most trivial and unimportant ones being that of using gold as a means of exchange and for ornamentation. The far greater activity and purpose of it within and upon the earth is the release of its own inherent quality and energy to purify, vitalize and balance the atomic structure of the world.

"The scientific world today has no inkling as yet of this activity. However, it serves the same purpose to our earth that radiators do to our homes. Gold is one of the most important ways by which the energy from our sun is supplied to the interior of the earth and a balance of activities maintained. As a conveyor of this energy, it acts as a transformer to pass the sun's force into the physical substance of our world as well as to the Life evolving upon it. The

energy within gold is really the radiant electronic force from the sun acting in a lower octave. Gold is sometimes called a precipitated sun ray.

"As the energy within gold is of an extremely high vibratory rate, it can only act upon the finer and more subtle expressions of Life through absorption. In all Golden Ages this metal comes into plentiful and common use by the mass of the people; and whenever such a condition occurs, the spiritual development of that people reaches a very high state. In these ages the gold is *never* hoarded, but instead is widely distributed into the use of the mass, who, absorbing its purifying energy, are themselves raised into greater perfection. Such is the right use of gold, and when this Law is consciously understood and obeyed, the individual may draw any quantity he desires to himself by the use of that Law.

"Because of the gold deposits in all mountain ranges one finds health and vigor in Life upon the mountains that he cannot find at any other place on the earth's surface. No one ever heard of detrimental effects coming to those who constantly handle pure gold. While in its pure state, it is soft and wears away easily—still that very quality is the fulfilling of this purpose of which I have just spoken.

"The more advanced of these people produced much gold by *precipitation*, direct

from the Universal. The domes of many buildings were covered with sheets of pure gold and the interiors decorated with brilliant jewels in curious yet marvelous designs. These jewels were also precipitated–direct from the One Eternal Substance.

"As in all ages past, there was a portion of the people who became more interested in the temporary pleasures of the senses than in the larger creative plan of the Great God Self. This caused them to lose consciousness of the God Power throughout the land, until it remained active in little more than the city itself. The capital was called the City of the Sun.

"Those governing realized they must withdraw and let the people learn through hard experience that all their happiness and good came from the adoration to the God Within, and they must come back into the Light if they were to be happy."

The King-Emperor, through the Inner Wisdom, seeing that the people were becoming still more deeply enmeshed in the sense gratification, realized that it was no longer the Divine Plan to further sustain the kingdom. He was instructed by those of greater spiritual authority than himself to give a banquet announcing his decision to withdraw, and thus bid his subjects farewell.

He called the councilors together and gave directions for the banquet, ordering it held in the

most magnificent place of the empire, known as the Jeweled Room in the king's palace. This was lighted by self-luminous globes that emitted a brilliant white radiance. They were suspended from the ceiling by chains of crystal. While the light within was intense and brilliant, yet it had an extremely soothing effect upon the body, giving those in its radiance a sense of great ease and calm. The light from the central globe set the jewels ablaze in the sunburst design that formed the great medallion in the middle of the ceiling.

The large banquet hall was elaborately decorated and set with twenty-four white onyx tables, each seating twenty-four guests. This was the first occasion upon which all the king's councilors and their staffs were to be his guests at the same time. The announcement of the banquet caused much comment among the people, who discussed it thoroughly, each with his neighbor; but to all it was a mystery, for none was able to discern its purpose.

The evening of the event came at last. No one suspected the sorrow within the heart of the noble ruler, nor did they dream of the change so soon to come upon them. The hour arrived, the guests assembled, and everyone breathed mystery.

The great bronze doors to the banquet hall swung majestically open, and a burst of transcendent music as if played by a gigantic symphony in

the invisible came forth, surprising even those who knew the tremendous power of their adored monarch. He was looked upon almost like a God by the people, so great was their love and admiration for the wisdom and help he constantly poured out to them.

As the triumphal music ceased, the king entered, accompanied by his children. The girl was a vision of loveliness. She wore a gown of soft golden fabric unlike any material of our modern world. The overdrape appeared as if covered with diamonds, for with every movement of her body points of light flashed forth. The golden hair falling over her shoulders was caught with two emerald clasps. On her forehead was a single band of white metal set with diamonds. In the center was what appeared to be a large diamond but was *really* a powerful *condensation* of Light focused and maintained there by her father.

The king was the only one in the whole empire who was entrusted with the use of such Transcendent Power. The royal family had never used these Jewels of Light in their contact with the outer world until that night. Such use of this power was only permitted in their private worship of the Great God Self, of whose Supreme Presence they were keenly and constantly aware.

The ruler and his two sons wore form-fitting

garments of the same soft golden fabric as the daughter. These were as pliable as leather but made of metallic gold with breastplates like a great sun of jewels. They wore sandals of the same material, also set with precious stones, and the wonderful Jewel of Light rested upon the forehead of each.

The king gave a signal, and the assembled guests were seated. In a voice majestic and powerful he poured out an invocation from the depths of his heart to that "Infinite Supreme One."

"O Thou Mighty, Omnipresent Source, Thou who doest govern the Universe, the Flame in each human heart! we give love, praise and gratitude unto Thee for Thine own Life, Light, and Love in all things. We adore Thee and look only unto Thee, the 'Presence' in all things–visible and invisible, evolved and unevolved–Thou ceaselessly flowing Stream of Life Who doth forever pour Thyself into all creation, the One Self in All.

"My heart calls unto Thee as never before to arouse these my people to their danger, for of late indifference to Thee is creeping over them like a poisonous breath, producing a soul sleep and drawing a veil before them that shuts out Thy Shining Presence.

"If they must have the experience that consumes and burns away the dross and clouds of the outer self, then do Thou sustain and at last bring them

forth in Thy Eternal Perfection. I call unto Thee, Thou Creator of the Universe–Thou Supreme, Omnipotent God."

The king took his seat and all waited in silent expectation. In a few moments the service for each individual appeared before him. Course after course was served as if by unseen hands, the food coming in marvelous crystal and jeweled containers, then disappearing as soon as the course was finished, followed immediately by the succeeding one. Finally the most elaborate banquet the empire had ever known came to an end. All was silence again, as if in breathless expectancy, anticipating some most unusual occurrence.

The king arose and stood a few moments calmly waiting. Soon a crystal goblet appeared at the right hand of each guest. These were filled with a condensation of Pure Electronic Essence, and for all who drank it, no matter how far down the ages his life stream extended or how varied his experiences, he never could completely forget the "God Self Within." This soul protection was granted to those at the banquet as a reward for their faith and loyalty to the God in themselves, the king, and the empire. The councilors and those present had served sincerely and continuously for the good of the empire, and for that service, soul protection through the centuries was given to them.

Each lifted his goblet and drank to the "God in himself"–to his own Flame of the Most High Living One. The proceedings of the banquet were broadcast to everyone in the empire through a radio similar to that which we use today. It was no larger than a dinner plate, yet powerful enough to receive what was happening at any point on the earth's surface.

After the salutation to the Divine Self in each, all became very still, the atmosphere itself seeming perfectly motionless. In a few moments, a Wondrous Presence slowly became visible in front of the king.

That "Presence" was a Cosmic Master from out the Great Silence. A murmur of awe and surprise passed over the assembled guests at his appearance, as they recognized in amazement One of Whom they had heard for many centuries, yet Whose visible Presence none had ever seen. Raising his right hand, he addressed those present and all dwelling within the empire.

"O Children of Earth, I bring you a warning of serious import at a time of great crisis. Arouse yourselves from the snare of the senses that is engulfing you! Awake from your lethargy before it is too late! This my Brother of Light must withdraw and leave you to the experience that you have chosen and which is slowly enticing you into its many pitfalls. You have opened yourselves to the

uncontrolled ignorance and emotions of the outer self.

"You give little attention and still less adoration to your Source–the Supreme, the Mighty, the Radiant, the Majestic, the Infinite Cause of all that is–the Creator and Sustainer of all worlds. You give no gratitude to the Great Glorious Presence, the Lord of Love, for the very Life by which you exist.

"Oh! why are you not even grateful for the blessings Nature pours out so lavishly for the abundance that comes to you through this fair land and from your own wise and unselfish ruler? You thank each other for favors–the things of the senses and form that are so ephemeral–that pass from one to another and then are no more; but why, oh why! do you forget the *Source* of all Life, all Love, all Intelligence, all Power?

"People! O People! where is your gratitude to Life for Love, for the magnificence of experience that you enjoy every moment, every hour, every day, year after year? All this you call your own, but it has always belonged, does now, and always will belong to the One Great Source of Life, Light, Love and All Good–GOD–the Supreme–the Adorable–the All-Pervading One.

"When, by your own misuse of the energy of Life which this All-Pervading One showers upon you constantly, pure, perfect and uncontaminated,

you have created conditions so destructive and painful that they can no longer be endured, you turn in either desperation, agony or rebellion and call upon God for relief from your misery. This is your offering to the Giver of all Good in return for that Ceaseless Perfection which he continually bestows in Supreme Love. The only condition upon which the One Great Self gives all is its right use, that it may bless the rest of creation with infinite joy, harmonious activity, and Perfection.

"When in the depths of misery you turn again to your Source for relief from your misdeeds, you either cry in the agony of despair, or if rebellious, blame Life and the Source of All Good for allowing what you call injustice and wrong conditions to exist in you and your world.

"It is you, the little personal self, who are unjust to Life, you who are unfair, you who create the misery of earth; for only humanity, because it has free will to create as it chooses–each individual through his own thought and feeling–dares to bring into existence the discord, misery, and deformity that express upon earth. This is a blight upon Creation and the Perfection that forever swings in the Great Cosmic Melody of Eternal Song.

"Only mankind is guilty of making a discord in the music of the spheres, for all else lives and acts in accordance with the Law of Love, of Life,

of Harmony, and of Light. All else blends into the harmonious whole–the Body of the Infinite, All-Loving One.

"All other realms of Life and Light move and create according to the fundamental principle upon which all Perfection rests. That principle is Love. If it were not for the Great Selfless Ones like your ruler–the Great Host of Ascended Masters whose very keynote of existence is Love–humanity would long ago have destroyed itself and the very planet upon which it exists.

"The transcendent and magnificent activities of Love and Light are the natural conditions in which God created and expected His human children to manifest, obeying His command to Love. There is no such thing as a supernatural condition anywhere in the universe. All that is transcendent, beautiful and Perfect is *natural* and according to the Law of Love. Anything other than that is *subnatural.* The daily experience of the Host of Ascended Masters is the Perfection God's children were meant to live in always. Earth's children did express this Perfection once in a former cycle, which was *one* Golden Age.

"That former civilization–that Ancient Perfection–is older than you dream, older than you believe the planet to be. All mankind at that period lived in a similar transcendent state as the Ascended Masters. The condition of misery that has followed since that

time down through the ages came about because mankind chose to look away from its Source–Love–as the plan by which to live Life.

"When the children of earth look away from Love, they are deliberately and consciously choosing the experience of chaos. Whoever seeks to exist without Love cannot survive long anywhere in creation. Such efforts are bound to bring failure, misery, and dissolution. Whatever lacks Love must return to chaos, the unformed, so its substance may be used over again in combination with Love, and thus produce a new and perfect form.

"This is the Law of Universal as well as individual Life. It is Immutable, Irrevocable, Eternal, yet Beneficent; for creation in form exists that God may have something upon which to pour out *Love* and so express in action. This is the Law of the Mighty One from which all else proceeds. It is the Mandate of Eternity, and the *vastness* and *brilliance* of that Perfection cannot be described in words.

"If there were not these *actual, real, permanent* and Perfect conditions of Life and experience which far transcend human description, existence would be but a travesty upon the stupendous activity of Life that swings forever throughout creation. There are those higher, harmonious, Transcendent Spheres, realms of activity and consciousness–individual and cosmic–where creation goes on

continually in Joy, in Love, in Freedom, and in Perfection.

"These are *real–real–real* and much more permanent than your bodies and buildings in the physical world about you. These Realms of Life are created of Substance which is so charged with *Love* that they can never have a quality or activity of discord, imperfection or disintegration imposed upon them or registered within them. Because they are based upon Love, the Perfection of such a manifestation is forever maintained, ever active, ever expanding, ever blessing with joy all that exists.

"You bring woe upon yourselves which propels you into embodiment again and again in the ignorance of the senses, the human appetites and desires of the outer self. These appetites in the feeling nature of mankind are in themselves but an accumulation of energy which the individual through his thought and feeling has given a quality of one kind or another. This misqualified energy gathers a momentum through human expression and becomes habit. Habit is but energy specifically qualified and held focused for a time upon one objective.

"The sense appetites of former lives become the driving forces and habits of the succeeding ones, keeping you slaves bound to the chariot wheels of discord, lack, and necessity, whirling you through a maze of human problems and experiences of your

own creation, *compelling* you to learn and obey the *Law of the One*–Love.

"Your own miscreations drive you on and on and on until you are willing to understand Life and obey Its *One Law*–Love. You whirl through Life after Life experiencing discord upon discord, until you do learn to live the Law of Love.

"This is a compelling activity which none escape, and it continues until the outer self asks the reason for its misery and understands that its release from the experience of suffering can only come through *obedience* to the Law of Love. Such obedience begins as calm peace and kindliness in the feelings, whose *center* is in the *heart*. Its contact with the outer world must come through the Inner Feeling.

"Love is not an activity of the mind, but is the Pure and Luminous Essence which creates mind. This Essence from the Great God Flame streams into substance and constantly pours Itself out as Perfection in form and action. Love is Perfection manifest. It can only express peace, joy, and an outpouring of those feelings to all creation–unconditionally. It asks *nothing* for Itself because It is Eternally Self-Creating, being the Heartbeat of the Supreme. Love owns *All* and is only concerned with setting the Plan of Perfection into action in all. Thus It is a constant pouring out of Itself. It takes no cognizance of what has been given in the past,

but receives Its joy and maintains Its balance by the continual Outstreaming of Itself. Because this Perfection is within Love forever flowing forth, it is incapable of recording anything but Itself.

"Love alone is the basis of harmony and the right use of all Life energy. In human experience, this grows into a desire to give and give and give of all the individual's peace and harmony unto the rest of creation.

"People! O People! forever throughout the ages–only *enough* Love can bring you back to the Heaven you once knew and abided in. Here you will once again embrace the fullness of the Great Light that gives all through Love.

"A visiting prince approaches your borders. He will enter this city seeking the daughter of your king. You will come under the rule of this prince, but the recognition of your mistake will be futile. Nothing can avail, for the royal family will be drawn into the protection and care of those whose power and authority are of God, and against whom no human desire can ever prevail. These are the Great Ascended Masters of Light from the Golden Etheric City over this land. Here your ruler and his beloved children will abide for a cycle of time." Turning to the king he addressed him, saying:

"I bless you, my noble, patient Brother! Loving and selfless has been the service to your people.

Deep and eternal is your devotion to the Supreme One–the Source of All Creation. The Golden Etheric City awaits and joyously welcomes you and your children.

"Within Its radiance you shall live, serving through the Rays of Light which are forever streaming out from those who dwell therein, until these your people shall redeem themselves by *obedience* to the Law of Love.

"This Empire of Light exists over the land you have loved so well. It is composed of Self-luminous, etheric substance and rests above the physical city which is your capital. It is *real*, very *real*, and much more permanent than any earthly city; for Light is indestructible, and the Golden City is made of Light. Into It no inharmonious thought or disturbing condition of any kind can ever enter.

"I will return in seven days to take you and your children into the City of Light–where we shall watch the progress of humanity and draw into the Light all who will discipline and make themselves ready. Encircling the City is an invincible belt of electronic force through which it is impossible for anything uninvited to pass."

When he had finished speaking, he blessed the royal family, the guests, and the empire, and in the moments of silence that followed, His Light and the outline of His Body within it grew fainter and

fainter until it disappeared entirely.

A murmur passed through the great banquet hall, and as all looked toward the king, his head was bowed in reverent silence. Then he slowly rose and bade his guests good-night.

On the seventh day, the Brother from out the Silence returned, and enfolding the king and his children within his own blazing aura, withdrew into the Golden Etheric City of Light.

The visiting prince arrived the next day, discovered the condition of the empire and the consternation that still held sway over its people. He at once subtly planned to become its ruler. This he accomplished without opposition. Two thousand years later most of that empire had become barren land, the streams dried up, and desolation stretched everywhere–*all* the result of the discord and selfishness of mankind and the blight it becomes upon the growth of plant life in nature. This kingdom had extended the entire width of Africa on east until it reached the Himalayan Mountains.

There followed a great cataclysm, submerging all the land. Through that change an inland sea was formed where the Sahara Desert now lies. Another earth change which took place about twelve thousand years ago drained this sea, and a part of it later became the present Sahara Desert. The River Nile as it is today most nearly resembles the beautiful

streams of that long forgotten period.

Thus ended our observation of those very ancient scenes. I could hardly believe my senses, I was so astonished at the way the experiences of the past were revivified–the pictures projected in all three dimensions–and the activity of the people in that remote age portrayed.

Realizing how surprised and unaccustomed to such activities I was, Saint Germain promised to take me to the physical records of that period and its people and give me physical proof that it was not a vision conjured up by him.

Glancing around from the log upon which we were seated, we saw the panther lying nearby fast asleep. Saint Germain took up the explanation of several important phases on the application of Higher Laws for the manifesting of one's own inherent dominion over the things of the sense world. This led to how he was able to express such youth and Perfection in a body so old, according to the way human beings count time.

"Eternal Youth," he explained, "is the Flame of God abiding in the body of man–the Father's Gift of Himself to His Creation. Youth and beauty of both mind and body can only be kept *permanently* by those individuals who are strong enough to shut out discord; and whoever does that, can and will express Perfection and maintain it.

"Where Peace, Love, and Light do not abide within the thoughts and feelings of a human being, no amount of physical effort can possibly keep the outer self expressing youth and beauty. These exist Eternally within the God Flame, which is the Divine Self of every individual. Whatever discord the outer self allows to flash through the thought and feeling is *that instant* stamped upon the flesh of the physical body. Eternal Youth and Beauty are Self-Created and forever Self-Existent within the Flame of God's Life in every human being. This is God's Plan for manifesting His Perfection into the world of form and maintaining it forever.

"Youth, Beauty, and Perfection are attributes of Love, which the God Self is continually pouring forth into Its Creation. Within each individual is placed the power and means for maintaining and increasing that perfect, ever-expanding activity of creation.

"The power of accomplishment is the energy of the God Self in each human being born into the world. It is always active every moment in your mind, body, and world. There is no instant in which this mighty energy is not flowing through all individuals. You are privileged to qualify it as you please at the command of your own free will through consciously directed thought and feeling.

"Thought is the only thing in the universe that

can create vibration, and through vibration you qualify this ever-flowing energy with whatever you desire to have manifest in your life and world. This limitless, intelligent, radiant energy is flowing ceaselessly through your nervous system and is the Eternal Life and vitality in the blood stream coursing through your veins. It is an all-powerful, omnipresent, intelligent activity given you by the Father–the God Principle of Life–to be consciously directed according to your free will. Real Intelligence, which uses everything constructively, comes only from Within the God Principle–the Flame of Life–and is not merely the activity of the intellect. Real Intelligence is Wisdom, or God Knowledge, and this does not and cannot think wrong thoughts. Wrong thoughts come only from impressions made upon the intellect by the world outside of the individual. If individuals would discriminate between their own thoughts–that is, thoughts from within the God Flame and the suggestions thrown off by other people's intellects and the evidence of the senses, which consider appearances only, they would be able to avoid all discordant activities and conditions in the world of experience.

"The Light from within one's own God Flame is the criterion, the standard of Perfection by which all thoughts and feelings that reach us through the five senses should be tested. No one can keep his

thoughts and feelings qualified with Perfection unless he goes to the Source of Perfection; for that quality and activity only abide within the God Flame.

"This is the individual's need for meditation upon and communion with the Light of God within himself. Pure Life Essence will not only give and sustain Eternal Youth and Beauty in the body, but will enable you to maintain *perfect balance* between your God Self and the outer, or personal self. In fact, this Pure Life Energy is the power which the outer self uses to hold its connection with its Divine Source–the God Self. In reality these two are One, except when the intellect, or outer activity of the mind–the sense consciousness–accepts imperfection, inharmony, incompleteness, or thinks itself a creation apart from the All-Pervading One 'Presence' of Life. If the sense consciousness thinks itself something separate from God–Perfection–then that condition is established unto it; for what the sense consciousness thinks into its world, the world returns to it.

"When one lets an idea of imperfection or separation from God occupy his attention, and therefore his mind, a condition corresponding to that begins to express itself in his body and world. This causes the person to feel himself an entity apart from his Source. The moment he thinks himself

separated from God, he thinks his Life, Intelligence and Power have beginning and end.

"Life always has been, is now, and always will be. No one can really destroy Life. Through various activities in the mental and physical world, form can be disintegrated or temporarily demolished, but the consciousness of the individual is Eternal and can control all substance everywhere in manifestation when the God Life within is acknowledged as the Knower, Giver, and Doer of all good in creation.

"I tell you Truth when I say there is only one Source of all Good–God. The conscious recognition and acceptance of this Truth acknowledged by the outer activity of the mind, not two or three times a day, but every few moments all day long, no matter what the outer self is doing, and this maintained, will enable anyone to express his perfect freedom and dominion over all things human.

"To most people the above sounds difficult, for they have lived so many centuries in the belief that they are beings apart from God, while every instant of every day they are using God Life, God Energy, God Substance, and God Activity in everything they think and do without realizing it. However, it requires the conscious admitting of this fact in the outer activity of the mind, and constructive direction, to release Its Full Power through the personal self.

"Recognition, conscious direction, and constructive use of the God Energy maintained within oneself at all times is the way of Perfection, Mastery, and Dominion over all things on earth, including the conscious control of *all* natural forces. The instruction I have been giving you will erase completely all false beliefs, if maintained. The rapidity with which it is accomplished depends upon how continuously, persistently, and deeply you feel and associate with your God Self.

"In the attainment of Mastery or Adeptship, the conscious control of all force and manipulation of substance are dependent first upon the acknowledgment of your own individual God Self; second, upon perfect calmness of feeling under all circumstances; and third, one must be above *all* temptation of misusing power. The stilling of all emotions at the command of the conscious will is imperative, and the demand for it in the Adept is unconditional if Dominion is to be attained.

"It does *not* mean a repression of discord within oneself at any time, but is a stilling and harmonizing of the feelings, no matter what the circumstances are which surround the mind or body of the student. Such control is not an easy thing for humanity in the Western World because the temperament of most people in the Occident is sensitive, emotional, and impulsive. This characteristic is energy of

tremendous power. It must be controlled, held in reserve, and released only through conscious direction for the accomplishment of something constructive. Until the waste of energy is checked and completely governed, the individual cannot and never will make permanent progress.

"The student often asks if one reaches a point while still on the path of attainment where he rises above the use of affirmation. When an individual sincerely uses affirmation, he brings about a full acceptance of the Truth of whatever he affirms; for its use is but to focus the attention of the outer mind so steadily upon the Truth that he accepts it fully in his feelings–because feeling is the actual God Energy released which manifests the Truth affirmed.

"The continued use of affirmation brings one to the point where he has such a deep realization of the Truth in anything he affirms that he is no longer conscious of it as an affirmation. One uses an affirmation, mantram, or prayer because he desires something made manifest. Right desire is the deepest form of prayer. Thus by the use of affirmation the student raises his outer self into the full acceptance of its Truth and generates the feeling by which it becomes a thing manifest. In this deep acceptance comes the manifestation; for through concentration, the spoken word begins to cause instantaneous activity."

My gratitude to Saint Germain for all I had received was too deep for words. He read my thoughts and feelings as one reads a book, and so we both sat silent for some few moments in perfect attunement. He roused me from my reverie to watch the gorgeous colors in the western sky—the sunset's afterglow.

I wanted to remain on the mountain all night and return home in the morning enjoying the sunrise. I had no sooner felt the desire than a beautiful sleeping bag lay at my feet. It was unlike anything I have ever seen. I reached down to examine the unusual fabric of which it was made, and to my astonishment, found it glowing and warm. I looked up, and Saint Germain smilingly extended to me a crystal cup filled with golden liquid about the consistency of honey. Obedient to his slightest wish, I drank it, and instantly a radiant glow passed through my body. When I had finished, the cup disappeared in my hand.

"Oh, why could I not keep this lovely creation?" I asked in surprise. "Patience! my Son," he answered. "Are not your desires being fulfilled one by one? Your sleeping bag will remain until daybreak, and your friend the panther will guard you during the night."

Bowing slightly, and with a smile that was graciousness itself, his body became gradually indistinct and then disappeared entirely. I lay down

in the lovely bag and was soon fast asleep. As the rosy tints of dawn touched the eastern horizon, I awoke, and the first thought in my mind was concerning the bag which I had so much enjoyed. With that thought, it vanished back into the universal substance from which it had come.

The panther came toward me and together we turned our footsteps homeward. After walking for some distance, the sound of men's voices caught our ears. The animal sniffed the air, suddenly stopped directly in front of me and looked up. I reached down and patting it, said,

"Now you may go." It bounded away into the thickly wooded section of the mountain to the right of the trail. I continued on my way without further incident and at last reached my lodgings shortly after noon in a state of mind hard to find words to describe.

I wanted to think—contemplate—digest—and become adjusted to an entirely new set of ideas. The unusual yet very real experiences through which I had passed within the forty-eight hours just preceding were causing me to reorder my entire world. I was happy in the extreme, and yet it seemed as if another universe had manifested itself around me. There was the same old prosaic world on the outside that I had always known, to be sure; and yet, was it? Within it all the time had been these wonderful experiences, this tremendous

power, these marvelous revelations of freedom and dominion over all manifestation–of which I had been so totally unaware.

I had been surrounded all my life by these seeming miracles to which in my previous years I was as oblivious as if no such thing existed in creation. I thought and thought, deeper and deeper than I had ever contemplated anything before in my whole existence.

The dinner hour arrived, but I was not hungry. However, to begin the evening meal I ordered a glass of milk. It was served, and a few moments later as I tasted it, imagine my astonishment to find that it had become the *same creamy liquid* Saint Germain had first given me.

I finished the meal, returned home, and was preparing my bath before retiring when suddenly the familiar electrical signal thrilled me from head to foot. Involuntarily I held out my hand, and in a few seconds a small cake of crystal-like substance formed in the palm. I somehow knew this was to be put in my bath, and had no more than dropped the substance into the water than it immediately bubbled and sparkled as though alive.

I stepped in and a tingling sensation thrilled every cell in my body. I felt *charged* with a high-powered electrical current that illumined and strengthened my whole being. My bath finished, I lay down and soon dropped into a dreamless sleep.

CHAPTER III

The Royal Teton

FOUR days passed without any unusual occurrence, and I tried to realize fully the deeper significance of my recent experiences. It was just growing dark on the evening of the fifth day when there was a sound of tapping on the window of my room. I looked out, and on the windowsill stood a snow-white dove with a tiny card in its mouth.

I stepped to the window and opened it. The dove walked in and stood calmly waiting. I took the card and read the message which was written in the same beautiful script as the previous one, but this time in gold ink on a white card. On it were the words:

"Be at our meeting place at seven in the morning," signed, "Saint Germain."

As soon as I had taken the card, the dove flew to my shoulder and rubbed its head against my face as if conveying a message of love, flew again to the window and was gone like an arrow. I put the card away carefully, hoping it would remain; but the next morning as I looked for it before starting on my hike, it had been dissolved. The golden card on which the first message

was written had lasted into the third day, for I looked at it several times, hoping I could keep it permanently. When I found it had been returned to the universal, my heart sank, so great was my disappointment.

To make the hike of ten miles and be there at seven in the morning, I knew would make it necessary for me to leave shortly after midnight. I arose early and was on my way at three o'clock. By walking rapidly I reached the forest just at daybreak. I had not gone far until a plaintive cry came to my ears. Before realizing it I answered in the same tone, so involuntary was my response. There was a rush of something through the timber and my friend the panther bounded toward me, the very embodiment of joy. I patted it, and together we proceeded on our way to the meeting place.

Promptly at seven o'clock Saint Germain stepped right out of the atmosphere, greeting me with open arms. Again he handed me the crystal cup, filled this time with a clear, sparkling liquid. I drank it, and the taste was not like anything I had ever physically experienced before. It was almost like the juice of grapefruit iced, but sparkling and effervescing. The moment I drank it, a sensation like lightning went through my body, carrying the feeling of its sparkling activity into every vein.

Saint Germain then gave the panther a little brown cake which it quickly devoured. In a moment

its hair stood straight up–and he remarked,

"Your friend will never again kill deer."

"For the coming experience and instruction it will be necessary to leave your body here on the mountainside because you have not yet called forth the Inner Power enough to enable you to take it where we are going today. The panther will be the guard for you, and as an extra precaution I will place the cloak of invisibility around both. We will go to the Royal Teton. "Come."

Instantly, I stood out in my finer body, clothed in a rich garment of *self-luminous* golden *fabric.*

"Observe carefully the material in which you are clothed," he continued. "The substance composing the garment you wear has certain extraordinary qualities and powers of its own, one of which is to enable its wearer to lift and transport physical objects. The garment itself possesses pure electronic energy and can be used to move objects the same as the force one uses through his physical body. This is a phenomenal activity that the Great Masters of Light have given permission to be used for the first time on this planet."

For the benefit of my readers, I want to state clearly and unmistakably that while I was clothed in a body which did function in four dimensions during these experiences, yet it gave me the ability

to feel and handle solid objects in the physical world the same as everyone can do in his own physical body. The body I used this time was *not* that which is sometimes called the astral body.

We soon reached the top of a majestic mountain that stands sentinel over one of the most beautiful scenic belts in the United States. Vast forests lay beneath us, and great ranges of mountains with their treasures of mineral wealth still untouched stretched as far as the eye could see.

Going to a point where huge masses of stone lay in confusion as if giants had hurled them in a war upon each other, Saint Germain touched a great boulder. Instantly the enormous mass tipped out, perhaps four feet away from its original position. He motioned me to follow. We entered and, to my astonishment, stood before a large bronze door.

"This has been here since before the sinking of Atlantis, more than twelve thousand years ago," he explained.

He stepped forward and pressed certain points on the door. The great mass of bronze weighing many tons swung slowly open and admitted us into a spacious chamber from which a stairway cut in the solid rock led downward. We descended some two hundred feet and entered another space, circular in shape. Saint Germain stepped across the room to a door opposite the stairs and placed his right hand

against it. As it opened, we stood before the entrance of a tube elevator. The interior looked like frosted silver, and in answer to my thought, he said,

"Yes, but harder and stronger than steel and indestructible." A flat disc of the same metal, fitting the tube quite closely, rose within it to the level of the floor. The platform was controlled and operated entirely by the Master. He stepped upon it and I followed. The door closed and we began to descend. It was a long way down, although we did not move rapidly. The platform came to a stop at another bronze door of entirely different design.

"We have descended two thousand feet into the very heart of the mountain," he commented as we stepped out of the tube.

The space in which we stood was of peculiar design and arrangement. It formed an oblong from east to west, whose northeast and northwest corners had been cut on an angle. This formed an outer court or reception room. The heavy bronze door from the tube elevator opened into the court on the northeast wall.

In the north side were two other large bronze doors exactly alike, entering into a great audience hall. On the northwest wall was still another, a fourth door, like the one through which we had come. Opposite on the long unbroken stretch of the south wall hung an immense tapestry.

It was made of most unusual material; and while the weave was coarse, yet the thread or fiber was as soft as camel's hair. The background was of a delicate cream color, and against this were two life-sized figures representing God Beings of Great Majesty and Power. The one on the right was masculine, the other feminine. Both were standing as if in the act of commanding Cosmic Forces to obey their decrees.

The masculine figure wore a full-flowing robe of some rich material of a deep sapphire blue, banded and heavily embroidered in gold. It was evidently a robe of state or symbol of authority. Under the outer robe was a tunic of golden fabric, metal-like in appearance. A sunburst of rubies, diamonds, sapphires and emeralds covered the chest. The waist was encircled by a jeweled belt, and from it hung a panel about twelve inches long. It too was heavily encrusted with the same kinds of jewels. The tunic reached to the knees, and the lower edge was trimmed with a band about four inches wide of heavy embroidery in silk of the same color as the jewels.

The entire effect gave one the impression that the garments were *all* self-luminous. The feet were clad in sandal-like boots of golden leather reaching almost to the knees, very ornate and laced with sapphire-blue cords. A band of gold about an inch and

a half wide rested halfway down upon the forehead, binding the figure's wavy golden hair which hung to about six inches below the shoulders.

The complexion was very fair with a soft pink tint, and the eyes were a deep violet-blue. The fingers of the left hand rested lightly over the heart, and the upraised right hand held a blazing crystal rod of power and authority. The lower end was shaped to a point, and on the top rested a sphere about three inches in diameter that gave off rays of sparkling White Light.

One knew unmistakably that the figure portrayed was in the act of wielding gigantic power and was a manipulator of some Mighty Cosmic Force. The entire appearance suggested fullest youth, and yet the wisdom of the ages spoke through the eyes of a hoary past.

The feminine figure's robe of authority was a deep violet, banded with golden embroidery similar to that of her companion. The underdress was a soft, golden, shimmering material that came almost to the floor. The thread used in weaving the tapestry to represent the garments must have been the same which had actually composed the material in the original clothing. This Being wore a jeweled girdle with its panel reaching about two inches below the knees and encrusted with the same kinds of jewels as those of the masculine figure.

The toe of her right sandal was just visible beneath the edge of the dress and was made of golden leather. Her headdress was a plain band of gold exactly like his, and the eyes were the same violet-blue, but lighter in shade, her golden hair falling to the knees.

On the chest suspended from a golden chain hung a large seven-pointed star cut from a single diamond. In her left hand she held a crystal sphere about six inches in diameter, and in her right, uplifted like that of the other figure, was a scepter of most strange design. About two-thirds of the lower portion was made of gold, terminating in a spear-shaped point, the upper third composed of a crystal-like substance radiantly luminous. This formed into a design at the top similar to a fleur-de-lis, except that the middle point was much longer and tapered to a slender apex formed by its four facets.

The curved leaf on the right of the central portion was a beautiful pink, and that on the left a deep sapphire blue, but the middle one was crystal white. All were transparent and glowed with Light. The gold and crystal-like portions blended with each other perfectly, for there was no line of demarcation between the two substances. Her scepter symbolized the Three Activities of the Creative Force.

The crystal ball in her left hand revealed the unmanifested Perfection of the future in Cosmic Activity. Both scepters represented the drawing and directing of the Creative Power into universal substance for special manifestation. They were radiant and beautiful, even in the tapestry, and I could but wonder what they must have been in *reality*. Saint Germain stood patiently waiting while I studied the whole concept, so fascinated was I by the magnificence of the entire work.

"These two Great Beings were the founders of this retreat," he remarked, as we turned and passed through the bronze door on our right and entered a large room which one realized instantly was used as a great council hall for some kind of sacred ceremonial purpose.

The whole atmosphere was one of magnificence and beauty. Words utterly fail to convey that which my eyes beheld and my feelings experienced. It took me some moments to become accustomed to the dazzling sight and the splendor of my surroundings.

This room was at least two hundred feet long and a hundred feet wide, with a ceiling about fifty feet high. A soft white light, which Saint Germain explained was an omnipresent force that the Great Ones always use for light, heat, and power, flooded the entire place. About twenty feet of the side walls and far end of the room were formed in white onyx.

Where this formation ended, the builders had cut through a great vein of virgin gold more than two feet in width.

The main stretch of both side walls was of a light, blue granite; but near the end from which we entered, the natural structure changed into rose granite of a still finer quality. The surface of the walls, ceiling and floor had been highly polished, evidently by some remarkable process.

The arched ceiling, rising some ten feet higher than the side walls, was inlaid with a most unique design. Directly in the center was a disc of gold at least twelve feet in diameter. Filling it so that the points touched the circumference blazed a seven-pointed star composed entirely of *yellow diamonds*–a solid mass of brilliant golden Light.

Radiating from this Central Sun were two rings of color, each about twelve inches wide forming a definite band of Light around the star, and of these, the inner band was rose pink and the outer an intense violet. The background against which this star lay looked like golden frost, the star itself sending down long rays of gleaming crystal Light.

Around this design were placed seven smaller discs, each about two feet in diameter, representing the planets of our system and the seven rays of color within the spectrum of white Light. The surface of every disc was velvet-like in its softness, and only the

clearest, most intense positive shade of each color had been used.

As I learned later, at certain times for special purposes, Great Cosmic Beings pour through these discs Their powerful currents of force. Here it is received by the Great Illumined and unselfish Ones known as the Ascended Masters of Light, who again send it forth to the humanity of our earth. This radiation affects the seven ganglionic centers within every human body on our planet as well as all animal and plant life. The background of the entire ceiling was the color of a very clear sky on a brilliant moonlight night, yet the surface was highly refractive.

In the center at the far end of the hall, about thirty-five feet from the floor in the wall itself, was a large Eye at least two feet across. This represented the "All-Seeing-Eye of the Creator" forever watching over His Creation, and from Whom nothing can be hidden.

A tremendous power was focused through this Eye at certain times for the accomplishment of specific results. I could but wonder as I contemplated it what my sensations would be were I to see That Power in full operation.

Perhaps forty feet from the far end on the east wall, stretching about seventy feet in length and thirty feet in height, was a panel of some

precipitated material. It had been placed a little more than five feet above the floor level and sunken into the side wall for a depth of two inches, making a concave surface around the entire edge.

The substance composing it looked like beautiful velvet of a deep indigo blue, yet it was not a fabric of any kind. The nearest physical material to which one could compare it would be that of a mineral. This substance is not in use in the outer world of mankind anywhere, but it can be and is sometimes precipitated by the Great Ascended Masters of Light for a special purpose.

Saint Germain explained that the panel had been precipitated and served as a universal mirror for the instruction of Initiates and Inner members of a group of Highly Evolved Beings. These Great Ones work ceaselessly helping the humanity of our earth to become Perfected men and women, and enable them to manifest in their outer lives the same great Perfection and Dominion as did Jesus Christ.

There is no outer organization of these Perfected Beings. Only by living and expressing this Perfection through self-correction of human weaknesses and full adoration to the Divine Being Within can an individual draw himself into association with Those working at this *high level* of attainment.

"Upon this panel," said Saint Germain, "are projected scenes of earth, pictures in the ethers,

the akashic records and activities taking place on Venus or at any other point which those instructing wish to make visible to the students. Such scenes are not only pictures of the past and present but can portray activities into the far future. These you shall see later."

We passed through the last door on our right and entered a room whose dimensions were about eighty feet long, forty wide and twenty high, with an arched ceiling similar to that in the large hall from which we had just come.

"The entire interior surface of this room is made of frosted gold, and the purple and green veining you see on the walls as if embossed is precipitated," he continued.

At the far end and on the side wall to our right reaching from floor to ceiling was a framework made of white metal that looked like frosted silver. In this framework, resting upon roller bearings, were containers made of the same metal. The lids of these containers gave classifications in hieroglyphics of the contents on the four spindles within each, the hieroglyphics being embossed upon every lid.

The spindles were at least ten inches long, and around everyone had been wound a ribbon about eight inches wide made of pressed gold, alloyed with some material that made it tough and pliable, and yet no thicker than a piece of ordinary writing

paper. The length of the ribbons of gold on the spindles varied from seven to fifty feet, and on each were characters as if etched into the gold by something like a stylus. These characters had been so perfectly done as to make the whole appear like script.

"These records are the fulfilling of my promise to you," said Saint Germain, as he indicated a particular section at the far end of the side wall. "They describe the city, country, and civilization which once existed where the Sahara Desert is now, during the time in which you were my son and I the ruler of that ancient empire. This room contains records of many countries and the rise and fall of many civilizations." Handing me one of the spindles, he released the fastening and I found to my astonishment that I could read its contents.

"I am enabling you to do this," he continued, "by temporarily raising your consciousness and calling forth the hidden memory–the former record of these experiences which you once lived through. The matter of knowing God and His Universe is but a contacting of the Life record in every form. All forms contain Life, and within the Light emanation of every form is recorded its entire past–which anyone may train himself to discover and understand if he be willing to give his attention and time to the self-discipline necessary to still the confusion in

the outer activity of his everyday existence. This eternal record within all things has existed from the beginning.

"In ages past, humanity manifested Perfection in every way. This former condition of the race has been chronicled by historians as the Garden of Eden, Eden or E-Don, meaning Divine Wisdom. As the conscious attention or the outer activity of the mind was allowed to rest upon the world of the physical senses, the Divine Wisdom–the All-Knowing activity of consciousness–became clouded, or covered over, and the Cosmic Divine Plan of the individual's life became submerged. Perfection and conscious control by mankind over all form was hidden–and forgotten along with it.

"Man became sense conscious instead of God conscious, and so manifested *that* to which his attention was directed and which he thought most upon. He *deliberately* and *consciously* turned his back upon the Perfection and Dominion with which the Father endowed him in the beginning. He created his own experiences of lack, limitation, and discord of every kind. He identified himself with the part instead of the whole, and of course imperfection was the result.

"All mankind's limitation is the result of the individual's own misuse of the God attribute of free will. He compels himself to live within his own

creations until, by the direct volition of the outer activity of his mind, he again consciously looks back to his Royal beginning–God, the Great Source of All. When this occurs, man will begin to remember *That* which he once was and may become again whensoever he chooses to look once more at the Great Cosmic Blueprint of Himself.

"The record you have been enabled to read described the Life and people as we saw it taking place seventy thousand years ago. You had much to do with the work of making these records in several lives which have not yet been revealed."

We crossed the council hall, entering the opposite door, and found a room similar in size to the one we had just left, with two smaller rooms adjoining it on the north wall. In the larger room covering almost the entire wall surface was more metal framework filled with containers quite like those in the other room.

"These rooms," he continued, "contain only gold and jewels that are to be used for a special purpose which will bless the entire world when mankind has transcended its *unbridled* selfishness." Here he drew forth a container filled with gold coin and went on explaining. "This is Spanish Gold lost at sea, and we, seeing it would not be recovered by other means, brought it here through the activity of certain forces which we govern. Later, in a time

that is rapidly approaching, it will again be sent forth for use in the outer world.

"In these containers," indicating another section, "gold is stored from the lost continents of Mu and Atlantis, the ancient civilizations of the Gobi and Sahara Deserts, Egypt, Chaldea, Babylonia, Greece, Rome, and others. If all this gold were to be released into the outer activity of the world, it would compel sudden readjustment in every phase of human experience. At present it would *not* be the part of wisdom. The Infinite Wisdom and Power of those Great Cosmic Masters who have been the Guardians of the race since its first appearance upon earth is almost beyond the comprehension of the human mind.

"No one in this world ever accumulated a great amount of wealth without the assistance and radiation of some Ascended Master. There are occasions in which individuals can be used as a focus of great wealth for a specific purpose, and at such times, greatly added power is radiated to them; for through it they can receive personal assistance. Such an experience is a test and opportunity to expand their Light. All unusual accomplishment that takes place in human activity, no matter what the particular channel may be, is always attained through the assistance of superhuman Love, Wisdom, and Power from an Ascended Master, because he

has transcended all limitations of the physical world, and for this reason more than ordinary success is due to His greater power through *radiation.*

"In 1887, the Ascended Host of Masters established a school on the Inner planes for the specific purpose of instructing those who have misused wealth, and revealing fully the results of their mistakes. Such as these are taken and told the Truth concerning the Universal Law governing all wealth and the results that come from influencing others to perpetuate their wrong ideas and mistakes. They are given complete freedom to accept or reject the proof offered. They *always* accept and abide by the instruction given."

We next entered the two smaller rooms which were also equipped with the same kind of containers, only not as large. These were filled with jewels of all kinds–diamonds, rubies, pearls, emeralds, and sapphires–classified as to variety and quantity. Smilingly, he turned to me and said:

"Now you know and understand that the Great God Self is the only Real Owner and Controller of all wealth. That 'Presence' appoints keepers of His treasures on every plane of Life, whether it be Light, Wisdom, Substance or physical riches. You are calm and poised, I see, while we are observing this phase of our activity, and that is well. It reveals your Inner strength and ability to do what is now

ready to be accomplished as soon as you are prepared outwardly. This will soon come about I assure you.

"You have been shown *proof* that it is we who really govern the wealth of the world and use it but as a test of the soul strength of the individual. It is always a *trust*–given to those who should be strong enough to use it only constructively; but few, very few, really pass that test under the temptation existing in the world at large today. If we choose we can raise the humblest of God's children who have sufficient preparation into wealth, power, and prominence, if by so doing help can be given to many others through such accomplishment."

After examining other containers filled with more jewels, we turned and re-entered the council hall. Looking toward the entrance through which we had first come, I saw my loved ones–Lotus and our son–in the charge of one of the Ascended Masters whom Saint Germain said was known as Amen Bey. After greetings had been exchanged, we were conducted to seats before the panel on the east wall. In groups of from three to twelve came the blessed ones of the Ascended Host until seventy of them were seated.

A great hush fell upon all assembled, and for a few moments, the silence was breathless, expectant. A ball of soft White Light began to form in front of

the panel increasing rapidly in size and brilliance until it became an oval at least seven feet in height. As though born from within the Light itself, stepped a most Glorious Being–tall, majestic, and powerful. He made the sign uniting the finite with the Infinite, and in a voice that thrilled every atom of mind and body, asked if all were ready.

A blazing Light flashed forth from the substance that composed the panel until it looked like a mirror of Living Light. In a moment this changed into a crystal clear atmosphere, and it then became a cosmic screen upon which living pictures in all dimensions could be portrayed with no limit to the space that could be observed. It was self-evident that everything which had or ever could take place in all Eternity might be made visible on this screen if the Directing Intelligence so desired.

The first scenes portrayed the continent of Mu, the activity and accomplishment of its people, and the height to which that civilization attained. This covered a period of thousands of years. Then came events that surely must have been a reign of terror to the inhabitants of that land. A cataclysm occurred which tore the surface of the earth until all collapsed within itself. The ancient land of Mu sank beneath the waves of what is now the Pacific Ocean where it still rests, wrapped in its mantle of water. Again it will rise and once more absorb the Life and Light of the physical sun.

Next came the growth to beauty, wisdom, and power of Atlantis, a great continent covering a large part of what is now the Atlantic Ocean. At that time there existed solid land between Central America and what today is Europe. The things accomplished in that age were tremendous; but again, the people's misuse of the Mighty God Energy overwhelmed them, and as things were thrown more and more out of balance, the tearing apart of the earth's surface by cataclysmic action was re-experienced.

It left but a small remnant of Atlantis, merely an island in midocean cut off from close contact with the rest of the civilized world. The east and west portions of the land had sunk beneath the Atlantic Ocean leaving only the island called Poseidonis. It had been the heart of the then-known civilized world, and preparation was made to protect and preserve its most important activities as a central focus to carry forward certain unfinished work. In that period very great attainment was reached, both spiritually and materially.

The mechanical development of this cycle reached a very high state of achievement, and one of its most remarkable expressions was the perfection of their aerial navigation. The air transportation of our modern life is as yet very crude and primitive compared to what was then on Atlantis.

The Great Masters of Light and Wisdom made this possible for the people of Poseidonis because they inspired, instructed, protected, and revealed knowledge of great advancement in every phase of human activity.

A large portion of these people became aware of the Great Inner God Power within the individual, but as before, the human side of their nature or outer activities again usurped the Great Energy. Selfishness and misuse of this transcendent wisdom and power gained the ascendancy to even greater height than before. The Masters of the Ancient Wisdom saw the people were building another destructive momentum and that a third cataclysm was threatening. They warned the inhabitants again and again as previously, but only those who served the Light gave heed.

Great buildings were constructed of imperishable material where records were placed that have been preserved through the centuries. These remain in a state of perfect preservation *now* on the bed of the Atlantic Ocean–hermetically sealed. They will be brought to the light of day by the Great Ones who directed their preparation and control their protection.

In them are recorded humanity's advance and accomplishment of that period, so there has been no permanent loss to mankind of the activities of

the Atlantean civilization. Beside the preserving of such records, great wealth, principally gold and jewels, was transferred at that time to other points of safety. This has been and will continue to be guarded over the centuries and used at a future time for the uplift and advancement of generations yet unborn.

The final cataclysm spent its momentum, and the last remaining fragment of a once world empire sank to rest for purification through the centuries beneath the present Atlantic Ocean. The remembrance of Atlantis and her people, unlike the lost continent of Mu, has not been entirely forgotten or obliterated in the history of mankind; for it has been recorded in many ways through the centuries. Even though twelve thousand years have elapsed since the sinking, fragments of information concerning it still drift to us from most unexpected channels. Myths and legends abound in reference to Atlantis, and these are two avenues which preserve to mankind certain actual conditions that have been upon the earth in one age or another. As time goes on, indisputable proof of its existence and the height of its attainment will be revealed by oceanography, geology, and other scientific data.

Then passed before our vision the ancient civilizations of the Gobi and Sahara Deserts, showing the rise and fall of their principal activities. The decline

in each of these was due this time not to cataclysmic action but to being overrun by hordes of primitive souls taking embodiment in that cycle.

Next came pictures of Egypt, her rise and fall, the latter being due to the deliberate misuse of knowledge and power by a large number of the humanity embodied in that land, whose predominant qualities were pride of their intellectual accomplishments and rebellion against the restraint of their lower nature. These always mean failure individually or en masse.

Egypt rose to her greatest height by the right use of knowledge and power. These always demand humility, obedience of the intellect to the God Self Within, absolute and unconditional control of the human or lower nature in those who seek such gifts, if they are to avoid destruction. The souls embodied in Egypt during her decline were not undeveloped, as were those in the civilizations of the Gobi and Sahara Deserts. On the contrary, they had attained the conscious use of knowledge and power and deliberately chose to misuse it. This activity has nothing whatsoever to do with Wisdom; for those who are the Eternal Inheritors of the gifts from that Divine Goddess must forever be above *all* temptation to misuse knowledge and power. Wisdom is the right use of all that manifests, and he who realizes this self-evident, Immutable Truth becomes an open door to all good that abides in creation.

The reference to Egypt as a land of darkness is most unjust, for out of Egypt in her earlier cycle came *very great* Light, and out of Egypt will again come *very great* Light.

The next scene portrayed the rise and fall of the Roman Empire. When the darkness and degradation of those centuries had reached their lowest point, lo! Jesus appeared, pouring out His Blazing Light and Love as the Christ; and through His Transfiguration, Resurrection, and Ascension such an overwhelming flood of God's Perfection spread over the earth that never again can so vast a darkness encompass humanity *in any age*. The accomplishment of His Life stands *eternally recorded* upon the atmosphere of this planet and acts as a magnet drawing mankind unto a Like Perfection.

The coming of Jesus was an initiation to the people of our world and a Cosmic Command to use the Power of Divine Love in all their future activities. This outpouring of His Love to the earth at its darkest cycle became the birth of the Christ Child in the individual. He called forth once again the Cosmic Divine Blueprint and revealed the Decree for the incoming age. That plan is Complete Dominion over all things finite through the Full Stature of the Christ *within* every human being.

Next came the reign of Richard the Lion Heart of England. Humanity has little or no knowledge

of the real spiritual activity that took place during those years. The same Light that inspired Richard's enthusiasm and activities in the crusades released through his followers and the people of that time certain forces that the Ascended Host used at Inner levels of consciousness.

Then came pictures of the recent world war in Europe, and these disclosed the activities that generated it. Only a few individuals know the real cause; and no doubt it is for the best more do not. It is too destructive for the consciousness to contemplate. Nothing can possibly be gained by focusing the attention upon war. This too, perhaps, was the reason why the period from Richard to the world war was not portrayed. Here, the activities of the Ascended Host were revealed, and we saw them dissolve the cause and greater part of the accumulated momentum of the world's recent conflict.

They accomplished it by *consciously* focusing and directing *enormous* Rays of Light whose power to consume and transmute is too stupendous for finite description. These Perfected Ones have been watching for the Cosmic Moment to arrive when they might perform for humanity a Service of Love that has been long awaited and of which mankind has as yet little or no comprehension.

These remarkable pictures continued and revealed activities stretching forth into the far future

and affecting the whole earth. They showed many changes to come in the surface of the land itself. One of the most important of these concerned the progress of North America. The Divine Plan for the future of North America is a condition of intense activity in the greatest peace, beauty, success, prosperity, spiritual illumination, and dominion. She is to carry the Christ Light and BE the Guide for the rest of the earth, because America is to be the heart center of the "Golden Age" that is now dimly touching our horizon. The greater portion of the land of North America will stand for a very long time. This has been known for thousands of years–yes! for over two hundred thousand.

The pictures continued for nearly three hours portraying many scenes and activities that have entirely escaped the recording of historians and the world of science because of their great antiquity. Wonderful and beautiful as our moving pictures are today, they are mere toys when compared with the living, breathing, actual existence revealed upon this cosmic screen. Here it was possible to watch the Cosmic Cause go forth of many events and conditions found upon earth–so that those watching received instruction of most extraordinary magnitude. This Inner instruction is of great help to students.

At the close of the instruction, Saint Germain

presented us to the Great Ascended Master Lanto, who had manifested from within the Blazing Light, and then to the seventy Masters assembled.

"We shall rejoice indeed," said Lanto, turning toward us, "when you are again ready to join in the conscious service of the glorious work at hand. This opportunity comes to you through the mighty victories you have won over the human self and outer world. The time is nearing when you shall be privileged to see how truly great those victories are. Each day accept in its Fullness the Mighty Active 'Presence' of the Great God within you, and there can exist no such thing as failure anywhere along the path. Everyone who sincerely seeks the Light is always known to the Ascended Masters. On New Year's Eve we will meet here again when there will be twelve guests from Venus. It is our wish that you be present. Saint Germain and Amen Bey will be your sponsors."

At a signal, all became silent and received Lanto's blessing of love before returning to their respective fields of service. Most of them simply disappeared from the room within a few moments, and the rest left by the way of the tube.

"My Children, I see you are unaware of time. It is now three o'clock in the morning," remarked Saint Germain as he turned to say good-by to Lotus and our son who, after embracing me, left by way of

the outer reception room as we passed through the first door on the right. "There is one thing more," he continued, "I want you to see before we go.

"Here is a group of most unusual musical instruments that are used for a special purpose, being constructed or created so as to have a tone of special quality for the work we do." Here he turned to an organ keyboard and went on explaining:

"This seems to be a pipeless organ, but the pipes, which are much smaller than ordinary, are placed within the case. The tone of the whole instrument is superior to anything the earth has ever known before in music. These organs will come into use in the outer world as the incoming Golden Age moves forward."

Next we examined four magnificent harps, slightly larger than those in ordinary use in the musical world today. Saint Germain seated himself at one of these and played several chords to give me some idea of their tone. It was the most wonderful music I have ever heard.

"This harp is a surprise for our Beloved Lotus," he said, "for on New Year's Eve in this Retreat, you shall hear the organ and four harps played by skilled artists." We finished the inspection of the room and left through the door on the northwest wall.

Instead of passing out of the Retreat as we had come in, Saint Germain opened a small door on

the left and entered a glistening tunnel, whose walls sparkled with a crystal-like formation which became instantly illumined by the White Light that he always released by manipulating the electronic substance about him. We walked rapidly forward in the tunnel, came to a bronze door that opened at his touch, and stood again under the starlit sky.

We remained in perfect silence for an instant, then rising to some five hundred feet above the ground level, passed swiftly through the air, and a few moments later stood beside my physical body on the southern slope of Mount Shasta where the panther still guarded. I had been away twenty-two hours, and as I looked up, dawn was just creeping over the eastern horizon.

"Here is your breakfast," announced Saint Germain as he handed me the Crystal Cup containing a clear white, sparkling liquid. "This is both strengthening and refreshing so you will enjoy hiking home, because your body needs the exertion and activity. I sense something in your mind which is not at ease, or at least is not clear to your consciousness."

"Yes," I replied. "I have a question that has been holding my attention for some time, and it is concerning visualization. What is true visualization, and what happens when one does visualize?"

"True visualization," he answered, "is God's

attribute and Power of Sight acting in the mind of man. When one consciously pictures in his mind a desire he wishes fulfilled, he is using one of the most powerful means of bringing it into his visible, tangible experience. There is much confusion and uncertainty in the minds of many concerning what actually happens when one visualizes or makes a mental picture of something he desires. No form ever came into existence anywhere in the universe unless someone had consciously held a picture of that form in his thought; for every thought contains a picture of the idea within it. Even an abstract thought has a picture of some kind, or at least a picture that is one's mental concept of it.

"I will give you an exercise by which one may develop, consciously control, and direct his visualizing activities for definite accomplishment. There are several steps to the process which every student can use at any and all times. The practice does bring visible, tangible results when really applied.

"The first step is to determine upon a definite plan or desire to be fulfilled. In this, see that it is constructive, honorable, and worthy of your time and effort. Be sure to examine your *motive* for bringing such a creation into expression. It must be honest, both toward yourself and the rest of the world, not merely to follow a whim or gratify appetites of the physical senses. Remember there is

a vast difference between use, desire, and appetite. *Use* is the fulfilling of the Great Universal Law of Service. *Desire* is the expanding activity of God through which manifestation is constantly sustained and is Perfection enlarging itself. *Appetite* is but habit established by the continued gratification of the feeling nature, and is but energy focused and qualified by suggestions from the outer activity of life.

"Be very sure that there is no lurking feeling within that you would be glad to benefit at the expense of another. A *real* student–and only such a one will get the benefit out of this kind of training–takes the reins into his own hands and determines to discipline and consciously control the human self. He chooses what shall or shall not be in his world, and through the process of picturing within his mind designs and brings into manifestation a definitely determined plan of life.

"The second step is to state your plan in words as concisely and clearly as possible. Write this down. Thus you make a record of your desire in the outer, visible, tangible world. The third step is to close the eyes and *see* within your mind a mental picture of your desire or plan in its finished, perfect condition and activity.

"Contemplate the fact that your ability to create and see a picture within your own consciousness is

God's attribute of sight acting in you. The activity of *seeing* and the power to *create* are attributes of your God Self which you know and feel is within you at all times. God's Life and Power are acting within your consciousness to propel into your outer world the picture you are *seeing* and *feeling* within yourself.

"Keep reminding the intellect that the ability to picture is an attribute of God–the attribute of sight. The power to feel, experience, and associate with the perfected picture is God's power. The substance used in the world without, to make the form in your picture and plan is God's pure substance. Then you must *know*, God is the Doer, the Doing, and the Deed of every constructive form and action that ever has been sent forth into the world of manifestation. When you thus use all the constructive processes, it is impossible for your plan *not* to come into your visible world.

"Read your desire or plan over as many times in the day as possible and always just before retiring, because on going to sleep immediately after contemplating the picture in your own mind, a full impression is left upon the human consciousness *undisturbed for a number of hours*, enabling it to be recorded deeply in the outer activity and allowing the force to be generated and accumulated which propels it into the outer experience Life. In this way you can carry any desire or picture into your

consciousness as it enters the Great Silence in sleep. There it becomes charged by God's Greatest Power and Activity, which is always within the Heart of the Great Silence.

"Under no circumstances discuss either your desire or the fact that you are visualizing with anyone whatsoever. This is imperative. Do not talk to yourself about it out loud or even in a whisper; for you should realize that the greater the accumulation of energy generated by your visualization, contemplation, and *feeling* the *reality* of your picture, the quicker it will come into your outer experience.

"Thousands of desires, ambitions, or ideals would have manifested into the outer experience of individuals if they had not discussed them with friends or acquaintances. When you decide to definitely bring about an experience through consciously directed visualization, you become The Law–God–The Law of The One to whom there is no opposite. You must make your own decision and stand back of your own decree with all your power. It means you must take an unshakable, determined stand. To do so, know and feel that it is God desiring, God feeling, God knowing, God manifesting and God controlling everything concerning it. This is The Law of The One–God–and God only. Until this is fully understood you cannot and never will get your manifestation; for the moment a human element enters,

you are taking it out of God's hands, and of course it cannot express because you are neutralizing it by the human qualities of time, space, place and a thousand and one other imaginary conditions which God does not recognize.

"No one can ever know God as long as he considers a force opposed to God; for whenever he acknowledges that two forces can act, he has a resultant quality of neutralizing activity. When you have neutralization, you have no definite quality either way. You merely have nothing, or no thing in your manifestation. When you acknowledge God–The One–you have only Perfection manifesting instantly, for there is nothing to oppose or neutralize it–no element of time. So is it established unto you, for there is none to oppose what God decrees.

"Conditions can never improve for anyone until he desires Perfection and stops acknowledging a power opposed to God, or that there is something either in or outside of him that can prevent God's Perfection from expressing. One's very acknowledgment of a condition that is less than all of God is his deliberate choice of an imperfection, and that kind of choice is the fall of man. This is deliberate and intentional because he is free every moment to think whatsoever he chooses to think. Incidentally, it takes no more energy to think a thought or picture of Perfection than it does one of imperfection.

"You are The Creator *localized* to design and create Perfection in your world and place in the Universe. If Perfection and Dominion are to be expressed, you must know and acknowledge only The Law of The One. The One exists and controls completely everywhere in the Universe. You are the Self-Consciousness of Life, The One Supreme 'Presence' of the Great Flame of Love and Light. You alone are the Chooser, the Decreer of the qualities and forms you wish to pour your Life into; for you are the only energizer of your world and all it contains. When you think or feel, part of your Life energy goes forth to sustain your creation.

"Cast out of mind then all doubt or fear of the fulfillment of that which you are picturing. Should any such thoughts or feelings–which are, after all, but human emanations that do not contain perfection–come to your consciousness, instantly replace them by the full acknowledgment of your Self and world as the Life of God–The One. Further than that, be completely unconcerned about it, except during the time you are visualizing. Have no set time in your mind for results, except to know there is only *now*–just the immediate moment. Take this discipline, use it, and you can manifest a resistless power in action that cannot and never did fail.

"Always remember you are God picturing. You

are God Intelligence directing. You are God Power propelling. It is God's–Your Substance–being acted upon. As you realize this and contemplate the fullness of it often, everything in the Universe rushes to fulfill your desire, your command, your picture; for it is all constructive and therefore agrees with the Original Divine Plan for Self-Conscious Life. If the human side of us really agrees to the Divine Plan and accepts it, there can be no such thing as delay or failure; for all energy has the inherent quality of Perfection within it and rushes to serve its Creator. Perfection is the only predestination there is.

"As your desire or picture is constructive, you are God seeing His Own Plan. When God *sees*, it is an irrevocable decree or command to appear *now*. In the creation of this earth and system of worlds, God said: 'Let there be Light,' and Light appeared. It did not take aeons of time to create Light. The same Mighty God is in you *now;* and when you see or speak, it is His attribute of sight and speech which is acting in and through you.

"If you realize what this *truly means*, you can command by His Full Power and Authority; for you are His Life Consciousness, and It is only the Self-Consciousness of your Life that can command, picture, or desire a constructive and Perfect Plan. Every constructive plan is His Plan. Therefore you

know God is acting–commanding: 'Let this desire or plan be fulfilled now,' and It is Done."

Here Saint Germain finished speaking, and bidding me a smiling good-by for the time being, disappeared from my sight. I turned my footsteps toward home, and the panther trotted close by my side. It had been fully twenty-four hours without food, and it was not long until it dashed off through the woods and disappeared in the heavy timber. I continued on my way and arrived home at eleven o'clock, spending the rest of the day trying to realize the full import of what I had been privileged to experience and how the entire concept of my world had changed so unexpectedly.

CHAPTER IV

Mysteries of the Yellowstone

SEVEN days passed. It was then the first week in September. On the evening of the eighth day I sat contemplating Life and its infinite expressions when my thought turned naturally to Saint Germain. Immediately an overwhelming love went out to him in deep gratitude for all I had been privileged to experience through his assistance and Light.

A feeling as of a Presence in the room began to come over me like a breath, and looking up suddenly, there He stood, smiling and radiant–the very "Presence of Divinity."

"My Son," he said, "am I so unexpected a visitor that I surprise you? Surely you know quite well that when thinking of me, you are in contact with me; and when I think of you, I am with you. In meditation your attention was upon me, and so I appear. Is that not according to the Law? Then why not accept it as natural? What one thinks upon, he draws unto himself.

"Allow me to suggest that you train yourself never to be surprised, disappointed, or your feelings hurt under any circumstances; for perfect

Self-control of all the forces within you at all times is Dominion, and that is the reward for those who tread the pathway of Light; for only by correction of the human self can Mastery be attained.

"Remember always that the right to command, which is Dominion, is only permanently retained by those who have first learned to *obey*, because he who has learned obedience to The Law of The One, becomes a Being of Cause only, and that Cause–Love. Thus he in *reality* becomes The Law of The One through the quality of similarity. Watch so nothing goes out from you except that which is harmonious, and do not allow a destructive word to pass your lips, even in jest. Remember you deal with a force of some kind every instant of Eternity, and you are its qualifier at all times.

"I have come to take you on an important journey. We will be gone thirty-six hours. Draw the curtains to your room, lock the doors, and leave your body in bed. It will be guarded until our return. You have made certain Inner advancement, and a very interesting, delightful experience and journey are ahead of you."

I prepared my body for bed and soon became very still. A moment later I stood upon the floor outside of my body clothed in the same golden garment I had worn on my visit to the Royal Teton. The sense of density one has about the walls was gone, and as I

passed through them the feeling was that which one experiences when walking through a heavy fog, the wall itself losing its sense of density.

This time I was clearly conscious of passing through space. I did not ask where we were going, but it was not long until we came to the Royal Teton. Toward the east stood the towering Rockies, and beyond them stretched vast plains that will one day be teeming with semitropical vegetation, and its people living in peace and abundance.

To the west we could see the Sierra and Cascade Mountains, and still farther on, the Coast Range, whose shoreline is all to be changed. Northward we looked down upon the Yellowstone–whose marvelous beauty veils its ancient mysteries and wonders from our present American civilization.

"The word 'Yellowstone,' "explained Saint Germain, "has been brought down through the centuries for more than fourteen thousand years. At that time the civilization of Poseidonis had reached a very high point of attainment because a Great Master of Light was at the head of the Government. It was only during the last five hundred years that the decline took place and the misuse of her great wisdom held sway. Within the present boundaries of the Yellowstone, which are still the same, existed the richest gold mine the world has ever known. It belonged to the government, and much of its wealth

was used for experimental and research purposes in chemistry, invention, and science.

"Thirty-seven miles from this place was located a diamond mine. The stones taken from it were the most beautiful yellow diamonds that have ever been found within this earth before or since that period. Among the gems which came from that mine were a few rare stones of very remarkable beauty and perfection. If properly cut they showed a tiny blue flame at the center that looked like Liquid Light. When worn by certain individuals, the radiance from this flame could be seen more than an inch above the surface of the stone.

"These were held sacred and only used in the highest, most secret rites of the Ascended Masters. Sixteen of them are still held in sacred trust by the Brotherhood of the Royal Teton and will again be brought into use at an appointed time. It was because of these magnificent yellow diamonds that the present name 'Yellowstone' has come down to us.

"You, My Son, were the discoverer of both mines. I will reveal the records that are the physical evidence of what I have just been telling you. These records give the date of their discovery, amount of wealth taken out, length of time operated, description of the machinery used which handled refractory ores recovering eighty-seven percent of their value, running of it into bullion while yet in

the mine, making unnecessary any operation at the surface, where shipped, and the date of closing and sealing. Here are the duplicate records.

"In the life on Poseidonis you lived in a beautiful home with a sister who is now Lotus. Both attained and maintained close contact with the Inner God Self, so God was truly in action at all times. You were an official in the bureau of mines, and through that connection invented and built a wonderful airship. In it you traveled a great deal over the mountains. One day while in deep meditation you were shown the location of these mines, which you later discovered, opened up, and turned over to the government. With this explanation, I will now show you *proof* of what I have described, although there is not a trace of these mines on the surface today. Come, we will enter the mine itself."

Leaving the Royal Teton, I was perfectly conscious of passing through space and moving rapidly until we reached a certain spot in Yellowstone Park. Here we descended and stood before a wall of solid rock.

"Do you see any way to enter?" asked Saint Germain, turning to me.

"No, but I feel the opening is here," I answered as I pointed to a certain spot on the granite wall. He smiled, and going up to the place indicated, laid his hand upon it, and in a moment we stood before a metal door–unsealed.

"You see," he explained, "we have our own methods of sealing any entrance we choose for protection, and it is impossible for it ever to be found or entered unless we so desire. The substance with which we hermetically seal places and things is drawn from the universal. It is harder than the rock itself, though in appearance exactly like it.

"In this way we are able to protect entrances to retreats, buildings, buried cities, mines and secret chambers of the Great Ascended Brotherhood of Light, many of which have been held in a state of perfect preservation for over seventy thousand years. When we no longer have use for such places or things, we return them back to the universal; so you see, all power becomes the willing servitor of one who has conquered himself. All forces of the Universe are awaiting our command whenever it is the part of wisdom and love to use them."

On the door we faced was a replica of a man's right hand embossed in the metal itself at about the level of my shoulder. It looked strikingly like my present physical hand.

"Place your hand over this metal one," said Saint Germain, "and press hard." I obeyed. It fitted over the other perfectly. I pressed with all my strength. Slowly the great door opened, and he continued:

"You have retained that form and size of hand

for several embodiments. It was placed on the door by the government as an honor because you were the discoverer of the mine. That hand is a model of your hand fourteen thousand years ago."

We entered through this door and passed into a long round tunnel, finally emerging into a great cavity. There, to my utter amazement, I found tools and machinery of various kinds made of an imperishable white metal in as perfect a state of preservation as if constructed but yesterday. In the center of the cavity was a shaft. Our present mining engineers would be amazed at the simplicity and perfection of the mining activities of that former age. The same method will again be brought forth into use here in America within the next century.

Saint Germain stepped to the shaft and pulled a lever. Soon a cage of peculiar design came to the top. We stepped inside, and he touched a smaller lever within it. As we began moving downward toward the two-hundred-foot level, we came to a station. Continuing on down to the seven-hundred-foot level, we stopped. This was the central station, and from it led five tunnels like the spokes of a wheel.

These were all perfectly round and lined with the same white metal of which the machinery was constructed. It was so thick and strong that only the collapse of the mountain itself could crush it. Two

of the five tunnels were driven into the mountain for more than two thousand feet. In the central station was one engine that handled all the cars.

"The white metal you see," explained Saint Germain, "is a most remarkable discovery; for it is light in weight, tougher than anything known, untarnishable and imperishable. You may only give a fragmentary description of all these marvels that are actual physical proof of the great height of this ancient civilization. Such wonders have existed and are now in your midst–undreamed of until this revelation shall go forth." As we came to the end of the tunnel, he showed me the drills that had been used in that distant day. "These drills," he continued, "sent forth a tube of blue-white flame about an inch in diameter. They operated at amazing speed, consuming the rock as they passed through."

We returned to the station and entered a triangular-shaped room between two tunnels. At the far end were containers made of the same white metal. They were about twelve inches square and three feet in length. Saint Germain opened one and showed me the wonderful uncut yellow diamonds. I was speechless, they were so beautiful. I think I hear my readers say, "Do you mean to tell me that these were physical?" To that perfectly natural question I wish to answer *yes*–just as physical as the diamonds you wear on your fingers today. Other containers

were filled with cut stones of fabulous value.

We then returned to the entrance of the mine. Saint Germain closed the door and sealed it as before. No one not an Ascended Master could have distinguished it from the surrounding rock. Rising from the ground, we quickly covered the thirty-seven miles to the gold mine. This time we stood on the very top of the mountain near a cone-shaped rock that looked perfectly solid. It was about fifteen feet in diameter at the base and perhaps ten feet in height.

"Watch closely," he said, as he laid his hand against it. Slowly a triangular-shaped section moved out, disclosing a flight of steps leading downward. We descended these stairs for some distance and soon came to a cavity at the top of a shaft similar to the one in the diamond mine.

"You will notice the absence of crushers," he continued. "Everything is done within the mine itself. Not a thing is handled at the surface." We stopped at the four-hundred-foot level where there was another immense cavity. Here complete equipment for treating the ore was located. He explained the extreme simplicity of the process used, which seemed incredible, it was so simple.

We continued on down to the eight-hundred-foot level and saw the same arrangement as in the diamond mine. Here again were tunnels going out

from a central point like the spokes of a wheel. Three triangular-shaped rooms had been built between these tunnels, containing the remaining output from the mine just before it had been closed. The same white metal containers were here as in the other rooms. Only three of them am I allowed to describe.

The first receptacle contained nuggets from an ancient riverbed in a placer formation at the eight-hundred-foot level, in which the gravel had been slightly cemented together, holding the gold. This condition existed for a depth of twelve hundred feet and held immense value. The second container was filled with wire gold from a white quartz vein at the four-hundred-foot level. Another held solid gold discs weighing eight pounds each.

"The place in which they stored all the gold," he explained, "was known as the bullion room. There have been duplicate records kept of this mine—the originals being in the record room at the retreat in the Royal Teton, and the duplicates here."

We returned to the surface. Once more Saint Germain sealed the entrance as described and, turning to me again, said: "My Son, you discovered these mines, and assisted by your colleagues, put them into operation and brought about this perfection. You also made the records on the imperishable metal which I will show you in the Royal Teton. The

Ascended Masters saw that the cataclysm of twelve thousand years ago was approaching, and knowing the mines would not be much affected, had them prepared and sealed for use in a far distant age into which we have now entered.

"At seven different periods of your many embodiments the memory and process for making these records have been recalled. You will bring them forth again in the present age to the blessing of all mankind. This accounts for your feeling since childhood of interest in ancient records of all kinds, and that you would have much to do with such work again in this life.

"Come, we will now return to the Royal Teton. There in a room adjoining the great audience hall are these records to which I have referred. It is a place for the preservation of inventions and scientific discoveries. The one we were in on our former visit contained only records of the various civilizations."

We returned to the retreat and entered this time by way of the tube, as on our first visit. Stepping out, we passed through the second door to the right of the entrance. It opened directly into the scientific record room, a space about seventy by forty by fifteen feet. The entire walls, ceiling and floor were lined with the same *imperishable white metal* of which the shelving and containers were constructed.

Saint Germain drew out one of the latter and handed me the record I had made of the diamond mine. Again I was able to read it, but this time he told me to call upon the God Self Within, and thus let It reveal the complete former knowledge which I had at that time. The record gave a clear but condensed history of the discovery and operation. He handed me another spindle, and on it was the complete history of the gold mine.

"Now that you have seen the physical proof of what I have explained," he said, "I want you to know that I will never tell you anything which I cannot prove." Here he turned toward me with a piercing look in his eyes that passed clear through my mind and body.

"My Son," he continued, "you have done well and are calm and poised under these recent experiences. Much depends upon your next step. Focus your entire attention upon the All-Controlling God Self Within you and *do not forget* to hold it there."

In the light of what occurred later, it was well he had fortified me with that admonition. With that warning he led the way across the large audience hall to the great bronze door on the west wall. Placing his hand against it, the panel slowly moved upward until we had entered, and then closed after us.

I stopped–immovable with amazement–for I

looked upon that which human eyes are rarely, if ever, permitted to behold; and the scene held me motionless, so great was the fascination of its beauty and wonder.

About twelve feet in front of me stood a block of snow-white onyx, three feet high and sixteen inches square. On this rested a crystal sphere filled with a ceaselessly moving, colorless Light in which were points of radiance darting to and fro. The sphere continually sent forth rays of prismatic colors to a distance of about six inches. It seemed made of living substance, so constantly did it scintillate.

Out of the top of the crystal ball poured forth three Plumes of Flame—one molten gold, one rose pink, and the other electric blue, extending at least three feet in height. Near the top, each section bent over like an ostrich plume—graceful, beautiful, and in perpetual motion. The radiance from this gorgeous sphere filled the entire chamber producing a sensation of electronic energy no words can convey. The Light, Life, and beauty of that scene simply overwhelm human powers of description.

We stepped toward the far end of the room and there, side by side, stood three crystal caskets, each containing a human body. As I came nearer, my heart almost stopped beating; for within were the forms Lotus, our son and I had used in an ancient embodiment. I recognized them readily; for Lotus

still retains some resemblance to that body, but the bodies of our son and myself had features of greater regularity and perfect physiques. All showed the full perfection of a type almost like that of the ancient Greek.

They looked as lifelike as though only sleeping. Each had wavy golden hair and was clothed in garments of similar golden fabric to that in the robes worn by the figures in the tapestry. An Ascended Master had but to look upon these bodies to see registered every vital action experienced in any physical embodiment since that time. Thus they acted as mirrors to record passing activities which, however, left their original perfection unchanged.

Each casket stood upon a large base made of the same kind of white onyx as that on which the sphere was placed. These were covered by lids of crystal fitted very tightly in a groove around the edge, but were not sealed. On the cover of all three just over the center of the chest was a *seven-pointed star*. Below it were four hieroglyphics. At the end and placed so it would be just over the top of the head was a *six-pointed star*. On the side just beneath the shoulders were two clasped hands, and farther down nearer the feet was a lighted torch, placed so the flame touched the lid of the casket. This flame remained golden no matter what other colors of light played through the room. At the opposite end was

a *five-pointed star* under the feet. All the emblems were raised as if embossed upon the crystal.

"These bodies," explained Saint Germain, "belonged to you three in one particular life when you left the Golden City to do a special work. Your experiences were so terrific, and yet so much good was accomplished in that life that a Great Cosmic Being appeared and gave the command to preserve them until such time as you could raise your bodies and return to the Golden City. He gave full direction for their preservation, which was faithfully carried out, as you see.

"Now you can all realize how important and necessary it is to keep keenly aware of and deeply centered upon the Master Christ Self Within, that only God's Love, Wisdom, and Perfection may act through your minds and bodies at all times."

At that moment a Dazzling Light and Tremendous Power surged through me, and my God Self spoke.

"Great Master of Light–Parent, Brother, and Friend! O Mighty Son of God! Thou hast indeed an Everlasting Love, and through It thou hast attained thy well deserved Eternal Peace and Mastery over the five lower kingdoms. The Great God Self in these children thou lovest so well shall soon come forth in *Full Conscious Dominion* to give every assistance thou hast so long desired; for each of

God's children has a service to perform which none but he may give. I call forth the Great Light from the very Heart of God to bless you forever."

As these words were spoken, a great shaft of Light blazed forth filling the chamber with points of brilliant prismatic colors. They darted everywhere in the room and all became a blaze of rainbow Light pulsing with Life.

"See! My Son," said Saint Germain, "how perfectly you can let the Great God Self express. You shall soon be able to do this consciously and at will whenever you desire.

"Notice the stalactite effect on the ceiling and the silver-white appearance of the walls. They are all made of *precipitated* substance, and the room is maintained at the same comfortable temperature at all times."

We crossed to the far end of the chamber and stood before a polished archway in the wall. Saint Germain placed his hand upon it, and a door opened disclosing the wonderful white-metal equipment for making the records. "In the age we are now entering," he continued, "much equipment will be brought into humanity's use that has been preserved, and so will not have to come through either the avenue of invention or discovery."

"How is it," I asked, "that everything in this retreat and the mines is kept so free from dust and

the ventilation so good?"

"That," he explained, "is very simple. The Ascended Masters use the same force to cleanse and ventilate by which they produce heat, light, and power. The emanation from any one of them as they pass through the mines or chambers instantly consumes all unnecessary substance.

"It is nearing the second morning since leaving your body, and we must now return." We passed through the audience chamber out of the door at the left of the tube and stood once more under the light of the stars. We came back to my room quickly, and a moment later I was again in my body. Saint Germain stood beside me holding out the familiar crystal cup, filled this time with an amber-colored liquid. I drank it, and felt the vivifying effects pass through every cell of my body.

"Now sleep as long as you can," he said, and disappeared from sight. I must have slept soundly, for I awakened many hours later completely refreshed, my body renewed in strength and power.

CHAPTER V

Inca Memories

THE next ten days passed uneventfully. Through past training, I never went to sleep without holding my attention upon the Great God Self Within and sending a thought of loving gratitude to Saint Germain. On the evening of the eleventh day while retiring, I heard his voice say distinctly:

"Come!"

I had learned to obey that call and immediately stood outside of my body, passed quickly through space, and in a few moments came to the Royal Teton. He stood upon its side awaiting my arrival. This time he had called me to come to where he was. I obeyed and saluted him.

"At your service," I said, stepping to his side, and smiling at me, he replied:

"We have work to do. Let us go!"

I was fully aware of the direction in which we traveled, certain we were going a little west of south. Soon we saw the lights from a city, and Saint Germain directing my attention to them, remarked,

"Los Angeles."

After traveling some distance farther on, we passed over another lighted section, and, this time to my inquiry he answered, "Mexico City."

We then came to a tropical forest and began to descend. Presently we stood upon the old ruins of an ancient temple. "These are the ruins of Mitla in the state of Oaxaca, Mexico," he explained. "You three came into embodiment to give assistance as the Inca civilization reached its apex. With the approval of the Ascended Masters who were directing, you chose to come into the Inca family to give the service needed at that time.

"Here you were born as the children of an Inca ruler who was a strong soul of great growth and illumination. In deep love for his people, he called to the One Supreme God for Light, abundance, and perfection to bless them and the land.

"The Inca's devotion to his Source was very great, for he knew and consciously acknowledged the power of the Great Central Sun. This True Understanding was taught to the Incan people and, because they knew to what the Great Central Sun referred, used the Sun as the symbol of the Godhead. They had *real, inner understanding* and acknowledged the *fullness* of the power from this Great Central Sun–which today we call the Christ; for It is the Heart of the Christ Activity in

the Universe.

"Because of the Inca ruler's devotion to both his Source and the people, his deep desire for blessing and Light to guide and help them was granted, and fourteen from the Golden City over the Sahara Desert responded to give him assistance. You, Lotus and your son were three of that fourteen.

"When you were ten, Lotus twelve, and your son fourteen, all were placed under my care and direction to be prepared and trained for the work you did later. At that time I resided in the Golden City, but after the preliminary attunement had taken place I came to the palace daily and gave the necessary radiation and instruction. This continued for four years before it was revealed to your father.

"The Inca ruler was amazed at the wisdom of his children and constantly poured out his praise and gratitude to God for thus blessing him. When you were fourteen, the same Great Cosmic Master who had taken us all to the Golden City at the end of the embodiment in the Sahara Civilization appeared to the Inca, and told him his petition had been granted in a very *real* manner.

"It was from this time on for over seventy years that the Incan civilization came to its greatest height. I came daily from the time you were fourteen, instructed and attuned the Inca ruler as well as you three. You were referred to as the Inca children from

the 'Sun.' His gratitude, love and cooperation were wonderful indeed, and he was taught to understand and use the Great Cosmic Law.

"Your childhood and youth were wonderful, for no cloud came to mar the beauty of that training. Your son was taught the Laws of Government and the Divine Duties of a Ruler; Lotus the Inner Work, and given the full Law and Consecration of Priestess in the Temple of the Sun. You were taught the Cosmic Laws of the priesthood–also, secretly, the generalship of Armies.

"After ten years of special training in Peru, all three of you were sent north to one of the new colonies of the Incan Empire for the purpose of helping the people to expand their activities and stimulate their progress. You went forth with all the love, honor, and blessing the Inca ruler knew how to give and established the capital of the colony at what is now Mitla in the state of Oaxaca, Mexico–whose glory has come down through the centuries.

"Here you built a great temple under the direction of Those in the Golden City by whom you had been instructed and helped. Lotus was called Mitla in that life, and it was in honor of her that the city was named. Here she served as priestess for more than forty years. It was one of the most magnificent temples of that period, and no expense was spared, for the secret part of it built below the surface of

the earth was to remain and bear witness to that splendid civilization centuries later. You knew this at the time it was built, and certain definite orders were given and fulfilled concerning it because the entire construction was directed by one of the Great Ascended Masters from the Golden City.

"The outer part was made of massive stones, some of which may still be seen today among the ruins. The interior was lined with marble, onyx, and jade. The jade came from a secret source in the Andes Mountains that has never been revealed to anyone. The coloring of the interior decorative work was most artistic and beautiful, the main color scheme being gold, purple, rose and shell pink.

"The Inner Sanctuary was gold with designs in purple and white. The chair in which the priestess officiated was also of gold. Here the Spiritual Power was focused and maintained which radiated out to the empire and its people. With this explanation as a preliminary, we will now enter the subterranean temple in which a room has been preserved amidst the ruins of a once great glory." We went some distance farther away when Saint Germain commanded:

"Stand back!"

He focused a Ray of Mighty Power on a pile of great rocks before us. Suddenly they were thrown in every direction uncovering a cube of rose-colored

granite. He stepped forward and placed his hand upon it. Slowly it turned as if on a pivot, revealing an opening about three feet wide with well-defined steps leading downward. We descended twenty-one steps to a door that seemed to be made of copper, but Saint Germain said it was a combination of metals alloyed so as to make it imperishable.

Pressing on a cube of rock to the right of the entrance, the door swung slowly open and admitted us into a small room. At the farther side was a great archway closed by another massive door. This time he pressed his foot upon a stone of peculiar design in the floor, and the door moved back disclosing a chamber of immense proportions that seemed very much in need of cleansing and ventilation. No sooner had the thought entered my mind than the place became filled with a powerful Violet Light, followed by a soft white haze becoming brilliant as the noonday sun. The cleansing was complete; for everything was fresh, clean, and filled with the fragrance of roses.

As we entered the great room my attention was held by a number of the most remarkable portraits I have ever seen. They were etched on solid gold in colors true to life.

"These," Saint Germain explained, "are also *indestructible.* Five of them are of the Inca Ruler, Lotus, your son, you, and myself–all in the likeness

of the bodies we used at that time. It was only during the Incan period that this particular kind of art has ever been expressed. Through the devotion of Lotus to her own God Flame at that time she attracted a Great Master from Venus who taught her. That kind of art was different from anything known on earth in any age. The Master from Venus only allowed a certain number to be made because this particular type of art was centuries ahead of its time and therefore was not permitted to be used at that period of the world's development. However, it will come forth in the present Golden Age into which we have now entered.

"My Son! Oh, that the people of America could only understand what tremendous possibilities stand before them—waiting, waiting, waiting for them to turn away from creeds, cults, dogmas, 'isms,' and all else that binds and limits by keeping their attention from the Great God 'Presence' within their own hearts! Oh, that they might realize what freedom, power, and Light await their service, dependent *only* on their recognition and use of the Great Loving 'Presence' Within, breathing through them each moment! Know and *feel* the Almighty Control It has over all manifestation! Oh, could they only realize that their *bodies* are the Temples of the Most High Living God Who is Ruler of heaven and earth—that they might know what it means to *love* that Mighty

Self, talk to It, acknowledge It in all things, and *feel* the Reality of That 'Presence' with at least as great a certainty as they do other persons and things! If they could only *feel* the closeness and *reality* of the Great 'Presence' deeply even for a moment, nothing could ever again stand between them and the same Mighty Supreme Accomplishment as Jesus and other Ascended Masters have attained.

"O America! Beloved Children of the Light! let this Great God 'Presence,' Its wisdom and power surge through you *now*, and see how quickly God's Kingdom can and will manifest upon earth. America is the Way Shower among the nations, bearing the Light that heralds the incoming Golden Age. Regardless of her present conditions, 'That Light' shall burst forth and consume the shadows that seek to disrupt her Ideals and Love for the Great God Self."

We then passed through a door at the right where we found more imperishable records, this time of the Incan civilization and the important part it played in that cycle.

"You recalled the process for making these records from the memory of your life fourteen thousand years ago," remarked Saint Germain. "They will be transported to the Royal Teton together with the portraits, for this secret temple has completely fulfilled its usefulness and is now to be dissolved."

Soon Beautiful, Glistening Beings appeared and removed the portraits and records. When they had finished we returned to the entrance and walked some distance away. Saint Germain focused his attention for a few moments upon the position of the secret temple and stood very silent. I felt a sudden stillness grip and hold me motionless. There was a great rumbling like an earthquake. In a moment all was over, and the secret temple which had been the most magnificent creation of its day collapsed into ruins.

I could but gasp at Saint Germain's stupendous power. Truly the Great Ascended Masters are Gods. It is no wonder in the mythology of the ancients that their activities have been brought down to us in the guise of myth and fable. They wield tremendous God Power at *all* times because they hold with unwavering determination to the Great God "Presence," and hence all power is given unto them, for they are All Perfection.

"When Jesus said: 'Verily, verily I say unto you, the works that I do shall ye do also, and greater works than these shall ye do,' he knew whereof he spoke," continued Saint Germain.

"He came forth to reveal the Conscious Dominion and Mastery that it is possible for every human being to attain and express while still here on earth. He showed the Dominion of the Ascended

Master and *proved* to mankind that it is possible for everyone to so call forth his God Self that he can consciously control *all* things human.

"The Great Ascended Masters of Love, Light, and Perfection who have guided the expansion of the Light in humanity on this planet from the beginning are no figment of anyone's imagination. They are *real, visible*, tangible, glorious, living, breathing Beings of such Love, Wisdom and Power that the human mind gasps at the immensity of it. They work everywhere in the universe with complete freedom and limitless power to do *naturally* all that the average individual considers supernatural.

"They are wielders of such power and manipulators of such force as to stagger the imagination of the person in the outer world. They are the Guardians of the race; and as in the world of physical education, various grades of teachers are provided to guide the development of the individual's growth from childhood to maturity and then beyond, preparing him for special work, so do the Ascended Masters of Perfection exist to educate and help the individual, that he too may expand his consciousness beyond ordinary human expression. Thus he develops his superhuman attributes, until like the student graduating from college, the one under the care and instruction of an Ascended Master graduates out of his humanity into the *full,*

continuous expression of his Divinity.

"The Ascended Master is an individual who by Self-Conscious effort has generated enough Love and Power within himself to snap the chains of all human limitation, and so he stands free and worthy to be trusted with the use of forces beyond those of human experience. He feels himself the *oneness* of Omnipresent God–Life. Hence all forces and things obey his command because he is a Self-Conscious Being of free will, controlling all by the manipulation of the Light within Himself.

"It is through the radiation or outpouring of this Light, which is really his own *Luminous Essence of Divine Love*, that an Ascended Master is able to help those who come under his care and direction.

"When such an outpouring to a student takes place, his own Inner bodies, and by that I mean his emotional, mental, and Causal bodies, absorb the Master's Luminous Essence, and the Light within them glows and expands like a spark which one fans into a flame.

"This Luminous Essence has within It the Highest Force in the Universe, for It dissolves all discord and establishes Perfect Balance in all manifestation. The Ascended Master's Body is constantly pouring out Rays of his Light Essence upon the discords of earth, dissolving them as the rays of force which we call light and heat from our physical sun dissolve

a fog.

"The Radiation they pour out to humanity on earth is *consciously drawn energy* to which they give quality and again send it out to accomplish a definite result. In this way they give protection thousands and thousands of times to persons, places, conditions and things of which mankind is totally oblivious, going on its appointed way serenely unconscious of its Protectors and Benefactors.

"In this kind of activity the Ascended Masters are able to change the bodies they function in like one ordinarily changes his clothes; for the cellular structure is always under conscious control, and every atom is obedient to their slightest direction. They are free to use one or more bodies if the work they desire to do requires it, for their ability to assemble or dissolve an atomic body is absolutely *unlimited.* They are All-Powerful Manifestors of all Substance and Energy; for the forces in Nature, which means the four elements, are their willing and obedient servants.

"These Glorious Beings who guard and help the evolving human race are called the Ascended Masters of Love, Light, and Perfection. They are all the word 'Master' implies, because by bringing forth the Love, Wisdom, and Power of the God Self Within, they manifest their Mastery over all that is human. Hence they have *Ascended* into the next expression above

the human, which is the Superhuman–Divinity–*Pure, Eternal, All-Powerful* Perfection.

"The humanity of earth frequently in its ignorance and limitation presumes to pass judgment upon and express various opinions about Jesus and many others of the Ascended Host. That practice is one of the most binding things it can indulge in; for in such activity, the criticism and judgment sent forth in this way simply return to its generator; and thus mankind is bound more tightly to its self-created suffering and limitation. The activity of the Law is that the Ascended Masters, having freed themselves from human limitations, have become a Blazing Outpouring of Light into which no human thought of discord can possibly enter. This compels all destructive thought creation and feeling to return to its sender and bind him still more closely in the chains of his own creation.

"If human beings could see their own thoughts, feelings, and words go out into the atmosphere upon the ethers, gather and gather more of their kind and return, they would not only be amazed at what they give birth to, but would scream for deliverance, and if for no other reason than to blot such creation out of mind, they would with full determination face their own Divinity and enter into It. *Thoughts and feelings are living, pulsating things.* The individual who knows that will use his

wisdom and control himself accordingly.

"Jesus is to mankind gaining its experience on this earth, as the Great God Self within every human being is to the personal or outer self. He revealed the *Master Record* to the outer world, and He is *still* the Living Proof of the individual's ability to free himself from all limitation and to express Divinity as was originally intended; for the first condition in which humanity existed was wholly harmonious and free.

"When some of those individuals who study Life and the Laws of the Universe more deeply than the mass of earth's children become aware of the fact that there are Ascended Masters, they often desire to go to these Great Ones for instruction. While in many instances this is an unconscious upreaching of the soul within to the Greater Light, yet the personal self little realizes in what relation it stands to those Great Beings who are Wholly Divine.

"There is a way by which an intensely earnest and determined student may make contact with one of them, but that can only be through the activity of enough Love and discipline of the personality. If the motive for such contact be for the gratification of curiosity, thinking to prove or disprove the Ascended Masters' existence to merely solve a problem or to convince a doubt in the personality, it will never come about, *rest assured of that;* for the

Ascended Host are never concerned with satisfying the human side of any student. Their entire effort is with the expansion of the God Self Within so that Its Power may be released forcefully enough to snap the limitations in the human self that do not give It a perfect vehicle for use in the mental, emotional, and physical worlds of manifestation. These are the realms of thought, feeling, and action.

"Human weaknesses and limitation simply impair the vehicle that should be trained and kept in the best possible condition as an efficient servant for the use of the Great Inner God Self. The human body with its faculties is God's Temple of Energy which the 'Great God Presence' provides, and through this outer self It wishes to express a Perfect Divine Plan or Design. If the uncontrolled sense appetites and demands of the personality waste the God Energy so the 'Inner Presence' is not given command of the vehicle, It steadily withdraws, the human self loses the power to manipulate mind and body, and the temple collapses into decrepitude and dissolution. We then have the condition the world calls death.

"The person who seeks to contact an Ascended Master in the visible, tangible, living, breathing body without the preparation needed to gradually attune his own outer structure and mind is in the same position a child in kindergarten would be were he to see a college professor and insist on

learning the ABC's under him.

"The Ascended Masters are *really* Great Batteries of tremendous power and energy, and whatever touches their Radiance becomes highly charged with their Light Essence through the same activity that makes a needle kept in contact with a magnet take on its qualities and become a magnet also. All their help and Radiation is forever a free gift of Love. This is the reason they *never* use any of their force to compel.

"The Law of Love, the Law of the Universe, and the Law of the individual do not permit the Ascended Master to interfere with the free will of the individual, except at those periods of Cosmic Activity in which the Cosmic Cycle supercedes that of the individual. It is during these times the Ascended Master may give *more* than ordinary assistance. The earth has entered such a Cycle now, and the greatest outpouring of the Light the earth has ever known is being and will continue to be shed upon humanity to purify it and re-establish the Order and Love that is imperative for the future maintenance of our planet and the system of worlds to which we belong. All that does not or will not come into the action of *order*, *balance*, and *peace* must of necessity pass into some other schoolroom of the universe and work out its own understanding of this Law in some other way than is to be the

expression of the future Life upon our earth.

"There is only one passport into the 'Presence' of these Great Ones, and that is enough Love poured out to one's own God Self and to Them, united with the determination to root out of the human all discord and selfishness. When an individual becomes determined *enough* to serve only the Constructive Plan of Life, he disciplines perfectly his human nature, no matter how unpleasant the task. Then he will automatically draw to himself the attention of an Ascended Master who will take note of his struggles and pour out courage, strength, and Love, sustaining him until he maintains the feeling of his permanent contact with the Inner God Self.

"The Ascended Master knows and sees all concerning the student, for he reads clearly the record which the student has made in his own aura. This reveals the state of the disciple's development—his strength as well as his weakness. The Ascended Master is the All-Knowing Mind and the All-Seeing Eye of God, for from him nothing can be hidden. The one who wishes to come into the visible, tangible 'Presence' of the Ascended Host should understand that unless he makes himself a Radiating Sun of Love, Light, and Perfection which the Master can expand and use as a part of Himself, that he can direct to any place consciously at will, he would be useless, merely a barnacle and drain

upon the Master's work and world.

"If the student has not, be not willing to, or does not discipline the personal self so it is calm in mind, peaceful and loving in feeling and strong in body, he is not material that the Ascended Master can use in the more-than-human work that he does. When the student has not a strong, controlled, well-developed vehicle, he is unable to cooperate with an Ascended Master and thus do work of a kind which is beyond that of ordinary human experience.

"Were one of these Perfected Beings to take a student without such qualities into his field of work, he would be making the same mistake one does in building a machine or home if he constructs it of imperfect material.

"That kind of material naturally could not stand unusual strain under sudden need or prolonged service. Thus it would not be the part of wisdom, Love or mercy to subject anyone to an experience for which he has neither the training nor is strong enough to bear. As the Ascended Masters are the Acme of Perfection, they naturally would not do anything except that which is just, loving and wise.

"The attitude of one who wishes to work in conscious cooperation with the Ascended Host should not be, 'I wish I could go to them for instruction,' but rather, 'I will so purify, discipline, and perfect myself, become such an expression of Divine Love,

Wisdom, and Power that I can assist in Their work; then I will automatically be drawn unto Them. I will love so constantly, so infinitely, so divinely that the very intensity of my own Light will open the way for Them to accept me.'

"My Son, self-correction and control of the forces within the use of human consciousness is not the work of a moment nor a path of ease, lethargy, and self-gratification; for the senses riot within the average human being, and he rebels furiously against the restraint of his lower nature–which is imperative if he is to govern these forces properly within himself, especially in his feelings, so they may be used and act *only* under the conscious Dominion of his God Mind.

"The saying that many are called but few are chosen is very true. All are constantly being called, but few are awake enough to realize the ecstatic joy and Perfection within the God Self and to hear Its Voice in the Light–forever and forever calling everyone back into the Father's House.

"Every individual on earth is free each moment to 'Arise and go unto the Father'–his God Self–if he will but turn his back upon the creation of the human senses and hold his attention on the Only Source in the Universe from which peace, happiness, abundance, and Perfection can come.

"There is a way for all to come into contact

with the Ascended Masters, and that is to *think* upon them. *Call unto them,* and they will answer every call with their own 'Presence' of Love; but the motive for the call must be Love of the One Source, Love of the Light, Love of Perfection.

"If this be real, determined, and steadfast, the student will receive greater and greater Light; for the Light knows Its own and gives of Itself unceasingly, unconditionally, every moment. Ask and ye shall receive–knock and it shall be opened unto you–seek and ye shall find. Call unto the Light, and the Ascended Masters will answer you, for they are the Light of this world.

"Lotus served as a priestess in the temple of Mitla for more than forty years with you and your son. By the combined efforts of you three, the various cities in the colonies were brought to a state of great perfection. You established industries and directed the agriculture until prosperity abounded in the land.

"It was revealed to the Inca ruler when he was to finish his earthly pilgrimage and service in that civilization. It was then he called the three of you home to him. Others were appointed to take your places, and with blessings and Love to your people, you bade them farewell.

"On your arrival home the king was much surprised to find none of you had aged during the

long absence. Your youthful appearance was the result of training received in childhood–and still greater proof that his children had been divinely sent in answer to his prayer. Deep gratitude to the One Mighty God for blessing him, his children, and the people always filled his heart."

At this point as Saint Germain described the Incan embodiments, living pictures began to appear in the atmosphere before me, all in their original color and activity. They lasted for nearly three hours, and he revealed those ancient experiences as a *living reality* in Peru and Mitla.

The Inca ruler called the fourteen from the Golden City together in preparation for the most important event of his earthly pilgrimage. He knew the hour of passing was near, and the affairs of the empire had to be transferred into the control of the elder son, whom he was to appoint his successor at the banquet.

The palace was famous for centuries as the most magnificent building of the period because the king had tremendous resources at his command throughout the entire reign. He lived close to his God Self at all times, and wealth untold flowed into his use. The interior of the palace was most ornate, the private rooms of the royal family being decorated in pure gold, set with jewels–and the symbol of the Sun used wherever possible as a

constant reminder of the God Self Within.

The banquet hall was set with five tables of carved jade resting on white onyx pedestals, each seating twenty people, with the exception of the royal table at which were sixteen, these being the fourteen from the Golden City, the king, and the Master Saint Germain, who was then known as "Son Uriel." The chairs at the king's table were made of gold, slightly canopied with gorgeous ostrich plumes in magnificent colors. In the Inca's chair the plumes were a beautiful violet, in Saint Germain's an intense gold, the daughter's pink, the eldest son's violet, but of a lighter shade than the ruler's, and those in the chair of the younger son white–representing the authority of the priesthood. The plumes in the chairs of the rest of the fourteen from the Golden City were of varying colors, beautiful beyond description, the color in each case representing the office and service that each occupant gave to the empire.

Cloths of a very soft material heavily embroidered with thread of remarkable brilliancy covered the tops of the tables. The entire palace was lighted by self-luminous crystal globes that Saint Germain gave to the Inca ruler when his instruction first began.

The king wore a royal robe of golden, metallic-like fabric with a marvelous jeweled breastplate representing the "Sun." Over this was his robe of

office, made of rich purple fabric, trimmed with magnificent ostrich plumes around the entire edge and deep collar. His crown was a band of diamonds that held three violet plumes at the back. These three plumes in the Inner Life of the ruler symbolized the three activities of the Godhead–Father, Son and Holy Spirit, acting through man as Love, Wisdom, and Power.

The two sons were clothed in garments similar to their father's except for the long robe of state, each wearing the symbol of the "Great Sun" formed by a breastplate of jewels. The crown of the elder son was set with emeralds, and the plumes at the back were violet like the king's, but of a lighter shade. The headdress of the other son was set with pearls, and his plumes were white, another symbol of his office as priest.

The king's daughter was robed in a golden fabric fine as gossamer silk, with an over-drape of opalescent material dazzling to behold that changed color with every movement of the body. She wore a jeweled girdle of diamonds and emeralds with its panel reaching nearly to the floor. On her head was a close-fitting cap of woven material, and around the neck a chain on which hung the symbol of the "Great Sun" set in diamonds, rubies, and emeralds. Her sandals were of gold, also jeweled.

Just as the king left his private chambers on the

way to the banquet hall, a Blazing Light flashed through the rooms–and Saint Germain stood before us looking like a God. The Light about him was almost blinding in its Brilliance, and it took us a few seconds to become accustomed to it.

His beautiful golden hair hung to the shoulders and was held in place by a band of blue diamonds around the forehead. His own Intense Radiance shone through the color of the hair until it looked like sunlight. The piercing, sparkling violet of his eyes contrasted strongly against his skin that revealed the soft pink color of youth and perfect health. His features were very regular, like those of the ancient Greeks.

He wore a robe of marvelous, dazzling white fabric entirely different from anything in our modern world. It fitted the body slightly at the waist, around which was clasped a girdle of yellow diamonds and sapphires with a panel reaching to his knees. On the third finger of his left hand was a ring set with a gorgeous yellow diamond, and on the middle finger of his right a sapphire almost as brilliant–both blazing tremendously because of his own great Radiation, as he had just come from the Golden City.

The king was surprised and overjoyed at his appearance, and making the sign of the heart, the head and the hand, bowed low before him and offered the Master his arm. They proceeded thus

into the banquet hall.

Here the tables had been laid with an entire service of gold, crystal, and jade. The children of the king soon entered and, when they beheld their beloved Master, were almost overcome with joy. However they did not forget the dignity of the occasion and, making the Divine Sign he had taught them, bowed low before their father and Distinguished Guest.

The signal was given and all were seated. The king sat at the head of the table, the Master Saint Germain at his right, and next to him his daughter. The elder son was placed at his left and the younger son next, then the rest from the Golden City.

At the close of the banquet the ruler arose and all gave complete attention. He stood silent a moment, and extending his hand to the beloved Saint Germain, introduced him to the guests. The Master bowed graciously, and the king told them how the Higher Spiritual Law had been taught to him and his children, and how the great blessings which had come to the land and its people were the result of the Master's Great Love. He explained further that the banquet had been given for him to appoint his successor to the throne.

He signaled to the elder son to rise and announced him as their future ruler. Removing the

Royal Robe, he placed it upon the son's shoulders, and Saint Germain, raising his hands above him in blessing, said:

"I bless you, My Son, in the Name and Power of the One Mighty God in man and governing the Universe–whose Supreme Wisdom shall direct you, whose Light shall Illumine you, whose Love shall bless and enfold you, the land, and its people."

Touching the thumb of his right hand to the forehead of the son, the Beloved Master raised his left hand and a Blinding Flash of Light enfolded them.

The king then appointed those who were to take the places of his daughter and two sons in the temple at Mitla. Saint Germain, the king, his children, and the rest of those from the Golden City proceeded into the throne room where the Master turned and again addressed them, saying:

"Beloved Ones of Light! Your brother, the king, will soon pass to his well-deserved rest and higher instruction. Until that time I will remain with you. Your civilization will reach its apex under the rulership of this our beloved brother, and you will need much added wealth to accomplish all that is to be done. In the heart of the mountains not far distant is great treasure of gold and precious stones. The younger son of your ruler has not so far recalled a faculty he used formerly. I will quicken

it into action again, that the requirement of your future activities be supplied." He stepped toward the younger son and touched his forehead with the thumb of his right hand. A tremor passed over the body, and his Inner Sight became opened.

He saw in the mountain fastness a certain location which held such vast wealth he knew they would need no other supply for whatever might be required to produce the things they were to use in the outer activities. The son made obeisance to his Beloved Master and promised that with his assistance, the plan for its use would be fulfilled. Three of the mines which he opened and operated were closed and sealed when the reign of those from the Golden City was finished. They have remained closed to this day.

Archaeologists, in various ways from time to time, are finding evidence and proof of the tremendous height to which this civilization reached and the splendor of its attainment. The fragments of the Incan activities they have discovered so far are of the civilization during its decline, but the day will come when that which was expressed at its apex will be revealed to the blessing, enlightenment, and service of posterity.

The following day messengers were sent to the principal points in the empire announcing the ascension to the throne of the king's son. His

reputation had preceded him from the City of Mitla; for his wisdom, nobility of character, and justice were known throughout the kingdom during the years he served there.

A few days later, the younger son directed the head mining engineer to prepare equipment, men, and supplies for going into the mountains and opening the mine that he had been shown through the use of his Inner Sight.

When they were ready to start, the son remained alone and held his attention fixed steadily on the God Self Within, knowing that he would be directed unerringly in finding the mine, and because of this had no difficulty or delay in going directly to the location shown him in the vision. He put a large number of men to work, and in sixty days had opened the mine to the point where they made contact with the richest gold vein that has ever been located in South America before or since that time. The discovery and operation of that mine has come down to the present day in legend among the people. The younger son returned from his achievement amidst the warm welcome of the people and received the blessings of his father, Saint Germain, his older brother and sister.

The location of the mine was at an altitude of eight thousand feet, and during the time the king's son was there he became highly sensitized, an

activity that *always* occurs at high elevations. Upon his return to the palace, he felt clearly the time had arrived for the Inca ruler to make the great change, and knew his passing was near.

The day arrived for the coronation of the king's son when he was to assume legally and publicly the responsibility and duties of the realm. The royal family asked their Beloved Master and Friend to perform the act of crowning the new ruler, to which he graciously agreed.

Elaborate preparation for the important event had been completed, and the ceremony had progressed to the moment when the crown was to be placed upon the head of the new ruler. All noticed that Saint Germain made no effort to receive it.

Suddenly there came a Blinding Flash of Light, and before them stood a Most Wonderful Being. She seemed to be a girl of only eighteen, but from her eyes and "Presence" shone forth a Dazzling Radiance filled with the Love, Wisdom, and Power of a Goddess. The Light that filled the atmosphere around her was crystal white–sparkling within Itself and scintillating constantly.

Extending her dainty hands to the crown-bearer, she lifted the crown, and with infinite grace placed it upon the head of the king's son, and in a voice that was the very soul of music, said:

"Beloved of the Golden City, I crown you with

Love, Light, and Wisdom of which this crown is the symbol. May your justice, honor, and nobility ever continue. By a Divine Order I shall reign with you invisible to all but those of the Golden City who are here."

The new ruler knelt to receive the crown and the Wondrous Being stooped and kissed his forehead. She then turned to the assembled guests, extended her hands, and blessed them. Immediately a soft, rose-colored Light filled the entire place–It being the outpouring of Her Love to them. She blessed the former king, and turning to his daughter, held her in a fond embrace. To the younger son she extended her hand, and he, kneeling, kissed it with deep reverence.

The new king ascended the throne and bowed to his guests. Offering his arm to the Beautiful Being, he led the way to the banquet hall, and here they celebrated the coronation by a feast. He gave the signal to be seated and then addressed them.

"My greatly beloved people," he said, "I know there is but One Mighty 'Presence'–God–in mankind and the Universe governing all. It is my desire, as it ever has been, to so live that my mind and body are clear channels and perfect expressions of the One Great Indwelling 'Presence.' May you, my friends, my people, our land, and its activity, be always blessed with God's greatest Love, peace,

health, and happiness. May this empire, which is God's domain and of which we are but the custodians, continue in abundant prosperity. The Love of God in me shall always enfold you, and I ask God's Eternal Light to raise you into His Divine Perfection."

As the banquet progressed, the former king grew very pale. The new ruler signaled his brother, who stepped to his father's side and assisted him to the private rooms of the royal family. The king lay down and remained motionless nearly four hours. His children, the Master Saint Germain, and the Beautiful Being remained at his side.

When the final moment of his earth span arrived, the Beautiful Being stepped forward to the head of the couch on which he lay and addressed him, saying:

"Brother Inca, thou hast thought to leave thy form to the action of the four elements, but I say to thee, it shall be Raised, Transmuted and Illumined into that Eternal Temple of God that expresses All Perfection. Thy great service hath freed thee from the wheel of birth and so-called death. Be thou now received by the Ascended Host of Light, with whom thou art forever One."

Slowly the body was raised into its Eternal Perfection, and then completely disappeared. Saint Germain turned to those who stood by.

"My work here is finished," he said, and stepping forward, placed a ring of most unusual design upon the third finger of the king's right hand. Its jewel was a miniature self-luminous globe of some kind of precipitated substance that looked like pearl, and directly within the center was a tiny blue Flame. It was a focus of Light, the same as the globes Saint Germain had given the king's father with which the palace was lighted.

"Accept this," he continued, "from the Master of the Golden City. It is His request that you wear it upon your person always." Bidding them farewell and bowing graciously, he disappeared from sight.

The Inca's three children had perfect physical bodies due to the instruction they had received in childhood from the Master Saint Germain when he came daily from the Golden City to prepare them for their life service to the people. All had most beautiful golden hair and violet-blue eyes. The two sons were fully six feet three inches in height and the daughter about five feet seven. There was a great natural dignity of bearing suggesting the Inner Dominion which they had gained under his instruction. When the elder son ascended the throne, he was sixty-eight years old, yet looked not more than twenty-five. Even at the time they left the earth, none looked more than that age. The new king reigned forty-seven years, living to the

age of one hundred fifteen. The daughter lived to be one hundred thirteen, and the younger son one hundred eleven.

The Incan people of that period were all dark-eyed and dark-haired with skins like the American Indian. Those who incarnated as the mass of the Incan people were not souls of previous advanced knowledge, as was the case in some of the former civilizations such as Egypt, Atlantis, and the Sahara Desert. For this reason, the Great Host of Ascended Masters who assist in expanding the Light within humanity placed the Incan ruler, his children, and the rest of the fourteen from the Golden City in charge of the government and its people, to establish the pattern upon which the later activities were to be molded. They designed a form of government and a plan of development which, if adhered to, would have enabled the entire civilization to reach a great height of outer accomplishment and at the same time receive tremendous Inner Illumination.

As the time drew near to select a ruler from among the Incas themselves to succeed the king and his assistants, great care was taken to choose those whose Inner Growth was most advanced. Fourteen were found to take the places of those from the Golden City. The Beautiful Being had made herself visible to the king every day for forty-seven years, giving advice and assistance through Her Radiation, that wisdom and

strength might be the directing power of the people.

The successors to the king and the fourteen from the Golden City were called into the presence of the much loved and wise ruler, and the Beautiful Being who had been invisible made herself visible to all. The Light about her grew very bright, and she addressed them, saying:

"For over ninety years the Great Ascended Masters of Light have taught, enlightened, blest, and prospered the people and this empire. The example is before you. If you follow it, all will continue to prosper and bless your land. If you do not keep the Love for the One Supreme God Self *first* in your hearts and acknowledge Him *always* as the Ruler of the empire and its inhabitants, decay will set in, and the glorious perfection enjoyed for over a century will be forgotten. I commend you to the care of the Great Supreme 'Presence' in all. May He ever protect, direct, and enlighten you."

Here a visible proof of the existence of the Inner God Self of each human being was revealed to those who were to guide the destiny of the empire during the succeeding years. This same example will again be given to the present people of America.

Then, in the presence of the new ruler and his associates, the king and the fourteen from the Golden City stepped out of their bodies and

revealed the Divine Self of each, *visible* to all assembled. In a few moments the physical bodies disappeared, dissolving in ambient air.

"Thus," explained Saint Germain, "is revealed to you the record of another life, the blessing and achievement which results from loving acceptance of the Supreme 'Presence' of the One God Self Within. Let us now go back to the Royal Teton."

We returned to the entrance and passed forward to the audience chamber. There on its walls were the portraits etched on gold, transferred from the ancient temple of Mitla. We went on to the record room and saw the records carried by the Beautiful, Glistening Beings. Other things too had been brought which I have not permission to reveal.

As these experiences ended, I realized at least partially something of what *real Love* is; for no one can possibly explain the intense feeling of Love and gratitude one has for the Ascended Masters after being permitted the experiences I had passed through since first meeting Saint Germain. It can never be put in words. There is only one overwhelming desire in Life after such contact, and that is to BE what they are.

Then one comes to realize what Jesus meant by the Father's House–and where the home of the Soul really is. Once he has really, even for the fraction of a second, experienced the Ecstatic Bliss

radiating from an Ascended Being, there is nothing in human experience he would not endure or sacrifice in order to reach that height of attainment and work for–in order to express such Dominion and Love also.

One really knows such Perfection is for all of God's children and is as real as reality can be. Even the happiest life lived by the average human being is certainly the husks of existence compared to the Ascended State of these Great Ones. The most beautiful and so-called perfect creation of human beings with all their boasted power and accomplishment is coarse and crude compared to the Freedom, Beauty, Glory and Perfection that is the daily continual experience of everyone who has raised the body as Jesus did.

I was almost overwhelmed by a feeling of gratitude and Love to Saint Germain as it came time to return to my body. He realized how I felt and understood my position.

"My Son," he said, "you cannot receive what has not been earned. You deserve this and much more, which will become evident as we advance. Remember however, what seems mysterious only appears so because it is unexplained. When understood, all unusual occurrences will be found natural and according to Law. The following Truth shall remain engraved on your memory forever.

It is this: Every one of God's children who will acknowledge and accept the 'Presence' of the One Mighty God anchored Within his heart and brain, and feel that Truth deeply many times a day, realizing and knowing God fills his mind and body so full of Light there is no room for anything else, he can be free. The One All-Powerful 'Presence' is the mighty harmonious activity of one's Life and affairs, and if his attention be fixed firmly with determination on this Eternal Truth, no height of attainment is too great for him to reach.

"There is but One Source and Principle of Life to which we should give our undivided attention, and that is the God Self Within every individual. To the Great Harmonious Self the personal self should give conscious recognition at all times and keep in constant Inner Communion with It, no matter what the outer activity of the mind is.

"This One Great Self is the Life Energy flowing through every human body each moment by which all are enabled to move about in the world of form. It is the Wisdom flowing through the mind, the Will directing all constructive activities, the Courage and Strength sustaining everyone, the Feeling of Divine Love with which all force can be qualified as it flows through the individual–the Only Power that can ever accomplish any good thing. It is the All-Victorious, Conscious Dominion over

every condition of human activity when released through the personal self without resistance or interruption.

"This Mighty God Self Within you is the Supreme Ruler of all creation, and the only dependable, permanent and Eternal Source of help in existence. Only through Its Love, Wisdom and Power can anyone ever rise into the Ascended Mastery, for constant, conscious communion with It is Freedom and Dominion over all human creation. When I say human creation, I mean all that is discordant and less than Perfect."

We returned to my body, and as soon as I had re-entered it Saint Germain took my hands and poured a stream of his Divine Energy through me to sustain and give strength. I instantly felt revivified in both mind and body. I sat down, fixed my attention with deep intensity upon my own "God Presence" and offered up a prayer of gratitude for the tremendous blessings I had been privileged to receive. He bowed graciously and disappeared.

CHAPTER VI

Buried Cities of the Amazon

A SHORT time later I was working intently one evening when I heard Saint Germain's voice distinctly.

"Be ready," he said, "tonight at nine o'clock, and I will come for you."

I was alert in an instant, hurried through my work, bathed, and was preparing for an early dinner.

"I will bring you the proper nourishment," he explained; so I waited and entered into the deepest meditation of which I could be aware, recognizing only God's Perfect Manifestation.

Promptly at nine o'clock he appeared in my room wearing garments of Glistening Metallic-like Substance that looked as if made of burnished steel but felt like a combination of very soft silk and rubber extremely light in weight. I touched the beautiful, wonderful fabric and was so fascinated that I stepped forth from my physical body, and was unaware of it until I turned and saw it lying in bed. Stepping forward to a large mirror in the door, I saw *my* garments were exactly like those of Saint Germain. I wondered at this and

did not understand why they were different from the ones in which we had gone forth before. He saw that question in my mind and answered it.

"Try to realize, My Son, that in the Ascended Condition of Life, we are always free to use the Pure Universal Substance for whatever purpose we choose and give it any specific quality we desire for the requirement at hand.

"If we wish to use material that is imperishable, we impose that quality upon the Pure Universal Substance and It responds accordingly. If we wish a form to be manifest only a definite length of time, we give the Substance of which it is composed that quality or command, and the form manifests accordingly. In the present instance we are going to pass through water, and the Radiation from the material in your garment so surrounds your finer body as to insulate you from the natural qualities and activities of the water element.

"Try to think upon this Power which is within you. Call into use the great sea of Universal Substance from which you may draw without limit. It obeys *without exception* the direction of thought and records any quality imposed upon it through the activity of the feeling nature in mankind.

"Universal Substance is obedient to your conscious will at *all* times. It is constantly responding to humanity's thought and feeling whether they realize

it or not. There is no instant at which human beings are not giving this Substance one quality or another; and it is only through the knowledge that the individual has *conscious control* and manipulation of a limitless sea of It, that he begins to understand the possibilities of his own Creative Powers and the *responsibilities* resting upon him in the *use* of his thought and feeling.

"Mankind through the centuries has qualified the Universal Substance with perishability and limitation, and the bodies it uses today are expressing those characteristics. The entire human race has storms of hate, anger, revenge, and many other outbursts of feelings, and the four elements, which have recorded those qualities, return them to man through the world of nature as storms. The people of earth have cataclysms of thought and feeling as resentment against each other, against injustice, against places and things, knowingly and unknowingly sending out the *feeling* of revenge. The great sea of Universal Substance upon which these qualities have been recorded expresses them back to their source—the individual—by means of the four elements, as cataclysms in Nature.

"Such activities are but Nature's ways of purifying and shaking herself free from the contamination of human, discordant thought and feeling, and returning to her pristine condition of God's Purity.

"Every moment each individual is receiving into his mind and body the Pure and Perfect Life of God. Each moment he is also giving quality of some kind to the Pure Universal Substance of God. This quality he alone creates and generates, and he must receive it back into his mind and body; for all things in the Universe move in circles, and thus return unto their source.

"The Ascended Masters have learned the Law of the Circle—The Law of The One. Hence, we impose upon the Pure Universal Substance *only* the quality we wish to use for the special work in hand. If we desire a manifestation to express a certain length of time, we set the time, give the command, and the Substance of which that special manifestation is composed responds accordingly.

"In the case of the records at the Royal Teton and certain retreats throughout the world, it is necessary for our work that certain things be made imperishable in order to be maintained during the centuries. We decree that quality into them, and they record exactly our decree, for Nature never lies. She is a Truthful recorder of the qualities playing upon Her. She obeys us and also obeys man; but there is a certain activity within Her that mankind is either in ignorance of or else stubbornly refuses to acknowledge. For this ignorance and stubbornness, *it pays* and pays and pays continually until the individual personal

self learns and does acknowledge this Fundamental Eternal Truth: It is The Law of The One–The Law of Love–The Law of Harmony–The Law of the Circle–The Law of Perfection.

"When humanity really does learn that Truth and obeys Its Everlasting Decree, the discords of earth and the destructive activities of the four elements will cease.

"There is a Self-generating and Self-purifying Force within Nature that rises and throws off all that disagrees with the Law of The One. This Force or Energy is a *pushing activity* from within out, and is the One Power expanding. If discord is imposed upon Pure Universal Substance, the Electronic Energy becomes temporarily dammed up within it. When such accumulated energy reaches a certain pressure, expansion takes place, shattering the discord and limitation. Thus The Great Life of the One–The Ever-Expanding, Luminous Essence of Creation–God in Action–overpowers whatever seeks to oppose It and goes on Its appointed Way–the Supreme Ruler of the Universe. The Ascended Masters of Light know this and are One with that knowledge.

"Mankind may know it and be at 'One' also–if it only will. It is within the capabilities and possibilities of every individual, for It is the Innate Eternal Principle *within* Self-Conscious Life. All human

beings are Self-Conscious Life. This Principle plays no favorites, and *all* can express Its fullness.

"Within the Life of every human being is the Power by which he can express *all* that the Ascended Masters express every moment, if he but choose to do so. All Life contains Will, but only Self-Conscious Life is free to determine upon its own course of expression. Hence the individual has free choice to express either in the human, limited body or the Superhuman, Divine Body. He is the chooser of his own field of expression. He is the Self-Determining *Creator*. He has willed and chosen to live as Self-Conscious Life.

"When one individualizes within the Absolute, All-Pervading Life, he chooses of his own free will to become an intensified individual focus of Self-Conscious Intelligence. He is the conscious director of his future activities. Thus, having once made his choice, he is the only one who can fulfill that destiny, which is not inflexible circumstance, but a definitely designed plan of Perfection. It is a blueprint which he elects to express in the realm of form and action. So you see, My Son, a human being may at any time determine to rise out of his human qualities or limitations, and if he will give *all* of his Life, his Energy, to that determination, he will succeed. Those of us who have raised the body accomplished the Ascension by giving *all* unto the

God Self *Within*–and hence It expresses through us Its Perfect Qualities–The Divine Plan of Life. Come, let us go."

As we started on our journey, I was conscious of going south and east. We passed over Salt Lake City, New Orleans, the Gulf of Mexico, the Bahama Islands, and then came to a silver ribbon which I knew to be a river. This we followed to its mouth. As we proceeded, the God Voice Within me said:

"It is the Amazon."

"Now be conscious," instructed Saint Germain, "that the God in you is always directing and is Master of every situation."

Just at that moment we began to descend, and in an instant touched the surface of the water. It seemed as firm as solid earth under our feet and I experienced a feeling of surprise at the contact. He explained further that we could go under water quite as well as to remain on top because the garments we wore radiated a protective aura for a considerable distance around our bodies and contained the conditions we needed which enabled us to explore the subterranean strata of earth and things under water.

"This," he continued, "is due to what the scientific world would call an electrical force field around our bodies; but the electronic force with which these garments are charged is of a higher, finer electricity

than that known in your physical world. Someday even your men of science will stumble upon it and realize it has always existed in the atmosphere, but they have not known how to direct and control it for the service of mankind.

"It is much more easily directed by the mind than by physical apparatus of *any* kind, yet it can be drawn and controlled through mechanical means. That which the outer world knows as electricity is but a crude form of the Great Spiritual Energy of Life. It exists throughout Creation. As man raises and keeps his consciousness in contact with his Inner God Self, he will become aware of the gigantic possibilities in the use of this higher power and force. Its service to him is Infinite in the creative work that he can do in all phases of activity."

We then entered the water, passing through it with no resistance at all. I was slightly startled at the novelty of the experience but remembered instantly the admonition to be conscious only of the God Within me as the Master of every condition. Presently we came near the shore and passed over many crocodiles, which saw us but were undisturbed by our presence. Proceeding inland, we came to what looked like the top of a monument.

"This is the top of a sixty-foot obelisk," explained Saint Germain. "There is only about ten feet above ground. It marked the highest point in a city

of importance that was buried during the last cataclysm when Atlantis was submerged. The obelisk is made of imperishable metal and covered with hieroglyphics of that period. Notice, they are very clear, and will remain so because of the indestructibility of the metal. The city was originally built ten miles from the edge of the river, but at the time it was submerged, the mouth of the river was widened many miles."

We rose above the earth and passed forward following the Amazon to a point fifty-six degrees west longitude. There we took observations and then proceeded to a point seventy degrees west. Saint Germain explained that this was the locality for further observation and research. The section he indicated covered the Amazon between these two points and also two of its principal tributaries, the Jurua and Madeira rivers.

"This civilization," said Saint Germain, "was built during the period between twelve and fourteen thousand years ago. The portion of the country we are concerned with is that section reaching from where the Madeira River empties into the Amazon, to a point west where the Amazon touches Colombia and Peru.

"Thirteen thousand years ago the Amazon was held within great dykes of stone. The entire country around it lay at an altitude of at least five thousand

feet, and instead of the tropical climate it has today, a semitropical temperature existed the year round.

"For a great distance in this locality the country formed a tableland, or plateau. Near the mouth of the Amazon were wide beautiful falls. The city in which the obelisk stood was built between the falls and the seacoast, about ten miles south of the river. There were great reptiles and vicious animals to be found in the Orinoco River to the north."

We came to a place near the Madeira River, and Saint Germain continued:

"This is the site of an ancient city, the capital of the empire and most important place in the civilization of that period." Here he raised his hand and it became as clearly visible as any physical city is today.

"Notice," he explained, "how it was built in a series of circles, and the business streets go out from its center like the spokes from the hub of a wheel. The outer circles were pleasure drives built every third mile. There were seven of these, making the city forty-six miles in diameter including the central circle. Thus the business activities did not interfere with the beauty and convenience of the drives.

"The inmost circle was four miles in diameter and within it were placed the executive buildings of the whole empire. The streets were all beautifully paved and constructed eighteen inches to two feet below the surrounding buildings and grounds. They were

flooded every morning and washed thoroughly clean before the activities of the day began.

"Observe the unusual magnificence of the pleasure drives and how gorgeously beautiful were the plants and flowers forming the banks on both sides. One very predominant feature of their architecture was that the top floors of almost all the buildings, especially residences, were built with adjustable domes. These could be opened or closed at will, as, they were constructed in four sections and arranged so as to serve for either sleeping or entertaining purposes. The days were never uncomfortably warm, and at evening the wonderful cool air from the mountains came as regularly as day appeared."

We entered the capitol, an enormous structure of great beauty. The interior was finished in cream-colored marble veined in green, and the floor, made of a dark moss green stone resembling jade in its texture, had been laid so perfectly as to seem almost like one piece. There were large tables in the rotunda of the same kind of green stone as the floor but lighter in shade. These had heavy bronze pedestals placed about three feet from each end. Here Saint Germain again held out his hand and we were among living people moving through the buildings and grounds.

I held my breath astonished; for I saw an entire race of golden-haired people with beautiful pink

and white complexions. The men stood fully six feet two to six feet four inches in height, and the women averaged about five feet ten. Their eyes were a most beautiful violet-blue, very clear and brilliant, expressing great, calm Intelligence. We passed through a door at our right and entered the throne room of the emperor. It was evidently his audience day, for he was receiving foreign and local guests.

"This was the emperor, Casimir Poseidon," said Saint Germain in explanation. "He was truly God Incarnate. Note the kindly nobility of his face and yet the tremendous power within him. He was and is an Ascended Master blessed and greatly beloved. For many centuries in myth and fable his memory was kept alive and the perfection of his kingdom described in epic poems; but as time passes into eternity the memory of such great accomplishments fades and is often forgotten by succeeding generations."

Casimir Poseidon was every inch a magnificent ruler. He was fully six feet four inches in height, well built and straight as an arrow. When he stood he towered above those around him and the very atmosphere seemed charged with Mastery. His golden hair was heavy and hung full to the shoulders. The royal robe was made of a material that looked like violet-colored silk velvet trimmed

in gold, and under it he wore a close-fitting garment of soft golden fabric. His crown was a simple band of gold with an immense diamond in the center of the forehead.

"These people," said Saint Germain, "were in direct contact with all parts of the world through marvelous aerial navigation that had been brought forth for their use. All light, heat and power were taken directly from the atmosphere. Atlantis during this period was in a wonderful state of progress because she had been governed and shown the way to Perfection by various Ascended Masters appearing from time to time and ruling for the spiritual uplift of the people.

"Again and again all the way down the ages whenever a great civilization has arisen, it has been founded on Spiritual Principles in the beginning, and maintained obedience to those Laws of Life during the time of its ascendancy. However, the moment any government or the people themselves begin to drift into lax ways so that injustice and the unclean use of Life become habits, either of officials or the people, disintegration begins and continues–until they either return to the Fundamental Laws of Balance and Purity or are wiped out by their own discord, that the Balance may be re-established and a new start given.

"Casimir Poseidon was a direct descendant of the Mighty Ascended Master Rulers of Atlantis. In fact, the civilization over which he ruled was a child of the Atlantean culture and attainment. His capital city was famous throughout the world for its magnificence and beauty.

"As the rural districts are shown, watch the method by which objects are transported; for the power these people used was generated in an instrument-like box two feet square and three feet long attached to the mechanism of the implement in use. The water supply from the streams was placed under control and its power also utilized.

"There was no need for police or military organization of any kind because of the method by which the people were reminded of The Law–and the wonderful sustaining power that was radiated enabling them to give obedience unto It."

To the east in the park stood a magnificent building. We approached it. Over the entrance were placed the words: "God's Living Temple to Man." We entered and found it much larger within than seemed apparent from the outside. There must have been seating capacity for at least ten thousand people.

In the center of this immense temple stood a pedestal about two feet square and twenty feet high made of a Self-Luminous milk-white Substance that

gave off a White Light with a breath of pink in it. Upon it stood a crystal globe two feet in diameter made of some kind of Substance holding a soft Self-Luminous White Light within. It was very soft and yet so intensely luminous that the entire building was brilliantly lighted.

"That sphere," remarked Saint Germain, "was made of a Precipitated Material enclosing an Intense Focus of Light. It was drawn and placed in the temple at that period by one of the Great Cosmic Masters as a sustaining and Life-giving activity for the people. It continually sent forth not only the Light but an Energy and Power which stabilized their activities and the empire.

"The sphere of Light was focused by the Great Being, and the building erected around it afterward. It was really a Precipitated Focus and Concentrated Activity of the Supreme God 'Presence.' The Great Cosmic Master who established It appeared once a month beside the Light and proclaimed The Law of God, The Law of Government, and The Law of Man. Thus he decreed the Divine Way of Life and was the Focus of the Christ Activity for the people of that Age."

Here Saint Germain stretched forth his hand again, and living, talking pictures of this Great Being passed before us. It is absolutely impossible to describe in words the Glory of that "Presence." I

can only say he was truly the Son of God in Perfect Expression. In a moment I heard the Great Cosmic Master proclaiming "The Law" to the people.

The Record, the Majesty of his "Presence" and Decree are burned into my memory for eternity so clearly do they remain in my consciousness. I give His Decree to you, just as it still stands before me.

"Beloved Children of the One Mighty God! knowest thou not the Life thou art using is from the 'One Supreme Presence'–Eternally Pure, Holy, and Perfect? If thou doest aught to mar the Beauty and Perfection of that One Life, thou cuttest thyself off from the Gifts of thy God. Thy Life is the Sacred Jewel of thy God's Love–the 'Source' of the Secrets of the Universe.

"Thy God doth trust thee with His Own Heart's 'Light.' Cherish It! Adore It! Let It ever expand unto greater Light and greater Glory! Thy Life is the Pearl of Great Price. Thou art the–keeper of God's wealth. See thou use It for Him only, and know thou hast received the Light of Life–for whose use thou shalt give an accounting.

"Life is a continuous Circle, the Principle upon which thy city is builded. If thou dost create That which is like unto thy 'Source' and knoweth His Love and Peace within thee, if thou useth thy Powers of Creation to bless only, then as thou dost move around thy circle of existence, thou wilt know

the Joy of Life, and unto It shall be added Greater Joy. If thou dost not create like thy 'Source,' thine evil shall return unto thee with more of its kind.

"Thou alone chooseth thy destiny, and thou alone answereth to thy God for thy use of 'Life'–thy Being. The Great Law no one can escape. Long have I proclaimed this 'Law of Life.' The Law of 'Thyself' thou art unto thyself, because thou canst always come unto thy God if thou desireth the Perfection of Life.

"I come not always as now to hold thy straying feet upon the Pathway of Truth nor to remind thee of thy Eternal Light, set upon a mountaintop for thy guidance. In a far distant day, I will speak within the Heart of man, and if thou lovest Life, thou wilt call unto Me, abiding in many selves. Let this not confound thee, My Children. If thou wouldst know Me–'The Light'–thou wilt have to seek Me, find Me, and having found, abide within Me *always.*

"In that day, the 'Father-Mother-Son' will be 'One' in the Heart of man. The Son is forever the Door–the Way unto God. In thy mind and in thy heart is 'My Light,' ever reminding thee of My 'Presence'; for in the time to come, I will be present only in 'That Light.'

"Then will I be Wisdom in thy mind to govern the Love in thy heart, that thou mayest be filled with the Peace of the One Life–God. Thy body is

but the instrument of thy Soul, and into thy Soul must stream 'My Light' or thou wilt perish.

"My Light in thy mind is 'The Way' into the Heart of All Light. Only by My Light in thee canst thou expand the Light in every cell of thy Being into greater and greater Being. In thy throat is My Light which is thy power to speak My Words. Through these I always illumine, protect and perfect my children. Words that do not this three-fold mission are not My Words, and can only bring misery when spoken.

"Meditate upon My Light in thy mind, in thy heart, and thou shalt *see* within all things, *know* all things, and *do* all things. Then that which is not of Me can never confound thee.

"I speak these words now, for they shall be engraved upon the tablets of earth and the memory of its children. In the far-off day of which I speak, one of God's children shall receive these My Words and shall give them forth to bless the world.

"In that time, when thou hast fully received 'My Presence' and art letting It always act in thy Life and thy world, thou wilt find the cells of the body thou dost then occupy becoming bright with 'My Light,' and thou wilt realize thou canst continue on into that 'Eternal Body of Light'–the Seamless Robe of Christ. Then and then only, wilt thou be free from the wheel of rebirth. Having traveled thy long

journey through human experience and fulfilled the Law of Cause and Effect, thou shalt transcend all conditions governed by Law and shalt thyself have become 'The Law'–All Love, 'The One.' "

"Such is the Eternal Ascended Body of Christ," said Saint Germain, turning to me, "in which one is able to wield the Scepter of Dominion and be Free. My Son, even now you can ascend into 'The Light of the One,' for the Light is in your mind, the Light is in your heart; and if you will stand in It firmly, you can and will raise your physical body of limitation into your Pure Eternal Body of Light, forever youthful and free, transcending time, place, and space.

"Your Glorious Self stands ever waiting for you. Come into Its Light and receive Eternal Peace and rest-in-action. *It* needs no preparation. *It* has All-Power. Come fully into the embrace of your Light-Self, and that moment, even today, your present body can become Ascended."

As he finished speaking the pictures ceased. We went a short distance farther on and stopped at a place where a large flat stone lay on the ground. As Saint Germain focused his power upon it, the stone raised from the earth and moved aside disclosing an opening with steps leading downward. We descended about forty feet and came to a sealed door. He passed his hand quickly over the door, unsealing it

and revealing certain hieroglyphics. "Center your attention on this writing," he instructed.

I did so and saw the words: "God's Living Temple To Man" stand out clearly on the door before me. There in front of me stood the physical door we had just seen a short while previously in the living pictures.

The door opened and we entered a room under one of the small domes built at each corner. In this were a great number of metal boxes about two feet long, fourteen inches wide, and six inches deep. Saint Germain opened one, and I saw they contained sheets of gold on which the records of that civilization had been written with a stylus.

I realized there must be rooms which had been sealed and preserved under each of the four small domes, and that the large central dome had been built over the Sphere of Light. We found a secret passage connecting the four small rooms, passed on to the second of these and saw the containers filled with jewels belonging to the temple.

The third room contained golden and jeweled ornaments, the throne chair, and other chairs of gold. The throne chair was a striking example of the goldsmith's magnificent workmanship. The back formed into a shell making a canopy over the head of the ruler, and from its sides hung golden drapes made of tiny golden links, each forming a

figure eight. These were looped back against the chair making a delicate and extremely graceful effect.

In the center of the room was a table about fourteen feet long and four feet wide made of real jade, resting upon a golden-bronze pedestal. Near it stood fourteen jade chairs whose feet were tipped with gold, the seats curved and the backs beautifully carved. On top of the back of each chair as though standing guard rested a beautiful phoenix made of gold, the eyes set with yellow diamonds. This design symbolized the immortality of the Soul and the Perfected Divine Being each individual becomes as he rises through the fire of suffering from the ashes of his human creation.

The fourth room contained seven different types of power boxes, as I called them, that received and transmitted the force drawn from the Universal for lighting, heating, and propelling power. The records showed these people were in contact with all parts of the world through wonderful airships. Following this civilization came one known as the Pirua, and after that the Inca, both stretching over a period of thousands of years.

Shortly before the city just described was buried, it reached the height of its glory, and the Great Cosmic Master who had drawn the Light by which it was developed and sustained appeared for the last

time to that empire. He came to warn of impending disaster and would have saved its inhabitants had they heeded him.

He foretold the cataclysm that swept the empire into oblivion before five years had passed and announced it was his last appearance among them. Those who wished to save themselves were instructed to leave that part of the country and were directed where to go–with the warning that the final activity would be sudden and complete.

As he finished the prophecy, his body faded rapidly from sight, and to the consternation of the people, the pedestal and the crystal globe holding the Eternal Light disappeared with him. For a time the populace was disturbed by the forecast of events affecting their empire; but after a year passed and nothing occurred, the memory of His Presence became dulled and doubt began to creep in as to the fulfillment of his decree.

The emperor and those more advanced in spiritual growth left the kingdom and came to a certain place in the western part of the United States where they remained in safety until the change had taken place.

The great mass of the people who remained became more and more skeptical, and after two years, one among them, more aggressive than the rest, attempted to set himself up as emperor.

When the real emperor had left the kingdom, he sealed both the palace and the temple in which the Light had been maintained. The would-be emperor attempted to force an entrance to the sealed temple and fell lifeless at its door.

Near the end of the fifth year at noon on the fateful day, the sun was darkened and an awful terror filled the very atmosphere. At sundown terrible quakes shook the earth and demolished the buildings into unbelievable chaos.

The land which is now South America lost its equilibrium and rolled to the east, submerging the entire eastern coast one hundred and sixty feet. It remained so for several years and then gradually righted itself to within sixty feet of the original position, where it remains today.

That activity caused the widening of the Amazon. Previously the river was eighteen miles wide, deeper than it is today and navigable from end to end. It flowed from what is now Lake Titicaca in Peru to the Atlantic Ocean. In a former time there had been a canal built from the Pacific to Lake Titicaca, and this connecting with the Amazon formed an entire waterway between the two oceans.

The name of the continent at that time was Meru, it having been given the name of a Great Cosmic Master whose principal focus of activity was and is at Lake Titicaca. The meaning of the name Amazon is

"boat destroyer," which has come down the centuries from the cataclysmic period referred to above.

The rolling of the entire continent of South America explains many conditions on its western coast that geologists and men of science have been unable to explain from the scientific data they have discovered up to the present time.

Thus do the great cataclysms of Nature draw the cosmic veil over civilizations of splendid achievement, and only fragments of these come to light as time passes into eternity. This Truth may be doubted by the outer world, but the records of that civilization—now reposing in the Royal Teton—will one day be its proof, reveal its existence and the accomplishment of that former age.

As I was shown these tremendous activities, I wondered why a civilization could be brought forth so wonderful, beautiful, and perfect in every way, and then go down through the terrible destructive activities of a cataclysm. Saint Germain saw the question in my mind and volunteered the following explanation:

"You see," he said, "when a group of mankind is fortunate enough to come under the instruction and Radiation of a Great Master of Light such as this Great Cosmic Being, it is given an opportunity of seeing what the Plan of Life is for humanity and the Perfection it is intended to bring forth

and live in by its own conscious effort. However, unfortunately, and it has been so many times down the centuries, the people will not try to understand Life but let themselves drop into a state of lethargy. They do not exert the necessary effort required to accomplish these things by the power of God within the individual. They begin to lean on the One giving the Radiation. The sustaining power is only withdrawn when the individual ceases to make conscious effort to understand Life and willingly work in harmonious cooperation with It.

"They rarely realize that most of their blessings are the result of the sustaining power from the One giving the Radiation. If a certain group of souls has been taught the Way of Mastery and reminded lifetime after lifetime of their Divine Birthright, the hour arrives when no more assistance is permitted. It is then the Radiation of the Ascended Masters is withdrawn, and those souls are compelled to come face to face with the fact that the sustaining and accomplishing power was not due to their own effort.

"These must understand they can only receive *that* for which an effort is made. In such activity the experiences passed through compel them to make the necessary Self-conscious application; and when that is accomplished, expansion and God-Dominion begin to express.

"There is no failure for anyone who continues to make self-conscious effort to express Dominion of the Divine over the human, because failure only comes when self-conscious effort ceases. All experience through which the individual passes exists for one purpose only, and that is to make him aware of his Source. He must learn who he is, recognize himself as a Creator, and as such, Master of what he creates.

"Everywhere throughout the Universe whenever the power to create is given to a Being, the responsibility of creating is always co-existent with the power. All creation is by Self-Conscious effort, and if the individual upon whom this Great Gift of Life has been bestowed refuses to take his responsibility and do his duty, his experiences in Life will prod him with misery until he does; for mankind never was created in a condition of limitation, and it can have no rest until the Perfection with which it was endowed in the beginning is *fully* expressed. Perfection, Dominion, Harmonious Use and Control of All Substance and Force is the Way of Life–the Original Divine Blueprint for humanity.

"God Within the individual *is* that Perfection and Dominion. It is that 'Presence' within the heart of everyone which is the Source of Life–the Giver of every good and perfect thing. When the individual looks to and recognizes his Source as

the Outpouring of All Good, he that moment automatically starts the flow of All Good things unto him and his world, because his *attention* to his Source is the Golden Key that opens every good thing unto him.

"The Life in every person is God, and only by the Self-Conscious effort to understand Life and express the fullness of good through himself can the discord in the outer experience cease. Life, the Individual, and The Law are 'One,' and so it is unto Eternity.

"Come," he continued, "we will go to a buried city near the Jurua River."

We traveled west and soon came to a slight elevation. Saint Germain extended his hand and again vivified the Etheric Records of those people. The place we observed was the second city of importance in the empire. The one from which we had just come was the focus of spiritual power and activity, while the second we were now to see was the seat of commercial and governmental operations concerned with the physical welfare of the population. Here were located the national treasury, mint, and governmental, experimental, and inventive activities.

Not far distant from this city rose the Mighty Andes, the source of the immense mineral wealth of the empire. I noticed one thing among these people that seemed most remarkable. All were so completely at peace and thoroughly contented.

They expressed quiet and exquisite rhythm as they moved about.

The pictures came to an end, and we proceeded to the only rocky spot visible. Saint Germain touched one of the rocks. It moved aside and we saw a flight of twenty metal steps leading down. These we descended and came to a metal door. We passed through, went down twenty steps more, and found ourselves before a massive, sealed bronze door. He reached to the right and unsealed a square opening in which were metal stops like those of an organ. He pressed two of these, the great mass slowly opened, and we stood in an immense room with everything just as it had been in that far-off time. It had been used as a display room for inventions to which the public had access. All the fixtures were made of metal combined with what looked like opalescent glass.

"This," said Saint Germain, "was made by a fusing process combining certain metals with glass in such a way as to make the metal strong as steel and Imperishable. One man in the present age came very near the discovery of the same process, for he had all but one element–and that would have made it imperishable."

The entire room was lined with the same peculiar metal, and three massive doors led from it. Saint Germain went to a box of stops, pressed three of

them, and all the doors opened at once. We entered the first one and found a passage long and narrow, more like a vault than a room. It was lined with containers filled with discs of gold about the size of a silver dollar, stamped with the head of the emperor and an inscription that read, "God's Blessing to Man."

Entering the second door we found similar containers filled with uncut jewels of all kinds. In the third room the containers were flat and held thin sheets of gold on which were written the formulas and secret processes used in that period.

"Among these," said Saint Germain, "are many formulas and processes which were not used in that former time. They will be given into the use of the present age."

He went back to the box of stops and pressed another. A fourth door opened which I had not noticed before. This led into an arched tunnel or passageway connecting the treasury with the mint. It must have been at least a quarter of a mile long, and at the far end we entered an enormous room.

It was the main part of the mint and was filled with a maze of machinery of most wonderful construction. Among many things I saw were machines used for stamping the gold and cutting and polishing the jewels. They simply fascinated one, so perfect was their operation. Here Saint Germain

showed me a specimen of malleable glass, clear as crystal.

In this room were great quantities of native gold nuggets, gold dust, and gold ingots, weighing eight and ten pounds each. I was speechless at such an amazing quantity of wealth in one place, and Saint Germain, knowing how I felt, remarked:

"It is utterly impossible for such quantities of wealth as you see before you to be released unto the mass of mankind because the selfishness within the commercial world at the present time makes it the height of folly to let humanity waste more of Nature's gifts.

"God and Nature bestow their wealth lavishly upon the earth for the use and blessing of the Souls who incarnate here, but the selfishness and lust for power within the feelings of mankind make them forget the Higher Way of Life and cause man's inhumanity to man.

"The few who rise to control of the mass should have the Intelligence to know that what helps the mass helps the individual most; but if they refuse to recognize this Law, self-destruction follows brought about by their own selfishness. Selfishness and the *feeling* of *power* to control others blind the reason and dull the perception of the outer mind to its own dangers, and such individuals ride headlong to ruin in every case–ruin spiritually, mentally, morally and physically–extending many times into the third and

fourth embodiment following. Only Light can raise the individual above selfishness.

"Only when mankind rises out of the mire of its own selfishness and lust in all its forms can human beings be entrusted with all that God and Nature hold ready for Right Use; but any individual, as he cleanses himself of his own selfishness and lust, may have the fullest use of all these riches when he will use them harmoniously and for the blessing of others. Individuals *can* make themselves ready to be custodians of these gifts; for in the age that is already ushered in, only those will have unlimited use of wealth who have made themselves worthy to be Trusted Keepers and Dispensers of this treasure. God and Nature provide these Gifts for man to use rightly, and Right use alone is the condition on which they may be received." Saint Germain crossed his hands upon his chest and continued:

"Mighty God! Enter so firmly into the hearts of Thy children that they want Only Thee, then none shall want for any of Thy Great Gifts."

He sealed everything as we had found it, and we returned to my body, which I re-entered quickly.

He again gave me the Crystal Cup filled with Living Substance and said:

"My Beloved Son, you will be a very valuable helper, and may God always bless you." With that blessing, he bowed and was gone.

CHAPTER VII

The Secret Valley

ONE morning some time later, I received a strange letter by post asking me to come to a certain address in Tucson, Arizona. It conveyed the idea that the information to be given was of such a nature as could only be explained in person. I considered the extraordinary way in which the request had reached me, and yet felt an Inner Desire to respond to the call.

In a few days I went to the address given, rang the bell, and in a moment the door was opened by a tall slender gentleman about forty years of age with iron gray hair and gray eyes, who stood perhaps six feet one inch in height.

1 introduced myself and he greeted me with a cordial, sincere handshake which revealed unmistakably that his was an absolutely true and dependable nature. His eyes were steady and fearless, and he gave one the impression that he possessed great reserve energy.

I felt an unusual Inner harmony about him and knew it could only mean the starting of a deep and wonderful friendship. He too seemed aware of an Inner something

that made each of us feel attracted to the other. He asked me to come in and be seated.

"You are here," he began, "at my request, and I am deeply grateful, strange as it must have seemed to you. Your address was given me by one of whom I shall speak later. In explanation I have this to say: that I have made some very remarkable discoveries which I must ask you to accept on faith until I can take you with me and prove their truth and reality to you.

"I was advised to get directly in touch with you personally as the only one to whom this should be revealed and with which I am concerned. For a starting point, I shall have to begin with things that occurred twenty years ago.

"At that time I had a beautiful wife. Now I know she had great Inner growth, of which, however, I was not aware. A son was born whom we both idolized. For five years our happiness was complete. Suddenly without any warning or apparent reason, the child disappeared.

"For many weeks we searched and searched and did everything humanly possible to find him, but to no avail. Finally we gave up all hope. His mother never recovered from the shock and five months later passed on.

"She had made a strange request during the last few days of her life that her body be held in the

vault for seven days after her passing and then be cremated. It seemed rather peculiar to me, for at no time had we ever discussed anything in regard to this subject. However, I complied with her wishes. Imagine my surprise five days after her funeral when I received a call from the man in charge of the cemetery saying he had found the vault open that morning and the body gone. No clue to anything concerning the whole strange occurrence was ever discovered.

"Sixteen years later I awakened one morning to find a letter upon the floor of my room addressed to me but with no postmark. I picked it up, opened it, and read the contents–which left me mystified and incredulous. It read:

" 'Your wife and son are living, well, and strong. Soon you will see them. Have patience until that time. Rejoice to know there is no death. At the appointed time directions will reach you in this manner, which you are to follow implicitly. All depends upon your absolute silence. You shall see and receive full explanation of all that has seemed so mysterious. Then you will understand why Truth is far stranger and more wonderful than fiction; for even the most extraordinary fiction is but the record of a Truth that is somewhere in the universe.'

Signed,
'A Friend'

"My Friend, you can imagine my astonishment. At first I did not believe a word of it. The third evening after this I was sitting in front of my grate fire when I heard my beloved wife's voice as clear and distinct as if she were in the room beside me, saying:

" 'Robert, My Beloved! I am alive and well, and our son is with me. We will be so happy when you are with us again. Do not distrust the message. It is all true. You will be brought to us if you do not allow doubt to shut the door. I speak to you through the Sound Ray which you will one day learn to use.' I could stand the tension no longer and said:

" 'Show yourself to me, and I will believe.' Instantly the voice replied:

" 'Wait a moment.' In about three minutes a Brilliant Ray of Golden Light came into the room forming a tunnel, at the other end of which stood my beautiful wife. It was she–unmistakably.

" 'Beloved,' she said, 'seeming miracles have taken place in the midst of your Life for years, but because your attention has not been called in the right direction, we had to wait until this time. Trust the message that will come to you. Then you will come to us, and I assure you a new world will open. To our great love there is no barrier.'

"Instantly the Light Ray vanished and with It the voice. My joy knew no bounds. I could no longer doubt. I felt a relaxation, peace and rest

I had not known for years. Then came weeks of waiting, which I now know was a preparation going on within me. At last the message I longed for so much came, and with it a diagram and directions to be followed.

"I saw this would lead me into the high mountains southeast of Tucson, Arizona. I made preparation to go at once, saying to my friends I was going to do a little prospecting. I took a horse and pack animal, finding very little discomfort and no difficulty in following the directions given. If I could have gone as the crow flies, I would easily have covered the distance in two days.

"Just before sundown of the third day I came to a blind canyon and would have passed it unnoticed if it had not been for the diagram. I had just made camp when it became dark. I rolled up in my blankets and soon dropped off to sleep, dreaming most vividly of waking in the morning and seeing a young man standing nearby looking at me.

"When I did awaken, to my astonishment, there stood the young man in real life, looking at me intently. He greeted me with a beautiful smile, saying,

" 'My Friend, you are expected to follow me.' I noticed he had my things in readiness, and turning without further discussion led the way toward the head of the canyon. After about an hour we came

to a stop because of a cliff that seemed to close the way before us.

"He turned, placed his hands upon the rock and pressed against it. A section of the wall, perhaps ten by twelve feet, moved in to a depth of about one foot and then slid to one side. We entered a tunnel that centuries ago must have been the bed of an underground watercourse. My companion closed the entrance behind us, and as we turned to go forward, a soft radiance spread everywhere so we could see quite clearly. I was astonished at all I saw, but I remembered the admonition I had received in my instruction *to be silent*.

"We continued in the tunnel for more than an hour and finally came to a massive metal door. This opened slowly at my companion's touch. He stood aside and waited for me to pass through. I stepped out into the bright sunlight, almost breathless with delight at the beauty of the scene before me. Ahead of us lay a valley of surpassing loveliness, about a hundred acres in extent.

" 'My Friend,' said the young man, 'you have returned home after a long absence, all of which you shall soon understand.' He then led the way to a beautiful building near the foot of a sheer cliff at the upper end of the valley. As we came nearer, I could see many kinds of fruit and vegetables growing in abundance, among them oranges, dates, English

walnuts, and pecans. A beautiful waterfall poured over the cliff making a limpid pool at its base. The building was a massive one and looked as though it had stood there for centuries.

"We had almost reached it when a beautiful woman in white appeared at the entrance. We came nearer and my beloved wife stood before us, more beautiful than ever. In another instant I held her in my arms, and after all the agony I had been through in those years it was almost more than I could stand. She turned, putting her arm around the young man who had brought me, and said,

" 'Robert, this is our son.'

" 'Son!' was all I could say, so nearly was I overcome by my emotions.

"He stepped forward, put his arms around both of us, and we three stood there for a moment in deepest love and gratitude, happy once more. I suddenly realized it was sixteen years since he had disappeared, and by now he must be twenty-one. He answered my thought, by saying:

" 'Yes, Father, I am twenty-one. Tomorrow is my birthday.'

" 'How can you read my thought so readily?' I asked.

" 'Oh, that is a very ordinary and easy thing for us. It is all quite natural when you understand how to do it, and really quite simple,' he replied.

" 'Come,' he continued, 'you must be hungry. Let us have something to eat.' With their arms around me, we entered the ancient building. The interior was finished in pink marble and white onyx. I was shown to a beautiful room where the morning sun flooded everything with its glorious radiance. I refreshed myself and found a suit of white flannel had been provided for me. I tried it on and it fitted perfectly. This surprised me, but again I remembered the admonition *to be silent*. I went downstairs and was presented to a striking looking gentleman about my own height with large, dark, piercing eyes.

" 'Father,' said my son, 'this is our Beloved Master, Eriel. He is the one who saved the lives of both Mother and me and has trained us all these years until you could be prepared to join us here. It was he who sent you the message and directions to come because the time had arrived for your definite training to begin.'

"We entered the dining room, which was magnificent, and I could not refrain from expressing my admiration. It had been placed at the southeast corner of the building on the main floor and was flooded with sunshine morning and afternoon. The walls were made of heavily carved walnut, and the beamed ceiling inlaid between the beams with motifs in hexagonal design. A solid piece of walnut at least two inches thick resting on an ornately carved

pedestal served as a table and looked as if it were thousands of years old. We took our places around it and presently a slender youth entered. My son introduced him by saying:

" 'This is our Brother, Fun Wey, whom Our Master brought from China when he was an infant at a time when his Life was about to be taken. He is from a very ancient Chinese family and is able to do many wonderful things. He has always wished to serve us, and we are privileged and happy to call him Brother. He is one of the most joyous natures I have ever known.'

"Among the things for breakfast were luscious strawberries with delicious date and nut cakes. We went into the large living room, and the Master Eriel said to me:

" 'At the time your beloved wife, who is your Twin Ray, would have passed on, I saw an opportunity to give certain assistance which would enable her to reach the Ascended State and thus have much greater freedom and wider capacity for service. It was my great privilege and joy to give that assistance.

" 'I opened the casket, restored her to conscious action–and enabled her to raise the body. It had already reached a point of high attenuation because her desire for the Light was very great. It was her intense adoration to and longing for the Light that

made possible her Ascension. I explained this to her the day you thought she had passed on.

" 'All three of you were children of mine in an embodiment of long ago. A great love was generated then which has lasted through the centuries. Her deep love made possible the assistance and raising that has been accomplished at this time.

" 'Your son, who was stolen with the intention of being held for ransom, was brought to this canyon. The two concerned with his kidnapping began to quarrel, and one planned to take the child's Life.

" 'I appeared before them and took him. They were paralyzed by their own fear, and neither ever recovered. Both passed on a few weeks later. If one deliberately takes the life of another human being or determines mentally to take it, he has set a cause into motion that will surely take his own.

" 'A feeling or desire for the death of another person will do the same thing, for it goes forth to the person and then begins its return journey to the one who sent it out. Many times individuals allow resentment against injustice to flash forth with an intense feeling to rid the world of a certain individual. This is a subtle form of the thought of death, and to the one who sends it out, it must return.

" 'Many, many people bring about their own dissolution by this very subtle activity of the human self, for no one ever escapes this Immutable Law.

There are many phases of Its reaction, and it is because humanity indulges in such thoughts and feelings that the race as a whole has been experiencing the dissolution of body after body.

" 'The number of mankind that pass out through physical violence is infinitesimal compared to the deaths brought about by these subtle activities of thought, feeling, and the spoken word. The human race has been killing itself off for thousands of years in this subtle way because it will not learn The Law of Life and obey It.

" 'There is only One Law of Life, and that is Love. The Self-Conscious, thinking individual who will not or does not obey that Eternal, Beneficent Decree cannot and will not retain the physical body, because all that is not Love dissolves form; and it matters not whether it be thought, word, feeling or deed–intentional or unintentional–the Law acts *regardless.* Thoughts, feelings, words, and deeds are each but so much force acting, and eternally move in an orbit of their own.

" 'If man knew that he never ceases creating even for an instant, he would realize through the Presence of God within himself, he could purify his miscreations and thus be free from his own limitations.

" 'He spins a cocoon of human discord around himself and goes to sleep within it, forgetting at least

for a time, that if he can build it, he can also break through. By using the Wings of his Soul–Adoration and Determination–he can break through his self-created darkness. Then he lives once more at the Center of his Being in the Light and Freedom of his God Self.

" 'However, in the activity of you and your beloved family, or shall I say my beloved family, the cloud that has seemed to hold so much of sorrow is now turned inside out and reveals its glorious golden lining. You have now come within the Radiant Splendor of the Light–from which you will never again recede.

" 'In most cases, if human beings knew the wonderful things that are sometimes planned for them, they would unknowingly prevent the approach of this greater good. You have been invited here not only to join your loved ones but to receive definite instruction concerning the existence, use, and direction of the Mighty God Power latent within you. When you understand how to release and control It, anything will be possible for you.

" 'Your loved ones used the Light and Sound Rays in communicating with you. This knowledge with its power will be explained, and you too shall be enabled to operate them consciously and at will. You feel deeply, and when that characteristic is consciously governed, there will come an *awareness*

of the Mighty God Power that stands ready to be released at any instant.

" 'You are to remain here for six weeks of training and then return to the outer world to use the understanding you have received. Come again at any time, for you are now one of us.'

"I can never put into words what those six weeks meant to me. To become aware of my own ability to use the instruction and application of such wisdom astonished me. Soon I began to gain a confidence in myself that made everything much easier. What seems so mysterious and unusual to the human I found natural and normal to this Stupendous 'Inner Presence.'

"I had to realize that I was *truly* the Son of God. As the Son of the Source of all Good, the Limitless Wisdom, Energy obeyed my conscious direction; and when I directed it as does a Master, produced results instantly. As I gained confidence in my own ability to use the Great Law, the fulfillment naturally became more and more rapid. I marvel yet at the Ever-pouring Fountain of Love and Wisdom that streamed forth from this Great Master. We love him with a deep devotion, greater than any love that could ever exist between parent and child; for the Love Tie formed by the giving of Spiritual Understanding is Eternal and far deeper than any love generated through human experience, no matter

how beautiful and strong it may be. He often said to us:

" 'If you will make yourselves an Eternal Fountain of Divine Love, pouring it forth into every place your thought goes, you will become such a Magnet for All Good that you will have to call for help to dispense it. Peace and Calmness of Soul release a power which compels obedience of the outer mind. This must be *claimed* with authority. Our home here in this Secret Valley has been used for over four thousand years.'

"One day, after giving a remarkable discourse on God's Ownership, he looked at me very intently and suggested we take a walk. He led the way to the opposite side of the valley from which we had entered. Near the south wall and running parallel with it from east to west was a ridge beginning at the ground rising to about seven feet in height, extending about two thousand feet in length and then descending to the ground again. As we came closer, I saw it was a vein of white quartz. The Master Eriel stepped to where the vein came to the ground and kicked a piece loose with his foot. I saw it was immensely rich in gold. My human love for gold attempted to surge forth, but the 'Inner Presence' instantly checked it, and with a smile, the Master remarked:

" 'That is well done. Now I have work to do in

Europe and must leave you for the present.' He smiled and was gone instantly. It was the first time he had shown the Full Dominion he possessed and the things he was able to do in this manner. Immediately my son became visible in exactly the same spot where Eriel had been standing the instant before and laughed heartily at my surprise.

" 'Mother and I,' he said, 'can take our bodies with us wherever we choose in the same way. Do not be surprised. It is a Natural Law and only seems strange and unusual because you are not using it as yet. It really is no more extraordinary than the telephone would have been to the people of the Middle Ages. If they had known the Law of its construction, they could have used it then, just as well as we of this century.'

"Since that visit to my family in the Secret Valley I have been there seven times. The last time I returned to the outer world, the Master gave me your address, which accounts for my asking you to come here. He extends the invitation for you to return with me."

My host suddenly realized he had been talking several hours and begged indulgence for taxing my patience. I told him the experiences were so fascinating and I had been so intensely interested that time was non-existent so far as I was concerned. I accepted and was deeply grateful for the Master Eriel's invitation to visit them, and said so frankly. A

moment later a tall young man came into the room.

"Let me present our Brother, Fun Wey," said my host, introducing him; and in the most perfect English, he replied:

"My Brother with the Heart of Light has journeyed far. My heart leaps in ecstasy and joy. My soul feels your serenity and radiance." Addressing my host directly, he continued,

"Knowing you were busy, I am here to serve you."

"It will give us great pleasure to have you break bread with us," said my friend, turning to me, and together we passed into the dining room. Our dinner was delicious, and when finished my host again resumed his conversation, relating many of his personal experiences with Eriel. They were remarkable indeed–that is, speaking from the human side of our consciousness only; but from the standpoint of our Divinity, all was and is supremely natural.

Suddenly a Ray of Light, or rather a Tube of Light, came into the room, and from the conversation, I knew it was my host's Twin Ray speaking. In a moment the Ray was directed to me, and he said:

"Beloved, allow me to present the Brother whom our Master Eriel has requested I meet."

I saw his Twin Ray and heard her as clearly as if she stood in the room beside us. This way of communicating is a wonderfully happy experience, and it is possible to so condense Light as to form

a *tube* in which *sound* and *vision* can be conveyed. It was as *real* as a searchlight.

My host insisted that I make his home mine until the day of our departure into the mountains. We started before daylight the seventh day after our meeting, and it was one of the most memorable experiences of my Life up to that time. All he had told me proved to be true in the minutest detail.

Our arrival at the Secret Valley was a most joyous event, and our happiness was very great. I met my host's Twin Ray and their son, and was then shown over the ancient building where so many students had received the *true understanding* of the Laws of Being and attained their Eternal Freedom.

It was a marvelous sensation to stand where the Great God Power had been focused for so many centuries and the Ascended Masters had made a retreat for some of their work. I sat contemplating the blessings the students had received who were privileged to come there when the Master Eriel addressed me:

"My Son," he began, "you are nearing wonderful liberation. Hold close to the continuous acceptance of your own indwelling 'Master Presence' and you will have just cause for great rejoicing." He extended his right hand and the veil between the visible and invisible was drawn aside.

"I want you to see," he continued, "as we who are Ascended, the sublime and majestic activity of

Our World. Here we continually bear witness as Sons of God–because there is no longer doubt, fear, or imperfection within us."

I shall always remember the joy and privilege that was mine during the days I spent with those wonderful people.

"Every day," said Eriel, "you shall witness the use of the Light and Sound Rays that annihilate time and space, and which mankind is destined to use in the near future as naturally as it now uses the telephone. This is one of the most stupendous activities the individual may learn how to direct. A Light Ray can be drawn and controlled so it may be used as a pencil to write upon metal or in the sky, and the writing remain visible as long as the one directing it desires.

"When the student is strong enough to stand against the opinions of the world of ignorance, then he or she is ready to bear witness to the marvels of the individual activities of God manifested by the Ascended Masters.

"Until he can do this, the power in suggestion and the radiation of doubt from others will disturb him intermittently to such an extent that he many times gives up the quest for Truth. Interruption to the steady flow of instruction is discord. Discord is the wedge and subtle way by which the sinister force on this earth enters the outer activity of a student who has determined to face The Light.

"Such activity is very subtle because it is a feeling and creeps in upon one before he is really aware of its existence. It is persistent beyond belief, and the growth is so insidious that one does not realize what has been done until the momentum is already under way.

"This feeling begins as a slight doubt. A doubt need only be *felt* two or three times until it becomes distrust. Distrust *whirls* a time or two in the emotional body and becomes suspicion, and *suspicion is self-destruction*.

"Remember this, My Son, as you return again to the outer world, and you will find it a safeguard that will carry you through every experience in Life, keeping you untouched by discord. If one sends out suspicion, he will be suspected; for everyone has in his world just exactly *that* which he puts into it, and this Eternal Irrevocable Decree exists throughout the Universe. All impulses of consciousness travel back to the central point that sent them out; *not even an atom escapes*.

"The *real* student of Light faces The Light, sends It before him, sees Its Enfolding Radiance everywhere he moves, and *adores It constantly*. From the doubt, fear, suspicion, and ignorance of the human mind he turns away, and knows only The Light. This is His Source–His True Self."

With these parting words Eriel bade me farewell, and I returned to the daily routine of my outer life.

CHAPTER VIII

God's Omnipresent Power

THE following day I received a communication through which I became engaged in a business activity that required all my time and attention. The mere anticipation of it gave me great joy, and I entered in with much enthusiasm. There came a refreshing, quickening sense–a thing I had never before known in my business experience.

In the course of its progress I came into close personal contact with a man of very dominating character. His entire attitude in business was to gain his desire by force if intrigue failed or he was opposed in any way.

He believed only in the power of his own intellect and human will, and had neither knowledge of nor faith in anything else. At no time did he hesitate to crush or ruin persons or things that stood in the way of his success, and used all means to gain his own selfish ends.

I had met him some three years before the following experience took place, and at that time had felt almost helpless in his presence, so

over-powering was the feeling of domination he continually sent out. Yet I knew in spite of my own reaction to him that his control over others was only force, focused into the outer activity. I was somewhat disturbed as I realized I would have to associate with him. Immediately I sought a way to deal with him by application of the God Law, when the Inner Voice said to me clearly:

"Why not let the Mighty God Within take full charge and handle this condition? That Inner Power knows no domination and is *always invincible*."

I was immensely grateful and completely released everything into "Its" management. I met this man with two others and agreed to go with them to inspect a mining property in a distant state. I felt it to be a very valuable one. The owner was an elderly lady whose good husband had passed on by an accident in the mine some months before.

He had left things in a precarious condition, and our dominating friend had determined to buy the mine at his own price–not an honest one. After a long trip by auto, we reached our destination about two o'clock the second day. We met the owner, whom I realized was a blessed soul–true and honorable.

Then and there I took the determined stand that she should have a square deal and receive full value for

the property. She invited us to a lovely luncheon, and we proceeded to examine the mine. We went through the workings, tunnels, drifts, shafts, and stopings. The more I watched, the more certain I became that something was wrong. The very atmosphere seemed to breathe it to me.

I was certain a rich strike had been made which had not been reported to the owner. I somehow knew the buyer had secretly placed one of the workmen on duty to watch for such an activity, and that during the weeks of watching he had gained the confidence of the superintendent. I realized at heart the superintendent was a good man, but not awakened–spiritually speaking.

As we stood talking to him, my God Self disclosed fully what had occurred. A short time previously as these two were on their inspection of the work, they had come to a spot where the shots had broken into the face of a tunnel leading directly into the heart of the mountain. The blast had broken into a very rich vein of gold-bearing quartz. The superintendent was about to rush out and report it to the owner when the spying workman remarked:

"Wait! I know the man who is going to buy this mine. If you want to continue in your present position, don't mention that strike. I'll see to it you not only stay here as superintendent, but there'll be five thousand in it for you. The old lady'll get

enough to keep her anyway." The superintendent, fearing the loss of his position, had agreed.

In our examination of the mine we came to the end of the main tunnel, and I felt strongly this was the place the rich strike had been made. It had been cleverly covered up and disguised as a loose formation where it was dangerous to work. Such was the report they had made to the woman who owned the mine. As I stood at this place talking with the others, my Inner Sight was opened, and I saw all that had taken place–the rich strike, the covering of it, the offer to the superintendent, and his acceptance. I was grateful to have my feeling verified but knew I must wait. We returned to the owner's residence and negotiations began. The buyer opened the subject by saying,

"Mrs. Atherton, what do you expect for this property?"

"I am holding it at two hundred and fifty thousand dollars," she replied courteously and gently.

"Absurd!" he shouted, "preposterous, ridiculous. It is not worth half that amount." He carried on in this vein for some few moments, blustering as was his habit. It had worked many times before, and he was still following the old line of procedure. He argued and stormed, and ended by saying:

"Mrs. Atherton, you are in a position where you must sell. I will be generous and give you a hundred

and fifty thousand."

"I will consider it," she replied, so cowed by his attitude of domination and bluster that she began to accept his ideas and give in to his arrogant impudence. He saw her waver and immediately began to high pressure the whole situation.

"I cannot wait," he went on; "my time is valuable. You must decide at once or the deal is off."

He drew the papers from his pocket and placed them on the table. Mrs. Atherton looked about helplessly and I shook my head "no" to her, but she did not see me. The contract lay open, and she stepped across the room taking a chair at the table, preparing to sign. I knew if she was to be protected, I must act at once, and going to where she sat I addressed our dominating friend.

"Just a moment," I said. "You will pay this dear lady what her mine is worth or you are not going to get it." He turned his wrath upon me with several very pungent invectives and attempted the same tactics as usual.

"I'd like to know who is going to prevent me having the mine at my price?" he retorted. I felt a surge of the Mighty God Power Within come forth like an avalanche, keeping me unaffected by his tirade of vindictiveness, and I replied:

"God will prevent you."

With that answer, he burst out laughing. He

carried on boisterously, cynically, insultingly. I waited calmly.

"You fool," he began again in another tirade of anger, "you prate about God. Not you nor God nor anything can stop me. I get what I go after, and I get it regardless. No one has ever stopped me yet." His arrogance seemed to have no limit and he revealed himself, mind and body, as the victim of his emotions. His reason was unable to function, as is always the case under any uncontrolled feeling, or it would have warned him to go no further with his insults.

I felt the expansion of the God Power again. This time it came stronger and stronger, until in a tone like a clarion the Mighty Inner Voice of my God Self revealed the Truth of the whole transaction and the deception at the mine:

"Mrs. Atherton," I said, "there has been gross deceit practiced upon you. Your workmen made a rich strike. This man had a spy among them who has bribed your superintendent to remain silent concerning it." The superintendent and the others in the room went white and speechless as my Inner Self continued to expose their treachery. The prospective buyer seemed equal to any emergency and interrupting me in his wild anger, shouted:

"You lie. I'll brain you for such interference." He lifted his steel cane, and as I raised my hand to seize

it, a White Flame suddenly shot forth flashing full in his face. He dropped to the floor as if struck by lightning. Then My Mighty God Self spoke again with all authority of eternity–majestic, powerful:

"Let no one in this room move until given permission!" My outer self, no longer me, but "God in Action" stepped to where the man lay and went on:

"Great Soul in this man, I speak to you! Too long have you been held prisoner by his dominating personal self. Come forth *now!* Take command of his mind and body! Right the many deceptions he has practiced in the present life. Within the hour, this strong outer human creation of discord and injustice which he has built up shall be consumed, and never again shall it deceive or humanly dominate another of God's children. To the outer self, I say: 'Awaken! in peace, love, kindliness, generosity and good will to all that lives.' "

Slowly the color began to come back into the man's face, and he opened his eyes in strange bewilderment. "God in me"–still in charge–took him gently by the hand, and putting an arm under his shoulder, helped him to a large easy chair. Again It commanded:

"My Brother! Look at me." As he raised his eyes to mine, a tremor passed over his body, and in a voice scarcely audible said, "Yes, I have seen. I understand how wrong I have been. God forgive

me." He dropped his head in his hands and hid his face, silent and ashamed. Tears began to drop through his fingers, and he wept like a child.

"You will pay this dear lady one million dollars," My God Self continued, "and give her a ten percent interest in the mine also; for in the strike recently made is at least ten million in gold ore." With deep humility and a strange sweetness, he answered,

"Let it be done now." He requested his men this time–instead of ordering them as was his former habit–to draw up the papers as had been directed. Mrs. Atherton and he both signed, completing the transaction.

I turned to the others in the room and realized from the expression on their faces all of them had been so lifted in consciousness they had seen beyond the human veil, each of them saying:

"Never, so help me God, will I ever attempt to deceive or do wrong to my fellow man again." They had been raised to fully recognize and accept the God Self within *everyone*.

It was late afternoon when this occurrence took place. Mrs. Atherton extended a cordial invitation to remain as her guests overnight and accompany her to Phoenix in the morning for the recording of the papers for the sale. After dinner that night we gathered in the big living room before a large open fireplace. Everyone sincerely sought more

understanding of the Great Cosmic Laws of Life.

They asked how it happened I had come into this kind of knowledge, and I told them of the Master Saint Germain and the way I had met him. I related some of my experiences on Mount Shasta, and how in the course of our conversation in regard to the Great Cosmic Law, he had said:

"My Son, the Great Cosmic Law does not discriminate any more than does the multiplication table if one makes a mistake in its application, or electricity, when one who is ignorant of the Law governing its use tries to direct its force without knowledge of the way to control it.

"The Great Immutable Decrees which forever keep order in the Infinite Realm of manifested Life are all based upon the One Great Principle of Creation–LOVE. That is the Heart, the Source of All, and the very Hub upon which existence in form takes place.

"Love is Harmony, and without it in the beginning of a form, that form could not come into existence at all. Love is the cohesive Power of the Universe, and without it a Universe could not be.

"In your scientific world Love expresses itself as the attractive force between the electrons. It is the directive Intelligence which *wills* them into form, the Power which keeps them whirling around a central core, and the *Breath within the core* that

draws them to it. The same thing is true of each vortex of force everywhere in creation.

"A central core and the electrons whirling around it form an atom. This core of Love is to the atom what the magnetic pole is to the earth and what the spine is to the human body. Without a central core or Heart Center, there is only the unformed Universal Light–the electrons filling Infinity and whirling around the Great Central Sun.

"The electron is Pure Spirit or 'Light' of God. It remains forever Uncontaminated and Perfect. It is Eternally Self-Sustained, Indestructible, Self-Luminous and Intelligent. If it were not, it could not and would not obey 'The Law'–the directing activity of Love. It is Immortal, Ever-Pure, Intelligent Light-Energy, and the only Real, True Substance out of which everything in the Universe is made–The Eternally, Perfect Life Essence of God.

"Interstellar space is filled with this pure Light Essence. It is not dark and in chaos, as has been the ignorant, limited concept of puny, human intellects. This Great Sea of Universal Light that exists everywhere throughout Infinity is constantly being drawn into form and given a quality of one kind or another, according to the way the electrons are held around a central point or core by Love.

"The number of electrons which combine with each other in a specific atom is the result of, and

determined by *conscious thought.* The rate at which they whirl around the central core is the result of, and determined by *feeling.* The intensity of the drawing and whirling motion within the central core is the Breath of God, and therefore the most concentrated activity of Divine Love. Speaking in scientific terms, it would be called centripetal force. These are the determining factors which make the *quality* of an atom.

"Thus you will see the atom is an entity–*a living, breathing thing*–created or brought into existence by the Breath, the Love of God, through the Will of Self-Conscious Intelligence. In this way, 'the Word is made flesh.' The machinery that Self-Conscious Intelligence uses to accomplish this manifestation of its Being is thought and feeling.

"Destructive thought and discordant feeling so rearrange the ratio and rate of speed of the electrons within the atom that the *duration* of the Breath of God within the pole is changed. The duration of the Breath is decreed by the Will of the Consciousness using that particular kind of atom. If that Conscious Directing Will is withdrawn, the electrons lose their polarity and fly apart, seeking their way back–*intelligently, mind you*–to the Great Central Sun, repolarizing themselves. There they receive Love only; the Breath of God is never-

ending, and Order–the First Law–is eternally maintained.

"Some scientists have claimed and taught that planets collide in space. No such thing is possible. To do so would be to throw the entire Plan of Creation into chaos. It really is fortunate indeed that the Mighty Laws of God are not limited to the opinions of some of the children of earth. It does not matter what any scientist, mundane or otherwise, thinks. God Creation is ever moving forward and expressing more and more Perfection.

"The constructive thought and harmonious feeling within a human mind and body are the activities of Love and Order. These permit the Perfect Ratio and Speed of the electrons within the atom to remain permanent, and thus they stay polarized at their particular point in the Universe as long as the duration of the Breath of God within their core is held steady by the Will of the Directing, Self-Conscious Intelligence using the body in which they exist. In this way the quality of Perfection and the maintenance of Life in a human body is *always* under the conscious control of the Will of the individual occupying it. The Will of the individual is *supreme* over his temple, and even in cases of accident, no one leaves his body temple until he wills to do so. Very often pain in the body, fear, uncertainty, and many other things influence

the personality to change its decisions concerning what it has willed in the past, but everything that happens to the body is and will always be under the control of the individual's free will.

"To understand the above explanation concerning the electron–and the conscious control the individual has through his thought and feeling to govern the atomic structure of his own body–is to understand the One Principle governing form throughout Infinity. When man will make the effort to prove this to himself or within his own atomic flesh body, he will then proceed to master himself. When he has done that, all else in the Universe is his willing co-worker to accomplish whatsoever he wills through Love.

"Whoever makes himself willingly obedient unto the Law of Love has Perfection in his mind and world permanently maintained. Unto him and him alone does All Authority and Mastery belong. He *only* has the right to *rule*, because he has first learned to obey. When he has obtained obedience from the atomic structure within his own mind and body, all atomic structure outside of his mind and body will obey him also.

"Thus mankind through thought and feeling has the power–each individual within himself–to rise to the highest or sink to the lowest. Each one alone determines his own pathway of experience.

By conscious control of his attention as to what he allows his mind to accept, he can walk and talk with God Face to Face–or looking away from God, become lower than the animals, sinking his human consciousness into oblivion. In the latter case, the God Flame Within him then withdraws from its human habitation. After aeons of time it tries a human journey once again into the world of physical matter, until final victory is accomplished consciously and of its own Free Will."

I told them of the limitless possibilities which Saint Germain had shown me were before mankind for accomplishment whenever it is willing to accept the "Great God Presence" within every individual as the directing and accomplishing power. The buyer of the mine asked me why I used the word *"acceptance"* so often, and I recalled the words Saint Germain had used in explaining it to me, for he said:

"Even in the outer activity of your Life if you purchase a thing or are offered something marvelous and perfect, if you do not accept it, it would be impossible for you to use or have the benefit from it. So it is with the 'Great God Presence' within us. Unless we accept that our Life is God Life–and that all power and energy we have with which to do anything is God Power and God Energy–how

can we have GOD Qualities and accomplishment in our world?

"As Sons of God, we are commanded to choose whom we shall serve, the Mighty 'Presence' of God Within us–or the outer human self. The gratification of the outer human appetites and sense-demands has one and only one result: misery and destruction.

"All Constructive Desire is really the God Self Within pushing Perfection forward into the use and enjoyment of the outer self. The Great Energy of Life is flowing through us constantly. If we direct It to constructive accomplishment, It brings joy and happiness. If directed to sense gratification, there cannot be anything but misery as a result, because it is all the action of Law–an Impersonal Life Energy.

"Keep before the outer activity of your mind the constant reminder that you are Life–*God in Action* in you and your world. The personal self is continually claiming things and power of its own when the very Energy by which it exists is loaned it by the God Self. The outer, personal human activity does not even own its skin. The very atoms of its body are loaned to it by the 'Supreme God Presence' from the Great Sea of Universal Substance.

"Train yourself to return all power and authority to the Great Glorious God Flame which is your Real Self and the Source from which you have always

received every good thing." We talked until two o'clock in the morning, and then I had to suggest we retire. No one wanted to sleep, but I said to them, "You will sleep in the arms of God," and the next morning they were surprised to realize how quickly they had dropped off to sleep.

We were up at seven and on our way to Phoenix. The recording was completed, and I explained I must leave, as my work with them was finished for the time being. They were all deeply grateful and anxious to know more. I promised to keep in touch with them and give further help as the Master Saint Germain should direct. As I was leaving, the buyer of the mine turned to me and said:

"I don't care what anyone thinks of me, I want to embrace you and thank you from the bottom of my heart for saving me from the ruin of my outer self and for revealing the Great Light." I bowed my head in deep humility and replied:

"Thank God. I am but the channel. God alone is the Great 'Presence' and Power that does all things well." Mrs. Atherton turned to me and expressed her feeling:

"I do praise and thank the God in you for the Mighty Protecting 'Presence,' and never in my Life shall I cease to thank God and you for the Light this experience has brought us all."

"I feel certain we shall all meet again," I replied,

and bidding everyone good-by, turned my face once more toward Mount Shasta, arriving at my lodge the evening of the second day.

Two weeks later I felt a strong impulse to make one more trip to my trysting place with the Master Saint Germain. I started at four in the morning and reached the edge of the dense timber about nine.

The plaintive cry of my panther friend came to my ears before I had gone twenty paces into the woods. I answered quickly. In a moment it came bounding to my side with all the welcome of an old-time friend, and we proceeded onward to our meeting place.

I noticed the panther was very restless and acted as if laboring under some inner agitation. This was most unusual, for it had always been very quiet when in my presence. I patted and stroked the beautiful head, but it made no difference. I sat down and we ate lunch.

"Come on, old boy," I said as we finished, "let's go for a walk." It gave me a long steady look, the most pathetic expression I have ever seen. I could not understand it.

We had gone some distance when we came to a cliff about fifteen feet high, at the top of which hung a projecting rock. Something caused me to look at the panther. The expression in its eyes was wild and fierce. I sensed a sort of tension in

the atmosphere but did not realize what it was. I walked on a few paces farther and felt a chill pass over me. Looking up suddenly, I saw a mountain lion crouched, ready to spring. The next instant it leaped toward me. I threw myself against the cliff, and the lion landed beyond where I had stood. Like a flash of lightning, the panther sprang and the two locked in mortal combat.

No words can describe the terror of the struggle that followed. They screamed, rolled, tore and clawed each other. The lion was considerably heavier, and it seemed for a time as if it would gain the advantage. However, the panther was the faster moving of the two and finally broke away. There was just an instant's pause until it saw a chance, and then with one spring landed on the lion's back and fastened its teeth just behind the ears.

The panther's grip was like steel, and after a few seconds of rolling and twisting, the lion's struggles grew weaker. Finally they ceased altogether. The panther came reeling toward me, its side terribly torn. It looked up at me, all the fierceness gone from its eyes and its energy ebbing fast. There passed an expression of contentment over the face, and suddenly, giving a plaintive cry, it fell over dead at my feet.

I stood motionless and wept silently at the loss of my friend, for I had become almost as attached

to it as to a human companion. The next instant I looked up and beside me stood Saint Germain.

"My Beloved Brother, be not sad or dismayed," he said. "Your contact with the panther had so quickened its consciousness that it could no longer remain in that present body, and the Great Cosmic Law demanded from it some service to you. This it gave in love by saving your life. All is truly well." He touched the thumb of his right hand to my forehead.

"Be at peace," he continued, as the feeling of grief left me and I felt completely relieved. "The Great Cosmic Law is unerring. We cannot receive without giving, and we cannot give without receiving. Thus the Great Balance of Life is maintained.

"I congratulate you sincerely on the service rendered at the mine and your serenity during the occurrence. All concerned with that transaction will become great helpers to humanity.

"Soon you will be called upon to render a far greater service than any you have given so far. In it remember always it is God's Power and Intelligence acting, and your mind and body only the channel. Until you meet with this experience, meditate constantly upon the Limitless Power of God which can express through you at any time."

I asked him what the Ascended Masters' attitude is in regard to the many channels through whom

partial Truth is given forth, and he replied:

"There are many sincere channels. Some have more understanding than others. All are God's children serving to the best of their ability with the understanding they have at present. We may not judge anyone, but we must know and see only God expressing in all. Our endeavor is to bless all activity wherever it is. We see the Inner Light radiating through such activities, and this makes it impossible for us to be mistaken as to whether they are or are not giving forth truth.

"It is the same with individuals. Those who offer their service in the Name of the Ascended Jesus Christ will always receive more than ordinary sustaining power." We had walked some distance when he said:

"Come, I will accompany you home. Place your arm about my shoulder." I did so and felt my body lifted from the ground. In a few moments more I was in my room at the lodge with Saint Germain standing beside me, smiling at my surprise.

"Meet me in seven days," he said, "at our appointed place, for then we will finish our work in this part of the country." He smiled, bowed graciously and slowly faded from sight. The last thing that remained visible as he gradually disappeared were his marvelous, beautiful eyes smiling back at me.

As I meditated each day upon the "Great God Presence Within" for my coming service, I realized more and more how important it is to keep the Attention focused upon "That Presence Only"–no matter what appearances seem to indicate–in order to keep any outer condition from affecting me. In one of Saint Germain's conversations he had stressed particularly the all-importance of keeping my outer self harmonious, and in regard to this had said:

"My Son, you cannot realize how very great is the necessity for harmony in the outer self if the *fullness* of the Inner Perfection and Power is to be expressed in your outer life. The importance of keeping a *feeling* of peace, Love, and serenity in the personal self cannot be emphasized too strongly; for when this is done the 'Mighty God Presence Within' can act without limit in an instant.

"The continual outpouring of a *feeling* of Peace and Divine Love to every person and everything unconditionally, no matter whether you think it be deserved or not, is the Magic Key that unlocks the door and releases instantly this tremendous Inner God Power. Fortunate indeed is he who has learned this Law, for he then seeks to BE *all* Peace and Love. Without It humanity has nothing good, and with It they have all things Perfect. Harmony is the Keynote, the One Great Law of Life. Upon It

rests all Perfect Manifestation, and without It all form disintegrates and returns into the Great Sea of Universal Light."

The following seven days I spent much time in meditation. I felt a greater and greater peace growing within me, until by the sixth day it seemed as if my entire consciousness were like a great calm sea.

On the morning of the seventh day, I left my lodge at four o'clock and reached our meeting place at ten-thirty. I sat down on a log to wait with a feeling of wonderful exhilaration, which I knew to be the result of my meditation. I was so deep within the contemplation of my God Self, I did not hear anyone approaching until a voice spoke to me.

I looked up and saw an old man with white hair and beard, whom I thought at first sight was an old prospector, although his clothing was too clean for that occupation. As he came up to me and held out his hand, that too confirmed my feeling–he was not a laboring man. We exchanged greetings, chatted for a few moments on generalities; then he turned to me and said:

"My Friend, I would like to tell you a story. It won't take long. I haven't told it to anyone for a long time. I would like to try once more."

By that time I began to have a feeling of intense interest. It occurred to me he might be thirsty, and as I reached for a cup to get him a drink from the

spring by which we stood, a Crystal Cup formed within my hand like the one Saint Germain had held out to me several times. The old man looked up and with eyes shining and excited, almost shouted:

"It is he! It is he!"

I did not know what to do, so I insisted he drink. As I looked within the cup, I saw it was filled with the same clear, sparkling liquid the Master had given me. The old man grasped it eagerly, and with an intense expression of the deepest gratitude I have ever seen, drank the contents. He immediately became very calm and quiet, but with it all a deep, intense sincerity. I asked him again to tell me the story, and he began by saying:

"My father was a British officer stationed in the Punjab of India where we made our home. When I was sixteen, he financed a friend who went to South Africa to try his luck in the diamond mines; but my father never heard from him afterward.

"The year I was twenty, a tall, handsome stranger, a man of great wisdom, visited my father at our home. He had come to bring a message from Father's friend.

" 'I bring you news,' he explained, 'from the friend whom you financed four years ago. He met with great success on that venture, in fact became very wealthy. He has recently passed on at the mines and left no relatives. His entire fortune has been left to you, and

in case of your passing, it is to go to your son. If you desire, I will take charge of the matter and have it transferred at once.'

" 'I cannot leave India at the present time,' my father replied, 'for I am on government duty here. I appreciate greatly your offer to take care of the matter for me.' I was standing nearby during their conversation, and when they had completed arrangements, the stranger turned to me.

" 'My Son,' he said, 'when you find the man who will offer you a Crystal Cup of sparkling liquid, you will have met the one who can assist you in raising the body. I cannot tell you more than this, except that you will find him on a great mountain in North America. This may seem vague to you now, but it is all I can say.'

"The stranger left, and a month later, my father, who had ridden out to adjust certain government matters with the natives, was shot and passed on before he could be brought home. I was an only son, and after another month, Mother and I prepared for our return to England. Just before we left the same stranger came again and said he was ready to transfer Father's fortune to me. I explained Father had been shot.

" 'Yes,' the stranger replied, 'when I left two months ago, I knew your father would pass on before my return. I have arranged for the fortune

to be transferred to you, or rather to the Bank of England, for you. Here is money you may wish to use on the journey home–also the papers of transfer and the credentials you will need at the bank. Present them and you will receive custody of your wealth. Much of it is in diamonds of the first quality.' I thanked him and offered to pay for his services but he replied:

" 'Your kind intent is greatly appreciated, but that is already adjusted. I will be happy to accompany you to the steamer at Bombay.'

"The trip revealed to me his great wisdom, and beside him I felt like an infant. I know now that he enveloped me in a Radiation which has stayed with me throughout the years. He arranged for transportation, accompanied us to the boat, and his last words to me were:

" 'Remember the Crystal Cup. Seek and you shall find.'

"After a most wonderful voyage we arrived at Southampton, went on to London, and presented my credentials to the Bank of England. The official to whom I presented them remarked:

" 'Yes, we were expecting you today. Here are your bank and check books.' I looked at them to see how much my fortune amounted to and was amazed to learn a hundred thousand pounds had been placed to my credit.

"Five years later my mother passed on. I transferred one half of my wealth to a bank in New York and began the search for 'the man with the Crystal Cup.' I can never repeat the disappointments, the trials, the sorrow I have been through; but in the face of everything, somehow I could never give up. The thing which seems so strange to me is, while I have grown old in outer appearance, my energy and strength are as great as ever, sometimes I think greater than in my fullest youth.

"In years I am seventy. Today I just wanted to follow this trail, and praise God, I have found you. My desire was so great it was almost irresistible."

"But my good man," I asked, "what am I to do for you?"

"You will know," he replied, "for I know I have made no mistake. In the heart of this majestic mountain is a Great Power. I feel it. Ask God to show you what to do."

Suddenly I felt the Mighty God Power surging forth so strong it almost lifted me from the ground. Making the sign Saint Germain had taught me, I called to God for Light, and raising my hand in salutation, said:

"Mighty God in man and the Universe! We seek Thy Light! We seek Thy Wisdom! We seek Thy Power! Let Thy Will be done in and for this My Brother, who has sought and found me to do for

him I know not what. Thou knowest! Manifest Thy Will through my mind and body, and let whatever is to be done for this Brother–Thy Son–come forth."

As my hand came down it held the Crystal Cup filled with Living Liquid Light. I offered it to him and my Mighty God Self spoke again.

"Drink without fear. Thy search is ended."

He drank the contents without a moment's hesitation. I stepped forward quickly and took both his hands in mine. Slowly and steadily every vestige of age disappeared from him, and the God in me continued:

"Behold! Thou art forever *free* from all earthly limitation. Ascend now unto the Great Host of Light who await Thee."

Very slowly he began to rise from the ground, and as he did so, his human garments disappeared and he became clothed in raiment of glistening white. I let go his hands. Then in a voice of deepest Love he said:

"I shall return to thee, Beloved Brother. Well shalt thou be repaid for this Transcendent Service. Thou wert the only one through whom this could be done for me. Someday thou shalt see why." And with a happy smile, he disappeared on a Radiant Pathway of Light.

As the Mighty God Power Within me receded, I

was so astounded I fell on my knees and offered the deepest prayer of my Life in grateful humility and praise for the privilege of giving such service.

I rose and the Master Saint Germain received me into his wondrous embrace.

"My Beloved Brother!" he said, "I am greatly pleased. Noble and faithful was your attendance upon the Great God Within you. Beautifully did you receive your Mighty God in Action. I do indeed congratulate you. You will ever be held within Our Embrace, even though outwardly you may not always be aware of it.

"You have become a worthy Messenger of the Great White Brotherhood and the Ascended Host. Hold close to your Mighty God Self. Thus you will ever be ready for service wherever and for whatever is required. My Love enfolds you until we meet again. I will keep you informed."

Slowly I wended my way back to the lodge, every step praise and gratitude to the One Mighty God that molds us all into Eternal Perfection.

CHAPTER IX

Venus Visits the Royal Teton

MANY weeks had passed, and the morning of December 31, 1930 came, and with it–the Master Saint Germain.

"Be ready at seven o'clock tonight," he instructed, "and I will call for you. Focus your attention as much as possible on the Glory of God Within yourself, that you may receive the full benefit intended on this Divine Occasion. Remember your Twin Ray and son, for the three of you will be honored guests of the Brotherhood of the Royal Teton at their New Year Assembly tonight."

I spent the remainder of the day in deep meditation. He arrived at seven o'clock, and as I had already placed my physical body in bed, I stepped forth in the one he had prepared for me.

"Tonight," he continued, "an experiment is to be tried which has not been accomplished for over seventy thousand years. We feel perfectly confident of success on this occasion, as all are now well prepared. Come."

We must have traveled at great speed, although I did not realize it, and soon stood on the apex of

the Royal Teton, where the heavy covering of snow made it glisten in the moonlight like millions of diamonds. As we approached the entrance to the tube I noticed a clearing around it for a radius of at least a hundred feet. As we stepped within it the atmosphere felt warm and comfortable. We passed on through the entrance which had been opened for those attending the New Year celebration.

Saint Germain and I entered the great audience chamber and met Lotus and our son, who had already arrived with their escort, Amen Bey. Our joy on this occasion was very great, for we had not been together on the physical plane for some two years; and during that time while working out of the body each had been occupied with his own individual activities which necessitated our being in different channels at the Inner levels.

The great room was brilliantly lighted and the glorious fragrance of roses and lotus blossoms filled the air. The sweetest, most delightful music floated in from everywhere. Many had already come and others were arriving every few moments.

We noticed a large object covered with a golden cloth had been placed in the center of the room, but as no explanation was offered concerning it, we remained silent. Saint Germain presented us to the guests and then led the way into a room filled with rare musical instruments. We saw a great

pipe organ and four harps made of a substance like pearl with posts of gold, the sounding boards and upper parts being constructed of white metal. The high strings on the harps were silver wound, the bass ones gold; and the material of which they were made gave forth a tone that combined the sounds produced by metal, wood and the human voice. The tone of these instruments can only be known by being heard; for they were different from anything which has ever been used in the outer world of music in the West. The sound produced by this unusual material more nearly resembles some of the wonderful tones of the esraj, an instrument used in India.

We saw four violins, also made of a substance that looked like pearl, but the resonance is far beyond that of any known wood. The strings were wound with both gold and silver and produced a beauty of tone almost beyond description. We heard all these instruments played later that evening.

Returning to the Great Audience Hall, Saint Germain showed Lotus and our son the beautiful portraits which had been recently transferred from the temple of Mitla in Oaxaca, Mexico. He escorted them through the record room, where they were shown the evidence of my former observations with him.

For the work being done during this New Year

celebration all members of the Royal Teton were clothed in plain golden robes of gorgeous material with the emblem of the Brotherhood on the left breast embroidered so it looked like dark blue velvet–the same shade as the great panel that formed the Cosmic Mirror.

There were seventy men, thirty-five ladies, and the Presiding Master, Lanto, who is the Blessed Brother in charge of this Retreat. When all had assembled who belonged to this branch, he stepped forward and addressed them saying:

"It is now eleven o'clock and time for our meditation. Tonight let us pour out adoration unto the Great Light, feel at One with our own Divinity for thirty minutes, and during the following thirty minutes know the Oneness of Venus with our earth. All take their accustomed stations and form an elliptic in the center of the room."

For one hour it seemed as though a hundred and six golden figures were united in one breath, so completely were they in unison. At the close of the meditation a joyous burst of music filled the immense hall, and Lanto stepped before the Great Mirror.

He extended his hands and a *tremendous blaze* of Light flashed forth upon it revealing a group of people far in the distance surrounded by golden, rose, and violet Light, *dazzling* in its beauty and

radiance. They drew nearer, and the same glorious, wondrous colors filled the great audience chamber giving everyone a tremendous feeling of uplift and power.

Presently twelve Guests from Venus stood in our midst robed in *white, scintillating garments* surpassing all power of description. There were seven gentlemen and five ladies, all extremely handsome.

Six of the men were at least six feet four inches in height, the seventh fully two inches taller than the rest. The ladies were about five feet ten. All had light brown hair with the exception of the Tall Master, and his was a glorious pure gold. Their brilliant, piercing, violet-blue eyes were beautiful and fascinating.

The Tall Master gave the salutation of the East, touching his heart and forehead with the fingertips of his right hand and bowed low before Lanto. The others also came forward, greeted him and were presented to those assembled. Lanto gave a brief address of welcome, only the following part of which is permitted to be recorded:

"In the 'Presence' of the One Supreme God and those of the Great White Brotherhood assembled here, these twelve Guests from Venus are made Members of the Brotherhood of the Royal Teton."

The Tall Master was made Presiding Master for the evening. He acknowledged the welcome,

stepped to the center of the room and caused the golden cloth to be removed from the objects it covered.

Lo! before us stood the three crystal caskets still containing the sustained bodies of Lotus, our son and myself. They looked as if the forms had just gone to sleep glowing with perfect health. The Presiding Master turned to us and said:

"Are you ready?" and we three answered in the affirmative.

"Then take your places by the containers," he directed.

We obeyed, and immediately a Marvelous Radiance gathered and drew close around the bodies and ourselves, the intensity increasing rapidly until we must have been invisible to the outer sight. In a few moments the Radiance diminished, and to our amazement, the caskets were empty. We stood there clothed in those bodies we had laid aside so long ago which had been sustained and purified by the Flame of Life during these many centuries.

The transformation was amazing and the feeling cannot be described; for we were as much astonished as is the reader. However, the human side of anyone, even at its best, knows so little of the tremendous Wonders existing everywhere around us all the time and the Infinite Possibilities within

every plane of Life–that all things are possible–and the closer we live in Love and recognition of our Divinity, the more of these Wonders throughout Creation will be revealed in our individual lives.

The experiment had proved a success, and as we moved about among the Brothers and Sisters, all congratulated the Master and ourselves upon the accomplishment. They greatly rejoiced that so strange an experiment had become a mighty Truth, many commenting upon how much those bodies resembled the ones of the Visitors from Venus.

The crystal caskets were then removed to their room, and the wonderful musical instruments brought into the audience chamber. Saint Germain played the first number on the great organ, a composition he called "Hearts of the Future." It seemed to me the most delicate, colorful, yet powerful music that ever came from an organ on earth. While he played, the most beautiful colors, gorgeous past description, poured through the atmosphere of the enormous room.

A group played the next number. The Master Saint Germain at the organ, three of the Lady Masters from Venus and Lotus played four harps; two of the Brothers from Venus, our son and I played four violins. When all were in readiness, the words "Souls in Ecstasy" flashed out above

the organ as Saint Germain played the prelude. All entered deeply into the fullness and joy of that marvelous music. The volume and power swelled into such magnitude it seemed as though the beauty and glory of that joy must send forth enough God Consciousness to lift all mankind–yes, even the earth itself into Everlasting Perfection.

There were four more numbers played with the same tremendous power to lift and harmonize everywhere until we felt as if the very mountain would float away. At the close of the music the instruments were returned to their room and the Presiding Master seated all in proper order before the Great Mirror. He took his place at the point of earth's triangle and scenes of wonder from Venus began to appear–he explaining every detail that did not explain itself.

The pictures revealed much of their system of education showing astronomical instruments whose perfection would make the scientific world of today speechless with admiration and astonishment; and geologists' equipment for examining the interior of the strata of the planets of both Venus and earth. We saw inventors and several of their tremendous discoveries surpassing our fondest imagination.

"Many of these inventions," explained the Master, "will come into use on earth in the Golden Crystal Age we have now entered."

Some of the principal inventions that are to be utilized on earth were explained; and could humanity have seen them, it would take heart and be tremendously encouraged in regard to the future. It may be these pictures from Venus will be taken up and described in a separate work later, providing permission can be obtained.

The scenes from Venus finished, and those concerning the earth came on the screen. Many changes were shown to take place in the next seventy years. These affected Europe, Asia, India, North and South America, and revealed to us that regardless of all appearances at the present time, the sinister force attempting to create chaos and destruction throughout the world will be completely destroyed. When that is accomplished, the mass of humanity will turn to the "Great God Presence" within each heart and also governing the Universe. *"Peace shall reign on earth—and man send out good will to man."* This Revelation was stupendous. The closing scenes followed next, and these concerned principally the United States in the next century. The progress and advancement she will make is almost unbelievable.

These things are true, for the Great God Law makes no mistakes and the Revelations of that New Year's night are God's Eternally True Records.

Certain great souls were shown who would

awaken, be raised and added to the Host of Ascended Ones to carry forward this great progress. The Presiding Master then reminded those present of the Blessed Kumaras and in a voice filled with Love and Adoration gave the following explanation in tribute to them.

"The Seven Kumaras, whom some Inner students have known as Lords of the Flame from Venus, were the Only Ones from this entire system of planets who of their own free will and infinite Love offered to guard the children of earth and assist their upward progress. They came and gave *transcendent help* here at the most critical period of earth's growth. It was the time of initiation that is most dangerous in the Life of a planet and its humanity; but through their protection and guidance the goal was attained and mankind has been enabled to reach the Greater Heights.

"Many of the Brothers understand that every twenty-five hundred years the Kumaras release a greatly increased outpouring of Cosmic Love, Wisdom, and Energy. This Blazing Light and Transcendent Radiance flooding the earth and its inhabitants, interpenetrating all, is *a tremendous lifting process* and gives a forward impulse to the growth of the entire earth as well as its humanity.

"Just preceding each of these Great Outpourings extraordinary physical disturbances occur and

general unrest is felt throughout by the people. Such disturbance is due to the discord that has accumulated during the last of the preceding period. The generation of such inharmony is due always to the wandering away from the fundamental Principle of Life, and the human sense disturbance thus created pollutes the outer activity of mankind, the earth, and its atmosphere.

"It is to cleanse this and bring humanity back to the Original Purity of Life that cataclysmic action takes place. It is following these periods the Kumaras release an *enormous outpouring* of LIGHT to illumine and strengthen earth's children, ultimately enabling them to make the Supreme Attainment.

"We are approaching another such period, and this time the release of the Great Cosmic Love, Wisdom, and Energy–the Mighty Rays of Light–will not only quicken the minds of the race, but the atomic structure of earth as well, making it more Luminous in our solar system. Never since these Great Lords of the Flame came to earth have conditions permitted such a Great Outpouring to take place as will occur ere long. Many who have seemed to become hardened by their former activities will awaken, as it were, almost overnight, and feel the Nearness of the Great God 'Presence' within each heart. Many who have been meek and humble but holding close to the 'Inner Presence'

will suddenly blaze forth, amazing themselves as well as others by the Transcendent Light they will manifest. All will be done by the Power of God Love, and humanity will truly begin to realize that it is the height of folly for one part of God's Creation to war against another part.

"The desire to bless others instead of themselves will almost involuntarily enter into the hearts of mankind and send forth a Light that will illumine the rest of the Way to Perfection.

"Selfishness alone holds the children of this sphere in the bondage and misery which have been allowed to express upon earth; but when the Light of the Christ expands the Love in the Heart, selfishness flees and returns to the sea of forgetfulness.

"Great natural physical changes will take place. Two Great Centers of Light will pour forth their blessing to humanity: one, the Glorious Glistening Presence of Shamballa in its Dazzling Radiance; and the other will appear in the United States, not however, where any so far have been led to believe but at a point which has not yet been indicated to outer channels of the world.

"During the present activity of assistance and intense outpouring of Light by the Great Ascended Host who assist the children of earth, hundreds of humanity will find their present physical bodies being quickened by the rapid raising of the vibratory rate

and, as this is completed, will realize that human, physical limitation and discord have dropped away like an old worn-out garment; and that they, the Children of Light, stand forever at *one* with the Flame of Life Everlasting and the Perfection of Eternal Youth and Beauty, a *visible, tangible reality.*

"Beloved Children of Earth, you stand upon the Threshold of the Ages. Its door is being held open by the Great Ones of Love who ever invite you to walk consciously by their side in the Light. No matter what the activities in the world without, walk with the Light and in the Light, regardless of appearances. Then will you find a Master of the Light who has trod this selfsame path before you ever watches and stands by your side revealing the True Way.

"The cycle changes and we enter a New Dispensation that brings with it a safer, more powerful, and yet rapid means by which the one climbing the Path to Attainment is enabled to hold *permanent contact* with the Great Cosmic Light.

"In this New Order the discipline for the neophyte will be the focusing and maintaining of his attention entirely upon the three highest centers of the body, and he will do all his work at these points. Only the centers in the heart, throat, and head will receive conscious consideration and attention.

"The entire effort of the aspirant will be to hold his attention upon these, for only by looking away from the lower centers will he ever be able to rise out of misery and limitation. The center at the top of the head is the highest focus in the human body, and there the Silver Cord of Liquid White Light from the Great Source of Creation enters.

"When the attention of the mind is held steadfast upon this, the Door of the Soul is opened and the Threefold Activity of the Pure White Light encircles the waist just below the solar plexus, cutting off forever the destructive activities of the animal nature in man. This permits his soul to leap forth into its Complete Divine Activity, united once more with the Perfection of Its Source, and Eternally thereafter Master of all human creation–which means the discords of earth. Sincere students should meditate frequently upon the Perfect Action of the Golden Light within the head, for It will illumine and teach the outer mind all good things. This is the Light of the God Within. One should *feel* It filling his entire consciousness, his body and world. This is the 'Light that lighteth every man that cometh into the world,' and there is no human being in existence who has not some of this Light within him.

"There are many throughout the earth who are rapidly awakening and feeling the Mighty Surge of this Inner Light pouring Itself out through them

and thus finding greater expression. If these will rigidly keep themselves harmonious, unflinchingly hold their attention upon the God Self Within, accept and visualize the *full activity* of Its Dazzling Radiance, they can encircle themselves in the Threefold Activity of the White Light. This cuts off the discordant creation of the outer world.

"Beloved Brothers and Sisters, it will be our great joy and privilege to meet with you in January and July of each year here in your Retreat because of the Nearness and Outpouring of the All-controlling God Light which will soon be flooding America from shore to shore.

"Now while the crystal containers are being brought in, let us meditate deeply upon the Oneness of Venus and the earth, the Omnipresence of Divinity abiding in form."

We remained in deep silence for about ten minutes and then the Presiding Master instructed us three to take our places beside the caskets. He made the Sign of the heart and head, crossed his hands upon his chest, and called unto the "God Presence":

"Thou Mighty Creator of the Universe and all it contains, Thou One Omnipresent God, we await the Manifestation of Thy Great Beneficent Presence."

A soft, rose-colored *luminous essence* enveloped ourselves and the containers, drawing close about us. Suddenly A Great Shaft of Dazzling White Light

entered the enveloping Radiance, remained three or four minutes, and gradually faded from sight.

As we looked into the containers, the three bodies were resting within them. Observing each other, we were again clothed in the bodies the Master Saint Germain had prepared for us–and because of which we were enabled to visit the Great Assembly in the Royal Teton.

The Presiding Master blessed those assembled, the Brotherhood of the Royal Teton and all upon earth, promising to be with them again the following July.

The Twelve from Venus then took their stations upon the circle in the floor of the audience hall.

The entire mountain trembled with the Mighty God Power which they drew, and the Light thus focused took the form of an enormous eagle, its body violet and the head and feet of gold. The entire room became filled with a Blazing White Light forming one end of a Great Pathway of Luminous Essence on which the Twelve Radiant Beings returned to their home on Venus.

The Supreme Vision on which those assembled gazed surpasses anything words can describe. As the Great Vibratory Activity was lowered, a Wondrous Crystal Radiance illumined the Cosmic Mirror and the words, "Peace and Illumination to all the earth and its inhabitants. Blessings from Venus," appeared across its surface.

Each guest touched his heart and forehead, crossed his hands upon his chest, and bowed in acceptance of the Mighty Outpouring. All passed before Lanto and received individual instruction for the work of 1931, then sat in deep silence and adoration unto the Great Light. At the end of the meditation a glorious burst of music filled the great hall, and heads were bowed to receive His Blessing. His voice—clear, beautiful, and resonant—rang out:

"There is nothing Supreme but God. There is nothing Eternal and Real but The Christ. There is nothing True but The Light. These Three are 'The One.' All else is shadow. Remember, shadows hide, shadows mislead, and shadows make mankind stumble.

"He who walks the Pathway of Light stands *true* to the Christ and looks always Godward, lives in a world of his own untouched by the seething vortex about him, yet ever working in it while the shadows last. These he turns his Light upon and thus compels them to pass into the sea of forgetfulness.

"There is no happiness apart from facing and adoring the One Great God, The Source of All. There is nothing permanent but Christ. There is no way to proceed through the Universe but on the Pathway of Light.

"If you will arm yourselves with this Eternal

Understanding of Life, swear allegiance only to your Source–God–stand *true* to the Christ, and carry the Light, you will accept as your code of honor the *obligation* 'To love and bless Life,' no matter in what form it may be expressing wherever you meet it. This is the Eternal Plan of Existence; and whosoever knows That may proceed anywhere in the Universe, explore all it contains and yet be untouched by whatever shadows mankind has created in its forgetfulness of Whence It sprang.

"GOD alone is Great, and only unto the Source of all Greatness does *all* Glory belong. He who knows only his Source and refuses aught else is wise indeed, for he becomes Permanent Happiness and is Master wherever he moves.

"Then and then alone may he become Creator of Worlds. Upon these he bestows his happiness, and in this activity really lives the Divine Plan for all.

"Members of the Brotherhood of the Royal Teton! reveal thou This Plan to the wayward children of earth. Shed Thy Radiance upon their self-created shadows, and point them The Way to The Great Central Sun–our Transcendent Source. My Light enfolds you, My Power upholds you, and My Love breathes through you to those who seek their home in 'The Light.'

"Beloved humanity, may this same Mighty Radiance shed its Light to illumine, heal, and bless

you with that Divine Love which will ever hold *all* close in the Eternal Embrace of 'The One Supreme Light.'

"America, God bless you, and clothe you *now* with the Everlasting Shadowless Light."

"I AM" ACTIVITY
OF
SAINT GERMAIN FOUNDATION

The "I AM" Activity represents the Original, Permanent, and Highest Source of the Ascended Masters' Instruction on the Great Laws of Life, as first offered to the western world by the Ascended Master Saint Germain, through His Accredited Messengers, Mr. and Mrs. Guy W. Ballard.

In the early 1930s the Ballards established Saint Germain Foundation and Saint Germain Press, Inc. which under Saint Germain's Guidance, have expanded into worldwide organizations that offer to mankind the true Ascended Master Teachings on the Great Cosmic Word, "I AM"! Saint Germain Foundation strives to keep the "I AM" Ascended Master Instruction in Its pure, unadulterated form, free from any human interpretation, personal monetary gain, or proselytizing, as It is a Gift from the Great Ascended Masters and Cosmic Beings to bring Illumination and Perfection to mankind.

Hundreds of "I AM" Temples and Sanctuaries exist throughout the world, where the Teachings are applied in "I AM" Decree Groups. The Books of the Saint Germain Series are available in many libraries, bookstores, or directly from Saint Germain Press (address below). For further information, please contact:

DEDICATION

THIS Series of Books is dedicated in Deepest Eternal Love and Gratitude to our Beloved Ascended Masters, Saint Germain, Jesus, Nada, the Great Divine Director, our Beloved Ascended Messenger Guy W. Ballard, The Great White Brotherhood, The Brotherhood of the Royal Teton, The Brotherhood of Mount Shasta, the Great Ascended Masters from Venus, the Great Cosmic Beings, the Great Angelic Host, the Great Cosmic Light, and those other Ascended Masters whose Loving Help has been direct and without limit.

TRIBUTE

THE hour is at hand when the humanity of this Earth must give more recognition to the Activity of the Great Ascended Masters and Angelic Host who are constantly pouring out Their Transcendent Light and Assistance to mankind. There must come more conscious cooperation between the outer physical life of humanity and these Great Beings who are the Protectors and Teachers of the human beings in this world.

There is a Special Group of these Great Ones working at the present time with America to stabilize and protect Her. Among Them, the Ascended Masters Saint Germain, Jesus, Nada, Cha Ara, Lanto, Cyclopea, the Great Master from Venus, Arcturus, the Lords of the Flame from Venus, and one known as the Great Divine Director are working here very definitely by establishing Tremendous Pillars and Rays of Light in America. They are also focusing Great Outpourings of Light at certain other points on the Earth.

They pour out Their Rays of Light through the consciousness of all individuals who will accept Them, harmonize their feeling, and turn their attention unto the "Mighty I AM Presence." If the people will

acknowledge this Great Host of Perfected Beings and call Their Ascended Master Consciousness into the Hearts and minds of mankind, They can give Assistance and Protection without limit to those who make the Call, and through them, reach the rest of humanity.

Only the Ascended Master Consciousness, which is the "Mighty I AM Presence," can ever reestablish order and security upon this Earth. Only Its Consuming Flame of Divine Love can ever dissolve the fear in the feeling of the people. Only as the individual turns his attention to these Great Ascended Masters and asks Their Blessing upon the rest of mankind is the connection made and the Door opened by which Their Help can come through, releasing Its Perfection unto humanity and the Earth itself.

The Ascended Master always points each one to two things: first, the individual must look unto his own Divinity, God, the "Mighty I AM Presence," for all good, keeping his attention upon It and giving It his *first and greatest Love;* second, he must harmonize his feeling by pouring out Divine Love as a FORCE to bless everywhere. To the person who will do so, these Great Beings will give Assistance without limit, for They work only and always through the Divine Self of the individual.

The Beloved Ascended Master Saint Germain is the Emissary from The Great White Brotherhood

who of His own Volition and Great Love is doing certain Protective Work and bringing certain Illumination into America at the present time. He speaks of Her often as "The Jewel of My Heart–for whom I have labored for centuries." Beloved Jesus has offered to give a Special Service in connection with Beloved Saint Germain and has said: "These Rays of Light which We pour out are very Real, Tangible Currents of Energy, containing within Them all good things, and blessing you according to your acceptance."

As in the days of old and in all Golden Ages, these Great Perfected Beings who have attained the "Victory" through human embodiment, will walk and talk face to face with mankind upon Earth. They will explain the Original Divine Way of Life once again, that human concepts may be cleared and Eternal Truth be revealed.

This Book carries the definite Radiation of the Ascended Masters who are working for America at this time, and is charged with Beloved Saint Germain's Ascended Master Consciousness of Freedom and Victory in the Light.

Human fears and limitations shall be cut away; the Earth shall be set into Divine Order once again, and filled full to overflowing with "The Light of God That Never Fails."

FOREWORD

THIS Book contains the second group of Experiences which I was privileged to have through the Love and Assistance of the Beloved Ascended Master Saint Germain.

In the first Book, *Unveiled Mysteries*, He revealed many, many things which have been held in secret and sacredly guarded for many centuries.

In *The Magic Presence* my Experiences were the results of applying the Knowledge He had previously revealed.

In the various Retreats of The Great White Brotherhood which we visited, I was shown the Tremendous Work They do for mankind through Their Messengers who are sent into the outer world. The good They constantly pour out to this Earth and its humanity is beyond any power of words to describe.

All They accomplish is done through Divine Love, for They never use a destructive force at any time and never intrude upon the Free Will of the individual. Those who are Their representatives give everything as a glad free service of Love, and know no such thing as failure.

The purpose of this Book is to reveal to the individual the whereabouts of his own Divine Self,

God, the "Mighty I AM Presence," that all who desire may return to their Source, receive their Eternal Inheritance, and feel once again their Divine Self Respect.

If the student or reader of this Book will feel himself going through these same experiences, asking the Ascended Masters to illumine his consciousness by the Light of the Cosmic Christ, he will receive that Outpouring of Love which is the Open Door to all good things, and which sets mankind free.

America is blest beyond any other part of the Earth, and because of Her Great Blessing, She must pour out Great Light. She is the "Cup" through which The Great White Brotherhood can ever expand the Great Divine Love of the Universe and set mankind Free. For that reason, Their Work in America is *of very great importance;* and if it be necessary for Her Protection, then "that 'Light as of a Thousand Suns' shall descend and consume all selfishness from the Earth."

The Truth, Explanation of Law, and my Experiences given in this Book are real, true, and eternal. The Retreats, people, and instruments I saw and associated with while with the Ascended Masters are real, physical places and things, and Tangible, Living, Breathing Beings. They were not imaginary nor symbolic and are not to be interpreted in any such way.

The Truth of everything in this Book is for the

reader to accept or reject as he chooses. If he does not accept or agree with it, that does not remove the Truth or Its Activity from the Universe; but if he can accept the Truth herein contained, he can only be blest thereby, and his world will be a greater and more wonderful place in which to live.

The Great Ascended Master Saint Germain has told us that the Books of the Saint Germain Series in the Ascended Masters' Octave of Light are bound in Covers of Jewels. May we also value and obey the Words of the Ascended Masters contained herein, and become Their Great Love, Victory, Perfection, Illumination and Freedom to all Life forever.

If the student or reader can feel the Great Rays of Light and Love poured out by these Ascended Masters, and can live constantly in adoration to his own "Mighty I AM Presence," he will positively become the Full Manifestation of Perfection, and will have his Eternal Freedom from the limitations of Earth.

May the Great Love, Light and Happiness of the Ascended Masters flood the Being and world of everyone who reads this Book! May It forever be a Blazing Golden Sun illumining the way to Peace, Prosperity and Freedom, until everyone becomes a Great Heart of ever-expanding Perfection, and experiences the Full Victory of his Ascension. In the Eternal Service of "The Light of God That Never Fails,"

BY GODFRÉ RAY KING

CHAPTER I

A Strange Occurrence

I LEFT you, my reader, at the end of *Unveiled Mysteries*, with the Great Ascended Master Lanto sending forth His Blessing to America and mankind from the Retreat in the Royal Teton. In this book I shall describe another group of important and wonderful experiences which I was privileged to have during those months of association with our Beloved Ascended Master Saint Germain.

I received a Message from Him one morning, enclosing a letter of introduction to a Mr. Daniel Rayborn at the Brown Palace Hotel in Denver. The next day as I entered the hotel to inquire for him, I met an old friend, Mr. Gaylord, whom I had known for years. He was accompanied by an elderly gentleman whom he presented at once, and who, to my surprise, proved to be Mr. Rayborn. I

gave him the letter of introduction, and after a few moments chat, we agreed to have dinner together that evening. The next day found us all en route to the Diamond K Ranch in Wyoming, one of the Rayborn mining properties where the Experiences described in this Book began. Little did I realize that day what my association with him would mean, and to what it would lead later. Such Experiences make one realize how Perfect the Great, Wise, All-Pervading Intelligence is that directs us unerringly to persons, places, and conditions when and where they are most needed.

My impression of Rayborn was very pleasant, for his whole attitude was one of harmony and kindliness, and at the same time I felt that he was a man of strong character with a keen sense of honor. He had a finely-shaped head, classic features, iron gray hair, and clear, piercing blue-gray eyes. He stood very erect and was fully six feet two inches in height. He had a son eighteen and a daughter sixteen years old who had just returned from school in the East.

We reached our destination, where the children met us at the train. After chatting a moment, we entered the Rayborn car and were driven to the ranch, a distance of about twenty miles. The son, Rex, was a tall, splendid, good-looking young chap with the same classic features as his father whom

he resembled strongly. He was at least six feet one inch in height with abundant, light brown, wavy hair, and piercing violet-blue eyes. The daughter, Nada, was strikingly beautiful with a strange sort of old-world dignity and grace. She was about five feet seven, slight of build, with hair like her brother's, and deep blue eyes. There was a certain charm about all three Rayborns which everyone felt immediately.

The wonderful location and beauty of the house and grounds enchanted us, for it lay at the entrance to a narrow valley extending westward into the embrace of the Great Rockies. To the north, a towering peak rose to a height of over eight thousand feet. The house, facing south, was built of blue-gray granite, making one think of the turreted castles of medieval times in Europe and the ancient buildings of the Far East. The grounds immediately surrounding it were beautifully laid out and perfectly maintained. The building itself was large and rectangular in shape with a tower on each corner—the one at the southwest, facing the mountains, forming a large circular room on the third floor. The rest of the structure was only two stories high and had evidently been built for many, many years. Daniel Rayborn, at the time he was twenty, had inherited the entire estate from an uncle who traveled extensively, was deeply interested in Higher

Research Work, and had lived for many years in India and Arabia.

We entered the house, Rex showing me to a suite of rooms on the second floor at the southeast corner of the building. Dinner was soon announced, and we enjoyed a delicious meal and the beautifully appointed table. While dining we entered into the discussion of our plans.

During the course of our meal Mr. Rayborn spoke of expecting John Grey, the superintendent from his mines, to join us that evening. We had scarcely mentioned his name when he was announced. He stepped into the room, greeted the family pleasantly, and I was presented to him. As we shook hands, a cold chill passed over my body, accompanied by a feeling of repulsion. He was a fine-looking man of about forty, almost six feet tall, with piercing dark eyes which I noticed were never still. I saw his eyes follow the daughter very often with a peculiar look which the others did not seem to notice. Mr. Rayborn excused himself, and with the superintendent went into the library. The rest of us went into the music room and enjoyed two hours of delightful music, for both children had remarkable voices. It was during the discussion of their musical training that a shade of sadness passed over Nada's face. She remarked:

"We both inherited our voices from Mother, who

sang a great deal in opera, where Father first met her. My mother, in speaking of it, often said: 'We recognized in each other an Inner something that grew stronger and stronger as time went on. Later we learned we were "Twin Rays," which of course accounts for the many wonderful things that have happened to us since. We both have said many times that it seemed as if each had been searching for the other through the centuries; and of course, there has always been that very great Love and Perfect Understanding between us.'

"Mother's father was an Englishman, and her mother, who was educated in England, was the daughter of an Arab sheik. Two years ago Mother was taken ill and passed on within a few weeks–although everything possible was done to save her life. During the last four weeks she received Transcendent Revelations which have explained many things to us. Shortly after I was born, our Beloved Master Saint Germain came to her. He explained she had Work to do on the Higher Planes of Life, and that He would always hold Rex and me in His Great Loving, Protecting Care. He is so wonderful and loving to us that I wish we might share our Joy with the whole world. The East and Far East–that is, India, China, Arabia, Egypt, and Persia–give much greater recognition to and understand much more clearly what the Great Ascended Masters

have done for humanity and how much the entire race of our Earth owes to Their Transcendent Love and far-reaching Care.

"He has taught us so plainly the Way by which these Great Ones have been able to raise and illumine the physical body by purifying it through the use of the Consuming Flame of Their own Divinity, which He calls the 'Mighty I AM Presence.' He tells us this can only be accomplished by Adoration to that 'Presence' and *complete obedience* of the personality, or outer consciousness, *to Its every Direction!* He says the secret is to keep in constant Inner Communion with the 'I AM Presence' at all times (through the feeling), so the Perfection which It is ever pouring forth can come through the outer consciousness without being distorted by our own inharmony or that of the physical world around us.

"It is in this way, Beloved Saint Germain explained, the Ascended Masters have reached Complete Dominion over all manifestation and have finished the work in human embodiment which Beloved Jesus said everyone must sometime do. They express–forever–Full Mastery over all conditions on this physical Earth; for all substance and energy are Their willing and obedient servants, even to the Elements and Powers of Nature, because They have become the Fullness of Divine Love

Their entire Work with mankind is to lead everyone eventually to this same Mastery, but It can only come through the Self-effort of the individual and the fullness of enough Love.

"Mother had many strange experiences in her childhood, and my grandmother told her of others still stranger, for her grandfather had seen many of the remarkable things which these Great Ones do. One whom he knew quite well was from my grandmother's own land of Arabia. He was greatly adored by all He contacted, as His entire Life was a constant Blessing and Service to mankind.

"Beloved Saint Germain first came to Mother one night at the beginning of her career in grand opera. She had been singing only a few months when one evening she became almost speechless with stage-fright. She was in her dressing room shortly before the performance when a frantic fear seized her, making her forget everything. Beloved Saint Germain stepped through in His Tangible Body, introduced Himself, and touched her forehead with the fingers of His right hand. Instantly all nervousness left, the memory of her part returned, and she was calm and at ease. That night her success was tremendous, and it continued to increase, becoming brilliant beyond her fondest dreams.

"He told her she had earned the right to the Protecting Presence of the Ascended Masters, and

from that time on, It would be permanent. He described the man she was to marry–also the son and daughter who were to come to her. After this He came at regular intervals and taught her many Inner Laws, which she was able to comprehend and apply with astonishing results–astonishing at least to those who are unable to use the Higher Law, but perfectly natural always to those who understand and manipulate those Laws through Love.

"Father, Beloved Saint Germain said, was not sufficiently awakened to be told of such Activities until about a year ago, when because of danger that threatened, Saint Germain came to him in the Tangible Body and explained that Father would come very near death at the hands of one whom he trusted as a friend, but to remain at peace, for the Ascended Masters would give the needed Protection."

We were all so engrossed in this conversation that I felt almost disappointed when Mr. Rayborn and the superintendent joined us. After listening to Nada and Rex sing an Arabian love song for their father, we all parted for the night and went to our rooms. I was so thrilled because Beloved Saint Germain had come to Mrs. Rayborn that I had no desire for sleep. I began to feel there was a greater reason for my being in their home than I was

outwardly aware of. I sat down in a comfortable chair and gave myself up to the contemplation of the Ascended Masters with deep gratitude to Them for the gracious welcome with which these blessed people had received me.

I must have dropped off to sleep, for I awakened with a start and thought I had heard someone calling me. I felt such an urge to get up and go out into the open air that I could not resist it. I was thoroughly awake and keenly expectant of something, but what, I knew not. I went downstairs, out of the house, and down a path near a large barn. In a moment, there was a movement among the shadows, and following a sudden impulse, I stepped behind a tree. At the same instant, a man came out of the barn. I saw another movement among the trees and, looking closer, discerned a man standing with a rifle to his shoulder, dimly visible in the darkness. As he took aim at the man coming out of the barn, I wanted to call out a warning, but I could not make a sound. Before I could think, a blinding flash of light struck the man with the rifle full in the face, revealing his features as he fell face forward as if struck by lightning–yet the sky was crystal clear. Still I was unable to move from my position, and the man from the barn came steadily on, totally unaware of his escape. I saw it was Mr. Rayborn, though he did not see me, so I

remained where I was until he had passed into the house, and I hurried to the spot where I had seen the man fall–but he had fled. I searched around for some distance but found no trace of him, so I returned to my rooms. It was then almost one o'clock. I got into bed quickly and by a strong effort was able to go to sleep.

When I went down to breakfast the next morning, all were radiantly happy except Grey, the superintendent, who seemed nervous and extremely pale. The Rayborns, Gaylord, and I had a most enjoyable time planning our day, which ended with the children suggesting that we go to Table Mountain, one of their favorite haunts in the Wyoming Rockies.

Meanwhile, Grey was almost sullenly silent, refusing to meet the eyes of anyone. He finished breakfast, excused himself, and drove to the station. When he was gone, my first impulse was to tell Rayborn of the previous night's experience, but upon second thought decided to wait until I could see him alone.

I excused myself, prepared for our trip up the mountain, and returned just in time to see the groom bringing out our horses. One of them was a beautiful Arabian steed, cream in color, with white mane and tail–the most wonderful animal I have ever seen. He came directly up to Nada, to whom

he belonged, and with a look in his eyes that was almost of human intelligence, stood proudly before her waiting for the lumps of sugar she held out. She loved him and he knew it. "This is Pegasus," she said, patting him. He reached out, put his nose against my face, went over to Rex, and then back to Nada as if giving consent to my being a member of the party.

"He approves of you and accepts you as a trusted friend," Nada commented after watching his expression a moment. "That is a new behavior for him, as he has never made friends with anyone but Rex, the groom, and myself."

"Where did you get him?" I asked.

"He was given to Mother," she replied, "by an Arab sheik in appreciation for a concert she gave in Cairo. He was sent here to the ranch as a surprise when she returned from her last tour. It was really the last concert of her career, and her success was tremendous. The old sheik loved music, and enjoyed that concert especially.

"Pegasus is handsome, isn't he?" she continued. The Love in Nada's voice was unmistakable and justifiable, for no one could help but admire the beautiful creature. We mounted our horses, waved good-by to Rayborn, cantered off across the valley and soon entered the mountain trail. It wound steadily upward through the beautiful timber.

Occasionally we came into a clearing and stopped to enjoy the magnificent view. We followed the mountain stream for quite a distance. The song of the birds, the fragrance of the flowers, and the exhilaration of the rarefied air made us feel radiantly strong and glad to be alive.

We reached the top of the mountain near noon, and there before us lay a level space covering at least twenty acres, a veritable plateau suspended in the midst of those towering giants. A cozy little cabin and a shelter for the horses had been built. It was made of stone with a built-in stove–very unique and serviceable. We enjoyed the beauty of the surrounding country for a while and then sat down to a delightful lunch.

"You know," Rex commented, "I feel as if we had all known each other for ages"; and Nada and I admitted we felt the same. "Let's go to the cave by the other trail as soon as we finish lunch," he suggested, and we agreed. By crossing over to the opposite side of the mountain, we found a good trail leading down where the scenery was more wild and rugged. In some places the rocks looked as if they had been stained green, blue, and black by some marvelous mineral coloring. The sunlight and shadow played upon them as we changed our position, producing the effect of a beautiful, inspiring panorama. We continued down the trail

about four thousand feet, turned sharply, and came to the eastern face of the mountain.

Thousands of years ago a portion of it had evidently split away, making the whole side a sheer cliff at least a thousand feet above us. The trail we were on wound around the south side, turning toward the eastern wall and running along a shelflike projection that brought us to the entrance of the cave. The trail was strewn with great boulders that made it rough and difficult of access. A wing of rock hid the entrance as if Nature jealously guarded Her secrets from curious eyes. We left the horses tied safely nearby, and Rex took three powerful flashlights from his saddlebag.

"Prepare for a surprise," he exclaimed, turning to me, and then led the way into the cave. About fifty feet from the opening we entered a medium-sized cavern. As soon as my eyes became adjusted to the change of light, I saw the entire ceiling was covered with a pink and white crystalline substance. We crossed the first space, a distance of about thirty feet, and passed through an archway leading into an immense vaulted chamber at least two hundred feet across.

The ceiling was covered with rainbow-colored stalactites in the most amazing forms I have ever seen. There were crosses, circles, crosses within circles, triangles, and many, many occult symbols

that have been in use on this Earth since its very beginning. It looked as if these symbols had been suspended from the ceiling ages ago and Nature had covered them with a carbonate of lime formation, highly colored and most artistically decorated by Her pigments. The beauty of it made one speechless, fascinated with wonder and admiration. It gave one the feeling of eyes watching every moment.

Rex called to us to come to the far side of the chamber where he stood. We crossed the intervening space and stood before a wall upon which there were three arches about twenty feet apart. Within each was a highly polished surface. The first one to my left was a Chinese red, the second a glittering white, and the third a cobalt blue. Immediately I felt they were significant of something concerning America. The feeling grew so great I could hardly stand it.

"This is the Work of a Mighty Intelligence in ages past," I said, "and I feel these arches close entrances to other chambers or passages beyond." Nada and Rex looked at me very steadily and their faces were white with the intensity of something they saw.

"What is the matter?" I asked.

"Don't you feel it–don't you see it?" they asked in return.

"What?" I replied. They then realized that I was

unaware of what they saw, and explained:

"You are evidently being overshadowed," said Nada, "by an etheric form you wore ages ago, for the garments are unlike anything of which I have ever seen or heard. The body is at least six feet eight inches tall, the hair is golden, coming almost to your shoulders, and the skin is fair and clear. I am sure some ancient memory is trying to come forth into the outer consciousness.

"Let's tell him of our experience the last time we were here," she suggested to Rex.

"Just a year ago," Rex explained, "we came to this Cave, and as I stood before the blue arch, I was so fascinated that I put out my hand and was running it over the surface when a Voice right out of the atmosphere said: 'Stop!' The Voice was not one of anger, but rather that of Supreme Authority. We left the Cave immediately and have never returned until now."

"Before I have ended my visit with you dear people, I feel certain some amazing explanation of it all will be given," I replied. We returned to our horses and found the beautiful Arabian Pegasus in a state of great agitation, for he was highly sensitive to the Spiritual Power focused within this mountain and it made him restless because of the intensity of the energy. Only by very great gentleness could Nada quiet him and prevent him from racing madly

home. She said there seemed to be no limit to his speed when he became excited.

We continued on our way homeward, winding around the foot of the mountain until we came to the end of our descent; then we gave the horses free rein, and in half an hour reached the ranch just before sunset. Daniel Rayborn came out to meet us and said dinner would soon be ready. During the meal we related the experiences of the day, Rex telling his father of the overshadowing form seen above my head in the Cave. As he finished speaking, without giving any explanation, his father said he wanted to talk to all three of us in the library after dinner, and to meet him there at eight o'clock.

In the meantime we went to the music room, while Nada went to her mother's room and brought back an Arabian instrument something like an Hawaiian guitar. It was given to her by Beloved Saint Germain who taught her to play a certain melody upon it just before her meditation hour. Nada and Rex both sang and took turns playing the accompaniments on the instrument. It formed a most wonderful background for their voices, for there was something in the quality of the tone which seemed like a living thing that penetrated to the very Center of Existence.

CHAPTER II

Revelations

PROMPTLY at eight o'clock we entered the library and found Daniel Rayborn had preceded us. He went straight to the matter in hand.

"At two o'clock today," he began, "I received information the men had made a rich strike at the mine in Colorado, and I have sent Grey on ahead. Day after tomorrow, I must join him. I would like all of you to come with me. Nada will be comfortable in the bungalow at the camp, and you two can stay with me in the mine.

"I have something else to tell you that is both grave and strange. At four o'clock this morning, I was awakened by a 'Presence' in my room, and when I became fully aroused, I saw it was our Beloved Saint Germain. He talked to me for at least two hours and, among other things, said that Grey had attempted to take my life last night. He saw the intent, and at the moment Grey tried to fire, Beloved Saint Germain directed a flash of Electronic Force which knocked him senseless for the time being. He has been warned that if

he makes another such attempt, his own destructive motive will be permitted to react instantly and his own body will pay the penalty."

Then I told them of my experience the night of my arrival, and how I had witnessed the whole affair. Rayborn was deeply moved, and rising to his feet, he extended his hand to me saying: "You are surely one of us, and I am deeply, deeply grateful. Beloved Saint Germain said you had been brought into our home because you were greatly needed, and from now on you would act in the capacity of elder brother to Nada and Rex. It seems we have known each other in a number of previous embodiments. He also told me none of us was to be concerned in the least about danger of any kind, for we have lived clean lives and held close to High Ideals. This, it seems–from the Ascended Masters' standpoint–makes it possible to wield a Mighty Force for the Protection of all.

"Beloved Saint Germain also instructed me regarding other things of importance. He explained to me the Activity one experiences after he has made the Ascension. Beloved Jesus gave the public an Example of This and sought to teach mankind Its Meaning, pointing everyone to that same Attainment. I am, before long, to enter this Great Freedom. Our Beloved Master made it very clear, one is sometimes raised into this Condition

previous to or near the change called death, but all must accomplish It from the physical side of life. If the Silver Cord of Light flowing into the body has been withdrawn, it is impossible to illumine and raise that body; and the one thus striving must re-embody once more in order to attain the Final Freedom from the physical side of human experience. All Ascensions must take place consciously, for this Ascended Master Attainment is the Complete Victory over all outer experiences through the personal self. I shall read you His own Words which I took down at His Direction." Turning to a portfolio which lay upon his desk, he opened it and read:

" 'So-called death is but an opportunity for rest and reattunement of the faculties of the personal consciousness. This is to free them from the turmoil and discords of Earth long enough to receive an Inflow of Light and Strength which will enable the outer activity of the mind to take up the work of physical experience again. Physical embodiment is for the purpose of preparing, perfecting, and illumining a body whose vibratory action can be raised to *blend with* the Body of the "Mighty I AM Presence." We call It "The Magic Presence." Beloved Jesus referred to It as the Seamless Garment.

" 'In this Body, which is made of Pure Electronic Substance, the individual has complete Freedom

from all limitation, and through intense devotion to the "Mighty I AM Presence," anyone can release Its Power to the point where he can see this Blazing Body of Substance–so Dazzling that at first one can only gaze upon It for an instant because of the Intensity of Its Light. Through such devotion one begins to manifest more and more of his own individual Conscious Dominion over all manifestation. This is everyone's Eternal Birthright and the purpose for which all decreed the journey through human experience.

" 'When the one striving for such Freedom has reached the point where he releases any amount of Light he desires from his Electronic Body instantly by his own conscious command, then he can control all manifestation, no matter in what sphere he may choose to express. One has but to observe the world at large to see what discord in thought and feeling does to the beautiful bodies that Nature provides for our experience in the physical part of Life. In childhood and youth, the flesh structure of the physical body is beautiful, strong, and responsive to the demands made upon it; but when discordant thoughts and feeling are allowed to express in the personal self over the years, as one goes through Life, the body becomes incapacitated and the Temple falls into ruins–because the outer waking consciousness does not obey the *One Law*

of Life—Love, Harmony, Peace!

" 'Call it what you will, the Eternal Truth remains that discord is another name for disintegration—a synonym for death. When mankind learns to live its Life by the *One Eternal Law of Love,* it will find that such obedience will have released it from the wheel of birth and rebirth, and hence the problems of human existence will have disappeared. In their place will come the Joy of ever expanding the Perfection which forever abides within Love. Constant new creation will ever go on, for *Life is Perpetual Motion* and neither slumbers nor sleeps, but is ever and forever a Self-Sustained Stream of Expanding Perfection in Joy, in Ecstasy, and Eternally New Design. This Perfect Activity and Joy of Life are all contained within Obedience to the *Law of Love.*

" 'The last enemy, death, will have disappeared, for it is but a means of release from a garment which no longer has anything of value to give for the use of the Perfection of Life. When the physical body is so incapacitated that the personality occupying it can no longer make Self-Conscious effort to express Perfection, then Nature herself takes a hand in things and dissolves the limitation, that the individual may have a new chance to make effort which is of benefit.

" 'Grief for the death of a loved one is selfishness

and but retards the greater good the loved one should be enjoying. Grief from a sense of loss is really rebellion against the Action of a Law that has seen fit to give another greater opportunity for rest and growth, because nothing in the Universe goes backward, and all–no matter what the temporary appearance–is moving forward to greater and greater Joy and Perfection. The God Consciousness in us cannot and does not grieve, and the human part should know that as no one can ever get out of this Universe, he must be somewhere better than the place he left. If there be Real, True Divine Love, It can never cease to exist, and *must* sometime, somewhere, draw us to that which we love. In True Divine Love there is no such thing as separation, and that which feels a sense of separation is not Love. The sense of separation is merely one of the mistakes of the personal self which it continues to dwell in because it does not understand the nature of Consciousness. Where the Consciousness is, there the individual is functioning, for the individual is his Consciousness.

" 'When one thinks of a loved one who has passed on, he is really with that loved one in his Higher Mental Body the moment his Consciousness is upon the other person. If the Western World could understand this Truth, it would lift the chains which cause such useless suffering. Such grief is all

due to the fact that the personality–especially in the feeling–accepts the body as being the individual instead of knowing the body is only a garment which the individual wears. Over it everyone should have *complete* and *Eternal* Dominion and should exact Perfect Obedience at all times.

" 'If one really loves another, he wants that other one to be happy and harmonious. If, through so-called death, an individual chooses to accept a better opportunity for future expression–if there be the slightest spark of Love, one should have no grief nor desire to hold that loved one in a state of incapacity when he might go on to greater Ease and Freedom.

" 'It is the ignorance of this Truth which enables such selfishness to keep humanity bound in its self-created chains of limitation. This sort of ignorance binds the Life Expression of the whole race and is a stubborn refusal to understand Life. It drags thousands of human beings every year into the depths of despair–wholly unnecessary and avoidable–when they could and should be enjoying happiness and living the way the "Mighty I AM Presence" intended them to live. Such an attitude toward Life not only prevents the accomplishment of everything worthwhile, but incapacitates the individual and fills him with self-pity–one of the most subtle and insidious ways by which the sinister

force breaks down his resistance and makes him negative. The individual must remain positive if he is to attain his Victory and express Mastery. The sinister force which humanity on this Earth has generated uses this method to keep aspiring, marvelous individuals from gaining their Freedom and using the Full Power of Divinity which has been theirs from the beginning–the Gift of the Father to His children.

" 'Of all the faults humanity has generated, self-pity is the most inexcusable, because it is the apex of human selfishness. Through self-pity the attention of the personal consciousness, or outer self, is entirely absorbed by the petty, puny, human, useless desires of the physical body–and the Great, Glorious, Adorable, All-Wise, All-Powerful Light of the "Beloved Mighty I AM Presence" always abiding above the physical body, is entirely ignored; yet Its Energy is being used for this destructive purpose.

" 'Humanity cannot have anything better than it is experiencing today until it looks away from the little self long enough to acknowledge and feel the Presence of God, the "Mighty I AM Presence," the Source of every individual's Life and of all Perfect Manifestation.

" 'Grief is colossal selfishness–not Love! Discord is selfishness–not Love! Lethargy is

selfishness–not Love and not Life! These sink the race into slavery because they break down the resistance of the individual by wasting the Energy of Life which should be used for the creation of Beauty, Love and Perfection. This slavery continues because the outer activity of the personal consciousness does not make the necessary determined effort to free itself from the domination of the psychic world.

The psychic stratum contains only those creations of humanity generated by the discordant thoughts, feeling and words of the outer activity or personal consciousness. This means the daily activities of the mind, body and feeling with which the personality continues to entangle the creative expression of Life. The entire race has become so bound by its own discord that Great, Glorious, Transcendent Ascended Masters–out of sheer Compassion for the slowness of mankind's growth and the misery of its degradation–*offer to cut away the barnacles of the psychic plane and give humanity a new start!*

" 'People are entertained, fascinated, and self-hypnotized by the various conditions of the psychic world, but I tell you–and I know both the Inner and outer activities of Life from the Ascended Masters' standpoint–that there is nothing good nor permanent within the psychic stratum! It is as dangerous as quicksand, and just as undependable!

The psychic plane and the outer activity of the mental and emotional world, unless they report Perfection to you, are one and the same thing. It is entirely the creation of the human sense consciousness and is but the accumulation of human thoughts and forms energized by human feeling. It contains nothing whatsoever of Christ–the "Cosmic Light."

" 'The desire for and fascination of psychic phenomena is a feeling–a very subtle feeling–by which it holds the attention of the personality away from the acknowledgment, the constant adoration, the continual communion and the Permanent Acceptance of the individual's "Mighty I AM Presence." Attention to the activities of the psychic plane depletes the personal self of the energy and the ability required to reach to the God Source and anchor there permanently!

" 'I tell you Eternal Truth when I say that nothing of the Christ comes from the psychic realm, regardless of any seeming evidence to the contrary, because the psychic or outer activity of the mentality is forever changing its qualities, while the Christ, which is the Eternal Light, is Ever-Expanding Perfection–the One–Changelessly Supreme, Imperishable Quality.

" 'It is because of the attention to and the subtle fascination of the psychic plane that mankind is

today as a mass of children needing much Help and the Wisdom of the Ascended Masters to raise it once more into the Understanding of the Light–which is the only means of Release from the darkness of Earth's present chaos.

" 'World Saviors have come at regular intervals to give this kind of Help throughout the centuries ever since the end of the Second Golden Age upon this Earth. Following that Activity, humanity became fascinated by the world of form and the creation of things. The individual's attention was held most of the time in the outer activities, and the Conscious Recognition of his own Individualized God Self was *forgotten.* Hence, the "Mighty I AM Presence" abiding in his Electronic Body was completely ignored. *Thus he has only been able to express part of his Life Plan.'*

"Beloved Saint Germain asked that you, my Brother," continued Mr. Rayborn, turning to me, "watch your feeling and impressions very closely while you are in and at the mine, for work of a certain nature is to be done there–now or never! He wishes to utilize a certain Cosmic Activity occurring at this time for reasons He did not give me. He said He would come again very soon and speak with us all. He will then endeavor to give further Light on the Cave of Symbols you visited recently and to which we shall all go with Him on

His next Visit. Grey will pass on very shortly from natural causes, and I am not to let him suspect that I know anything of his attempt on my Life."

The *Tales of the Arabian Nights* were hardly stranger than the Truths we were receiving and the wonderful things we were experiencing. It seemed as if we had entered another world where the activity of the mind became instantly manifest in physical form. Beloved Saint Germain had shown such conclusive evidence that He knew every incident and activity of our lives when He desired to do so, and even saw the innermost thoughts and intents of each of us. I felt a tremendous Uplift and a Happiness unspeakable.

At first Nada and Rex were inclined to be sad when they realized the parting with their father was to come so soon; but I knew positively they would be sustained by the One Great Presence of the "I AM" when the time came. I asked Nada and Rex as we passed out of the library if they would sing a song or two for their new brother, and they laughingly agreed. They sang "Love's Light Eternal," for which Nada had written the music and Rex the lyrics. The melody and power of it seemed to linger and continue to lift one's consciousness to the Great Creator of all things, the "Mighty I AM Presence." As we stood together when they had finished singing, I put my arms

around both the children, led them over to their father, and we formed a circle about him.

"Beloved Brother," I said, "we encircle you with Hearts of Love, and may the Pathway of each be that of Supreme Happiness through the Radiant Power of Divine Love within us all." I told them how words failed utterly to express my joy and gratitude for their Love, friendship, and hospitality.

"My Brother," said Daniel Rayborn, "it is I who wish to express my gratitude to Beloved Saint Germain and you for the privilege of your friendship, that my beloved children may have you as a companion when I am elsewhere serving in my humble way. Let us rejoice in the happiness we can give each other. I think we had better get all the rest we can tonight and tomorrow, as we are driving to the mine in Colorado and we ought to leave early the following morning."

The next morning at breakfast, after a wonderful night's rest, Daniel Rayborn greeted us by saying that he had found a Message from Beloved Saint Germain on the table as he awakened, asking the four of us to meet in the Tower Room at eight o'clock that evening. Needless to say, we were all interest in a moment and joyous with the anticipation of His Coming.

At twenty minutes to eight, Daniel Rayborn announced it was time to go to the Tower Room

for our meeting, but somehow I felt temporarily restrained from doing it. When we came to the door, he stood still before it a few moments as though in meditation. Presently the door slowly opened without anyone touching it, and as we entered I saw it was richly carpeted and handsomely furnished. In the center of the gorgeous blue carpet was woven the Secret, Sacred Symbol of Life where our Beloved Saint Germain produced the Life-giving and Consuming Flame.

The walls were covered with a glistening white material that looked like frosted silk. The chairs were unlike anything I have ever seen. They were made of some kind of white metal resembling frosted silver, upholstered in silk plush of the same rich blue as the carpet and so perfectly designed as to give the body ease, poise and balance when seated in them. There was a chair placed at each of the four points of the compass, forming a square within the circle of the room. The two windows and the door locked from the inside. When all were in readiness, Daniel Rayborn asked each of us to close our eyes and remain perfectly calm and silent until Beloved Saint Germain appeared and spoke. In a few moments a deep, rich Voice said:

"I bring you Greetings, My Beloved Students."

I opened my eyes and there was the Blessed,

Wonderful Presence of our Beloved Master. He stood fully six feet one inch in height, slender, royal and real. His hair was dark brown, wavy and abundant. His face portrayed a Beauty, Majesty and Power no words can describe–a face revealing Eternal Youth, with eyes of the deepest violet one can imagine through which the Wisdom of the Ages poured out upon the world expressing the Love and Mastery that are His.

He stepped across the room to where Nada sat, bowed, and touched her forehead with the thumb of His right hand, the fingers extending over the top of her head. He did the same thing to Rex, myself, and Daniel Rayborn. It is in this way that an Ascended Master can give a Radiation which does for the individual what nothing else can do. It is a tremendous aid in clearing the mind, for It releases certain Higher Activities from within the student's Inner Bodies while he is within the Master's Aura.

"Beloved Ones," He began, "this evening I have come to explain certain Laws that will enable you to manifest Dominion over human limitation, once you know and fully understand the Life Principle within your human body. Then you will know and feel It truly is All-Wise and All-Powerful. When you really comprehend this, you will see it is not only natural and possible, but eventually compulsory that you transcend all outer activity–its laws and

its limitations! These come into existence through ignorance and express in the outer activity because the intellect is allowed to act without the Light from within the Heart illumining it. Discord and limitation are imposed upon the outer activity by man and man alone; for an All-Wise, All-Perfect, All-Powerful, Supreme Creator does not and cannot create a limitation, a lack or a discord.

"The concept that it is possible for All-Perfection to create imperfection or anything unlike Itself is absurd, vicious, and entirely untrue. The Supreme Creator gives to the individual with Free Will the Use of the Attributes of the Creator with which to manipulate manifestation at his particular point in the Universe. The individual is endowed with the capacity to form conclusions through using the intellect alone, which are the results of fragmentary information. It comes about from using only a part of the Creative Powers with which the individual is endowed.

"Conclusions drawn from partial instead of complete information must of necessity bring about unsatisfactory results. The individual must have Free Will or he could not be a Creator. If he chooses to experiment with the spoke instead of the entire wheel, there is naught to say him nay in his desire to experience those results.

"His wheel of manifestation cannot and is

not complete until he recognizes his 'Beloved Mighty I AM Presence,' for It is the *only* Source which knows all required to build any pattern of manifestation that produces Perfection for him.

"All Patterns of Perfection are stored within the All-Knowing, Fathomless, Dazzling Mind of the 'Beloved Mighty I AM Presence' and can never be made manifest in the physical world of mankind until the outer activity of the mind, which is the intellectual consciousness, is illumined by the Ray of Golden Light within the Heart. This Ray comes always and only from the Electronic Body of the individual. This is 'The Magic Presence'–'I AM.'

"This 'Beloved Mighty I AM Presence' of mankind's Being does not cognize and never can create the maze of confusion, chaos and destruction that exists in the outer mentality and world of humanity–any more than the Sun creates a cloud. It is the Birthright and Privilege of every individual to express the Fullness of this Glorious Inner Presence and Power of Perfection, but if the personal self will not call the Power of the 'Presence' into action through the Higher Mentality into the outer activity at all times, then all outer experience merely remains the ever-changing condition or dumping ground of the thoughts and feeling of other human beings surrounding it.

"The 'Presence of the Mighty I AM' abides

within the Electronic Body of every individual, resting from twelve to fifty feet or more above the physical body, and is occupied only with creating, expanding, and forever pouring out Perfection. It lives in Its own Realm, doing Creative Work at Cosmic Levels.

"Only in the outer activity of the human personality, which is but a fragmentary part of each one's individuality, can imperfection be generated and experienced. It is through the Higher Mentality that the Discriminative and Selective Intelligence acts. In this Body, the Individualized Intelligence can look upon the discord of human creation and observe the conditions by which the personality is surrounded and those it is passing through, but does not accept them into Its Consciousness or World. It sees what is required to produce Perfection in the physical experience and can reach into the Electronic Body—the individual's 'Beloved Mighty I AM Presence'—and draws forth that which produces Perfection in the outer activity.

"In transcending all earthly laws, We but claim our God-given Authority to live and act in Perfect Accord with the 'Beloved Mighty I AM Presence' of man and Infinity. This 'Presence' is Eternal, Changeless Perfection, yet forever expanding Itself through the individual. As you see, I come into your presence in a locked room with walls

of solid stone. These seemingly impassable walls are no barrier nor obstruction to the 'Beloved Mighty I AM Presence,' anymore than they are to an electrical impulse. This 'Presence' is the Mighty Master Within, the God Self of every individual. When one acknowledges, accepts, understands, and feels this 'Beloved Mighty I AM Presence,' Its Limitless Powers are released into his use.

"This home and room were dedicated to the Ascended Masters of Love, Light and Wisdom at the time the tower was built, and it will continue to be a Focus for Their Activity as long as They desire to use it.

"When the shell, which means the discord of the outer self, is dissolved–not by passing through the change called death, but by consciously raising and illumining the body and its every activity by the 'Light' of the 'Beloved Mighty I AM Presence'–Its Power is released into the outer world through the individual, and he manifests *complete Mastery*, the Dominion as given him in the beginning by the Father.

"Through his consciousness, every human being can release the Limitless Power of the 'Beloved Mighty I AM Presence.' When one disciplines his outer faculties and makes them obedient to his Conscious Command of Perfection, he is then able to let this Tremendous Power flow through him

unobstructed and to use It constructively. Within each of you is the same Mighty Power I am using! You can use It as I do when you acknowledge, accept, and admit at all times that the 'Beloved Mighty I AM Presence' is always in action. This is the Cosmic Christ, and the only Consciousness in the Universe which can say 'I AM.'

"The Thinking Flame of God is the only Activity of Life anywhere in manifestation which can acknowledge Its own Individualization, use the 'Creative Word of God,' and send It forth into the Universe to cause manifestation. Only the Son of God, which means the individual with Free Will, can decree as God decrees and say 'I AM.' Whatever quality follows that sound spoken into the ethers becomes a manifestation in the world of substance, and thus becomes a form.

"When the individual says 'I AM,' he is using the Creative Attribute of the Godhead and announcing Creation at his particular point in the Universe. The vibratory action of the Word 'I AM,' either in thought or spoken word, is the Release of the Power of Creation; and whatever quality follows that Decree is instantly imposed upon the electronic substance in the ethers. This being the only substance and energy in existence whose nature is to be qualified in some manner, it must outpicture the pattern within the Decree. If the Decree be

always for Perfection, then the experiences in the individual's world express the Fullness of the Plan of Life; but if the individual does not send forth that Decree, it is impossible for that Perfection to outpicture in his experiences until the Decree is released into the ethers in which he lives.

"Every individual can think Perfection at every instant, if he only will, and it takes no more substance and energy to build Beautiful, Perfect Forms and Experiences than it does the imperfect; but if the individual wants this Perfection expressed in his own world, he *must* use his own energy to utter the Decree which will release that Perfection unto him. Such is the *Law of his Being*, and nothing can change It!

"Life is the only Presence, Intelligence, and Power that can act or ever did act. These three Activities within Life are coexistent everywhere! The Pure Electronic Light which fills Infinity is the Self-Luminous, Intelligent Substance of the 'Mighty I AM Presence,' existing at all points and of which all forms are composed. Discord and limitation can build a film, so to speak, around this Substance, shutting off at least to some degree the Radiance of its Light; but imperfection of any kind can never enter into the Electronic Substance itself. The discords and limitations that humanity has wound around itself are due to the activities of the intellect

and the emotions, which have not been trained to look within the Light of the individual's own 'Mighty I AM Presence' for the Plan of Perfection upon which each one should construct all his outer activities.

"This Perfect Plan does not exist anywhere except within the 'Mighty I AM Presence.' When the intellect and emotions are purified and illumined by the Light of this Great 'Presence,' then the Perfect Ideas and Activities within It can flow through the personality without becoming distorted by the fragmentary information in the outer activity of the consciousness. The reports of the human sense consciousness are merely unillumined activities, for when Light is directed into them from the 'Mighty I AM Presence,' they melt into Its Glorious Perfection at once.

"Love, Peace, Balance, Order, and Perfect Activity, or the coordination of all outer activities with the Patterns of Perfection from the 'Presence,' can only be brought about by the One Great Light, the 'I AM.' There, and only There, does the Design of Perfection ever exist. If the student or individual will fix his attention with determined tenacity and hold it upon the 'Mighty I AM Presence,' he can release such Divine Love, Light, Wisdom, Power, Courage, and Activity as he cannot possibly comprehend at present.

"Divine Love contains the Perfect Activity of every Attribute of the Godhead. When the individual enters the *conscious path* of Self-Mastery, he should fully understand and realize that from then on, he is obligated to accomplish everything he attempts by the Power of Divine Love from within his own 'I AM Presence'! He must know unmistakably and remember at all times that Divine Love contains within It the Complete Wisdom and Almighty Power of the 'Beloved Mighty I AM Presence.'

"When an individual generates enough Divine Love and sends It forth into all outer activities, he may command what he will through the 'Mighty I AM Presence,' and his request is always fulfilled. He may go among the wild beasts of the jungle and no harm can come to him. Divine Love, when consciously generated within the individual, is an Invisible, Invincible, and Invulnerable Armor of Protection against all disturbing activity. There is only one thing that can bring about Perfection anywhere in the Universe, and that is enough Divine Love. Therefore, love your own 'Mighty I AM Presence' *intensely*, and nothing else can enter your Being or world!

"You four Beloved Ones have come to the point where the 'I AM Presence' commands the Assistance of the Ascended Masters. Therefore it will be My Great Pleasure to be of any help to you

that may be required. Before I proceed further, I wish to convey the Great Love and Blessing from your beloved mother and companion. Soon you will have the Joy of seeing and greeting Her face to face, and never again will you be disturbed by the thought or change called death. It gives Me Great Joy to feel and see such wonderful harmony within your mental and emotional bodies.

"My Brother," He said, turning to me, "I welcome and bless you for so noble a nature, a sincere Heart, and such Great Love. You will soon become aware that you have much to do besides your writing." Turning to Nada and Rex, He addressed them:

"My Beloved Nada and Rex, I feel like both Father and Mother to you, although I cannot take the place of your earthly father who is so noble–so fine–and whose earthly pilgrimage is nearing its close. He may be with you many months yet. Please forget entirely that which you regard as separation and enter fully into the activities before you."

"I am more than pleased," He continued, turning to me, "to see in your Heart a great willingness to serve wherever that service is most needed. That attribute will bring you *Very Great Light*." Including all, He continued:

"After your trip to the mine, I will impart to each of you certain Private Instructions that will

greatly assist and hasten the awakening of certain Faculties whose use you will soon need, and through which I will be able to reach you much more easily. This will bring to you a clearness that bars all doubt.

"The superintendent at your mine," He said, speaking to Rayborn, "will retain his physical body only until he can say a few parting words to you. North of the tunnel where the last strike was made, which has been considered very good, there is a deposit immensely richer that has been passed. I will indicate the place when you reach the exact spot in the tunnel. You are to mark it," He directed, glancing toward me.

"There are those in touch with Grey which make it unwise to open this up until he is out of their reach. It will be much greater wisdom in the future to forbid any report going out of strikes made in the mine. This body of ore which shall be indicated to you contains over twenty million dollars in gold, clear and above all operating expenses.

"Little do those of humanity who are in great need realize how easily and quickly they could and would be given their *financial freedom* if they would but turn their attention to the 'Beloved Mighty I AM Presence,' *and hold it there with determined tenacity*. Great would be their reward for such effort.

"I will be present while you are in the mine, but not visible to your outer sight. This is the reestablishing of our former wonderful association. You will realize how beautiful it is when you become consciously aware of the Tremendous Power of the 'Mighty I AM Presence' within and above each of you. This Almighty Power you will draw forth and use without limit." He gave each a hearty handclasp and asked us to take the same position as before He came, saying we were all to meet again soon. When we opened our eyes a few moments later, He had disappeared–as quickly as He had come.

Nada and Rex said the experience was the most glorious of their lives and the happiest two hours they had ever spent thus far. Only a small part of such Transcendent Work can be conveyed in words to those who have not experienced these things; but all humanity may have the same opportunity when the individual is earnest, sincere, humble and unselfish enough in his desire for the Light, and really loves his own "Mighty I AM Presence."

It was so remarkable and uplifting to see the room brilliantly lighted by the Radiant Presence of Beloved Saint Germain, and it was conclusive proof that His "Presence" was Its own Light. Each of us experienced such Peace and Love as we never dreamed were in existence. We could not refrain from embracing each other, and there were tears

of joy in our eyes out of deep gratitude for such a Divine Privilege. We said good-night and went to our rooms, as we were to leave early the following morning for the mine. We left very early, driving nearly five hundred miles over a highway that was in splendid condition. The day was calm, bright and lovely–the scenic beauty gorgeous. We took turns at the wheel so no one was in the least tired, and at exactly seven o'clock in the evening we drove into camp. We noticed a great deal of activity and excitement. As soon as the men saw us, one of them came running to the car, saying excitedly, "Come! Come! Grey has been badly hurt in the mine. It happened while we were changing shifts."

Daniel Rayborn hurried away while Rex and I took Nada to the bungalow. The men took care of the luggage, and we hurried to the superintendent's quarters to which Grey had been carried. As we arrived, the room was being cleared of the men, as Grey wished to speak to Rayborn alone. We stepped in, greeted him, gave what encouragement we could, and then left the two alone.

Thirty minutes later, Rayborn came out. He was deeply moved because, as he afterward told us, the man had made a full confession, asked forgiveness, and passed on immediately. Beloved Saint Germain, referring to it later said: "The Soul withdrew from its temple of flesh when it

realized that the human self could not withstand the temptation."

"In shooting the holes drilled by the day shift," Rayborn explained, "a large piece of rock became loosened; and as Grey was inspecting and sampling the day's work, the rock fell, striking him on the head. He dropped unconscious, and another piece fell upon his chest, crushing him so badly there was no hope of recovery.

"He remained conscious until I reached his side, and made a full confession concerning his attempt upon my life because he knew he could not live. I gladly and freely forgave all, that he might pass on in Freedom. His Soul can thus have its greatest opportunity for growth. His gratitude was unspeakable for the opportunity to free his conscience and be forgiven. His passing was really in very great peace."

We were all rather stunned by the suddenness and accuracy with which Beloved Saint Germain's statements were being fulfilled. At eleven o'clock the next morning a short service was held in camp, and the body then taken to the railway station, some three miles away. Bob Singleton accompanied it to San Francisco, where Grey's mother and brother lived. Mr. Rayborn sent them a check for twenty-five thousand dollars and paid all expenses.

In all my mining experience, I have never

seen so marvelous a camp of men as Rayborn employed. Everything possible had been done for their comfort and convenience, no intoxicating drinks of any kind ever being allowed. The location of the mine was deep in the heart of very rugged mountains, and all possible was done to maintain the utmost Harmony.

Nada and Rex used every opportunity to make me acquainted with the camp, and everywhere it was plainly evident that Rayborn was much loved by his men. The entire atmosphere was one of harmonious cooperation, and there was a total absence of all coarse or undesirable elements.

It was Rayborn's custom to pay every man a bonus of one dollar a day as long as any rich strike lasted. He made Bob Singleton superintendent, for he was a fine, noble, upright, honest chap with splendid ability. We spent a wonderful day going through the concentrating plant–from which only the concentrates were shipped to the smelter. Most of the richer gold was free milling, being run into bullion and shipped direct to the mint in Denver.

That night at dinner Daniel Rayborn, in speaking of Bob Singleton said, "I have long wanted to make Singleton our superintendent, for I feel that he is a man that can be absolutely trusted. I think we had better not go into the mine until he returns from San Francisco, which will probably be the second

day after tomorrow. In the meantime we can trace the surface outcropping and surveys.

"I want both of you boys to become familiar with the boundaries and all departments of the mine. I will show you the principal veins of ore at the surface. While we have had this mine for about twelve years, yet you will see as you go over it that we have really only explored a small part, although we have taken out millions of dollars in value."

Singleton returned late in the afternoon of the fourth day, and plans were made to go carefully through the underground workings the day following. During that evening I felt as if I were being tremendously charged with a Dynamic Electrical Current. Nada had brought her Arabic musical instrument, and she and Rex entertained us royally after dinner.

At nine o'clock the next morning, we went to the shaft-house and met Singleton, who was waiting there ready to take us into the mine. We entered the cage and descended to the four hundred foot level. Here we went through various tunnels and crosscuts. As we were going through one tunnel that led to the southwest, I suddenly felt an Electrical Current pass through me. I stopped, and turning to Singleton, said, "What does this formation contain toward the north at this point?"

"There is only country rock," he replied,

"between these two veins. They are about four hundred feet apart at the surface, with apparently very little dip."

We started to pass on, but without the others seeing me, I marked the place with blue chalk. We then went to the six hundred foot level and continued to go through the various workings. We came to a tunnel leading to the southwest; and almost under the spot where I had felt the current two hundred feet above, I felt it again, but more powerful than before. I looked to my right and saw an intense blue light with a center of molten gold. This stood out clear and bright upon the wall of the tunnel. I marked the spot quickly, and at the same moment my Inner Sight was greatly quickened. I saw clearly through the rock what seemed to be a great cavity between the two main veins at least two hundred feet apart. The opening was fully two hundred feet high and nearly the same in circumference. A stringer—or crack in the formation—led into the top, just about the four hundred foot level.

During an ancient volcanic activity the ore had been forced to this point forming very rich veins, but this crevice had allowed it to pour through, filling the cavity. It was one of those strange things that happen in Nature, very seldom of course, but nevertheless, they do occur.

The whole activity had been flashed on my consciousness in a moment, as all truly Cosmic Flashes do occur. I marked the spot, then went on with the others to examine the new strike. It was tremendously interesting. The two walls of the vein had suddenly widened in their formation, and at that point the large body of ore had been created–but it was not more than a tenth as large as the one I had marked. Just at this time Bob Singleton was called away by one of his men, and I had a chance to explain to Rex and his father what I had been shown by Beloved Saint Germain. I knew positively it was by His Power that I had been enabled to see within the formation and mark its location. Rayborn decided immediately to have a cross-cut tunnel run in from the spot I had marked to contact the ore-body that had been revealed to me. When Singleton returned, Rayborn gave the order to have the men start work at once on this cross-cut.

The superintendent looked at him in perfect amazement. However, none of his men ever thought of questioning anything he suggested, and Bob began making arrangements at once to carry out the order. Rayborn did give him a little explanation by saying,

"Bob! I know you do not understand why I am having this done, but when this special work is accomplished, I will explain."

"Mr. Rayborn," said Singleton with a gentle, humble dignity, "it will always be my pleasure to carry out your orders without question."

"I wish," continued Rayborn, "you would put the most rapid and trustworthy men on this part of the work. Use three shifts, and finish it as quickly as possible."

"How many feet can the men break down in twenty-four hours?" I asked the superintendent.

"I think at least ten feet," he replied, "more or less, according to the hardness of the rock." At that rate, I felt they would be able to reach the ore-body in about ten days, and I could have almost shouted for joy because I knew there was no uncertainty about what they would find when they reached it.

Rex and I liked Bob Singleton very much, for he seemed a man of fine, strong character, though very young for the type of position he held. He left us as soon as we came out of the mine, for there was a shipment of ore to be sent out that afternoon.

"I have wired the foreman at the ranch," Rayborn explained, "that we will not return for two weeks unless something vitally important demands it, because I wish to stay here and watch the progress of the new cross-cut tunnel." The days passed quickly, the work went steadily ahead, and we occupied our time writing, hiking, and enjoying the music that Nada and Rex gave us on the Arabian

instrument–Bob Singleton joining us at dinner several times.

The work on the tunnel cut through forty-eight feet the first five days. Each of the men received a bonus of one dollar a foot, and Singleton fifty dollars for the good work accomplished. Bob asked Nada and Rex if they would sing for the men one evening while at the camp. They both agreed, and Nada, as a surprise for everybody, wired to Denver for Arabic costumes–and when they appeared for their first number, the men almost went wild with joy. The program closed, and one of the men arose and asked if they might all shake hands with the children in gratitude for the evening's wonderful entertainment. The children agreed and said afterwards that they had never felt such inspiration or such power in their voices. Both felt the Master Saint Germain had been present and used the opportunity to pour His Radiation through the music to the men, thus raising their consciousness and loyalty to a still greater height. This was His Way of neutralizing the influence that had attempted to enter through Grey, which had been unable to accomplish its nefarious purpose.

At twelve o'clock on the eleventh day, I was in the office of the mine with Bob Singleton when a man came rushing in, greatly excited, saying they had struck rich ore in the new cross-cut. The

superintendent looked at me utterly speechless, so plainly did he show his surprise. It was then I realized that he had really never dreamed of finding ore in the new workings.

Merely by the use of ordinary geological observations, this ore-body never would have been located, for geologists seldom take into consideration the freakish formations that sometimes occur in Nature, and that She does occasionally extraordinary things. This deposit would never have been found except by the Superhuman Power of our Beloved Master.

Singleton asked me to find Rex and his father and tell them the news. I hurried to the camp quarters and found them awaiting me at lunch. When I told of what had happened, we all silently gave praise and thanks to the "Beloved Mighty I AM Presence" and our Blessed Saint Germain for making this rich strike possible.

Rayborn sent word to Bob that we would be ready to go with him and examine the new discovery at half-past one. Nada decided to await our report. When we reached the spot, I saw the last shots had broken well into the ore-body, as the entire face of the tunnel was in ore.

"Bob," instructed Daniel Rayborn, "sample this strike and push the work as fast as possible, that we may determine its extent."

"I will," Bob replied, and went on to explain: "The formation in the ore deposit itself is much more easily drilled and broken than the ordinary rock." As we returned to the surface, he could stand it no longer and burst forth:

"Mr. Rayborn, this is the most remarkable thing I have ever read or heard of in all my life. How did you know the ore was there? No outer signs indicated it."

"Bob, my boy," he replied, "have patience. You will soon know. We shall prolong our stay another ten days, and if I am not mistaken, they will make twice the speed in the ore-body itself as they did getting to it. Keep this ore entirely separate from all the rest in the mine. I will explain the reason why later."

That evening at dinner, Mr. Rayborn asked Nada, Rex, and myself to meet with him at eight o'clock.

"I suggest," he began, as soon as we were all seated, "that we take Bob Singleton into partnership with us as general manager of the entire mine—including what in the future will be known as the 'Master Discovery.' I think he had better select an assistant of whom we all approve. I feel certain he can be trusted as one of us. We have every evidence before us that all our Beloved Master said of the ore-body is physically true. However, let us

say nothing to Bob of this until the tunnel-drift is through."

The following days were filled with great activity and tremendous interest as the work progressed. Almost every evening, Bob was invited to dine with us that all might become better acquainted. Twenty days after the ore-body was reached, the tunnel-drift was through to the opposite side, a distance of fully two hundred feet, and Rayborn was more than happy that we had waited to learn the extent of it.

The evening the tunnel was finished, he announced at dinner that Bob was to be taken in as one of the partners; and while the "Master Discovery" really belonged to Nada and Rex, they wanted him to share a certain specified interest in the mine also, in addition to his salary. Then he explained how the ore-body came to be discovered. He gave a short description of our Beloved Master, Saint Germain, telling of the Protection he and his family had been given for years, of the recent attempt upon his Life, and his escape. Tears of gratitude and joy streamed down Bob's cheeks as he tried to express his appreciation.

"Your deep feeling" said Rayborn, "proves your sincerity to me beyond question. We shall all feel a Great Love for you Bob, and I am certain you can be trusted as one of us."

"I thank each of you," said Bob with sincerity,

"and I will do my best to prove worthy and true to the trust you place in me, and for your very great kindness." It was then we learned that Bob had a sister, Pearl, of whom he was very fond, and who was his only living relative, with the exception of an aunt with whom she lived.

"I expect Pearl," he continued, "to reach here tomorrow, as she is coming on to visit me for a time." He was very enthusiastic in his praise of her and drew forth her picture from his pocket.

She was about eighteen, remarkably good looking, and yet one felt she had tremendous strength of character with a natural sense of poise and command. He told Daniel Rayborn of the desire he always had to provide the means for her university training, and with his recent good fortune of sharing in the mine, this became possible of accomplishment.

The following day, Nada, Rex, Bob and I drove to the station to meet Pearl. As the train stopped and the passengers were alighting, we saw someone rush into Bob's arms. It made us realize how dearly they loved each other. That evening Bob told her of his new interest in the mine and the good fortune that had come to him. Later, when she met Daniel Rayborn, she threw her arms about him and kissed him in deep gratitude for his kindness to Bob. She tried to thank him, but he said:

"My Child, it gives me still greater happiness to know you are to share the joy with your brother whom we all have learned to love." That evening we spent listening to Nada and Rex sing, and I think Pearl was without question the happiest, most grateful person I have ever seen.

The next day came a message from the ranch saying Daniel Rayborn was needed there, so we made preparations to leave the second morning following. The assistant superintendent whom Bob had chosen to help him was to arrive at the camp ten days later, and Nada persuaded Bob to let Pearl go back to the ranch with her until he had time to visit with her. Rayborn planned to stay at the ranch only two or three weeks and then return to the mine again.

At six o'clock on the day of our departure, all the men who were off duty came to see us off, and as Bob said good-by, he held Pearl in his strong, fond embrace and expressed his gratitude that she had found so wonderful a friend in Nada. Rex and I took turns in driving, that Daniel Rayborn might have a chance to become better acquainted with Nada's newly-found friend. We noticed Pearl was a very close observer, and her appreciation of the beautiful scenery we drove through was very deep.

Time passes rapidly when all is joy and harmony, and this is one of the Great Laws of Life. If humanity

would but comprehend the imperative need for its operation in their lives and understand the vital factor it becomes in their conscious use, we would be living in a most marvelous world more quickly than we can possibly realize now.

We made a long detour while returning, but arrived home at eight o'clock, ready for the splendid dinner that awaited us. We all seemed a little tired by the long drive except Pearl. The newness of the scenes kept her interest so aroused she seemed not to feel anything but the great happiness of the experience. We retired early, deeply grateful to the "Mighty I AM Presence" for the wonderful Blessings It had bestowed upon us.

CHAPTER III

Subterranean Marvels

THE next day, Nada, Pearl, Rex and I went to our favorite mountain lake. Pearl had gone for a walk while the rest of us were sitting very quietly on the bank. We had been there almost an hour when the strangest feeling passed over me as if Pearl were in danger. I called to Rex; we discussed my feeling and then hurried in search of her. We passed around a high rock that projected across the trail and saw her standing motionless. Fortunately we did not call, but walked rapidly forward. As we came nearer we beheld a huge rattlesnake coiled, waiting its opportunity to strike.

Rex always carried a rope around his waist. Without a word and quicker than it takes to tell it, he made a lasso, and with a quick, deft movement, sent it forward, catching the snake just below its head. He killed it instantly and turned to Pearl, expecting to find her greatly frightened. Imagine our surprise when she faced us calm and serene, and smiling curiously, said:

"I came upon that snake unexpectedly, but I knew it could not harm me so long as I kept

my eyes on its eyes. Somehow I knew you would come." By that time Nada had come up to us, and we explained the incident.

"My dear sister," she said, turning to Pearl, "you certainly have wonderful courage and poise." Pearl looked at her with a peculiar expression we had never seen before.

"Nada my dear," she replied, "you know the Great Master would not allow any of us to be harmed." Finally I found my voice and asked:

"What Master?" She looked at me steadily for a moment and remarked:

"What a foolish question. The same Master each of you knows." Nada threw her arms around Pearl's neck and exclaimed:

"God bless you, my dear, how did you know Him?"

"When I was not quite ten years old," she continued, "shortly after my mother passed on, a Blessed Being appeared to me whom I afterwards came to know as the Master Saint Germain. After His first appearance He continued to visit and instruct me, but I was forbidden to tell anyone, not even my brother, until I was granted permission to do so.

"He told me to come out here to see Bob at this time, and I noticed an unusual twinkle in His eye at the time He said it, but I did not understand why He was so amused. Now it is all clear. Little did I dream

I was going to meet those who knew my Beloved Angel-Master, as I have always called Him."

From that time on, it seemed as though Pearl were a long-lost sister who had returned. That night we sprang our great surprise on Daniel Rayborn, and he was overjoyed when he learned that Pearl was a pupil of our Blessed Saint Germain.

The next morning we all had a real surprise awaiting us when we went down to breakfast; for Daniel Rayborn, as he awoke, had received a Message from our Master–for Saint Germain had asked that all of us meet at the "Cave of Symbols" in Table Mountain by eight o'clock, the morning of the third day following. That was Thursday morning. Pearl was very anxious to know something about the Cave, and after hearing some description of it, remarked, "You will find some very great Revelation concerning it is about to take place."

At six o'clock on the morning indicated, we appeared at breakfast in our hiking outfits, bubbling over with joy and the happy anticipation of seeing our Blessed Saint Germain again, for we all felt tremendous things were in store for us. We drove by auto as far as the road went, which left only a distance of about two miles for us to hike.

The day was glorious, and the very air seemed charged with a magical fragrance, a powerful highly attenuated Spiritual Energy. The drive

was delightful. We found a safe, secluded spot for the automobile, taking our flashlights with extra batteries, and reached the entrance to the Cave at exactly ten minutes to eight.

We entered the first chamber and were immediately conscious of a Powerful Vibration, almost like that produced by the throbbing of great machinery. As we came to the arched entrance of the great Inner Room, there stood our Beloved Master. He was clothed in spotless white that contrasted strangely with the hiking clothes we wore. Enfolding each in His Divine Embrace, He said:

"Beloved Ones, I greet you in the Name of the 'Mighty I AM Presence.' This Great 'Presence' within you will become as familiar to you ere long as you are with each other, as Real, as Tangible and as Vital. I see it is unnecessary to introduce my faithful pupil, Pearl, whose name symbolizes her great purity of soul.

"I rejoice exceedingly that it has been possible for Me to bring together in the physical expression such beautiful souls as you all are. It is a most unusual thing, I assure you, as you will see later. If you will kindly follow me, we shall proceed."

He moved toward the archway of white described in the first chapter and stopped about three feet in front of it. He extended His right hand, and in a moment, a Dazzling White Light like a dense vapor enveloped the entire place. The entrance to

a tunnel filled with a Soft White Light opened.

We entered, followed Saint Germain for a distance of several hundred feet, and at last came to another door on which in raised figures were the ancient symbols of Life. Presently the door opened, and we were admitted into a chamber of extraordinary shape and remarkable beauty, having twelve sides of equal dimensions, a beautiful dome forming its ceiling.

Each side was made of a different kind of substance. Four of these panels were dazzling white, each different, yet giving off a soft, glowing, Sparkling Light, and making a square within the twelve-pointed figures. The others were of varying colors of most delicate, beautiful shades. The room was at least sixty feet in diameter, and on the east side stood an instrument in a transparent case that looked like a radio as far as I could tell. On each side of this case, forming a circle around the entire room about three feet from the wall, were twelve chairs made of the same transparent metal as the case, one in front of each panel. Saint Germain seated us and stepped to the instrument.

"Beloved Students," He began, "your surmise is correct. Within this case is the most remarkable radio yet produced on Earth. The case, as you see, is perfectly transparent, yet the material of which it is made is as tough and strong or stronger than steel–so hard you cannot make an impression on

it with a hammer. The inventor of this super-radio will be here tonight, when you shall meet Her.

"I wish you to be my guests here for three days. I will see that a written message is delivered to your home by a visible messenger tonight, and that your automobile is guarded. Now if you will come with me, we shall proceed, as we have much to do before evening." He went to the opposite side of the room from which we had entered and pressed His hand against the wall. A panel slid back and revealed an opening into a large oblong room.

"This is a chemists' laboratory," He explained, "in which the Great Master Chemists have been working for the past fifty years–perfecting formulas for the protection of America in the next and final crisis of Her experience. After this crisis Her people will be taught the use of the Universal Energy for Light, Heat and Power. This will come forth in still greater Perfection than has ever been known in any previous age."

We went to the far end of the laboratory and passed into another room fully three times as large where electrical experiments were being carried on. This entire room was lined with the same transparent material as had been used in the case of the radio.

"Many discoveries and inventions," He continued, "are being brought forth here by

awakening the past memory within those who are doing the experimental work. By calling into the outer activity of the mind that which has been attained in previous lives and adding to this the *greater and simpler Perfection* of the future, those doing this work are preparing Wonders and Blessings untold for America, Her people, and through Her, for the world. During the next seventy years America and Her people will scarcely recognize themselves as they look back upon their limited activities of today.

"These Wonderful Beings who have become so clearly aware of their 'Mighty I AM Presence' are perfecting and preparing for actual use many wonderful things for the great benefit and enlightenment of humanity, as people ascend in *conscious understanding* to the point where such things can be accepted and used. Many of these formulas and inventions have been and are being taken from cities hermetically sealed that lie at the bed of the Atlantic Ocean, having sunk beneath its waters when the last cataclysm destroyed Atlantis.

"These Great Ones have drawn such formulas from within these sealed cities and are testing and improving upon them. This is how the Greater Perfection comes forth for the use and upliftment of the race in the coming Golden Age. The Great

Ascended Masters guard, watch, and direct this work. Their students who have been trained to come and go from the physical body consciously are the ones who carry out the experiments in the laboratory.

"The Ascended Masters are the Guardians of humanity and have worked through the centuries from the invisible as well as the physical to awaken, to bless, to enlighten and lift mankind out of its self-created degradation and selfishness. We have conquered death by Complete and Eternal Dominion over the atomic substance of the physical body and world. All things obey Our Commands! The Laws of Nature and the Universe are Our willing, obedient servants. In these wonderful, secret Chambers of Nature, the work goes on quietly, unknown to the outer world; and wherever the individual seeks the Light for the Light Itself, then truly all things are added."

Saint Germain called our attention to one thing after another that had already been perfected, and others that were under construction. I can never put in words the feeling of Joy and Exhilaration this gave everyone of us. One thing in particular attracted the attention of all, and we asked its purpose.

"It is a mechanical way of quickening the atomic vibration of the human body," He replied, "and

assisting to raise it into the Pure Electronic Body which Beloved Jesus referred to as the Seamless Robe or the Bridal Garment of the Spirit. It is composed of Pure Electronic Light, for in and upon It no imperfection can ever be recorded.

"Light, you see," He emphasized, "is Substance, Energy, and Luminosity–all three in one. This Pure Electronic Light of which the Eternal Spiritual Body is composed, is condensed–as it were–by your 'Mighty I AM Presence' into a Self-luminous Substance, which is for you a Self-sustained, Immortal, Ever-expanding, Ever-Perfect Form and Reservoir of Divine Love, Light, Wisdom and Power from the very Heart of God. It is your Eternal, Individualized Temple of Life and the Heart Center of your world of manifested form. It is sometimes referred to as the White Fire Body because the Dazzling White Light It sends forth is so blazing, so intense and so All-powerful that to the human eye It looks like White Fire. The ordinary person can only gaze upon It for the fraction of a second.

"This is the Body in which Beloved Jesus made the Ascension! As the Light within It increased into that Higher Octave of Life, being a more rapid vibratory action, It became invisible to the watching, adoring multitude that witnessed His Ascension. The human eye only records within certain octaves of vibration. As the human, through

Self-purification, increases its vibratory rate, the Light within every electron of the physical body glows brighter. It expands Its Radiation to such a degree that the physical form becomes first, Self-luminous; next, transcends the gravity pull of Earth, and then is able to express consciously and at will in any octave of vibration the individual desires. He can come and go freely anywhere within Infinity; for the Pure Electronic Light exists everywhere throughout Creation. As soon as the atomic structure of anyone's physical body becomes all Light, it has entered into the One Eternal Element–the *Great Universal Sea of Blazing White Essence* from which God created all forms. Only in this Condition of Life is Complete Freedom, Mastery and Attainment possible. This is the Reality and Ultimate of human existence! Then the human becomes raised until it is all Divinity, which is forever Free, Omnipresent, Omnipotent, Omniscient, going everywhere and doing all It desires, still knowing Itself as an individual, Self-Conscious Focus of the 'Mighty I AM Presence.'

"In almost every secret society that stands for constructive activity, or in other words that recognizes the 'Light' as the Source of all good, there is always used in the initiations the word 'raised.' That 'raising' is literally, figuratively, eternally and physically true; for the vibratory action of

the physical atom is 'raised' until it all becomes the Pure, Electronic, Self-expanding Essence or Spirit–the Pure God Substance–LIGHT–LIGHT–LIGHT!

"We call this device an Atomic Accelerator, and It will be used a great deal in the future to assist in raising the physical flesh atom into its Divine Purity and Structure–the Electronic Body. This Perfect Body remains forever Eternally Youthful, Beautiful, Strong, Perfect, and Free from every conceivable limitation. In this Body, individuals can and do function wherever they choose in the Universe, for in It there are no barriers of time, place, space, or condition.

"The desire for this Perfect condition of existence is an innate Idea and Ideal within the entire race of mankind, and has been always. In the legends, myths, and fairy tales of every race and nation that has ever existed on this Earth, there are stories of Perfected Beings–Immortal, All-Wise, Eternally Youthful and Transcendently Beautiful. These stories have a Cause, an Original Idea from which they sprang, and It is this Eternal Truth of Being which they carry forward from age to age, that the Ideal may always be held before the mind of mankind. *This is the master record upon which humanity was modeled in the beginning–the image and likeness of God, 'The Mighty I AM Presence.'*

"If one be a Real Student of Life, he will dig deep into the thoughts and feeling of those Beings who express the Superhuman Conditions, Qualities, and Transcendent Ideals. These, the ordinary personality considers impossible because of the Greatness of the Power required to bring Them into outer expression. The effort needed to attain and express these Divine Qualities is more than the ordinary person cares to make. The effort this kind of Attainment requires is a sincere, strict discipline of the human sense-consciousness until it learns Obedience to the Pattern of 'Perfection' instead of its own selfish temporary whims and appetites. The Real Student of Life knows that whatever God Quality the Consciousness of the individual can think about, he can bring into existence through the Creative Power of his own thought and his feeling of Divine Love.

"Divine Thoughts, Divine Feeling, Divine Qualities, Divine Ideals, can only be found by thinking upon *Divinity*, for they do not exist nor abide anywhere else, and like produces like throughout Infinity. Divinity is the *Light* and the *Perfection* of Life.

"You shall see this Atomic Accelerator in operation while here for your Instruction and Enlightenment. The Ascended Masters have permitted It to come forth that more of humanity

may know of this possibility and make the needed effort for its Attainment at the present time.

"The Ascended Masters are Masters of Love, Light and Wisdom. Only through Them can humanity understand Life and reach Attainment, for They know all, have experienced the activity of this Earth, are now wholly Divine and Master of its forces. They have trod every foot of the path the human being now treads and know every step of the way. Because of this, They can and do show the student its pitfalls if he cares to listen and be protected from them; but They will not and never do intrude upon the Free Will of the individual, for that is his Divine Birthright, and they respect It."

Saint Germain then led the way to the entrance of a shaft in which there was a metal cage—or elevator. We entered and began moving downward. We descended about a hundred feet, and the cage stopped in the center of a circular room. It was about twenty feet in diameter and facing us was a stone door. He pulled a lever at the right of the entrance. The massive door swung open and disclosed an immense chamber that contained marvelous, complete equipment for making every kind of material that was used in constructing the various devices in both the chemical and electrical laboratories. In this great room there were large

electrical furnaces and huge rollers for changing the various metals into thin sheets. Everything was electrically operated.

"This is the place," remarked Saint Germain, "from which you felt the throbbing vibration within the mountain as you entered the Cave. The machinery is seldom operated during the day. Today it is necessary to do so in order to be ready for the Work that we are to accomplish tonight, and for which you have been invited here.

"Every kind of material we wish to use is produced right here in this chamber. Of course We do not need great quantities for the experimental work We are doing, but this work is to bring into practical use for the future the Great Genius and Marvelous Ideals of highly illumined Individuals who are fully awakened to the Conscious Recognition of the 'Mighty I AM Presence' and the use of Its Limitless Wisdom and Power.

"It is my desire to explain everything in as simple language as possible so the Essence and Principle of it may be most easily and permanently comprehended. It is necessary in the present age to simplify the technical terminology, that the average person may be enabled to understand these Truths easily and quickly.

"The time has come when great numbers among the mass of humanity will awaken to the Truth and

realize they have a Divine Master within them– 'The Magic Presence' of the 'Mighty I AM.' There are many who from an Inner Standpoint are far along the Path of Enlightenment due to previous Self-effort and attainment. Yet in this present embodiment they are outwardly unaware of it and have not had academic training. Something must be done to give such souls the Freedom which they crave and for which they are really ready. These shall have help, and to this end do We work here to give it." Beloved Saint Germain then turned to Nada and Pearl, and remarked:

"Are you weary after so many hours of this kind of observation in what is generally supposed to be man's domain?" They quickly assured Him they were not, and judging from the intense sparkle of their eyes, no one doubted it.

"I have never been so vitally interested in anything in my entire life," Pearl replied.

"You do me great honor," He responded, "by your intense interest, and it gives me real happiness to know you enjoy it also. Now if you will honor My humble quarters with your presence, we shall refresh the outer form. Let us return to the electrical laboratory."

We returned by the cage; and crossing the room, Saint Germain stepped to a door leading to the heart of the mountain. It opened at His touch, and

we entered an oblong sort of reception hall having a dome-like ceiling. The walls and ceiling were all of a most beautiful, delicate milk-white color, the floor being covered with a creamy, soft wool-like material at least an inch and a half thick. There were five chairs made of semi-opaque substance in a similar cream color and upholstered in the same soft blue plush as the chairs in the Tower Room of the Rayborn home. Four of the chairs were exactly alike, but the fifth one had a high carved back. Each chair was placed near a door–the largest one being in the center.

Saint Germain escorted Nada and Pearl to the first door at the left as we came in. He requested them to enter, bathe, and clothe themselves in the Raiment they found provided, then return to this room and await the summons to dine.

Turning to Rex and me, he led us to the far door at the right, with a similar request to prepare for dinner. We entered the room He had indicated and both of us were speechless with surprise, for it was most magnificent, fit for a prince or a king's palace. It was circular in shape, a domed ceiling, finished in white and gold, furnished with two beautiful couches, a chair placed beside each with a long bevelled mirror set into the wall between them. There was a curious chest of drawers built into the wall itself so they could not be distinguished from

it except for the handles. The chairs and frames of the couches were both of the same semi-opaque substance that seemed like a metal.

Rex crossed to a small opening at our left and asked me to look. I stepped to where he was and saw an exquisite Roman bath, also circular in form. It was filled with water that sparkled and moved incessantly, as though charged with the "Essence of Life." We could not find any means of ventilation, yet in every room we visited the air was clean, fresh, invigorating, and filled with the scent of roses.

We bathed, and our bodies felt all aglow with a sense of health we had never before experienced. Lying on the couches were the Robes we were to wear. They were seamless, and made of a fabric I have never seen or heard of, something like a rich, thick silk, but very, very soft, and extremely light in weight. The one for Rex was a wonderful sapphire blue, embroidered in gold. The embroidery formed a girdle around the waist and wide bands around the neck, loose sleeves, and bottom of the Robe. Mine was white, embroidered in gold. There were also beautiful sandals to match, which fitted perfectly.

Our preparation finished, we returned to the reception room. A few moments later the girls entered dressed in Robes like ours, and they were visions of loveliness. The Robes of Pearl and Rex

were alike, and Nada's was like mine. Their room was evidently a duplicate of ours except that it was decorated in a soft pink shade. We were very much occupied comparing notes when the most heavenly chimes sounded through the room, and instantly, the middle door opened. We entered and were thrilled at the beauty upon which we gazed.

Here again, the room was in the same soft, milk-white and gold combination. The dome-like ceiling was colored sky blue, and on it were clouds that gave one the impression of really looking at the sky. The walls were draped with the most marvelous cloth that looked like diamond dust, for something in the composition of the fabric gave it an indescribable Radiance.

This audience chamber was perhaps forty by eighty feet, and in its center stood a large golden table with a crystal top. At the far end of the room there was a duplicate of this table about one-third its size, and around it were placed chairs for six persons. In one corner was a beautiful organ, and opposite in another corner stood a beautiful piano, the case being made of the same metal-like substance as the other furniture. All were so absorbed in admiration and enjoyment of this beauty that we did not notice Beloved Saint Germain and Daniel Rayborn enter until we felt Them close behind us.

Our Beloved Master led the way to the small

table where He seated Rayborn at one end and took the head Himself. Pearl was placed at His right, and then Rex; Nada at His left, and then myself. He said:

"May I have the pleasure of ordering the food for each one? You see my culinary department is in the invisible to you, but it is very real and tangible to me." We acquiesced very happily, and He continued:

"Let us bow our heads in adoration and praise of the 'Mighty I AM Presence' within each of us."

In just a moment, and without another spoken word, a Crystal Goblet filled with a Golden Sparkling Liquid appeared at the right hand of each one.

"To the enlightenment and happiness of each of you and of all humanity," He said, raising His glass, and as we drank this Marvelous Nectar everyone felt the quickening power of Its Life-giving Essence rush through the body. Next there appeared what looked like a vegetable loaf, with a piece of honey cake that was only slightly sweet. These were most delicious, and all agreed it was the most perfect thing we had ever eaten. A fruit salad followed, or at least that was what it most nearly resembled, and Saint Germain said it was most nourishing.

For dessert we ate something that resembled ice cream, refreshingly cool, not ice cold, and with it a

kind of angel-food cake, but much more delicious than anything we know of in the outer world. Lastly there appeared Crystal Goblets filled with a Creamy Liquid, and as we drank it, a force rushed through our bodies like Living Light.

As each course was finished, the empty service simply disappeared. None of us had ever before partaken of anything half so delicious, nourishing and satisfying as this marvelous dinner our Blessed Saint Germain had produced for us direct from the Omnipresent Universal Substance. As we finished, Rayborn turned to Him and said:

"This Experience that is so amazing, so wonderful to us, is all quite natural and normal to You. We feel that we have never been so honored, so pleased in our lives, as we are tonight."

"My Beloved Children," Saint Germain replied, "each one of you has this same 'Mighty I AM Presence,' the Master God Self and Almighty God Power within you with which to do these things. You can produce everything you require direct from the Universal Supply. I have acquired the Understanding of how to use this Mighty Power and how to direct Its Limitless Energy to do My bidding. If you so desire, you too can soon be directing this Mighty Energy–which is God Energy–to do what you now call great miracles. All mankind may learn to do this also, if it only will.

"There is naught in the Universe to say nay to whatever you desire, so long as it does not harm another of God's children.

"It requires much less energy and is much easier to produce everything you wish to use directly from the ever Pure, Universal Substance, than it is to go through the process of nature to grow it–once you know how." Turning to Nada and Rex, He said:

"Will you two beloved ones do me the honor to sing two of your own compositions for our enjoyment?" "Gladly," they replied. Nada seated herself at the piano and ran over a phrase of the melody they were going to sing. She stopped, astonished by the tone of the instrument, for it was unlike anything ever produced on Earth in musical tone. They sang a favorite, "The Arabic Love Song." Their voices and this marvelous piano produced an effect of indescribable beauty. When they had finished, Beloved Saint Germain, with all the grace and courtesy of a courtier, bowed low before them in recognition of the "Mighty I AM Presence" which had been allowed to come through so perfectly.

"I bow before thy gracious throne of song," He complimented them, "and never have I heard anything more Divine. Now let us go to the radio chamber. Friends are awaiting us there."

When we reached it, we were presented to three

ladies and three gentlemen who had arrived ahead of us. They wore the same sort of Robes as ours, only of different color. Among them was an elderly gentleman with white hair and beard who seemed almost feeble. One of the three ladies, whom we shall call Leonora, stepped to the radio and said:

"This Perfected Radio is the result of my work during seven different embodiments. In four of these I used a masculine body. I carried the memory of it over with me each time, and at last it has reached the Perfection intended. This radio possesses three fields of operation: that which I term high, medium, and low.

"In high, it reaches other planets of our Solar System. In medium, it reaches anywhere on our own planet Earth, including its Etheric Belts; and in low it reaches the interior of our Earth. Let us first connect with some of our cities."

In a few moments we heard clearly and distinctly a lecture being broadcast by one of the most prominent stations in New York. Afterwards we picked up an orchestra broadcast from another New York station. Then She got connections with London, Paris, Vienna, Cairo, Calcutta, Hong Kong, Melbourne and Tokyo. Distance seemed to make no difference in clear reception, and at no time was there ever the slightest indication of static.

"Now let us reach into the first Etheric Belt

around the Earth," She said. Immediately we heard the most majestic soul-stirring Music, and then a wonderful Voice was heard, saying:

"This is from the Golden Etheric City over the Sahara Desert. We always know when an Earth connection is made, but We have a still Higher Means of communication. It is the operation of the Sound Ray to speak over and the Light Ray to see through. When these two are combined, it becomes the highest form of television. However, the mechanical television will reach a very high state of perfection, and in a few years it will be as prevalent in the outer world as your telephone of today. Oh, that more of humanity might raise its consciousness and become attuned highly enough to have the marvelous use of these Rays!

"You see, the 'Mighty I AM Presence' within the individual does not recognize time, place, space or condition. It is only in the outer activity of the mind, or human sense consciousness, that such conceptions of limitation occur." Leonora adjusted the radio into high, and in a moment, we heard a Voice saying:

"Leonora, this is Venus. We know You because Yours is the only mechanical instrument that reaches Us from Earth. Your usual communication with Us is over the Light and Sound Rays, so We judge this is for the benefit of others than yourself.

Our instruments here indicate the planet with which We are connected by the sound and color of the vibration. The day is fast approaching when your mechanical television will be able to reach Us also. Your scientists will not reach this success until they understand that there are Etheric Rays. They must be made aware of Them and taught to use Them. This will make all kinds of communication within Cosmic Space a very simple matter, and it will then become a daily occurrence to keep in communication with Us.

"Within the next ten years, or perhaps twenty–depending entirely upon the Harmony maintained among the inhabitants of Earth–a number of Our Great Inventions will be given to those of your people who are attuned to receive them. These will be of very great benefit to your humanity, as is the wonderful Atomic Accelerator which is near you. That Instrument will one day bless your people tremendously. Call Us whenever We can be of service to You. Our Love, Light and Wisdom enfold You and all the Earth."

Leonora then changed from high to low, and in about three minutes a deep Voice was heard, saying, "I recognize your call, and I am answering in person. This is Pelleur. It is interesting and encouraging to know there are those on the Earth's surface who have some idea of the possibility that

God Beings can and do exist within the interior of the Earth. We think We have less to contend with than you, for We do not have extremes of temperature or seasons of heat and cold. We have the 'Eternal White Light' which is soft and restful. Our climate is very delightful, like that of the semi-tropics on Earth. Your America will one day have something quite similar, and yet there will always be some slight change of seasons. They will be much less severe than those you have at present. We have what might be called the 'Eternal Sun of Even Pressure.' This produces an Atmosphere that is always of equal pressure and harmonious to all who live within It.

"The 'Mighty I AM Presence' provides Perfect Conditions in every phase of Its expression. If all the world could but realize and understand this, the terrible agony that fear produces would drop away entirely from the humanity on Earth's surface. You see, I am cognizant of many of Earth's conditions outside of My own Activity here, for when We, as you, reach into God's Mind, *all knowledge* can be obtained, because Our Motive is pure and unselfish."

"We may not continue these observations further," Leonora explained. "At this time other things demand Our Attention and Service." Saint Germain saw and felt the unanswered questions in

our minds, as to why there were inhabitants in the center of the Earth, and what kind of individuals they were; for the idea shocked us, just the same as it does our readers. He studied us all for a moment or two and then said:

"Yes, I will tell you the facts now since the condition and demand to know the Truth are great within each one of you. You, as students on the Path who are really trying to understand Life everywhere in the Universe, must remember to keep the intellect often reminded there is no place in the Universe where Self-conscious individuals–and by that I mean individuals who know and are conscious of themselves as Creators with Free Will–may not go to explore and understand all Cosmic Activity. There is no place nor condition, I say, that they may not go, explore, and understand what is going on at that point–if they so desire.

"The idea that the center of the Earth is a mass of fire is entirely erroneous. Within the crust of the Earth for a certain depth there are conditions of the Fire Element acting; but within the center of the Earth itself there are Self-conscious individual Beings, who through many cycles of work and Self-effort have mastered the control of certain forces–with which they are still working–to accomplish the Fulfillment of the Divine Plan for that part of Earth. There are also Beings who are striving

for that same Ideal, but working only within the conditions provided by Nature at the surface.

"You must understand and remember that the Ascended Masters are instructing and assisting in all grades of the outer experiences of Life in every condition found within and upon Earth as well as on the other planets of this System. Why should it not be a perfectly natural, normal condition that would permit some of Their number to be the Instructors of those who are working with forces at the center as well as at the circumference of the planets?

"This Revelation is not unnatural nor inconsistent with a Great, Infinite Divine Plan. The inconsistent, unnatural condition of humanity is the ignorance, the narrowness, the littleness, the darkness of a human concept that shuts the door upon the stupendous Marvels of this Glorious Universe and says, 'I don't believe it–that is impossible.'

"Only ignorance and darkness make mankind believe anything is impossible. The students of Light who know and really *accept* an All-powerful Source of Creation–and what reasoning mind can doubt It when one studies the marvels of the atom, as well as of the Cosmic Suns–know that the Wonders of Creation which face us everywhere on our planet are limitless, marvelous, and stupendous. These facts are True. There are many kinds of

individuals expanding their Light on the planets of Our System, and just because one type has not yet had conscious knowledge of others is no proof they do not exist.

"Humanity must someday learn a little more of what abides in the Universe besides itself, and this Instruction contains part of that New Knowledge. It is True, every word of It, and no human ignorance or doubt can remove that Truth from Its manifestation in the Universe. Clouds may shut off the Sun's rays for a time, but they never will be able to put the Sun out of existence. So it is with human opinions and ignorance of the past and present. Someday the 'Light' must break through these clouds, and that day is here. It is NOW! Let the *Light of Truth* shine clearly through all preconceived human ideas and opinions. Facts will be revealed that compel all ignorance to disappear into the sea of forgetfulness and be replaced by the Great Light of the 'Mighty I AM Presence.'

"Now We shall continue with our other Work. The hour is at hand for the Ascension of this good brother," He said, referring to the white-haired elderly gentleman–whom we shall call David. "Because of previous attainment, he has so attuned his Life Stream that he may now enter a wider, or Cosmic Wave of Expression, and in this Great Activity he will express far more Transcendent

Phases of Individual Life than he can possibly do in this present existence. By previous growth and present Self-conscious effort in this Life, it is possible for the Assistance which We can render to be given him. Let us now go to the electrical laboratory."

As the door opened, we saw the room was flooded with Dazzling White Light. We stepped toward the Atomic Accelerator, and this time it was charged with the very Essence of Life. Permission has not been granted to give a detailed description of this Instrument at the present time, other than to say the Chair in which the one being raised sat, looked as if it were made of pure gold–but Saint Germain told us it was a combination of gold and several other substances as yet unknown to the outer world.

Saint Germain asked David to take his place in the Chair, and certain Currents of Light began to glow within the Chair itself. David sat with his body perfectly at ease, completely relaxed, with his arms resting comfortably on the arms of the Chair. There was no mechanism of any kind surrounding the Chair or within it, and it gave one a wonderful feeling of marvelous, regal comfort. It was positively a most ecstatic heavenly sensation one received about the whole arrangement.

When all were in readiness and we were very

silent, one of the Ascended Masters of Tremendous Glory and Power suddenly stepped directly out of the atmosphere. He placed those present in the proper position according to their radiation and asked that they join hands to make a complete circle around the Chair—the Mighty Master himself facing David. The persons on each side of the Master made Their connections with Him by placing Their hands against His back, just opposite the solar plexus, and Saint Germain stood opposite Him behind the Chair in which David sat. The Mighty Master then gave the necessary Direction.

"Let each one," He said, "close his eyes, focus the attention with all strength on the Almighty Power of the 'Mighty I AM Presence' within. Joyously give praise and thanks that David's body is now raised into its Divine Perfection, and that he now accepts and receives his Full God-given Freedom, Dominion and Mastery." He then spoke directly to me and asked that I observe the process closely.

I opened my eyes and at first could hardly see David's form as the Intensity of the "Light" increased. In a moment It became clearer, as I seemed to be in some degree lifted with It. Then I saw what almost made me start with surprise, for David's hair had returned to its original color (dark brown), the lines faded from his face, his flesh

became the pink of perfect health, and his beard disappeared.

I could follow no longer, for the "Light" became so intense that I was conscious of nothing else. The most concentrated part was about his body, but It enveloped us all in the most Dazzling Radiance. The outline of his body completely disappeared, and involuntarily I closed my eyes. How long this lasted I never knew. Then our Beloved Saint Germain addressed us all, saying:

"David's body has been raised into its Electronic Perfection, and the Mighty Master, My Brother, has taken Him for the time being into that Realm of Light for which He has become fitted through the Perfection of His Eternal Light Body. Later He will return in that Ascended Form to minister to humanity under Divine Direction. Come, we shall now go to my quarters."

He led the way, and we entered the beautiful "Crystal Chamber," as I loved to call it, where we had eaten our wonderful precipitated dinner. Here we found the required number of chairs placed around the large golden table with the crystal top. This was really His audience hall, but at times He used it as a private dining room for special guests. He took the chair at the head of the table, asked Daniel Rayborn to take the opposite end, and then began one of His amazing Discourses.

"Tomorrow evening, you, My Brother," He said, speaking directly to Rayborn, "shall have a similar privilege as David had today. However, the Process in your case will not be completed; but it will start the raising of the atomic structure so when the time comes for what under other circumstances would be your passing through the change called death, you can have the necessary Assistance and raise your outer form into the Perfect Electronic Structure instead of casting it off.

"I promised," He went on, turning to Nada and Rex, "that there should be no sorrow at your father's passing. Now you can understand why. This is the way We take ourselves out of the hands of the reaper called death; and so We enter *consciously* into that Perfect Life which is the Divine Light and Eternal Inheritance of everyone of God's children. Many have chosen to take a long time to come to this point, but all must make a beginning sometime, and all must do It eventually.

"This part of humanity's experience has received almost no acknowledgment. Neither has It been understood nor considered as possible of accomplishment until very recently; yet the Mighty Master Jesus gave the absolutely Perfect Example and Explanation of It two thousand years ago. He gave humanity the Proof wonderfully–conclusively, and said: 'The Works that I do shall ye do also, and

Greater Works than these shall ye do.'

"That Statement stands as an Everlasting Obligation upon humanity until all do it. Mankind has passed over this True Meaning and has taken the stand that It is not possible. While all do not need to accomplish It in exactly the same way as He did, yet every human being, sometime, somewhere, must raise the outer or atomic structure into the Imperishable, Electronic Body where no imperfection exists.

"A great many individuals now in physical embodiment are, or will be able to do this in the present Life–with a little necessary Assistance; and it is Our Great Privilege to give that. The Atomic Accelerator was perfected to help give this Assistance, and there is no invention or discovery that has or ever will bless mankind to so great a degree.

"The results you have witnessed in David's body are permanent, real and tangible. This amazing, real, physical machine is a mighty healing agent–as well as a means by which the body can be raised. It also quickly establishes perfect equilibrium in the brain structure, and through the balancing of the mental and emotional activities of a human being, dishonesty and crime of every kind can be prevented. It was used on Atlantis, although it was less perfect."

CHAPTER IV

Divine Romance

"Now I am going to touch upon very important things which are sacredly personal," Saint Germain explained, speaking directly to Nada, Pearl, Rex, and Bob Singleton. "I do not wish you to feel that I intrude upon your sacred private affairs, or that I take advantage of you because of the Power I possess and use.

"However, there are certain things that I must make unmistakably plain to you. Rex and Pearl are 'Twin Rays' from the same Divine Flame. The Flame comes forth from the Heart of God, the Great Life Consciousness of the Universe, the Great Central Sun.

"When You, the 'Mighty I AM Presence,' will to come forth into an Individualized Focus of Conscious Dominion and use the Creative Word 'I AM,' Your first Individual Activity is the formation of a Flame. Then you, the *Individualized Focus* of the 'Mighty I AM Presence,' begin Your Dynamic Expression of Life.

"This Activity We term *Self-consciousness*—meaning the individual who is conscious of his

Source and Perfection of Life expressing through himself. Only the Self-conscious Individual has ALL the Attributes and Creative Power of the 'Mighty I AM Presence.' Only He can know who and what He is and express the Fullness of the Creative Power of God whenever He decrees, by the use of the Words 'I AM.'

"The outer human part of this activity is what we call the personality. It is but the vehicle through which Perfection should be expressed into the outer substance of the Universe.

"Within the Pure God Flame is a Breath that pulsates constantly. This 'Great Fire Breath' is a Rhythmic Outpouring of Divine Love, Its three Attributes being *Love, Wisdom, and Power in action*. These pour out constantly into the Infinite Sea of Pure Electronic Light. This Light is the Universal Substance or Spirit, out of which all forms are composed. It is intelligent–mark you–because It obeys law through the command of the individual who says or is conscious of ' I AM.' These two Words are the Acknowledgment and Release of the Power to create and bring forth into outer existence whatever quality follows that Acknowledgment. For Intelligence to act, there must be Intelligence to be acted upon; and the Universal Substance, being like a photographic film, takes the record of whatever quality the individual imposes upon It through his thought, feeling, and spoken word. The Words 'I AM,' whether

thought, felt, or spoken, release the Power of Creation instantly. Make no mistake about this. Intelligence is Omnipresent, and It is within the Electronic Light.

"The first Fiat of Creation that went forth into Infinity was: 'Let there be Light!' and then Creation took place, for out of this Primal Light comes all manifested form.

"The 'Light' is the Central Point of Life or energy within every atom, composing the substance from which comes all physical manifestation. I speak of the atom because the lower rate of vibration composing the physical manifestation is the atomic structure which we have under consideration.

"When you consciously envelop or hold any person, place, condition or thing in the Dazzling White Light, you are penetrating, going through the atomic structure into the Electronic, wherein there is no imperfection. In this Use of the 'Light,' one penetrates the structure of imperfection, and that on which the attention is centered is then brought forth Perfect–not only as the Father sees It, but It is the Father's Perfection expressed.

"You, as the Son, are given choice, *commanded to choose and direct* where the energy–which is the Activity of the 'Light'–shall go. It is imperative to have your conscious thought, your firm attention on what is to be accomplished in order to give the needed direction to the Activity of this Mighty

Force which it is your right and privilege to use.

"When you use the Dazzling White Light, you are actually accepting the Electronic Structure which is then present in manifestation, for you are acting from the Plane of Action, or Perfect Manifestation. Your desire, when held steady, unwaveringly, becomes the Conscious Thought directing, for you cannot have a desire without Conscious Thought in the desire.

"Great strides have been made in the Higher Use of the Light at the Inner Levels in the past fifteen years. Your conscious great adherence to the Light shows you are ready for Its Highest Use. If in your use of the Light, you will know the Perfection of what you wish is already present in manifestation the *moment* you start the *dynamic action* of the Light, It will remove all uncertainty in your mind as to the positive assurance of the manifestation, or what you wish, taking form in your physical use.

"In clothing or visualizing any person, place, object or condition with the Illuminated Figure of Jesus Christ, or the Figure of any other Ascended Master, you are really unclothing, penetrating through the atomic garment–where you see, recognize, and accept the Perfection you now want present in form, for you have *swept aside* all imperfection in the action.

"The student should see and feel his body as if composed of Pure White Flame sending out long Rays

of Light. The Flame is your Real Self– 'The Mighty I AM Presence,' the Full Christ Perfection. The Rays shooting forth are the Divine Mind, or 'Love in Action.' These Rays are what follow your Conscious Direction, carrying your thought and producing magical results when consciously directed, held firm by determined, unwavering, Conscious Attention. The 'Light' you thus visualize is the Electronic Substance the Hindus call 'Prana.'

"This Light is always directed by thought, but it is imperative that all learn to control and direct It consciously. This Conscious Control and Direction is how the Ascended Masters accomplish such Marvelous Results. Divine Love is a Presence, an Intelligence, a Principle, a Power, an Activity, a Light and a Substance. When we command Divine Love to go forth and do anything, we are setting into motion the Highest Form of Action–*the most Powerful Force*.

"This, however, does not require terrific effort; in fact, it requires just the opposite. It is a calm, steady, determined, conscious knowing. As this becomes a fixed consciousness, an *absolute certainty* in one's conscious awareness, he will find more and more instantaneous response to his demand and command. Never be afraid to demand and command anything that is a Universal Principle of Life.

"Make no mistake! The Light, the Universal Electronic Substance, is for your use–is at your

command! Your 'Mighty I AM Presence' is a Self-Conscious Being of which your outer consciousness is but a fragmentary part. Therefore you can talk to your Mighty Master within as you would to a loving father who possessed limitless Light, Love, Riches, Power, Health, Happiness, or anything you could desire; for the more you consciously use this Mighty Presence of the 'I AM,' the quicker will It respond to you.

"Divine Love can control all manifestation! If in your use of Divine Love you are conscious that It has within Itself all Love, Wisdom and Power of this 'Mighty I AM Presence,' the fact is that you qualify this Principle which you command with whatever quality you are conscious of as being within It. You are given Dominion over everything in the air, in the earth, in the fire, and in the water–through the command of this 'Mighty Universal Principle' which is always at your Conscious Service and for your use.

"Love, Divine Mind, and Prana are One in the static or still state. Through the Conscious Action of the individual, Divine Love consciously directed, becomes Love, Wisdom and Power–in action. This is why Divine Love consciously directed to accomplish things produces such marvelous results. It becomes Instantaneous and All-Powerful as soon as the outer consciousness ceases to limit It.

"Now to return to the explanation of the Rays:

The Almighty God Flame, breathing within Itself, projects Two Rays into the Great Sea of Pure Electronic Light. This Intelligent Light Substance becomes the clothing, as it were, for these Rays of the 'Mighty I AM Presence.' Each Ray has all the Attributes of the Godhead within It, and no imperfection can ever enter into or register upon It. The Individualized Flame sends down into each Ray a Focal Point or Spark, forming a Heart Center upon which gathers the *Electronic Light Substance,* creating the Electronic Body. Around this It sends out Rays of lesser intensity that form an aura or force field. This force field is sometimes referred to as the Causal Body, and within It are deposited the results of all constructive effort during and between each embodiment. All Electronic Substance that has been used constructively by the personal self through physical experience is also deposited within It. Through It, the God Flame can send out into space a Greater Release of Its own Life Wave.

"The Causal Body, through the personality's journey in physical experience, becomes an Ever-expanding Sun and a Self-sustained Outpouring of Limitless Ideas, Love, Wisdom and Power, flowing out forever on Rays of Love to the rest of this Universe. This Sun is in reality a Reservoir of constructively used energy and substance, gathered through human experience and drawn upward, so

It becomes the Glory of the 'God Flame,' which mark you, never loses Its individual identity in the Universe. This is how the Beautiful, Joyous, Perfect, Limitless Activity of Life and Creation goes on–ever expanding Its Perfection.

"The Universal Substance and Energy which the personal self uses discordantly accumulates in the atmosphere around the physical body of both the personality and the Earth. Periodically it builds a vortex and can only be purified and returned to the Great Sea of Universal Light by the activity of the Fire Element.

"The purifying process of the Fire Element acting within the flesh of the human body to consume wrong qualities sometimes produces the sensation of pain if wrongly qualified by the personality; but if the Fire Element acts within the flesh of the human body to vivify and energize, It produces the sensation of Peace, Exhilaration and Ecstasy. If acting in the atmosphere of the Earth and within Nature to purify, It sometimes produces volcanic and cataclysmic conditions; when acting to vivify and energize in Nature, It produces marvelous growth and pure, rarefied air which vitalizes all.

"The personal self of every individual is endowed with the Power of Choice as to what it wishes to think, to feel, to create and experience. If one uses all the substance and energy of his Being constructively, then Peace, Expansion, Joy, Opulence, and Glory

are the return unto Life for the Outpouring of Its Gifts. If one chooses and creates otherwise, his misery and destruction return into himself and destroy his body.

"The personal self is a Custodian of Life, of Ideas, and of 'Light Substance,' Pure Electronic Substance. The very fact that one is in existence as a human being is an open acknowledgment to those who are able to read the Book of Life, that he has decreed to come into individual existence and accepted of his own choice the Responsibility of being a Creator. Everyone must carry the responsibility of his world. If he has created, because of the appetites of the physical body, things and conditions he does not enjoy, he has *all power* to purify and dissolve them by the *right use of the Fire Element—of which Divine Love is the Highest, Most Powerful, and Eternal Activity.*

"If he desires to set his personal self and world in order and therefore have Peace and create a world of Joy, Perfection and Glory, he must look to his Electronic Body for the Pattern of his Divine Perfection; for It cannot and never will be found anywhere else. There, and there only, can the personal self ever find security, rest, satisfaction, joy, and the Fulfillment of every constructive desire, for in the 'Fullness of the Presence' are the things that you desire.

"This Perfect, Eternal, Electronic Body abides from

twelve to fifty feet above the physical body of every individual, unless he be a very low or destructive type, when It withdraws still farther away.

"This is the Son and Sun of God, for the Electronic Body of every Individualized Flame of God is a Dazzling, Blazing Light of such intensity that the human eyes can only gaze upon It for the fraction of a second. *By adoration to the God Flame and purification of Its instrument—the personal self—the outer activity of the mind and physical body becomes raised in vibratory attunement to see the Electronic Body clearly within the Blazing Light of the force field around It*. The physical body or actual atomic structure of the flesh is the densest form and is the record of the outer activity of the mind.

"In certain phases of religious explanation concerning this Electronic Body, It has been referred to many times as the Guardian Angel. It is all of that and more when really understood and comprehended. To It, the personal self should look for the Supply of every good thing as a child looks to its mother. All that is within the God Flame flows into the Electronic Body, where the Tremendous Power and Intensity of the Light of the 'Mighty I AM Presence' is stepped down to a degree that can act in the vibratory octave of the physical world.

"From the Heart Center of the Electronic Body flows a Stream of Life Essence, or Liquid Light, which enters the physical body through the pineal

gland and fills the nerve channels. This Liquid White Fire flows through the nerves as blood does through the veins. This beats the heart, moves the muscles of the body, and enables one to walk or raise the hand. It is also the Energizing Light within the brain cells.

"The Life Stream of the body has often been referred to as the 'Silver Cord.' So It is; for the Stream of Liquid White Light pulsates continually through the flesh body by way of the nervous system. At so-called death, the 'God Presence' withdraws the Stream of Liquid Light, and the flesh disintegrates. The reason the race continues to experience so-called death is because of the waste of this Electronic Light through emotional excesses, instead of retaining It within the physical brain and body to rebuild the cellular structure and supply the Motive Power for the entire body.

"Mankind does not like to hear this Truth, but the waste of the Life Energy through uncontrolled feeling is the cause of the disintegration of all physical bodies outside of violence. If one uses the Inner Sight to observe the Life Stream of a strong healthy child, he will see the nerves of the body full of this Dazzling Liquid White Light.

"Then if he observes the body of the same child when ill or fatigued, he will see the Light greatly diminished. In an old body, it is still more greatly dimmed, and if one wishes to observe the Soul

passing out of the body at so-called death, he will see this Life Stream entirely withdrawn at the top of the head, until It becomes only a thin thread of Light which finally breaks. At that moment, the heart ceases to beat.

"Again, let us return to the explanation of the Rays: Nada and Bob Singleton are two other Rays of an Individualized God Flame. Whether you choose to accept this wonderful fact depends entirely upon yourselves. I do not even suggest–but knowing the secret feeling of your Hearts as I do, it is my privilege to disclose this much. It will explain some of the feeling which you have not understood.

"My sincere hope is that all four of you will be able to raise your bodies in this Life–with the outer attention consciously directed to that point. With the Assistance which We can give at the proper time, you will be able to accomplish the Final Attainment. I feel your gratitude, for which I thank you. In answer to your thought of why this Glorious Privilege is yours, I want you to know that it is because of previous growth. Your own Indwelling 'Mighty I AM Presence' commands It for your Safeguard and Illumination.

"I shall now give you the Explanation of the Law by which you are able to illuminate, raise the physical body, and express the Full Dominion, Victory, and Freedom of the Ascended Masters:

"The seed within man and woman is only

intended for the sacred office of creating a body by which another Soul may come into physical embodiment. At all other times, the Glorious Light within the body should be raised into the top of the head and allowed to flow up in adoration unto the 'Mighty I AM Presence.' Then by uplifted thoughts and feeling, one can do creative work at the mental level through glorious ideas, ideals of art, music, invention, discovery, research, and the creation of beauty and harmony of every description through a Service that blesses humanity, and therefore the individual who gives it.

"Instead of wasting the wonderful Liquid Light, the Marvelous God-given Essence of Life, in sex sensation and excesses, whereby the body becomes decrepit, flabby, crippled, face lined, eyes dull, the whole structure stooped and feeble, the brain inactive, sight and hearing impaired, and the memory not able to function–this Energy should be rightly used in wonderful, idealistic Creative Activity.

"In such constructive consciousness and accomplishment, the physical body would remain eternally youthful and beautiful, the brain and faculties keen, alert, and active; and the whole physical expression would become the Image and Likeness of the living God–truly the 'Temple of the Most High!'

"Your bodies are now calling for their accustomed rest. The chambers are in readiness. Sleep until

you awaken. I commend you to the Embrace of your Glorious 'Mighty I AM Presence.' Rest in peace."

We returned to our beautiful sleeping chambers where all was in readiness. The most delightful fragrance of roses permeated everything, and we certainly never rested upon more comfortable couches, nor enjoyed such divine repose. Rex was very happy to find that Pearl was the "Twin Ray" of his own God Flame, and in speaking of her after he and I had gone to our room, said:

"Ever since we first met, I have felt a strange attraction to Pearl, and whenever in her presence, I am always conscious of a sense of quiet contentment. Our Blessed Saint Germain has certainly explained all most wonderfully, and I am deeply grateful."

"In giving this explanation to me some months ago," I replied, "He said to me: 'The Beautiful Love of one Ray for its Twin Ray is tremendously uplifting, exalting, wonderful, and infinitely more joyous than when the great Current of Liquid Fire, the Life Stream of the Universe, is turned downward and becomes passion.

" 'This Mighty, Concentrated Electronic Force, or Life Essence, is a Liquid Light which flows wherever the attention directs It. The mind's attention is pulled this way and that by thought, feeling, sight, and hearing–in fact by the pull of

all the physical senses. The True Understanding of what Mighty Power is at your command when you have full control over your attention cannot be overestimated. The Liquid Electronic Essence is this Mighty Energy, and It energizes whatever the attention rests upon.

" 'If one be doing intense mental work, the Liquid Light stays within the brain and flows forth through the center of the forehead between the eyes as a Ray of Light, and if the Inner Sight be opened, one can easily and always see It. If one be speaking, this Pure Mighty Energy flows forth through the Throat Center as sound. If one be pouring out Divine Love, this Liquid Light flows forth as a Radiance from the Heart Center.

" 'If one be sending out intense feeling, It flows forth from the solar plexus. Here It also performs the function of digesting the food. If one has the Inner Sight opened, he will see a Stream of Light pouring out from whatever center the energy is being used at the moment. This Pure Liquid Light becomes colored by whatever quality the personality imposes upon It through the thought, feeling, and spoken word. Here lies one's responsibility as a creator, and the means by which he can correct or purify whatever has been wrongly created.

" 'If this Life Essence is released at the generative center for sex pleasure instead of building a new physical embodiment for another Soul, the process

of disintegration of the physical body is started, and the journey to self-generated dissolution of the body begins. It matters not what human opinion says to the contrary; this is the *inevitable, inexorable Law* of physical embodiment, and there is no person in the Universe who can change It.

" 'This is the *principal reason* for the condition that is called death within the race as a whole. Let anyone who disagrees with this Truth compare the brain and body of one who conserves this Liquid Light over a period of a few years with that of one who has wasted It over a similar period, and he will not need any other proof. The conservation of this Liquid Electronic Light and the conscious lifting of It by adoration to the "Mighty I AM Presence" and by the power of the mind through the control of the attention is the Way of Perfection, and is safe, sound, sensible and reasonable. It can have only harmonious, constructive results to the mind, the body and world of the individual.

" 'This is not a system of repression by the power of the human will. That is and will always be disastrous, for to dam up a highly-concentrated energy and then by thought, feeling and suggestion keep driving more of it to that point through thinking upon it in secret, must of necessity cause an explosion of some kind to take place. That method never was the original spiritual teaching of anyone who really knew and

understood the Truth and the Law concerning it.

" 'Humanity has not except in a very small degree, understood this Truth, or thousands would have become Ascended Masters long before now. In order to rise out of the degradation, misery, poverty, and disaster in which the mass is now wallowing, the individual must come to a clear understanding of this Law in the outer activity of his mind. Through his conscious knowledge and control of the emotions, he shuts the door to the most dangerous and subtle suggestions from the psychic plane–which is the most unrecognized enemy and vicious activity of the sinister force in this world.

" 'The feeling nature of mankind is a reservoir of energy, and it is impossible for thoughts to become things until one propels them forth into the Sea of Electronic Substance–by feeling.' "

As we retired, the Glorious Illumination of our room faded out, and we were soon fast asleep. Such heavenly rest none of us had ever before experienced. We must have slept fully twelve hours when the most glorious tones of a bell sounded through the chamber, and the Dazzling Illumination gradually again filled the room.

When we had bathed and donned our Robes, we found a most delicious breakfast awaiting, served on an exquisite crystal-top table which neither of us had noticed as being there before. On it was food of which we had never heard, more delicate and

delicious than can ever be served by any culinary artist of this world. The dishes looked as if they were made of mother-of-pearl, with heavy gold bands, and the rest of the service was made of wonderful semi-transparent metal with pearl handles. We dined and were discussing the wonders we had been experiencing, when the table with its entire beautiful service disappeared before our eyes.

Again the sound of the beautiful bell filled the chamber. We went to the reception room and there found Nada and Pearl awaiting us. They looked radiantly beautiful. Youth always responds marvelously to the 'Mighty Magic Presence,' but in this change a Transformation had taken place that was more than usual with both of them revealing a Radiance which had never been in either of them. Both showed the awakening of a Great Love, and while they had experienced the same wonderful rest as we, yet they had undergone an even more wonderful change.

We had only been talking a few moments when the great doors to the Crystal Chamber opened. We entered and found twelve more Ascended Masters present, making twenty-four with those whom we had already contacted while in this Retreat. Saint Germain presented us to Them, and I noticed one Lady and one Gentleman around whom the Light was dazzling, for Their Radiance shone brighter

than the others. They came directly over to Nada and Rex, and with Indescribable Grace, greeted them both.

"Beloved Brother and Sister," said the Lady, "We come directly from the Sphere in which your dearly beloved mother sojourns. It is not Her Home, but She is there for certain training. You did not know it at the time, but if you could have looked within the casket before your mother was supposedly placed in the sarcophagus, you would not have found her physical body. We were two of the twelve present who were with the Mighty Master Saint Germain when the Assistance was given that enabled her to be raised into her Eternal Electronic Body. She wishes you to know this–now that you have become aware of and have accepted the Great Ascended Masters' Way of Life.

"These, Our Blessed Ascended Brothers, have found that each of you can be given the necessary Assistance to raise your bodies as She has done when the humanly accustomed time of your earthly pilgrimage is finished. The third night here, She will come to you as We do now. Tonight, Nada and her father will have a very happy surprise."

Again the bell sounded, and our Beloved Saint Germain announced that all were to enter the electrical laboratory. Passing into that room we found the Marvelous Atomic Accelerator aglow with Great Currents of Light. He asked Daniel Rayborn

to take his place in the Chair. The two Radiant Masters stood at opposite points in the circle, one in front, the other behind Rayborn–Saint Germain standing within the circle of twenty-one. Again He asked me to watch the process closely.

In an instant, the Light within Rayborn's body began to increase, and his face revealed great joy. Within the Light around him were particles of substance, continually rising as the impurities in his physical body were thrown off and consumed. This lasted about ten minutes; then I saw his hair gradually return to its natural color, a dark brown, and his face become radiant and youthful. The Light within the Chair gradually disappeared, and the laboratory was again as usual.

Saint Germain extended His hand to Mr. Rayborn and he stepped down lightly, as if scarcely conscious of any weight. For more than an hour, the Radiance about his face and the Brilliant "Light" within his eyes was most remarkable.

"Words can never describe the Marvels I have experienced," he said, turning to us, "and for the first time in my Life, 'I AM' beginning to know the *real meaning* of Life. We do not dream in the unascended state what a small fraction of the Mighty Principle of Life we appropriate and use in our ordinary mundane experience."

"Each of you," said Saint Germain, "has been

tremendously uplifted through the Powerful Radiation of this Marvelous Atomic Accelerator."

We returned to the Crystal Chamber and noticed that chairs to seat twenty-four persons had been placed around the large crystal-top table. The two Radiant Masters took Their seats at the ends, our Beloved Master in the middle, and Nada opposite Him.

"Focus your attention upon Bob Singleton," He said, addressing Nada, "and request him to come to us." Almost instantly, a soft rose-colored Light enveloped all, accompanied by a most delicate fragrance of roses. In a few moments a beautiful blue formed around the rose-colored circle. This was followed by a radiance of gold around the blue. Then we heard a sound like the swish of wings, and Bob Singleton, in a tangible, visible body stood upon the table before us accompanied by the two Radiant Masters who before had been sitting at the ends of the table. I had not noticed that They had left until Their return with Bob.

As he stood there, I could see his form becoming more and more dense, until presently his body was as tangible as my own. Saint Germain arose and extended His hand to Bob as he stepped lightly from the table. We all rose to our feet, and Nada looked steadily at him an instant as the rest were about to offer their greetings. Bob put his arms around her and held her close to his Heart.

"My Precious Love," he said, "I have always seen you in my dreams. When you came to the mine, I knew you as my Angel Love, but you seemed so far beyond me, I did not even dare to hope. Now to hold you in my arms is the most divine thing I know. In the Glorious Freedom of this Inner Body I see the Light of Divine Love between your blessed brother and my dear sister. My gratitude is boundless."

Daniel Rayborn stepped forward with extended hands and gave his blessing to this Great and Divine Love; then turning to Pearl and Rex, gave them his blessing also, saying that in his highly attuned state, he realized all more clearly.

"Will I be able to remember this," said Bob, turning to Saint Germain, "when I return to my body?" and He replied:

"You shall do so if you wish. The Privilege granted you at this time is a very rare occurrence, for you are clothed in a temporary body. However, it is just as tangible as your own physical body and as the physical bodies of the others here."

Everyone came forward and congratulated the happy lovers, the Ascended Masters making a connecting link through which Assistance could be given at any time in the future in case of need. It was then we were told that the two Radiant Masters were also "Twin Rays." The Ascended Masters present knew Bob from contact with him

in the Higher Spheres, but he did not retain the memory of his acquaintance with Them. When Saint Germain stepped forward, Bob would have kneeled before Him.

"No, Bob," He said, raising His hand in protest, "your own 'Indwelling I AM Presence' is just as Great as the Ascended Masters who have found the way before you to complete Mastery and Freedom. To It belongs your First Love, Recognition, and Worship at all times–never forget that. 'I AM' your Elder Brother, that is all; and it is My Privilege to assist you to that same Freedom. It is at the Command of your own 'Mighty I AM Presence' that you are enabled to be here in this manner tonight. It is always a joy to be of any assistance that the Great Law of your Being permits.

"I wish you to come tomorrow night in this same manner, that you may meet your sweetheart's mother, for She will also be here at that time. Much is being done which you do not now understand, but your beautiful Love and Trust is opening wide the gates to Blessings of which you do not dream. However, the full understanding will come as you progress. Arrange your work at the mine so as to retire promptly at nine o'clock. Now you must return to your physical body." He then asked us all to form a circle about Bob.

In a few moments the Radiant Circle of Light in rose, blue, and gold again enveloped us. The two

Radiant Masters took Their places beside Bob, and in an instant, all three disappeared. The rest of us walked about in the Crystal Chamber, and in about twenty minutes the Radiant Ones reappeared in our midst.

Never in my whole existence have I ever experienced such wonderful joy and unspeakable Divine Love as radiated from everyone present. This finished our work until the following evening. The twelve Ascended Masters who had appeared last formed into a circle, and in a few moments, disappeared from view. The remaining six, after extending to us Their Blessing, vanished before our eyes.

We all gathered around our Beloved Saint Germain in boundless gratitude for the Marvels we had witnessed and the Limitless Blessing we had received.

"My Beloved Students," He explained, "do you not see how much easier, how much more joyous it is to rise above all human, earthly limitations and produce whatever you require direct from the Universal Substance–which is the Eternal, Omnipresent Supply of everything you can ever desire? Each one of you who has been requested to come here can learn to do this much sooner than you dare to imagine in the outer activity of your mind. The time required to attain this Mastery is tremendously shortened when the individual comes to the understanding that his physical body is the Temple

of the 'Mighty I AM Presence,' the GOD of the Universe; and the very Life Energy which moves his body across the floor is the Most High Living God! This is the Christ, the Only Begotten Son–*God in Action*. However, I find many who get tremendous results by thinking of It as the Ascended Master Within, or the 'Mighty I AM Presence' to whom they can talk. This 'Presence' is a Glorious Blazing Light. You can see Its Light within your outer mind and body–Its Visible, Tangible Presence resting a short distance above your physical body. You can speak to It and receive Its Definite Answers, Perfect Direction and Wondrous Revelation.

"You can thus always be God directed if you will only contact your 'Mighty I AM Presence' close enough and often enough. Its Mighty Wisdom, Intelligence and Liquid Light will flow ceaselessly into whatever you wish to accomplish if you will but hold your attention steadfast upon the 'Mighty Presence' *first* and whatever you wish to attain second. Then follow this up by determined, persistent insistence. Such Almighty Power and Intelligence is absolutely Invincible and can never fail.

"Human doubt and fear, which are subtle feelings, can keep you from accepting this 'Mighty I AM Presence' and Its Perfection if you let them, but the 'Presence' never did and never can fail. This

is a simple formula for quick, certain attainment. You cannot possibly estimate what tremendous advancement is possible in a short time if you will–because you can–consciously, continually, and completely accept the Wonderful Love, Intelligence and Power of the 'Mighty I AM Presence' whose Energy is flowing and acting through your mind and body every moment of the twenty-four hours.

"There is one point that Real Students and those who wish attainment should know unmistakably, and that is concerning desire. No one can ever attain Mastery over human creation and gain the Ascension by an attitude of desirelessness, because without desire for attainment, attainment would not be possible. Remember forever that all Constructive Desire is *God in Action* in you; for if desire were not within the God Principle, manifestation would never have taken place. Until the Godhead desired manifestation, it could not come forth.

"The activity of desire is the forward-moving, or expanding motion of Life Itself, and can never be dispensed with. Life is Perpetual Motion, and the sustaining of that Activity is all Constructive Desire.

"However, be careful that you discriminate between desire and human appetite, for they are as far apart as Light and darkness. Appetite is but an accumulation of energy qualified by human

feeling through the formation of habit in the sense organism only, and has nothing whatever to do with desire within God's Life; for all that abides within Life is Pure, Perfect, and Constructive. Constructive Desire is *eternally existent* within Life. It is impossible to progress or express Life without some form of desire.

"It is the student's duty to be alert and on guard, discriminating always as to his motive for doing anything. He needs to be severely honest with himself in his feeling and motive, for many times the outer activity of the mind tries to make one think he is doing a thing from the standpoint of reason, when all the time he is doing it to satisfy a feeling instead.

"As yet, the majority of the race are but creatures of feeling, for it controls them ninety percent more of the time than does the wisdom of the mind. That is why they are principally creatures of physical appetites instead of God-directed Masters of Circumstance and Dominion. Until the student takes his feeling body in hand and definitely controls it by the Love, Wisdom and Power of his 'Mighty I AM Presence,' he cannot and never will be dependable, nor can he make permanent progress to Freedom. The 'Mighty I AM Presence' stores Its Force in the emotional body, or feeling body, and depends on this Energy to accomplish

the Fulfillment of the Perfect Divine Plan of Life.

"Everyone knows the difference between a Constructive and destructive idea, and the difference between the feeling of Love, Peace, and Calm, and that of discord. So the simplest mind, even a child, innately knows the difference between the Divine Way of Life, a God Desire, and the human appetite for self-gratification. We are commanded to choose the Divine Way of Life, and if we do not compel the sense appetites to obey that Command, then we must suffer, experiencing chaos and destruction until we set our own world in order so it blends with the Great, Orderly, Harmonious Movement of the Whole. Purity, Order and Harmony are the *Law of Perfection* forever.

"When one wishes to give way to his own feeling of resistance rather than still that feeling and replace it by Peace, he destroys himself–mind, body and world–because the Law is that whatever discordant thought and feeling is sent forth by a human being, it must first vibrate through the brain and body of the sender before it can reach into the rest of the Universe. After swinging out, it begins the return journey to its creator. While coming back, it gathers more of its kind, and that becomes the accretion of which the individual's world is composed. This is *The Law,* and it is Immutable.

"When the Great Life Energy within the physical body is used constructively, the result is the greatest possible joy, happiness, and accomplishment–not only to ourselves, but to every person, place, condition and thing we control. Then the 'Mighty I AM Presence,' through the vehicle of the personal self, manifests Divine Love in action–and the firmer and more concentrated the attention, the more powerful the action and the more marvelous the results.

"Now all go to your well-deserved rest. The All-Powerful Illumination and Infinite Peace of the Most High God attend each, for I shall have much to say to you at the close of Our Work tomorrow night. Let everyone remain in his bath not less than fifteen minutes; it will be especially prepared. Then there will be food awaiting you. With My Peace, Strength, and Love I enfold you, and to your own 'Mighty I AM Presence' I commend you all. Good night."

We went to our respective chambers and found everything aglow with the vivifying Life of the "Mighty I AM Presence." The very atmosphere was charged with the Pure Electronic Light. Upon entering my bath, I was delighted by the very Living Presence within the water. It was like the magic caress of the Mother of all Life.

Every atom in my body was quickened into that

Radiant Peace that passeth all understanding. When we were ready for the meal, we stood before the mirror and scarcely knew ourselves–each looked and felt glowing and radiant. Our repast was heavenly, and after finishing it, we retired at once.

At five o'clock the following evening, we were awakened by the beautiful tone of the etheric bell sounding through our chambers, and we noticed the Radiance of the Light about us was much more dazzling than usual. It had been so quickened within our own bodies that Its Radiance emanated from our hands with great vividness.

The food provided was of the rarest quality and was like Concentrated Essence. There was a creamy, golden liquid that seemed almost like Liquid Light. As we partook of It, I said to Rex:

"You know, some unusually powerful experience must be about to take place, and we are given this Liquid so the body will not be burdened with unnecessary substance."

As we finished, a small crystal tumbler about the size of a wine glass appeared on the table before each, and with it came a slip of paper on which were the words, "Drink without fear." The substance in the glasses looked like Pure Electronic Energy. I picked up my glass and drained it without stopping. At first it seemed as though my being would never stop expanding, and then came a sense of being

lifted to tremendous heights. I thought I was going to lose consciousness, but I did not. I soon became adjusted to It, and then I looked at Rex and saw him standing in a Flame of Blazing Light–his eyes were closed and his body swaying as though about to fall. I started towards him when the words flashed before me: "Have no fear!" Presently, he opened his eyes, and as he looked at me, two Rays of Light streamed through them. It was an amazing experience, and it was fortunate indeed that we did not fear.

In a moment, the bell sounded calling us to the Crystal Chamber. As we came to the large doors, they swung quietly open, and the most ravishing music greeted us. At the organ was seated the most Beautiful, Masterful Presence I have ever seen or imagined, and another, Its "Twin Ray," sat at the piano. No words can possibly do justice to those harmonies, for the music reached into the very depths of one's soul. We were not aware anyone else was in the room until the music ceased, and then we realized that ten of the Ascended Masters stood in our midst. Just beyond Them were Nada and Pearl, enveloped in a Brilliant Light that extended around them for about three feet. Another glorious flood of music followed, and suddenly in the midst of it, we all turned towards the door. Our Beloved Saint Germain and Daniel Rayborn entered with

a beautiful Lady Master between them.

As They came in, the music ceased, and Nada and Rex exclaimed, "Mother!" The next instant both were clasped in Her arms. In a few moments Rex came to where I stood, and putting his arm around me drew me to his mother saying:

"This is our wonderful friend who came to us a few weeks ago. We could hardly love him more."

"My Dear Son," said his mother, "I have observed much that has taken place, and I am quite as grateful as you for such a true friend to my loved ones. I join the family in the great Love which they extend so sincerely. I see you reciprocate it radiantly. May God's choicest Blessings, Love, and Illumination enfold you always."

All came forward and extended greetings like one beautiful happy family. We suddenly felt an intense vibration, and looking up we saw the Master who had been playing the organ floating near the ceiling above us. It really seemed as if we were in the Etheric Realms instead of in the heart of a mountain on the Earth. Presently She stood on the floor beside us. We were presented to Her as Daphne, "The Child of Light." We met Arion, Her Companion at the piano, and Saint Germain remarked that They were from the Seventh Sphere, having long ago reached the Ascended State, completing their journey through human experience.

Daphne and Arion came directly up to Nada and Rex–a great Inner Attunement forming the bond between them. They asked if the children would sing to the accompaniment of the organ and piano. They replied in the affirmative, and Daphne asked Nada what they were going to sing.

" 'Love's Light Eternal,' " she said. "Rex and I wrote it." Daphne touched Nada's forehead a moment.

"I have it," She said, and stepping to the instrument, began. The children's voices were splendid before, but now there was a new power and beauty that was wonderful. Even the Ascended Masters expressed Their appreciation. Someone asked Nada's mother to sing and from the moment She began, a Thrill of Joy filled every Heart as She poured out Her Great Love to bless all through the song. It surely was the Glory of Heaven poured out upon Earth.

It was at this point that Saint Germain asked us to come into the electrical laboratory. When we had assembled around the Atomic Accelerator, He requested each one who had not raised his body to follow in turn and take his place in the Chair, beginning with Daniel Rayborn, Pearl, Rex, Nada and myself.

"The 'Mighty I AM Presence' within each will tell you when to leave the Chair," He instructed,

"as no word should be spoken while the raising process is in operation."

Daphne took Her place facing the Chair, and Saint Germain directly opposite. Rayborn seated himself, and a dazzling blue-white Light blazed forth crystal clear. In perhaps ten minutes, his flesh looked perfectly transparent. Slowly a current of vivid blue moved up his spine and met the combined currents of the pineal gland, pituitary body, and the base of the brain, forming into a Dazzling Golden Light encircled by the most vivid blue I have ever seen. Then by the very Power of his own Light he arose and stepped forth from the Chair, and as he did so, he seemed to float rather than walk.

Pearl took her place in the Chair. In less than five minutes her form completely disappeared, so dazzling was the White Light. This lasted possibly ten minutes before she emerged from It. As she stepped down from the Chair, the Light followed, as if to caress her.

Next came Rex. At first there was a glow of soft rose Light, gradually changing into gold, blue, and then an intense white, with a glorious tint of blue still remaining. His form did not entirely disappear from view, but in about ten minutes he stepped down from the Chair, his eyes ablaze with the Light of the "Mighty I AM Presence."

Nada seated herself, and instantly the Light

became a dazzling sun, and her form completely disappeared within Its wondrous glow. Presently she seemed to float, so lightly did she step from the Chair, and Rays of intense Light continued to dart forth from the upper part of her body for some time.

Lastly, I took my place. I felt a million points of Light pierce my flesh as the greater force from within the electrons was released through the atomic structure. At first I wanted to jump right out of the body I was using and claim the Full Freedom of my "Mighty I AM Presence." Soon I became adjusted to It, and then a feeling of the most joyous exaltation filled my entire being–a sensation no words can describe.

I poured a Mighty Love to humanity and a prayer that all might be ready to receive this same Glorious Illumination–because no one can recede once he has entered into the Light in this manner. In this tremendously exalted state I consciously sent forth the Mighty Power of Divine Love to bless and illumine humanity more powerfully than I had ever conceived possible. If seventy-five percent of mankind could understand, be raised to this marvelous state and consciously send forth the Mighty Power of Divine Love for seven days, the Earth and all its inhabitants would be transformed. There would be no more selfishness–hence no more strife. Would to God that

day were at hand now!

Our Beloved Master asked us to return to the Crystal Chamber. We did so and found the exact number of chairs for those present placed so they faced the eastern wall of that wondrous room. Saint Germain stepped to a cord hanging upon the wall and pulled it. The wall covering drew apart and disclosed a polished surface about twelve by twenty feet.

"This," He explained, "is a Cosmic Mirror in which any individual having reached a certain height of attainment may see his complete series of lives, the cause and effect of his conscious activity, and how the gradual process of Mastery is attained. Then, seeing the Divine Plan of his future, he will understand how to cooperate with the Great Cosmic Forward Impulse, and so, tremendously increase his power of service and usefullness by consciously expanding the Love, Light, Wisdom and Power of the 'Mighty I AM Presence' through himself."

Five of the chairs had been placed directly in front of the center of the Mirror. In these, Saint Germain seated Rayborn, Pearl, Rex, Nada, and myself, in the order mentioned.

"I ask you all to keep your eyes closed," He said, "except the one whom I shall indicate to do the observing, and at no time allow yourselves to

speak. I will speak the name of each one in turn as the preceding one finishes.

"I wish you," He said, indicating me, "to follow the observation throughout, because you are here to observe and understand all that transpires so this Knowledge may be given to the world. The others are here for their own individual growth." I am only permitted to chronicle fragments of the impersonal activities of what was revealed.

"As each one's name is pronounced," the Master instructed, "he is to throw his own Soul's Light into the Mirror, hold it there unwaveringly, and calmly observe the results, no matter what appears:

"Daniel Rayborn."

Immediately a spot of sapphire blue Light appeared upon the milky-white surface of the mirror and steadily expanded until it became crystal clear. Then Saint Germain explained:

"Life after Life appears, some in very great detail, others showing the terrific struggle of the outer self against the certain advance and expansion of the 'Great Inner Light.' This Light is expanding Perfection from the 'Presence.' This may be retarded, but never prevented from attaining Its Ultimate Eternal Victory and Dominion.

"In some cases, century after century and Life after Life pass with but very little progress because of the stubbornness of the outer self. When it

becomes weary enough of the husks of existence, the unreality of things, and earnestly and gladly calls to the 'Mighty I AM Presence,' then all barriers disappear, and Its Great Inner Light is enabled to express more and more Perfection. Thus at last is Full Mastery attained." The screen revealed Rayborn's experiences, including even those of his present Life and our recent association.

"You see," He went on, "an Extension has been granted to this good Brother until he has finished certain outer work and the children are through school. These Extensions are only given where it is possible to raise the atomic structure of the physical body into the Electronic. When this takes place, he will be united with his beautiful Twin Ray, the mother of Rex and Nada. Then will They reveal Their True Service through the 'Mighty Magic Presence' of the 'I AM' as Their Radiance grows brighter and brighter. At an appointed time They will come forth with Their Ascended Master Authority and serve in Their Visible Tangible Ascended Bodies, holding positions as Great Teachers of the Light in high governmental offices, being Direct Messengers of the Most High Living God." The surface of the Mirror returned to white and Saint Germain said:

"Pearl."

A violet spot of Light appeared, expanded, and

covered the Mirror with a Wonderful Radiance. The entire action was very different. Out of the many lives shown, there were only three in which the outer self rebelled against the "Light." Both masculine and feminine embodiments were revealed. Many times, she was a very earnest teacher of the Truth to humanity. In one she was an eye witness to the crucifixion of Jesus. In another she watched the burning at the stake of Joan of Arc. Then came her meeting and union with Rex, the final Illumining and Raising of their bodies, and the ministry that was to follow. It even showed them always in touch with their parents as beloved friends–no longer in the parental relationship. Again the Light faded, the surface of the mirror became white, and Saint Germain said:

"Rex."

A disc of intense rose-colored Light quickly covered the Mirror, and a long series of lives followed. These gave also both masculine and feminine embodiments. In three of them he was a great teacher of the Truth of Life. Many times he was an officer of importance in large armies. In those, he was very active–especially during the time that the Greek civilization reached its apex. Another was shown in France and still another in England during the time of the American Revolution. Here the Master called our attention to an unusual condition.

"Rex's growth," He said, "has been so steady that he has had no very great struggle in any particular embodiment. This is a very rare thing when one considers the hundreds and sometimes thousands of embodiments that souls pass through in order to gain their Eternal Victory and Dominion. In three consecutive lives he was a renowned scientist and made many remarkable discoveries that blessed mankind.

"We now come to his present Life, which is just well started. Here is the close of his school days, his union with Pearl, and the call to go to the Masters in the Himalayas and the Far East. This will cover a period of at least two years. Notice the marvelous, vivid description of certain work that he will do in the future in which he will play a very prominent part in the government of America." Then with a flash, all vanished from the Mirror, and Saint Germain said:

"Nada."

Almost instantly a Light like a sun covered the Mirror, and as it cleared, Saint Germain continued:

"Here is a most remarkable revelation of hundreds of lives, the embodiments showing intense activity in which there seems always to have been a sincere dominant desire for the Light. In the particular Life now being revealed, it shows the meeting between Nada and Bob Singleton when

they were together on Atlantis. At that time he was a nephew of one of the Great Master Rulers. In another, Nada was a priestess in Egypt. In the one now being shown, she was a daughter of an Arab sheik, and for many lives has been under My Care and Instruction.

"This is her present Life, showing our meeting, her contact with Bob, and the sudden end of her schoolwork. She will take up Definite Cosmic Work which Bob is not quite ready to do. Notice, as he awakens fully, the Great Light that blazes forth. Then they will become great teachers of Divine Wisdom. As you see, Bob will raise his body, as well as the others, with the Assistance of the Ascended Masters. Their Future Work from the Ascended State is beautiful indeed." Saint Germain next spoke my name.

Instantly I threw my Soul-Light upon the Mirror, and a revolving Light like a great diamond in the center quickly expanded to the outer rim. Far back in the past I saw my Real Self, the "Mighty Magic Presence" of the Great "I AM," utilizing one body after another through a long series of lives. Two of these were on Atlantis, one as an engineer of mining and aerial navigation. As the second came on the screen, He explained:

"In the last Atlantean embodiment, for the first time since going forth into incarnation, you came

into contact with your Twin Ray. In Egypt, you were a secret teacher of the 'One God.' In Rome, you were a centurion during the Life and ministry of Jesus, closing that embodiment in what is now Great Britain–again in England, during the twelfth century–and the following Life was in a feminine body in France.

"Now comes your present Life, again in Perfect Union with your Twin Ray. This goes into the distant future, when in the Great Family of Ascended Masters you will still minister through Divine Love to those on Earth, assisting in their upward progress. The Blessing of Divine Service is a great privilege; but remember always, your First Service, the Greatest Service that can possibly exist is the Complete Acknowledgment and Acceptance of your 'Mighty I AM Presence'–the Mighty Light within and above you.

"I wish you all to remember especially what I am about to say on service, for it is one of the most misunderstood subjects. Many people consider various things as service which in reality are not service at all, but mere slavery to the human creation of themselves or others. The performance of *physical acts* for *gratifying* and *satisfying* of the *limitations* of the *human self* is *not* service, never was, and never will be. That is slavery to human creation and the treadmill of mankind's limitations.

Please clear your minds once and for all time completely of that idea as a concept of service. I tell you frankly and truly, it is not. One of the Ascended Lady Masters has said:

" 'The First Service for any of mankind is praise and adoration of the God Self, the Great Master within each individual. In thus fixing the attention of the outer mind on the Only Giver of anything good we can ever receive, it raises the outer mind into the Full Acceptance of the Supreme Conquering Power anchored within the human form, which after all, is Divine.

" 'If, in man's service to man, he fails to hold his attention fixed on the "Supreme Source" of Love, Wisdom and Power, then he has failed in that service to a large degree.

" 'If, in the quest of things in the outer senses, he becomes so occupied that the conscious attention becomes fixed on the manifestation instead of the "Supreme Presence" that produces it, then again he has missed the mark.

" 'Again, if in man's great desire to serve, the overwhelming desire to serve his fellowman causes him to neglect to keep his attention fixed on the Supreme Producer, then that service too has failed to a large degree.

" 'The Only True Service is in holding the attention and acceptance so firmly fixed upon the

"Great Master Within"–the Only Producer–that the outer mind becomes so filled with the "Inner Presence," that naturally each activity of the day becomes, without considering it, the Perfect Divine Service of the moment. Then the "Great Master Within"–the "Mighty I AM Presence"–is always conducting the outer activity, until the entire action becomes Perfection expressed.

" 'The outer self, until fully awakened, has periods in which it unknowingly wants to strut its vanity and abilities over its fellowmen. This always invites a shock of some kind to shake up the outer self until it becomes aware of what it is doing. Then it wildly looks about for its Source of Power, which it has either forgotten or willfully pushed aside; for in our compulsory choice and the use of the Free Will, this "Great Master Within" will not intrude Itself unless welcomed and invited joyously to do so. I say "joyously," because the more joy we can put into the acceptance of the "Mighty Indwelling Power," the quicker manifestation follows.

" 'Our acceptance is a command which must be obeyed. It cannot be denied. The attention and acceptance must be *held long enough*, firmly enough, and steadily enough upon the "Mighty I AM Presence," until the shell of the outer self is completely shorn of the idea that it has any power of its own.

" 'The outer mind cannot argue against the fact that

all the energy it uses comes from the "Great Presence Within," no matter how that energy is applied. Never let any desire for service deprive you of the needed time–undivided–to fix your attention and acceptance on your "Great Master Within," knowing then that you will naturally give the right service and do the right thing. This is the Law of True Divine Service which says forever to the personal self: "Thou shalt have no other Gods before me." This is the whole of the Law applied.'*

"The personal self has absolutely nothing of its own, for it comes into embodiment without even clothes, and unless the physical body is illumined and raised, it passes through so-called death and leaves even the body behind. So the personal self really owns nothing. It cannot deny the fact that all it has is loaned to it by the Great Master Presence, no matter how much it misuses the marvelous gifts of Life.

"Keep your attention to the Heights, the 'Light,' and the struggle of the outer self will soon cease.

*This Instruction concerning service was originally given forth by one of the Lady Masters, also known as Nada, who raised Her Body 2,700 years ago and who does very Transcendent Work for the humanity of this Earth, as well as a Greater Work which She does in very much Higher Spheres. It was Saint Germain's Request that it be put into *The Magic Presence* at this point, for He gives it to all His Students and has placed it here that everyone who reads this Book may have the benefit of Her Radiation as well as His Own, and profit thereby.

You will find yourselves steadily rising into that glorified Ascended State where the Joy of Divine Service so far transcends earthly comprehension there are no words to describe It.

"This discloses the revelations of individual growth through hundreds of lives in earthly experience. It is a rare occurrence and privilege for any student to be shown this, and it is only permitted where the individual has reached a height of attainment and Inner Strength that will enable him to observe the experiences of the past without receiving suggestions or being in the least influenced by them, no matter how terrific they may have been."

Only a tiny fragment of all which passed upon that Mirror is recorded here; for the experiences of one individual alone through hundreds of embodiments would fill many volumes. Saint Germain then drew the covering over the Mirror, and taking His place in front of His guests, gave a most marvelous Discourse. Much of it was private Instruction and information for those present concerning their own work. I will give only a very small portion of it here.

"It is my wish," He said, addressing Pearl, Nada, and Rex, "that Pearl return with Nada to her school. "It is quite imperative at this time for her to take up certain studies which I will indicate for the year, until their graduation. At the end of that time I shall be very happy to have you accompany me to the

Far East, where you are to remain for two years and make Certain Contacts which it is necessary for you to have.

"At that time, Bob will be ready to go with you. I will see that dependable men are brought to the mine and ranch. One year from today, July 28, 1931, we shall all meet again in the Cave of Symbols, and Daniel Rayborn will complete the raising into his Electronic Body and enter Perfect Freedom with his beloved Twin Ray, Nada, 'The Child of Song.'

"Each of you will receive Training and Instruction from time to time as you require it, and this will be your Path to Freedom. You all know there is but One Source to look to for anything, and that is your 'Mighty I AM Presence' within and around you to whom you can call–and you will never fail to get a response. From It, you may receive without limit Courage, Strength, Power, Protection, and Guidance which will take you through any ordeal you may ever encounter.

"I have not observed any weakness within you; otherwise you would not be here. Trials will arise from most unexpected places. You will, of course, remember that the sincere student is *never off guard*. The Inner Light will never fail unless you deliberately turn from It, a thing I trust none of you will ever do!

"Now will you join me around the Crystal Table?

We still have another service to render our beloved brother Bob." When all were in their places, He asked Nada to call Bob with the "Inner Light." In about ten minutes he stood on the table before us. Rex extended his hand, and Bob stepped lightly down and clasped Nada in his arms. She led him forward and presented Bob to her mother, who had returned to the audience chamber with Daniel Rayborn.

She looked at him steadily for a moment, and with the sweetest smile held out Her arms and embraced him. As She did so the Light within Her blazed forth with such intensity that their bodies were hardly visible.

"My Beloved Son, in whom I am well pleased." She said, releasing him, "I congratulate you both on this discovery and the Love that enshrines your Divine Union. The Greatest Blessing My Power of the Ascended State can give enfolds you both forever. Always remember that Pure, Unselfish Love and Devotion form the Open Pathway to the Ascended State."

Nada asked Daphne and Arion to play again, and They assented. When They took Their places at the organ and piano, a Dazzling Light floated above Them near the ceiling. As They struck the first chords of a beautiful melody, a Glorious Tenor

Voice burst forth from within the Light. The control of the Voice was Perfect; its range seemed to be almost without limit.

Here we were listening to a Being we did not see, yet whose Voice was the most magnificent proof of the "Presence" and Its Great Gifts to mankind. When the first song was finished, the organ, piano, and Voice all modulated into "America." Instantly everyone arose, not only in tribute to America, but to the Great Master whose Wondrous Voice thrilled us all.

"America," said Saint Germain, "means so much more than most of Her inhabitants dare to dream; for She is the Heart Center of the Spiritual Progress on this planet. It is in America that the firm Foundation of the Cosmic Christ–the 'Mighty I AM Presence'–will find anchor in the Hearts of mankind. This Great, All-Powerful Light shall intensify and expand until not a vestige of selfishness or political intrigue will remain or be remembered. Many amazing things will take place in the coming years, until mankind will truly realize the time of miracles is not past, but is forever with us. We will then understand they are but the results of obedience to the Great Divine Plan of Life. We are just beginning to enter an age of so-called miracles which will reveal the glories 'The Magic Presence' holds waiting for Its Children.

"America is *the Grail–the Cup for this Earth*– that carries the Light of the Cosmic Christ which shall illumine the Earth and set it in Divine Order by the Power of the 'Mighty I AM Presence.' "

Bob was so happy, he asked if he might be permitted to meet our Beloved Master in the visible, tangible body before the school season opened, and Saint Germain replied: "It may be sooner than you expect, for your blessed friends will be at the mine shortly, and I will meet with you all at that time–let us say the tenth of August. Now, Bob, you must return to your physical body." Instantly the two Radiant Masters stood on each side of him. Bob said good-night to his sweetheart and those present, and they immediately disappeared. The rest of us gathered around Nada–the mother–who embraced each of Her loved ones. "It is time We must part," She said, "but on this occasion it is in joyous rapture instead of sorrow, as at our first parting."

"I wish you to return to your chambers," Saint Germain directed, "and rest until two o'clock tomorrow, and then return home. Proper food will be served when you are ready. It is My privilege to escort this Beloved Child of Song (indicating Rex and Nada's mother) to the Sphere where She is sojourning."

We watched Them closely and saw the two Forms

begin to fade from view, and in about three minutes They completely disappeared. Such is the Power of the Ascended Master to come and go in the Tangible Body and make It visible or invisible at will. In the intense interest of watching Nada's mother and our Beloved Master disappear, we did not notice that the other Ascended Masters had gone also, leaving only Daniel Rayborn, Pearl, Nada, Rex and myself. As we looked at each other, I do not think there was a dry eye in the whole group, for tears of the greatest gratitude and joy we had ever known filled our eyes and Hearts to overflowing.

We returned to our chambers and found the most appetizing dinner awaiting us. There was a delicious nut-loaf, an amber liquid, wonderfully refreshing, and a combination salad made of things we had never eaten before. As we lay down, the Brilliant Light in the room gently faded out, until only a soft bluish-white Radiance like moonlight remained. Unless one has experienced something of this kind, it is not possible to describe the feeling of rest and quiet such Light conveys.

The next thing we knew we heard the etheric bell sound through our chambers, and when I looked at my watch I saw it was one o'clock. We put on our robes and sat down to the small crystal table in our room, laden with luscious fruits, among them peaches and strawberries such as I have never seen

in the outer world. There was a substance like heavy whipped cream for the fruit, and every spoonful sent an electric charge through the body that gave one the Feeling of Strength, Courage, Power and Confidence which it is impossible to explain.

As we finished our repast, a slip of paper asking us to come to the Crystal Chamber at once floated down to the table. The great doors opened at our approach, and as we entered, Saint Germain and the others who had already arrived greeted us.

"Our work here is finished for the present," He said, as soon as we were seated, "for you have each leaped ahead in growth very rapidly because of previous attainment of which you are entirely unaware. Now you shall return to the ordinary routine and activity in the outer world, but you are no longer of it. Never again will the vibratory action of your minds and bodies be lowered to the point where they were before you entered the Cave of Symbols three days ago.

"Your friends will see and feel the Change, but will not know Its Cause. They will always be restrained from asking personal questions. You may now wear your clothes of the outer world, but always keep your Robes, as they are for your meditation and communion with the Ascended Masters.

"I have my own Way of keeping in constant touch with you. If you will come with me as soon

as you are ready, I will take you to the opening of the Cave, as I must be in the Far East at five o'clock this afternoon. Henceforth, we are never separated."

We returned in our hiking clothes, and Saint Germain led us to the entrance. We tried to express our gratitude, but He raised His hand for silence and said:

"In the future let us refrain from attempting to express what is already known to the others. We, I trust, have gone beyond the need of human conventions. I know the Great Love and Gratitude in your Hearts. My own Love and Gratitude are just as great as yours–that you have found the Way into Eternal Light, Freedom, and Perfection. That I have been privileged to be of Assistance is my sufficient reward. All is at the Command of 'The Magic Presence' within you–the 'Mighty I AM Presence' of the Universe."

As He ceased speaking, His body grew less dense, became dim of outline, and finally disappeared completely before our very eyes. Our Love and Gratitude to Beloved Saint Germain is Boundless and Eternal; obedience to His Slightest Request is a Command to us and a Joy forever. He has helped mankind so continuously through the centuries that all in this world should give Him every possible cooperation.

CHAPTER V

The Great Command

As we again looked upon the outer world, it was almost as if we had returned from another planet. We went down the trail to where the auto was waiting, with a joy singing in our Hearts that was unspeakable. We drove back and reached the Rayborn ranch at three-thirty that afternoon. I could not help but wonder several times while at the ranch how it was possible for Rayborn to be engaged in such a line of business and still be privileged to have the marvelous experiences we had witnessed while at the Cave of Symbols. In response to the question in my mind, Saint Germain had explained:

"While it is a very unusual thing to find one who is so nearly ready to be raised occupied in these lower activities of the outer world, yet it does happen occasionally–very rarely of course–that an individual who has had former growth does become entangled, so to speak, in some such outer effort, through business associations of the personality. In these unusual cases the Ascended Masters do give Assistance by instructing them in the use of the Consuming Flame, which enables

the individual to consume a great deal of the human creation previously generated. This they must use of their own choice. In this way such an emergency can be taken care of and the plan of many lives fulfilled. We do not give sanction, however, to such avenues of work as the proper course for personal business activities. We do not want any misunderstanding about these conditions which the human side of mankind generates; for the raising of animals to kill for food is wrong from the beginning to end. But once in a while a soul of very great growth becomes enmeshed in some such activity through the suggestions and general conditions of the outer world. When this happens, the Great Divine Law, through the Wisdom of the Ascended Masters, provides a Way to help the individual who reaches forth for his Full Attainment and wants to be Free."

At seven o'clock on the morning of the ninth, we were to drive back to the mine. The day was unusually beautiful, and Nada's father suggested we go by a way of a high pass through the mountains where we could see one of the most beautiful views of the entire West. Far to the northwest stood the Grand Teton in the midst of a most rugged, beautiful scenic belt that is incomparable. To the south lay Pikes Peak, to the southeast Longs Peak and a host of others reaching skyward. I shall never forget it. Passing on down the mountain, we looked upon a perfect panorama of exquisite beauty. At seven

o'clock we drove into the camp at the mine, but no one felt in the least tired.

We sounded the horn, and in a few moments Bob came running out to us at full speed. This time he seemed to have forgotten Pearl and rushed straight up to Nada. She stood very still as though not recognizing him at first. He stopped, turned deathly white; then Nada with her sweetest smile held her arms out to him, but it was some moments before he could speak.

"Darling," he said, "you gave me a terrible shock, and for a moment I felt my Experience in the Cave of Symbols was only a dream. Now I know it was not!"

"No, Love," said Nada, "it was very real–praise God–and I am deeply grateful. We shall both be grateful forever." Then as Bob looked up, he seemed to realize there were others present.

"My Dear, forgive me," he said, taking Pearl in his arms. "You know I would not neglect you."

"Beloved Brother," she replied, "I quite understand. It is all right." Bob gave each of us a bear hug, even to Daniel Rayborn.

"Bob," said Rayborn, "it does my Heart good to see you so natural and loving. Come to dinner with us tonight. From now on you are one of the family. Always dine with us instead of at the camp." That evening at dinner, Bob related his Experience at the Cave of Symbols, for he had retained every

detail of it, and was perfectly fascinated by Nada's mother. It was very apparent that through it a Great Attunement had taken place. Then we discussed the work in the "Master Discovery."

"It is amazingly rich," he remarked. "We must have taken out over three hundred thousand dollars in value already."

We were about to leave the table when a piece of paper floated down in front of Daniel Rayborn. On it were the words: "May I have the privilege of dining with you tomorrow evening, and of supplying the food from the Universal Substance? I might suggest that you allow your housekeeper a vacation for the evening." It was signed, "Saint Germain." This idea was something quite new to Bob, and for a few moments he was very much perplexed. "Do you mean to tell me," he said, "that the Master will provide the dinner from the invisible?"

"Precisely that, Bob," replied Mr. Rayborn.

"However, you will have ample opportunity to observe all that takes place, for a new world is opening to you." Then the table was cleared and we held a regular business conference.

"In all my life, Mr. Rayborn," Bob began, "I have never seen such marvelous harmony among mining men—or such Love and respect sent by everyone to the owner. I know it must be due to this Master.

"The new assistant, Dave Southerland, has arrived, and I would like to have you meet him

in the morning. He was a classmate of mine at the School of Mines in Colorado and graduated a year after I did–with high honors."

"Better have him come now," Rayborn replied. Bob phoned, and in about half an hour there entered a fine looking young chap at least six feet two, well built, with a frank, open countenance that would win the Heart of anyone. He was a man of high honor and sterling ideals, and one felt he could be absolutely trusted at all times.

The next morning, Rex and I went with Bob to the office and found Dave already there. He seemed very grateful and appreciative for his opportunity to be with Bob and Rayborn.

"Gee, I never dreamed I would get so near Heaven," he said with frank enthusiasm. "Dave," Bob answered, "you don't know how near Heaven you really are!"

At a quarter to six we gathered in the living room and had been there for about a quarter of an hour when someone tapped very gently on the door. When Rex opened it, Saint Germain stood before him in a beautiful white flannel suit, a perfectly groomed gentleman of the modern world.

"I thought I would give you a little surprise," He said, greeting us all with His loving, gracious smile.

"Well, Bob," He said, looking at him quizzically, "why don't you do it?" Bob seemed confused for a moment, and coming up, threw his arms around

the Master and gave Him a big hug.

"My Beloved Brother," He went on, "the first step to Perfection is to be natural, for all things are right when the motive is Divine." Bob saw at once that Saint Germain knew his inmost thoughts.

"Now if we may all take our place at your table, we shall dine. The linen and entire service required tonight will be permanent and will be presented to Pearl and Rex as a gift from One who loves them very much."

Daniel Rayborn seated our Beloved Saint Germain at the head of the table, Nada at His right and then Bob; Pearl, Rex and myself at His left, he taking the other end of the table. All bowed their heads in silence as the Master gave praise and thanks for an abundance of everything they required.

As we raised our heads, the most exquisite white cloth covered the table, with napkins for each. In the center was a beautifully carved jade vase filled with roses, some of them buds just opening, and their wonderful fragrance filling the entire room. A crystal goblet containing a Golden Liquid appeared at each place. Saint Germain raised His glass and gave a toast in which we all joined:

"To the Full Illumination, Glory, and Perfection of each one of you and of all mankind!" Bob drained his glass rapidly, and as the Essence rushed through his body like lightning, the expression on his face revealed his surprise.

Next came the plates, cups, saucers, and other dishes of the most exquisite china we had ever seen. It was like the substance of pearls, with embossed golden leaves of wonderful design. The knives, forks and spoons were made of a rare white metal with carved crystal handles. On the place of each appeared what looked like an individual meat loaf, but when we tasted it, there was no meat in it.

"This loaf," Saint Germain explained, "contains a combination of substance not yet known upon Earth. You see, there is a definite reason why We never eat meat, and why human beings should not eat it either. This is because the atoms of which it is composed are the condensation into the substance of this world of mankind's own vicious thoughts and feelings of the past.

"Animals were not in existence upon this planet during the first two Golden Ages. They only began to appear after humanity had generated the discord that followed those first two periods. The First Creation, described in Genesis, referred to these two Golden Ages, and they were described as 'very good.' Then the mist arose, and the so-called fall of man came about by the attention of the intellect becoming focused upon the appetites of the body, through the feeling.

"Thus the outer mind became more and more enmeshed in the world of things, and hence forgot

the Source and Powerhouse of its Being, which is the 'Mighty I AM Presence.' The Plan of Completeness, or Divine Way of Life, was lost sight of, and more and more discord has continued to creep into the feeling of humanity ever since.

"As long as human beings insist on killing animals, they will never be able to break the vicious habits within their own feeling by which they have bound themselves; for they are constantly destroying their own bodies and shutting out the finer mental impulses. The Love of mankind for domestic animals is raising and purifying some of that past creation and releasing that stream of Life into a more harmonious phase of existence. As humanity becomes more harmonious and pure, all animals will disappear from the Earth. Even the weeds and blight upon plant life will be removed, and the Earth once again return to her Pristine Purity described as the Garden of Eden–meaning obedience to the Divine Wisdom.

"The great harm of meat-eating is that the flesh of the animal records the feeling of fear it experiences when killed. The animal has an emotional body, and the vibration of fear recorded previous to and at the moment of death qualifies the flesh–and that quality is absorbed by the emotional body of the human being who eats it. It also causes a certain substance to condense into the brain which dulls the intellect and prevents the finer impulses from

flowing into it from the 'Mighty I AM Presence'.

"This substance even an Ascended Master will not interfere with because the individual does these things of his own free will. Fear, in its many subtle phases, is the predominant feeling within mankind today, and it is the wide-open door through which the sinister force holds its control in the personality and does its destructive work. The teaching that it is necessary to eat meat in order to obtain strength is vicious and entirely untrue; for the elephant, one of the strongest creatures on our Earth, is a non-meat-eating animal.

"The idea that serums made from animals can produce health and perfection or protection against disease in a clean child's body or that of an adult is another consciously directed activity of the sinister force in this world. It breaks down the health and resistance in the race, that the destructive feeling may hold sway and destroy the ideals of mankind. The medical profession has been unknowingly made a cat's-paw for this destruction, under the guise of science. It is only because of the persistent stubbornness in the sense appetites, which are feeling in the human body, that the race keeps using its marvelous mental capacity and the wonderful Pure Energy from the 'Mighty I AM Presence' to create more and more destruction.

"When human beings will spend the same

amount of time and energy studying Perfection and the wonderful Miracles of Creation that face us everywhere as they now do in gratifying the physical appetites and whims of the personal self, they too will produce the same Miracles the Ascended Masters are able to do. However, before fifty years are past, mankind will look back upon the meat-eating habit of today as we now look upon cannibalism.

"There are several things that leave a substance in the brain which must be cleared away if the Full Perfection from the 'Mighty I AM Presence' is to be released through the personal consciousness. These are, in the order of their importance: narcotics, alcohol, meat, tobacco, excess sugar, salt, and strong coffee.

"Now we come to the remedy for these things, for I will never point your attention to any consideration of imperfection without showing you the Way to transcend it and replace it by Perfection brought about harmoniously. I want you to realize always that whatever needs to be changed in the physical experience–if you will call your 'Mighty I AM Presence' into action through your mind and body, the result will always be produced without suffering or discord of any kind.

"The Way of Perfection, which is the Activity of the 'I AM Presence,' never demands of the personal self anything but the letting go of its chains, its

discords, its limitations and its sufferings; and this change is always brought about harmoniously and through Divine Love.

"The way to purify the brain and body structure, if the personality has been putting these substances into the physical body in the past, is to call to your 'Mighty I AM Presence' to pour through your mind and body Its Violet Consuming Flame, using the following Affirmation:

'Mighty I AM Presence'! Blaze through me Thy Consuming Flame of Divine Love. Take this desire out of me; annihilate its cause and effect, past, present and future, and replace it by the Fullness of Yourself, Your Perfect Satisfaction, and hold Your Full Dominion here forever!

"This same Affirmation can be used for another with the same miraculous and permanent accomplishment. Then spend a few moments at least three times a day visualizing yourself standing within a pillar of Violet Flame–rushing from the feet to some distance above the head and extending for at least three feet on each side around the body. Hold this picture as long as you can comfortably do so, and feel the Flame, which is the Purifying Power of Divine Love, penetrating every cell of your body. This dissolves all impure and unnecessary substances in the cells of the body, thus clearing

and illumining the consciousness. This is part of the Knowledge of the Sacred Fire which has only been taught in the Retreats of the Great White Brotherhood throughout the centuries. It is the way the Ascended Masters purify, heal, and harmonize mankind and the very Earth itself. It is the Power by which so-called miracles are performed. It can never have any other effect in either the brain, body or affairs but great ease, comfort, peace, and eternal good.

"In my reference to the animal creation of this world, I wish you to understand that the birds were originally created by the Ascended Masters as messengers for the use of humanity. What destructive qualities they sometimes express are due to the radiation of discord from human beings. As the New Age comes in, these qualities will disappear. Nature, and by that I mean the plant and mineral life of this Earth, is created and brought forth by the Great Cosmic Masters who design and direct the Creation of a planet at Cosmic Levels.

"Nature within herself is forever pure, and if humanity did not impose its own discord and impurity upon the very atmosphere in which plant life grows, there could not be poisonous weeds or plants in existence. There was a time upon this Earth when everything in Nature affected the minds and bodies of human beings harmoniously.

"Within Nature is a Self-purifying, Self-protecting Immortal Activity which tolerates only for a time man's vicious genius for destruction. Cataclysmic disaster is Her method of Self-defense, in returning to man that which he has imposed upon Her in the centuries past. Thus, through Life after Life, man continually meets his own creation turned upon himself, until he builds his Universe according to the Pattern of Divine Perfection which is the True Expression of his own Divinity.

"Age after age Nature is continually throwing back upon man, through cataclysmic action, his own iniquity; and She is stronger than any opponent because She is the Direct Creation and Outpouring of the Ascended Masters. In this way, man's own discord destroys and buries himself, and Nature in Her Pristine Purity goes on serenely expressing Her Immortality. Notice the many civilizations that have been built upon this Earth, and the fact that Nature has so completely obliterated all traces of man's work in them—until only in tradition and myth is there the faintest record of some of these activities.

"Man, if he has attained Wisdom, which is the constructive use of all knowledge, may have the perfect cooperation of Nature's gigantic forces, and through them make his accomplishments Immortal also. He must stop the stupendous slaughter of

animals for food and the business of raising them to kill."

A few moments after we began our dinner, a tiny loaf of bread appeared in front of each one–Nada's and Bob's coming together, and Pearl's and Rex's also. This was followed by a delicious vegetable salad, entirely different from anything we had ever tasted. For dessert, there was a most wonderful fruit-whip made of a combination of peaches, plums, and other fruits unknown to us. Blended into this was something resembling whipped cream, but sparkling like frost, just deliciously cool–another unfamiliar delicacy.

"Now," said Saint Germain, "you shall have something which I feel sure you will prefer even to coffee." As He spoke, an exquisite container appeared before Him, filled with an amber liquid, steaming hot. Cup after cup arose from the table, passing to Him, being filled, and then returned as if held by invisible hands. "This," He said, "does not require cream, and please do not be alarmed by the sensation of the first taste. It is not intoxicating but is one of the most nourishing of beverages." We sipped it very slowly and felt a thrill as of an Electric Current rush through our bodies like Living Light. It was most delicious.

The service for each course disappeared as soon as we were finished and before the succeeding one

arrived. At the close of the dinner, Bob could not restrain himself any longer and burst forth: "I have never been so amazed and happy in all my Life. To think that we are living in the very midst of these Marvels all the time; and yet to be so unaware of it is almost unbelievable. The possibility that one may attain this Understanding and have such limitless use of God's Energy and Substance to produce everything we require–as has been done here tonight–thrills me through and through. I want to understand the use of this Great Law more than anything in the world! I am willing to try to do whatever is necessary to attain it. Will you, Beloved Master," he exclaimed, turning to Saint Germain, "help me?"

"My Beloved Brother," He replied, "you have just spoken from the Great Inner Self. It is the 'I AM' within you, and Its Great Wisdom and Power you shall learn to use when you do accept this 'Magic Presence' in Its Fullness. Then you will do these same things as easily as you have seen me do them here tonight.

"Remember in regard to this, that the Ascended Masters never use darkened rooms in which to produce that which They create direct from the Universal Substance. Whatever cannot stand the Light is not of the Christ and should be instantly dismissed! Let no one who serves the Light ever sit

in darkened rooms trying to produce phenomena. That which is of the Light always works in the Light; and whatever cannot stand It certainly does not serve the Constructive Path or the Way of Perfection. All that requires darkened places to produce its phenomena is of the psychic plane, and will sooner or later ensnare those who try it in the net of misery and destruction which exists there. If you will follow the Instruction that will be given from time to time, you will have reason to rejoice throughout eternity.

"I shall now keep my promise to you," He continued, turning to Rex and Pearl; and in just a moment, all the service that had been used during the dinner reappeared upon the table as if placed there by invisible hands. "We do all our cleansing," He replied, "by the use of currents of energy, a means that many will also use in the New Age we have entered. This delicate-looking china and crystal service which I present to you is unbreakable." With this remark, a glass and plate fell to the floor without being damaged in the least.

"The table cloth and napkins will never soil nor wear out," He went on, "but never allow anyone to care for them but yourselves. Now I wish to have your attention further. Only because this is a double union of two sets of God's Twin Rays may I produce for your instruction that which will follow."

Holding out His hands, in just a moment, a disk of gold about the size of a twenty dollar gold piece appeared in each one.

"Gold will always respond," He remarked, "to your call–if you understand the Great Law governing its production. I wish you to examine this carefully," He commented, as He passed the pieces around the table for each of us to look at closely. We handed them back, and He went on, "Look again!" Immediately, a perfect blue-white diamond formed in each palm, which He offered for our examination; and then taking a piece of gold and a diamond in each hand, He closed His fingers–waited a few moments. When He opened them, a beautiful diamond ring lay in each hand. He handed one to Bob and the other to Rex, saying:

"My Love to you. Wear them always. Please observe again." Here, He held out His hands, and in a few moments there appeared, as though suspended in the air, a pearl necklace above His left hand and a diamond one above the right. Gently, they settled down into His palms, and He continued:

"These are of equal value, and in the commercial world would bring a fortune. I present them to My Beloved Students Pearl and Nada with a *far greater purpose* than that of any monetary value." He handed the pearl necklace to Pearl and the diamond one to Nada, with His Blessing: "My Love

to you. Wear them always.

"Now your consciousness is anchored so I can give you the 'Great Command.' With It you can command the body to manifest Perfection, having dominion and use of certain elements, Currents of Electronic Force, and Rays of Light. Thus you can govern your Life and affairs in Perfect Divine Order. This is strictly Private Instruction to you while here in this Retreat, and is never to be given to anyone–except by Me."

He proceeded to explain the tremendous use of the "Great Command," for Its Simplicity is so wonderful and Its Power so stupendous. He then took each one separately and asked us to give the "Command," and to realize fully how impossible it was for anything to result from It but the greatest possible Harmony and Blessing to everyone.

Each of us had instantaneous results, and we were almost speechless before the enormity of Its Power. We took a vow before the Mighty God Self in each that we would never use It except in the Service of Divine Love.

"You have all heard the phrase often, 'With God all things are possible.' I tell you that you can so perfect yourselves, so raise your consciousness into the Pure Essence of God that all things with YOU are possible–as soon as you learn to direct this

gigantic Power by the Love and Wisdom of your own 'Mighty I AM Presence.' The 'Mighty I AM Presence' within you is Supreme and Victorious over everything in Heaven and on Earth. Place It *first* always, and contemplate this Mighty Truth whenever you have a quiet moment."

It was now nine o'clock, and it had grown very dark out of doors; yet no one was aware that the Light within had steadily increased as the Light outside grew less. No one thought of turning on the lights, as Saint Germain had illumined the room by His Control of the electronic force.

"I want each of you," He continued, "to so train yourself that you are never surprised at My Appearance. I may come at any time–anywhere–when it is necessary to give Assistance." Here, He looked directly at Bob.

"No, Bob," He said, "a student is never given anything by Us that he is not ready to receive. An Ascended Master makes no mistakes, of that I can assure you! In regard to those who are sometimes called Masters, I wish to give an explanation that is of very grave importance to the Students of Light and Truth.

"In the first place, there are those called Masters, some of whom have attained a very high degree of wisdom and maintained Life in the physical body for nearly two centuries, yet have not raised the

body–as Beloved Jesus did. There are also many who call themselves masters who have not the faintest concept of what a Real Master is.

"Of one thing you can be absolutely and eternally certain: that no one who is a Real Master will ever say so, and that an Ascended Master never accepts payment of any kind for the Help He gives–because the First Qualification of True Mastership is to do all as His Glad Free Gift of His Service of Love to the world.

"The Ascended Master is absolutely Infallible at all times because He has passed out of the octave of vibratory action in which mistakes can occur, for He has become wholly Divine. By the raising of His Body, all atomic structure has been changed into the Electronic. He sees with Limitless Vision and knows all because He uses–only–the All-Knowing Mind of God.

"Those Masters who have attained even a very great degree of wisdom but have not yet raised the atomic body, can and sometimes do color what they give out by their own personal concept; for no one becomes infallible until he functions in his Electronic Body, or the Body of Pure Light, where no contamination or personal concept can exist.

"Bob, you are quite worthy of all you have been privileged to experience. Ever strive to make yourself more worthy of the 'Mighty I AM

Presence' that beats your Heart and gives you the use of every good thing.

"I wish to suggest that Nada, Pearl, and Rex return to school, and this good brother," indicating me, "remain at the ranch with their father until their graduation and his Ascension. After that the five of you may always consider the Diamond K Ranch your home. Your activity after three more years will be such that the world will be your home, for you will be required to serve wherever your assistance is needed. One year from the tenth of the coming September, I wish Nada, Pearl, Rex, and Bob to accompany me to the Far East, India, and Arabia, and to remain there for two years.

"Bob, it will be well to prepare Dave Southerland in the meantime to take full charge of the mine during your absence. As to our plans, please be absolutely silent. I will meet with you all once more at the ranch just before the young folks leave for the University, and I wish you, Bob, to make arrangements to be there also. I will let you know the exact date later.

"Your Great Love and natural sincerity has opened wide the Door of Illumination. Be ever faithful to the Great Light Within, the 'Glorious I AM Presence.' Always ask, and then listen for your Inner Guidance. It will and must come clearly, definitely, and correctly. I rejoice to have

been the guest of such noble, faithful friends. My Love and Blessings shall always be with you. Good night."

As He spoke these Words, the Dazzling Illumination of the bungalow faded out. Rex stepped across the room and turned on the lights. Saint Germain had gone. We returned to the dining room, and before us upon the table stood all the marvelous crystal, china, linen and silver. These people–who are still my beloved friends–have these beautiful Gifts in their possession today.

"Oh, the Glory of this night! It shall stay with me forever!" exclaimed Bob in his natural enthusiasm. "It transcends anything of which I have ever heard or dreamed, and it is real, true, and attainable for each of us! I am so grateful these two great streams of happiness should come to me at once–Nada, and this Great Revelation of Perfection and Power. To have the Gift of the Highest Love possible and the Glory of my Twin Ray in one who has this marvelous True Understanding is a miracle to me–and a thing I have been craving all my Life!

"The happiness of having found the 'Mighty I AM Presence' within myself is beyond words; and when I think of the Assistance from our Beloved Saint Germain and my financial freedom through you, my Blessed Friends, my gratitude is endless. My cup of happiness is surely full to overflowing! I feel as though I could flood

the world with that 'Mighty Inner Love,' which I see so clearly is the Great Solvent for all things."

The first thing we heard next morning was Bob saying, "Oh joy! I still have it!"

I asked, "What?"

"My ring!" he answered, and that started the day joyously for us all.

Rex packed the wonderful Gifts of Saint Germain and placed them in the car when we were ready to return to the ranch on the morning of the fifteenth. Great tears filled Bob's eyes as he held each of us to his Heart in wonderful gratitude for all his happiness. When he came to Nada, his strength almost failed; but as he looked up, he saw the face of our Beloved Master, and instantly he was sustained. With a wonderful smile, he assisted each of us into the car and waved good-by.

We reached the ranch the following day. When Rayborn awakened Saturday morning, he found a Message from Saint Germain asking all of us to meet Him in the Tower Room at eight o'clock that evening–and informing us that He had invited Bob to come also.

At twenty minutes to eight we went to the Tower Room, and as we approached it, the door suddenly opened. There stood our Beloved Master in His Seamless White Robe, every line of His Being expressing the Majesty and Dominion of Love. The

rest of us wore the Robes we had been given in the Cave of Symbols, except Bob, who had not yet received his. Saint Germain's Radiance enfolded each one as He greeted us. "I see you are prompt and faithful in all things," He said, handing Bob his Robe as He stepped toward him, and then continued, "Accept this with My Blessing." Bob returned in a moment looking like a Being from another world, he radiated such grace and power, and we took our accustomed places.

"Let each one focus his consciousness upon the Light within the Heart from the 'Mighty I AM Presence.' " In a few moments, we opened our eyes and could both see and hear within the World of the Ascended Master–through the raising of our consciousness during the meditation.

Each one could clearly see his own "Mighty I AM Presence" smiling down upon him serenely. This made us realize deeply what we could become as we hold steadfastly to the acknowledgment and acceptance of the "Magic Presence" and the use of Its Limitless Wisdom and Power. This is the *Only Presence* in the Universe which can raise the human side of us and draw us into Itself. Thus, by Its Love, Light, and Power do we become wholly Perfect. Surely there can be no greater incentive to mankind than to reach with all its strength, determination and devotion to this "Mighty I AM Presence," that we may be raised above

limitation of every kind. Then shall we be enabled to live as was originally intended and render Service that is truly Divine.

The opportunity to see, even for a few moments, our own Electronic Body, is a Blessing and Privilege that cannot be overestimated; for it gives us strength and encouragement, drawing us like a magnet–until at last we enter the Holy of Holies and become One with the Source from which we sprang.

After a few moments of contemplating that "Mighty I AM Presence," Saint Germain lowered the vibratory action until most of that Higher Consciousness faded from our sight.

"Do you not see, My Dear Ones," He explained, "how easy it is to consciously lift your consciousness until it expands and encompasses everything you can possibly desire to know?

"This is the method I wish you to use, and by so doing raise your awareness to where you do actually comprehend the Great Law and attain Its complete use and operation. Do you not see how you can utilize and direct this Mighty Energy without limit? You will soon be doing it quite easily yourselves. I have shown you the Individualized 'I AM Presence' of each one, that you may understand what a small fragment of your own God-given Dominion you are using in your physical experience. This Glorious Presence is ever

urging you to arise, receive your Crown of Glory, and wield your scepter of Complete Dominion over Its Vast Domains and be Free *forever* from every limitation. This Transcendent 'I AM Presence' which you have just seen is your own Real Master, the Pure Christ Self. It is all Majesty and Mastery in Full Eternal Dominion over all worlds, over all created things.

"I have a few Directions to give before I leave you tonight. It is my wish that Nada, Pearl, Bob, and Rex meet the rest of us in Washington, D.C. for the holidays between Christmas and New Year. Your father and this good brother," indicating me, "will be there a few weeks ahead of you for work We have to do.

"Alexander Gaylord, your father's friend, will visit you here tomorrow. Remember as you return into the association of the outer world, the *Only True Service* is to understand and use in Perfect Divine Order the Mighty Energy of God within and about you. To consciously direct this perfectly is the only important activity of your lives. All else is secondary. Again I enfold you in the Eternal Light of Love, Peace, and Complete Illumination with My Sincere Blessings." With these parting Words, the body of our Beloved Saint Germain steadily entered into that Higher Vibratory Octave and disappeared.

CHAPTER VI

The Messenger of the Great White Brotherhood

THE prospect of seeing our old friend Gaylord delighted us, for his friendship with both was one of long standing, and it formed a sort of Inner tie. Rayborn and I felt his visit was to be of great importance. Mr. Gaylord arrived at eleven o'clock the following morning, greeted us cordially, and as I was about to thank him for having brought me in touch with the Rayborns, he looked into my eyes steadily and remarked,

"You have our Beloved Master to thank." "You know Saint Germain then?" I asked.

"Yes," he answered, "I have known Him and been under His Direction in specific matters for some ten years. He is drawing certain of His students together for important work that is to begin this year. This concerns a very serious crisis affecting the entire world, and especially North America. Yet it is possible that certain things can be averted, and if they are, the world at large will never know the vicious danger that threatens and the overwhelming

disaster that it will have escaped.

"There is a certain sinister force at work within the atmosphere of Earth that is trying to destroy the beautiful Christ Light which is growing like a flower in the Hearts of more than sixty percent of humanity. The greater portion is in America, but there are many in all nationalities."

We went into the house where Gaylord greeted Rex and Nada as if they were his own children, and was then presented to Pearl.

"May I be excused," he asked immediately. "I have matters of a private nature to discuss with your father, and will you," indicating me, "remain within call?"

In about an hour I joined them, and it was then I realized how important his visit really was. When we were seated, Mr. Gaylord revealed some of his activity as a Secret Messenger of the Great White Brotherhood and presented his credentials. His work in this capacity had extended over a period of seven years. He had his own avenues of personal contact with some of the higher official and diplomatic circles in Washington, as well as many other places of importance. It was because of his personal influence in these channels that he was able to be of such great assistance to the Brotherhood when need arose.

"Saint Germain," Mr. Gaylord began, "is concerned with certain activities in Washington at the present

time. It is His Request that we three reach there the second of October, and He will meet us on our arrival. He says it is possible to use you," glancing in my direction, "in certain ways which He cannot do with His other students–a slight example of which you both experienced when the attempt was made on Mr. Rayborn's life.

"Remember always," he went on, directing his conversation entirely to me, "that our Eternal Motto and rule of conduct is: 'To know, to dare, to do, and to be silent.' Your trust in your own 'Mighty I AM Presence' may be severely tried within the next few months; but you must realize the Messengers of the Great Ascended Masters may only make Themselves known at the right time–which moment those in charge of the activity decree."

With a few more personal directions to me, the meeting was over. After dinner Rayborn and Gaylord went to the Tower Room. We met again at breakfast the next morning and I learned they had both been present at an important Council of the Ascended Masters in Arabia. Rayborn, with Mr. Gaylord's assistance, was enabled to go forth in his Finer Body while their physical bodies remained undisturbed and protected in the Sacred Chamber. As Mr. Gaylord was leaving, he remarked:

"I am glad you have all entered the Pathway of Light, for there alone will you find Permanent Happiness. Henceforth we shall meet often at the

most unexpected times and places, and from now on distance will be no barrier for any of us." He said good-by, entered his car, and waving his hand, was gone. "How long have you been aware that Mr. Gaylord knew and was under the direction of Beloved Saint Germain?" I asked Rayborn.

"About four years," he replied. While I had known Gaylord a long time, it was only now that I was beginning to see the real magnificence and Inner Character of the man. In referring to this later with Saint Germain, He said:

"Little do people realize how often they are in close contact with greatly illumined souls who are many times Messengers of the Ascended Masters–but are totally unaware of it until some unusual event opens the door and causes them to reveal the Great Inner Light. One might live for months or years under the same roof with a Messenger, and not know him until some crisis arose that caused him to reveal his power."

The young people left for school the next day, and Bob returned to the ranch with us to receive directions from Mr. Rayborn about the work at the mine, and orders to be ready to return early the following morning. That evening we three had a quiet, confidential talk that revealed still more of the nobleness of Bob's character. Arrangements were made for him to come to Washington, D.C., at Christmastime for the meeting with Saint Germain.

Rayborn and I had many enjoyable evenings discussing the Instructions Saint Germain had given us. One evening about a week after Bob had left, we were deep in the study of re-embodiment when Rayborn read to me some of the material on this subject which Beloved Saint Germain had given him. I quote it exactly:

"If human beings only understood that human embodiment upon this Earth is an opportunity given the personal self–by the Great Law of Balance–to correct the mistakes made in previous lives, they would use every experience and extract the lesson from it instead of rebelling against circumstance and being used by it.

"This constant return to physical embodiment, or garments of flesh, would be an endless circle of cause and effect if it were not that man has the 'Presence of God' within him.

"This part of you which says 'I AM' is the Life, the Intelligence, and the Power that moves through your physical body. When the discordant habits of the atomic consciousness of your physical body build to such a momentum the Light of the 'Mighty I AM Presence' is no longer allowed to expand, and through that, maintain the Fulfillment of a Constructive Plan of Life, the Master Self begins to decrease Its supply of energy, and eventually withdraws.

"There is only one thing that ever causes what

the world calls death, and that is the lack of enough Liquid Light within the nerve channels. It radiates the Cohesive Power which holds the atoms together that make up the flesh body. This Liquid Light is owned by and comes only from the 'Mighty I AM Presence' of the Universe. The outer garment is the receptacle into which this 'Presence' pours Its Light for a constructive purpose and use only. When that purpose is continually interfered with, the Light is withdrawn; and the flesh body, which should be the Temple of the Most High Living God, disintegrates.

"The experience called death is a constant reproof to mankind and a reminder to the personal self of its disobedience to the original God Plan, the Divine Way of Life.

"If the student really wants to know the Truth about re-embodiment and Life, he must go to the Source of Life—the 'Mighty I AM Presence'—and study there; for only as he receives Wisdom from his All-knowing Mind will he ever BE Its Light.

"We may have mental concepts and ideas by the thousands, but unless we have become One with a thing through feeling it, we never really know. To gather facts from the world of sense and form, or the outer activity of the mind, is but accretion. Eternal Truth, Law and Intelligence come only from the 'Mighty I AM Presence,' the 'Light of the Universe.'

"If one desires to prove to himself the Truth of re-embodiment, that proof can only come from his own actual experiences–revealed to him by his own God Self. No amount of argument or phenomena will ever be proof to anyone. To the one who wishes to have this proof, I give the following, and it is infallible; for the Ascended Masters have attained Their Perfection of the Ascended State by its use, and others may do likewise if they so choose.

"If the student, with unyielding determination, will acknowledge and accept his 'Mighty I AM Presence'–call to It constantly, and sincerely reach up to It, love It, and be grateful for Its wondrous Life which he is using every moment, waking and sleeping–he will cause his outer consciousness to be so raised that he will know, see, and experience first hand the answer to every question and every problem confronting him.

"The greatest and most important Activity of Life is Love, Devotion, and Gratitude to Life for all Life gives us. As our outer consciousness becomes lifted by being held in constant adoration upon the 'Mighty I AM Presence' and continual acknowledgment given only to the Perfection of Life, all human habits and miscreations disappear, and we express only Light. This is the Ascended Master Consciousness.

"The outer activity of the mind and physical body becomes the visible, tangible form of

whatever we think and feel. Man becomes that upon which his attention rests. If he meditates upon the 'Mighty I AM Presence,' he will become the Full Outpouring of that Perfection. If he spends his time and energy, through his attention, upon the appetites of the physical body, trying to satisfy their insatiable demands, he destroys his temple. No man may say him nay, no matter what his choice. The responsibility of his choice is unescapable, for it is inherent within Free Will.

"The Paramount Command of the Eternal is: 'Be ye Perfect, even as your Father in Heaven is Perfect,' for Life will return you, the individual consciousness, again, again, and again into human embodiment–until you fulfill the Supreme Edict of Life. When that Decree is obeyed, we shall find the Manifestations of the Constructive Way of Life have become Immortal.

"The Cosmic Activity and Light from our Earth is being expanded at this time. Many feel this greatly increased energy, and unless it is used in a constructive way, the individual qualifies it with his own feelings of irritation and resentment against persons, places and conditions. This but creates greater turmoil in his own mind and body, which constantly disturbs himself and others.

"During the present Expansion of the Light throughout the Earth, it is absolutely imperative for the individual to keep an iron control over his

own thought, feeling and spoken word–compelling them to be constructive, and giving recognition to nothing else–if he is to avoid continual distress and countless loss to himself and his world. At no time in the history of the planet has this been so important as it is at the present moment.

"The Earth is passing through the throes of a tremendous new birth, and in the few years just ahead will be in a transition period. It is changing now in a Cosmic Way–from the attitude of war into that of Peace, from hatred to Love, from selfishness to unselfishness–and into the full recognition that in the future the people must exert strength enough to live according to the Law of Love.

"The hour strikes in the evolution of every planet and its humanity when they must express the Full Peace, Harmony, Perfection, and the Divine Plan of the System to which they belong. When that hour strikes, humanity either moves forward and fulfills God's Plan, or whatever portion will not come into alignment with the new activity removes itself to another schoolroom of the Universe–until those personalities learn obedience to Life.

"The Law of Life is Heaven, Peace, Harmony and Love to every created thing. Even the ethers of infinite space express this Harmony everywhere. Human beings are the only creators of 'hell.' They

can accept and obey the Law of Life, and enjoy every good thing of the 'Kingdom,' or they can disobey that Law and be broken as a reed before the storm by their own self-generated discord. Each individual carries his own heaven or hell with him every moment; for these are but the results of mental and emotional states which the individual has created because of his own attitude. There is no other cause for them.

"Over the humanly generated chaos of the past there are being poured out by the Ascended Masters and Great Cosmic Messengers, Great Streams of Love and Harmony upon which Peace depends. Mankind, having so long pulled against the Great Cosmic Current of Love which ever seeks to bless, is now being compelled to turn around and seek the Light in order to survive in the midst of its own destructive emanations of the past. The constant Command of the Ascended Masters is: 'Let the Great Light of the "Mighty I AM Presence" enfold the humanity of Earth—quickly—that its sufferings may cease.' Misery, darkness and ignorance exist only because of lack of Love."

Mr. Rayborn and I were the only two left at the ranch for the next few weeks. We received splendid letters from Nada and Rex, and occasionally one from Pearl. They were deeply grateful to Beloved Saint Germain for the beautiful apartment which He, in His Love, had provided for them; and among

its many blessings were two of His other students who acted in the capacity of chef and maid. They had come from Arabia, and while in their activity as servants, were the very essence of loving help.

When the twenty-fourth of September arrived, Rayborn and I made a visit to the mine for the last time before leaving for Washington. The trip was beautiful, and we felt tangibly the overshadowing Power of the "Magic Presence" which filled us with unspeakable joy and happiness. We found Bob expecting us, as Saint Germain had left him a message saying we were to arrive that evening.

Mr. Rayborn's purpose in coming at this time was to contact the men more closely and give a Radiation that would bless all. He spoke to the three shifts as they came off duty, telling them of the new superintendent, Dave Southerland. They deeply appreciated Rayborn's kindness and generosity to them, and as he thanked and encouraged them in their work, he seemed more like a brother than an employer. I never ceased to marvel at the Power of Love to bless men and their business–when they really accept and live It. Rayborn was a living proof of Its efficiency and wisdom in the practical daily experience of the business world.

That evening Rayborn spent much time telling Bob many things Saint Germain had revealed to him during their hours of Instruction. Bob was as happy as a schoolboy, deeply grateful for all he

received. The next morning we three said good-by with Hearts full of Love. Rayborn and I reached the ranch after an uneventful trip and retired early.

The following morning he suggested we take the beautiful Arabian horse out for exercise, that I might see the part of the ranch that lay among the foothills. He asked me to ride Pegasus; and as the groom led the horse out, he broke away and came to me at full speed, rubbing his nose against me as though to express his joy at not being forgotten. Rayborn mounted the black horse belonging to Rex, and we cantered off. We were returning along the foothills when suddenly Pegasus planted his feet and would not move.

"Let him have his own way," explained Rayborn.

"He knows a rattlesnake is near. Give him the reins and then watch." He moved a short distance forward very slowly and then stopped. We distinctly heard the rattle, and looking a short distance away, saw a huge rattlesnake.

"Don't touch the reins," warned Rayborn. "You will see a very unusual thing." Raising his right foot, Pegasus began to strike at the snake slowly, at the same time watching it closely. Suddenly the snake struck, and quick as a flash down came Pegasus' foot on its head, severing it from the body completely. I hugged him–I couldn't help it; but he was quite calm. I dismounted to get the rattles and found there were twelve. "You had better

give me those rattles," said Rayborn, "Pegasus will never let you carry them on him; he has a violent antipathy to them."

The next morning we left for Denver. We went directly to the Brown Palace Hotel where Gaylord had left word for us to come immediately to his suite of rooms. We obeyed directions and were greeted graciously by our host. He called a porter to check our trunks, and when the man returned, he knew before he accepted the checks that one was missing.

"My good man, you have not checked one of the trunks," he explained. The porter saw his mistake and returned later with the missing check. We boarded the train at nine o'clock and found that he had engaged three adjoining drawing rooms. Gaylord excused himself almost immediately. "I wish to retire at once," he explained, "and leave my body, as I must go to Arabia for further directions; but I will be with you at breakfast."

The next morning at the first call, Gaylord, Rayborn and I went through to the dining car. While we sat at breakfast, a dark, handsome, wiry sort of man passed our table, accompanied by a beautiful woman of striking appearance.

Involuntarily, we all noticed them. We finished our breakfast, and Gaylord asked us to come at once to his drawing room. "That man and woman," he explained, as soon as we were seated, "are two of

the communist representatives with whom we have to deal. We are perfectly safe because they do not know how to protect themselves or their secrets by the Power of the Inner Light. They do not serve the 'Light,' and are therefore unable to use It as we do, and so release Its Power. However, we must be on our guard from the start so that at no point will they be able to sense anything of our activities. The man's companion is one of the cleverest, most dangerous and notorious persons known in Europe.

"Put on your Armor," he said, speaking to me, "for in handling this woman, when the time comes, you will need to use all your powers of diplomacy. You have a part to fulfill–more important than you dream; but I know your courage, poise, and the assurance from the 'Mighty I AM Presence' within. That will take you through victoriously.

"Through my visit to the Far East last night, it is very evident that we are getting into action here none too soon. Those who are the claws of the sinister force are already polluting and corrupting wherever possible by their deceit and treachery. Now you can realize how great was Beloved Saint Germain's Wisdom in His three days' Preparation and Attunement of you while in the Cave of Symbols. I know of the place; I have been there many times."

"Will you," I asked, "tell us whatever of your experiences you are permitted to reveal?"

"I will be glad," he replied graciously, "to relate whatever I am permitted to reveal for your instruction and enlightenment, but not just for entertainment. We change trains at Chicago, and after leaving there, which will be about nine o'clock tonight, I shall be glad to visit you again. When we reach Chicago, have all the bags taken to your compartment and wait for me, as I expect to have important communications for both of you." When the train pulled into the station, Mr. Gaylord stepped off the car and disappeared immediately in the crowd.

"He must have drawn the Cloak of Invisibility about him," I said to Rayborn; "he has gone so quickly." We changed trains and went immediately to our compartment. As the train pulled out of the station, we heard Gaylord enter his compartment. In about ten minutes, he tapped on our door and asked us to join him.

"It was just as I thought," he explained. "Our adversary has a powerful tool in this city, one of the high political officials who is receiving large sums of money for the assistance he is giving to their destructive activities. However, he is under surveillance and will be taken into custody in the morning. No one will dare to announce it publicly because of others with whom he is connected–and whose prominence makes it too dangerous for them to allow his name to be revealed. It is the same old

story: when the battle grows too fierce in the camp of the unvirtuous, it is each man for himself, and each man's deeds trap him in his own net.

"The man and his companion whom we saw at breakfast the other morning have taken the compartment next to you," he continued, indicating me. "However, you will know exactly the right thing to do at the right moment, and I know you will do it. Now I will explain, for your instruction, one of my experiences that began in India, reached its height in Arabia, and finished in America:

"Some years ago, when the aftermath of the war was spending its fury, I was selected by the Council of the Great White Brotherhood in India to act in the capacity of Messenger. This work necessitated taking my physical body with me, for at that time I was not able to levitate and transport it through the atmosphere as the Ascended Masters do. However, now I can leave my body consciously at any time, as you are both fully aware and this good brother," indicating Rayborn, "has physically observed.

"Obeying the Call from the Council of India, I sailed for France, the first part of my journey. At that time I was not so clearly sensitive to the Finer Vibratory Action as I am now and had to be led more or less intuitively. Little did I dream in those days that I was obeying–as definitely as I am now. The first morning at sea, I found a most distinguished

looking gentleman seated at my table as I came down to breakfast. He arose as I approached and introduced himself. 'I take the liberty of introducing myself,' he said. 'I trust I am not intruding!' I liked him very much the moment I shook hands with him; and we chatted on generalities for a few moments when he remarked:

" 'I presume you are traveling for pleasure, possibly on a mission?' and as he pronounced the word 'mission,' he looked at me very sharply. Instantly I felt something tighten within and I was on guard at once.

" 'I enjoy water travel very much,' I replied, 'especially in the month of May.' A slight smile passed over his face and an amused look came into his eyes. Still, the feeling that I liked him grew stronger, and somehow I could not help it, nor explain the cause. Suddenly he shifted the conversation, began speaking of a certain young prince, and asked if I had met him.

" 'Only as a small child,' I replied, 'but I have always felt he was a great soul.'

" 'Just what do you mean by that?' he asked.

" 'I mean he is one who has lived many lives and attained certain Inner Knowledge through much experience,' I replied.

" 'Then you believe in re-embodiment?' he questioned again.

" 'I not only believe it, but I know it to be True,

and a certain phase of one activity of the Great Cosmic Law,' I answered.

" 'You speak with great assurance,' he continued.
" 'In this respect, I speak from actual knowledge,' I retorted.

" 'Oh, you do? Now for instance, do you think you and I have ever met before?' he went on, and there was a sort of quizzical, half-teasing note in his voice–yet a loving kindness in its quality that denied any real opposition to my thought.

" 'Yes,' I continued, 'we knew each other before the last cataclysm on Atlantis, and also in Egypt. Now we have met again and shall work together many times for our mutual good.' I spoke with an Inner Impelling Power and a Feeling of Authority that amazed me. I was surprised at my own words.

"He extended his hand, looked at me with a smile that would have melted anyone, and gave me a sign which I knew came only from one of very high authority in the Great White Brotherhood. I was deeply grateful and very happy.

" 'You passed the test splendidly, My Brother,' He explained, 'and it is well you are on guard so naturally. This makes it possible for the Inner Presence to act at all times. Remember, the "Mighty I AM Presence" is the Only Power which can guard you in the outer activity, for it cannot be done by the personal will.

" 'Never fail to maintain this Continual Guard,

for it is imperative in the work you are to do. The Great Life Stream and plan of our work has brought us together for the next few months. Your "I AM Presence" spoke the Truth about our having been together in former lives. I rejoice, as I see you do also, that our outer activity unites us again at the present time. Let us go to my cabin, and I will give you some idea of our work. You will receive further instruction in detail from the Council in India.'

"As we entered His cabin I felt a sense of exquisite beauty about everything around Him. I did not know then, as I have learned since, that it was not so much the furnishings as the wondrous Radiance He shed over them. His Blazing Aura penetrated, charged, and illumined everything in the room.

" 'The first important thing I have to tell you,' He explained, 'is that I am detailed, with your assistance, to prevent the assassination of the young prince we mentioned some time ago–whom we both love because of his Inner Light. The second duty is to prevent a great indignity to Arabia by certain European powers. The third thing is the activity of the sinister force with which we are dealing now. We shall stop two days in Paris as we pass through France and there shall make important contacts to help us accomplish our work.'

"The days passed all too rapidly while I was in association with this Remarkable Man, and the

only promise He exacted from me at any time was when He introduced himself–by requesting that I never reveal His Name to anyone. I have never done so to this day and never shall, except with His Permission.

"I thought at the time when I saw Him perform what the world calls miracles that He was the most wonderful person in the world; but He revealed only a fragmentary part of His Knowledge and Power at that time. When I mentioned these things to Him, He replied: 'This sort of activity is the least important Work the Members of the Great White Brotherhood are able to do; in fact, there is nothing They cannot do when necessity and the Divine Law permit.'

"The boat arrived at Cherbourg, and as we disembarked I saw a man who looked like an Arab give my Friend the Sign of the White Brotherhood, which He answered. The Arab led us to a magnificent auto that we entered at once, he taking the wheel.

"Inside the car sat a closely veiled woman to whom I was presented, not by name, but as the 'Brother from the Far West of America,' and She merely as 'Sister of the White Brotherhood.' As nearly as I could see and sense, She seemed very young, not more than seventeen years of age. We were hardly seated when She said:

" 'We can reach Paris much more quickly this

way,' indicating a road into which we turned immediately.

" 'We are being followed,' She warned a moment later; and looking around, we saw another car following at full speed. At once there arose from the ground a Wall of Vapor between the two cars.

" 'They will not pass that barrier until we are well out of their reach,' She assured us.

"We arrived in Paris a few hours later and stopped at an old castle-like residence from which we could see dimly the Eiffel Tower. It was situated high up, and from its many windows one had almost a complete bird's-eye view of the city. It seemed as if it had been built for that purpose in the first place.

"The Veiled Lady led the way through the entrance and up a grand staircase. We entered what looked like an audience chamber, and passing through a side door, came into a large library.

"A tall, handsome man, turning from one of the bookcases, came forward and greeted us with a courtly grace that is not the custom of our time. Later I realized why. He was one of the Great Ascended Masters who had made His Ascension more than five hundred years ago. His eyes sparkled with Kindness and a Wisdom that seemed as old as eternity.

"The Veiled Lady who had accompanied us, He

explained, was His daughter in a former life and a pupil of His in this one. She had been in the Ascended State more than three hundred years, yet She looked not over seventeen. I can never tell you the effect those experiences had on me. Every new Revelation stirred a feeling within that I never knew existed.

" 'My Beloved Friends,' our Host said, as soon as we had been presented and greetings had been exchanged, 'please be seated. Luncheon will be served immediately, and afterwards I will convey the Instruction which I am to give you.'

"A few moments later two youths in cream-colored robes appeared and served our meal. It was very delicious and was the same kind of precipitated food that we have all been privileged to eat at Saint Germain's Retreat in the Cave of Symbols.

" 'Tonight,' said our Host, 'you are to be my guests, together with eight of the Brothers who will be here to meet our American Brother. They know him, but as yet he has not recalled the memory of Them.'

"Promptly at eight o'clock our Host led the way to the top floor, and we entered a circular room where everything was decorated in soft milk-white color. In the center stood a white onyx table, and around it had been placed twelve chairs. We stood for a moment, one at each corner of the table, with heads bowed; and when we looked up, the eight

Brothers were there in living, tangible Bodies. I was presented to each in turn, and then the group sat down.

"They all knew my Friend of steamship acquaintance very well. Many problems of national and international importance were brought up for solution, and in every case, a real remedy worthy of Their time and attention was found to meet the requirements.

"It was during this time I learned that our Host was Chief of the Council of France, although He was not a Frenchman. Each Brother was given specific direction which it became His duty to carry out. As the Council adjourned, everyone said good-by with the Blessing: 'We enfold you in the Potent Power of the "Magic I AM Presence" to whom all Brothers of the Great White Brotherhood look and receive without limit.' We bowed our heads, and the Brothers disappeared as silently as They had come. We bade our Host good-night, and were shown to our rooms.

"We had breakfast early the next morning and were ready to leave by nine o'clock, the Veiled Lady accompanying us as before. We arrived at the docks in Marseilles just in time to ask God's Blessings upon our fair Sister and take our leave.

"We boarded the steamer and I asked my friend why I felt such an attraction to the Veiled Lady and what was the meaning of it, for She seemed always

before my vision and about me ever since we had entered the automobile in Paris."

" 'Have patience,' He answered. 'You will soon know.'

"Our cabins adjoined, and we settled down to enjoy our trip on the Mediterranean to the full. We were bound for Bombay by way of the Suez Canal and the Red Sea, with visits to Alexandria and Cairo. It was a trip one could not forget in a thousand years. Not a single thing occurred to mar its beauty and our joy, and being extremely fond of water travel, I reveled in my newly-found happiness.

"As our boat came alongside the pier at Bombay, I was intensely interested, for this was my first trip to that part of the world. Since those years, the Orient has become quite familiar.

"I had expected that we would make the last portion of our journey by train, but to my surprise, we had scarcely left the gangplank when a handsome young Hindu dressed in white approached. He gave us the Sign we knew so well and led us to a large, beautiful auto. He opened the door in quiet dignity and waited for us to enter. To my astonishment, within the car sat another veiled lady—who looked very like the one we had left in France. To my intellect that seemed impossible, so I put it out of my mind. I was presented to her in a similar manner as to the other lady. It was not long

until our fair companion answered my thought with the question:

" 'Why, My Good Brother, should we think anything impossible where the Understanding of the individual is complete?'

" 'My Good Sister,' I replied, 'you are so like a lovely lady we met in Paris that I can hardly believe you are not the same person. Yet we left Her there, so She could not be here.'

" 'You think not?' She questioned again, and my Friend suggested:

" 'We had better watch the beautiful scenery, for we may not pass this way again.' The view was powerful and majestic, and a very delightful source of inspiration and enjoyment. It was ten o'clock in the morning when we left Bombay. We drove until six in the evening and by that time had reached a quiet little city. We drove to a large native residence. The man in white driving the auto waited for us to alight and then drove away immediately.

"Again our veiled sister led the way to the dwelling. A stately, white-haired English lady with a youthful face and figure opened the door.

" 'Welcome, my Good Sister and Brothers,' she said, greeting us cordially. 'I was anticipating your arrival. Your rooms are ready, and the attendant will show you to them if you care to refresh yourselves after so long a drive. Dinner will be served in twenty minutes.'

Presently, the soft tones of a bell announced the meal, and we proceeded to the dining room. Imagine my feelings as we met at dinner when I found that the Veiled Sister who had driven with us from Bombay was the same Lady we had met in Paris! As soon as I saw who She was, I greeted her with:

" 'My Beloved!' I had no intention of saying any such thing and felt greatly chagrined and confused. I apologized profusely and tried to restrain an almost irresistible impulse to talk. She did not seem to mind the familiarity in the least, but replied, 'I deeply appreciate your sincere greeting.' I managed to collect my thoughts enough to ask,

" 'Will you please tell me how you were able to reach India before us?'

" 'I have a means of transportation,' She explained, 'with which you are not familiar. However, you will be taught to travel as I do. We are able to transport Our Bodies to any distance We desire without using any physical conveyance.'

"The next morning we were on our way at daybreak. The day was very warm outside, but within the auto it was comfortably cool and delightful; deliciously cool drinks were always provided for us. We had been driving in the mountains for some time and were climbing steadily when we entered a deep gorge, the walls rising at least two thousand feet on each side. It looked as if a giant fissure had been cut through the mountains for nearly a mile.

"We drove through this crevasse and came out into a basin about four miles in circumference, surrounded by towering peaks. Never before or since have I ever seen a more beautiful spot on Earth. It was a Perfect Paradise.

"On the west side of this basin, facing east, stood a magnificent palace of white marble, unlike any building I have ever seen in the outer world. Saint Germain had not said so, but I have always thought it was a Precipitated Substance. A large golden dome covered the central portion of the roof, and there were four smaller domes, one on each corner. When the morning sun flashed upon these domes, the whole scene became an indescribable blaze of glory, a daily, silent symbol and acknowledgment by Nature of the 'Great Light' and Wisdom that poured out constantly upon the Earth from this Temple of Beauty.

"We drove to the eastern entrance of this magnificent palace and two youths in snow-white garments came out to greet us. They were the picture of perfect health, youth, and beauty. Their hair was especially attractive, one being a soft wavy brown, and the other a most wonderful gold. The latter welcomed us:

" 'Beloved Sister and Brothers, you are expected and most welcome. Will you please follow me?' We entered and were greeted again by one of the Ascended Masters who is greatly beloved in the

outer world, and who has worked ceaselessly for many centuries to bring enlightenment to the race of mankind. He has a very kindly face, a smile that would melt a heart of stone and makes one feel at once that He wields a Power that solves all things.

"Other attendants came forward in graceful, rhythmic motion and led the way to our rooms. The interior design and furnishing of this palace were exquisitely beautiful. Since my first visit to that wonderful spot, it has been my duty as well as my pleasure to contact many important places throughout the world because of the work of the Great White Brotherhood with which I have been associated; but even the most elaborate have never approached the Exquisite Perfection of this White Marble Palace of the Ascended Masters.

"The whole interior of this wonderful building was made of an imperishable material, milk-white in color, with here and there touches of a very delicate gold, violet, green, and an intense electric blue. This produced the most artistic effect imaginable. Everything remained immaculately clean because within and around the building all was so powerfully charged with Electronic Force and the vibratory rate was so high, the Power of the 'Light' repelled everything imperfect, and kept all in a self-sustained state of Beauty and Perfection.

" 'Dinner will be served in your rooms,' explained the youth with the golden hair, 'and you

are requested to wear the silken Robes and Sandals that will be provided.'

"When the dinner arrived, it consisted of several kinds of fresh fruit, among them berries served with a substance like whipped cream, similar to that which we have eaten at the Cave of Symbols, and a delicious drink of golden liquid a little less heavy than honey.

"As soon as we had finished our repast, we were summoned to the Council Chamber under the central dome. On entering, the great table in the middle of the room caught the eye at once–because of its massive size. It was made entirely of jade, heavily veined in gold, exquisitely beautiful in even the smallest detail, and around it had been placed sixty chairs made of solid gold, and upholstered in a fabric of soft violet color that looked like silk velvet.

"We stood a moment admiring the Beauty and Perfection of it all, and as we looked around saw Beloved Saint Germain. The entire Council entered in little groups of three to twelve. When all but one had arrived and taken Their places around the table, our Beloved Master spoke.

" 'Let us bow our heads in silent praise and gratitude to the 'Mighty I AM Presence' which is lifting the Hearts and illumining the minds of mankind.' As we raised our heads, a Most Marvelous Being stood in the place that had been left vacant at the head of the

table. He was One of the Great Ascended Masters to whom it is impossible to do full justice–because the Great Majesty and Authority to which He has attained surpass all human powers of description. His Robes looked like a glittering mass of jewels, but as I became more accustomed to the Brilliancy of His Light, I saw that what looked like jewels at first were points of Dazzling Radiance emanating from His Body and Robes. The Love He poured forth was so All-encompassing that It seemed to flood the Universe, so far-reaching was Its Scope.

" 'Beloved Sisters and Brothers of the Great White Brotherhood, I greet you,' He said, giving the Sign of the Order that acknowledges only the Omniscience of the 'Mighty I AM Presence,' the Omnipresence of the Undying Flame of Life, and the Omnipotence of the Shadowless Light.

" 'My Brother from America, I bid you welcome. Please accept My Love and Gratitude for the service you have performed. I shall speak with you at length at the close of the meeting.'

"This Mighty Brother of Light proceeded to give Definite Instruction concerning the most important activities of the Earth, principally the Inner and outer changes that needed to be brought about for humanity's advancement. Many of the Councils from all over the world were represented by those present. The Chief of each Council received orders

direct from the Presiding Master and gave His Directions to the ones under Him. When the outline of Their activities was finished, He asked each one to turn his chair about and face the west.

"In the atmosphere before us began to pass living pictures of the problems the Great White Brotherhood held under consideration, or were working on at the time. They showed the individual Brothers who were concerned with them and would continue to work on special assignments, giving the principal details and means of solution. The work of protecting the young prince previously referred to, and the Brothers who were concerned with it, was one of the many scenes that passed before our vision. The method for readjusting conditions pertaining to Arabia was also shown and excited my admiration greatly.

"When the greater problem of dealing with the sinister force which is trying to keep humanity from recognizing and manifesting the Perfection and Blessing of the 'Mighty I AM Presence' was revealed, it was the most astonishing thing anyone can imagine. It really showed the Unlimited Force of the Cosmic Christ Light dealing with darkness, and no words can portray the Majesty, Power, and Victory of the 'Presence of the Infinite I AM.'

"At the present I may give no further details, but the Glory and Supremacy in action of the 'Mighty Presence of the Infinite I AM' transcends

all imagination, just as Light transcends darkness. The pictures came to an end, and the Presiding Master–He of the Dazzling Radiance–turned to the Sister from France and myself:

" 'Come, My Beloved Children,' He said. We stepped forward, and He extended both hands, His left one to Her, and His right to me.

" 'My Brother from America,' He went on, 'I bless you exceedingly. You have not yet realized the Eternal Perfection that is now yours in the outer activity. Our Beloved Sister is your Twin Ray. This is one of the Greatest of God's Mysteries and explains the mutual attraction between you since your first meeting in Paris. If the humanity of Earth could have the God Understanding of this part of the Divine Plan, it would do more to purify the chaos of the outer world than any other thing We know.

" 'The time is nearing when the Truth concerning the Twin Rays must be thoroughly understood and Its Mighty Wisdom and Power utilized. No Individualization of God does Creative Work at Cosmic Levels in the Fullness of the "Mighty I AM Presence" until that one's Twin Ray has made the Ascension. Earthly choice has nothing whatsoever to do with it. Each Ray must, by Conscious Understanding and the use of the "Great Command," purify, perfect and illumine all the human creation

by which it has surrounded itself. It then becomes the Ascended Master who forever has Conscious Dominion over the Earth and all that is therein.

" 'When both Rays have made the Ascension, They are of the same state of Purity, Freedom and Perfect Dominion. The Two are then able to work at Cosmic Levels. There, They can project great Cosmic Rays of Love, Light and Wisdom, focusing them with such Power, They create and control Cosmic Activities and reveal the Great Glory of the "Mighty I AM Presence."

" 'Our Beloved Sister has seen and known of this for some time, patiently awaiting this divine moment. After the raising of your body, your Work together will be very transcendent.' He raised His hands above us in Blessing, and His voice, beautiful as a bell, with a tone of Eternal Authority uttered the Supreme Decree of Love Everlasting upon our union:

" 'By the Command of the "Mighty I AM Presence," I join these Twin Rays of the Eternal Flame of Life in Supreme Love, Light, and Perfection.'

"As the Master said these Words, a Dazzling Shaft of Light enveloped us; and in this, the Mighty Flame of our Twin Rays set Its Eternal Seal upon our Cosmic Pathway of Life. In that moment we were fully conscious of ourselves as only that 'Magic Presence of the I AM.'

"This closed the Council meeting, and in the hour that followed, we met the members of that Retreat and received Their congratulations. They assured us our Unlimited Cosmic Service would now begin. The next day the Master who was our host explained some of Their Work and revealed the Perfection that had been maintained there for centuries. In explaining the origin of Their Work, He said:

" 'This Council of the Great White Brotherhood was created centuries ago by the Great Brothers of Light, that a Powerful Focus of Their Help and Illumination to humanity might be brought about and perpetuated for a definite period of time. The wonderful semi-tropical climate you find here will last as long as We desire to retain this place as a Retreat.'

"That evening we were shown the perfected instrument for television in operation. I could not help remarking what glories and marvels humanity could and would experience, if it would only reach up consciously and sincerely to the 'Inner Light,' and the individuals open their Hearts and feelings to the 'Mighty Magic Presence of the I AM.'

"Early the following morning we returned to Bombay, whence we were to sail for Arabia. The trip to the coast was delightful, the atmosphere in the car always remaining cool and comfortable no

matter how warm it became outside. I knew this was due entirely to the deep understanding of my Beloved and my Friend. We went back to Bombay by an entirely different route from the one by which we had come. The following morning we sailed on a small boat for Egypt, stopping at the port we wished to reach on the west coast of Arabia. When it reached the Red Sea, as we began to sail north on its placid waters, my Friend suddenly became charged by the Electronic Force so powerfully that we all noticed it.

" 'For some reason,' He said, 'I have contacted the period in which Moses led the Children of Israel through this sea; for the living pictures are all appearing before Me here in the Etheric Records. What a time of wonders that was in the midst of such a very great distress. Moses truly made a most wonderful contact with the Ascended Masters who were assisting and who wielded Tremendous Power through him to accomplish that undertaking.

" 'I see for the first time the Great Ascended Master to whom Moses knowingly addressed his petition at that time for help. The Majesty and Power of that Mighty Being can scarcely be comprehended by the human mind, so marvelously does it transcend the ordinary experience of humanity.

" 'How little the modern world knows, realizes, or credits those marvels actually performed by such

wonderful Servants of God for the enlightenment and uplift of mankind. These stupendous so-called miracles are, after all, only the Activity of a Law that humanity has not yet tried to study or understand.

" 'When one speaks in terms of Universal Truth, there is no such thing in Infinite Creation as a "miracle," for what the world calls miracles are only the operation of Divine Law, which, because of Its very nature of Perfection, sets aside all humanly established laws of limitation. It is to bring the Full Understanding of the operation of "Divine Law" into the minds of the children of Earth that the Ascended Masters have labored in the past–and for which they still do labor unceasingly with the inhabitants of this planet.

" 'Today, all unknown to the outer world, there are still more wonderful things being done than in those days of long ago. So far as this vast, deeper Knowledge and Power are concerned, the majority of mankind are but babes. However, the hour is rapidly approaching when humanity must awaken to the All-Encompassing Inner Presence of God acting through the individual.'

"At last the boat stopped at our seaport on the coast of the Province of Hejaz, a sort of peninsula jutting out into the northeast edge of the Red Sea. We landed at this quaint place and again were given

the secret sign by a tall, slender Arab in spotless white garments who stood beside a large powerful auto, opening the door for us to enter.

"Without a word, we were driven away at unusual speed over a hard, sandy highway. There were lovely refreshments already provided within the car. Late in the afternoon we entered a small mountain village and drove up to a low, snow-white house. Our silent Arab guide opened the door and motioned us to enter. He knocked upon an inner door that was opened immediately by a white-haired elderly gentleman with brown skin and very kindly eyes.

" 'Sister and Brothers,' was his greeting, 'you are expected. Refresh yourselves, and food will be served as soon as you are ready. After nightfall a Brother will call and take you to your destination. I trust the Brotherhood will not fail in Their Assistance to our country.'

"I was about to speak when my Beloved grasped my arm firmly. I understood Her signal and kept silent.

" 'The Light of God never fails,' my Friend answered our host in a voice that made the very air tremble, so great was the Power and Truth with which His spoken Word was charged, and so definitely did He utter that Almighty Decree. The effect was like magic. The old man fell on his

knees and bowed his head to the ground before my Friend. At nine o'clock a handsome young man wearing the native white Arab dress over which was thrown a long Indigo Cloak, appeared at the door.

" 'Friends of the West,' He said. 'Come, the way is open.'

"We followed immediately without a word. We walked a short distance and found camels waiting. We mounted silently and set off at great speed toward a high mountain. Later I learned that these were the famous racing camels; and the one on which my Beloved was mounted was snow-white. We sped along in silence for nearly two hours, and then came to a hut made of heavy stone and set close against the mountain. As we dismounted, a man appeared from out of the darkness to care for the camels. Our Guide entered the hut and motioned us to follow.

"We reached the opposite side of the room and He raised His hands and placed them against the wall. They at once became a Blazing Light, so great was the Power He directed. They were as dazzling as an electric light bulb, only much whiter. He pressed a certain section of the wall and it turned on a pivot, disclosing an opening into a tunnel of intense White Light.

"We stepped into this, and the opening closed behind us. We followed him for several hundred

feet and came to a metal door. Our Guide placed His hand upon a certain symbol on it, and the door, weighing many tons, fully eight inches thick, opened slowly, and we entered a long narrow room whose walls, ceiling, and floor were all made of untarnishable steel.

"In a few moments a door opened in one wall, where an instant before none could be seen; and a man entered, motioning us to follow him. With our Guide still leading the way, we went some distance and at last came to another solid wall. It opened at our approach and admitted us into a marvelous chamber, fully a hundred feet long and about forty feet wide, furnished in a most extraordinary manner, but artistic, exquisite, and beautiful as a dream.

"In the center of the floor was a great circle enclosing a marvelous zodiac, and around this had been placed large soft cushions for twenty-eight persons. Our Guide stepped to a room at one side of the great chamber, asking us to follow. Within was a sparkling bath, beside which lay Robes and Sandals provided for our use. 'When you are ready, send me your thought,' said our Guide, and left us. We finished our preparation and sent the mental message as requested, and immediately an attendant appeared with delicious refreshments. We finished our meal and then re-entered the

great Council Hall, where twenty-four of the Sisters and Brothers had already assembled. Our Guide presented us to the Members, and all took their places around the circle.

"To my amazement I discovered that the Brother who had acted as our Guide was none other than the Chief of the Council of Arabia, a Great Ascended Master of whom I had heard many times. He arose, gave the Invocation, and addressed the Assembly:

" 'Because of unusual agitation,' He explained, 'in the political circles of Arabia at the present moment, great secrecy has been imperative in bringing outside members into these Councils. That is why there has been a constant watchfulness on our part while our visiting members have been en route.'

"Matters of grave importance were presented for discussion, especially the one nearest to the Hearts of these people. The Chief directed their attention to my Friend.

" 'This Brother,' He said, 'holds a solution to the problem concerning our beloved land of Arabia'; and He asked Him to present it.

"My Friend outlined His plan briefly, and when He had finished, everyone in the room except our Chief was surprised at its daring and ingenuity. The Chief smiled reassuringly and continued:

" 'The plan is feasible, remarkable as it is. It shall be carried out quickly and successfully. The entire Great White Brotherhood of the Earth will watch over the meeting that is about to take place; and you can rest assured, this plan will be set into operation at once.

" 'The Sister and Brothers who have come under special guard are to rest here tonight and tomorrow. On the third day I will go with them to the British Consulate where our negotiations will take place.' A wave of joy swept over the whole meeting as this outline of Their Work was finished. Other matters concerning their various activities were disposed of, and the meeting came to an end–the members disappearing one by one. The Chief then arose and came to where we sat.

" 'Beloved Sister and Brothers,' He said, 'I did not reveal myself to you at first for reasons that you will soon learn. I welcome you with Great Joy to this Retreat of the Great White Brotherhood. All is at your service. Brother from the West, retire to your quarters and sleep until you are called.'

"I awakened twelve hours later at the signal, feeling like a new person, so charged was I with new Life and Light.

" 'I think you will be interested in this Retreat,' our Host said–'to learn something of Its history and the part It plays as a Center of Power on this Earth.

It is one of the oldest Foci of Spiritual Power on this planet. You have only seen a fragment of it so far. A year from now, a Great Council of the White Brotherhood is to be held here. At that time each member will be shown through this vast unknown citadel.' He spent a long time showing us Their tremendous accumulation of Records which They have preserved for the enlightenment of humanity. It was truly a privilege to be shown these Treasures hour after hour.

" 'You will leave here at two o'clock,' He explained. 'Go now and put on your garments of the outer world, for by then it will be time to proceed to where the camels are waiting at our entrance.' We obeyed, and when we returned, found the Chief dressed in a beautiful blue flannel suit, wearing a long Indigo Cloak over it. Except for the marvelous texture of His skin and the brilliant, piercing, loving Light in His eyes, one might easily have thought Him to be a man who belonged to the outer world of business.

" 'Why may I not look like yourselves?' He remarked, as He saw my thought. 'I am an individual like yourselves, only of greater Experience and Wisdom which I have applied longer. That is all. Wisdom is of no benefit to anyone unless it is used, and through that use, the individual manifests Perfection, so he can live above every limitation.'

"By this time we reached the gate where the camels were waiting. When all were mounted, we sped through the night–with the wonderful white camel always leading the way. We made even greater speed than before because we arrived at the hut, the starting place of this particular part of our journey, at three-thirty. The auto was waiting, and just as we entered, the driver said something to the Master that I did not hear.

" 'Have no fear!' the Chief replied, 'We shall draw the Cloak of Invisibility about ourselves and the car, and pass them unnoticed. Let us proceed.

" 'Spies,' He explained to us, 'have been stationed along this road to seize the car and prevent anyone from discovering us afterwards. The *right use* of knowledge, which is True Wisdom, always sets us Free, as you will soon observe.'

"It was not long until we approached the spot where the spies had been placed, and in an instant a dense white vapor arose all around us like a fog, enveloping the machine completely. A peculiar whirring like the sound of an airplane was heard overhead, and while the guards were looking up to find the source of it, we shot by silently like an arrow.

"It was a marvelous experience for me, because while we could see them through the Cloak of Invisibility from within, those on the outside could

not and did not see us.

" 'How is it,' I asked, 'that they did not seem to hear us?'

" 'Sound,' He explained, 'does not penetrate the Cloak of Invisibility; otherwise it would be of no use to us. *The Tales of the Arabian Nights,* My Brother, are only too true, for when really understood, they are Revelations of Divine Law instead of the silly, literal interpretation the outer world in its smug ignorance has chosen to place upon them. They are not folklore for children, but Inner Intimation of accomplishments that are perfectly possible when the student is sincere, worthy, and humble enough to be trusted with the Power and Truth they reveal. The great monster–doubt–and his nefarious associates: ignorance, pride, ridicule, skepticism, fear, and many other useless barnacles, have so fastened themselves upon the mentality and feeling of humanity, they have become like fungi hanging from a tree and rotting its trunk.

" 'If it were not for these vampires, mankind would see and know, within the very Light which animates the physical body exists an Intelligence and Power that can and will carry out perfectly whatever the mind directs–when Harmony is maintained and all direction is constructive.

" 'Love, Wisdom and Power are the primal

attributes which Life uses to build a Permanent Creation, and when mankind ceases its self-created discord, all Life around it and in Nature will express Permanent Perfection.'

"We drove along the seacoast on a splendid highway, and at last entered the city that was our destination. We registered at the best hotel, and early the next morning called at the British Consulate. My Friend said He had been sent as a Representative of the Arabian Government to present a certain solution for the impending crisis, which He trusted would satisfy all concerned, and prevent a very great injustice and indignity to Arabia.

"The British consul asked for His credentials, and instead of presenting them Himself, the Chief of the Arabian Council stepped forward and presented them in His stead. An appointment was made to meet with the British Representatives at eleven o'clock, and we returned promptly at that hour. After the conference had progressed with its usual method of suavely yet persistently shelving everything which did not give them the best of the arrangement, my Friend, at the opportune moment, arose and presented the proposal of the Arabian Government.

"He was calm, masterful and kindly, yet everyone realized unmistakably that He was somehow in command of the situation, and all the

dignity and power of the conference had centered itself around Him. His opponents were not just altogether comfortable: He was too keen and honest for their usual method of diplomatic fencing; but somehow they could not present their ideas in a very favorable light in the face of His frank scrutiny and open kindness.

"They played for time by various kinds of strategy, when suddenly I was conscious of the entire conference being held within a Great Circle of Blazing Light–so bright it seemed to me everyone must see It. Then I realized what a Gigantic Focus of Power the Great White Brotherhood had directed into that room.

"Less than an hour later, my Friend's solution was accepted, the documents drawn up and signed by both parties, and the meeting adjourned in Peace and happiness. The news flashed quickly throughout Arabia, and there was great rejoicing. As we returned to the hotel, my Beloved came forward to greet us:

" 'Noble Brother, I congratulate you,' She said, 'on your dignity and splendid accomplishment.' The next day, the Chief of the Council of Arabia bade my Beloved and me good-by, and we boarded the steamer returning to France. That evening we sailed on the Mediterranean under a full moon. To me it was the most peaceful night I ever experienced.

"We landed at Marseilles, left immediately by train for Paris, and spent the night with the wonderful Master who was the Chief of the Council of the Great White Brotherhood in France. The following morning He drove with us to Cherbourg. Here we said good-by to my Beloved, whom I was not to see until years later. When we next met, it was never to part again. We boarded a liner for New York, and that voyage stands out as one of the most remarkable of my entire Life, for my Wonderful Friend taught me the most marvelous Use of the Ancient Wisdom. He instructed me, and the results I had from the use of the Great Command were simply amazing.

"We arrived in New York and hurried at once to Washington, where my Friend presented the results of the Arabian matter to the President and his cabinet. The news had already preceded His arrival. That ended my first personal contact and observation of the stupendous and marvelous Activity of the Great White Brotherhood."

As Gaylord finished relating his experiences, we saw daylight just breaking on the eastern horizon.

"Let us go to your drawing room," he said, referring to me, "for one of the Ascended Masters has much to do in the work we are to accomplish

next. The lady and gentleman–who are but pawns of the sinister force–have in their possession certain documents and records which they have stolen. These papers contain information we need which they intend to use against innocent people for blackmail purposes. We must have that information in order to protect others whom they seek to injure and to bring into their clutches through the power of fear." We then returned to my compartment. I wondered what Mr. Gaylord intended to do next. We waited a few moments, and soon heard the man and woman go into the dining car.

"Now watch carefully," said Gaylord, "and do not move or speak while I am operating."

We sat down, and he focused his attention upon the door that led into their compartment. In a moment he directed a Ray of "Electronic Light" upon it. He steadily increased the Power, and we were enabled to look within the room. A traveling bag lay upon one of the seats. Gaylord held the Force steadily until he saw what it contained. The expression on his face indicated he had found the information for which he was searching, and in an instant, he released the Power and said:

"In three days they will be ready for the proper authorities to welcome them to a long rest from any further activity of that kind. With those papers in their possession it makes their escape impossible.

In this case, the newspapers will not be able to break through the Wall of Secrecy and Invisibility of the Ascended Masters–who control all human law by the One Eternal Law of Divine Justice."

Saint Germain had indicated the hotel in Washington where we were to stay, and when we arrived, He welcomed us in person. His appearance was changed so that He did not attract undue attention.

"My Beloved Brother," He said, as He went up to Gaylord, "I do sincerely congratulate you and give praise and thanks for your splendid success–because you have broken the backbone of a very destructive activity, at least so far as that group is concerned." Turning to Rayborn and me, He greeted us in that Loving, Gracious Manner that is such a distinguishing characteristic of all Ascended Masters, and particularly of Beloved Saint Germain.

"May I have the privilege of providing your breakfast?" He said. "I trust it will be quite satisfying and delicious. Will you come to my rooms?" After breakfast He suggested that we retire and get our much needed rest–yet while in His Marvelous Presence we were never conscious of needing rest.

The third day after our arrival, Rayborn, Gaylord, and I, accompanied by Saint Germain and certain members of the Secret Service, went to the rendezvous of an important group of those who were willing channels for the sinister force.

There were present the seven principal leaders in America. We reached the place and stood for a moment outside their rooms. We could hear an excited discussion going on in undertones as we approached the door. Suddenly it burst open and we walked in upon them, Saint Germain charging the atmosphere with an Electric Force that held them immovable. Their drawn guns dropped to the floor where they stood, and their arms hung motionless by their sides.

Saint Germain raised His right hand, made the Sign of Cosmic Protection and Power, and in a Voice that penetrated every atom, even of the building itself, uttered the Eternal Fiat of Truth before which all destructive forces bow and are forever silenced:

"Tell those who have been associated with you and all who come after you that 'THE LIGHT OF GOD NEVER FAILS!' "

As His voice carried that Decree into their consciousness, they turned ashen with fear from their own creation and their bodies shook like leaves in the wind. The members of the Secret Service stepped forward and took them into custody–where they shall remain until they serve THE LIGHT.

CHAPTER VII

The Mysterious Message

"I WILL be with you two weeks longer," said Saint Germain as soon as we had returned to our hotel. "With your permission I will devote a part of each day to individual Instruction, which I can see with the Inner Unlimited Sight you are going to need.

"Our interference with the plans of the sinister force and the imprisonment of their tools that took place in Washington recently has drawn the attention of certain forces to you–especially to Gaylord and this Brother," indicating me. "You both have certain faculties developed in former lives which can be used in many remarkable ways. It is because of this the sinister force will try to strike at you.

"However, you will be protected in every way and kept perfectly safe so long as you keep poised and free from anger, hate or fear. This is why I wish to give you certain definite Training along the line of Self- Protection.

"The most important and imperative thing for you to remember always is to fully accept and realize the 'Mighty I AM Presence' is *'The Magic Presence,'* and that It is focused in, through, and around you at all

times. You have seen your Glorious God Self of Dazzling Light–the very Life of your own Being–while you were at the ranch, so there is no excuse for not accepting It completely.

"The outer activity of your mind is the bucking bronco. This you must bring under subjection and make it perfectly obedient to the 'Mighty I AM Presence' in every way. For those who have not been privileged to see the God Self, there might be some excuse, although It is speaking constantly through the Heart to every human being that ever was born into this world; but after an individual has once seen his 'Perfect Self,' the Blazing God Light, there is no reason for ignoring that 'Presence' afterwards.

"When Its Form and Light have once been recorded in the outer activity of the mind through the sight, the individual can at any instant recall that Picture consciously and at will, and again release that Power into all earthly problems.

"The sincere student can draw the Full Power of the 'Mighty I AM Presence' into any condition, and so charge all things with Perfection. Thus he can live once again in the Father's House–in the Glorious Freedom that was originally designed for him. This is the *only* predestination there is.

"Having once seen your 'Mighty I AM Presence,' your own vision is one of the most powerful faculties you have for bringing invisible activity into visible,

physical form. The architects of your business world are doing this constantly. They receive an idea, which is an invisible activity; they then draw a picture of it. It is but a very short time until the substance is drawn together and the invisible idea has become a visible, tangible building.

"The individual's ability to use this Law is absolutely unlimited; but it is only when the student consciously sets to work to control his faculty of sight so that he closes it to the picturing of negative conditions, that he begins to have Freedom and puts his world in order.

"The average person's thoughts and feeling are nothing but a mass of chaotic pictures and negative suggestions which he has accepted from the world about him, and keeps repeating and feeding them by his own energy through his attention. Order is Heaven's First Law–Harmony and Peace, the Cohesive Power of the Universe. These come from One Source *only*, and that is the 'Mighty I AM Presence' of the Universe, your God Self.

"Limitless Substance and Invincible Power are forever about you. You must understand how to raise or lower the atomic vibratory action by the Power of the 'I AM' to produce whatsoever you can possibly desire. There is no one to say what shall come into your experience and world but yourself.

"The Limitless Omnipresent Substance is always about you waiting to be acted upon. You,

the individual, are the channel through which the 'Mighty I AM Presence' wishes to expand Its Perfection. It pours out ceaselessly the Limitless Light, or Energy of Life; but you are the governor of Its use, the director of Its destination and of the result It is to bring forth to you.

"It can and will produce anything you wish instantly if you will but keep your personality harmonized so thoughts, feelings, and words of discord do not interrupt Its ever-flowing Perfection. Life is Perfection, and It contains all Perfect Manifestation within Itself. The only duty of the personality is to be a 'Cup' that carries and reveals the Perfection of Life. Until one obtains obedience from the outer senses and maintains a feeling of peace within himself, he pollutes the Purity and Perfection of the Life that is flowing through.

"It is your duty to know the Wisdom of the 'Mighty I AM Presence' always directs your use of Its Power and Life. It alone knows what is Perfect for you–except an Ascended Master. He, being ONE with the All-knowing Mind of God, is ONE with your 'I AM Presence,' no matter whether It acts through you or through Him. Thus only your own 'I AM Presence' or an Ascended Master knows what is right for you at all times. Only these two Sources, which are really one, can see down your entire Life Stream and know all the forces that

play upon your problems, and the cause of your experiences, past, present and future.

"The lack of discrimination in distinguishing the True from the false is the thing which makes mankind fail everywhere in the outer world. *The one who determines to attain Perfection must train the outer activity of his mind to listen to no voice but that of his 'Mighty I AM Presence.' He must accept only Its Wisdom and obey only Its Direction. He must hear the Light—see the Light—feel the Light—and BE the Light of the 'Infinite I AM Presence.'*

"While there is a different Individualization or Flame of God governing each human body, yet these Individualizations are, have, and use the One Universal Mind, Substance, Wisdom and Power. This is how there is but One Mind, One God, One Substance and One Power ever waiting to be consciously acted upon and directed by the 'Mighty I AM Presence' through the conscious mind or outer activity of the individual.

"If the feeling and thought of the personality is kept harmonious, then the 'Mighty I AM Presence' expands Its Perfection through the outer activity of the individual. If they be discordant, the personality becomes like a steam engine without a governor and destroys itself. The latter is the condition the larger part of humanity is expressing today. Everyone is constantly using this wonderful, limitless Energy—

the Greatest Force in the Universe.

"The responsibility for Its use rests entirely upon the individual, for he is a Creator. If this tremendous Energy be used with the Conscious Understanding of the Love, Wisdom and Power of the 'Mighty I AM Presence,' the individual can only express Freedom, Perfection and Mastery.

"We all know there are thousands who desire this Instruction–that is true; but no individual in Heaven or on Earth can fail to attain It if the desire for the 'Light' be earnest enough, determined enough, and strong enough to hold the attention of the intellect upon that Light. This must be the Paramount Idea of Life upon which to focus all one's energy. To the one who has this great determination, undreamed-of ways will open to bring about the fulfillment of that desire.

"If human beings seek the Light with one eye and the pleasure of the senses with the other, they will not receive much Light. The Great Ascended Masters have become Perfect and All-Powerful by dwelling or thinking upon Perfection and obeying the One Law of Life–Love. They are That upon which They have meditated. Today mankind is *that* upon which it has meditated, or focused its attention in the past. Human beings would not live to be over twelve years of age if it were not for the continual Help of these Great Luminous Beings of

Transcendent Attainment and Love. They give the same wonderful care to the inhabitants of Earth that loving, unselfish parents give to their children, and help all individuals who have a sincere desire to live constructively. To such persons an opportunity is always open so they may attune to and contact the 'Mighty I AM Presence' within themselves, anchor to Perfection, and thus come into the Ascended State also, if they be determined enough.

"The Ascended Masters always work in perfect cooperation with the Cosmic Law of Love. Students often ask, 'Why, if these Masters are All-wise and All-powerful, do They not correct the discord upon Earth and make humanity's suffering cease?' They do help the individual who wishes to serve the Light to harmonize his thought and feeling, and bring the body into obedience to the 'Mighty I AM Presence.' They protect him thousands of times from destructive currents of force and activities of which he has no knowledge; but They cannot and do not fulfill his Plan of Life for him.

"Each individual knows a thing only when he attains the consciousness of it by the expenditure of his own energy, for then he feels it. An Ascended Master never, never intrudes upon the Eternal, Sacred Prerogative of the individual's Free Will. Whenever a destructive force of any kind gathers a certain momentum or accumulates pressure,

whether it be done by an individual, a group of individuals, a nation, or in Nature, the Great Cosmic Law allows it to spend its force in order to annihilate the focus, balance the pressure, and release the misqualified energy back into the Universal Reservoir. There it becomes purified by the Great Flame of Life and can be used again.

"The personality, if it be obedient, can, by the Conscious Command of the 'I AM Presence,' release the Consuming Flame of Divine Love and willingly purify its own miscreation. Thus the individual avoids the necessity for compulsory balancing and purification by the Action of Cosmic Law.

"The willingness to right a wrong, correct a mistake, balance and purify any miscreation, will always open the way for an Ascended Master to give Assistance and bring permanent attainment. This willingness can come in a group, a nation, or an entire humanity just as well as it can in the individual; for the Infinite only acts and controls the Universe through Its own Individualization–through the Being who says 'I AM.' Creation could never have taken place if the Infinite had not acknowledged Its own Being through the 'Individual I AM.'

"When the individual determines to express the Perfection of Life, he must be loyal enough to his own 'I AM Presence' to stand back of his own Decree in the face of all outer experience. He can

then give the 'Great Command,' and Life yields to him the fullness of every good thing–so long as the 'Mighty I AM Presence' is acknowledged as the Owner and Doer of all that is good.

"If one refuses to accept his 'I AM Presence,' he refuses all Good and the Source that gives it. As Life is the Great God Flame from which all proceeds, he–by this attitude of thought and feeling–refuses Life. Hence disintegration is the self-chosen experience which the individual permits the outer activity of his consciousness to impose upon his own Stream of Life.

"If thoughts and feeling of anger, hate, selfishness, criticism, condemnation and doubt of the 'I AM Presence' are permitted to remain in the consciousness of any human being, the Door to Perfection closes, and his existence becomes but a process of sleeping and eating until the energy drawn by the outer consciousness spends itself, and the body is left to dissolution.

"Then the individual makes another effort to express the Fullness of Perfection through another body, and continues this effort for aeons, if necessary, until that Perfection is fully expressed. It is to avoid such continual re-embodiment into limitation, that it is so imperative for the individual to have Conscious Understanding of the Purpose of Life, because the Knowledge of how to release

Love, Wisdom, and Power enables him to fulfill that Purpose perfectly.

"I can assist you to attain this, because by the use of the Consuming Flame of Divine Love for the purifying and blessing of humanity, you can always free yourself.

"I am delighted with Bob's progress. It is a long time since I have contacted anyone with such determination and whose desire for attainment is so intense. His advancement is truly wonderful.

"I have tickets to the opera of *Parsifal* tonight," He continued, changing the subject abruptly. "Will you be My Guests?" That evening in His wonderful Presence, *Parsifal* became something far more than an opera. It was the struggle of the individual through human embodiment. The Instruction He poured out to us as the drama of the soul and the Victory of the "I AM Presence" unfolded Itself in music and allegory was one of the most marvelous experiences I have ever had. As the performance began He said:

"Observe what can be done for those who are sincere and loyal to the highest ideals through their art." The two who played the part of Parsifal and Kundry were the fortunate ones chosen for this remarkable Blessing. They had been singing a short time when Saint Germain turned on a Great Stream of Spiritual Power, and instantly one could

detect the change in their voices. They became more remarkable in quality; the timbre increased so powerfully, the singers themselves were visibly delighted and amazed. One could feel the Charge of Electronic Light penetrate everything. The audience felt the change too, thrilled with delight and enthusiasm, and called them back again and again in its appreciation.

"What will be the result," I asked at the first opportunity, "when they find their voices are not the same the next time they wish to sing?" "This added Power and Perfection will be permanent," He replied. "Former growth permits it to be done for them at the present time. If they had not made previous effort, it would not have been permissible to use them in order to give you this Instruction. The beloved sister and brother will think that Divine Providence has come to their assistance, which is literally true; only in this case, I happen to be the Director of Providence."

As scene after scene was presented that night, Saint Germain showed us the true meaning of what was being portrayed in a manner we can never forget. By the time it came to a close I was raised to a tremendous spiritual height, and the exaltation was so great that it lasted for hours. We returned to our hotel filled with unspeakable joy and gratitude.

The following two weeks passed rapidly while

our Instruction continued. Then one morning our Beloved Master announced that He was leaving us for a time, and that He had retained His suite of rooms for the use of Nada, Pearl, Rex, and Bob over the holidays. Bidding us a loving good-by, He disappeared.

Next morning, Gaylord came to me with a letter which he had found on the table in his room requesting that he come to a certain address in New York at once. He seemed concerned about it, and yet he sensed an uncertainty, something that was not altogether as it should be.

"I don't understand how the letter got on my table without going through the mail," he explained. "I have inquired, and no one seems to know who placed it there." As he continued to ponder over it, there increased within me a sense of uneasiness. I said so frankly, but his only remark was, "I must go and find out what it means, and shall leave by the next train." I wanted to accompany him, but he explained it was not necessary, so I determined to follow my own Inner Direction. As soon as he had gone, Rayborn and I discussed it, and I decided to follow him.

"I am leaving at once by airplane," I said. "He will be in great danger I feel certain, and why he has not sensed it himself, I do not know. At any rate, I shall watch events and may call you by

telephone." Fortunately I had noticed the address in Gaylord's letter and hastened at once to the flying field where a plane left immediately, reaching New York long before he arrived. I went to the address, looked the place over thoroughly, but saw no sign of anything unusual. At last I saw Gaylord get out of a taxi and enter the building. The place was a high-class apartment hotel, and as he inquired for the number, I heard the man at the desk say:

"They are on the tenth floor."

I followed and kept well out of sight. The door to the apartment opened, and a beautiful woman admitted him. I waited a long time, but he did not come out. At last I was about to go to the door, when it opened and two tall, fine looking men and the beautiful woman with Gaylord came out. They went down to the lobby, passed quickly through, and entered a waiting auto. I saw Gaylord was very pale, but poised and calm.

They drove rapidly away. I jumped into a taxi and followed, giving the driver orders to keep them in sight. Their car arrived at a pier from which a transatlantic liner was sailing. They went aboard at once. I made inquiries and found that the boat was to leave at ten o'clock for Cherbourg.

I was positive by this time that Gaylord was being forced to accompany them, so I went direct to the transportation office, and after considerable

argument and tipping, finally secured passage. I wired Rayborn of my sailing and sent a letter explaining. I provided myself with a grip and clothing, boarding the steamer at nine-thirty.

I asked the "Magic I AM Presence" to see that my stateroom was near Gaylord's. Not knowing the name under which these people traveled, I secured a passenger list and asked the "I AM Presence" to show me which staterooms they were in. My attention became focused upon four names, and the Inner Light corroborated my feeling. I looked up the location and discovered that one of them adjoined mine.

I made it my business to watch and listen, and was rewarded the second morning about four o'clock by hearing voices, and among them at intervals, Gaylord's—in an undertone just barely audible. I put my ear close to the wall and used all the Power of the "I AM" so that I might miss nothing and be able to give him assistance if necessary.

There was evidently some argument, and very determined pressure was being brought to bear upon him in several ways, for at last I heard his voice raised to a pitch that indicated he was giving an ultimatum that did not work to their advantage. At last he spoke so anyone passing outside could hear him.

"No," he was saying, "I will not intercede for

your accomplices, even if you kill me."

"We shall see," replied a man's deep voice, "when we get you in the hands of our assistants in Paris."

In those few words enough was revealed to show they were trying to force the release of the others who had just been seized in Washington. I sent a wireless to Rayborn to be silent and wait, for I had learned the necessary details.

Then in the quiet of my room, I sent a message to Saint Germain and the Brotherhood that some of Them might meet me when we landed at Cherbourg. I was not conscious of any answer, but I felt at ease and peace after the effort, and rested in that feeling of accomplishment. It was then five o'clock in the morning, and I lay down to get a few hours' rest, for I knew I would need all the alertness and strength possible.

While sleeping I dreamed, or I thought so at the time, that I met the Master of whom Gaylord had told me many wonderful things–He who had been sent by the Brotherhood to take him on his first trip to the Himalayas. He said to me distinctly:

"Be at peace, My Brother. I will meet you when the boat lands at Cherbourg. All is ready, and the control of this situation is in the hands of Those who never fail." I saw Him so clearly in the experience that I felt sure I would know Him anywhere. The whole experience was too

real and tangible to be a dream, and I knew that I must have gone to Him in my Higher Mental Body while the other body slept. I awakened later, wonderfully refreshed.

All that day I kept close watch of their staterooms but learned nothing. I got up at four the next morning, and at five was rewarded by seeing the two men come out. I saw them very plainly, so I was certain I would recognize them again anywhere. They walked the deck for a while and returned. The woman left the stateroom and took her turn at exercising in the fresh air.

I had hoped they would all go out at one time, but they were too shrewd and kept Gaylord very closely guarded. The fourth day was very stormy, and I saw no one. That night I spent listening intensely every moment, hoping for some kind of revelation. Finally at midnight they argued with Gaylord again, but he was adamant. They told him where they would take him, and I noted the address carefully. It was strange that they did not seem to suspect that someone might follow them, except that they kept strictly to themselves during the entire trip.

The fifth morning the woman came out to walk on deck a short time, and during that interval, I heard the men discussing her. She was evidently an American, and socially prominent in Paris. As

near as I could judge from their conversation, she was under their influence, and through her they were avoiding any suspicion being directed to themselves. I realized there was no opportunity of reaching Gaylord without endangering the whole matter, so I trusted to my Inner Feeling and relied upon the Brotherhood and Saint Germain to guide me further.

I thought the masked ball during our last night on board might draw them into association with the rest of the passengers, but nothing induced them to come out of their seclusion. The last night was a brilliant social affair.

The next morning I was up at four o'clock, but nobody left the stateroom until we came alongside the pier. As our steamer docked, they all came out together. I did not dare to let Gaylord see me lest we betray ourselves, but I felt help was near at hand and followed them as closely as I could. They hurried away from the pier and my heart began to sink—when a hand touched my shoulder. As I looked up, the Master of my dream stood before me.

"Come quickly," He said. "I will explain as we go." We followed the others rapidly and kept them in sight until they entered an auto. At that moment, a car drew alongside of us, and the Master motioned me to enter. We drove along rapidly, keeping the

other car clearly in sight.

"I am Gaylord's Friend of whom he told you," He continued, while we sped along. "I received your message, and also one from him shortly after." He introduced himself and requested that I never reveal His Name.

"My Son, you are a True Brother of the Great White Brotherhood, and out of this experience will come good of which you do not now dream." There were not many other cars on the road, so it was an easy matter to keep them in sight without attracting attention. They drove at a normal speed, and we soon reached the outskirts of Paris.

A few moments later, a large car came alongside of us. The Master opened our door as the two cars stopped, and a man stepped from that machine into ours, while His car turned at the next corner and disappeared. As He sat down, the Master explained:

"This is another 'Brother of the Light' who will stay on guard when Gaylord reaches his destination."

At last their car came to a large villa with beautiful grounds surrounding it, but the building was falling into ruins. As we saw them pull up in front of this place, we stopped in a secluded spot. They went into the building, and their machine drove rapidly away. The "Brother of Light" got out of our car to observe.

"Watch every move," the Master said to Him. "You know where and how to reach Me. I will take this Brother where he can have peace and rest. He needs it very much. I give you My Blessing. May the 'Magic Presence' seal you in Its Ray." Then speaking to our driver in a language I did not understand, we drove away at a speed that I did not believe was ever allowed in any city.

"These two men who have Gaylord in charge," the Master explained further, "are to wait there for five of their accomplices, two of whom are on their way from Russia. This group cabled from New York that they would arrive today, and those from Russia will be here the day after tomorrow."

Our car soon came to a beautiful villa, and as we stepped out, the most delightful fragrance of roses filled the air. We entered the house and were greeted by a beautiful young lady, the Sister of the Master who had brought me. As I thought how very young she looked, He smiled.

"My Sister is much older than she looks," He volunteered. "My Good Brother, my Sister and I have both lived far beyond the allotted three score and ten years. Our Understanding has enabled us to utilize certain Laws, direct and maintain certain currents of energy in the body, erase all signs of age, and remain eternally youthful and beautiful. I have retained this body for three hundred ten years

and my Sister for three hundred. You see, from the human standpoint, we should have passed through the change called death long ago, but that reaper has no terrors for us. It can never touch us now.

"We have had the benefit of the Atomic Accelerator in the Cave of Symbols in your Beloved America. You are surprised that we have been there? Why? We saw you and your friends in that marvelous Retreat quite recently. The joy and marvelous Love your Hearts sent forth was one of the most beautiful and encouraging experiences we have had in many years. In the near future we shall be there again to complete the raising of these bodies into that Eternally Perfect State of the Ascended Masters. Then we can come and go freely as They do, and work above all limitation.

"Of course you understand that after having been given the benefit of the wonderful Accelerator, it is imperative that the student maintain always a constant state of *Conscious Harmony*, no matter what the condition may be within or about him. Once this Assistance has been given to the outer self, it must keep that Power flowing through the body from the 'Mighty I AM Presence.' To some students this is quite a struggle, but it will be short if one has real determination to hold to the Great Light. Come! we are forgetting the joy of hospitality.

I will show you to your room, and as soon as you have refreshed yourself, we shall dine."

He showed me to an exquisite room and bath, and I could not help but notice how these Great Ones who are the Carriers of the Light always are surrounded by Beauty, Harmony, and Perfection in every part of Their special activity. I remarked about this once to Saint Germain, and He replied:

"When Life is lived as it was intended, all is Peace, Harmony, Beauty, Opulence, and Happiness. To conquer the desire to feel or express inharmony shuts the door to inharmony. Therefore it cannot act within the personal self nor its environment. It is a joy to know that humanity has the strength to do this, and thus receive the untold Blessings of Life."

We had dinner, and the Master urged me to go to my room to sleep until called. I obeyed, and was awakened at seven o'clock the next morning by sweet chimes sounding through my room. They thrilled my body as if a charge of Electronic Energy had come through the sound. I dressed quickly and joined the Master and His Sister in the drawing room. I felt so wonderful it seemed as if there were no such thing as being weary. Much had taken place during my rest. Word had been received that the tools of the sinister force were arriving to join their accomplices the following day.

"All must be in readiness to act quickly," the Master explained. "The Brothers of Light who are members of the French Secret Service have been instructed to be thoroughly prepared, and there must be no publicity about the seizure of this group."

You can imagine my joy, when two days later as I entered the drawing room, Saint Germain greeted me serenely and as graciously as usual. A moment later, as the Master and His Sister entered, a Dazzling Light flashed through the room.

"Come," said Saint Germain, "all is ready. Let us go." As we approached the rendezvous, there was not a movement or sound. Saint Germain went up to the door, extended His hand–the lock clicked, and the door opened noiselessly. He led the way as though familiar with every detail. He approached massive double doors and again extended His hand. They fairly flew open, so great was the force He had focused. Before us stood the seven tools, Gaylord, and the woman.

As we entered, the seven drew weapons, and for a fraction of a second the battle was one of mental forces. Suddenly a Circle of Blue Flame surrounded them; their hands dropped to their sides, and the Brothers of the Secret Service entered. In less than another minute the tools were in handcuffs, within closed autos, and on their way to a certain place of

restraint where no other prisoners can ever contact them. Gaylord was surprised and overjoyed at the speed and quiet with which his release and their capture had come about. They had tried to force him to use certain legal authority that was his to have their co-workers in America released.

"Beloved Brothers," he said, "I can never thank you enough for saving this body for further service. They were deeply in earnest, I can assure you, and would have destroyed me when I refused to help them. However, in their unguarded conversation I learned much that will be of value to us in the future." He embraced each of us with great tenderness, Love, and gratitude. "The woman was guarded by us," Saint Germain explained. "It is not necessary to punish this child; she has been but an innocent victim of their villainous treachery.

"My Dear Sister," He said, "we do not wish to harm you. You have been but the plaything of this sinister force. You shall have complete Release and Freedom forever from its influence and control."

Instantly a Blue Spiral Flame encircled her from head to foot. Her body swayed as if she would have fallen to the floor, and yet could not because she was held in the Embrace of Its Marvelous Power. She stood thus fully ten minutes, and then the Flame slowly faded out. Her body trembled violently a moment, and her eyes opened with a

pleading, appealing expression.

"Oh, where am I?" she asked.

"You are with friends," Saint Germain replied, as He took her hand in His.

"You are forever released from a condition far worse than death. Come, and we shall take you home."

"No! no!" she replied frantically, "I can never go home again after all I have done and all that has happened. I cannot–I cannot!"

"Yes, you can," Saint Germain answered with a Conviction and Power of the Truth that changed all resistance into instant obedience. "You will find everything changed, for your good husband understands and will welcome you home. Your daughter, an invalid who has suffered so much, shall also be restored, and your home will be a happy, wonderful place once again."

We went out, entered the car of Gaylord's Friend, and drove to a beautiful residence in the best residential section of Paris. We entered and were received by a tall slender man whom I knew instantly to be an American. He had been handsome in earlier years, but now his face showed deep lines of care and sorrow. With tears streaming down his face, he held out his arms to his wife. She rushed into them, sobbing as though her heart would break. Saint Germain waited a moment, and

when she became calm, presented us to him.

"Beloved Friends," He said, "let us go to your lovely daughter, for we have further Work to do." We entered a lovely room where a girl once beautiful lay upon the bed, so drawn and deformed that she hardly seemed human.

Saint Germain stepped to the bedside, took her left hand in His, and placed the thumb of His right hand on her forehead between the eyes. He stood in this position for about five minutes while the rest of us looked on expectantly. Suddenly the girl gave the most unearthly scream; her whole body straightened out on the bed and she lay as still as if in death.

"Have no fear," He said. "She will be conscious in a few moments. Then I will give her strength to stand and walk." Presently she opened her eyes with the sweetest smile of Love and Gratitude–and the Light of her "I AM Presence" streamed out in Blessing to Saint Germain. He extended His hand, assisting her to rise and stand on her feet while she received the loving embrace of her father and mother. Saint Germain picked the child up and carried her to a soft couch in the drawing room. He gave directions for her care and said He would be with them the following day.

We returned to the home of our wonderful Friend and a full explanation was given to Gaylord of all

that had happened since he had left Washington. His gratitude was very great, and he discussed his own feeling and reaction during the trip on the boat.

"The only feeling I had during the entire experience," he explained, "was to trust wholly in my 'Mighty I AM Presence' and the Great White Brotherhood."

"My Beloved Students and Brothers," said Saint Germain, "do you not see how unfailingly the Great Law of God acts? In this case, the sinister force tried to compel a Member of the Great White Brotherhood to serve it—and therefore darkness. You see, our Good Brother became the decoy, and his 'Light' the channel by which seven more of their destructive talons were cut off from any further activity; and a very great joy and happiness was restored to a wonderful, blessed family.

"I have news that will surprise you still further. The man to whom his lovely wife and daughter were this day restored is Arthur Livingston, the uncle of our beloved Brother Bob Singleton. This man is the most highly inspired mining engineer I know. I mean by that, he is well directed by the 'Mighty I AM Presence' in his mining work.

"I wish all three of them to return to America with you, for you will find they will become very earnest fellow students. Tomorrow I will arrange a

return passage for you, but during the next week you are to remain in Paris until your boat sails."

During that time, we were the guests of Gaylord's wonderful Friend and His Sister. The next day we accompanied Saint Germain to the Livingstons. When we entered, the Transformation was greater than the human mind believes possible.

Mr. Livingston looked ten years younger; the daughter was radiantly beautiful and happy, gaining strength and the normal use of her body with amazing ease and rapidity. The mother's wonderful Love was now fully reawakened, and her devotion to her family was very great. She wanted so much to make amends for all the suffering that had come to them through her.

"This suffering," she said to us, "that so nearly wrecked everything for myself and my family, was the result of my desire for social supremacy wherever we have lived. As I look upon the whole experience now, I can see that my desire for social influence was an intense craving that completely absorbed all my time and attention. It very nearly did irreparable damage to us all. I promise you I shall never forget this lesson. I shall try to make amends for it all by greater devotion to my family and Eternal Service to the Light."

"I wish the three of you," said Saint Germain addressing the Livingstons, "to sail with these

friends to America–where I desire you to make your permanent home. It will help you to forget the experiences that have caused so much suffering here." Their joy was unspeakable, and their gratitude to Him is everlasting.

A week later when we said good-by to Saint Germain, Gaylord's Friend and His Sister, we could not find words to express what was in our Hearts, for Love is the only thing that expresses the gratitude one feels under such circumstances.

We went aboard the steamer at four o'clock and enjoyed every moment while crossing the Atlantic. Gaylord asked me several times to relate with full details all the experiences we had passed through, and after each story, his only comment was:

"How marvelous! How wonderful!"

On our arrival in New York, Rayborn met us at the pier, and I never saw a happier man. When he was introduced to Arthur Livingston as Bob's uncle, he was delighted indeed. We went directly to Washington, D.C., where the Livingstons were to establish their new home.

Thus does the Great White Brotherhood ever continue to bless humanity in this marvelous, silent manner, and through Its Unconquerable Power and Intelligence, forever fulfill the Law of the Eternal:

"The Light of God never fails."

CHAPTER VIII

The Conquering Power

OUR return with the Livingstons to Washington, D.C., was followed by many weeks of pleasant study while receiving the Great Wisdom of our Beloved Saint Germain. We were very busy during this time, and days sped by on wings, for during our contemplation of the "Light" and the Ascended Masters, we transcended all sense of time. After all, only as human events call our attention to it are we ever aware of time. We had arrived in Washington on the second of October, and the Christmas season was now approaching.

"For some reason," Rayborn said to me one morning, "Saint Germain wants the children to come here earlier than was originally planned. Let us wire them to be here by the twenty-first of December. He said arrangements had been made to have them excused a few days earlier. He did not say why He wanted them, so I did not presume to inquire."

We sent the wire, and late in the afternoon of the twenty-first they all arrived. Bob's train came in half an hour ahead of the others. We all went to the hotel

where Nada and Pearl were given the suite of rooms Saint Germain had engaged. During the evening, with a twinkle in His eyes, Saint Germain asked the four of them to sing a certain group of songs.

"I sent for those songs and have been practicing them for three weeks!" Bob announced.

"So have we!" chorused the other three. "Why should we all have chosen the same songs?"

"That is very good," said Saint Germain, smiling knowingly; and then He revealed His surprise.

"We have been planning to attend a concert on Christmas Eve," He began. "Two of the soloists will be indisposed. I know the man in charge of the entertainment, and at the opportune moment, I shall offer to supply the artists to take their places." Bob looked at Him in positive fright.

"I have never appeared in public in my life," he said. "I should be scared to death!"

"Bob, do you not have confidence in me?" said Saint Germain as He stepped up to Bob and put His hands on his shoulders.

"Of course, I have all the confidence in the world," he answered, as his eyes filled with tears.

"Then leave it to me," Saint Germain replied.

"All fear will be gone when you awaken in the morning. Be at peace."

The next morning at ten o'clock, a telephone call came from His friend in charge of the concert, who was

in great distress because two of his soloists had been taken ill and would not be able to appear.

"Be at peace. I think I can help you out," Saint Germain replied. "I can send you a quartet, two of whom are splendid soloists." The manager knew that He understood what was needed but did not know He was an Ascended Master. However, he accepted the proffered assistance without question. He made the announcement that a quartet would appear in place of the soloists.

Christmas Eve came, and the great auditorium was packed to capacity. As the curtain rose there were exclamations of appreciation here and there in the audience as a gorgeous fairyland scene was revealed before them. Saint Germain kept in touch with the manager at intervals, and all felt a curious state of expectancy, feeling that something unusual was about to take place. The feeling grew stronger as time passed. The other artists sang, and then came a sort of hush. A second curtain lifted, revealing a marvelous setting of Bethlehem in the background with a Brilliant Star shedding its wonderful Radiation over the entire scene. Just at this point an airplane in the shape of a great white bird floated down and landed midstage. Out stepped the quartet in beautiful Arabic costumes.

They first sang "Holy Night," and the audience compelled them to repeat it. Then Nada sang a solo, "Light of Life, We Look to Thee." The enthusiasm of

the audience continued to increase as they showered applause upon her. The quartet sang the next number, "Master Jesus, We Follow Thee." The fourth number was Rex's solo, "In the Light I Rest Secure." Handkerchiefs were waved, and some rose in the audience calling for him to repeat it. The quartet sang again, and then the manager stepped to the front of the stage and announced his surprise for the closing number.

"Allow me to present our Guest Artist of the evening," he said, "singing 'I Come on the Wings of Light.' Prima Donna Nada."

We all gasped with surprise as the mother of Nada and Rex entered, wearing a gown glittering with jewels. Her own beauty far transcended that of the gown She wore. The applause and greeting from the audience was tremendous. She raised Her hand for silence; the audience responded instantly, and She began.

She sang with tremendous Power and Glory as Her Radiation was released to flood out over the audience and the city of Washington in Blessing. From there it has spread like a Mantle of Peace and comfort over America and the Earth. At the close of Her song, the audience was gripped in silence a few seconds, and then burst forth showering their deep appreciation and joy in loving gratitude upon Her. They called for Her again and again. After She had sung it for the third time, She raised Her hand for silence and spoke to them.

"Your joy and gratitude is so sweet, so sincere, that I shall sing for you something I love which expresses My Feeling for you. It is called, 'I Love You.' " In this, Her Voice took on a Beauty and Power that acted like magic. She sang as only an Ascended Master can sing, and it was no wonder the audience in its enthusiasm and appreciation tried to call Her back again and again.

However, at a signal from Saint Germain, the final curtain was lowered. We rushed to the wings and such a greeting and reunion followed that no words can describe. Rayborn was almost overcome by his joy.

"Come quickly," said Saint Germain, as He threw a Velvet Indigo Cloak about Nada's mother; and we stepped into the auto, driving away rapidly. It was not a moment too soon, for the audience was rushing to the stage entrance. We arrived at the hotel and went directly to the master suite. In a few moments reporters besieged the place, wanting to know who the singer was. Saint Germain stepped to the door and greeted them.

"Prima Donna Nada," he said, "is the wife of a western mining man, Daniel Rayborn, and the two soloists of the quartet are Her son and daughter. That is all," and He dismissed them.

"After such loyal, splendid service from each of you," He explained, closing the door behind Him, "I thought you were all entitled to this happy

surprise." He congratulated the quartet, and smiling quizzically at Bob, remarked, "You see, your trust did not go unrewarded."

"You know," replied Bob, "I never thought of stage fright."

We all gathered around the Mother of Nada and Rex and asked Her to tell us something of Her Work and where She had been.

"I will tell you briefly what I can, for I must leave you at two o'clock; but I will come tomorrow night for a visit from eight to twelve.

"The Sphere in which I dwell might be called a Stratum, for there are several Strata which enfold the Earth, holding it in their Embrace. The place where I am receiving certain training is just as real and tangible as your physical Earth–but I serve in the Strata below the one in which I am studying.

"When I thought I was passing through the change called death, I lost all feeling of Life for a few moments, and then awakened to find myself surrounded by twelve Ascended Masters, whose Light was almost blinding in Its Dazzling Radiance. Among Them was our Beloved Saint Germain–who had instructed me for several years previously.

"As soon as I became clearly conscious of the Ascended Masters, I was shown how I could be assisted and how I could assist myself in raising the atomic structure of my physical body–then and there–into the

Pure Electronic Body, the Seamless Garment which remains forever Pure and Perfect.

"As the process of Raising gradually took place, I became more and more aware of Blazing Light filling my entire body, and I felt the most marvelous Radiant Energy surge in and through me sweeping away every vestige of resistance and imperfection, and quickening my consciousness.

"I became more and more aware of my 'Mighty I AM Presence,' until finally It stood before me—Visible, Tangible and very Real. Steadily and powerfully, I felt my physical body drawn into and enveloped by my Glorious God Self, and when I stepped out of the cemetery, I could scarcely realize how Transcendent I had become. The old human, limited activities of my consciousness were raised into that alert sense of Freedom and unlimited use of Wisdom and Power. I was shown very clearly, now I was aware of this Greater Activity, that I must put It to use. Then came a still fuller sense of the Freedom, Beauty, Joy, and Service that I must render to those who still remain unascended.

"My first desire was that I might know more of these Ascended Masters who had so lovingly ministered to me. Instantly, one after another stood before me, and without a word being spoken, conveyed Their Names and Thoughts to me. With this marvelous 'Thought Language' there came certain attendant pictures in

color and the true interpretation of them.

"This *Communion by Thought* was just as clear as human beings now use by the spoken word–in fact much clearer, for there can be no mistake when thought contacts thought. Misunderstandings come about through the use of words–for after all, they are but receptacles to convey thought and feeling. When thoughts and feelings are not limited by words, many imperfections and much resistance disappear entirely.

"At one time during a former Golden Age, mankind still had the Full Use of this Inner Communion by thought; but as the personalities looked away from the Light, the substance of their bodies became denser–until it reached the condition of the physical atom of which the human body is composed today.

"This substance vibrates at too slow a rate for thought to pass through; hence words or sounds which could register in this lower rate had to be used as a means of communication. Even today the individual could again draw forth this same Perfect Way of Communication by releasing a Ray of Golden White Light from within his own 'Magic I AM Presence' by conscious command–visualizing It passing through the brain structure from the Electronic Body. This Wave of Greater Light would increase the vibratory rate of the atoms of the physical body to the point where thought

would register and be comprehended without the spoken word.

"Thought waves are always being catapulted, as it were, upon the flesh of the body, both from within the individual's own consciousness and from the thoughts of others; but how many people comprehend that fact enough to read the thought whose impact is felt? Mental telepathy is a slight part of this activity, but how many people can interpret the thoughts received and know from whence they come?

"It was weeks before I ceased to marvel at this wonderful threefold means of Inner Communication through the sight, the thought and the feeling. The Glorious Freedom of the Ascended Master is so marvelous that We long for every human being to understand and enjoy that same Great Happiness. This is the Final Crowning Glory of all human activity, the Ideal and Reward for which all human experience is sought and endured. If mankind could but understand and look toward this True Ideal of Life, the self-created chains and limitations that have bound the race for hundreds of thousands of years would drop away in less than a century.

"It is the Determination of the Ascended Masters that 'The Light,' which is the Ancient Wisdom, shall flood the Earth and its inhabitants *now*—and whatever cannot stand the Radiance of that Light must disappear as mist before the morning Sun. The

Law of Life of the whole Universe is the 'Law of Light'; and before Its Blazing Glory and Invincible Power, all discord and chaos are consumed.

"My first Experiences that seemed to Me so marvelous proved to be but fragmentary compared with what has been revealed since My Ascension into this far greater and more wonderful Activity of Life.

"Please keep this fact clearly in mind: that in the Ascended State, each Revelation of more expanded Activity always contains the attendant Wisdom and Power for its right use. This is a never-ending Joy and Wonder to the Sons and Daughters of The Light.

"After I had become somewhat adjusted to the new condition, Saint Germain took me to the Place for which I was best fitted–where I assimilated the new experiences for a short time. After this I was given the benefit of Illustrated Instruction. Then I began to enter into my Real Activity, my True Service.

"One of the ever-increasing Joys of the Ascended State is, that as We study any particular condition, it is always accompanied by illustrations of the exact Activity We are to use, and there can never be any mistake, for the end is seen in the beginning. However, this remarkable means of Illustrated Instruction does not occur below a certain state of consciousness–which can only be known as

it is attained. IT IS A DEFINITE POSITIVE FEELING AND KNOWING.

"You beloved ones do not realize how fortunate you are in having the Blessing of the wonderful Atomic Accelerator—one marvelous result of the Love and Work of our Blessed Saint Germain. Great has been His Love, His Service, and the Gift of Himself to humanity.

"The beauty and rapid progress of each of you is due to your sincere and intense gratitude. It is the certain pathway to great heights of attainment and the easiest method by which to achieve every good thing. Gratitude to Life for all Life pours out to you is the wide-open Door to every Blessing in the Universe.

"It is because humanity has forgotten to be grateful to Life for all the Blessings upon this Earth that it has shut the door to Peace and become bound by the chains of its own selfishness. The mass of mankind seeks the possession and holding of things, which is an inversion of the Law of Life. Life forever says to the individual, 'Expand, and ever let Me pour Greater and Greater Perfection through you forever!'

"*The Law of Life is to GIVE, for only by giving of one's Self can one expand*. To give the intense Love of your own 'Mighty I AM Presence' unto all mankind, to all Life, is the Mightiest Activity we can use to draw the human into the Divine. In this

Divine Love is contained every good thing.

"There have been thousands of platitudes written about Divine Love, but only when the individual knows Divine Love as something more than an abstract principle does he realize that he can generate It at will and direct It consciously to accomplish whatever he decrees. The Ascended Master knows Divine Love as a 'Presence,' an Intelligence, a Principle, a Light, a Power, an Activity, and a Substance. Therein lies the Secret to Their Supreme Authority and Power, for there is nothing to obstruct the approach of Divine Love anywhere in the Universe. When the student understands how to draw forth the Flame of Divine Love from within his own 'Mighty I AM Presence' at his own Decree, he knows it is but a very short time until his constant use of It raises him into the Ascension. Only enough Love can accomplish that for anyone, but It must be first projected forth before It can release the Blessings within Its Heart unto the sender.

"Divine Love, being the Eternal, is the Unquenchable, Invincible, Unconquerable 'Presence of the I AM,' and therefore Master of all, now and forever!

"All the joys and pleasures of the outer world are as but dust compared to the limitless, ever-increasing Wonders of Creation in Cosmic Space which the Ascended Master may observe and enjoy consciously

and at will. One of the tremendous Blessings of the Ascended State is the entire absence of any criticism or condemnation of human frailties or mistakes. If the student of Light will train himself to forget everything that is useless or that is in any way undesirable, he will not only make rapid progress, but it is imperative if he is to free himself from human limitation. For the student to drag after him unpleasant memories is but one of the many ways by which he creates over and over again the same experiences of misery from which he is really seeking to be Free.

"The Light does not receive inharmony into Itself. As the student enters the Light, he becomes all Light, hence all Perfection. *To have inharmony drop away from the body or affairs, the personality must let go of all thought, feeling, and words about imperfection*. An Activity that will always bring *complete Freedom* is for the student to pour out *Unconditional and Eternal Forgiveness* to everybody and everything. This does what nothing else can do to free everyone, as well as the person who sends it out. Forgiveness fills all with Light's Perfection.

"When Forgiveness is sincere, the individual will find his world reordered as if by magic and filled with every good thing; but remember that unless a discord is forgotten, it is not forgiven, because you cannot loose it or release yourself from it until it is out of your consciousness. So long as you remember

an injustice or a disturbed feeling, you have not forgiven either the person or the condition.

"When the forgiveness is complete, the feeling nature or emotional body is serene, kind, happy, comfortable, and like a Mountain of Light. It is so powerful that one abides within it as impregnable as in a fortress. Even though he stand amidst the wreck of worlds, yet will he remain untouched by anything but Perfection in the Light.

"Remember, what your consciousness is held firmly upon, you bring into existence in yourself. It is impossible for your Life to contain anything that is not your present or past accumulation of consciousness. Whatever you are conscious of in thought and feeling stamps itself upon the Universal substance in and around you and brings forth after its kind–always. This is a Mighty Cosmic Law from which there is no variation or escape.

"Truly, it is the very greatest joy to be with those you love, so tonight My Joy is great indeed. The time is near at hand when you will understand that all human relationship is but a creation of the physical world. In the Ascended State, all are truly Brothers and Sisters, Sons and Daughters of the Most High Living God. In that phase of Life, the True Meaning of Friendship is understood and lived, and when rightly understood, it is the most beautiful relationship in the Universe.

"Now I must leave you until tomorrow night at

eight, for I have work to do. Hold yourselves steady within the Mighty Glow of the Cosmic Light, the 'Mighty I AM Presence' of the Universe, that your pathway may be illumined by Its Wondrous Radiance." As She spoke the last few Words, Her Body gradually grew dim until it completely disappeared.

"Beloved Students," said Saint Germain, smiling lovingly, "tonight I have shown you the higher ideal of entertainment. It is not only very enjoyable, but tremendously uplifting because of the 'Magic Presence' whose Limitless Power it releases. You see, when the proper channel is opened, there is no limit to the Blessings an audience may receive wherever the condition is made possible.

"You have realized that with sufficient understanding it is possible to cause your body to respond instantly to the higher and unlimited use of the 'I AM Presence' within you. Your body is the instrument upon and through which you can let the 'Mighty I AM Presence' play Its Great Song of Life–knowing no limitation nor defeat in anything. Or you can let the thoughts and feelings of limitation and discord sent out by other personalities play upon it and reap accordingly. Your body is your radio; your thought, feeling and spoken word are the ways by which you can tune into or out of any condition or activity you do or do not want. The only real difference is that your body is capable of being tuned to a very much greater

height, inconceivably greater than any radio now in existence.

"You are the director of your own radio through your consciousness. You have the programs of the Universe from which to choose. Your world today reveals what you have chosen in the past. If you do not like that program, choose a new and better one from your 'I AM Presence.' "

Our Gratitude and Love were greater than ever for Saint Germain, and we realized as never before that in the Presence and Wisdom of the Ascended Masters, there truly is Heaven on Earth. We bade each other good-night and went to our rooms. We breakfasted the next morning at eleven and spent the afternoon showing Nada, Pearl, Rex, and Bob many places of interest in Washington. In the Raised Consciousness we were in during this time, the appreciation and intensity of our enjoyment were keener than usual, and it seemed we saw beauty everywhere.

We returned to the hotel at four o'clock, as Beloved Saint Germain had invited us to dine with Him later in the suite of rooms occupied by Nada and Pearl, saying the time had arrived for the Instruction of the Livingstons to begin. At six o'clock we were ready, the Livingstons had come, and all were awaiting Saint Germain's arrival when a most delicate bell sounded through the rooms.

"Saint Germain is approaching," said Pearl immediately.

"Who is He?" asked Zara Livingston.

"The Wonderful Man who healed you," Pearl replied, "and saved your mother from such a terrible fate. If my feeling is correct, you will soon see Manifestations of His Transcendent Wisdom and Power besides what you have already experienced." At this moment He was announced in the same way as any other guest arriving at the hotel. He greeted us all graciously and then explained:

"It is my wish that these good friends, the Livingstons, become accustomed to the Higher Use of the Law of Light. We shall now begin by realizing first that everywhere about us is a Universal Substance which We call 'Cosmic Light,' and which the Bible refers to as Spirit. This is the One Pure, Primal Essence out of which comes all Creation. It is the Pure Life Substance of the First Cause–God. This is Infinite, and we may draw upon It at any time for anything we can ever require. This Pure Electronic Light is the Great Limitless Storehouse of the Universe. In It is all Perfection, and out of It comes all that is.

"Now if you will gather about the table, we shall dine–so you may see, feel, taste and know this Wondrous Omnipresent Substance so often talked about, but so little understood."

Saint Germain went to the head of the table, seating Zara, Bob, Nada, and myself on His left, Mrs. Livingston, Arthur, Pearl and Rex on His right, and asked us to bow our heads in silence before the "Mighty Presence of God in Action."

Each felt the powerful Current of Divine Energy–"Liquid Light"–surge through his mind and body and fill him with a feeling of Infinite Love and Peace. As we raised our heads, a beautiful snow-white, rose-patterned cloth covered the table, made of a fabric none of us had ever seen. It most nearly resembled silk with frost upon it, both in quality and appearance.

Arthur Livingston turned white with surprise, as the moment before he had seen only the polished top of a walnut table. Now this exquisitely beautiful cloth covered it, with napkins to match at each place. There followed the rapid appearance of an entire service for the meal. The dishes were milk-white and made of substance that was like satin in appearance, but very hard and unbreakable. Upon each individual piece were strange mystic designs embossed in gold. None of us understood them, but they were extremely beautiful. The knives, forks and spoons were made of a metal that looked like frosted silver, with wonderfully carved jade handles. Goblets of jade with beautifully carved stems appeared at the right hand of each guest, filled with a sparkling crystalline Liquid that was

the very Essence of Life– "Condensed Light."

"Do not be alarmed," Saint Germain said, "when you drink this Liquid. It quickens the vibratory action of your atomic structure tremendously, and if you should feel faint, it will only last a few moments." Then raising His own goblet, He proposed a toast.

"To the Peace and Illumination of all present, and to all mankind!"

We raised our glasses and drained them. It was with difficulty that we refrained from a gasp of astonishment at the effect of this Liquid as the Electronic Essence charged through our bodies. We felt as if we were being raised from our chairs.

A seven course dinner followed, the empty dishes of each course disappearing as soon as it was finished. The food was most delicious and extremely vitalizing to the body. Our dessert was similar to what we had for dinner at the Cave of Symbols.

"You see," said Saint Germain, as we finished the meal, "it is not difficult to produce what you desire direct from the Pure Universal Substance *so long as no element of selfishness enters in*. We have dined here tonight on delicious food. It has all come from a supply that is ever at hand. Yet it is but a fragment of what can be produced."

He extended His hand and a disc of gold formed in it which He passed around for all to examine. He held out His other hand and a beautiful blue-white

diamond formed within it, a truly Perfect Jewel, so dazzling was its refractive power. He held them both in His closed right hand a few moments, and when He opened it, a beautiful necklace lay within, exquisite in design, with the gorgeous stone as a pendant. He handed it to Zara and said:

"Will you accept This as your Talisman of Light? The stone is not an ordinary one. It is really 'Condensed Light'; hence, it is a Real Talisman of 'The Light.' It will bless you greatly. Now let us go further. The service which has been used tonight, the Ascended Host present to Nada and Bob."

As He spoke these words, the service began to reappear on the table until all was complete. Suddenly a goblet fell to the floor, and when it was replaced was found to be uninjured in any way.

"This service," He went on to explain, "is unbreakable, as you see. Care for it yourselves always, and may it ever bring you great happiness.

"Now, about this good brother," He continued, indicating Mr. Livingston. "He is a very efficient mining engineer. In about six months he will be needed in Bob's place at the mine. May I suggest that We take the matter up tomorrow and make the necessary arrangements in detail. It will do his loved ones a world of good to spend two years in the West.

"I suggest they go out to the ranch about the

middle of April. Zara will find her Twin Ray awaiting her there. When she sees him, she will recognize him instantly. The drawing together of these sets of Twin Rays is one of the most remarkable things it has ever been my privilege to accomplish.

"My Dear Livingston, as you take up the study of these Mighty Laws, you will understand everything clearly. What today seems strange and perhaps unreal will become more real than anything else in your Life because there is no doubt within you. That condition makes it possible to give you definite Instruction, with your permission."

"Great Master," said Zara, "I cannot begin to express my gratitude to You for my Healing and for the opportunity to have this Instruction. The wonderful manifestation You have shown us tonight has awakened a dim memory within me, as though I had somewhere, sometime known about these Laws."

"My Dear Child," He replied, "you have known a great deal about them, and the complete memory of what you have known shall return to you." Then suddenly we became aware of other persons in the room, and a soft, sweet laugh reached our ears. The mother of Nada and Rex stepped in from the adjoining room in marvelously beautiful Garments– Her very Presence radiating Peace and Blessings to all. She held out Her hand to Rayborn. He bowed low and kissed it.

She greeted all graciously, and the Livingstons were presented, their admiration being frank and sincere. Saint Germain explained Her Ascension to them in detail, the training She had been receiving since Her Ascension, and the Service She was constantly giving to humanity. It was the most divinely happy Christmas night I had ever experienced, for it was filled with marvelous Radiance and deep Instruction.

At twelve o'clock, the Mother Nada bade us good-by until we should all meet again in the Cave of Symbols in July. She and Saint Germain had Work to do together, and as They disappeared, His last Words were a request to Livingston that he meet with us at two o'clock the next day.

As soon as They had gone, the Livingstons plied us with questions concerning Beloved Saint Germain and His wonderful Work. They were the happiest people I have ever seen when they found He was ready to give them Instruction. They were so intensely interested that it was four o'clock in the morning before we knew it. It was truly the happiest Christmas of our lives.

The next day at one forty-five Saint Germain appeared and greeted us as usual. "I see you have all entered into the plan beautifully," He remarked, "and do you realize how all experiences are truly in Divine Order? Each person is a link in the Great Cosmic Chain of Perfection. I often marvel at the

Perfection with which the 'Mighty I AM Presence' works.

"In the recent activity, our good brother Gaylord's experience led us to the Livingstons in order to give them protection, and through that We have found another set of Twin Rays–Zara and the one she is to meet. This will bring the Livingstons and another friend into the Everlasting Light. Is My Plan for this good brother Livingston agreeable to you all?"

"I am more than delighted with the arrangement, as it is a blessing to all concerned," Rayborn replied.

"Well then, with your cooperation, we shall enter into very intensive Training during the next three months. I am requested to do this by Those who are greater than I. We shall leave Washington on the seventh of April for the ranch. Bob, Nada, Pearl and Rex are to remain here until the tenth of January. They will return to school by the twelfth."

These glorious days passed all too quickly. Bob accompanied the others as far as the university, and from there went on alone to the mine. The rest of us settled down to intensive Training, and one of our greatest joys was to see the enthusiasm with which the Livingstons entered into Beloved Saint Germain's Instruction. To all of us, He truly is "The Light of God that never fails."

CHAPTER IX

The Ascension of Daniel Rayborn

OUR intensive training under Saint Germain continued for three months. During that time our happiness was very great; for the Joy and Blessing of actually seeing, knowing, and conversing with the "Mighty I AM Presence" was unspeakable–and can only be known through having the actual experience.

We received weekly reports from the children, whose progress at the university was splendid. Bob's letters told us that all was moving in good order at the mine and that the men were actually singing at their work. *Saint Germain said at this time that justice and loving service could and would bring about that same activity everywhere in the business world when those same principles were applied.*

Saint Germain promised to meet us at the ranch later, and then went to the Far East. We left Washington on the seventh of April. We reached Denver on the eleventh and drove to the ranch early the next morning when everything seemed to breathe the joy, peace, and freedom of the wonderful mountains.

As time for graduation drew near, we received

a wonderful letter from Nada and Rex describing an experience which they surmised was given them by Saint Germain, and that brought them all great happiness. They sat up late one evening discussing a graduation suit for Rex and gowns for Nada and Pearl. The next morning Rex found a beautiful new suit of clothes lying upon the table in his room, and attached was a slip of paper with this message: "Please accept this from those who love you." It was made of a most wonderful blue material and fitted him perfectly.

In the rooms of Nada and Pearl were complete ensembles for each with similar slips attached. Their gowns were of soft white material embroidered in exquisite design. Rex insisted that his father, Bob, Gaylord, and I attend their graduation exercises and was so determined there seemed no way of refusing, so we returned for that event. This university had a benefactor whom the public did not know, but we began to suspect Him to be Saint Germain. Later He told us that its president was a member of the Great White Brotherhood.

Rayborn had invited the president and his sister to have dinner with him before his return west. The affair was one not soon forgotten, for when they arrived, Saint Germain was with them, to everyone's surprise and joy. He spoke to us at length concerning the new era of university training.

"In all fields of education," He said, "a certain demand is asserting itself throughout the race to compel recognition of the 'Mighty I AM Presence.' This is the *Only Foundation* upon which Permanent Happiness, Freedom and Perfection can ever be built.

"It is only through the 'I AM' that humanity can find release from its selfishness and its greed. Then all will come into the full use of the eternal abundance that is waiting to serve mankind. Each individual is an open doorway to all Perfection, but that Perfection can only express itself on Earth when the outer self keeps its channel clear and harmonious by adoring and accepting the 'Mighty I AM Presence.' By accepting and keeping the attention on the 'I AM Presence,' the individual can at any moment draw all good into the outer use of the personality. Thus he can call forth into his Being and world all the good he desires. *But the Greatest Power that this Truth places at the command of the personal self is the use of Divine Love as a 'Presence' which goes before it and adjusts all outer activities, solves all human problems, and reveals the Perfection that must come forth upon Earth.*

"Divine Love, being the Heart of Infinity and of the individual, is an ever-flowing, *Intelligent* Flame that releases Energy, Wisdom, Power, and Substance without limit. It will release boundless

Blessings to all who will harmonize their own personalities enough to let It come through.

"*Divine Love is the Reservoir of Life and the Treasure-chest of the Universe.* It automatically draws to the personal self every good thing. When the outer activity of the mind acknowledges the 'I AM Presence' and keeps attuned to Divine Love, then all achievement is accomplished without struggle or strain, and all creative activity becomes the continual expansion and enjoyment of Perfection.

"The more one studies Life and contemplates Perfection, the less he struggles with people and things, and the more he adores the 'God Presence'; for one who worships Perfection must of necessity become *That* upon which his attention rests. When mankind fills the outer activity of the mind with thoughts and feelings of Perfection, the bodies and affairs of humanity will bring into the outer that order and Perfection also. The more we understand Life and Perfection, the simpler all becomes, until we have to do only one thing and do it all the time: fill our thought and feeling with Divine Love always.

"Life never struggles, for that which struggles is the consciousness which attempts to limit Life, and is but the interference with the Perfection which is forever trying to come through. If the personal or outer self will just *let* Life flow and keep at peace,

the manifested result will be Perfection–the Divine Way of Life fulfilled. Many who start earnestly to attain this Understanding become discouraged and discontinue their search because they are looking for things instead of enjoying God–by adoring the Beauty and Power of the Great Light for Itself only. If we seek the Light because we love to adore the Light, results are absolutely certain to follow; and we are then putting God first, which must be if the personal self is to be kept in its right relation to Life."

Late the following afternoon we bade our friends good-by, exchanged good wishes, and boarded the train for the West. The attendants whom Saint Germain had provided for Nada, Pearl, and Rex in their apartment while at the university disappeared as silently as they had come. Their entire association was an example of what it means *"To know! to dare! to do! to serve! and to be silent!"*

Our train reached Denver at four o'clock of the third day after graduation; and early the next morning, Nada, Pearl, Zara, Bob, Rex, and I left on horseback for the Cave of Symbols. We reached the summit of the mountain about eleven o'clock, and Zara was happy in the extreme. She excused herself, saying she wanted to be alone for awhile. In the meantime, the rest of us prepared lunch. Later she returned, and the Light in her eyes was brilliant.

"I have had a strange experience," she remarked. "I have seen the God of this mountain. He is a wonderful Being. Such Majesty, Wisdom and Power I have never imagined before in anyone! He is at least eight feet tall and is Guard of this Sacred Mountain, as He calls it. He is known as the God Tabor. He told me He would have much to do in helping us all in the near future.

"Everything around here seems so familiar–as if I had been here before. He said I had been here in very ancient times. I do not fully understand what He means, but I feel as though I were just about to remember something important in the past. He explained that one day I would enter the Heart of this mountain and receive of its Eternal Life and Wisdom, but not until after two years had passed. He asked me to be at peace, that all might come about in Divine Order, and said that I had entered the Great Stream of Life which would carry me on to Eternal Perfection."

"My Dear Sister, you are indeed blest," said Nada, going up and embracing her fondly. "Just trust the 'Mighty I AM Presence' within you, and all will be revealed at the right time. Now come and have lunch."

"I shall be glad to eat with you, but I feel a strength within which I have never experienced before!" she replied. "I am so grateful that you

brought me here today—you are so wonderful to me. I deeply admire the scenic beauty, but this Inner Glory surpasses everything in my Life. God bless you, my Beloved Friends."

Then all understood why we had been impelled to come to Table Mountain. Lunch finished, Rex suggested we go down the opposite side of the mountain that Zara might see the amazing color effects of the more rugged scenery and pass the entrance to the Cave of Symbols. As we came to the entrance of the Cave, Rex stopped his horse.

"Come," he said, "let's go in."

"No, no!" cautioned Zara, her face turning white. "We may not enter now. Please, let us return home." We realized she was being directed from within and did not press things further, but turned our horses homeward. When we reached the ranch, Rayborn told us he had received a message from Beloved Saint Germain for us all to meet Him in the Tower Room at eight o'clock that same evening.

The hour arrived, and as we approached the door, it opened wide, revealing Saint Germain. He welcomed us with His usual Grace, and we took our places in the chairs forming a circle. The Livingstons were surprised and admired the beauty of the room with great enthusiasm. When all had stilled themselves, Saint Germain said: "I have called this meeting especially for Zara, and

secondly, for Daniel Rayborn." He gave a short but beautiful Tribute of Praise and Gratitude to the "I AM Presence"; and as He spoke, the Light blazed forth with great intensity and illumined the room brilliantly.

He stepped in front of Zara and touched her forehead. Immediately a circle of gold, rose, and blue Light surrounded us, and we were enabled to see into the next Octave of Light beyond the one in which humanity generally functions. The Light began to focus around Zara, and her Inner sight became opened, the experiences of many lives passing before her. In one of these she had been under the Instruction of Saint Germain, and at that time she had reached great enlightenment. In another life she had been a priestess in the cave of a great mountain, and it was then she had first met the God Tabor.

While this Revelation of past lives was shown, the former memory of these activities was established, and Saint Germain explained it would be of very great benefit a few years later. As He finished the Work with her, the beautiful Circle of Light slowly disappeared.

"My Brother," He said, addressing Rayborn, "it is My Desire that you be at the Cave of Symbols on the twentieth of July, that you may prepare for the Final Work We desire to do. This Brother,"

He continued, indicating me, "will accompany you. Nada, Pearl, Rex, and Bob will be there at eight o'clock on the morning of the twenty-sixth. Gaylord is to leave tomorrow morning on work for the Great White Brotherhood in South America.

"This Preparatory Work is invaluable to all, for as yet you have not the slightest conception of what it is doing for you. The Radiance which will be given in the Cave of Symbols will bring the earthly pilgrimage to a close for Brother Rayborn, but the exact day and hour may not be revealed to anyone who is unascended, because his own 'Mighty I AM Presence' alone knows the chosen instant in which the Great Work of centuries will be consummated.

"I trust all the outer affairs of business are in readiness for this Supreme Event. If not fully completed, they can be finished within the next ten days.

"Zara, your meeting with the God Tabor today is very significant; it means a great deal to you. Be patient, that the natural unfoldment of the Light within you may be as rapid as possible. That which you have seen of the past tonight is but a small part of your former experiences, but it is all that is essential for you at this time.

"Rex, to you, Bob, and this Brother" (meaning me), "I wish to say there is another great ore-body not half a mile from the Master Discovery, as you

call it–which I will reveal during your next trip to the mine three days hence. As the claims are all patented and the deeds in your hands, they will be safe until your return from the East in two years.

"By the time the rest return from the Himalayas, our beloved Livingstons will be ready to meet you again and take certain steps that will lead to their Complete Freedom. I wish each one to follow the Directions you have been given, *and remember always, that nothing in Life is as important as loving, adoring, and reaching up to the 'Mighty I AM Presence' within you and in the Universe*. Never lose the joy and enthusiasm of the Quest for one moment!

"At intervals I will be present while you are at the mine, but not visibly. When you return, Bob will come with you, prepared to go to the Far East. I may not appear again to the Livingstons in visible, tangible form before our journey, but Zara, I wish to remind you that Dave Southerland, whom you shall meet at the mine, is your Twin Ray. You will remember and recognize his face and radiation, for his features are similar to those of the embodiment in which you were last together. Beloved Students, My Blessings enfold each of you in the Divine Embrace of the 'Mighty I AM Presence.' " As He spoke these last Words, His Body disappeared almost instantly.

We made the trip to the mine with the Livingstons

on the morning of July seventh; and when we arrived, Bob told us Saint Germain had left a note saying we were to arrive at eight o'clock that evening. When the Livingstons were shown to the bungalow, their joy was very great, and justly so; for Rayborn had spared no expense to provide every comfort. It was large and cheerful with every modern convenience provided, furnished handsomely, even with a beautiful baby grand piano. I have never seen greater or more sincere appreciation; and when we met at dinner, Zara threw her arms around Rayborn and kissed him–expressing her gratitude again and again for the wonderful blessings he in his great Love had bestowed upon them.

After dinner that evening Bob excused himself, and half an hour later returned with Dave Southerland. He was presented to all but Zara, who had momentarily left the room. She returned, and suddenly came face to face with Dave as Bob was about to present him. We were all watching intently without appearing to do so. As their eyes met, neither moved for a moment. "I have seen you often in my dreams," was Dave's comment, "and yet it always seemed so much more real than a dream."

"Yes," said Zara, "it is true, just as our Beloved Saint Germain told me. I do remember you. I too have seen you often while my body slept. When I was very ill and there seemed no hope of recovery,

you came to me, and each time I felt much stronger and more encouraged. Then Saint Germain came and I was fully restored in a few hours. I will tell you all about that later."

Every eye in the room was wet with tears as the reunion of these Twin Rays occurred. We were grateful to Beloved Saint Germain for the Perfection He was constantly bringing about for each of us and the world. Truly there is no deeper tie of Love in the Universe than that between an Ascended Master and His students.

"My congratulations and blessings are ever with you both great souls of Light," said Livingston as he put one arm around Dave and the other around Zara.

"My cup of happiness is complete," said Mrs. Livingston as she kissed them both. Nada, Pearl, Bob, and Rex each congratulated them, for they above all others could truly understand and realize what this Union of Twin Rays meant.

Presently a Voice from the ethers began singing in clear, wonderful tones, "Love is the Fulfilling of the Law," with a beautiful accompaniment on stringed instruments. Dave was almost motionless with surprise, for it was the first time he had ever witnessed any Manifestation of the Ascended Host. The Music was Their Acknowledgment and Blessing upon the Eternal Union of the three sets of

Twin Rays, and Dave was like a flower just ready to open its petals to the Full Radiance of the Sun. We explained as much as we were permitted concerning Saint Germain and His Marvelous Work.

"It is all so amazing," said Dave, "but I feel something within that makes me know it is real and true. I want to know more about it and to meet Him face to face!"

The next day Livingston was made superintendent of the mine and shown the Master Discovery. He never tired of talking about it and was very happy about the entire arrangement. When we finished inspecting the workings, Bob turned everything over to his care. As each shift came off duty, Rayborn called the men together and introduced them to Livingston, explaining that he and Dave Southerland were to be in charge of everything during the next two years. He made them realize that he deeply appreciated their loyalty and service–their service to him being rendered through his assistants–and that those he left in charge were at all times to be considerate of their welfare. The quartet entertained the men again royally, to everyone's deep enjoyment.

That night, just as I was retiring, a slip of paper floated to the floor at my feet. I picked it up, and on it was a message from Saint Germain for Bob, Rex and myself. He asked that we come to a certain

place on the Rayborn mining property at seven o'clock the next morning. We obeyed, and on our arrival the Electronic Current charged me from head to foot. All heard distinctly spoken audibly the words: "All calmly sit down in triangular form. Focus the attention of your minds upon the 'Mighty I AM Presence' within, and hold it there firmly."

In a few moments I stepped out of my body and, as I did so, passed through the Cosmic Veil. There stood Saint Germain in Glorious, Dazzling Radiance. He greeted me in His Loving, Gracious Way.

"Come!" He said, "We shall now enter the Earth, where I shall not only reveal the great deposit of Gold of which I told you, but the way the God of Nature and the God of Gold work together in Perfect Harmony to produce the precious metal that mankind intuitively loves to use for service and adornment.

"When I speak of the God of Gold and the God of Nature, I mean the Pure and Perfect Intelligent Beings that handle the forces in these realms and direct them consciously. The God of Nature draws and directs the magnetic currents of the Earth, and through intelligent manipulation, produces certain definite results in and upon our planet. This Activity is real, exact, and is performed according to law as accurately as a chemist works in his laboratory.

"The God of Gold draws, manipulates, and

directs the Electronic Currents from our Physical Sun. These Currents are drawn within the Earth's crust to a certain depth, as ribbons are sometimes drawn through lace. This tremendously concentrated electronic energy, by being combined with the magnetic force from within the crust of the Earth, reacts upon it in such a way as to slow down the rate of vibration. The radiation from Gold is absorbed by both plants and human beings and utilized for many purposes.

"As I mentioned to you once before during your experiences in *Unveiled Mysteries,* the emanation from Gold has a powerful purifying and energizing action within the human body and in Nature. In all Golden Ages, the metallic form of Gold was in common use by the mass of mankind, and during these periods its spiritual development reached a very high point of attainment.

"One reason for the chaos of the present time is because the Gold in the commercial world is being hoarded instead of being allowed to flow freely among mankind and carry its balancing, purifying, energizing activity into the commercial life of the race.

"The hoarding of gold in great quantities means an accumulation of Inner Force which, if not released within a certain time, will release itself by the overcharge of its own tremendous Inner Power."

Saint Germain drew me closer into His Radiance, and the Inner Activity of Earth was revealed. Before us stood two transcendentally Radiant Beings, one drawing and directing the magnetic currents of the Earth, and the other those of the Gold which had been formed within the Earth's crust.

The one whom He called the God of Nature was a Being of glorious beauty and power. His Body was fully six feet in height and clothed in garments of green, gold, and pink. They looked as if they were made of a Self-luminous Substance. An Aura of intense blue surrounded His head, and Rays of Light poured forth from the Heart, head, and hands. The Ray from the right hand was green, and that from his left, pink–those from the head and Heart being white and gold respectively.

The Being whom Saint Germain called the God of Gold was enveloped by such a Dazzling Golden Light that it took several seconds before I could look at It steadily enough to see further detail. His Garments too were of Light Substance, but the Rays that extended from the head and hands were of fiery gold, the Rays from the Heart blazing white, and the Aura–which extended fully a foot around the head-looked as if made of single Rays of white lightning.

"The existence of Gold," Saint Germain continued, "in white quartz, is its purest formation within the

Earth at the present time–the white quartz being the residue, so to speak, from the magnetic currents, and the metallic gold being the lowered rate of the Electronic Substance from the Sun. This is the reason for its being spoken of occasionally as a Precipitated Sun Ray. That phrase is nearer the truth of what actually takes place than men dream.

"Now watch!" Here the two Beings directed the Rays of Light through Their hands to a cavity in the rocks into which a small quantity of Gold had run through a connecting fissure when in the molten state, evidently caused through volcanic action. The intense heat had sealed the fissure with molten granite, thus hiding the entire vein leading into the cavity.

"This particular ore-body," He continued, "at its highest point, is about two hundred feet below the surface. From a geological standpoint, it could not and would not have been discovered. After your return from the Far East, it will be opened; and one day the ore will be used for a special purpose so that mankind may be blest and enlightened."

We continued to watch these two Beings as Their Projection of the Light Rays caused the Gold within the cavity to expand and glow as plants do in sunlight.

"We have been here about thirty minutes," remarked Saint Germain as He turned away and we

came back again to my physical body. Rex and Bob looked as though in a deep sleep. A few moments later when they opened their eyes, I explained to them what had happened. Their mission being different from mine, the Revelation and Instruction they received was of a more individual nature, yet they had retained full consciousness during the experience and had been shown part of the same activity I had been observing.

We returned to the bungalow at eight o'clock for breakfast and described our experiences to Nada, Pearl, and Rayborn. It was then he told us we were to return to the ranch on the tenth. The evening of the ninth was full of music and joy in which the Livingstons joined–for we were not to be with them again for two years.

Our drive home was uneventful, and the next ten days Rayborn spent in closing his business activities, giving everything to Nada and Rex. His holdings were very large, and his great fortune placed his two children among the wealthiest of our western country. Surely no two people were ever more worthy to be custodians of God's riches.

On the evening of the nineteenth, we all assembled in the Tower Room where a surprise awaited us, for as we opened the door, it was already illumined by a soft White Light. When we had become very still, Rayborn rose to his feet and

poured forth a prayer of praise and thanksgiving in deep gratitude for the good that had been his, ending with a farewell blessing to all his earthly possessions for their great service to him. We then entered into deep meditation and received great Assistance and Illumination.

After our meditation we returned to the music room where the quartet sang for about an hour. Then Rayborn embraced each of his loved ones and went to his room, as he and I were to leave early the next morning for the Cave of Symbols. We left at six o'clock, Rex driving us to the nearest point. The walk to the entrance in the invigorating morning air was very exhilarating, and as we approached, we heard the sound of throbbing machinery. When we arrived at the second entrance, Saint Germain waited there for us. He seemed more Godlike, more Marvelous than I had ever seen Him.

We stepped to the white arch and it opened before us without anyone touching it. Where the blue and red arches had been on our previous visits, we now saw dazzling white ones instead. These symbolized a Cosmic Recognition of the raising of one of Earth's Children which was about to take place.

We entered the radio chamber, and I can still recall the feeling of Peace I enjoyed while there. Unless one has experienced the great happiness

of being once again within the Radiance of those marvelous chambers, such feeling of exaltation can scarcely be conveyed to others. These halls have been charged for hundreds of centuries with the glorious Presence of the Mighty Ascended Masters of Love, Light and Wisdom, the Legion of Light, and the Great White Brotherhood.

Our meditation here was a vastly different activity from that in any other environment, and the value of such an Outpouring is beyond human conception. Saint Germain asked us to be seated while He gave the necessary Instructions as to what He desired us to do. I marvel at it to this day how clearly the memory of a student retains that Instruction, for it is never repeated, except by the Master Himself, yet it is as clear as though recorded in letters of Light upon my memory.

When He had finished the Instruction, we went to the sleeping apartments which we had occupied before, our Seamless Robes remaining there for our use. We entered into deep meditation, holding our attention on the "Mighty I AM Presence," the Master Christ within our own Hearts. At the end of three hours our consciousness was lifted to Great Heights, and Revelations that astonished us both were shown. We had entered Realms of which we had heard but never retained conscious memory of having been there. Presently we heard the sweet

tones of a bell announcing the Master's approach. His face was radiantly happy.

"I am very pleased with your first real meditation," He said. "Keep this always a sacred hour every day." He extended both hands to us, and in each was a crystal goblet filled with a heavy Golden Liquid that looked like honey, yet sparkled as if made of diamonds.

"This," He said, "will be your principal sustenance during the ensuing days, for it is the very Essence of Life. The culmination of our Brother Rayborn's experience is the most vital of the soul's entire pilgrimage on Earth and the *summum bonum* of all human existence. Now come with me to the Chamber of Light, and do not be alarmed at what you either see or experience."

We passed through the audience chamber, and at its far end, a space about the size of a door opened before us, where an instant previous we had seen only a solid wall. The aperture closed quickly behind us, and we found ourselves in the center of a perfect sphere. There were three chairs of solid Gold placed so as to form a triangle in the middle of the floor.

"Please be seated," said Saint Germain, He occupying the third chair. The chamber was filled with a soft glowing Light, and this began to steadily increase in both intensity and movement

until we became conscious of Its amazing velocity. Tongues of Flame began to dart forth from the surrounding Light penetrating our bodies with an astonishing effect in which we felt electrons entering and charging our minds and bodies with their tremendous energy–yet the sensation was one of delightful coolness.

As this continued we felt and saw the Light within us rise and expand, until in a few moments a most delightful fragrance of roses filled the entire sphere. It grew stronger, and then we became aware that it emanated from the Light within ourselves. Suddenly the essence of the roses condensed and we lay upon couches of roses of very exquisite colors. Our experience brought an exaltation to our consciousness that no words can describe and produced a feeling of Deep Peace. There was nothing imaginary about this whole experience, for the Perfection that exists within Pure Electronic Light is without limit, and by the proper understanding of Its manifestation, It can and will take any form and quality that an Ascended Master chooses to impose upon It.

The glorious feeling of Peace, Happiness and Bliss we experienced obliterated all idea of time, for the Inner and the outer activity had become *One Complete Unit of Harmony,* focused for the time being by Saint Germain into the Absolute

Purity and Perfection of the One Great Light–the "Mighty I AM Presence." Gradually the velocity of the Light changed, growing less and less, until It shone with the soft radiance of moonlight on a placid sea.

To our astonishment, we found the roses real. Although they had come out of the Light, they did not disappear with It. After this experience I could easily understand why the rose has been used throughout the ages as the symbol of the soul, and why the Radiation from an Ascended Master so often has the fragrance of a rose.

"You shall come here, My Brother," said Saint Germain, addressing Rayborn, "every day at this hour; but the remainder of the time you are to be alone." When we returned to the audience chamber, I realized we had been in the Chamber of Light for more than three hours–yet it had seemed only a few moments. Saint Germain gave us another cup of the Golden Liquid as nourishment for the body.

"Now go to your chambers and sleep," He instructed, "until I call you." Wherever we moved, the wonderful fragrance of roses enveloped us, and scarcely had we lain down until we were sound asleep.

Each day this Marvelous Work went on until the arrival of Nada, Pearl, Rex, and Bob on the twenty-sixth of July. When greetings had been exchanged, they commented upon the soft radiance

and fragrance of roses that surrounded my body continuously and were very happy about this part of my attainment. During the twenty-seventh, many of the Ascended Masters came, singly and in groups, until all who were to take part in the Work had arrived.

At eleven o'clock that night, we were escorted into the Electrical Chamber, where the marvelous Atomic Accelerator was waiting to receive another of God's children and send him forth into his Eternal Freedom—a Son of Light—*a True Image and Likeness of the "Mighty I AM Presence."*

As we entered the chamber, the Light within it was intense, yet it held tiny points of more Dazzling Light that darted to and fro in the atmosphere continually. Rayborn seated himself in the Chair, and the twenty-four present formed a circle about the Accelerator, Saint Germain standing directly behind him, and I just in front. Nada, his Twin Ray, stood within the circle. When all were ready, Saint Germain commanded the individual attention of each one to be held steady upon the Presence and Supremacy of the "I AM," and that of the Master Jesus.

Suddenly, like a flash of lightning, a Circle of the most intense Dazzling White Light surrounded us, drawing steadily toward the Chair until it was only about ten feet across. The Light within Daniel

Rayborn expanded and met the Circle of Light without. As they touched, he began to rise slowly to a distance of about his own height above the Accelerator, the Light within him continuing to increase.

Nada, his own Twin Ray, rose also and drew toward him, passing within the smaller Circle of Light. They met in divine embrace for a moment. The next instant the face of the Master Jesus shone out in an Aura of gold, pink and blue above them. Inclining their heads toward us and smiling radiantly, they looked upward as a Great Ray of intense White Light descended, enveloping them both in Its Protecting Radiance, blessing their Glorious Union, and hiding them from our sight while they passed beyond all care and limitation into their Eternal Perfection of Being–clothed in Bodies of Everlasting Light, the Robe of Immortality that shines brighter than the Sun at noonday.

Thus did another "Mighty Master Presence" of the "Great I AM" enter into Cosmic Service–as the Celestial Chorus sang Its Anthem of Eternal Praise and Victory unto "The Light of God that never fails."

CHAPTER X

Closing Experiences and Our Journey to Arabia

"OUR Work here is finished for the present," said Saint Germain as the singing came to a close. "Let us now go to the Great Chamber and dine." We had just become seated at the table when Daphne appeared at the great organ and Arion stood beside Her with a most wonderful violin.

They began to play, and a soft globe of Iridescent Light formed near the ceiling, out of which came a most Glorious Tenor Voice singing, "In the Name of Christ We Reign," whose melody and lyrics were tremendously inspiring. Saint Germain felt the question in our minds as to who the Singer was, and in answer to our thoughts, replied, "You shall one day see this Cosmic Singer face to face."

Daphne greeted the children rapturously and asked the quartet to sing to the accompaniment of the organ and violin. We enjoyed a glorious hour after the music by renewing our acquaintance with those present, some of whom we were to meet again in the Far East.

It was nearly daybreak by the time the other Guests had gone and we five were alone with Saint Germain. "Retire now," He said, "and get your needed rest so you may return home tomorrow afternoon." The next day the bell awakened us at eleven o'clock, for we were to meet with our Beloved Master in the Great Chamber. As we came near we noticed the great doors were already open and the interior was lighted as brilliantly as the noonday Sun. We had never experienced this effect of Interior Sunlight before.

"Why are you still astonished at these things?" asked Saint Germain, aware of surprise. "You know every conceivable thing can be accomplished in the Ascended State of Consciousness. These things are always possible and are produced with absolute certainty and perfect ease. I know you are not yet accustomed to what seems unusual, but to the Master Christ, the 'I AM Presence' within you, there cannot be anything unusual. Try to realize this fully, so you too can live in the Ascended Master Consciousness and come into the Knowledge and the use of this same Transcendent Freedom. Now let us be seated." Immediately a most delicious luncheon appeared before us, and while we ate, Saint Germain gave Directions for the journey to the Far East.

"I would suggest," He remarked, "that you travel as lightly as possible. Follow your Inner impulse always,

for you will be perfectly directed at all times. You are surely aware by now that clothing or anything else you may require is always available. You need not be encumbered unnecessarily with luggage on this journey. I will meet with you in the Tower Room on the tenth of August at eight o'clock in the evening, when the date of your departure will be decided." Saint Germain went with us to the auto, and after bidding us a loving good-by, returned to the Retreat. We entered the car and drove back to the ranch. The next two weeks were busy ones indeed as we completed arrangements for our journey to the East. Upon Rex devolved the duty of giving some explanation to the foreman about Daniel Rayborn's continued absence.

"My father," he explained to him one morning, "has been called to the Far East, where he will remain indefinitely. I will be in charge of things here, although Nada and I will be traveling abroad for about two years. Can we depend upon you to look after the ranch during our absences?"

"I will do the best to take care of everything as you desire," he replied. "My assistant is quite dependable and capable of taking charge, should anything happen to me."

Time passed on wings, and the tenth arrived filled with joyous anticipation of our evening with Saint Germain. Until one has had some such experience as was our privilege of association with Him, it is

impossible to convey the great happiness we felt in the contemplation of still greater enlightenment. Our recent Instruction during the Ascension of Daniel Rayborn and my contact with the white-haired, elderly gentleman who sought so long for the man with the Crystal Cup were a tremendous encouragement and sufficient inducement for us to reach to the Light with all the intensity of our Beings–to make the Ascension also.

At eight o'clock as we approached the Tower Room, the door opened, and Saint German stood before us with extended arms, Radiant and Resplendent. We exchanged loving greetings, took our places, and He conveyed the Love and Blessings from the Mother and Father of Rex and Nada.

"The time of your departure," He began, "is set for the twentieth of August. I think it would be well if Rex, Bob, and this Brother," nodding to me, "make one more trip to the mine before leaving for the East in order to give strength and encouragement to the Livingstons. I had not intended this when you left the mine, but I think it the part of wisdom to see them once more. Gaylord will meet you in Paris near the end of October as soon as he finishes his work in South America.

"Now I have something else to tell you. The outer entrance to the Cave of Symbols has been closed, and unless one had been there, it would not be possible to locate it again. Certain individuals did discover it and

were planning to take a research party there. It has been necessary to prevent that. You see, Beloved Ones, We have all Power and limitless means within Our Control by which to guard and protect whatever needs Our Protection. I will give you certain Instructions for your immediate use, and then I must leave to meet with the South American branch of the Great White Brotherhood." After indicating what was needed, He raised His hand in Blessing, and with a Radiant Smile, was gone.

Bob's enthusiasm kept pace with his advancement. It was one of the most wonderful things I have ever experienced to observe how his intense longing for the Full Ascension focused his attention upon the "Light" with uninterrupted joy and determination. Nada and Pearl were expressing the Great Wisdom of the "Mighty I AM Presence" as the Expansion of the Light increased within them. It was most apparent in their eyes.

We drove to the mine on the twelfth and arrived there at six in the evening. All were surprised, except Zara, who said she knew we would visit them again before leaving for abroad.

We left early the next morning and returned to the ranch, knowing our visit would be a sustaining strength to the Livingstons. I shall never forget our last night in that wonderful ranch home where so much happiness had come to all of us and where

events of such paramount importance had occurred that affected the Life of each one so vitally. I felt a strong impulse to go to the Tower Room for a farewell meditation. It grew so strong that I asked the rest to join me. As we approached the door, it opened to admit us, and within there was the same soft, Beautiful Radiance that hallowed it with a Sacred Presence–a Peace unspeakable. The door closed behind us, and involuntarily I dropped to my knees in the greatest praise and gratitude I had ever known.

Suddenly my feeling found expression and the Words poured forth from my "I AM Presence" giving voice to the deepest Outpourings of my soul in phrases far beyond my outer ability. As I finished, Bob uttered a prayer of such beauty that it thrilled everyone. The others felt the same impulse and expressed their feelings from the depths of their Hearts. Surely that Outpouring of our Love and Gratitude must have reached into the very Heart Center of Creation, it was so intense and sincere. As we finished, the Light in the room became perfectly Dazzling. Suddenly, a Strong, Masterful Voice spoke from the ethers, saying:

"All is well. In following your prompting to give expression to that Inner feeling of Praise, you have contacted great Heights–as well as Great Ascended Beings. This will bring you Blessings untold. The Peace of the Cosmic Christ enfolds you and carries

you forth on Wings of Light until you have reached Eternal Perfection."

Slowly the Light diminished until only a soft Radiance remained. We silently left the room, knowing we were under the Loving, Watchful Care of Mighty Powers of Light of which as yet we had very little conception. A deep, unspeakable Radiation of Love and Heavenly Joy went from each one to the others, and we retired to our rooms.

We left by train early the next morning and arrived in New York a few days before we sailed. While enjoying many things of interest there, we felt a tremendous Inner appreciation for the Statue of Liberty.

"What a wonderful symbol that is," said Nada, "and how few ever stop to realize what it means. It is really a Focus of Spiritual Power guarding the shores of America. The Torch held high represents the Light of the 'Mighty I AM Presence'—which reveals the way and sends Its Rays of Love and Peace unto all mankind. The majesty and power of the Figure itself is a marvelous expression of the Great Presence which carries the Light, and not only guards and sustains America, but all of mankind who truly seek the Light.

"It is as though the Spirit of America held the Light high in silent greeting to the Figure of the Christ that stands high on the towering Andes in South America. Little is known of the Mighty

Power that caused the Statue of Liberty to be placed where it is, and why the Figure of Jesus occupies its high pinnacle in the southern hemisphere. These are not accidents or the results of blind chance, for there is no such thing anywhere in the Universe. What seems so to the intellect is but the lack of understanding of the Law of the Universe. You may be sure that these Figures placed at these particular points give indication of the service which both continents will give to the rest of the world!"

At four o'clock in the afternoon of the twenty-eighth, we boarded the *S. S. Majestic*–truly a floating palace. The tugboat towed her out towards the open sea, and as she began to plow her way through the mighty deep, we stood watching our Goddess of Liberty fade from view. We went down to the dining room at the first call for dinner, where we had reserved a table for six, expecting of course that our party would be alone. We had just finished ordering when the steward brought a Beautiful Young Lady to our table. As I looked up, imagine my astonishment when before us stood the Pupil of the Head of the Council in France–at whose home we had spent a week before returning to America with the Livingstons. It was She whom I had first contacted as the "Veiled Sister," and who was Gaylord's Twin Ray. She greeted me cordially, and as I turned to present the others, said: "You may

call me Leto." After greeting Her, they expressed their great joy and delight for Her Presence.

"I have come," She explained, "to take you to our home in Paris, which my Master wishes you to make your home while abroad. It will make Him very happy to extend His hospitality to you all."

We joyously accepted His Invitation, knowing it to be part of the Divine Plan Saint Germain had arranged for us. To add to our happiness, we found Her suite next to that of Nada and Pearl. When opportunity offered, I explained to the others that this little Lady, who looked not more than seventeen, had used Her present body over three hundred years. I almost strained the credulity of my friends in spite of all Saint Germain had said and done, that they might become accustomed to the Great Truth and Reality of the Ascended Masters and Their Work.

The first evening we sat on deck completely at one with the great peace of the deep, for it was calm as a mirror, silvered by the beauty of a full moon. The next evening we spent in our suite listening to the Instruction given by Leto. She explained how to lay the body down, leaving it consciously and at will. It was the simplicity and clearness of Her Explanation that made all comprehend everything so clearly and realize something of the possibilities of the attainment before us.

"This Training I am giving you," She said, "is

most efficient, and I will show you proof of it tomorrow evening." In Leto's Radiation everything seemed simple, clear, and easy of accomplishment; for all imperfection or human creation was instantly consumed on entering Her Presence. Our joy and gratitude were very great when we heard that She was to instruct us during the entire journey. Again we marveled at the way all was prepared ahead for us by the "Mighty I AM Presence" working through the Glorious Ascended Masters. This is Their Activity for and to the student when he enters sufficiently into the Light–the Great Ascending Stream of Life–where his Eternal Freedom always exists.

As each of us said good-night to Leto, it seemed as though a Gossamer Garment of Light enfolded us, and the fragrance of heather which had filled the room all evening clung to us while we retired. We met at breakfast and the Radiance was even greater than the night before. During the course of our conversation, I asked Her why we had been conscious of the fragrance of heather during Her Instruction.

"In the eleventh century," She explained, "I lived in Scotland, and during an experience of that Life, the memory of heather became very dear. Ever since then, at most unexpected moments, the fragrance of heather radiates very strongly–so

much so that many times it is noticed by those about me."

I observed that Leto wore a simple white garment, yet it gave the effect of having a glint of many colors shining through. She answered my thought about it immediately by saying: "This garment I am wearing is a Seamless One, not made with hands, but precipitated direct from Pure Light Substance–hence, the glint and Radiance you see. It will never soil nor show wear. It will not be long until each of you will be wearing the same kind of Garment. In the fully awakened, or what you call the Ascended Master Consciousness, we never encumber ourselves with luggage of any kind, for in the ethers all about us is the Pure Substance from which we form everything as we desire to use it.

"All we need to do is to bring it into form through holding the conscious attention upon our mental picture, or visualized form. This creates a focus for the concentration and condensation of the Electronic Light in the ether which fills all space everywhere. Our feeling, united with the mental picture, sets up a drawing activity–a magnetic pull–upon the Pure Electronic Substance. With this feeling there must enter a certain knowledge of how to raise or lower the vibratory rate in the aura around the electron; for the vibratory rate of the aura determines the quality and material of the

precipitated article.

"When I use the term electron, I mean an Eternally Pure Heart Center of Immortal Fire–a Perfect Balance of Light, Substance and Intelligence around which is an aura of lesser Light that the scientific world calls a force field. The electron is forever changelessly Perfect, but the force field, or aura around it, is subject to expansion and contraction; and this is the determining factor in bringing substance into form from the invisible into the visible.

"Because of the *inherent intelligence* within the electron, it becomes an obedient servant and is subject to the manipulation of the individual who acknowledges his Source of Life by his awareness of the 'Mighty I AM Presence' within himself. From this Height of Consciousness, such an individual, by a direct command to the Intelligence within the electron, can release a wave of its Fire to flow out, and cause the force field to expand or contract at his will.

"This is the raising or lowering of the vibratory rate and is the activity that causes the force field to register, or become the quality of the material which he brings into physical form. For illustration, iron has a much lower vibratory rate than Gold, and if one be precipitating Gold, the force field around the electron would naturally be much larger in extent, and hence contain more of the Immortal

Fire than would that of iron.

"In bringing about this sort of manifestation, the vision and feeling must be held steady to produce quick results. It is the work of the student to master himself and maintain the Conscious Control and direction of the energy within his own mind and body. Then he is able to govern the flow of its power–through the channels of sight and feeling–to a definite objective, and hold it there until the receptacle, which is his mental picture, is filled full of the Living, Luminous Substance from the Universal Fire of Life.

"This Instruction is for your use, and you must apply it if you wish to attain any degree of Mastery; for only by use of the knowledge we already have can we utilize that which is still greater. No one can ever attain any degree of Mastery except through the operation of the Great Inner Law of the 'I AM.'

"The greatest of all fundamentals is to remember–*forever*–that from the lowest to the Highest Being in the Universe, the *only* Presence and Power which can move or do anything constructive is that Conscious Intelligence which acknowledges its own Being and Manifestation by decreeing 'I AM,' followed by whatever quality that Being desires to bring into outer existence. It is the Word of God through which all Creation takes place, and without It, Creation does not take place. Remember, there is only One Power

that can move through Creation, and that is the Mighty Electronic Light existing everywhere and interpenetrating all manifestation.

"The individual who can say 'I AM,' by that Acknowledgment of his own existence, must accept the responsibility of his own Decrees. The Great Creative Principle is everywhere present, the same as the use of the multiplication table, but it takes the individual's Acknowledgment of his 'I AM Presence' to set it into action and fulfill his plan of Life–which is Perfection, or Perfect Balance.

"The personality, or outer activity of the individual, is but one focus through which 'The Magic Presence' of the 'I AM' acts. If the energy of the 'Mighty I AM' is qualified by thoughts and feelings that consider only the appetites of the flesh body, the Perfect Balance of the individual's vehicle is not maintained and is like a wheel off center; hence imperfection and discord is expressed. But if the individual considers the *Perfect Balance* and makes his Decree include the whole instead of only a part of his universe, he will only follow his Acknowledgment of the 'I AM Presence' and the release of Its Power by Decrees that maintain the Perfect Balance. Any decree of Life that accepts less than Limitless Perfection is not the Plan of God and will continue to destroy the forms in which it is focused until the Decree of Full Perfection is expressed. When the student understands this, he

will keep joyously radiant and firmly conscious of only his 'Mighty I AM Presence,' *never allowing his spoken word to go forth decreeing anything less than the Perfection of Life.*

"From Our Height of Consciousness, after having watched mankind for centuries in the struggle through self-created misery and discord, it is amazing how humanity refuses to understand why the minds and bodies of the race continue to grow old, decay and disintegrate, when some of the most materialistic scientists acknowledge that the cell of which the physical bodies are made up is eternally Immortal. The cell contains within it the power to eternally renew and sustain itself because there is Perfect Balance in all its parts. If left to its own activity and sphere, it will continue to maintain that Perfection. The wonder to Us is that the race is content to go through the experience of death, while all the time clinging to youth, beauty and Life, and yet refusing to keep harmonious enough to let it be maintained. The student who will stand at one with his 'I AM Presence,' accepting and decreeing only Its Perfection and Great Inner Power, will release Its Flow through the outer activity of mind and body and produce whatsoever he decrees.

"To be able to come and go from the body at will is a necessary step in the student's Freedom that will lead to many greater Attainments. A part

of my Service to humanity is in teaching individuals how to do this–a work for which I have a deep Love and natural ability. I am able to convey this idea to others so they too are able to go forth and comprehend Life in a greater measure.

"Within two months you will be able to come and go from your bodies consciously as easily as you now come and go from your home. At first I will assist you until you understand and fix the operation in your consciousness; then you will be able to accomplish what you desire entirely by your own effort. We rarely find several individuals ready for this Instruction at the same time, but because you four are two sets of Twin Rays working together, is this unusual condition explained.

"Let us enjoy the sea breeze, the beauty of the night, and the perfect weather which we shall have while crossing; for there are never storms or disturbances where there is a Focus of the Great White Brotherhood. Each Member is a Definite Focus. I have work to do now at a distance, so must leave you until four this afternoon when I will return and be with you at dinner."

I have always enjoyed travel at sea, but this voyage was more than enjoyable, for our association and work with Leto kept us constantly aware of the God Presence. Later in the day I had occasion to chat for a few minutes with the Captain, and he said during his entire fifteen

years on the sea he had never had a more marvelous voyage. I could have told him why, but it was the part of wisdom to remain silent.

As we were taking our places at the table for dinner, Leto returned and joined us, saying: "I have joyous information! Splendid things have just been accomplished for the Blessing of humanity. I tell you this much that you may rejoice with me, but later you shall know the full details of it, probably when we arrive in Arabia. It pleases me that you have been able to keep your consciousness so well focused upon 'The Magic Presence' of the 'I AM.' Tonight before our work begins, I want you to enjoy the sunset with me; for you shall not have another such opportunity for fifty years due to certain Cosmic Activities which as yet you do not understand."

Leto had chairs placed on the top deck where we would be undisturbed. When we were all comfortably seated, She continued: "You remember that Beloved Saint Germain said to you, the Sun of this system is to the whole system what the Heart is to the human body, Its Currents of Energy being the blood stream of this system of worlds; the ether belt around this Earth, being the lungs through which the currents of energy, constantly pouring forth, are ever purifying the body of the Earth. The Sun is also the head, or Father of this system, through which this Mighty Energy is constantly generated by the Mighty Intelligence

focused there–from Glorious Ascended Beings who have charge of and govern that Activity.

"The Sun is not hot as scientists think. It is as cool and a thousand times more refreshing than the gentle zephyrs of the most delightful summer evening. It is only as the Sun's Currents of Energy pass through the ether belt of the Earth that they become heat. The Sun is the electronic pole, and the Earth is the magnetic pole. The ether belt is the element through which the currents are diversified.

"The Christ Mind is embodied in Great Beings upon the Sun similar to the way It is here on Earth. Always keep this in mind: God sent forth His Rays individualizing Himself in order to govern, regulate and direct His Activity through Self-conscious Beings. That is why we, as the Sons of God, are given Free Will–choice.

"By recognizing and accepting fully this Mighty God Power, Love, and Intelligence anchored in us, we become able to express more and more of the Full Power of God in conscious action. Only the most advanced students realize there are Mighty Beings as much beyond the Lord of the Earth as the Lord of the Earth is beyond the ordinary mortal.

"Now, each of you, withdraw the consciousness from your body and place it fully upon the Sun. Partly close your eyes and then wait." We sat very still for almost twenty minutes and then went forth as

a group, Leto leading the way. She became Dazzling and Radiant. Deeper and deeper we entered into the Intense Light of that Great Focus of Cosmic Light, and presently became aware that we were approaching the Globe Itself. The Radiance which It emitted gave one a feeling of great exaltation with a glowing sensation of Peace and Power. The nearer Leto drew, the brighter became Her Radiance.

We then approached a magnificent City called the "City of the Sun." Within it were wonderful, Perfected Beings–like ourselves, except Their Bodies were slightly larger than those of our humanity–but Their Radiance and Beauty were transcendent beyond words. Presently we found ourselves receding. The Glorious City began to fade from view, the Indescribable Light grew less, and then we heard Leto speaking, commanding us to return with Her. With a sudden shock, we were conscious again of our physical bodies.

"A grand success," She said smilingly. "I have brought this about that each may bear witness to the others of what you have seen, for in this is tremendous strength. The concept which mankind has that the Sun is a focus of great heat is absurd and infantile. The Truth is that the tremendous Rays of Energy which it sends forth to its system of planets are not heat rays at all, but Rays of Electronic Energy which only become heat as

they contact and penetrate the atmosphere of the Earth. The atmosphere surrounding our planet is a force field produced by the rays of magnetic force sent forth from the center of this planet, and when the Rays of Electronic Energy from the Sun touch these, we have the phenomena in our atmosphere that we call heat and Light from the Sun."

We enjoyed the twilight on deck until seven-thirty and then went to Leto's stateroom. We took our places in five reclining chairs which She had provided for our use–in which the body was perfectly poised and at ease. Then Leto began Her Instruction.

"Focus your attention on the Heart for a moment," She explained. "Then raise it to the top of the head. Keep it there without change and let the following be your only thought: *'Mighty I AM Presence which I AM,' now take charge in Full Mastery of this body. See that I go and come from it consciously and at will. Never again can it bind me or limit my Freedom.*"

It could not have been more than three minutes until we stood before our bodies, free–consciously free–in bodies of substance, but finer than that of the physical body. In these we were more clearly alert and free than we had ever been in the physical.

"Come with me," said Leto, and instantly we passed out of the room over placid waters and went direct to Her home in Paris. We saw and greeted Her Master. Then we continued our journey to the Home of the

Brotherhood in Arabia which we visited later. When we returned near our bodies, She spoke again: "Wait– we are going to do this consciously," She directed. She went to each body as it lay in the chair and touched the forehead. Immediately the body stood up, yet looked as if asleep. Then She gave the necessary direction, which I may not give here, and we were again fully conscious in our bodies. The whole experience was different from anything we had ever lived through before, and it left us with a certain indescribable confidence that we could do it again. We tried to thank Her, but She raised Her hand for silence.

"Love serves, because it is the nature of Love to give, and it is not concerned with nor does it expect acknowledgment of its Gifts. However, your gratitude is beautiful and well known to me. Just try to become the Love that does not wish to possess, for then Love is truly Divine."

The following days were filled with joy, beauty, repose and peace as we watched the sunlit waters by day, and at night the wonderful moonlight, until one's very being breathed praise and gratitude for the happiness of just being alive.

The boat docked at Cherbourg, and following Leto as She led the way, we went to the waiting autos and were driven to Paris, Pearl and Nada riding in Her car, and Bob, Rex, and I in the second one. When we arrived at Her home in Paris,

Her Master greeted us in His Gracious, Courtly Manner:

"It is Our Great Joy," He said, "to have you make this your home as long as you wish, and We want you to feel just as free to come and go as if you were in your own home in America."

The next few days we spent with these Blessed Masters learning many wonderful things and receiving some insight into the Marvelous Work of the Great White Brotherhood. Its Stupendous Power, Inner Working and Accomplishment simply stagger the intellect of one unaccustomed to this kind of Knowledge.

We were placed under definite training, and Leto, after finishing our Instruction for the day, showed us the places of interest in the afternoon. Not a moment was wasted, as She said we were to leave soon for Arabia and that She expected the call within a week.

While visiting the Louvre, Leto showed us a painting by a young artist who had painted a picture called "The Union of Two Souls." It was intended to portray the Union of the Twin Rays and was a marvelous conception, a wonderful work of art.

"We are watching," She said, "for an opportunity to see if this artist can be awakened to the Inner Wisdom after having received such an interpretation of his idea. In the midst of his work he unknowingly shut the door

to the inspiration he had received at the beginning, and My Master, seeing the need, gave the necessary Assistance which reestablished his contact with his Divine Inspiration and enabled him to complete the picture. It was unknown, of course, to him, but the marvelous painting you see before you was the result.

"Often an artist, musician, writer, inventor, and many other individuals doing creative work are given such Assistance from the Ascended Masters–of which those receiving the Help know nothing. This sort of Activity is one way in which We work impersonally."

We attended one Meeting of the Great White Brotherhood to which Members came from all over the world, among them being Gaylord's Friend whom I had met when Gaylord was abducted to Paris. It was a never-ending source of joy to know of the important Work being accomplished by the Members of the Great White Brotherhood, entirely unknown to the outer world. Many sincere people who wish to live the constructive way of Life are Members of this Brotherhood at the Inner Levels long before they become aware of it in the outer senses.

The time arrived for our departure, and Leto was to conduct us to the East. We said good-by to Her Blessed Master and drove to Marseilles by car. We went direct to the steamship office of the

Messageries Maritimes Line. As we entered, a tall, fine-looking man in Arabian dress came out and bowed before Leto.

"Your Highness," he said, "reservations are on the steamship *Mariette Pache*. This envelope contains the necessary papers. Your accommodations at the usual place are in readiness. Can I be of further service?"

He touched his Heart and forehead, and Leto, returning the Salutation, gave him a Sign which we recognized as belonging to the Great White Brotherhood. We knew by that he was one of the Brothers. We returned to the auto and were taken to what proved to be a private old hostelry—quaint, but spotlessly clean, and the accommodation good. Leto told the driver to call for us at nine the next morning, and I must confess, I was greatly interested to know why She was addressed as "Your Highness."

Promptly at nine we entered the autos and were driven to the pier, Leto telling the drivers to return to Paris. As we boarded the ship, our entire party was shown great deference, and our accommodations were truly palatial.

We had a delightful trip on the deep blue waters of the Mediterranean and finally docked at Alexandria. Leto again led the way to waiting autos, and after driving for about twenty minutes, we entered a walled enclosure and stopped before a beautiful home built in

the Moorish type of architecture. A youth in Arabian dress admitted us and led the way to a circular room. A tall, beautiful woman who looked not more than twenty, yet whose eyes held deep Wisdom, came forward and greeted us graciously. Leto presented Her to us as Electra.

"Beloved Sisters and Brothers," She said, "I have been expecting you, and you are most welcome. Please accept my humble hospitality, now and at any time that you are in Alexandria. You will honor me to make this your home. Your Beloved Master was here yesterday and asked that you remain for two days. At the end of that time a boat will take you to a place on the coast of Arabia, from which you will drive to your destination." She then touched a set of exquisite chimes. The youth returned and showed us to our separate suites.

During our conversation at dinner we learned something of Electra's family. Her father was an Englishman, and Her mother was a French woman. Someone asked how long it had been since they had passed on, and She replied:

"One hundred and twenty-five years ago. You see," She continued, "I am not as far advanced as your wonderful Escort, but I have attained enough dominion to eliminate time and space."

"Electra," said Leto, "is far advanced and is doing beautiful work, as you will see later. While

we are in Alexandria you shall see the places of interest, and we shall spend the next two days enjoying ourselves."

We were very much interested the next morning in sight-seeing. When we stopped at a certain jeweler's stall, admiring the beautiful jewels and the exquisite workmanship of their settings, the old jeweler made a deep bow, and in salutation touched his Heart and head, asking to see Rex and Bob's rings. He was very silent for a few moments, and then looking steadily at them both, remarked:

"My Brothers, you have done me a great honor; only once before have I ever seen such jewels. They are Condensed Light. They are 'Living Gems.' You are blest indeed." As we thanked him and turned to go, he asked the Blessing of the Most High God upon us.

The second evening after visiting the old jeweler, we were listening to Electra describing Her Experiences, when a sealed envelope dropped out of the atmosphere directly at the feet of Rex. He opened it anxiously and found a Message from our Beloved Saint Germain.

"In the morning," it read, "a yacht belonging to one of the Brothers will take you to a certain port from which you will proceed by auto to your destination in Arabia. Your Mother and Father send Greetings and Love to all." The next morning Electra accompanied us to the yacht, a beautiful,

graceful boat as trim as a greyhound.

"I shall expect you on your return before you go to India," She said as She bade us good-by. When we went aboard the yacht, we had another surprise, for its owner was none other than Gaylord's Friend–the Brother who met me at the boat when I arrived in Cherbourg while Gaylord was being held captive.

Our entire journey was well prepared at every point with much comfort and convenience. One can scarcely realize the joy of these activities unless he has experienced something of this sort. As soon as we were well out at sea, our Host gave us His undivided attention.

"I have just received a letter," He said, "from Gaylord–who is still in South America. He is completing certain work there and asked to be remembered to everyone. He says he hopes to see you before many more weeks have passed, and until then his Love is ever enfolding you." We thanked our host for the message from our friend–for whose welfare we felt deeply concerned.

Our trip through the Suez Canal was delightful, and there was so much of divine tradition attached to the Red Sea that we expected to feel a thrill in passing through it. We had repeatedly experienced such wonderful things that we half anticipated the waters to divide and the scenes of long ago to appear in the ether. As we recalled the miracles of

that time, our Host instructed:

"Miracles," He explained, "are but the result of a Mighty, Omnipresent Cosmic Law set into action–consciously–by one who accepts his Divine Authority and understands Its Use. The Laws governing any kind of manifestation which the human mind considers supernatural are as natural and unerring as the motion of a planet. All activity, from the electron to the greatest Suns in space, is under the control and exact operation of Law set into operation by Self-conscious, Individualized Intelligence. When an individual understands and applies the Great Law governing manifestation in form, he can and does produce exact results. So truthfully speaking, there are no miracles.

"Miracles are but the effect of the application of Law by an individual to bring about a specific result. All may learn to do this–if they desire it strongly enough and will discipline the outer activity of thought and feeling."

We reached our port, and two autos were waiting to take us the rest of the way. Our Host accompanied us to the Arabian Retreat and gave directions for His yacht to remain until we returned. We had dined before leaving the yacht, as it was late in the afternoon when we reached port. Leto explained that we were to travel during the night in order to be unobserved through this part of the country. We

traveled through many strange places and arrived at our destination just before daybreak.

We came to a stop before the little hut that Gaylord had described to us near the foot of a hill. How we were able to reach it by auto instead of camels, we did not know; nor was it our business to inquire at this time. We knew we were guests of a Mighty Presence and Power, and our duty was to remain silent until information was volunteered. Curiosity on the part of a student is inexcusable in spiritual training and must be completely eliminated from the consciousness before certain understanding, power, and experiences are permitted to be given him along the path to Mastery. Unless it is completely consumed within the personality, it is a wide-open door through which the sinister force can act at any moment and cut off the further progress of the advancing student. Whenever it was necessary, all that we needed to know was explained without our asking.

Dawn was just breaking as we reached the hut, and immediately a Tall Man in an Indigo Cape came out to bid us welcome. He greeted each one cordially and requested us to return to our autos. Then had a cataclysm occurred, we could scarcely have been more surprised; for directly in front of us the earth opened, revealing a sort of jaw-like entrance made of metal, large enough to admit

our cars. This led onto a well-paved road with a downward incline. The jaw was controlled by powerful machinery, and when it closed after us a few moments later, it was to all appearances simply the floor of the Arabian Desert.

As our cars entered the roadway leading down, the surrounding walls became flooded with that Soft White Light which we knew so well and which the Ascended Masters always use for illuminating tunnels, caves, and all subterranean passageways. We traveled along slowly for about twenty minutes and then entered a circular room nearly two hundred feet in diameter. In this place all equipment was kept for the automobiles, and attendants provided, ready to render any service required.

The Brother in the Indigo Cape alighted and led the way to what proved to be an elevator. We entered, descended for about three hundred seventy feet, and came to a stop, entering an enormous chamber with huge columns, almost three hundred feet high.

These great columns were heavily covered with hieroglyphics, inlaid in marvelously beautiful colors. We found later that it had been the foyer to a large government building. Our guide led us through this chamber to a great arched doorway that opened at His Command, admitting us into another chamber that was beautifully decorated. Its

ceiling was arched and very ornate, supported by a single colossal column in the center. This second room must have been at least two hundred feet each way. The Brother of the Indigo Cape broke the silence:

"This is one of our principal council chambers," He explained, "which we often use as a banquet hall. Beloved Sisters and Brothers, you who are not yet formally admitted Members of our Order are the first students ever admitted to this very ancient Retreat without having been fully accepted into the outer activities of this branch of the Great White Brotherhood; but I assure you, your credentials are quite sufficient." With these words He threw back the cowl of His Cape, and our Blessed Master Saint Germain stood before us. We were thrilled, and felt immediately quite at home.

"You will now be shown to your quarters, and after having refreshed yourselves and donned your Seamless Robes, come to me here." A youth and maiden appeared and showed us the way to our rooms. Later when we returned to the council hall, a number of the Brothers had already arrived and were talking to Beloved Saint Germain.

"In seven days," He explained, "an International Council of the Great White Brotherhood is to be held in this Retreat. The Greatest of our Members will be here, as this kind of Council is only called

every seven years. On this occasion you will be made Members of the outer body as well as the 'Inner.' Please be seated, for I wish to give you information concerning the city you are now in." He then gave us another wonderful Discourse, and it made us marvel at what a place of wonders this Earth is–let alone the rest of the Universe.

"At one time," He explained, "this city was at the surface of the Earth. Certain of the Ascended Masters knew a cataclysm was threatening and sealed a portion of it for future use. In the catastrophe that followed, it sank deep below the original level and was filled in and covered over by the sand from the surrounding land, which had become a desert.

"The tops of the highest buildings are in some places fully one hundred and twenty-five feet beneath the surface. Air passages have been kept open and always give perfect ventilation. Within this subterranean city have been perfected some of the most wonderful achievements in chemistry and invention the outer world has been privileged to receive. Whenever this has occurred, some worthy man or woman has been found through whom the world has been privileged to receive these Blessings.

"There is here much of vital importance ready to be brought forth for the use of humanity when it is

the part of Wisdom in the Judgment of the Ascended Masters to give it out. Again there will be another great cataclysm that will rend the surface of the Earth, removing from further self-created destruction those human beings who have the ignorance and presumption to say there is no God. Those who are so bound by their self-created darkness that they destroy the very symbols on Earth of what is good, true, uplifting and enlightening, must–because of the very darkness of their own minds–be prevented from creating any further discord upon this planet and from influencing others by their own mistaken concepts of Life.

"Whatever and whoever denies God–the Source of all Life and Light–can only exist as long as the energy which they have already received can sustain them; because the moment an individual, group, or nation denies the very Source of Life, that instant the Inflowing Stream of Life Energy is cut off, and it can only continue to function until the force which has already been accumulated becomes exhausted. The collapse and self-annihilation of these is inevitable.

"Denial of Life and Light cuts off the sustaining energy, while Acknowledgment of Life and Light releases it and lets it flow through the body and mind that makes the Acknowledgment.

"The Great Law governing all form, or the *Law*

of Cause and Effect, tolerates man's iniquity to man only so long. When that iniquity is directed to the Godhead, or Source of Life, retribution is swift and certain. There is *an automatic purifying and balancing process* within all Life, and when any outer activity opposes itself to the Cosmic Law of forward motion and ever-expanding Perfection–which is always pressing from within outward–then the hour arrives when all opposition is swept aside and annihilated by the onward moving impulse within Life Itself. When those ruling a nation turn from God, destroying all that calls attention to the Light of Christ, it means the end of that government and group is close at hand, because it causes a certain Cosmic Activity to be released upon the planet which sweeps them out of existence.

"The human intellect acquires many peculiar kinks in its thinking, and one of the most disastrous of these is the activity of human consciousness that refuses or forgets to love and thank Life, the 'Mighty I AM Presence,' for the Blessings Life is constantly bestowing upon mankind and this Earth.

"The average human being lives Life after Life without once loving or thanking his own 'Mighty I AM Presence' for the energy which flows ceaselessly through his mind and body, for the substance he uses in his body and world, or for the hundreds of good things by which he is

constantly surrounded which he uses and enjoys, and yet gives nothing of himself in return.

"Many people carry a feeling of personal grudge against Life, blaming It for their suffering and failures, when even a very small amount of gratitude and Love poured out to the 'I AM Presence' within each human Heart would transmute every discord into Peace and Love, releasing the Perfection of Life into the outer activity of the individual.

"Human beings find plenty of time to love dogs, cats, food, clothes, money, diamonds, people, and a thousand and one things; but it is very rarely that an individual takes even five minutes out of a lifetime to love his own Divinity–yet he is using every second Its Life and Energy by which to enjoy those things. Even those who think they love God give almost no Acknowledgment to the 'Mighty I AM Presence' within themselves, and no gratitude goes up to It for the good things that come to them in Life.

"It is not that we should not pour out Love to things in the outer activity; but we should certainly love the Divinity Within first–*and more*–than any outer thing or personality. It is this very Life and Consciousness by which we exist.

"*Happiness cannot exist except when Love is pouring out*. This is Life's Law. When people are loving something or somebody, they are happy. Even a miser is happy when he is loving his Gold,

because he is pouring out a feeling of Love to the thing he tries to hold. What he is really trying to hold is happiness; but he does not realize that the feeling of happiness is not contained in the Gold, but is in the pouring out of Love from himself. In that outpouring he lets Life flow uninterruptedly and harmoniously.

"However, having received all good we ever used from the 'Mighty I AM Presence' which builds each physical body, the *first and greatest* Outpouring of our Love belongs always to our own Individualized Flame of God–the Mighty Consciousness of Life within us which enables us to acknowledge our own existence and Source of all Life when we say 'I AM.' In those Words is *All of God,* and nothing in human experience is really important but *All of God*. When the individual accepts, acknowledges, and feels *All of God,* he is happy, he has all good, and then he lives in the Father's Mansion. Is it possible for anything to be more important or greater than *All of God?* Only with the Understanding and Feeling of this can mankind break the chains of self-created limitations.

"Now you must rest, and then it will be my privilege to escort you through this underground city, where you will see the Brothers at work. I make but one request: that no detail of this Work be revealed without permission from the Highest Master in charge."

He bade us good-night, and we went to our quarters. These had been constructed similar to the Greek and Roman type of architecture, yet they were far older. The room assigned to me contained a built-in Roman bath, the most beautiful thing I have ever seen of this kind. Everywhere the atmosphere was laden with the fragrance of flowers, usually roses.

In the morning we were awakened by soft music played on instruments of a most unusual type, and the effect upon our bodies can hardly be described, for it gave one the feeling of ease and freedom—as if a pressure of some kind were being released. The sensation continued to increase, and while we were clearly conscious of some change going on within us, yet we did not realize to what extent our Inner Bodies were being attuned. The curious thing about the whole experience is that when we compared notes with each other, all had been affected in a similar manner.

As we entered the Council Chamber, Saint Germain and Gaylord's Friend greeted us. Saint Germain asked us to be seated, and breakfast was served immediately. The first thing that appeared was most delicious fruit. Then came what He called Sun-cereal, over which was a substance like honey and whipped cream. Several other dishes were served, and we finished the meal with a steaming

hot drink that took the place of coffee, but was not like anything physical I have ever tasted.

Even after our many experiences, it always seemed so marvelous to me to have things appear at the Conscious Command of these Blessed Ascended Masters. Everything came directly from out the Universal Substance the instant They desired it: food, clothing, gold, anything and everything They wanted. They are all the word "Master" implies. It is the only description that does Them justice. They are glorious and majestic–always.

As we arose from the table, I heard Gaylord's Friend address Leto as "Your Highness," and again I wondered why that title was used in a Retreat. She turned to me and explained most graciously.

"My brother, whom you have met, inherited the title of Prince Rexford, and I that of Princess Louise. Mine has clung to me through the years for no particular reason. That is why I am often addressed as 'Your Highness.'

"Forgive my curiosity," I replied, as I realized how keenly aware of my every thought and feeling these Ascended Masters were.

"Come," said Saint Germain, "We shall go first to the television chamber." We followed Him and soon came to a great circular chamber. In the center of the room stood an enormous reflector surrounded by a maze of electrical apparatus, at

one side of which was a large dial.

"This room," said Saint Germain, "is insulated in a special way which enables us to make observations of very great accuracy. By means of this instrument, through focusing the dial upon any given point on the surface of the Earth, we can see instantly any place or activity occurring at any distance. Notice! I shall direct it to New York."

He turned the dial, and we saw–as clearly as if we had been in Manhattan–the Grand Central Station, Fifth Avenue, and the Statue of Liberty. Then turning the dial to London, we were shown Trafalgar Square, the Houses of Parliament, the British Museum, the Bank of England, and the River Thames. He turned it again and we saw Melbourne and Yokohama, and we were able to observe everything as clearly as if physically present.

"This wonderful instrument," He continued, "has been in use in this Retreat for more than a hundred years. Come now into the adjoining room. It is the radio chamber. Notice the intense stillness! The walls, floor and ceiling are covered with a precipitated substance that makes it absolutely sound and vibration proof."

He stepped to the instrument that stood in the center of the room and directed it to New York. We immediately heard the sound of the traffic, and as we listened more closely, we could hear clearly and

distinctly the conversation of individuals passing on the street. Distance made no difference.

"This instrument," He said, "will soon be in use everywhere. Now let us go to the chemical laboratory where some of the Brothers are at work upon many wonderful inventions. Here, ways have been discovered to counteract destructive gases, chemicals, and activities of various kinds that the sinister force and its unfortunate pawns might try to use against humanity; for it is positively known in certain quarters that feverish efforts are constantly being made to produce various substances that are of a very destructive kind. The Brothers in this Retreat work to neutralize all such activity.

"When misguided members of mankind discover a more than ordinarily destructive agent, the chemist making such experiments always loses his body when his diabolical work reaches a certain point, for the destructive quality he desires to use upon the body of mankind reacts upon his own."

Next we visited the Cosmic Ray Chamber. "This room," explained Saint Germain, "is lined with pure metallic Gold. The Brothers of certain advancement who work here are taught how to distinguish the difference between the various Rays and to direct and use them for stupendous Good. The Great Ascended Masters are constantly watching in the world for those students whose

attainments will permit them to take up this Work." When Bob understood this phase of Their Activity, he became most enthusiastic.

"I would love to serve in this manner!" he exclaimed.

"We shall see," said Saint Germain as He smiled knowingly. "Among those who are working in this room, there are seven of the Brothers and three of the Sisters who are just completing their Training in the use of these Rays. At the coming Council they will be allotted their field of service in using this Activity for which Training in many lives has fitted them.

"Now we shall visit the Chamber of Art, where twenty of the Brothers and ten of the Sisters are being trained in a new kind of art which they will bring forth into the outer world. They are being instructed concerning the secret of imperishable colors and shown how to produce them. Within the next twenty years this form of art will find its way into the Life of humanity, and bring with it a tremendous uplift.

"From here we shall go to the Chamber of Music. It is a most beautiful place I assure you, and the Perfection of the instruments is truly remarkable." Saint Germain led the way, and we entered with great anticipation.

"This is a new metal for band instruments," He

continued, showing us certain alloys, "which gives an unbelievably delicate tone. Here are three new materials for making violins. As you will see, one looks like mother of pearl, one like frosted silver, and one like Roman gold. The musical instruments of the New Age will be made of materials like these."

One of the Brothers played these instruments for us, and human ears have never been blessed by more beautiful sounds. Each was distinctly different, but all were so beautiful there seemed hardly any choice between them.

In rooms adjoining the Chamber of Music, beautiful musical compositions were being written and prepared so the Brothers could project these magnificent harmonies into the consciousness of musicians working in the outer world.

"Some of these Brothers," said Saint Germain, "will come into the outer activity and work in the capacity of teachers, while others will serve from the invisible side of Life.

"We are now entering the Chamber of State. Here training is given in the higher forms of statecraft and national government. Some forty of the Brothers are being trained, as you see, in the right use of this Knowledge, and are also being shown how to project it to others who are already in official positions–that is, wherever the sincerity

of the official will permit. Ten of these wonderful Brothers will go forth in person and serve by being elected to governmental positions in the usual way. Five of them will go to the United States of America."

During our visit to these various rooms and the explanation of the Work the Brothers were engaged in, we felt this the most wonderful education of our lives. It was such a relief to know that notwithstanding all the distressing outward appearance of the conditions in which humanity finds itself today, the Power of the "Mighty I AM" is doing everything possible to bring enlightenment and relief to mankind. It lifted our Hearts and hopes to the height of expectation for great good to all mankind in the near future—at least for all who desire the constructive Plan of Life.

We were shown secret chambers of riches untold, others of records so old it seemed almost inconceivable. Some dated back to the advent of man upon this planet. When we returned to the Council Chamber, we found we had been gone eight hours. Not once in all this amazing subterranean city did we find the least particle of dust, dirt, or confusion of any kind. Everything was in a most wonderful state—perfect and spotless. We marveled at this, and Saint Germain again explained the Law concerning it.

"This Perfect Cleanliness is maintained by the conscious use of the Great Cosmic Rays, and within the next one hundred years, hundreds of housewives will be using the Violet Ray to keep private homes in the same wonderful state. Oh, that humanity might realize quickly what Glory, Freedom and Blessings stand ready for their use at every instant when they hold to wonderful Ideals unwaveringly, tenaciously rely upon the 'Mighty I AM Presence,' and know It is the *only real Power* of Permanent Accomplishment!"

Suddenly we felt a tremendous vibration, and looking around, saw five of the Ascended Masters had arrived from India–for the men wore turbans. These were two Ladies and three Gentlemen. As we were presented to Them, we were surprised indeed, for one Gentleman and one Lady were two of whom we had heard much. The Gentleman came up to Rex, Bob and myself; the Lady to Nada and Pearl, and extended a most gracious invitation to be Their guests as long as we were in India, and consider Their home ours at any time.

"Will you," said the Gentleman, turning to Gaylord's Friend, "come with these friends and bring them to us as our guests when they are ready to come to India?"

"I shall be most happy," He replied, "to accept your invitation and take them to Bombay in my

yacht."

Saint Germain then asked us all to be seated, that we might enjoy another precipitated dinner. The entire meal seemed more delicious than ever. We listened attentively to the Work being planned and the reports of what had already been accomplished. For the first time in my Life I realized how very little the outside world knows of this True Inner Activity, and how puny human achievement becomes in relation to that which is accomplished by these Ascended Masters who are expressing Their Full Freedom as Sons of God. It is fortunate indeed that there are infinitely more magnificent ways of Life than our humanity is now experiencing. When one can look away from his own mental concepts long enough to get a perspective of his own intellect in relation to the rest of the Universe, he really begins to learn something of importance.

We all need to take mental journeys that will stretch our mental muscles, and realize that each human intellect is only one out of approximately three billion souls in incarnation upon this Earth. Our Earth is one of the smallest in our solar system. Our system is only an atom in the galaxy to which we belong, and there are galaxies of galaxies.

When the student thinks of this occasionally, he will no longer be able to accept the conceited theories and egotistical opinions of intellects that

scoff at and doubt the existence and marvelous Manifestation of Perfection which these Ascended Masters constantly express.

The personality of anyone is only of as much importance in the magnificent scheme of Life as it is obedient to the "Mighty I AM Presence," by letting Perfection expand into the outer activity of the individual. Otherwise the personality is only a barnacle in the Universe, using substance and energy without building anything permanent.

Time sped by on wings under the intensive Training we were receiving from these Great Perfected Ones until the day came for the Great International Council. The Brothers and Sisters kept arriving at intervals from every part of the world; and when the meeting was called at seven o'clock, more than two hundred Guests were present, most of them being Chiefs of the various Councils. When all were in readiness, we bowed our heads in silence and awaited the arrival of the Great Presiding Master. Suddenly a Great Oval of Dazzling Light appeared at the head of the main table. As we watched It steadily for a moment, a man's form gradually became visible within It, growing more and more definite and tangible as He lowered the vibratory activity to manifest in our octave of consciousness, until His Body became clearly visible, perfectly tangible.

His face was truly magnificent, glorious and radiant to behold–the eyes dazzling–and His whole Being *luminous* from head to foot with the Majesty and Power of His "Mighty I AM Presence." The first tones of His Voice sent an Electrical Thrill through my body that I shall never forget throughout Eternity as He said, "Beloved Ones, be seated."

After listening to a brief report from certain of the Brothers, He commended Them, and then in a very brief manner gave directions for Their continued Work. When He had finished, He turned to us, saying:

"We can use many more who are at a point where they are ready to be trained in the Understanding and use of the Great Cosmic Rays of Light. It is My Privilege to inform you that We have ten with Us who are ready–if it be their desire to take up the Work." All was intense expectation as He asked those whose names He called to stand if they were present. Then He went on:

"Nada, Pearl, Leto, Rex, Bob, Electra, Gaylord and His Beloved Friend, Nada and Daniel Rayborn. Beloved Sisters and Brothers from America, this event brings very great joy and is of much importance to the Great White Brotherhood. You are to be congratulated, as well as the Brotherhood, that this has become possible. Within a short time you will go to India for a stay of ten months'

Training, and then return here to finish it. You will be instructed in the use of these Mighty Rays, and through Their Use, you have an opportunity to give a Transcendent Service.

"On the fourth day from today, you will return to Alexandria, and there Electra will join the party. From thence, journey at your convenience to Bombay. Your Beloved Host will conduct you to your destination. Is there the slightest objection on the part of anyone chosen for this Work? If so, speak now."

We all joyously accepted and expressed our gratitude for the opportunity to serve in this way to the best of our ability. There was a great deal more under consideration at that time which was of great importance, but I have not permission to record it here. The meeting finished, and we spent an hour meeting the other Members present. Our Friend from India presented us to the Presiding Master, and I shall never forget the Power that shot through my body as I shook hands with Him. It seemed as if I were lifted completely off the floor. One of the Brothers from South America brought us greetings from Gaylord, whom he had seen two days previous.

The entire Council was a Perfect Manifestation of Great Decision, Supreme Wisdom and Limitless Activity. Presently, beautiful strains of Music

were heard in the atmosphere, and all turned involuntarily toward the Master. He raised His hands, giving His Blessing to all present; and as He did so, He rose from the floor, the Oval of Dazzling Light enfolded Him, and He disappeared.

Never in all Eternity will I ever forget that first visit to the Arabian Retreat of the Great White Brotherhood. Four days later we left this marvelous Haven of Peace, Light, and Wisdom, with the Love and Blessings from all Its Members whose Loving Service to the "Great I AM Presence" in themselves and in all humanity is the most wonderful Activity in Life's Experience. We made the trip back to the coast of Arabia by night, where the yacht awaited us; and a few moments after we went aboard, we were gliding swiftly through the Red Sea on the wings of the night.

The next morning we breakfasted on deck in order to watch the sunrise, for in that part of the world, it is truly a most glorious spectacle. The evening of the second day we arrived at Electra's home in Alexandria and found She was fully aware that She was to serve with us in using the Great Cosmic Rays of "The Light of God That Never Fails."

CHAPTER XI

The True Messenger of Divine Service

Late one afternoon we were returning with Electra from a drive along the shore of the Mediterranean and had just entered the door of Her home when a Sealed Letter dropped at Rex's feet. He picked it up, and opening it, read:

> My Beloved Children:
> Leave tomorrow morning for India. All is in readiness, and we are happy to welcome you.
> Saint Germain

Our host of the yacht had not been with us during our sight-seeing trip in Alexandria; but when we arrived at the pier, He greeted us joyously with the news that we had been assured of a calm, delightful voyage. We again passed through the Red Sea as we sped swiftly on our way to one of the Greatest Centers of Spiritual Light and Power on this Planet.

Leto continued Her Instruction during the entire trip at Saint Germain's Request, that Bob and Rex might reach the point where they could come and go from the physical body consciously

and at will. By the fifth day of our journey they had become quite proficient, and like most young people, wanted to experiment often in using their newly-evolved Powers. This Leto would not permit.

"There must be a very great sense of Spiritual Honor and Integrity," She explained, "in regard to the use of these Mighty Powers of the 'I AM Presence'; for the Great Law of Being does not permit them to be brought into our outer use except where it is for the accomplishment of permanent good. We must be aware at all times that whenever we use the Life, Substance and Power of this Universe for the mere gratification or pleasure of the senses, only misery and destruction can be the result.

"The 'Mighty I AM Presence' works ceaselessly to build, release, express, and constantly expand Perfection in all Its Creative Activity, and permanently maintain Love, Peace, and constant Service to all. If the sensations of the body and the outer activity of the mind are permitted to run riot and interfere with the Divine Life Plan of the individual, disaster and failure are the result. The True Student of Light never, never uses his powers for the amusement and gratification of the senses, for exploitation of anyone's personality or to make money by producing phenomena.

"The Ascended Masters' Way of Life is to give,

give, give! First, Love and Adoration to His own 'Mighty I AM Presence,' and then expand Love and Perfection by pouring It out to everybody and everything. To send out Divine Love without limit, all the time, is the whole of the Law applied. If mankind could only understand this, the individual would realize that he must pour out this Flame of Divine Love before the Perfection which he desires can flow into his world and release–things–into his use.

"Divine Love is a Feeling, an actual Ray of Light which flows out from the Flame within the Heart. It can be sent forth so powerfully that this Ray of Light Substance is both visible and tangible. It is the most Invincible Power of the Universe. Use It, Beloved Ones, without limit, and nothing is impossible to you."

By temperament and training, Leto was a calm, sweet, marvelously poised teacher; but we were amazed at the Power She could release when She wished to impress a certain Understanding of the Law upon our consciousness. She was not accustomed to the boyish pranks of Bob and Rex, but She soon made it unmistakably plain to us all that no boyish pranks played any part in the operation of these Great Cosmic Laws.

"The Cosmic Law acts," She continued, "wherever the thoughts and feelings direct and qualify the energy; and It is no respecter of persons, places, conditions,

things, motives, ignorance, or knowledge, anymore than is a current of electricity running through a motor or dynamo. If you turn on the Power, it acts, according to the direction given it. This is a point that many students do not seem to comprehend, or for which they do not wish to take the responsibility; but the Truth of the Law is the only thing with which We are concerned.

"Our Work is to put the *exact Truth of the Law* before individuals. If they refuse to understand and obey it, then their suffering must increase–until the human side breaks its shell of obstinacy and selfishness and lets the 'Mighty Presence of the I AM' control all, according to the Perfection of Life.

"Therefore, never joke in thought, feeling or the spoken word about the Powers of the Godhead; for to do so–without exception–draws heartbreaking experiences into your world. Therefore, govern your outer moods with an *Inflexible Will* whenever you use the Powers of the 'MIGHTY I AM PRESENCE.'

"In order to manifest the greater Expressions of the 'I AM Presence,' the individual must become aware of and feel that 'Presence' within himself, and know that the very Life Energy which beats his Heart and breathes through his lungs is constantly flowing into his physical body from his Electronic Body. His Electronic Body is projected into space from the very Heart Center of the Cosmic Life of

the Universe, which you have heard us refer to as the Great Central Sun.

"This Pure Life Energy flowing ceaselessly into the mind and body of the individual is the Triune Activity of the Supreme acting everywhere throughout Infinity. It is Intelligence, Substance and Energy–the *One Universal Light* out of which comes all manifestation.

"It is subject at all times to the conscious direction and use of the individual with Self-conscious, individualized Free Will. The minerals, plants and animals do not have the control of this activity; for only the Flame of the Godhead is endowed with Self-directing Free Will.

"The more attention one gives the 'Mighty I AM Presence,' the more he will learn of the Vast Realms of Wisdom that stretch before him. The more he realizes the immense responsibility and limitless opportunity that are his, the more should he ask the 'Mighty I AM Presence' within his own Heart to teach him all things.

"If one wants Wisdom, he must turn his attention to the only Source of Wisdom–the 'Mighty I AM Presence.' Only by acknowledging the 'I AM,' can the first impulse be given which releases Its Wisdom into the outer use of the individual. It is by Acknowledgment, that the first wave flows forth to release It into the physical activity. Otherwise It remains forever quiescent within the Consciousness

of the 'I AM.' The Release of It can come only at the Command of the Self-Directing Will of the Flame of God.

"Learn to call forth these God Attributes and Activities from the very Heart of the Universe, and then use them in Love to bless all Life. If you will do this, there is no height you cannot attain and no gift you can ask of Life that Life will not release to you–when you understand what part of you says 'I AM' and you are willing to use all to bless Life everywhere with Love.

"Use, use, use, use the Understanding of the 'I AM Presence' that you now have, and persist in loving, in blessing Life everywhere; and you will open wide the Floodgates to Freedom–*the Realm and Activities of the Limitless*–the Natural World and Life of the Ascended Masters. Use the Wisdom you now have, and more will come as surely as your Heart beats and your mind thinks."

At dinner on the evening of the seventh day of the voyage, our Host announced that we were to reach Bombay late the next evening, but we were to remain aboard until the following morning. Bombay is one of the most beautiful harbors in the world; and as our yacht came alongside the pier, we were greeted by the Indian Master Chananda, to whom we were presented by our Host. We drove to the railroad station where we were conducted to a private car–every convenience being

provided for us so very graciously until we reached our destination.

It was here only that the outline of our stay in India was given. First we were to go to Calcutta and remain there two days while certain Work would be given. The trip to Calcutta was delightful, and although the days were very warm outside, we were not aware of it in the train. We passed many places of great scenic beauty, and shortly after leaving Bombay, we missed Bob. We started a search for him and, as we entered his compartment, realized he had left his body. Leto warned us immediately:

"Do not touch his body," She said, "for he has gone with the Master Chananda." For a few moments Nada had a hard struggle to command herself and keep at peace, for this was the first time Bob had gone forth from his body without previous preparation. However, she soon controlled her feelings and became at ease. In about two hours Bob came walking into the observation car in which we had all gathered. He was as serene as could be, but the rest of us immediately asked concerning his experiences and of course wanted to know where he had been. We could get him to reveal nothing, and finally he said:

"Each of us is to keep his experience strictly within his own consciousness until the end of our destination, and then we are to compare notes." That afternoon Nada and Pearl were gone about

two hours. The next morning Rex and I left our bodies. Each of us had experienced practically the same things, for we were being trained in accurate observation.

Shri Singh, the Brother who had taken Chananda's place, was delighted in every way, but very silent; yet when He did talk, it was always for some very definite purpose. The day we arrived in Calcutta, Chananda reappeared to us, and when we had become seated at dinner, with His magic, radiant smile, remarked:

"I congratulate each of you on the fearless way in which you are able to leave your bodies and go forth strong and free. It means great enlightenment for all, as well as the entering into a tremendous field of Service. Leto, My Sister, You are a most efficient Instructor, and Your Work with these students is remarkably well done. It is only in this Freedom, My Friends, that you are permitted to know, feel, and experience the Full Use of the Cosmic Rays. You are now in a position to receive the Full Benefit of your training with Us."

Electra and our Host of the yacht were silent but very careful observers of all that had taken place, and were no doubt being trained in the same way. We felt keenly the intensity and power of the Instruction, for everything we did had a definite objective and purpose. We arrived in Calcutta and drove rapidly for about half an hour, finally coming

to a stop in front of a beautiful building situated upon a prominence in what was evidently the best residential section of the city.

Chananda led the way into the building–which He told us was secretly owned and maintained by the Great White Brotherhood. The interior was a perfect dream of beauty, typical of many of the marvels in India. It breathed the Wisdom, Light, and Purity of ages of Perfection. We went immediately to the Council Chamber on the second floor where we found the Brotherhood already assembled. We noticed seats had been left vacant at the head of the table of honor. Chananda led the way to these seats and took the head Himself. It was only then we learned that He was the Head of the Indian Council.

As soon as all had assembled, the business part of the meeting was called, and some of the Ascended Masters were asked to give Their Protection to certain Englishmen in India who were sincere in their desire to bring about greater good. They also arranged for Protection to be given a group of lesser Brothers whose desire to do right was sincere and who were giving good service–but who did not always use the greatest discrimination in the outer activity because their zeal exceeded their wisdom.

After the meeting we were presented to all the Members and spent a delightful social hour. We

motored back to our private car and found it had been run out on a spur of track into surroundings that looked like a flower garden–with a beautiful fountain playing just outside the windows where we dined. We commented on the ability of Chananda to have the beautiful always expressed to us, and with one of His smiles that ever gave one the sense of sunshine, He replied:

"It is really much easier to express the beautiful, because it is natural and the true expression of the 'Mighty I AM Presence' within everyone. When anyone truly accepts this Glorious 'Presence' and feels It as the Godhead doing all things through and for him, the rest of his activity must conform to Its marvelous Beauty and Perfection. The Full Acceptance of the 'Mighty I AM Presence' by the individual always commands and governs all outer experience harmoniously. It is only when one *truly and fully* accepts this Glorious 'God Presence' within himself that he becomes a True Messenger for Divine Service.

"Then as the Perfection of the 'Mighty I AM Presence' begins to be released in a greater degree through the outer activity, all the courage and assurance comes through; for at last the personal self sees and feels the 'Mighty Inner Presence,' knowing Its Full Power, Majesty, and Mastery."

The next day we were taken to one of the ancient Temples in whose subterranean chambers is going

on a Work undreamed of by the outer world. That night at dinner Chananda told us we were to leave for Darjeeling early in the morning, and that we were to eat breakfast en route. The scenery was gorgeous, and the sensation of watching the giant snow-capped mountains come closer and closer as we gradually climbed in altitude was fascinating; but we soon began to feel the change, for we had risen more than seven thousand feet.

We arrived at the top of our climb just in time to see a glorious sunset in a very clear atmosphere. In the distance we could see Mount Everest and the other famous peaks of that glorious range. The majesty–towering presence of these mountains–and the mystery of the ages that shrouded their past made us all feel a deeper longing than ever to reach to the inmost Heart of the Great Eternal Wisdom, to feel ourselves a part of It, and to be able to pour forth Its Blessings to all mankind, that it might be happy also.

"I want you to stay here tonight," said Chananda, "and see the sunrise from this particular spot, as it will be many years before we shall see it again–in cooperation with a certain Cosmic Activity that is taking place at this time. It is the first time in seventy years that these two activities occur simultaneously."

At three o'clock we arose and mounted our little ponies which took us still higher up the mountain

to a point where we could see the sunrise to best advantage. We reached this place just as its Radiance began to grow brighter. In a few seconds Great Rays of Light of every conceivable color began to shoot into the sky and continued for fully ten minutes. It was as if Light Itself rejoiced in the Mighty Presence of Life.

Then as the Great Golden Disc came into view, a Quivering, Sparkling Radiance pierced our flesh and penetrated into the very centers of our bodies. Never before had we experienced any such sensation from sunlight. The vivifying effect lasted for hours, and the glorious feeling the beauty of the scene left with us still floods over me as I recall the experience. One knows after such an occurrence that the Mighty Master Intelligence of the Universe is still at the helm and guides the destinies of our Earth and humanity, notwithstanding all outer appearance of chaos to the contrary.

"You have felt within your bodies," said Chananda, "a slight Action of the Mighty Cosmic Rays which have been directed to Earth at the present time–by Great Cosmic Masters who are giving Transcendent Assistance in this cycle to humanity in its outer struggle. Their Outpouring is a Radiance of Love, Courage and Strength to the race which sustains the individual during this period of change and so illumines his Inner Bodies that It enables the 'Mighty I AM Presence'

to release more of Its Perfection into and through the outer self.

"Those of you who are to receive Training in the use of these Rays will be enabled to focus Great Streams of Light Essence and consciously direct them–pouring forth Blessings to mankind through Great Currents of Healing Power and Harmonizing Streams of Love. Few are ready to be taught how to control and use these Mighty Rays, but all for whom it is possible are being prepared now. These Great Streams of Condensed Light and Pure Substance can be drawn, qualified, and sent forth again to produce a definite result as easily as a searchlight reveals the scenes it passes over.

"Come now, we must return and go to the home of the Chief of the Council at Darjeeling." We went back to our ponies which took us to Darjeeling, and thence were driven by auto to a beautiful home built upon one of the lovely hills surrounding the city. The grounds were filled with stately trees, and the view over the country that lay below us was one of the most beautiful on Earth. We were ushered in and presented to the Head of this Branch of the Great White Brotherhood.

He was a tall, handsome man with piercing dark eyes that seemed to look clear through one; but when there was no intense feeling being expressed, they were as soft as those of a fawn. To our surprise,

He did not wear a turban, but His soft, beautiful, dark brown hair waved slightly and fell to his shoulders. He was very gracious and gave us a most loving welcome. A Glorious Peace clothed Him and His surroundings filling the entire place with His Wonderful Radiance.

He inquired about our trip, asked if we had enjoyed the sunrise from the mountain, and invited us to dine with Him that evening. He talked very freely and told us many wonderful things about India. He repeated for our enjoyment many legends about the Himalayan Mountains, and one in particular about the Holy Caves within the Heart of this Mighty Range. His Discourse was fascinating and instructive beyond words.

"Some of these caves," He said, "you shall see while you are in India, for I know you are interested in the ancient records of mankind; and in one of them the most ancient records upon this Earth are still held in safekeeping. These records are not brought forth into the use of the outer world at the present time because of the lack of spiritual growth and understanding of the people. The race has a restlessness and critical feeling that is a very destructive activity, and these feelings find vent through fanatics of various kinds whose understanding of Life and this magnificent universe is so narrow and childish that they seek to destroy whatever does not agree

with their own petty notions of what has been—or ought to be—the Infinite Plan of Creation.

"It is this misguided, selfish ignorance in mankind which has been responsible for all inharmony down the ages, for the destruction of records that would throw Light upon humanity's many problems. It was this unbridled vicious feeling that destroyed the wonderful library at Alexandria and the marvelous records of the Incan civilization.

"Yet notwithstanding these former losses, the Ascended Masters of the Great White Brotherhood have always foreseen such destructive impulses and have withdrawn all important records of every civilization and preserved them, then left the less important to be destroyed by the vicious impulse of the vandals.

"One day, when humanity is prepared for it and it is positively safe for these records to be given to the outer world, there will appear in a central location a marvelous library—not made by hands—where these records will be available, and those in the outer world who have received the necessary credentials may see them.

"When mankind becomes enlightened enough to cease generating the vicious destruction it has been expressing up to the present time, this will be done. Mankind, through its irritated, destructive feeling and powerful thought force, has peopled the

visible and invisible with thought-forms of intense passion, hatred, fear, and destruction. These fasten themselves upon the human beings who generated them, and also upon others who, because they have a similar feeling, open themselves to this malignant force.

"Humanity has almost no understanding of what happens when the personal self sends out a feeling of irritation, anger, hate, envy, jealousy, criticism or condemnation. The feeling side of human nature is the feminine activity of consciousness within every individual. The thought is the masculine activity of the mind. A thought never becomes dynamic in the outer life until it passes through the feeling body. The feeling condenses upon the thought pattern the atomic substance of the outer activity of Life. In thus passing through the feeling body, the thought becomes clothed, and thereafter exists as a separate living thing outside of the individual's mind.

"There have been platitudes by the million written and preached about Divine Love being the Law of Life. But who knows how to generate the Feeling of Divine Love consciously and at will to a limitless degree–and put It in the place of irritation, hate, *et cetera,* as a wave of actual force and substance in one's own emotional body? Such a thing is not only possible, but must be done if human beings are to stop suffering and express

Perfection. The personality cannot be permanently harmonious except it be kept filled with Divine Love–consciously generated.

"If mental statements of the Law of Life and prayers were the way to Perfection, Happiness and Freedom, the number of sermons preached on this Earth should have perfected and illumined a hundred planets long before this. If prayers–which, by the way, are generally a series of 'I wants,' or 'O Lord give us'–were the way to Freedom from limitation, the prayers that have been uttered in this world should have perfected a dozen humanities.

"I do not say that prayers have not brought good; they have. But prayer should be a quieting of the intellect and a stilling of the feeling, that the personality might *feel* the Outpouring of the 'Mighty I AM Presence' and receive the Response from within. Prayer should be an Outpouring of Love and Gratitude to the 'Presence' for the limitless opportunities and good contained within Life.

"The outer world likes to flatter its vanity by the feeling that it has the ability to accomplish great things; but so far as the control and Perfection of the feeling is concerned, the outer world is still in a savage state. Human beings sting others as well as themselves through vicious feelings just as surely as does the scorpion. The predominant feeling in our modern world is terrifically vicious when

personalities are opposing and criticizing those who disagree with them. So-called civilized people commit murder every day of the week through sending out angry and irritated feelings that kill the higher impulses in others.

"It is the feeling of the race that needs to be redeemed and saved from its own self-generated destruction. Until the individual understands the need of Self-control in regard to his *feeling*–in the waking consciousness–it is impossible to maintain any permanent forward movement of a constructive nature. All accomplishment that is not attained through the Feeling of Divine Love is but temporary, for Divine Love alone is the way to Permanent Perfection.

"It is pitiful to see how for centuries the human race has occupied its time and used its energy to build up things through thought, and at the same time tear its creation to pieces by inharmonious feelings. It is childish and is a stubborn refusal to fulfill the Eternal Plan of Perfection.

"The hour is at hand when the Great Cosmic Law which governs this system of worlds is releasing a tremendous Expansion of the Light of the 'Mighty I AM Presence' throughout our group of planets, and whatever cannot accept the Power of that Light is consumed thereby. So mankind need no longer fool itself with the idea that it can continue

to generate destructive feeling and survive. The end of the former dispensation has come, and all things are made new. Let him who runs, read–that he may learn the Way of Light while there is yet time.

"There is no evil anywhere on this Earth or any other except that which human beings have generated themselves sometime, somewhere. Most of it has been done through ignorance, but a great deal has been done willfully by those who ought to know better and who are fully aware of their wrongdoing. The individual who uses his intellect to foster destructive activities in the New Cycle into which we have recently entered must face his own destruction, for its recoil is inevitable. It will be swift and definite, for the present activity is expressing such speed that the recoil is many times only a matter of hours, weeks, or months at most, where heretofore it has been a matter of years.

"The Ascended Masters work ceaselessly to have humanity understand and see this; and the work of Our Messengers is to get this Truth into the consciousness of mankind as clearly as possible.

"It is now nearly dinner time. Attendants will show you to your quarters. After refreshing yourselves, return here, and we shall dine." Later, dinner was announced by beautiful chimes. Our Host offered His arm to Nada and led the way into a magnificent banquet hall, which must have seated

fully five hundred people.

"This is really our Council Chamber," He explained. "Later this evening all the members of the Darjeeling Council will assemble here." We enjoyed a most delicious dinner while our Host entertained us with an endless fund of information. As we were leaving, He asked to be excused as He had work to do before the Council met.

"Our Host," said Chananda, in whose care He had left us, "is a Brother of Great Wisdom and Power, but the very embodiment of gentleness and kindness."

At nine o'clock He returned, and offering His arm to Leto, led the way into the Council Chamber where two hundred Members of the Great White Brotherhood had already assembled. He took His place at the head of the main table, and seated half of our group on His right and the other half on His left. He called the meeting to order, and Their Work began. We were thrilled again and again as we listened to the solution of many important world problems–especially some of those which were holding the attention of Europe at the moment. He then assigned certain duties to many of the Brothers.

The meeting adjourned and we were presented individually to many of the members. We had been enjoying the social activities for some few moments when I noticed that Rex was laboring under the

strain of some intense excitement. He watched one of the members closely for some time, and then went quickly and boldly up to our Host. He informed Him there was a spy in the room and pointed out the individual. For an instant it seemed as if the power within the Chief would crush him, but Rex was clothed in a Divine Dignity that never flinched.

"That is a grave charge," said the Chief. "It will require proof."

At that moment the man in question came up to Pearl and realized instantly that he was being watched. He reached into the folds of his robe, drew something forth and raised it to his mouth. Pearl seized it as quick as a flash; and Bob, who stood near, with one leap pinned the man's hands behind him in a grasp of steel.

"Search him!" said Pearl, as our Host stepped forward; and Rex, without waiting for authority from anyone, went through the spy's clothing like lightning. He found all the proof they needed of his activities as a spy. As the Chief came forward and saw the name on the papers Rex handed him, he was surprised indeed; for the spy, who was an educated Afghan, had been sent into India by a government that breeds only destruction and had ferreted his way into the outer ranks of this Council to obtain information which he had been using against them. At a signal, one of

the Brothers stepped forward and led the spy from the room.

"Brother Rex," said our Host with a gracious smile, "you have served the Cause of Light well and rendered our Brotherhood a Blessing of tremendous import. There has been a leak in some of our activities recently. Tell me, how did you become aware of his operations? He has been deceiving us very cleverly."

"My attention," replied Rex, "was drawn to him by the Inner Power of my 'I AM Presence,' and as I watched his eyes, I knew he was practicing some kind of deception. It all happened so quickly I hardly knew in the outer activity of my mind what was occurring. If it had not been for Pearl, my Twin Ray, we would have been too late."

"Outwardly, you three may not have known what it was all about, but the 'Mighty Presence of the I AM' has acted with unerring Decision. You see, My Beloved Ones, how the Twin Rays can act with the speed of lightning in perfect unison when the Great Inner 'Presence' is allowed to have Full Control.

"My Sister and Brother," He continued, as He extended His left hand to Pearl and His right one to Rex, "you will be able to do splendid work for the 'Mighty I AM Presence,' the Great White Brotherhood, and humanity. I bless you for that Service."

"What is to be done with the spy?" asked Pearl. "The man knows what he must do," replied the

Chief. "Let us forget it ever happened. We shall always remember your Service to the Brotherhood." By this time most of the guests had left, so we bade our Host good-by, for we were leaving Darjeeling in the morning. We did not stop again at Calcutta but went directly through to Benares, the Sacred City of the Hindus, and one of the oldest cities in India. As our private coach drew into the railway station, we became keenly aware of a sincere devotion in the very atmosphere of the place.

Imagine our joy when almost the very first person we saw was our beloved friend Alexander Gaylord, who had arrived in Benares only a few hours before. Rex, Bob and I made a dash for him as soon as the train stopped. When his Friend, the owner of the yacht, came up to greet him, they looked into each other's eyes with a deep Love and Understanding born of centuries of association. As Leto, Gaylord's Twin Ray, approached, he extended his arms and held Her close to his Heart. Chananda then presented Electra.

"We are to be guests this evening of one of the oldest Councils in India," He said. "It is to be purely a spiritual feast–devoted entirely to the guests. All Members of the Order are to wear their Seamless Robes. I shall return for you at six o'clock." We returned to our compartment and prepared for the evening banquet. When Chananda returned He was accompanied by his sister, Najah, a beautiful young

girl–or at least so She appeared–to whom we were presented. We were driven to a beautiful building on an elevation overlooking the city. As we approached the entrance, involuntarily we expressed our joy at the beauty and exquisite surroundings of the scene we gazed upon.

As we passed through the entrance we entered a rotunda of pink marble veined with soft green, in which there were seven white marble pillars. The effect was warm, delicate, and very beautiful. Najah led the way to the dressing rooms where we donned our Seamless Robes, and then conducted us toward a great arched doorway that opened at our approach, admitting us into a large magnificent council chamber made entirely of white marble and elaborately decorated in gold. There were no lighting fixtures in the place, yet it was filled by a soft White Light that was wonderful. This great hall seated fully five hundred people, some two hundred having already arrived.

"We are to be honored tonight by three Divine Guests," announced Chananda, as He presented us to those assembled and we took our seats. "Let us meditate upon the Great Principle of Life–the 'Mighty I AM Presence'–until music shall signal the close of our meditation." Presently the soft tones of great bells stole gently upon the air, and as we raised our heads and looked toward the head of the

table where the three vacant chairs had been, we could scarcely repress our exclamation of joy and surprise as we saw our beloved Saint Germain at the head of the table—on His left Nada Rayborn, and on his right, Daniel.

Everyone in the room rose in honor of these Blessed Beings, as the guests of honor. Our impulse was to rush to Them in greeting, so great was our joy, but something in each of us controlled all outer activity, and we bowed low in quiet dignity and loving respect.

"I present to you our Beloved Brother of Light, Saint Germain," said Chananda, addressing those assembled, "and His two Guests, Nada and Daniel Rayborn, who raised their bodies as His Students in America. Our Sister raised Her body after what to the outer world seemed death. Our Brother Daniel accomplished His Victory without coming to that point." At the close of this Explanation, the Light within and about Chananda blazed forth in a Dazzling Radiance as He continued:

"Our Blessed Brother and Honored Guest Saint Germain will have full charge of the evening and will conduct the rest of the work." Saint Germain, in His usual Loving Dignity, bowed in Acknowledgment of the greeting and replied:

"We shall have a banquet tonight served from the cosmic kitchen. Many of you have heard of

these Activities but have not seen or experienced the substance from which is produced everything the Heart Desires.

The beautiful banquet tables had jade tops, so no linen was supplied to cover their magnificence. Saint Germain asked all to bow their heads in loving acceptance of the great Abundance and Outpouring from the "Mighty I AM Presence." As He finished His Acknowledgment to the Source of all Life, the service for the meal began to appear. The plates, cups, and saucers were made of pink china decorated with delicate moss roses. The silver knives, forks, and spoons had carved jade handles; and tumblers of carved jade filled with a golden sparkling nectar appeared at the right hand of each guest. Then followed a tiny loaf of bread about two by two by four inches, appearing upon each plate. The food for each person came individually as if it had been ordered separately, for everyone received that which he most desired until all were served abundantly and were satisfied. Next came many kinds of luscious fruit in great golden containers, and for dessert a kind of fruit-whip appeared in crystal dishes. The entire banquet was served without the clatter of a single dish, and at the close Saint Germain arose and addressed the guests.

"The Great Ascended Masters," He began, "have wanted you to see, know, and partake of food

which is produced direct from the Omnipresent Cosmic Substance. This Substance is what has been explained to you as the Pure Electronic Substance which fills Infinity, and out of which all forms are created and all manifestation produced. This Limitless Substance about you everywhere is yours to manipulate, to mold into form without any limit whatsoever when you hold close enough and sincerely enough without interruption to the 'Mighty I AM Presence' in you. This Glorious Angelic Being and Power which is the *Real You*– who is constantly pouring Its Energy into your physical brain and body, is *God Individualized* at your point in the Universe to mold this Cosmic Substance into whatever form you decree.

"To the human beings who do not or will not recognize the 'Mighty I AM Presence,' the Use, Joy, and Freedom of this great bounty by direct precipitation remains unused because their feeling of fear, doubt, hate, anger, selfishness, or lust builds an impassable wall around them, shutting out the Power and Perfection of the 'Light' which would otherwise come through.

"The Great, All-Wise Creator of Perfect Form everywhere throughout space builds those forms according to the Pattern of Perfection, which is another name for the Law of Divine Love. This always means the orderly, harmonious way of

attraction. The feeling of fear, doubt, et cetera, is a rate of vibration which shatters form and scatters substance; hence, is diametrically opposed to Love, Harmony and Order.

"To the individual who acknowledges the 'Mighty I AM Presence,' takes a determined stand with It, and continually maintains a feeling of Divine Love in the personality–to him all that you have seen done tonight is possible of accomplishment right now in this lifetime. This banquet has been given for your encouragement, enlightenment, and strength.

"*The power of precipitation used here tonight is within every individual; I assure you it is no myth.* Turn to your own Mighty Master Within; this will enable you to acknowledge the 'I AM.' Continually turn to It, that Its Mighty Power may be released and the Ascended Master Wisdom come forth–directing your every activity. Break down the self-created barriers that have bound you and see what an avalanche of good the 'Mighty I AM Presence' stands always ready to pour out into your use at your conscious command when you charge your feeling with Divine Love and maintain order in the temple–your mind and body. Our good Brother Daniel Rayborn has something which He wishes to tell you."

As Rayborn arose, we felt a thrill pass through

the whole room; and for more than thirty minutes, He poured forth Marvelous Wisdom with a Force that seemed to burn the very Words into the consciousness of everyone. He spoke with a conviction that could only come from One who had more than human power. Chananda said a few words in praise and gratitude to our wonderful Guests, asking Them to be with us again soon. Saint Germain then arose and continued:

"Most Gracious Host and Friends," He began, "I wish to present the entire service used at this banquet to your Council for future use. Observe!" Instantly all the used service began reappearing on the table as clean and fresh as if it had never been used. In the midst of this joyous experience a beautiful vase of carved jade filled with wonderful pink roses appeared on each table.

"This comes to you, Our Beloved Friends," He continued, "with the Love and Blessings of the Ascended Host. May it ever be a fond memory to you all." Then with one word–"Dismissed"–the banquet was over. As quickly as our dignity permitted, we hurried to greet our Beloved Saint Germain, Nada, and Daniel Rayborn. The parents held Their children long in Their Loving Embrace–Nada the mother holding Bob in Her arms, and as She released him, said:

"My Blessed Children, I congratulate you for

your Love and Devotion to the Light. Your Reward will be very great, for at the end of the two-year period of your probation, a Glorious Surprise will await you. Until then We shall see you often at your destination in India. We have Work to do now so I must say good-night and God bless you." Then bowing to Chananda and Najah, They disappeared with Saint Germain.

We thanked our Host for the wonderful evening, and it was then that He told us we were to leave early the next morning for our destination, as we had remained as long as the work permitted. We returned at once to our private car, and as Chananda bade us good-night, gave directions to breakfast en route, saying that He would return before we reached Simla.

We left at seven o'clock the next morning, hoping to stop at Benares, Lucknow, Delhi, and Simla. We received direction to lose no time but to go direct to our destination in the Himalayas where we were to make our home for many months–and nothing else was really of importance but obedience to that Command. *Unless one is seeking the Release of the Light within himself, no one can fully understand and appreciate the feeling that nothing is really important but "All of God" and those experiences by which the Light is released.*

Gaylord was to meet us at Benares on our way

north and remain with us during the rest of our stay in India. The country we passed through was very beautiful. We discussed what modern equipment could do for India, and through it she could become the garden spot of the world. Her countless rivers could make it into a Perfect Paradise; for India is beginning to feel her wings again, and her industries will rise once more. She will return to that majestic glory she has reached several times in her past, and regardless of the crushing influences that have preyed upon her in the last two or three hundred years, *India's great problem will yet be solved—in Perfect Divine Order*. Her teeming millions will be given the opportunity to express the Light and God Presence that is within them.

There is a Great Cosmic Wheel of Progress which affects our entire Earth. It governs the Expansion of the Light in the entire system to which this planet belongs. When that Wheel turns to a certain point—and it is nearer than mankind realizes—it will focus certain Rays of Energy upon the Earth. Then the resistance to greater good that is set up by puny, selfish personalities and unawakened mentalities will be as chaff before a mighty wind. The efforts of those human beings will be useless, and they will be compelled to obey a Power far greater than their own selfish cravings.

The day passed quickly, and after dinner we

gathered in Gaylord's compartment, asking him to tell us something of his own experiences. After considerable coaxing and a promise on our part not to divulge what he revealed, he described briefly one of his embodiments in South America during the time of the Incan civilization. We listened spellbound for more than three hours to the experiences of that Life, during which Leto was also in incarnation. In one part we were so fascinated by his portrayal and had so entered into the activities with him that we were all in tears before we realized it. His narrative was one of the most thrilling to which I ever listened, and at the end he told us he had in his possession the ancient records in the Incan characters to prove the principal experiences of that Life. These were of such an heroic nature, and because of the stand Leto and he had taken for the Right in that Life, the Release of the Light within both of them was revealing Its Freedom now.

The next morning Chananda greeted us and explained that He had made arrangements to take us from the train to the end of our journey at once.

"You must arrive at your destination," He announced, "before the Cosmic Cycle reaches a certain point." As we left the train at Simla, Chananda led the way to a compound some distance farther. It was surrounded by a high wall, and as we entered the gates, a caravan stood waiting for us, ready to leave

immediately. The attendants brought our luggage, and we mounted small mountain ponies. Chananda gave the command to depart at once; and due to His mysterious influence, no one paid the slightest attention to us as we passed out of the city.

We soon entered the mountain fastness and for quite a while followed a beautiful stream. We kept on ascending for some distance and then suddenly, passing behind a great wall of rock extending from the side of the cliff, we came to an opening leading directly into the side of the mountain. Chananda led the way without a moment's hesitation, and soon the entire place became illumined by a Soft White Light. From all appearances, we must have followed the bed of an underground watercourse.

We entered this underground tunnel at noon and continued until four-thirty in the afternoon. As we emerged we found ourselves in a beautiful sunlit valley about four miles long and perhaps two miles at the widest point, with a lovely stream running through the center of the entire length. The climate was semi-tropical, and as the valley ran from east to west, it was filled with sunshine the greater part of the day. The north wall was a sheer cliff hundreds of feet high, and at the west end played a waterfall that looked like a bridal veil. The most rare, luscious fruits and vegetables grew in lavish abundance. I was wondering whether this was the

place that Gaylord had described in telling us of his former experiences in India, when he answered my thought.

"No, this is not the place I mentioned," he said.

"We are far from there." As we came nearer a great building, I called out involuntarily to the others, "This is the Palace of Light!" And much to my surprise, Gaylord replied, "Yes, that is true. It is so known by all who enter this Retreat."

As we came to the entrance of the grounds, the beauty and grandeur of the entire setting sent a thrill through us of Love and admiration for the place. We dismounted, and attendants took charge of the caravan, leading the animals to a group of smaller buildings half a mile away across the stream. Chananda led the way to the entrance, and as we came nearer, the beauty of the building held us spellbound, so magnificent was its architecture and workmanship. It was built of pure white onyx, four stories high, having a great dome in the center. As we came up the steps, the tones of a beautiful bell announced our arrival and welcomed us as guests of the Retreat. In a moment, the great door opened, and Najah stood there to greet us. Chananda gave us one of His magic radiant smiles in enjoyment of our surprise.

"This is Our Home," He commented happily. "We welcome each one of you; for it is your home as long as you desire to stay and whenever you wish to

come. You will find silk Robes and undergarments in your rooms," He continued, "which you are to wear while here. They will not soil nor wear out, so have no fear in wearing them."

We were shown to our quarters on the second floor, overlooking the valley. They were a dream of beauty–exquisite, comfortable, and provided with every possible convenience and luxury. We refreshed ourselves for dinner and put on our Robes as requested. We could not refrain from comparing them with the ones in which we had been traveling. The fabric of our wonderful new Garments was a precipitated material of such quality as has never been produced by any physical means of manufacture. The fabric was unlike anything in the outside world. It was shimmering with a Dazzling Radiance, thick and soft as down inside. Each Robe was worn with a girdle of the same material, heavily jeweled, and Sandals of beautiful design were also provided to match each Robe.

The moment we placed these Robes upon our bodies a thrill of lightness passed through us making us feel as if we were about to float into the air. The effect was amazing and instantaneous. We were happy beyond words as we contemplated the wonder of the whole experience and the marvelous Power of these Blessed Ascended Masters–who are so Transcendent in Their Power and yet so humble

and so natural in Their Loving Association and Friendship. While we were admiring our wonderful Garments, the chimes sounded to announce dinner. We went at once to the reception room on the first floor where the ladies of our group awaited us in similar Robes. Chananda offered His arm to Pearl and led the way to what He said was Their private dining room. It was large enough to seat at least forty people in great comfort and was magnificently decorated in white and violet. To our amazement we noticed that the chairs were similar to those in the Diamond K Ranch in America, except that they were upholstered in violet silk velvet instead of blue.

Toward one end of the room stood an enormous teakwood table, seating at least twenty people, heavily inlaid with a substance that looked like gold but was in reality a precipitated material. Toward the other end of the room was a white onyx table of the same size, the top of which was inlaid in violet and gold–it too being a precipitated substance. Just inside the position where each plate would rest was a white rose with a delicate pink center–also inlaid on the violet part–and in the center of the table were two clasped hands of most beautiful gold inlay. It is utterly impossible to put into words the beauty and Perfection of these things which are precipitated; for it is easy to produce effects entirely

impossible in any other type of substance.

We took our places around the table, and Chananda poured forth an Adoration from the depths of His Heart to the Supreme Presence of Life. We in the outer world have no concept of the Adoration these Great Ascended Masters constantly pour out to the Great Giver of all Good.

Presently two dark-skinned attendants appeared with the service, following with a dinner of wonderful nut-loaf, luscious salad, hot rolls, and for dessert, the most delicious fruit pudding I have ever tasted. The drink served with the meal was what Chananda called a golden wine. It was not intoxicating, but wonderfully invigorating.

"We shall breakfast at nine and have dinner at half-past five, except on special occasions. All are to retire not later than eleven and arise at six o'clock in the morning. There will be containers filled with fresh fruit and honey cakes in your rooms every day, if at any time you should feel hungry.

"You are here to enter upon Definite Attunement and Work that will fill your Hearts with great joy; but at times it will demand your utmost strength. Tomorrow I shall show you the palace. I have received a communication announcing that tomorrow evening we shall be honored by the Presence of the Ascended Master Council, and as the Guest of Honor we shall have the Great Divine

Director. He is seldom seen, I assure you, even by those who are far advanced. I feel some *Tremendous Special Dispensation* is at hand–so tonight retire early, and you will know for the first time what it means to rest in the *Embrace of Light,* a Light which is rarely seen. Come now, and we shall go to the Chamber of Music, for Najah has heard of your splendid voices and would enjoy hearing you sing."

When we entered the music room, we saw that their organ and piano were exact duplicates of those used in Saint Germain's Retreat at the Cave of Symbols in America, and there were also several small musical instruments and a beautiful harp. Najah seated herself at the piano and ran Her fingers lightly over the keys, the instrument responding like a living thing to the magic of Her touch. Nada and Rex sang their "Arab Love Song," and the quartet followed with several numbers which we all greatly enjoyed.

"Beloved Friends," said Chananda, "you are wonderfully blest with God's Marvelous Gifts, and through them you will be able to reach and bless many in your service to mankind."

We asked if They would play for us, and They assented graciously. A glance passed between Them, and Chananda stepped to the organ, seating Himself at the instrument. They sat in meditation a few moments, perfectly motionless, and then

began. The vibrations in the atmosphere around us commenced to increase. Then the Music surged forth like an ocean of sound, as if a Great Soul were entering the Ecstasy of Eternal Freedom and the Legions of Light from out Infinity were welcoming the Ascending One as a New Sun rising within space.

They modulated from one number to another until They had played four pieces, and by the time They finished, it seemed impossible to move, so great was our attunement and happiness. We tried to express our appreciation, gratitude and joy but it was impossible to put our feeling into words. Najah understood and said humbly:

"The 'Mighty I AM Presence' does all things when there is no longer any obstruction between the human and the Master Self; for the outer is raised into the same vibratory action as the Inner Light."

With a joyous good-night and blessing to each other, we went to our rooms. I wondered if I should be able to sleep at all, so raised was the vibratory action of my body, but I dropped off before I knew it. I awakened in the morning with a very vivid consciousness of having gone forth in my Finer Body, and in doing so, entered the mountain back of the Palace of Light through a secret, massive door. I then entered a series of caves where there

was evidence of a very ancient civilization–very, very ancient–beyond anything of which we had ever known in the outer world. When we met at breakfast, I asked Chananda the meaning of my experience. His face lighted up with that wonderful smile.

"My Good Friend," He explained, "you have seen a Great Truth, and I assure you it is very Real. At the appointed time you shall see with your own eyes what you have seen in that experience with the Inner Sight. Your experience convinces me of the great importance of the visit from Our Guest of Honor tonight. Truly, My Beloved Friends from America, you are ready for the full Light. I only await the Command of My Superior to unfold to you many real wonders.

"Each one of you has gone through innumerable experiences, the full memory of which is about to be revealed. You are ready to leap forward in a way that will astound you. Come now, if you are ready, and I shall show you many of the marvels that we have in this Retreat."

We went first to the dome in the center of the building; and instead of it being an ordinary observatory, we found it to be what Chananda called a Cosmic Observatory. It was filled with many instruments of which the scientists of the outer world know nothing. One of these was an Absorption

Reflector which drew the image of the desired object through the Etheric Rays and then reflected it to the observer. It was a simple thing in its construction, but not in the quality of the substance of which the instrument was composed. Chananda explained at this point that the Etheric Rays and those which are being called the Cosmic Rays by the scientists of the outer world are not the same.

There was another piece of mechanism called a Light Projector, by means of which it was possible to send either a Life-giving or a disintegrating ray to an incredible distance. There was a radio-television so Perfect that it is the marvel of all ages.

After observing several other inventions in this room we went downstairs to the next floor where we saw a great council chamber seating seven hundred people. The walls of this room were of a beautiful milk-white onyx, with the most marvelous blue trimmings. On the floor was a thick carpet of the same wonderful blue. There were no windows, and the room occupied almost the entire floor of the palace. Here again were beautiful chairs like those we had seen in the dining room, but upholstered in the soft rich blue that trimmed the rest of the room. At the side was a dais on which stood an Altar and a Golden Chair. It was the most perfect thing one could imagine. The main part of the Altar was Precipitated Gold, but the top was made of another

precipitated substance, the shade of blue that borders onto violet–the substance itself emitting a Silver Radiance because of its luminosity. Around the edge was a border of Gold about two inches wide. The Chair carried out the same designs as that on the Altar; the seat was upholstered in blue and had a high back extending well above the head.

We then proceeded to the rooms on the ground level which were devoted to electrical and chemical laboratories for experimental purposes. We were passing about the central point of the west wall on this floor when I stopped suddenly.

"Here is the place where I entered the caves last night," I said to Chananda, "while I was in my Finer Body"; and with a very intense, serious expression on His face, He asked:

"Do you see any door or entrance?"

"No," I replied, "but it is there, and I know it." Then with a smile, He looked at me rather quizzically. "You are right," He remarked. "It is there, and I am glad you are certain in your convictions. Be patient, and you shall see all."

We then returned to the great reception hall. "How is it," I asked, "that other students and people do not see the entrance to this place and find their way into such a paradise?"

"If you were to go to the entrance," He replied,

"you would not find an opening of any kind. Yesterday after we entered, it was sealed again so that it looks now like solid wall, and so far as Protection is concerned, it is as impenetrable as the wall of the mountain itself. For more than twenty centuries this valley has remained just as you see it today.

"Man can, by the use of the Light Rays, or Cosmic Currents of Light through the 'Mighty I AM Presence,' forever annihilate time, space, age, inharmony and limitation of any kind. Discord is really the first wave, or starting place of limitation. With Perfect Harmony maintained in the individual's consciousness, the Door to God's Kingdom of Perfection–the Activity of Life without any limitation–stands wide open forever."

"Now come with me," He continued. "I shall probably strain your credulity considerably, but you shall learn much if you so desire. All of you have heard about the *Arabian Nights Tale* of the Magic Carpet. I shall show you that the legend is true."

He led the way out of the palace onto a beautiful lawn in front where we saw what looked like a copper plate about fourteen feet square. The two youthful attendants brought out a gorgeous Persian silk rug of a most wonderful golden yellow. They covered the plate with it at Chananda's direction, and then He inquired:

"Is anyone afraid to come with me?" No one

answered, so we stepped upon it and gathered around Him near the center. He immediately engaged us in a very animated conversation–which was quite unusual for him–and in a moment we all began to feel lighter and lighter. We glanced down, saw that we were leaving the Earth, having risen about twenty feet in the air, and were floating smoothly along in the atmosphere. We continued to rise until we were about fifty feet above the ground, and then floated near the waterfall–which was glistening and glorious in its beauty. We continued on drifting out over the valley and enjoying its enchanting loveliness.

"Now if you are ready," continued our Host, "we shall view the mountains." We continued to rise until we were fully eleven thousand feet above the palace. The scenery that lay below us was perfectly entrancing, and the peaks of the snowcapped mountains glistened in the sunlight like diamonds.

We became absorbed in the view and Chananda's conversation; we were not aware of temperature or transportation, yet we were comfortable and did not feel any change of either altitude nor climate, our Host holding us all in His Aura, which controlled everything within it, thus causing all to experience only His own Glorious Perfection.

We circled around, returned to the palace grounds, and descended. As we stepped off the

plate, our Beloved Host laughed heartily at our comments and surprise, enjoying greatly our exclamations of happiness.

"My Beloved Friends," He explained, "I assure you there is nothing mysterious or unnatural in what you have just experienced. It is all according to simple immutable, Eternal Law which every individual may set into action without any limit–if he but will."

"Why did we not feel the altitude?" someone asked.

"In God's Perfect Kingdom, which means the 'I AM Presence,' wherein there is *only Perfection*–the Feeling of Harmony–there is no awareness of change either in altitude or temperature. Thoughts of Perfection and the Feeling of Harmony are simply rates of vibration that consciousness decrees into substance, which give to energy those qualities that manifest as Perfection. Perfection cannot exist without Love, for It is the highest rate of vibration in the Universe. It is the highest and most powerful Activity and controls forever all that is less than Itself.

"Although you still have your physical bodies, while you were on the rug and in My Aura, you could only have the conscious awareness of that Perfection which My Aura is at all times; for all Ascended Masters send out only the Vibration that

is the Tone of Divine Love. Hence all else must become obedient to Our Consciousness and the Perfection of Our Love.

"The next step for you will be to learn how to turn the Cosmic Key and light your way wherever you wish to go. The Key is within you. The Light is within, and also all about you. Now return to your rooms and meditate upon the Dazzling, Fathomless Mind of God–the 'Mighty I AM Presence' which is within you." We obeyed, and never have we found meditation so easy and so wonderful.

At half-past five, beautiful chimes sounded throughout the building announcing dinner. Chananda sat at the head of the table and Najah at the opposite end. We became perfectly still for about two minutes. Then an Oval of Golden Light with a shade of pink became visible and encircled the table, enveloping our heads through the entire meal. It produced the most wonderful feeling, and as we finished dinner, Chananda gave certain Directions for us to follow.

"Now return to your rooms," He said. "Lie flat on your backs with arms outstretched, and for an hour do not move a muscle. Then bathe, anoint your bodies with the Liquid Light which you will find provided for your use, and put on your Precipitated Garments."

We obeyed, and when the Liquid Light touched

our bodies, no words can ever tell the thrill of Energy and the Peace we experienced. As we finished and robed ourselves in the marvelous Garments, we could see the Soft White Light radiate from our bodies for fully three feet, from which emanated a most wonderful rose fragrance, yet each one was distinctly individual in the particular quality of the rose fragrance poured forth. Just as we finished the chimes sounded calling us to the reception room. As we entered the room we noticed the Light about the ladies was similar to our own, except that around Leto, Electra, Gaylord, and his Friend, the Radiance was much brighter and extended farther than ours.

"At seven o'clock," said Chananda, "we shall go to the Great Council Chamber." He led the way and seated us facing the Altar, placing Leto and Gaylord in the center and the rest of us on each side of them. Chananda took the end seat on the right and Najah the last one on the left. Seated directly behind us were our Beloved Master Saint Germain, Nada and Daniel Rayborn, surrounded by two hundred of the Ascended Host.

In a few moments, a Soft White Light with a touch of pink illumined the entire hall, and Chananda asked us to enter the deepest meditation of which we were capable, adoring the "Mighty I AM Presence" within our own Hearts. We

became very still, and into the Stillness entered deeper and deeper. We remained in this Silence for some time, and then we heard the tones of a most wonderful Voice that thrilled every atom of our minds and bodies.

We opened our eyes and saw standing before us a Marvelous Being. This "Great Glorious Presence" was the embodiment in Perfect Balance of all Transcendent Qualities both masculine and feminine, and held focused forever under His Conscious Command the Wisdom and Power of Eternity. This Majestic Being stood fully six feet four inches in height, with wavy hair falling to the shoulders that looked like sunshine on Gold. His Robes glittered with Points of Light like great jewels that flashed continually with the tremendous Radiance of the Power held under His Control and obedient to His Conscious Direction. The Girdle encircling the waist was a mass of sapphires and diamonds, and from it hung a panel to a few inches below the knees. This also was a mass of jewels.

These Jewels, as we afterward learned, were a Condensation of Light, and one can imagine the Rays that blazed forth–constantly pouring out the Tremendous Power focused within them. This Glorious Majestic Being has become known to us as the "Great Divine Director." He is the Great Cosmic Master under whom Beloved Jesus, Saint

Germain, and the Master Kuthumi Lal Singh were trained; and His Great Love and far-reaching Care often enfold many of Their students now. No words in any language can do justice to this Majestic Being, and when His Students speak of Him, they are as humble before His Mighty Light as we feel before Them. Oh! that the people of America and the world might know more of these Great Blessed Beings and share the joy that lifts me beyond the outer self! As He began speaking, He gave the Cosmic Sign of the Ascended Master, saying:

"Beloved Children of Eternal Light, great is the rejoicing of the Ascended Host at the call of this Meeting. These Blessed Ones before Me are ready for Our Assistance; for their bodies can now be raised, and they shall enter their True Freedom.

"Beloved Saint Germain, You have patiently, lovingly guided and instructed these Children of Light through the centuries, and Your Work shall bring Its Reward, for it is most nobly done.

"Is there another willing to bear witness that they are ready to enter the Light?" Chananda immediately arose as our Sponsor and replied:

"Most High Master, I bear witness as to their readiness." And the Great Divine Director continued:

"Then We shall give them Bodies such as have not been manifest before upon Earth, that they may

stand before the world a Living Example–revealing the Fulfillment of the Law of Love and Light. These shall be similar to the Bodies of the Ascended Beings; yet they shall retain the appearance and some of the outer activities of the highest type of mankind.

"Under their control shall come the Unlimited Use of the Cosmic Energy and the Direction of the Mighty Light Rays. They shall minister unto humanity side by side with their Beloved Master who has so lovingly brought them to this point. Henceforth, I receive you all into My Eternal Embrace of Light. The two-year period that is usually required, I now set aside. In two days you shall acquire what, under the former Activity, would have taken two years to accomplish.

"Remember, in the 'I AM Presence,' there is no time nor space. It is All-wise and All-powerful, and through It We shall remove the atomic obstruction forever.

"Brother Chananda, take them to the Cave of Light. They are to remain there for two days. You are to anoint the masculine bodies three times a day with Liquid Light, and our Sister Najah will do the same for the feminine bodies."

As the Great Divine Director finished speaking, a Ray of Dazzling Crystal White Light streamed out from His Forehead and swept the head of each

one of the students; then It withdrew into His Body. Instantly this was followed by a very intense Soft Golden Ray that poured out from His Heart, sweeping the Heart area of those before Him, and again returning into His own Body. He paused for a moment and seemed to record the strength of each one. From that He knew the intensity of their own Light.

The next instant a Dazzling White Light blazed forth from His entire Being, spreading into a fan-shaped Radiance and encompassing all our bodies. Within this Mighty Stream were Currents of Energy flowing in at the feet and out at the top of the head of each student. Shadow after shadow passed off like sheaths, and the moment they left our bodies, were consumed. The color of the Light became a delicate pink, changing again into a soft gold, gradually blending into violet of a shade never seen in the outer world. Our Inner Sight and Hearing were forever cleared and made our permanent servants. Then the Light became such a Dazzling White that we were compelled to close our eyes. Presently, by an Inner Command of the "Presence," we opened them.

The Great Being before us was almost terrifying in the Majesty and Power that poured out from Him. The Ascended Guests had disappeared and we were left alone with this Dazzling Celestial

Envoy of the Godhead. Then in a Voice as gentle as a mother caressing her child, He said:

"You are all–now and forever–a part of My Love, Light and Wisdom. I shall meet you in the Cave of Light in an hour." Then He drew the Stream of Light into Himself and disappeared.

"Come," said Chananda, and as we rose to our feet, we had no consciousness of weight and could have floated as easily as walked. We went to the lower floor where I had passed through the door in my experience while in my finer body. In front of us was the door, just as I had seen it. Chananda placed His hand upon it. Slowly and steadily it opened, a massive, ponderous thing weighing many tons.

We went into a narrow passage which suddenly became illumined by a Soft White Light that shone upon walls as smooth as though polished. We must have walked for nearly half a mile when we came to another door, less massive, but wonderfully carved in very ancient writing. It opened at Chananda's touch, and we entered a Cave of Wondrous Beauty, similar to the second chamber in the Cave of Symbols in America, only much larger. This Cave also contained those same symbols encrusted with that dazzling crystalline substance. Going still farther, we came to Doors of Solid Gold.

"Who seeks entrance here?" suddenly spoke a Voice from the ethers, and Chananda answered

instantly: "Children of the Light–seeking more Light–Thy Light and Its Perfect Use."

"Speak the Name!" again commanded the Voice.

Together we spoke the "Word." Then the Doors of Gold slowly began to open. Inside it looked like the white heat of a great furnace, and again the Voice spoke.

"All who enter here leave–forever–their earthly garments behind. Who dares to enter first?"

"I will," Bob answered instantly, and the rest followed.

Two days and two nights later, we emerged from the Eternal Flame wearing our New Bodies of Immortal Endurance. The inharmony of Earth can never register within These permanently. As we came back into the reception hall of the Palace, the Great Divine Director with our Beloved Saint Germain, Nada and Daniel Rayborn were there to greet us. The Great Being addressed us:

"Now your Real Service will begin. All but this Brother," indicating me, "are to remain here in the Palace of Light for one year. You are now True Messengers of the Great White Brotherhood. Regarding your earthly affairs, your Beloved Master Saint Germain will direct you." Making the Ascended Masters' Sign and Salutation to the Heart of the Great Central Sun, He gave us His Blessing:

"Children of the Diamond Heart!
I enfold you in the Golden Flame of My Love,
I protect you by the Armor of My Power,
I Raise you by the Hand of Your Own Divinity,
I bless you with the Fullness of My Light,
I give you the Scepter of Your Own Dominion,
I seal you in the Eternal Freedom of your Ascension,
In that Ecstasy Supreme, The Presence of the Diamond Heart, 'I AM.' "

A Flash of Blazing Glory filled the room, quivered a moment, and He was gone. Saint Germain then turned to us and said:

"Remember, Beloved Ones, you are the Grail, the Cup of Light from which all who are athirst may drink of the Radiance of your Being; for you are now the Victory of Love. The Glory of Love sings throughout Infinity its Paean of Praise in continual adoration to Life. Obey, My Blessed Children, Its Timeless Fiat. Make the Salutation of Light to the Heart of Creation, and ever Stand True to the Immortal Decree of Love:

"O Children of the Light! O Flames of the Morning! call unto the Secret Love Star.
Let Its Rays weave for you an Eternal Garment of Transcendent Loveliness,

And wear upon your Heart the Jewel of the Sacred Fire.
Let Its Glory pour through you, that yours may be the Scepter of Power Supreme.
Speak only the Decree of Love, that Perfection may be everywhere.
Listen to the Sound of Its Voice, that all may hear the Song of Joy,
Gaze only upon Its Light, that the Flame from the Seven Elohim may rest upon your forehead.
Hold the Cup of Liquid Light, and forever pour forth Its Life-giving Essence.
Then the Rays from the Diamond Heart shall illumine your pathway, and
When the Knight Commander raises His Sword of Flame, you shall pass through,
And stand face to face with Your Own Divinity upon the very Altar of Life;
For within That Holy of Holies is the One–
Omnipotent in Blazing Glory–
Your Own Beloved Self, The Magic Presence–
'I AM.'
In the Crown of your Everlasting Victory shines a double rainbow,

The Result of Love's Attainment, encircled by All Wisdom;
Your Royal Robes of Authority are the Deeds of Love,
The Rays of Light from The Magic Presence–'I AM.'
These forever clothe all Beings with their Radiance,
And are the Fountain of Eternal Youth and Beauty;
Through them, your Scepter draws unto Love Its Own–
The Fullness of The Magic Presence–'I AM.'
The Rays from the Seven Builders reach up–
And pour out Their Glistening Streams of Love's Lightning,
Weaving Great Rivers of Force into an Imperishable Garment,
In Blazing Glory and Dazzling Beauty–the Gift of The Magic Presence–'I AM.'
O Children of the Flame! sing the Anthem of Creation,
It is the Song of Love that makes the Music of the Spheres
Ring throughout space in an Adoration and Hymn of Praise, which is the very Worship of Life,

The Magic Presence—'I AM.'
Let It flow through you in Ever-expanding
Perfection:
Be the Ecstasy and Glory of Light unto all!
Know the Secret of the One! Waft the Love-Breath
of Joy everywhere: and
Feel the Great Heartbeat within the Flame,
The Magic Presence—'I AM.' "

"I AM" ACTIVITY
OF
SAINT GERMAIN FOUNDATION

The "I AM" Activity represents the Original, Permanent, and Highest Source of the Ascended Masters' Instruction on the Great Laws of Life, as first offered to the western world by the Ascended Master Saint Germain, through His Accredited Messengers, Mr. and Mrs. Guy W. Ballard.

In the early 1930s the Ballards established Saint Germain Foundation and Saint Germain Press, Inc. which under Saint Germain's Guidance, have expanded into worldwide organizations that offer to mankind the true Ascended Master Teachings on the Great Cosmic Word, "I AM"! Saint Germain Foundation strives to keep the "I AM" Ascended Master Instruction in Its pure, unadulterated form, free from any human interpretation, personal monetary gain, or proselytizing, as It is a Gift from the Great Ascended Masters and Cosmic Beings to bring Illumination and Perfection to mankind.

Hundreds of "I AM" Temples and Sanctuaries exist throughout the world, where the Teachings are applied in "I AM" Decree Groups. The Books of the Saint Germain Series are available in many libraries, bookstores, or directly from Saint Germain Press (address below). For further information, please contact:

DEDICATION

This series of books is dedicated in deepest Eternal Love and Gratitude to our Beloved Ascended Masters, Saint Germain, Jesus, Nada, the Great Divine Director, to the Great White Brotherhood, the Brotherhood of the Royal Teton, the Brotherhood at Mount Shasta, the Great Ones from Venus, and those other Ascended Masters whose Loving Help has been direct and without limit.

APPRECIATION

It is with sincerest gratitude that I acknowledge the blessed assistance of Lotus Ray King, whose untiring effort has enabled me to bring forth *Unveiled Mysteries*, *The Magic Presence* and *The "I AM"* Discourses in their present, splendid form.

All credit is given Lotus for editing these books. By her great tenacity in holding so closely to her "Mighty I AM Presence," she has called Perfection into action.

I wish to thank Betty Mundy for her gracious assistance in perfecting the manuscripts, and Arthur Brooks and May Da Camara for their painting of the "Magic Presence."

I am also grateful to the many Students who have so earnestly called the "Mighty I AM Presence" into action for the success and Perfection of this Transcendent Blessing to mankind.

EDITOR'S NOTE

The Words of Beloved Jesus as quoted throughout this series of books by Godfré Ray King and the Ascended Masters are the Authentic Statements He uttered, although they do not always agree verbally with some versions of the Christian Bible.

This fact should not surprise the Truth-Seeker, who understands the difficulties encountered in translation and realizes how many times the Bible has been translated in the past sixteen hundred years.

Beloved Jesus has spoken again on the Visible Light and Sound Ray and made this point clear, saying:

"It is unfortunate indeed that some of the Scriptural Statements have been clouded by human concepts; yet I am thankful indeed that many have remained unaltered."

LOTUS RAY KING

TRIBUTE

At the present time the attention of mankind is being drawn to the *conscious understanding and use* of the Words "I AM" by the Ascended Masters, Beloved Saint Germain, Beloved Jesus, and others of the Ascended Host–who are pouring out ceaselessly the Great Light to release Freedom, Peace, and Perfection. The Cosmic Command for the *permanent* Golden Age has been given and must now manifest on this planet.

The Great Ascended Masters have worked for centuries preparing for the expansion of Light that is now flooding the entire system to which this earth belongs. The Great Cosmic Law has begun the release and increase of *that Light* which compels all things to come into Perfect Divine Order wherever It flows.

These Great Ones have always been the Custodians of the Eternal Inner Understanding concerning the use of the Great Creative Word, "I AM." They, and They alone, have been able to give the *complete Understanding* concerning what occurs when those two Words, "I AM," are used.

They have been the Elder Brothers, Protectors, Guardians, and Infallible Teachers of mankind throughout the centuries. The Ascended Masters are the *only* Infallible Source of Instruction to the humanity

of this earth, because *They are Wholly Divine, and One with the God Self* of every individual. They are the Living Fulfillment of the Law They teach, and are the *only* Ones who have manifested *Complete Victory* over so-called death.

They are the Full Manifestation of that Light and Love which rule the Universe and which maintain Divine Order throughout Infinity.

The release of Their combined Light is taking place and flooding the earth at the present time. All that is not of the Light is consumed thereby. Their Light will continue to expand throughout this planet until all its humanity has made the Ascension also–and the earth itself becomes a Blazing Sun, whirling in its appointed path in space.

To these Great Ascended Masters mankind owes all the good it has ever received or drawn forth, because They are the *way and means* by which the Infinite God Self expands Its Perfection through the finite activity of personalities.

This earth and its humanity are entering into the "I AM" Age, and therefore the *full use* of this "I AM" Knowledge must be understood and utilized by the individuals who live here in the present and near future.

The Great Cosmic Beings, the Ascended Masters, and Angelic Host have given tremendous Protection to America and her people–especially over the last

five years. To all individuals who will call unto Them in the Name of the "Mighty I AM Presence," keep their feelings harmonized, and pour out intense Love *continually* to their own "Mighty I AM Presence," will be given Assistance without limit.

This book is especially charged with Beloved Saint Germain's Ascended Master Consciousness and Love, and that of the other Ascended Masters concerned with this Activity, to bring Protection, Freedom, Illumination and Perfection to all who read or contact it, that all may express Mastery and also make their Ascension.

It is the privilege of every student of Light at this time to call in the Name of the "I AM Presence," with all earnestness and Love to these Great Ones, to protect America, the government and her people, to *illumine* all officials of the government, to *perfect all* within her borders, and to *compel obedience* everywhere unto "The Light of God That Never Fails."

GODFRÉ RAY KING

FOREWORD

THE thirty-three Discourses contained in this book were dictated over a *visible* Light and Sound Ray in our home during 1932 by the Ascended Master Saint Germain and those other Ascended Masters directly concerned with this Activity. The sound of His Voice was physically audible to everyone in the room. At times, His Visible, Tangible Presence also stood within the room, when He radiated the Power and Energy of the Light Rays to accomplish special work.

The training and preparation for Him to do this at the present crisis of the outer world was given us over a period of thirty years, that it might be accomplished at this time, and assistance from the Ascended Masters come forth in this way to protect and free all individuals who make conscious effort to correct themselves and attain Mastery over all things on this earth.

Never before, except in the Retreats of the Great White Brotherhood, has such intensified, transcendent Instruction concerning the "I AM" been given to individuals. Not for thousands of years have the *True* Inner Instruction and Use of the Sacred Flame been taught to mankind as Saint Germain and others of the Ascended Masters have revealed. Permission for

Them to be explained to students as given forth in these Discourses has been granted to us by these Great Ones. Such Instruction as is herein contained has never been given to students until after a three year probation in the Retreats.

The condition of the outer world at the present time is such that those who sincerely seek the Light and want the constructive way of Life *must have more than human help* if they are to survive over the present period of chaos –which is the accumulated discord generated by humanity en masse through the centuries, and which is pressing heavily upon the outer experience of individuals today.

The need of protection and help for the children of earth is so great at the present hour that the Great Ascended Masters and Legion of Light have "let the bars down," so to speak, and have released this Inner Understanding of the "Mighty I AM Presence" into the outer Life of mankind, that all who want the Light and will make conscious effort to attain their own Freedom and Mastery may have the Assistance which will give them the Eternal Victory.

Only fragments of the real understanding of the "I AM Presence" have been given to the outer world until now. The Ascended Master Saint Germain says: *"It is the most important Understanding mankind can ever have, and there is no Freedom nor Perfection for the individual, except through this conscious*

application." He considers it of such paramount importance that He dictated more than thirty-three Discourses in which He explains what happens in the outer Life of the individual when one says "I AM." He also says: "Nothing will bless the individual to so great a degree as the *Conscious Understanding* of this 'Creative Word.' "

When the phrase, " 'Mighty I AM Presence' come forth," is used throughout this series of books, it is always a call to the God Presence to pour forth or release the Outpouring of Perfection which the one making the call desires.

It is *always* thought, felt, written or spoken with the *feeling* of intense LOVE. It is *always a call* to God, the "Mighty I AM Presence," to establish Perfection everywhere, and thus let God's Will–Perfection–be made manifest on earth. When a command is given, it is *always* the outer self calling unto God, and in the Name of that "Mighty I AM Presence," commanding substance and energy to obey the Decree given–which is the Self-conscious effort required in order to *open the door* for the Intelligence of the "I AM" to release Its Perfect Manifestation.

This book not only carries the Ascended Masters' Understanding of the "I AM," but is charged with Saint Germain's Ascended Master Consciousness and the Ray of Light and Love from His Heart which is the Ascended Masters' *Feeling and Comprehension*

of Its full Power, forever Self-sustained.

May this book of *"I AM" Discourses* anchor the attention of all who read or contact it so powerfully upon each individual's own Divinity, that the full Ascended Master Consciousness of the "Mighty I AM Presence" shall fill the earth, and release with the Power of a Thousand Suns the Eternal Dominion of "The Light of God That Never Fails."

THE "I AM" DISCOURSES

BY THE ASCENDED MASTER SAINT GERMAIN

DISCOURSE I

October 3, 1932

SAINT GERMAIN

INVOCATION: Thou Infinite, Mighty Presence, Thou All-Pervading Principle of Life! We give praise and thanks for Thy Wondrous Activity through all outer presence. Out of Thy Mighty Essence comes all that is, and oh! that humanity might understand, Thou art ever and forever Self-sustained. Thou Mighty, Active Principle of Life, surge forth in the outer activity of mankind and manifest Thy Supreme Justice *now* in all places.

Mighty Presence of Light–God in Action! govern the minds of mankind, holding them to Truth and Justice, and see that Thy Messengers are placed in all official positions. Let naught of the outer interfere, that none of humanity may accept any thought of deception.

Mighty Presence of God in Action, surge forth in the minds of all, expressing Thy Conquering Presence.

Greetings: I bring you Greetings from the Perfected Ones, who are watching closely over and ministering to all.

THE DISCOURSE

Life, in all Its Activities everywhere manifest, is *God in Action;* and it is only through lack of the understanding of applied thought and feeling that mankind is constantly interrupting the pure flow of that Perfect Essence of Life which would, without interference, naturally express Its Perfection everywhere.

The natural tendency of Life is Love, Peace, Beauty, Harmony, and Opulence, for Life cares not who uses It, but is constantly surging to pour more of Its Perfection into manifestation, always with that lifting process which is ever inherent within Itself.

"I AM"

"I AM" is the Activity of "That Life."

How strange it is that students with sincere interest do not seem to get the True Meaning of those two words.

When you say and feel "I AM," you release the spring of Eternal, Everlasting Life to flow on Its way unmolested. In other words, you open wide the door to Its natural flow. When you say "I AM not," you shut the door in the face of this Mighty Energy.

"I AM" is the Full Activity of God.

Having placed before you so often the Truth of *God in Action*, I wish you to understand Its first expression in individualization. The first expression of every individual, everywhere in the Universe, either in spoken word, silent thought or feeling, is "I AM," recognizing Its Own Conquering Divinity.

The student, endeavoring to understand and apply these mighty, yet simple Laws, must stand guard more strictly over his thought and expression–in word or otherwise; for every time you say "I AM not," "I cannot," "I have not," you are, whether knowingly or unknowingly, throttling that "Great Presence" within you. This is just as tangible as if you placed your hands about the throat of an outer form, only with the outer form, your thought governing the hand, you can release it at any time; but when you make a declaration using the words "I AM not," you set in motion Mighty, Limitless Energy that continues to act, unless it is recalled and the imperfection consumed and transmuted.

This shows you the enormous power you have to qualify this Mighty Energy of God, and I tell you Beloved Students, dynamite is less dangerous, for that would but liberate you from the body; while these thoughts sent forth ignorantly and ungoverned bind you upon the wheel of reembodiment indefinitely.

Thus you can see how important it is for you to know what you are doing when you thoughtlessly use wrong expressions; because you are using the Most Divine Principle of Activity in the Universe–"I AM."

Do not misunderstand me–this is no idle, foreign, or Oriental expression, but the Highest Principle of Life used and expressed throughout every civilization that has ever existed–for the first expression every Self-conscious form of Life gives is "I AM." It is only afterwards, in its contact with outer, wrongly qualified activity, that it begins to accept anything less than "I AM."

Now Dear Students, do you not see that when you say "I AM sick," you are just reversing this Principle of Life, which is naturally all Perfection; thus requalifying it by your willful ignorance with something which it never naturally possessed?

Through long centuries of willful misunderstanding, humanity has charged the very atmosphere about them with falsehood and unreality, for I need not say to you that when you say "I AM sick," it is an abject falsehood in respect to your Divinity, which cannot be sick.

Does this sound harsh to you?

Then I say, think it over, and you will see what a blessing and release it can be to you.

I say to you, Dear Students, in the Name of God,

stop using these wrong expressions of your Godhead, of your Divinity, for it is impossible for you to have Freedom as long as you continue to do it. I cannot speak of this to you too often: that when you *really* recognize and accept the Mighty Presence of God in you, there are positively no adverse conditions.

STOP! I say to you, giving power to the outer conditions, persons, places or things, and in the Name of God, every time you find yourself starting to say "I AM sick," "I AM broke," "I AM not feeling well," instantly reverse this fatal condition to your progress; and declare silently with all the intensity of your being –"I AM"–which is all health, opulence, Perfection, happiness, peace, and the power to recognize Perfection in yourself and everywhere else.

When you think of the expression "I AM," it means that you know you have *God in Action* expressing in your Life. Do not let these false expressions continue to govern and limit you. Continually remind yourself: "I live, move, and have my Being and all outer expression in the full opulence of God, made manifest every moment."

In thus reminding yourself of this Invincible, Unconquerable Presence, you keep the door open for Its pure, Invincible Essence and Intelligence to weave into your outer expression that wondrous Perfection.

I plead with you, Dear Ones everywhere, do not

continue to use these wrong expressions thinking that in some hocus-pocus way you may slide past reaping the result. IT SIMPLY CANNOT BE DONE.

Many of you know that they use the branding-iron on the Western Frontier as a recognition of ownership by the ranchmen. So great is my desire to have you recognize and hold fast to the active Presence of God in you, that I almost long for a branding-iron to brand those words–"I AM"–into your consciousness for constant use; that you could not be drawn off the recognition, acceptance, and use of that Mighty, Glorious Presence of God, which you are.

I trust that all who may hear or read these words will feel the Power and the Mighty Conviction of this Truth that goes with them–leaping into action wherever expressed.

If at any time anything less than Perfection attempts to make an appearance in your experience, declare *vehemently* that it is not true, and that you accept only God, which is Perfection in your Life, everywhere manifest. As long as you give way to accepting false appearances, you will have them expressed in your Life and experience. It is not, Dear Student, a matter of belief on your part whether you accept these Truths or not, but they are the Law, proven through long centuries of experience, and

are placed before you for your Freedom.

Awaken to the fact that your thought and feeling in the past have built–created–the inharmony of your world today. Arise! I say, Arise! and walk with the Father–the "I AM"–that you may be free from these limitations. There is only one thing in this Universe that can surround you with limitation, and that is accepting the outer appearance instead of the Mighty, Active Presence of God in you.

The Western World likes to fool itself with the idea that it refuses to accept the ancient and Eastern idea of sorcery–in other words, the misuse of the Spiritual Powers. The worst kind of sorcery is being used in the political fields today that has ever been known in the history of mankind through the use of mental power–wrongly qualified.

If this same tremendous mental force were used in just the reverse way, to know that *there is only God in Action in every individual filling official places,* the sender of that quality or Truth would not only be free himself, but the political world would be filled with Freedom and Justice. Then we would experience a natural world, a world of *God in Action*–everywhere present.

It is today as it was at one time in Egypt. Those who misuse the mental power are binding themselves to the rack of inharmony, embodiment after embodiment.

Take the stand: "I do not take on conditions from anybody or anything about me but God–Good, and 'I AM' always God-commanded." You need to acquire the habit of stilling yourself. Sit down three or four times a day and simply still the outer self. This will let the energy be supplied. Learn to command and control the energy in your body. If you want the energy still–be still. If you want the energy active–be active. You must stand up, face a thing, and rise above it. There is no other way.

The student should watch in every way for habits and break them up. He should not have to be told, but must look within himself and uproot whatever is not Perfect. This brings a freedom not possible in any other way.

The holding on of old habits is just like wearing old, worn-out garments. The student must not wait for someone else to think these things out for him. He must do it himself. It is not possible for anyone to do it but himself.

In this Work and under this Radiation, everything that is latent in the individual is being brought forth to be consumed. Watch–that the attention does not become fixed on the thing you do not want.

It is perfectly ridiculous to keep recalling things which have not worked out. If you have built your limitations for centuries and can, by this attention

and self-effort, free yourself in a few years, isn't it worth it? Is it not marvelous?

A humorous sense of getting away from a thing is sometimes the quickest and most powerful way of doing it, for a buoyant, joyous feeling releases the energy that many times enables a very wonderful manifestation to take place.

If one will buckle down to brass tacks and call on the Law of Forgiveness, he can then consume all past creations in the Consuming Flame and be free. You must be conscious that the Flame is the Active Presence of God doing the consuming.

The Freedom of God is here in action.

When you have a feeling to do a certain constructive thing, go ahead, stick to it and do it, if the heavens fall. *Whether the manifestation, comes now or not, should not enter into your consciousness at all.*

Even when students only know a thing intellectually, they should not allow the mind to keep recalling wrong conditions when they know what this activity does to their success. It is unbelievable that people will not conquer this enemy in their consciousness. No student can ever gain the victory until he stops turning back to the old, negative conditions he is trying to get rid of.

The whole work of a teacher is to get some means and explanation over to the student of the activity of *acceptance*. What the mind accepts is that which the

individual agrees with through his *attention*, by letting the two become one. When the mind accepts and agrees with a thing or condition, the individual decrees it into his world. Whatever you let the attention rest upon, you are agreeing with and accepting, because through the attention you have let the mind become one with it.

If an individual were to see a rattlesnake coiled, would he walk right up to be struck? Certainly not! Yet this is what students are doing when they let their attention turn back to their troubles. Such habits are only past momentum given a specific quality.

There are only two activities in Life, and if you will not let the Inner govern according to Its plan of Perfection, then the outer must.

When a constructive picture is flashed to your mind, it is a reality. When you recall it as a mental picture and hold it again, it calls forth the reality.

One can become so aware of his own God Presence that at any time he can see and feel Its Radiance pouring out to him.

For things it does not want, the outer has all the confidence in the world. It is up to the student to compel it to have the same confidence for the Perfection of God that it has for the imperfection of the senses.

The student must always rely on himself. He

must always think, "What can I do to intensify this activity from the hints given?"

BENEDICTION: Mighty Perfected Ones! As we receive Thy Magic Circle of Protection, as we receive and are enfolded in Thy Mighty Opulent Presence, O Master Within! we accept fully that Opulence made manifest in our outer experience and use. We give praise and thanks for Thy Wisdom in Its use. We give praise and thanks that we have the *full strength* to accept only Thy Mighty Active Presence at all times, and to *refuse acceptance* to anything unlike Thee.

DISCOURSE II

October 6, 1932

SAINT GERMAIN

INVOCATION: Thou Infinite, All-Pervading Presence–Thou Mighty Master within each human form! We acknowledge and accept Thy Full Presence manifest within these forms and within the human form of every individual that God has sent forth. We give praise and thanks that at last we have become aware of this Mighty Presence to Whom we can turn and recognize the Fullness of God's Activity, the "I AM" of all things.

Greetings to you all.

THE DISCOURSE

When Jesus said: " 'I AM' the Resurrection and the Life," He gave forth one of the mightiest utterances that can well be expressed.

When He said "I AM," He did not refer to the outer expression, but He did refer to *the Mighty Master Presence–God Within,* because He repeatedly said:

"I of myself can do nothing. It is the Father within–the 'I AM'–that doeth the works."

Again Jesus said: " 'I AM' the Way, the Life, and the Truth," giving recognition to the One and Only Power–*God in Action within him*.

Again He said: " 'I AM' the 'Light' that lighteth every man that cometh into the world," prefacing every Statement of vital importance with the Words "I AM."

Contemplating "I AM" as *anything and everything* you wish to be is one of the mightiest means of loosing the Inner God Power, Love, Wisdom and Truth, and setting It into action in the outer experience.

Again let us refer to His mighty utterance, perhaps one of the greatest ever spoken into the outer expression: " 'I AM' the Open Door which no man can shut." Do you not see how very vital this is when you come to review understandingly these Mighty Statements?

When you recognize and accept fully "I AM" as *the Mighty Presence of God in you—in action*—you will have taken one of the greatest steps to liberation.

Now mark you, in the utterance of the Truth that, " 'I AM' the Open Door which no man can shut," if you can but realize it, you have the key that allows you to step through the veil of flesh, carrying with you all consciousness that you have generated or accumulated which is imperfect; and there transmute it, or in other words, raise it into that Perfection into which you have stepped.

Too much stress cannot be laid upon the importance of contemplating as often as possible the "I AM" as the Mighty, Active Presence of God in you, in your home, in your world, in your affairs. Every breath you breathe is

God in Action in you. Your ability to express or send forth thought and feeling is God acting in you. You, having free will, it is entirely up to you to qualify the energy sent forth in your thought and feeling, and determine how it shall act for you.

No one can say: "How shall I know how to qualify this energy?" for everyone knows the difference between destructive and constructive thought, feeling, and action.

The student, in receiving instruction, should constantly analyze the motive back of the question to detect if in that motive there is a feeling of intellectual pride, arrogance or stubbornness in the outer mind and body. If there is within the motive a lurking desire to argue and prove the instruction wrong rather than receive the Blessing and Truth intended, the individual has unknowingly shut the door, for the time being, to his ability to receive the good offered.

Again may I remind the students, regardless of their personal opinions as to what the Truth shall be, I have proven through many centuries, these condensed Instructions now being given forth. If one wants to receive the greatest benefit possible and the comprehension that will be absolute, certain freedom and liberation, listen with an entirely open mind, with the consciousness that the "I AM"–the Active Presence of God in you–is your certain ability to receive, accept, and apply without limit the Instruction which is being

given forth with an accompanying Radiance–which will enable certain students at this time to comprehend these simple, yet mighty Assertions of Truth to their great Blessing and Freedom.

The admonition has been before humanity through many centuries: "Ye cannot serve two masters." Why is this so? First: because there is only One Intelligence, One Presence, One Power that can act, and that is the Presence of God acting in you. When you turn to the outer manifestation and give all kinds of expressions and appearances power, you are attempting to serve a false, usurping master, because the outer expression can only find an appearance through the use of God's Mighty Energy.

Your ability to lift your hand and the Life flowing through the nervous system of your outer form is *God in Action* in your body, through your mind.

Dear Students, try to use this simple means as a reminder of *God in Action in you*. When you start to go down the street, think for an instant: "This is God's Intelligence and Power by which I walk, and this is His Intelligence by which I know where 'I AM' going." Thus you will see that it is no longer possible to go on without understanding that every move you make is *God in Action*. Every thought in your mind is God's Energy, which enables you to think. When you know this is a fact–and there is no disputing it–why not adore, give full confidence to, trust in,

have faith in, and accept this Mighty Presence of *God in Action in you;* instead of looking to the outer expression which is clothed, qualified, and colored by the outer, or human concept of things, regardless of the One Mighty Presence which enables the outer to express.

All outer form and its attendant expression is but the experience Life by which each individual may learn–through his own experiences–the True Source of his Being, and come again into the Fullness of Perfection, through the Self-conscious knowing thus attained.

The outer experience of Life is but a constant, changing, passing picture that the outer mind has created in its pretense (imagination) of being the Real Actor. Thus is the attention so constantly fixed upon the outer, which alone contains imperfection, that the Children of God have forgotten their own Divinity and must come back to It again.

God is the Giver, the Receiver, and the Gift, and is the Sole Owner of all the intelligence, substance, energy and opulence there is in the Universe.

If the Children of God would learn to give for the joy of giving, whether it be love, money, service, or whatever it may be, they would open the door to such vast opulence that it would be impossible to want for a single thing in the outer expression.

The unfortunate thing in humanity–which has

caused such rampant selfishness and unprecedented condemnation of each other–is the idea of claiming ownership to these wonderful Blessings of God; for there is but One Love acting, One Intelligence, Power and Substance, and that is God in every individual. The Warning that should be placed before every student and individual is to guard against the desire of the outer self to claim power of its own. If in every act of the personality, God were given full credit, transformations unbelievable could not help taking place in the one thus giving full credit and power where it belongs.

There has rarely been a correct understanding of supply and demand. There is positively abundant supply omnipresent, but the demand for it *must* be made before the Law of the Universe permits it to come into the expression and use of the individual.

The individual, having free will, must consciously, with full determination, make the demand, and it cannot fail to come forth into expression–no matter what it is–so long as the individual holds an unwavering, determined consciousness.

This simple Statement used with sincere determination: " 'I AM' the great Opulence of God made visible in my use right now and continuously," will bring to the individual all he can possibly use.

The limiting element so many students seem to be unaware of is that they start out declaring the

Truth, for instance, as in the above Statement, but before many hours have passed over their heads, if they were to analyze themselves conscientiously, they would find in their *feelings* lurking doubt or fear, for both these are feelings. Naturally, this neutralizes to a large extent the constructive force that would quickly bring about the fulfillment of the desire or demand.

Once a student can become fully aware that every right desire or wish is *God in Action,* propelling his energy forth to full accomplishment, and is always Self-sustained, he would become aware of the Limitless Love, Power and Intelligence he has with which to accomplish any given purpose.

With this simple understanding, the word failure would be completely wiped out from his world, and in a very short time from his consciousness, because he would see that he was wielding Intelligence and Power that could not fail. Thus, students and individuals come into their Full Dominion as God intends. It was never intended by the Great, All-wise, All-loving Father that any of His children should want for a single thing; but because they allow their attention to become fixed on the outer appearance, which is like the changing sands of the desert, they have, knowingly or unknowingly, cut themselves off, to a large degree, from that Great Opulence and Intelligence.

This Great Opulence is their birthright which

everyone can have who will again turn to the "I AM"–the Active Principle of God forever within himself–as the Only Source of Active Life, Intelligence and Opulence.

All through the ages there have been certain standards of conduct necessary for the student who desires to reach beyond certain attainments. This is the conserving and governing of the Life Force, through the sex.

For an individual who has been using this energy without any thought of governing it to suddenly say, "I will cease this," cut it off as it were, without understanding the correct attitude of consciousness, would be simply suppressing a flow of energy which he has caused to flow in the wrong direction. Any student who wishes to govern this will find this simple Statement the most efficient–if used understandingly–of anyone particular thing that can be given. This will normally and naturally govern the flow of the Life Energy and bring it back into its natural channels. It is the Mighty Statement of Jesus: " 'I AM' the Resurrection and the Life."

This Statement will not only purify the thought, but is the most powerful, lifting, adjusting force that can be used for the correction of this greatest of barriers to the Full Height of Spiritual Attainment. Anyone who begins to feel the Inner Impulse to correct this condition and will use this Statement earnestly and

continuously will raise this marvelous current of energy to the highest center in the brain, as was originally intended.

He will find his mind flooded with the most marvelous ideas–with the abundant, sustaining Power and ability coming into expression and use for the blessing of all mankind. I ask any student to try this and watch the results in his own mind and body.

Feel deeply this Statement of Jesus: " 'I AM' the Resurrection and the Life." Repeat it three times, either silently or audibly, and notice the lifting of consciousness which you will experience. There may be some who will need to try this several times in order to feel the amazing uplift that others will experience at the first trial. This will show you in a small way what can be done by its continued use.

There is only one means of overcoming, or rising out of anything, and that is, after you know what it is you are to rise out of, to take your outer attention completely away from it, fixing it firmly upon the above Statement. Any condition in the outer experience that one wishes to overcome can readily be accomplished by the use of this Statement, as well as using it to change the flow of the misdirected energy.

I had one student who felt the Inner Impulse to redirect this Mighty Energy, and the use of this single Statement alone enabled her with little assistance to raise her body. In one year a marvelous transformation

took place in her entire outer appearance.

It seems incredible that in the recorded Statements accredited to Jesus–which were only a part of what He really gave forth–that so few of humanity would receive the mighty import of those wonderful Words of Wisdom. At no time in the history of the world have so many Mighty Statements been given as He taught. Everyone of these, when conscientiously used, holds within it the attendant Radiance and accomplishment with which He attained. You not only have this Power of the "I AM," but His individual Assistance also when these Statements are used. One should often contemplate the true meaning of these Mighty Statements of Jesus. When once you understand that your thought, feeling and expression of "I AM" sets the Mighty God Power in you into action–without any limit–then you receive that upon which the desire is fixed.

It should be no trouble for the student to see and understand that the outer appearance is but man's distorted creation–by claiming the outer as a source of power–when a moment's contemplation will cause him to realize that there is but One Love, Intelligence, and Power which can act, and that is God.

The human, or outer defects or discrepancies, have nothing to do with the Omnipresent Perfection of God, for anything imperfect is the creation of the outer concept of mankind.

If man will turn to the "Mighty I AM" within, knowing that God is all Perfection, and that all outer appearance is but man's creation through the misuse of the God Power, he will see at once that if he sincerely contemplates and accepts the Perfection of God, he will cause to come into manifestation in his Life and experience this same Mighty Perfection.

There is no possible means of bringing this Perfection into your mind, body and outer experience except by knowing and accepting the Mighty, Active Presence of God in you. Such full recognition will cause this Inner Power to propel this Perfection of God into your outer visible experience.

Say to students: " 'I AM' putting forth, as a Messenger of this Truth, Statements of Truth which will positively produce results–if unwaveringly held to and used." Students think things do not work because they do a thing today and forget it all next week.

The *desire* for Light and Truth is the *Presence of God in the desire*–propelling Itself forth into action. For illumination use the Statement:

" 'I AM' the full comprehension and illumination of this thing I want to know and understand."

The day your eyes are opened to see some of these Marvelous Ascended Beings, the joy will last through eternity.

If one does not take the attitude that: "I have

the ability to do this," he never in the world can accomplish the thing he wishes to do.

The moment you express, " 'I AM' the Resurrection and the Life"–in thought and feeling–it immediately turns all the energy of your Being to the center in the brain which is the Source of your Being.

You cannot overestimate the Power in this Statement. There is no limit to what you can do with it. It was the Statement that Jesus used most in his most difficult trials.

Always know that when you decree a constructive thing, it is God in you propelling you to do it.

It is the most foolish question imaginable to ask, "Have you proved this in your own experience?" Each individual has to prove it for himself or it will mean nothing to him. Nothing ever really means anything to anyone until he uses it.

The feeling carries with it a certain coexistent sight. One often feels a thing with such clearness that he really sees it from the Inner Standpoint.

As you enter the Ascended State, thought, feeling, seeing, and color are almost simultaneously manifest.

Harmonious sound is quiet. This is why ravishing music is the most quieting in its effect, while bombastic music is just the opposite.

BENEDICTION: Thou Mighty, Majestic, Conquering "I AM," we give praise and thanks for

our comprehension of Thee as God Acting in us; and with Thy Mighty Presence and Radiance, cause us to feel the Mighty Import of Thy Mighty Truth and Wondrous Presence. When we contemplate Thee, let Thy Mighty Radiance fill us with that comprehending Consciousness to know and apply Thy Assertions of Truth more and more perfectly. We give praise and thanks for Thy Mighty Perfection and Truth for all those who look unwaveringly to Thee.

DISCOURSE III

SAINT GERMAIN

INVOCATION: Thou Infinite, All-Pervading Presence! With Thy Mighty Radiance surging forth throughout the atmosphere of earth, we give praise and thanks for the onrushing Christ Power of Love and Wisdom, which with no uncertainty is raising the consciousness of mankind above the sordid selfishness of the activity of the outer self.

We give praise and thanks that we have become conscious of Thy Mighty, Active Presence at all times, and that in the conscious recognition of Thee, Thou dost charge our minds and bodies with Thy Pure Presence forever.

I bring Greetings from the Radiant Host to you all.

THE DISCOURSE

From within the Radiance of the Great Electronic Belt "I AM" projecting this today.

From the Heart of the Golden City the Twin Rays come forth, upon which are the speech, the Light, and the sound.

The time has rapidly enfolded us when we must be more aware of the Great Electronic Belts encompassing all creation from the Godhead to the individual.

The Etheric Belt around the Golden City is impenetrable–far more so than a wall of many feet of steel would be.

So in a lesser degree may the individual, with sufficient comprehension of the Active Principle of the God Self, surround himself with an Electronic Belt or Circle, which he may qualify in any manner he may choose; but woe be unto the individual who qualifies it destructively.

If anyone should be foolish enough to do this, he would find this Belt of Electronic Force closing in upon his own outer form, and it would be consumed; but those who with wisdom build and qualify it with God's Mighty Love and constructive Power will find themselves moving in a world untouched by the ignorance of mankind.

The Cosmic Period has arrived when those who have attained a certain degree of understanding must create, apply, and use this Wondrous Electronic Circle. Every creation that is Self-conscious action has this Circle of pure Electronic Force about it naturally, but to a large degree its force is ungoverned, therefore dissipated.

In consciously creating this Mighty Ring of Pure Electronic Force, you stop all leaks in the generation of this Limitless Essence, and hold it in reserve for conscious use and direction. After a few months of this conscious creative activity of and within this

Electronic Ring, one will need to be very careful in loosing or directing this Force in any manner except by Divine Love.

In the beginning of man's individualization, he was naturally surrounded by this Magic Circle, but as the consciousness was lowered more and more, rents were made in this Great Circle of Force, causing leaks, as it were, until lt has almost entirely disappeared. This, however, was not a conscious creation of the individual, but was a natural, enfolding circle.

Now students of the Light must go to work with no uncertainty and consciously create this Electronic Belt about themselves–visualizing It Perfect–with no rents or breaks in its construction.

Thus it will be possible to consciously reach within the Electronic Belt of the Godhead, and there receive Limitless Wisdom, Love, Light, and the Application of simple Laws by which all creative power is possible.

While the student is admonished to look always, and never forget it, to his own God Self, which is the Creator of his individualization, yet never has there been a single attainment in which there has not been given the Assistance of those still in advance.

There being but the One God, the One Presence, and His All-Powerful Activity, then the one more advanced than the other is but more of the God Self in action. In this recognition you will understand why you can feel, " 'I AM' here and 'I AM' there,"

for there is but the One God Self everywhere.

When the student can once understand that the Ascended Host of Masters are but the more advanced Consciousness of himself, then he will begin to feel the unquestionable possibilities within his grasp. Whether he speaks to the Godhead direct, to one of the Ascended Masters of Light, or to his own God Self, in reality it makes no difference, for all are One.

Until one does reach this state of Consciousness, it does make a difference, for the individual is almost certain to feel a division of the One Self, which is not possible to be made–except in the ignorance of the outer activity of the mind.

When the student thinks of the outer expression, he should at all times be aware that it is but the outer activity of the One Intelligence, guarding himself at all times against trying to divide in his own consciousness this One Mighty God-Power centered in him.

Again I must remind you that this Limitless, Mighty Power of God cannot intrude Its Wondrous Powers into your outer use–except by your invitation. There is only one kind of invitation that can reach it and loose it, and that is your *feeling* of deep devotion and Love. When one has generated about himself this Electronic Belt or Ring, there is no power that can penetrate it except Divine Love. It is only your consciousness of Divine Love that can penetrate within this Great Inner

Blazing Belt of the Godhead, through which the Godhead sends back to you Its Great Outpouring–mark you–through His Messengers, Transcendent Beings so far surpassing anything of your present conception that it is not possible in words to convey to you the Majesty of the Love, Wisdom and Power of these Great Ones.

At this point let Me again remind you that the student who will dare to do and be silent will find himself lifted into the Transcendent Radiance of this Inmost Sphere; then by experiencing and seeing will he comprehend this of which I have spoken. The soul who is strong enough to clothe itself in its Armor of Divine Love and go forward will find no obstruction; for there is naught between your present consciousness and this Mighty, Transcendent Inner Sphere to obstruct the approach of Divine Love.

When you have touched and seen within this Inner Circle, you will then understand how imperfect is the present expression of Divine Love. Once one becomes consciously aware of these Great Spheres to which he may reach, he will find himself fearlessly reaching deeper and deeper within the Radiance of this Mighty Intelligent Hub of the Universe–from which all worlds, all creation have proceeded.

There are among you strong, dauntless, fearless souls who will understand this and be able to use it with great blessing to themselves and others. There

are those who will understand and see that the "Presence" which beats each heart is *God in Action;* that the Activity sending the circulation through the body is God; that the Essence charging forward to vitalize the outer form is *God in Action*.

Then, O Beloved Students, awake to this–now! Do you not see how great a mistake it is to sink under the ignorance of the outer self, feeling pain, distress, and disturbance, all created by the ignorance and activity of the outer self; when a few moments of earnest contemplation will cause one to realize that there can be but One Presence, One Intelligence, One Power acting in your mind and body, and that is God.

You see how simple, yet powerful, is this Consciousness within you to loose the full recognition of the Great, Pure Activity of God into your mind and body; and to let its Wondrous, Transcendent Essence fill full to overflowing every cell.

It seems to Me, Beloved Students, that you cannot fail to grasp this simplicity of your True God Self acting in you. Ever turn to It, praising It, loving It, demanding and commanding It to surge forth into every cell of your body; into every demand of the outer activity, in the home, in your affairs, in business. When your desire is sent forth clothed in the God Presence, Power and Intelligence, it cannot fail. It must bring to you that which you desire. Desire is but a lesser activity of decreeing. Decreeing is and should

be the recognition of the accomplished desire.

Beloved Students, do forever put away any fear of the use of this Great Power. You know without being told that if you misuse It, you will experience inharmony. If you use it constructively, it will bring such Blessings untold that you can but give praise and thanksgiving for the moment when you *awakened* to the fact that this Limitless Power is omnipresent–ever awaiting your conscious direction.

The individual who has said that you cannot add one cubit to your height by your thought has stifled the activity and progress of the individual, for thought and feeling are the Creative Power of *God in Action*.

The uncontrolled, ungoverned use of thought and feeling has brought about all kinds of discord, sickness and distress. Few, however, believe this, and keep going on and on continually creating by their ungoverned thought and desire, chaos in their worlds; when they could as easily as a breath face about, using their thought constructively with the motive power of Divine Love, and build for themselves a Perfect Paradise within the period of two years.

Even physical science has given proof that the body or outer form completely renews itself within a few months. Then you must see that with the conscious understanding and application of the True Laws of your Being, how easy it is to cause Perfection to manifest in your entire body,

and every organ to leap into its Perfect, normal activity. In a short time it would not be possible for inharmony to enter your thought or body.

O Children reaching to the Light! this great privilege is the Open Door of God before you, which none may shut but yourselves. None may obstruct or interfere with it but yourselves. Fearlessly use your God-given Dominion and Power and be free. You cannot attain and hold this Perfect Freedom except through consciously applied knowledge.

Now I shall give you a secret that if understood by the angry or discordant individual would tear him or her from that destructive activity–even from a purely selfish standpoint.

The angry, condemning person who sends out destructive thought, feeling, or speech to another who is poised in his own God power, receives back to himself the quality with which he charged this power; while the poised person receives the energy which serves him, and which he automatically requalifies by his own poise. Thus, the creator of discord, through anger and condemnation, is consciously destroying himself, his world of activity, and his affairs.

Here is a vital point students should understand. When one consciously reaches within the Inner Electronic Circle of God, he makes his outer expression and activity a channel for the ceaseless outpouring of the Pure Essence from the Godhead.

This in itself, even though he be entirely silent in the outer expression, is one of the greatest services to humanity—which but few not Ascended are aware of what it means to mankind.

The one reaching within the Electronic Circle becomes a continual outpouring, and this very Radiation alone is a tremendous Blessing to all mankind. Thus, aeon after aeon, have there been those unselfish Messengers of God through whom was poured forth the Blessing of those not understanding the uplifting Presence of this surging energy. When there is one or more found who can be an outpouring for this great welled-up Presence, it is likened unto the first trickling of a leak in a dam.

As the consciousness is held steady and firm, and as the rent in the dam increases, greater volume of water comes forth, for at last all obstruction is swept away, and the whole force back of it is poured forth into use. Unlike the water dammed up that rushes forward, dissipating itself because it is without direction, the God-Power thus loosed goes direct to the channel of consciousness most receptive, and there builds Itself up, awaiting the opportunity to rush forward more and more. Thus, the student of Light, aside from his activity in dispensing the Truth, becomes, as it were, an artesian well, from the depths of which flows this Mighty Essence of God.

The students should at all times remember that

no matter what their mistakes may have been, God never criticizes nor condemns them; but at every stumble which is made, in that sweet, loving Voice says: "Arise, My Child, and try again, and keep on trying, until at last you have attained the True Victory and Freedom of your God-given Dominion."

Always when one has been conscious of having made a mistake, his first act should be to call on the Law of Forgiveness, and demand wisdom and strength not to make the same mistake a second time.

God, being all Love, must have Infinite Patience, and no matter how many mistakes one may have made, he can always once again, "Arise and go unto the Father." Such is the Love and Freedom within which God's children are privileged to act.

There is only one, mighty, invincible, evolving process, and that is through the power of consciously generating Divine Love. Love, being the Hub of all Life, the more we enter in and use It consciously, the more easily and quickly we release this Mighty Power of God, which is always standing as a dammed-up force, waiting to find an opening in our own consciousness by which It can project Itself.

For the first time in many centuries, the Searchlights, or Rays, from the Golden City over the Sahara Desert, are set into active operation over America and the earth. There may be some individuals who will see these Rays, not knowing what they are.

Mankind need no longer think that personalities can continue to generate their destructive forces and long survive. Those who can use this Knowledge of the Electronic Circle should no longer be deprived of its benefits. Give it forth and the warning with it.

Use this Statement: " 'I AM' the fulfilled activity and sustaining power of every constructive thing 1 desire." Use it as a general statement, for the sustaining power is in everything that there is. " 'I AM' here and 'I AM' there" in whatever you want to accomplish is a splendid way to feel that you are using the One Activity, and you thus rise above the consciousness of separation.

BENEDICTION: O Mighty Ones of the Golden City! Glorified are we in Thy Wondrous Radiance. Privileged are we in the use of Thy Great Rays. Blessed are we in the conscious recognition of Thy Mighty Presence. Enfold us forever in Thy Transcendent Light.

DISCOURSE IV

October 13, 1932

SAINT GERMAIN

INVOCATION: Thou Mighty Consuming Flame of God! We bow before Thy Mighty Majestic Power! We rejoice in Thy Directing Wisdom! We rejoice in Thy Presence in the heart of every one of God's Messengers that go forth to direct His Service and Energy to the blessing of mankind. We give praise and thanks that Thy Presence has changed the tide of things, and that Thou art as always, the Mighty Governing Intelligence.

We give praise and thanks that Thy Consuming Fire and Thy Creative Activity dwelling in the heart of every one of us are ready to be loosed by the conscious desire into action. We give praise and thanks that Thou art the Consuming Presence everywhere; that " 'I AM' there and 'I AM' here, and 'I AM' the Power that makes all things clear."

"I AM" the Majestic Presence, "I AM" the Conquering Power, "I AM" Thy Mighty Energy, Thy Consuming Flame each hour.

I bring Greetings to you all from the Heart of the Creative Fire.

THE DISCOURSE

The Creative Fire that "I AM" is the Flame of God, His Master Presence, anchored in the heart of every one of God's children. While in some It is but a spark, yet with the right touch, that spark can be fanned into a Creative Fire and Consuming Flame.

This Mighty Presence, God, in Its myriad activities, is the Omnipresent Activity that all may use without limit if they only will dismiss from their recognition the outer appearance, which is but an appearance, and take their attention away from that which has bound them through endless years.

Today, the Scepter of Power and Authority stands in the atmosphere before the Single Eye of every advancing student. At first they may reach up mentally and take the Scepter of Authority, using It in this way, until before they are scarcely aware of it they will find It tangible and visible in their use at times.

It is no idle promise that those seeking the Light may again receive this Dominion. When we go through a footpath in the forest, we know we may return the same way if we wish, but *we* must make the decision. So after hundreds of years of search in the outer for power and authority, we find that anything that seems to be so is but shifting sand, and tomorrow it may be gone.

By the rejoicing acceptance of your God

Dominion, you may step firmly upon the sure foundation of the Rock of Truth, which is God, and from which no outer disturbance can ever shake you–once you know from actual experience.

Students of Truth wonder why they cannot hold a firm anchor in their decision to hold fast to the God Presence, which is their Dominion. They do not analyze their outer expression to see what is lurking there to cause disturbance, question and doubt; but for those who will take the authority which is theirs and probe deep into their motives, it will be so easy to pluck out the tares from the Golden Grain and soon be free from the disturbance that causes them to doubt themselves and the very Presence of God which beats their hearts.

When students will be honest enough with themselves and their God, the "I AM Presence," to pluck out by the roots anything that is causing disturbance within them and be able to feel the Mighty Light and Radiance of the Great God Self, they will require little effort in loosing the "Great I AM Presence" in Love and Intelligence–which is an ever-sustaining Power in strength, assurance, or whatever they may need–in order to hold their feet firm upon the Rock of Truth, which is one of the Great Jewels in God's Kingdom. Its Dazzling Radiance will enfold them upon the slightest invitation.

O Students of today! Hold fast to this Mighty

Presence which beats your hearts, whose Life flows through your veins, whose Energy flows through your mind! You have free will and can qualify and bless it to your Perfection or imperfection. Always remember that through your failure to turn to this Mighty Presence–by which you find you have created inharmony and disorder–you must give yourselves ample time to gain the full recognition of this Mighty Power and give It full activity in your Life.

Do not become impatient because things do not work out as rapidly as you would like them to. They can only work according to the speed of your acceptance and the intensity of your feeling.

The Mighty Energy that surges through your mind into your body is the Pure Electronic Energy of God, the "Mighty I AM Presence." If your thought is joyously held upon your God Self as the Source of your Being and Life, that Pure Electronic Energy continues to act unabated, uncontaminated by human, discordant qualification; but knowingly or unknowingly, if you let your thought begin to gather from the discord by which it is so often surrounded, you change the color and quality of this Radiant Pure Energy.

It must act, and you are the one who shall choose how it shall act to you. Don't ever think you can get away from this simple fact. It is an Immutable Law of God, and no human being can ever change It. Students must understand and maintain this attitude

if they wish to make steady progress.

I tell you beloved students, you may rage and doubt and fear and rebel all you please at Self-correction; but it is the open door to your Mighty Illumination and Freedom from all limitation in the outer world of activity.

There are a great many students, when they come to a certain point of understanding–where all the results of their activity are revealed to them and they look upon the many mistakes that have been made which must be corrected–become despondent, critical, and condemnatory to themselves and God. This is a great mistake again. Everything that is revealed to them in which they find they have been making a mistake should make them rejoice exceedingly–that the things are revealed which need correcting. Knowing that God is the Power to think, then they know they have the Power to correct this and should joyfully set to work to do so.

The Power of God's Life which beats their hearts is absolute proof that they have the Intelligence and Power of God within them by which they may dissolve and consume all the mistakes and discordant creation they have consciously or unconsciously drawn about them. They may say to this undesirable creation: " 'I AM' the Mighty Consuming Flame that now and forever consumes all past and present mistakes, their cause and effect, and all undesirable

creation for which my outer is responsible."

It seems so strange that students seem to have such difficulty in fixing the anchorage and recognition of the Limitless Power they are wielding when they say "I AM." When the intellect, which is the outer activity, knows this, then the students should intensify it with all their power by the intense feeling of the Truth of this. Then they would find greatly added speed and Power in their active use. I tell you, Dear Students, you have come to a time when you can use this Power with great authority to free yourselves from the chains of limitation that have bound you so long.

Set about it with joyous determination to put your house in order. If you were going to have a distinguished guest, I doubt not that you would spend days working earnestly–cleaning, washing, polishing, and preparing for this guest. How much more important it is to prepare for this *Great Prince of Love and Peace–the Prince of Consuming Fire* that dwells within you and controls the element of fire.

When one thinks of Oromasis, Prince of the Fiery Element, it is the Flame of Creative Fire within that is calling to Him for Assistance in the quickening of this Creative Power–and brings results unimaginable.

There has been no time in My Memory when there was so much natural assistance at hand for the student of Light for his use as there is at this time, and the students should take advantage of this with joyous intensity.

When you speak in the Name, Power, and Authority of the "Mighty I AM," you are releasing limitless energy to do your bidding to fulfill your desire. Why longer allow doubt and fear to beset you when " 'I AM' the Open Door which no man can shut into the great Opulence of God–waiting, surging to press forward to heal, to bless, and to prosper you abundantly." Dare to be, to feel, to use this Mighty Authority–God in you!

Beloved Students, do you not realize that you can express Perfection by taking your determined stand with sufficient intensity that: " 'I AM' the Mighty Electronic Energy flowing through, filling and renewing every cell of my mind and body–right now." Do you not see, with sufficient intensity of this, in a few minutes or hours you could dispel any disturbing condition in the mind or body and allow that Mighty, Pure Energy to do its work, uncolored, unaffected by any discordant element in your own thought?

You *can* renew any nerve, any organ, and build any member of the body into its Perfection almost immediately. Oh why not *feel* this, apply It, and as you begin to experience the remarkable results, your confidence will leap into its Perfect Activity, and your mind will have all confidence in this Mighty Presence and Power and Its omnipresent limitless use.

When there is a seeming lack of energy, take your determined, joyous stand: " 'I AM' the Mighty

Presence of this Alert, Radiant Energy, surging through my mind and body, dismissing everything unlike Itself. I take my stand in this Alert, Radiant Energy and Joy for all time." You can pass this Pure Energy through your mind and body as I would pass My Hand down before you.

At first, because you do not seem to feel any great magnetic electronic force pass over you, does not in any way indicate that you have not received this Mighty Energy which you have commanded with authority to flow through your mind and body.

One may say the same thing to his affairs that may not be according to his desire for Perfect Expression. The student can stand and call forth the Mighty Presence of the "I AM"; send It forth into his business and world; command It to consume everything unlike Itself, and replace all with the Mighty Perfection of God–which "I AM"; command It to be Self-sustained, and cause that Perfection to manifest his unceasing authority and power, and cleanse his world of every discordant thing, for " 'I AM' the Supreme Authority, *God in Action*."

One does not need to do this with any tension, or to the extent that he creates tension in the action of the body, but he can rise in the Supremacy and Dignity of the Authority of God, and cleanse everything needing it. In doing this, one need not speak in a loud voice, but in a very low, masterful tone.

Stand in the room by yourself and declare: " 'I AM' Master of my world. 'I AM' the Victorious, Intelligence governing it. I send forth into my world this Mighty, Radiant, Intelligent Energy of God. I command It to create all Perfection–to draw to me the Opulence of God made visible in my hands and use. 'I AM' no longer the Babe of Christ, but the Master Presence grown to Full Stature, and I speak and command with authority."

Thus one may consume the mistakes and imperfection he may have created, and in the authority of the "I AM," recreate–immediately–the Perfection he desires. Know that it is constantly Self-sustained, so long as you do not intrude upon it the discordant activity of your thought and feeling.

I want so much to have you *feel* that you are the Only Authority in this world or any other, so far as your world is concerned. Do not ever fear that the perfecting of your world is going to disfigure anyone else's world, so long as your intent is not to harm anyone. It does not matter what the world about you says, or how much they try to intrude upon you their doubts, fears and limitations. You are the Supreme Authority in your world, and all you have to do is to say, when you are beset by those conditions: " 'I AM' the Mighty, Magic Circle of Protection about me that is Invincible and repels from me every discordant thought and element which seeks to find entrance or

intrude itself. 'I AM' the Perfection of my world, and it is Self-sustained."

O Beloved Ones! It is no longer necessary to wonder, waver, and question: " 'I AM' the Authority." Go on—dare to be—and use this Authority of God which is expressing in the "I AM" of everything. Why not be fearless? You have been wanting the Presence of the Great Ascended Ones: " 'I AM' the Visible Presence of those greatly beloved Ascended Masters whom I wish to have appear here to me, and whose Assistance I desire."

You have come to the point where you can dismiss all discord from your minds. Fill your minds with this Pure Electronic Essence, and no discord can enter—so long as you keep it filled with this "Presence." I tell you again, you are the Authority in your world, and if your thought is filled with this Essence, then no discord will touch it. We are going to take this Authority and use it, clear away all discord, and declare with no uncertainty: " 'I AM' the Supremacy of man, everywhere I go! 'I AM' *God in Action.*"

BENEDICTION: Mighty Creative Fire, we give praise and thanks for Thy Great Omnipresence today, to heal, to bless, and to prosper everywhere. Enter into the hearts of mankind with Thy Creative Presence and Genius, and let the Full Divine Justice of Thy Supremacy reign throughout the land in

all official places. *See* that all authority is in the hands of Thy trained and trusted Messengers; that they may govern fully all governmental offices in America, and be ever divinely sustained; that America be healed, blessed, and forever prosper; that all sinister influence be consumed and forever repelled from within the borders of America.

NOTES

The Host of Angels rejoice at the return of the wanderer who has come back home—who has sought authority so long in the outer, and found only husks. After his energy is wasted, he comes back home, and there is the Fountain to recharge, rebuild him against all the discrepancies called old age. Thus you can stand forth renewed again in the fullness of Youth and Power, for such is The Way of Life—God's Life.

It keeps the most marvelous vibratory action expressing for each one to speak gently. It is perfectly wonderful if you could see the Inner action of it.

Let each one enter into the Happiness and Love of Perfect Obedience, and liberate the Great Power of God. If one just lets go of the outer and enters into the Inner, every discord lets go at once.

ETHERIC CITIES: Over the principal deserts there are Etheric Cities. Over the Arizona desert is the Etheric City in America. There is one over the Sahara and one over the Gobi.

The one over Brazil is the Etheric City for South America.

Humanity should know and be made to realize that again, again, and again, the inhabitants of cities pass out through so-called death and re-embody in that same place, because attachments have been formed that draw them back into the same environment again. The student who has to re-embody should take the command that: "The next time I will be born into a family of Great Light." This would open the door to great speed in his progress.

DISCOURSE V

October 17, 1932

SAINT GERMAIN

INVOCATION: Thou Mighty Infinite Presence–Thou All-Pervading Healing Presence! Descend and do Thy Work. Thou Mighty Infinite Intelligence! Give forth Thy Confidence and Strength! Fill the mind and body of each one with Thy Radiant Presence! Fill every cell with Thy Radiant Presence! Prove Thy Presence in Thy Conquering Mastery and Power. Mighty Master Presence within each one–come forth! Erase this outer human self and hold Thy Dominion now and forever. There is but One Intelligence, Presence, Essence and Love, and this Thou art. Pour forth Thy Radiance through these outer cloaks of flesh and command Thy Perfection to thus be manifest and sustained.

I bring you Greetings from the Great Host, ever shedding their Radiance and Intelligence.

Take the Command: " 'I AM' the Pure Electronic Essence that fills my mind and body, and I brook nothing else." God in you is Master of all conditions at all times. Say often: " 'I AM' always the Victorious Presence of the 'Mighty I AM.' "

Feel the mighty current of Electronic Essence fill

your mind and body, erasing instantly all inharmonious activity, and giving you the Consciousness of Mastery and Victory.

Command: "Divine Presence! Pour Thy Radiance through this mind and body, and see that Thy Wisdom directs always in every outer activity."

THE DISCOURSE

Let us be conscious of the Healing Radiance filling this home. The great need today is the healing of the nations and of individuals. As the individual is given Assistance through the outpouring of the Electronic Energy through the mind and body and filling every cell, so in an expanded degree is the nation treated likewise. The nation is a great body of individuals and of Nature's creations. We have the same power, being the individualized Presence of God. Then we know: " 'I AM' everywhere present, and when my consciousness takes on this expansion, I know Its energy leaps into action everywhere, in the cells of the body of the world as well as in the body of the individual." We must come to know that the Active Presence of God, All-Powerful, is everywhere present; that there is not a single nook nor corner anywhere that the Active Presence of God is not; that this Active Presence seizes and binds all human creation and consumes instantly everything of an inharmonious and undesirable nature.

With the use of the Electronic Belt surrounding the individual, he must understand that he can make this an absolutely Invincible Protection; through Its Protection, Divine Wisdom acts, repelling everything through our conscious action that shall not be taken into the system, and that this Omnipresent Wisdom and Intelligence is always prompting us to refuse acceptance of anything into the system, either through feeling, thought, or food that would in anywise disturb its harmonious activity.

The Natural Activity of the Currents of Life play everywhere like the play of a searchlight. The outer activity should at all times be an invitation to the receptivity of the Currents of Life, which are Pure Cosmic Energy and which are ever flowing through the atmosphere of the earth.

It is true that where there are conditions too dense for It to penetrate, It goes over or under them, so to speak, and finds Its way onward just the same. Every individual, since the beginning of this year, should come to understand that he is walking and moving constantly within the reach of Mighty Healing Currents. Through the Power of Cyclopea, the Secret Love Star, and the Rays from the Golden City, currents of Healing Force of tremendous Power are consciously directed through the atmosphere of the earth. These, you will understand, by their very nature, being the Energy of God in Action, are therefore Self-sustained.

The consciousness in the individual of their presence will enable him to contact these Rays at any time.

Students who have a feeling of patriotism and who wish to help the nation should take the stand that these Healing Currents reach not only individuals, but carry into conditions, environment and official places like an Intelligent Flame, and are doing a work for the protection and uplift of the children of earth not heretofore set into such powerful action since the creation of this planet.

The more individuals become truly and sincerely conscious of this operation, the more can they become mighty Messengers of assistance in this most unusual Work.

Through the conscious manifestation of the mental forces back of the communists is the sinister influence with which We are dealing in the outer world's activity. Those who wish to be true Messengers will meditate upon this idea until they have grasped the full import of it. They will use their conscious effort, knowing that these Currents of Consuming Electronic Energy consciously directed through the atmosphere of the earth cannot be interfered with; and that in every sincere, conscious effort of the individual–in his desire to give his assistance–there will flow a consciousness of this Energy that he has not hitherto possessed.

Sometimes there are individuals of such a nature,

that while wonderfully kind and willing, the sudden consciousness that they need to let go of certain kinds of food or other activity is a sort of shock to them. I would say to these individuals that the Divine Intelligence within each one will cause them to naturally let go of the things not in accordance with this Great Presence at every step of the way when it is necessary. In order for an individual to consciously let go of a thing, he must have something that he feels is stronger to which he can anchor. As students become conscious of this, the confidence and strength will come to them to take the step.

As I suggested once before, I would consciously, at least once or more a day, stand on the floor and charge the home with this Pure Electronic Energy–and keep it charged–so that God's very Presence will keep out of the home, food, thought, any kind of presence, and everything that is not in accordance with the desires here.

I would suggest that whenever you find someone is coming you take the consciousness: " 'I AM' the Pure Radiance of Divine Love enfolding these individuals, and this Garment enfolds them when they come and when they leave." When you are conscious of this, you clothe them and they will wear this Garment into the home and out of it; and for them it will be a sustaining power.

Those who come into your home are deserving of

assistance, and this will enable them to receive the full assistance they desire and you will love to give.

No matter how great the knowledge attained, we at no time ever have the right to force either the knowledge or the discipline upon anyone. Only as students apply what they hear and receive can they ever know the Reality.

When you say "I AM," you acknowledge the Power that breaks down all barriers and conditions of opposition. This human self is just like a starving lion in the jungle. It will tear anything to get what it wants to eat. In this state, the human consciousness will tear its best friend to pieces to get its own way.

In any astral element there is that human desire element through which, unless one shuts his mind entirely to the astral world, will constantly find himself interrupted in a good decision–because he has left that door open to a force far more subtle than is ever found in the outer world. Many think there are good forces in the astral world. *I tell you, no good force ever comes from the astral world*. Any good force that seems to come from there must come through it; but it makes its own Tunnel of Light through which it comes.

In the first place, what makes the astral world? There is only one place where the undesirable creation can find a home, and that is the next step to the human activity, which is the astral realm. This realm

of astral activity has within it all undesirable creation accumulated through the centuries. Therefore, it is easy to see at once that no good comes from any contact with the astral realm. IT HAS NOTHING IN IT WHATSOEVER OF THE CHRIST.

There is as wide a difference between the astral realm of activity and what some call the Star Astral as there is between Light and darkness. However, the so-called Star Astral is again misunderstood. It is really called "Star Astrea." It is really an Activity, not a realm, and it is from the fourth sphere. The "Star Astrea" is a Cosmic Being whose Work it is to consume all possible within the astral realm, and to reach individuals whose attention seems to be drawn there. This Great Being will sooner or later clear the understanding of such individuals and consume their desire for any contact with that unhappy realm. No little children remain in the astral realm. The home of children who leave the earth is in the etheric realm. People who are in the body are in the same sphere when they sleep as the disembodied. There is a Sustaining Consciousness of the "I AM Presence" which, if one goes forth with It on going to sleep, through that sustaining Power one can reach unbelievable Heights. If you have the Consciousness through the outer expression of this "I AM Presence," and you take this Consciousness with you as you go into the other realms, It is a Sustaining Presence that is unbelievable.

There is an activity in the experience Life that demands the conscious recognition and use of the "I AM Presence," of *God in Action*. When you take that Consciousness with you through the veil of sleep, the soul is able to function out of the body with almost limitless Power.

Suppose there is a seeming need in the physical activity. Before going to sleep we can say this: "Through the Mighty Power and Intelligence which 'I AM,' I go forth while my body sleeps, make conscious contact with, and abundantly fulfill this requirement, no matter what it is."

Knowing that this activity is Self-sustained, it cannot fail in any way. It is a mighty way of setting into motion the "I AM Presence." Whatever the "I AM" commands while the body sleeps must be obeyed.

I knew of one instance of this kind when there was need of protection. The one using it had a certain consciousness of this Presence. The individual was falling over a cliff, and this "I AM Presence" instantly built up a form, caught the individual, and took him back to safety.

When one enters the conscious path and goes into any environment where there might be danger, one should always do some quick, definite work on his protection; for until one raises the body, he is always functioning more or less where he is contacting the outer thought of humanity. If the student be climbing the mountains,

he must do conscious protective work. He must do the protective work, and do it *consciously*.

If the student will always keep up his conscious protection, he will be able to avoid the destruction of other individuals.

Steamship Protection: "God is the Almighty Power protecting and directing this steamship; therefore, it moves in a zone of absolute safety." On the conscious path, you must be up and in action all the time. There are some who might think this is a suggestion of fear, but it is not. It is a recognition of the Omnipresent Protective Power.

Autos: "God is All-seeing and All-knowing, sees ahead, and will naturally avoid undesirable contact." When you say: "God is driving this car," the Vision of God goes ahead, sees blocks and miles ahead, and the prompting will come to go to the street which is clear. "Because God is driving this car, our path is unobstructed in every way."

There are two reasons why students have accidents. First, because they have become angry and opened the door. Second, because the student has lain down on the job.

Whenever we do a thing with a positive, dynamic attitude, it gives confidence to the outer, and it cannot fail.

To project an Electronic Belt around another, say:

" 'I AM' the Protective Electronic Belt around……." When you say, " 'I AM' the Protective Ring or Belt," it means that the Electronic Belt is *instantly* formed–invincible. Realize that when you say "I AM," whatever is commanded is All-Powerfully, instantly done. You cannot use the "I AM Presence" without having instantaneous Activity.

Often say: " 'I AM' the Omnipresent, All-Powerful, Protecting Intelligence governing this mind and body." It is instantly omnipresent there in action when you say "I AM." The "I AM" which is everywhere present is at that point doing the work that moment. This is the way you set into action by the most direct means the All-Powerful Action of the "I AM," which is *All in All*.

Constantly remind the outer consciousness that when you say "I AM," you have set into action *all* the attributes of the Godhead.

You are now at a point when you should have instantaneous activity. When you say, "I AM" in any condition, it means that instant action is taking place there by the Greatest Power in the Universe. The moment you become conscious that "I AM" is the Full Activity of God–containing all the attributes of the Godhead–you do that moment have the full use of this Mighty Power.

Use often: " 'I AM' the Presence producing this Master Home." Get the consciousness of the

Mighty Presence you are calling forth when you are using the "I AM." I have always loved to specify what I wanted to do. If I want health in my body I say: " 'I AM' the Presence charging this body with Pure, Electronic Energy."

When you say: " 'I AM' the Ascension of this physical body right now," then you have accepted and entered into that action right now. When you are striving for the Light in unlimited action, you are striving for the Greatest Thing in the world. Fill your world with the Presence which "I AM," and when you do this, feel you are doing it consciously.

If one will take the consciousness: " 'I AM' the Perfect Activity of every organ and cell of my body," then it must manifest. You have but to be conscious of this, and it must be.

Use often: " 'I AM' Perfect Health now manifest in every organ of my body." Put your confidence in your "I AM" instead of some thing. Suppose you want great intelligent activity, say: " 'I AM' the Perfect Intelligent Activity in this body." You cannot do this looking to something outside.

To clear the mind, eyes, and ears:

" 'I AM' the Perfect Intelligence active in this brain."

" 'I AM' the Perfect Sight looking through these eyes."

" 'I AM' the Perfect Hearing through these ears."

Go at these treatments with determination and they cannot fail. You have the reins, now use them! Avoid all use of words that seem to be a reminder of limited conditions.

When you are conscious of the "I AM," you don't care what anyone in this world does. You must not be concerned about anything but your world. For squaring the circle, use the "I AM" Activity. Pay no attention to what anyone says. Just say specifically what you want to produce.

Say again and again: " 'I AM' the only Presence acting in this."

Say: " 'I AM' the only Presence acting in my world."

For finding things: " 'I AM' the Intelligence and All-Seeing Eye which finds this."

You will be amazed at the feeling that grows within when you do not have to look to anything but the "I AM."

Wipe out of your mind everything but the conscious operation of the "I AM," for It is the most Potent Power possible.

Get the sense of ease about producing these seeming miracles.

Suppose you want to illumine a room. Say: " 'I AM' the illumination of this room."

Then you act upon the electrons in the room. The

illumining of the atmosphere of a room is as easy as raising your hand. Your ability to illumine a room is just as easy as physically illumining it through the electric lamp. You can just as easily plug into the Universal current of electricity as through the wires.

To make visible the illumination within your own body say: " 'I AM' the visible illumination through this body now." Right within yourself is a focal point.

The "I AM" in you created everything in the Universe.

When you enter into the Confidence of the "I AM," It will soon do away with all obstruction. Use often: " 'I AM' the Consuming Power and Presence of every bit of fear, doubt, and questioning in my outer activity concerning this Invincible Activity of the 'I AM.' " Keep this up, and you will always know instantly what to do. You can take this and use it, and thus remove every obstruction to the "I AM" Activity. When you operate consciously, you know positively it is done.

The consciousness of an individual clothes the form with that individual's own concepts of it. When these are drawn about an individual who has generated a certain energy, they impose upon him nothing but the things in his own world.

Whenever you feel a sudden joy impulse, grasp it, use it, and decree.

BENEDICTION: Thou Mighty, Infinite Intelligence! We give praise and thanks for Thy Mighty Comprehension and Mighty Manifestation in the consciousness of those present. We give praise and thanks that "I AM" the Perfect Understanding in operation, and that "I AM" everywhere present, performing all required to be done. "I AM" the Illumination of everyone who looks to me. "I AM" the Radiant Intelligent Activity in the minds of all mankind. "I AM" the Master acting in the brain of everyone of humanity, causing Divine Love, Justice, Peace, Harmony and Perfection to manifest to our Beloved America.

DISCOURSE VI

October 20, 1932

SAINT GERMAIN

INVOCATION: Thou Mighty, Infinite Presence! Creator of all that is, always majestic in Thy Conquering Presence, we give Power only to Thee. We forever withdraw all power we have ever given to outer things and stand serene in Thy Majestic Presence, Love, Wisdom and Power. Knowing that, " 'I AM' here and 'I AM' there and 'I AM' everywhere, then 'I AM' serene in Thy Majestic Presence, manifesting Thy Love, Wisdom, Power and Judgment–that I have Thy foresight and see far beyond human possibilities." I give praise and thanks that I, now and forever, acknowledge and accept only Thy Mighty, Victorious Presence in all things, in my Life, my world, my mind, and my body.

I give praise that I have placed about each form Thy Magic Circle, Invincible, Impenetrable to anything unlike Thee. I stand guard over my Life, body, mind, world and affairs, that nothing manifest unlike Thee. We thank Thee.

THE DISCOURSE

Keep reminding the outer activity, the outer consciousness, that when I say "I," "I AM" using the

Infinite God-Power. When I say "I AM," I have set this Power into motion to successfully accomplish whatever the idea is which has been held in consciousness, or whatever idea the attention has been held upon. Sincere students should not forget this for a single hour, until the Truth becomes so fixed in the outer activity that it automatically acts.

Therefore, you will see how perfectly ridiculous it is to say: " 'I AM' sick, 'I AM' financially embarrassed," or that there seems to be a lack of anything. I tell you that you cannot possibly be affected if you will hold fast to this idea, then use it.

When you seem to have a cold, you do not need to be told to use a handkerchief. Then why do you need to be reminded that the outer activity has but One Power by which to move itself about, and that is the "I AM Presence," God in you? The unfortunate thing about sincere students is that they will not meditate often enough upon this Truth for its marvelous Presence to come into activity.

Know that: " 'I AM' the Majestic, Victorious Presence, filling all official places," and know it with certainty in your minds. If any of the students will sincerely take hold and use this, such an one will be blest for so doing.

Guard yourself in the outer contact constantly, that you do not unknowingly accept the appearance of things or the fear of so-called financiers. God governs your

world, your home, your business, and that is all with which you are concerned. Do not ever fear that you are running amuck with your imagination when you sense and feel the nearness of the full manifestation of the Mighty, Individualized Presence. Rejoice! Believe in the Mighty Presence that holds in Its embrace everything in this world that you can desire or use. You are not dependent on the outer things. With the joyous entering into this Mighty Power and Presence which contains all, do you not see how you would be provided for, if everything were cut loose?

I want you to feel, joyously accept, and with all your Being know that the Power of precipitation is no myth. It is real. Those who enter into this feeling deep enough will have the precipitation of anything they want.

Children have been chastised for seeing Angelic Beings and for manifesting an Inner Perception. It is the parent of that child who should be chastised, and well at that, for daring to interfere with the God-given Freedom of that child. If grown-ups would live more in the conscious imaging and acceptance of these Mighty and Great Presences (of whose very existence most of humanity doubts), they would feel Their Presence and uplifting sustaining Intelligence.

My Beloved Ones! If suddenly we find ourselves needing courage or strength: " 'I AM' there surging forth, supplying this instantly." If I need harmony in

my mind or body, then: " 'I AM there,' supplying it instantly, and I do not need to wait."

Do not give a thought to the world or individuals who do not understand these things. Go right on rejoicing in the visible, active Presence, precipitated into your Life and use, of whatever you wish.

Our outer common sense, so-called, must tell us that unless we expect, accept, and rejoice in the Presence of the thing we want, how in the name of God can we expect to have it? The poor, insignificant outer self struts itself about saying, " 'I AM' too important to give attention to these childlike fairy stories." Well, let me say to you that one day the individuals who say this will be only too glad to listen to those fairy stories and fill their minds with those ideas–that they may come forth.

In every instance in the outer contact of the world of business, whenever there is a negative condition that seems to touch your world in any way, instantly take your firm stand: " 'I AM' the precipitation and Visible Presence of whatever I desire, and no man can interfere with it."

This is a Mighty Truth. When I speak of precipitation in this manner, I do not only mean through the invisible, but through any channel, for all is a precipitation; it is only a little difference in activity.

When I recognize who "I AM," then I have entered into the "Great Silence," wherein is God's

Greatest Activity. This recognition should bring great revelations to the individual, if he holds to it with joyous acceptance.

In your outer experience, the use of any activity develops your strength to greater and greater efficiency, does it not? If one can apply this in the outer activity, do you not see how much more important it is to the Inner Activity? The more you put it into use, the greater the power you put into it. Know you can do it with the Inner Spiritual things far greater and quicker than in the outer things, for with Spirit, the Power acts instantly. There is no waiting when the "I AM" acts.

The fact that you give credence to development of the muscular system by use should make you realize that the same effort given to the exercise and recognition of the Inner Power would naturally produce far greater results. For instance, man is supposed to perform certain physical exercises in order to develop his muscles. I have, in my students, many, many times, enabled them to produce powerful muscles in a symmetrical, beautiful body without having taken a single exercise to do it. It is the same with the exercise of your Inner Faculties in bringing forth the Inner Power.

In all development, either of the Inner or the outer, the first part of the exercise is mental. Here we must know that there is only one Power and Energy to

use, and that is from the "I AM God Presence" in you. Therefore, the exercise of your Inner Faculties is necessarily mental–called mental–but I say to you, it is *God in Action*, because you cannot form a thought without the Intelligence and Energy of God to do it. Therefore, your mental activity is the Energy of *God in Action*. Now you see how easy and possible it is to make a strong physical body without lifting your hand in physical exercise to do it.

Most scientific, medical, and men of physical culture will deny this, but I assure you it is only because they have not become aware of, or thought deeply upon the energy or power that is acting; because no kind of activity can take place except by the use of this Inner energy and power.

Individuals allow the impingement of doubts and fears to rush in and overwhelm them when it comes to the recognition of these Great Faculties, which are free for their use at any time. You see, they are but submerged as it were, by the outer, like a cork that has been pushed beneath the water, which when released by a little effort, pops up to the surface into use.

I must say it is positively pitiful when earnest students spend so many years straining at intervals to gain the use of these faculties, and then because they do not operate immediately, relapse into a state of inactivity until something

spurs them on, and then relapse again. Persistent, determined recognition of this "I AM Presence" will take you through anything to absolute certain accomplishment–unless you lie down on the job.

I see, and especially at this time, a goodly number of individuals who, with a little encouragement and description of the simple use of these faculties, will quickly leap into their freedom–and especially those who have this verbal instruction and the Radiation that goes with it.

Is it not appalling that Sons and Daughters of God will submit to the binding claims of limitation when, with persistent effort and determination, they would open the door and step through into this great Inner Chamber, filled with such Dazzling Light, jewels, gold, and substance from which every kind of food in the Universe can be precipitated? Then with this Truth plainly before them, these individuals still hesitate, through unbelief, to step through, take this scepter and be free.

Beloved Ones! Again I say to you: *Sing* the Great Melody of the 'I AM' Conquering Presence. Sing It in your hearts *continuously*. *Feel* It with all your ability; be determined to use It. Hold fast to that determination, and the knowledge and the way will steadily open to give you that Mastery which is your Eternal Freedom. Just keep joyously knowing that you are through the veil now.

Whatever Mastery the individual has gained over himself, his affairs or his world, is always, and should be, a Sacred Chamber–an Inner Sanctuary upon which no other inquiring individual may intrude. No one may attain Mastery through the desire of the outer to find the Mastery within another.

To seek, find, and apply the Law of one's own Being is the student's sure road to Mastery, and only when the individual has attained it himself may he really understand what True Mastery is. There is only one Mastery to be sought, and that is over one's own outer self.

One might walk beside a Master for years and not discover it until his own Inner Faculties revealed the fact. One might live in the same house with a Master for years and not know it until some crisis arose to be handled, and thus the Real Power be revealed.

For a Master to discuss or disclose his own attainment of Mastery would be to dissipate his own forces and may not be done at any time.

If a student be fortunate enough to have a beautiful experience and then discuss it with others, there is usually so much doubt poured at him that he soon begins to doubt himself. It is really funny how convincing someone else's argument can be. If a student will listen to the argument of someone else, why not be at least as fair to his own God Self and listen to Its Power and Good as expressed through the Inner Experience?

The moment doubt begins to enter, more doubt rushes in. The same with the "I AM." If you put your attention upon It, It rushes forth more and more. Where the conscious attention is fixed, there the energy pours. Dear Ones, do you not see, when you want something revealed, or to be inspired in some way, do you not see, "I AM that"? The moment you say "I AM," you set in motion this Power that has inherent within It all these faculties. It has all substance, and must take on whatsoever form the attention of the mind is fixed upon.

The "I AM" is the Fathomless Mind of God. In reaching for understanding, the average student is but contacting the recurring memory of that which has been, instead of going into the Heart of God and bringing forth that which never has been.

Individuals and students many times do not and will not realize that there have been many civilizations of vast attainments which are entirely unknown to the outer world today. Atlantis and Lemuria, or the Land of Mu, as credited by a few today, are but fragments of the great civilizations that have been.

To do unusual things: The students who wish to do this, take the determined stand: *" 'I AM' the Heart of God, and I now bring forth Ideas and accomplishments which have never been brought forth before."*

Consider only: " 'I AM' that which I wish to bring forth." The "I AM Presence" is the Heart of God. You are immediately in the "Great Silence" the moment you say "I AM." If you recognize that you are the "I AM," then whatever you declare is manifest that moment.

To believe is to have faith a thing is true. There is an interlocking of belief and faith. In the beginning a thing is belief, and if held to, it becomes faith. If you do not believe a thing is true, you cannot bring it into manifestation. If you do not believe, " 'I AM' a thing," how can it act for you?

The old saying: "There is nothing good or bad, but thinking makes it so," is an Absolute Truth.

When you know that God's Energy comes forth into the individual absolutely Pure and Perfect, then you must realize that it is the individual who requalifies that energy and imposes his own impure quality upon it. This Pure God Energy is projected forth by the conscious effort of the individual, and he must impose some kind of a quality upon it, for that is his privilege as a Creator.

Everyone is constantly qualifying this energy, which is pouring forth continually. Each one is continually pouring his color into it, through his own consciousness.

Every activity of the outer that qualifies carries with it the inherent faculty of sound and color. No

activity of any kind can take place which has not sound and color inherent within it. God's Perfection naturally has no discoloration within it. Within the outer faculty which gives quality to a thing is where the discoloration takes place. Every student *must* take the responsibility of his own activity in qualifying the energy he sends forth.

The mind cannot act upon anything that has not Intelligence inherent within it. Do not allow yourself in the human sense to consider the element of time in anything you do, but enter into a thing joyously, and stick to it until it does manifest.

Be like a blow torch. If you will hold steady on the Mighty God Presence as the Actor doing the thing, you will enter into the fullness and Perfection of everything, ready for your use now. All permanent accomplishment must be by the Self-conscious effort of the individual.

Q. What is sympathy?

A. It is but agreement with imperfection. Whatever you do, be adamant before human sympathy. Watch that you do not allow yourself to be dragged down into quicksand when you can use wings to lift yourself above its destruction. Judge not, but keep joyously entering into the "I AM Presence," and all things will manifest perfectly.

For any imperfect condition, especially old age,

use: " 'I AM' the Perfection of that individual."

No matter what is said in the outer world, you must be unaffected by it, for you are coming to this Perfection, and you must bring it about consciously.

If you do not watch, you can let in an expression in a moment that can follow you for years if you do not erase it. When you are consciously using the Great Law, *know* that the active Power of God's Thought knows its direction, goes and performs perfectly. Consciously charge the "I AM Intelligence" to use whatever is necessary. Say: " 'I AM Intelligence,' qualify this with whatever is required."

For Healing: I had one student who so qualified the Electronic Circle about him with the Power of healing that he was called the "Healing Shadow." Of course it was not the shadow that healed, but the moment people contacted his Electronic Circle, they were healed instantly.

Q. Understanding God as Love, why did God individualize Himself?

A. In order to have something to love.

Q. Why were the Rays divided?

A. In order to express Love.

Love is the "Active Principle of God." When you are loving, you are enfolding what you are loving in that "Robe of God," that Radiant Presence and Activity.

Never condemn. Try always to understand whenever there seems to be a wrong sex activity, and lift the consciousness of the individual by focusing the attention upon a high ideal of some kind in order to control the thought, so the sex activity can come under conscious control of the individual through the use of his own will.

The proper, clean use of the sex is for the expansion and expression of Love in the procreation of a form, that the incoming soul may have an harmonious and loving disposition and temperament. The thought and feeling of the parents are the influencing, molding activity. The nature of the Life Principle of the individual is to love.

BENEDICTION: Infinite God of Love! We give thanks for Thy Gracious Outpouring today, for Thy Mighty Radiance filling all things everywhere. We give praise and thanks that we have entered into Thy World where everything is so fair, where Thy Radiance, creative with every thought, brings into Perfection all things held within our thought.

NOTES

Raising the body: Nada raised her body 2,700 years ago. In the case of three raising the body at one time, they might Ascend at the same moment, or within a few weeks or months.

Controlling an animal: Use: " 'I AM' here and 'I AM' there, and I command silence there." Also, look the animal in the eye and know that the Love of God controls it.

The difference between Divine Compassion and human sympathy is as great as that between Light and darkness. Divine compassion holds the student's attention anchored to the "Mighty I AM Presence," calling It forth to produce Perfection. Human sympathy is a rushing forth of energy qualified by a feeling of imperfection, and but intensifies the imperfection already manifesting.

DISCOURSE VII

October 24, 1932

SAINT GERMAIN

INVOCATION: Thou Mighty, Silent Watcher! Even as Thou hast before Thee the Cosmic Crystal, send forth Thy Rays, anchoring them in the hearts of God's Children. Teach them obedience to the Great Cosmic Laws. Teach them obedience to the Light. Fill their hearts and minds with Thy Peace, with Thy Silence, with Thy Poise. Let the rejoicing of Thy Heart fill their hearts, every one–even to overflowing–with Thy Substance and Pure Electronic Force that brings with It Thy Immeasurable Infinite Blessings.

Let each one *feel* Thy Omnipresent, Watchful Care, Thy Sustaining Love, Wisdom and Power.

THE DISCOURSE

I bring you Greetings from the Great Host of Light who watch attentively the Outpouring of Divine Radiance, whose Great Love, Peace and Light always enfold you, as Messengers of the Light, giving always strict obedience to the Great Light.

Obedience of all manifestation is the first demand of the Great Host. When the Command went forth: "Let there be Light!" obedience was the first activity, consequently Limitless Light was at hand. It is so

with all outer activity of the One Active Principle, God. The first activity of the outer should be to give Perfect Obedience to that Inner Presence. Thus is it enabled to receive harmoniously the unadulterated Pure Essence; and so it should be with friends, with relatives, with associates, and with all outer contact of individuals.

There should always be this wondrous grace of Love, Light and obedience. It matters not the age of the individual. Still the outer expression often, for its need is obedience to the Great Inner Light. When the impulse surges forth to argue, criticize, or feel a resistance, it is your signal that the outer is intruding itself to demand attention. Then is the time, by the power of your free will, to command the outer to be silent and obey the "I AM Presence."

It is useless to argue any point. Silence the outer, and then in loving obedience, give the Instruction. In this way It can come forth unobstructed.

When students have entered the conscious path, the slightest intimation of disturbance or resistance of any kind should be followed *instantly* by silencing all outer activity and declaring: " 'I AM' the obedient, intelligent activity in this mind and body; 'I AM' the governing power and do govern it harmoniously."

It matters not upon what plane or in what sphere of activity the Son of God–that is, the Son or Daughter of God–acts, obedience to Its Laws, or the

Divine Laws of the sphere in which he is acting, is always imperative to his steady, onward progress.

Someday, I hope in the near future, We shall take up for consideration the elements of outer activity which are most disturbing, and the effect of their activity upon the body. I do not wish to do this however, until the students are strong enough to hear the Truth of this activity without a single twinge of resistance or self-condemnation–because to start an activity within the individual of either condition would be a mistake upon My part.

I spoke some time ago about the student keeping on guard to watch that in an unguarded moment he did not find himself unknowingly entertaining some feeling of resistance, criticism, or some activity which he later discovered had been acting.

Every student should constantly use, many times a day, for it only requires a minute, and silently declare: " 'I AM' the Invincible Guard, established, sustained and maintained over my mind, my body, my home, my world and my affairs." Keep conscious that this Guard, being the "I AM Presence," naturally has Infinite Intelligence. This will establish an Intelligent Guard and activity about you that does not have to be constantly repeated.

Again we come to the point where every time we use the expression "I" or "I AM," we know that It is the full Power of Love, Wisdom and Intelligence

acting. Use frequently: " 'I AM' the full Liberation of Divine Love acting."

Now as a preparatory activity for the day, I would suggest that the students, with great joy and firmness, after having refreshed themselves in the morning, would silently declare–knowing that the Power of the declaration is Self-sustained: " 'I AM' the governing Love, Wisdom and Power with its attendant Intelligent Activity which is acting today in every single thing that I think or do. I command this Infinite Activity to take place every moment and be the sustaining Guard about me, that I move, speak and act only in Divine Order." Then during the day, whenever you think of it, take the firm consciousness: " 'I AM' the commanding, governing Presence, moving everywhere before me during the day–commanding Perfect Peace and Harmony in all activity."

In this manner you will lock the door open for the continuous Outpouring of this Inner Intelligent Presence, which will transform your world and keep you from contacting inharmony of any kind, enabling you to have that steady flow of Inner Peace and Harmony in all outer contact.

It matters not what the manifestation may be within the body or without, the student must take his firm stand that his body is the "Temple of the Most High Living God." This is an Unquestionable Truth, and this attitude consciously maintained will more rapidly

bring the body into the Perfect Activity which was intended from the beginning. I say to the students in all sincerity, there is no possible way of attaining a quality or a desired attribute without claiming it. The outer has drifted into a limited consciousness of declaring it did not have the desired quality, and of course it could not manifest it under those conditions. The thought of the student often is, "Well, I have been holding this idea for a long time, but it doesn't manifest; it doesn't work." This is positive proof that somewhere in the consciousness there was lurking a doubt–possibly unknown to the individual.

I tell you that no matter what appears on the surface, if you will continually, with firm determination, claim the quality, condition or things you desire, and go right on claiming them with that firm determination, they will find expression in your use just as certain as you do this; but I cannot urge you too strongly always to keep on guard in this matter, for the outer, when you have tried a thing for a few hours, days or months and it seems not to have appeared immediately, begins to say: "It's no use, if it were going to have acted, it would have by this time." Such a thing as failure is absolutely impossible when you have set the Power of the "I AM" –God in you–in action to accomplish a given purpose, if you hold unwaveringly to it with determination.

Many times I have seen students nearing wonderful

achievement, wonderful Victory and Freedom, and this outer attitude of "not yet being accomplished" would rush in, get their attention to such an extent that it would either retard greatly their progress, or shut the door indefinitely.

The student should compel himself or herself to hold before the mind this Truth: *that when the "I AM" Power and Presence is set in motion, It can no more fail in Its Accomplishment than the Universe stop its activity*. For this "Mighty I AM Presence" to fail in Its Accomplishment would mean that the Universe would instantly be thrown into chaos. Such is the Certainty and Power of the "I AM" accomplishment. It simply cannot fail unless the outer obstructs the way.

Every student should guard with great watchfulness that he does not use the "I AM" in negative expression, for when you say: " 'I AM' sick, I have failed, 'I AM' not accomplishing this thing as I should," you are throwing this mighty energy into action to destroy the thing you wish to accomplish. This always happens whenever you use the word "I," for that is the release of the Universal Power.

Knowing that the "I AM" is you, then when you say, "My head aches, my stomach is out of order, my intestinal tract is disturbed," you are throwing the energy into those parts to act according to the thing you have decreed; for when you say "MY,"

it is the same energy acting, because there is only one person who can say "I" or "MY," and that is you, decreeing for your world.

Any expression which can only be used for yourself is including the energy and activity of the "I AM Presence." The correct attitude to take if some organ seems to be rebellious is to instantly declare and hold fast to it: " 'I AM' the only and Perfect Energy acting there. Therefore, every appearance of disturbance is instantly corrected." This is the important point to keep before the student. If, through habit, you have thought that certain remedial agencies gave assistance, then use these sparingly until you gain sufficient Mastery to govern entirely by your "I AM Presence."

I assure you that even though you think that this remedial agent has given you relief, it is still the same "I AM Presence" that has given the remedial agency the power to give you relief. For instance, I have watched the medical world for many centuries, and when one individual of so-called authority says that a certain remedy is no longer of use, it is but a short time until it disappears entirely.

The question within the mind of all thinking individuals is that certain herbs or remedial agencies have a certain natural chemical action corresponding to the element within the body. I say to you, what gives or makes the chemical affinity? The Power of your "I AM" which enables you to think!

Thus when you come to go round the circle of activity, you will find that there is only One Intelligence and Presence acting, and that is the "I AM"–God in you.

Now why not look this Truth square in the face? Take your stand unwaveringly with the "I AM Presence," *God in Action* in you, and know that It is the only Life in you and all things or remedies to which you alone give power.

Is it not much better to go directly to this "Great I AM Presence" and receive Its All-Powerful, Limitless Assistance which cannot fail, than to give power to something that leads you around Robin Hood's barn to get assistance from something in the outer to which you have given the power?

I know it is not easy for students to turn away from old, old habits or dependence upon certain remedial agencies; but a little thought and meditation upon this fact will simply compel the outer reason and dependence upon these outer things to give way completely before the "Great I AM Presence."

There is no way of convincing the student upon this most vital of questions, except he apply the Wisdom and Knowledge with unwavering determination until he proves for himself the active Truth of these simple things. There is no one who can tell to what degree the student can apply this, for only he alone, by trying, may know. Many times the Inner accumulated energy

is such that the student is amazed with the results when he begins to apply this.

The Oriental phrase for "I AM" is "OM." That means the same thing that "I AM" is beginning to mean to the Western World. For Myself, I like very much the use of the "I AM" because Its very expression indicates "*God in Action in the individual.*" "OM," as understood by the Orientals, is a Universal Presence, and not nearly so apt to give the student the consciousness of the "I AM Presence" *acting in the individual*, as the use of "I AM." This largely explains the reason for the condition in India today. Hundreds of thousands in India, through the confusion of many castes, have fallen into the error that the intonation of "OM" was all that was required in their lives. While this brings a certain activity in hundreds of thousands of cases, it does not bring the energy of that activity into the individual's action, and so is of little benefit.

The method of the Ascended Masters throughout the ages from time immemorial has been the conscious use of the "I AM Presence," the recognition and full acceptance of *God in Action in the individual*, which more and more brings into the individual the Full Intelligent Activity of the God Presence–the Godhead.

Those Orientals who have reached great attainment, which many of them have, have become aware of this True Activity through their sincere meditation.

Perhaps the simplest, most powerful single thing that the individual can keep himself reminded of is that when he says "I AM," he is knowingly or unknowingly, setting into action within himself the Full, Unadulterated Energy of God.

Energy becomes power through conscious use. The fact that individuals are in human embodiment is the command to raise the world of the individual into Perfect Activity. When the consciousness of the individual is raised, everything in the world of that individual is raised into the Inner Activity.

"O Mani Padme Hum" really means God in Action in the individual. Use the "I AM" instead of "OM" at all times, because many of you have been embodied in an Indian embodiment. At one time you knew that use, and to prevent it calling forth a lesser use, use the "I AM" now to take you to the Full Height.

Whenever you say "I AM," you are setting the Pure Energy of God into motion, uncolored by human concepts. This is the only way of keeping the pure energy of God uncontaminated by human qualification. Enormous results can be had in a short time by the determined use of these affirmations:

" 'I AM' this Pure Inspiration."

" 'I AM' this Pure 'Light' right here in action." (Visualize this through the body now.)

" 'I AM' this Pure Revelation of everything I want to know."

Hold the reins of power forever within yourself. People are afraid of just embracing the Great God Power and letting It operate. What is there to fear in God? Its operation is Pure and Perfect, and if you do not reach out to embrace the Great Pure God Power, how can you expect to use It and have Perfection? You must claim It for your own. To say: " 'I AM' the Ascended Being I wish to be now" immediately enfolds the outer in that Raising Presence. " 'I AM' my Eternal Liberation now from all human imperfection." Realize who "I AM" is.

You have to use terms of explanation up to a certain point. Know: "This body is the Temple of the Living God and is ascended now." The human side is such a doubting, criticizing Thomas. All instruction is but to give the individual student a chance to prove it within himself by applying and using the explanation of the "Law" given. Say often: " 'I AM' the Governing Power of this activity, and therefore it is always normal." There is no human being in the Universe who can recognize this "I AM Presence" for another. In your recognition of this "I AM Presence" as who you are, every step you gain is a permanent accomplishment, and there can be no retrogression.

BENEDICTION: Thou Infinite, All-pervading Presence, whose Active Intelligence governs all who look unto Thee, fill each one who seeks the

Light with Thy Mighty Inner Light. Hold each one closer and closer in the "Great I AM Presence," that It fills the world of everyone with Thy Great, Great Perfection; and that the consciousness of each individual desires only that Great, Great Presence and Perfection.

NOTES

All jewels are a high activity of God's Substance. The more intense the fire, the greater the purifying power. Gold does not long for nor adhere to anything else; all other metals or alloys cling to it. Gold is this way because it is of a pure element.

In all kinds of fuel activity there is at some point a golden flame. All consuming of outer substance at some point is always red, for the red color is the throwing off of the imperfection and impurity. If the impurity were not there, the substance would go from the outer immediately into the golden flame.

SAINT GERMAIN

INVOCATION: Thou Mighty, All-Pervading Presence! Thou All-Pervading "I AM"! We give praise and thanks for the happiness pervading those under this Radiation. We give praise and thanks that the Simple Key to Perfect Happiness may be given to bless and to anchor these Children of God into their own firm Dominion. We give praise for the harmony maintained within each student, and that they feel the necessity to continue it. We give praise that "I AM" everywhere present, controlling every outer activity and bringing it into Perfection.

I bring Greetings to you always.

THE DISCOURSE

That which everyone seeks is happiness, sometimes called bliss, and yet many who have sought so earnestly have unknowingly continued to pass by the key to this happiness.

The simple key to Perfect Happiness and its inherent sustaining power is Self-control and Self-correction. This is so easy to accomplish when one has learned he is the "I AM Presence" and Intelligence controlling and commanding all things.

Surrounding each individual is a thought-world created by him or her. Within this thought-world is the seed, the "Divine Presence," the "I AM," which is the only acting Presence there is in the Universe, and which directs all energy. *This energy can be intensified beyond any limit through the conscious activity of the individual.*

The "Divine Presence" within is likened unto the pit or seed of a peach; the thought-world around It unto the pulp of the peach. The pulp represents not only the thought-world created by the individual, but also the Universal Electronic Substance, ever present, waiting to be acted upon by the conscious determination of the individual–to be precipitated into his visible use as the form of whatsoever he may desire.

The sure pathway to the understanding and use of this conscious power comes through Self-control. What do I mean by Self-control? First, the recognition of the "I AM Intelligence" as the only Acting Presence. Second, that knowing this, we know there is no limit to the power of Its use. Third, that individuals, having been given free will and choice, do create in the world about them whatsoever their thought, through their attention, is held firmly upon.

The time has arrived when all must understand that thought and *feeling* are the only and Mightiest Creative Power in Life or in the Universe. Thus the only way to the definite use of the full power of

one's thought and feeling, which is *God in Action*, is through Self-control–Self-correction–by which one may quickly reach the attainment, the understanding whereby he may direct and use this Creative Thought-power without any limit whatsoever.

When sufficient Self-control is attained, it enables individuals to hold the thought steady upon a given desire, likened unto the flame of an acetylene torch held immovable. Thus thought and *feeling* held upon a given desire unwaveringly, with the consciousness that it is the "I AM Presence and Intelligence" thinking–that it is *God in Action*–then will they understand that they may bring into visibility, precipitate into visibility, whatsoever they desire.

It has been proved in a thousand ways that the effect of a thing cannot bring happiness. Only by the understanding of the cause operating may the individual become Master of his world. Each individual, knowing that he is the Creator of his own world and what he wishes to have manifest in it, will understand that he has at no time any right to create anything discordant in another's world. Thus is each individual left free to meet the effect of his own creative cause.

I rejoice exceedingly to see the success with which each student under this Radiation is coming into the Mastery and control of the outer self. Here I must say to them: Beloved Students! could you but understand and see the Magnificent Splendor

of achievement before you through asserting Self-control over the outer activity, you would bend every effort, every moment to attaining Control and Mastery over all outer expression.

Thus will you be enabled to maintain the needed harmony through which the Inner Mighty Power of the "I AM Presence" is liberated into your conscious and visible use. Let us disabuse the minds of these beloved students of the sense of time, distance and space.

The Key which opens the entrance to all higher spheres above you lies in the simplicity and firmness of this Self-control. All students should dwell earnestly upon the Great Truth that: "Where your consciousness is, there you are, for 'I AM' everywhere."

Long dwelling in consciousness that there was space, great distance, or that there is time, is all but the outer creation of man. Therefore, to step through this gossamer veil that separates your outer consciousness from its Full Inner Power and Activity *is but a state of thought and feeling*.

Those who are reaching to the "Light" so earnestly, desiring to live in and be "Children of the Light," are dwelling constantly in these Higher Spheres. The beauty of these spheres surpasses the fondest imagination of the outer consciousness. When you enter them consciously and at will you will find all creation there just as tangible as your physical buildings are here.

To take your firm stand: " 'I AM' the Power of my complete Self-control, forever sustained," will make it easier for you to gain this Mastery. Students must be conscious that when they recognize the "I AM Presence" acting, it is impossible for It to be interrupted or interfered with in any way. Know there is no time nor space; then the knowing of the vastness of Eternity is within your grasp. To enter a Higher Sphere than your physical world in full consciousness is but an adjusting or changing of your consciousness. How do we do this?

Answer: By knowing we are consciously there.

Affirm often: "Through the Power of the Electronic Circle which I have created, 'I AM' no longer touched by any doubts or fears. I joyously grasp the Scepter which 'I AM' and step boldly forth into any of these Higher Spheres that I wish, retaining perfectly clear conscious memory of my activity there."

In this way one may quickly find himself enjoying Limitless Freedom and the Perfect Happiness of being active in any sphere he chooses.

To be aware of what is a thousand years in advance is as easily and readily attained, in fact more so, as going to your library in search of a book.

The great delusion the outer consciousness of mankind has built up, creating time and space in its belief, has been the great stumbling block to humanity's Freedom.

Those who have reached the great disillusionment, that wealth, or the outer effect of things, cannot bring happiness, will understand with great blessing that within their own Creative thought, power and *feeling* are held Perfect Happiness, Perfect Freedom, and Perfect Dominion.

When the student once understands that whatsoever he connects himself with through his attention he becomes a part of to the degree of the intensity with which his attention is fixed, he will see the importance of keeping his attention off the seeming destructive angles of human experience, no matter what they are.

To discuss the seeming inability, shortcomings, or faults of your friends and associates but builds that element upon which your discussion rests within your own consciousness, and also adds to the appearance which seems to be in the other individual.

Because there are black magicians in the world, certain of God's Children who are misdirecting and contaminating the Pure Electronic Energy of the "I AM Presence," is no reason why we should let our attention rest upon that fact, just because we are aware of it. Our business is to hold the attention free to rest within our own Self-control, compelling it by the conscious action to rest on whatsoever we choose.

Few understand that when their attention is called to some destructive thing, how much and how often they allow the attention to go back to it; or if another

has displeased them in some way, how much and how often the attention returns to that incident–when they have the full power to control their attention and make it obey their command.

Few, even among earnest students, yet understand what a mighty power their faculty of attention becomes under their *controlled* use.

I wish so much to impress upon the students how foolish it is to be affected, displeased or disturbed by the imaginary activities of the ignorance of the outer self. When they once know: " 'I AM' the only All-Powerful acting Presence in my mind, my body and my world," they cannot possibly be affected or disturbed by any of their associations in the outer world. They must know then that they are entirely immune from hurt or disturbance of the outer mind of other individuals, no matter what they try to do.

With this understanding, or by giving willing attention to this Great Truth, they will soon find a Peace, Happiness, and Self-control operating about them to such an extent that no outer condition, disgruntled comment or disturbance of their associates could in any wise disturb them, their world or their affairs. As soon as the individual becomes aware that he really has control of his own Creative thought, power, and *feeling*, then he knows positively that he can precipitate into his visible use, or bring into his use from the outer where it is

already created, *anything whatsoever* upon which he holds his Creative thought and feeling firmly.

The moment that he is truly aware of this, he will know he is forever free from the need of the wealth of the outer world, or anything that the outer world can give. Thus has he entered into the Mastery and Dominion of his own world, the only world that is ever existent to him, and which is his God-given Birthright.

I assure you, there is no such thing as a supernatural world. As we step from this sphere of activity into another higher, that one becomes just as Real as this is. It is simply a different state of consciousness we have entered into.

To the joy, glorification and blessing of the mothers, sisters, wives and daughters, I will say that within one hundred years there will be hundreds who will be able to use the Cosmic Rays to cleanse their homes and keep them so; to weave their seamless garments when they will have no desire to follow the freakish styles created by some commercialized idea.

I find so many of the students wondering how it is that Ascended Beings or Masters, with all Their Creative Power, often choose to live in humble quarters. I assure you the explanation is very easy. The far greater part of Their Life and Activity is spent in the Higher Spheres in which they are directing Mighty Rays of Light to the Blessing of humanity–from Homes and Temples of Light and Wisdom so

beautiful, so transcendent as almost to stagger the imagination of the outer consciousness. Those Homes and Temples are Eternal, ever becoming more and more beautiful. So They only spend a few hours in the visible world, which causes Them to lower the density of Their Transcendent Forms, that They may become visible to those yet occupying the physical body. If the students will understand this, it will save them much questioning and confusion in the outer expression–which time they can use in the Activity of the "Mighty I AM Presence."

This will bring them into that Transcendent State and consume the longing for the wealth of the outer world, which is but rubbish in comparison to the transcendent, Creative Power inherent in every individual. They can bring this Transcendent Power into their use through their own Self-control and Mastery. I say to you beloved students, Children of the One God, is it not worth your sincerest effort–when you know you cannot fail? Take your Scepter of the Mighty Creative Power and be forever free from all past, binding limitations which have beset mankind through the ages. I assure you that everyone who enters in to attain this Scepter and Mastery will be given every needed assistance, if each one will try with all his ability.

The one having the understanding of his Creative Ability must know that he can create whatsoever he

will, in whatever rate of vibration he desires to hold it, whether it be Light, or any other condensation he may choose to maintain it.

You know you have the ability to change your thought from Chicago to New York in the same instant, and you know you can change your thought from a condition of Light to one of very dense condensation, such as iron. Then one cannot help but see that this which he does every moment, consciously and at will, he can bring into a more powerful use–by consciously fixing the attention and holding it upon what he desires.

The attention is the channel by which God's Mighty Energy, through thought and *feeling*, flows to its directed accomplishment. Because one has not yet precipitated something from the invisible, there is that lurking doubt, until some simple manifestation has occurred. Then his courage and confidence leap into dominion, and in the future he has no trouble in precipitating whatsoever he desires.

The precipitation of gold or jewels from the invisible to the visible is as simple as breathing, *when once that foolish questioning doubt accumulated by the outer is consumed or pushed aside*.

Mankind, through the centuries, has built up these walls of limitation. Now they must be broken up, shattered and consumed in any way that we can do it. At first it does take determination to do it, but

when you know it is the "I AM Power" acting, you know It cannot fail. The outer only has to hold the attention fixed on the object to be made visible. Dwell on this, and all of a sudden you will find yourself into the activity, and you will be amazed that you dwelt so long without using it.

The length of the Ray from a precipitated substance or condensation of "Light" is controlled by the consciousness of the wearer. If the wearer's consciousness is raised very high, the scintillation is very great.

The "Jewel of Light" is yet in its Transcendent State of Perfection. The jewel in a condensed substance such as a diamond, emerald, or ruby, naturally will take on the condition of its wearer. If the rate of thought vibration in the person wearing it be low, the jewel will become lusterless, while if the thought be transcendent, it will become very luminous.

When one has become a sincere student reaching to the Light, he must qualify everything in his environment with the Quality of the "I AM Presence," no matter what the appearance seems to be. You see, there cannot be a quality or an appearance in your world except what you give to it.

If fear causes you to believe in a disturbing presence, you are responsible for it, because if there were to be a disturbing presence and you qualified it by the "I AM Presence," you see how impossible it would be for it to disturb you. There is only one

energy acting, and the moment you acknowledge the "I AM Presence," you have requalified that activity with Perfection.

Expectation is a very powerful qualifying consciousness to maintain. Intense expectation is a splendid thing. It manifests always. The individual, through the centuries, has created a veil through which he has shut out these Transcendent Spheres. If he has created it, which he has, then common sense and reason will tell one that *he can uncreate it.*

A Powerful Radiation has gone forth to yourselves and students with a powerful conviction that will be sustained–until they have this Work which is given today. *To convey the simplicity, the ease and certainty with which the idea, through Creative thought and feeling, can be brought into visibility, is a thing the students should dwell upon*. This will dissolve that feeling of "Can I?" and in its place put "I can" and "I know."

If the students will keep themselves harmonious, from time to time they will have flashes that will give them all needed confidence. Add to all commands on going out of the body that you retain the conscious memory of whatever you experience. Stick right to a thing from the start and *know that whatever knowledge you need will be forthcoming instantly.*

When you allow the attention to become fixed upon a thing, you that moment give it power to act in your world.

BENEDICTION: Thou Great Happiness–the Mighty Presence and Power which "I AM"! I qualify Thee to go forth in the hearts of mankind, anchoring there and filling their minds, bodies and homes, filling them with Thy Great Happiness.

Open the door of their consciousness so that the Mighty Power which "I AM" can come forth in Full Perfection. O Mighty Presence! Hold the Children of Light, the Individualities of God, hold them close in Thy Embrace, letting Thy Quality flow forth in their command, filling them with Thy Great Peace. O Mighty Presence of Justice! Enter in and reign in all official places. Let the destructive intent of mankind be revealed, that it may be cast out and be consumed. Let the Fullness and Power of Thy Radiant Light enfold all, and Thy Glorious Transcendent Light fill all places.

THE DISCOURSE

One of the great needs of individuals, and even of sincere students today, is to feel the necessity of giving time morning and evening to sincere meditation: to the stilling of the outer activity that the Inner Presence may come forth unobstructed.

Meditation really means–*feeling*–the Active Presence of God. Therefore, when one attempts to enter meditation, he cannot drag all the disturbance that has beset him during the day along with him. Therefore, consciously remove from the *feeling* and *attention* every disturbing thing, enter into your meditation to *feel* the "Presence of God," and do not revolve your troubles. When the Statement was given: "Know the Truth, and the Truth shall make you free," it meant the recognition, acceptance and Activity of the "Mighty I AM Presence."

First, know: "I AM" is the First Principle and

absolute certainty of Freedom now. Second, know: "I AM" the active Presence, governing all manifestation in my Life and world perfectly. Then I have entered into the Truth which shall bring all Freedom.

I must relate a thing that would be most laughable, if it were not really serious. You would chastise it and rebel considerably if your little pet dog continued to carry bones from the alley into your living room. You would think he were doing that which is very much out of place.

Do you know, Beloved Students of Truth, that when you allow your minds to dwell upon disturbing things or experiences, you are doing a great deal worse than bringing bones into the living room? The unfortunate thing with students and individuals which seems so difficult for them to understand is: never under any circumstances try to hold the water that has gone over the wheel.

In other words, the unpleasant experiences, losses, or any imperfection that has passed over your wheel of experience to the present time should never be held close to you. They have gone over the wheel–forgive and forget them. To give and forgive is Godlike indeed. For illustration: if an individual or group of individuals has gone into a business undertaking, and through lack of understanding, it has failed or gone to pieces, it is always because of inharmony in the mental attitude and *feelings*.

If every individual in such an association would take his stand–and hold it–that there was only *God in Action,* only the most perfect success would come out of it. Since the individual has free will, if he will not control his own thought and feeling, he will wreck things for himself and others. Such is the Great Law, unless every individual corrects his own thought and feeling, and keeps it so.

Everyone who manifests in the physical form today has made plenty of mistakes–sometime, somewhere–so let no one take the attitude, " 'I AM' more holy than thou," but each one's first attitude should be to call on the Law of Forgiveness; and if he be feeling or sending criticism, condemnation, or hate to another of God's children, a brother or sister, he can never have enlightenment or success until he calls on the Law of Forgiveness. Further than this, he must say to that person to whom he was feeling disturbed in any way–silently: "I send to you the fullness of the Divine Love of my Being to bless and prosper you." This attitude is the only release and Freedom from the seeming failures of the outer activity.

For individuals to continually revolve in their minds and discussion a business or project that has disintegrated will surely in the end destroy themselves–if they do not face about, and through calling on the Law of Forgiveness find complete conscious release from the entire situation.

For an individual to hold an attitude of revenge for any seeming wrong, imaginary or otherwise, can only bring upon himself incapacity of mind and body. The old, yet wondrous Statement brought down to us through the ages: "Unless you are willing to forgive, how can you be forgiven," is one of the Mightiest Laws for use in human experience. Oh that individuals and many students could only see how they hold to themselves the things they do not want by allowing the mind to revolve upon the discordant things which have passed and cannot be helped through the outer senses!

The greatest thing that all mankind is seeking in reality is Peace and Freedom, which is always the doorway to happiness. There is only one possible way to receive this, which is to know God–the "I AM Presence"–and that this Presence is the only acting Intelligence in your Life and world at all times. Then stand by this and *live* it.

One of the most amazing things that it has been My experience to witness–since coming into the Ascended State–is the distorted idea of Freedom, financially and otherwise. There is but one sure, certain rock upon which to build your eternal financial freedom, and that is to know and feel with every fiber of your Being: " 'I AM' the wealth, the opulence, the substance, already perfected in my world, of every constructive thing that I can possibly

conceive of or desire." This is true financial freedom and will bring it as surely as it is maintained–and it will not get away, I assure you.

On the other hand, man may use–knowingly or unknowingly–enough of this "God I AM Presence" or God-Energy to accumulate through the outer activity millions of dollars; but wherein is his certainty of keeping it? I assure you, it is impossible for any Being in the physical world to keep wealth that is accumulated without his being aware that *God is the Power producing and sustaining it*. You see before you constant illustrations of great wealth taking wings overnight, as it were. Thousands within the past four years have met this experience. Even after the seeming loss had occurred, had they been able to take their firm, conscious stand: " 'I AM' the wealth–*God in Action*–now manifest in my Life, my world," the way, the door, would have immediately opened for them to have again received abundance.

Why do I say, "Again to have received abundance"? Because they had built the momentum and had attained great confidence. Therefore all requirements were at hand ready for further use; but in most instances, they allowed great discouragement–often hatred and condemnation–to enter in, which shut and locked the door to further progress.

Now let me assure you, Beloved Children of God, there is no outer condition ever existed in this world

so bad, so disastrous, but that there is the "I AM," the Active Presence of God with the Eternal Strength and Courage of the Universe, to again rebuild you into Freedom and independence, financially and every way.

I especially want the students who come under this Radiation to understand this, because in this day of falling thrones and governments, individual fortunes and otherwise, they need to know and understand if their wealth has flown away through ignorance of understanding, then the "I AM Presence" in them, *God in Action*, is the sure Rebuilder of their faith, confidence, wealth, or to whatever they wish to direct their conscious attention. Thus they allow this Mighty Inner Energy to flow into their desire–which is the only Power that ever accomplished anything.

Every individual who has seemingly expressed a loss of wealth to any degree should immediately use the marvelous Statement of Jesus: " 'I AM' the Resurrection and the Life of my business, my understanding, or whatever thing I wish to focus my attention on."

I tell you frankly, Beloved Students and individuals, there is not the slightest hope for you in heaven or earth so long as you persist in holding within your consciousness thoughts and feelings of criticism, condemnation, or hate of any description, *and that includes mild dislike.*

This leads us to the very vital point that you are

concerned only with your own activity and your world. It is not your province to judge another, for you do not know the forces playing upon another or the conditions. You know only the angle that you see of it, and I tell you that if an individual should be entirely innocent of any intent to wrong another, the individuals who send criticism, condemnation or hate to such an one are doing worse than committing physical murder. Why is this so? Because thought and feeling are the only Creative Power; and while such thoughts and feelings may not touch or harm their objective, they must return and bring with them the conditions sent out by the individual who sent them forth–and always with accumulated energy.

So after all, the one who holds vicious thoughts to another is in reality but destroying himself, his business and his affairs. There is no possible way of averting it, except for the individual to awaken and consciously reverse the currents.

Let us go one step further. Throughout all ages, there have been business associations in which there were one or possibly two with the deliberate intent to do wrong, and through this association, a number of individuals absolutely innocent of any wrong intent have been imprisoned. I now tell you, as an Unfailing Law that cannot be changed, that the individual or individuals who cause innocent persons to be incarcerated–thus depriving them of

their Freedom of action as God intended–will bring that exact experience which they have desired for another into their own experience, *even unto the third and fourth embodiment following.*

For Myself, I would rather a thousand times be deliberately shot down than to be the instrument of depriving any of God's Children of their liberty. There is no greater crime reigning in human experience today than the prevailing use of circumstantial evidence, for in ninety-nine cases out of a hundred it is afterwards found to be entirely wrong. Sometimes the Truth is never known to the outer senses.

So Beloved Students, let no one seeking the "Light" ever set himself up in judgment on another of God's Children.

Again, supposing someone we love very much seems to be going all awry. What is the first thing the outer would do? As a rule, to begin sitting in judgment and criticism. The most powerful thing that can and should be done for such an individual by everyone who knows anything of the circumstances is to pour out all their Love and to silently know: " 'I AM,' *God in Action*, is the only controlling Intelligence and Activity within this brother or sister." To keep silently speaking to that one's consciousness is the greatest help possible to be given.

Many times to remonstrate verbally with an individual sets up a condition of antagonism, intensifying

rather than erasing the activity which the silent work would be absolutely certain to accomplish.

No one in the outer consciousness can possibly know what the "I AM God Presence" in the other individual wishes to do. These are vital Truths that, if maintained, would bring very great peace into the lives of individuals. Many lives with their attendant business efforts are ruined because there is lurking within the consciousness of the individual judgment, condemnation, or a feeling of some degree of hatred toward another.

The student or individual who wants to leap ahead in the progress of the Light should never enter sleep until he has consciously sent Love to every individual whom he feels has harmed him at any time. This thought of Love will go straight as an arrow into the consciousness of the other individual–because it cannot be stopped–there generating its Quality and Power which will as surely come back to you as you send it out.

There is perhaps no single element responsible for so many diseased conditions of body and mind as the feeling of hate sent out to another individual. There is no telling how this will react upon the mind and body of the sender. In one, it will produce one effect; in another, still a different effect. *Let it be here understood that resentment is but another form of hate, only of a milder degree.*

A very wonderful thought to live in always is: " 'I AM' the Perfect Creative Thought and Feeling everywhere present in the minds and hearts of individuals." It is a most marvelous thing. It not only brings rest and peace to yourself, but releases limitless Gifts from the "Presence."

Another is: " 'I AM' the Mighty Law of Divine Justice and Protection acting in the minds and hearts of individuals everywhere." You can apply and use this with enormous force and power in every way. Another is: " 'I AM' Divine Love, filling the minds and hearts of individuals everywhere."

As you think on this, you will understand what was done when this home was made a Radiating Center of the "Active Presence of God." You will suddenly come into a realization of the gigantic application of this. Everything in the Life experience of humanity can be governed by the "I AM Presence." The use of the "I AM Presence" is the Highest Activity that can be given.

When you say "I AM," you set God into action; *but there is a lot more to it which you will come to realize—when you feel and know the enormity of the use of this Expression.* Realize the Enormous Power of the "I AM" to act in things of this kind. " 'I AM' the God Power Almighty." There is no other power that can act. When you say and feel this, then you liberate and loose the Full Activity of God.

Another Statement: " 'I AM' the conscious memory of these things." Also: " 'I AM' the conscious memory, use and understanding in the use of these things."

When you say: *"The Presence that 'I AM' clothes me in my Eternal Transcendent Garment of Light,"* it actually does take place that moment.

"The Secret Place of the Most High" is this "I AM Presence." The Sacred Things that are revealed to you are not to be cast forth, for they are as pearls. Know always: " 'I AM' the perfect poise of speech and action at all times." Then the guard is always up, for: " 'I AM' the Protecting Presence."

God's Energy is always waiting to be directed. Inherent within the expression of the "I AM" is the Self-sustaining Activity. Then you know there is no time. This brings you to the instantaneous action, and your precipitation will soon take place. Always preceding a manifestation you will feel that absolute stillness.

BENEDICTION: We give thanks, "O Mighty I AM Presence," for having entered into Thy Secret Place. Let Thy Wisdom govern at all times the dispensation of Thy Light. Let Thy Wisdom guard and direct our minds and bodies at all times, that they always act in perfect accord with Thee. As Thou art called forth into action–"O Mighty I AM Presence"–we know we are always charged at all times with Thy Mighty Energy, and that It accomplishes all perfectly wherever it is sent.

NOTES

Legal affirmations: For the one not in the midst of the case, take this Statement:

" 'I AM' the Law."

" 'I AM' the Justice."

" 'I AM' the Judge."

" 'I AM' the Jury."

Knowing that: " 'I AM' All-Powerful," then I know that only Divine Justice can be done here.

SAINT GERMAIN

INVOCATION: Mighty Luminous Presence! "I AM" the Conquering Power. "I AM" the Radiant Splendor filling everything in manifestation. "I AM" the Life flowing through all manifestation. "I AM" the Intelligence governing all activity, Inner and outer, making it One Perfect Activity. Out of Thy Light, "Mighty Presence which I AM," all things are precipitated into form. "I AM" the Exhaustless Energy governed by Thy Wondrous, Infinite Intelligence. Light the Illumining Center within these bodies who come under this Radiation. Expand that Light into the Full Illumination of the body and mind, raising it into Thy Active, Perfect Eternal Garment.

Mighty Light! send forth Thy Rays into the hearts of mankind, into all official places, commanding Justice, Illumination and Perfection of Thy Self to express, bringing relief, release, and Light unto humanity; and by Thy Governing Principle, command all things in the outer human activity to give obedience. I bring you Greetings from the Great Host of Loved Ones, who always watch and minister to those whose devotion reaches unto them.

THE DISCOURSE

From out the centuries of activity we have arrived at the focal point where the experiences of ages come into instantaneous action, where all time and space become the "One Presence," *God in Action* now.

Knowing that it is the Presence of God, "I AM," that beats your heart, then you know that your heart is the Voice of God speaking; and as you come to meditate upon the Great Truth: " 'I AM' the Supreme Intelligent Activity through my mind and *heart*," you will bring the True, Dependable, Divine Feeling into the heart.

So long mankind has been loving on the periphery of the circle. Once the student becomes really aware that "God is Love," and Love's True Activity comes through the heart, he will understand that to focus his attention on the desire *to project Love forth for any given purpose is the supreme privilege of the outer activity of the consciousness—which can generate Love to a boundless degree.* Mankind has not previously understood that Divine Love is a Power, a Presence, an Intelligence, a Light, that can be fanned into a Boundless Flame or Fire; and it is within the conscious intelligence of every individual, especially students of the Light, to so create and generate this "Presence of Love" that It becomes an Invincible, Exhaustless, Peace-commanding "Presence" wherever the conscious

individual desires to direct It.

Somewhere it has been said that Love may not be commanded. I say to you: *"Love is the First Principle of Life and may be generated to any degree, or without any limit whatsoever, for Infinite use."* Such is the majestic privilege of the conscious use and direction of Love.

When I say "generate," I mean the opening of the door through conscious devotion to the outpouring of this exhaustless Fountain of Love, which is the Heart of your Being–the Heart of the Universe.

Students, by contemplating this Infinite Power of Love, become such a fountain of Its outpouring that *Its conscious direction may be Infinite in the student's use.*

When My beloved students wish to hasten their liberation from certain events or outer activity, I can but say: " 'I AM' the Commanding 'Presence,' the exhaustless energy, the Divine Wisdom causing my desire to be fulfilled." This will bring the quickest release from any undesirable condition that the very Law of your Being will permit. Knowing this, you may further know: "The 'Presence that I AM,' I now remain, untouched by disturbing outer conditions. Serene, I fold my wings and abide the Perfect Action of the Divine Law and Justice of my Being, commanding all things within my Circle to appear in Perfect Divine Order."

This is the greatest privilege of the student and should be the Command at all times. Here I shall say something that should be very encouraging, and I trust it will. Each student who is earnestly striving for the Light is being toughened as you make the toughest steel, which wears the longest, holds the best, and is the strongest. Such is what the Life of experience brings to the individual. When one craves to be released and still there appear trying experiences, it is the toughening of the steel of character and the strengthening of the individual that gives him at last the Perfect and Eternal Mastery over all outer things.

One may, with the right understanding of this, easily rejoice in the experience which is enabling him to turn to and bask in the Glorious, Wondrous "I AM Presence." Thus, Beloved Students, you should never grow weary of well-doing, nor meeting the experiences that sometimes seem to weigh heavily upon you; but rejoice that every step forward leads to that Eternal Goal which does not have to be repeated.

This is what methinks the student often forgets to use: " 'I AM' the strength, the courage, the power to move forward steadily through all experiences, whatever they may be, and remain joyous and uplifted, filled with peace and harmony at all times, by the Glorious Presence which 'I AM.' "

To the athlete on the race track, the beginning of the race is glorious anticipation; but as he reaches

the goal and his adversary draws near, he puts forth every effort, his breath becomes short, and with one last leap, he crosses the line to victory. So it is with students on the path. They know in the use of the "I AM Presence" they cannot fail. Therefore, all that is necessary is to tighten your belt, gird yourself for whatever is required, and with a wave of the hand to your adversary, bid him farewell.

More fortunate than the athlete, the student knows from the beginning that he cannot fail, because "I AM" the Exhaustless Energy and Intelligence sustaining him or her.

The Power of Precipitation, the student should understand and remember at all times, is within the "I AM Presence." "I AM" here, the Life Principle and Intelligence in this body. "I AM" everywhere, even unto the Heart of God, the Governing Intelligence of the Universe. Therefore, when I wish to precipitate *anything whatsoever*, I know: "I AM" the Power acting; "I AM" the Intelligence directing; "I AM" the Substance being acted upon, and I now bring it into visible form and my use.

The contemplation of this phrase just expressed will enable the student to enter into this Activity without strain or anxiety.

The question that so often confronts the students in the Power of Precipitation is that of money. The first question is, "How is it that money may be precipitated

without interfering with the government allotment?" Since the creation of money as a standard of exchange, gold being its standard and heart, so to speak, and the security of all issue, it will be remembered that there have been almost a countless number of disasters in one form or another through which gold and the issue of money have been, to the outer sense, destroyed. Billions of dollars in this manner have disappeared. Therefore with any money, and it is usually gold that is precipitated, there is no danger of passing the limit set by a government for its use. Again, there have been billions of Spanish gold and denominations of other countries that have been burned, lost, submerged at sea, etc., to the extent that Precipitation would have to run into great numbers before there would be any question as to its legality. More often however, gold is precipitated in its natural state, therefore always legal in its use.

As the world has recently offered a premium for more gold production, why not precipitate it and bless the world by its use? But I shall not hold myself responsible for the questions that will be asked when you do precipitate it, unless you have a mine from which you can supposedly have brought it forth, for you have no idea what the curiosity of the outer mind is until you call its attention to gold. I assure you, the outer is immediately set on fire. However: " 'I AM' the 'Presence' governing it."

The supposed demand to know the source of gold is but a subtle form of inquiry that someone else may discover your source. My idea would be to answer their inquiry that it is none of their business. Simply say: "Here is the gold. Test it. If it is not one hundred per cent, you may refuse it. If it is, you are compelled to receive it by the laws of your government."

You will understand, Beloved Students, that it is only in the outer activity of the physical world that you require a medium of exchange, for the moment one rises into the Power of Precipitation, he has little use for gold or money or any kind of exchange, except as incidents may require.

As one by one you come into the Ascended State, you will have many a hearty laugh over the seeming importance of these outer problems of the physical, or outer world, for they are all but the "maya," which means but constant change. Remember, there is only one thing in the Universe that is permanent, real and Eternal. That is the "I AM Presence," God in you, which is the Owner, the Creator, and the Intelligence governing all manifested form. Then to know that you are that "Presence," that "I AM Presence," places you, Beloved Student, independent of all outer manifestation.

Do not misunderstand Me. I know you have to come into this Understanding sufficiently, but if you are sincere, have dauntless determination in your

recognition of the "I AM Presence," *God in Action* in you, you will find yourself, even to the outer sense, quickly rising into that Dominion and Independence in which you can say to all outer things, "Is it possible thou didst once disturb me?" Some of you have had an inkling of how gross and coarse all outer form seems when once you are liberated from it. To your finer, Higher Sense, it seems incredible that you could have inhabited and still are inhabiting and using a form so gross and imperfect. Had you long ago recognized, claimed, and rejoiced in the "I AM Presence" as you are doing today, these outer forms would have become so refined that you could have come back to them with very great grace. However, one has but to rejoice at every step of attainment and every step he hopes to attain, because *hope becomes faith, and faith becomes Reality.*

Now Beloved Students, under no circumstance allow the experience of the outer to pall upon you, but in this recognition, rejoice every day, every hour, every minute that brings you nearer to the goal of Freedom and release from limitation–that Freedom you have so longed for and so much desired.

The Light is growing very bright within some of you. Continue on with that calm, dauntless determination to scale the heights, for: " 'I AM' that Great Presence sustaining you, and you cannot fail." You know the old phrase used to spur one on, and especially among

soldiers, was to tell them they were cowards, and "yellow." Now Beloved Students, I say to you: you are not cowards, but you are yellow with the Golden Light of Truth, of Dominion, of Mastery over all outer things which have bound you; and with one Mighty Surge of the 'I AM Presence,' you break every binding chain, shatter all sense of limitation, and stand forth in your Freedom, the Glorious, Radiant, Majestic Being that you really are.

I like very much to use the Statement: " 'I AM' here and 'I AM' there"; and if you will contemplate it, you cannot help but overcome the sense of separation.

The student is more or less uncertain, which always brings anxiety, and anxiety makes tension. As you come into the Higher Activity, you will become more and more relaxed.

Always take the attitude of calm poise when anything should manifest. Always be happy and rejoice in the Presence; but there is always the balance to be maintained–it is the Middle Way. Hold yourself within this Center Poise. One can rejoice as deeply in a calm poise as he can in overexuberance. The calm poise conveys a certain something to others that they need, for every human being needs poise and the conscious realization of the necessity of calmness and poise, because it never leaves one off guard. Poise has within it a certain power of Self-control and guard which is very essential.

You will be not only delighted but amazed at times at the marvelous things that will come with it. Use: " 'I AM' the Perfect Poise which controls everything." When you use the "I AM Presence," be sure to keep it as a permanent thing.

Each one try this, and if you do not feel results at first, just go on, for you certainly will as you use it more and more: " 'I AM' the Presence charging this water with the Life-giving Essence which I absorb and which renews my body in Perfect Health and Eternal Youth." Affirm often: " 'I AM' here and 'I AM' there, 'I AM' the conscious action everywhere." To discordant activities say: " 'I AM' the Presence preventing this. 'I AM' the positive, peaceful control of this whole situation."

In the "I AM Consciousness" is the Wisdom that knows what is required. Know always that: " 'I AM' the controlling, governing Presence of this meeting or situation."

There is nothing comes into physical form which is not first perfected on the Invisible, or Higher Planes.

The students should not discuss this Instruction, but just rejoice in living It themselves. If they will do this, they will receive so much more from It, because there will be no conflicting vibrations to disturb them.

BENEDICTION: Wondrous Presence of the God "I AM"! We give praise and thanks for this feeling

of the certainty of Thy Presence that is growing within the consciousness of these students under this Radiation. We rejoice in the Great Light of Thy Presence enfolding each one, which goes forth unto all humanity, changing all discord into Love and Peace. We thank Thee.

SAINT GERMAIN

INVOCATION: From out the Great Silence, O Thou Luminous Brother! We welcome Thee and Thy Ministry unto America; and as Thou hast put forth Thy Opening Wedge this day, so shall those under this Radiation become aware of Thy Presence–O Thou Great Light that illumines all earthly minds, making them aware of the One Eternal Presence, the One Intelligence governing all the activity that "I AM," individualized everywhere.

We give praise and thanks that there is but One Intelligence governing everywhere, and the duty of the student *always*, no matter what the appearance, is to accept only this fact; and that he becomes a radiant channel to pour out this Truth like a gushing stream, pouring itself forth to the Great Ocean of Life. We give praise and thanks that out of the Silence has come another Presence who will bless, lift and enlighten humanity. By the Power which "I AM" and the accumulated Wisdom and Energy of the centuries, I project forth into the minds of humanity this day that Intelligent Activity which will guide them aright and control them to act accordingly.

By the "I AM," the "Universal I AM," the Great One, I command this Power to act in all mankind.

I bring you Greetings from the Great Host and the Great Master Himalaya.

The Master Himalaya: This is the first time that the Presence of this Luminous Brother has been brought to the knowledge of the outer world. It is He from whom the Himalayan Mountains receive their name. Thus, ever since these have been raised into prominence, have they been a Sacred, Unchanging Stream of Life –held unwaveringly. Hence those souls who came within their embrace were caught up and lifted into that Luminous Radiant Form–where They have long sent forth Their Rays of activity to heal and bless mankind.

THE DISCOURSE

As the destiny of India and America are entwined as two vines encircling the "Tree of Life," so again this day has the Radiant Help come forth to try and blend in harmony the minds of America, that its progress proceed unhampered and uninterrupted.

Today there are in America thousands who have been reborn from India, and there are being reborn in India thousands from America–each to bring its interblending, balancing process required in both sections of the earth.

This Great Being who has been introduced to you, has after many centuries in the "Great Silence," again stepped forth to exert that conscious blending process of Spirit and manifestation; to hold forth the Chalice, that Its Heart may be filled with the Liquid Fire of Spirit, pouring forth into the hearts of mankind, creating that fullness of desire within them for greater and greater Light–looking to and depending upon the One Great Source of Light, "I AM," *God in Action everywhere*.

The entrance of this Great Presence again into the activity of mankind will spread like a thread of Light through all the activity of America and expand Its Luminous Presence like a Mantle of softly falling Golden Snow. It will be absorbed by the minds of humanity, the majority being entirely unaware, although there will be some who will sense the Inner Penetrating Presence.

If those under this Radiation continue in their present harmonious, beautiful progress, it will be possible shortly to bring to their attention certain activities of the nerve fluid which will hasten their Mastery over the outer form. It means the Mastery over all conditions that seem to bind or limit.

I shall be surprised if your students do not feel the strength, if they do not feel the Presence of this Great Being today. Even as I speak, His Rays go out to them, touching the heart of each one, and I feel their thrill

of Joy, they not knowing just what it means.

Watch carefully, each of you and your students, to be on guard to reverse all negative conditions that appear to the senses. On the lesser things for practice, if the senses report you cold, reverse your consciousness and assert your warmth. If the senses report too much heat, reverse it with a sense of perfect, normal coolness. If the senses report to you ecstatic joy over certain enlightenment, say: "Peace, be still," and assert your calm poise and assurance. The ideal in all sense reports is to move in the middle way, the balance always asserting the Calm Mastery of control which "I AM."

This will enable the establishing of a steady, flowing stream of creative ideas and energy from the Heart of the Great Central Sun–from out which has come this Great Being, the Master Himalaya. This will enable you to receive and use immensely more of that Radiant Energy which He pours forth. The reason for drawing your conscious attention to Him has been that if you understand what it means, you may receive without limit from His Energy, besides what you draw forth by your own conscious effort.

The students must at all times understand that the Masters do not come to them of the students' choice, but that they have been chosen to receive the Radiance, a privilege for which words are entirely inadequate to convey the true meaning that can truly only be felt

or visioned. Again they should understand that the Master's province is not to assume their responsibility by solving their problems for them, but to convey intelligent understanding which they may apply in their own lives to solve their own problems. Thus they gain the needed strength, courage and confidence to continue to reach up step by step, gaining their own Conscious Mastery over the outer self and the outer world.

Always at certain points of growth (expansion), We hear students call out, many times with great sincerity: "Great Masters, help us to solve our problems." For encouragement and strength, I wish to say that far more than one has any concept, is the Radiating Presence of the Master pouring out Strength, Courage, Confidence, and Light–which in most instances the students are quite unaware of in the outer sense consciousness. There is only one way in which anyone with wisdom can be of permanent help, and that is to consciously instruct his brother or sister in the simple laws by which one may wield the scepter, gain the victory, and attain to Full Dominion over the outer self and his world.

To do the thing that the student requires in solving his problems would not only retard his progress, but weaken him immensely. Only by asserting one's conscious strength, winning victories–and thereby attaining confidence which comes in no other way–

does the student enter into the fullness of his own powers. With the powerful, masterful use of the Consciousness of the "I AM Presence," the student goes forward with absolutely no uncertainty to his goal of Victory.

The reason We have not and do not say more to the student concerning the Assistance that We may be giving is to prevent his leaning upon an outside source. To say or do that which would cause the student to lean upon Us because he knows of our Presence would be the greatest mistake We could make; but the student need never fear, and he should know that every Assistance possible is always given, according to the point of attainment he has reached.

The "I AM Presence," the Host of Ascended Masters, the Ascended Jesus Christ, are one and the same thing. Through the recognition and use of the "I AM Presence," *I tell you, you can positively bring forth any quality you wish into the outer conscious manifestation—if you will but do it.*

The need of everyone is to keep reminding the outer consciousness that when one says: " 'I AM' this or 'I AM' that," he is setting *God in Action*, which is his Life individualized, the Life of the Universe, the Energy of the Universe, the Intelligence at the Heart of the Universe governing all. It is necessary, it is vital, to keep the outer reminded of this fact. With this consciousness, the joyous enthusiasm of the

student should increase continuously. There should at no time be a pall in the joy of its use, because it is positively the road to Full Mastery.

The student must become firmly aware that he or she is the Conscious Controlling Power in his Life, in his world, and that he can fill it with any quality that is needed or that he may choose.

The students who have intermittent physical disturbance in the body should take the consciousness often: " 'I AM' the perfectly controlled breath of my body," and should, in connection with this, feel themselves, as often as they can, breathing in that rhythmic breath. This will bring about a certain balance of breathing which is immensely helpful in the control of the thought.

Sincere students should whenever possible avoid listening to things that are disturbing, for in doing this they often let in unknowingly, elements they do not desire. Where they cannot with discretion avoid listening to things of this kind, they should use the following: " 'I AM' the Presence on guard here and consume instantly everything that seeks to disturb." Thus you will not only protect yourself, but help the other person as well. While the student should at no time fear anything, it certainly is necessary to keep up the conscious guard until he has attained sufficient Mastery to control his thought, feeling and receptivity.

From the Golden City comes this limitless charge

of energy for the Blessing of the students of this Radiation, as well as those of mankind who are looking to the Light.

Try to keep as much as possible in the joyous enthusiasm of the "I AM Presence." Give It all power, and do not hold any questioning in the mind. Throw everything to the winds; give everything to that "Glorious I AM Presence," and receive Its Magic Revelation. It is the Mighty, Miracle-Working Presence that can and does solve all things, not only problems, but questions whose answers need revealing. A remarkable Statement that would be enormously helpful to the students would be to say: " 'I AM' the Miracle-Working Presence in everything I require to have done."

For students to keep meditating and contemplating what it means to say "I" or "I AM" brings results, revelations and blessings that cannot be overestimated. I am sure your students will soon begin to show and feel the remarkable activity of this use. Today I feel the Presence of the understanding and use of this much more powerfully than at any time hitherto.

On the Higher Planes there is a constant meeting and exchange of help while the bodies are asleep, far beyond anything the outer self is conscious of.

Knowing that: " 'I AM' the quality of whatever I wish to use," then you know you can produce in visible, tangible form whatever you have within the

consciousness. The moment the questioning of the outer mind can be put under control and made to subside, the greatest revelations pour forth, almost tumbling over each other.

Owing to the need, the Master Himalaya chose to come forth. He brings a special blending of America and India, and that is why it is possible for Him to come here. As the Inner Presence comes into action, all outer activity subsides. It must necessarily, because it obeys the "I AM Presence."

The Golden Snow is what the Great Presence spreads over America–to be absorbed by individuals and the very particles of the atmosphere itself. This will enable the students especially to be greatly assisted and blest, because they have become the focus for this Outpouring.

It may be well for the students to understand that in national requirements, as in individuals, there are qualities needed for certain definite purposes at certain times. That is the reason for Special Great Beings coming forth, these Individuals having predominant the quality that the nation needs at a given moment. The students who can take this Understanding with great sincerity will find a New Element entering into their lives which will benefit them greatly.

The activity of expectation is quite a vital one in receiving from the Inner Presence. It is a faculty that can be used with a great deal of benefit by

the student who cultivates it. For instance, if we have planned something from which we expect great joy, we feel all buoyed up with expectancy. We can acquire and use this same expectancy in elements we wish to acquire and use, for it is very helpful in enabling them to come forth. If one calls on the phone and you are to meet that one in the city, you expect to meet him. If you desire to meet the Masters, one requirement is to expect to meet Them. That is very helpful. Why not expect to meet Them *now?*

People have become so abnormal in their habits that naturally they have interfered with their breathing as well as other things. To use the Statement: " 'I AM' the balancing-breath" will do a great deal more for them than the use of many breath exercises without the aid of an Ascended Master. The coming amazing Activity will be done by the use of the "I AM Presence," because with Its use, anything can be accomplished. Take the consciousness often: " 'I AM' the balancing-breath." This sets in motion the *Inner Activity* that maintains the outer Perfection. In whatever you do, always take the "I AM Consciousness," and then you immediately set It into motion.

Take the attitude of calm certainty in your mind, and keep on keeping on.

BENEDICTION: Thou Mighty Presence whom

We in great joy have welcomed, We thank Thee for Thy Great Wondrous Radiance and Light, Thy Great Radiance and Conquering Power; and We trust that Thou mayest decree Justice now and for all time to mankind.

NOTES

Saint Germain: I shall have to journey on.

Q. Where are you going?

A. Home.

Q. Which one?

A. The Golden City.

It is clothed in the Electronic Substance and is just as tangible to you as the physical. Within the Light of the Golden City are Lights that are as much brighter than the surrounding radiance as these physical lights are in this atmosphere.

Within all Light at certain points is consciousness focused. At those points it becomes illumination. Suppose this room were the Great Sun. It has an atmosphere. The individuals moving within it would have their own Radiance about them, the same as the lights in this room.

DISCOURSE XII

November 10, 1932

SAINT GERMAIN

INVOCATION: Thou Mighty, Infinite Presence, Thou All-Pervading Intelligence! Thy Love, Wisdom and Power govern all things. Thy Divine Justice is ever operating in the lives and worlds of those who look to Thee with unfailing determination.

We give praise and thanks that Thou art the Ruling Power and Governing Intelligence ruling all things.

We give praise and thanks that in our world Thou art the ever-sustaining, Invincible Power. We thank Thee.

God always finds a way to help those whose hearts reach out to Him.

THE DISCOURSE

The seeming mysteries of Life with their attendant experiences are, when rightly understood, blessings in disguise; for any experience that causes us to turn more firmly to the One Active Presence, "I AM," *God in Action,* has served us a wonderful purpose and blessing.

The unfortunate situation in which personalities find themselves exists because they are constantly

looking to outside sources for Sustenance, directing Intelligence, and for the Love that is the Supreme Presence and Power of the Universe.

It matters not what the conditions are that we face, at no time must we lose track of or allow ourselves to be drawn from the Great Truth that: "Love is the Hub of the Universe upon which everything revolves." This does not mean that we shall love inharmony, discord, or anything unlike the Christ, but instead we can love *God in Action,* the "I AM Presence" everywhere present; for the opposite of hate is Love, and *one cannot hate in any sense without having loved deeply*. The Admonition that Jesus gave was truly this idea.

Each human being is a power, and is intended to be the governing principle of his Life and world. In the recognition that within each human being is the "I AM Presence of God" ever acting, then everyone knows that he holds within his outer hands the Scepter of Dominion, and should use his conscious determination in knowing that the Invincible Presence of God is, every moment, the Intelligent Activity in his world and affairs. This keeps the attention from becoming fixed on the outer appearance, which is never the Truth unless illumined by the "I AM Presence."

No matter what the problem is to be solved in the individual's Life, there is only One Power, Presence and Intelligence that can solve it, and that

is the individual's recognition of the All-powerful Presence of God–with whom no outer activity may interfere–unless the individual's attention is knowingly or unknowingly drawn from his central recognition and acceptance of the Supreme God Power.

The Principle of Life, always active, is ever striving to pour Itself forth into expression, thereby producing Its Natural Perfection; but human beings, having free will, consciously or unconsciously qualify It with all kinds of distortion. The individual who stands with his attention fixed firmly on the "I AM Presence," on God and with God, becomes an Invincible Power with which no outer manifestation of mankind can interfere.

In the recognition of: " 'I AM' here and 'I AM' there," friends wherever needful will be raised up to one's assistance, for: " 'I AM' the friends brought forward whenever and wherever it is necessary." The release from all outer dominion or interference can only come through this recognition of the "I AM Presence," *God in Action* in the individual's Life and world. Many times this requires strong determination to hold unwaveringly in this Presence when appearances seem to be dominating. However, such is never really the case.

The old saying, "An individual is never licked until he gives up," is quite true, for as long as an individual looks with full determination to *God*

in himself as the Governing Intelligence, there is no human activity that can long interfere. The Mighty Outpouring of Light flowing about each individual–through the activity of the vision, and knowing of Its Presence–can be made as invincible as a wall of steel about one, in fact more so.

Ever down through the centuries have the majority of mankind given their attention to the outer appearances, thereby inviting all kinds of discord and distress; but today there are thousands who are coming to understand the *God Presence within themselves* as Absolutely Invincible, to the extent that they are steadily being raised above the injustice, discord and inharmony of the outer creation.

Until mankind or individuals hold their attention on the "I AM Presence," God within, long enough and with sufficient determination, they will find themselves surrounded by the undesirable; but through this "I AM Presence," each one has the power to raise himself above the discord and disturbance of the outer creation.

At first it does take determination to hold fast when the seeming storm clouds hang low and the outer appearance seems overwhelming; but with a dynamic conscious attitude and the attention fixed upon the *Presence of God within*, it is like the lightning flashing forth from within the storm clouds, penetrating and dissolving the storm that seems so threatening.

As one advances, he finds himself becoming more and more Invincible to this outer creation of mankind which brings such great distress.

The Statement of Jesus: "Know the Truth, and the Truth shall make you free," was perhaps one of the simplest and greatest Truths to ever be uttered; for the first fundamental of knowing this Great Truth to which he referred was to know that you have within you this Invincible Presence of God. If you know that and are certain of It within your own consciousness–I mean by that, standing with firm determination in the face of everything–then you know you do have that Presence within.

Your next step is to take your stand: " 'I AM' the Illumining, Revealing Presence, and no outer activity that I need to know can be withheld from me, because 'I AM' the Wisdom, 'I AM' the Perception, 'I AM' the Revealing Power bringing everything before me–that I may see and understand, and be able to act accordingly."

It is so easy, when you once understand that: " 'I AM' the Only Intelligence and Presence acting," to see how you have the Scepter within your own hands, and through this "I AM Presence" you can compel everything you need to know to be revealed to you. I assure you, this is not in any way interfering with the free will of any other individual.

It is time that the Children of God who are

looking to the Light awaken to this Dominion. I assure you, it is no wrong nor mistake to claim and demand your own. In doing this you are not in any way interfering with any other individual.

If at any time there are those who through their outer activity attempt to take from you that which belongs to you, then it is your right to command through the "I AM Presence" that the whole condition be adjusted and your own brought to you. In this we must be very careful that when we have set the Divine Law into motion and Divine Justice begins to take place that we do not become over-sympathetic and thereby interrupt the action of the Law.

When human beings are governed entirely by the outer self, and when they have no consideration for the Power of God which gives them Life, they are easily led to commit any kind of injustice; but does that mean in any sense that you shall allow them to do it in your world? Not when you know that you have the Mighty Power of God within to command and demand right and justice from everywhere.

I want to cite you an instance: One of my students was going through a very trying experience, and the nature being very spiritual, I told her to demand right and justice. She did as advised, and presently things began to happen to those who wished to do her injustice. Through kindness of heart she began to relent and wish that she had not demanded justice. She

came to Me and said, "What am I to do?" I said with no uncertainty, "Stand by the decree that you have issued. You are not responsible for the lessons these individuals have to learn who have wronged you, so let them get their lessons and be undisturbed."

When individuals start to do wrong, that moment they set in motion the Great Universal, or Cosmic Law of retribution, and they can no more avoid retribution striking them sometime, somewhere, than they can stop the action of the planets. To the innocent victim, retribution sometimes seems a long time coming, but the longer its arrival is delayed, the more powerful it acts when it does arrive. There is no human being in existence that can avoid this Law.

Many times students and individuals have thought that something could be imposed upon them. Such, I assure you, is not the case. The only way one can open himself to undesirable thought is by entering into condemnation and hate. If he has done this, he has generated the thing in which he believed. The student who knows the Power of God within himself need never fear anything from anyone. The individual may, if he or she choose, experience the Fullness of the Activity of God in his Life and world. It is simply a matter of choosing what you shall have. If you want peace and harmony, know: " 'I AM' the Power producing it." If you want adjustment in your affairs and world, know: " 'I AM' the Mighty

Intelligence and Power producing it, and no outer activity can interfere with it."

From out the seeming mystery of Life's ceaseless activity there is the Illumining Presence of the "Mighty I AM Within" that stands ever ready to bless you with untold, inconceivable Blessings–if you only *let* It. How do you let It? By the joyous acceptance of the Mighty Presence, that you have this Mighty Power within you; and then do not hesitate in every detail of your activity, no matter how small it seems, to call It into action; for there is no energy in the Universe but God to act through your consciousness, your mind, your body, your world.

Say often: "I AM the Presence" in everything you wish to have done. This opens the way for the Power of God to act and bring you justice. *Have no sympathy for the outer that in its ignorance does the wrong thing, whether in yourself or someone else.*

Keep calm and serene, knowing: "God is the only Intelligence and Power acting in your world and affairs." "I AM" in you is the Self-sustaining strength and healing, manifesting in your mind and body. This keeps you in greater attunement. Face God! And the Energy always surges forth to command every situation. Individuals who understand this Law are not subject to injustice and the conditions which the outer selves of other beings try to impose upon them.

Keep the outer reminded of this often. Be sure

always within yourselves that there is only the Presence and Power of God acting in you and your affairs. Keep using the statement at all times that: "There is nothing hidden that is not revealed to me." This is always necessary. However, no matter what individuals want to do, your safeguard is always to pour out the Love of God to them.

When individuals try to enjoy something through injustice, without question, they never enjoy it, for they always lose some faculty by which they could enjoy it.

Other personalities always have the same privilege to stand with God that you do, and if they do not choose, that is not your business.

God is the All-knowing Presence and Power, knows and discovers all things. You may say for another:

"Mighty Master Self, the 'I AM Presence' within this individual, come forth in Thy Conscious Power, with Thy Mighty Insight and Foresight, with Thy Wisdom and Directing Intelligence; and see that all things are adjusted for her, and that she is given the peace and rest she so much deserves. 'I AM' the Commanding Presence directing and commanding this to be done, and it is done now. Lift the consciousness into the Full Dazzling Light, where she may see and know the repose, rest and beauty that is hers by her own creation and service."

It is a mistake to let sympathy draw you into

conditions that are very destructive. Take the stand: " 'I AM' the only Presence acting there."

For helping those who have passed on through so-called death: " 'I AM' the Presence holding that individual in the sphere where he belongs, teaching and enlightening him."

If the student can get the correct idea of pouring out the Love to his own Divine Self, *he will receive complete relief from every discord*. To perfect conditions say:

" 'I AM' the Presence there–governing and healing the situation."

Mankind in general and the doctors have distorted things pitifully. The individual who wants to rise into the "God Presence" and live there needs the energy he wastes. The very energy individuals waste is the force and strength by which they are enabled to hold fast to the "God Presence." This Energy is the Life they need to enable them to turn and hold steadfast to the "God Presence." When the outer self has for centuries used Life's Energy to create wrong conditions, that waste of the energy becomes a wide-open drain upon the consciousness of individuals.

Doctors are responsible for much of this terrible condition, for they teach the gratification of the sex appetite, and that is the greatest avenue of waste with which human beings have to contend. This is what makes it impossible to hold fast to the "God Presence"

long enough to attain the Mastery. It is ninety-five per cent of the cause of old age and the loss of sight, hearing and memory—as these faculties only cease to function when there is no longer a stream of this Life Energy flowing into the cellular structure of the brain. You cannot tell this to individuals until they have had such hard knocks that they are almost desperate with the misery of their own creation before they will listen to you. The will is absolutely nothing without this Life Energy.

There is only one possible way to change anything which has been created and directed into a wrong channel. The attention is what holds it fast to the wrong use or expression of it. Instantly direct the thought to the Higher Self. Many people get the idea that they can control it by sheer force of will, through compulsion. This cannot be done, for you but dam it up, and it only breaks out somewhere else.

The only permanent way to overcome it is to change the attention and rise out of it. Use the Statement: " 'I AM' the Governing Presence of this Energy and the only Power that can raise it. 'I AM' the Presence raising and transcending it, and that action is forever Self-sustained." Know: " 'I AM' the Presence doing this, and therefore it is done now, for God's Activity is always instantaneous."

In any wrong condition, the first thing to do is to call on the Law of Forgiveness. Remember that

when a thing has been set in motion or energized, it simply acts.

The physical body is the vehicle for contact with the sense world. When nearing the point of precipitation, continue on using the physical vehicle for doing the ordinary physical service. There is the Inner, the mental, and the physical world. The physical body has been created to act in the lower rate of vibration and is the natural vehicle provided.

To direct and handle physical objects by the mind alone needs an accumulation of Electronic Force in the Electronic Circle of the individual. When using the energy below the Ascended State, this consciously generated energy is held within the Electronic Circle which surrounds every individual to a more or less degree. This accounts for some individuals seeming to have a limitless amount of energy, for that which is accumulated in one lifetime is carried over into the succeeding lives.

Perhaps one of the most unfortunate things in which human beings live is the man's so-called legal right to bind another individual in the sex activity when the other wishes to rise out of it.

Even in the ignorance of the outer mind, some natures have a powerful development of the Love Activity. The Pure Love of God never goes below the heart. True Love never requires sex contact of any kind. The Great Ascended Host of Light are

ever with those who want to do right. Send your thought out to Them, and you shall always receive help.

You have an Invulnerable, Invincible Power when you know you have the recognition of the "I AM Presence."

The Law of Forgiveness is the wide-open Door to reach the Heart of God. It is the Keynote and Hub on which the Universe turns.

BENEDICTION: Thou Mighty, Infinite Presence of God! We give praise and thanks for Thy ceaseless Ministry. We call Thy Blessings, Thy Wisdom, Thy Intelligence to act through each one, giving peace of mind, peace of body, and joy of heart, to go forth the Ruling, Conquering, Victorious Presence over all things. We give praise and thanks that the "Mighty Presence I AM," *God in Action*, governs all official places, causing Thy Perfection to be ever-operative and Self-sustained in Thy Name and through Thy Presence.

DISCOURSE XIII

November 14, 1932

SAINT GERMAIN

INVOCATION: Thou Majestic Presence, Infinite Creator of all there is, the "Great I AM," visible and invisible, manifest and unmanifest! We rejoice in Thy Great and Mighty Presence–that Thou hast made us aware of Thy Limitless Power, Thy Infinite Intelligence, Thy Eternal Youth and Beauty. We give praise and thanks that we have become so aware of Thy Great Opulence, Thy Great Abundance, that we feel It like a mighty river in our hands and use, Thou Mighty Endless Source! Thou Ceaseless Stream! Thou hast made us aware that: " 'I AM' the Mighty Power of Precipitation." We bow before Thee in adoration and full acceptance of Thy Mighty Presence and Power.

I bring you Greetings from the Great Host; and the Great Light of the Illumined Ones is growing rapidly stronger.

THE DISCOURSE

" 'I AM' the Resurrection and the Life."

" 'I AM' the Energy you use in every action."

" 'I AM' the Light, illumining every cell of your Being."

" 'I AM' the Intelligence, the Wisdom, directing

your every effort."

" 'I AM' the Substance, omnipresent, without limit, which you may use and bring into form without any limit."

" 'I AM' Thy Strength–Thy Perfect Understanding."

" 'I AM' Thy Ability to apply it constantly."

" 'I AM' the Truth that gives you now Perfect Freedom."

" 'I AM' the Open Doorway into the 'Light of God that never fails.' "

"I give praise I have entered into this 'Light' fully, using that Perfect Understanding."

" 'I AM' Thy Sight that sees all things visible and invisible."

" 'I AM' Thy Hearing, listening to the Bells of Freedom, which I hear now."

" 'I AM' Thy Ability, sensing the most ravishing fragrance at will."

" 'I AM' the Completeness of all Perfection you ever wish to manifest."

" 'I AM' the Full Understanding, Power and Use of all this Perfection."

" 'I AM' the Full Revelation and use of all the Powers of my Being which 'I AM.' "

" 'I AM' the Love, the Mighty Motive Power back of all action."

I wish to give the most kindly warning to the students under this Radiation to watch every feeling–

that at no time anyone accept a feeling of jealousy at the progress of another. Each student must always remember that he has no concern whatsoever with the other students, except to know that: " 'I AM' the God Presence there in action." For one student to wonder and question in his own mind about the progress of another is most retarding, and it is never admissible.

Each student must understand that his only concern is the harmonizing, quickening, and expansion of his own mind and world. The sooner students understand that *the one imperative demand of the Great Law of their Being is harmony of the mind and feelings*, the quicker will Perfection manifest. Without this being maintained, they cannot go beyond a certain state of progress.

As soon as the students realize this and begin to use the "I AM Presence," commanding the harmony and silence of the outer activity, they will find that they can see, feel, and be the Perfection which they so much desire. When students and friends have a deep, sincere Love for each other which is not inquisitiveness, that Love is the greatest blessing and uplifting power. Here is one criterion by which a student may gauge himself at all times, determining what is the power acting.

If one *feels* critical, inquisitive or out of harmony toward a person, place, condition or thing, it is a sure

signal that the outer self is acting, and the right attitude is to correct it immediately. Everyone, especially students, must realize that they have only one thing to do, and that is to feel, see, and be Perfection in their own worlds.

This is so very important is the reason I am stressing it so much at this time–because as students begin to experience unusual manifestation through their efforts, there is always that suggestion at first which will say to the individual: " 'I AM' able to use the Law better than the other person." This, you know without My saying it, is a mistake.

One cannot long use the Statement "I AM," even intellectually, until he begins to feel a deeper and deeper conviction that: " 'I AM' all things." Think often what these two marvelous Words mean, and *always couple with the use of these two Words the Statement that: "When I say 'I AM,' 'I AM' setting in motion the Limitless Power of God in whatever I couple the expression 'I AM' with."* In the scriptural Statement: "Before Abraham, was 'I AM,' " Abraham represents the outer expression of Life, and "I AM" represents the Principle of Life which was expressing through Abraham. Thus there was the Perfection of Life–before any manifestation ever occurred; and thus is Life without beginning and without end.

My Beloved Students, My Heart rejoices exceedingly in the nearness with which some of you are feeling the

conviction of this Majestic Presence, "I AM," which you are. Do your utmost to feel calmly, serenely, and if you cannot see it otherwise, shut your eyes and see Perfection everywhere. More and more there will come to you proof of the marvelous Presence of this Truth. You will hear, feel, see, and experience that marvel of all marvels–which as children you have lived in–miracles performed.

There have been written for your benefit descriptions and explanations of the use of this "Mighty I AM Presence." You who hold fast to the Truth will come into the threefold action: seeing, hearing and experiencing these so-called miracles–miracles until you understand their operation, and then majestic simple Truths which you may forever apply, when once understood.

With all My centuries of experience, I cannot help but say to you as encouragement that My Heart leaps with joy at the nearness with which some of you are grasping the Scepter of Dominion. Go forward, My Brave Ones. Do not hesitate. Grasp your Scepter of Dominion! Raise It! for: *" 'I AM' the Scepter, the Quenchless Flame, the Dazzling Light, the Perfection which you once knew."* Come! Let Me hold you in My strong Embrace, that where there have been so long two, there will only be one–"I AM." "I AM" the Knower, the Doer, the Perfection expressed now.

I again speak to the individuals wanting so much

to have their problems solved. There is only One Presence in the Universe that can or ever does solve any problem, and that is the "I AM Presence," everywhere present. Beloved Ones! Let me say in all kindness, there is no use just seeking to have a problem solved, because where one was, a dozen may appear; but when you know the Perfect Attitude is to enter into the "I AM Presence," knowing It is the Unquestionable Solver of every problem, you will, as surely as "I AM" telling you, cause all problems to disappear; for where you live constantly, calmly and with sufficient determination in the "I AM Presence," instead of having many appear where one has been solved, you will have entered into the State where there are none.

I command the Power in these Words today to carry to everyone who hears or reads them the True Conviction and Understanding back of them.

For the Brain: " 'I AM' the quickening of the cells of this (*my* or *your*) brain structure, causing it to expand and receive the Intelligent Direction of the Mighty Inner Presence."

You must know that you have the power through the "I AM Presence" to consciously qualify your thought in whatever way you will. There is naught to say what you shall do, for you are a Free Being of Free Will. If you could be conscious of every thought

that passed through your mind for six weeks and keep it qualified with Perfection, you would see the most amazing results. Say often: " 'I AM' the Master Within, governing and controlling all my thought processes in full Christ Perfection as I wish them to be."

Blessing and holding others in the Light: When you bless others, or visualize them in the Light, there is a double activity of the quality you send out. In doing this there is a certain amount of protection that is the automatic result, but the thought and quality in the Light and blessing registers principally within one's own consciousness, and at the same time intensifies that quality in the one to whom it is sent.

Take the eternal stand that: " 'I AM' what I want to be." You must use the "I AM Presence" consciously always. Rarely, even among students, have they realized deeply what the "I AM Presence" meant. Only occasionally has any real comprehension of the "I AM" come forth—except in the Retreats of the Ascended Masters. Jesus was the first to stress it to the outer world. I urge you earnestly, do not give any consideration to the element of time. Manifestation must come instantly when you give the "I AM Presence" freedom enough. Go on, apply, know, and let the "I AM Presence" take care of the element of time.

When you make a declaration of Truth and stick to it, you must receive. The outer has no power

of itself at all. Its duty is simply to know that the "I AM Presence" is acting. Sometimes, without being aware of it, the outer self is looking for the time of manifestation.

I can convey to you the conviction and the feeling that when you command as the "I AM Presence," Almighty God moves into action.

Remember at all times that when you are dealing with personalities you are dealing with the outer human creation, and you have all right and power to command its silence and obedience, whether it is in your own outer self or someone else's.

If you will count ten before you speak, you can control all sudden impulse, and back of this is a Mighty Law which can help the student immensely. When there is a sudden impulse, there is a release, or rushing forward of accumulated energy. If there be anger, then the energy is instantly qualified with it, or with destruction of some kind.

The power of Self-control would say: "Only God's Perfection goes forth." This will handle any condition of uncontrolled impulses with which the individual is contending. When the student has already let something go forth that is undesirable, then the thing to do is to consciously consume it–instantly.

The constant use of "God bless this" directed to inanimate things brings amazing accomplishment. *The easy way to see and feel Perfection is to*

qualify every thought and feeling going forth with Perfection. When an impulse comes to do anything, instantly qualify it with Perfection.

Story of the engine in a small town: The whistle is the warning; the "I AM" is the control of the engine.

The ordinary human being would not think of running over children and killing them, yet he releases wrongly qualified energy in thought, feeling, and words that kill the higher impulses in others. If your personality is not controlled and governed, it has the same qualities as all other outer selves or personalities, but your "I AM Presence" is the Perfect Control of it.

There is nothing more tragic in the world than for one person to hold the thought of limitation over another human being. A thought of imperfection driven at a sensitive person sometimes limits that one for years, and many times the results are very tragic. We must all give everyone his complete freedom mentally. If you speak of freedom for yourself, be sure and give it first to everyone else. When there is a condition in another that you wish to help, use the following: " 'I AM' the Perfect Manifestation there."

The principle within both energy and substance is the same. Substance holds energy within it naturally. The heart center of substance is Intelligent Action. Vibration in its natural state is pure, always. Vibration is energy in action and must be qualified.

The pulsation in all substance is the "Breath of God" acting. Think when breathing: " 'I AM' the Perfect Energy of every breath I breathe. 'I AM' the pure atmosphere of my world."

Form the habit of constantly qualifying your world with Perfection. The old habit of thinking imperfection has filled your world in the past. Now the important thing is to be Self-conscious that you are filling your world with Perfection all the time. Stand on your feet the first thing in the morning and say with feeling: " 'I AM' the Presence filling my world with Perfection this day."

Do not be concerned about personalities.

To take the stand: " 'I AM' Perfection acting through any official" would impel the 'I AM' Power and Action there.

The first thing in the morning, say: "I qualify everything in my world this day with Perfection, because 'I AM' Perfection. I qualify this mind and body with Absolute Perfection and refuse acceptance of anything else."

" 'I AM' the Miracle, and 'I AM' the Presence compelling its manifestation through Divine Love, Wisdom and Power."

When individuals come and ask about certain use of the Law, always preface your statement with: "You are an individual of free will, but this is the way I feel about it."

What is required for the expansion of the Light of one person may be entirely different from that for someone else. You cannot expand so long as you have an opinion about anyone else. It is stifling to your own progress. There is a time comes with everyone when he must stand up and face himself, his outer creation, then say this: "Whatever there is of imperfection left in me has to get out."

Your constructive desire is *God in Action* doing the thing.

Your desire holds the Power or energy of the "I AM," through the attention on the thing you desire to do.

" 'I AM' the Full Revelation and the Perfect Application for precipitating what I desire, and I do know what is the Perfect Thing to do in the outer self while precipitating."

Say often: " 'I AM' the precipitating 'Presence' of this thing." Do not be anxious; just know it with calm certainty. When you are conscious of the "I AM" acting, you know it is moving forward. Do not let in the sense of disappointment–rather, say:

" 'I AM' the Perfect Harmony of my thought, feeling and action."

BENEDICTION: Out of Thy Pure Essence, we receive now and forever Thy Strength, Thy Wisdom, Thy Understanding Application of Thy

Great and Marvelous Laws, that we may produce and maintain Thy Perfection in each Life, mind, body, home and world.

NOTES

In a recent newsreel there have been pictured certain chemical activities and how to use this chemical action upon flowers to qualify them with the desired fragrance. Instead of raising them in the earth, they are growing them in water with excelsior over the top. This shows how near the chemists and scientists are coming to bringing things forth direct from the Universal. This shows the "Inner Activity" coming into conscious, definite use–or the activity held in Consciously Directed Rays.

" 'I AM' the only acting Presence in this deal."

" 'I AM' the Intelligent Activity in their minds."

" 'I AM' the Protection in myself and my property."

" 'I AM' the Intelligence and Presence acting everywhere."

" 'I AM' the visible opulence I desire."

" 'I AM' the Presence producing abundance wherever I choose to use it."

DISCOURSE XIV

November 17, 1932

FAITH – HOPE – CHARITY

SAINT GERMAIN

INVOCATION: "I AM" the Joy, the Courage, the Confidence pervading all the earth–filling the hearts of mankind–consuming all generated thought of depression or lack in the minds of mankind; and that which has been sent forth through lack of confidence shall be wiped from the earth.

"I AM" the Presence, the Perfect Christ Activity in the minds of all humanity, filling all official places, causing It to sustain all personalities, causing them to turn with quick certainty to the Source of their Being, the Perfect Life manifest in all outer expression. "I AM" the Presence proclaiming the Conscious Active Divinity in manifestation everywhere.

This shall be! For " 'I AM' the Supreme Conquering Presence. 'I AM' here and 'I AM' there. I go everywhere, touching the brains of mankind as with a streak of Lightning–not with consuming power, but with the 'I AM Presence' that will no longer be gainsaid." I bring you Greetings, Joy and Love from the Great Host.

It is so wonderful, Beloved Ones, to have such perfect peace and calmness in your minds these mornings. Oh, could you understand the value of maintaining that peace of mind! There is nothing that warrants it being disturbed.

Your melodies were beautiful, and wonderful words shall come forth to bless through the melodies. There is that Great Joy and advancing Conquering Presence that will bless your home, world, and students with Its Glorifying Presence–with Its Presence of opulence streaming forth like a mighty river to all who make themselves worthy by the peace and harmony of mind.

THE DISCOURSE

I wish to call your attention this morning to the active Presence of Faith, Hope, and Charity. In this consideration, we will think of Faith as the Conquering, Emanating Power; Hope, the open doorway through the veil, acting in the Pure Presence; Charity, as the determination to think no evil, to speak no evil, see no evil, hear no evil, feel no evil.

Students should always watch the Inner Activity of the outer mind and not let themselves be fooled by its action. This may sound like a paradox, but it is not. This is more important than it seems at first. If there is lurking back in the consciousness any feeling of resistance of any kind whatsoever, or that something which is always ready to bristle when something

displeases, pluck it out by the roots. You know it is of the outer, and it will stand in the way of your attainment to prevent it until you do pluck it out.

To maintain a tranquil, sweet disposition in the face of all things is the certain road to Self-control and Absolute Mastery. This is much more important than any of you can possibly understand at this time for your attainment of all that you desire.

There are Cosmic Masters known as Faith, Hope, and Charity. In calling your attention to these three principles always active in the Life of mankind, I want to assure you that they are not only qualities within yourselves, but there are Beings of Great Light and advancement who are also known as Faith, Hope, and Charity. The individuals and students who make the conscious effort to cultivate these qualities and consciously expand them in their worlds will find themselves receiving great Assistance from these Conscious, Mighty Beings–from whose Names come these qualities into individualization. These are Cosmic, Self-conscious, Intelligent Beings, whose special action with mankind is to encourage and expand these qualities. Therefore let all the students understand that this is far more than a scriptural phrase or expression. At this time these Great Ones have come from out the "Cosmic Silence" because of the need of Faith, Hope, and Charity in the minds and hearts of mankind. The sinister force that would have

destroyed the confidence, the hope, and the charity in the minds of the American people is doomed to fail utterly. Even now, hundreds who voted for a wet administration are finding their own uncontrolled thought recoiled upon them and are regretting the unwisdom of the action. So out of seeming wrong activity will still come great good. Since the hypnotic force that was generated has spent itself, many of mankind are wondering what caused them to do certain things; and their very rebellion will generate the force which will be used to correct conditions after all. *God, which is Progress, knows no defeat in anything*. Let students always remember this, which will enable them to maintain the so much needed peace and poise of mind.

The Majestic Being "Charity" has a natural Consuming Force for dissolving and annihilating hate, criticism and condemnation, and uses the Cosmic Rays as a balancing force in the ethers, from which human beings are drawing their very breath and sustenance, so in spite of themselves, they are breathing in the Fire of these Rays.

This reminds me of an illustration. You know, when a person is fainting, many times you hold the smelling salts or ammonia under that one's nose. This is what is actually taking place under the nose of humanity. It is now breathing in this Consuming Presence. (Ask your students not to discuss this fact

with unbelievers, but it is vital that the students understand this.)

Here I want to stress something earnestly. To the earnest, sincere student, there are innumerable means of assistance available to him, much of which is and will remain entirely unknown to him, but from which he nevertheless draws–when his desire for the Light is sincere.

To throw everything to the winds and stand joyously and determinedly in that "One Mighty Presence which 'I AM,' " enables each one to have a continuous stream of victories marked down to his or her benefit. No effort ever made in the "Name and Presence which 'I AM,' " can ever fail; but must go forward from one Victory to another until one attains and is able to use the Scepter of his Full Dominion.

I wish to encourage and strengthen the very important advancing consciousness concerning the Law of Forgiveness. The correct way to call into action the Law of Forgiveness is to say: " 'I AM' the Law of Forgiveness and the Consuming Flame of all inharmonious action and human consciousness." This sets into motion the completed Action.

When you use the statement: "I call on the Law of Forgiveness," you are not always completing the action, because you need to be conscious of who and where that Intelligence is which enables it to be done.

As I look among the students, I find that it is

important to keep touching frequently upon the use of the "I AM Presence," for It is doing remarkable things for them already. My very Being lifts up when I see among the students those whose attention is held with determination upon the "I AM Presence"; how the student becomes a powerful magnet for the Light, and how It rushes to envelop each one as a loving mother enfolds her child. Could people see and realize this for one moment, their determination would surge into a Conquering Flame from which there could be no receding.

The time is apropos today, and I send forth to each of you and the students a Conscious Ball of Light enveloping the heart and brain of each one, that they may receive more continuously the conscious Blessing of the "Mighty I AM Presence." I believe that most of them will feel this. Whether they do or not, nothing can interfere with Its Action to bless them.

To those blessed ones who find disturbance in the home at times, I would suggest that they use this Statement and feel it deeply: " 'I AM' the Conquering Presence, commanding Peace, Love and Harmony in my home and environment." Anyone who will use this with determination can have a peaceful, loving, harmonious atmosphere in the home. Some may need to build a momentum to experience its continuous action. Many times they will have immediate results. To build this into the consciousness is recognizing

the "I AM Presence" as the Ruling Power in their homes, for It is *naturally* the Ruling Presence.

If students and individuals who have difficulty in maintaining Self-control will sit quietly for five minutes, feeling deeply and thinking to themselves: " 'I AM' Loving Charity," they will find a sense of great relief.

For fainting: You know, speaking of fainting, the individual never faints–only the personality does that. Therefore if one who is in the habit of fainting will take this determined stand: " 'I AM' the Commanding Presence forbidding this nonsense, and I forever maintain control of my mind and body," he or she will forever control it.

When one first feels the least disturbance, quickly take the consciousness: " 'I AM' the Commanding Presence, and I maintain my consciousness here." One must realize that in the command of the "I AM Presence" he has absolute Control of the body. The more anyone uses this, the more quickly does manifestation take place.

Q. If the Great Central Sun is the Heart Center of the Infinite, where is that which is the brain center?

A. *In the Pure State, whether in the Infinite or the finite, when there is no imperfection, the brain and heart activity become One, for the motive power of all activity sent forth is Love from the*

Heart. Therefore, in the Pure State, the heart and brain are synonymous, for within Divine Love is contained Love, Wisdom and Power.

The Infinite Energy is always present awaiting use, but does not act in the Life of an individual except under Conscious Command. There does come a time in the progress of the individual when things act so instantaneously that it seems to be automatic, but it really never is.

There is absolutely but one road to Self-conscious Mastery, and that is the *Conscious Direction* of the Eternal Energy into whatever you desire. Now this brings us to another quite vital point.

Desire is an indirect action of the *attention*, but desire, sustained by the *determined use of the attention*, causes the desire to become an invincible manifestation. This will give you a slight idea of how important it is that conscious direction be coupled with the desire. Conscious use of the "I AM Presence," or the consciously directed use of this Eternal Energy to a given accomplishment, should at no time be anything but a most joyous effort. It should never seem like work or tension in any way, because when you declare: " 'I AM' the Presence, the Intelligence, directing this energy to a given purpose," you set the Law in motion in a perfectly easy, calm manner, and it does not require any "tearing the hair" effort. Therefore it should always be a calm, serene, determined procedure.

The student should at all times understand that the student never chooses the Master, but the Master chooses the student. Did the student understand what consciousness he was to maintain, it would come about very much sooner. For contacting the Ascended Masters, use: " 'I AM' the Presence preparing the way and bringing visible contact with the Beloved Ascended Masters."

With the use of the "I AM Presence" you have Full Command and Limitless Control over all disturbing conditions. When you speak in the "I AM Presence," you are speaking in the "Presence" which the Ascended Being is. You must realize deeply that when you say "I AM," it is the Full God-Power *acting* and knows no failure of any kind.

BENEDICTION: We give praise and thanks for Thy Infinite Outpouring, "Great I AM Presence." We give praise and thanks that at last, we know who Thou art, and that within Thee are all possibilities. We give praise and thanks that Thy Mighty Presence is always the Governing Intelligence, the Love enfolding, the Light illumining everything on the way.

DISCOURSE XV

November 21, 1932

SAINT GERMAIN

INVOCATION: Thou Mighty, Conquering Presence, the Majesty of "I AM" everywhere! We give praise and thanks for Thy Mighty Presence everywhere. Thy All-Pervading Energy and Power ever stands at the door of our consciousness for use—that We may consciously direct It to manifest Thy Wondrous Perfection. Forever we give praise and thanks to Thee for Thy Mighty Presence.

I bring you Greetings from the Great Ascended Host, always giving Their Assistance, that you may manifest Perfection.

THE DISCOURSE

Out of the glorious fullness of God's Omnipresent Light and Substance comes the fullness of all things.

The student who is strong enough—firm enough—to stand alone with his or her "Mighty I AM Presence," never dividing for a single hour the Presence and Power of God, will find himself or herself steadily rising into that Mighty Perfection, forever free from all sense or recognition of any limitation.

The student is fortunate indeed who can hold himself or herself within this Mighty Presence

undivided. For the benefit of some of the students who are so sincere, and yet are unknowingly allowing their attention to be withheld from that Undivided Presence, I wish to state certain facts with no intent to intrude upon the free will of the individual.

These records which I shall quote, We have within Our Possession, and they cover the past one hundred years. That of which I wish to speak today is the delusion of astrology.

No one living can give his attention to astrology and enter into the "Presence of the I AM" and remain there. Underlying the present use of astrology is the human desire and opportunity to justify and gratify the outer desires. Here let Me state an appalling fact which is within the records We have: *there is no one thing or phase of study which has caused more failure or more indirect murder than the present delusion of astrology.*

In your city of Chicago, within very recent years, was a splendid student of metaphysics who, consciously accepting the delusion of his horoscope, was driven to commit suicide.

The one thing humanity needs most, and students above all else, is the firm rock and Consciousness of the "Mighty I AM Presence" upon which to stand safely and free from the pitfalls of outer concoctions. It is not the negative statements of prospective death and the so-called ill-fated star force to be overcome

that students need to know, but the "Unconquerable, All-pervading 'I AM Presence' " that is the only and all Life of their Beings to which their attention needs to be drawn–and held there with a firm grasp.

In the "I AM Presence" there is no height the student may not reach; but by allowing his attention to be held by astrology, numerology, and the many isms of today, there is no depth he may not reach.

The present use of astrology has no semblance of the use to which it was put centuries ago. Then it conveyed no negative statements of any kind. The great harm of the attention fixed upon it is that students accept the negative statements far more than they are willing to admit. The sinister negative force generated by mankind in the world always takes advantage of such things as this to get and hold the attention, especially of the student who is progressing, and thus keep it upon that which will pull him down instead of raising him up.

Where there is a horoscope that indicates the death of someone, various minds become fixed upon that idea, and actual indirect murder is committed–so subtle that individuals would be shocked to be reminded that they had any part in it; but I assure you, it is none the less the Truth, for all of their surprise.

Could the students of astrology see for one day from the Great Inner Standpoint the destructive

force generated and used through the present use of astrology, they would turn from it as from a poisonous serpent waiting to strike death into their veins.

I say to you beloved students, in the name of your Light and progress, and of all progress, stand within your own "Mighty I AM Presence" and let not your attention be held or divided by any outer thing if you wish to avoid the wheel of birth and rebirth indefinitely.

From the Great Love of My Heart–seeing and knowing from the Inner Standpoint as you do not and cannot possibly as yet–I urge you to avoid everything that savors of a negative expression or condition. Then you shall rise on the Wings of your "Mighty I AM Presence" into that Everlasting Freedom and Blessing of the Perfect, Eternal, Limitless Light.

As I said, I do not wish in any manner to intrude upon your free will, but the Gates of Eternal Freedom are open before you, if you will but believe the Truth I have uttered, which will enable you to enter within these Gates and receive the Eternal Blessing of the Light waiting there to enfold you.

If there are conditions in your Life, home or environment that you wish to be rid of, command through the "I AM Presence" that they be dissolved and consumed before Its Mighty Light and Power.

Beloved Students who have come under this Radiation, with you We shall not touch upon this

subject again. May the "I AM Presence" within you enable you to see the Light and Truth of which I have spoken. I have seen within you the Glorious Light that can be quickened into a Dazzling Radiance, enabling you to express Perfection. Hence, of My own volition have I offered My humble Assistance; but if the personality persists in allowing the attention to be held on *anything* but the "Mighty I AM Presence"–which I know is the Mightiest and Only Raising Presence and Solver of all problems–then My humble efforts must necessarily be in vain.

I assure you, Dear Ones, you have reached a point where you must go up or down. With your determined attention and acknowledgment constantly held on the "Mighty I AM Presence," there is no condition, force or presence in earth or heaven that can prevent your wondrous, glorious attainment into Everlasting Freedom and Perfection.

If you have not That within you which causes you to feel and tells you of the Great Divine Love that enables Me to voice this Truth to you for your protection, then We must but wait such time as the Truth of It does appear within you.

When students and individuals have once learned of and acknowledged the "Mighty I AM Presence" and then allow their attention to longer be held by or upon outer things, whether it be consciously or unconsciously makes little difference; for they are

deliberately turning their backs to the "Presence," which is the Source of their Being and the Life within them that enables them to move their bodies about. I declare with all the Love of My Being that: "I AM the Presence" enabling you to see and feel this Truth and stand by and within It–for the sake of your own wondrous progress.

Those who will hold steadfast enough to that Mighty Presence will find abundant proof coming into their experience of Its Limitless Power and Intelligence.

Beloved Students! Many Hands of the Ascended Host are extended to you to give Their Assistance when you can hold your undivided attention on the Active Presence of God in you, and stand there unyielding to the pull of all outer appearance.

"Truth is Mighty and does prevail." May you feel Its Majestic Presence at all times. It is a mistake on the part of the student to feel disappointment because a certain thing he has worked on does not manifest instantly, when as yet, he has not generated great enough power and activity to produce it that quickly. The attention must always be on the "I AM" only.

Suppose I were to declare: " 'I AM' the Mighty 'I AM Presence' in Action," and then an hour later I allowed my attention to be fixed on a star in a so-called adverse aspect to Me, or an outer condition that indicates disaster of some kind. Do you not see how that would annul the Statement I had made

which would liberate the Power of Freedom?

Jesus said: "Ye cannot serve two masters." This means that you cannot divide the attention–for you must stop, look, and listen. I tell you, you cannot make steady progress if you give power to anything but your "Mighty I AM Presence." The unfortunate thing with so many students is that they do not hold long and steadily enough to the Mighty Truth of their Being to gain momentum and strength enough to stand against *the pull of suggestion and outer appearance*.

The strange thing to Me is that when the students' attention has been once drawn to the All-Power of the "I AM Presence"–which is the Only Active Principle of Life they have, *God in Action* within and about them–they cannot or do not see that they are dividing the power when the attention is fixed on outer things, and but delaying the magnificent activity and accomplishment which the "I AM Presence" would otherwise bring forth. However, having gone through the mill, so to speak, We have Infinite Patience to wait until the beloved student can grasp his Scepter of Dominion of this "Mighty I AM Presence" and hold it.

I could bring you records of the most appalling things done through the suggestion of astrology. Crimes are committed every week of the year by the suggestions given out through it. *The suggestion given sets the Law into action to accomplish it*.

When your attention is on a thing, the power within yourself goes instantly into it.

If the astrologers do not stop holding the thought of death against……. she will pass out. It is criminal! ..... is a child of God and is entitled to live here as long as is decreed. I shall do what I am permitted to protect……. . There are crimes so much worse than physical murder that there is no comparison–because they are committed deliberately by people who know better than to do them. There is one certain, unfailing Action of the Law, and that is that those who do these things must pay the penalty of a like experience.

To negative suggestions from others say: " 'I AM the Presence,' annulling all this, so it cannot affect me, my home or world." It is the easiest thing in the world to consciously dissipate something that is voiced in your presence. Simply say: " 'I AM' the only Presence acting here."

To anything you do not wish to continue say: "Through the Presence that 'I AM,' this thing shall cease, now and forever." Go after it like you were going to knock over a wall. When you really *feel* and *mean* a thing, *you loose the power that does the thing*. Try to realize the Limitless Power at your command.

In the feeling is both sight and hearing, because we can both hear and see without using the faculties of sight and hearing.

When one becomes instantly angry, he punctures

other spheres of that quality and the accumulation rides in. Jealousy is the wide-open channel upon which every other destructive activity rides in. When things are done consciously, they have much more power. When the energy is released, it acts, because the individual has set it into motion–and it makes no difference whether he be king or chimney sweep.

When the feelings are excited, they are accepting that instant. You can sit and listen to destructive conversation unaffected, so long as you control the feeling at the solar plexus. There cannot a thing enter your world–unless it be invited.

No good ever came of gambling. ……. at one time had a most wonderful power and influence about her. She began to play the market, and not only lost the power, but her money as well. Is it not better to stand with your "I AM Presence" than with a gambling channel? *Anything* that gets your *attention* is a subtle activity of the outer to pull you away from your Freedom.

For financial Freedom: " 'I AM' the riches of God flowing into my hands and use that nothing can stop."

Say often: "The 'Presence I AM' governs every existing channel in manifestation. It governs all."

A student's experience: The student had heard and seen an explosion of Light while the physical body was asleep. If she had consciously said when

she heard the explosion: "I draw into my mind and body the Strength of the Light Explosion," she would have received its benefit. The Light was the liberating of certain Powers for her use. In such experiences, the important thing for the student to do is *to be alert*, and in every manifestation, be conscious of the indrawing of Its Power. Rejoice that it is the Mighty Power of the "I AM Presence" acting, giving Its Strength and Power to you.

Command the outer memory to retain and bring into the outer consciousness everything you desire to know. When you use the "I AM Presence," you have set the Law into action, and It cannot fail.

God does not act except through the consciousness of individuals, else He would not have them here. God can only act in the physical world through His Individualizations, and even all nature is governed by Individual Intelligence–the ground, the plants, and all.

There is omnipresent all the force and energy needed for a given purpose when loosed by the "I AM Presence." Thus, through the use of the "I AM Presence," you can release Power of which as yet you have no conception.

During the war when Foch said: "They shall not pass," he loosed the Power by which that Decree was fulfilled. He had been in prayer for more than an hour, and when he came out he was so

charged with God's Energy that as he uttered the command, it became the Governing Presence in the atmospheric condition about him, and God acted. The words "They shall not pass" form a Decree. It is dynamic, powerful, real, and looses tremendous power. There is only One Power that acts. Give It full Freedom.

Stand with IT and let IT act. Stand in IT and by IT. There is no other power to act. This makes steady progress, like a glacier coming down the mountain. You are steadily moving forward and gaining a momentum against which nothing else can stand. It is an Infallible Momentum, Power, and Means of achievement of all good things. There is no permanent dominion except in this way.

For cleanliness, use frequently: " 'I AM the Presence' here, keeping my clothes and home perfectly spotless." After a time the force becomes so powerful that it instantly consumes or repels anything not wanted. The more you consciously act upon a thing, the more concentrated it becomes.

When you say: "The Presence that 'I AM,' charge this …….with……. , " you can charge the water so powerfully that it boils with the power of the energy there. Do not let anything question in your mind as to whether your command worked or not.

Whenever commanding, say: "I know it is acting with Full Power."

Know–what the "I AM" means!
Know–what It is to you!
Know–what It can do!
Get this and hold fast with unyielding determination.

Within these students there is the strength and power to do this, and if they will stand with this "Mighty I AM Presence," great Assistance can and will be given.

BENEDICTION: Mighty All-Pervading Intelligence! We *invoke* Thy Mighty Wisdom, governing our every activity. We *invoke* Thy Mighty Light illumining each one in the fullness of Its Dazzling Presence. We *invoke* Thy Mighty Love to enfold all in Its Mantle of Peace. We *invoke* Thy Mighty Power, that Love, Wisdom, and Power may act in Perfect Unity, that It perfects all things upon which our attention has become fixed.

THANKSGIVING DAY
THE PERSONAL RAY OF JESUS AND OTHER CREATED RAYS

SAINT GERMAIN

INVOCATION: Thou Mighty, Wondrous Presence! We give praise and thanks for Jesus Christ's Presence today. We rejoice in the Fullness of the Christ Activity, the Active Presence of God.

Out of the Fullness of this Presence comes pouring, like a mighty stream gushing forth from the mountains, the Energy of Illumination. This Great and Mighty Stream of Life, with all its attributes of Perfection surging into the hearts of mankind, is anchoring in everyone Peace, Love, Harmony, Faith, and Charity to all.

Thou Mighty Presence, Infinite Love, enfolding all mankind! Give special notice to these earnest students who have come under this Radiation. Give every Assistance that is permissible. Strengthen them to stand unwaveringly in the Light and face the Truth, joyously willing to pluck out of their lives and creation all undesirable things.

Fill all official places with Mighty Messengers of Light! Sustain them by Thy Mighty Ascended Host, that they may be strong enough to stand unwavering and successful before any sinister force.

We give praise and thanks for this day as an uplifting and wonderful memory established in the consciousness of mankind. May that rapidly approaching time come when every day may be a thanksgiving in the hearts of mankind for Thy Light ever enfolding all who wish it.

I bring you Greetings from the Ascended Host and Jesus himself.

THE DISCOURSE

The First Principle of activity from the Godhead is projection, or precipitation. Therefore, Its nature is to project, or precipitate Itself.

The first activity is the divided Rays going forth into individualization, into visible expression. When I speak of individual, or visible expression, I use that term because of the physical activity, not that it is not always visible, because it is; but to those in the physical form, I speak of it as visibility.

Thus you will see the nature of your Being as Rays of Light, and who you are as the Natural Quality of Life which you so much desire at this time. The day is rapidly approaching when many, many students will begin to use the Light Rays of

which they are a part–especially the Ray of Vision and Sound.

Even in your physical world today there are being discovered means of producing and uses of these Rays. These are strange activities–I say strange to the visible activity, but natural always to the Inner Presence. The manner of using these Rays at present is crude, it is true; but it will require only another step to take them through the veil.

The Power of the "I AM Presence" and Intelligence to use these Rays will always remain infinitely more powerful than any mechanical contrivance by which they are used. However, to the student who has not yet found his ability to use these Rays, the scientist's experience will be of wondrous encouragement to know the amazing Truth of the individual's ability to use them.

Here it is important to know that there are Natural Rays penetrating through all the atmosphere, or etheric belt within the earth's atmosphere. When I say natural, I mean those Rays projected from the Godhead, or Great Central Sun, which in recent years, shall I say within a few years, have been made permanent.

Then there are the Created Rays, created and projected by the Ascended Host–by Those who have raised the body. The latter are the most potent of all Rays because they are consciously manipulated.

The Rays the scientists are contacting are the

Natural Rays, having a certain natural potency.

The great need, as stated in *The Magic Presence*, is the preparation of earnest students who can be raised and taught the use of these Rays. There are those among you who can do this, and as they are prepared with a determined steadfastness to the Light, they will have more and more of the Law revealed to them concerning the use of these potent Forces.

I feel a very great joy in the possibilities before you and your students. I trust they can find within themselves the strength and steadfast determination to hold fast to the outer and Inner Work that is being done for them—with a joyous feeling of sureness of the Limitless Powers which true Freedom brings.

I have from time to time endeavored to give a word of encouragement, and through that, enfold them in the Radiation of Strength which is fearless and dauntless in the Light. The loving, joyous stillness in the attitude of the students is wonderfully encouraging, for the expectant attitude is the right attitude to be maintained.

I would suggest that those who have been having unpleasant experiences would consciously withdraw from those conditions all power they have been giving them, mostly unknowingly. When it is necessary to discuss some condition to understand it, immediately follow by withdrawing any power that has been given it, and then know: " 'I AM' the

Harmonious Presence, ever pervading whatever the condition may be."

As I have intimated before, and it has only partially reached through, I will repeat it again: Anyone, especially the student, who has experienced inharmony or limitation in his mind, home, or world, can, with persistent, tensionless effort, by holding with determination to the following Statement, keep his home clear of anything undesirable: " 'I AM' the Governing Presence, governing in Perfect Divine Order, commanding Harmony, Happiness, and the Presence of God's Opulence in my mind, my home, and my world."

When I say: " 'I AM' the Governing Presence," "I AM" fully, consciously aware that I have set in motion the Full Power and Intelligence of God producing the desired conditions, and that they are thus Self-sustained.

It seems to me that it has not been clearly understood that when you use the expression: " 'I AM the Presence' in my mind, home, and world," you are not only commanding the Conquering Presence of this activity through your own consciousness, but *you are calling forth the Assistance of the "I AM," or God Presence, into your home and world, of whomever contacts it.*

This is so vital for the student to understand. Do not be discouraged if you do not see immediate

manifestation of this harmony which you desire, but go right on *feeling the "Conquering I AM Presence*." Do you not see that in this Consciousness, there is no other Presence to act, except what you are conscious of? All other activity of the outer which is undesirable is but a distorted activity and use of this Mighty Energy. Therefore, when you say: " 'I AM the Conquering Presence'! I command this 'I AM Presence' to govern perfectly my mind, home, affairs and world," you have sent forth the greatest Decree possible to be given; and you have but to *feel the Sustaining Power of this in the face of every appearance* until you find Perfection manifest in your mind, home and world.

I wish the students would read this particular part every day to keep before them the Mighty Truth underlying these Statements.

Now we come to a vital point, and that is the Personal Ray or Rays sent forth by Jesus direct. Many will ask, why especially Jesus? I answer, because humanity has been taught to look to the Presence of Jesus the Christ, few having any knowledge at all of the Ascended Host of the Great Masters of the Great White Brotherhood who wield limitless Power to assist mankind.

You and your students will have, for the next seven weeks, the Personal Ray of Jesus the Christ. Those who can put aside any thought of other personalities

and with open arms, mentally speaking, welcome these Rays into each one's mind, home and world, will find almost anything possible.

I assure all of you that the idea of these Personal Rays of Jesus the Christ is no imaginary thing; and you, Our Beloved Messenger, have the personal thanks of Jesus the Christ for your fearless stand and use of the Ascended Jesus Christ Presence.

As the Messenger gives forth riches of Wisdom and Truth, so should students, in their loving sincerity to the teacher, through the "I AM Presence," work for the health and prosperity of the Messengers. This would open doors to the students not otherwise possible.

There are indications at this time that during the next seven weeks revelations may be given to some of a certain use of Liquid Light. I wish the students' attention to be fixed on this so that those who are ready may receive. Here let Me say that the right attitude of the student is always to rejoice at the advancement of his or her brother or sister, for each individual receives that which is most needed at the time, and if one receives one thing, another may receive something else. So the student should at no time feel that he should have the same thing that someone else receives. (I mean in regard to revelation.) As no two are alike or of the same state of advancement, you can see how they could not

each receive the same thing at the same time.

The most wonderful attitude of the student is to continually bless and rejoice at any revelation that comes to his fellow students, thus keeping the door wide open to that glorious Inner Presence at all times.

For the encouragement of those interested in aerial transport, I wish to say there is nearing the approach of planes that will be proof against accident. These will make transportation quick, sure, and easy anywhere one wishes to go. The obstructive mental attitude of those interested in aerial navigation which has been opposing the coming forth of this much needed knowledge is rapidly being broken down, until there will come forth a flood, so to speak, of wonderful ideas and Perfection, which can and will be used in this wonderful means of transportation. Many of you will not need them–but there are always those who do–for one's own aerial equipment within him will always far excel any outward conveyance, for the Higher Body is the most wonderful vehicle of aerial transportation there is.

Some of my argumentative friends may suggest that this vehicle is not able to carry great loads, but I say to them, how shall ye judge–until ye are able to use this means? It is most amusing to watch the activity of so-called practical minds who feel that there is nothing real except what they can feel and handle; but unless one believes in the

Limitless Powers and Laws of Intelligence of God Individualized, he can in no-wise receive to any great extent from this Mighty Inner Presence.

The practical mind that forever doubts a thing it cannot see has a long way to go unless, as you lop off the undesirable limb of a tree, this limb of doubt be cut off. You know, it is a good idea, after it has been cut off, for you to consume it in the Consuming Flame–that it does not come back again. It seems so difficult for the student to *realize what a tremendous Power the Consciousness of this Consuming Presence is*.

To some it is difficult to get away from the thought that It is imaginary, but could you see from the Inner standpoint, you would see that It has a Mighty Presence and Power, and is very Real.

I wish you for about two minutes to feel this Dazzling Ray of Light penetrating every atom of your Being.

There should be splendid accomplishment during the next seven weeks. The reaching out of humanity as Christmastime draws near, with the already added impetus of the Christ-Force, enables accomplishments to take place at this time which have not before been possible.

There are certain activities which must be contacted by the Inner Presence before the outer attention can be drawn to them. This is hard for the student to

understand. *The student must first reach out,* and he can only reach out through his Inner Presence.

A simple but very wonderful thing is for one to give praise every night and morning for that magnificent Presence of Life which animates the mind and body. It is a tremendous thing to feel deeply this thanksgiving for the Presence of Life which holds within Itself all things. Just be grateful to Life for all It is and contains. The very Presence of Life enables Us to do the things we are conscious of and desire to do, because we cannot move without this Presence. We cannot even think without It.

If one would take this Statement: " 'I AM the Presence' thinking through this mind and body," he would receive some very remarkable ideas.

The brain is the first point where obstruction begins to register, because that is the point of contact with wrong ideas. Wrong ideas register most quickly and intensely in the brain structure because that is the field of atomic activity. However, the attention held upon the "I AM Presence" so releases the Power of the Perfection, *which is within the electron* at the center of the atom, that the wrong ideas and obstruction to the Light simply dissolve and disappear.

Q. *Don:* Where are you going?
A. *Saint Germain:* To the Golden City.
From this time on, until three weeks after New

Year's Day, it is a time of great rejoicing in the Golden City, for it gives a great opportunity to convey into the physical world, through the Light and Sound Rays, Its own Mighty Radiance. If humanity could understand and appreciate this fact, remarkable things could take place; but that does not prevent individuals who can grasp It from receiving Its remarkable benefit.

The very simple thing, if students could only understand and apply it, is to absolutely keep the mind off every personality and know only: " 'I AM' the only Presence there." It would open the doors–oh so wide!

Love, and a reaching out to an Ascended Being, enable Radiation to be given that would not otherwise be possible.

One cannot long interfere with the progress or growth of another, for if the one obstructing does not release and relax his hold upon the other who is ready to go higher, the obstructing one will be removed by his own action. If one continues to hold steadfast and sincerely to the Light, personalities will be swept aside, or harmoniously disconnected from the individual's world.

At this state of growth, or rather, expansion of the Light, it is necessary to know: " 'I AM' the Active Presence of all channels of distribution of all things acting for my good." When the thought comes, "This is all I have," nip it in the bud and

say: " 'I AM' the opulence of God in my hands and use today." This is the time to stamp it right out of your mind and *feelings*.

This must be held as a Sacred Silence within each individual. Take this as a sacred, reverent Knowledge to be used. When you take from the "I AM" Self, it is impossible for you to take anything from any personality which rightfully belongs to that one. You are decreeing for your world, so you cannot take from anyone when knowing your own Law: "I AM the Presence" acting everywhere. There is no possibility of division of the "I AM Presence."

If you need money, say: " 'I AM' the Active Presence, bringing this money into my hands and use instantly." It is so important to get away from the importance of money. It is but a means of exchange. Do not give it power. Put all your power back with God, and then when you command–*no matter what it is you want*–you have all power instantly on hand to bring forth the fulfillment of your Decree.

The vibration within any element is always the Breath of God, Eternally Self-sustained. All pulsation is the Breath of God. The simple consciousness that: " 'I AM' the Presence of Perfect Health" is this Breath of God acting.

" 'I AM' the Presence of forgiveness in the mind and heart of every one of God's children." This releases enormous vibratory action after its kind. Hold the following with vividness: " 'I AM' the Pure Mind of God."

BENEDICTION: Thou Infinite, Mighty, Personal Presence, Jesus Christ! We give praise and thanks for Thy Radiance, for Thy Intelligent Rays, for Thy Qualifying Presence.

We give praise and thanks that we are conscious of that Special Radiance at this time; and that we may, through the loving open door of our consciousness, receive of Its Mighty Presence.

DISCOURSE XVII

November 28, 1932

SAINT GERMAIN

INVOCATION: Thou Mighty Infinite Presence, All-Pervading Intelligence, All-Pervading Substance of Light, Thou Mighty Presence, Thou Ascended Jesus Christ now manifest through His Mighty Radiance! We give praise and thanks unto the Light, unto Thee, O Mighty Brother! We give praise unto the Central Sun to the One from whose Ray we receive today.

Out of the fullness of Thy Radiant Life, O God, we bow in adoration before Thy Mighty Presence.

I bring you Greetings from the Great Master or God Meru, whose Messenger is Nada. He is to one great mountain of this earth, whose mystery shall one day be explained, as the Master Himalaya is to the Himalayan range. Nada is with Me in the Golden City upon whose Twin Rays We come forth today.

During these next seven weeks, as designated and as you have felt, Our joint Ray shall come to you each time from the Golden City.

THE DISCOURSE

When the students are strong enough to bear it, We will bring forth in descriptive expression one of the most stupendous expressions of the right use

and wrong use of this "Mighty I AM Presence." This actual experience took place in what is now the Andes Mountains in South America at a remote period when the Children of God first began to forget their Source, and to claim the Mighty Energy of which they were aware as their own. Only through that authority could such an experience take place.

Students and mankind have but a small conception, even in the distress they have created for themselves, of how mightily this force was used at one time for selfish purposes. A similar condition has never before been known. There still remains today the subterranean city which will be described and in which this activity took place.

Oh, that the Children of God would awaken to the Stupendous Activity that the Powers of Light use for the good of humanity when their attention is sincerely focused on that Light.

If the many students of the various angles of Truth on the earth today could put away the ignorance of the outer mind and believe in the seeming miracles all down the ages, how it would break the shell of the outer self and let in the Light. The faith to believe in the things not seen is one of the greatest means to open the door to the conscious activity of the Light of the "I AM Presence."

As you use the automobile and airplane to cover distance quickly, so does the "Great I AM

Presence" use the body. The body represents the airplane, and the mind is the mighty motor through which the "I AM Presence" propels it.

Students, I am sure, have not understood how subtle a form doubt takes at times. Where there is a questioning in the mind, knowingly or unknowingly, concerning the All-Power of the "I AM Presence," it is a subtle form of doubt. Those who want or attempt to argue the question of the Reality of the Great Truth of Life, whether they believe it or not, are admitting doubt into their lives.

In this day, no sincere, reasoning mind, once turning its attention and keeping it firmly fixed on the "I AM Presence," can argue, doubt, or question the Omnipotence of that "I AM Presence."

The scarcely recognizable form of doubt that lets into the mind argument concerning the Source of its Being is but a lack of strength to stand up against the Law of Resistance–by which growth in the outer can be measured.

There is a vast difference between sincere questioning to know the Truth and the human propensity to argue against the very Reality they want to believe. We always welcome most earnestly, sincere questioning for Truth; but We will have nothing to do with that nature whose dominating propensity is to argue against the Reality of Truth. The more the argument of Truth is admitted into the Life of an individual, the greater the barrier

that one sets up to surmount before the distant day when he does surmount it.

The students who criticize, condemn, or sit in judgment upon this channel of the Truth's expression will surely find themselves standing upon the edge of a precipice into which they may plunge at any time–for no reason in the world except their own creation.

I wish all to understand: This Radiance of the Light has been established for *a certain definite Purpose;* and It will go forth doing Its Work regardless of any personality, or of all personalities in existence. I say this plainly that the students of this Radiation may understand they are dealing with Mighty Forces which are as Real as Reality can be; and those who cannot stand the test and Radiance of the Light need never, never blame anyone but themselves; for they have free will and are given the use of the "Mighty I AM Presence" by which they can maintain absolute Self-control.

I must put plainly before them again: the sure way that they run into deep waters of doubt and questioning is when they are foolish enough to attempt to discuss the Sacred Truth which is being given them for their own liberation and use with those who know nothing about it.

This much I may say to you: in the past, students who were taken into the Retreats for instruction were never permitted, nor do they ever think of

discussing the Truth with each other. They silently, earnestly apply the instruction of their teacher, and the results they desire are certain to follow.

Better were the students stoned in the streets than to condemn, criticize, or judge the Light that is given them; for if they will enter into the "I AM Presence" as directed, every question, every problem in their lives will disappear as the mist before the radiance of the morning sunlight.

I take it that all the students are strong enough to hear the Truth and use the Strength of the "I AM Presence" to govern and control the outer, so they may receive the full Presence, Love, Wisdom, Power and Opulence of the Great and Mighty "I AM Presence," which enables them to think, to feel, to live, and which has given them the desire to reach for the Truth–the Light.

I wish to say plainly and with the "Wand of Fire" placed in the consciousness of the students, that this Brother and Sister who are giving this forth are but Messengers of Those who have known and proved this Law for many centuries. *These Great Beings to whom your attention has been drawn are no myth nor figment of the imagination of the outer, but Living, Wise, Loving Beings, possessing such Power which They may wield or use at Their own discretion, that it is not possible for the human mind to conceive It.*

Always before there has been great, almost

limitless time in which the student could wander about making his decision–whether he wished to act in the Light or wander on in ignorance of Its Mighty Presence and Power. The Cosmic Cycles have turned, again, again, and again, until the time has come when the children of God must make their decision final–whom they will serve.

Never in the history of the world has there been such opportunity or Assistance given to the children of earth to face the "Sunshine of God's Eternal Light" and walk steadfastly and fearlessly into Its Radiant Splendor–*free, forever free* from all limitation–living in the Abundance of that Light enfolding them like a mantle of peace and rest.

Again I say to the beloved students: If you cannot feel in your hearts the Truth of these Instructions brought to you on a golden platter, then don't ever, in the Name of your "I AM Presence," say or do that which would discourage another from the Light he might receive. The plain, unadulterated Truth I give to you in the fullness of the Great Love of My Being, that Its Radiance may cause you to understand and know what it means *to dare, to do, and to be silent.*

Any feeling of questioning in your minds of the Reality or genuineness of the Source of your Instruction but hampers your progress and causes you to require months or years to accomplish what you might easily do in a few weeks with a free, peaceful mind.

As One who has chosen you, I know and feel your every thought. It is very easy at times for the student to think that his acts or thoughts are under cover and not known, but to the Ascended Host there is no act or thought that can be hidden from Them, because everything you think or *feel* is registered in the etheric world about you, as plain as the nose on your face.

So do not ever make the mistake of feeling that you may think or act in secret. You may readily do this from the outer self, but never from the "I AM Presence," which the Ascended Host are *with no obstruction*. This, My Dear Beloved Students, is as far as I am permitted to go in helping to set up the guard for you. In the future no further reference to this will be made. Remember that the decision lies within you to go forward or not.

Now I shall say something very encouraging. The only possible reason why the Personal Ray of Jesus could be given forth to those under this Radiation at this time was because seven of this group of students were witness to the Ascension of Jesus the Christ two thousand years ago. He saw and recognized them then, as He sees them and is giving not only recognition at this time, but Great Assistance.

As this Radiance goes to you, Beloved Ones, so does It go on reaching into the hearts of those who can receive the Presence. Because of this Radiation, many who have a deep Love for Jesus, or of Jesus,

through the orthodox channels, will be awakened to the Presence of the God within. Outside of this, the joint Activity of Jesus with the Ascended Host is spreading its Mantle of Love, Peace and Light over humanity, this being the time of year when their attention is most easily gained.

Beloved Ones! Does it sound incredible to you when I say the Masters of Light and Wisdom have passages through the earth in all directions, just the same as you have highways for your automobiles in going from coast to coast on the earth?

Did you understand the atomic structure of the earth, you would not feel this such an incredible thing, for those Great Ones who have assisted the progress of humanity from the beginning have but to use certain Rays, and They walk through the earth as easily as you would walk through the water–different however, in that They leave the opening behind them, while in your walking through the water, it closes behind you and the path is not apparent.

Just so with the Great Beings who have blazed the trails for humanity into the Light. The trail remains that those children of lesser Light may always find the Pathway and follow it. If at times they should make a mistake and turn onto the byway, they have the "I AM Presence" to call them back to the main power and carry them forward, until they too may be Torch Bearers, or Trail-Blazers to those still

following on. " 'I AM the Mighty Presence,' who never becomes impatient nor discouraged at the long periods in which the children of earth turn aside from the Light, enjoying the sense activities until they become so repellent to them that with almost their last breath they cry aloud: 'O God! save me.' "

I cannot help but smile to Myself as I wonder how some of you may think Me a very crabby old fellow–but if so, one who has the courage to tell you the Truth of your needs, that you may profit by it. When you come to know Me better, you will not think Me such an old crab after all.

So long as the student has a questioning in the mind, he does not open himself to the Truth of the Instruction fully.

If it is seen that it is worthwhile, determined entirely by the upreaching of humanity to the Light, then the Natural Rays are made permanent to the earth and placed within the center. The earth is composed of earth, water, and air. The Rays are the Cosmic Fire interpenetrating all the three other elements. The Rays pass through the earth, and where they interlock, they soften and form this Luminous Substance, or Radiance–the concentrated Activity of the Light.

One Ray enters the crust of the earth at a point just south of the center of the Gobi desert, and the other one enters just east of Lake Titicaca in the

Andes Mountains. It is the largest lake in South America and the highest in the world. It was a point of very great importance centuries ago.

These are the two most intense points of Light in the earth. There is always a Cosmic Activity taking place at certain cycles which may not be interfered with. The Great Cosmic Laws are exact to the minutest detail, and there is no such thing as failure nor accident connected with them.

A great change which takes great quantities of people out of the body only takes them where they cannot fight for a while. In the World War, both sides hated the men they were sent against, and also the governments that sent them, because of being sent.

Never consider anything in the world but the "Great I AM Presence." *Watch and govern your feeling, for if you do not, it will lead to a point where it will catch you unawares*.

Many times, the student who knows the Law, when something comes up and he is disappointed, should turn to the "I AM Presence" immediately and ask what is to be done; but instead he so often holds the attention on the disappointment, and then it sometimes almost takes an earthquake to shake him loose from it.

Take the Statement: "This resistance must give way, and the sight and hearing must come through."

Take the firm Statement: " 'I AM' the Presence of your Perfect sight and hearing" to heal those

conditions. Each should take the statement: " 'I AM' my Perfect sight and hearing."

The Arabian Nights' Tales: They originally came from the Masters, who gave them out as a veiled Truth to help humanity, and those who believed them through faith received marvelous manifestations.

In the beginning of these marvelous experiences, there must be faith to tide over, until we can manifest the Reality, for faith is the Sustaining Power, and if we can keep it generated, it becomes Reality.

There are always the two activities of the Law when you get deep enough into the action of it. They are: first, condensation, and second, etherealization. Go serenely along, and do not let time, place, nor things interfere. The outer mind must be calm and steady, and the outer and Inner Will must become one. As the attention is fixed on it with firm determination, more and more of the Inner Operation is revealed, until you can consciously manipulate it.

BENEDICTION: Presence of Meru, Nada, and the Great Ascended Host, we give praise and thanks for Thy Radiant Splendor, for Thy Wisdom, for Thy Substance which Thou art generating to make visible. We give praise and thanks that Thy Great Wisdom and Intelligence are ONE with the "Great I AM," which "I AM," ever bringing more of Itself forward into conscious action. We give praise and

thanks that in the acknowledgment of the "I AM Presence," we have the Key to all things visible and invisible.

DISCOURSE XVIII

December 1, 1932

SAINT GERMAIN

INVOCATION: Thou Mighty, Illumining Presence which "I AM"! in gratitude and praise, we enter into the Fullness of Thy Presence today; and forever receive Thy Limitless Blessings, Thy Strength and Courage, Thy Joyous Enthusiasm, all of which is Self-sustained.

We know there is but One Presence! "I AM that Presence" of all Activity, all Wisdom and Power, and in the Freedom of that Mighty Presence we stand serene, unmoved among all outer things which seem to point to the contrary.

"I stand serene in Thy Great Forever; I claim Thy Great Dominion in my place! I stand in the Radiance of God Eternal, ever looking Thee full in the Face."

I bring you Greetings from the Great Host, and also Their Blessings for the happy enthusiasm which has been entered into. We shall endeavor to sustain you in that joyous enthusiasm as the Hub of this Radiation, because all the students will feel and act It.

Far more has been accomplished this week than was anticipated, and We enter with you into the great rejoicing. The loving blessing of each student

unto the other is most commendable, and this simple thing will open the door, oh so wide! to receive the fullness intended for them.

THE DISCOURSE

I would be so pleased to have every one of the students, just at this time especially, use the Statement, with all the enthusiasm they can command: " 'I AM,' 'I AM,' I know 'I AM' the use of God's Limitless Opulence."

Here I wish to explain that when there is a group of students in accord, working from the same principle, and they use this Statement, they not only bring into their own world and use this Great Opulence, but they bless their associate students with the same thing, because " 'I AM the Presence' in each one." This is the mighty power of cooperative action which everyone should use.

The students who maintain a loving blessing to each other are really held in the "Embrace of the Great 'I AM Presence,' " and when they acknowledge Its action, they are commanding the same blessing and action for the other students that they are for themselves.

This is the correct attitude to be sustained, and if maintained sincerely in the heart of each one, no one within this Embrace will want for any good thing; but the student who allows any feeling to remain of unkindness to the others will shut himself

away from this Great Radiance and Blessing.

Now let us enter into the keynote of what you touched this morning–the simple understanding of God's Will and free will. God's Will is the Opulence of Goodwill–the birthright of every one of God's Children.

When you are reaching to the Light in the use of the "Mighty I AM Presence" with sincerity, it is not possible for you to do otherwise than call for God's Will to be done. As Children of God the Father–who has given His Children free will that they may choose–they must understand that it is for them alone to decree what shall act in their lives and world.

Having free will, the student must understand that God can only act in his Life and world according to his conscious direction.

God is the Principle of all Life, and each Child of God is an individualized, conscious, active part of that One Great Principle of Life and Love and Power.

God has given into the keeping of every one of His Children this Marvelous Consciousness, which is Omnipresent, eternally elastic, as it were, which can be drawn into a focal point to write with the Pen of Light, or expand to encompass the earth.

Consciousness is always subject to direction through the use of the free will.

The most unfortunate understanding established by the orthodox idea that God acts of His own

Free Will in the Life of the individual or a nation, is positively *not true*. God can only act through the mind of His own individualization, which is clothed with the personalities that you see about you. These personalities are but vehicles of use and expression of this Mighty Individuality–which is God's Will and your free will–and it only comes into use by your conscious direction.

I say to you that every function of your body is sustained through conscious action, although you are not aware of it; but as you reach deeper and deeper into the *Consciousness* of the "Mighty I AM Presence," you will come to understand that it is impossible for any outer action to take place without Self-conscious action.

A simple proof of this is what any of you may test at any moment: I wish to do some physical act. Preceding that activity, there always comes the thought to do it; otherwise the hand or body would not move in action. That which people have chosen to call involuntary action is the thing that has mystified their understanding of their own Being.

The students should take this humble explanation and meditate upon it often, for it will clear the mind of any obstruction. You are Self-conscious, Free Will, Acting Beings.

This is really of vital importance to these blessed, earnest students. I love every one of them, both

men and women, even though the ladies' husbands might object.

In both of your classes this week, the *Individualized Presence of Jesus the Christ* stood in your midst. At ..... , in the form of "The Tree of Life," each student being a branch. At ……. , from His "Pillar of Dazzling Radiance," within which was His Visible, Personal Form. At ……. , His Form was within the "Tree of Life," but not visible–not to mention others of the Ascended Host who were present. There were also Nada, Cha Ara, Lanto and Myself.

I wish to say to that class of blessed boys with the one pink rose in their midst, that I joyously hold them all in My Fond Embrace, so they may use and inhale the Radiance of My Being. They have Freedom and Dominion within their grasp, if they will hold fast to these Instructions and apply them.

Further, I wish the students to understand that the Stream of Life flowing through the mind and body always comes into them pure and unadulterated, containing within It all the strength, courage, energy and wisdom that can ever be desired; but by the lack of control of their thought and feeling, they are unknowingly requalifying this Pure Essence with the outer ideas upon which the attention has been fixed.

To form the habit every moment the mind is not otherwise occupied of being Self-conscious that: " 'I AM' the only Intelligence acting," will

keep that Mighty, Wonderful Stream of Life from being discolored, and I shall say disqualified, by the wrong conceptions of the outer activity of the mind. This is the simple secret of really all Perfection–if one can but comprehend it.

This Great Life comes into everyone's use Pure and Perfect, but through lack of understanding, the outer mind is constantly requalifying It with discordant conceptions, and thus human beings change Its otherwise Perfect Action into that which they find expressed in limitation and discord in their outer activity.

This should make clear to the students the simple activity which they should Self-consciously maintain in order to keep this marvelous, Perfect Life that is constantly flowing through their minds and bodies in Its Pure, Fragrant State; for I tell you truly, that those who will follow and maintain this idea will find the emanations from their own bodies becoming rarer than the lily or the rose. Further, in the consciousness of this Perfection which is constantly flowing into their use, they can know It as Perfect health and beauty of face and form, until Its Radiance shines forth like the sun.

O Beloved Students! When it is so simple, requiring so little consciously sustained effort, is it not worth all it requires on your part to enter into the Fullness of this Life Stream and receive Its Fullness and Blessing?

In the Oriental activity there was a secret society–in fact, it began in China–maintained gloriously in the Light until the one then in charge at the head of the order, thought, in one of the war ravages, that his daughter whom he loved so deeply, was killed by an Englishman–which, however, was not the case. But it brought about the breaking up of the order, and the pictures of "Fu Manchu," of which I think there have been four produced, are the picturing of this to the outer world, *showing how the "Light" may be distorted by something starting the feeling of revenge.*

This one known as "Fu Manchu" was, at the beginning of that activity, a wondrous, beautiful soul; and it shows how sometimes the ravages of war and the lack of control of the thought and feeling in the individual bring about such distortion in the Life Stream.

In connection with the South American Activity, which the present work has drawn joyously to Their attention: until this Focus of Radiation began, it was doubted by most, except Nada and Myself, the possibility of establishing such a Focus in this busy Western World; but They did not know what I did, the fact of our long association not having been revealed to Them. So I said on My own Responsibility:

"I shall try it out."

Now I have the full cooperation of all who might

have questioned. The Master from Venus and Lanto also stood with Us. I said to Them: "The time has come when there are those outside of the Retreats who can be made True Messengers of the Light." Thanks to you, I have been proven right. Now, of course, I ask you all to stand with Me in the sustaining of this.

It proves that it is possible to establish this Mighty, Active Presence in the midst of a hailstorm. I have always maintained this, and most of the time I have stood alone; but the ability of the students to grasp the use of the "I AM Presence" is making tremendous things possible; and I say sincerely for your encouragement, that with this marvelous condition maintained which has come to this point, it is not impossible to have various Ones of these Ascended Beings sit in your midst–as visible as your own physical bodies–and speak to you.

This is not just a matter of the desire of the students for it, but rather the preparation of the students for it. Until recently, of course, this good Brother has not known it–but for thirty years he has been being prepared for it. Half of that time your (Mrs. G.W. Ballard's) preparation was going on in the invisible, and it has been a remarkably beautiful thing to all who have observed it.

Q. The other night while in deep meditation, I heard the words: "into the City of Delhi."

A. Which really means "into the City of Light."

Q. On Monday, November 29, 1932, I heard, in the morning before the Discourse, and again today before the Discourse, the Words of Jesus: "Ye have been with Me in my sorrows, ye shall now behold Me in My Glory, and see the reward which My Father doth give Me."

A. And so shall it be in your outer experience.

The very Words which Jesus used from time to time, all may use—and will use sometime, somewhere with fulfillment—for the Words He used at all times were "Life" and contained within them that Ascended Life, or Perfect Life.

Q. How is the political situation?

A. There will not be nearly so much accomplished by the element that sought entrance as they anticipated. The old saying that if you give a calf rope enough, it will hang itself, is true with certain forces. Sometimes when they think they have won an easy victory, they have sounded their own death knell.

The accomplishment of the past few days drew the attention of many in the Golden City, who, as We projected the Vision and Sound Rays today, came to look and behold the accomplishment. I say this for the encouragement of the students: While We are giving forth the Work today, Those in the Golden City are sending forth to the students Their Glorious Radiation.

It has been a great joy to Me to prove that in the Land of America for which I have worked so long that there were those who could receive what you are receiving and giving forth at this time. There are those Masters from Venus who have seen this with Me for some time. The Kumaras' Field of Action was in other ways, but They are now observant of this accomplishment.

There is no radiation goes forth anywhere in the Universe except through conscious projection. The Radiation projected from the stars, so-called, to our earth does not and cannot come into contact with the earth without the conscious direction of the Cosmic Being who is the Conscious Directing Presence of that star or planet. This conscious direction is what makes the Radiation from one planet to another reach its destination; but the Radiation thus directed does not carry any adverse aspect to any individual there.

The Universal, Cosmic Laws of the earth, which impel growth through the law of experience, hold within themselves that which you know as resistance. If there were not that which the individual knows as resistance, he would not make conscious effort, and this would make it impossible for advancement in understanding, or the return to the Father's House from which the children of earth have strayed.

Resistance has nothing whatever to do with discord. *Resistance is a Natural Law. Discord is a human*

creation. There is no discord in the Universe except that which the personality creates.

Take the dynamic consciousness: " 'I AM' the Pure Mind of God in everyone present here." *This shuts out human desire*.

Take the consciousness: " 'I AM' the governing Presence of this." The desire first comes in the mind, and if you take the consciousness: " 'I AM' the Pure Mind of God," it consumes the thought and keeps the human mind clear from the desire entirely.

When the liquid precipitates in the hand, instantly qualify it as Liquid Light, and it will manifest as That. Give the command for that quality before beginning the precipitation.

One student should not expect to see the same activity as another; the students are not supposed to see or feel alike.

There is not a moment in the day that we do not visualize something, because the power of vision is acting all the time. Keep all out of the mind except the picture you want, for that is all with which you are concerned. Do not let the attention become focused on the seeming emptiness.

BENEDICTION: In great devotion, in the fullness of our Hearts of Love, in the fullness of our adoration to the "God Presence which 'I AM' "–the Ascended Jesus Christ–we pour forth our Gratitude

and Praise for the sustaining Presence, the good of every description held within this Radiance of which we are receiving hourly. Thou Mighty Presence! As we find ourselves held within Thy Mighty Embrace, we become imbued with Thy Radiant Intelligence, Thy Marvelous Strength, Thy Invincible Courage to hold constantly within Thy Mighty Light. We thank Thee.

DISCOURSE XIX

December 5, 1932

SAINT GERMAIN

INVOCATION: Thou Majestic Presence of the Ascended Jesus Christ! Thou Who hast gained Thy Eternal Dominion over all things, Thou Who dost rest serene in the Heart of the Eternal Father, pouring forth Thy Wondrous Radiance, enfolding all mankind! We give praise and thanks to Thee. Our hearts fill with great rejoicing that the Ascended Host with Thee see and manipulate the dawning, Eternal Light for the Blessing of humanity.

Through His own Personal Ray, Jesus will now speak His Wish to the students:

THE DISCOURSE BY BELOVED JESUS

When I said: " 'I AM' the Open Door which no man may shut," I meant humanity to understand, I referred to the "Great I AM," which is the Life of every individual manifest in form. I did not wish to convey that the personal Jesus was the only one to whom this great privilege was ordained. Each one of you beloved children of the One Father has the same Mighty Presence within you, the "Great I AM," that I have, and that I had at that time, by which I achieved the Final and Eternal Victory.

Here I wish you to understand for encouragement, strength, and certainty in your minds, that the Consciousness I used for this Great Victory was the use of the "I AM Presence" which you are being taught. I had made search through all the avenues available at that time, and at last the determination and desire for the Truth led Me to the Great Master whom you shall one day know. He gave to Me this Inner Secret and Mighty Acknowledgment, turning Me to that "Mighty Presence, the 'Great I AM.' " Through His Radiation, I was able to comprehend, and at once begin using It. This is the only way by which any individualization of the Ray of God may achieve the Eternal Victory and build his structure upon a firm foundation from which no outer activity can ever disturb him.

At this time I wish to convey the simple, all-powerful use of this Presence to you. All who have achieved the Mighty Victory and who have been able to raise their bodies as I did, *or who raised them before*, have used the conscious activity of that "Mighty, Eternal Presence–'I AM.' "

When I said to My Disciples and to humanity: "The things that I have done shall ye do also, and even greater things shall ye do," I knew whereof I spoke, knowing that within each individualization, or Child of God, there was this "Mighty I AM Presence" by whose use you are impelled forward

with no uncertainty. I say, "impelled," because I mean just that.

The constant use of your "I AM Presence" does impel you forward in spite of any activity of the outer self. So long as this single Idea is held firmly, storms, distress and disturbance may rage about you, but in the Consciousness of the "I AM Presence," you can and are able to stand serene, unmoved by the seething vortex of human creation which may or may not be about you.

There is but one way by which you and the Father may become eternally one, and that is through the full acceptance of His "I AM Presence," Energy, Love, Wisdom and Power which He has given you–golden links, golden steps, by which you climb serenely upward into your final Achievement.

Sometime, somewhere, every individualization of God the Father, must find his way back to the Father through his "I AM Presence," fulfilling his cycle or cycles of individualizations in the use of the activity of the outer self. The earth is the only sphere in which there is the density of the atomic structure that you experience. The conscious recognition and use of the "I AM Presence," which you are, steadily raises the vibratory action of your atomic structure, unclothing and liberating the Electronic Activity which is hidden within the atom, enabling you to become Self-luminous Beings.

I wish it here distinctly understood by all who may receive this or ever contact it, that I am not and never was a Special Being created of God different from the rest of humanity! It is true that I had made previous conscious effort and had attained much previous to the embodiment in which I won the Eternal Victory. My choice of experience two thousand years ago was to set the example which every individualization of God would and must sooner or later follow.

How I urge you, Beloved Children of God, to look upon Me as your Elder Brother–one with you. When I said, or left the Word that: " 'I AM' with you always," the "I AM Presence," which "I AM" and which you are is One. Therefore, do you not see how " 'I AM' with you always"? *Think deeply on this and try to feel its Reality.*

At the time and after My Ascension, I saw the immensity of the Radiation I would be able to pour forth to My beloved brothers and sisters upon the earth from the Sphere in which I had become fitted to dwell. I wish to say to you in all Truth: every individual who will send his conscious thought to Me with the desire to be raised above the limitations of earth or of his own creation, and will live accordingly, will receive every Assistance from Me that is possible to be given–according to the steps of growth in consciousness which he attains from time to time.

Do not misunderstand Me at this point: when

I refer to growth, I am speaking of humanity in general. I do not refer to some who have previous attainment sufficient which, in their present use and full acceptance of their "I AM Presence," they may rend the veil of human creation and step forth into the "Embrace of the Ascended, Blazing 'I AM Presence' " at any time. There are some in the group of students already drawn together for whom it is possible to do this. That depends entirely upon themselves–upon the calm, poised intensity by which they become conscious of their "I AM Presence."

These great tidings I bring to you because I proved them in My own personal Experience.

Before I became fully decided in what manner I should leave the example to humanity, I suddenly, from an Inner Impulse, began to use the Statement: " 'I AM' the Resurrection and the Life." Within forty-eight hours after I began using that Statement, with great rejoicing, I saw what was to be done; and I wish to assure you that it was the conscious use of the Mighty Statement: " 'I AM' the Resurrection and the Life" which enabled me to make the Ascension in the presence of so many; *and imprint, or record upon the etheric records, that Example for all humanity which will stand eternally present.*

It was unfortunate that the veil of the orthodox idea was drawn over the minds of the people, preventing the comprehension that each one had

within himself the "I AM Presence"–the same as I had–by which he could attain, do the same things I did, and win the Eternal Victory.

Such, Beloved Students, is My Personal Message I leave with you, spoken through the Light and Sound Ray into which any of you may enter, see, and hear with sufficient conscious preparation.

Again, I urge you to think of Me as your Elder Brother, ready to give you Assistance at all times. Do not think of Me as a Transcendent Being so far beyond your reach that contact is impossible; for the "I AM Presence" which enabled Me to make the Ascension is the same "I AM Presence" that will enable you to make the Ascension as I did; only today, you have the Assistance of the Great Ascended Host of Beings who have won the Eternal Victory and joyously stand at your service as you make yourselves ready.

With My Love I enfold you. I again repeat: " 'I AM' with you always."

Saint Germain: "Did I not have a surprise for you?"

BENEDICTION: Into the fullness of Thy Mighty Silence, O Great Presence, we come to rest, to feel Thy Peace, to love Thy Harmony pervading all. O Mighty Love Presence which beats the hearts of all mankind, strengthen Thyself within their hearts; draw

and hold their conscious attention upon Thee, the "Great Love Star" in the heart of each one; glorify Thy Presence and Thy Creator in them; bless all mankind with that strength to look only to Thee, and to stand steadfast facing Thee.

DISCOURSE XX

December 8, 1932

SAINT GERMAIN

INVOCATION: Thou Mighty, Invincible "I AM Presence"! Speak Thyself into the hearts of the children of men! Fill their hearts and minds to overflowing with the Magnificence of Thy Presence, with the conscious strength to look to Thee and know Thee as "the One," the Mighty, Eternal Source of all things by which the consciousness of mankind is sustained. Make them to know Thy Great Ownership, that it is Thee alone who art the Owner and Giver of all things, that they may thus manifest unselfishly one to the other. We thank Thee.

I bring you Greetings from the Great Host, who are ever pouring Their Radiant Presence into your lives.

THE DISCOURSE

It is with great rejoicing that the many who have been observant of this accomplishment see how truly the students are entering into the "Mighty I AM Presence"; and how the things that have been disturbing are being dissolved and are

dropping away as though they never had been.

Beloved Students, can you realize how great Our Rejoicing is? We have trod the pathway of attainment into that Great Freedom of Mastery over all limitation. We rejoice to see you entering into this Presence which, if maintained, will bring you certainly and surely to this same Freedom. It is only when the outer becomes sufficiently obedient, giving all power to the Great Inner Presence, that one finds peace and rest in this Mighty Acknowledgment.

In that peace and rest flows a Mighty River of Energy, like a mountain stream flowing through a fertile valley, lined with flowers and perfect vegetation.

So in the Peace that passeth understanding do you move more and more, finding that Eternal River of Energy flowing into and through your Being, spreading its blessing and opulence into your Life and experience everywhere you go.

While it is true that the intelligence is the channel through which you must receive, yet as you *feel* with deep sincerity the Truth of the "I AM Presence," you will find the stillness becoming greater and greater, until one day: "Thou shalt see the door of thy creation open wide before thee, and thou shalt step forth with open arms into that Freedom, inhaling the Fragrance of the Pure Atmosphere of the Etheric World, wherein thou wilt be able to mold that plastic substance into the Perfection of everything upon which thy desire

is held."

You are making such splendid progress; do not let any fear of persons, places, conditions or things interrupt or disturb you, for the "Presence of the Light" stands before you, beckoning you on, that you may be held in Its fond embrace, receiving of Its boundless riches of every description which It holds in store for you.

I shall now say something which may seem astonishing, but I assure you, it is very true. Last night as the question was asked–had you all been together before–I wish to say that it would not have been possible for you to have been drawn into this intensified Action of the Great Inner Law if you had not previously had harmonious association and training. While it may be difficult at first for you to comprehend it, you are receiving intensified training which heretofore has only been given after a three year probation in the Retreat. Some of you have stored-up treasures of Energy. I mean by that, energy created by your conscious activity through your "I AM Presence." Others have stored-up treasures of Light. Again, others have treasures of Love. Others have gold and jewels which were placed in keeping to be used in this embodiment. Several of you are on the point of releasing into visibility–into your hands–these stored-up treasures. Do not think I have gone into fancy daydreaming, but I am calling this to your

attention for your benefit and blessing.

I wish each one of you to go by yourselves sometime during the day for at least five minutes and talk to your "I AM Presence" something like this: "Great Masterful Presence which 'I AM'! I love, I adore Thee. I give back unto Thee the fullness of all Creative Power, all Love, all Wisdom, and through this Power which Thou art, I give Thee full power to make visible in my hands and use the fulfillment of my every desire. I no longer claim any power as my own, for I now claim Thee, the Only and All-Conquering Presence in my home, my Life, my world and my experience. I acknowledge Thy Full Supremacy and Command of all things; and as my consciousness is fixed upon an achievement, Your Invincible Presence and Intelligence takes command and brings the fulfillment into my experience quickly–even with the speed of thought.

"I know that Thou art ruler over time, place and space. Therefore, Thou requirest only *now* to bring into the visible activity Thy every Perfection. I stand absolutely firm in the full acceptance of this, now and forever, and I shall not allow my mind to waver from it, for at last, *I know we are One.*"

Beloved Students, you may add or weave into this anything else you wish for your requirement; and I assure you, if you can live in this–and I shall endeavor to help you do so–you will experience the

opening of the floodgates of God's Abundance.

I think here that I should explain to you: the most important, the most desirable thing that anyone can do is to fix within his or her mind the one, permanent necessity, and that is *to keep at it until one reaches so deeply and firmly into this "Mighty I AM Presence," that all Love, Light, Good and Riches flow into his Life and experience by an Inner Propelling Power that naught of outer personalities may at any time, anywhere, ever interfere with.*

This is the object of true training. This is why students were brought into the Retreats as they could be found ready, or sufficiently progressed, because, as I have said before, it is easy enough to solve your problems as they come along; but I ask you, what good does it do to continue to solve problems unless you have something, somewhere, to which you can anchor that raises you above the consideration of any problem?

To find your "I AM Presence" and anchor to It is the only desirable thing to do. Until you come to this point of firm anchorage to your "Great I AM Presence," of course it is necessary to solve your problems as they come along; but how much better it is to enter in and set free that Mighty Presence, Energy and Action which has already solved the problems before they appear to you. Is this not more acceptable than to awaken every morning and find these problems

coming up–staring you in the face–as though they were something really important, which, after all, they are not? Yet I am sure you will agree with Me that some of them or at least your outer sense about them, is that they are tremendously ponderous.

With your glorious obedience to the Divine Principle of created Beings, you shall move along the pathway with your Armor of Invincible Protection buckled on, until the intensity of the very Light that you enter into will no longer require the armor.

Is this not worth all the effort it takes to accomplish it, that you may ever move in this Glorious Freedom? Then when you awaken in the morning, you will no longer find these visitors appear.

As I have spoken these Words, I have held you, each one, in the Searchlight of my Vision, even without your permission, so that when you hear these Words you will feel the Inner Conviction of them with a strength which will delight you.

When critical or disturbing thoughts try to find entrance into your consciousness, slam the door quickly and command them to be gone forever. Do not give them a chance, nor time to gain a foothold, remembering always that you have the Strength and the sustaining Power of the "Mighty I AM Presence" to do this. Should you have difficulty in holding the door shut, talk to your "I AM Presence" and say: "See here! I need help! See that the door to this disturbance

is closed, and kept closed *forever.*"

I want you to get fixed in your consciousness that you can talk to your "I AM Presence" the same as you could talk to Me, believing that I had Limitless Power, because I tell you, it is no idle comment when I say *you can cause this Mighty Presence to handle every condition in your entire experience and raise you into Its Freedom and Dominion of all things*.

As some of you have already reached into the activity of the Universal Substance, I want to call the attention of all of you to the fact that the substance of your bodies and this substance, seeming to be invisible about you, is immensely sensitive to your conscious thought and feeling–by which you can mold it into any form you wish.

The substance of your body can, by your conscious thought and feeling, be molded into the most exquisite beauty of form–your eyes, hair, teeth, and skin made dazzling with radiant beauty. This should be very encouraging to the ladies, and I am sure will be to the gentlemen, only they do not like to admit it.

Beloved Brothers and Sisters, when you look into the mirror, say to that which you see there: "Through the Intelligence and Beauty which 'I AM,' I command you to take on Perfect Beauty of form, for 'I AM' that Beauty in every cell of which you are composed. You shall respond to my command and become radiantly beautiful in every way, in thought, word, feeling and

form. 'I AM' the Fire and Beauty of your eyes, and I carry forth this Radiant Energy into everything into which I look." Thus you can cause to come into appearance the Perfection which will give you all the encouragement you want, to know that " 'I AM' always the Governing Presence."

I wish to say to you who desire your forms to become more symmetrical: start your hands at the shoulders, and bring them down over the body to the feet, feeling the Perfection or symmetry of the form you wish. Through your hands will go the energy or quality which you desire to manifest. If you will try this with deep, earnest feeling, you will be amazed at the result. This is the greatest reducer in the world. This, I assure you will cause the flesh, as it comes into more beautiful symmetry and Perfection, to become firm and yet supple in every way, because you are sending the energy of the "I AM Presence" through these cells, causing them to obey your command. This may sound ridiculous, but I tell you, it is one of the best, surest and most perfect ways to bring about the Perfection of the body. I tell you, anyone who will practice this will bring the body into any condition that one desires.

I want the students to get the fullness of the idea that they are masters of their forms, their minds and their worlds, and can inject into them whatsoever they wish. The Pure and Perfect Life of God is

flowing through you every instant; why not switch off the old design and switch on the new? Do you not see how important it is to perfect the body?

What can the Inner Presence do with a body that is sick or out of harmony all the time? When this is the case, the attention becomes so fixed upon the body that the "I AM Presence" cannot get the attention but a little part of the time. It is so easy, if you will but do it. With this treatment of the flesh with the energy of the "I AM Presence," it becomes firm and Perfect.

The reason I speak of this with such deep, earnest feeling today is because I see the change and improvement in almost everyone; and by special conscious attention directed to this, how much more quickly will each be brought into the Perfection which he desires.

When an individual has an abnormal abdomen, *and anything that is more than straight is abnormal,* he should raise the left hand in this position, palm up, move the right hand in a rotary motion over the abdomen, moving from left to right. Each time the hand passes over it, feel deeply the absorbing activity.

The quick charge of energy through the hand goes into the cells, contracting and reducing them into a normal condition. I assure you this Instruction is no idle fancy, but is of tremendous import, and It will accomplish the purpose for which It is used, absolutely

without question–if applied with earnest feeling.

The consciousness, of course, should be that *the energy flowing through the right hand is the All-Powerful, Absorbing Presence, consuming the unnecessary cells and bringing the body into a perfect, normal condition.*

This will not only adjust the abnormal size of the abdomen, but will penetrate through the form, charging the intestinal activity with a cleansing, purifying process which will be of inestimable benefit. Those who have found the activity of those organs lazy will find them quickened into normal action. I assure you that the ladies will not need to use rolling pins or roll on the floor; also I assure you the ladies are not the only ones who use rolling pins.

The unfortunate, almost appalling condition is that individuals, having within them this Mighty God Presence, will give every imaginable power to outside things to produce results within and upon themselves, when whatever remedial agent they use, whether exercise, drugs, or anything else, has little effect, if any–except the quality and power they have consciously given these agents. This treatment acts upon the cells wherever they are, be they bones or flesh.

How prone the outer mind is to question the ability of this Inner Self to handle any part of the body. If It will handle one kind of a cell, It will handle all. Make the outer accept the Full Power of the Inner Presence,

and thus let It expand into use in all things.

The outer mind, through long habit, has given enormous power to drugs and remedial agents of every kind; but do you not see that the only thing that does it is the power and authority you give it to have an effect upon your body? I do not mean for a single instant that individuals who have not become aware of the "I AM Presence" should cease all remedial agents; but if they will fix in their minds firmly that *no outer thing has any power in their experience, except what they give it*, they will begin to rise out of the limitations into which they have placed themselves. Here let me say that ninety percent of the power given to outer things is unconsciously given, and even most students are not aware of it.

Now to turn about and give this Great God Presence within you all power to do the things you require and wish to do will accomplish them with a speed and certainty far beyond what any outside remedial agent could do. Some will grasp this idea with tremendous tenacity, while others will require more effort; but it is surely worthwhile making any effort to accomplish it.

Remember, the "I AM Presence" knows all things for all eternity, in all ways–past, present and future–without limit. If the student would think of this Great Presence, contemplate It, and know that It is all Love, Wisdom and Power, then

when he fixes his attention on something to be accomplished, he knows this Presence is the open door, the All-powerful accomplishment, and It cannot fail.

Call on the Law of Forgiveness, and direct the energy of the Master Self to correct and adjust the wrong, and in that way, obtain freedom from its reaction. You see, My Dear People, that *there is so much unnecessary power given to the outer activity and stress of things which the "I AM Presence" cares absolutely nothing about*. It is at no time concerned with the mistakes of the outer self. If the individual but understood that he could turn away from all these discordant activities and give the "Master I AM Presence" *Within* all authority and power to dissolve and dissipate the wrong condition, he could never in any way feel the reactions from his wrongdoing.

When the individual allows himself or herself to continue to criticize, condemn or judge another of his fellow beings, he is not only injuring the other person, but is *unknowingly admitting into his own experience the very element that he is seeing wrong in the other person*. The true understanding of this will make it easy for individuals to forever cease such undesirable activity–when they know that it is for their own protection.

Let us put it in another way. Whatever the conscious attention is fixed firmly upon, that quality is impelled into

the experience of the individual. Whatever an individual sees with deep feeling within another individual, *he forces into his own experience*. This is the indisputable proof of why the only desirable feeling to be sent out from any individual is the Presence of Divine Love–and I mean by that, Pure, Unselfish Love.

Students ofttimes wonder why they have so many conditions in their experience to handle as they become more and more sensitive. It is because they see an appearance which they have been taught to know is not real, and by allowing their attention to become fixed upon it, they not only invite, but *force* it into their own worlds, and then have a battle in order to clean house. This can be avoided by instantly taking the attention off the appearance and knowing: " 'I AM,' 'I AM,' I KNOW 'I AM' free from this thing forever–no matter what it is."

This all comes, of course, from a lack of Self-control in the individual, or an unwillingness to use that Self-control to govern the outer. There are these two distinct conditions with students: one is willing enough to make the effort, but unknowingly allows his attention to become fixed on the undesirable things. The other one, through a quality of stubbornness, is unwilling to make the necessary effort to conquer it.

No teacher should at any time hold a thought of criticism about any student, for if he does, he will invite that same criticism unto himself. If students

get the right idea about this, they will stop it for their own protection.

If one keeps silently seeing a discrepancy in another, it is even worse than the spoken word, for it allows the force to accumulate. When discrepancies are forced upon your attention, simply say to your "I AM Presence": "There is the 'I AM Presence' within that person, and with the human I am not concerned." *It matters not whether it is a person or inanimate object, the moment you see an imperfection, you are forcing that quality into your own experience.* This is so important, it cannot be stressed enough.

Your first consideration should always be to your own Divine Self–adoration to It always. This gives you the opportunity and strength to rise to the height where you can give help to thousands, where now it can only be to a few.

No amount of service can be of any permanent benefit unless the individual first accepts and gives adoration to his own Divine Self, the "Mighty I AM Presence." Those who want to serve the Light and really do good should understand this clearly.

When students say: "If I only had the money, what good I could do," it is exactly the reverse thing that they ought to do. If one will enter into the "I AM Presence," he will have all the money he wants, and it cannot be kept away from him.

Take the stand with everyone: "There is only the

'I AM Presence' acting there in that person."

It is much better not to touch upon a thing than to give an insufficient explanation.

All outer experience is but a discipline. For those who are coming into this Work, the present training is really a finishing school or experience; and that is why some of them feel it is a little strenuous. All the Ascended Host feel with great Joy the Love and gratitude poured out to Them, and of course They respond almost without limit.

" 'I AM' is all there is, everywhere present, visible and invisible."

The consciousness most needed for each individual will come from time to time as the students continue in the use of this. Do not let yourselves strain after *things*. Just take the calm, certain attitude of the Ascension. Calmly, quickly, lovingly accept It, and just Be. This avoids tension. Nothing is more powerful than this.

BENEDICTION: Thou Mighty, All-Pervading, Infinite Presence, "I AM"! We give forth our Gratitude to Thee that we have found Thee, that we acknowledge Thee, the All-Powerful Creator, making Thyself fully visible in our every need, in our full Illumination, in our full Mastery and Dominion over all outer things. We thank Thee that Thou art the All-Pervading Presence, and

that Thou dost, with Thy Strength and Wisdom, impel Thy Perfection everywhere.

DISCOURSE XXI

SAINT GERMAIN

INVOCATION: Thou Infinite Presence! expressing Thy Perfection everywhere, we welcome and praise Thy Perfect Manifestation in our lives, homes, and worlds, that Thy Radiant Light may forever consume everything unlike Itself, that Thy Wisdom may always direct, Thy Love always enfold, Thy Light always illumine Thy Perfect Pathway, and that Thou dost hold us firmly in Thy Glorious Radiance, now and forever.

I bring you Greetings from the Great Host, with Their Joy and Love for this cooperation, and for that which can but bless, illumine and awaken.

THE DISCOURSE

Oh that students, or any individuals who know of the "I AM Presence," could but realize that there is no greater consciousness, no greater activity the conscious volition can set into action than the recognition and acceptance of the "I AM Presence."

No matter what the angles of Truth are from the thousands of avenues by which mankind reaches out to gain greater and wider understanding, every one leads to This which you now have the gracious privilege of knowing and understanding and using.

Any kind of knowledge or power is absolutely worthless unless *used*. Those who will apply and enter into the use of the "I AM Presence" with *deep feeling* will see and feel within their own Beings, as they again come in contact with other channels of understanding, how transcendent the knowledge of the "I AM Presence" is in comparison with all other ideas of Truth.

"I AM" holding fast to this idea for the students' sake, so they grasp fully the Mighty Truth, that when they say: " 'I AM' whatever I wish to be or manifest," they are actually setting into visible physical activity the Mightiest Presence and Power of God which "I AM." This differs from any other Statement that was ever put into a group of words.

There is no other Statement or group of words in existence that actually sets such power into motion to accomplish any given purpose to which the conscious attention is directed as does this Mighty Expression. This is why Jesus the Christ coupled It with the most important Statements that He made. If the students of this Radiation will meditate or contemplate the Statements that Jesus made upon His own Ray to them, it will help them to grasp the fullness, the stupendousness of this more readily.

I wish every student of this Radiation to fix firmly in his mind that *concerning these Instructions, there may at no time be a charge ever made for Them*. The

student is always free to make Love-gifts as his heart directs, but to make a definite charge–under the Law by which these Instructions are given–would close the door immediately. Just the reason for this I may not explain to you at this time. It is not that the laborer is not worthy of his hire, but this Work comes under an entirely different Activity of the Divine Law, which I will one day explain to the students.

Feeling as I do the earnest, most worthy desire of some of the students to come physically within this Inner Circle, or Radiance, so to speak, I shall endeavor to explain how it is not possible to be done–beautiful and loving as the desire and radiation of the beloved students are. This Beloved Sister and Brother have gone through thirty years of strenuous, conscious preparation for this Work. The Electronic Circle within which this Radiation must focus would have to be entirely rearranged and readjusted. It might require some years to again bring it to this point–lovely and beautiful as the radiation of the others is.

Each individual has his own distinct radiation and vibratory action. While the invisible mechanism, shall I call it, for this Work is in one way very powerful, yet in another way, it is as delicate as a gossamer veil.

I assure you, Beloved Students, that either My Personal Presence or My Consciously Directed Ray is always present whenever either this Beloved Sister

or Brother is giving forth these Instructions. Here let Me urge you that at no time is it wise for any student under this Radiation to give forth verbatim these Instructions to one who is not yet under this Radiation. Extracts, verbal or otherwise, may be given forth for the help of others, but We do not wish anyone to be so unfortunate as to say he is authorized to give this forth when he has not had permission to do so.

This channel must always be kept clean, pure and unselfish, and these Instructions may not be commercialized at any time. The application within the Instruction which is given from time to time, if used sincerely, with true feeling and confidence in the Instruction, will cause the student or the teacher using It to become such an invincible magnet for the Opulence and Riches of God that there will be no need to commercialize the Instruction for the sake of a livelihood. For any individual–whether at first he has the full understanding of its meaning or not–who will be conscious that: " 'I AM' the omnipresent, limitless supply of God's Riches and Opulence in my use," will sooner or later come into the full conviction of this Mighty Truth.

I understand fully how important the financial support of the individual seems to him, but I say to you beloved students that financial support is always as the shifting sands until you begin to consciously apply the use of the "I AM Presence" as your

Omnipresent, Limitless Supply of either money, Love, Understanding, Light, or Illumination. So try to receive the full conviction of the Radiation of this which I give to you, that you may use It with a certain, unwavering consciousness which will give you *forever* your freedom from all financial strain.

Knowing that the "I AM Presence" which you have set or are setting in motion is the same in every other individual on earth as It is in you, and as It is in the Universe, giving you the power and intelligence to make this declaration, then you know that whatever your conscious application implies, It is acting everywhere, just the same as within the present application that you make.

Heretofore I have hesitated to give you this very definite application, or explanation of this application, but your earnest demand has impelled it forth. I send with this a certain specific Radiation which will enable you to use it with absolute confidence.

The student should always remember it is only by conscious effort that he can keep his mind at peace so this Inner Power may flow through unhampered to the accomplishment of his desire. As a child in school you were given certain problems to solve, for instance, we will say, in mathematics. At the same time you were given the means by which to accomplish it. If you did not make your application as directed, you of course would not receive your

correct answer. Consequently, you kept at it, kept trying and trying until your answer was proved. If you did not understand how to go about it, you went back to your teacher for instruction and found what was required. So it is in the Instruction which is now given you. This application never has and never can fail in the accomplishment of anything to which your attention is directed–if you will but continue to apply It with determination and stick to It until results are in your hands or presence.

Now here let Me call your attention to a most powerful Explanation which Jesus the Christ gave you in His own Words: that in all the teaching He received through the various avenues, and I assure you, some of them were very great, it was only His instruction, conscientiously applied, that finally brought to Him, or revealed to Him from Within, the many amazing, magical Statements, one of which was: " 'I AM' the Resurrection and the Life." It was this Statement which He used that enabled Him to give the example to humanity which will last throughout the centuries.

Whatever demand you make of the Universal, All-knowing Presence wherein you use the Words "I AM," it must bring the same definite, certain results that His Statements brought Him when He declared: " 'I AM' the Resurrection and the Life." Try earnestly to feel the mighty importance of this.

Here let Me caution and assure you with great

emphasis, that no matter who or what you are, what place you may be in from the growth standpoint, when you make application with the Words "I AM," you positively cannot fail to accomplish that to which you apply Them–if you will hold fast with unwavering determination.

Beloved Students, I feel the Great Love sent to Me and never fail to respond to it.

Always *first* give your Great Love and Adoration to your own "I AM Presence," the Master-Self, then to those who may be able to assist you. Many of you are making wonderful strides. Go forth with certainty in your hearts, always being aware: " 'I AM' the Conquering, Victorious Presence in any achievement I desire; that 'I AM' now the Full Dominion of every application that I make; that 'I AM the Presence' always within every demand, supplying, and fulfilling it."

There is no mental state that shuts the door against the very thing you are striving for like a feeling of distress about it. On the other hand, the proper attitude is to joyously take the stand that: " 'I AM the Presence' which enables me to see or hear with the Inner Sight and Hearing"; and at no time to let one's self become disturbed because another is using a faculty different from one's own, but rather rejoice in it.

The teacher or student should be quick to realize

that no ignorance of the outer activity of the mind should have any power at any time to disturb him, even though directed at him personally.

At all times, turn to your own "I AM Presence" and demand to know and see clearly the plan that you should follow.

The Masters' Pictures and the Instruction should be considered a sacred thing to the students. Adhere always to the time-worn Statement: "To know, to dare, to do, and to be silent," because when students begin to discuss these things with unsympathetic individuals, they scatter the force instead of holding it within for their own Illumination.

I say this with all the vehemence of My Being: let the student forever remember that it is impossible to have a selfish desire or intent when reaching to the "Master I AM Presence" for Love, Wisdom, Power and Illumination. As an illustration, I might say, and I am sure he will not object, that this good Brother is the only student I have ever known who has completely governed that impelling force to become a teacher–which always asserts itself somewhere along the pathway of the student.

It is not that the desire is an unworthy one, but in so many, many instances, the students, attempting it too soon–before they are sufficiently fortified *mentally*–meet with obstruction which they are not able to stand against, and they become permanently discouraged

from further effort, defeating the wonderful work that they might have accomplished later.

The most important thing in any student's Life is the Love and Adoration to his own "Mighty I AM Presence," with patience to the extent that he becomes so anchored in his Mighty Presence that he is always fortified by It.

An individual who is a stirring-stick can do more damage in one hour than you realize. Anyone whom you can once get to apply the "I AM Presence" earnestly will never backslide. "I AM" determined to keep the "I AM Presence" before the students so they realize that they are using a Mighty Intelligence, Power and Love–and that they are setting It into action.

Jesus came of His own Volition and gave to the students the Way He accomplished the overcoming of the last enemy.

It takes enormous strength to stand your ground. *There is nothing can give you permanent success in the outer activity except the conscious use of the "I AM Presence."* Stand adamant against the thing that would sway you off. Take the stand often: "I know what I am doing and I am doing it." *You may sometimes have to say very strong things in order to shut off interference, but do not be susceptible to it.*

Decide what you want to do and then say: " 'I AM the Presence' doing it." The use of the "I AM" prevents

the development of anything out of balance. "I AM" is the All-Balance, because It is the Power and Governing Intelligence of all Perfection. Its very *Activity* compels the Balance.

The "I AM" Command is the activity of the thing that is already there, impelling it into the outer activity. There are several in America now who, if they would take Jesus' stand: " 'I AM' the Resurrection and the Life," and live in it day after day, would raise the body as sure as the world. *You cannot use the words "I AM" with anything and not couple with it the power to do the thing.*

There are two things retarding to a student's spiritual growth. One is when the husband or wife does not agree with one's efforts, and the other is outside suggestion. *You have your "I AM Presence" which is All-Intelligence, so make yourselves adamant against suggestions of any kind—good or bad.*

Sometime We will devote an entire Discourse to the wise handling of the psychic. There is not one out of ten thousand who understands that the awakening of the sight into the psychic plane is *not* a spiritual thing. When people begin to see on the psychic plane, they are but using the physical sight a little expanded and do not know it.

In the psychic realm, the suggestions given offer just enough Truth to anchor interest and hold the attention, until psychic forces get a good hold on the

person. This always comes through the fascination of the phenomena. When one focuses the attention upon the "I AM Presence," it will draw him into the fullness of the "I AM Presence."

The inhabitants of the elements are used for all activities of Nature, but they do not prevent other forces acting, and they are not the only activities in Nature. There are times when these Great Cosmic Beings direct their attention to Nature.

Every thought sent forth by an Ascended or Cosmic Being contains within it a Perfected Form. If that Being's Idea is on the manifestation of snow, or whatever it is, it would take on the Perfection which was within His Thought, because all thought carries form.

Say: " 'I AM the Presence' entering into and revealing to my outer consciousness this activity." Then the outer mind would get the full Inner Activity and bring It into your outer activity.

When people enter into the psychic plane, everything is distorted, and they have no definite proof of the Truth. Those beings in the psychic plane who seek to get others under their control begin to prophesy, and it is one of the first things they do. No one can take a stand against a Messenger of the Light and not receive the reaction into themselves, because the Light repels all that is unlike Itself.

BENEDICTION: Out of the fullness of Thy Mighty Opulence, O "Mighty I AM," we feel Thy Flowing Energy. We feel Thy Enfolding Love. We feel Thy Qualifying Presence, hastening all who turn to Thee into Thy Perfection. We feel Thy Glorious Presence enfolding them in Thy Mighty Mantle of Peace, enabling them to maintain Perfect Self-control, sustaining them in Thy Mighty Perfection, that they may manifest Thy Mighty Presence–now.

DISCOURSE XXII

December 15, 1932

SAINT GERMAIN

INVOCATION: Thou Infinite, Abiding Presence! Thy All-Pervading Light, Thy Opulence of Substance is Omnipresent and All-Pervading. We open the activity of the outer consciousness into the conscious direction and molding into form of every good thing we desire. We give praise and thanks for Thy Intelligent Action in these minds; with Thy Love, Thy Wisdom and Thy Power to guide them, to raise them into all Perfection.

I bring you Greetings from those Ascended Ones who ever minister to the Messengers of Light, wrapping their Mantles of Light, Illumination and Protection about them.

THE DISCOURSE

I had not intended to explain quite yet the undesirability of any thought or condition of the psychic plane, but the demand compels it to come forth.

In the first place, the student must understand that what is called the psychic plane has nothing whatsoever to do with Spirituality. It is a faculty of the human consciousness which can be brought

into play by human beings who will give sufficient attention to it; but the individual who wishes to reach into the psychic plane alone, either consciously or unconsciously, had better never been born into that embodiment.

The fascination of the phenomena of the psychic plane, I assure you, is most alluring; for those whose attention becomes firmly anchored in the psychic plane do not loosen themselves from it in that embodiment, and it may take several embodiments to free them.

In all strata of consciousness there is a fragment of Truth unrecognized–otherwise it would not be possible for it to be sustained–because you must understand that in all things and in all activities, there is some, more or less, of the God-Energy acting, misused truly, but nevertheless active.

The sincere student will give no attention to the phenomena of psychic seeing or hearing, but understands that he must push directly through–by the power of the Inner Will through his outer determination–and enter within the Electronic Belt, where only the Truth is expressed.

Beloved Students! While it is necessary to explain this, I want you to make up your minds not to have any fear.

Within the psychic stratum of thought and *feeling* is the principal activity of what we know as the sinister

force in this world. Sometimes souls with splendid Inner Attainment, not understanding the True Reality of this of which I speak, have allowed their attention to become drawn to this stratum because of the premature awakening of this physical faculty by a semblance of Truth being presented to them and some phenomena—enough to hold their attention. After the attention becomes fixed, everyone, without exception, will find that semblance of Truth disappearing.

One of these attributes which is perhaps most fascinating is the false prophecies which are made, causing the individual to make wild prophecies, and once in a while, one being fulfilled in order to bind the attention more strongly. With this there is also a certain substance which is drawn into the brain. (I may not yet explain further to you.) This makes it impossible even for the Master to interfere to help the individual, because of his own free will by which he has accepted it. There are a few cases, however, in which the individual realized the mistake before he had gone too far, and by intense calling to be liberated, one of the Brothers was sent to release the individual completely.

There is occasionally a rare nature who, because of its great purity, passes through this psychic stratum without ever knowing it or contacting it. This kind of individual is very fortunate indeed. The forces within this stratum work most directly upon the

feeling nature—and this means upon the passion of the individual, because it is most easily reached.

Men and women who have lost the controlling power over their passion, which may be either sex or anger, have knowingly or unknowingly become entangled in the psychic stratum of thought and feeling, thereby opening the doors of their beautiful and wonderful Temples of God. Through the open door, the forces within the psychic stratum fasten upon them, intensifying their own passion into an uncontrolled condition, which otherwise might be controlled. Far better had such individuals walked into a den of rattlesnakes, for then they would have but thrown off the physical bodies and been free; but once enmeshed in this psychic sphere, they are often bound for many embodiments. Why is this? Because they make records within their mental worlds from which they do not know how to extricate themselves. Consequently these souls are reborn again with those same tendencies, until after the second or third embodiment they become the depraved creatures you see about you wherever you go.

Sometimes the influence is cunning enough to hide this from the outer world for a long time, thus carrying on its nefarious work, as it thinks, in secret. Here comes the most heart-rending part of this explanation; I mean to say, it seems so from the outer sense.

On the higher planes of activity, there are great and

beautiful souls who volunteer to go into this stratum to help, through their *radiation*, to break its hold upon humanity. These volunteers are both masculine and feminine. More often however, they are feminine. This explains why beautiful souls in a feminine embodiment become united in outer marriage with the masculine soul who has become enmeshed in this psychic condition. Often the individuals thus enmeshed become most cunningly sensitive, and with remarkable accuracy, sense conditions, thus many times causing others with whom they come into contact to temporarily think it is real.

If individuals coming to the point of being united in marriage, man-made, would call out to the God Within, the "Mighty I AM Presence," that: "If this marriage is taking place through the desire of passion, then let it never be done," great grief and torture would thus be avoided.

Now we come to the real part:

The individuals who, through their own efforts, or through instruction being presented to them, get the true understanding of what the "Mighty I AM Presence" means–that It is the True and Mighty Self –and hold earnestly to It, never again can they be drawn into those discordant things, unless from their own volunteering from the Higher Planes of activity, where they know exactly what they are doing.

War periods more readily than any other open

individuals to this psychic plane. Consequently it has always been observed that after war periods there is always a greater unleashing of the uncontrolled passion than at any other time.

Knowing this should in no wise cause anyone to fear this psychic stratum. If students find themselves conscious of passing through it, they should instantly take the consciousness: " 'I AM' the Controlling Master Presence, always Victorious"; and they will instantly find strength to face whatever appears, and go fearlessly and serenely through.

Jesus suggested that this Explanation be given while the students were under the Triple Radiation. (This Triple Radiation means that in His Radiation, He always carries with it the Triple Activity of the Father, Son and Holy Spirit, or the "I AM Presence." All who apply the "I AM Presence" are receiving the Triple Activity as long as they maintain It, and the Triple Activity is always Self-sustained.)

Astrology

One of the saddest things I have to say to you is that many of those attempting to cast horoscopes are unknowingly drawing themselves into the psychic net and are becoming sensitized and voicing the adverse conditions which exist only in this stratum.

This is one of the most unfortunate activities because the individual is so entirely unaware that

he has opened his door–until he has become so enmeshed that no amount of argument or reasoning will change his belief in astrology. In the past twenty years the avenue of astrology has been used for this purpose more than any other. Many times through this, the thought, or radiation from this stratum, says that certain conditions will manifest for the individual which he cannot avoid. If it is not said in so many words, it is *felt* through the radiation. This is one of the principal reasons why the last cataclysm of Atlantis occurred, and why the people of Atlantis, in the great majority, refused to listen to the Wisdom of the Masters–who prophesied from Reality the destruction of Atlantis.

I understand, Beloved Students, that some of you who have been so interested in your horoscopes may think I am severe. However, such is not the case; but My Love for you is great enough that I may speak to you the unadulterated Truth. If you cannot believe the Truth which I speak to you, then you must go on your way, for you are individuals of free will, which I have no desire to interfere with, except that "I AM" privileged to point the way.

Individuals who will cling tenaciously to the "I AM Presence" need never, anytime, anywhere, ever fear any of these things, because It will correct them and hold them steady on the True Pathway of Light, up whose Golden Stairway they may climb with definite

precision, into their Full Dominion and Perfection.

I assure you, Beloved Ones, that My Heart goes out with all Its Strength to the individuals whose attention is held by astrology, for they are so unaware of the pathway strewn with thorns which they have entered upon that will pierce their feet, causing them to cry out in agony; and only when that agony becomes great enough will they call out with all their Beings and say: "O GOD! SHOW ME THE TRUE WAY."

Beloved Students, you who so earnestly seek the Light, know there is but the One Presence that is your Invincible Protection, and that is the "Great I AM Presence," God in you. Do not let your attention ever be held by these many outer manifestations: astrology, the power of numbers, spiritualism, or any of the many things that would take your attention away from the "Mighty I AM Presence" which is your Real Self.

If you turn to It at all times, It will lead you in the Pathway of Light, strewn with the rarest flowers whose very fragrance will enfold you with that strength and "peace that passeth understanding"; with that stillness of the outer which will enable you to enter into the Great Silence, wherein you will find the Greatest Invincible Activity of God, the "I AM Presence."

Beloved Ones! surely you must understand that you cannot serve two masters and gain any victory ahead. Having free will, you must choose. If you choose the outer, forgetting your "Invincible I AM

Presence," then My Love goes with you, enfolding you in Its Mighty Mantle of Protection until such time as you choose to return to the One God.

If you choose your "I AM Presence" and adhere to It, then your struggles are soon over, and you will find yourselves moving in that Sphere of Peace, Harmony and Perfection wherein you look upon the outer world with great compassion–but never with that human sympathy which would stifle your own growth.

This reminds us of the old, time-worn Statement: Seek ye first the Kingdom of Heaven, and all the outer things are added, or given into your use, under your command. That Kingdom of Heaven is the "Great I AM Presence," the only Reality of you–who is the Owner and Giver of all created and manifested things.

Is it not strange, Beloved Students, that one will so long wander about in discord and limitation, when the Master Presence of Light, the "I AM Presence," walks by one's side at all times, waiting one's decision to turn to It and receive Its Radiant, Glorious Blessings of Perfection in all outer manifestation? Such is your privilege, O Beloved Ones!

In spite of all outer activity, the atmosphere of the classes is truly divine. While I am sorry that some have not felt the *true* importance of their "I AM Presence" and that they still reach to outer things, I but wait, enfolding them in My Love, for they have free will.

Perhaps I am a little old-fashioned, but when I see

individuals that are so good and so fine, I would just like to pick them up and hold them in My Embrace until they could realize the full importance of their own "Mighty I AM Presence"; but this I may not do, for I so well know that all who have any desire left to reach to the without must do so until that desire is no longer apparent.

The students must understand that they cannot divide their attention between the "I AM Presence" and outer things, for it is a house divided against itself and must sooner or later fall.

All greatness is dependent on the "I AM Presence," and It is the governor of the form, or should be. In It is all strength, courage and power.

Those blessed children! If they could only realize fully what a privilege stands at their doors and how in a comparatively short time they could gain freedom from *all limitation*.

This Dictation: The situation is this: when students ask if they might listen to these Dictations themselves, they are entitled to the explanation of what is necessary for Work of this kind–for it is most unusual, We know.

The fact is that the One God is always Perfect, always was, is now, and always will be–and the "I AM" is that Presence; but if they have not been aware of this, the body and brain of the student must go through

a period of adjustment. That adjustment of the outer self takes weeks, months, or years to accomplish, according to the requirement of the student.

Never in the history of the preparation of students has the Master ever allowed them to come within His own Inner Electronic Circle. The students come, or are taught the application, but they never come into the Inner Electronic Circle of the Master Himself.

The Electronic Circle prepared here for this Work has required thirty years of preparation, and no matter how beautiful the Radiation and Love of an individual are, We do not have the time to prepare and adjust the atomic structure of the brain and body of the students *at this period of world crisis;* but with their sincere determination and use of the "I AM Presence," they will be *prepared* for the Presence of the Ascended Host.

The atomic structure is a mechanical instrument, and the innumerable parts must work in harmony and perfect cooperation with each other. The students do not understand that when a certain definite, specific Work is to be done, there must be definite preparation for it. For illustration, take one who by nature is endowed with an unusual quality for giving forth lectures in public: if he is to have the Assistance of the Ascended Host, there must be special preparation for it. The individual would be so prepared that from twenty minutes to half an hour before the lectures,

that one would be enclosed in a Tube of Light into which nothing entered except the Radiation of the Inspiring Master.

BENEDICTION: Out of the fullness of our Hearts, O Mighty Presence, we give praise and thanks for Thy Love, Wisdom and Power. We give praise and thanks for the Mighty Rays that have gone out to each student today. We give thanks for the intensity of this focus that quickens the assurance within the students of the Truth of their "Mighty Presence of the I AM," which is the True Self. Strengthen them, each one, with that firm determination to hold to that One Presence which is all Freedom, all Perfection, Eternal Youth and Beauty.

CHRISTMAS PREPARATION

SAINT GERMAIN

INVOCATION: Thou Mighty, Infinite Intelligence! Thou who dost have Power over all things! We welcome Thy All-Pervading Presence, Thou All-Pervading Life, the animating Principle of every human being. We give thanks that, " 'I AM' the Great and Mighty Presence"; that " 'I AM' anchored in the heart of everyone of God's children, fulfilling the Perfect Plan in spite of all resistance of the outer activity of the mind."

We give praise and thanks that the conscious direction of Thy Mighty Energy is sufficient by those of understanding to bless and to prevail with Thy Wondrous Light and Intelligence everywhere.

I bring you Greetings from the Great Host, and personally from Jesus, who will again speak to you over His Ray today.

THE DISCOURSE BY BELOVED JESUS

In the Fullness of My Love, I come to you again today over the Great Light and Sound Ray, this time to direct consciously the Healing Ray to every

one of the students. This Ray I will sustain for two weeks every day, that they may have the Radiance of the Healing Power.

In My Ministry to mankind among the hills of Judea, I stirred the latent memory within the Inner Records of mankind, and its Work is still going on today. I wish the students to understand that preceding all conscious healing upon My part, within My own mind I was always conscious that: " 'I AM' the only Healing Presence" and, as that "Unlimited I AM Presence," I had the Right, the Power, and the Ability, through that Presence, to command all outer activity of the mind to be silent and obey Its Command.

Thus when I spoke to individuals, I spoke with that Authority of the "I AM Presence," which I recognized as the Only Intelligence and Power acting, or that could act. I was conscious of the outer activity of the minds of those of humanity about Me, but as I said to you before, it was only when I began using, " 'I AM' the Resurrection and the Life," that the fullness of My Mission, and how it was to be fulfilled was entirely revealed. This is the particular point I wish to stress with the students today: that within each one of them is the same "Mighty I AM Presence" which I used to accomplish the *Perfection* of that Mighty Presence. This seemed to humanity at that time the performing of miracles. However, I assure you, it was but consciously

setting into action and use Cosmic Laws that are ever about you–to be set into activity through conscious direction. The mistake that students make and which delays their achievement is in feeling that they are acting a falsehood in declaring the Perfection they do not yet see manifest in their appearance or activity. I tell you sincerely from My own Experience that *we must acknowledge the One Presence, Intelligence and Power, then claim It as our own in our every thought and activity.* It is the only way this Mighty Perfection can be brought into the outer appearance and the fullness of your use. Because that Perfection has not yet appeared–seemingly–should not deter you from applying and claiming Perfection as your own, for anyone with average intelligence has but to stop and think that the Energy, the Life-Principle which he is using, is God, the "Mighty I AM Presence." Therefore, Its Presence, Power, and Energy is always Self-sustaining. In the claiming of this Mighty Presence and Activity, you consciously set It into action in your Life, home, world and affairs. Today, as in the time of My Attainment, the financial struggle seems to be most weighing; and yet within the reach of your conscious manipulation and direction of the Mighty Energy, Substance and Opulence about you, *you have everything* with which to draw to you that Wondrous, Omnipresent Opulence of God.

When you say "I AM," you are stirring that

into action to fulfill your conscious demand. One of the first and mightiest things that became clear in My consciousness was My ability, everyone's ability, to qualify this energy, consciously directed, with whatever the seeming need demanded. Thus the energy may produce for your use, gold, silver, money, food, clothing, means of conveyance, or whatever the conscious demand is.

All this you must claim with determined conscious effort which knows *that in the conscious demand is the "I AM Presence" speaking and acting*. Therefore, It has all Power and Authority to clothe whatever the demand is with Its kind.

In the consciousness that you are the "I AM Presence" acting at all times, *you then must know that you are, that moment of recognition, an invincible magnet of attraction—which causes every activity of the Universe to rush to you to fulfill the demand*. The only reason it does not seem to be so is because somewhere in your consciousness there is a *feeling* of uncertainty, either of your ability, of your authority, or the Omnipresence of It to act; but I assure you, as one having attained and having gone through the complete process of attaining, that it is a pleasure, the privilege of Myself and Others, to place before you these simple Laws, yet Mighty and Invincible in their activity—which will give you Freedom and Dominion over all the things that

seem to be such a mountain of obstruction in your way. As you continue to accept and use these Laws in your activity, you will find that you are attaining Dominion, not only over the one element, but all four elements–earth, water, air, and fire.

When you have become conscious of the *"Flame of your Divinity,"* you are acting from the highest of the four elements, which is Fire, and the True Activity of Spirit.

As the conscious activity is to the unconscious, so is the Conscious Use of the Flame to the recognition of the Light. The natural element of your soul is the "Flame," accounting for the ancient Fire and Sun worship. When one becomes conscious that he has, is, can use and direct this Consuming Flame, he has entered into Mighty Power.

When one becomes conscious that he has Dominion over the four elements, *he has but to practice its use to become conscious that he may direct the lightning, master the storm, control the waters, and walk in the midst of the fire unharmed*. Will you kindly tell Me how any being can have the use of anything until he acknowledges it–and knows that he has the ability to make it his servant in use?

Then by the practice of its use, he becomes absolutely invincible in its direction. I wish so earnestly to make clear to you that you are being given and taught the exact Laws which I used–and

which everyone who has attained the Ascended State must use.

It is all a matter of use, once you know of these Laws, and that the "I AM Presence" which you are has all Intelligence, Power and Authority to consciously direct the energy through the outer activity of your mind. Then do not fear to use It to heal, to prosper, to bless and to enlighten your fellowman.

Erase from your mind forever that there can be any selfishness in your conscious recognition that the "I AM Presence" is directing. It matters not what you require for your attainment, wherein it makes you more able, or of greater ability and power to bless. Then do you not see that there can be no selfishness in the desire for this greater attainment and Perfection? For any individual to feel that he must wait upon the attainment of another is a great mistake. Individuals may attain only through their own conscious effort in this wonderful recognition. No one can grow for another or attain for another, but each may be of immense help to the other by knowing with intensity: " 'I AM' the only Presence and Intelligence acting within that individual" for the one you wish to help. This may be qualified with whatever the person seems to need most.

Every individual's first duty is Adoration and Love to the "One Mighty I AM Presence," which is everywhere present.

Do you not see how in this, it is a joyous privilege to love your so-called enemy, because: " 'I AM' the only Real Presence and Activity anywhere!" If the ignorance of the outer activity of the mind seems to have created disorder, pain and limitation, then you know that the miscreation has no power of its own. There is nothing but the wrong belief of the individual to sustain it; consequently, it has no Self-sustaining power.

If you have been unfortunate enough to create inharmony, disorder, limitation, then can you not see that you alone, through the Power of your "I AM Presence," the Consuming Flame, must consciously call on the Law of Forgiveness, consume through that Flame of Life which you are, everything in your world which you have wrongly created?

This should easily make it clear to you how you set about to cleanse your world of its disorder and its mistaken creation. Then you stand forth, clothed with the Sun, the Light of Eternal Life, Youth, Beauty and Opulence, holding within your hand for instant use the Scepter of Power of the "I AM Presence," which you are.

It is important to know that this One Mighty Energy does all things according to the quality you give It, or the wish you want fulfilled.

One thing students should be intensely conscious of, and that is: " 'I AM' the Eternal, Harmonizing

Presence and Activity everywhere I move, and of everything to which my thought is directed." This, constantly used with the *feeling* of Its Invincible Power, will keep the atmosphere of your world purified, harmonized, and held in readiness for any conscious direction to go forth with great speed to its accomplishment.

When you wish to speak with authority, silently to or of another individual, speak his given name, and you will find the help, the energy sent, much more easily received. It is like calling the attention of a person to whom you wished to speak. Naturally, your first impulse is, if you are going to speak to one of the family, you first say Don, Mary, or Dick, to get his or her attention; and then you proceed to give your message. So it is when directing the energy silently.

Within the Inner World, in this recognition and use of the "I AM Presence," knowing that: " 'I AM' everywhere present," you see how you may speak to one across the earth through the "I AM Presence" as readily as though that one stood in the room in your physical presence.

I warn you, if you attempt to use this Knowledge to harm another, then remember that through your own soul and body will pass the bolt, or your intent to another. Try always to remember that you are not human beings so-called, but you are Gods and Goddesses in embryo–which through the conscious

effort you can bring into Full Dominion.

I say to you, Beloved Students of Light: Arise! Awaken! to the fullness of your God-Dominion. Fearlessly use the conscious knowledge and direction of this "Mighty I AM Energy" for your freedom, prosperity, blessing and enlightenment. Each of you is a glittering, dazzling Jewel of Light projected into a world of chaos and darkness, that the Radiance of your Light may expand, expand, and again expand, that all darkness of the earth be consumed in this Mighty Radiance of the "I AM Presence," which you are.

Do not hesitate, Beloved Children! Grasp this Scepter of your Power and Dominion! Use It to heal, to bless, to prosper, to enlighten, and you will find all earthly things bowing before you and rushing to fulfill your slightest demand.

Such, Beloved Ones, Beloved Brothers and Sisters, the "One Mighty Presence, which 'I AM,' " is the Conscious Ability I convey to you this day–with its Self-sustaining Strength, Courage, Power and Enlightenment–to go forth, attaining your Freedom *now* with these Personal Rays which I project to each of you for these two weeks. I assure you, these Rays are no idle fancy, but a tangible Current of Energy containing in It all things, and blessing you according to your acceptance.

I clothe you in this Mantle of Light–within It is

all Power. I hold you close in My Mighty Embrace, and " 'I AM' with you every hour."

Saint Germain: Again have you been blest by that Electrifying Presence. I need not add to it unless there are questions.

When you realize that "I AM" is the only Presence, Power, and Ability to think in your brain cells, and you are accepting only the Activity of the "I AM Presence," then you make It the All-Power, fulfilling every outer desire. Therefore if you desire something needful in the outer activity, *it is the "I AM Presence" producing it through your conscious demand—which has nothing to do with so-called human desire.*

Say often: " 'I AM' always loving obedience unto the Light."

Everything will become more alert, more quickened, and more powerfully protected as you use the "I AM Presence" more and more.

The Great Central Sun Magnet: The more one is conscious of this Great Magnet working, the more powerfully It acts in his own sphere.

An awakened individual never uses a destructive force. When the Master of Suerne projected the force and the army was killed, he simply projected it for the protection of his people, and the destructive qualities which the others brought with them to slay and kill qualified the force sent out by the Master,

and it destroyed those who sent their destructive qualities out. You can see how easily it would do that, when they came to destroy.

Every individual, if he has understanding, has a right to protect himself. The students should always be taught never to judge the Action of a Greater Intelligence than themselves.

When phenomenon is produced by an Ascended Master, the Activity so transcends the intelligence witnessing it that it is most difficult for them to be sustained in the acceptance of the actual Truth of It. It is utterly impossible to satisfy the outer activity of the mind.

Projected vision: The etheric record is reclothed in substance. You cannot reclothe a record of scenes except in their own environment. The individual's record goes with him wherever he goes and can be reclothed anywhere he is.

BENEDICTION: Thou Mighty, Infinite Presence! Thou Wondrous Brother of Light, Wisdom, Love and Power! We give thanks for Thy Radiant Presence, glorifying all who look to Thee, and in that Glorious Presence, we send to all mankind Thy Enfolding Light, lifting them into Thy Presence always.

DISCOURSE XXIV

SAINT GERMAIN

INVOCATION: Thou Infinite, All-Loving Presence! We feel Thy Peace, Thy Love and Thy Wisdom pervading all–everywhere. Knowing there is but the One Mighty Presence of which we are a part, we know Thou art omnipresent, pouring Thyself forth, filling every need on demand, lifting the consciousness of mankind unto Thee, and holding it anchored there until the "Light of Eternal Life" fills all Beings with Its Radiance, carrying them forward with that Inner Impulse to eternal, permanent recognition of the "Great I AM."

I bring you Greetings from the Great Ascended Host and especially from Nada, Cha Ara, Chan, and Diana, Goddess of Fire.

THE DISCOURSE

As the consciousness of the students is raised into the activity of the higher, or Fire Element, everything in their Beings begins to act with an intensity that many times they do not understand; and as they begin to work more from the Fire Element standpoint, the more necessary it is to keep up the guard.

The training which We are endeavoring to give

forth to bless, protect and enlighten the students is to train one's self to be on guard at all times; and while all should understand and with every effort use the "I AM Presence" to maintain Self-control, yet if something happens unexpectedly, to stand serene in spite of it.

Use the Statement frequently: " 'I AM the Presence' on guard."

If something unexpected happens, just say: "We will dismiss this," and go on in that joyous happiness. Try not to have any *feeling*, but to know: " 'I AM the Mighty Presence' governing everyone's activity."

Whenever there is a Center of Light of the Intensity of this focus, there is always the disturbing element that would seek to enter through someone. If you are working about the house, keep using: " 'I AM' proof against any sudden disturbance." This sets up a certain armor that will keep the atmosphere harmonized.

Use often: " 'I AM the Presence' which nothing can disturb."

Always hold yourselves in a joyous, calm attitude, regardless of anything that takes place.

For one you wish to help, say: "Here, pal, through the 'I AM Presence,' we give you the strength to control that."

The very marvelous manner and radiation of your two classes this week was the most remarkable thing I have ever seen in classes of students. The

great Love and Harmony within the hearts of these students, maintained a sufficient length of time, makes almost anything possible. It is a rare thing. Here are three classes in which the same Love and Harmony is maintained.

Do you feel the Great Wave of Peace and Joy that came like a breath of a spring morning? I will explain, so you may see how far-reaching is that wonderful, Loving Care.

The Great Master whom Jesus contacted and who enabled Him to gain the Victory is the same One who was My Teacher, and It was His Radiation which came just now. He wishes Me to tell you that: "As you pass along the Pathway of Light, you will find the easiest way to overcome disturbance is to turn away from a thing–and forget it." You may have this Master's Name later.

To wrong activities say: "That is not correct," and *then quickly pass it off. This avoids a disturbance which builds*.

As we reach into the Light, we are one Great Family. Knowing that there is but the "One Great I AM Presence" everywhere, you, being the individualization of That, there can only be the one Great Family, Children of the One God.

In the very first place, let this be understood: if a worthy individual is critical, say with very definite certainty: "There is no one who wishes to intrude

this upon your free will. We do not mind sincere questioning, but we do not tolerate criticism nor argument."

The Messenger must refuse acceptance to the discordant things by pouring out the Love Element, so the discord may be consumed. The Messenger must be fortified or else the work is left half undone. No class or work of the Messenger can be sustained if the Messenger allows argument or discordant feeling to generate.

It is very difficult for the average individual to understand that *the quickest way to stop any kind of disturbance is to stop discussing it.*

The thing in your own aura is the only thing that needs attention. The thing recorded in your atmosphere can only come through *your feeling.*

The spoken word, unless there is a sense of condemnation or anger back of it, will not record inharmony on your Inner atmosphere.

Of the two undesirable conditions, it is far better that one explode and get a thing off his mind than to hold the feeling within of resentment, or of being hurt, for that is what registers on your Inner Atmosphere. From My standpoint, *I see what is registering in your feelings,* and therefore on the Inner Atmosphere.

You know how a carbuncle forms. Well! Let me tell you that in your mental world exactly the

same thing takes place as the physical carbuncle expresses on the physical body.

It is most important to do something to keep yourselves from harboring a *feeling* against persons, places, things or conditions, for these build and record on the Inner Atmosphere.

If the desire comes: "I wish so and so would do this or that," check it immediately and say: "There is only *God in Action* there."

When a *feeling* is registered in your atmosphere, it is anchored there until you dissolve or consume it. *It is always the feeling that makes the Inner record.*

There is no use consuming a thing if you do not break the habit of generating the cause. One can easily conquer this by saying: " 'I AM' in command here." *Do not let your feelings run rampant.*

Many times individuals are brought together for the sole purpose of compelling them to correct these subtle activities which most people pay no attention to whatsoever. This is a matter of stilling the outer in order that the Truth may be received. This is so vital in the individual's Self-correction.

As you rise in consciousness, the energy is waiting like an avalanche for expression; and *if the energy is not controlled, it will rush in and cause you to do things that you would not have done for the world. Whatever energy is given into your use is to be sent out harmoniously. That is the Natural*

Law of your Being.

If one does not understand that he is to govern the energy flowing through him and he contacts a discordant element, the energy flowing through becomes qualified by that discord, and he should immediately either check it or requalify it with Love. In my experience, if I met a discordant element, I simply said: "Here! I shut my door–you stay out."

The Universal energy flowing through you is naturally harmonious. Shut your door and then figure out who's the matter.

People resist persons, places, conditions and things *because they have not mastered themselves*. The students must maintain this Self-governed harmony within themselves long enough to let the momentum be created–which becomes the permanent guard.

If one will maintain harmony within himself, I tell you, he will draw all good things unto him. The unfailing prompter is that the moment one expresses some kind of discord, he is to realize that he is the one to blame. There needs to be no written thing to warn anyone.

The moment there is something discordant, it is the prompter warning you to get busy on yourself. Each individual is his own guard and prompter at all times.

There is only One Power in the world that can correct anything, and that is the "I AM Presence" in each one. If you refuse to recognize that you are

the creators of your own disturbance, how can you ever correct it or be free from it?

There is no person, place, condition or thing that warrants your ever being disturbed, with the ever-present "I AM Presence" beating your hearts each moment and Who is ever All-powerful.

If one will correct himself on these discordant feelings, he will let the "Great I AM Presence" flood his world with all Perfection. If the individual will not correct himself, how can he ever gain the Eternal Victory?

The "I AM Presence" is the All-power of the Universe to make this correction. Let the "I AM Presence" flow until It washes everything clean.

When your attention is fixed firmly upon the "I AM Presence," which you are, it is as though your body were a fine sponge through which this Pure Energy is pouring, cleansing it of all imperfection.

If you will stop the discord, the "Stream of the 'I AM Presence' " automatically cleanses away all impurities. You thus have an Unlimited Power in your hands to intensify your right commands.

Even from the scientific standpoint, knowing that the cells of the body are renewed in less than a year, if the discord could be shut off for one year, the mind and form would express Eternal Youth and Perfection.

Either from a sense of false pride or something, humanity will not face the Truth that *the cause is*

within themselves. The habit of always blaming the other fellow for what has happened to you is the thing that blinds you to the Truth and prevents Self-correction.

A wonderful illustration of this is in the beautiful child-form. Until the child is old enough to begin to register the discord about it, its body is beautiful and expresses Perfection. This Perfection of form would always be maintained if there did not enter into the consciousness of the child the discord of the outer world. There are those who would say to me, "What about the child that is born sickly and disturbed?" In most cases, that is a condition brought over from the preceding embodiment, or in rare cases, where there is intense discord between the parents, this may be intense enough to register upon the child; but if you will notice in cases of that kind, as the child begins to grow and develop, it will show less and less of that disturbance. That is absolute proof the discord was not of its own creation, but was imposed upon it by the parents, because the soul was strong enough to rise out of it.

In this particular point, one should understand the amazing conditions of suggestion by which individuals are constantly surrounded.

For instance, let us take the environment and association of individuals who have been in the habit of going together. In that friendly association, each

one is susceptible to the suggestion from the other. If it be discordant, then that association will be broken up sooner or later by one grand row. However, seventy-five per cent of the individuals moving about in the outer world are not aware that they are taking on suggestion—either from association, environment, or conditions out-pictured before them.

The correct attitude of the student who becomes aware of his "I AM Presence" is immediately to take the firm stand that: *" 'I AM' invincibly protected against any imperfect suggestion."* Thus one can build about himself an atmosphere which will immediately repel all suggestions that seek to intrude wherein there is a destructive element.

I think it necessary to call your attention to your old copy books which said: "If at first you don't succeed, try, try again." There is no way to gain Victory and Dominion over limitation except to keep at it until you accomplish it. If you question your accomplishment, you are postponing your Victory that much longer.

Those students who really begin to understand that in the recognition and use of their "I AM Presence" they have the Universal Power at their command, then they know it is impossible to fail in their application, because the more they use It, the more of Its sustaining Power they have.

Every time you feel a Christ Manifestation, say: "I

praise Thee and accept the Light of Thy Presence, the 'Full I AM Activity.' " Take this attitude always, and then you shut the door to any undesirable creation from those who have passed on.

Always remember that you are the Master of what shall come into your thought world, and unless you realize that you are the Master, you are susceptible to all kinds of thoughts and feelings.

For others, know: " 'I AM' the Presence taking……. into ……. accomplishment."

If you give attention to a condition of disturbance, you are giving power to something else but your "I AM Presence."

BENEDICTION: Thou Mighty, Infinite "I AM Presence"! We rejoice in Thy Ceaseless Outpouring, Thy Enfolding Presence, protecting and governing the Life of these beloved students. Help them to enter into the Fullness of Thy Presence with no uncertainty, that they may bless mankind wherever they may be or go. Intensify Thy wondrous Light within the outer activity, that each one may become a great channel to heal, to bless, to prosper, and to enlighten.

DISCOURSE XXV

December 25, 1932

CHRISTMAS DAY

SAINT GERMAIN

INVOCATION: Infinite "I AM Presence"! from Thy Ancient Sanctuary, we find Thee pouring forth Thyself into manifestation with conscious intelligent expression, that Thy Perfection be manifest in all phases of Life; and that all of earth which has been wrongly qualified by mankind be raised into that Ascended State–Thy Eternal Perfection.

I bring you Greetings, and especially from the Retreat in Arabia, that Great Center of training for the use of the Mighty Rays.

I have two surprises for you today. I say "I," because We are all One.

I trust that I need no introduction as I speak to you over the Light and Sound Ray. Nada speaks:

THE DISCOURSE

How beautiful this day always seems to Us in the Consciousness conveyed to humanity–representing that birth of the Christ Activity in all mankind; and to the students who have become aware of what the use of the "I AM Presence" means to them in setting

into motion Love and Intelligence to do their bidding, according to their direction of that Limitless Power.

So long individuals have wondered how to attain the Christ Consciousness. The first mighty step is in the recognition of the "Great I AM Presence," God dwelling in you. The second step is in the use of that "I AM Presence," for when you say "I AM," *with the understanding of what It means*, you have then and there entered into the Christ Consciousness.

It does not mean you immediately express the fullness of that Christ Consciousness, for you must first know where you are going and what you wish to do before you can accomplish it.

All the Ascended Ones have gone the same path and use identically the same application, because all roads lead to the Great Central Sun, the God-Head.

Our Beloved Brother Jesus performed one of the greatest Blessings to mankind in not only setting the example from his birth and achieving the Ascension, but in making the Eternal Record that stands radiant, pouring Itself to humanity. Little can the unascended realize what this means to mankind. It is an Eternal Beacon, beckoning them on into the Light, and in the example of the Ascension, Jesus stated definitely not only what could be done, but what *must eventually* be done.

Great as were the wonders He was able to perform, He gave the marvelous promise that:

"Even greater things than these shall ye do." Many times students wonder what greater things could be performed than Jesus did, but He tells us that He only performed *a few* of the Universal Services which can be rendered to our fellowmen.

To Us this day always symbolizes the conscious beginning of that most marvelous of all achievements–the Ascension. The *moment* the individual *becomes conscious* of this fact, the process of his own Ascension has started, and according to the fullness of his grasp of this Truth, may the individual accomplish it quickly, or require time to do it.

My personal experience has been that when I became aware of what it meant and began the use of the "I AM Presence," I found that shortly I was entirely unaware of time or place; and that each day, as I entered more fully into this expansion of consciousness, I found that all things of my desire were right within reach, mark you, *right within my individual, governing power;* and with it came the consciousness that Divine Love was the Mighty Cohesive Power holding all things together and in place–that this Divine Love within Me of which I had begun to learn made Me an Invincible Magnet for everything upon which My desire rested.

This simple Truth is one of the Mightiest that first comes to the student. At first It causes one to realize that really *he can rise above these seeming*

limitations about him and then he finds, one by one, *that he is actually doing it*.

Then comes the Great Inrush and Outpouring of this Mighty Self Within, which holds the substance of everything the heart can wish within Its Own Embrace. And your ability and authority, mark you, to qualify and mold this substance, is that which causes it to take on the form of your requirement, whether it be peace, Love, gold or enlightenment.

I say to the beloved students: Awake, O Beloved Students, *to your authority, to your right, to your conscious ability* to apply this Great Law to your Perfect health, eternal youth and beauty, the riches of God, the glorifying of your mind and body, and then to Ascend into the Arisen Dominion, into your Eternal, Everlasting Freedom.

After you begin to find, step by step, that you *are* accomplishing, then you begin to forget all this outer condition surging about you–in the glorious *feeling* of being held in the Great Embrace of that Mighty Master-Self Within, *which never has and never will give cognizance to time or space*.

You are the Master and have Dominion in your Life and over your world *the moment you recognize* that the Energy, Power and Intelligence which you are using is the "Mighty I AM Presence."

How fortunate indeed are those individualizations upon earth who become aware, really aware, of this Truth.

Jesus said: "Know the Truth, and the Truth shall make you free." This is one of the mightiest phases of that Truth. Apply It, O Beloved Ones, with full determination, shutting out all uncertainty from your minds, and you will climb steadily that Jeweled Ladder of Achievement; and as you look back upon each step gained, more and more will that Blazing Radiance shine forth, and you will wonder, "How could I have gone so long in the shadow, when above me stood this Mighty Flame of Life, ready to consume instantly all my unfortunate, ignorant creation?" I tell you, Beloved Ones, that *you do not have to wait indefinitely* in the recognition of this Mighty Presence. *Fold your arms about It in all the adoration you can command,* and It will raise you quickly out of all these seeming limitations, clothing you in that "Seamless Crystal Garment," blazing with Radiant Light and held with a Jeweled Girdle that it is your right to wear; and in your hand that Blazing Scepter of Dominion, the Searchlight of your Mighty Soul, which you can turn upon anything, upon any place, upon any height, and draw to you the revelation from within It. Such, Beloved Brothers and Sisters, is the picture of Achievement which We have used and attained. Such We know you can do, because We have.

Never grow weary of the Consciousness that: " 'I AM' the Ascended Presence"; and when you say that, know: "It is the Self-sustaining, emanating

Strength by which I reach my Full Dominion."

It makes Me very happy to be home again–for the happiness in your hearts–to see the many rungs of the ladder you are past; and that you have the conscious consciousness that you can achieve the Greatest of God's Gifts, the Fullness of Himself.

CHA ARA

It is with much Joy that I too may say a few Words over the Light and Sound Ray to you, and to answer in person the many calls of the hearts to Cha Ara.

I do have many a good laugh in moving about among the students who have so much longing that I make myself visible to them; and yet some of them, upon the slightest movement unusual, catching their breaths lest I do. You know, it is most comical: the outer activity of the self wants a thing so much, and at the same time experiences all kinds of prickly sensations about it; but Beloved Ones, I say this: I may not appear nearly so frightful as you might think! So trust Me at least to have a pleasing form or appearance, and at the same time, for the benefit of the dear sisters, I shall endeavor to bring along some Attar of Roses.

Q. From Kashmir?
A. That would be quite appropriate.
Q. Why not your own brand?

A. You are very alert. I do not need to purchase it as you do, for I am privileged to brew My Own.

May I add a word to the beloved students, commending them and urging them to continue that wonderful, glorious Presence of Love and goodwill, not only to Us but to each other, because it makes a wonderful condition in which the expansion of consciousness goes on in leaps and bounds.

I must commend them on the feeling of certainty within themselves in the accepting of Our Presence, and the consciousness of their ability to apply the Law of their "I AM Presence," for it is increasing with great speed.

Do not be discouraged in your call for Our visible appearance. While Our hearing is perfectly good, I assure you, yet in that call is something that you require. In the *call* for a thing is a certain vibratory action that the student needs, which cannot be explained except as you see it from the Inner Action.

AMERICA

O America! Precious Jewel in the crown, the diadem of earth, that Flower of Ancient Wisdom and Light! Again you shall come into the power of your full bloom–in spite of all the seeming obstructions and appearances to the contrary at present.

Within thy soul, O Mighty America! is the

strength to shake thyself free from the barnacles that have attached themselves to thee–the barnacles of selfishness, and the creation of the outer activity of the mind of unawakened human beings. So shall you again come into the fullness of that Light which is your birthright.

Beloved Students of this Radiation: *no matter what the appearance seems to be in the outer activity, do not allow that appearance to find anchorage in your consciousness, or the suggestions from others concerning America.*

Stand serene in your God-given Dominion, knowing the Truth, *seeing America free,* governed by Divine Love and Justice.

The net that the sinister force of earth has seemed to draw America into will yet find the *"Sword of Truth and Light" sever the net each way, making of it the Open-Ended Cross of Freedom, of Light and Justice.*

The most valuable thing in the individual's Life in the things which he cannot help is to shut his eyes to the appearance of them, acknowledge and set forth into action the Mighty Power of the "I AM Presence."

Do you not see, Beloved Students, how very, very foolish it is to keep accepting the *appearance,* through suggestion or otherwise, *which you do not want, whether it is national, state, or personal, when you have such an extraordinary privilege of setting into activity the "Mighty I AM Presence" to correct*

whatever has the appearance of less than Perfection?

The *habit* of mankind has been to see imperfection where We see Perfection. Now, in the recognition of the "Mighty I AM Presence," *fully accept Its Perfection every hour of the day. This does not mean that you have to dwell on this by the hour, but you can at least assert once every hour of the waking state:* "I do accept the full Activity of my 'Mighty I AM Presence.' " Each time you assert this, you are building Its Perfection more powerfully into your outer activity, for you are already using this energy, and why not acknowledge at all times Who and what It is you are using, thus giving It the Dominion It wishes to convey to you. In this way you can set into motion for the Freedom, Protection and Blessing of America, your beloved country, an Invincible Power. You do as yet little dream of the Mighty Potency and Power of adjustment It can cause to take place when consciously set into motion by one or more who recognize Its Invincible Universal Power.

Now let Me suggest that instead of listening to the constant lamentation and suggestion of all kinds of destructive activities, *that you know the "I AM Presence" consumes them and requalifies all this energy with Freedom, Protection and Perfection for America and the world.*

For your encouragement, I want to say that all those human beings who started the cause of this

present condition did not foresee that it was going beyond their control, and through it, many of them have lost their outer ability to longer foster it.

So those who are attempting to bring back prosperity by the unlimited use of beer will find things going beyond their control. Instead of temporary prosperity, things will sweep into actual prosperity.

So now, as at all times of seeming chaos, will come peace on earth, goodwill to man; and the Light of the expanding Christ in the hearts of individuals, permeating the earth, will draw to Itself Its own.

Again, for the benefit of the beloved students, I urge them not to discuss discordant things any more than is enough to understand a situation. Then turn completely from it and never let it hold your attention again, for I assure you, what you entertain in your consciousness will find expression in your Life and world. So fill it with the "Great I AM Presence," holding in Its Embrace the Mighty Fulfillment of your every desire.

See that Perfection, that Full Perfection of Its Activity everywhere in your Life and world. Do not be affected or disturbed by the creation of others where you cannot help, except to see Perfection, knowing that back of the seeming shadow is the Blazing White Light of the "I AM Presence."

This, Beloved Ones, is My Greeting of the season I leave with you. In closing, My Mother and Others

of the Ascended Host–some of whom you do not know but who know you–send their Greetings of Love, Peace, Opulence and Strength to each of you, to bless you on your way to your final Victory and achievement.

Saint Germain: Well, very fortunately the Radio Corporation can't charge Us up for overtime on Our Station. I suppose if they knew of it, they would want to charge Us.

I want to say a word or two in conclusion, and it is to urge the students to recognize that when they say "I AM" for whatever they want to be accomplished, they not only set the "Great I AM Presence" into action for the accomplishment, but *they should be deeply aware that It holds within It the Self-expanding, Self-sustaining, Self-emanating Power.*

While repetition is good and is ofttimes required to produce a deeper conviction, yet in the present advancement of the students they should become more conscious of Its innate, inherent, Self-sustaining Power. This would give the outer consciousness a fuller comprehension of the sustaining Power, so that if the outer activity of the mind is occupied with other duties, *it can send forth the charge of the "I AM" into any achievement once an hour without in any way interfering with the student's work.*

It is such a mistake for the student to let register

in his mind the absurd idea that he hasn't time for these things–when it only takes a moment to powerfully realize the Mighty, Invincible Activity of his "I AM Presence" in whatever his attention is required to be used.

However, this application might be very helpful: *" 'I AM the Mighty Presence' commanding the time, all the time I require, for the realization and application of this Mighty Truth."*

On the other hand, if many times during the day, one will for a few moments take the consciousness that: " 'I AM' the only Intelligence and Presence acting," it will naturally adjust things according to the requirement. It is so easy to set the consciousness into motion–knowing one is not restricted by any sense of limitation.

Temples of Light: They are located in the Etheric Belt above the earth's atmosphere. The Radiation is poured out from this Belt to the earth through its atmosphere. The Etheric Belt around the earth and that around Venus would be vastly different. Venus is within the Etheric Belt of the Sun, while the earth is below that.

Warning: Do not give recognition to anyone who is a tool for the sinister force. Simply know one thing only: "There is only the 'I AM Presence,' Intelligence, Light and Power acting." *Do not be*

concerned about any personal activity of any kind whatsoever at any time.

The student's business is to see Perfection, *feel It and be It, no matter what any human appearance seems to be.*

BENEDICTION: From out the Heart of Thy Great Silence, O "Mighty I AM Presence," comes the Solution of all things, the Perfection of all things; for Thou art the Only Governing Power, Perfection, and Intelligence in all outer experience; for Thou art the Presence governing all human expression. Only as we see Thy Perfect Manifestation in all things do we cause Perfection to manifest in all things.

DISCOURSE XXVI

December 29, 1932

SAINT GERMAIN

INVOCATION: Thou Mighty, Infinite Presence! All-Enfolding Love! Infinite in Thy Activity, gracious in Thy Loving Power, we salute Thee heart to heart, face to face, pouring forth eternal gratitude for the outpouring of Thy Mighty Energy, for the use of Thy Directing Wisdom, for the Presence of Thy Opulence in our homes and use. We acclaim ourselves that active part of Thee, Self-conscious of Thy Divinity, maintaining every hour Thy Supreme Command.

I bring you Greetings from the Great Host who minister, and who watch all activity.

THE DISCOURSE

We all rejoice exceedingly in the wondrous, loving presence of the students–for the great harmony, joy, and accomplishment that has been attained.

How mighty that Miracle-Working Presence, "I AM," can and will manifest Its Dominion if such a wonderful state is maintained; and I tell you with no uncertainty, *it can be maintained,* ever growing greater and greater in the comprehension of that God Presence in Its Supreme Power of Divine Love.

Every student should remember with definite certainty

that in this Quickening Power of the "I AM Presence" within his Being, everything good or otherwise is stirred into action. If there is latent within the consciousness rebellion, resentment, or the inclination to judge, it means that all this will be stirred and brought to the surface to be consumed; and I tell you with no uncertainty, unless the student consciously consumes that which is brought forth to the surface, it will consume him. If one finds himself becoming irritated, he should seize the reins, and issuing the command through the "I AM Presence," declare *that this be governed harmoniously*. Here let Me again remind the students that the greatest thing in their progress is Self-correction; and there is no person, place, condition or thing to blame for what they entertain but themselves. This is most imperative for their future progress.

These beloved students have arrived at a point where such subtle conditions must be made clear and thoroughly understood; otherwise they will find themselves facing conditions they are unable to govern.

I repeat again to the students to be greatly encouraged because of the strides they are making in Self-control, the fuller and fuller acceptance of these Mighty Laws of Life, and their willingness to apply the mighty whip of Self-correction; for I tell you frankly and I speak from experience, that the

outer activity which we term the "human" has to be flayed with no uncertainty before it is brought under subjection to the Divine Command.

The reason I gave the use of the Ray or Flame through the hand is because the minds of some are attuning more rapidly than the atomic structure of the body is being raised. This activity of passing the hand over the body will maintain and sustain that equalization of the quickening of the mind and the raising of the atomic structure to its balancing point.

I am so happy and willing to give every Assistance to the students, as are Others, but *there are certain bounds beyond which We may not go* because of the Self-conscious advancement of the students *which they must do for themselves*.

However, every one of them has everything by which to be encouraged; but again let Me urge them that at no time may they divide the attention of the "I AM Presence." To do this means that you are releasing the stream of energy and giving power to outside things and simply delaying your progress.

I speak from experience. It is not possible to divide the attention, for it must *all* be given to the "I AM Presence" *in order to go beyond a certain point of attainment*.

I do not wish to bring any shock to the students under this Radiation, but I must speak the Truth, that if those beloved students who have been brought under

this Radiation are not able to hold their attention *entirely upon the "I AM Presence," it will close the door to Our Assistance to them for a long time*. This need not be done if the students will follow the direction, make the sincere effort every time the attention wanders off, bring it back with firm determination and say: *"I give all power to the 'I AM Presence' which 'I AM'; and I refuse with determination acceptance to anything else ever again."*

I wish to prepare the students that there will come the time when they may not be sustained by Our Messengers, but must rely on their own ability to hold with such a firm grip upon the "I AM Presence" that they will always receive Its Mighty, Sustaining Power.

It is useless and a mistake for any student after months of Instruction to each day, or every few days, allow himself to be thrown into a sense of depression or doubt of the Inner Power or his ability to apply It. This childish attitude of mind will in time shut the door if it is not discontinued.

Each student should take his *positive stand* the *moment* discord of any kind attempts to enter into the mind, and assert his Dominion by declaring: " 'I AM' the Almighty Governing Presence of my Life and my world, and 'I AM' the Peace, Harmony and Courage, Self-sustained, which carries me serenely through everything that confronts me."

It is so important that the students have the

benefit of the manuscripts that We must discontinue the Instruction until they are completed, for according to their ability to accept that which is illustrated in the manuscripts will the "Great Judge" determine what shall next be given. We may not under any circumstances take the student beyond the point where he is well fortified.

I must say, for the protection of the students, that should certain phenomena manifest about them, to be calm, poised, and unmoved by it at all times and to go serenely along, not allowing their attention to be held by it; for it is not unlikely in this number of students that some may have sufficiently generated energy from past understanding at a certain point to produce certain phenomena. In such a case they should always take the firm stand: " 'I AM' the Governing Presence of this, utilizing it in its highest expression and use."

You see, in all this amount of Instruction that has been given, it is but a fragment upon which the student must build. The student must always watch for ideas from within himself upon which to build his expansion.

The first premise for every student on earth who wishes to attain permanent achievement is to first remind himself that: " 'I AM' the Presence and Intelligent Activity." This is the first principle and in It he can never go astray.

I assure the beloved students that they need not crave nor desire phenomena, for the Natural Law of their Beings in their sustained progress will produce abundant phenomenal proof as they are ready for it. In this, mark you, I do not in anywise refer to the appearance of any of the Ascended Ones, for that is an entirely different thing and is really not to be taken as phenomenon of any kind.

I watched with great interest the Inner Activity of the students, Tuesday and Wednesday, and it was very gratifying to see the expansion of that Inner Light within them as the Power of Love grew more intense. It should be remembered by the students that *when they say "I AM," they are making the outer activity a Mighty Magnet for the Light to reach and expand.*

I think it would be very wise for each student to take the attitude at this time, or in the beginning of the use of both the Instruction and the manuscript: " 'Great I AM Presence,' take me within Thyself; there instruct me and cause me to retain the Full Memory of these Inner Instructions."

As Messengers of the Light, this training is very essential, but the idea should not in anywise cause anxiety—or tension in the desire to retain, because an attitude of that kind might easily close the outer memory of the Inner experience.

I cannot help but smile to myself at the closeness with which some of the students are coming to

most surprising things; but I trust they will always find themselves poised and serene in whatever the experience is, knowing that: " 'I AM' the One, Eternal, Self-sustained Life in action," and to forever remove from their consciousness that there is such a condition as so-called death anywhere in the Universe.

The outer activity of the mind and world is a passing maya, shifting as the sands of the desert, and need never cause anyone the slightest concern, for: " 'I AM' the Eternal Life, knowing no beginning and never finding an end."

Out of the Heart of that Great Silence comes the Ceaseless, Pouring Stream of Life of which each one is an individualized part. That Life is you, Eternally, Perfectly, Self-sustained, and the garments It clothes Itself with are of but little consideration, until one comes to the point of recognition wherein the attainment has prepared him for the "Seamless Garment," Self-sustained, radiant with every prismatic color.

Then may one indeed rejoice in that Eternal Garment that is Ever-Radiant and Changeless, which has removed him from the wheel of cause and effect and has made him a Being of Cause only. That Cause is the Radiance of Divine Love, ever pouring and evolving from Its Conscious, Self-poised, Radiant God-Center—the Heart of the "I AM Presence"—which is Eternal Youth and Beauty, the All-knowing Presence, containing in Self-conscious action the past,

present and future–which after all, are but the One Eternal Now.

Such is the eternal elimination of all time and space. Then you find your world peopled with Perfect Beings, your buildings decorated with choicest jewels; you, standing in the center of your creation–the "Jewel in the Heart of the Lotus"–Its petals your Mighty Avenues of Its Perfect Activity.

Such is a humble picture of that which stands before you, beckoning you into your Perfect, Eternal Home and Radiance.

You see, I feel that Glorious Radiance, and if each one, especially the students, could center themselves in the Presence of Divine Love and hold themselves there firmly, what wonderful experiences would come to them–if they would shut out the interference of the outer activity of the mind.

For one to take the attitude that: " *'I AM' the Presence of Divine Love at all times"* would do such wonderful things. To use this Statement and feel it would at all times close the door to the outer activities of the mind.

The solution of every problem is always right at hand because the *"I AM Presence" always holds everything within It.*

A demand is the *impelling of the solution* into expression. "I AM" is the Intelligent, Active Principle within us, the Heart of our Beings, the

Heart of the planet and the Heart of the system.

I cannot refrain from reminding the students again, for they should always know that whenever you say "I AM," you are releasing the One Almighty, Intelligent Energy, Power and Self-sustained Element. Keep at it, and you will come into a condition so supreme, so wonderful.

When you are looking into the physical sun, you are really looking into the Great Central Sun, the very Heart of the "I AM Presence."

You must take the unconditional stand with your body that: "The 'I AM Presence' governs this physical body completely and compels it into obedience." *The more attention you give your body, the more it is the master, and the more it will demand and keep demanding from you.*

When the physical body is either chronically ill or continually showing disturbance, *it proves that it has been given attention over a period of years* to one disturbance or another, and it will never improve until one takes the positive attitude and whips it into obedience.

You can positively produce whatever you want in your body if you will fix your attention upon the Perfection of it—but do not let your attention rest on its imperfections.

For the Ascension: " 'I AM' the Commanding

Presence." Use this often, for it stills the outer activity so you become centered in the Activity of Love.

The *instant* you feel something discordant, turn away from it. You have the Scepter of Power in your consciousness–now use it!

You are to follow Jesus' command: "See no man after the flesh." *It means exactly what it says: recognize no human imperfection in thought, feeling, word or deed.*

A very powerful thing to use in problems is to take the simple consciousness: "God in me, the 'I AM Presence,' come forth! Govern and solve this situation harmoniously." It would do wonders. The whole thing is to instantly draw forth the "I AM Presence" and set It to work.

Jesus said: "Ask, and ye shall receive." "Seek, and ye shall find."

"Knock: it shall be opened unto you."

Say to your Divine Self: "See here, God! come forth and take care of this." *God wants you to set Him to work.* This releases a flood of the God-Energy, Intelligence and Substance which flows forth to do the command.

BENEDICTION: Thou Mighty, Commanding, "I AM Presence"! assert Thy Dominion within the heart and consciousness of each student! Command the Life Activity to express Its fullness! Set Thyself as

a Guard at the door of the mind of each one, so he admits only that which is helpful and harmonious. Bless each one with that power to hold fast and go forth to harmonious attainment. We thank Thee.

NOTES

Cha Ara, his Mother, Nada and Saint Germain were working very intensely on the expanding of the Inner Light within each one who was here. We wished that the students might see from the Inner standpoint. It would be an experience never to be forgotten.

DISCOURSE XXVII

December 24, 1933

CHRISTMAS EVE

SAINT GERMAIN

INVOCATION: Thou Mighty, Majestic Christ Power, now grown to Full Stature! We salute Thee by the Sign of the Heart and Head, accepting the Fullness of Thy Mighty Power made manifest in the hearts of the students and of the people of America. We accept the Fullness of the Light and Its illuminating Presence within the heart and mind of each one, surging forward with such intensity that It carries the courage and strength for everyone to make the needed conscious effort which will enable the "Mighty I AM Presence" to raise the atomic structure into its Full Ascension.

Now I will step aside and let our Beloved Brother speak His heart.

THE DISCOURSE BY BELOVED JESUS

I bring you Love and Salutations from many of the Ascended Host–some of whom you know, and Others of whom you are yet to know.

" 'I AM' the Light, the Way and the Truth" is the Christmas Bell that is still ringing throughout the field

of Cosmic Activity. In the understanding that has been brought to you in the meaning and Power of the Words "I AM," you will find a Charmed Circle in which you may move untouched by human, discordant operation. It is not only a matter of *knowing* the Presence, but in *practicing* the Presence in even the simplest activity; for as you attempt an unfamiliar experience, you many times feel timid and uncertain; but as you learn to use the "I AM" in the solving of your desire or problem, you find growing a confidence that you can apply with a definite assurance.

The students should always understand that it is in the "Great Silence," or stillness of the outer, that the Inner Power flows in its ever-increasing accomplishment; and soon they will come to know that even as they think of their "Mighty Source, the I AM," they will feel an increase of strength, vitality and wisdom which will enable them to go forward with a *feeling* of Mastery that will surely one day open wide the door through the limitations of their human creation into the *Vastness of their True Freedom*.

We so often see in the heart the craving for proof–some remarkable manifestation which will strengthen them on the way. I assure you, Blessed Children of the Light, any proof given outside of yourself is but temporary, but every step proven in and through your own conscious application is an eternal accomplishment; and as you continue to gain

the Mastery through your Self-conscious application, you are not only accomplishing the things in hand, but you are raising the consciousness, until presently you will find that all barriers have gone down.

It is in this manner that the door of human limitation is forever nailed back; and as My outer form was nailed to the cross, so do you, by your ascending consciousness, nail back the door of self-created limitations, and feel and know your Dominion.

To the many students so vitally interested in making the Ascension, I would urge you to use the Statement often: " 'I AM' the Ascension in the LIGHT." This will enable your consciousness to more quickly rise out of the maya of human creation.

It cannot be stressed too urgently that as you live in and accept more fully the Transcendent Power of the "I AM Presence," you will find that not only the outer struggle ceases, but that as you have entered deeper into the Light, *the outer things that you have sought so earnestly will really and truly begin to seek you*–because by that time you will truly and fully realize the unreality of form and its transitory activity. You will then *know that within you and the Light about you is everything you can possibly desire;* and the outer, which has seemed so very important, will have lost its great binding power upon you. Then in the outer things that come to you will come joyous Freedom. This is the true activity of outer things.

As you become more conscious of the Transcendent Powers which are at your command, you will *know* that you can quickly draw to yourself anything you require without harming or affecting another of God's children.

This Truth must be established within the consciousness, for conscientious souls must know this unwaveringly, so they may not at intervals find themselves wondering if it is right for them to succeed when others around them are not succeeding–for your greatest service, I assure you, is to gain the Mastery and Freedom for yourself.

Then you are prepared to dispense the Light without being affected by the human creation in which you must move. Never feel sad or distressed if another of God's Children is not ready to accept the Light, for if he does not come to the Light of his own choosing, it is rarely but a temporary step.

As one begins to gain a conscious Freedom from the body, he understands how temporal these outer things are and how unimportant; but when one enters into the Universal Consciousness, or the Great Cosmic Activity, *one finds to enter into the Light is of all importance*. Then he will know the joy of the Inner Presence and Its Invincible Activity, for which his heart will leap with joy.

Shortly before I became aware of My Full Mission, the Statement stood out vividly before Me: " 'I AM

the Presence' that never fails or makes a mistake." This I knew later was the sustaining Power which enabled Me to BE the Resurrection and the Life.

It is unfortunate indeed that some of the Scriptural Statements have been clouded by human concept; yet "I AM" thankful indeed that many have remained unaltered. Another Statement I used constantly for more than three years was: " 'I AM' always the Majestic Power of Pure Love that transcends every human concept and that opens the door to me to the Light within its heart." I knew later this greatly intensified My True Inner Vision.

In response to the earnest desire within the hearts of many, I wish to say that during the years in which the Scriptures seem to have been unaware of My activity, I was going from place to place in search of the explanation of the *Light and Presence* which I *felt* within myself–and I assure you, Beloved Students, not with the ease and speed with which you are able to seek today. Those of that day in My association were joyous to receive the knowledge of those unchronicled experiences, but owing to the unusual nature of them, it was thought unwise to place them before the multitude.

So it has been through the ages: when the period of transcendent experiences has begun to fade into the yesterdays and those who followed were not sufficiently advanced to realize this Truth, they have shut out from

humanity glories–beautiful and wonderful.

However, at this time there has come to the assistance of humanity the Cosmic Christ Power which became so real to Me. This, through Its natural impulse for expression, is steadily and surely finding Its way into the hearts and minds of a large percent of mankind to the extent that great hope is present that this Activity will enable the veil of human creation to be lifted, so great numbers of humanity will see signs and wonders, and feel them within their own hearts. Then they cannot be turned aside from the Truth by human doubts and fears.

I spent some time in Arabia, Persia and Tibet, and closed my pilgrimage in India, where I met the Beloved Master who had then made the Ascension–although I did not know it at the time. Through the Power of His Radiation, revelation after revelation came to Me through which *I was given expressions or Statements that enabled Me to hold steady the outer activity of My mind* until it no longer had power to disturb or retard Me.

It was then the Full Glory of My Mission was revealed and the Eternal Cosmic Record it was to make, which was to be established at that time for the blessing and enlightenment of the humanity that was to follow.

You might be interested to know that this became an Active Cosmic Record, which is quite different from

any other record made, *in that It contains within It, and does today*, the forward urge or impulse for which the human mind was and is a magnet.

This accounts for the expressions and Statements I gave forth becoming more and more vivid through the centuries; and with the forward impulse of that activity, assisted by other Powerful Rays of Radiation focused upon the earth, it will enable a great number of humanity to become so anchored in the Truth and its conscious application that a transcendent accomplishment will be achieved.

There is no one single step so vitally important as getting before mankind the Knowledge of the "I AM," their Source of Life, and Its Transcendent Power which can be brought into the conscious use of the individual. Within three years it will be amazing how this simple, yet All-powerful Truth will have spread among humanity–for all who will think upon It, practice Its Presence, and consciously direct Its Energy through the Power of Divine Love will find a new world of peace, Love, health and prosperity open to them.

Those who understand applying the Knowledge of the "I AM" need never, never be beset by inharmony or disturbance in their homes, worlds or activities; *for it is only by a lack of acknowledgment and acceptance of the Full Power* of this Mighty Presence that individuals allow human concepts and creations

to disturb them.

The student should constantly look within his human self and see what habits or creations are there that need to be plucked out and disposed of; for only by refusing to any longer allow habits of judging, condemning and criticizing to exist can he be free. The true activity of the student is only to perfect his own world, and he cannot do it as long as he sees imperfection in the world of another of God's children.

You have been given marvelous Statements to harmoniously govern your Life and world. Apply them with determination, and you will succeed.

Another correction many of you wish Me to make is this: I did not say on the cross, "Father, why hast thou forsaken me?" but I did say, "Father! how thou hast glorified me!" And I did receive into the Glories with Me the brother who was on my right on the cross.

There are a number of these beloved students whom I knew personally at the time of the crucifixion, and in giving this Message forth to them, I feel like talking to old friends–for in that Great Ascended Presence, centuries are but an incident, and only as We come into contact with human events is there a cognizance of time.

Beloved students who are so earnestly seeking the Light, try to *feel* yourselves held in My Loving Embrace. Try to *feel* yourselves clothed in that Light–dazzling as the noonday sun. So anchor

within your consciousness the *feeling* of your ability to make the Ascension that each day brings you closer and closer to the Fullness of Its Realization.

Cut loose all things of earth that bind you. Know that in the Love, Wisdom and Power which you accept from your "Mighty I AM Presence" is the Power that does this Transcendent Service.

Always remind yourselves that *God in you is your certain Victory, the "I AM Presence" which beats your heart is the "Light of God that never fails"; and that your power—by the acceptance of this Presence, to loose Its Energy and direct It—is limitless.*

It is My great Joy and Privilege to continue in association with My Beloved Brother, Saint Germain, in pouring forth through My Conscious Radiation a definite Assistance to the students who can accept the Instruction of Saint Germain. This will continue during the entire year of 1934. Do not misunderstand Me—"I AM" pouring out to all mankind, but in this Radiation to the students, "I AM" privileged to give a special Service.

With My Love, I enfold you. With My Light, I clothe you. With My Energy, I sustain you, that you may go forth dauntless in your quest for happiness and the perfecting of yourselves and your world.

I trust this will bring a Radiation that you may feel at will throughout the year, and that your attainment may bring you boundless joy.

" 'I AM' the Enlightening, Revealing Presence, manifest with full power."

JESUS THE CHRIST

SAINT GERMAIN:

I wish to convey My Enfolding Love as a Gift to each of the beloved students–for *Love is the Greatest Gift that can be given.*

December 25, 1933

CHRISTMAS DAY

SAINT GERMAIN

INVOCATION: Thou Mighty, Infinite, Active Presence of the Christ everywhere! We bow before Thy Majesty and Power. Assert Thy Dominion in the heart and mind of every individual throughout the land, causing Thy Wondrous Perfection to express everywhere.

I bring you Greetings of Love, the Comprehending Consciousness and Mastery from the Great Host of Ascended Masters who have looked with favor upon My humble efforts to dispense the Light; and who bring to you Their Love, and clothe you in Their Mantle of Light this Christmas Day.

THE DISCOURSE

O Love Divine! in Thy Magic Power of Transmutation, we assert Thy Power in cleansing and purifying the world of human mistakes and human creations.

Thou art the Eternal Victory–the Golden Pathway

of Attainment for every student of the Light, and through Thy Transcendent Power, the Kumaras start forth Their Mighty Radiation for the Blessing of the earth and mankind for the entire year of 1934.

Thus will mankind find many desirable changes taking place–greater health, happiness and prosperity being restored, a deeper sense of Love, and a greater desire for Justice in the hearts of mankind everywhere.

In many channels, human selfishness will be greatly transcended through the feeling of Pure Love which will generate within the heart, enable them to govern the human sense, and cause them to involuntarily desire to bless.

It is My Wish that every one of the students send forth this Truth in conscious Radiation at least once a day: "God, the 'Mighty I AM Presence,' is governing with Invincible Power *everywhere* in the hearts and minds of mankind."

Those Masters from Venus who visited the Royal Teton and who will again visit It this New Year will start forth a *definite Activity* to consume the subtle attempt to generate and bring into outer activity another war.

Shamballa is loosing Its Powers, which for many years have been drawn within Its own compass.

The Golden City, Whose Rays are sent in all directions like the spokes from a wheel, is performing

a Service for mankind that It alone can do.

If mankind could know and understand these activities for what they are, such marvelous changes would take place in the outer world as even the advanced would hardly conceive possible.

On New Year's Day, the Cosmic Wheel of progress will have reached a point where, in personal activity, much of the free will of individuals can be set aside. This brings a Joy and Hope unspeakable to the consciousness of Those serving from these Transcendent Spheres of Activity.

Thus, O Students of Light! can you understand the magnificent Assistance that is yours to be had by stilling the outer and reaching forth for It. *I plead with you, Dear Students, shut your minds against the ignorance and inharmonious suggestions of human beings everywhere*. I say to every one of you: Freedom in every way stands at your door–if you will but keep your personality harmonized and refuse to accept inharmonious, sinister suggestions from the atmosphere and from those you contact in mortal form.

It is imperative that this be done if you wish to bring into your world, joy, beauty, opulence, and Perfection of every kind. It is not Our intent or desire to intrude a single thing upon your free will, but oh the Joy that leaps within Our Hearts when We see the students taking hold, comprehending and applying these Transcendent Laws–which *We know* mean their

certain Victory. And may I reiterate what We have said before: there is no single thing so vicious in the human activity as that personality or suggestion which would try to turn the student from the Truth and Light which would be his Freedom.

In connection with this Mighty Cosmic Activity, the student should work with great determination, consuming all past and present inharmonious creation. Every time your thought and desire reach forth in this manner, *great currents of energy will come to your assistance to sustain and help you*. This is part of the present amazing Assistance sent forth to the earth. The Silent Watcher has waited for two hundred thousand years for the Cosmic Wheel to reach this point–the coming New Year.

Again I assert that never in the history of mankind has such Transcendent Activity been ready to rush to your assistance. I plead with you, O Beloved Students! Is it not worth all your determined effort to act in accordance with this Great Blessing which makes your struggle for Freedom from human self-creations so much easier?

Beloved Students! How deeply My Heart rejoices to see within you the intense desire for the Light and your determined effort to apply these Unerring Laws, which will as surely give you your Freedom as you apply them.

I wish to thank all the students for their joyous

desire for the limitless distribution of *Unveiled Mysteries* and *The Magic Presence*. In this great desire, Beloved Ones, is a service that you can little comprehend as yet its far-reaching Blessing.

I feel greatly blest this day of devotion to the Christ, to feel the Love from the many pouring out to Me; and I assure you, Blessed Ones, that I shall come back to you with all the Loving Power at My Command to assist, enlighten, and bless you.

In the special Service that Jesus has decided to give forth, you are surely blest indeed. Try to *feel* this Wonderful Truth with the deepest intense feeling you can command. Open your arms, hearts and minds to the Glory of this Radiation, and as you can do this more fully and completely, you will see how quickly all disturbing and limiting conditions about you will disappear.

I plead with you, Beloved Students, do not continue to limit yourselves by human concepts. *Declare and feel your amazing ability* to use these Laws and direct this Mighty Energy to your Freedom and Perfection. Try to realize that your human form is not a dense creation, difficult to manipulate. Try to feel it a transparent substance that follows your slightest direction. Speak to your body! Command it to be strong, receptive only to the Ascended Master Consciousness, to be a Perfect Expression of the Divine Power of the "Mighty I AM," and to take on

Its Beauty of Form and Expression.

Review in your experience the *powerful determination* you have had at times to accomplish success in the outer activity of things, and then realize how much *more powerful* your determination can generate to attain your Eternal Freedom.

Believe Me, Beloved Ones, when I say to you: there is but your human creation that stands between you and your Freedom from all limitation. *That creation is no greater an obstacle than you accept it to be.* If you take away from that creation its power to limit you, *any hour, any day,* you may joyously step through that veil into your world of the "Electronic Presence," so beautiful, so joyous, so filled with the Dazzling Light of Its Glorious Presence, and move there forever in the Light of Eternal Glory. Then as you step back through the human veil for service in the outer activity, you will still continue to *feel* the Glory of the Transcendent Being *which you are.* Then naught of your own outer conditions or those about you will touch you or affect you in any way.

My whole Being thrills with this Joyous Anticipation for you, as I know with a definite certainty your attainment. To any who would let the suggestion of the ignorance of other human beings turn them aside from the Path, I wish to say, just remember what awaits you–what it is within your ability to achieve and *be.*

Remember again, again, and again, that as you grow into more and more intense acceptance of your "Mighty I AM Presence," the outer problems which have seemed so terrifying will surely fade from appearance.

Thus not only is your problem solved, but every step gained in this way does not reappear. Instead, it becomes your Eternal Freedom. If it is financial freedom you crave, I plead with you to take the outer activity of your mind off the appearance and place it upon your "Mighty I AM Presence," the only Giver of all the Mighty Opulence there is. Stand firm and determined in this, and you will have all the money you desire to use.

Life does not limit you! *Opulence* does not limit you! *Love* does not limit you! Therefore, why allow your human limiting concepts to bind you longer?

Beloved Children of the Light! Arise! in the Mighty Glory of your True Being. Go forth! a Mighty Conquering Presence. Be! "the Light of God that never fails." Move! clothed in the Light of the Transcendent Glory of your God-Self–and Be Free!

BENEDICTION: "Mighty I AM Presence"! Transcendent in this Christ Activity! We give to Thee our eternal thanks and gratitude for Thy Love, Glory, Freedom, and our conscious ability and power to accept the Fullness of Thy Glory made manifest in the outer activity of our lives; that

we stand with firm determination in Thy Light, *directed* by Thy Wisdom, and *forever sustained* by Thy Transcendent Love, anchored within our hearts.

BELOVED ARCTURUS' DISCOURSE
ON THE
MUSIC FESTIVAL AT SOLDIER FIELD
[CHICAGO, ILLINOIS]

It is Saint Germain's request that I voice to you the Mighty Accomplishment at the Music Festival last night.

May I first refer to My own humble efforts, in conjunction with Those at the Royal Teton on New Year's Day two years ago. It was then decreed that the Century of Progress Exposition should be a Focus for a constructive activity which should ever expand and increase in intensity during the next one hundred years. The opening and lighting of it was the Initiatory Step that is to usher in the beautiful, magnificent Golden Age, which is signalized in that activity.

This has made Soldier Field sacred ground, a Sacred Altar of Divine Activity in the Western World, and so far as humanity at large is concerned, the hub of the whole of America.

A volume could be voiced on all that took place and that which led up to last evening, but owing to the human sense of time, this must be greatly

condensed and but an outline given.

Before proceeding with this description, I wish to call your attention to the unparalleled number of pageants of all kinds, of many nationalities, that are being held in Soldier Field this summer. These cover the period from the Ascension of Jesus down to the present time. They give acknowledgment of the Ascension—which is the most vital thing and the culmination of all human experience.

These pageants, from the human standpoint, are a calling forth of the latent memory in humanity at large and are a raising of the Essence of that activity.

How easy it is for humanity to pass over transcendent activities because of their unbelief, acknowledgment or acceptance of the True Perfection of Life, for all Life in manifestation is *God in Action*. Unfortunately however, It is more often colored by human concepts of limitation and destructive qualities which, through the individual's power of free will, everyone is at liberty to do.

This ere long, however, will be greatly remedied by the setting aside of the greater part of the human free will as it is known today. This will enable much of humanity to be awakened and saved from their own destruction.

Here may I say that the students who think they can play with the Great Law, because of their unwillingness to give the necessary Self-discipline, will find themselves

unfortunate indeed if they attempt it when once having entered upon the Conscious Path.

The Great Law, which does not discriminate, takes individuals at their words and feelings. Those who think they can escape this are but deceiving themselves.

The coming pageant of the Celts is really of great importance, for it enters into the vibratory action from the time of Jesus up to the present.

The Inner Activity within and above Soldier Field last night was one of the most Divine Activities since the advent of the Kumaras into the presence of the earth.

Circle upon circle rose above the surface of the earth and those seated within the field. The first circle was formed by the Members of the Great White Brotherhood in their Golden Robes, being those whose outer forms have not yet made the Ascension.

Next came the Ascended Host of Masters who have made the Ascension. Then came the Angel Devas and seven of the Cherubim. The circle above Them contained four of the Gods of the Mountains, three of whom you know, the other you shall know. Around these were the Archangels, of whom the Archangel Michael was the Director.

Surrounding the "Core of Light" within the center of the Field, extending for two hundred feet within the earth and to five thousand feet above,

were Saint Germain, Jesus, the Tall Master from Venus, and the Great Divine Director. They were the Dispensers of the Mighty Currents of Energy sent to all parts of the earth to do their work with no uncertainty.

During the singing of the "Holy City," the Divine Pattern of that which is to become the "Holy City upon earth" was lowered into Its position, where It shall remain–until It becomes a visible, vibrant City of Light to the westward. The exact position of this I may not disclose at the present time, but I assure you, it was a Mighty Activity which will become a Mighty Reality to the humanity of earth.

During Mr. John Charles Thomas' solos, that great vibratory action was taken up and re-echoed by a Great, Majestic, Celestial Chorus, whose Radiance poured forth over America like a Glistening Shower of Light to consume and bless.

During the singing of the Hallelujah Chorus, the entire activity was turned over to the direct dispensation of Jesus Himself.

I wish to assure you that the set pieces in color were not just a human idea, but those responsible for their presence were inspired by the Ascended Masters, principally Saint Germain, in order to establish their renewed, powerful activity, which was intensified a thousandfold or more to again act within the Life, the Soul, the Light from the heart

to the periphery of America and the world.

The representation of signing the Declaration of Independence was to bring before the conscious attention of the earth, and especially America, its unparalleled activity upon the earth; and *to call it to the attention of the people of America, that they might hold close to and stand by the Original Constitution of the United States, which was and is a Divine Creation,* until such time as the complete Ascended Master Constitution of the United States of America shall come forth, as the advance of the Golden Age proceeds.

The Golden Eagle and the Shield represent the Height of Divine Protection for America, again reestablished.

The Bell of Liberty in the power color of blue represents the Glorious Liberty and Freedom forever for America and the earth from all human selfishness, the instigator of which in every case is private profit, and the cause has been the same throughout the ages.

The four powerful Blue Rays that formed a canopy over the field, thought to be ordinary by the mass of humanity, represented that Fourth Dimensional Activity brought into visibility upon earth; and *if it be necessary for the protection of America, the Jewel in the Heart of God, then that "Blazing Light as of a Thousand Suns" shall descend upon earth and consume all human inharmony and selfishness from the planet.*

The fan of Pink Light at the beginning was qualified to serve in the entire activity, and the Great Love Star stood above all, shedding Its Rays through the tier above tier of Great Beings.

I congratulate you and this good Brother, and those many students of our Beloved Saint Germain, and I thank you all for your earnest, sincere work in behalf of the Freedom of America. May the activity of these beloved students of Light ever continue to expand, until from this Nucleus, the Light of Its Radiance covers America.

I also congratulate our Beloved Saint Germain for His Great Accomplishment in establishing this Nucleus and Focus in America; and *for His Wonderful Love, His Light, His Work for America for nearly two hundred years, which ere long will begin to bear fruit of such perfect kind as has not been heretofore in any civilization.*

I bow in acknowledgment of His Great Love, Wisdom and Strength. I congratulate you, My Beloved Sister and Brother, for your Love, steadfastness, patience and activity for the students that have been and those that are to follow. Ever know that: " 'I AM' the Only Acting Presence," and you will find that all activity will conform to the *"Perfection of that Presence."* I bid you adieu but not good-bye.

BELOVED SAINT GERMAIN'S THANKSGIVING DAY DISCOURSE

Beloved Students of the Light, today is indeed one of the greatest days of thanksgiving that I have experienced in one hundred years. To see how the Light, acknowledgment and acceptance of the "Mighty I AM Presence" is being received and utilized by the hundreds of students in America is truly a time of rejoicing and thanksgiving.

Not only do I pour forth my Love and Blessings to the students, but the entire Host of Ascended Masters, the Great Cosmic Masters, the Great White Brotherhood, the Legion of Light, and Those ministering from Venus join in this praise and thanksgiving for the True Light that is being spread among mankind.

I do and shall deeply appreciate every assistance of the students under this Radiation in getting the books into print and spreading them before humanity, for it is the greatest Service at present that can be rendered.

The greatest need today is in calling the outer attention of mankind to the "One Great Source"

which can give the needed Assistance; and that is the "Mighty I AM Presence" and the Host of Ascended Masters. The *attention of individuals* fixed upon this Great Source *gives the opening needed* for the Outpouring of the Great, Eternal, Cosmic Light to flood forth into the outer world, reaching not only the consciousness of individuals, but into conditions that greatly need readjusting.

It is My Wish that all the students under this Radiation feel their individual responsibility in this respect: to keep their minds and bodies harmonized, and to keep charging their minds and emotional worlds with the Directing Wisdom and Perfection of the "Mighty I AM Presence." This will enable Assistance to be given humanity which the outer could not possibly conceive of in its heretofore limited condition.

I wish each student to understand and feel deeply that the Great Ascended Masters and Myself stand ready to give every Assistance to the individual that the Law of his Being permits. The need of the students is always to stand firm and unyielding in the Presence until the outer human creation about them is dissolved–consumed; and then the Mighty Light, Wisdom and Power of the "Mighty I AM Presence" will flood their minds, Beings and worlds with this Glorious Radiance, filling them and their worlds with that harmony, happiness, and Perfection which every heart so much craves.

I urge ALL to do definite, conscious, protective work for America, that the Cosmic Light and Eternal Perfection enfold the earth, removing and consuming all discord; and continue to bless persons, places, conditions and things, for It is the Mighty Miracle-working Activity which will usher in the prosperity and happiness that all so much desire.

It is My Great Joy to report to you that already great protection has been given to the eastern coast–from Philadelphia to Maine. If this protection had not been given, some of your cities would have been in ruins today.

This, Beloved Ones, is what it means to bring a Mighty Focus of the Ascended Masters into your midst. Only as your Inner Sight is opened to see and know the True Reality can you have a small concept of the Truth which I have just spoken.

May your hearts fill with joy, and may you work earnestly for the health, success and prosperity of the Messengers–who have been the channels through whom this Focus of Protection has been given. Unfortunate indeed are those who criticize the Messengers or the Work. Better had they never been born in this embodiment.

Beloved Students, try with all sincerity to feel the Reality and Infinite Blessings of this Work, that your world and America may reap the great reward of that Blessing.

Words are inadequate to tell you the fullness of My Gratitude for your earnest, sincere effort. Your ability and power to bless and prosper will ever increase as you hold firmly to and within your "Mighty I AM Presence."

My Love enfolds you; My Light illumines you; and the Wisdom of the "Mighty I AM Presence" prospers you unto the Fullness of all Perfection.

The Love of the Mighty Host of Ascended Masters, the Great White Brotherhood and the Legion of Light enfold you always.

"I AM" sincerely in "The Light."

SAINT GERMAIN

DISCOURSE XXXI

December 25, 1934

BELOVED SAINT GERMAIN'S CHRISTMAS DAY DISCOURSE

SAINT GERMAIN

It is with Great Joy that We are observant of the tremendous accomplishment–individually, nationally and Cosmically speaking, for when we have the use of and can cooperate with those Great and Mighty Cosmic Currents of Energy directed by that Great, Wise Intelligence, then we know that every step moved forward brings us nearer and nearer to that Mighty Glory and Freedom which many are learning to feel and rejoice in.

How different all activities are when working in conjunction with that Great, Cosmic Wisdom which is no longer compelled to withhold Its Mighty Energy because of the free will of the individual; for now the Cosmic Activities of the nations are of first consideration; then comes the individual.

Heretofore, because of the individual, certain Cosmic Activities had to wait. Now the Great Cosmic Wheel has turned, bringing all national, emotional and mental activities into that Great Preparation where every cog of the wheel must fit into the Cosmic Reality.

The free will of the individual still binds and limits the outer sufficiently, so there will be many individuals and conditions in which it will be as though they were being run through great rollers in which all undesirable qualities are pressed out, and by the power of the Consciously-directed Flame, are consumed.

The Mighty Radiance, consciously directed by the Great Host of Ascended Masters from the Great Central Sun, is not only having tremendous effect on the minds and feelings of mankind on the surface of the earth, but far within the crust of the earth itself. Hence it has been possible to avert many great disasters.

Here I want to say in Great Love, Gratitude and Blessing to the hundreds of students who have been projecting the Mighty Love, Wisdom and Power of the "Mighty I AM Presence" into the mental and emotional world, and assure them that a gigantic work has been accomplished; for if mankind and the beloved students can once understand that all cause rests within the mental and emotional worlds, then they will have reached a point of understanding wherein they know with complete assurance that the outer activity of mankind must and will come into Perfect Order when the only cause–the mental and emotional activities–are corrected and held in subjection.

This is how so much has been accomplished, even since last June. Here I want to assure those

who have had some questioning in their minds, "Was it really true that great devastation had been averted?"–that one day they will see and know the Truth of which I have spoken.

Since three hundred years after Jesus' ministry, mankind steadily and surely drifted back into dealing with effects instead of causes, and that is why no permanent assistance has been possible to be given. Now with the Assistance that the turn of the Cosmic Wheel permits, it is possible to bring the consciousness of mankind back into dealing with the cause–and the effect, if out of order, must disappear.

This is why the knowing of the "Mighty I AM Presence," Its Powers and Whereabouts, is bringing the students to deal only with *that One and Mighty Presence, whose Cause is Full Perfection,* as hundreds of these students are proving for themselves. When their attention is fixed upon the "Mighty I AM Presence," they are dealing with the *One and Mightiest Cause, whose One and Only Expression is Perfection*. Therefore, their worlds first become filled with ease and rest, and through that, they begin to feel the Glory of this Mighty Presence. As they begin to feel It, they realize that they can reach forth to this "Mighty Presence" consciously and release such a Mighty Avalanche of Its Mighty Energy that the human does not even have time to requalify but a fragmentary part with its limitations and inharmonies.

Therefore the strength which is required to give the Eternal Proof to the individual is sustained. Thus, through the individual's own Self-conscious effort, comes the greater and greater recognition of the possibilities within his conscious grasp. Mark you, I say, *conscious* grasp, for it is only through first, conscious acknowledgment; second, acceptance; and third, application, or in other words, *consciously directing this Mighty Intelligence* and Pure Energy, that the outer, or human, is kept dissolved enough for the outer to truly grasp these Mighty Activities.

Oh the pity mankind has believed so long, and many individuals very sincerely, that they could cure hate, condemnation and criticism with those same qualities. How futile and tragic has been this false concept. Believe Me, O Children of the Light! Hate never cured hate and never will. Condemnation and criticism never cured their kind, for as We have so often said to you: that which your attention and vision is held upon, you are qualifying and compelling to come into your world–abide and act there.

With all We have said and given forth, so little has been grasped of how much the personality is constantly qualifying the very atmosphere and conditions about it with the things it does not want, through the belief that it can continue to have any kind of feeling and speak words of discord, hate and limitation, and still be unaffected by it. This stubborn, false concept of mankind

has filled the world with all kinds of tragedy.

Now this Mighty, Eternal Light is being released to show mankind *why* the outer world has been so filled with tragedy. If I were to show you for one half hour how much selfishness has been removed from the mental and feeling world of humanity since these Classes of the "I AM" began, you would scarcely believe that so much accomplishment in so short a time could have been possible. It could not and would not have been possible, except for this *Mighty, Eternal Radiation of Light from the Great Host of Ascended Masters, from the Great Central Sun, the Masters from Venus, the Silent Watcher, Cyclopea, and the Mighty Gods of the Mountains.*

All this is making possible the achievement for which the Legion of Light and the Great White Brotherhood have labored for centuries. For over fourteen thousand years, this Work has continued without cessation, the Great Ascended Ones seeing the Victory from the beginning; but oh! the Infinite Patience, to wait upon the waywardness of mankind, century after century. Yet was there no single thought of impatience, or: "Why does not humanity change?" It is only within the compass of human thought and feeling that judgment and impatience enter in.

Not for seven thousand years has there been such rejoicing at the Inner Octaves of Activity for mankind as comes with the ushering in of 1935. While it is true

there will be some great extremes in both constructive and destructive activity, yet the forward impulse is so great that many of the destructive things will pass with much less notice than otherwise would have been.

As more and more of the students of the "Mighty I AM Presence" realize that their thought and feeling are the only causes in their worlds, and that it is entirely within their province–within their ability and dominion–to govern their thought and feeling, then they will know that to govern these harmoniously, sustaining this activity, will fill their worlds with Eternal Perfection.

This day, when the great feeling and thought are fixed upon the Christ Activity, it has made possible as never before the filling of the mind and feeling world of mankind with this "Mighty Cosmic Christ Presence."

Thus can you understand how great is Our Happiness on this Christmas Day–to see the Goal of the Freedom of mankind in sight. Once they learn to withhold all power they have given the screaming human appearances, then individuals will see how quickly those appearances will disappear; for no kind of discord nor human limitation can be sustained unless by the thought and feeling of individuals.

Therefore, O Beloved Students of Light! to every discordant, limiting appearance, say: "Get thee hence, thou powerless human creation! I know

thee not! My world is filled only with the Mighty Perfection of my 'Mighty I AM Presence.' I take away from you, foolish appearance, all power to harm or disturb. *I walk henceforth in the Light of the 'Mighty I AM Presence' in which there is no shadow, and I am free, forever free."*

I say to you, O Beloved Students! Do not fail to charge your mind, body, home, world and activity with the Mighty Love, Perfection and Intelligent Activity of your "Mighty I AM Presence."

Send forth through conscious projection, like the belching forth of a great cannon, the Mighty Violet Consuming Flame, consuming everything undesirable and imperfect in your world of activity. *Consciously qualify this with the "Full Power of Divine Love in Action."* Then see and feel what great beauty, happiness and Perfection you will experience as you move forward.

I urge the students, with all the earnestness of My Being, to constantly charge *everything* within the activity of their thought and feeling with Love, Opulence and Perfect Achievement.

Do this qualifying with dynamic energy! Put great feeling and sureness back of it, and you will find such changes taking place in your world of activity and environment as almost to compare with the rubbing of "Aladdin's Lamp."

I say to you beloved students, with all the Love of

My Heart: *Use! Use! Use! this Mighty Application to your Freedom.*

When you call the Mighty "I AM Presence" into action, into your Life, environment and activity, all struggle ceases. The undesirable moves out and the "I AM Presence" moves in; and you find that you have truly entered into a new world, filled with the Happiness and Perfection you have always known existed somewhere within your own heart.

Beloved Ones, no matter how humble your present position seems to be, by calling your "I AM Presence" into action, you can transform everything within your world and fill it with the Perfection that you desire to have there.

– VERY IMPORTANT –

Train yourselves to still the outer, if only for five minutes, three times a day. At the end of that stillness, with all the calm earnestness of your Being, call the "Mighty I AM Presence" into action, and you will have all the proof in the world you wish of the Presence, Power and Dominion of your own "Mighty God-Self."

The Beloved Master Jesus wishes Me to extend His Love and Assurance that He will give forth His Special Radiance to the students under this Radiation for the entire year of 1935. He will not dictate over the Ray today, but will on New Year's Day.

This is the Christmas Message which the Host of

Great Ascended Masters, the Legion of Light and the Great White Brotherhood give to you today:

"May your hearts, O Beloved Students, be filled with Our Eternal Presence of Divine Love; and may you become so charged with Its Active Presence that Its very Radiance becomes an Eternal, Consuming Activity, keeping out everything but the Eternal Light of Perfection."

I charge the mental and emotional world of humanity with Our Eternal, Active Presence of Divine Love, manifest everywhere in the hearts and minds of mankind. In the Name, in the Power, in the Love of that Eternal Light and Perfection of the Universe, I send forth the Consuming, Purifying Flame throughout the earth—freeing mankind, controlling the feelings of mankind, and holding them in the Governing Presence and Perfection of Divine Love, now and forever.

With all the Love of My Being,

SAINT GERMAIN

DISCOURSE XXXII

January 1, 1935

BELOVED JESUS' NEW YEAR'S DAY DISCOURSE

As We look upon the accomplishment of the past year from the Higher Octaves of Light and then come into your octave of human activity, We see and feel the great change which has taken place, even in one year. It is truly most encouraging, most assuring, of the ultimate goal of Victory in the Freedom of mankind from the chains and limitations of their own creation. After all, the pity is mankind does not understand that the human activity alone is the only creator of limitation and inharmony there is.

In other words, through the ungoverned activity of the outer, personalities allow themselves to constantly requalify the Perfect Energy–the Pure Essence of their own "Mighty I AM Presence"–producing all that is undesirable, when it is within their ability to keep themselves so harmonized that the Perfect Intelligence and Energy flowing through the human form could not and would not be requalified. Therefore it would constantly do Its Perfect Work, not only in perfecting the human

form, causing it to express Divine Perfection, but it would allow that Purity and Perfection to flow out into the individual's world, producing the beauty, harmony and success each heart so much craves.

Q. Why does almost everyone desire greater beauty, Perfection and abundance of every good thing?

A. Because it is an Inner Recognition of each one's own God-given Dominion, which everyone can assert at any time. I assure you, Beloved Children of Light, that every individual can assert his Dominion at any time *if he only will–by his recognition and acceptance of his own "Mighty I AM Presence"*–for that enables this Mighty, Invincible Presence to become the Mighty, Directing Intelligence.

Therefore, do you not see that to this Mighty Presence there is no obstruction–therefore no struggle, no interference of any kind? This is why the old Scriptural Statement so long used: "Be still, and know that 'I AM' God," can be made a dynamic Power in one's Life. This "being still" means the harmonizing and quieting of the outer mind. In the past year, We have drawn attention to many of the Scriptural Statements, giving more explanation of their true meaning. This year We hope to bring forth a full and complete explanation of all the "I AM" Statements used through the centuries–that mankind may have the evidence before their own eyes of the Freedom and Dominion which is within their own grasp.

We rejoice and give thanks that this year will release such abundant financial support for this Work that Boundless Light and Blessings will be brought to mankind. In all past Golden Ages when the Great Light of the Higher Octaves descended into the earth, enfolding and dissolving the human creation about individuals, they were so enabled to reach into the Higher Octaves through the Inner Sight, Hearing and Feeling that they knew, firsthand, the True Reality; and that the outer form was but the garment of this All-wise, Supreme Intelligence which the "Mighty I AM Presence" used to find expression in the denser octave into which the human had drawn itself.

Can you, O Beloved Students of the Light, even for a few moments, realize what Joy this brings to the Hearts of the Host of Ascended Masters who have freed themselves through Self-conscious effort from these same human limitations which you are now experiencing? As these Beloved Messengers have come to know with full assurance that Freedom, so all mankind will one day understand that everyone can make the necessary, Self-conscious effort in the recognition and acceptance of this "Mighty I AM Presence" and have this same Freedom.

Do not let anyone of the beloved students make such a mistake as to think that the "Mighty I AM Presence" is going to act independently of the individual's own Self-conscious effort. *This never is*

and cannot be done. It is true that after the student has reached a certain point of attainment, the Law seems to begin to act almost automatically, but this is only because a charged momentum has been built and established about the individual. Let Me make clear to you now *that never until you have made the Ascension do you cease to make conscious application for your own Freedom*.

Today I am going over some of these simple, yet All-powerful acknowledgments of the Truth because I wish every student under this Radiation to have a copy of this–so each one may read it once a day; for to those who will do this earnestly and conscientiously, I will give forth My own Individual Radiation to bless them and assist them to their Freedom.

You have been asked throughout the past year to charge your mind, body, home, world and activity with the Perfection of the "Mighty I AM Presence." Now, with your permission, I shall assist you, and also charge your Being and world with this "Mighty Perfection and Abundance."

"I AM" offering this Assistance to you, O Beloved Students! Let no one be so foolish as to doubt, for "I AM" the Jesus, the Christ of Galilee that you have known of for the past two thousand years, who is dictating this Discourse and offering this Assistance to you.

Again let Me assure you that this Work of Saint

Germain and Myself is entirely different from anything that has been given forth to the Western World, because in this Work there are no human concepts nor opinions. It has not been possible to do this heretofore—until the Visible Light and Sound Rays could be established through which knowledge and instruction could be given. If you beloved ones, as students, can realize this, how great will be your Blessing and benefit.

The protection which has been given America and certain other parts of the world during the past few months has transcended anything I have ever known in My experience. Oh! if humanity could but realize this, how gladly and willingly would they cooperate to their utmost to sustain it—so its All-powerful Activity might ever increase.

We can but call your attention to the Truth, the Reality as We know it to be. When you can fully accept this Truth and apply it in your world and activity, you will have all the proof required in your own experience to enable you to know the Full Power of the Truth of which I have spoken.

To all who can accept this Truth, it will enable Me to charge their consciousness and fill their worlds and activity with this Truth. They who doubt must wait, for doubt and fear are the two doors through which every human being must pass to know and have his Full and Complete Freedom. The key that unlocks these

doors is Divine Love in each one's acknowledgment of his own "Mighty I AM Presence" as the Fullness of the Power of Divine Love Acting.

The Door to the Seventh Octave of Light stands open to everyone of the beloved students under this Radiation who will make sincere, earnest, Self-conscious application. This, My Beloved Brothers and Sisters, means your Freedom. *Can you, will you, grasp this with the full Power of your "I AM Consciousness"—and be free?*

As "I AM" dictating these Words to the Messengers through amplifiers which your outer world has not yet known, these Words and this Radiation are going forth into the mental and feeling world of humanity, which will immediately start into operation; and as the students and individuals contact these Words from time to time, they will find an immediate response which will enable them to *feel* the Truth and the Reality of which I speak.

Oh! that humanity, who through church service after church service are acknowledging My Ascension, oh! why can they not feel the True Reality—and know that in My Ascended, Eternal, Light Body, I can and do reach all who will open their hearts to My Reception? O Children of Earth! Learn to couple your *feeling* of the Truth with the acknowledgment of the Truth that you wish to have manifest in your Life. Then you will be enabled to go forth to any height

of achievement in your quest for Freedom.

"I AM" the Open Doorway which no man can shut! Your "Mighty I AM Presence" is the Truth, the Way and the Life. Your "Mighty I AM Presence" is the Light that lighteth every man that cometh into the world. Your "Mighty I AM Presence" is your Directing Intelligence, your Exhaustless, Sustaining Energy. Your "Mighty I AM Presence" is the Voice of Truth speaking within your heart; the Light enfolding you in Its Luminous Presence; your Eternal Belt of Protection through which no human creation can pass; your Eternal Reservoir of Exhaustless Energy which you can release at will through your conscious charging. Your "Mighty I AM Presence" is the Fountain of Eternal Youth and Beauty which you can call into action and expression in your human form today. Your "Mighty I AM Presence" is your Resurrection and the Life of your body and of your world of action into that Perfection which the heart of every human being so much desires.

Listen, O Beloved Students of Light! When you are uttering these Decrees for yourselves and "I AM" uttering them for you, do you not see that we are doing it for all the rest of mankind as well as ourselves? That when you issue a Decree of and through the "I AM," you are issuing that for everyone else as well as yourselves? This is how the application and expression of the "I AM" becomes all-powerful, exhaustless in Its

Activity, and forever acts beyond the realm of human selfishness. Why? Because you are asking for every one of God's children the same Perfection which you are calling into action for yourselves.

This is not possible except in the use of the "I AM" Statements and Application, for acting within the "I AM Presence" takes you *instantly* out of the activity wherein there is human selfishness. This is why the earnest, sincere student who will cast out all doubt and fear will find himself or herself acting within a sphere of positive, definite activity which knows no delay or lack of accomplishment in anything. Then, O Beloved Ones! do you not see how you are then acting in a World of Infallibility, wherein your Decrees enable the Full Power of the "I AM" to move into action, causing all human inharmony and limitation to move out?

I now voice the Decree that the Host of Ascended Masters and students issued last night at the Royal Teton: *"Such Freedom, Health, Prosperity and Harmonious Action shall come forth for America and the world as have never before been experienced on earth!"*

The students who will join Us in this Decree will render a service which will bless them throughout the ages. *Only because America is the Cup—the Holy Grail*—do We often speak of America first. All should know without question that what blesses

America blesses the world.

An Activity, a Radiance such as has not been known since the height of the last Golden Age on Atlantis was sent forth from the Conclave at the Royal Teton, the description of which Saint Germain will give you later.

The Fullness of my Love, Light and Blessing I leave with yourselves, all the students and all mankind; that the Light within each heart may be so quickened that you and they will no longer know limitation of any kind, and the Light becomes so powerful that Its very Radiance consumes all human creation accumulated through the past or present, setting all forever free.

My Love enfolds all forever,

JESUS THE CHRIST

SAINT GERMAIN

INVOCATION: Mighty, Sustaining, Enfolding Presence! We give praise and thanks for Thy Life Everlasting, Thy Youth Eternal, Thy Light Illumining.

THE DISCOURSE

O America! WE LOVE YOU! Mighty Seed of God's Eternal Manifestation, we give praise and thanks that Thou art sustained and governed by God alone. The day on which independence within thy heart was established, thou didst become a Radiating Center of Light to all humanity. We give praise and thanks that out of all will come peace and prosperity to mankind in thy embrace. *Back of thee is the Power that will sustain and maintain the Reign of God on earth.* His Light shall illumine and strengthen the hearts of thy children in all ruling places; and out of all shall come Love, Justice and Wisdom. America! we love you. America! we love you. America! we love you. America! we love you. America! we love you. Today, O America, those Mighty Messengers of God who

have passed before look upon thee with their hearts filled with Love and Strength, the Love of the "Mighty I AM Presence" flowing forth to heal, to bless and to prosper thy inhabitants. The very substance of earth is being quickened into greater activity; and as the Children of God walk the earth, so shall they feel the *Current of God* flowing in, quickening them into greater Love, Loyalty and desire for thy Freedom. O America! Thou dost seem to have become bound, but thou art not. Thou art entering into thy Great Freedom. Thou dost seem in the throes of pain, but thou wilt be born into that great peace, health, happiness and prosperity. We give praise and thanks that this is God's Wisdom–the "Mighty I AM Presence"–speaking.

The Christ Child enfolding thee America has grown into Majesty and Power. It no longer pleads, but commands obedience of all that is of the outer to the service of the Inner Presence. The Power of Divine Love governs thee and consumes all unlike Itself. America! we give praise and thanks that thou art a Great Jewel within the Heart of God, the Lamp of Illumination, lighted by the "Mighty I AM Presence," the Chalice, the Crystal Cup, holding within Its Pure Radiance the Freedom, Peace, Health, Prosperity and Illumination of those who dwell within thy embrace. May all the world feel thy Radiance and be blest by It. Peace! Peace! Peace! And on earth Goodwill to man.

ARCTURUS

NOTES

I would suggest that sometime each day you think of yourself as a radio station sending forth Peace and Goodwill to all mankind. Know that in this Mighty Consciousness, the Limitless Power of the "Mighty I AM Presence" flows forth to each individual and gives that which he is ready to receive, bringing enlightenment and decision to everyone. Be conscious that your own minds are such powerful Divine Centers that at any time you can make quick, unerring decisions through the Power of Divine Love. Recognize that your mind is but a vehicle of the Great Master Presence of the "Mighty I AM Presence" within; and that it is to obey that Inner Presence at all times. Command it always to act with decision, alertness and quickness, and that all human sense of wavering be forever consumed.

THE NEW CYCLE

Today is a focal point of ten thousand years, the beginning of another cycle of ten thousand years in which the Great Ones from Venus who have always been instrumental in the upliftment of humanity and our earth, this day come forth and pour out to humanity throughout the earth a Mighty Radiance. This will bring about more quickly a greater stabilization and confidence in the hearts of many public officials. It will cause them to have a strong, unwavering desire to reestablish America in confidence and prosperity, and make them feel a deeper

Love and loyalty for her progress than ever before. Many will have learned that they cannot rule humanity with a ruthless hand, for they are seeing that the inroad of control which they had desired to gain over others is returning to themselves for redemption. If this lesson can be impressed upon them sufficiently, a great calamity will have been averted. In this quickening period, things can be done in the short period of twenty years that would ordinarily require a hundred years.

BELOVED SAINT GERMAIN'S DESCRIPTION OF NEW YEAR'S EVE CONCLAVE AT THE ROYAL TETON – JANUARY 1, 1935 –

It is with Great Joy that I relate to you briefly some of the Activity that took place at the Royal Teton last night.

Two hundred fourteen of the Ascended Masters were present, and the twelve from Venus. The All-Seeing Eye was in the most powerful Action known thus far.

Great Rays of Light are made permanent to our National Capitol and the capital of each state, that a constant Radiation may pour forth to these focal points, and also to the principal cities of Europe, India, China, Japan, Australia, New Zealand, South America, Africa and Mexico.

A similar Activity or Radiation from the Golden City and Shamballa was also poured forth, making a Triple Activity for the Blessing of mankind. *Every effort is being made to avoid as much destructive activity as possible throughout the world.*

The activity of the past three months has been tremendously encouraging, and We do have high expectation for this year. Being so well aware of the free will of humanity, We can but trust for their harmonious cooperation with the Conscious

Radiation pouring forth from the above-mentioned Triple Activity.

There were Outpourings of Light from the Tall Master from Venus, Jesus and the Great Divine Director such as I have not known before in My experience.

The many who have been fully aware of My sincere Efforts for the blessing of America have now joined Me in Full Power to achieve all possible that the Cosmic Law and the law of the individual will permit. The Cosmic Laws are daily giving greater freedom in this activity, which is the thing that gives Us such great encouragement.

There were many students present last night, for which "I AM" very grateful. There is much detail of the Activity which took place that I may not reveal at this time, but I assure all the students that It was marvelous beyond description.

The Great Host of Ascended Masters join Me in Their Love, Light, Blessing and Opulence to the students, to America, and to the world, that this year may be unparalleled in its happiness to mankind.

ASCENDED MASTER INSTRUCTION

"I AM" ACTIVITY
OF
SAINT GERMAIN FOUNDATION

The "I AM" Activity represents the Original, Permanent, and Highest Source of the Ascended Masters' Instruction on the Great Laws of Life, as first offered to the western world by the Ascended Master Saint Germain, through His Accredited Messengers, Mr. and Mrs. Guy W. Ballard.

In the early 1930s the Ballards established Saint Germain Foundation and Saint Germain Press, Inc. which under Saint Germain's Guidance, have expanded into worldwide organizations that offer to mankind the true Ascended Master Teachings on the Great Cosmic Word, "I AM"! Saint Germain Foundation strives to keep the "I AM" Ascended Master Instruction in Its pure, unadulterated form, free from any human interpretation, personal monetary gain, or proselytizing, as It is a Gift from the Great Ascended Masters and Cosmic Beings to bring Illumination and Perfection to mankind.

Hundreds of "I AM" Temples and Sanctuaries exist throughout the world, where the Teachings are applied in "I AM" Decree Groups. The Books of the Saint Germain Series are available in many libraries, bookstores, or directly from Saint Germain Press (address below). For further information, please contact:

DEDICATION

T IS WITH the deepest gratitude of our Hearts that we dedicate this Book, *Ascended Master Instruction*, Volume IV, to our own Beloved Mr. and Mrs. G.W. Ballard, whose tremendous obedience, love of the Light, untiring service, and complete devotion to Beloved Saint Germain made these Discourses possible.

These two individuals were the only human beings on the Earth through whom this Mighty "I AM" Ascended Master Instruction could be given; and it is to these Ascended Masters–the Beloved Cosmic Beings Godfre and Lotus–that we dedicate this series of Discourses.

May every human being on Earth who reads this Mighty Ascended Master Instruction also attain the Victory of the Ascension at the close of this embodiment, according to God's Divine Plan for each Life Stream.

GOD BLESS YOU

TRIBUTE

E OFFER our Hearts' love and gratitude to Mr. and Mrs. G. W. Ballard, the Accredited Messengers of the Ascended Masters, for their great strength, obedience, and tireless efforts that opened the way to bring this *Ascended Master Instruction* to the world.

When Mr. Ballard had received the experiences as recorded in *Unveiled Mysteries* and *The Magic Presence*, Volumes I and II of the Saint Germain Series, he returned to their home in Chicago where he and Mrs. Ballard began to instruct a small group of Students in the Laws of Life which they had received.

One morning, Mr. and Mrs. Ballard and their son, Donald, were standing near the door to their dining room when they felt a tremendous Vibratory Action charged into the room. Looking up, they saw a Ray of Light descend onto the dining room table. From within this Ray they heard the Voice of the Beloved Ascended Master Saint Germain saying: *"We would like to dictate a series of Discourses, should you care to cooperate. Take time to think it over and let Me know."* Mrs. Ballard answered immediately, *"We are ready to begin now!" "Very well,"* Saint

Germain replied, *"We will begin next week!"*

Twice a week for over seven months these Mighty Discourses came forth, followed by *The "I AM" Discourses* as published in Volume III of the Saint Germain Series. Mr. Ballard has said concerning this Great Instruction, *"It is the most wonderful thing that ever came into a human being's Life!"*

We wish to explain to the reader that we have included the closing Discourse of Volume III, given by Beloved Mighty Arcturus on July 4, 1932, as the opening Discourse in this Volume. By printing these Discourses in Volume IV in chronological order, we feel that our Beloved Mighty Arcturus and Beloved Mighty Saint Germain can enfold the world in *Their Mighty Violet Flame of Elohim Power and Protection*–forever manifest!

THE EDITORS

FOREWORD

UR BELOVED Ascended Master Saint Germain dictated this series of twenty-eight Discourses over a visible Light and Sound Ray in the home of our Beloved Mr. and Mrs. Guy W. Ballard in Chicago.

This *Ascended Master Instruction* is published from the original manuscripts left by Mr. and Mrs. Ballard. Only fragments of the real Understanding of the "I AM Presence" had been given to the world until this Ascended Master Consciousness came forth. The Beloved Ascended Master Saint Germain says: *"It is the most important Understanding mankind can ever have, and there is no Freedom nor Perfection for the individual except through this conscious Application."*

When the phrase, " 'Mighty I AM Presence,' come forth!" is used throughout this series of Books, it is always a Call to the "God Presence" to pour forth or release the Outpouring of Perfection that the one making the Call desires.

This Book not only carries the Ascended Masters' Understanding of the "Beloved Mighty I AM Presence," but it is charged with Beloved Saint Germain's Ascended

Master Consciousness and the Ray of Light and Love from His Heart, which are His Ascended Master Feeling and Comprehension of its Full Power, forever self-sustained.

May this Book of *Ascended Master Instruction* anchor the attention of all who read or contact it so powerfully upon each individual's own Divinity that the Full Ascended Master Consciousness of the "Mighty I AM Presence" shall fill the Earth–and release with the Power of a Thousand Suns the Eternal Dominion of *"The Light of God that never fails"!*

DISCOURSE II

July 7, 1932

SAINT GERMAIN

INVOCATION: Thou "Mighty I AM Presence" from the Heart of the Great Central Sun! We face Thy Sunrise!

THE DISCOURSE

Daily exercise: You may do this at any time during the twenty-four hours. Stand erect, face the east, and say mentally or aloud (be guided by your own feelings as to whether you should say it aloud or not), but let it be firm: *"Mighty God in me! I face Thy Eternal Sunrise and receive Thy Mighty Radiance and Activity visibly manifest in my experience now."* The use of this sets into motion certain powerful principles.

Warning: If Students use this, they should analyze themselves first and see if they are really sincere in their determination to have and serve the Light unconditionally. If they be sincere, let them stand to the Light and then go forth. Awake! Stand to the Light and serve only the One Presence of Right and Justice.

Know that God, the "Mighty I AM Presence" in you, governs and controls all unfoldment in Perfect Divine Order. As the sea holds all created Life in its embrace which is designed for its sphere, so the air holds within its embrace those created forms of Life belonging to it. These are two links ever active between the human and the Divine, or the physical and the White Fire Body. We may call upon these forms of Life to give us the best of their element.

Man is the only creator of inharmony. The elements and their inhabitants are always harmonious in themselves, and it is only when one gets out of one's element that inharmony is created; but the inharmony is not of the element itself.

The human element, or outer sphere of mankind, is the only element in Creation that deliberately creates inharmony and consciously misuses the energy of the God sustaining it. This is the only sphere in the Universe where those who function within it have taken command and declared themselves independent of God. I mean by this, those who are refusing to acknowledge the active Presence of God in their lives.

No principle or activity can be blamed for the misuse mankind makes of it. All through the ages, humanity has tried to place upon God the responsibility for its destructive activities. Hence

the ruse of manufacturing gods who could be either angry or joyous according to mankind's whim.

I assure you from My own observation, that those Great Ones–far greater than I–through aeons of investigation, have indisputable proof that there is but One God–the Life, Wisdom, and Energy of all Creation. Therefore, the Energy of God cannot be blamed for the inharmony created when someone misuses It. Neither can the principle of banking be blamed because of dishonest bankers. Neither can the activity or principle of giving out information by the press be blamed because of malicious reporters or dishonest editors.

I assure you that the day is not far distant when these principles of activity will be used in their highest constructive power. The constructive, educational moving picture will also be used as the quickest, easiest, and most certain way of educating the outer perception.

Too long has mankind usurped and misused the Energy of good, which is God. The Inner Quickening, by the Cosmic Radiation through the Mighty Arisen Messengers of God into the Heart of each individual, is rapidly drawing the human desire into the Divine. As is the case in all seeming struggles between two forces, so in the conditions of today, they are but the old conditions being repeated. And out of it all

will come, for the first time on Earth, a permanently established condition and right attitude of mind in the outer activity of humanity.

I want so much to have each one of the Students keep before them the fact that *they alone* are the governor of their Life and its activity, and are commanded to choose what they wish to manifest in their Life–always remembering that they are not to stop and worry about this or that individualization. They are to fix their vision, which is God's Inner Activity, on the Goal and hold it there with a firm, joyous determination to reach it.

No advice to others: Knowing this, there is no one who should attempt to advise another. The God in each is the *only one* who knows what is best for each individual.

Those who are experiencing discordant activity should go where they can be absolutely quiet and uninterrupted; then to the best of their ability, enter into the Great Silence and, as they become quiet, say: *" 'Mighty I AM Presence!' I demand to know the right attitude and activity that I should take in adjusting and solving this problem!"* If the Answer does not come at once, each day enter into the Silence again and continue to demand that the Divine Answer come forth. Also demand to be shown, through the Inner Vision, every detail

which should be carried out. Then all of a sudden, possibly when most unexpected, will come forth into the outer consciousness the full unquestionable solution to the problem or situation.

Running away: As one may not at any time run away from anything, this will make clear to him the complete situation, and reveal whether he is being held by the hypnotic influence or whether he is fulfilling a just obligation.

If I were to unleash My Love for My Students and attempt to advise them, I might be interfering with opportunity of immense value to them. Because I might know a thing, does not permit Me to take away from the Student valuable opportunity. No one should feel distressed or lose hope because of outer conditions, when a few moments' contemplation can but reveal the fact that there is only One Power, Energy, or Activity to use or that is being used–which is God! When one depends upon and demands of this Supreme "Presence" the right solution of any problem or situation, it will be solved or adjusted with the most wonderful Divine Activity. The Divine Solution will far transcend anything the outer mind could conceive of, even if it had the power of accomplishment within itself.

Knowing that the outer mind or consciousness is a mighty vehicle through which the tremendous Energy

of God can be consciously directed, then we know that we have every moment, all about us, the most powerful Presence for Protection and Direction, and the Supreme Solver and Adjuster of every condition that opportunity brings before us. It would save so much distress to the individual if on the first intimation of any intruding discord he or she would leap, as it were, into the Heart of this Mighty "Presence" and say: *"Seemingly the outer has made a mistake. I call on Thy Law of Forgiveness. See that this is adjusted quickly and completely."*

Take a firm grip on the Inner "Presence" to govern every inharmony and to remove any wrong condition permanently. The highest and quickest action is always to make the Demand to the Great Inner "Presence." God's Energy always acts according to the consciousness we have of It. Opportunity is a very poor master; it is you who must always govern it. Use opportunity, but never let it use you.

The Assistance of the Masters: The Great Ones may and do give Assistance at all times, whether the Students know it or not. One of the Greatest Activities of the Ascended Beings which They perform for the Students, is to give Courage, Strength, and Assurance, until such a time as they make a strong enough contact with their own Inner "Presence" to fully and clearly loose Its Mighty

Wisdom and Activity into the outer self.

The result of this Radiation is that the Students build permanent strength of character, and it saves them endless repetition and re-creation of imperfection. In the past, down through the centuries, the Call to the "Mighty I AM Presence" within the individual has been but intermittent. Now the work before each one is to make the contact with the God within and hold it.

The idea is not to ease up as soon as a problem is solved and think that no further effort is required– but to keep calling to this Mighty Inner "Presence," and recognizing and accepting It going before to see that these foolish human problems are consumed at their first intimation. In this way the Divine Self keeps you free from the outer disturbing or binding conditions.

Experience is but opportunity and is one of the most powerful friends the outer self has; for it gives the outer a chance to bring forth the Divine Character of Life, which knows no imperfection. Allow Me to say again: *" 'Mighty I AM Presence!' Reveal to me Your True Solution of this situation in which I seem to be concerned. Come forth in Your Wisdom and Strength and solve this in Divine Order without another moment's delay. I recognize that You do not need time, place, nor space, but that Your*

All-powerful Activity is now! I accept this fact."

Explanation of Cosmic Karma: I wish to put before the Students another very vital and important thing, which concerns human creation. The individual can call on the Law of Forgiveness and say to the "I AM Presence," *"Dissipate and consume this wrong creation."* This throws it back to the Cosmic Law for adjustment, wherein it is adjusted outside of the individual karmic activity.

There are a great many individuals to whom this idea of Truth would give immense relief and great Freedom in a very short time. I cannot stress too strongly how the individual, being the only creator of inharmony, can, by the conscious Application of the Law of Forgiveness, remove forever from his or her individual activity a great deal that would be very distressing.

The old idea of karma–an eye for an eye and a tooth for a tooth–has not been correctly understood, except by a few. The majority have thought that karma must be balanced individual to individual. In some cases this is imperative; but there is so much that does not have to be balanced in that way, when the correct idea of it is understood.

One of the unfortunate things when the idea of karma was advanced, was the above mistake. It caused individuals to consciously bind themselves to each

other for adjustment. Taking into consideration that each individual has Free Will, you can see how this individual-to-individual balancing might become an endless thing. If one individual be not in a mood to cooperate in the adjustment of a condition, how then could the activity ever be ended? There must be and is a wiser means of help to do it. If the above material is carefully contemplated by the Students, they will find greater relief and peace from realizing that they have this Wise "Presence" upon which they may call in all conditions.

BENEDICTION: We give praise and thanks that shortly Thy Messengers will fill every office in this Land, and that the Reign of God is now manifest on Earth.

DISCOURSE III

July 11, 1932

SAINT GERMAIN

INVOCATION: Thou Mightiest of the Mighty, Thou Mighty God! We face Thy Sunrise! These Thy Children face the Sunrise of the Soul and receive Thy All-sustaining Power, Thy Courage, Thy Wisdom, and Thy Illumining Presence. Thou Mightiest of all Energy! We accept Thy Presence. Thou All-powerful, Active "Presence" animating our minds and forms, Thou Mighty Intelligence! We accept Thy All-powerful Activity directing every movement of the outer form, holding it close in Thy Mighty Embrace.

THE DISCOURSE

God's Certain Assurance: In every activity of Life, there must be something to which the consciousness can be anchored or which can stabilize it. In the outer mind there are principles and formulas that it may use in coming to a definite conclusion. For instance, by following the principles of mathematics,

we come to certain results. When a formula is worked out, you produce certain results–no question about it. How much more important it is then to get the attention of the individual fixed upon that Indwelling "Presence" with the same assurance. You must know that the Principle of Life in you and enfolding you, is far greater than the outer things which you have experienced for long centuries and have unknowingly clung to.

May I remind you of what I gave on July 7? Do the following any time during the waking hours: Stand, face the east, and say verbally or mentally–but let it be firm: *"Mighty God in me! I face Thy Eternal Sunrise and receive Its Mighty Radiance and Activity, visibly manifest in my experience."* Follow your feeling as to whether you say it verbally or mentally each time. You will find that this produces certain results, the nature of which I may not speak of, in order that you may receive the full benefit. If Students use this, they should first analyze themselves and see if they are sincere in their stand to the Light. If they are sincere, let them stand to the Light and then go forth! The Principle of God, which is your active consciousness, is always enfolding the outer form. It is the Mightiest of Principles that the outer self may be aware of and cling to.

By doing this you can have the same certain,

definite results, with the same great assurance of success that you receive in the use of other principles or formulas in mathematics or chemistry. The Master "Presence" in you *is* the Mightiest of Chemists and the Greatest of all Principles or Formulas.

All seeming shadows or problems are but a part of God demanding an opportunity for the recognition of that Great and Mighty "Presence," the Invincible Solver of all problems. All problems are but to compel a recognition of God as the Supreme Controller and Activity in all things.

This Mighty "Presence" is the certain assurance, anchored in the Heart of every individual on the Pathway of Light, that he may definitely and absolutely Ascend. Therefore, you will see that the outer experience, which would otherwise seem disconcerting or disturbing, is but the Demand of the Great Self to the outer to turn about and *face the Eternal Sunrise of God's Glorious Radiance* enfolding every one of His Children and all His Creation. As you contemplate this fact, every earnest Soul will feel the Radiance of this Mighty Truth strengthening and sustaining him with a Joyous Presence in every experience through which he may pass.

In presenting this Mighty Sustaining Truth from various angles, it is done with the certain consciousness that one angle or another will meet

the requirements of the Students in various grades, enabling each one to grasp his Principle of Life, the "Mighty I AM Presence"–the God within–with certain, definite assurance. Each one will recognize his own God Principle working in him and for him, and he will feel his certain ability to apply It in his own Life and problems.

I wish to make clear that when We say, "the Principle of God within," I do not mean to convey, nor has it ever been intended to convey that the Great Principle of God dwells within the outer form; but Its Wondrous *Radiation* can be and is often felt within the outer form. The Golden Thread of Light, anchoring the Mighty Master Self within the Heart and brain of the outer form, is the Mighty Current or Stream of Life by which the outer is sustained and given its activity. This can be drawn upon and used with positive assurance concerning the desired results, and Its Mighty Energy can be used without any limit.

When Students can feel the assurance of this, their Freedom is at hand; and at this point again let Me state the importance to the Students of the Command, *"To hear, to dare, to do, and to be silent."* This particularly concerns Instruction. If earnest Students allow themselves to discuss Instruction with other Students who may or may not have the same

viewpoint, it will many times cause them to waver and be deprived of the great recognition and acceptance that they might otherwise utilize.

Each Student receiving Instruction should contemplate that Instruction and refuse to discuss It with anyone other than his or her Teacher. This will many times help them avoid very grave confusion. Only after Students have become firmly anchored in the Truth, are they able to enter into the discussion of the various angles of Truth without experiencing confusion. This is why Students in the Retreats of the Ascended Masters, as a rule, make such remarkable progress. The Students in the outer world can have the same unvarying results if they will generate strength within themselves and resist the temptation of discussing the Truths that are most Sacred to them and others. As no one individual may grow for another, then it is obvious when the Student is receiving Instruction, that he or she is but wasting energy in the outer discussion.

Contemplation of the Instruction or the Truth given, will enable the individual to receive the proof from within, that the words are intended to convey. The Student, to become safely anchored, must at all times look to the Mighty Master "Presence," God enfolding him, for the right solution of every problem confronting him. Except where worded Instruction

is being given him, the Student should at all times look to the Mighty "Presence" within and hold his attention there, firmly fixed, until the Answer to any question he requires appears. When the sincere Student looks with earnest determination to the Master "Presence" enfolding him, he will have at his service the Mightiest Forces of the Universe; and this will cause those Mighty Forces to rush to his assistance whatever is required. Earnest Students who do this will not long be affected by outer conditions.

All the inhabitants of the Elements are subject to the qualities given them because of the racial conception of fairies and Angels. Fairies and sylphs are both inhabitants of the air, but different activities of it. The outer consciousness of human beings constantly jumps to conclusions. If Angels or Arisen Beings were to manifest to perform a visible physical or tangible action, They would necessarily project a form. If it were Protection or Inspiration, They might appear as a Flame, or a Ball of Light. The outer self always wants proof and so causes the "Presence" to project that which is tangible.

Every Student should understand that every condition he meets in the outer returns back to him the qualities he gives it–hence the necessity of seeing, knowing, and feeling only *God in Action* in every situation. The Great Law, when It strikes a certain

point of Activity, always finds Its Way to accomplish a thing that is needed for a given purpose. The motive is always the judge back of every outer activity.

Where Students have been taught the gratification of sex as a necessity, on leaving the body they are met by Those who have the correct knowledge and who correct that idea and give the help needed. The human self or outer consciousness is terrifically stubborn.

Cremation: Cremation not only disintegrates the physical body, but it also consumes the destructive element of the emotional or astral body and looses the desire in the individual to be taught. The emotional or astral is partly physical because all atomic structure comes within the physical domain. The Electronic Structure is beyond the physical domain. Many times the release from the physical leaves the consciousness clearer to receive the Light. It is true that those who are antagonistic to the Truth here are not necessarily so after passing on.

Students should be absolutely certain within themselves that no amount of hate, gossip, criticism, or condemnation of the outer can harm them. If–on becoming aware of any such thing–they know there is only God acting, they transmute the condition, and that force is used for their own benefit.

So it is with the force released by the hate and

explosions of the First World War–1914-1918. It is constantly being requalified and redirected to be used for good. When a force is released, it is neither good nor bad; it is simply energy that can be directed. *Force is always qualified by the consciousness or individual using it.*

When the explanation of the Sayings of the Master Jesus is given at the point we are at today, it is curious what Tremendous Strength and Power were in the Statements He made–showing what a Powerful Condensation They were.

The comparison of the outer principles to the Inner will often enable the Students to grasp and apply the Inner with even more definite assurance than they are able to apply the outer.

" 'I AM' the Divine Plan of the Light in physical operation."

DISCOURSE IV

July 14, 1932

SAINT GERMAIN

INVOCATION: God, Thou Central Source of all Activity, Wisdom, and Power, We demand Judgment now, that those of Thy Children looking to Thee may find Thy Radiance enfolding and governing their minds, bodies, homes, and every activity. We demand Thy Judgment be now, and that every Heart that looks to Thee may find itself enfolded in Thy Unconquerable Radiance. Shed forth such Power that nothing may touch the world of these individuals but Thy Perfect Activity; for We recognize that out of the Fullness of Thy Presence comes the Perfect Manifestation, the visible Presence of all things–and so it is decreed.

THE DISCOURSE

Today is an opportunity to prove the atmosphere of God [the day was very hot]. Concentrate the attention on the region of the pineal gland, knowing that the attention focused there will cause to take

place the balancing activity of all the centers, drawing and giving all power to the head center. From this center, the power of speech—which is but thought representation—will reflect back to the vocal center.

During this time of the contemplation, or conscious direction of the attention to the Highest Center, be aware of the even, balanced, rhythmic breath. I do not mean to give it special attention, but breathe a few times consciously, and then just be conscious that you are breathing the rhythmic breath. Breathe in on a count of eight; hold for eight counts; breathe out on eight, and hold eight. Then repeat. After doing this a few times you will get the rhythm near enough. The activity of this consciousness responds to the demand.

The great God Principle is above and enfolding the form because of the Anchorage of God within the Heart. The Seven Centers are the Points of Anchorage of the Individualization of God in the physical form. The pineal gland is the Point of Anchorage and Radiation of the Great Central Sun. When we realize this, we have come to the point where we do not consider any of the lower centers.

Keep asking the God within what the correct activity is to use at a specific time. Each must depend on the direction he receives from the God within himself. All

instruction is but worded attention upon certain things, and the Student should learn from the words instead of the presence of the one giving it. The Radiation will come through the words themselves; the words are but vehicles of conveyance of the "Presence." The feeling and thought will become just as accurate as the spoken word, as you depend more and more on the Presence of God.

It is necessary to use the Consuming Flame at least once a day. It is especially necessary among the Students because some unknowingly open themselves to discordant things due to mass pressure.

In the use of the Rays, try to feel with intensity the Mighty Presence of God there, operating in whatever color you use.

Very important—Divine Love: Keep the attention on the fact that Love is the Controlling Power in all conditions, always knowing it is Divine Love. This qualifies whatever human love is there and raises it in harmony with Divine Love. *Know always that in any Demand God is the Sustaining Power.* You must keep aware of this fact in the use of all Law. Remember that in all conscious use of the Law, *you are at all times the determiner of the qualities you wish manifest and maintained!* No two individuals are affected exactly alike; one has an irritation of mind, another of body, another anxiety, another impaired health.

The constant consciousness that *"God is my Perfect Health, Wealth—and is Self-sustained,"* will take one into the full visible manifestation of these conditions. Know: *"God in me is the Keeper of my Treasure House; then I know God produces in my visible use, great abundance, money as fast as I require its use, and that it is never late and that all my seeming obligations are taken care of on time."* The joyous indifference of youth is really a letting go; and with Love prevailing, it is the most potent Power for Manifestation.

To Mrs. G. W. Ballard: Never let down your bars of protection to anyone. It is wise for all to use the consciousness that God's Activity is in this home and all about it, and there is only God acting. In thinking of the neighbors, know that God governs their every activity in regard to this home. Take a thing in the beginning, and with intensity reverse the negative action in thought and feeling concerning it. The seemingly deeper acceptance of the negative instead of a positive condition in the human consciousness, is a mental gravity pull and is due to the density of the physical substance of the body.

A quick forceful statement: "No, you get out of here! God Almighty is in control." This is true up to a certain point of Illumination: while the Inner "Presence" always stands ready to act, the consciousness of

invitation within the Student's outer mind seems to be imperative. The Inner "Presence" does not intrude Itself; It must be invited.

The nature of the outer consciousness is to swing from one extreme to the other. The Eternal Balance is "the Middle Way"; and the desire to move in that activity, draws and holds you there. The desire to walk "the Middle Way" draws you and holds you in it. The deeper the recognition and living in the "God Presence," the quicker will the God Power act.

Electronic Activity: Wherever there is force, there is always some point of Electronic Activity, and from the higher standpoint it is very noticeable. The force released by the World War is still standing in the Earth's atmosphere, and is and will be redirected and used constructively.

The Electrons in our atmosphere are the Emanation from the Great Central Sun. The White Fire Body of the "Mighty I AM Presence" and Its natural Element qualify the Electronic Activity, the same as each Element in itself qualifies the Electronic Activity. The Electron is a Universal Element that is the Spirit of God. Therefore, each Element applying or using the Electron qualifies it according to the Element's own sphere or activity.

In the condensation at a former time—one on Atlantis and the other in the buried cities of the

Amazon–one was a Consuming Activity and the other was a Life-giving Activity. All consuming is but a re-ordering of the balancing of the atomic activity. The Electronic Activity is always permanently balanced within Itself. All discord is but a loss of balance of a particular element or atom. It is only when the electron becomes clothed in a quality that discord is possible. The first activity of the atomic structure is the requirement of something to qualify it, or a need for a quality. Otherwise, it too would remain forever perfect, and no other quality could be imposed upon it.

Question: "Why does air in motion seem cooler than still air?"

Saint Germain: Because the vibratory action is raised.

The Mantle of Invisibility can be thrown around one instantly, but the Students should establish It permanently and consciously by the practice of visualizing the Mantle around them. We are consciously qualifying this Electronic Energy or Activity every moment.

Instinct is a lower form of intuition. There is only One Presence and Power acting everywhere, so really there are only different grades of consciousness and activity. Words are very lame to carry a meaning that is a feeling.

The Cross-of-Christ Currents: Recently there

have been placed Divine Currents in North America in the shape of a cross or, in other words, in the shape of a sword; for in this case the Cross of Christ is the Sword of Currents. The crossbar comes just south of the Canadian border, the hilt going up into Canada; and the point reaches south, almost to the lower part of Florida. Chicago comes at the strong part of the blade, just below the hilt. These are Currents that have been placed through the Earth by Mighty Messengers of God.

There will come a time when this Sword and another will cross, and Peace and Prosperity will be in America. Where the two Swords come together, the crossing will be almost over Chicago. These Currents are placed above and within the Earth itself. They penetrate about one hundred feet below the surface of the Earth and about two hundred feet above. This is why the surface structure of the Earth will change; and the very ground human beings walk on, will be the Sword of Christ.

In Nature's formation of silver some of it is dense, and some of it is frosted and not dense. So it is with the Earth: as the Christ Force is liberated, the Earth itself will become much less dense. The atmosphere of the Earth will become the balance between cold and hot–or semi-tropical–and the moisture will be evenly distributed. In the new Christ Activity that is

taking place, certain Dispensations are given; but to what extent They will be given has not yet been shown. There are times and points of activity where Dispensations have been given that have advanced civilization hundreds of years.

Miscellaneous Affirmations: " 'I AM' God's Child and I can do everything God wants me to do, and I do it now."

"I clothe every atom of my world this day with Infinite Love and Wisdom."

"This home is the Heart of Divine Love's Operation."

"My body is the Heart of Divine Love's Operation."

"My mind is the Heart of Divine Love's Operation."

"My world is the Heart of Divine Love's Operation."

" 'I AM' the Divine Plan of the Light in perfect physical operation now and forever."

Be as faithful as you can to healing physical distress, but keep your Inner Eye on the healing of the wounds of hate.

God within you is alive. Do not allow Him to be si1enced by thought-forms of your sense perceptions or fears. Always remember that God and His Manifestation are One.

Everything grows by use. All things move in cycles. When the Cosmic Hour strikes, the whole combined Force of the Ascended Host can be used to accomplish a definite Purpose. There are a great many things in which They may not interfere between those periods; otherwise humanity would not be where they are today. When individuals look to Us, We may give Assistance without limit according to their readiness to demand; but in the Cosmic Cyclic Action, We may not interfere.

The night before any important action or before Class, always go into the Secret Heart of God's Great Love. Mankind and Students do not prepare the way ahead. When one wakes in the night, one sometimes returns to the body to anchor in the outer consciousness something that is needed there, or that is to be called forth when a future need arises.

When we come to a certain point of achievement in the prevailing activity, we sometimes make contact with Wisdom gained in previous, forgotten experiences; and if there is a necessity, we call that Wisdom forth and use it. In most instances it is done unknown to the outer consciousness. If we require knowledge that we have been conversant with in previous, forgotten experience, it is many times easier to recall that knowledge than to reach into the Central Source and bring it forth from the uncreated. The

Great Law is not stingy, but it is conservative. It does not permit any unnecessary use of Itself.

The Divine Record: Within the Divine Record of every individual there is registered all constructive experience. Therefore when a necessity requires it and the Wisdom is there to be used, naturally that is the first place to draw from. For instance, if you had a book giving certain formulas of activity, you would not go to another individual who had the same kind of book, but you would look into your own book and save the time and energy. If mankind had not forgotten the Wisdom and Force stored within their consciousness, they would much more readily call upon that which is already at hand.

In all the Universe there is no wasted energy, except in the outer activity of mankind. It is not that the Universe can be in any way depleted, but in order that the Student may be taught the conservative use of that Mighty Energy. As the Student goes deeper and deeper into this Great Wisdom, this will become more and more apparent.

The smell of sulphur: Mrs. Ballard asked why the smell of sulphur was so strong in the night when there seemed to be no physical cause for it.

It is a Cosmic Process now taking place, and We direct certain Force while you are out of the body, in the Assistance of the Cosmic Activity. The

force released by Cosmic Activity through volcanic activity is a force that can be consciously directed. Those who are qualified for this particular activity while yet retaining their physical bodies, are many times instructed how to use this force when out of the body during sleep–especially when a focus of it is required. The outer sense of odor is the conscious memory of the Activity which has already taken place at the Inner Levels. One is likely to smell the odor of wood, sulphur, coal, or incense. If the memory is of sulphur or wood, it is proof that the direct activity of the Highest Force within the Earth was specifically required.

Raising the vibratory action: Do not let the outer senses form a habit or get the consciousness of anything except that all raising sensation comes in a perfect, harmonious, natural way. Release a person after treatment into the Wisdom and Activity of God, knowing that It is directing the controlling of the outer mind. When individuals are not aware of how to raise the body, it is sometimes much better to let them get out of the ruined temple and be free to go on.

For the Groups to use for universal service: "The Mighty Power of Divine Love and Justice is now All-powerfully operating in the minds and outer activity of every one of God's Children in Chicago,

New York, America, India, and China. America will again attain the Mighty Focus, or Spiritual Power that She once had." This Instruction comes from the Ascended Light, and They prefer that no individuality be considered.

Let each one meditate within himself, and then decide upon the particular Ascended Master to whom he wishes to direct his attention, and keep this a secret within his own Heart. The Highest of Attainment is always to look to the God within; and if you need help–assistance of any kind–call to One of the Arisen Host.

DISCOURSE V

July 18, 1932

SAINT GERMAIN

INVOCATION: Infinite, "Mighty Presence"–God Individualized on the sphere of Earth, We give praise and thanks!

THE DISCOURSE

The Ascension: I bring Greetings from the Ascended Host and that Master of Masters who sends Love and Riches to you today. Under this Radiating Presence, let us consider the meaning and activity of the word "Ascension." Let us try to dispel the many misinterpretations of orthodox interpretation. When the individual has become aware of and, with conscious effort, directs the attention to the region of the head where the Anchor of the Great Central Sun is located, he has ascended to the Mount of True Understanding. This is often referred to symbolically by the phrase, "going up into the Head Mountain"–which is often physically true, and yet but symbolizes the fixing of the consciousness on the highest of the

Seven Centers that are the vortices of Activity of the Great Central Sun in man and the Universe.

The meaning of Satan and evil: The gross misunderstanding of what Satan and evil really mean is appalling. Many names have been given to this so-called majestic presence of evil, but I assure you that that majestic presence is but a myth. The words "devil," or "sheol," both really came from the word "Satan"; and the root of this word, its true underlying meaning, is "to turn away from that which is inharmonious." The human side of mankind, so to speak, which is never ready to face the Truth of its own being, had to produce some concoction on which to lay the blame of its own creation. The word "Satan" came forth as a single explanation, telling humanity that they had better turn away from their own creations of inharmony, and this turning would enable them to find God ever active in their midst.

Then again there came a time when they wanted still something else to blame for their own wrong creations, and they brought the defenseless serpent into the garden. The serpent but represents a wrong use of the Solar Energy from the Great Central Sun within mankind. This Solar Energy is a most dynamic power and is always active.

Again let us repeat that mankind, having Free Will, are commanded to choose how they shall

direct this energy. If they do not direct it consciously for some good, constructive purpose, it will act in some manner—often through the suggestion of the environment or individuals, because energy is always subject to suggestion. The great mass of mankind who have joined themselves to the orthodox idea, as we term it, have thought to cast upon God, a Being in the skies, their problems or creations. Yet they are foolish enough to think they can go on creating inharmony and not experience its discordant effects.

Thus we see how mankind has held over its own head this cloud of ignorance through the centuries. Human beings might have recognized their freedom as Children of God and become conscious of the fact that they had Free Will. They would then have realized that they were the only creators of good and evil, so-called. They would have learned that they had the power to dissipate any wrong or inharmonious creation that they had ignorantly or willfully brought forth.

One of the reasons why the idea of a devil was conceived, was that in every period or cycle of human embodiment, there have been those individuals who were very dynamic in the use of this energy; they were misdirecting it and producing this so-called evil. Besides this, they were creating such powerfully charged thought-forms that vicious,

ignorant, disembodied intelligences seized upon them or, as it were, entered into these thought-forms. These forms were being energized by their creators who were still embodied, giving these vicious, ignorant entities tremendous power and activity. Before the time of Jesus, these entities were often able to appear visibly, often in very grotesque forms. Thus, this was the idea of a devil, which I assure you never was and never will exist outside of man's own discordant creation.

Saints: A Saint may or may not be an Ascended Being. When Sainthood is conferred on someone, thousands and hundreds of thousands of minds are focused upon this idea or form of a Saint, for there is no idea of a Saint without the form in the mind. Thus, a thought-form of tremendous power is created. Sometimes the Soul of this Saint, through the direction of a great Intelligence, takes advantage of this tremendous creation and enters into the form, producing Miracles of great good. Fortunately, the predominating and balancing thought force in such a creation is always for good. Consequently the Saint, being good, prevents the energy in the thought-form from being used for a wrong purpose. In this thought-form, certain attributes and powers are supposed to be within its domain. The individual furnishes the tremendous

energy which is generated to do specific things.

However, when we realize that the Energy of God within the individual is omnipresent, waiting to be consciously directed, we know that in this way it can do far more powerful things than any thought-form. Here is a mystery which has not been explained: Often where a great purpose is to be gained, one of the Great Masters will take charge of this thought-form and produce great and lasting good. Thus, you will see that the energy or force which might have been misused, is often used by wise Intelligences for the accomplishment of great good. It is the privilege of everyone of God's Children to do exactly this same thing. Every Student who is sincerely looking to the Light–God, if that one be tripped up, as it were, by his outer self having generated great force through anger or passion–he has the power to re-qualify this energy he has released, and make it work for lasting good. Otherwise it whirls on its way creating discord wherever it goes.

Thus, I tell you in all sincerity that every one of God's Children is a God in embryo and may learn to consciously direct this mighty energy to perform far greater wonders than any Saint has been able to do. The idea of a devil has created appalling ignorance and superstition. Superstition has charged the outer self with such fear that it has paralyzed, so to speak,

the very avenues that would lead to its freedom. There is no devil in the Universe except mankind's own inharmonious thoughts and feelings, individual and en masse.

After the Master Jesus' Ascension: After the time of Beloved Jesus' Appearance and Ascension, there were those diametrically opposed to the Wondrous Light He had taught and radiated. These were known as forces of darkness. They had gone deep enough into the understanding of the Inner Laws of their being to find that they had certain power of thought, and that they possessed tremendous energy which they could direct for right or wrong, as they chose. These became known at that time, and have been down through the centuries, as black magicians. At one time–I shall not say when–there was a school of these black magicians that set upon and snared, as it were, those Students of Light who had failed to go beyond a certain point of enlightenment. Many times they drew the Student into the full activity of their understanding. On the other hand, there were many in whom the Presence of the Light was strong enough to throw off the influence of these black magicians–after a struggle, the Students were left to go their way.

It was the observation of this activity taking place that drew the attention of the Great Ascended Masters

of Light to this school, and it was broken up and scattered. Since that time it has never been allowed to form a focus of more than two or three individuals in one place. Previous to this time these black magicians created powerful thought-forms which they operated at any distance. Thus was created great havoc and distress during the two closing periods of Atlantis and Egypt; and in fact, they were the underlying causes of all periods of great destruction. Why? Because, aside from their own power to generate destructive force, they utilized the destructive force generated by mankind–thus causing the destruction of an entire race or continent.

Cause for great encouragement: Since the time of Jesus' Advent or Appearance upon Earth, these black magicians have never been allowed to form such powerful points of focus wherein a great number of them are gathered together. The tables were turned on them, and among their number were found those whom the Ascended Masters saw wanted to turn from the darkness to the Light. One by one, these were freed from the clutches of the forces of darkness. They became great Exponents of the Light because they were conversant with every subtle activity of the wrong direction of this mighty energy of God. Thus is the great transmutation going on. This is why we feel encouraged that some

of the destructive force that at times seemed very near succeeding, might be dissipated, and much cataclysmic activity avoided.

The Tremendous Outpouring of the Christ Activity into the Hearts and minds of mankind since 1884, has enabled many great and wonderful things to be done, which previous to that time might not have been possible. So everyone fortunate enough to receive these Ideas should have courage to go on with a brave Heart, knowing that these days every cloud has its Golden Lining, and back of it–*the Crystal Cup, Pure Light of Christ, God in Action!*

A Marvelous Promise: No matter how threatening the storm clouds appear to be, those who stand firm and unyielding to the Light, to the Mighty Individualized Christ Presence, will find their brave Hearts rewarded. They will experience the Golden Lining of these clouds; and before them will appear the Crystal Cup, filled to overflowing with the Mighty Love, Peace, Light, Wisdom, and Abundance of God forevermore. Such a promise, I assure you, is not imaginary, and one day will be fulfilled for all those who stand staunch and true to the Mighty Master "Presence," their own Inner God Self.

The True Ascension of the individual starts long before the raising of the body. As was often represented, Initiation–the Seven Steps of the Ascension were the

Seven Steps one takes when mounting from one center to another within the human form. When one has become aware of this fact and has reached the point of understanding where his attention is fixed upon the Highest Center within his head, and when he lives to It accordingly, he has passed his greatest struggle in the raising of the outer form into the Divine. From this point on, he is given much more Assistance–most of which he is entirely unaware of in his outer mind. To become conscious of a Goal of Attainment, knowing that it is not only possible but that it is certain of accomplishment, enables one to look upon the trials of the outer self with great fortitude, courage, and strength, knowing that they are but dust particles flitting before the outer vision.

Fearing problems: The reason why problems become rampant, as it were, is because the problem or situation becomes charged with fear by the individual. This gives it a certain powerful activity. One should really strive for just the opposite activity by withdrawing all power from it. Fear is feeling, and feeling is always a vitalizing energy. There are two different kinds of feeling that vitalize tremendously, and these are fear and hate. Instead of giving power to a problem and thus vitalizing it, one should withdraw all sustaining energy and leave it helpless.

The fact of the matter is that all of these problems, so-called, are creations of the outer mind or of laws set up by mankind through the outer self. Through these human laws, people harass each other or try to compel one individual to do for another what he or she is apparently not able to do, because it is the outer, man-made laws acting instead of the Divine. If every individual would turn with all sincerity and ask God's Love and Wisdom to direct him or her every moment and live it accordingly, in less than a year–possibly six months–there would not be a problem confronting mankind.

When you want something fulfilled, it is well to affirm it; but it is also good to write it out and say, *"God! the 'Mighty I AM Presence'! see that this is fulfilled!"* If at any time you seem to have made a mistake, always take this stand and say that only good can come out of it. Know always that God directs your every decision with Wisdom and that you do decide quickly and correctly the Perfect Thing to do and then do it.

The Great Presence, Surya: Beloved Surya, who is the same as the Lord Maitreya, is a Great Intelligence from the Great Central, Spiritual Sun; and He will soon begin His Activity on Earth again. Surya is an independent Focus like Cyclopea and the Lords of the Flame from Venus. His Activity is independent

because the Assistance He offers is of His own volition and entirely independent of the Hierarchy who have charge of this Planet's growth. He watches over and gives Assistance to all who are nearing the point of the Ascension. He is permitted to intensify that at a given point. At your New Year's Meeting, again there will be your point of contact with this Great Being and the commencement of your Activity with Him as once before.

The "Lodge of Sirius" is really a Cosmic Initiation.

It seems apparent now that on July 4, 1933, there will come very marked changes, for it is of special importance to this government. The Balls of Light sent to certain cities on this Earth, July 1, 1932, from the Royal Teton, were sent to special places in the absence of sufficient physical channels to do certain work in the government. These were sent to New York, Chicago, Alexandria, Hong Kong, and Buenos Aires. Small ones were sent to the capital of every state in America.

Try to keep deep peace in the home, and it will make it possible for Higher Instruction to come forth. At a former period in China, there was instilled into the Chinese race a calm, poised, and silent attitude. Many times this attitude comes from great Adoration of the Supreme "Presence."

This characteristic has lasted well into the present day in China; but since the race's contact with the English-speaking people, it has lost a great deal of this quality. The wheels of progress never stop for nations, mankind, or conditions, because the very Activity of God is a forward movement under the direction of those *Mighty Messengers of God,* most of whom have not been heard of on Earth.

Beloved God Tabor: The God, "Tabor," referred to in the manuscripts is one of these Great Beings who were actively present during the reign of King David; and the "Mount Tabor" referred to during that period was the Abode of this Great Being.

Pillar of Fire: The Ray of Force from the Great Central Sun, which you saw and are visualizing, is a *Pillar of Fire* and is hollow. It has formed a permanent anchorage in the Earth, so that through It there is a constant pouring forth of a Mighty Stream of Purifying Energy. From this explanation, you will see and understand how very important your efforts are. Be sure to keep them up. You are the determiner of what you do, so ask your "Mighty I AM Presence" to see that you do have time to do it and keep this up. This Work must be done!

If anything occurs within the consciousness that causes the least fear or disturbance, one should instantly remember one's "Mighty I AM Presence"–

the Master within–and ask It to dissipate all fear, its cause and its effect at once, and see that it never touches one's being or world again. Why should Students of the Light be harassed by disturbing elements or conditions? Students of the Light who serve the Light, should demand from the Light, Freedom from every disturbing condition!

DISCOURSE VI

July 21, 1932

SAINT GERMAIN

INVOCATION: Thou Mighty Ascended Jesus Christ, Individualized Presence within each one! We give praise and thanks for Thy Wondrous Activity every moment of the day–that Thou art the Consciousness lifting mankind out of the dross of the human mind. We give praise and thanks that the Mighty Ascended Host manifest, visibly and invisibly.

We bring Greetings of Love, Joy, Health, and Prosperity from the Ascended Host to each one of you, that Its Radiation may go forth to all mankind.

THE DISCOURSE

One of the important things for all mankind to remember, and especially Students, is to make themselves permanently adamant against all outer suggestion. There is prevalent in the atmosphere the suggestion of things that disturb; and when Students become more sensitive, they must

establish a permanent guard against suggestion from the outer, wherever they are.

A helpful Affirmation: "I, my Christ Self, the 'Mighty I AM Presence,' forbid every atom of my outer mind and body to accept anything from anywhere that is less than all of God. I, my Christ Self, the 'Mighty I AM Presence,' command you to receive and permanently record the Eternal Activity of my full Illumination and Freedom on all planes."

Whenever one is excited, the door is open. The correct attitude is to constantly declare that there is only the Presence of God acting in and about oneself. A powerful protecting Affirmation is: *"The Mighty Ascended Jesus Christ in me, which is God's Perfection acting, is my Protection, my Defense, and my Deliverance from everything that is undesirable."* Whenever one is out of God's Harmony, the *inner motion* is started that may flow forth hours or days later, and the individual be quite unaware of what started such a result.

Mankind must understand that each one alone is the cause of all in his or her Life and world. Nothing opens the door so easily and quickly as resentment or irritation. So often one misunderstands expressions used, thereby setting up entirely unnecessary crosscurrents. Whenever one wants understanding, always use, *"There is only God's Perfect Mind in me."*

There is no excuse for heated words or discussions in trying to gain understanding. Obedience is one of the essential things in Life. If we are not obedient to the lesser, then we cannot obey the greater. Love is the most wonderful thing in the World and is the Power of the Universe!

Unusual weather conditions: This has not been explained before: Whenever there is a bursting forth through volcanic action, as there has been and as there will continue to be during the summer, there are released interior forces of the Earth; and the sediment that is carried for not only hundreds but thousands of miles, many times brings a complete change of atmospheric conditions. It often causes the heat to be more intense or has the opposite effect of cooling off, depending upon the substance that is released. Just as a cataclysmic condition may change the course of the Gulf Stream and thus the climate, so these forces released in the air cause the atmosphere or climatic conditions to change.

Encouragement: For the encouragement of yourselves and the Students, I wish to say with Great Joy in My Heart, that beautiful and wonderful progress is being made by the sincere Students; and because much of that wonderful achievement is not yet in evidence in the outer, should not in anywise be discouraging, for I assure you the growth within

each one is remarkable.

To Mrs. Ballard: Your power to focus the Love Ray is beautiful indeed. It is one of the most needed things in the World today, and is one of the most important channels through which Justice acts. The Nature of Divine Love is gently positive; but wherever there is a condition requiring it, one may qualify It with greater positiveness or make It dynamically positive–for instance, to dissolve opposition to a higher achievement.

Next week I will be with you in both Classes in person for definite work that needs to be done. Cha Ara and Nada have naturally a great Healing Radiation, and through Their Work it has grown to a Great Intensity. They have contacted that which requires a great deal of Healing Power.

Important for the home: Take a very definite stand that nothing comes into your home but the Mighty Christ Presence, which is permanently established there so that all who enter are bound by Divine Love to act in perfect cooperation with everything in the home. Know that everyone who enters your door is caught in the Mighty Embrace of God and is held there forever. Let it become a permanent consciousness, and it will make possible a definite work to be done for the individuals who enter.

A dynamic shattering Decree: "Now, 'Mighty I AM

Presence,' shatter and consume this! See that it does not touch my Life or world again!" Sometimes a quick dynamic Decree is much more effective than a longer treatment. Remember this: to say to the "Beloved Mighty I AM Presence," *"Shatter and consume this,"* is to shatter the focus of the discord; and the consuming is then easier.

The "Mighty I AM Presence" dwells within the White Fire Body which is a Condensation of Light.

You are always the one who must make the picture and impress it on the within, and the "Presence" within brings forth the manifestation. Shortly, whenever you make pictures they will outpicture very quickly. Feel that when you do a thing, it is God doing it; and it must therefore come forth.

DISCOURSE VII

July 25, 1932

SAINT GERMAIN

INVOCATION: Thou Mighty Infinite, Governing, Unconquerable "Presence," Thou Mighty God of the Universe, individualized in mankind, we recognize and accept Thy Mighty "Presence," Thy full Power and Activity in our minds and bodies.

We command the outer self to conform in union with Thy Mighty Presence. We command all outer activity to be silent and obey Thy Mighty Behest. We give praise and thanks that Thou art the Only Intelligence ever acting, and that Thy Mighty Energy pours through these outer selves so that they are always self-sustained–that Thou art the Magic "Presence" causing Miracles to manifest and be sustained each day. We give praise and thanks that this is ever so, Eternally.

THE DISCOURSE

My Love and the Love of the Ascended Host flood your being with Joy, Peace, Confidence, and

Perfect Operation in all things. I am deeply grateful for your lovely cooperation.

The seeming mysteries of Life are so simple and so easily applied once the True Foundation is established in the consciousness. I assure you no one can proceed far on the Pathway until there is a definite Anchorage in the consciousness. There must be no uncertainty.

The dweller on the threshold: The simple, entire Truth of the situation is that the dweller on the threshold is an accumulation of the misdirected energy of the Solar Force, which is God's Energy. It is nothing in the world to be feared, but rather there is reason for rejoicing that at last the Truth is forthcoming, in order to dissipate so much fear and misconception of a thing that is very simple. Again, the so-called beast of Biblical description, also understood and described otherwise, is but the misdirection of this Solar Energy–that has been directed downward instead of upward.

This will explain to you the very great importance of the control of the thought; for wherever the attention is directed, the energy is bound to go. Therefore, if you permit the thought or consciousness of anger, resentment, jealousy, or the dissipation of the energy through the thought of sex, you are but turning that Mighty Current downward.

Free Will: The Power of Free Will is mankind's great privilege of holding the attention of the consciousness fixed on the Divine "Presence" or Principle of Activity that at all times compels the upward flow of the Mighty Solar Energy. This shows you how simple the process is–at the same time, the necessity of consciously keeping that Energy flowing upward. Therefore, the moment any thought enters the mind that is not in harmony with that idea, take the same attitude you would to a disobedient child who is too young to understand the Laws and say: *" 'I AM' Master of my own thought! 'I AM' Master and I direct the Energy where I wish it to go!"* Anyone who will do this, will find that it will give them easy command and regulation of this Energy in a very short time.

For the home: No matter what the seeming provocation is, shut out resentment, criticism, condemnation, or anything else that is not in harmony with that Law.

Remember this forever: You never deal with persons. The truth is that *you are always dealing with a force* which you must control before you go much farther. Without this control you cannot go beyond a certain point, because in an unguarded moment you would loose forces that would impair your further progress in this embodiment.

Each one should train himself to always hold himself within his own Magic Circle of the Flame of Divine Love, which he has to build around himself consciously. Speak to each other within this Circle; for no matter where you are, the Magic Circle is there. Whenever anyone fixes the attention on that Mighty Presence of God, he is making a Magic Circle, wherein are performed mighty seeming Miracles. This Magic Circle is ever widening and extending, according to the sincerity and intensity with which the attention is held upon that Mighty "Presence."

At first, I assure you, it does require sincere, earnest guard; but if you should slip once in a while, do not let it bother you in any sense. Come right back with still greater unyielding sincerity and intensity. The mistake of a great many Students is that if they are off guard once in a while, they become discouraged–which is childish and foolish. It is of very great value in disciplining ourselves to always remember that every time something occurs which would make us desire to strike back physically or in speech or thought–or cause us to do it–to take this attitude: *"This is but a force to be handled, and these personalities are but an opportunity for me to learn how to control this energy."* This takes away the resistance that starts the activity of the discord which seeks to intrude.

As you keep up the conscious guard, you will be surprised how the Magic Circle around you will expand until everyone who contacts you, will love and worship you. Such is the Magic Power of Love and Harmony.

Some of these things may seem simple, but unifying them is the One Great Law. As you begin to think of the Magic Circle, you begin to see and feel It around you; and the more you do this, the more rapidly It builds and expands.

Negative old habits: The strange thing is that, from old habit, people allow the attention to enter into the negative conditions; and the first thing they know they are in trouble. In such conditions the Conscious Demand should be, *"Here! thou outer activity! Be silent before the God in me!"* The only activity to be concerned with, is the governing and qualifying of the energy in the outer activity.

When you do anything for the protection of another, there must be some permanent uplift directed to the individual, or it is not permissible for you to do it. Without this, it is a useless direction of energy; and then we do not have the right to use the energy even for the protection. The return of the energy to our own Magnificent Flame of Almighty God is much more rapid than the downward direction of it, and the ratio is about ten to one.

The intelligent Beings of the four Elements: Mortals little realize how the intelligent Beings of the four Elements are used for their benefit; indeed most individuals and many Students are inclined to deny Their very existence. Everything that is visible to the outer senses is but a passing picture of the outer creation. Back of the outer creation and within this Great God Energy is the Mighty Reality, which is always visible to the Inner Sight. If Students would say to this Mighty "Presence," *"God! let me see with Thine Eyes—my Inner Sight,"* and follow this by, *"I give thanks I do see now and forever"*—this would many times enable the individual to quickly enter into the Inner Sight, depending on his or her own Inner Attunement. There has not been and will not be anything given in this Instruction but that which will produce absolutely definite results, if applied with an unwavering consciousness.

When Students reach a point where they can be used, it is said that, "Except ye become as little children, ye shall not enter into the Kingdom of Heaven." Sometimes *We* feel as joyous as little children when We see one reaching out to the Light who can be attuned and used. When individuals reach to the Light with great longing and intensity of desire, it isn't a drop in the bucket compared to the Ascended Masters' Desire for Students to be able to receive

so they can be used. We need the Student so much who is attuned, so he or she can be used. There is so much need for Students who can be consciously used in any way by the Great Ones.

Beloved Mighty Oromasis: Oromasis, the Prince of Fiery Beings, plays a tremendous part in the Life of the individual when he or she comes to a point of this understanding. He is a Prince of the Salamanders who has become Immortalized. You will be amazed and almost dumbfounded when you learn what actually takes place. In the first place, there must be the connection between the Fire Element and the mortals, because the Fire Element does not become Immortalized except by contact with the mortal.

Creation by the Ascended Masters: On the Higher or Spiritual Planes of Activity, all Creation takes place by thought. The thought draws to itself the Universal Substance, producing any desired form according to the quality of the desire or thought. The Ascended Host, in projecting into form the Invisible Substance, do qualify it with whatever Quality They wish to use. If it is to resemble the quality of a jewel, They may produce it in a table: this table can be like one jewel or have a combination of the elements of one or all jewels. However, They do not project things for a bargain counter. The quality of the tables would be

in harmony with what the people were accustomed to. When the attention is once given an impulse, it draws from the outer that which is nearest reality.

The sex activity: The outer sex activity is a perverted interpretation of an original Perfection and Purity.

Very important for contemplation: When you become quiet and get deep, deep into the Silence, say, *"Great Self, speak to me."* The mind cannot conceive anything that is not possible of accomplishment.

BENEDICTION: Mighty Radiant, Evolving "Presence" of this Center of Divine Radiation! Draw Thy Magic Circle about this home and all its activities. Pour forth Thy Radiant Love, Light, and Activity–drawing into Its Use, Abundance of Thy Wealth; and give Peace, Joy, Harmony, and Perfection through Its Use and Ministrations. Hold each one within his own individual Magic Circle as he moves in the outer world, giving forth Thy Mighty Everlasting, Self-sustaining Strength, Courage, and Consciousness of Thy Directing Presence. Let each one feel himself a Mighty Magnet drawing an Abundance of Wealth for everything he needs, wishes, and desires; and know that the Outpouring is flowing in Its Greatest Abundance.

DISCOURSE VIII

SAINT GERMAIN

INVOCATION: Thou Mighty Infinite, Radiant One, whose "Mighty I AM Presence" We bow before! Thou Mighty Ruler of the Universe! We bow before Thy All-conquering Power! We accept fully Thy Radiating Presence! We call to Thee, that Thy Presence go before Us everywhere, mastering all conditions We contact and making Us a channel through which Thy Mighty Presence flows.

We bring Love, Greetings, and Blessings to America.

THE DISCOURSE

Kindness is always the conquering power, both with human beings and animals as well. Out of the fullness of patience and the application of the Presence of Divine Love in all affairs, comes the sure and certain reward. There is no activity where the consciousness or attention is held on the "Mighty I AM Presence," wherein the element of Divine

Love is not active; but this natural Activity may be greatly intensified by adding your consciousness of the Quality of Divine Love to it. This is a subtle point which very few, not Ascended, realize.

Some will say, "How is it we mortals may intensify the Activity of God?" I answer: God, the "Mighty I AM Presence," acts through the Free Will of the individual according to his or her acceptance; and the individual, being a part of God, being the same in Quality, has the right and power to increase and intensify *any one* of the natural Activities of God, upon which the consciousness is focused. If sincere Students will meditate on this particular activity, they are certain to receive much benefit.

When the consciousness of the Student is held unwaveringly on the highest center, which is humanly termed the pineal gland and pituitary body, he is recognizing and inviting the Currents, the Rays of Light and Love, from the Electronic Body of his own "Mighty I AM Presence," and also the Assistance of the mighty advanced Individualizations, or Ascended Masters, from that Sphere of Activity.

This may be a shock to some; but as I have intimated before, personalities pray to God, thinking they are being answered by God direct. But I assure you, there are those Messengers who are the Watchers over mankind, who are the dispensers

of the Radiant Currents and who answer all worthy demands. The Messengers from the "Sun behind the Sun," which is the Heart of the Christ Power as we know it today, are the Mighty Messengers who are pressing forward in conducting this Radiance to humanity, in this radiant cycle which has now begun.

In your department stores and schools, there are heads of departments and teachers. This very grossly symbolizes the higher Activity; for in all activity where the Light is coming forth, the less advanced are *always* being taught by the higher. Even the Ascended Host as you know Them, have Those far in advance of Themselves who are Their Instructors. This goes on infinitely and is an important thing for the Student to understand.

I assure you that through the centuries I have never changed in the mode of giving forth the fundamental Principles. To do so would be to cross currents, which would bring disaster instead of the good that I, in My humble Way, have been able to do.

The most vital thing in human activity is the necessity of positively refusing to sit in judgment on the activity of another human being. To condemn, criticize, or feel curiosity about the affairs of another, except to wish them Godspeed and that all is well, is not permissible for the real Student or

the one who sincerely wishes to reach the highest attainment.

Students and individuals should always remember that there is naught to say them nay in whatever they wish to do or persist in doing–for they have the right to and free use of this Mighty Energy of God, which is the Principle of Life animating them. They may use this energy as they choose, until their experience causes them to face about and turn to the Light of their own volition.

At this point or conclusion, they may receive Great Assistance from Those who are more advanced than themselves, which oftentimes strengthens and enables them to hold fast to the Light. Otherwise at this point they might not have been able of themselves to do so. Thus you can see how very important it is for the Student to understand and fully accept the Presence and Help of God's Messengers of Light.

Spiritualism: In order that the Students may not misunderstand this, I wish here to assure you that this has not the slightest thing to do with so-called spiritualism, as outwardly understood today. The Ascended Being who has attained to limitless Heights of Understanding through His own conscious Effort, is as far in advance of the average individual who through his lack of understanding

has cast off the physical body, as Light is in advance of darkness.

One of the great stumbling blocks in the way of many earnest Students is the inclination to go to mediums, instead of looking to the "Mighty I AM Presence," the All-wise God above, within, and around themselves. Visiting mediums is not permissible to the sincere Student, because it again means that he is dividing his own allegiance; for the Mighty God within us–*the One and Only God*–commands, *"There shall be no other Gods before Me!" Whatever your attention is upon is your God, for there your energy is flowing, and your energy is your Life!*

To Donald Ballard: Your love is like a mantle of fragrance to Me. The love from each one of you has a different fragrance. The embracing presence today is very wonderful.

The Love Ray: Divine Love is the Mightiest Presence and Power in the Universe; and when one learns to pour It into every condition less than Itself, he will come to know that he is focusing the core of that Mighty Ray into Its Invincible outer Activity. This Ray of which I speak is the one which has Its own natural Quality of Impenetrability.

To make yourself absolutely Invincible: Whenever there comes the idea of disturbance of any kind, no matter what the cause, it is your province as a Student

of the Light to take your unyielding stand, *"There is only God acting in that person, place, or condition!"* Thus you are giving power where it truly belongs; and so, you allow the full Inner Power of the Current of Divine Love to flow. To constantly practice this with joy and certain recognition of your Inner Power of the "Mighty I AM Presence," will make you absolutely Invincible!

Students often say in their Application of the Law, "Oh, it didn't work." I say to you that it is absolutely impossible for it *not* to work, unless in some manner you have given power to the outer appearance.

The unfortunate thing with Students is, sometimes, the failure to notice the small manifestations of that Great "Presence." As we are ever moving from the smaller to the greater, how can we receive the greater if we are not giving recognition to the smaller? I assure you, all of God's Activity moves forward in a perfectly logical manner. The more recognition we give to the small manifestations, the quicker will we receive the greater. For instance in the outer world of education, if the child did not learn its letters and how to combine them, how would it ever in the world become able to form words?

There is a quality within the personal self that sometimes causes it to want to pass over the

smaller things as of no value and, to use a modern phrase, "grab off the greater." However, there is not the slightest difference in the Activity of the Mighty Law, whether it be great or small in Its accomplishment, if the Student is sufficiently aware of the "Mighty I AM Presence" acting.

The Student who needs, or thinks he does, some manifestation of the "Presence" to give him faith in accomplishing the greater, will find great benefit in meditating upon this humble endeavor to make clear the way. *The moment a demand for a thing comes, it shows that it is forthcoming!*

Raising the body: We first raise the body in consciousness. When we become conscious that *it is possible for us to raise the body,* and take the determined stand to do it–that moment the Law of our being is set into motion to produce the perfected accomplishment.

I assure you that the Mighty Law, when given a chance through your outer volition, loses no time in utilizing the opportunity, unless at some time you change about and cease to recognize this as a certain accomplishment. If you maintain this determination, you will find at some future time that the force set in motion in the beginning for that purpose, never ceased for one moment to work for that end.

If we do not utilize the Knowledge that God has

already given, how can we expect to have more? This Instruction and Information is not given just to hear oneself talk, but is *Ascended Master Law and Information placed at the disposal of the Students;* and if they will look to their Master Selves, the "Mighty I AM Presence," for direction, they will be caused to use the right Application at the right time for the right thing required.

I say this: that where a great deal of Information and Application is given within a certain time, there is much given so the Student may select that which he or she needs at a specific time for a specific purpose. If I allowed you to look to Me, the Instruction would defeat Its own purpose. Never in the history of the World has there been a time when so much Instruction and Information has been given, for *the Incoming Cosmic Christ is now in command*. Never has there been such Application and Assistance given to Students; for the Cosmic Outpouring is omnipresent, helping the Student who will give his or her attention.

Beloved Surya: Surya is a Place as well as an Individuality. It is the Name of one of the Individualized Activities of the Great Central Sun. It is impossible not to receive what comes from the "Mighty I AM Presence" as an idea, when you really know that it is God sending or giving the idea.

Affirm often: "It is impossible for anything to happen anywhere in my Life but God's Perfect Activity."

Note: When you give power to astrology, you are putting dynamite in your own pathway.

BENEDICTION: "Mighty I AM Presence" from the Great Central Sun! We give praise and thanks for Thy Mighty Outpouring this day, for Thy Eternal Victory of Divine Love that in Its Glorious Majesty holds Dominion–*now*–throughout mankind and the Earth. We glorify Thee forever, Thou "Mighty I AM Presence"!

DISCOURSE IX

August 1, 1932

SAINT GERMAIN

INVOCATION: Thou most Infinite, Radiant One, Thou who dost possess all Peace, Power, and Wisdom, We give praise and thanks for Thy Holy Presence with Us.

THE DISCOURSE

The Cherubim: We have a very delightful Manifestation of the Great Presence here today. A Cherubim from One of the Seven Elohim is sent to dispense Its Radiance; and It enfolds the room in a Ray of Golden Light, touched with a Breath of Pink. This Presence rests at anchor, as it were, about sixty feet above the home; and from It extends the Golden Ray enfolded in Its Garment of Love.

The Cherubim are similar to the Angel Devas, but nearer the human size. Sometimes the Cherubim are quite like the well-rounded form of a small lady. They always convey Love as the

predominating Quality or Activity. The Angel Devas often convey the element of Power because of the Work They have to do. The Cherubim have such a Mighty Focus of the Love Ray that They accomplish whatever They wish through It. They have a great Radiance for a great distance.

The Cherubim's Message: "Beloved Ones, chosen of the Light, We add Our Love with this Enfolding Radiance to strengthen, to heal, to bless, and to prosper each one of you, and to cleanse every particle of thought of self away, so that the Full Presence of the Christ may have Its Dominion of Full Peace, Love, and Harmony within the body, that it may have perfect health."

This Presence gives Its Love and Greetings to each one, so that they may feel Its Presence henceforth, enfolding and unfolding in each one. In this Ray is a Special Ray to each one of you, that will henceforth remain anchored in the Heart to fulfill Its Mission. The Presence of the Cherubim wishes me to say that you may think of It as "The Presence of the Golden Heart."

The spinal Currents: Today, We will take up an Explanation that, as far as I know, has not heretofore been given. The Currents of the Negative and Positive Force, one on either side of the spine, ever active in Their mission of distribution, are like two

harp strings: the Negative being of the bass, and the Positive of the treble. There is within the nerve on each side of the spine, that which resembles a harp string. When one enters the Conscious Path, these Divine Strings, as it were, begin to be tuned; and when they reach a certain tautness, they begin to respond to the Great Advanced Presences who play upon them, unknown to the human form.

When the human form sometimes feels a tension, it is because some discordant vibration has touched one of these Strings. There is perfected a tiny Instrument that, when placed at the base of the brain, acts like a key to the harp, attuning these Strings to the proper Activity. It is under consideration now whether this shall be brought forth. If it be brought forth, certain ones who may receive It are to be prepared for the Intense Use of the Cosmic Rays. This accounts for the special Presence with us today.

Warning: I ask each one of you to take a firm grip on yourself, putting out of the mind everything of a discordant nature, especially during the month of August and possibly September. The one who succeeds in doing this will receive great benefit. The one who will govern his thought, shutting out all discord, will open himself to the Mighty Current that will attune the Harp Strings of the Soul, just described. Through these one may receive distinct Hearing of the Inner

"Presence," and clear Vision beyond the Veil.

Just be at peace, ease, and rest concerning these; feel no strain in any way, no anxiety. This will give one the Jewel of Inner Discrimination, which will enable him to completely govern the outer activity. This means that it will enable one to distinguish between the human and the Divine Thought, and to govern the outer so that any thought of jealousy, resentment, or self-pity cannot enter. Those three conditions are most stifling to the Higher Activity.

Visualizing the Harp Strings of the Soul: I would suggest–the individual should follow his or her feelings–that those who can, visualize these two Harp Strings of the Soul connected at the base of the spine, connecting again at the pineal gland in the brain: the one on the right side of a delightful Pink and the one on the left side an intense Blue. The Pink conveys Powerful Divine Love through the Positive Current; and the Blue String, the Negative Current, sustains the outer form in the Divine Balance. This description given, I assure you, is very real–quite as real as your harp before you when you sit down to play. The Knowledge of this and Its use, that is and will be given, will enable one to consciously hold a steady, calm balance in the outer contemplation of the Inner "Presence."

In Our–the Great Ones'–Activity at a given time

of action, as so ably illustrated at the close of *The Magic Presence*, We often find the Great Wisdom from the still Higher Spheres completing an Action that We might hesitate to do. In that instance and the instance today, it shows the Presence and Activity of a very Great Wisdom that will not allow the outer to interrupt the progress. The time has come for definite, mighty Action.

The song, "Onward Christian Soldiers," sends forth an Activity which is really "Onward Children of the Light." I expect that this Presence may inspire you with the Melody of the "Children of the Light"; for it is really the March of the Eternal Host onward to the Victory of Justice and Eternal Harmony, manifest in the outer expression of humanity.

The Presence which has been established is in answer to the Call to Surya. The Province of this Presence will be to watch and aid in the governing of these two Currents of Attunement.

Healing: Beloved Cyclopea is in charge of the Healing Ray to the Earth. The Healing Ray, which is a blending of Gold and Violet, is always an Independent Ray. The Gold is Divine Love, and the Violet is Spiritual Power and the Consuming Activity which dissolves human accumulation.

For Peace, the Gold is predominant. For Spiritual Power as the Consuming Activity, the Violet will

predominate. The Violet Ray is a calm, quiet Power and is always an Uplifting Presence. The Blue Ray is Power unqualified. *Always be sure—be careful* not to send your own conscious power with It or to taint It with a feeling of anger or irritation when you use It.

The means described is the Way by which the Ascended Masters often give Great Assistance to the Students, when they put aside, or out of the consciousness, all thought or feeling of self. When one has the complete action of It grasped in the outer mind, It becomes a Mighty Means of Healing.

You will very readily have the use of this; and if you use It for Healing, no matter what seems to be there, hold the two colors positive and steady. *There is no Healing to be done except in the outer form, but be sure to keep the Inner "Presence" at work healing the wounds of hate*. Ask the "Mighty I AM Presence" of the other individual to illumine his or her Heart and mind and then heal the body. All Healing is but a bringing back of a Natural Balance of the two Forces. You will at once see what a Mighty Power you have in your hands to use.

Note: the celebration of the Crystal Stone: After seeing the celebration of the Crystal Stone, the scene was a fragment of a past experience; and if it could be dramatized in pictures it would be of

immense help to humanity. In spite of all that may seem to be, that wonderful phase of expression, the movies, which can be made so perfectly wonderful, will yet be used to convey Mighty Inner Truths of the Activity of the Mighty Ascended Host. The scene was of a forgotten period of which the only records are in the Royal Teton.

A Mighty Inner Preparation has been made sometime, somewhere, for this outer experience. The Inner Activity is the Real and the only Real, Natural Activity. The outer is so crude and distorted compared to the Inner.

The situation in Washington, D.C. : The only right attitude for every Student towards every apparent manifestation of the outer during this seemingly chaotic period is this: No matter what seems to be taking place, drive into the midst of whatever the condition may be, the Consciousness that there is but One Cause that has any Power–and that is the Wisdom, Power, and Presence of Almighty God in Full Action there. Sometimes the outer activity must reach a certain peak of expression to burn out, as it were, the human generation of wrong action. We must know positively and with certainty, that back of every outer activity are God and His Messengers watching the moment to strike, and pouring into the condition that Presence which consumes the wrong

and raises the Right into its Perfect Activity.

Thus throughout the ages, have God and His Noble Messengers watched the inhumanity to mankind–at each opportunity raising them a little higher, until the Cosmic Signal sounded, foretelling the Onrush of the Mighty Active Presence of Christ, *God in Action,* that will draw the poisonous fangs from the poor serpent of mankind–so that willingly its forces are forever turned upward. The serpent will then have become the Dove, for the serpent was first conceived in the mind of the outer man by the misdirection of that wonderful Energy of God. It was thus turned downward from Its Rightful Heavenly course–which is forever upward.

Do not at any time feel disturbance at any of the things that take place in the outer world, for all is tending upward towards its Eternal Perfection. Woe unto those in official places who fail to act in accordance with those strong Inner Promptings that they are receiving clearly and distinctly, for many are receiving them unmistakably. President Hoover felt that there were important records and much that needed to be protected; and he knew that when a crowd gets into a mob vibration, they do things which they never intended in the beginning. He was right, for violence would have become rampant. If the veterans had had a little more encouragement in their intent,

they would have burned and destroyed things which needed to be preserved. [This refers to the veterans' march on Washington, D.C., July 1932. This was a time of great economic depression.] During the time of the French Revolution, Robespierre had no idea in the beginning that things would go as far as they did.

The attitude of the real Student: "There is only God acting in this situation, and He will bring Right and Justice out of it!"

When people will not listen, they must go on until you knock them for a "home run" before they will pay attention. Awake! and stand for the One Presence of Right and Justice! The willingness to face the human creation and its error, and turn about, takes very great strength.

Vital: Thought gets to revolving, stirring up, and generating the feeling; then it becomes difficult to control it. To any disturbing thought say, *"I refuse to let you act—now get out!"* Every Student should face himself, see what there is that needs correcting, and then proceed to correct it. There is only one cause in every individual's Life, and that is his own conscious creation. Every Student has to get that idea into his head, face it, and then conquer himself. Instead of recognizing God as the only Cause, the mass of mankind generate, through the

outer manifestation, misconceptions and causes that are certain to bring them distress.

The idea of the dragon was first a conception in the ancient Chinese civilization. At that time the wrong use of the Solar Force created, instead of a thought-form resembling the human, a thought-form resembling the serpent, because they had for generations been taught and had known the Creative Power as the serpent power–which caused the thought creation to take that form. That tradition has come down with the Chinese to the present day, as you will observe in their ceremony of the New Year. They masquerade as the dragon to scare away the evil spirits. This is but a distorted conception of the Great Wisdom that they once used.

Discourses: The arrangements for the days on which these Discourses are given have been quite wisely planned. While the Instruction is going forth, this makes it possible to carry the Radiation from lesson to lesson, and is better for the Class and gives the Radiation intended for them.

For the young Students: The time has arrived when a special effort will be made to reach those from twelve years on, with the Understanding of the Light. There are many Great Souls who have come into embodiment since the war period; and once the contact is made, they will instantly feel the Inner

Response. Whoever feels that Response will receive great benefit from the outer contact with the Truth.

Important daily: It is wise to always keep using the Command: *"I, Christ, the 'Mighty I AM Presence,' command that there be no interference in the Truth being conveyed to anyone, for Truth is always Its own Defense."* This will cause to be projected about the younger Students a Presence that will not accept suggestions that might lead them away from the Truth and from the "Presence"–from which they felt the Inner Response.

Just declaring a thing often enables it to be done. It is hard for Students to conceive that a certain, positive declaration often opens wide the door to the enlargement of the demand, as it were. It is so easy for the Student always to govern thought if he or she will only do it before it gains momentum. Say: *"Here! Now, stop! Get out!"* The thing the outer self needs is unshakable confidence; because it has not been accustomed to Instantaneous Manifestation, it feels things are far off, so to speak.

Don's grown appearance: If Don loves Me and occasionally looks at My picture, he might easily take on a resemblance. Nada has an amazing Power through the use of the Love Ray.

Our new Home: The establishment of an Ascended Master Home is entirely within the province of that

Intelligence that comes forth at intervals. The best way is just to rejoice in the idea and let the Great Wisdom bring it about. Many times it is absolutely essential that the idea be conveyed to the outer; for through that, certain preparation can be made which saves a great deal of energy.

BENEDICTION: Thou Great Glorious, Radiant "Presence"! Thou who art the Wisdom, Power, and Love–the Inflow of Light enfolding each one! Mighty God of Light! Thou Mighty Eternal, Radiant One art forever the Governing Presence of these Thy Children!

DISCOURSE X

August 4, 1932

SAINT GERMAIN

INVOCATION: Thou Mighty Infinite, Majestic "Presence"! We give praise and thanks for the Outpouring of Thy Mighty Messengers. This day when Thou hast sent forth Thy Mighty Messengers to bless America, We are cognizant of Thy Mighty Activity–Thou Mighty God, the One, the Supreme–unfolding Truth through Thy Wondrous Individualization that every hour, every day, is drawing nearer the Perfection of Truth in the outer activity.

In the Heart of each is the Cosmic Perfection taking place. To all who look to Truth, as a Mighty River comes the Outpouring from Thee.

THE DISCOURSE

For the first time in five thousand years, there is being sent forth an Outpouring of this kind to America. There are Seven Sun-Centers in America to which Seven Great Beings are this day pouring out a Mighty Radiance. Four of these places are New

York, Chicago, Denver, and Seattle. The Seven Great Ones at this time are Cosmically permitted to intensify the Mighty Christ Presence that is steadily moving forward into the consciousness of humanity.

At two o'clock this morning, seven Pathways of Light might have been seen in the sky. This portends much for the Blessing of America, in fact for the entire North America. These Great Beings whose attention has been called to this sincere Channel that has made the point of the wedge through which They have found entrance, whereby They may shed Their Light into the darkened spots of human civilization–They send you a Wondrous Message: the Promise that you shall have Great and Powerful Use of the Light Rays.

The Cherubim and Its Message: The Beloved Cherubim is enthroned, holding Its Conscious Radiance about you today. The Loving Message to you is this: "Fear not what any mortal may do; command silence of the outer in the Name of that Ascended 'Presence,' and all the outer must bow the knee before that Mighty 'Presence' and be at Peace." Again come the Words from over the ethers: "Thou shalt yet know, feel, see, and experience what Loyalty to the Light and the Ascended Host means."

No matter what any mortal may seem to manifest, hold fast always to the fact that the Omnipresent,

Mighty God and His Chosen Messengers govern the Earth and its inhabitants in spite of any seeming appearance to the contrary. The God of Light, Love, Wisdom, and Power is anchored within your lives, within your world, and is the Conquering, Silencing, Supplying, Invincible Presence and Power. Know this and be at peace.

To Mrs. Ballard: Again, may I express to you My Appreciation for the attention given to the National Anthem; for it has given Me an opportunity to do for America, the Jewel of My Heart, that which I have not had the opportunity to do since the signing of the Declaration of Independence. Others have their times of rejoicing; today is My turn. As We never fail to give praise and thanks for the smallest Manifestation of that Mighty Invincible "Presence," so in proportion to that Mighty Power of a Manifestation do We, in Intensified Consciousness, give forth gratitude and praise. So you see We are no different from yourselves; for no matter what the Height attained, We are always ready to put self aside and give praise and thanks for the opportunity to consume and dissolve anything that would impede that Mighty Onward Progress.

Always keep before the Student the fact that self-pity is one of the most stifling things which impede individual progress, and yet it is so easily governed

when once understood. Every Student of the Light should, at least once a day, take inventory of his consciousness and see wherein there is an element that needs eliminating, and then proceed to do it. This must be done by the use of the Consuming Flame. In this way, he keeps the consciousness cleared and the pathway open to the Mighty Inspiration, and he will be much less annoyed and disturbed by undesirable thoughts.

The Three Plumes of the Soul: Out of the Great Glory of the Conquering of the outer self, is the Soul crowned with the Three Plumes of Sustaining Power. These Plumes, I assure you, are Real and Tangible. This Good Brother is the only one who has described Them outside of the Arisen Host, as you will find in the second visit to the Royal Teton in the manuscript [*Unveiled Mysteries*]. The Three Plumes of Light proceeding from the Globe of Light never leave those who have reached a certain Attainment, and may be seen by all who use the Inner Sight. At first It is a blended, soft Light; but It grows in Strength as the Consciousness is held on this Highest Center within the individual. It steadily increases until It forms three small Plumes no larger than your finger. It continues to increase until They reach three feet. In form They are almost identical to the most beautiful ostrich plumes one could imagine. At one time in

the history of England, the symbolism of the Three Plumes of the Prince of Wales was known, and also in France; but it is now forgotten.

A most remarkable Manifestation of the Mighty Inner Power has recently taken place. Heretofore–in fact for many centuries–worded expressions have had to be clothed, or shall I say Divine Expressions had to be clothed, so that only the worthy might be able to interpret Their Inner Meaning. Many of these Great Inner Expressions will be laid bare to the observations of mankind, to give them an opportunity of utilizing this Wisdom–if they only will. If there is not within the Soul-advancement of the individual that which recognizes the uncovering of this Divine Expression, then he or she will pass it by; but if there be one or many that recognize the Truth, then to those will Great Assistance be given.

How the Student may help in national activity: You can give Me great assistance in national activity if you will make it a point whenever you read a negative report, to instantly take the conscious stand that there is only God and His Perfection there, sustained by His Mighty Messengers. It would be well if the Student should have this especially. This will do much to transmute and change the expression of the press. Whenever you see a negative expression by the press, command all the press to be God's Messengers of

Right and Truth–for ere long, it will not be a shield or puppet in the hands of politicians.

There will be placed a Mighty Messenger to control or govern the press; and when the change begins to tangibly take place, the members of the press will be amazed many times at their own audacity in expressing the Truth, where in the past they expressed falsehood. So you will see that God's Mighty Command has in nowise waxed short, but rather challenges mankind: *"Try Me and see if I will not pour out a Blessing, that there will not be room to receive It."* Often give the Command, *"Let there be Light!"*

Very important: I would suggest that you read that Message every other day so that it keeps these promises before you. A certain sort of Exaltation of the Soul goes forth through the recognition of It.

In times past the Student was not given any encouragement at all until he came to a certain point. So today, the Student is very fortunate. In times past, the Strength of the Student had to be proven. It is proven today in a way just as powerful, but unknown to the Student. He is taking his Initiation in the outer world. He is being made bulletproof, for now he is building his own Armor, a Permanent, Eternal thing.

Again, I feel I must say how really fortunate the Student is today in having the Assistance of the

Mighty Cosmic Christ. It seems to Me that when the Student really learns this, he will exert everything within his power to harmonize himself within himself, because he knows he has the Assistance of this Mighty Cosmic Presence.

Lest I might be misunderstood, the reason I speak especially of America today is because, as We have said before, America is the homecoming of the white race. Naturally, at such a homecoming, there must be prepared a great Feast of Light. It really is not possible to convey in words just what an individual Recognition and Acceptance of a Presence or Activity sometimes mean.

It is so difficult for the average Student to realize that he can be an Unlimited Channel for the Outpouring of these Great Messengers. When one becomes aware that he can be such a Channel for Outpouring, he should put aside all inharmonious thought within, or that which approaches him from without, as he would a poisonous serpent. When the outer self sees that it has lost its foothold and is slipping into oblivion, it concocts all kinds of pretenses to try to gain recognition; but when the firm determination is there to think, feel, and experience only the Beauties of the Christ, then there is left no opening for the outer to intrude itself and cause disturbance.

It is very great Law that when a friend voluntarily

wishes to give Assistance in holding another in the Light, he or she may do what even the teacher may not be permitted to do. So you see that your Impelling Power has been wise indeed. A Master may not go beyond certain limits with His Students; hence He wishes you to have this unusual explanation. *Therefore, every real Student will always withhold all criticism, no matter what the appearance may be*. People are so prone to sit in judgment on others, seeing only appearances and letting the criticism run rampant, no matter what the Truth.

The Point of Light within is the Brain of the Electron. It seems very strange that Students have not realized that the Spirit of Mentality acts on the physical body. If there were no Life, Substance, Truth, or Intelligence in matter, how could it be acted upon, as they have seen many times? For Intelligence to act, there must be Intelligence to be acted upon.

To Mrs. Ballard: It will be a Glorious Celebration when you reach the Full Accomplishment of knowing where you have been, are going, and what you have received.

A remarkable expression I loved to use and I often contemplate today, is, *"The matter of knowing God is simply the restoration of forgotten memory."* We have known God before because we are God-created. When we began the descent into dense

activity, we had the complete conscious memory. When the energy was directed downward, the veil was drawn; and the Marvelous, Glorious Beauty of that Wondrous Temple of God was forgotten. Now, that forgotten memory is steadily and surely being brought again into the conscious, outer activity. The amazing thing is that so few seem to have fallen into the idea that anyone with persistent effort could command that *that complete Divine Memory be restored*–and it would be done. Few have had the patience to continue long enough to get sufficient encouragement to go on. Give the Command that the full Divine Memory be restored–and It will be manifest shortly.

The use of the hands in speech: Don asked, "Why does Mama talk with her hands?"

Answer: Few can see what takes place with the person who uses intense movement of the hands in discoursing or explaining. A certain amount of energy is liberated, but not wasted. Many times where specific information is being given, the energy liberated in that manner helps the person to whom the explanation is being given, to receive it.

If you will notice, there are times when the hands are not used, and again there are times when they are used in almost violent action. If Billy Sunday, and others of like strenuosity, could have known what

they could have accomplished by beating the table with the open instead of the closed hands, they would have added greatly to their conversions. The hand is an outlet of the energy; consequently, those who from former knowledge possess great strength, are usually powerful in lifting and handling great weights. The energy always goes where it is directed.

The Vestal Virgins in the ancient temples: There was a time when the Vestal Virgin was given Tremendous Power to draw into Manifestation the Mighty Presence–the Activity of the Ray as the Flame. That was why in the beginning the Priestess could do what the Priest did not dare attempt, in drawing the Mighty Focus of this Invisible Fire. This was often greatly intensified by the King of the Fire Element, Oromasis. Of course at that time, explanations of those things were not given. Sometimes the Priest saw this Presence and Assistance, but rarely if ever was advised as to who or what the Presence was.

The Cherubim and Seraphim: The Cherubim has always been the Special Direct Messenger of God and has always assisted the Seven Great Lords of the Flame from Venus, and also the Elohim. The Seraphim are the next step higher. They are rarely if ever used in the same capacity as the Cherubim. Sometimes the Cherubim manifest as a Sun or a Flame of many colors. It is rarely that They manifest

in the human form as we know it.

BENEDICTION: Thou Radiating "Presence," as We are held within the Radiance of Thy most Gracious Smile, and the Embrace of Thy Great Self, We offer praise and thanks that Thou hast been sent to bless, to heal, to illumine–and that Thou dost command the Dwellers within the Earth to reveal Their Secrets to these Thy Messengers.

DISCOURSE XI

August 8, 1932

SAINT GERMAIN

INVOCATION: Thou Mighty Infinite "Presence," Thou All-Sustaining Power in the Cosmic World and in the Life of the individual. Thou art the only "Presence" and Energy. O Thou Mighty Light, clothe us with Thy Mighty Radiance that We may shine forth like the Great Sun, to heal, to bless, to enlighten all with whom We come in contact, and manifest Thy Mighty Sustaining Power. Silence and bring into subjection the outer self and activity that would spread its shadows in the Presence of the Light.

We take Our stand with firm determination to walk, to live, to be Thy Mighty "Presence" and Light. We give no quarter to the human or outer self that would interfere. We recognize, claim, and accept only Thy Mighty Radiant "Presence," Thy Mighty Sustaining Wisdom and Strength to lead Us forth on Thy Pathway of Life—ever upward and onward, ever sustained by Thy Mighty "Presence" until at last We

have attained Thy Gift of Dominion over the outer self and enter into the Temple of Light.

THE DISCOURSE

Instruction: I regret that you have not understood the importance of being in bed by midnight, so that certain Work might go on at those hours. It is important that the body be at rest by midnight. Certain Work is accomplished then; tremendous Work has been planned and cannot go on without the fullest cooperation–and I am sure you are glad to do that.

Obedience: In all Activity of Life the highest attainment without obedience may fall to the lowest. In the beginning when the Divine became lowered to the present density, it was through the lack of obedience. Unless you can feel this willing, joyous obedience, it is not possible to continue this Work. We are glad to give Assistance. I will give you Help and Strength to help you obey. It is only because of Love for you that We want you to hold to this condition for the Work. We cannot use any of Our Force to compel.

Use this every day: "Today, I will stand guard; and I will not become so interested in the outer activity that it will not give me opportunity to receive the Great Radiance of the 'Presence.' God, govern and sustain me in the governing and mastery

of the outer conditions."

Determination and Divine Will: One of the greatest and mightiest simple Truths is to know that an unyielding determination for any specific accomplishment is the Open Doorway by which the Inner Strength flows out to its accomplishment. In our present era of activity, I think it is very well that Students should understand that what has always been termed "will" by the Instructors, is but determination to hold to the Light and that Ever-sustaining "Presence."

I have observed so often that, like many other expressions used, the word "will" is not understood. There is only one Will that can be used, and that is the Divine Will. If we take a firm, unyielding determination to accept nothing but the Mighty Presence of God and that Activity of the Light, we are drawing into powerful action the Divine Will. However, I think it is much more readily understood by using this term "determination," for that cannot be misunderstood. This I am sure will help greatly the Students that come under This Radiation. There is only one Energy that can be used, and that is the Life Principle in the individual, which is God's Energy.

Please understand: Therefore when individuals aim, through the attention and determination, to use this energy constructively, then they have entered

into the fullness of the outer activity that will loose the Inner Activity to do the work. Students so often unknowingly drop into the mental attitude that they of the outer have to do certain things, when the True Activity is but to keep the attention centered upon that Mighty Inner God Power which is the only "Presence" that can ever achieve any permanent results.

The certain Victory: The conscious use of Decreeing, backed up by the conscious determination, is an Invincible Power and cannot be interfered with when the determination is held unyielding. Everyone knows what "determination" means, leaving no wavering or questioning in the mind. But to most people the word "will" leaves a peculiar sense of vacancy in the consciousness because of the uncertainty of just what it means in the individual's activity and use. I want this to be very clear and definite, for it is the stumbling block over which many trip.

The difference between human and Divine Will: So few, even among Students, can distinguish between what is called the human and the Divine Will. Therefore, We think it much better when referring to the Inner Activity, to use "Divine Will"– and "determination" when referring to the outer activity. This explanation will make it impossible for confusion to accumulate in the mind. Knowing

that the outer determination to do or accomplish something, opens the Inner Door for the Inner Power to rush forth to its fulfillment–this removes instantly all uncertainty that it can be done. This is so important to the Student who wishes continuous, definite progress.

In the Retreats, every Student is given private work, particularly in regard to his or her own individual activity. Until now, there has not been given out a clear understanding so the Students could utilize and apply it, except in the Retreats.

In moving in the outer world there can always be this same constant Love and Prayer for your Light and Protection. When you have been in contact with the outer vibration, it takes a very positive force to repel that outer contact and release you from that disturbing element. There may not be the slightest thing noticeable in the outer activity, but sometimes the mere contact with the disturbance of the outer world allows it to rush in if you are not on guard.

This Work must not be interrupted for the gratification of the outer self or activity. Everywhere you go, know and use always, *"God! surround me, and protect me from every outer vibration!"* This is one of the rarest privileges where I have been allowed to warn the Student. Owing to our home life of long ago, it is permitted that I warn you. If this Work is

uninterrupted there will come tremendous Light, Abundance, and Freedom; and tremendous things will be accomplished. The reason that I speak of this is that Obedience is the most important of all things. Nothing so destroys the attention as rebellion within; for it not only rebels to the outer but to the Inner.

For writing: If you are accustomed to writing, make up your mind before you begin, to keep a certain spot as a focus. If you move, it changes the current and you never get exactly the same condition again. The time has come when the Students must anchor to a definite, perfect thing and hold to it. This Brother years ago took the determined stand to know the Truth and hold to It. All Students should take the same stand to know the Truth absolutely. Then they do not take on a condition they have to get rid of later.

Foresight: "God in me, give me foresight and guard all future activity that all concerning it may be maintained harmoniously." "Foresight" means that we are loosing the Inner Protection against any approaching disturbance.

Divine Memory: "Divine Memory" covers all speech, thought, and action. "Memory" is that which has accrued from former speech, thought, and action.

The Guarding Activity of the Cherubim: Govern

the feeling at all times, for it builds that which even an Ascended Master may not interfere with. A certain sudden concentration upon the Cherubim in the Student's mind, is good now.

Where a reference is made to the Hierarchy of Cherubim, say They are direct Messengers of God. It is a very rare thing when the Cherubim can give direct Radiation, as is done here. There is usually one step down to the point given. We are sustained by our own Mighty God Self within and the Ascended Host or Watchers. The Cherubim is a Dynamo or charging forth of the Power of Divine Love. They are Guardians of Force that has been focused, and of Foci to be. Others work under Them. Sometimes there are two or three steps down, depending on the requirements of the human channels through which They are to operate.

Always feel your own God Self holding you in Its Arms, and know that all is dispelled and you are free.

The Cherubim guard Shamballa, as well as the Great Ones Themselves. The Cherubim guard the Ark of the Covenant. That is the case always when the Manifestation of a High Power comes within a mixed force. Whenever a Being comes like this, you can imagine the importance of the Focus established here. If the Great God saw fit to place a Cherubim as a Guardian over this Focus, you must know it is

of great importance. Thus you see how great this can grow in this civilization. As you read about the buried cities of the Amazon in *Unveiled Mysteries,* you will see how such a Focus takes place.

Nothing in the Universe can say nay to an individual if he chooses to turn his vision down. Very few Students get this idea fully. One must of his own volition be joyously willing to render Service to the Light if he is to have help. The Student who sees that he has made mistakes and, through the God within, has the power to consume them, will certainly take the reins and do it–and thus rid himself of barnacles, centuries old.

The fact is that God can consume that which has been personally generated. Anything that has been humanly generated can be dissolved and consumed, because God's Energy was used to create and, when requalified, has the Power to consume and re-create. When an individual says in a half-hearted manner, "It is consumed," it is not necessarily so–unless there was Power or Energy enough released to do it. When one gives a Real Command and means it, the feeling within it always carries force, and that force is its Accomplishing Power.

Instruction on Unveiled Mysteries: The Scepter in the hand of the feminine figure in the Tapestry symbolized the focusing of the Eternal Cosmic

Power for the Center in the Royal Teton. The Globe represented the fact that the future Activity of the Retreat and the Earth was known. The reason why I think you have the feeling that you should dwell considerably on that Tapestry, is because it would be well to dwell in detail on the description which reveals that They were the Founders of the Retreat.

Question: "Where are You going today?"

Saint Germain: To Arabia, in the Retreat. There is no time that We meet here that there is not a Direct Ray sent to Washington for consciously directed Work. We do not have a Focus in Washington like this, but We do have Messengers there.

Angel Deva and Cherubim: Through a consciously directed focus, the Angel Deva and Cherubim can pour Their Streams of Force out through the individual's own outgoing Stream.

Sleep and the Great Great Silence: "Sleep" is entering the Great Silence. As the outer self becomes inactive, the Inner Action is released.

Affirmations:

Use this constantly: *"I move within the core of the Ray from the Great Central, Spiritual Sun, and 'I AM' always within Its Invincible Protection!"*

Say to your Mighty Master within: *"Reveal to me something that will put my finances which are mine by Divine Right, into my hands quickly;*

and sustain me in it, through overwhelming and everlasting Light and Love!" Say also: *"Open Your Channels for my Mighty Supply! Put it in my hands now and continue it permanently!"*

"God! Open all channels for my money supply now, and I accept nothing else!" Your only business is with the Master within. Say to It: *"Dispense this in Thy Perfect Way through me in Wisdom and Love!"*

It replies: *"I, Christ, the 'Beloved Mighty I AM,' being declared and to nothing else turning, show thee hidden riches from Secret Places."*

Surrender all attention to the "I AM Presence" within you. Anyone of you can now take the Consciousness of a new activity and accomplish it as surely as you live.

Say often, joyously: *"I stand with God, the Supreme, Reigning, Conquering 'I AM Presence'; and as that 'I AM Presence,' I do not want for any good thing!"* Say also: *"God! Give me some money now, today!"* This can no more fail than the Universe can cease to exist.

Know: *"This home is sealed in the Heart of the Cosmic Light and Love, and every right desire is created instantly!"*

Remember forever: *"The moment you fight a thing, it fights you back!"* Always be on guard when the

destructive element is discussed or read about.

Live every moment of the day in the Consciousness of the All-powerful Presence of God in you. Say to yourself: *"I have the Mighty Presence of God in me, and I do not give recognition or power to anything else!"* There is nothing that can stand before that Invincible Presence of Almighty God, and all things must be and are compelled to bow before It and obey.

The first thing in the morning, take the determined stand that *"only the Ascended Host of Light can contact me mentally this day!"*

Never fail to use: *"There are no personalities! There is only God in Action at every point! 'I AM' the only 'Presence' acting!"*

Say to your God within: *"My Great Love Self, I do receive instantly all of everything I require!"*

BENEDICTION: Thou Mighty "Presence"! We give praise and thanks for Thy Wondrous Radiation and Sustaining Power! All unlike the Christ is consumed; and all now goes forth clothed with the Sustaining Activity of Thy Mighty Presence, holding all within Thy Great Silence and pouring forth Thy Greatest Activity.

SAINT GERMAIN

INVOCATION: Thou Mighty Majestic "God Presence"! whose seeming Mystery of Life enfolds Thy Creation, make that "seeming" a Joyous Reality to Thy Children of Earth. Enfold them in Thy Wonderful Radiance, illumining the Pathway of each one that they stumble not. Infinite is Thy Patience! Enduring is Thy Love! Great is Thy Peace!–Thou Wondrous "Presence," active in all mankind. Thou Mighty Presence called "Nature," responding to the God within Thy Creation, pour forth Thy Lavish Abundance upon these Thy Children. Children of the four Elements, I call unto Thee! Come! and minister to the Children of Light! Oh, that each one would keep the Love Radiance burning, that every other condition might be put aside for the inflow of that Mighty "Presence"!

THE DISCOURSE

Where there is no thought or feeling of rebellion, judgment, or resentment of one another,

what Glorious Heights can be reached. Again, I congratulate you on the wonderful condition supplied. The God in each is Master, especially of the mentality. The mentality, if rightly understood, is God's Action. Where God is–*there* is naught else. Say often, *"God alone is here, and I see and feel naught else."* The son is father to the man. The daughter is mother to the woman. Does that sound paradoxical? I assure you it is not; for as a rule the suggestion enfolding the child from five to twelve or fourteen years of age, is that which makes the character of the man or woman unless, through the Conscious Knowledge in practicing the Presence of God, they release and consume all suggestion infringing, and walk forth in the True Inner "Presence."

The unfortunate thing–and in this respect I mean entirely the delay of progress, for there is nothing comes that is not needful–is the lack of knowledge in warding off suggestions that are intruders upon our God-given Freedom. Hence, the reason for the wise statement that our friends are sometimes our worst enemies. *For anyone, outside of a Teacher (I mean by that a real Teacher of Light), who has an opinion about another individual, is intruding upon that individual's freedom; and it simply should not be done!* One should always guard the thought tenaciously against rebellion of thought

when the teaching is presented or good intended; for no one outside of the Arisen Ones is able to judge the intent back of the speech or action.

The two Wings of the Soul: It is said or conceded by those of orthodox opinion that Angels have wings. I shall explain to you why. *Determination* and *power* are the two *Wings of the Soul,* not necessarily visible even to the Inner Sight, but they are there just the same. And where you recognize determination as will with its accompanying power, the Soul may rise to any height of Mastery, and in that recognition draw the outer into Itself that there be only *One–God in Action*. The Supremacy of the Mighty Inner Master "Presence" must be acknowledged by the Students as Real and True, and the Students must acknowledge that they have the ability and power to practice that Mighty "Presence" in every act of Life. The more the Students practice the Presence of God within themselves, the easier it becomes and the more they want to practice it. However as I have mentioned many times before, the outer, in the beginning of the advancement, will find every excuse to try to get the attention on outer things or on the body, which in its ignorance it claims as its own.

The only sure release from bodily conditions is to take the mind off the body and keep it off. If there seems to be something that needs correction in the

body, put your mind on God and hold it there until the condition that seems to need a remedial agent suddenly disappears. This is why there is now and then a Student who conceives the idea that there is nothing to heal–because anyone who will practice this the instant there seems an appearance in the body of anything discordant, and who will put the mind on God, knows that "Presence" is the most powerful remedial agent in the Universe.

Many, by the use of this Application, will find instant release from any bodily condition that seems inclined to hold the attention. This is, in reality, consciously taking the problem into the Great Silence where there is nothing to heal because all is Perfection. This is just as true of business conditions as for healing the body. In fact, anything that seems to express imperfection can be handled the same way. No permanent release from bodily disturbance can be had, so long as the mind or attention is allowed to be drawn to the condition from which one wishes to be released. With many natures the same thing is true of denials, because the more they deny a thing, the more they bind it to them; for in the denial they are letting their attention rest on the very thing from which they wish release.

To truly practice the Presence of God, we must know that there is only One Intelligence which can

act, One Power to use, and One Love with which to accomplish. You know by this that you have within, the Victorious, Conquering Activity every moment. Thus, whenever there is anything to be handled–it matters not what–the moment it seems to have an appearance, using your Wings of Determination and Power, say: *"God, solve this problem and do it at once! I give You all the power where it belongs! I recognize You as the only Activity! Therefore, this appearance has no reality and dissolves instantly before Thy Mighty Presence!"*

If the Students will continually use this, they will soon find that they have no problems. As conditions permit, you will find that this which has been given is but a small part of what may be given for use–as you become more and more aware that you are gaining, not only in what to do, but how to do it. It is the same as with a teacher in the outer schools who gives the child a problem. He also shows the method by which to solve the problem, or he would be a very inefficient teacher indeed.

The Student will always find that where there is sufficient sincerity and earnestness, and a constant calling for Light and Understanding, the Way will always appear for the Knowledge to be given which will lead him or her to Freedom. The True Activity, when we have come to this present state

of understanding, is to give no quarter whatsoever to outer appearances.

The Student at this point should constantly analyze the outer—not in a critical way, but that he or she may be conscious of what there is that needs changing. The sincere Student should with all tenacity break up every old personal habit no matter what it is—for that is the thing that binds.

A great many Students do not give this the slightest consideration. The old personal habit is the serpent in the garden, so to speak. This is what I mean by analyzing: to know what there is to break up, which before we have been considering as a necessary habit. There are so many little things in a person's Life which are limitations that can be broken up. We must break up old habits as ice in the springtime, for they form incrustations that prevent proper growth.

When old habits are set, a rebellion in the outer takes place when a change comes; and this always disturbs the feelings. This is one of the greatest unrecognized barnacles of the Soul. There is not one person out of a thousand who has the slightest idea of the number of these old personal habits until he turns about and looks at them; then he can see how these incrustations bind him.

The serpent so-called, which is but rebellion and

resentment, will find nothing to feed upon when these habits are broken up. Therefore it will hunt for more fertile fields, or in other words, completely disappear from your garden. If old personal habits are broken up, there is no resistance to the Truth. The right attitude is to joyously accept the Truth, no matter how much it mangles up the outer. This is why we must stand guard every moment at the gate of our outer world.

The True Activity of Love: When an individual feels that he or she cannot give forth Divine Love, it is because that one does not understand the True Activity of Love. Where two individuals are concerned–one seeming to be in disgrace while the other so to speak stands guard–a person does not direct the attention to, or attempt to love the discordant thing; but he is to love the Glorious Being imprisoned within the individual, because of Its Perfection and because the discord of the outer self has bound It. The Christ Attitude would be to send Great Love to that imprisoned Presence, which is God–the Light within the individual. This, anyone can do with Great Devotion.

Knowing this, make the Conscious Demand with determination and power, that God break down and dissolve the barrier and set this Radiant Presence free to again assume Its Dominion and

create Perfection in Its outer world. The individual standing guard in such a case, has the Divine Right to make this Conscious Demand; and if it is kept up, the way will be opened and the problem solved in the right way. This will give a peace and relief to the one standing guard who really grasps this idea, that will be almost unbelievable. The mistake so many people make is in attempting to solve a condition with the outer mind.

Enthroning your own Divinity: The most important and the greatest thing that everyone needs to do, and especially Students who are sincere, is to consciously enthrone their own Divinity in Its Temple, giving all power, all devotion, praise, and recognition to It, that the outer attention may be firmly anchored once and for all time where it belongs. Thus the outer, which has been the usurper, will be drawn into the Great River of Light, until the very existence of the outer is forgotten.

As the autumn approaches, take the conscious stand: *"God, the 'Mighty I AM Presence'! See that every part of my body is governed harmoniously and that I am not affected by atmospheric conditions! God is the Center of my being and governs my body in Perfect Harmony at all times! I do not accept suggestions from those about me, either from the spoken word or from appearances! I move Free! forever Free! in*

my Mighty 'God Presence'!"

Very important: The conscious recognition of the Electronic Activity within your own body as the Electrons bursting, is a real Activity taking place. The picturing of the Inner Reality becomes Reality in the outer self. The use of the Blue Flame stimulates the Electronic Action within the physical body and ignites the Gold, Pink, and Violet Flame in Its Force Field. This sets these Activities into Action, as the Force from the Electron radiates out. The true nature and color of the Electron is in reality an intense Sapphire Blue; to some it might seem Violet.

It is important to understand at this time, that any Ray having Its own original state of color may be made to contain the Activity of another Ray, by the conscious effort of qualifying It thus. For instance, the Rose-Pink Ray of Love may be touched by the Violet of Power; or the same Ray may be edged on one side with Gold and the other with Violet, which makes the Trinity of Love, Wisdom, and Power.

As you advance in understanding, you will be able to consciously form different combinations as the occasion may require. For instance, as the Ascended Masters operate–and anyone else may if they so choose, the White Ray may be used as the foundation upon which to operate, It being qualified with the other colors and elements as may be

required. This places within the hands of the sincere Student almost Limitless Activity and Power.

The Student who constantly asks for Divine Love to enfold and Wisdom to direct the Power he or she uses, will enable this Activity to become so anchored, that after a while the very use of the Rays will naturally call forth Love and Wisdom in Their Action.

As We said in the beginning, when the old personal habits are broken up, you will find them replaced by these Marvelous Divine Habits that will indeed be a True Blessing. One must become aware that in the Mighty Activity of God is all Mentality; and when we mentally connect with an idea, which always has its form, we are in direct communion with the presence of that form.

All Students who come to a certain point of understanding, will come to know that America is to be the Great Jewel of God's Light–I say this advisedly–beyond any part of the Earth!

Mrs. Ballard: "Will the pictures of the Arisen Masters be precipitated sometime?"

Saint Germain: The time is rapidly approaching when many such things will be done; and the purpose of it is to have anchored in the mind of humanity, the Reality of those Mighty Beings. It is important that humanity realize that there is a

Great Host of Advanced Beings beyond this present state–proving that Life is Eternal, and that from the visible to the invisible is but a slight step anyone might take without passing through the change called death.

BENEDICTION: Mighty Presence, Beloved Cherubim! We give praise and thanks for the Wondrous Radiation, for the Blessings that are showered forth today. We give praise and thanks for the Mighty Radiation that has gone forth in official places, preparing the way for God's Messengers to be enthroned for the Dispensation of God's Great Love, Wisdom, and Justice. We give praise and thanks that all mankind have become an Anchorage for the Mighty Presence of God, quickened into the Activity of a Conscious Desire for the Presence of God. We demand that it be quickened with great rapidity to bring forth the full fruition of that which is to be.

SAINT GERMAIN

INVOCATION: Thou Mighty Infinite Presence of Light! We give praise and thanks for Thy Intense Radiation, for the Joy of Thy Great Radiation, for the Peace of Thy Great Love, for the Grace of Thy Eternal Youth made manifest in these forms! Help each one in this, Thy Chosen Center, to feel–to be–Thy Joyous Presence, to know there is naught manifest but the Perfect Activity of God. And give us the Wisdom and Strength to at all times maintain Thy Perfect Harmony, that we may receive the Being and Majesty of Thy Omnipresence.

I bring you Love and Greetings from the Host of Light, who wrap around you Their Mantle of Love that raises the outer into Full Perfection.

THE DISCOURSE

The beauty of an understanding Heart is without limit; for the endeavor to gain this simple understanding of these Higher Laws so that one

may put them into daily practice, enables the Mighty Master "Presence" to shed Its Fragrance over the lives of those who acknowledge the "Presence," and by this to give every assistance to steady them in the successful application of the understanding they possess from time to time.

In order for the Students or individuals to have the comprehension of the Mighty Force they are using every waking moment, they must try to see wherein and how they are utilizing this stupendous Force. As is often called to the attention of the Students from one source or another, they are constantly sending forth tremendous energy. This, if understood and consciously directed to a given purpose, could not and would not fail in quick accomplishment.

This is rather a savage thing to say, but it is true and must be said: most of the force sent forth by individuals is through anger or resentment, in some of their subtle forms. Why? Because it generates an intense feeling. Anyone who does not understand this or–understanding–does not control it, but delays the hour of achievement. It has been thought by even advanced individuals that it was not possible to generate consciously and at will an intense feeling, according to the desire. I tell you surely and truly that anyone can, if they will, generate the same intensity of feeling for the

adherence to the Light that they can generate in a fit of anger, temper, or despondency.

These are the two opposites. To allow oneself to drop into a fit of discouragement or despondency is but letting oneself be used. Instead, one should rise up and utilize his opportunity. He should generate intense love, the opposite pole to his despondency or anger; and through this he would master his problem. However, this is seldom found. But the one who will do it, is always master of every condition.

When the Student who has had many examples before him of the Mighty Activity of the Great Law–God within him–allows depression to engulf him momentarily, he is but expressing a form of self-pity, which should be shunned by the sincere Student as he would shun a poisonous viper.

Students of any understanding to speak of, must know that everything depends upon themselves, and that to form a habit of looking to someone else to sustain them but delays their own Mighty Victorious Accomplishment. Victory over oneself when this constantly generated energy is utilized in this haphazard, thoughtless manner, takes twice as much energy as is otherwise required to sustain them in Perfection, in Health, in Prosperity and Happiness. The Students who want to succeed must face this fact and conquer it in themselves.

Now here is the greatly encouraging thing about this sort of reprimand–which the above might be thought to be, but is not: When the desire of the individual is sent forth or held on constructive accomplishment, he has the Power of the Universe at his back and at his Command, that will sustain him unfailingly in every instance when his determination is held unwaveringly.

Again, let Me remind you that self-pity is the strongest disintegrating force of any one attribute of negative consciousness. When a Student, because things have not been accomplished for him, suddenly takes the attitude, "Why isn't this accomplished now?"–I want to say that this point is not of any consideration if he really wants his manifestation. His part is to stand with firm, unflinching determination to the only Power that ever acts, which is God in himself; and without thought or question of why a thing isn't accomplished, take this stand: *"By the Power of Almighty God in me, I know that whenever I stand with determined desire to accomplish something constructive, it cannot fail."*

The thing that very often causes seeming failure is the very subtle point of wondering why it isn't accomplished yet or doesn't seem to be. Instead of wondering what energy should be sent forth, know that when the Decree has gone forth for any

constructive desire, it is God acting. Then of course you must know and feel that it is impossible for It to fail. This is self-evident. Thus, in a simple manner is the consciousness utilizing this Mighty Energy as It should be used.

The following is the reason why Students delay the very thing that they wish to succeed in. As an illustration: if the Student has worked earnestly, knowing the Truth and consciously directing the Power in the right manner, and then if he suddenly allows discouragement or despondency to sweep over him for one hour, he may–according to the intensity of the feeling–dissolve all he has accomplished through days of earnest work. This is a reminder to the Student to stand his ground and never yield or give power to anything but that Mighty Presence of God, which accomplishes all things through His Mighty Presence and Power of Divine Love.

Read this reminder: If Students are strong enough to face this Truth–to read this reminder whenever they find themselves slipping–it will be a Limitless Source of Strength and Encouragement to them; for through these Words, to everyone who reads them, will flow a Mighty Sustaining Power.

There is no one thing of greater importance–and yet so simple that a child can comprehend it–than for a Student to watch and see in what manner he

is constantly sending forth this Great Energy. The simple, natural manner in which one is constantly giving off, as it were, this force, is quite sufficient for the accomplishment of ordinary things. Then you can readily see what enormous added power and energy is given off by the Conscious Use of the determination and will.

Individuals will often say, "How do I know whether I am using the Inner or outer will?"—when it is so easy to determine, knowing that any constructive desire is the using of the Inner or Divine Will. If Students will accept and utilize these simple yet Mighty Truths, they will find no difficulty in handling themselves or conditions.

While the generation of anger comes of a sudden impulse, the Conscious Use of joyous determination is at least twenty times more effective; and this, one can generate consciously and at will. How? By stilling oneself and joyously entering into the consciousness of how Limitless God's Power is. It is impossible for God to fail in anything, and Its Activity is more or less Instantaneous, in accordance with how much power we withdraw from outer things to which we have given power.

This will show you how one can always have the Power of Accomplishment as the Mighty Magic Wand in one's hands to use for anything whatsoever,

from the simplest to the greatest. The only reason for the seeming lack or delay of accomplishment is that one is either consciously or unconsciously dividing this Mighty Power, for it surely does follow and act according to the direction given it.

Meditating upon this and knowing it, will enable the Students to give fuller and fuller power to that Mighty Energy which they may consciously direct at any time. It is when we need the assistance most that we should stand with the greatest determination: for when everything is going joyously, harmoniously, and prosperously, the very forward movement of our being requires very little conscious effort; but when the Students enter onto the Conscious Path, then they have taken the reins and are supposed to consciously direct this Power–and especially when they have dedicated themselves to the Divine Service of the Light.

I say to the beloved Students that this is no idle thing when the Students dedicate themselves to Divine Service. It means that they have thrown down the gauntlet and have challenged battle with the outer self, which *must* be done sometime; and the sooner it is done, the sooner over with. But because the outer form falls down over a secret wire placed there by the outer self, is no reason why one should not get up and go serenely on.

The nature of the individual is such that until he understands these points of vital importance, he does not stop to realize that when everything is going well is the time to build up his momentum and gird himself with the Armor of that Mighty Master "Presence." Then if he finds himself tripped up, this very momentum will cause him to bound like a rubber ball onto his feet, taking quick and powerful command of the situation, commanding this Mighty Presence of God to solve and govern the situation–whatever it may be. Knowing this, you will see and agree with Me how absolutely absurd it is to allow yourself to become negative in the least.

The positive and negative forces: Now right here, it is a good thing to understand that the negative and positive forces exist everywhere in Creation; and the negative is in nowise to be condemned, for it is the means by which the Children of Light are caused to become more and more aware of their own Conquering Positive Force. To give way to the negative force is to become more and more enmeshed in it, but to instantly recognize the presence of any negative thought or feeling is but to cause one to turn to one's positive pole and rest there serenely.

The manifestation: As We have said before, *the manifestation will come if you want God enough!* It cannot help it! It will fall over itself to get to you

if you want God enough. The Students who want to, can take this now and stand their ground. The people wallow in the negative conditions instead of rising up and saying, *"I stand with God and refuse to be affected by this seeming appearance."* If we permit or allow negative conditions to control us, nobody can help us, not even God Himself.

Beloved Lanto: Lanto was from this Earth, but He has arisen to Venus and has become the Star Pupil of Sanat Kumara. He is the Ascended Master in charge of the Retreat of the Royal Teton, but was not the Guest Master from Venus. He was the one that introduced the Master from Venus who was the Guest and who was given charge of the evening [see "Venus Visits the Royal Teton," *Unveiled Mysteries*].

Cherubim: There are certain Cherubim who have been human, but only a few. There are some from a Sphere of Activity who are prepared with a well-rounded knowledge. Each Element has those of Its own who are sent forth to teach the rest of those in that Element.

Venus: Venus came to assist the Earth with Its own Wisdom. Through all Creation, the step higher is always reaching back to the step lower to give assistance.

The Ascended Masters: The Ascended Masters teach the inhabitants of the Elements the Laws of

God and Immortality, and thus They prepare those of each Element to teach the rest in that Element.

Retreats in the mountains: The early Power used by the Ascended Masters in preparing Retreats in the mountains, had to be secret and not discoverable by anyone in the outer world. The Great Watcher saw the necessity of the Great Light having Indestructible Protection. This is why there were Retreats in all parts of the World in caves and mountains. They used the Flame to break down the great masses of rock, and the elementals were created for the purpose of disposing of the debris. Later all was disintegrated by a Flame.

The Raising of the body before the Advent of the Master Jesus: Up until the Advent of Beloved Jesus, all raising of the body was an absolutely secret process. Not even the Students in association knew what was to be done–only the one raising or being assisted in the Raising.

Age of the Earth: Human Life has been on this Earth since it was created. Geologists only have an approximate idea of the age of the Earth, unless they have been highly inspired.

Former civilizations: All evidence of some former, great civilizations has disappeared except certain records. There came a time when indestructible receptacles had to be prepared by Precipitation for the preservation

of certain records of former civilizations.

There will yet be a Chamber of Records that will be unsealed, when the New Age has been entered into sufficiently and the Christ Power has gained sufficient Dominion. This Chamber will reveal another period of civilization's progress, far greater than the one known at present.

In the Inner Cosmic Activity, you will see the Creative Process of God. You are the Eternal Wisdom of the Eternal Creative Process acting, as far as you have gone. That is why knowing a thing in this manner means that you have entered into the Creative Process, and this Knowledge is different from any other kind of knowledge.

Ascent of the Soul: There were points of rest for the descent and Ascent of the Soul in its intense outer activity.

The Akashic Records machine: The machine to read the Akashic Records will not come forth until humanity is sufficiently evolved to hold to the Christ Presence with no danger of slipping back. If this instrument were to come forth now, it would upset every theory the scientific world has.

The only thing anyone has to do is to anchor into God and stay there, and human beings will continue to suffer until this is done. The process of gaining Self-consciousness would be impossible without

reembodiment. The outer body could not stand the speed of evolving Self-conscious knowledge in one body.
Notes and Affirmations:

" 'Mighty I AM Presence,' give me Thy Foresight and guard all future activity, that everything concerning it may be maintained harmoniously."

"In the Fullness of the 'Presence' is the thing that I desire."

At least once a day, demand that your world be flooded with the Mightiest Activity of Divine Love.

"God, the 'Mighty I AM Presence,' surround and protect me from every outer vibration."

" 'I AM' always Christ Victorious!"

When one starts to argue with you for a negative thing, take a definite stand and make them realize that they are arguing for the very thing they do not want.

God is alive within you. Do not allow Him to be silenced by the doubts and fears and uncertainties of the human self! Obedience is the most important of all things.

Beloved Nada; Mary, the Mother of Jesus; and Meta, the Mother of Cha Ara are definitely concerned with the Motherhood of humanity.

BENEDICTION: Mighty "Presence"! We give praise and thanks for Thy Radiation ever active in these lives and this home. Make it such a Radiant Center that all are blest who come into it.

SAINT GERMAIN

INVOCATION: Thou Mighty Impelling Force and Intelligence governing Thy Wonderful Creation, animate and inanimate, We give praise and thanks for that Great Privilege of being in Thy Great Individualization. We give praise and thanks that We have within Our Consciousness Thy Presence centered there All-powerfully–All-intelligently governing all substance so that We may command and be obeyed.

We give praise that We are One with Thee, Almighty Father, and that it is not a dream that We are Children of the Mighty God. We do have Thy Mighty Power to use for Almighty Good. May Thy Wisdom guide, Thy Light enfold, and Thy Intelligence direct Us unerringly that We may enter quickly into Thy Eternal Perfection.

I bring you Love and Greetings from the Host of Light and the friendly Deva. This Deva was much pleased that this Good Brother was able to see the

Overshadowing Radiation. There is One at present overshadowing Chicago, maintaining Its Radiation here.

THE DISCOURSE

It seems to Me that it would be well to have a clearer understanding of the activity of Free Will. Children as a rule choose their parents, those to whom they shall be born in this earthly Life. Those who are to do Special Work are sometimes assisted by the Great Ones in making their choice. No one can be blamed for conditions, except the individual himself. No child can blame the parent for anything. No individual can blame anyone but himself for what seems to be lacking in this matter.

Energy is always present in great abundance; but if not rightly used, things cannot be accomplished. Any affliction within the individual is his or her own creation. This must be recognized by Students so there will be no drifting away from their own responsibility.

Every individual is a God in embryo and can call forth Limitless Power to use for his advancement at any and all times. The cause of one's seeming slowness of advancement, many times, is because the Student or individual is consciously or unconsciously looking for the manifestation rather than the joy of entering into

the Great Heart of God's Great Silence. If once the Students truly understand this, it opens a new gateway to their growth and causes them to look entirely within themselves for everything. The inclination of the human or outer activity to continually be looking for something *outside* upon which to blame their own shortcomings, is the great stumbling block to the rapid progress of many.

I am clearly aware of the great controversy which existed at one time over the idea of Free Will, but that does not alter the Truth in any way. I tell you, everyone has Free Will and is commanded to choose whether they shall serve the Upward or downward course; and no one can say them nay in their own choice. Those who choose the Upward Path have the Mighty Presence, Intelligence, and Power of the Ascended Host and the Great Devas to assist them in every manner that is permissible.

Again, it is well to remind the earnest Student to keep looking to and asking the Mighty "Presence" to show him clearly the Way and to answer his questions–because if the Student will sincerely ask that Mighty Inner "Presence" to do it, those questions will be answered; and after a few experiences, he will find the answers coming quickly and surely. Such effort will give the added impetus and stimulus to make this an easy and continuous activity.

The sincere Student should call on the Law of Forgiveness every day, and give praise and thanks for having come to the point of consciously knowing the Mighty God within.

The Deva: The Mighty Deva who has so wondrously chosen to come and minister, making this a most unusual Center of Radiation, is a Deva from the Temple of Green. The Deva ministers for the purpose of stimulating the Inner or Divine Activity into a certain definite action–not only for the Students who come within Its Radiance, but to the city of Chicago and to North America.

The mountain in Alaska: It is not generally known, in fact not known in the outer world at all, that at the time the top of the mountain was blown off in Alaska, there were certain chemicals and forces liberated from the Earth that temporarily dulled the activity of a large portion of mankind; and I wish to state that it was not an ordinary volcanic eruption.

The Great Depression [1929]: The time has arrived when the depression is being and will be completely removed. The so-called depression that reached its lowest ebb some time ago is the result of this activity in Alaska. But, as is always the case, the Great Wisdom of the Ascended Host and Their Messengers, the Ascended Masters, always

finds means of transmuting a thing that might be harmful into ultimate good. This is applicable to an individual as well as to a nation. The momentum of the so-called depression, I assure you, is completely broken; and as the ice breaks up in the springtime thaw, so is it being scattered, dissipated, and dissolved into its nothingness. The volcanic explosion in Alaska affected the World War also.

Through the Mighty Radiation and Lifting Process of the Ascended Host, Their Assistance will cause a quickening and clearness of activity in the outer thought of mankind. This will surprise even those to whom it comes. It will be as though they are awakening from a dream.

Let Me again urge each one that when a disturbing thought comes, you put it out of your mind instantly and do not accept it or allow it to get whirling into a momentum. Instead say: *"Get out! There is only God and His Perfect Activity in My Life, home, and affairs."* Keep up your work in knowing: *"There are no personalities here! There is only God in Action everywhere present."* This is a positive form, recognition, and acceptance of the Mighty "God Presence," even though you are not having the attention on the thought of Protection.

Love: Love, being the Hub of the Universe, is naturally the cohesive element and is the Power that

projects into form. If people do not love enough–or not at all–they are shunned by everything, for they repel; those who love, attract. The very energy Students use to criticize or condemn, if turned to the Mighty "Presence," would not only give them relief, but would set into motion Great Light and Understanding. We are all using enormous energy all the time, and the thoughtless use of it is enough to move a mountain. The Power is in these Words and there is no mistake about it, if the Student will accept it.

The Mighty Stream of Life flows ceaselessly on, and it is so easy to enter that Stream and Its Perfect Action in the Recognition and Acceptance of that Mighty Presence of God in us. The minute we deny or doubt, we turn ourselves out of this Stream. All discord is but to call the attention to the fact that the outer, or human self, has turned out of It. The moment one entertains discordant thoughts and feelings, he has turned out of the Stream, and the discord continues to build.

There will come a machine for the directing of certain colors, charged and qualified by the individual operating the machine.

Dinosaurs: There was a great mass-thought or desire for drawing this atomic structure into form. By drawing certain foci into these large forms, it was much more quickly accomplished than

otherwise would have been. In the beginning these animals were not vicious, and they were entirely subservient to the direction of the individual. They were very friendly, as were all those giant creations originally. In that period, a great activity took place in drawing together large quantities of the atomic structure. There existed great love between them and the human; and thus, the process of raising it was very rapid. There is so much concerning these previous civilizations which is not known today, that the outer world only has a fragmentary idea regarding that entire activity.

The Great Central Sun: The Truth is that the Great Central Sun is a Presence, a Form, and a Place within the Center of Creation, radiating in all directions. I assure you It is a very Tangible Place, a Mighty and Tremendous Reality.

Beloved Surya: The Ascended Master Surya is really the Lord Maitreya, and from that Great Presence was the planetary action of Surya established. Surya is a Constellation as well as a Great Cosmic Master. All astronomical names and activity come from Individuals, or come from the Intelligent Activity of God within the Individuals. All were named after those Individuals who had much to do with their Manifestation. The name "Maitreya" contains a certain activity.

Mrs. Ballard: "Is Its use the release of a certain Force with the Quality of Love–and certain other Attributes, the Power within It?"

Saint Germain: All names used for astronomical purposes contain within them certain and very definite Activity.

Astrology and its use: All negative interpretation of astrology is only what individuals give it. The original reality and use of astrology was that it drew the attention of certain Great Beings to whom the individual was somewhat naturally attuned, that he might receive the Radiation and uplift of the Great Beings. The idea that individuals are affected by the radiation of a Planet, which is in nowise a personal force, is–from the standpoint of reality–a perfectly absurd thing. For a force to operate, it must have intelligence back of it. Consequently, knowing that God is the All-acting Power in the Universe, then We know that the Quality from any Planetary Intelligence can only be good, unless the mind of the individual requalifies it.

The present astrology is a constant throwing of obstacles into the path of the individual. The idea that one of God's days is any more or less perfect than another for the activity of God's Children, is the most absurd thing imaginable. I am amazed that people's thought is so shallow that they do not

think this through and see the absurdity of it.

Take your questions to your God Self: If the individual would take his or her stand upon any question in the mind and say, *"God, show me and tell me the Truth about this thing,"* it would start an activity that would bring the full explanation. One must hold fast until the answer comes, for it always will. If one wants to go downtown, he continues until he arrives there. It is the same activity that is needed with mental work. When one starts a thing, he should continue on the way until he attains it.

It seems so strange that individuals will not hold fast to the idea and use of the God Quality in everything about them, instead of trying to requalify it themselves. However, if the Student of understanding sees a wrong condition, then by knowing that *"there is only God in Action"*– it might be considered qualifying, but it is really loosing the God Power into action within it. This is really not requalifying, but instead is using the God Quality already there. Regardless of what is taking place, all energy is God's Energy. If people accepted the natural quality within, they would find it is really God. If they would know but this, it would be recognizing the True Quality, and so only God could come back to them.

The animal element: The substance that came

into form was at one time far denser than now. The animal element that came through the lower activity, or the conscious lowering to creating for pleasure, caused the creation of the animal form in the atomic structure of the outer world. In other words, the bodies of animals are the objectification of the thoughts and feelings held in the outer consciousness of human beings when they created simply for the gratification of appetite and pleasure sensation.

An Eternal Truth: The human Soul never evolves through the animal. The outer atomic structure is but the raised or prepared condition for it, to be used in the forming of human bodies. This is nearing the last step from the atomic into the Electronic Structure.

The human Soul came directly from God. Therefore it could not have evolved out of the group soul of the animal. The human Soul must go back to God. Understanding the absolute certainty of the Law of Free Will, the "Law of the Expression of the Fullness of God," it must go through every phase of experience, attaining again that Perfection through the conscious understanding of all phases of Life's Activity.

At the time Free Will was given to the Individualization–certainly not unknowingly of what

would come–knowing there were two opposites throughout all lower manifestation, the Soul went forth to conquer all negative conditions and again return to that Perfect State, crowned with the Victory of Self-conscious Knowledge. This is why one cannot learn from another's experience. Each must go through all experience and conquer himself or herself. That is the reason for the long process of re-embodiment, for the Soul has to have periods of rest from this intense activity.

This is why no Arisen Master ever has such a thing as a condemnatory thought–for They have gone through all experience in order to come to the Arisen State. This, however, does not mean in every detail. The power through Self-conscious Knowledge, gained through the Life of experience, gives one infinitely greater capacity, greater understanding, greater power than one who has never come into it at all. This is why one who has come down through the human experience and by self-effort has raised himself to become an Ascended Being, is Master over even the Angel Devas. There are some Angel Devas who have been through the human experience.

Coming Life of the Angels: There will come a time in a very much higher phase of the experience Life, when the Angels who have never humanly embodied will come forth and, through certain Memory Records

of this present Life experience, will be taught these things on a higher scale and with a speed that is hardly conceivable in the present day.

Affirmations:

" 'I AM' the 'Presence' that disconnects my being and world from the magnetic pull of Earth and all human creation."

" 'I AM' the 'Presence' that frees me from any condition."

BENEDICTION: Mighty Cherubim–Mighty Presence of the Messengers of God! We give praise and thanks for the Outpouring this day and that Thou hast reached over all of North America, unclothing Thy Power there, giving Clearness and Free Dominion of thought to mankind. We give praise and thanks that this Mighty Activity has been accomplished. See that this Mighty Work goes on until the Emancipation of mankind is completed.

SAINT GERMAIN

INVOCATION: Thou Wondrous, Mighty Creator of all that is–animated by Thy Mighty Energy ever flowing through Thy Heart! We give praise and thanks for the Outpouring of Thy Mighty Love, Wisdom, and Power, Thy Mighty Supply ever present. All-active is Thy Mighty Substance, waiting to be acted upon by the consciousness of the Children of Earth. We give praise and thanks for Thy Radiant Presence, ever quickening into activity Thy Particles of Thyself–the Electron–causing It to shed Its Radiance more and more brilliantly everywhere for Thy Activity through Nature in the minerals and rocks.

We give praise and thanks for the "Gem of America" lying in the Heart of Thy Presence, awaiting the hour to fulfill Thy Majestic Plan, pouring out to the Children of Earth Thy Mighty Grace and Activity that will be the Central Gem in Thy Crown, radiating Goodwill to man. We praise

Thee, Thou King of Kings, that all be Thy Mighty Messengers, parts of Thyself, and for the part of Thyself that causes Us to know the Factor in all Life. Strengthen Thy Children that they may hold steadfast in Thy Mighty Radiance, in Peace and Blessing to mankind and all the Earth.

I bring you Greetings and Blessings from the Cherubim, the Deva, and the Ascended Host!

THE DISCOURSE

I bring you triple Greetings and Blessings from the Cherubim and the Deva and the Ascended Host, who give Their Praise and Encouragement to you for the unasked aid in holding the Mighty Focus wherein the Power of the Music was sent forth to all the Earth–to heal, to bless, to bring Peace, and to prosper. It is one thing to give praise and assistance when asked, and a far greater thing to sense it and give without being asked. Give forth praise and recognition of this Blessing constantly; and from this day forth, you will find a great change taking place in all your affairs.

The Music Festival of Chicagoland was the greatest opportunity of its kind on Earth for radiating the Light from the Ascended Host to a great number of humanity. Up to this time, the opportunity of radiating through the Passion Play

of Oberammergau was the greatest, outside of the Retreats. Many people unknowingly have been awakened while absorbing the "Presence" during the Passion Play.

The commercial world is sometimes foolish enough to think that a Divine Radiation may be transferred from one continent to another to gratify its ambitious vanity. When something is established for a special Purpose, if the time arrives when it can no longer be utilized, the Power and Force are withdrawn.

The Music Festival's Inner Activity: I feel certain that this important activity of *The Chicago Tribune* will open the way for Mighty Inner Power to flow into its activity. Whether this is done from the outer or Inner activity, is not important; it is worthy of great Inner Commendation. As the immense billows of created color from the Music rose in great castle-like shapes and stood there in their vibrant color of Active Life, the Mighty Cherubim, Deva, and Ascended Host created a Mighty Pillar of Light, white in color–raising It to the Height of the Cherubim, from which Its Rays, colored by the consciousness of the requirement, were sent forth to all parts of the Earth–especially encompassing America, touching the Hearts and consciousness of many individuals throughout the Land, who, it is seen from the higher standpoint, will become Messengers of the Light.

The Activity sent forth by the Deva: The Activity sent forth by the Deva was from the Jade Temple of Light, causing the quickening of the Inner Activity of individuals everywhere that were in anywise prepared to receive It.

The Activity of the Cherubim: The Activity of the Cherubim was from the Golden Temple of Light, raising the attunement of the mentality of individuals everywhere who could be raised.

The Activity of the Ascended Host: Seven of the Ascended Host, acting from the Violet Temple of Light, sent forth Mighty Rays, commanding Obedience to the Inner Activity of Divine Forces acting everywhere on the physical plane. Here may I say that all acceptance of the Mighty Truth and Its Activity, by the Student or individual, must always be voluntary. The more intense the joy reaching out for Light and Understanding, the more is It hastened into activity in the individual's Life and world. The more one accepts the Inner Truth as a Reality, the more that one can be used as a Mighty Messenger of the Light.

So much is to be given of this Mighty Inner Truth that will strain the credulity of even the most sincere Student, that nothing but the Inner Prompting of the individual's own God within will make it possible for him to accept. Nothing will be given except verifiable

Truth; yet there will be many who, not yet having reached quite the point of assimilation, may think some things quite farfetched. But that will be unfortunate for them. No longer, in the Mighty Radiation of this Inner "Presence," is the growth of the individual to be considered; but the Radiance will pour forth, clothing humanity in Its close Embrace.

Those who have an awakened understanding to grasp the import of this Mighty Activity in their individual lives and in the world at large, will find a speed of activity in their own consciousness that will at times quite amaze them. Thus, it behooves every sincere Student to reach for the Light with all the strength and sincerity at his or her command, so that they may share and utilize this Great Glory of God showered upon Earth, clothing the Children of God with such Light as the Earth has not known before. We have determined that this thought, feeling, and expression of depression shall fade away from the minds of mankind and be replaced by courage, strength, and confidence.

The Way to Freedom: Again let Me say with great emphasis, that the perfect and quickest way to Freedom is the feeling of constantly moving in the Radiance and Intelligence of God. Consciously fill yourself, your mind and body, so full of God that there isn't room for anything else. Guard yourself

and do not give quarter to any kind of feeling that is less than All of God.

Those who may walk and talk with God: At various periods during the past centuries, especially the earlier centuries, it was an acknowledged fact that a few of humanity walked and talked with God. I assure you for your encouragement, that there are ten times the number of people today walking and talking with God, who, if they could cast off the outer effect of human fear and suggestion, might easily equal those of the past who walked and talked with God. Those of former times were absolutely fearless, even concerning their own lives and liberty; consequently, they opened wide the Door for that Mighty Flow of God's Activity through them.

The people of today have too much reticence in sharing their experience of the many wondrous things they have received; because of human opinions, in most instances they have held these locked within their own Hearts, lest they should be ridiculed. When one is consciously with God, moving in His Mighty Presence, why should that one fear what any man might say? It is he who bears false witness that should fear–not the Messenger of Truth; for at this time, instead of the Messenger of Truth being burned at the stake, the one who bears false witness or attempts to interfere is the most liable to be scorched by the Inner Fire,

the Flame of God. In these days, the Messengers of Light always draw to themselves their own–in other words, those who are ready to receive the River of Light that is poured forth through the Messengers.

No one will be urged or carried, but each must come from his or her own joyous desire, knowing that God in each one is his own Self-sustaining Power. It is now important to utilize every channel to pour forth the Radiation of Light, to hasten the adjustment of things and conditions. When the wedge has once been driven and can be followed up by the conscious cooperation of a few of the Children of Light, then the barrier of human thought is torn asunder and cast aside, and the River of Light pours forth on Its way. In this case, the River of Light is not destructive, while the river of water may be.

However, you will notice in all the great avenues of progress that at the times when there seemed to have been destructive forces at work, it was but the coarser element giving way and being replaced by the Activity of Higher Attunement. I trust that each of you will feel the Great Joy that I feel in these accomplishments, not only in your own activity but in that which has gone forth to bless mankind.

For keeping awake: If you find yourself feeling drowsy when you wish to work, command the

cause to be consumed, that you may stand free to do that which you wish to do.

For going to sleep: Command through your Mighty Inner "Presence" that when you wish to sleep you are held in that "Presence"–Invincible– and that the body sleeps as an infant. Know always that you are God commanded, so you guard yourself that you do not give power unknowingly to any outer thing. No matter what is attempted by the outer, it has no power unless it be of God.

Command as Christ: When you command from the Christ Standpoint, only Christ-like results can follow. Of that you can be absolutely certain, because when you command as the Christ, you immediately cause the *Inner* Activity to take place. It shuts off the outer, using it only as a vehicle of conveyance. As you continue consciously to fill your thought, mind, and body full to overflowing with God, you will find that you are utilizing an Invincible Armor that will build into a Permanent Guard of your thought and intellect.

Until one has had the experience of seeing One appear from the Invisible, there is always a startled feeling the first time it occurs.

The Radiation from the blue costumes at the Music Festival was very powerful because the Blue Ray was used intensively. The Blue Ray is always

used to disintegrate the coarser or lower human element.

Beloved Lanto is always in charge of the Retreat at the Royal Teton. You will find during the next seven years, specific Activity among the Ascended Masters. Those having Special Qualities will be called upon for specific Activity, because of Their own Natural Quality.

I shall have to leave you, as I have a long way to go–to the Andes. It is quite nice, after all, to go about without having to pay carfare. The transfer may require two, three, four, or seven minutes to make the change of distance. At first one does not have the sense of going through space; but later on We do see, the same as you do.

BENEDICTION: We give praise and thanks for the Mighty Radiant "Presence" that ever ministers to the Messengers of Light, which is ever shedding Courage to bless and sustain them in their Pilgrimage on the Pathway of Light. We give praise and thanks to the Great Centers of Light that have been pleased by the Radiation from this Center, ever shedding Thy Radiance through this Center to mankind, that all may be lifted up to Thee.

DISCOURSE XVI

August 25, 1932

SAINT GERMAIN

INVOCATION: Thou Mighty Creative Principle of Life! As a part of Thee, We give praise and thanks for the recognition of the opportunity of proving Our Inheritance–that We have become conscious We are a part of Thee, and Thy Love, Wisdom, and Power are ever flowing; that this Step through the veil of matter is so easy; that We are always confident We can step through the veil of matter at will, thereby releasing Thy Power into instant Activity; and that Thy Wisdom directs, Thy Love enfolds, and Thy Light protects Thy Children. Let Thy Radiance enfold the mind of every one of Thy Children and cause them to consciously rise into Oneness with Thee.

Greetings and Love from the Host whose Radiation ministers through this Center.

THE DISCOURSE

Through the veil: Within the consciousness of everyone is the Secret Key by which each may go

through the veil and become active in his or her own Mighty Inner "Presence," which knows no limitation. Meditate upon this often. We have but to turn this Key and feel and hear the bolt turned back, admitting us to that Chamber of Eternal Silence where the Almighty Creative Power of God is in Action. God has so graciously provided this Key within the consciousness of everyone. How do you turn this key? A simple way is to know that *where your consciousness is, there you are.*

Strange to say, few seem able to accept this Great Truth. I mean by that, to go consciously through and partake of that Great "Presence," which would beautify the body, giving it Eternal Youth; would loose the Wisdom of the Eternal Memory, consciously taking Command; and would make the individual the master of all conditions which God intended His Creation to be master of, and to do all He intended His Creation to do. In the early part of one's Awakening, it requires tenacity to hold fast to the simple things that later seem so powerful. There is no such thing in Our vocabulary as the recognition of the word "can't," when one has learned to follow the Middle Way.

There is, within the consciousness of every individual, that which represents the pendulum of a clock or the Balance of Consciousness. While

yet within the hold of human consciousness, the inclination is to swing from one extreme to the other, from great depression to great joy and back again. To consciously take the determined stand that you constantly act within this Perfect Balance of Love, Wisdom, and Power, will enable anyone to come quickly into the poise of the Middle Way and have no fear of swinging to either extreme.

In the control of the waterpower of your physical world, you have gates by which you control its flow. So, within the consciousness of each individual is that Gate of Pearl which it is possible to raise at will, letting through the River of Life, causing it to flow when and where you will, or where there is need or demand. This can be quickly acquired when one is able to shut out the questioning of the outer mind. All accomplishment comes through the steadfastness and unwavering consciousness–paying no attention to the outer appearances, nor setting a time for results.

Memorize this marvelous Affirmation: It seems incredible that there must be a continual reminder before the outer consciousness to keep it from running off the track and causing the waste and outlet of the accumulated power. Say tenaciously to every intrusion of the outer mind: *"NO! Absolutely NO! I have been affected and led by your ignorance*

for the last time! I have entered into my Divine Inheritance and 'Presence.' Henceforth my attention does remain There, and all the outer screaming for attention I no longer hear. I have entered within the Sacred Circle of my Mighty Master God Self, and henceforth naught else but that 'Presence' ever finds recognition from me!"

Faith: Faith is always an important factor in gaining the use of the Light. As an illustration: if you were going some place where you had not yet been, you would have seen a map, heard a description, or in some other way have learned of this outer place to which you were going, having perfect confidence that the place was there. Underlying this activity, the whole thing is faith in some kind of a report brought to you. Can you not have this same unwavering confidence and faith in the use of these Super Powers of which you have heard, although you may not have yet seen Them? If you would exert the same confidence and faith in reaching to and attaining the Perfect Contact with your Mighty God Self that you have in physically reaching a destination where you have not yet been, you would find the results a thousand times more wonderful. You would consciously reach that Inner "Presence" with far greater invincible certainty than you would the culmination of your outer journey.

The fact is that in almost every walk of Life, we have a certain confidence that we can go to, do, and be certain things in the outer. Why not have the same confidence in reaching the Inner Light, which brings you rewards so much greater than the outer that there is no comparison? In some way, the Students must gain this certain, invincible confidence in their ability to right now step through the veil and enter into the Full Activity of their Mighty Invincible God Self. They need to do but a small analysis of their own activity, to see how they may turn this mighty confidence and faith into the right and greater channel and have perfect, eternal results, which the activity of the outer self can never give.

Try to recognize that in the slightest activity in the outer, it is always the Power or Energy of God acting. Know this! Then stimulate the activity of the consciousness into recognizing that as you consciously direct this God Power into the channel of your highest desires, you can enter into Its Limitless Use. You do this by recognizing that It is All-powerful and that *through your own consciousness* you give It full Power. This will bring the focus of using your God Power under your conscious, demanded direction, so that instead of many outlets, there is but the single outlet upon which It is focused. By this you know it is impossible

not to attain the desired results.

Students everywhere, especially long for Perfection of form, of voice, of activity—when the only thing that stands between them and this Perfection is their own lack of unwavering confidence in the Inner God Power, which is the Life flowing through their forms to produce this desired effect right now.

Marvels: Do I startle you when I say that one minute a day of actually, joyously feeling this Mighty Perfection of God permeating your mind and being with Its Full Intensity, would in a few months transmute and transform your entire outer appearance? Strange to say, there is only now and then one who will stay close enough to this simple thing to produce these glorious results. The same may be achieved in the use of this great Love, Wisdom, and Power. Do not wait for something to demand it; but continuously, every time you have a few moments during the day, do the following: Just be still and feel this Perfection of God filling every cell of your being, mind, and body; and you will soon see sufficient results to go joyously on until the complete transformation takes place.

Most individuals, after a few times, a few days, and at most a few weeks, find the joyous enthusiasm waning; and the first thing they know, they have dropped the idea entirely—only because the restless

outer has in some way gained their attention. I tell you, Beloved Students, there is no use delaying the Day of Attainment. If you need to renew a garment or you have a desire for a certain kind of food, you find no effort in holding fast to the idea until it comes. It is no harder to enter into the full Illumination of the Light, which contains the Essence of all outer form, and have that Perfect Manifestation in your Life–than it is to get the food or clothing. I leave it to you. Is it not a much more worthy effort?

Again let Me give a simple illustration: In your schoolwork in the outer Life, you are requested to commit to memory a page or a few pages of something. It never occurs to you that you cannot do it. You buckle down to it, and before you can scarcely realize it, it is accomplished. With the same determination, you can restore the forgotten memory that will restore to you great Treasures of Wisdom. I am determined to get the simplicity of this Mighty Truth to you in such a manner that the outer is compelled to give way before this Mighty "Presence." It is but a matter of holding fast until you do accomplish it, and of not letting the outer things switch you off.

As We said in the beginning, a definite Work is being done through this Instruction of the "I AM," and It cannot be undone. The Inner Work of releasing the Great Cosmic Light for the Blessing of mankind,

goes on regardless of all outer conditions. This Work is not an ordinary thing, and when the Students come under this Observation, there will be the Irresistible Power of Cosmic Light and Love drawing them; and the moment they begin to turn right or left away from It, they will find something confronting them. When they would forget the Inner Glory of their "Mighty I AM Presence" for the outer, they will find they cannot do it. You see, the fact is that they have entered into the Activity of the Great Love, Wisdom, and Conscious Power of the "Mighty I AM Presence" and the Great Host of Ascended Masters, and that Mighty Activity is All-controlling and Eternal. Once the Great Inner Power, which is the "Mighty I AM Presence," starts to act, in reality It never stops. These individuals have said they wanted to serve the Great Light. It has taken them at their word and goes on!

Mrs. Ballard: "Might I sometime serve the Great Powers of Nature by helping to design and create flowers with markings and points of Light as part of them?"

Beloved Saint Germain: You are touching a memory of what may again be, but also the memory of what has been.

Mrs. Ballard: "Was that on this Earth or on Venus?"

Saint Germain: Everywhere. You may do whatever you wish, and none may say you nay. In contemplating this, you are touching your own Divine Element. You see, the Children of the Fire and Air have great genius in the creation of flowers, a process which involves the handling of colors.

There is a school just behind the veil of human limitations, where little children are received and taught. In this school, flowers are created and many things are designed for their education and enjoyment. You teach in this school; and while the verbal instruction is going on, the thought is presented in colors in the most beautiful forms. You have been working in this school for some time, and your coming is looked forward to with great delight by the children.

In the Ascended State all decorative ornamentation is created within the substance itself. For instance, in the building of walls: whatever you determine upon manifests as the finished product; for in the Higher Spheres of Activity, the Eternal Electronic Substance responds as readily to your thought as bread dough does to the activity of your hands on the physical plane. This Eternal Electronic Substance may be molded by thought into the most beautiful forms.

Mrs. Ballard: "Will you focus the Light and

Power through and around me strong enough for me to be the Example of the Fulfillment of the Law?"

Saint Germain: Much will come forth in the use of certain ones. In this Advent of the Mighty "Presence," there will come the demonstrative Power to prove the Power of God, wherever desirable. You and this Good Brother, Guy W. Ballard, have both felt this for some time past. A certain amount of demonstration in the future will be permitted in order to more clinchingly hold the attention of the earnest Student on the Great Law of the "Mighty I AM Presence."

Every one of God's Children, if they have sufficient determination to utilize the Great Law of God to heal, bless, and prosper all, will find themselves able to do amazing things. It is all a matter of reaching into that "Presence" and the Light of the "Mighty I AM" with sufficient intensity.

If you take a dull coal of fire from the grate and blow continuously upon it, it will come into a white heat or light. So does the attention on the Light and the Mighty Presence of God which you are, cause the Inner Breath of God to breathe out–or forth, as it were–causing the Electronic structure of your mind and body to glow with unusual Radiance. You will find many wonderful and beautiful things occurring in your midst.

The True, Secret, Inner Feeling and Attitude of the Student is to take the determined stand that *"there is nothing too great for my attainment"*–and hold fast to it. Then you open wide the Door for marvelous things to appear and occur. The Dove represents the Speed of the Inner Activity. It shows that the True Activity is gaining.

Contemplate and meditate upon this often: Any Ascended Master can appear and precipitate this, that, or anything. Say often: *"I can and do precipitate whatever I want. The Inner knows the Perfection and has precipitated the outer."* Know that you can restore that Perfection where It belongs. I never waste time or energy on the inconsistency of human beings; if people want to love their chains, let them have them. Never let the thought or feeling of, "I wonder if it were so?" come into your consciousness. Kick it out forever!

I want to convey to you somehow that each one of you has the power to enter into the God Self when and where you will, for the accomplishment of any good purpose. Make your outer mind continually acknowledge this: *" 'I AM' through the veil now."* Cut off this outer thing that keeps saying you are not.

The Temples of Light: There is a vast difference between the Green Temple and the Jade Temple. The Ruby Temple has nothing whatsoever to do

with the so-called red of your World, but has Its own special Activity. The Violet Temple is the most marvelous, Divine thing possible to conceive. Then there is the Crystal Temple in which at times the most delicate colors of Ruby, Jade, and Violet play. These four Temples form the corners of the Squaring of the Circle.

Mrs. Ballard: "Can we go and visit these Temples at will?"

Saint Germain: Positively, just the same as the boys went the other night to the concert. Give the Command, *" 'I AM' going to consciously visit and bring back the conscious memory of It."* Just because you do not always bring back the memory of an experience, is no proof that you did not have it or go where the thought was directed. You do go where the thought is directed. That Truth is Eternal.

Get the Truth fixed forever in your consciousness that when you give a Command as Christ, the Command is fulfilled; for God is the Power acting. Get away from all this wishy-washy doubt. It must be done. Doubt is like being tied to a rubber band. It lets you get away just so far and then pulls you back. Visualize yourself cut free from every limitation. Using your Sword of Blue Flame of Divine Love, make the physical motions. Do not allow yourself to get lukewarm about anything. Keep up a Joyous

Enthusiasm for that Magnificent, Eternal "Presence." Remember that in all Activity done for another by the Ascended Host, it is always done through the Inner Radiance of the Student or individual.

To Mrs. Ballard: Centuries ago you precipitated paintings of a Perfection that has never been equaled since. Those transferred from the Temple at Mitla and taken to the Royal Teton were your work.

To Mrs. Ballard regarding the Retreat: The Retreat in the Andes is the Retreat of the golden-haired Masters from the Great Central, Spiritual Sun. Remember always to know that after you have given out references about the Ascended Masters, it has anchored within the Student a clearer conception about Them. The recognition of the Ascended Masters and Their Work is a tremendous opportunity for Them to pour forth Help to the Student.

Please get this: A Student or individual must first go out in consciousness to an Ascended Master or Great Intelligence; then that Intelligence can come back tenfold or more. It is the same with everything else: until you can recognize that a thing is a fact, how can you receive its benefit?

I must leave you now as I have received My second call. I am going to Switzerland.

There will come forth aerial transportation that will put all other transportation on the rubbish pile,

so far as commercial purposes are concerned.

BENEDICTION: Mighty "Presence" and Thou Glorious, Radiant Being, Cyclopea, We give thanks for Thy Outpouring, and that Thou dost continue to enfold all in Thy Great Love, Wisdom, and Power. Pour out for these Thy Children, Limitless Supply and Blessings of Earth.

DISCOURSE XVII

August 29, 1932

SAINT GERMAIN

INVOCATION: Thou "Mighty Majestic I AM Presence"! God in Action–We give praise and thanks for the Fullness of Thy Perfection made manifest everywhere. Out of the fullness of Thy Life is the River of Peace ever flowing to enfold mankind. Make these Thy Children ever abundantly receptive to Thy Presence. Hold their attention fixed upon Thee, for Thou art the only Eternal Happiness.

Let Thy Wisdom ever fill their minds, directing them in the Perfect Way Thou dost wish them to go. Let them *feel* Thy Majesty in their consciousness. Let them be conscious that Thou art holding them within Thy Magic Circle centered within Thy Heart, that Thy Perfect Stream of Life flows through the minds and bodies of these Thy Children; and hold their attention ever fixed on Thee.

Greetings from the Great Host, the Cherubim, and the Deva.

THE DISCOURSE

Happiness is the great boon every individual is seeking. We find some Orientalists saying that bliss is the ultimate state. It is only another expression for Happiness, but is not nearly so potent to the Western mind. To the Western mind Happiness is God in Action. To be conscious of seeking Happiness is to be conscious of seeking God.

No permanent Happiness is ever attained except through the adoration of God, the "Mighty I AM Presence," which is within, above, and around the individual. *Happiness is a powerful alchemy. It is one of the most powerful purifiers of the human thought, feeling, mind, body, aura, and world of the individual.* If the Student but believed and would experiment with himself or herself, he would find that he *can* generate Happiness at will.

For instance, suppose an outer thing draws the attention and causes some phase of unhappiness. Knowing that God, the "Mighty I AM Presence," is the *only Source* of Happiness, then the Student's first move would be to turn the attention to the *Giver of all Happiness;* and thereby he would tune into the *one Source* from which he is certain to receive.

The idea for the individual to follow is that when he feels some kind of disturbance and wants to turn to God, he may do the following and get great

help from it: Get up and go through the motions of taking off a garment that one does not want and, as you would hold the discarded garment in your hands, drop it into the Consuming Flame and know that the disturbing element is consumed.

Then fix the attention on God, the "Mighty I AM Presence," with the Joyous Consciousness of *feeling* and *receiving* the Current of Happiness and Peace filling the mind and body. With a little practice in this manner, the Student will soon be able to come to the point where he or she *can* draw this great Happiness consciously and at will.

Every time he does this *consciously*, he will find that he is gaining strength in the accomplishment and will realize truly that he *has* the ability to reach into the Heart of Happiness and there absorb Its Fullness. This practice is always followed by an expansion of consciousness which is its natural result.

The Students or individuals who are inclined to allow personalities or conditions that seem unusually close to them, to disturb them, should watch themselves closely–and instantly, when they find the attention is being fixed on the outer consciousness, withdraw it and fill the person, place, or condition with God, the "Mighty I AM Presence," and declare to themselves: *"I, through my 'I AM Presence,' consciously fill this person,*

place, or condition with God. Therefore, in my outer consciousness, I positively know that only the right and perfect action is taking place there, toward me and for their success and happiness."

With many individuals the love of family holds their attention entirely too much upon the outer appearances; and when they allow this to be done, they but intensify the things that they do not want. If parents will take this attitude toward their children, *"There is no personality acting in that one; there is only God in Action!"* then they are doing the greatest thing in their power to help their children. At first, it may require considerable determination on their part to switch the current, but it is really no more difficult than turning the switch of the electric light in your room or pressing the button.

The reason individuals find it difficult to do this is because they do not nip disturbing conditions in the bud. They allow a fierce momentum to get going and then suddenly become aware they are in distress—never stopping to consider that they have allowed this thing to build, when *by standing guard at the door of conscious creative thought and feeling, they can check it and stop its action in the beginning with little effort.*

Again let Me refer to the power of Free Will and choice. The individual alone is the governor and

chooser of that which he will entertain; and he or she is at all times and forever *"master of this condition now," because this particular activity requires no special state of growth, but can be done successfully by anyone who will sincerely try.* Almost always the admonition to the child starting to school is "If at first you don't succeed–try, try again."

In looking to the Light or toward God, the "Mighty I AM Presence" with sincerity, we cannot fail, because we not only have our own God Power surging forth to our assistance, but there are other Mighty Powers watching all opportunity to help, from whom we do receive unbelievable Assistance.

Octaves of thought: I think it well to again refer to the octaves of thought, for these exist within the atmosphere the same as the strata exist within the Earth. I think it may be wise to define to some degree these octaves.

The first We shall mention is the octave of crime, which is the thinnest in spite of all appearances at this time. The second is the octave of hate–considerably thicker. The third is the octave of anger–much thicker. The fourth is the octave of criticism and condemnation–still much thicker. It is the prevalent octave in which a great number of humanity move unknowingly.

From this on up, we begin to enter the Light; and

we find the octave of Toleration, which is the will to give everyone freedom in thought and speech. Then we enter the octave of Joy where we find ourselves rejoicing exceedingly in the recognition of the God Power *in* us. The next is the octave of Pure Love, from which we feel unmistakably the Presence of God, the "Mighty I AM Presence," acting. From this we come into the octave of Perfect Happiness.

Whenever we allow our consciousness–which means our thought, feeling, and spoken word–to dwell on the quality of any one of these octaves, we not only have whatever we have generated of that quality, but we open ourselves to the entire outpouring from that octave upon which we dwell. This means the full accumulation of that quality generated by the mass of mankind–past and present. This exists within the atmosphere above the surface of the Earth, in which all individuals live and move.

This simple illustration will show how necessary it is to govern the thought, feeling, and spoken word and make determined effort to enter into the higher octaves of consciousness. When we do so, we find that through these octaves–from Tolerance on up–there is a condition just like a funnel with the small point down, direct from the Godhead which is constantly pouring Its Presence, Energy, and Substance into these octaves.

All octaves below that of Love are the creations of mankind–not God, the "Mighty I AM Presence." Mankind is the only one who attempts to divide God. God, the "Mighty I AM Presence," never attempts to divide Itself. God is ALL–everywhere present–to everyone who will accept this Fullness of the "Mighty I AM Presence."

There is no use of Students or individuals feeling that they cannot govern the outer form or the periphery of their thought, feeling, and action, which the body is; for I know *positively* that they *can* and *must* do it! And the sooner they *take* the reins, *accept* their God-given Dominion and *use* It, the quicker they will find True Happiness.

Already, the human or outer self has too long been the usurper of God's Power, feeding the individual on husks and weeds when it might hold the attention fixed on God, the "Mighty I AM Presence," and receive the Nectar of Eternal Youth and Life and move in that octave of Perfect Happiness, God's Perfection–the Garden of Paradise.

Regarding children: When children have reached the years of maturity, the greatest thing the parents can do is to consciously place these children in God's Hands, which means to release them completely into the Protection and Care of each child's own "Mighty I AM Presence" and enfold them in the Rays of Light

and Love from the Heart of the Electronic Body above the child.

Every time the presence or thought of the child is in evidence, rejoice that God's Full and Perfect Intelligence is acting in his or her thought and feeling, governing perfectly all outer action. This will release the child into the *Presence and Power of Divine Action* in a marvelous manner. The anxiety of the parent to the child is, in ninety percent of the cases, the cause of a wrong action–and especially so from the mother.

This is a tremendous truth that is little understood. The mother, having been the builder of the body of the child–by this I mean furnishing the substance by which the form was built–has made a personal line of contact with the child for that embodiment; and if the mother but knew it, from the enlightened standpoint, she has the power to mold the child into the most wonderful, perfect being or, shall I say, to hold the focus by which the child is molded into the perfect being.

On the other hand, if the mother allows anxiety, which is a subtle form of fear, to constantly govern her, her thought cannot help but go out to the child and may disturb it to the extent that it would cause the child to be a complete failure. The above is an extreme instance when the mother has entirely

ungoverned thoughts.

This illustrates the great importance of parents knowing and feeling that the child or children whom they love are *at all times* governed by the Perfect Intelligence of God, the "Mighty I AM Presence." The moment that anxiety or fear attempts to intrude, consume it and replace it with the firm consciousness that *there is only God's Perfect Intelligence acting in and about the child*.

If all the mothers of America could *understand* this wonderful Truth and *live It*, a majestic race would be born from that time on. This is a great Natural Law that has not been understood even among Students to but a small degree. I have known many instances where the intense fear in the parent for the child, drew the child into the very thing they feared, and it is one of the things that has delayed humanity's progress so much. Sometimes the child is sufficiently advanced so that, unknown to the outer, it wards off to a large degree the fear and anxiety of the parents. This is fortunate indeed.

Let it be thoroughly understood that I am in nowise criticizing or condemning the mothers, but I do intensely deplore the lack of understanding of this wonderful and vital point. I presume that Emily Cady understood this point more clearly than any other teacher of the outer world today,

and she made a powerful sincere effort to convey this to her readers.

Prophecies: There are certain war conditions threatening. Through the Red activity, war would spread all over the World; and Our desire is to avoid the outburst of it before a certain condition can occur. If this can be done, it will do tremendous things to hasten the progress of humanity. Prophecies for centuries have held forth the idea, and it has become racial in the mind of humanity, that the greatest of all wars called the "Armageddon" would take place.

This, We think from the Higher Standpoint, was a great mistake. Humanity has been accepting it, expecting it, and are determined to have it. In the first prophecy of this, it was to convey the thought that it would take place on the invisible plane, without coming into physical action. We hope yet this may be done.

My personal opinion is that a cataclysm, which is inevitable, is preferable to the coming forth into physical action of the so-called Armageddon; for a cataclysm does not release hate, and because of this, it would be much better for humanity. A certain amount of cataclysmic action is inevitable, and it is not desirable that it should be avoided; for it releases certain things and seals certain things–greatly to the benefit and progress of humanity.

It *is possible* under secured Dispensations, for the channel of the cataclysm to be changed or governed. If mankind could understand that *God forever and forever acts through His Messengers* who are attuned to step down His Mighty Current of Force and Activity, then they would know that all cataclysmic or Cosmic conditions may be to some degree, more or less regulated and directed.

Warning: Here again let Me express a very sincere warning to the Student. Even knowing the inevitable, he should in nowise dwell upon it, but should every time the thought of such an occurrence comes to the mind, declare, *"There is only God, the 'Mighty I AM Presence,' in action everywhere present."* This becomes his own Armor of Protection.

If certain conditions can be consumed in Chicago in time, much of the progress here may be sustained and preserved. In calling forth the "Mighty I AM Presence" to consume these wrong conditions, *know that you are using the Majestic Forces of the Cherubim and Deva,* which are anchored over Chicago to give protection. This enables the force to pour whenever the thought recurs.

Notes: The principle thing in financial demonstration is to be determined in refusing to accept the idea that money or help is not present. Do not let yourself accept that the thing which you

wish to use is absent. It only has an appearance of absence. *You can just as easily find ten thousand dollars in your pocket as ten cents.*

Sending and receiving thought: In the case of two individuals becoming attuned, in reality they simply both tune into a Cosmic Force and It acts.

There will come a time when a manifestation of the Ascended Masters will be appreciated and great benefit derived from It. It can then be used with splendid effect and in that case would be justifiable.

The intense element of smoking is what we would shun the most, for it opens the door to things we do not even wish to discuss.

BENEDICTION: "Mighty I AM Presence!" Mighty Cherubim! Gracious Deva! We give praise and thanks to Thee and the Almighty Ascended Host for Thy Radiation, Thy Love, Thy Patience in bringing forth the great Inner Light of these Loved Ones to serve with Thee. Let all who come under this Instruction receive Thy Great Inner Illumination.

DISCOURSE XVIII

September 1, 1932

SAINT GERMAIN

INVOCATION: Thou Mighty, Infinite, Masterful Presence, "I AM," Thou Ascended Jesus Christ, the likeness of which is the Master "Presence" within each Son and Daughter of God! We speak to Thee everywhere! Pour forth Thy Radiant Majesty through the mind and Heart, Thou "Mighty I AM Presence"! Let the Temple of God in each one become illumined with Thy Holy Presence, Majestic in Its Conquering Power.

We give praise and greatly rejoice that at last the Mighty Conquering "Presence" is to take Full Command of Thy Manifestation of all created things, and that Peace on Earth, goodwill to man is at last to become realized and be made manifest, man to man. It has come!

THE DISCOURSE

I wish now to make it clear that you here, and all who come under the Radiation of this Instruction

from the Ascended Masters on the "Mighty I AM Presence," are those who have, these many years, come within the Violet Ray. The Ascended Presence of Jesus Christ, which is the "I AM" in each one of you, is steadily taking Full Command.

Ere long the "Great Mystery of Life," which is the "Mighty I AM Presence," will be revealed in the Heart of each one who comes under This Radiation. Let no one be deceived! The great prophecies of the centuries–in fact the end of the prophecies and their fulfillment is at hand; and from the fulfillment of the prophecies, God having spoken through man, will arise the Kingdom of Paradise–of Heaven upon Earth.

The period of the struggle of creation, in the throes of this new birth, will be swift and to some terrible in its mighty manifestation; but know that it will bring in its train Peace, Happiness, and the Light of True Understanding to the mankind remaining, which is sufficient to make everyone rejoice that through the centuries of this great expectancy, the righteous are rewarded and devotion to God in man is bringing its true fruition.

From the passing of the eclipse of yesterday begin the changes of the Great Spectacle, enormous in Its Dispensation. While everything moves forward and will continue to move under Divine Order, yet the

closeness of this surging Inner Christ Power–the "Mighty I AM Presence"–is as though impatient to take Its Full Command.

Try to have your Students understand that the very fact of sincerely seeking the Light of God, if sought with sufficient sincerity and intensity, will cause all problems of the outer to be quickly and normally solved. If individuals, finding themselves confronted by problems, would say: *"Mighty God in whom I recognize and feel Thy full Power of Action! Thou 'Mighty I AM Presence'! solve this problem and do it quickly,"* then calmly enter into the stillness, the Silence of that "Mighty I AM Presence"–they would find and soon feel the peace, certainty, and relief from what they feel to be a necessary struggle in the outer to solve the problem.

It is the *feeling* of struggle in the outer self that really *causes* the struggle. To pour forth that mighty love and devotion to God, always Omnipresent, should without effort bring complete relief from all anxiety. To seek God merely to solve a problem but partially opens the Door; but to seek God, the "Mighty I AM Presence," with true sincerity and devotion for the Light of God, would quickly cause all outer problems to be solved in Peace and Harmony, according to the recognition of the "Mighty I AM Presence" in action.

Ask all those to whom you can convey the idea, to be as conscious as their understanding will permit, that they are now held within the Violet Ray, acting under Its beneficent Radiance. Those who can, should visualize this Violet Ray about them, within Its center the qualifying presence of the soft Pink of Divine Love; and no one of great sincerity should need aught else than this to find *all* outer activity conforming to Its Mighty Presence.

To make oneself a true Student of the Light, the individual will hold unwaveringly the full Consciousness of the "Mighty I AM Presence," the Ascended Jesus Christ, as the constant, Invincible, and only acting Presence and Intelligence in one's mind, body, home, and affairs. It is this steadfastness, no matter what the outer appearance seems to be, that most quickly brings the longed-for peace and freedom.

Already upon the mental or invisible plane is spreading the Christ Radiance, likened unto the dawn of a glorious sunrise. Within a few years the Radiance of that Sunrise, which is of the Great Central Sun, will ascend into the Heavens of Its Eternal Dominion. All who hold themselves steady with faith and confidence in this Mighty Light, will find such individual revelations taking place as they cannot possibly conceive of at this time. I want to assure you with positive conviction, that these are

not idle words, neither are they prophecy; yet shall you see them fulfilled beyond your fondest hope.

Those who come under this Radiance, with their determination to receive the Light, will find themselves able to say, " *'Mighty Master I AM Presence!' speak to me!"* and they will hear that Inner Voice as clearly and distinctly as you speak to each other. To those who will listen, I want to assure them that the opening of the Sixth Seal, which is at hand, will make the comprehension of these Mighty Inner Truths clear in such a manner that the Student will marvel that he has been on the periphery of this Great Truth so long, without more fully grasping Its true meaning.

Students and individuals should look within themselves and find wherein there have been, unnoticed, subtle things that are binding them. Each one should joyously open his Heart to the Truth that reveals to him the things which need to be remedied.

Any rebellion within the consciousness should be put down as the *great offense against God*, the "Mighty I AM Presence," so that there may be nothing to interfere with the penetrating Rays of this Great Light. As I have tried to impress upon your minds from time to time, it is not a matter of personalities; but it does mean to enter into the Truth and live It. One of the most subtle forms of rebellion in the outer

consciousness is concerning our little personal habits that we have formed through the centuries. As you pluck weeds from your garden, so should you pluck these habits from the outer consciousness. Pull them out by the roots that they have naught left by which they may grow again.

It is My great pleasure to put before you a mighty Truth–namely, that those mighty sincere desires of individuals, in some instances where they seem to have been long deferred, may speedily take form, bringing with them their Eternal Blessing–that is, when they are righteous desires. The earnest Student is ere long to know and understand the true meaning of the Words of Jesus, *" 'I AM' the Resurrection and the Life."* Each Student should, in feeling him or herself within this Mighty Violet Ray, meditate on this wonderful and mighty Statement, *" 'I AM' the Resurrection and the Life now made manifest."*

Those beautiful Souls who have so much loved the flower creation, ferns, and shrubbery, will find such roses and many other flowers new to the Earth appearing from now on, which will have such rare beauty that it will amaze and delight all greatly. At first, they will not be conscious of where these came from, but will find them appearing in the midst of their gardens. They will later find that the seed and presence was projected from other spheres than

the Earth.

The lotus and new forms of the lily will come forth with such magnificence, beauty, and fragrance that their very presence will carry a vivifying, Life-giving activity to the ones to whom they come. The marvelous change of the climatic conditions of the atmosphere will enable these flowers to be ever blooming; and the gardener and farmer of the days that are coming will find themselves no longer confronted with the struggle against weeds, as has been heretofore.

New species of grass will come forth that will make your lawns like a velvet rug, and you will no longer be required to listen to the rattle of the lawn mower. That of which I speak will grow to a certain Perfection where it will remain. This is but an intimation of some of the Perfection that will be the joy of every sincere Student of the Light.

Many will see some of this Perfection, but will still find it necessary to go out and change bodies to permit the manifestation of their Eternal Perfection. But they will hasten to return because they will find the Earth so like the Heavenly World as It now exists, that they will not wish to linger There, but will want to get back into real action, as it were. The time has arrived when it is necessary to give forth some idea of this Perfection; for the Students who

grasp the idea and begin to visualize that beauty surrounding them, will hasten tremendously its presence in their Life and environment.

A very remarkable thing that but a few will be conscious of, is that the apples of this season will possess an essence in their substance which they have not heretofore had. Some other kinds of fruit will have this but in a lesser degree. They are the peaches, oranges, and tomatoes.

It would be well if for a time, you ate three apples a day. This will throw off the sediment in the body without making it apparent. The more perfect tomatoes of this season have also contained this element that is being radiated forth.

Question: "Will the plants of the future be free from vermin?"

Saint Germain: Most assuredly. All destructive force, when it reaches a certain point of activity, will destroy itself. To the human or outer, it sometimes seems a long time getting to that point; but it is so and has always been so. *Cosmic Activity tolerates only so long man's inhumanity to man or man's destructive activity to man.*

From this time on, no individual can gain wealth or the renewal of wealth without knowing that *God, the "Mighty I AM Presence," is the full Source, Power, and Intelligence of its production—and God*

must be given full credit as the only Producing Power. No human effort without the *Presence and Activity of God* ever amounts to anything. Too long have human beings been the usurpers of that Power; and even in the usurping of that Power, the time has now come when it will no longer be available to them.

Those who want to find peace, rest, and success must feel and, as it were, throw themselves into the Arms of God as a weary child would do to its mother, and there rest in the Activity of that Mighty Inner Presence–the "I AM."

Sanat Kumara's Daughter naturally acts under the Crystal Ray. All of the Ascended Host at intervals work with Jesus. The name "Kumara" is a title, so think of it as an Authority. The Activity of the Kumaras is distinctly different from that of the Masters from the Central Sun. While the Kumaras come under the Activity from the Central Sun, yet Their Service to the Earth is distinctly different. Of all the seven Planets, They are the Ones who offered to take the Earth under Their supervision–under Their wing, so to speak.

As soon as the axis of the Earth is changed, the Kumaras' Work of countless centuries will be practically completed. *There will be a few years in which They will walk and talk with the Students of Light who*

are truly aware of their "Presence," which will bless the Students untold who receive Their friendly visits. There has never been such an opportunity in the history of the Earth as at present for those who have any inclination to the Light—and even for those who have not—to be raised enormously.

This is the first time in the history of the Earth that there has been a resistless, impelling Action of the Christ Force. Naturally the Silent Watcher would have to be One from the Central Sun whose Activity is independent of the Logos.

Never lose sight of this fact for even a moment: *Wherever we go in consciousness or thought, there we are*. The Student who becomes aware of the Silent Watcher and goes to Him in thought, cannot help but have a response. You can go out to these Great Ones in consciousness and say, "Speak to me." You can demand any constructive thing of your "Mighty I AM Presence," and it will be done.

The changes referred to above will come within the next ten years. Heretofore, long periods for the upbuilding of the new activity have been required. This time, in a few years there will be accomplished what heretofore has required centuries of work—because the mechanical Perfection, for those who still require it, will not be lost as before. Following this, there will come aerial transportation that has

never been equaled on Earth. It will be a still more perfect means of conveyance. The speed will hardly be limited, because of the Earth currents that make any speed possible. Atlantis had this to some degree, but it will come in its fullness now. Airplanes will be made so all danger will be eliminated.

Donald Ballard: "Where are You going?"

Saint Germain: I am going home today. My present Home is in the Alps. In some instances, the Retreats will be changed and are already being transferred from one place to another. This present, coming cataclysm will end the cataclysmic periods of the Earth, because cataclysms only come through the destructive influence of the human and when that is removed, there will be no longer a cause for them.

Mrs. Ballard: "What should one do to stop a fire?"

Saint Germain: You could call on the God of Fire to consume it, or say, *"I as the Christ, the 'Mighty I AM Presence,' spread My Radiance over it."* Or you can command its obedience and visualize the Pink Light of Divine Love covering it.

BENEDICTION: "Mighty I AM Presence" of the combined Ascended Host, Thou Light Eternal! We give thanks for Thy Radiant, Expanding Presence, that Thou art more and more pouring Thyself forth into Thy Manifestation to the Children of God, that Thou dost dissolve all things unlike Thyself and

dost release the Pure Activity of the individual self! Even so it is done.

SAINT GERMAIN

INVOCATION: Thou Mighty Infinite "Presence," Thou Mighty Wisdom and Conveyor of Life, Thou Mighty Omnipresence of all Manifestation! We give praise and thanks for the Consciousness, the Realization, the Majesty of Thy Presence. We give praise and thanks that We are aware of Thy All-conquering Presence, that Thou art the Active, Manifesting Principle in all We know as Life, that Thou art the only Intelligence acting. All else is but the creation of man and is not of Thee.

Thou Mighty Presence–O Silent Watcher–as Thou dost bless through Thy Wisdom all humanity, We recognize there are those who know Thee, sing to Thee, call to Thee in Thy Majestic Presence. Answer always those who call. Speak Wisdom, Thou Presence! Speak Wisdom, Thou Consuming Power, and answer all who call unto Thee!

Peace and Blessing of the Mighty Host of the Silent Watcher and His Messengers, to thee and thine.

DISCOURSE

Thought is interior speech; and as you converse with each other by words, so may you converse with, demand, and command the Inner "Presence" through thought. Thought can be made a dynamo by which you can charge the body, home, condition, or activity according to the consciousness or understanding you have of its power.

This brings Me to one of the vital points for all Students, and that is to break the habit of thinking out loud. One has but to watch himself to see how often he is unconsciously expressing the thought out loud. This has to be positively overcome before certain Instruction and Information can be given. Why? Because this habit of the human is a lack of controlled energy; if the person is in the possession of secret Information, in an unguarded moment he will reveal It. I wish each one to take him or herself firmly in hand on this particular point. Do not even in the simplest things in your daily activity allow the thought to be expressed in words, as though talking to yourself.

More Students have fallen down on this particular point than any other one thing. A few days of watchful care will entirely overcome such a habit. The outer is but a conglomeration of habits. In the Garment of the Student who has

entered the conscious Path is placed a Cloak of Protection of Thought. In talking to oneself, the worded expression breaks through this Garment of Thought, and the Student wonders why he does not make more progress. It is because he has caused a leak in the Fountain of Wisdom. Thought is truly the Activity of the Soul of the God-man, the bringing into Activity that Mighty Presence of Energy which may be qualified by thought to any Height of Sustaining Power and Intelligence.

It is said that man may not add one cubit to his height by thought. But I say to you that man, by thought, may liberate within himself the Mighty God Power to make his form a giant in strength or stature. The stature of the human form is to a large degree governed by racial thought–the mass thought being that a certain height is the limit of attainment. Yet within a few years in spite of the racial thought, by the increased Power of the Inner Christ Activity, you will find the stature of men increased to the height of six feet four inches and women to that of five feet ten, with symmetry of form in keeping with the height.

Again, let Me call your attention to the Mighty Truth that thought is the wedge of God's Energy released into action. By this, you can see how important it is to become consciously master of your

own thought. In this mastery lies full dominion. In conjunction with the mastery of thought must come mastery of the outer activity; for unless we compel the outer to live in harmony with our idealistic thought, it will pull the thought from its Height and degrade it. Why is this so? Because of long centuries of the building of habit. There is nothing hard or difficult about this; it but requires firm attention. If there are weeds in your garden, you give sufficient attention to them till they are pulled out. So it is with the outer activity. You have but to pluck out the weeds, and leave it clear for the Inner Presence and Essence of God.

Let us go a step farther, which may seem a little more subtle and yet is quite as easy, for it is necessary to recognize your thought as the molder of form. If living in the racial thought has permitted or caused the form to express age or infirmity—an inferior expression of that Mighty Energy, then We know that it has the Power to build the form into Beauty and Symmetry, and to build the perfect brain activity for expressing the Highest Intelligence.

It is vitally important for Students to recognize the difference between intellectuality and intelligence. They must understand that the great intellectual development which some acquire and are often so proud of, is but what they have gathered or

accumulated from without, and it does not have a firm foundation. However, the opposite of this is God's Mighty Intelligence, which they receive from within. It is the Fountain of Eternal Truth and has at all times an unshakable Foundation. The brain or intellect is but the vehicle that this Mighty Inner Intelligence uses. It may be taught through conscious action to express only this Inner Intelligence. As individuals of Free Will, We choose which shall act for us–the gatherings of the outer intellect or the Mighty Intelligence in Its full Capacity.

The outer or human has a peculiar subtle faculty–borrowed, of course–of using every opportunity to cause a leak in the great Reservoir of Divine Energy. For instance, mankind are condemned for the loss of energy through gratification of the sex pleasure; but I say to you, one may lose it just as easily without the outer gratification, where the thought is allowed to dwell upon the idea. It has been said that thought is the cause of all outer activity. I say to you, "Beware!"–for a picture of the lower desire may be placed before an individual, and the picture will cause the thought to act. This shows the necessity of the control of the vision as well as the thought. The vision is one activity of the attention.

Important: In the coming marvelous period we are just entering, there will not be permitted a

single negative picture of any kind, which would be in any way suggestive to call forth the lower activity of thought. This is why We have urged so earnestly that no matter how negative a thought or appearance may be, to instantly take the thought, *"There is only the Mighty Inner 'Presence' and Intelligence of God there operating."*

Whenever you are drowsy and wish to be awake and alert say, *"God is here in action! I will be alert!"* When one has had sufficient sleep, one should take a firm stand and dismiss all drowsiness. Say to such a feeling, *" 'I AM' alert and God is here in action!"*

The Inner Vision has the Power of projecting Itself to any distance. Thus you can be consciously present in two places at the same time. The brain is but the vehicle of the Inner Intelligence, provided so that you can have this experience. When mankind misused this Free Will, they drew themselves down into their dense physical bodies. One can be conscious at the center of a place and at the periphery also. This is how We in the Ascended State can use two, three, or four Bodies at one time and cause Them to act according to the necessity of the Divine Operation, and not necessarily at one given point. They may even be at four different points of the compass. In the Arisen State there is but Omnipresence, when One gets to this Height of Consciousness.

Even a seeming state of growth may be set aside when it is seen by the Great Intelligence that, by so doing, the individual can be a valuable Messenger. Therefore, do not let a conviction form in your mind of previous supposed rules of activity–occult activity. There will be certain individuals, known only to the Silent Watcher, whose entire previous creation and activity may be set aside to become an unhampered Messenger. The time will come when, if the outer attempts to intrude itself, certain Radiation will go forth from certain individuals and compel others to see their wrong activities. This again is illustrated in *The Magic Presence*.

Note: It may be possible for the Armageddon to be averted by the cataclysmic activity. That is governed by Those far beyond Us.

Silent Watcher: The Cosmic Silent Watcher may act only under the Cosmic Demand.

Sleep: It is necessary for you to have a certain amount of rest. As you get into the Higher State, you may find that there may be days or weeks while certain activity goes on–for a Messenger is sustained always during any special Activity. The "Presence," during any special Activity, is always Self-sustaining. Sleep is a complete relaxation of the vehicle. Until the atomic structure is unclothed of its density, this seems necessary so that the outer may receive the

Inner Presence and Inner Radiance continuously.

The conscious use of the realization of the Self-sustained Activity, is the unclothing action of the atomic structure. It is very important no matter what the requirement–that is, whenever the Inner Activity is expected to operate–to be strongly and clearly aware that It is always Self-sustained. If we can become fully aware that we are already in the state or condition we wish, we will then have taken the shortcut to the accomplishment. This is the remarkable Power in Vision, to feel ourselves in the state or condition we wish to manifest.

A question about the Violet Ray: "What is the specific Activity of the Violet Ray?"

Saint Germain: Use It in Its full color, which is Its normal Activity. Each Ray, having Its own dominant, natural Activity, still contains each of the Activities of all the other Rays within Itself.

The first activity of anything is to become conscious that we have the ability, through the Inner "Presence," to do what we desire to do. Without having the consciousness of being consciously able to do a thing, there is no outlet for it to act. To be conscious of a thing, gives it an outlet; and through this it can act.

We may use the Gold, Rose, and Blue Rays as a Cleansing Process after the Consuming Activity of

the Violet. In consuming the thought and feeling, when you command as the Christ, the Flame takes on whatever color is needed to balance the Activity. The Inner Intent is the Intelligent God acting, and is the True Motive or Inner Activity.

The atmospheric condition when an Arisen Master appears: A few hundred years ago, when an Arisen Master manifested, He many times came with a rumble or hissing sound, from the intensification of the atmospheric condition into which He came. In the Presence of an Arisen Master is an Intense Force. To a large extent, this has been governed in later years; the atmospheric condition of the Earth is much more pliable to the charging by a Great Presence than it was even three hundred years ago, because the vibrations of the Earth itself have been raised, making it more susceptible to the Inner Activity. The great, sudden impact of the great Transcendent Force on the atmospheric structure caused a concussion, rumbling, or a hissing sound, or flashes of Light.

The cause of a cyclone is the impact of the hot and cold atmospheres upon each other. This impact causes a whirling vortex to ensue, and the duration of the cyclone is in accordance with the force of the impact. The impact of one force upon the other starts a whirling action; for there is more or less

an activity of passing each other, and this sets up the whirling motion. In the association of any two elements or different rates of vibration, the natural activity in each is to get away from the other.

There are storms caused by vicious intelligences, and that intelligence acts within the storm. [In the story *She* by Rider Haggard, there is an illustration of this.] The Great Law has seen fit to check this activity. In past ages, tremendous things of this kind were done, which were no myth. Any storm can produce freakish things.

Question: "Where are You going from here?"

Saint Germain: I am going to Washington from here.

In South America on the great heights of the Andes where the railroad goes by, is another gigantic figure of Jesus, high up in the mountains. I assure you that whenever the slightest attention is given by an individual to such things, there is always Response—whether the person be aware of it or not.

BENEDICTION: Thou Mighty Silent Watcher, We give praise and thanks for Thy Radiant Presence pouring into mankind, that Thou hast found pleasure in contacting those conscious of Thee, and that Thou hast looked upon this Center with Thy Benevolent Majesty. We give praise and thanks for Thy Omnipresent, Acting Power.

SAINT GERMAIN

INVOCATION: O Thou Almighty, Majestic "Presence"–Infinite Creator of all there is! Thou Dispenser of Life to all form! Thou Great Giver of Intelligence and Activity to all form! We give praise and thanks eternally for Thy Ever-manifesting Presence perfecting all Creation and drawing it again into the Perfection of Thy Mighty Self. Infinite is Thy Intelligence. Infinite is Thy Strength and Omnipresent Activity. Let the Children of men feel and know this for a certainty, that they may open the Door of their consciousness and receive Thy Mighty Strength of Life, Intelligence, and Health, manifesting Thy Perfection now. Greetings from the Silent Watcher and from the Great Arisen Host to you all.

THE DISCOURSE

As we recognize the Mighty Messengers of God and Their continual pouring forth of that Supreme Essence and Energy, so do we know there is but one

process by which They pour This forth, and that is *thought.* Thought is one of the mightiest means of Creation; and as it creates the smallest thing, so does it create the greatest. This will illustrate how necessary it is that mankind should govern their thought and feeling. Thus, they would govern all outer activity in harmonious production.

As we contemplate the use of thought, finding that it will create the simplest thing, then we must know that it will create all things. When it does not seem to do so, it is because unknown there is lurking doubt or fear. All sincere Students should analyze their thinking consciously, and see if there is doubt or fear or anything negative. If there is, find out what it is, and then proceed to eradicate it from the consciousness at once. As Students of a Mighty Truth, if we have become aware of the slightest fundamental Principles of Life, then we have learned that our thought, when held on the awareness of God's acting Presence, creates constructively with a majestic dominion.

It is so unwise for one of God's Children to sit in judgment upon another; for to do so, means that we are not exercising the full confidence in the Mighty Presence of God anchored in the Heart of every one of His Creations. For each one to talk to the Mighty "Presence" in the other, asking It to perform and

manifest Its Great Perfection in all outer activity, would be the ideal way and the correct usage of our thought, and would bring forth greater results than the outer can possibly comprehend.

To Mrs. Ballard: I have just arrived from a very definite association with France. The French are one of the nationalities to which I have dealt out the strongest force, yet I am not a Frenchman. The World is My Home. To create good is My Religion. After We have raised the body, We have forgotten there is nationality or personality. Nationality represents to a nation what personality does to the individuality. We but see where the Great Light is needed most and endeavor to radiate It there–if not through speech, then through thought that carries the Mighty Radiance to Its destination.

If Students will not take the necessary time to be still and feel the Great "God Presence" filling their minds and bodies, then they have no one but themselves to blame if they do not receive as much of the "God Presence" as they desire. The Student, having Free Will, through determination will always have whatever time is needed to still the outer and receive the Majestic Splendor of that Mighty Inner "Presence."

If one who has been physically laboring feels the necessity of rest, that one should first sit in a

comfortable position and, entering into the joyous recognition of God's Mighty Energy, feel It flowing through his or her mind and body like a Mighty Cleansing Stream. If the Students would practice this simple exercise daily, they would shortly come to the place where they could call forth a Mighty Stream, so that in three to five minutes they would feel entirely refreshed.

The assertion may sound absurd to you, but I assure you the sense of growing tired from outer activity is but a lack of joy in the thing you are doing. It may be something from racial thought or something from an inharmonious condition in the individual. Knowing the body of itself cannot grow tired, then we know the sense of being tired is a lack of joy or harmony in the consciousness somewhere. Naturally then, the first thing to do would be to still the outer and feel that Mighty Joy and Peace filling the mind and body full to overflowing, just like you would see a pail of water full to overflowing; and that Radiation would spread to those who need It. The first requisite to the use of Exhaustless Energy is a continuous happy, harmonious state of consciousness.

Most individuals have a mistaken idea that this Mighty Energy of God is something they have to pump into activity or pull out from somewhere, but I assure you It is likened unto an artesian well. When

you have struck the level of the water, it requires no coaxing to rush to the surface in a continuous stream. So it is, when we enter deep enough into the Consciousness of the Mighty Presence of God: we tap that Mighty Fountain of Energy, and we do not have to coax It at all. It rushes forth like water bursting through a dam; and we may direct It wheresoever we will, for that is our Divine Birthright and Privilege.

Desire: It seems necessary again to put forth the Mighty Consciousness that desire is the Mighty Activity of God–the motive power, as it were, by which the wings of thought carry it forth into productivity. There cannot, I assure you, be a single thing from the lowest to the highest without desire back of it; for desire is the power of the Soul trying to find expression. There are those who will tell you they have many wrong desires, but I assure you it is only because of a lack of control of the Free Will. Any full-grown human being knows the difference between letting the Energy go out into constructive or destructive channels and, therefore, can easily choose where It shall go.

It is so vitally important for the Student to have the correct understanding about desire. So much has been said–and falsely–about the Supreme Ideal being to kill out desire. To do so would be but to come into a state of apathy where you would open

yourselves to all the destructive forces there are! When you have a constructive desire backed by its twin sister, determination, knowing that each is but an Attribute of God in Action, that moment you have loosed the mightiest Power for and of Achievement.

Every experience that comes to the individual serves a double purpose: first, to turn the attention to the only Creative Source, God; second, to make the individual aware that resting in that Supreme Consciousness is the solution, instantly at hand, of whatever needs to be known. We do not receive it by throwing up our hands and screaming for help, but by taking the opposite stand and becoming so still and quiet in the outer that there is not a ripple of disturbance upon our consciousness. Then we will quickly find a solution to whatsoever is required.

In understanding the mighty power of creative thought–and thought is always creating one thing or another–one cannot help but at once feel a great freedom, for no one can prevent us thinking what we will. In the sincere recognition of the Great Intelligent God Self, we remove the possibility or power of the outer self of anyone to say or do anything that would be disturbing to us; for so long as we are resting in this Supreme "Presence," Its Mighty Radiance or Energy is constantly carrying with It the Consuming Power

of all outer disturbance.

It is only when we allow the attention to begin to be held on an expression of the outer, that we give it power to disturb us. To instantly take the stand that there is no personality–there is only God in Action–would prevent the "stinger" of ignorance from finding a landing place. Ignorance, like a hornet, always wants to use its stinger, but does not know where to find a landing spot unless you disturb its nest. And no one will knowingly do that if he knows the nature of a hornet. Divine Love is the original nature within every human being. Inharmonious feeling or activity is but misapplied energy trying to gain something by force, which it can only have permanently through kindly, harmonious action.

Love: If individuals could only recognize that God's Love is the natural motive power of their being, they would see at once how their attempt to use energy not qualified by this Mighty Power of Divine Love, must necessarily bring them just the opposite results from those which they wish. Therefore, let all sincerely open the Doorway into all expression–into all activity; and we will find our world transformed and moving within an Armor of Protection where only Light, Peace, and Harmony reign.

The first simple essential to the constant use of the mighty constructive energy is to determine to

move within the Sacred, Charmed Radiance of your Mighty "God Presence." We have often seen, through many lesser experiences, that we can do what we are sufficiently determined to do. In the determination to use the constructive power, which is God in Action, then we have loosed the mightiest Power in the Universe to act in our behalf.

The moment we become conscious of God's Energy, we set It into motion. In Its Infinite state, It is static. Consciously directed, It is dynamic. This is the reason for the demand for the *conscious* use of understanding. This is the subtle point where individuals fall into a state of apathy, and it should be avoided as you would a poisonous serpent.

The Silent Watcher: The Radiation of the Silent Watcher takes on the Quality that is needed at the point to which It is sent.

To Mrs. Ballard: Let Me assure you, you have accomplished a wonderful thing in receiving these Words to the song, "The Silent Watcher." It has drawn His Current of Mighty Creative Power; and He will use as His Messengers, the Gracious Cherubim and Deva. For the Classwork, the Silent Watcher pours His Radiation direct. His Radiation at the home of Mrs._____ was both Consuming and Energizing.

The Divine Flame: To some natures the sense

of warmth is disastrous to keeping awake. The mentality should become alert and awake with very great vividness as the consciousness is held more and more on the Divine Flame. Do not let the seeming lack of anything find a resting place in your consciousness. Take your stand that you are free right now, and feel it. When we love God enough, it causes us to enter into the "Presence" sufficiently so that whatever we wish is forthcoming.

The most important Service: The first and most important service of every human being should be his or her devotion to the Great Light.

The reason there are so many more masculine than feminine Masters in the physical octave, is because it is very much more difficult for the feminine to shut out the ever-present sense of curiosity, which comes from the fact that they constantly live more in the feeling element. Therefore, it requires a much firmer hand and much greater determination to govern that, than what the masculine has to contend with. This, however, must be completely governed by the feminine element before real, permanent progress will bless their efforts.

Occasionally there is one using a feminine body who, although delicate and refined, possesses enough of the positive masculine consciousness to govern the otherwise uncontrolled feeling. These

individuals become great feminine Masters; and it is worth all the effort anyone using the feminine form can make, to attain it.

Before fifteen years have passed, you will find the World smaller than ever. Television and the right aerial transportation will make the World like a great audience chamber. It is much nearer than most people suspect. Things are steadily progressing. There are at least forty percent more settled, normal conditions in the business world than six months ago. That is a very great gain. The price of things will be maintained at a much more normal balance.

The stock market is a disgrace to humanity when in it, one man who wants revenge against another, has a certain means of gratifying it. The entire system of everything will be changed in such a manner that individuals will be protected; and the selfish element of the big fish wanting to swallow up the little ones, will have made them so sick that they will not wish to try it again.

I would suggest that you keep up the sending of Peace and Freedom to all humanity; for where there are sincere individuals, it can be utilized to very great advantage. You cannot come into contact with the Radiation of these Great Ones and not have these things manifest.

BENEDICTION: Thou Mighty Presence! O

Silent Watcher! We give praise and thanks for Thy Mighty Radiation, for the Light and Wisdom flowing forth like Rays–a Mighty River reaching out and enfolding all who are sincerely reaching to the Light, making them Thy Center of Radiation. Strengthen Thy Great and Loving Messengers to go forth, conquering victoriously in the spreading of the Great Light to mankind. Draw to them Those who can give them Great Light and the Students who can receive that Light. Thy Love enfolds and Thy Peace sustains all mankind forever.

SAINT GERMAIN

INVOCATION: O Mighty "Presence," We give praise and thanks, and rejoice in Thy Mighty Radiant Presence–that Thou hast come forth to clothe America in Thy Mighty Radiant Presence and shed Thy Splendor o'er humanity. We rejoice that the cycles of time have moved forward, and this has enabled Thee to come forth from Thy Secret Chamber in the Temple of Light. Mighty One, in the Majesty of Thy Splendor, Peace, and Power, look into the Hearts of those who sincerely look to the Light. Strengthen them! Give them courage! Enable them through Thee, Mighty God within, to hasten and come forth and be the Messengers of the Mighty God Light. Speak to the Hearts of the Children of Light. Strengthen them to stand and be sustained in Thy Great Splendor.

I bring you Greetings from the Great Angelic Being who has been caused to look upon this humble effort to give forth Light, and who extends

personal Greetings to you all.

THE DISCOURSE

With the entrance of each great cycle there come certain presiding Beings of great import. You will know this Presence as a Being of Great Majesty, Power, and Light–through whom, at the height of all civilizations, has come the Power of Precipitation of Jewels of all kinds and of liquid Gold. This Presence represents the All-Seeing Eye to the Earth. Your request to know more of the Great Beings has been granted. It was through the Action of this Great Being and One from the Jade Temple whom you shall later know, that there was caused to come into form the "Jade of Ahbor." Another such twin of the "Great Jade" will appear in America. It will be publicly known of at a later period. This entirely depends upon humanity–how soon they will turn, and where, to the Great Light.

Beloved Children of the Light! Fix firmly in your minds, all of you, fix within your consciousness that the Mighty Presence of God in and about you is the only Intelligence, Presence, and Power governing the Universe. With this staunch, firm recognition and adherence to the Great Light, there is no Height you may not reach, no great service you may not render through this great Acknowledgment! It is

your right to command and compel the outer to accept the full significance and magnificence of this great opportunity.

You have reached a point where you can compel the outer obedience to the Great Light. And at this time, I say for the benefit of all Students who will take their stand and determine to serve the Great Light to the fullest of their ability, that they will receive a Mighty Sustaining Power, aside from their own effort to hold themselves steady in the Great Light! It is so foolish and childish for anyone who is sincerely interested in serving the Light to say that he cannot control his thought, feeling, and spoken word; for where the sincere effort is maintained, the greatest Assistance is sure to be given.

I congratulate you most sincerely in having drawn the Radiance and Attention that is now and will henceforth be continuously manifest to you. It is important to compel the feeling to accept the Great Truth of this, that it may not at any time waver and wonder how this Majestic Truth can be true. The accumulated good of centuries of effort is being stirred into activity in many sincere individuals who are determined to serve the Light.

The words "I can't" or "have not" are to be forever wiped out of the vocabulary of the earnest Students of the Light! When they once know the Mighty Living

Presence of God is the Life Energy flowing through their minds and bodies, they must know that there is no longer any excuse for the use of such words. These words are simply concoctions of the outer human self to try to justify itself when, by its own acts, it has shut the Door of Light to itself and its world.

Having arrived at the full stature of manhood in Christ, we should be able to put away all childishness of doubts and fears, and leap into the Arms of that Majestic Conquering "Presence" in the Life of every individual, and accept Its full Manifesting Presence. The unwavering acceptance of the Limitless Presence and Activity of God, manifest in your outer experience, is the Miracle-working Power, and has long been waiting to pour forth Its great Abundance into your use.

All human doubts and fears are fast being consumed and eliminated; and that makes it possible for this great Inner Abundance to rush forth like a mighty stream, bearing in Its Embrace the fullness of the "God Presence" into your use and experience. Consciously give full power to this feeling with all the joy at your Command: "How true and wonderful it is now, in my Life and world!"

This is an illustration of what tremendous things can be done, and what it means where one will make the sincere effort to maintain peace and harmony in

the consciousness. If each of these individuals can and will feel the full import of this great Truth, marvels can take place in their experience–and *will* take place with this full acceptance. This is not a wish to intrude anything upon the Free Will of the individual, but is a statement of facts and the Eternal Truth concerning these Higher Manifestations. When We find that there are those Children of God who will accept, in confidence, small trusts, then in time they will find themselves recipients of great and mighty trusts. No one knows his or her strength until Sacred Trusts are given into his or her keeping.

Liquid Gold: Liquid Gold is sometimes precipitated for its emanation in Healing. It is very like quicksilver, only of gold; and its structure is very similar. As a rule in contacting this denser vibratory action, it always contains a shade of jade green. In its Higher Activity the green is hardly perceptible, and in this state it takes on a shade of light rose in place of the green. Whenever intense Raising Activity takes place, there is always this observation, yet rarely is the individual conscious of it.

I trust you can, each of you, feel this wonderful Radiation about you, filling you with this joyous feeling and adoration of that Great Light. Try to feel yourself a great fountain of It, pouring forth all the time, knowing that there is but the one Mighty

Intelligence, "Presence," and Power of God acting through your mind and body. *"I rejoice that 'I AM' free, forever free, from every limitation of the outer world."*

Use for pain in the head: "This thing is nothing! Therefore, there is nothing in me that can accept it. I know there is only the Mighty Presence of God acting in my mind and body. Therefore, in God's Activity there is no pain or disturbance." Many times if you begin to contemplate a source–something causing a disturbance–it gives it power. Sometimes it is necessary to know, but now we must take the stand not to accept anything of the negative. Give it no attention, therefore no power. The attention sometimes gives a thing power that we are not aware of. Lest one fall into a mistaken attitude, if there seems any unusual activity at any time, take the consciousness, *"All of God's Activity within my mind and body is perfectly natural and normal."* This balances the outer and avoids the misinterpretation of that which is really a blessing, into becoming a disturbance.

Use this often: "There is only God in Action in my mind and body!" If there is a wrong thought about an experience, you neutralize or requalify it, and thus you lose its Blessing. In all of God's Activity in the Raising Process, it is impossible for It to contain any disturbing element unless the outer mind misinterprets

it and requalifies it as a disturbance.

Remember: To avoid this, one should at all times, in feeling an unusual vibration within the mind or body, take this attitude about it: *"How beautiful and glorious this feeling is, for I know it is God's Great Presence at work within me!"* When you begin to consciously use this Energy of God within you, you are qualifying It in some manner all the time. So it behooves the Student to awaken to the fact that he cannot take anything for granted, for he is supposed to qualify whatever passes through the consciousness. This is why We suggested some time ago the use of a Mighty Truth: *"There is no personality! There is only God in Action!"* At that time We did not think it wise to give this explanation.

Question by Mrs. Ballard: "The idea conveyed by mythology that there were, at one time on this Earth, any such beings as the Cyclops is a mistake, is it not?"

Saint Germain: At no time have there ever been beings with the Spirit of God within them, with but a single eye. Such an idea was a distorted view concerning the former state of those beings who still retained the full function of the Third Eye or Inner Sight, like the X ray. The All-Seeing Eye is the right conception of this state.

There was a time when those which are known

today as the pineal gland and pituitary body were one. They were the All-Seeing Eye. The skull or brain structure, which was of denser substance, was in nowise any obstruction to the use and activity of this Inner Eye that really looks in all directions. To the All-Seeing Eye, no form is an obstruction to the Vision. At all times the All-Seeing Eye has the form of an eye as you know it today. The greatly dimmed activity of that function, even today, causes you to sense a presence behind you as well as ahead of you.

At this previous time as the Soul drew into denser form, it required the activity of an arc, as it were, by which the two activities in conjunction stepped down the activity of this Inner Vision. This sparking broke the image of the vision, the same as an arc breaks up the current; and instead of a steady flow, it was in intermittent jumps. This causes the present intermittent activity. This became necessary as the outer form reached a certain density not wise to explain at present. If there could be a continual flow or connection of Light between the pituitary body and the pineal gland, we could see everywhere and through all things at all times. This is really the Inner Sight! This would be the same activity as when they were one—or in other words, unite them into their oneness again. When one can visualize the two as the All-Seeing Eye within, wonders might take place.

The child with the X-ray eyes: In this case the pulsation between the pineal gland and the pituitary body has become so frequent that the flow is almost continuous. In all forms where the Power of the All-Seeing Eye is used, the shape of the human eye is retained as we have it today. In any thought of this, think of it always as the All-Seeing Eye, complete, in the top of the head–taking the place of the pineal gland and pituitary body, or as having these two organs within it.

In this Eye within is the Perfect, Eternal Sight of Almighty God. A mental picture of anything, with this power back of it, must be propelled into outer form because it is God Power moving through it. This is how the images we see with our physical eyes are registered on the brain. Therefore, make your pictures within. Your eyes are the camera of the Soul. The activity of the vision in the mind acts just the opposite of the activity of the eyes, or physical sight.

The secret of manifesting things into the world without, is in using the Spiritual Power to take this picture. Then the Great Silence precipitates it into form through the visualized picture. Through the activity of visualizing, you print the form or picture upon the Great Silence; and the Great Silence, which is the greatest Power in the Universe, propels

it into outer expression and experience. Now you can understand how impossible it is for a picture registered on the Inner Silence *not* to come forth.

It is the business of the intellect and will, to hold the picture steady until the impression is taken by the Great Silence. If it is not held steady, the result is the same as if you moved your camera while taking an outer picture in ordinary photography. This is the Power of true Precipitation.

You do have all power within your consciousness to mold your mind and body or any of its parts or attributes into anything you wish. Meditate on this incessantly. Contemplate this matter of vision often enough to set it in mind–in action–and use it. This release of Truth and conviction is tremendous! Never forget it! Use it more and more all the time. This is the Inner Power that knows Its own and is waiting to do these things for you all the time. A tremendous Power has been generated here today. This conviction you now have, you can use with great power.

Warning: After I have given the Explanation of the Law and you have received the Inner Power and conviction, do not discuss it, for you scatter the Power which would accomplish the full Manifestation. You have the vision, the power, and the ability to apply this. Now do it! The Power of Precipitation is one of the mightiest activities of

this wonderful Presence who is radiating to you today. You have been shown how Precipitation through vision takes place. Use: *"Great 'Presence,' completely and entirely reveal this Activity of Visualization and Precipitation into physical form to me now. Teach me all about This, and see that I always use It to fulfill the Divine Plan, to the Glory of God and the Blessing and Service of all His Creation."*

BENEDICTION: Thou Mighty "Presence," We leap forth to Thee in great devotion and recognition of Thy Presence with Us. We know, feel, and have the full conviction of Thy Presence eternally with Us, and that Thou wilt teach us the fullness of Thy Activity manifest in form.

SAINT GERMAIN

INVOCATION: Thou beauteous, overshadowing "Presence," as Thou hast come from the Secret Channel wilt Thou touch that Secret Place in the Soul, in the Heart of each of God's Children. Strengthen, encourage, and lift them into the Embrace of their own God Self within, who through the centuries in Infinite Patience has watched over them, sustaining the outer form, which is gaining its great freedom from personal limitation.

We give praise and thanks for Thy overshadowing Presence in America, governing everyone on Its surface and holding Thy Children in Its Embrace—making each one Thy great Messenger, to heal, to prosper their own world and America. O Thou Precious Jewel on the brow of the Great "God Presence," may Thy scintillating, prismatic colors shine forth like the Mighty Rainbow of Promise in the sky, filling the Children of men, causing them to stand to the Light eternally and be bathed in Thy Lifting Radiance.

Greetings from the Great Host, from the Great Radiant Presence, Cyclopea, watching in His Mighty Transcendent Power, lightening the burdens that otherwise would rest upon some of the Children of men in the coming readjustment of things.

THE DISCOURSE

Oh, that individuals might center within and feel that Great "Presence"–the Giver, the Preserver, the Solver of all things; that they might consciously anchor within that Great "Presence" with such certainty and assurance that doubts and fears could not beset them, enabling them to steadily rise in that Great Eternal Victory which must sometime, somewhere be accomplished.

I thank you exceedingly for the two pieces of music that are most useful to Us for the attunement to the Great Height and for America whom We wish to bless. I would be pleased if those who are in complete Harmony with you, would hold that the individual who can best serve the Christ alone will be made President of the Nation.

As this Work goes forward, We wish each individual to feel his or her part in the Great Victorious Activity–that they are as important to the working out of things in the Universe as the petals of a rose are to its beauty. There is constant opportunity for those who have a

joyous attitude toward this Effort, to be channels of Outpouring of this Mighty Radiation.

The Student who is sincere and is with great intensity reaching out to the Light, need never worry about making direct contact with the Ascended Masters; *for it is not the Student alone who seeks the Master, but truly the Master who seeks the Student* because there is always great need of Messengers of the Great Host of Light, who are staunch, trustworthy, and willing to serve. Such may never doubt for one moment their eventual contact with the Visible Presence of that Great Ascended Host, not only with one but many.

We have no desire to intrude this Work which We know to be a Mighty Truth, upon anyone; and anyone who cannot feel within the Heart the Truth that We give forth to strengthen and to cast out doubt and fear, should either wait or seek other channels with which they can feel perfect accord and harmony.

This Work shall go forward without interruption or interference and, as a Mighty Magnet, will draw to Itself Its own. No one can go beyond the point where their understanding carries them. Our only Desire is to bless, to strengthen, to enlighten all who come within This Radiation. We seek no one who does not come with a joyous willingness to put

aside all personal things and rejoice in the great activity of the Mighty Inner Presence of God, of which We are but the Messengers.

Those whom We contact through the Radiation are always free, and they alone must choose whom they shall serve. How strange it is that enlightened Students will discuss individuals and Activities of the Truth, and allow doubts and fears to beset them, which sooner or later make a barrier between them and the great Beauty of the Light they might so graciously enjoy.

We or Our Messengers have no thought or feeling of criticism toward the individual who cannot come with Us; and to all such, We give Our Great Love and Blessing. But this Work We are doing must stand free from criticism, fear, and doubt, in order that what We are accomplishing may be done with the least outlay of energy and without unnecessary strain upon Our Messengers. Students, through the drawing power of the outer, allow themselves to discuss this Presentation of the Truth with those who know nothing about It, many times causing an obstruction to their own beautiful acceptance of this expression of the Light. Each should know for the other, that there is only the Mighty Presence of God in Action in each one–in their speech, thought, and action; then they would avoid the subtle pitfalls

that are but breeders of disturbances. *"God in them! show them the Light unerringly!"*

You might also know concerning the political activity, that *"God's Mighty Love governs every channel of activity in this coming election, and God's Mighty Presence silences all outer action and expression, allowing the Truth to manifest in Its fullness."* Cyclopea especially wishes to utilize It as the Outpouring of that Mighty Radiance to America and to Her people. Calmly and silently know that the Mighty Radiance is spread over the entire Country, touching all Hearts and raising them into the receptivity of that Mighty Radiance. There has been an attempt to turn the tide against Justice, and We trust this will prevent it.

BENEDICTION: We give praise and thanks for the endless stream of dazzling Light enfolding this Activity and each individual in It. This Radiance goes out to those who are looking to this Presentation for the Light, and We enfold in that Great Intelligence all who can receive It.

DISCOURSE XXIII

SAINT GERMAIN

INVOCATION: O Mighty Luminous "Presence," from out Thy Secret Place Thy Radiance shines brighter and brighter; and as Thou dost encompass America and humanity in Thy great Loving Presence of Light, so We give praise and thanks for the Privilege of being Thy Messengers to carry forth Thy Thought, Thy Work, and Thy Word into the various parts of the Earth, there to be blest by Thy Beneficent Presence.

O Mighty Host of Light, as Messengers of that one Supreme Power, We give praise and thanks for Thy Ministering Presence to ourselves and all mankind. From out Thy Great Wisdom comes the solution of all things. From out Thy Great Light comes the great Consciousness that opens humanity's consciousness and is the Great "Presence," Self-sustained forever.

Greetings and Love from the Great Host for establishing conditions in which They delight. There

is a difference between musical peace and ordinary peace, as We term it. This Music is Harmony of the Spheres and carries much higher and farther than other activities, except where the thought is sent–propelled–by conscious dynamic force.

THE DISCOURSE

The old seeming myths and legends were far more true than the humanity of today are willing to acknowledge. The Gods and Goddesses of the olden times were greatly enlightened Beings whom the humanity of that period looked upon as too superior in Wisdom and Light to ever dream of becoming like Them. However, the Children of Light today, through the Inner, Propelling Power of the Individualized Christ Force, realize that there is no height, no matter how great, that one may not reach–and there, be forever Self-sustained.

Reminder: I wish again to call your attention to what was given last week on visualization and ask that you read it daily so that you get the true conception of visualizing. Contemplate it as often as you can, for I am aware that the door of your consciousness is opening to receive the full use and understanding of its mighty power. The quickening of the understanding established last week is leavening the whole loaf, as it were; and with your

cooperative, conscious effort in contemplation of its great activity, you will come more and more into its tremendous use and possibilities.

The Activity of the Light is consciously drawn about you, and the Radiation that goes forth is reaching a point of saturation, chemically speaking, at which Its Radiance runs over, as it were, like a pail of water filled to overflowing–this becomes a Fountain of ever-pouring Light, Illumination, Substance, and Power governed by Wisdom enfolded in Its cloak of Divine Love. Thus is there no uncertain activity. Be conscious of the overflowing Substance and Power flowing forth to wherever you are conscious of a need. This will become so tangible and so potent in Its operative Power, that ere long It will stand ready and dart forth like a Ray of Light wherever there is a Call or Demand.

It is well to be aware that there is no limit to this Outpouring. You arrive at the point of consciousness where this Mighty Power surges forth to fulfill the Demand, without contacting your physical body. Why? Because the consciousness reaches a Height of the Self-sustaining "Presence" where it is, can be, and will be more and more directed from the Electronic Body–which will maintain this Outpouring in calm poise and peace. The only activity required is to fix the attention upon that

which is consciously known to be needed.

Aside from this, be aware that from the Height of the Electronic Activity the Work is constantly going on, and being consciously directed from the Great Master "Presence" within. This is preparation and a very important step to the outer and Inner becoming one. When there is sufficient calm, peaceful preparation, the Wisdom flows like a gently flowing stream, carrying with It a conviction and radiance not possible in any other way.

Daily work until the tenth of October: Spend at least three to five minutes every night until the tenth of October, making your clearest visualization of the All-Seeing Eye–which is the highest, yet normal means of causing the pineal gland and pituitary body to act in Perfect Balance. This will naturally cause other centers of the body to act in harmonious accord with It. In this manner Divine Love and Wisdom are naturally caused to act upon the lower centers, raising their activity in a manner and grace not otherwise possible. This will bring splendid results.

Each Student should for five minutes in perfect quiet sometime during the day, claim the full power of perception and its full activity in his or her Life and world. This will enable everyone to have Insight and Foresight concerning their activity and affairs,

which are activities that all Students need and really crave very much. One should contemplate that one has right now the full God Power of Projection and Precipitation, and the Power of molding and manifesting the Inner Substance into whatever form is desired. This may be applied by all of you.

Here is a Secret not conceived of or known except in the Retreats, which is an exact opposite of what is ordinarily understood from the general activity of the outer: When the Inner has raised the outer to a certain point of recognition, the outer begins to rejoice exceedingly in its cooperative action. From this point on, the Conscious Effort to hold fast to the joyous desire to act within the Magic Circle, makes it far easier than I can explain to you in words. Several of you are reaching this point, for which I rejoice with you.

Warning: Each one of you should take a firm determined stand that no thought of criticism, judgment, or condemnation should at any time find lodgment in your consciousness. *" 'I AM' enfolded in the Mantle of the Master Christ; therefore I maintain my thought, feeling, and words free from all criticism and judgment."* This maintained will open Doors of wonderful Light and Activity. With this, take the stand that when you have done the best you can for an individual through Instruction

or Radiation or both, you place that one in God's Hands and insist that your outer self remain free from the contemplation of the subject. This will give a Power, Activity, and Use of the Inner "Presence" that will many times amaze you.

Hints to the Group: We feel greatly encouraged over the unusual Harmony manifested within the individuals yesterday. If this great loving, joyous feeling of one Student to another and to their Instruction is maintained, wonders may occur at any time in their midst. Several have sought the Visible Presence of one or more of the Ascended Host. This attitude maintained might enable such a desire to be fulfilled for the Group. If each can enter joyously into the acceptance of this Idea, it will be well indeed.

In contemplating the use of the True Vision, let each one demand of his or her Inner Self, unwavering conviction in Its use; for when the Vision has placed the picture desired within the Great Silence, it is positively certain to be propelled forth into visible form, the moment it has registered there with sufficient clearness. Do not have any consideration except to know that the picture is placed within the Great Silence–firm and clear; and you will not need to be concerned when it will manifest, because the Law of the Great Silence is to propel it forward into visible form the moment it is registered.

As a rule, the Student endeavoring to place the visioned picture within, immediately begins wondering if it really got there. This questioning prevents the clearness of the picture striking the Inner plate or Great Silence. When the picture is made, the only office of the outer is to know positively that it is registered in its full and perfect clearness–and then rest in that. The wish has gone forth. Know that it has gone forth and brings its visible action.

The disappearance of animals from Earth: One of the most amazing things perhaps, in all manifestation, is the tremendous power that the love of an individual has, to lift the consciousness of an animal, as is so beautifully illustrated in *Unveiled Mysteries*. It is a beautiful illustration of how the intense love of mankind for animals will soon remove all animals from the outer expression.

Metempsychosis: There was a time in the progress of humanity when the conscious division of the constructive and destructive use of the Inner Power and Energy began. Through the power of black magic, or misuse of the One Energy, sometimes a Soul was driven from its body by another; and a body of an animal was built up, and the Soul was compelled to use it. It was from this condition that the legend of the transmigration of Souls came. There has only been one period through the

centuries at which this occurred. The Ascended Host consumed and dispelled this activity forever. But the memory, which has never been erased in an etheric record, still lingers; and now and then an individual having contacted this record, keeps alive the idea that should long ago have been forgotten.

Dominion over the body: People can, *if they will only realize it,* talk to the organs or parts of the physical body just like they would to a child from whom they wished obedience. They can say, *"Now you get into perfect normal activity and see that you maintain it!"* During the time that the Life is maintained within the form, there are innumerable little workers whose duty it is to rebuild the atomic structure of the form and maintain it in perfect order. Again one can say to that part of the Life activity, *"See that my body is supple, perfect in form, and beautiful; that my hair, eyes, and every part of me glows with the Light of the Inner Activity."*

The fact and Eternal Truth is that the consciousness is absolute master of every activity of the body and can mold it into perfect activity and form. The only reason those who know this do not get their manifestations is because they do not stay on the job. If a disobedient child were destroying something beautiful and valuable in your home, you would certainly put a stop to it. The time has come for you

to do permanent work on your bodies.

The work of repairing and perfecting the body is done through the Electron. Say to the intelligent workers in your entire body, *"Get to work and see that every particle of this structure is replaced with God's Perfection."* Do this especially at night before going to sleep. Realize that you are setting to work intelligent Beings who obey you. The consciousness must be impressed upon the workers that the Perfection is permanent. The Electron is a Focus of Perfect Energy from which the workers draw their Perfection. Instead of knowing that everything we place within the body is God's Pure Substance, most of us have the idea that some of God's Substance can be harmful. The idea that any of God's Substance is naturally harmful and inharmonious to man is absolute nonsense.

To meat eaters: The reason that flesh food does not belong in the human body is because there is a certain animal quality in the natural structure of the flesh and this automatically acts from its own trained environment of activity.

Question: "What causes the change in desire for food?"

Saint Germain: It comes through the raising of the consciousness, and this quickens the activity of the atomic workers.

Very important: The force field around the Electron is naturally Perfection. The force field between the positive and negative atoms may be so charged with the force of the Electron, that it maintains a constant constructive activity. This is done by the Conscious Activity of the Thought through the Vision. The province of the Conscious Activity and the right use of Its power is to qualify this force field between the atoms with the Perfection of the Electron. The nature of the little workers is to keep Perfection. A good Affirmation is, *"See that this is renewed and maintained in its perfect activity."*

Remember always: The human mind will revert back to imperfection unless you keep a death-like grip upon it until it makes full union with the Golden Flame. Take your stand! Know you have within you the Mighty Master "Presence," and tell It to see that you are sustained in the constant activity of Perfection. You must consciously give quality and permanency of the quality to the atomic structure if Perfection is to be maintained without interruption. Command often: *"I speak to you, the conscious workers of the constructive process! See that Perfection is created and maintained in every function of all my bodies."*

Germs: There is no germ of any disease, except what the conscious mind creates. The medical

profession call this activity germs.

Phagocytes: These little workers are constructive by nature and are placed in the body to maintain Perfection; but the discord in the thought and feeling–if allowed to express in the consciousness of the individual–compels them into other than their natural activity or work.

For healing more quickly: Whenever you visualize the Golden Light acting, qualify It with Infinite Intelligence, and command these little workers to create and maintain Perfection in the mind and body. This adds a tremendous element to the Healing Activity, which is the natural action of this Golden Light. In the Light is an Intelligent Activity. When This is directed by the Conscious Command, It sets in motion tremendous Power of the Christ. Get the full realization of this fact at all times, so that you will know that this consciousness always acts according to your Demand. Instead of allowing these little workers in the body to accept destructive suggestions, by your Conscious Command you keep them obedient to their own natural perfect activity. Whenever you hold the vision on Healing, be sure to qualify it in this way with the Conscious Command.

By the use of the Conscious Command as the Christ, we transcend the Law of Growth. The Law of Growth is only in the outer activity. There was

a time when birth came through the Power of the Inner Vision creating the full form as desired by the Masters within. This is the same Power that is used today by the Ascended Host who project forms for Their own use. The Ascended Beings at this time, unless a number of Activities are required at once, usually take Their own Body for the Work. If three or four activities are required at the same time, They project that many forms through which the Energy is to act.

The Law of Growth is only a concept of the human mind that accepts the limitation of and the concept of time. The Ascended Host can send or project a form just as easily as a thought. The instantaneous action of the desire creates the form by the thought –for Their Thought Creation is instantaneous. If you wish to project your thought to a distance, you have but to clothe it with your picture. To make a form tangible to the outer senses, it must be clothed in the atomic structure.

The transportation of a body by Levitation is a much lower action than the Dissolving and Reassembling of it at a distance. The latter is a much more rapid process. The manner of transporting the objects from the Temple at Mitla to the Royal Teton, was by the Disassembling Process. This was the Method used for all in the Retreat except the Portraits. In the case of the

Portraits, We did not wish to interfere with the cohesive structure as it had been previously established, for reasons not explainable now. In passing through solid objects, things are disassembled and reassembled on the other side. In this way we keep the Inner blueprint intact and reassemble the article again according to that Perfect Pattern.

BENEDICTION: Thou Mighty Infinite "Presence," We give praise and thanks for the clearness of thought and understanding today, and that Thy Mighty Intelligence is now acting in the minds and bodies of these Thy Students, Eternally Sustained in Its fullness and activity.

DISCOURSE XXIV

September 22, 1932

SAINT GERMAIN

INVOCATION: By the Sign of the Heart and Head, which is Thy Symbol of Love and Light, We greet Thee, O Silent Watcher. In the depths of Thy Great Peace and Silence, We reach forth and receive Thy Mighty Radiance filling Our lives, homes, and worlds with the Conquering Activity of Thy Mighty Presence. Out of the Fullness of Thy Active Presence comes the quickening cooperative action of the outer and Inner Life into Full Expression in the Life of each one.

We offer eternal praise and thanks for that eternal contact with Thee, and that We know that evermore Thy Master Presence is giving of Itself every assistance required in maintaining the Perfect Contact with the Mighty God Self in each, so that We may live, move, and reap the Great Reward of Eternal Peace, Eternal Vigilance–eternally receiving that Great Light more strongly each day in Our lives.

THE DISCOURSE

Within the consciousness of each one is that Eternal Vigilance on guard which warns the outer to refrain from anything that would create destructive activity, if the individual will only listen to its prompting. For any Student to yield and lower himself to vicious gossip is a violent retarding process to his or her growth. It matters not what may seem to be the appearance, no one shall sit in judgment upon another. They who yield to such childishness open their doors wide to forces more destructive than the boa constrictor of the jungle, or the tiger that would tear them to pieces. That would but destroy the outer form, while gossip, criticism, and condemnation build within the mental bodies that destructive element which takes them many embodiments to rid themselves of.

If Students receiving these Instructions cannot resist the vicious onslaught of these accumulated elements, they should withdraw from the Classes until such time as they can conquer themselves and are able to send love, peace, harmony, and goodwill to one another. Students should understand, in entering into the Conscious Action or Stream of Life, that they are or have entered into the sifting process, wherein they either rise on the Wings of Eternal Love or fall by the wayside and are

swallowed up by the dragon of the outer forces.

The Students who have entered upon the Conscious Path and wish to proceed and be blest by that Wondrous and Mighty Light anchored in the Heart of each one, should turn from criticism and judgment as they would from a poisonous serpent that would strike the poison of death into their flesh. The Students should understand that in allowing themselves to fall into this most undesirable habit, they but injure themselves. They cannot harm another who is filled with love toward everyone and all things, because the Consciousness of the Activity of Divine Love in the individual's Life builds a Mighty Armor of Protection that naught of the outer can penetrate–for God is Love and always protects His own.

The Students who have had difficulty in controlling their thought and feeling harmoniously should understand that when they have entered This Radiation every faculty of their beings is quickened tremendously. Therefore, they are more sensitive to the undesirable as well as to the good and desirable. But I cannot stress too strongly that everyone, having Free Will, has the power to govern and control how they shall think and feel. They should at all times keep this Truth before themselves.

The one who spreads gossip, true or untrue,

not only injures him or herself, but often shuts the door for those who unfortunately accept the gossip and dwell upon it. So, anyone who yields to it should understand how far-reaching it is in the injury they do themselves and their acquaintances. The conscious pouring forth of Divine Love into all situations will enable anyone who is addicted to such a habit, to find quick and complete release from all such conditions.

I rejoice exceedingly when one with great Inner Strength is able to resist and refuse the acceptance of subtly destructive suggestions, and to stand firmly with and in the Mighty Presence of his or her Glorious God Self. Keep it up, Dear Ones, and you shall hear the Bells of Freedom, of Liberty, chiming to you in the Great Rhythm of Eternal Light.

The Classes: We see and know the beauty of Soul of everyone in your Classes. They have been brought to you through the Mighty Presence of their own Divine Selves. It makes the Heart ache to think that anyone might shut the Door to the Great Blessings and Light on their threshold. However:

God alone is Great
And holds within His Hands Eternal Grace.
And as we stand strong and firm,
We will see God face to face.

A volume is really in these four lines. When it is said

that "We see God face to face," it is an actual fact that hundreds of staunch ones have experienced; for the God governing the Universe is One and the same as your own Mighty Master God Self.

It is time that sincere Students should understand that their own Mighty God Self, ever pouring Its Energy into their use, is the "He" who created all Worlds and brought all Substance into form. I admit that this is a stupendous thought, but it is true; and they who will meditate upon this simple yet Mighty Truth will find the Highest Door of their Consciousness opened, and they will be able to accept and utilize this *Eternal Truth*. It is the unfortunate teaching through the centuries that has caused mankind to look away into some distant place for this Mighty Presence of God.

It is a misstatement that no one may look upon the Face of God and live; for I know hundreds of Students of the Light who have seen their own God Self with the same clearness and assurance with which you look upon each other in your outer experience. *The God Self in you is the same God that is at the Heart, at the Helm of the Universe*. The pity is that Students think or feel this too stupendous a Truth to be realized in their individual lives; but I assure you that according to the intensity with which they recognize this Truth,

anyone with unwavering determination may see the Radiant Face of that Mighty "God Presence." These statements are neither myth nor imagination, but tremendous Truths that the Students can grasp, comprehend, and utilize with Everlasting Blessings in their outer experience.

It seems strange that many Students who have studied, and to a large degree earnestly and sincerely, do not awaken to the fact that self-correction of the outer is the simple, yet Mighty Activity that must be used. *The outer self of each one must be conquered, and there is no escaping this fact. This is what Mastery means and there is no Mastery for anyone without it.* Those who are earnest and determined will naturally receive Great Assistance, but those who will not make the sincere effort will find the Door shut to their further progress. May God bless them and show them the Way.

The Help that has been focused upon the Earth of late, through the effort of Cyclopea–the Silent Watcher–the Cherubim and Devas, and the Highest Influence from each of the Seven Planets of this System, has been caused to focus that Power upon the Earth, making the Earth as the hub of a wheel, symbolically. There are those in your Classes who will see this Activity, and I call the attention to it because it will help those who may see it.

The province of the Students of Light: The real province of the sincere Student of Light is to be able to know of the outer destructive forces generated by mankind, to look into them and see there, active, the Mighty Presence of God, consuming everything unlike that Glorious "Presence." He or she must be absolutely fearless about destructive forces or what seem to be disastrous reports.

Your visualization: As the sunrise of a brilliant morning absorbs, as it were, the morning dew or mist, so will the visualized Presence of God, held firm within what seem to be destructive conditions, have a similar effect. Thus, it is seen what tremendous Blessings to humanity may be brought out of seeming chaos; for it should be at all times remembered that the outer is but the changing, shifting quicksand of man's outer creation. Therefore it has no permanency, and it is the Privilege of the Students to become wonderful Messengers of the Light. Some will say, "But how do I find time to do this with all the outer activity about me?" I say to you that anyone who will try to, will find day by day more leisure time in which to do this great Service.

Newspapers: If every newspaper in the land would start printing in great letters across the first page of their newspaper, "Rejoice! God's Loving Peace and Prosperity are here!"–in seven to ten

days, the Transformation would be complete. However, I believe that the *Tribune* of Chicago and the *Denver Post* may be yet inspired to some such fearless activity, and they would be amazed and encouraged how fast humanity would fall in line with the idea.

The All-Seeing Eye: The All-Seeing Eye is the Presence, the Radiance, and Activity of the Mighty God Self and is really the Silent Watcher.

Learn always to reverse at once everything that is contrary to the Perfect Activity. Nip it in the bud and say, *"This is not true; I do have what is Perfect!"*

Life, Love, Light, and God are One and the same. These are just different expressions for the same Activity.

There is really never any drawing-down activity onto the physical plane. The only Activity is always a Raising of the physical by the Inner "Presence" to Itself. All activity of the outer comes from the Energy given by the Inner "Presence"; and therefore, the proof stands before you that all is a Raising Process, and what seems to be the activity of the outer is in reality the exact reverse of the Real Process: by the Inner "Presence" projecting down Its Energy, the outer is set into motion in a spiral-like Activity that draws it Upward.

As the atoms form the body or outer form of the

individual, so do individuals form the atoms in the Great Body of America or of the Christ. Individuals are atoms in the body of a government or empire.

Gandhi: Gandhi is entirely on the Love Ray.

Encouragement: There are times when encouragement is absolutely necessary and imperative, for it lifts and carries over in certain activities. At other times all is withdrawn, and the Soul is left alone to prove its own strength and reveal the impulses still within it. Know always in all trials, *"There is only God in Action in me, and 'I AM' sustained by that through all trials."* Know also, *"There is only God in Action in all my affairs, and 'I AM' abundantly supplied and sustained by that!"*

BENEDICTION: Thou Mighty Radiance of the Crystal Light! As Thou hast manifested through Thy Wondrous Messengers, so do We give praise and thanks for Thy Eternally Sustaining Power, ever pouring Its Radiance and Presence into Our lives, world, homes, and experience. Into the Heart of every sincere Student, let Its Sustaining Power flow.

DISCOURSE XXV

September 26, 1932

SAINT GERMAIN

INVOCATION: Thou Great Star of Light and Love! We are filled with great Rejoicing that Thou dost again, after so long a time, project Thy penetrating Rays of Light upon the Earth. Through Thy Mighty Quality and Power will the Mighty Light of the Christ, the "Mighty I AM Presence," find entrance into the Hearts of humanity, holding Thy Anchorage there, so that Thou mayest hold and sustain the attention until the Fullness of the Christ finds Dominion in the Hearts of the Children of Earth. We give praise with great Rejoicing, that the Mighty Creator of all things and Thou have seen fit to shed Thy added Radiance to the Children of Earth once again.

I bring you Greetings from new Friends. I bring you Greetings and Hope from the new Radiance. I bring you Love and Greetings from the Great Host of Light always.

THE DISCOURSE

One of the first things that all Students should fix firmly in their consciousness is the Truth that they cannot divest their thought, feeling, and spoken word of their creative quality and power. This, firmly held before the consciousness of individuals, will do much and will explain why it is so important that they control their thought, feeling, and spoken word.

Mankind through the centuries has made the great mistake of focusing the attention upon the human accumulation instead of the Principle of Life within the individual–the "Mighty I AM Presence," which each one really is. Even from outer observation, all who stop to think seriously must know that this Principle of Life, which we see everywhere manifest, is Eternal and is the Activity of God–the Creator of all things visible and invisible. Therefore, that Principle of Life within us is *One* in Quality and Power with the Creator of the Universe. Again, may I remind you that you have for your conscious use *all* the Qualities, Power, and Activity of the "Mighty I AM Presence"–the Godhead.

Then *never* again forget your limitless possibilities. God, the "Mighty I AM Presence," thought that which you see, into form. That same mighty inherent Quality is in your thought today.

It is your privilege to use this inherent Quality in creating Mighty Perfection in your individual world. In this Mighty Creative Presence and Principle is that Eternal, Omnipresent Opulence. By Opulence I mean money, Love, Light–the Eternal Power of Activity, the Peace and Harmony of the same Quality and Fullness that are in the "Mighty I AM Presence" or Heart of the Great and Mighty Silence, the Great Central Sun.

With your Mighty Power of Free Will, there is naught in the Universe as authority for what you shall think, feel, or say–or naught to prevent you thinking, feeling, and saying–but yourself. Then awake! O Students of Light! into the use–the conscious use–of this Mighty Power naturally inherent within you.

There is a great mistake that mankind has long made; and in bringing it to your attention, I wish to indelibly impress it upon your consciousness. It is this: through observation, the outer consciousness of mankind has observed things–creation–from the standpoint of growth, when to the Student of Light, it should be looked upon from the standpoint of Expansion. Correct understanding will wipe out of the consciousness this inhibition or idea of growth. Growth, to the outer sense, requires a short or long period of time, according to one's comprehension

or attitude toward it.

The idea of Expansion will enable the individual consciousness to feel its liberty and freedom more quickly—*now*. It is our privilege to express and use the completed, perfected form of the object, article, or substance which we wish to use. This consciousness of Expansion comes about through the recognition of the Expansion of the "Mighty I AM Presence"—the *All-powerful Principle of Life*—which animates, governs, and directs the outer form.

It is time now that individuals erase from their consciousness the idea of growth, which signifies more or less time, and enter into their God-given Freedom through Expansion. Then live, move, and *be* that Fullness and Freedom in and of all things, which is everyone's birthright!

I will make a personal effort with whoever contacts this Instruction, to assist all to erase from their consciousness the idea of time and growth, and to enter into the Expansion of that Great God Self, the "Mighty I AM Presence"—wherein all they require or wish to bring into expression and use is already within their worlds, awaiting their ability to open the Door and call It forth. Everyone whom this Instruction reaches will have the ability to do this, with the assistance which will be given. We must come to the point where the outer and the Inner

are *One;* and the recognition of this Expansion of the God Self, the "Mighty I AM Presence," is that *Oneness*–or rather the true *Oneness* will come through this recognition.

There are a few individuals who have recognized in a small way that they now live and move in their own perfected worlds. The idea or consciousness that there seems to have been a past, that there is a present and possibly a future, has led the outer activity of the mind deep into the consciousness of growth. The realization of the Expansion of the "Mighty I AM Presence" in the individual will enable all who understand this, to enter in and use this Perfect Kingdom with enormously greater speed and certainty. The Students will be able to enter more fully into Its great Use.

Beloved Students, try to realize with great intensity that this Energy which you are using every day even to lift your hand, has inherent within It the Mighty Intelligence, Power, and Activity of God–the "Mighty I AM Presence"! Not having been aware of this tremendous Truth, you have unknowingly requalified and charged It with all kinds of limitation.

Another of the great mistakes that individuals make is in taking entirely too seriously the outer appearance and, by that seriousness, giving it certain power. For instance: a seeming accident happens and the great crowd of minds says, "Oh,

that is awful," when it may be the best thing on Earth for the individual and all connected with him. The ideal of control would be for one to take the attitude of always living in the poised restraint of the emotions. To the one who will do this, it will be a tremendous blessing.

The Love Star: Today for the first time in two thousand years, the Love Star, created and sent forth to this System of Worlds by the Intelligence of the Great Central Sun, has begun to shed the Rays of Its Radiance upon the Earth; and today, the first Rays have touched the Earth.

This Radiance was present at the birth of Jesus and during His Ministry, and withdrew at His Ascension. It has again appeared and will remain for more than a thousand years. I assure you this is an Activity the astronomers will not detect with their physical instruments, nor will there be any astrological records of It whatsoever; but It is nonetheless tangible in spite of that.

Before, when this Star appeared, It held principally or dominant in Its Outpouring the Element of Love. This time Its Radiance holds in Perfect Balance Love, Wisdom, and Power; and this is a part of the explanation of why We have said repeatedly that the Christ Power will almost seem to intrude Itself, but only because of the quickening

activity that has entered and will enter into the individual's consciousness.

This is why those who misuse the Great Energy and Privilege they possess will find a tremendously quick reaction. This will become so noticeable that even the newspapers will speak of it, let alone the individual's recognition of it.

This which I am voicing to you today is broadcast o'er the land by Our secret radio of The Middle Way. Why do I say, "The Middle Way"? Because it holds in firm grasp the balance of the outer and Inner Activities.

All who grasp and make sincere effort to utilize this, will find amazing experiences awaiting them– not for the gratification of any curiosity but for great rejoicing that they at last recognize the Use of their Supreme Heritage. Those who can recognize that which has been stated relating to the Love Star and who meditate on Its Mighty Presence, will find themselves at times as though held in the Embrace of a Great Individualized Being. This will bring such a Consciousness and sustaining uplift that many times they will scarcely feel their feet touching the ground.

Do not misunderstand this statement. This will not make them less equal to cope with problems of experience, but rather the opposite; for this added

Sustaining Power will often be of great astonishment to them. This is but a small illustration of how tremendously the Power from the Love Star can be used to solve all things and make that solving permanent. Furthermore, when the conscious Power of Divine Love is used to counteract and consume that which is unlike Itself, It is the Mighty Presence and Power of God acting.

Mrs. Ballard: "I saw the Rays from a Star focused upon me, while resting. What was the Outpouring?"

Saint Germain: It was a Mighty Reality and no mistake, because of the Incoming of this Love Star; for you had been holding fast to the Activity of Divine Love.

Mrs. Ballard: "Why did I receive such a strong Current and Outpouring of Light when I was calling for Divine Love as the Healing Action, and also when I used the phrase, 'Venus, the Love Planet'?"

Saint Germain: Because you had been holding your attention upon the High Power of Venus, or the Great One who has charge of Venus. He already knew of this and was cognizant of the Love Star.

For more than fifty years the Planets above the Earth have been conscious of the Love Star, because Venus is the Conscious Assistance of the Power of Divine Love to the Earth. This directing activity will affect many, many things. It will cause a dissolving

of the discordant element on this Earth, and in no way will it intensify the disturbing reactions.

There are those who pray, beg, and plead with God, when all about them is all His Opulence to pour forth into their midst. They do not receive It because they, in their ignorance, do not know that it requires conscious preparation. Those who do not consciously prepare themselves will only receive a fragmentary part of that which those receive who have made the preparation.

Mrs. Ballard: "What is the color of the Outpouring from the Love Star?"

Saint Germain: The Activity of Its Light is almost like the play of a searchlight, on the lens of which you place various colors. Its own individual color is liquid or molten gold, but the Controlling Intelligence is constantly qualifying It according to the demand in the various localities.

This is the first time Its Activity has ever played over all the Earth. Two thousand years ago, Its Outpouring only included Judea, of which Bethlehem was the central focus.

Mrs. Ballard: "Will this Star pour out a still greater Power at Christmas?"

Saint Germain: Yes, because the consciousness of mankind is raised at Christmas, and this, through long activity, has caused humanity to feel Peace

and a Radiance pouring through them at this time of the year. So it is a tremendous opportunity to utilize any additional force that is at hand.

Mrs. Ballard: "Was this the Star that led the three Wise Men?"

Saint Germain: No. The Star visible to the Wise Men was a Radiance from the Divine Self of Jesus, which at the moment of the Ascension caught up the outer form in Its Eternal Embrace.

Mrs. Ballard: "Was Jesus' Manifestation to this Earth only a small part of His Work?"

Saint Germain: I think it well to give a much needed explanation, which your question brings out. According to the intensity of the individualization of every Great Master Presence, does that One draw from the Great Fountainhead all the Power, Authority, Wisdom, Love, and Activity that is required at a given point of action.

The question might readily be asked, "Why did the Star appear to the Wise Men, so-called?" Because in a previous Dispensation, They had been Associate Messengers of the Light and Their recognition was indispensable to the Work that was to be done.

You will notice that there were three Wise Men and Jesus made four, which was the Cosmic "Squaring of the Circle" for that Dispensation to

the Earth. This enabled that Activity to take place without interruption.

There are those questioning minds that will say, "If God is *All* and Omnipresent, why are these Manifestations mentioned of added assistance?" Because of all the fears, doubts, and unbeliefs of the outer shell, built up by humanity. Thus they would have greatly delayed the Cosmic Progress intended, by the use of their own Free Will. This Cosmic Progress must and does at all times come through on Cosmic Schedule.

An individual in his upward progress without the Assistance of an Ascended Master, may poke along indefinitely not knowing that he may reach up and, through his "Mighty I AM Presence," contact those Great Ascended Masters who have won the Eternal Victory over the Earth and its activity.

One of the great Privileges and Provinces of the Ascended Host is to aid those who discover Their Presence, and the great masses of humanity who do not. But those who do not have the certain Knowledge of Their Presence, can only receive a fractional part of that which comes to those who do have certain Conscious Knowledge of Their Existence and Assistance to the Earth.

Again, let Me call the attention of the Students to the Truth that in looking to an Ascended Master for

Assistance, it is exactly the same as looking to your own "Mighty I AM Presence"—except that Those who have passed this way and attained full Victory and Mastery, have the Conscious Knowledge of that Victory with which to assist the one not yet Ascended.

The following is a point very little understood, which so often creates fear on the part of the Student concerning the Masters of Light: The Masters at no time intrude Themselves in any way upon the individual, but do respond in a wonderful manner when the attention of the Student is focused upon Them. Their entire Work with every individual, be he a conscious Student or not, is to help him *feel* a much quicker and more personal contact with his own "Mighty I AM Presence," his Divine Master.

When a Student is fortunate enough to have Conscious Knowledge of the Ascended Masters of Light and Wisdom, and works with Them in Conscious Cooperation, it enables him or her to easily accomplish in one, two, or three embodiments what might otherwise take twelve or more to attain. Then is it not worth all the conscious effort and determination it takes to hold fast to these Great Ones and Their Teaching, to keep from poking along and waiting for the Great Cosmic Activity to prod you along and propel you forward to the place where you should be?

There has been a great lull in the activity of occult students in the last forty years because many in the outer groups and some on the Inner did not receive the visible manifestation and expression they desired. The principle reason is because, as stated in *Unveiled Mysteries*, many activities of the old order of the occult world are being transcended, and that which is transcended becomes obsolete.

This may be a shock and cause a roar on the part of some occult students, so it is up to Me to catch the roar and consume it; but that does not alter the Truth. The Dispensation or cycle which required the secrecy of occultism is closing, and we no longer need that activity. There was so much fear within the old activity, and the progress of the age was such that it required the closest secrecy concerning certain phrases of the Law; and even then, there were those who would turn and misuse them.

In the use of the Rays of Light, you have the Power to reveal without the danger of misuse, because that which the Light and the Figure of the Christ show anyone, is for the Blessing and Service of Light and Love. The Light reveals only that for which the individual is ready; and any other idea concerning It is but the imagination of the outer activity of the mind and is not the Truth from the "Mighty I AM Presence." The Light only recognizes Perfection and

cares nothing about the outer, foolish activity. As the Students hold themselves more and more in the Activity of the "Mighty I AM Presence," they *must* express more and more of Its Perfection.

I would add that you consciously place within the Radiance of this Great Love Star, every discordant thing in your consciousness and world. Be conscious that every discordant activity–individual and otherwise–is caught within the embrace of this Mighty Radiance, until every discordant activity is erased and consumed. Every time the thought of such activity comes to your mind, know that it is consumed and that you do not have to repeat it. Give your attention and adoration to the Secret Love Star and the Ascended Masters, for you cannot help but get a response–always.

Often the feeling of a band or something tight around the forehead is a Cap of Crystal, Golden Light. It is placed upon the head of an individual to hold steady a certain activity of the Radiance from that one's own "Mighty I AM Presence." At a certain point in everyone's Expansion of the Light, this is always done.

BENEDICTION: "Mighty I AM Presence," Creator and Precipitator of all manifestation, We give praise and thanks that Thy Mighty Invincible Law is now in full and complete operation in the

consciousness of these, Thy Messengers, and that all feel the full import of this. Hold each in Thy Mighty Embrace until he or she experiences the full conscious use of Thy Love, Wisdom, and Power.

DISCOURSE XXVI

September 29, 1932

SAINT GERMAIN

INVOCATION: O Mighty Majestic "Presence"! Thou Mighty Active Principle of God, forever endeavoring to press forward into action, into expression! Thou Wondrous "Presence," Thou Eternal Light and Boundless Wisdom, We give praise and thanks that We now and forever firmly recognize Thy All-pervading Presence in Our minds, worlds, homes, and affairs. No matter what appears, let Us stand firm in the recognition of Thy Wondrous Presence.

I bring Greetings from the Great Host to you all.

THE DISCOURSE

At the Door of the Consciousness of every individual should be engraved forever the words, *"Be yourself."* I mean by that, dependent alone upon that Mighty "God Presence" in you. No matter how wonderful the experience that comes through another channel, train the outer self to look

to that Deeper and Truer Self from whom will come that Great and Deeper Expression, satisfying every demand. The disturbance in the outer self and world, in at least seventy-five percent of the cases, is due to consciously or unconsciously receiving and acting upon the suggestions of others.

If we observe and feel the "God Presence" within, impelling us to action, we can use suggestion many times to get advantage instead of being used by it. This reference is to the outer conditions as one moves about the world in his daily vocation. Of course, this does not apply to True Instruction; for Truth is not suggestion, and we are supposed to apply Truth conscientiously and sincerely.

No adverse conditions: Be it now and forever understood that to the Student or individual who has become aware of his Mighty "God Presence" within and enfolding him, there is no such thing as an adverse condition, no matter what the appearance seems to be. No matter what the appearance of anything seems to be, with the attention fixed upon this recognition, it is impossible for anything but good to come out of every condition. You can see at once how impossible it would be for God to make a condition that would affect Himself adversely. No Student can attain and maintain his or her freedom from limitation without recognizing and applying

this simple yet Mighty Truth.

It is so childish and foolish for one, in the recognition of this Mighty "Presence," to continue to give power and authority to outer things. After Students have entered the Conscious Path, they should understand that they must keep the conscious guard for their protection, their defense, their deliverance–and know positively that God in them is the one and only Directing Intelligence.

Unwelcome thoughts: It is useless for the sincere Student to say, think, or feel that he cannot govern his thought and feeling. I assure you that at first it does take determined watchfulness; but it must be done, and there is no getting away from it. If strangers began to open the door and pass through one's home unannounced and unwelcome, I am sure it would not be long until the individual locked the door and, if necessary, placed a notice outside that only those invited might enter, and none without being announced. The same principle can be applied in governing the mental world or world of thought. We can place the sign outside of the Magic Circle of our active Life, just as tangibly as we can place it on the outside of the door of our home.

The Student can say with full authority: *"God! My Mighty 'Presence,' surround me with Thy Mighty Magic Circle, that naught unlike Thee*

may find entrance at any time. See that this is sustained without a break anywhere; and with Thy Invincible Power and Wisdom, enable me to govern and qualify eternally all thought and outer action with Thy Full Dominion."

Warning—watch this: My Heart yearns for the Illumination of the Student who keeps voicing day after day, week after week: "How am I to govern my thought? Why don't these affairs come into shape as I want them to? Why doesn't everything change about as it should?" Dear Student, let Me say this: Because in the first place, you have built it, created it in your world. In the second place, every time you say "why," "when," "where," "how," or "what," you are giving power to the old outer momentum.

Stop! Look! Listen!: Use the motto that has come forth in your outer expression in the signs on your streets—"*Stop! Look! Listen!*"—every time you are tempted to make a negative statement, or admit things less than Perfection.

Saint Germain's Promise of Help: I tell you that everyone receiving these Instructions who will take their determined stand to govern their thought, feeling, and action, will be given boundless Help and Assistance. Of course, you will understand that thought, feeling, and action are but three expressions of the one force. Instead of allowing yourself to

lament over your seeming inability to master the outer, use that energy to conquer the condition by giving it the quality you need for the solution of your problem. Say: *"By the Power of God in me, I can acquire full mastery and do it now; and I positively refuse to give power to outside conditions, persons, places, things, or activities. I have learned to know that there is only God in my Life, my mind, my body, my home, my world, and my affairs."*

In your schoolwork as a child–and most people have had their difficulty with mathematics–when adding up a column of figures, if you did not give your full attention to it, your answer would undoubtedly be incorrect. If your answer was wrong about three times in succession, your attention would be called to the fact in unmistakable terms.

So it is necessary for you to take this same determined stand, no matter what the appearances seem to be. If necessary, silently shout to yourself within: *"I stand firm! There is only God in Action in everything with which I am concerned."* I am grateful indeed that some are understanding the great necessity for self-correction and are determined to succeed. All who do this will find themselves steadily forging ahead and, time after time, have proof of this Mighty Active "Presence." This will shortly give them all the faith and courage

in the world to place their feet on the neck of the outer self and hold it always subject and obedient to this Mighty Inner God Self.

Oh, Beloved Students, why waver and wobble around any longer? Brace up! Tighten your belt! Face and conquer this outer self *now*, and go forth in that blazing Light that will draw around you to the point where you will not have to be concerned about the outer activity, by the Law of your Inner Being. It draws to you all Harmonious Action, Love, Light, and Wisdom, which you will joyously send forth like a Mighty River of Light, pouring Its Presence and Radiance over those blessed ones who have not yet gained the Fullness of the Victory.

The quick Victory: The Student who wishes to gain a quick Victory over the outer must cease lamenting the outer conditions because, in doing this, he is unknowingly giving power to the outer appearance that is holding him in the very condition that he does not want or like. Again let Me remind you, give no power to anything but God in your mind, in your business, in your home, in your world!

I trust after this explanation, that no Student will be so unfaithful to his or her own "God Presence," as to fail to recognize Its Action in everything he or she desires. The Radiance of God be with you all and help you to do this.

Phagocytes: It will not be long until the Students of this Work will settle down to commanding the little workers in every part of the body, to enable them to do wonderful things in the body. It might be a very powerful expression to use: *"Mighty Master Self within! Command and direct the little inner workers of my mind and body, and see that they produce Perfection in every organ and part; and see that this constant, constructive process is sustained and maintained continuously."*

Renewal of the body: With this Understanding it should be very easy for each one to experience *complete renewal* of the body within a year. The fact is that there is no imperfection in any part or organ of the body, which you have not placed there through your thought. Therefore, you see how easy it is to stop that wrong thought-activity and change it into building the Perfection, instead of the imperfection.

Now here we come to a most vital point: the natural, inherent tendency within the Life Principle of the Individual is Perfection, therefore constructive. So when you turn your attention to the Constructive Principle, you return again to the building of that Perfection which you had left–and therefore have a hundred-to-one odds in your favor for Its accomplishment.

Resentment: Where there is resentment toward

a person, place, condition, or thing in the outer, you are but heaping fuel on the fire and binding it closer to you. The minute people resent, criticize, condemn, hate, or blame, they are creating with tremendous speed more of the same thing to chain them that much longer in the bedraggled garments of limitation.

Gossip—this is an urgent warning: I am going to say something to you, Dear Students, that to some may be shocking, but it must be said: Could individuals see how they clothe themselves when they wallow in vicious or unkind thought or gossip, they would scream for deliverance; for I assure you, I would not stain the Consciousness of your Great "God Presence" by attempting to voice such a description. If we really know that there is only God in Action in all our outer experience, we can readily see how perfectly ridiculous it is for anyone to permit the outer to lament about anything.

For the real Student: The blessed Student who sincerely wants to know the Truth, will face it—no matter what it is—buckle on his or her Armor of that Mighty "God Presence" within, and conquer it, no matter how fierce the battle. But if at all points he keeps himself reminded that there is only God in Action here all the time, he will find the otherwise great struggle diminished a thousandfold.

For yourselves and the Students who receive this Instruction: Everything is tending to draw the Power to the topmost Center, and a wise Statement is: *"God! the 'Mighty I AM Presence'! See that the energy in my body is perfectly balanced throughout my mind and body."*

"God! See that this person, place, or condition is harmonious in action here, right now!" "Arise and go to the Father," is marvelous for business conditions especially.

For a sense of tiredness: "I absorb the Mighty Presence and Energy of my God Self, and it expresses as alertness, joy, and abundant activity in my outer Life and affairs!" "God is my Energy, expressing in my outer activity right now!"

All supply: If there seems to be an absence of anything, God in you is the Creator and Supplier of it. Instantly give the Command that God does supply it abundantly right now.

Mrs. Ballard: "Just an idea that came to me, to say: 'This is God's Diamond Palace! Now you get back to your right place in the Universe and be quick about it.' "

To Donald: It is so important to watch your feelings. I had a Student once who had a similar condition, and I told him to say to everything, "God bless you." He had remarkable results; for the continued use of

this statement is a powerful force acting and builds a condition in which everything blesses you.

Warning: I tell you, you cannot imagine until you get the Freedom of the Inner Vision, what a few moments of inharmonious thought will draw you into, in an unexpected moment.

This is another reminder: Say to your outer self: *"You know the Law. This is the wrong thing to do. You must obey if you want me to help you."* Often, it takes just a little encouragement and Inner Radiation to give the Inner Strength to rise out of a thing. The difficulty with Students, as a rule, is that they do not grab a thing quickly enough; for the first and most important thing is to refuse it admittance.

Individuals are so prone to look at the outer things as so important and tangible, when the Inner things are far more tangible.

The Tangible Presence of the Ascended Masters: There has been a very sincere desire on the part of a number of Students, to experience Our Tangible Presence; but just because they do not see Us, is no reason they do not feel Our Tangible Presence. We are just as tangible as you are to each other, but the Students do not qualify the Idea of Us with that same tangibility. We are here, but it is your consciousness that has not yet opened the Door. When you enter the Conscious Path, you must have more Faith.

You must have Conscious Knowing, Conscious Qualifying–for you are the one at the helm.

Mastery–get this hint: When one feels the "Presence," if one would instantly qualify that feeling with the Idea of the Tangible, Visible "Presence," it might do wonders. No mastership is ever gained without this. There is a constant need of recognizing that each one is the person who is qualifying this Energy. *Mastery means continual Conscious Command of Perfection*. You must take the reins now. There is no reason in the world that you should not all have Perfection in your physical bodies–right now.

For any human being on Earth to think that God will intrude His Perfection when the individual is constantly generating and using negative and destructive forces, is perfectly preposterous.

Destructive force is a form of positive force, while negative force but opens the door to some other destructive force than what one has generated for oneself. The destructive force is intensely dynamic. Constructive force is always dynamic and is a thousand times more powerful, for that is its natural element and activity. (This is in regard to a picture flashed to Mr. Ballard's consciousness, in which he was shown an activity that had begun at that time.)

The destructive activity of thought: The Ascended Masters have never thought it wise to give forth too

much of what takes place through the destructive activity of thought; but I think you and your Students are strong enough to withstand it, and I will say this much: You have all seen the golden sparks in the air. In a fit of anger, resentment, or intense condemnation, the thought clothes that atomic structure about the individual, and nature propels it forth with great force–affecting persons who might unknowingly have their doors open, charging conditions and things to an extent of which they have little conception.

This force generated goes out; and while fragments of it may find lodgment, its accumulation–through momentum–returns and hovers within the etheric atmosphere of its creator. When the above condition is about an individual, is it any wonder that things go wrong with him? That is how some great wrong or crime committed in an environment registers there with great vividness, and is why sensitive individuals going into the place or environment often feel or see–or both–the condition left there.

Mrs. Ballard: "I saw Mr. Ballard on the sand at a distance; and after he had been standing still for some moments, he moved away a few steps and stooped down. The place where he had been standing was filled with a Bluish White Light, which

did not move over to where his physical body was until some few seconds later."

Saint Germain: The Etheric Body does not always move as quickly as the physical, especially when there is a relaxed, harmonious condition of the mind and a feeling of peace. In such cases, it is sometimes quite distinct from the physical.

Mrs. Ballard: "I saw a continual movement in the atmosphere as we looked over the lake."

Saint Germain: That was the Cosmic Etheric Activity.

The Love Star: You cannot give the attention to the Love Star or the Ascended Host without getting a Response. Devotion is a wonderful way to reach through, because devotion is a form of intensified love.

The Master Jesus and others of the Ascended Host: While Beloved Jesus and others of the Ascended Host will come forth in Active Service, I think it more powerful for the Students to understand that the coming forth of this Mighty Presence of the Christ, this time, is the Illumining of that "Presence" in the individual–because It is already there.

Poise: Poise is really rest. The feelings should always be held in poised restraint. One should watch oneself always for poise in speech, feelings, and action. We should all learn to move quickly,

without hurry or irritation; this is poise in action. All Students must acquire this at some time, for they become the embodiment of controlled force.

In all Students' lives, there come times when an occasion demands speedy action; and if one is acting with poise, the mind does not become confused. Then the Inner Direction can come forth with Its attendant ability to do whatever is required. In this way the feelings are kept quiet and the mind clear to receive its right Direction and carry it out.

This is why sensitive individuals naturally, in doing work in the outer where there is no noise or confusion about them, accomplish a great deal scarcely knowing that they are doing it. The vibratory action of noise strikes the mental atmosphere, creating disturbance; and unless the consciousness takes control of it, it causes a leak in the marvelous Stream of Energy flowing.

BENEDICTION: Mighty Presence of God! We give praise and thanks for Thy Gracious Outpouring today, for the Radiant Host that are giving of Their Life, Healing, Poise, Wisdom, and Power in great unending Streams to the sincere Students who are looking to the Light. We thank Thee.

DISCOURSE XXVII

ARCTURUS' SEMIANNUAL VISIT

July 4, 1933

SAINT GERMAIN

INVOCATION: Thou Infinite Presence of all Love, Power, and Freedom! We bow before Thy Great Majestic Throne. This symbolizes America's Freedom–the Freedom of all Children of the Earth in the Cosmic Radiation of the "Mighty I AM Presence," whose seed is being planted in the minds of mankind.

So shall all be raised into that Higher Consciousness of True Freedom, Unselfishness, Love, and Adoration to God for the Great Privilege of Life. As the True Understanding of Life means and is God in Action, so may all mankind feel the Sacred Privilege of the Use of Life, and conform to that Harmonious, Loving, Adoring Consciousness of their Source and of each other–thus enabling the True and Mighty God Power to reign in all Activity, as was intended in the beginning.

Thou Mighty Arcturus! We welcome Thee, that

Thy Wisdom through Thy Mighty Radiation shall bless mankind, enlighten and uplift them.

THE DISCOURSE

ARCTURUS

In this Activity that for some years has taken place for the Blessing of America, We from the Higher Vision see the mighty changes that are taking place. While it is as yet but partially manifest in the outer activity of mankind, yet from the Inner Standpoint there is the steady forward movement that means the certain release of sincere individuals from the binding power of limitation.

This day there has taken place the Activity of the Three Times Three, and of the Seven Times Seven. For seven weeks, Seven Cosmic Rays will govern, consciously directed by Seven Beings from out the Great Central Sun. These will be held at various Points of Focus in the United States to strengthen, to bless, and to adjust that activity of mankind which is necessary to their quickening and further progress. It is not only necessary, but it is commanded to be done.

Seven other Rays are focused–one in England, one in France, one in Germany, one in Italy, one in South America, one in Mexico, and another

in Alaska. It is hoped by this to bring about the necessary adjustment and harmonization in international activity. It is only now that those in authority in America are beginning to awaken to the fact that, heretofore, they were being made pawns of and moved about by a force they did not understand, and caused to do things that they would afterward regret. This is making possible Accomplishments which We scarcely hoped for as possible.

It has been most gratifying to Us to have been able to use the "Century of Progress" as a focal point where all nations of the Earth send their representatives. So, you will understand that the "Century of Progress" Activity was not just an idea in the outer mind of a few men, but holds a deep underlying Purpose that is being utilized to its utmost. Great Ones from Venus, through Their Balance of Love and Power, are giving Great Assistance.

Private: Thursday, July 3, 1933, at twelve midnight there began a great Gathering in the Retreat at the Royal Teton. Try to put your bodies to rest by eleven o'clock so that you may participate and witness the Use and Power of the All-Seeing Eye, which has been only put into operation once every hundred years. [Note: In the present cycle, the Outpouring of the All-Seeing Eye takes place every six months, in January and July.] This Retreat

is the only place where this particular Activity takes place for reasons that you will one day know and understand. Oh, that mankind might understand the importance of holding themselves within the Harmonious Activity of thought and feeling, knowing that only in this manner can the Fullness of God's Power act. This would hasten so much the things that are to be accomplished.

To Donald: My Son, as you appreciated the aerial navigation and activity yesterday, yet will you see such transcendent activity of that kind in the coming years that you can scarcely believe possible at this time. As the power of political selfishness is broken down, it will release into use improvements, inventions, and discoveries in all lines that will step up the progress of such industries from one to two and three hundred years.

The activity of the sinister force that spread its subtle suggestions among mankind, is fast being dissipated; and We trust another war that was being contemplated will be dissipated before it can find action in the outer world.

Never in the history of mankind has such power for good been placed in humanity's hands to use, as the Power from the "Mighty I AM Presence." While this Nucleus of the intense Activity and Idea of this "Presence" seems small indeed, yet is Its Radiance

spreading beyond your fondest human conception. The Students who with determination continue to hold fast to the "Presence" and to Its Use, shutting out from the human sense all human, self-created limitation, will come to know a Freedom–a Power to radiate and project that Freedom to bless all with Its Power, in such magnitude as the outer cannot yet possibly comprehend.

It is only because the Wheels of Cosmic Progress have reached a point of Universal Rhythm, that stupendous Activities for the benefit of mankind are possible.

Warning: The individuals who become channels for destructive expression are unfortunate indeed; for not only do they destroy themselves, but they deceive their followers, leading them into the quicksands of misconception. I want you to know that I congratulate Saint Germain on the Work that He has accomplished among these few Students, and upon the remarkable manner in which He has enabled them to become aware of and use the Energy of the "Mighty I AM Presence." He said it would be accomplished and He is proving it true. How the Students are blest who are receiving this Knowledge! I trust they may fully appreciate and comprehend It. How unfortunate are those who doubt Its reality or authenticity. More and more

necessary is it for you to draw the Seal of Harmony about yourselves and your home, so that the Loving Harmony keeps the channel clear.

Great changes are taking place within the currents of the waters of the Earth; and for the first time within the history of its creation it is possible to harmonize the Activity of the waters and the land. Each of these bodies gives forth a vibratory action as yet not understood, but which will ere long come to be known and utilized; and truly can it be said now, more than ever before, that all things are truly working together for good.

Thou Mighty Seven Cosmic Rays that are doing Thy Work within the Sphere of Earth! In Thy Radiance of Pure Love, fill all the Earth, its waters, its air, its ethers, consuming the mental creation of mankind which they have generated for so many centuries–yea, cycles of time–so that the humanity of Earth may find its outer mind freed from the impact of its own creation–so that they may turn and go forth in Adoration of their own Great Light, the "Mighty I AM Presence," and there receive into themselves Peace on Earth, Goodwill to man. With all the Love of My Being I send this forth, not only in this record but in the Singing Record of the Ethers, to reach the Heart of mankind and lift it in Harmony to its Source, that it may bless and be a Blessing.

I am very pleased to have been with you again and to see how it is possible for you to generate enough love and determination to stand against the impact of the outer world and voice the Truth that makes all free. You know you must acknowledge a thing before you can receive it. Put all doubts of the outer mind aside and whip the human into obedience, and you will see abundant progress.

The outer self of human beings is the most stubborn of creatures. The human creation, by its demand for attention to the outer mind and body, holds its control; and this stubbornness has to be broken up. Each has within his or her "I AM Presence," the Power to put down all human creation and compel it into obedience to the "I AM Presence."

I shall now turn the Ray over to your Beloved Master and shall be with you again the first of the year. My Radiation is a Balancing of the Heart and the Head, or Love and Power. It is quite similar to Chananda's. In regard to the Class, My Work is Cosmic while His is Individual . The time has arrived when the humanity of Earth must come to a greater sense of Balance between those two Activities. The intellect of mankind in official positions has run away more and more, shutting out the Feeling of the Heart that would enable them to consider It and

enable greater justice to be done. Chananda's Work with the Students in assisting to balance this Activity will enable them to become Invincible against the impact of the outer world. No words can possibly estimate the value of such an accomplishment.

SAINT GERMAIN

Question: "What relation do the constellations have to the Elohim?"

Saint Germain: A constellation is, of course, much less than the Power of the Elohim. It is, in other words, much stepped down from Their Activity. But an advanced, consciously operating Being or Individual from any one of the Spheres of Activity is consciously in contact with the Elohim.

The individuals or Students who will hold steadfast enough to the "I AM Presence," will find themselves able to go forth, observe these greater Inner Activities, and bring Them forth consciously into their use. When you see through the Activity of a thing, you then have a full comprehension of it.

The "I AM Presence" has the Fullness of all Activity within Its Consciousness; but in order to bring It forth, the individual must, in most cases, have some use of the Inner Vision to release the Fullness of Its Activity.

Use the "I AM" Statements of Jesus often: " 'I AM' the Open Door to all Revelation!" " 'I AM' the Resurrection and the Life!" So if "I AM" the Resurrection and the Life, what else is there to take place in your Life? If you can enter into this with steady, calm certainty, you will find definite changes taking place.

" 'I AM' the All-revealing Presence of the Great 'I AM'!"

" 'I AM' the Light that lighteth every room I go into!"

" 'I AM' the Discriminating Activity of the Great 'I AM Presence'!"

We have long since learned not to pay any attention to appearances, but to go into the Heart of things and there rest.

Use often:" 'I AM' the ever-present Healing Power consuming all things that tend toward discord!"

" 'I AM' the Invincible Presence and Protection about her or him, wherever the body is!"

I shall leave My Love and Blessing "sizzling" all about you.

The All-Seeing Eye Activity at the Retreat: It is a Tremendous combined Activity at the Retreat. You may know It is of very great importance because of the shorter length of time between the Outpourings.

BENEDICTION: Beloved Nada, Cha Ara, Chananda, Leto, and Cha Ara's Mother (Meta) send Their Love and Blessings to you and also to the Class.

DISCOURSE XXVIII

ARCTURUS' DISCOURSE
ON THE
MUSIC FESTIVAL AT SOLDIER FIELD

August 19, 1934

ARCTURUS

It is Saint Germain's request that I voice to you the Mighty Accomplishment at the Music Festival last night.

May I first refer to My own Humble Efforts in conjunction with those at the Royal Teton on New Year's Day two years ago. It was then decreed that the Century-of-Progress Exposition should be a Focus for a constructive activity, which should ever expand and increase in intensity during the next one hundred years. The opening and lighting of it was the Initiatory Step that is to usher in the beautiful, magnificent Golden Age which is signalized in that activity.

This has made Soldier Field sacred ground—a Sacred Altar of Divine Activity in the Western World; and so far as humanity at large is concerned, the hub of the whole of America.

A volume could be written on all that took place and that which led up to last evening; but owing to the human sense of time, this must be greatly condensed and but an outline given.

Before proceeding with this description, I wish to call your attention to the unparalleled number of pageants of all kinds, of many nationalities, that are being held in Soldier Field this summer. These cover the period from the Ascension of Jesus down to the present time. They give acknowledgment to the Ascension which is the most vital thing and the culmination of all human experience. These pageants from the human standpoint are a calling forth of the latent memory in humanity at large and are a raising of the Essence of that activity.

How easy it is for humanity to pass over transcendent activities because of their unbelief, their lack of acknowledgment or acceptance of the True Perfection of Life; for all Life in manifestation is *God in Action*. Unfortunately, however, it is more often colored by human concepts of limitation and destructive qualities, which–through the individual's power of Free Will–everyone is at liberty to do. This ere long, however, will be greatly remedied by the setting aside of the greater part of the human Free Will, as it is known today. This will enable much of humanity to be awakened and saved from

its own destruction.

Here may I say that the Students who think they can play with the Great Law, because of their unwillingness to give the necessary Self-discipline, will find themselves unfortunate indeed if they attempt it when once having entered upon the Conscious Path. The Great Law, which does not discriminate, takes individuals at their words and feelings. Those who think they can escape this are but deceiving themselves.

The coming pageant of the Celts is really of great importance, for it enters into the vibratory action from the time of Jesus up to the present.

The Inner Activity within and above Soldier Field last night, was one of the most Divine Activities since the advent of the Kumaras into the presence of the Earth. Circle upon circle rose above the surface of the Earth and those seated within the Field. The first circle was formed by the Members of the Great White Brotherhood in their Golden Robes, being those whose outer forms have not yet made the Ascension. Next came the Ascended Host of Masters who have made the Ascension. Then came the Angel Devas and seven of the Cherubim. The circle above Them contained four of the Gods of the Mountains, three of whom you know, the other you shall know. Around these were the Archangels

of whom the Archangel Michael was the Director.

Surrounding the Core of Light within the center of the Field, extending for two hundred feet within the Earth and to five thousand feet above, were Saint Germain, Jesus, the Tall Master from Venus, and the Great Divine Director. They were the Dispensers of the Mighty Currents of Energy sent to all parts of the Earth to do Their Work with no uncertainty.

During the singing of the "Holy City," the Divine Pattern of that which is to become the Holy City upon Earth was lowered into Its position, where It shall remain until It becomes a visible, vibrant City of Light to the westward. The exact position of this I may not disclose at the present time, but I assure you, It was a Mighty Activity which will become a Mighty Reality to the humanity of Earth.

During Mr. Thomas's solos, that great vibratory action was taken up and re-echoed by a great Majestic, Celestial Chorus, whose Radiance poured forth over America like a glistening Shower of Light to consume and bless. During the singing of the Hallelujah Chorus, the entire activity was turned over to the direct dispensation of Jesus Himself.

I wish to assure you that the set pieces in color were not just a human idea; but those responsible for their presence were inspired by the Ascended Masters, principally Saint Germain, in order to

establish their renewed, powerful activity which was intensified a thousandfold or more to again act within the Life, the Soul, the Light–from the Heart to the periphery of America and the World.

The representation of signing the Declaration of Independence was to bring before the conscious attention of the Earth and especially America, its unparalleled activity upon the Earth; and *to call it to the attention of the people of America, that they might hold close to and stand by the original Constitution of the United States, which was and is a Divine Creation,* until such time as the complete Ascended Master Constitution of the United States of America shall come forth, as the advance of the Golden Age proceeds.

The Golden Eagle and the Shield represent the Height of Divine Protection for America again reestablished. The Bell of Liberty in the Power color of blue represents the Glorious Liberty and Freedom forever for America and the Earth, from all human selfishness–the instigator of which in every case is private profit. The cause has been the same throughout the ages.

The four powerful Blue Rays that formed a canopy over the Field, thought to be ordinary by the mass of humanity, represented the Fourth Dimensional Activity brought into visibility upon

Earth; and *if it be necessary for the Protection of America, the jewel in the Heart of God, then that Blazing Light as of a Thousand Suns shall descend upon Earth and consume all human inharmony and selfishness from the Planet.*

The fan of Pink Light at the beginning was qualified to serve in the entire Activity; and the Great Love Star stood above all, shedding Its Rays through tier above tier of Great Beings.

I congratulate you and this Good Brother and those many Students of our Beloved Saint Germain; and I thank you all for your earnest, sincere Work on behalf of the Freedom of America. May the Activity of these beloved Students of Light ever continue to expand until from this Nucleus, the Light of Its Radiance covers America.

I also congratulate our Beloved Saint Germain for His great Accomplishment in establishing this Nucleus and Focus in America; and *for His wonderful Love, His Light, His Work for America for nearly two hundred years, which ere long will begin to bear fruit of such perfect kind as has not been heretofore in any civilization.*

I bow in acknowledgment of His great Love, Wisdom, and Strength. I congratulate you, My Beloved Sister and Brother, for your love, steadfastness, patience, and activity for the Students that have been

and those that are to follow. Ever know that " *'I AM' the only acting 'Presence,'* " and you will find that *all* activity will conform to the *Perfection of that "Presence."* I bid you adieu but not good-bye.

SAINT GERMAIN

Your attention last night was called to an Activity of the Great White Brotherhood in which the Eucharistic Congress was used as an example for that which may follow many times in the future. The representative of the Pope, Cardinal Bonzano of Rome, did make the Ascension from Soldier Field in 1926, in a way not heretofore described. However, it is hoped that this description may be given in the next year or possibly two years. Cardinal Bonzano was and had been for many years, the Representative of the Great White Brotherhood.

The Golden Light never affected anyone's brain except in a harmonious manner, and to illumine and perfect it. It is time to take the nonsense out of the human. There cannot be two masters. Always use the Golden Light on the brain; everybody's brain needs a "Light bath" every day. The average individual only uses about five percent of his or her brain. When you begin to call forth your Eternal Divine Memory, then the vastness of Infinity is in your grasp. If you want

Conscious Association with the Ascended Masters, this human has to obey. You have to clean house and not give it its own way under any circumstances. You have to flay it alive until it does only the Will of the "Mighty I AM Presence."

Treat the brain for the Eternal Divine Memory. If you forget something, it is because there is not enough Light in the brain. Treat the mind for clear, calm Ascended Master Comprehension. It is you who must take your mind in hand and tell it how to behave. If you will let it, it wastes tons of energy. Take your brain in hand and command it to be filled with My Ascended Master Consciousness, the Eternal Divine Memory of God.

One with God is the Law. Move forward and walk in It. You will have a tremendous sense of Freedom within yourself if you will do this: Take about ten minutes each day, sit down, and talk to your "Mighty I AM Presence" something like this: *" 'Mighty I AM Presence,' listen, You take out of me all criticism, condemning blame, resistance, judging, rebellion, jealousy, self-pity, pride, selfishness, doubt, and fear. Take them out of me and annihilate them, and put Saint Germain's Self-control and Dominion in their place."* Be as faithful as you can to the healing of the distress of the physical body, but remember to spend most of your time on healing the wounds of hate.

Seven of the Ascended Host, acting from the Violet Temple of Light, sent forth Its Mighty Rays, commanding Obedience to the Inner Activity of forces everywhere acting on the physical plane. Those who can joyously accept the Truth of this Great Activity will receive very great benefit.

All acceptance of the Mighty Truth by the Student must always be voluntary. The more intense the joyous reaching out for Light and Understanding, the more is It hastened into activity in the individual's Life and world. The more one accepts the Inner Truth as a Reality, the more that one can be used as a Mighty Messenger of the Light.

Much is to be given of this Inner Truth that will strain the credulity of even the most sincere Student, so that nothing but the Inner prompting of the individual's own God within will make it possible for him or her to accept it. Nothing will be given except verifiable Truth; yet there will be many who will think some things farfetched, but that is unfortunate for them. No longer in the Mighty Radiation of this Inner "Presence" is the growth of the individual to be considered, but the Radiation will pour forth, clothing humanity in Its Radiation and holding even those without conscious understanding in Its close Embrace.

When you command as the Christ, you cause

the Inner Activity to take place which shuts out the outer. As you continue to fill your mind and body full of God, you are building an Invincible Armor.

The Radiation from the blue costumes at the Music Festival was very powerful because the Blue Ray was used intensely. The Blue Ray is always used to disintegrate the coarser or lower human element.

Lanto is always in charge of the Retreat at the Royal Teton. You will find during the next seven years specific Activity among the Ascended Masters. Those having Special Qualities will be called upon for specific Activity because of Their own Natural Quality.

Notes to the Students by Mrs. Ballard: "Say: ' "Mighty I AM Presence," take me to one of the Great Music Temples! Let me hear the Music of the Spheres and see that I record It and bring It back in the morning.' "

Mr. Ballard: "There is only one thing to be concerned about–know the 'I AM' is so marvelous that only Its Perfection can express. With all the Love of the Great 'Presence' I say: 'Bless these loved ones that they may be enabled to make within their own mental and feeling world, that condition which is required that will give them, if only once, a manifestation that will forever satisfy them fully.'

"I want to say a word right here. I want to

tell you, if you knew the nights that child [Mrs. Ballard] has stayed up all night long, working for these Students, pouring out the love of her being to you–when she talks about Discipline it is for us to get up and on the job. Saint Germain has put her through a Discipline that many of you would not be able to endure."

Mrs. Ballard: "Don't let your mind ever again tell you about anything but the Freedom and Perfection of the 'Mighty I AM Presence.' In your Hearts you do desire to be free. This outer self stands in the way until we whip it into shape. Anyone under Saint Germain's Radiation can succeed in anything he or she desires."

BENEDICTION: Out of the Glory of Thy Wondrous Presence, O "Mighty I AM," We feel, We know the Glory of Thy Radiance, Perfection, Health, Joy, Happiness, Courage, and Confidence filling the mind and body of each one of these Beloved Students, filling it so full of Thy Mighty Perfection that there isn't room for a single thing except Thee, and that Thy Marvelous Activity is Eternally Sustained. By the Action of the "Mighty I AM Presence," so fix the Courage, the Confidence, and the Power of the Ascension within the consciousness, that it lifts the consciousness above the binding effect of human things and sets all free in the Full Activity of the "Mighty

I AM Presence" in whatever they are doing.

Oh, "Mighty Presence," how deep Our gratitude that Thou art the only "Presence" and Intelligence acting. Teach each one of the Students to maintain that Love and Peace and Harmony within their consciousness, because only in that can Thy Perfection come forth. Teach the outer to become calm, at peace, and poised in its activity, for all Eternity is before Us. Let Us be grateful and satisfied, and let Us be patient until the Fullness of that "Mighty I AM" is manifest.

Glorify these beloved ones, O Great Ascended Masters of Light, Love, and Wisdom! Glorify them! Enfold them in Thy Wondrous Mantle of Peace, Love, and Light. Clothe them with Thy Mantle. Protect and hold them so close within Thy Embrace, that no human thought enters to mar the Beauty, the Perfection of Thy Wondrous Radiance which Thou art. Glorify each one in that Light, expanding and filling the body with Its Pure, Mighty Energy, Courage, Confidence, and Perfection. Glorify each one with that Perfection which transcends all human concepts, and sets each one free in Beauty, Perfection, and Service of the Light.

"I AM" ACTIVITY
OF
SAINT GERMAIN FOUNDATION

The "I AM" Religious Activity represents the Original, Permanent, and Highest Source of the Ascended Masters' Instruction on the Great Laws of Life, as first offered to the western world by the Ascended Master Saint Germain, through His Accredited Messengers, Mr. and Mrs. Guy W. Ballard.

In the early 1930s the Ballards established Saint Germain Foundation and Saint Germain Press, Inc. which under Saint Germain's Guidance, have expanded into worldwide organizations that offer to mankind the true Ascended Master Teachings on the Great Cosmic Word, "I AM"! Saint Germain Foundation strives to keep the "I AM" Ascended Master Instruction in Its pure, unadulterated form, free from any human interpretation, personal monetary gain, or proselytizing, as It is a Gift from the Great Ascended Masters and Cosmic Beings to bring Illumination and Perfection to mankind.

Hundreds of "I AM" Temples and Sanctuaries exist throughout the world, where the Teachings are applied in "I AM" Decree Groups. The Books of the Saint Germain Series are available in many libraries, bookstores, or directly from Saint Germain Press (address below). For further information, please contact:

DEDICATION

This series of Books is dedicated in Eternal Love and Gratitude to our Beloved Ascended Masters, Saint Germain, Jesus, Nada, the Great Divine Director, and also to the Great White Brotherhood, the Brotherhood at the Royal Teton, the Brotherhood of Mount Shasta, the Great Ones from Venus, and those other Ascended Masters whose loving help has been direct and without limit.

FOREWORD

At the request of many Students, this Book of *"'I AM' Adorations and Affirmations"* is given to the public. They are sent out with the Decree that: "All who read or use these Commands shall be held, by the Love of the 'Mighty I AM Presence,' in constant conscious communion with that Master Presence of Light within themselves."

Every time the Great Creative Word, "I AM"! is read, thought or spoken, the feeling released should be that of an exclamation because "I AM"! is the Life from the Great Central Sun announcing Its Presence through the individual who thinks, speaks or feels that Great Eternal Fiat of Life's existence. Therefore, always release that strong powerful feeling whenever you use the Great Creative Word, "I AM."

In this way, the limitless Energy of Life releases through you to fulfill your Call for assistance and Perfection.

If the Student will read these Decrees slowly and with deep, deep feeling in each word as you come

to it, you will have Instantaneous Manifestations when you can feel the meaning in each Word deeply enough.

The word "human," throughout this Series of Books, is always used to mean discordant. When the word "annihilate" is used, it always means the annihilation of discord or imperfection, for no one can annihilate God, Good, Who is Life; and the annihilation of discord can only bring Happiness and Perfection as a result to all.

This Book is charged with and carries to Its readers the Rays of Light and Love from the Ascended Masters, Saint Germain, Jesus, Nada, the Great Divine Director, and the other Ascended Masters who are pouring Their Radiance through this Activity, to which Godfré Ray King, Lotus Ray King and Donald Ray King add their Triple Activity of Light and Love from the "Mighty I AM Presence" for the Illumination, Freedom, Mastery and Perfection of all who read or contact It, for America and the world.

PART I

"I AM" ACKNOWLEDGMENT

The "Mighty I AM Presence" is within this Book! Let all of Earth keep silent before It and be at Peace, in humble, grateful, loving, adoring Obedience unto that blazing Light, our Supreme Source.

Keep us, O "Mighty I AM Presence," humble before Thee, positive to the world, and forever in the Service of the Ascended Host of Light.

All "I AM," or have, or ever hope to be or have is Thine, O "Mighty I AM Presence"! Come forth, in the Fullness of Thy Power! Control and hold Dominion in this body, brain, mind and will! Pour forth Thy Full Glory on Earth, as Thou art in Heaven! Do Thou so illumine me by Thy Light that there is none of me but all of Thee.

There is a "Presence" in man, and the Light from that Presence is his Understanding. That "Presence," that Light, and that Understanding is "I AM"; and "I AM" That "I AM"!

I call unto Thee, O "Mighty I AM Presence," Thou Great Central Sun, Thou Heart of Infinity! Pour forth Thy Mighty Flame of Divine Love throughout humanity and the Earth! Set the feet of mankind once again securely upon the Pathway of Light, and anchor their attention forever upon Thee, the Great Love Star in the Heart of each one! Lift their Hearts unto the Heights whence cometh all Help, and bring them back into the Happiness, Freedom and Perfection which is their birthright.

The "Mighty I AM Presence" is within this Holy Temple; let all of Earth keep silent before that Blazing Glory, and be at peace! in humble, grateful, loving, adoring obedience unto that Supreme Source.

A crown made of Sun Rays,
A cloak of God's Might.
I carry a Scepter,
My Focus of Power;
I pour forth the Pure Christ
Each moment, each hour.

Note: We offer the following poem in Love and Adoration to our Beloved Ascended Master Saint Germain, for whom we call forth the Infinite Eternal Light and Love from the "Mighty I AM Presence," to bless Him with Its Mightiest Eternal Victory for the wonderful Gift of Himself to the Children of Light, that they, too, may manifest the same Perfection and Freedom which He is.

THE ASCENDED MASTER, SAINT GERMAIN

O Blest Saint Germain, Dear,
Thou Holy Great One,
We love Thee and bless Thee,
Thou God from the Sun.

We feel Thee and see Thee,
The Work Thou hast done,
For the Cup Thou dost carry
O'erflows from the "ONE."

We praise Thee and greet Thee,
Thou Great Lord of Light,
And raise now the Scepter
To Thy glorious Height.

We wield all Love's Power,
Love's Wisdom and Might;
Blaze through us forever
Thy Flame, Dazzling Bright.

Let all my Love flow back to Thee,
Thou Holy, Great God Flame of me!
Expand Thy Light and set me Free,
Let me Thyself forever *Be!*

Thou Adorable Supreme "I AM"! expand, expand, and again expand Thy Light in Eternal Glory through me.

"Beloved I AM Presence"! I offer my service to Thee in the capacity for which I am best fitted.

O "Mighty I AM Presence"! I love Thee, I bless Thee for the joy of Thy Glorious Light that lifts me beyond my outer self.

You have the Opulence of the Universe to draw from!

Light's Greeting first came,
The Voice of God's Presence,

'Tis a wave on the ocean of human emotion,
It's nothing, it's nothing at all;
It comes like a flicker
And goes away quicker
When I on my God-Self do call.
It is only a cloud
But I say aloud,
"I AM" the Sun! Don't you see?
I blaze the Light!
You fade from sight!
And all things now obey me.
(*Or:* The Light yields all things to me.)

People are bound because they bind others.

THE ASCENDED HOSTS' DECREE FOR AMERICA

In the Name and by the Power of the Ascended Hosts and the Ascended Master Saint Germain, I voice Their Decree for the Blessing and Protection of our Beloved America. America has been brought into being by the Ascended Hosts, as a Radiating Center to all the world for "the Light of God That Never Fails," in the age which has now begun.

Unto this end, there has been brought into existence a Sacred Document, upon which the Government of the United States of America has been founded. This is the Sacred Constitution of the United States of America. Therefore, it is the Decree of the Ascended Host that every official in our Government shall uphold and defend the Constitution of the United States of America unto the best of his ability, "So help him God."

Thus America shall go forward unto greater Glory than has ever been known on Earth. The Ascended Host, who are All-Powerful throughout the Universe, have decreed, "America shall remain at peace with the world." To those who have sought to draw America into the destruction unto which the rest of the nations of the Earth seem determined to open

themselves, the Ascended Hosts have issued the All-Powerful Command that "America and Her people, those Beloved Children of God who have sought the Light, shall be protected; and that glory which they have earned shall go forth into manifestation."

Thus speaketh the Ascended Hosts unto the children of Earth! Their Decree goes forth unchallenged into manifestation from now on, henceforth and forevermore. In Their Name I have spoken!

"I AM" DECREES

BY
CHANERA

SAINT GERMAIN PRESS

THE ASCENDED MASTER INSTRUCTION

The "Mighty I AM Presence" is the Law of Life, and Its application by the individual is his Eternal Freedom, Victory, and Mastery over all outer activities of the world.

"I AM" is the Great Creative Word by which form and activity come into outer expression through the individual.

This Ascended Master Instruction is educational rather than religious and teaches the individual the Ascended Master Control of energy and vibration through his own Call to the "Mighty I AM Presence."

An "I AM" Decree is an Acknowledgment of your Divine Authority to command substance and energy to produce Perfection for you, and is Mastery expressed by the Power of Divine Love!

Prayer carries a feeling of lack and is the asking, beseeching consciousness.

The Ascended Masters have said that until mankind makes the Call, the Great Law cannot act, because the Call from the Heart of humanity through the individual is the open door through which the answer must come.

The Law of the Ascended Masters' Octave of Life will not permit Them to intrude into the physical activity of mankind unless invited to do so by the individual.

We ask everyone to do this for the protection of America now, and the Victory of "The Light of God That Never Fails."

They stand ready to give Assistance without limit, but mankind must raise itself by the release of its own Life Energy from within its own Heart. This expands the Light and Love of Life and is obedience to the Great Law of the Universe.

Chanera

TO THE READER AND STUDENT

The word "human" in all this Ascended Master Instruction is always used to mean discordant, as distinguished from the Perfection of Divinity. The words "blast" and "annihilate" are never applied to physical bodies.

We want everyone to know that the Ascended Masters never use a destructive force! The "Mighty I AM Presence" never uses a destructive force! We never use a destructive force!

The Action of the Law, when we call the "Mighty I AM Presence" or Ascended Masters to correct any condition that is inharmonious or vicious, is that They project the Sacred Flame of Divine Love into the person, place, condition or thing! This is the highest rate of vibration in the Universe, because It is the most Powerful Use of the Electronic Force of Light.

As It passes through whatever is to be perfected, It simply purifies all by increasing the rate of vibration to the point where no discord can any longer exist, because It draws all Electronic Force into Itself. It being All-Powerful and All Perfection, all rates of vibration less than Itself are annihilated or blasted from existence.

In all this Work, the Student always calls the "Mighty I AM Presence"–which is God in Action–and the Ascended Masters to do whatever is necessary to produce Perfection; for we tell everyone, and all should know that God, the "Mighty I AM Presence," is the *only Doer* of anything that is good–the *only Giver* of anything that is good.

Any other interpretation of this Activity is vicious, willful misrepresentation, and has no power by which to longer exist.

We say to all who read this Book: It does not matter whether you understand this Ascended Master Instruction fully or not. If you will give forth the Decrees in this Book with firm determination and keep your feelings happy and harmonious, with regular use of these Decrees three times a day, you will have all the proof you need to know that this Mighty Instruction of the "I AM" is the Law of Life, and your application of It is your Eternal Freedom.

Through the issuing of these Decrees, everyone within the borders of the United States of America can give Limitless Assistance for Her protection from destructive activities and help call forth the Perfection which She shall express. We ask every human being within Her borders to give this assistance–and give it *now*–for the "Mighty I AM Presence" and the Ascended Masters say forever to all mankind:

"Call unto Me and I will answer you! Decree a thing and it shall be established unto you! Concerning the Works of My Hands, command ye Me! Prove Me now, if I will not open the Windows of Heaven and pour you out a Blessing until there is not room to receive It!"

These Words have been spoken to mankind for millions of years, because they are the *Eternal Law of the "Mighty I AM Presence"—the Law of Life!*

If the owner of any constructive line of business would call his employees together for five minutes morning and evening, all keeping their feelings happy and harmonious; and give these Decrees for the Protection of America and the Perfection of all business conditions, wonders unbelievable would take place for all concerned!

"I AM" ACTIVITY
OF
SAINT GERMAIN FOUNDATION

The "I AM" Activity represents the Original, Permanent, and Highest Source of the Ascended Masters' Instruction on the Great Laws of Life, as first offered to the western world by the Ascended Master Saint Germain, through His Accredited Messengers, Mr. and Mrs. Guy W. Ballard.

In the early 1930s the Ballards established Saint Germain Foundation and Saint Germain Press, Inc. which under Saint Germain's Guidance, have expanded into worldwide organizations that offer to mankind the true Ascended Master Teachings on the Great Cosmic Word, "I AM"! Saint Germain Foundation strives to keep the "I AM" Ascended Master Instruction in Its pure, unadulterated form, free from any human interpretation, personal monetary gain, or proselytizing, as It is a Gift from the Great Ascended Masters and Cosmic Beings to bring Illumination and Perfection to mankind.

Hundreds of "I AM" Temples and Sanctuaries exist throughout the world, where the Teachings are applied in "I AM" Decree Groups. The Books of the Saint Germain Series are available in many libraries, bookstores, or directly from Saint Germain Press (address below). For further information, please contact:

DEDICATION

HIS series of Books is dedicated in deepest Eternal Love and Gratitude to our Beloved Ascended Masters, Saint Germain, Jesus, Nada, the Great Divine Director, the Great White Brotherhood, the Brotherhood of the Royal Teton, the Brotherhood of Mount Shasta, the Great Ones from Venus, and those other Ascended Masters whose loving Help has been direct and without limit.

TRIBUTE

IN THIS hour of world crisis, the Great Ascended Masters are giving every Assistance possible to the "I AM" Students and all who sincerely seek the Light throughout America and the world. This takes place through Their Projection of Light Rays which are an Outpouring of Light-Substance from the Ascended Masters' Octave of Life.

The various Ascended Masters who dictated these Discourses have each one given Their own Radiance in and through the Words themselves. It does not matter who doubts this Great Truth, Law, and Activity; the Great Ascended Masters and these Dictations are the Mightiest Law, Reality, and Blessing that have ever come to mankind in hundreds of years. They come as a glad free Gift of Love and contain only Perfection for all. They radiate the Feeling to the Student and reader that he too may become Master of himself and his world and rise into the Full Freedom and Victory of the Ascension.

Each Book is sent forth as a Blazing Golden Sun, charged with the Ascended Masters' Consciousness, Substance, Love, Light, Wisdom, and Perfection–

with the Power of a Thousand Suns–to illumine, set free, protect, supply, bless, and produce Perfection for all who read or contact them.

Through these Books all shall feel the Mighty Truth and Activity of these Great Ones, to the fullness of the Freedom and the Ascension of all mankind.

GODFRÉ RAY KING

FOREWORD

THIS Book is given to the "I AM" Students and readers to help them feel the Closeness and Reality of the Blessed Ascended Masters. Through this feeling these Great Ones will be able to pour forth a Mighty Radiance of Light and Love from Their Octave of Life. In this way Ascended Master Assistance can be given to all who will feel the Reality of these Mighty Beings deeply; for that feeling will enable the Student or reader to reach up and make conscious effort and Application for his own Eternal Freedom–the Ascension.

The Discourses contained herein were dictated in Words of Living Light to me before thousands of "I AM" Students, who felt the Closeness and Reality of the Ascended Masters unmistakably–in their own physical bodies and the atmosphere of the room. They are given to the public in the same phraseology as the Students heard them, for they were conversations to help the Students solve their problems and gain Self-control in their efforts toward Mastery. These Marvelous Discourses will convey the same feeling and activity to all who read them, if the reader will place himself in the position of the Students and feel the Masters are speaking

to him direct, because all mankind's problems are similar and all need the same explanation to give them Mastery over themselves, which means obedience of their human feelings and attention to the Great Law of Life–the "Mighty I AM Presence."

Each Book is charged with the Light, Love, Substance, Energy, and Vibration from the Ascended Masters' own Octave of Life and from Their Ascended Bodies, to step up the vibratory action of those who read or contact them, and through that, to release Ascended Master Qualities into all the physical experiences of the individual.

The action of this is the same as that of our physical Sun upon the plant life of our world. By Radiation from above, the fullness of the Divine Plan is expanded into the physical manifestation of this world, and the individual himself becomes an Ascended Master through obedience to the Law of Life, the "Mighty I AM Presence."

SAINT GERMAIN'S DISCOURSE

SHRINE AUDITORIUM CLASS – LOS ANGELES, CALIFORNIA
January 1, 1937

BELOVED Ones, there are a few announcements I wish to make before I begin My talk to you. It seems pitiful that We should again have to mention this: one whom We have trusted is being tempted to go forth saying he is receiving the Light and Sound Ray from Jesus, when he is not. Unless this thing ceases among the Students, it will be Our unhappy duty to report him by name. Now let this cease forever. When such a thing comes forth, it will be unmistakable and We will know it.

As long as these Beloved Messengers go forth in this Work, We shall not project any Tangible, Visible Tube of Light to anyone–and all the Ascended Masters are One. This Work must be kept clean and pure, and We shall see that It is.

During this Class, I have not had an opportunity

to announce My Request to the Messengers, but they will have a month free for broadcasting, if they so wish. Then there will be a Class in San Francisco and in Dallas, Texas. The announcement of the dates will be made as soon as the Messengers have time to make the arrangements.

I want you Precious Children of the Light, if you will, to realize that We are Real, Tangible Beings. We know everything that is going on in your mind, motive, and intent; and We are standing guard over this Work, make no mistake about it! You might deceive the Messengers, but you will never deceive Us, not one.

I tell you, Dear Hearts, with such a Transcendent Privilege before you, how can anyone allow the claw of the sinister force to seize upon him and make him attempt to do unkind and mistaken things? Now, Beloved Ones, stand guard over yourselves and your worlds, with all the Power of your "Mighty I AM Presence." I tell you, when Students or other individuals become so unenlightened that they can criticize our Beloved Messengers, they are making a great mistake.

I tell you, Beloved Ones, Law is Law, and We know the Law in spite of any human opinion to the contrary! If you will not believe the Law after all the Infinite Proof which stands before you, then We can not help you; but remember there is no human

being so important in this World that there are not plenty ready to take his place.

You must understand that I am speaking with all the Love of My Being in sending forth these Words, but I am firm and determined. Our Beloved Messengers, the beloved Sindelars, and the beloved Rogers have battled down walls of human creation. They are not going to have to do it any longer. If there are any battles on, We will take a hand. Now Dear Ones, this is in all kindness; do not go out and accuse Me of being a fighting Ascended Master, but I mean business! These Beloved Messengers, without a word of complaining, have battled down human walls that have been set up against them. They have won their Eternal Victory. I bless them forever for the strength and courage which I said was in them in the beginning, and it has been proved true.

Therefore, Dear Hearts, I speak in this manner to you in the beginning of this New Year, that you may have the full power and conviction of My Words active within you, which stand guard with you and for you and your Eternal Protection.

Those who will not control themselves and shut out the human discord, criticism, condemnation, jealousy, or whatever the activity may be, cannot have Our Help, I tell you. We have pled and pled and pled with the Students all over America and said that self-control was the important thing to be maintained for their

Freedom. Dear Beloved, Precious Ones, if you will not listen to Us who know the Law–having gone the way, every step of it you have to go, and in far more severe conditions than you have today–then We cannot help you.

This Work will go on–do not worry about that! But if you will allow Us, We want to protect you, We want to help you; but We cannot help you if you are going to continue in this kind of thing. When the Beloved Messengers leave the cities in some places and I see disturbance comes in, how can the beloved Students permit it? One human being wants to govern another and set up laws–when the Laws are in the Books! The Group Outline, the Divine Director has sanctioned and asked to be used. Some unhappy individuals have accused Mr. Rogers of having brought out that Group Leaders' regulation. Every word of it is from the Books or Magazines. He simply brought it together, and it was blessed and sanctioned by the Divine Director.

Beloved Ones who are visiting Students and Group Leaders from the different parts of the United States, please carry this word from Me: Any Group Leader who does not wish to follow that Outline, please do not be a Group Leader! We wish to bring a regulated activity which will be a Mighty Focus throughout the United States, for the Freedom and Blessing of mankind and for its protection. If We cannot be obeyed when

We know and, through the kindness of the Law, bring before you that which will enable you to be free, then again We cannot help you. It is so imperative at this time! Tremendous protection has been given the coast of America. Do you want to undo this, Beloved Students everywhere, and let this cataclysm come forth and destroy you all, just because you will not control your human impulses?

Precious Ones everywhere, awaken! Oh, awaken to the importance of this! You have become one with this Mighty Stream of Light. Why will you not protect It instead of criticizing It? I am not speaking to the precious ones who have not criticized, you know that; but I am speaking everywhere to those in the mental and feeling world who have done this.

Precious Ones, let us come in as one Great Pillar of Light in the future, and make this year one of the most magnificent in the Victory of the "Mighty I AM Presence" which has ever been known in the history of the World. It can be and it will be done! Will you join It or step aside?

Oh, that you could for one moment know the Great Love that We have poured forth to you–the whole entire Group of Ascended Masters. The Messengers have poured out Love and called It forth from the "Mighty I AM Presence" without limit. You have poured forth so great a Love. I am speaking to a few who have been critical: oh,

Beloved, Precious Ones, take command of the human self and silence its activity forever. It is only yourselves whom you injure, Precious Ones. After all that has been said by the Messengers, how can you fail to comprehend that every discordant thing you send out is but injuring yourselves? You cannot harm this Work nor the Messengers; but you do harm yourselves, sometimes irreparably.

Our Love is so great for you, and I say again as I did in the East, I have the confidence that My Love is great enough to redeem everyone. One day when they see the missed opportunity, the Hearts of those who have temporarily stepped aside will cry out for the Radiance which they have left.

Precious Ones, oh, that you could understand and feel the great, great Love which enfolds you. Our Beloved Nada during this Class has performed one of the most Transcendent Services for every one of you, enfolding you in Her Infinite Substance of Divine Love. Our Precious Nada–there has been very little said about Her, but I am going to say something tonight which you will never forget: In civilization after civilization She has been the Inspiration and the Power to lift them to the height! Such is the privilege you have in receiving the Radiance of Our Beloved Nada, who made the Ascension before Jesus.

Do you still feel, oh, My Precious Ones, that

these Great Beings are just an imagination of the Messengers? Is it possible that such still can be the case? I trust not. The Service rendered to humanity is inconceivable to one in the limitations of the flesh. Still, you Blessed, Precious Ones who have been drawn under this Radiance by My Humble Efforts, have serving you these Marvelous Beings, Transcendent beyond all concept of the average individual. Oh, every Precious One, awaken and let your Heart release Its Feeling and Understanding of these Mighty Truths for you!

Now then, We shall pass this matter by, and in behalf of Jesus, Beloved Nada, and the Beloved Divine Director, I extend Their and My Gratitude, Thanks, and Congratulations to the beloved Students, to the many who were able to reach the Royal Teton last night. Ten thousand two hundred and twenty-seven were there last evening. It was a wonderful thing, and a Service was rendered heretofore unknown in the history of the Earth. This Service will continue for the first seven days of the New Year from all of the Retreats: the one north of Suva; the one in Arabia; Chananda's Home–the Cave of Light in India; the Cave of Symbols; the Royal Teton, and the various Temples of Light.

As the Beloved Messenger Mrs. Ballard has said, the Earth is being drenched by these Great Rays of Light and Energy. Every Effort is being made to give

Protection, Blessing, and Freedom to the Earth. Why? My Precious Ones, because of your great love poured forth and that of the Students throughout the United States. This Call has enabled things to be done which were impossible without it. Make no mistake about it–your eastern coast and your California coast would have disappeared if this had not been done. Now let the arrogance of the human mind deny that, if it will!

Dear Ones, how willing the human is to have opinions; but remember those never change the Law of Life. I will later give the Messengers the full detail of the marvelous Activity at the Royal Teton last night, so you all may have it.

Within you, oh, Beloved Ones, has been a transcendent activity during the past year–one which should be infinitely encouraging to all of you, and I am sure it is. Oh, the great volume of your love that has poured forth! How We rejoiced and endeavored in Our humble way to convey back to you Our Love, Strength, and Courage.

Beloved Ones, your "Mighty I AM Presence" is your Infinite health, your Infinite strength, your Infinite peace, happiness, and courage, just waiting for you to be harmonious enough so Its Great, Its Mighty Energy can pour forth unqualified by any discordant feeling. Do not expect the Energy from the Great "Presence" to give you relief if you refuse to harmonize yourself enough to stop qualifying

that wonderful Energy as you call it forth. Do you not see, Precious Ones, how simple it is and yet so majestic in its action?

Many, many call forth this Mighty Energy with great earnestness and in an unguarded moment requalify it, then wonder why they are distressed. Oh, Precious Ones, will you for your own sake, every time something discordant occurs, stop! still yourselves! and say: "Now what did I do which caused that? 'Mighty I AM Presence,' take it out of me! Annihilate the cause and effect of whatever did it! If it is some past accumulation, 'Mighty I AM Presence,' keep me reminded to call You into action to use the Violet Consuming Flame to consume everything of the past, so something destructive cannot rush forth into outer activity." It is because you do not do this, that you get into difficulty.

I want to call your attention to another activity also: Dear Ones, sometimes part of a family accepts this Great and Wonderful Knowledge and some of them do not. Sometimes their criticism and disturbance brings them into disaster. Oh, it seems so strange that all will not see the Great Law which is acting all the time within you, Dear Hearts. Do you not see that you become the Great Law of your world through your visualization, your feeling, and your qualification? This Mighty Stream of Energy from your "Presence" is constantly

flowing through you, filled with Love, Kindness, and Perfection; and you still keep requalifying It with discordant feelings–compelling It to take on the wrong qualities. Then that discord spreads into your world. It cannot help it! It is not the fault of your "Presence," but your uncontrolled human keeps doing that and keeps you in distress.

Tonight while I am talking to you in this Heart-to-Heart manner, a Great Work is going on. We try to help by strengthening you all with that which you require to become master of your feeling, to enable you to govern it, to cause it to come into harmonious obedience to the Great "Presence." Its Great Stream of Energy is intensifying each day, pouring forth through you, trying to bless and carry Perfection into your world.

Oh, My Loved Ones, try now to feel this so earnestly, so vividly active within you that never again will anyone be tempted to feel unkind or give expression to discord. You could be so quickly free if you would only do this. We cannot compel you, Precious Ones; but We plead and plead with such earnestness for you to understand so you do call the "Presence" into action to govern it.

Oh, We love you so greatly. We know what your struggles are, even better than you do, because We have gone through all of them. In My early experience you might be interested to know, Precious Ones, that

sometimes things were so terrifying, My hair fairly stood on end, in the experiences I had to go through to gain the Victory!

Today you have the Infinite Assistance of the Cosmic Law and the Great Ascended Ones, which We did not have in Our day of Victory. I call this to your attention for your strength and courage, that you may rise in the Strength of your "Mighty I AM Presence" and win your Victory quickly. It is so easy now, and the Love is so great which is being poured out to you from everywhere–not only the Great Love of the Messengers, but from the Students everywhere as these Classes are held all over the United States. Their great Love is pouring out to you from their "Mighty I AM Presence" like a mighty river, and the numerous telegrams are proof of it. Individuals would not go to the expense of sending telegrams if they were not sincere in their feelings. So, Dear Ones, please awaken! Realize that such is the opportunity before you, for your great Freedom, Glory, Attainment, Victory, and Ascension.

Today, when the Beloved Master Jesus spoke to you, what do you think was going on? The Call had been made by all of you here, that His Ascended Master Consciousness of the Ascension be anchored within your feeling world–and It was this afternoon! Do you not see how, Precious Ones, your Calls are constantly being answered?

In the fullness of this Great Light, the Infinite "Mighty I AM Presence," We call It forth to clothe you in Its Invincible Protection, in Its All-powerful Self-control, in Its All-powerful Joy and Happiness to enfold you this hour—that you may carry it throughout the New Year unto your Victory and even the Ascension.

May I remind you again that when you call forth your "Presence," anything—even the Ascension—is possible for you to attain. Who shall say in the outer world what is the Power of your "Presence" to act in a given moment, when your human has receded enough? This is the Truth which is before you. You have made earnest Calls for many months. Do you think that can go on without having gained a powerful momentum? Then today who shall say—I repeat it again—what your "Presence" can do for you on a moment's notice? In a moment when great Joy, Serenity, and Harmony fill your being, who shall say what your "Mighty I AM Presence" will do for you? Do not limit It, I plead with you. Feel always: any moment, your "Mighty I AM Presence" may sweep into action and perform the most Wonderful Service for you. This is true. It can do it! I cannot say to you *when* It shall; but I do say to you with all Power, all Truth, that your "Presence" is not limited in any sense when your earnest, sincere Call has gone forth, if you will keep your feelings harmonized and keep using

the Violet Consuming Flame so all past accumulations are kept dissolved within your Tube of Light.

Behold that Chart! See that Tube of Light which is really about every one of you. If you keep discord dissolved within that Tube of Light, by the use of the Violet Consuming Flame to annihilate all past discord and creations, then who shall say what moment your "Presence" will sweep into action–as It did with this Good Brother–and render a Service Transcendent beyond description? I want you to feel this, to know it is every bit true and that it is possible for every one of you! There is no limitation to the Action of your "Presence."

Oh, Beloved Ones, the Glory that fills this room tonight ought almost to lift all now into their Ascension by Its Great Love, Its Great Light, Its Great Substance, Its Great Power. Precious Ones, will you feel that everything We try to do and to which We call your attention, is for obedience, help, and assistance, and is always done with the kindest Love in the world. It is because We love you so much that We offer correction through which you may be free.

I want you to just realize, oh, Precious Ones, this Beloved Messenger has been willing to write by the hour [autographing books] to convey My Radiance to you for your Assistance. Tonight he wrote for two hours without cessation. Again I marvel at what these Beloved Ones are able to do–how they

are able to govern the flesh to do these things–all for their love of you! Oh, how deep their gratitude is for your love to them. We see all that. We do not just only feel It, We see Its action in and for them. It is beautiful, It is wonderful, It is magnificent, oh, Precious Ones.

Tonight let us feel the Glory of God, the "Mighty I AM Presence," in full action within each one of you–glorifying, purifying, dissolving, and cleansing all past accumulation of whatever discord there has been. Great Infinite "I AM Presence"! at the Call of these loved ones, by the use of Your Violet Consuming Flame, consume all discord now and set these loved ones free. "Mighty I AM Presence" of these blessed ones who are gathered here! Seize all discordantly qualified energy of these beloved ones, of the past and present! Dissolve and consume it in Thy Violet Consuming Flame! Set these loved ones free now! When they go forth at the close of this Class, send them forth free–wholly free–from every discordant activity in the World. Clothe them with Thy Great Feeling of Courage, Strength, Happiness, and Energy. See that they never lack for any of it. Then with Thy Great Commanding, Directing Intelligence, sweep them forward into the Victory and Glory of God, the Mighty "Light of God that never fails." This is Our Love and Wish for you for the New Year.

Eternal Light, Eternal Love, Eternal Mastery! Enter into the feeling world now of every one of these loved ones. God, the "Mighty I AM Presence," through their feeling give them full Mastery and Dominion. Send them forth Thy Mighty Blazing Suns of Light, to pour forth such a Radiance everywhere they move that people are healed, blessed, prospered, and enlightened everywhere their Radiance goes.

O "Mighty I AM Presence" and Great Host of Ascended Masters, glorify the "I AM" Students everywhere they move with such great Love, Peace, Harmony, and Kindliness that people will turn to look at them in wonder. Such is the privilege of the "I AM" Students throughout the World.

"Mighty I AM Presence," guard these Children of Light and give Us the opportunity to give all Assistance that We love to give–to bless, to prosper and set them free. Glorify them now!

The Blessings of the combined Ascended Host be upon our two Beloved Ones [Don and Marjory]. May your path be one of happiness and the "Light of God" victorious everywhere.

I extend to you all and the Students everywhere throughout the United States and the World, the combined Love and Assistance of the Great Host of Ascended Masters, the Legion of Light, and the Angels of Blue Lightning, to act with full Power

throughout this year for your happiness, comfort, prosperity, and blessing. Try to accept this in the fullness of your feeling, and let the Mighty Law operate in your world.

In the fullness of My Heart, I love you, I love you, I love you, unto your Ascension; and may that Love lift you quickly into your Freedom and Ascension.

THE GOD MERU'S DISCOURSE

ROGERS' 100% GROUP – LOS ANGELES, CALIFORNIA
January 21, 1937

MY CHILDREN of the Light, in your song tonight acknowledging the Freedom of America, you brought the release of a Great Cosmic Power. As My Focus of Activity is in South America, so do I join in the Freedom of the Americas and the World.

Children of the Light, be forever certain and reminded by the Great Host of Ascended Masters, of the majestic privileges you have in rendering a Service to the great mass, unknown in the history of mankind. A few have had this privilege, but you today are Children of the Light from many civilizations in which you have lived–sometimes higher, sometimes not so high. Yet in this embodiment, you enter into the culmination, the balancing of that which your Inner Light has sought in every embodiment.

Tonight there is one in your city from South America whom I have been watching for some time. As you may have observed, We never lose an opportunity to watch the Expansion of the Light in every one of the beloved Children of the Light, until their Light expands to the point where We may give Assistance to quicken It into

the fullness of Its Mighty Glory–that the individual may become a Blazing Sun of Light wherever he moves, and that We may envelop such a one and pour forth a Mighty Radiance.

Precious Ones of the Light, oh, that you might fully, quickly realize that you, even in the present state of the Expansion of your Light, can become a Blazing Sun of Light wherever you move!

To our Beloved Children of the Light who are soon to go to Norway, We thank you for carrying the Light there. Remember you are rendering a transcendent Service. We watch the blessed ones going here and there, and those who stand so loyally to this Instruction which Saint Germain has brought forth. Great will be that Blessing to them. See how quickly everything comes into Divine Order and is so sustained!

Watch! Be alert, O Precious Children of the Light! Silence every discord and inharmony that attempts to find expression in your world, either through yourself or outside. Then you will find great calm, peace, and serenity filling your world, filling your Heart, until when you call there will quickly come the Answer from the "Presence." The Messengers have pled with you to do this, for there is the imperative need of harmony and stillness in your feelings. Once you realize this, you will find that in the stillness there will come *always*–

quickly and clearly–the Answer required. It cannot fail! Oh, Beloved Ones, do you think that your "Presence," the Governor of the Universe, could fail? Do you not see how incredible such a thing would be, and that it is only the human concept which longer prevents you from entering quickly into the Freedom which the "Presence" is?

Believe, oh, Precious Ones, the experiences of this Good Brother on Mount Shasta, where the Light descended rendering a Service so great! There is not one in this room–and this is no exaggeration–there is not one in this room, through whom that same Service might not be rendered. I tell you, Precious Ones, your "Presence" is not limited to Its Activity in and through you, except by your feeling world. If you will feel the *Full Authority* and Power of your "Presence" and then just be still, you will quickly find that this "Presence" is a never-failing Release of all that is required.

The happiness within your feeling is the great Golden Key which the Light of your being turns, and the Door opens into your Freedom. In the "Presence" is all you require–not yet, possibly, in outer manifested form! But the pattern or idea, the Intelligence for its perfect manifestation in any required form is there, within the conscious acceptance of your "Presence" into your feeling world.

We wish all might feel this so clearly, so freely. Now, during the remainder of the time that I am speaking to you, because We always endeavor to render at least one Service during a given period, will you not feel with Me *everything* within your being that has bound or limited you, *let go!* I say: "*All human creation that has limited or bound these Children of Light, LET GO! All human creation that has limited or bound these Children of Light, LET GO NOW! and be replaced by the full Power and Perfection of their 'Mighty I AM Presence'—in full Power and Action!*" We accept this in the full Power of Its Activity for every blessed one, and qualify It to be eternally sustained in this Mighty Activity. Please, in your mental and feeling world, *accept that this human creation is fully silenced.*

From each Great Focus of Light in the atmosphere of Earth there are being released Mighty Currents of Energy to help mankind set themselves free. One comes from that Mighty Ancient Focus in South America, the Great Province of Peru, which once knew such Great Light in its outward expression. The Great Light, oh, Beloved Ones, is still there and ere long will stream forth in three Great Rivers of Light. The World, in spite of its appearance, is being bathed in the Glory of God, the "Mighty I AM Presence"; and ere long, hundreds of thousands will know their "Mighty I AM Presence."

In Norway We once met many of those Great Beings of Light whose Province it is to assist the Children of Earth. We, seeing that this Knowledge of the "I AM" is reaching so near Our Great Focus once held there–I take this opportunity to thank those who will go forth and expand It to those people. In their quiet of the past months, I want them to know it has been for the building up of Energy to go forth in this service. May this blessed trinity rejoice.

I wish tonight that I might talk Heart to Heart with each one of you and cause you to feel My Heart throb in that which I know is being quickened into action for you. As Beloved Saint Germain's Joy has been so great recently, so too are We feeling and pouring out to you Our Joy, that you have the simplicity of expression which brings such majestic action. In the simple words, "the Power of your Attention," do you not see, oh, Precious Ones, that it is the *simplicity of thought and expression which brings the great release of the Powers of Freedom?* Only in the complication of expression is the Truth so often hidden. Ever shall Saint Germain be blessed for bringing this Knowledge of the "Mighty I AM Presence" forth in such simple language that all may understand and apply It. So We are blessing Him as greatly as you are, for that Great, Great Service He has rendered.

You know, sometimes you are not always obedient. Sometimes We are not–in this way: Saint Germain has asked that We refrain from commending Him. Chananda said last night to Saint Germain, "I am sorry to disappoint you, but I have got to do it." So you see, We too are sometimes disobedient; but We too call on the Law of Forgiveness and try to do better the next time! So will you not feel with Us such great Joy and Happiness? Could you conceive of anything that would give Us such Great Happiness as to see the Expansion of your Light and the Freedom that awaits you so near at hand? Oh, it is no longer a long drawn-out activity. Just forget that part of it! It is not long anymore. Just rejoice–oh, with so great a rejoicing–in every day calling the Power of your "Mighty Presence" into action to cleanse, to purify your mind, body, world, and your homes!

Oh, those homes! Oh, what a feeling!–what a feeling is in the word "home"! Every home in the World in outer manifestation should be a Sacred Altar of God in Action. What a World–what a Heaven on Earth that would be! Oh, for that day! Do not feel Me critical when I say this, but, oh, for that day when once again mankind–notice this expression–is unpiled from on top of each other. Then they will not worry whether their "Mighty I AM Presence" is in someone else's apartment! However, I would advise all not to worry about

that, even in the present state. Let the "Presence" take care of it. You may be sure the "Mighty I AM Presence" is quite able to take care of Itself.

We see from Our Great Field of Activity the vicinity of Lake Titicaca, from which one day shall be released again Its Great Powers. Many of you will see and know this of which I speak. Remember that not so far from this Great Focus of Light there was one of the greatest destructive activities on the Earth. There are caves in Our Beloved Andes where one day there was broken up the greatest focus of darkness on the Earth. In that age, the final battle was won between the Light and darkness. *The Light of course always wins; and so It will again in your Beloved America—in Our Beloved America.*

In your song tonight you touched deeply within My Heart. Hence, Great is My Joy to have been present with you and rendered a Service which it is My Privilege to give. May I remind you, just at this point, how great is this uplifting activity, how great is your happiness when you have rendered some service to each other out here in your world of action! Then can you just imagine for a moment Our Great Joy when We find an opportunity, sometimes even to Us wholly unexpected, to render a Service sometimes very far-reaching. *Tonight it is far-reaching, from the Andes to the Sierras!* Does that sound like a long distance! Well, it is not! That is the human concept

which says so. To Us who have forgotten, so far as Our own Activity is concerned, that there is time and space, is it any wonder We feel there is no distance? It is possible for everyone to become so conscious of his "Mighty I AM Presence" that he has no cognizance of time and space. To feel it, or to be so imbued with this feeling that you go through the activities of a whole day as though it were an hour or perhaps a few minutes, is joy unspeakable.

You know how often in your contemplation of the "Presence," one, two, or three hours pass and it seems but a few minutes? That is a slight intimation to you of what it really means to transcend time and space. The Great Cosmic Law is now permitting this to be done more and more for the Children of Earth. Thus It is hastening, quickening powerfully, your own Call for the Freedom of all mankind. You who are privileged to know your "Mighty I AM Presence" in this way, will find yourselves a Thousand-Petaled Lotus, Its Thousand Rays reaching out everywhere to bless, to heal, to prosper and enlighten.

Our Precious Lotus! We thank and bless her for her ceaseless Service and her great happiness in that Service. I shall, for one, stand by and see that she never lacks for energy and strength. Your love is oh so great, pouring out to her, and I thank you with deepest Gratitude. Notice, Dear Hearts, how the great earnest Call to the "Mighty I AM Presence" dissolves

and clears away all mist of human creation. A great number of the earnest "I AM" Students are fast surging forward, into a great Peace at first–then the feeling of their Mastery over their worlds, then the feeling of a great Love and Kindliness pouring out to all mankind, which opens every Door before them into whatever activity is required.

Oh, Precious Ones, do you not see that those who have felt jealous and inharmonious just fade out of the Light–blaming others, when only within themselves is the fault? Oh, Precious Ones, so many of these are precious ones whose Light is very great; but when they become caught in that snare of jealousy, criticism, or condemnation, their own blessed Door just closes temporarily and they feel alone in the world. I, with you tonight, call to the "Mighty I AM Presence" of each one of those precious ones who have for one reason or another allowed themselves to feel unkind to the Messengers, or critical: " 'Mighty I AM Presence,' dissolve once and forever every human creation about them–cause and effect–and set those blessed ones free in the Light, that they may have the Freedom which is so near them."

If only mankind and the precious Students could see that the moment a discordant feeling stirs within them, it is just the sinister, human creation which would bind them longer in their limitations and distress. Oh, that all might understand this

and be so firm in their refusal to speak or accept from others any inharmonious expression! Then their worlds would quickly be at peace, filled with the Glory of the "Presence" and the abundance of every good thing they require for use in the Service of the Light.

The God Tabor, the God Himalaya, and the God from the Swiss Alps join Me in pouring forth tonight a fourfold Activity for your Blessing, for your Freedom. May I ask you to accept the fullness of It to go forth and do Its Perfect Work for you?

We love you, We thank you, We bless you.

SAINT GERMAIN'S DISCOURSE

ROGERS' GROUP – LOS ANGELES, CALIFORNIA
January 24, 1937

MY PRECIOUS Children of the Light, you are My happy Family! Justly I can claim this, for great happiness has entered into your world. It is building each day with a Glory and certainty in the Onrush of the Light in, through you, and out into your world. Oh, it is so much greater than yet you quite realize. Tonight while We have a little Heart-to-Heart talk, will you not feel entering into your being and world a Mighty Activity–first, of the Quality of Peace and Rest; then of a Mighty Activity so powerful that anything you have previously conceived would sink into insignificance in comparison with it, for such is the Truth!

You have gained a power and momentum now in calling your "Mighty I AM Presence" into action. Will you allow Us to help you in this Explanation We offer? Precious Ones, this is far more important than you realize; for when We ask you to accept a Quality, you are really accepting a Substance containing that Quality, which makes It constantly active within your being and world.

I do not feel that it is necessary to longer prompt

you concerning any wrong activity, but rather to encourage you in the Strength of your "Mighty I AM Presence," to flood your world with such a Glory that you wholly forget there is anything else. We never prompt beyond a certain point, but you will remember what was said to you in the Shrine Class: now, the Great Cosmic Law does permit Us to fight some of your battles for you. I do not mean by that, you are to lie down on the job. You must make your Application with firm determination–firmer than ever for the next few months; but the Great Cosmic Law does permit Us to give you Assistance–which We always stand ready to do–and that is your great privilege at this time.

Never, now notice this, *never* in My Experience have I, or any of the other Ascended Masters, known such great Assistance to be given, or such an Opportunity in the Action of the Great Cosmic Law. This means a very long time, for I have definitely consciously ministered to bless all mankind during many centuries. Let us take it from the seventy thousand period. Seventy thousand years is a long time according to the human sense, and yet you Blessed Ones get discouraged in a few weeks or a few months! Well, I will not say I was not discouraged during that time; but still I was able to surmount it, if that was the case. So are you Precious Ones being able to surmount anything that confronts

you, because of your "Presence" which gives you Life and beats your Hearts.

Think of it, Dear Hearts, any moment that your courage wavers, just stop a moment, still yourself, and think: "What nonsense! My 'Mighty I AM Presence' is giving me Life with which I think and speak and move about. Therefore, I give It the full Power to take command in my world and produce Perfection." Then, just become still and get your human self out of the way a little more. Do you not see, that is the principal thing required? If you could only make the human be still and let the "Presence" flood forth to do it, It would of Its own Volition do the things you require and ask It to do. You must accept your "Presence." Use your ability and authority to call your "Presence" into action to produce certain results. Then do you not see how very much greater are the results, than if you did not know of your "Presence"?

Do you not see how tremendous your Call to the "Presence" is and what it means in the quickness of the Freedom which you are seeking? That is the beauty of it. Oh, the wonder of it, Precious Ones! To think you have come to know an Invincible "Presence" which actually beats your Heart, whose Intelligence is limitless, whose Powers are limitless, whose Powers are Universal! It will answer your Call–every detail of it–gladly, joyously, and freely, only asking you one

thing: to keep your feelings harmonized *enough* so you do not requalify the Great Stream of powerful, Perfect Energy which is flowing in at your Call. Just let It go forward into your world, to harmonize and produce Its Perfection there.

It is wonderful you are getting this more powerfully than ever in your Life tonight, and I rejoice with you exceedingly. Your "Presence" cannot fail in anything, oh, My Precious Ones. Your Call, if you were an invalid in bed–your Call is as powerful to the "Presence" as one who is a muscular giant. Will you not feel this Great Truth–this Mighty Truth? If you could only whisper to your "Presence" your need and then abide in it, It would rush Its Power forth to do that which was required.

Please, you Precious Ones here who have now gained this momentum, do not ever feel that anyone has any more power than you to call your "Mighty I AM Presence" into Action to flood your world with Perfection, to solve any problem, and release to you the supply you require. Oh, it is the Truth. It is only when you get discouraged that you momentarily seem to shut the Door, but even in that you really do not. You have only just stayed the momentum a little. Then again, as you enter into the Joy of that Great Perfection of the "Presence," again It will flood forth with Its great Joy of Achievement. It is so very beautiful.

I suppose I am going to get a little sentimental again tonight; but Dear Hearts, how We do love you Precious Ones! When I see the great earnestness, your great determination to have your Freedom, and the wonderful Application which you are making, I just long to take you in My Arms and whisper in your ear, "Go on, My Blessed One, you are gaining your complete Victory." Oh, many times, Dear Hearts, when you least expect it, I do whisper in your feelings that wonderful Courage and Strength.

There are those in this room tonight who will go forth imbued with such Power and Strength that nothing will ever stop them again or even seem to. They will go forward in the Strength of their "Mighty I AM Presence," amplified by the Great Host of Ascended Masters. They will feel forever sustained by the Mighty Glory of their "I AM Presence," as the full commanding Activity, the Light of the World and, oh, I rejoice!

There are many of you to whom I wish I might speak individually; but you must feel My Feeling in your Hearts, because you are doing so wonderfully. All of you are doing so wonderfully. When I see the great change that has taken place in New York and Philadelphia, it is wonderful. I see how the blessed Students of Cincinnati and those various places in the East where We were so recently, are standing like Generals in the Call to the "Presence" in this present

need [recent flood conditions]. It is a very wonderful thing, and I rejoice tremendously with them.

There are many things which I wish I might say to you tonight; but you are not yet quite sufficiently in position, to do so. I say to you: glorious and wonderful things are before you who will stand determinedly and call your "Presence" into action firmly. To you the very Gates of Heaven, so-called, will open.

If you could see with the Inner, True All-Seeing Eye the difference in your city when the Messengers first came here, and now today–from the Inner standpoint it is perhaps one of the most amazing things anyone ever witnessed. You are transforming and changing the whole city. You will see the evidence of it in many, many ways. Go on and on and on, oh, My Precious Ones, individually and in Groups. Go on with your wondrous Mighty Work.

I am just going to reverse the Call with you tonight. You have been calling Us to come forth. I say to you tonight, you could not want Us half as much to come forth in the Tangible, Visible Form as We should love to come. That time is approaching, and remember: We dare not come forth and requalify powerfully your energy, until you have Self-control *enough* not to requalify it! This is all that stands between us. So keep on with your good work, and you will eventually find that you have complete Self-control. Then We can come

forth the same as the Messenger stands before you tonight, and will he not be a happy chap then?

You know, Precious Ones, since the beginning of the Shrine Class We have drawn more closely into your physical world of activity by far than ever before. Now that means a great deal.

I want you to all feel Our Indomitable Courage within you which just sends you forward like a rocket in all achievement, even in the small details of your outer life. Oh, just feel the Glorious Joy from the "Presence" surging forth to do things–and when you get there, all is right! Just feel It in the morning when you get up. Hold your arms to the "Presence" and say: " 'Mighty I AM Presence,' I feel the Glory of Your Energy, Health, and Strength today. Charge them forth into my world; send them everywhere; harmonize and bring everything into Perfect Condition, and when I physically arrive see that all is prepared. See that there is only joy, harmony, and successful achievement when I arrive in physical form." Oh, Precious Ones, if you would only do that, there would not be a single thing touch you during the day.

It fills Me with such Joy when I think of the blessed Sindelars and their courage–how they have gone forth putting out the Magazine so beautifully and wonderfully, standing against a great avalanche. I see the blessed Rogers who have stood pouring forth so great a love that they cannot

get places large enough to hold the people. I thank and bless the many Group Leaders–the blessed Ratana, Stanley, and the blessed Frank Lanning–all those blessed ones who have their Groups and are having such joy in drawing them together. Oh, it is so wonderful. We bless all the Group Leaders who are sincere everywhere. They are all doing a wonderful work and We rejoice so greatly in it.

Let Me remind you, because it is so wonderful–and you must not mind if We do remind you of this point often, because as you near it, oh, what tremendous things it means in your life–to think when you have served the Light enough, the Light turns and serves you! Is that not one of the most wonderful things in all the Universe? It has only required a short time in your conscious Call to your "Presence"; but suppose it were two years, suppose it were five, suppose it were ten that it was necessary for you to call your "Presence" into action to gain the point where, in your Service to the Light, It turns and begins to serve you! Is it not worth every effort the human being can make to reach this point? So many are nearing it!

Remember, in your earnest Call, that the Law of your being is–being the creator of the discord and limitations in the outer world, you must through self-conscious Call to the "Presence" dissolve and consume it. When you have made enough Application, you

come to a certain point–now notice this point tonight–you come to the point where the Ascended Masters say: "You have fought the battle up to this time; now We shall take a hand and fight the battle for you." Think of it! Do you fully comprehend, Precious Ones, what that means? It means such Assistance as the average individual does not comprehend its importance to them as yet. Remember the power of your attention, Precious Ones!

This is one reason why I call your attention in these Heart-to-Heart talks to these certain things, because when your attention is upon a thing, then the thing can be fully accomplished; but how can you know a thing if your attention is not upon it? Do you not see? In the outer world you cannot know a thing until your attention is upon it. You cannot even become aware of it; because if your attention is not upon it, even the intellect will sidetrack the feeling, even though what you want is trying to get through your feeling. Your intellect will say, "Oh, that is something else."

It is marvelous, Precious Ones, to realize and watch your feelings to see what is accurate and what is not. Finally, you will find that you will be able to recognize the accurate promptings from the "Presence," just as definitely as you would distinguish a blue pencil from a white one. It is training, Precious Ones, that you need, and is what you are going through. You are

getting this training to make you alert to the Inner promptings of the "Presence," through your Higher Mental Body–making you quick and alert by Its Action through the Inner, Wondrous Prompting.

This Good Brother rejoices in this one thing, perhaps more than any particular thing; for there are times when some outer thing requires attention, and yet in the midst of it the great Inner Power begins to surge forth. Then he can do more in one day than he could ordinarily do in a week. It is a joyful, wonderful thing to feel the Power surge through with this speed and do everything–not a single move out of place–until many things are accomplished. Is that not wonderful? It can be just the same with all you Precious Ones. This is why We say, call your "Mighty I AM Presence" into action to make you alert to this Prompting and feel always ready and alert.

Oh, Precious Ones, do not keep your system too full of food. Beloved Ones, would you actually believe Me when I say that most of the "I AM" Students are still eating twice as much as they need? Actually it is true. You might think I have been around sometimes. I might have been, and it is not eavesdropping either; but Our Love is so great for you, Dear Hearts, that We want to give everyone all the Freedom We can, and help you in the quickest manner possible. I do not mean you should starve yourselves–that would

be a great extreme–but do not continue to eat, Dear Hearts, until you feel uncomfortable. Just stop a little before that. You know, I have recently been thinking that I shall have to take this Good Brother in hand, too.

Do you know this is a thing that does happen many times? You go into an atmosphere where people are very hungry, and you will take on the same feeling if you do not watch out and guard against it. Now believe it or not, that is true and is why many people who are sensitive eat more than they really want! Watch out for this feeling, when you are eating where there are a great number of people–in cafeterias and places of that kind. In these places, some of the people may not have had so much to eat for a few days. When they come in and you happen to touch their atmosphere, you who are sensitive might easily take on that feeling. Then when you go out, you wonder why you ate so much. Do you see?

I tell you, Precious Ones, once you understand how to guard yourself against all human suggestions, you will feel a freedom indescribable; for it is one of the most wonderful things in the world.

Do you not see, Precious Ones, you are moving in an atmosphere charged dynamically with human suggestions of every conceivable description? If you do not call the "Presence" to hold Its Guard about you, the human feeling rides in and qualifies you and your world with

its activity. I am only mentioning this one thing tonight; but there are dozens of things–feelings of mankind–which you will register if you do not stand guard and refuse acceptance to all human feelings. Unless you call your "Presence" to stand guard, you will, at least temporarily, be inclined to carry them out. It is the same thing, Dear Hearts, with anger, with irritation, with sex conditions or whatever it is.

For instance, you go into the streetcar and sit down by one whose idea is charged with one of those things. If you do not refuse acceptance and call your "Presence" to protect you, you will take on that feeling and think it is your own. This is why many people find such difficulty in correcting and dissolving the sex desire–because they come into the atmosphere of people in which that feeling is so heavily charged, and they begin to accept it into their feelings unknowingly. Outwardly, there may be nothing in the individual that would indicate it; but the feeling is acting just the same.

Oh, Dear Hearts, I tell you, "I AM" Students, watch your feelings! I tell you, Beloved "I AM" Students, do not go to any other "I AM" Student with the feeling of sex desire in your being, as you value your progress. That thing has gone on among some of the Students. Watch out, Dear Hearts, that those do not come into your midst who are not

especially interested in the "I AM," but think they see an opportunity to get their claws upon the Students. I warn you!

A Student that will go into the home of another and offer sex suggestions to anyone there is not fit to be called an "I AM" Student–and We know all that is going on! I tell you, Precious Ones, your day is short! Do not allow those things to govern you longer. If you are determined to gratify your sex in your own home, that is your own business; but do not go to any other "I AM" Student with an atmosphere charged with that desire and, either through feeling or otherwise, offer that suggestion.

I am prompting you because of so great a Love. You cannot yet possibly understand how We know all that is going on in your feeling world. We have to, Dear Hearts! How could We help you if We did not? Do you think you can be drawn into Our Radiation and We not know what is going on in your mental and feeling world? It is impossible, Dear Hearts! We do not seek it; but when you are seeking the Light, Our Radiation and Assistance, We are compelled to know what is in your feeling–not with the slightest sense of criticism or condemnation, only in loving Kindness to offer Our Assistance that We may help you to be free.

Oh, Beloved Ones, I have seen some of our blessed Students–a few only–who have been so earnest, have

expressed and claimed the Great Blessing that they have received from this "I AM" Work, and then have receded into the extreme sex gratification again. I want to awaken them to what they are doing, for it just deprives them and shuts the Door of Light before them. God, the "Mighty I AM Presence," help them and set them free!

Tonight, oh, My Loved Ones, it is just like We were sitting in My Home with all you Precious Ones around Me, and We were just talking in this Heart-to-Heart manner–just as though I were answering the many questions besetting you. I feel just like that tonight in the great Love which goes out, enfolding you; for it enables Me to prompt you in these things. Know it is all in such great loving Kindness.

My Precious Ones, you are all very dear, so dear to Our Hearts. The Blessed Nada, the Beloved Master Jesus, the Great Divine Director, Chananda, Leto, and Lanto all wish to convey Their Love and Blessings to you tonight. It is just as though you were together in Their midst listening to Them. Will you not accept this–Their Blessing and Radiation in your feeling world, in your mental world, in your outer world of activity–and let Its Great Radiation go forth to give you whatever Assistance is required?

In the great stillness of this wondrously charged atmosphere is that of which you have often heard, and yet mankind has so little comprehended: "In the

Great Silence or Stillness is God's Greatest Activity." As you have been so sweet and kind to give Me your attention tonight, during this stillness of the outer there has flowed into your beings Our Wondrous Substance, which will become an eternally active Presence within and for you. When you would lack in courage, It will assert Itself and take you forward; when you feel a little lack of energy, then It will come into action and stimulate you to make your Call and have Its Mighty Energy flow through.

Precious Ones, believe Me tonight when I say there is not one of you in this room but who can raise his hands to the "Presence" every morning when you get up–not later than eight o'clock–and through your Call to the "Presence" charge your mind and body with Its Mighty Strength, Courage, Health, and Energy. Dear Hearts, if there has been the slightest intimation of any disturbance, say: " 'Mighty I AM Presence,' pass your Violet Consuming Flame through my mental and feeling body; sweep out and dissolve all imperfection. Then pour Your Mighty Currents through, filling my mind and body with Your Mighty Health, Strength, and Buoyancy." Oh, My Precious Ones, you can have perfect health and happiness, joyous strength and energy filling your body every day, if you will. If the first time you do not feel the full result, go right on and on and on; and suddenly you will find when you make the Call, the Energy will flow in and fill your

body tremendously. You will not have to make the Call a second time that day.

Notice, you might easily and justly ask Me, "Why do I have to make the Call each day?" Because, Precious Ones, you are moving in a seething vortex of discordant feeling and suggestion from mankind, and you must keep calling to the "Presence" until you have gained the momentum to be your sustained protection. Therefore, you must keep on calling until your momentum becomes so great it acts involuntarily. Even then, until you have made the Ascension, it would be far better to continue to make your Call every day than to rest on the "Presence" and not make it. Can you not make that effort at least? You see, the inclination of all human beings, Dear Hearts, is to "let George do it." I am sure you all agree with Me that all have been inclined to let someone else do it, because "I don't feel quite like it today." That is just the time, Dear Hearts, you want to rise up and say, "Here, you cannot do this thing."

Now I tell you frankly, when you feel the slightest touch of cold, rise up and say in the full consciousness of your "Presence": "I will not have that! 'Mighty I AM Presence,' take it out of me—cause and effect! Fill me with Your Health, Strength, and Energy, and stop this nonsense." Dear Hearts, you can dismiss it in just a few minutes. If you do this a few times, you would stop that habit from acting in you, and

you would feel your ability to control such conditions completely. You will dismiss it at once and not have to go through several days of such experience.

Oh, I tell you, Dear Hearts, My rejoicing is tremendous because I know you are gaining the full consciousness of this. I know your feeling, and you must understand you can do these things. You are shutting out these things with tremendously greater firmness, and preventing them from acting in your world. It was the sinister thing that started this suggestion of flu among mankind. It was nothing else in the world. It is nonsense, Dear Hearts; do not accept it into your world just because that silly suggestion starts and people succumb to it. Do you not see, it is the power of suggestion that gets them down and then treads upon them? Do not do it.

In this Good Brother's practice, I have seen him, during those years of healing, go to patients who thought they were so ill they could not raise their heads. In a half an hour they would be up and dressed. Nothing in the world was the matter with those people but the suggestion which had been driven into their consciousness. As soon as he removed that, they were all right. This is exactly what takes place with more than seventy-five percent of the conditions mankind meets. It is but suggestion. If mankind understood how to be quickly alert and on the defense, it could not register in the feeling.

This is why tonight I want to prompt you dear "I AM" Students. I see there are several places where some of the Groups have accepted the idea that they have the flu. Well they have not! Just as though an "I AM" Student could have flu! If they accept it, I do not! And I know I am stronger than they are. I tell you and those blessed ones everywhere in your Groups or among your friends whom you meet, kindly try to prompt them to stand on guard against these things.

Now tonight, Precious Ones, until We have the opportunity to speak to you again, know that Our Love, Blessing, and Light enfold you always. When there is an earnest need, send forth your Call, and Help will come at once. You see when you call to your "Mighty I AM Presence," if outer assistance is required, it always goes forth. Call to your "Mighty I AM Presence" first, then the Great Host of Ascended Masters if you feel it is necessary, and Help will come. Do not accept anything else. But best of all, stand guard every morning; draw those Mighty Currents of Health in to fill your body. Call the "Presence" to draw around you the Mighty Tube of Light as an Invincible Protection, to repel everything unlike the Perfection which It is. Then go forth in your activity of the day, a wholly free, happy, blessed, joyous being, filled with the Glory of the "Mighty I AM Presence" and Ascended Masters–
