As all other foci of the Sacred Fire, the Resurrection Flame is magnetized, sustained and expanded through the cooperative endeavors of cosmic beings, who provide its beneficent radiation for all who choose to tune into it, bathe in its vitalizing power and become, in themselves, radiating centers for its HOPE in their own homes and localities. The beloved Ascended Master Jesus, whose own victory was accelerated by the knowledge and use of this Resurrection Flame, is one of its Guardians, as is also his Holy Mother Mary. The beloved Archangel Gabriel and his divine complement, the Archaii Hope, are also connected with this flame, the Resurrection Temple and its Brotherhood.

The Resurrection Temple is builded in circular form, composed of seven beautiful corridors encircling the Holy of Holies, upon whose altar the flame, itself, is focused. The radiation from the Resurrection Flame passes outward from corridor to corridor, lessening in intensity and power on its journey toward the periphery of the temple. Thus, in God's mercy, each group of initiates and chelas can find the corridor in which their own inner bodies are most comfortable and wherein they can absorb as much of the power of the Resurrection Flame as their particular development allows. As they advance in purity—and IN WORKS—THEY are drawn closer and closer to the center of the temple. Finally, they are privileged to stand within that flame and, utilizing its momentum of resuscitation, complete the transmutation of the human nature. Thus they become ready to dwell in the kingdom of harmony, with those who have learned to master the energies entrusted to them by God and to use those energies ONLY to increase the beauty and perfection of life.

The corridors of the temple of the Resurrection Flame are peopled by angels, the finer bodies of some unascended beings, and elementals, as well as by the Masters who have chosen to guard and develop those, who by their very presence here, have signified interest in the power of resurrection and desire to have the assistance of its radiation.

The Spiritual Law is very exact and a balance must be rendered for every added blessing of grace, understanding and opportunity. Therefore, those who desire to move toward the center of the Resurrection Temple cannot content themselves with merely enjoying the buoyancy and exhilaration which flows through them by reason of their proximity to its focus. Each beneficiary of the resuscitating power of the Resurrection Flame is carefully supervised by the Master or angel in charge of the group in which he is fitted to dwell. Those who utilize, TO THE BEST OF THEIR PRESENT ABILITY, the gifts, powers and radiation of the Resurrec-

tion Flame for the blessing of all life, are marked and those who merely absorb its essence are also marked by the supervisor of each group of aspirants.

Wise, then, is the chela who directs his consciousness toward the Resurrection Temple at night, with the heart-felt prayer that he may RECEIVE some of the hope, buoyancy, resuscitating power, general gifts and benedictions of that flame, BRINGING BACK into his own outer consciousness, his home, his business, his nation and his planet, a focus of that flame, which will become a radiating sun of resurrection wheresoever he is. Thus does the chela comply with the law of receiving and giving, in perfect balance!

(Note: for further information on the Resurrection Temple, please see *The Bridge to Freedom*, May 1953, and March 1955.)

EXTERNALIZING GOD'S GIFTS IS POSSIBLE TODAY

Address By Beloved Jesus

December 30, 1955

Beloved children of God, I come to bring to you my consciousness of victorious accomplishment! That which I have done—that which I have manifested through a flesh form similar to the one which you presently WEAR—WAS NOT MIRACULOUS! It was something similarly ordained for every lifestream upon this planet. My endeavor to bring that manifestation of Christ-fulfillment before the eyes of men, was merely to provide an EXAMPLE by which every man, woman and child might BE STIRRED TO MAKE EFFORT toward a like development and a like maturity of their own Godhood.

One of the greatest mistakes which has “bogged down” the activity of the Christian Dispensation is the placing of Godhood upon myself, ALONE, and denying it to my fellowman. Of course, as we have come into a more enlightened age and some of the superstitions and dogmas of the orthodox thinking have been swept away by the braver men and women who opened the door to the spiritual path, there has come a spiritual realization that CHRISTHOOD IS POSSIBLE FOR OTHERS BESIDES MY HUMBLE SELF. Before I was even born into my final embodiment, THERE WERE MANY, MANY LIFESTREAMS WHO HAD ACHIEVED THE STATE OF CHRISTHOOD, full mastery and God-control, having sublimated the flesh FORM—KNOWING THE VICTORY OF THE ASCENSION! However, for the Christian Dispensation, it was my great opportunity to manifest the resurrection, which is done so easily every Spring by your nature kingdom. I

was to come and bring the Divine Presence right into the substance of Earth, developing it into a God-man, made in the image and likeness of the Father who, in the first place, created me. HE ALSO HAS CREATED YOU, IN LIKE MANNER.

The Perfect Divine Pattern

For every divine creation—whether it be angel, deva, Seraphim, or human being—there is the archetype of perfection for that creation. In the case of the human being, Saint Germain has chosen to call it “the individualized I AM Presence.” This divine pattern of perfection is fashioned out of living light and within its heart is placed the immortal Three-fold Flame of Life.

Within that flame is intelligence and within it is consciousness! In lesser degrees of expression such as flowers etc, there is also a divine pattern created. If it is in the nature kingdom, the divine pattern is formed by the devas who are designing (let us say), the daffodils, which will be the glory of the country-side in the springtime. The divine pattern is fashioned at inner levels out of primal light, by the thoughts and feelings of those devas, energized by the directed pressure of some elemental life and then is focused within the bulb. The elemental, who is in charge of breathing his life essence upon the bulb, causes the divine pattern of perfection (already within the bulb) to expand, until the perfect replica and manifestation of the daffodil appears that divine pattern which is in the inner realms.

So, those who have given great honor to my particular mission might consider this with a little more wisdom and understanding. They would find that every daffodil which bursts into bloom, every flowering shrub, every tree that follows its natural pattern DOES, THROUGH THE NATURE KINGDOM, THAT WHICH I DID THROUGH A FLESH BODY. YOU, TOO, MUST DO THIS SOME DAY. Within your own individualized I AM Presence, you have your divine pattern and plan. You have been created and directed from the heart of the Universal First Cause by some great God-parents. Some of you came from Alpha and Omega's cosmic hearts, some from Isis and Osiris, some from Apollo and Diana, some from Krishna and Sofia or from Helios and Vesta. (NOTE: The above Sun Gods and Sun Goddesses are those in charge of systems closer to the Great Central Sun, than the system to which the Earth belongs—Helios and Vesta being the God-parents of OUR system. Alpha and Omega represent the Great Central Sun itself.) Your individualized I AM Presence was created in the image of the God-parents, who directed a Three-fold Flame from their hearts into universal light substance and around that flame coalesced

your glorious Electronic Body of light. Then, later, there was projected down into this physical appearance world a portion of that magnificent flame. It contains within itself (even as the bulb contains within itself the perfect design of the daffodil), the picture and the seed of your divinity and of your God-self. ARE YOU LESS, THEN, THAN A FLOWERING BULB OR A SEED THAT PRODUCES AFTER ITS KIND? Are you less than a chicken, which bursts from the egg, following the pattern of its parents? Ah, no! YOU ARE FAR GREATER.

However, YOU HAVE ONE THING which is not the gift of the nature KINGDOM—FREE WILL! Through the use of that gift of free will, YOU HAVE CHOSEN NOT TO LET the God who created you (the divine, perfect I AM Presence who is living within your heart) expand into its full perfection. From time to time, beings have been chosen at inner levels who have a certain consciousness of the capacity of “letting go and letting God” and these volunteer to come to Earth through physical embodiment to show the people the way to attain mastery, showing them how to develop into the full flower, the full bloom of the Christ.

Your Mission Similar to Mine

NOW, YOUR MISSION IS SIMILAR TO MY OWN! Before I came into the world of form, I was “charged” with a mission, to manifest unto all mankind the full perfection of our Father which is in heaven. YOU WERE ALSO SO “CHARGED” WHEN YOU WERE CREATED. When your beloved infinite I AM Presence projected down into your physical heart the Immortal Three-fold Flame, THAT FLAME CONTAINED WITHIN IT THE EMBRYONIC CHRIST, whose light we are now endeavoring to expand until it has stirred the outer self from its soul-sleep. We are trying to expand, that light to a point where its pressure is more powerful than that of the shadows of the physical and astral realms in which you presently abide.

Beloved ones, let us not feel that “becoming the Christ” is such an effort! Is it an effort for the bulb to release the green shoot, the lovely golden head of the daffodil, or the lily with its fragrance? Is it an effort for the nature kingdom each Spring to manifest the Spirit of Resurrection and, where trees with leafless branches signify the absence of life, to bring perfume and color in blossoms that garland your countryside with such beauty that it brings you closer to the Kingdom of Heaven?

Beloved ones, why is MANKIND ALONE content to allow the embryonic Christ within his heart to remain quiescent within its “shell”? Why is he content to let it remain within the “bulb” and not let the flower of his divine manhood unfold?

The perfume, beauty, dignity and gifts of God through each one should EXPAND to bless the Earth and her people—sick unto death with travail and all manner of distress.

What Is The “Second-Coming”?

ONE CHRIST IS NOT ENOUGH, even in a two-thousand year period! The “second-coming” means the awakening of many men and many women, many sincere and determined lifestreams who have had enough of their own way and who, in the privacy of their own rooms, are willing to kneel before their own God, asking that that Presence have its own way with them, externalizing the glory of the divine pattern and plan through their outer selves.

This was my message—it was my mission! It was the reason for my coming into being, the reason for which I went through every experience of the Earth life, even to allowing men to mutilate my flesh form. I ALLOWED THIS, TO PROVE THAT THE IMMORTALITY AND DIVINITY OF THE GODHEAD COULD BE MANIFEST THROUGH ONE OF THE SONS OF MEN. This is my endeavor now, in drawing your attention, each and every one of you, to your own Christ. It is not as if you had to generate something INSIDE yourselves that is not already there. It is not as though the gardener had to INSERT the pattern and picture of the daffodil into the bulb. IT IS ALREADY THERE! The very fact that you have being and a beating heart proves that this divine Image and pattern is WITHIN YOU and it but requires the courtesy of allowing your Presence to develop to full maturity through your lifestream at this time. All over the world tonight, earnest and sincere groups of men and women have gathered together while we are endeavoring to pour our energies into their souls, dislodging in that process the desire to continue to use free will DESTRUCTIVELY!

Dear hearts, the removal of the destructive use of free will is the petition which you individually and collectively have made to the Karmic Board. I would like to explain to you that the desire to use the free will destructively (which continues to create and sustain imperfection) is in the FEELING WORLD. Thus, you may understand a little more clearly how it is possible for you, through application, to raise the vibratory action of your own world, the student body and then of mankind at large, to a point where destructive desires no longer exist. You know that the more rapid the vibrations of energy, physically, mentally, emotionally or ETHERICALLY, THE LESS OF DISCORD THERE IS. THE slower the vibratory action of the atoms and cells which make up your physical and inner bodies, the more prone they are to accept and become the recipients of vibrations of a low, heavy and discordant nature. Therefore, the accelera-

tion of the vibratory rates of your inner and outer vehicles is part of the reason for your decree work, your song and, in general, your collective group endeavors.

Acceleration of Decrees and Songs is Beneficial

When a group of students gathers together for a meeting, a great Master Presence or deva stands within the atmosphere. As the decrees, fiats and songs go forth in a fairly rapid but balanced tempo, the rate of vibration of the atoms making up your physical and inner bodies increases and there is thrown off much misqualified substance, which is instantly transmuted by the Great One in charge of the meeting. You would be amazed, could you see with the inner sight, how much impure substance of your worlds is thus transmuted by that beautiful, ever-present and all-willing Violet Fire. This impure substance has been lodged in your physical and inner bodies.

Violet Flame Around Every Sanctuary

This Violet Transmuting Flame is always blazing up around every sanctuary, once it has been called forth there, even when you are not present. It is so wonderful to know that the Violet Fire is always there. Whenever purification is called for, that Violet Flame goes into action. It frees the elemental substance from all impurities, returning it to the sun for repolarization by divine love.

Electrons, Atoms And The Four Lower Bodies

Now, to explain the activity of the atoms, we shall go back to our illustration of the electron and the atom which has been given you previously, (especially in the Autumn class of 1955). The Causal Body (represented by the circles of color around the upper figure in the Chart) may be likened unto an enlarged electron. Many of those electrons, swinging around a central core, form one atom. Between each electron there is a great distance (relatively speaking). As the electrons swing within their atom, they are either expanding their light or they are closed in by the discord and substance of the astral and psychic realm, which is like forcing pie-shaped wedges between these points of light. Now, when your thoughts, your feelings and your etheric memories dwell upon imperfection, you slow down the vibratory action of your electrons and then the substance of the psychic and astral realm closes in around them, lowering the entire vibration of your four lower bodies. In this way you become an easy prey to depression, poverty, ill-health, to any number of

the various negative aspects which mankind at large mirror and outpicture today.

Now, in order to quicken the vibratory action of your inner bodies, you must use that Immortal Three-fold Flame within your heart and you must make CONSCIOUS EFFORT to accelerate the rate of the electrons as they move around the center of the atom. This is done through your decree work, through your songs, visualizations and applications, individually or in groups. It is done, also, by a constant vigilance over the type of feelings you allow to rest in your emotional world and the type of thoughts you dwell upon. This vigilance is necessary ALL THROUGH THE DAY—NOT only during the hours while you are in class—at which time you are directed primarily by someone in charge, whose endeavors keep your attention above the consciousness of the mass mind.

The type of memories which you have and the type of physical environment, with which you surround yourself, also affects these inner vehicles. As you keep a vigilant watch over the activities of these inner bodies and you keep the vibratory action of each one of them up above vibrations of the psychic and astral realm, then there should be no difficulty in expanding the Christ Flame from within your heart. IF YOU ALLOW THESE BODIES TO DESCEND INTO THE REALMS WHERE DISCORD AND NEGATIVE CREATIONS ABIDE (THROUGH DISCORDANT THOUGHTS AND FEELINGS) THEN YOU HAVE AGE, DISEASE, LIMITATIONS AND DISTRESSES OF EVERY KIND AND DESCRIPTION.

Your physical body is interpenetrated by your etheric body. These are enfolded by your mental body and your emotional body. All of these are made up of atoms. Those atoms are composed of a series of electrons in constant motion, spinning around its tiny centripetal heart. Now, the quality of the atoms of every one of your bodies is constantly subject to change, to purification and etherealization, or to becoming more gross and more heavy. That is why individuals are sometimes very beautiful when they are young (around eighteen years of age). Their faces then are clear and unlined, their bodies are alive and buoyant, but after they have passed through the discordant experiences of some twenty or thirty years, you find that the vital flesh atoms have been lowered in vibration. This makes the flesh form less beautiful than it was before the discord was registered upon it.

Your emotional body is in a constant state of motion, as is even this seemingly inanimate lectern upon which I place my hand. Science has confirmed that THERE IS NO SUCH THING AS INERT OR INANIMATE MATTER. YOUR emotional body is made up of millions of tiny electrons in constant movement. These form the atoms.

Now, if that motion of the electrons is in accord with the rhythm of your God-Flame and is in accord with the constructive radiation of some Master, that is fine! Then your emotional body deflects all destructive feelings projected at you, as well as all the discordant energy which you contact. You are then the Master-control of all energy wherever you are! In other words, your feelings ride upon the surface of Life, just as a cork floats upon the water and it requires no effort to sustain itself in that buoyant, happy state. However, if the vibrations of the emotional bodies are allowed to submerge that body beneath the buoyant poised happiness of the Master (uninterrupted harmony), the form of atom changes and you have a heavy and uncontrolled vehicle, which is part of the mass psychic and astral realm of mankind. IN ORDER TO REFINE AND PURIFY SUCH AN EMOTIONAL BODY, THE STUDENT HAS TO KEEP USING THE VIOLET FIRE THROUGH IT CONSTANTLY!

Ways to Govern Lower Bodies

Here, let me digress for just a moment. Sometimes it is quite amazing to me to see what some people think about my feelings. My goodness! If I had been the lukewarm, sad-faced individual mankind picture me to be, I NEVER WOULD HAVE GAINED THE VICTORY. Beloved friends, divine love takes great strength! To honestly love in the face of betrayal, abuse and distress, takes great strength. LOVE IS NOT A NEGATIVE, LUKEWARM CONSCIOUSNESS which mankind so often accept in referring to the shepherd and the sheep. The shepherd is eternally vigilant and his love for his sheep takes him into many dangerous places, believe me!

Now going back again to this emotional body of which we were speaking. If you find that yours is heavy, if it has explosive tendencies and if it has various qualities in it, apt to rush off hit or miss, according to the pressures of the moment, all right! Let us be calm about it! You have created it throughout many centuries of living. It is made up of intelligent electrons forming atoms and these you have collected through ages of time. They are yours! No one can take them from YOU,—PROBABLY NO ONE WANTS TO! The very fact that it is yours, that it is intelligent and that it can be, should be an encouragement to you. Students get so discouraged the moment they see any expression of the “Dweller on the Threshold” (their own human creation) —the moment they see something in their worlds which needs correction. They go along for many years, or perhaps a whole lifetime in joy and happiness, when their strong points are confirmed, but it is the weak points which keep you from your ascension!

Dear hearts, we come to give you assistance in correcting that which

is wrong in your world and to help you create strength of character. Every time you have a flare of discordant feeling, it blasts through your emotional body, setting all the electrons and atoms ajar. What happens then? After these little electrons and atoms get over their shock, they are vibrating in a broken rhythm and any of the psychic and astral realm around them, vibrating at the same rate, connect with them and become part of the substance of your own emotional vehicle. Meantime, through the natural proximity of the mental body to the emotional, the electrons of the mental body are also set into motion and you have another set of discordant vibrations.

When the mental body is inharmonious, it tunes into other discordant thoughts and draws those types of atoms into itself. This stirs up etheric memories— somebody did the same thing to you twenty years ago, and the etheric body starts into motion (audience laughed). Well, beloved ones, I am glad, you can laugh, but this is what happens to the average chela and student in a period of twenty-four hours, once if not more often. Then, all of these discordant bodies react upon the flesh and you have indigestion, a headache or some other physical distress. The flesh body will be prostrated for the time being. Then, all over again, you have to start to recreate a harmony among the members of your household.

The beloved Maha Chohan brought out a good point of instruction, last night. You know, sometimes it is necessary for us to come together and discuss the class work, as well as your progress, individually. He said one of us should be sure to bring to the attention of the students the fact that REPRESSION OF EMOTIONS IS NOT THE ANSWER to this endeavor to sublimate the outer self. You see, REPRESSION of thoughts, emotions or actions WILL ONLY CAUSE FRUSTRATION, which will react in either physical distress, or some mental or emotional block in consciousness. TRANSMUTATION OF YOUR ENERGIES IS THE SAFE WAY TO GET THESE VEHICLES INTO ALIGNMENT. Now, you can use various methods of transmutation.

If you are a very dynamic, powerful and positive individual and you have a great amount of energy to handle, you can transmute that energy in some type of constructive service. Those of you who are gifted musically, when you feel a surge of irritation approaching, still yourself for a moment and then do something good with that energy. Play the piano, write a kindly letter, do something you know will make someone else happy, do something constructive and make the energy in the emotional body render some good service, rather than allowing it to explode in the unbridled emotion of the moment.

Please, dear hearts, do this with the mental body as well. If you have

recurrent thoughts of self-pity or depression and if you continue to go back to thought patterns of impurity (some lifestreams have more to handle along this line than others), TAKE CHARGE OF THOSE THOUGHTS RIGHT THEN AND THERE! If your mind is inclined to dwell on the negative side of life, on either impurity, poverty or limitation of any kind, put your mind to work on something just the opposite. Give it a book to read, give it something constructive to do and RE-CHANNEL THAT ENERGY to where you WANT it to go! Give your mind constructive decrees to learn and repeat. As long as it wants to work, then give it one of the books of the Ascended Masters to read and let the energy work itself out harmoniously.

The same thing is true of the etheric body. Individuals who have a lot of leisure on their hands, particularly those in mental institutions, old peoples' homes, prisons, etc. those who have not enough to do, allow the etheric body to continue to spin out records of past injuries, which have caused those conditions to manifest. The entire atmosphere in and around those places is permeated with that effluvia of depression. This is also true of students when they go on vacation or have too much free time. If the etheric body has not been fully purified, there will come out of this subconscious realm many things which cause you to feel a sense of being "hard-done-by", through the injustices of other parts of life. THIS IS SOMETHING TO GUARD AGAINST. You can do the same with this etheric body as you did with the other bodies, either use your music or your reading, or render some constructive service to your fellow man. This will keep your etheric body from that disintegrating practice of energizing past errors.

If you will do this, beloved ones, eventually you will get the electrons and atoms of all your bodies polarized and harmonized long enough to let God, through you, fulfill himself. The Godhead must get all your vehicles to a point of uninterrupted harmony long enough to allow that beautiful Presence to fulfill itself in glory, through you, in dignity and in mastery.

*(Note: The "Causal Body" is composed of a series of circles of constructive colors around the individualized God Presence of each lifestream (the I AM Presence). This Causal Body is the repository of all the good created and developed by that lifestream, including that created by the Presence and Holy Christ Self of the individual at inner levels, before taking physical embodiment, as well as all the good created, developed and expanded by the human personality through all the centuries of embodiment here on Earth (or on some other planet; if the individual came here from another Star). Beloved Jesus says in one of the Gospels in the New Testament that man shall be accountable for every word that proceeds from his mouth, also that every "jot and tittle" must be accounted for.

So it is! *Not one electron or atom escapes* from experiencing the results of the vibrations sent out by, the individual. The Law of the Circle is absolute and ALL must return to its source one day—either for purification or reward. That which is GOOD is deposited in the Causal Body and that which is discordant (because of its very density and low rate of vibration) stays around the physical body and its environment. It is this accumulation of evil which forms the astral or psychic plane! This discordant accumulation (individual as well as the collective discord in the astral and psychic realm) must all be purified and redeemed one day, before the ascension can take place. This purification is accomplished through the constant, dynamic use of the Violet Transmuting Flame. When 51% of the energy of one's lifestream has been drawn into the Causal Body, qualified with perfection, then that individual's ascension into his Presence (his source of God's Perfection) has begun.

THE MASTERS OF WISDOM SPEAK ILLUMINED OBEDIENCE

MAHA CHOHAN

One of the main sources of unhappiness, frustration and distress experienced by mankind, is the capacity to disobey the divine directions of their own individualized I AM Presence and the Ascended Host of Light. This choice between joyous, willing, illumined obedience to the directions of that Presence and the willful or ignorant misuse of their free will to create imperfection, is a personal matter between each man and his God. However, until each member of the human race comes to a personal desire to do the will of God, he will not know permanent happiness or the joy of victorious accomplishment, which brings peace, abundance and spiritual expansion in its wake.

EL MORYA

Studying the activities of the nature kingdom, any man with perception can see manifest the absolute obedience to divine Law, which makes order, harmony, uniformity and security a portion of the gifts of that kingdom to man. The Sun, moving in its cosmic orbit around the Central Sun of the galaxy, obeys the Spiritual Law governing its service and does not go off on a “tangent” into a path other than that ordained, for the safety, illumination, nourishment and sustenance of its planets. In like manner, each planet follows faithfully and obediently the rhythmic motion ordained for it in its orbiting of the Sun. The oceans rise and recede in perfect rhythm. The seasons of ploughing, sowing and harvest follow each other in dignified and orderly procession. What is man, that he shall

ignore the Creator and, establishing a rhythm of his own making, contribute nothing but dissonance to the planetary scheme of which he is so small a part?

KUTHUMI

ILLUMINED obedience differs from BLIND obedience, in which there is acquiescence based on fear of punishment, disfavor and blame. The individual who obeys blindly, goaded on by superstitious dread of punishment, is no nearer the goal of union with divine will than the arrogant egotist who accepts the promptings of his own inner desires for glory and power, as the directions of the Godhead. Illumined obedience requires a humble, simple heart, a pure soul, a quiet mind, a patient and controlled emotional world and then, the rare faculty of impersonal discrimination, which weighs the directions given against the many pitfalls into which fall the intellectually proud as well as the fearfully superstitious.

PAUL, THE VENETIAN

Man has not destroyed the conscious connection with his own individualized "I Am" Presence in a moment, NOR CAN HE REPAIR AND RE-ESTABLISH SUCH A CONNECTION IN A MOMENT! It requires patience, persistence, PURITY OF MOTIVE, a well developed sense of discrimination and a constant vigilance at the door of the outer consciousness, so that no pseudo philosophy can find anchorage in the personal self. This but delays the development of the true, permanent communion with the I AM Presence.

SERAPIS BEY

The divine plan, either for the individual or the race, will always be something which will have a permanent, beneficial effect upon the unit and the whole. Many aspirants who have come to Luxor with a desire to develop and mature certain powers, are found to have a motive of personal gain. Individuals are few and far between who are willing to actually "lose themselves" for the sake of the humanity of which they are a part. It is amazing how much the personal ego desires powers, recognition, adulation and aggrandizement and, for these gifts, is willing to undergo severe disciplines, undertaking hard and tedious training. However, we who SEE, cannot waste the time, energy and facilities of our retreat to assist such individuals. THE MOTIVE BEHIND THE SEEKER FOR KNOWLEDGE IS CAREFULLY PLUMBED AND UPON THAT MOTIVE IS OUR ASSISTANCE GIVEN.

HILARION

If one watches the courtesy of the Elohim who answer the summons of the Sun of a System and offer their combined energies to create according to the divine pattern designed by such a Sun, one sees a marvelous illustration of the developed faculty of ILLUMINED obedience. For instance, suppose the Elohim, looking upon the pattern for a universe (with several planets) desired within themselves to “improve” upon such a divine plan and create, say, nine planets rather than seven, in a spirit of generosity. This would mean that the original Sun, taking into consideration its power of centripetal and centrifugal force, would have to generate more light substance, increase its aura and carry the burden of sustaining the two extra planets thus created. The Elohim bow to the wisdom and intelligence of the Sun, offering (in loving, willing, illumined obedience) to create the universe that Sun has designed, through their combined energies and powers, without any embellishments or ramifications of their own. Thus harmony reigns in the universe! The Sun is not required to expand itself in greater intensity of light, fecundating power and energy than originally designed. A PERFECT UNIVERSE IS THE RESULT!

JESUS

The ego of individuals often causes them to “improve” upon a divine design created, developed and externalized by some self-conscious Intelligence. These endeavors, often well meant in the extreme, disintegrate the original perfection of the design and greatly hinder its perfect expression. The divine courtesy observed by every Cosmic Being, Ascended Master, angel and deva who are members of the Great White Brotherhood, could well be developed among the chelas and students upon the path. Every member of the Brotherhood offers his entire, combined, gathered momentum of good to every other member, to develop and externalize the divine pattern of the brother who has received it from the mind and heart of God. However, WE NEVER DREAM OF INTRUDING OUR OWN CONCEPTS UPON THAT PATTERN but rather give the strength, light and power of our own “I Am” intelligence to such a pattern, helping to bring it to fruition as its original Creator desires it to manifest. Would that mankind had the same courtesy, consideration and wisdom in serving with their brethren, in the many causes which could be of such assistance to the race, as a whole. However, the disintegrating forces within the members of such a cause are often its downfall. To work together for a common cause, without the desire to intrude variations in its expres-

sion, is to follow the directions and the nature of the Elohimic Builders, themselves.

SAINT GERMAIN

There are countless divine ideas pouring each day from the heart of God into the receptive consciousness of Cosmic Beings, Ascended Masters, Angels, devas, elementals and human beings. Each of these ideas is a seed, containing, within itself, not only a pattern which can be developed into a beautiful manifestation, but also the actual spiritual nourishment and precipitating power which can assist in the manifestation. In the case of unascended beings, however, many share these ideas before they are developed beyond the embryonic stage and they are dissipated by the doubts, fears, jealousies and uncertainties of the confidants.

Other ideas (not held firmly by a developed consciousness) are modified, diluted, distorted and literally “torn apart” by conscientious and enthusiastic fellow-workers, who THINK they know how to improve upon the delicate idea received by one man or woman. It requires a great deal of spiritual strength, confidence, faith, one-pointedness, persistence and constancy for an individual to “share an idea”, in the hope of securing the added support of the voluntary energies of his fellow-man, without losing the purity of its form and the impersonal beauty, radiance and lasting beneficence of its effect upon mankind. PRAY FOR THOSE WHO ARE THE RECIPIENTS OF SUCH IDEAS,—BOTH that they may recognize them, accept them develop them and then, PROTECT them from either abortion, still-birth or distortion caused by the violently projected energies of well-meaning friends and fellow-workers, as well as the more lethargic resistance of the mass mind.

MONTHLY LETTER TO TRANSMISSION CLASS

March, 1956

Beloved Children Of God, Seeking A Personal And Planetary Resurrection:

I greet you and bless you for that very DESIRE to participate in the magnetizing, sustaining, radiating and manifesting of the Resurrection Flame through yourselves, your fellowman and the elemental kingdom of this sweet Earth which has so long been your planetary home.

As you have all, to some degree, contributed to the lowering of the vibratory action of the Earth and its attendant evolutions, you have the obligation and responsibility of restoring the harmony, beauty and perfection which the Earth once knew. The knowledge of the presence of the Resurrection Flame, its rhythmic manifestation through the nature kingdom each Springtime and its witnessed power as utilized by the Master Jesus, give you great opportunity to make of this flame a practical blessing to yourselves and your fellowman!

Proximity to any vibration causes the energy of unascended beings to unconsciously duplicate that vibration, unless they have become absolute Master of the energy in their own inner and physical vehicles. Proximity to UNDESIRABLE vibrations tends to LOWER the individual's personal vibratory action and, likewise, proximity to CONSTRUCTIVE, powerful vibrations tends to RAISE the individual's personal vibratory action. Thus when a chela CONSCIOUSLY directs his attention toward a God virtue and commands that his inner and physical vehicles ABSORB that vibratory action, that chela is blessed by such concentration upon the focus wherein that virtue (flame) abides. As the chela experiences the acceleration of the energies in his emotional, mental, etheric and physical bodies, to a degree he becomes a radiating center of that flame wherever his personal karma has caused him to temporarily abide.

As the process of breathing automatically expresses the absorption and radiation of life energy, it is easy to see how the earnest chela, transporting himself in consciousness to the Resurrection Temple, can draw into his vehicles (on the inbreath) the power of the Resurrection Flame. Then, on the outbreath, he can direct the substance, feeling and momentum of that flame forth to bless the planet to which he belongs. This is done under the direction of the Masters and angels when the chela is present in the etheric Temple of the Resurrection Flame but it can be done under the direction of the outer consciousness during the so-called waking state AT WILL. The more the students avail themselves of the presence and power of the various God virtues (flames) and the momentums gathered at the various retreats while they are particularly active, the more real, practical and sustained will become the result of such practices.

I AM hoping that the Resurrection Flame will become a reality in the feelings of the earnest chelas and a practical substance of qualified energy in each one's own world. By this he may transmute the various shadows and limitations of Earth-life into perfection! Let us see!
Maha Chohan

The statement for the Transmission Class of March 18, 1956, is:

1	2	3	4	5	6	7	8
I AM inbreathing th'victorious power of th'Resurrection Flame from Jesus and Mary							
I AM absorbing	"	"	"	"	"	"	"
I AM expanding	"	"	"	"	"	"	"
I AM projecting	"	"	"	"	"	"	"

Color of flame: Mother-of Pearl. Keynote of retreat: "A Perfect Day."
Hierarchs: Beloved Jesus and blessed Mary.

GROUP MATERIAL FOR TRANSMISSION CLASS

March 18, 1956

Beloved Friends Of Freedom's Resurrection To The Earth:

God bless you! From the individualized I AM Presence of each of you and from the beloved Archaii Hope I call in, through and around you a gigantic pillar of the Resurrection Flame, sustained and expanded forever, raising you, your world and all you contact into that full perfection we all had with our Father, BEFORE THIS WORLD WAS! Consciously accept this very real gift to you and ask your Holy Christ Self to ACCEPT IT FOR YOU, letting it outpicture in your world as a permanent improvement in all your affairs. This SHALL appear, for it is called for! It in God's most holy name I AM and, since GOD IS ALL THERE IS, there is no power to oppose this decree! Think this through and FEEL the great comfort of this realization!

"Earth Hath No Sorrow That Heaven Cannot Heal" is the name of a dear old hymn, which many of us have sung many, many times. It is absolutely true, of course. Since all originally came forth FROM God, then, following the Law of the Circle everything must eventually turn back TO God, there forever to remain in his ever-expanding glory always!

Nothing is ever hopeless! No disease is ever incurable! What appears to be so TODAY has a cure found for it TOMORROW and soon that partic-

ular disease or problem, as the case may be, has been mastered and its cause and effect obliterated from the screen of life. It has been said that “hope springs eternal in the human breast” and what a blessing that it does! “

There is a panacea for every ill, physical or otherwise, if mankind will persist until he finds it! One of those “panaceas” is the beloved Resurrection Flame which, perhaps because its action, is so obvious and so persistently rhythmic, mankind almost completely overlooks it as being available to him, individually, and as a people. That beloved Flame of Resurrection sweeps through all nature every Spring and stirs into dynamic action the life within the bulb and the seed. It causes that which seemed to be wholly lifeless, to be vibrant and beautiful again. What this flame does for the nature kingdom it CAN and WILL do for us IT WE WILL CO-OPERATE WITH IT AS THE nature kingdom does. Remember! That kingdom is absolutely obedient to the Presence and commands of the Resurrection Flame and so experiences the fullness of its victory. In the case of man, his refusal to so cooperate (because he has the use of free will) often stands in the way of his reception of that which would otherwise flow to him so freely.

THE USE OF THE STATEMENT of the beloved Jesus, “I AM the resurrection and the life” of whatever it is in which you wish to manifest greater perfection, WILL BRING THAT PERFECTION INTO YOUR OUTER USE if you will lovingly and faithfully cooperate with the Law of this Resurrection Flame. The use of the words “I AM” set that flame into dynamic action whenever and wherever you direct it, so USE that statement (if you want more supply, i.e. money or any good thing, for, remember, money is not all we need!) “I AM the resurrection and the life of my finances” (repeat 3 times and then follow with “NOW MADE MANIFEST.”) Repeat this statement thus for five minutes each time, three times each DAY—FAITHFULLY for thirty days. Go about this as systematically as you eat your meals—never miss once—and see what that flame will do for you, even in that short period of time. Remember, GOD ALONE is the giver of ALL GOOD and IT IS HIS GOOD WILL TO GIVE YOU THE KINGDOM—THUS said the beloved Master Jesus! Wouldn't you like to prove this true for yourself, as well as others? You can!

Frances K. Ekey

SUGGESTED DECREE

Beloved Mighty Victorious Presence of God I AM in me, O Thou beloved Immortal Threefold Flame of Eternal Truth within my beating heart, Holy Christ Selves of all mankind and to the beloved Archaii Hope, Spirit of Resurrection, do I call:

Sweep the Flame of Resurrection through all my world today,
Let its joyous, raising Presence ever with me stay!
Sweep it through me constantly, renewing every part,
Fulfilling all God's perfect plan that's held within my heart.
Surge the Resurrection Flame through everything in me,
Let it now reveal the full perfection I should be.
Let it make me young and lovely, healthy, too and wise
Drawing forth God's power to bring sight to blinded eyes.
Let me use its power on those who cannot hear,
Let that hearing be restored, perfect, crystal clear
Let this Resurrection Flame bring balance to each mind
That's lost its way, confused amid the shadows of mankind.
"I AM the resurrection and the life of all I need",
Whether that be manifest as money, word or deed.
In short, the Resurrection Flame is God's great gift to me!
Oh, Holy Christ Self, help me use it, setting all earth free!

SAINT PATRICK'S DAY

On March 17th, we have the great joy of honoring the birthday of beloved Saint Patrick. Some of our gentle readers may be familiar with his life and experiences. If so, you will remember that it was the great Being Victory who conversed with Saint Patrick on that hill in Ireland which Patrick had ascended, vowing he would not come down from that hill until he had been granted the dispensations of mercy and light which he made there for his people. In this particular experience, beloved Saint Patrick was subjected to the initiations of constancy and perseverance. Three different times, the beloved Victory told Patrick to return to the valley from whence he had come, content with his own soul's salvation. However, Saint Patrick refused so to do—continuing his demands on the Godhead for certain spiritual assistance for the people of Ireland. He continued to storm the gates of heaven, even in the face of the celestial "rebuff" from beloved Victory.

Finally, the initiator (Victory), smilingly told Patrick that he had passed his test of perseverance and constancy of endeavor and that God's grant of mercy and spiritual benediction for his people would be his reward. Grateful, indeed, are we today for the strength of this lifestream who, as beloved Saint Germain has counseled us, "kept on keeping on," until that for which he asked was at hand! We ask him now to help each one of us who needs similar strength.

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
with the Great White Brotherhood and Cooperative World Service

APRIL 1956

TO THE COSMIC SPIRIT OF RESURRECTION

Greetings and Blessings from every God-free Being who has used your resuscitating powers to energize the divine image of perfection and who has risen on such a Resurrection Flame to the rightful place of immortality.

Free-will has allowed self-conscious intelligence to create for themselves disease, decay and disintegration. The Spirit of Resurrection stands awaiting the invitation of those who truly desire to return to the Father's home! For every such an individual, this Spirit of Resurrection will act! Accept it! Use it! Through self-conscious endeavor perform the miracle of resurrection through your souls, your bodies, your homes and your worlds!

As we celebrate the resurrection of the beloved brother Jesus, we invoke all the powers of the Resurrection Flame to anchor into the FEELINGS of all mankind and become for them, not only hope of restoration to divinity, but actual manifest expression of that divinity! Open your minds and hearts, children of Earth, to the Spirit of Resurrection and BE FREE!

Thomas Printz, Editor

The Homes and Retreats of the Masters of Wisdom
THE TEMPLE OF COMFORT – Ceylon
April 15th through May 14th, 1956

Our Lord, Maha Chohan, is the Being whose obligation and responsibility to life is to supervise, guide, guard and assist those Beings who represent the seven rays of endeavor to the planet Earth. Each Chohan serving under him has a specific service to render in developing every angel, man and elemental who belongs to the ray which the Chohan has qualified to represent. Thus the comforting radiation of the Maha Chohan is received by the seven Chohans who serve under him and, in turn, each Chohan intensifies, energizes, qualifies and directs the specific radiation which he has been trained to create and develop. This individual ray pours out to all the evolutions above mentioned and stirs the spiritual nature of those who chose to come forth from the inner realms, taking embodiment upon the ray which a Chohan directs into the atmosphere and vehicles of all belonging to his evolution.

Every self-conscious intelligence has developed, through aeons of time at inner levels, specific powers and activities, which form the widest bands of colors in their Causal Body. Then, at the time when individuals are chosen to embody, just so many are chosen from each ray (according to the momentums of qualified energy which represent the color bands in the Causal Body). Each one becomes the responsibility of the Chohan of the ray he represents in the world of form. It is then up to the individual Chohan to help the embodied angel, man or elemental to release from his own Causal Body the fully gathered momentum of his talents, powers, gifts and activities for the blessing of the race, as well for his own personal development and mastery.

Many lifestreams (not awakened spiritually) come under the “mass protection” of the Chohan of their ray. Those who are ready to consciously endeavor to release from their Causal Bodies those gifts and powers of the ray to which they belong, come under the specialized individual attention of their Chohan. In times of national, international, planetary or universal crises, each of the seven Chohans endeavors to stimulate the desire within the outer consciousness of as many as possible upon his ray to reach up into their own Causal Bodies and draw forth the stored-up momentums of good which are there, releasing it for the enrichment of the emotional, mental, etheric and physical bodies of the people, as well as the protection and general advancement of the entire evolution. When individuals capable of such service are found, they are given every assistance by the Chohan who is supervisor

of their ray. When specific service is required and added stimulus desired, the Chohan has the right to appeal to the Maha ("Great") Chohan (who is his immediate superior) for advice and assistance in developing a chela of possible merit to the evolutionary scheme.

The Causal Body is merely the stored-up energy which has been used harmoniously by each lifestream. It forms the "treasures laid up in heaven" of which the beloved brother Jesus spoke. This energy will be released at the call and direction of the individual who qualified it, when he knows how to prepare his lower vehicles to be "conductors" of that already qualified perfection for the blessing of his fellowman. Such preparation requires the harmonization of his four lower vehicles and their purification by the constant, determined use of the Violet Fire of Mercy, so that this energy may flow freely through all the strata of consciousness to be benefited and raised by its presence and activity therein.

In Ceylon, there is a focus of great light, beneath a great tea plantation, hidden from the prying and curious eyes of man. Here the Being known as the Maha Chohan conducts his service of counseling and assisting his seven sons (the seven Chohans of the Rays), also helping to develop and mature such chelas as any one of these Chohans might recommend for special assistance.

The aura, made up of the energies of the emotional, mental etheric and physical activities of the unascended, must be sublimated, purified, transmuted and prepared to become a replica of the glory of the Causal Body. Thus the chela becomes a conscious "conductor" of the perfection of the ray to which he naturally belongs. Every individual takes embodiment at least once under the direction of the entire seven Chohans, in order to develop a balance and maturity of his own nature on each of the seven rays.

When an individual belonging to one ray by nature, takes embodiment under the direction of a Chohan of another ray, there is often a "conflict" between natural tendency and present duty. However, sooner or later, when the individual becomes master of the qualities and virtues as expressed by the entire seven rays, he returns to his own Chohan and completes his cycle of expression on this Earth plane under his own particular Chohan and Master.

INDIVIDUALS SHOULD NOT WORRY AND FRET TOO MUCH AS TO WHICH RAY THEY NATURALLY BELONG. All is under divine supervision and divine order and as long as such an individual lives his life in har-

mony, purity, peace and service, he is fulfilling his present “assignment” and cannot fail to return to the natural ray under which he will complete his service and return home to go out no more.

Our Lord Maha Chohan has the great responsibility of bringing comfort to all life – on every plane. To help him fulfill this obligation, the seven Chohans serve selflessly to develop and mature the seventh portion of evolution which is theirs to evolve and protect, (the Seventh Ray governing the Earth at this time).

Often, within the council chambers of the beloved Maha Chohan plans are discussed in unity and peace and the cooperation of the Chohans is pledged to one particular service which will be of impersonal benefit to the entire evolutionary scheme. Often, too, the individual Chohans apply to the wisdom and understanding of the Maha Chohan in order to accelerate their own individual services. He has never failed to give such assistance, not only willingly, graciously and generously but with tremendous interest in the projects of what he calls “his boys.” To the masses which make up the majority of the members of the human race, the elemental kingdom (including birds and the four-footed creatures, who have no words to express either their aspirations nor their desires) the Maha Chohan is a COMFORTING PRESENCE.

To the “few” who desire to help him in his service, he offers the training, discipline and self-control required to become comforting presences to others. Thus he prepares individuals to be “conductors” of his nature (the expression of the Holy Spirit) to mankind and the attendant evolutions developing in, through and around the planet Earth at this time. These “few” are usually recommended by the Chohan of the ray to which they belong or they may apply personally (through the Holy Christ Self) for such training at the Temple of Comfort. Those so applying are given opportunity for such individual attention of this Great Lord. From the directions and instructions given to them and due to the proximity of their souls to his person, they gradually develop a nature like unto his own. Thus they truly become the Holy Spirit in person, acting as outposts of his divine presence in the environment in which they abide.

Do you honestly desire to be such a comforting presence to ALL LIFE, irrespective of personal attractions and interests? If so, enter the Temple of Comfort. Stand before its Hierarch and be willing to comply with his directions. Then witness the effect of your endeavors in the world of those around you. You will require no other measure but your own influence upon the life around you to determine how much you

have achieved by such aspirations and consequent service in name.

*For full explanation of the Causal Body, please see March 1956 issue of "The Bridge to Freedom."

(Note: For further description of the Temple of Comfort, please see ("The Bridge to Freedom," Books 1 and 2).

THE ESTABLISHMENT OF FORCEFIELDS

By the Maha Chohan

When it was perceived that my beloved sons, El Morya and Saint Germain were going to endeavor to again present certain truths to interested people upon the planet Earth, I conceived the idea of developing (outside the Ascended Masters' Retreats) certain specialized foci of harmoniously qualified energy which could be used for the expansion of the nature of God through the emotional, mental, etheric and physical worlds of mankind. These foci would depend primarily, upon the interest, sustained enthusiasm and inspiration of those who desired to contribute to the impersonal welfare of the planet.

In the Ascended Masters' Octave, all Beings (while fully master of all energy entrusted to them by God) chose to specialize in the magnetizing, qualifying, expanding and sustaining of some specific service by which the race as a whole might benefit. It was thought worthy of the time and energy expended to try to obtain such an interest in groups of unascended beings and thus accelerate the progress of the entire evolution in, through and around the Earth.

Each Ascended Master retreat is dedicated to the expansion of some such divine blessing. In time, with patience, harmony, constancy and love, unascended beings will create and sustain some divine blessing which is a power that can be invoked at will by any and all other interested lifestreams in times of crises.

A FORCEFIELD USUALLY TAKES ON THE FORM (PATTERN) OF THE ACTUAL ACTIVITY WHICH A GROUP OF INDIVIDUALS DESIRES TO MAGNETIZE AND RADIATE FORTH FOR THE IMPERSONAL BLESSING OF ALL LIFE. This forcefield is as powerful as the interest, enthusiasm, faith and *constancy* of endeavor of its component parts (students). A forcefield will take on the shape (form) of the service to be rendered, without the conscious use of the mental faculties of the students, but this form becomes more powerful, more clearly cut out of universal

light and more enduring, if the mental faculties of the leader and the students help to sustain it in a certain definite pattern. If the pattern is constantly changing, according to the whim of the leader, it is more ephemeral and the responsibility for its sustenance lies primarily with the invisible builders of form. If, however, the leader and the students work together to create and sustain a particular forcefield, energizing it by their life (in visualization, song and decree) it gradually becomes more distinct, powerful and efficacious in the emotional, mental, etheric and physical worlds, wherein the greatest requirement for assistance presently lies.

In the early Golden Ages, these forcefields were well known to the priests and priestesses who officiated in the various temples dedicated to certain specific God qualities, i.e. protection, healing etc. The mass of the people often made pilgrimages to such foci of specialized blessing and benediction, bathing in the fully gathered momentum already established there by those dedicated to this service of magnetizing, sustaining and radiating their gifts of life for the impersonal blessing of all mankind.

Again, as we enter the gates of the Golden Age of Freedom, we are endeavoring to stimulate the desire within the hearts of the “few” to so establish such “forcefields.” Thus, each group becomes a radiating center of certain God-virtues, also learning the power of concentration and impersonal service.

Mankind en masse suffer from many limitations and the range of possible services is limitless. Usually, in the unascended state, one individual strongly impressed by a desire to help his fellowman, will catch a glimpse of one particular service and then, in turn, through the power of persuasion, gather around himself others who are interested in a similar project. These forcefields are like beautiful flowers upon the person of the Earth. In time, all chelas will know what specialized activities are magnetized at certain points upon the Earth's surface and they, in turn, may ask for the assistance of such already established forcefields to assist them in particular local crisis.

The purpose of the establishment of such forcefields is not to exploit the personality nor the efficacy of any individual or group but to so magnetize and sustain certain God-qualities, so that they are always available for the use of all. It is so with the ascended host who offer all of their momentums of perfection to any one member, when universal progress will result from such selfless service.

The Transmission Flame Classes were also instigated at my humble

suggestion, so that the individual forcefields might magnetize into their momentums the already gathered cosmic momentums of the Ascended Masters retreats. This is done, primarily, through the inbreathing of the substance of the flame and virtue of the retreats. Then, the sincere and selfless students (using the magnetizing center of their forcefields) expand these virtues into their localities (through the expansion and projection of their breath). Thus, unascended beings are learning to work with and expand the service of the Ascended Masters' Retreats.

We are very, well pleased with the sincere interest in this endeavor and the kindly cooperation with it by so many individuals across the face of this dear Earth. The forcefields in time can be made permanent and will remain long after the original leader and his group have ascended into the realm where we abide. I RECOMMEND MOST STRONGLY THE NECESSITY FOR EXAMINING THE MOTIVE BEHIND THE ESTABLISHMENT OF SUCH A FORCEFIELD, as well as recognizing the need for absolute unity, cooperation, constancy of endeavor and true loving desire to impersonally help the race in its uphill climb back to its God-estate.

The projection of the consciousness of the students into the actual retreat does not neutralize the activity performed by their physical bodies which are actually breathing the flame from that retreat into and out of their bodies. It rather increases the capacity of each such a one to be a "conductor" of the light and power of that retreat into their local orbit.

If you have not yet decided upon the type and quality of your group and individual service, I strongly recommend that you soon do so! The world and its people require health, peace, illumination, financial freedom, faith in God, liberation from the many "woes" that spring from conscious or unconscious allegiance to the "shadow-world!" Become a forerunner of an era and age wherein THE TEMPLES OF THE SACRED FIRE WILL AGAIN BE MANIFEST IN THIS PHYSICAL APPEARANCE WORLD. All large activities have a "small beginning," from the embryo to the seed idea of a planet, a universe or a galaxy! The importance is in beginning now!"

(Note: To sanctuary and group directors: If you have a form for the center of the forcefield of your group endeavors, please have it drawn on paper as soon as possible and thus give your students a pattern to visualize. Send a copy of this forcefield, together with the explanation of the particular service you desire to render through it, to Mrs. Frances K. Ekey (who is in charge of group activities), care of "The Bridge to Freedom," P.O. Box 335, Philadelphia (5) Pa. Thus we shall learn of your marvelous endeavors toward the establishment of various foci of God's virtues on the Earth. We shall also have a physical repre-

sentation of your forcefield before us, upon which we may call on behalf of any who might require the particular assistance of your momentum already gathered. Thank you! Your editor.”)

THE CONSCIOUS QUALIFICATION OF ENERGY

By Beloved Mother Mary

July 1, 1955

Beloved children of God, I who have guarded, guided, loved, protected and sustained you through many, many ages, bring to you today the blessings of our beloved Jesus, the radiation and the presence of the beloved Uriel and that particular vibration of divine love which changes hate, bitterness and distress into peace and well being, will you accept it, please? The negative qualities mentioned above have caused the accumulations of hardness in both the mental and emotional bodies.

As warmth entering into a room changes its atmosphere into a more pleasant one, raising the vibratory action of that atmosphere into comfort, so does the radiation of grace and pure, impersonal divine love carry through the lifestream of an unascended being, the transmuting action of the Sacred Fire to energies which have been solidified through many bitter experiences in the course of the ages. These are the causes of all “hard feelings.”

Beloved ones, I have been asked to present to you the inner pattern of this week's activities in their very simplest form. They are the creation by conscious application of a spirit of grace, kindness, tolerance and understanding by which true world brotherhood is expressed. This spirit of grace is a substance! It is a radiation and a pressure of energy! Just as the pressures of discord, the whirls of anger and those various discordant qualities entering into the world of another lifestream can cause distress, so do pressures of a constructive radiation bring peace and healing.

The mastery of your own energies becomes the path for your own individual ascension. The mastering of those energies is the process which has been referred to as the “darsham” of the East, as the “grace” of the Christian dispensation and as the Violet Transmuting Fire of mercy and freedom of the New Era under my beloved friend, the Ascended Master Saint Germain.

Those of you who have studied through the years well know that

energy is powerful; that there is no beating heart (from the tiniest infant lying in the cradle to the most elderly lifestream awaiting the summons of the Karmic Board through so called death) who does not draw energy (life). The magnetic center within the heart, drawing the electrons from the I AM Presence, creates a focus of energy enabling the individual to have thoughts, feelings, etheric memories and physical acts.

You are dealing primarily with energy. In fact, you are “energy centers, vibratory centers” sending out into the universe that which is a blessing to life or that which adds to the distress of the world. You chose, as did every man and woman who is upon the planet today, to use life to experiment with energy. You chose to learn through trial and error what energy could do. The returning circle of that energy which carries the stamp of your lifestream (the electronic pattern which can bring you either blessings or distress in the experiences of your world according to the feelings with which you qualified it when you sent it out.)

Now, beloved ones, we come to a point where we desire some members of the race to understand just the simple principle, that ENERGY DOES NOT ACT EXCEPT UNDER THE DIRECTION OF SOME SELF-CONSCIOUS INTELLIGENCE. If you are going to let the bodies which were fashioned for you by the great builders of form direct your life, you will have to handle the return of the indiscriminate qualification of the energies which the etheric, mental, emotional and physical bodies have catapulted forth into the universal.

INSTEAD OF THIS, YOU SHOULD GIVE THE DIGNITY, AUTHORITY AND POWER OF DIRECTING THAT ENERGY BACK INTO THE GLORIOUS THREEFOLD FLAME OF GOD WITHIN YOUR HEART. Your vehicles were fashioned, blessed hearts of light, as instruments through which you might create as the Godhead himself creates, through which you might pour forth into the mental, emotional, etheric and physical realms, the perfection of your own I AM Presence. THESE BODIES WERE NOT CREATED TO BE INDEPENDENT, INDULGENT, REBELLIOUS, GLUTTONOUS VEHICLES WHICH STEAL THE ENERGY OF THE GODHEAD AND SEND IT FORTH TO DISTRESS LIFE!

Now, in the action of “darsham,” what do you do? Within the contemplation of your own blessed heart, within the “closet” of which Jesus spoke, you find the “center” of your being, that “center” which has been referred to in previous terminology as “The Secret Place of the Most High.” It is the immortal Three-fold Flame of God which lives

within your heart. THERE is enthroned your divinity, era after era, age after age, patiently choosing to inhabit and sustain your form, hoping for the opportunity of fulfilling itself through the vehicles which it holds in form by the very magnetic power of its divine love and keeps it from dissolution.

When you find that “center” within your heart, when you enter deep within that immortal flame and you can accept the mastery which is there, then in dignity and firmness you can put your house in order. You know, you are afraid of your own bodies! You are afraid of what you will do under stress and strain, of how your thoughts and feelings will act and of how the etheric memories will surge forth. Therefore, you are not fully master in your own home! Can you not give to this Three-fold Flame (this I AM Presence within you), the confidence to control the servants of your household? Can you not release yourself from the tensions which are so evident, and allow the Lord of Life (the very God of heaven!) to assume the mastery of your vehicles? Holding your mind up to your own I AM Presence, use it to receive its divine ideas, use your emotional body to radiate forth whatever constructive quality is required in your homes at any given moment, in your group activities, in your nation or in the world.

The emotional body was created primarily in a very pliable and elastic form so that it could be expanded until it becomes planetary in size, if it is a good “conductor” of that which mankind needs. All of the world, beloved ones, is your schoolroom. There will not be a day pass in which you will not meet energy from the consciousness of individuals who have no idea of mastery and control, which will either change your energy into a like turmoil or which you will sublimate and transmute, NOT BY WILL BUT BY LOVE!

When you are dealing with individuals who require instruction on the Law, when you are dealing with people in pain and distress, in fear or in anger, the very first thing you must have is some capacity to utilize the activity of “darsham” (grace) and draw from your Causal Body God-qualified energies which fill the atmosphere of the room and are the master control, BEFORE YOU ATTEMPT YOUR SERVICE. When you come to the service of handling great numbers (and who knows, in the days and years ahead, how many lifestreams may be saved or otherwise, according to the development of this particular activity within you), are you going to be able to connect your emotional world with mine, your mental world with Lord Maitreya, your physical bodies with Lord Michael? Are you going to be able to plant your feet firmly upon

the rocking surface of the Earth or the rushing tides of the sea as Jesus did, commanding and securing Peace? Are you going to be a comfort, a balance, a protection, a healing “conductor,” or are you going to be swept into the chaos of the uncontrolled?

Beloved friends, this is a very serious and important activity. Somehow we must reach your outer mind to a point where the holding of your emotional balance, the holding of your peace, the holding of that spirit of good-will and tolerance becomes important enough to you so that you will relinquish the rights of self (if necessary), and learn to be the outpost of ourselves which you profess and decree that you wish to be.

Cosmic moments come and go! I have lived through many! In those moments, if you are not prepared and at peace, you are temporarily cut off from the Brotherhood as a channel for their outgoing controlled force which would but energize your chaos, were they to pour it out to you when you were in distress. The Great and Holy Brotherhood is one and within it is all the gathered consciousness of every Being who has attained the right to become a member. Within it is all the light, love and momentum of Jesus' victory, all the fire, strength and will of El Morya, all the wisdom and kindness of Kuthumi, all the tolerance and selflessness of Paul, the Venetian, all the purity of Serapis, all the scientific knowledge of Hilarion and all of the gathered momentums of the power of invocation of beloved Saint Germain.

Every one who enters that Brotherhood gives his all to it. It is enriched by each one who has ascended and becomes a part of it. That total momentum of light is accessible and available at the moment of any cosmic crisis. The Great Cosmic Silent Watcher, may see certain vortices of destructively qualified energy. He then notifies local Silent Watchers of this situation. These individual Silent Watchers in turn often use the bodies of harmonious chelas as a conductor to funnel constructively qualified energy into these destructive vortices, transmuting their cause and core. In this case, the fully gathered momentum of the Great White Brotherhood may be channeled through the mind, feelings, etheric body and physical body of a harmonious chela. If the particular chela who has been sponsored by some member of the Ascended host is in a condition of distress, the great Seraphim have to look elsewhere to find some harmonious lifestream, perhaps one wholly “unconscious” of the Ascended Masters and therefore not as good a “conductor” as a student who has used the purifying Violet Flame. Through such an “unconscious conductor,” a thread of benediction flows, whereas a con-

scious chela would be a great conduit of light. Do you see?

The “unconscious conductors” have served us often through the ages and they are blessed indeed! However, just as the inside of a pipe becomes corroded and filled with impure substance, so does the consciousness of the average individual become filled with impure thought, feeling and etheric substance, unless there is conscious use by that individual of the Violet Fire which compels the purification of their individual lifestreams. Therefore “unconscious conductors” do not make as wide an open door for the Masters' service as do conscious chelas who have used the Violet Fire of purification. IT IS A TRAGEDY INDEED FOR ONE TO HAVE WORKED TWENTY YEARS WITH THE VIOLET FIRE AND, AT A COSMIC MOMENT, BE UNFIT TO CONDUCT THE PROTECTION WHICH MIGHT SAVE A CITY! Preparation, application and purification are magnificent because, through the forcefields of your groups and through your individual selves, they create a wider and wider conduit of light. The radiation and pressures of the Great Ones, flowing through them are a great blessing to mankind.

Remember my words! Do less if you must, but hold your state of grace, hold the harmony, hold the peace, hold those feelings of love and tolerance so that you may be ready when you are needed to serve. You are going to deal with great numbers of people in the near future, particularly when you learn to become a “conductor” of the light and gifts of your Causal Body. Your radiation will be different from that of any other person because the creation of your Causal Body has been an individual accomplishment. Your Causal Body has been builded from the day you first received conscious life. All through the ages which you have lived, your Causal Body has grown like a beautiful flame flower, an aureole of living color. The services you have rendered, whether they have been patriotic, educational, philanthropic, artistic, scientific, or religious, have become your gifts to the Earth. This momentum of good awaits release through your vehicles as a radiation of light which can benefit the Earth and her people.

Now, why let the glory of that Causal Body function only in the inner realms while you are in limitation, while you are experiencing age, disease and distress down here, when it is so easy to consciously call forth from your Causal Body into your magnificent Tubes of Light, the qualities of perfection which you require to bless life? Why do you not externalize for the blessing of the race that which you have prepared yourselves for centuries? Why do you not this day, entering into that “Secret Place of the Most High” (deep within the Sacred Fire in your

heart) begin the release of your own harmoniously qualified energies of life which abide within your Causal Body, awaiting your call?

When you master that “art,” when your aura is so very comfortable to others, when it conducts instantaneous healing power, when you can give mankind that which they seek, you will need the strength to stand and continue to pour out your gifts to life and not be “smothered” by the greedy and frightened energies of those who will come to you for help.

Build today, my friends! Build today! Those of you who are Group Directors, use this activity in your class work. Use it! Where you have a group of harmonious students, there is no limit to the activities which can be released from the Great White Brotherhood to benefit the Earth at your call. Before you begin the services of your group, silently call through the energy in the room those Flames of Purity, Peace, Understanding and Comfort and then you can more easily accomplish that which should be done.

For those who have been asking—every state in the Union has a Silent Watcher over it, a Being who is protecting the interests of that state and a Being whose pressure of energy influences for good the government and the people of the state. This is true of all countries and their provinces.

I love you beyond all words to describe. I have worked with you so often individually and collectively through the ages. I speak to you today hoping to reach your minds and your hearts.

THE MASTERS OF WISDOM SPEAK THE USE OF THE SPIRIT OF RESURRECTION

MAHA CHOHAN

Life, in its primal essence, is obedient to the qualification of self-conscious intelligence (ascended or otherwise), those beings who have chosen through their own thought and feeling centers to develop a momentum of the resurrecting power give that power as an impersonal heritage to all life following them upon the pathway toward redemption. Thus, there are momentums of healing, of peace, of illumination, of resurrection, etc. which can be magnetized and utilized by any and all kingdoms in order to develop and purify their individual worlds, as well as the kingdom to which they belong. Such is the Spirit of Resur-

rection.

Many of mankind know nothing of the presence of this spirit and fewer still know how to tune into that spirit and make it their own. The nature kingdom, of which I am a supervisor, opens itself eagerly, willingly and obediently to the infusion of this spirit and, through it, manifests the so-called “miracle” of resurrection in each Springtime. These comparative few who have already made their ascension from this Earth (desiring within themselves to resuscitate the energies of their worlds) have also used it and their freedom and ascent from shadows have proven its efficacy to act for them. At this Easter Season, when we acknowledge one who proved the power of the Resurrection Flame as the victorious “overcoming of the last enemy” (death), we do hope some others will choose to invoke and utilize this flame also and find the practical results in a resurrected soul, mind, body and feeling world.

EL MORYA

Within the soul of man there lives the immortal Threefold Flame of Life which contains within itself the potential power of ALL the flames of divinity. Even as within coal, wood, peat and other materials which ignite when exposed to an already manifest flame, there is combustible material which awaits the “spark” to become flame in themselves, so within the immortal spark of divinity in every man is the capacity to respond to and create in ever expanding intensity the divine flames of redemption. The mercy of the cosmic law is in the provision of such already established flames which can be invoked, (when desired) to stir the smoldering embers of divinity through the soul of one determining to be free! Happy is the man who chooses to use these flames and be free of the shadows, limitations and distresses which occur when the light burns dimly and the darkness of appearances encroaches upon the experience life of the self.

KUTHUMI

As within one drop of water all of the elements of the ocean and sea are present, so within one immortal spark (hidden within the recesses of the soul) all of the elements of the Sacred Fire abide, waiting to be called forth for the redemption and resuscitation of the soul and outer self. Many sincere students look without for redemption rather than within. It is to turn the attention and consciousness of the student back to the flame within the heart, that we come. Here, contemplating

the potentialities of his own immortal flame of life, the student quickens to a realization that from this individualized flame there will flow whatever qualification of the Sacred Fire is necessary and expedient to set his personal world in order, as well as, to become a part of "The Light of the World."

PAUL, THE VENETIAN

Some people call the immortal Flame of God within the heart, "The Presence of God," others refer to it as the Holy Spirit. Regardless of the name they choose to give it, it matters much the amount of freedom we allow this Presence to act through the outer personality. All in our octave have used certain aspects of this flame and have achieved freedom liberation and immortality thereby. Each such a one adds to the cosmic power of the impersonal flame, whether it is of healing, illumination, resurrection, precipitation, faith or peace.

This entire heritage becomes the common property of all who follow upon the path, if they accept its reality and choose to use it. Thus you have the privilege of utilizing the life energies of those who have become that which you desire to be, if you can be humble, grateful and desirous of "reaping where others have sown." Many, beset by the sin of spiritual pride, prefer to sow for themselves and reap their meager harvest without the assistance and loving cooperation of the Elder Brothers and Sisters of the race. Because of free-will, all are given opportunity to walk alone or in the company of the Elect.

SERAPIS BEY

The Resurrection Flame is a mercy provided by life and sustained by those beings who, seeing the shadows of limitation and distress, knew that sometime and somewhere individuals would cry out for a way back HOME. These individuals are at liberty to utilize this Resurrection Flame which ignites the potential power of resurrection within the individual's own heart and thus experience a personal resuscitation of the powers they knew in the heart of the Father-Mother God before the world was manifest as mankind knows it.

As any trained woodsman knows, it is more difficult to kindle a fire with wet timber and no externalized flame than with dried timber. In like manner, it is more difficult to kindle the powers of divinity within the soul, feelings, mind and body of one whose vehicles of expression

are not already receptive to the flame, than it is to draw forth the powers of divinity within one whose vehicles are prepared for such a transformation. The cosmic momentums of the flames which are acknowledged by the Spiritual Hierarchy, fed by their breath, sustained by their guarding presence, can do much to ignite the spiritual spark within a man, if he chooses to accept their presence and invoke their assistance in his own behalf. For this reason, the Spiritual Hierarchy has chosen to point to the foci of the Sacred Fire already established and available for all who choose to use these momentums in such a manner.

HILARION

Even medical science affirms that, although they can do much to assist in the preparation necessary to allow the healing of the body to take place, the actual healing comes forth from within the patient. For instance, the good doctor “sets” the broken leg but relies upon the intelligence (healing power within the body) to perform the so called “miracle” of knitting the bone and restoring mobility and usefulness to the injured member. How many good practitioners have said that it is the will to live which performs the actual alchemy of restoration and healing? This is likewise true of the spiritual development of the student. WITHIN THE IMMORTAL FLAME OF GOD ANCHORED IN THE HEART, IS THE POTENTIAL POWER OF EVERY FLAME. The will to connect with the already established flame of a certain quality and virtue, assists the earnest and sincere student to develop the “spark of divinity” into the flame of resurrection, healing, illumination, peace or whatsoever the student requires most at any moment upon the path. Ignoring the power to ignite (which already lives in the Sacred Fire), makes the development take longer and is an unnecessary hardship upon the spiritual path back home.

JESUS

The Resurrection Flame is a power which has been developed and utilized by many of us in the endeavor to prove that mankind can, at will, use it for their own personal redemption. The first requisite in such conscious resuscitation of the personal nature is to acknowledge that A FOCUS OF THAT RESURRECTION FLAME IS WITHIN EACH HUMAN HEART. The second requisite is to humbly accept the already established momentum of this Resurrection Flame to kindle, develop and expand the focus of that flame to a point where it literally “catches up” the ener-

gies of thought, feeling, memory and physical decadence and restores all the vehicles of expression to their natural estate as “conductors” of the God light. What I did, I promised all men could do. When will man really accept the promise within those words, which surely I proved in my own experience? I patiently await that day!

SAINT GERMAIN

My service in the Great White Brotherhood is to teach the conscious power of invocation of already established momentums of the various virtues belonging to the Godhead, for the stimulation of the dormant divinity within mankind. My activity will only appeal to those who believe that other beings have developed and sustained these virtues and that the momentum of their service is available to those who desire to invoke their powers and use their gifts for their personal blessing as well as the blessing of the evolution to which they belong.

There is nothing mystic or occult in the presence of the flames of God which have been drawn and magnetized by lifestreams who have freed themselves from limitation by their use. Likewise, there is nothing mysterious in the magnetizing of these virtues and momentums to stimulate the expression of divinity through every lifestream. It is a science, exact and irrevocable in its activity, for those who desire to use it. Most of the civilized world benefits from the discoveries of electricity and other gifts of science, although few used their personal energies to develop these gifts.

On the spiritual frontier, there are also tremendous foci already established and equally available to the entire race. This is a heritage left by the Great Ones who drew, magnetized and sustained these gifts for the use of those brave enough to experiment with their presence in the universe. Such a gift is the full, gathered cosmic momentum of the Resurrection Flame. The nature kingdom uses it (not knowing the full details of its inception and sustenance). For the most part, mankind have not chosen to believe in its presence nor to draw into their own spark of divinity the practical, working activity which could transform all shadows into light.

For the few willing to experiment with the power of the Resurrection Flame, we all stand willing to assist in directing this flame from the heart of the Sacred Fire through the individual soul, stimulating the potential Resurrection Flame within them! I wait to see who among you will do this! The Sacred Fire is merely concentrated energy, qualified

with a virtue and power which is available to help any man to develop his own potential divinity. It is called "Sacred Fire" because it is God-qualified. Its potential is within your own human heart. Call it forth, bathe in the full, gathered cosmic momentum of this flame given to you freely by others who have fed it by their faith, sustained it by their constancy and expanded it by their use of it in their personal redemption and planetary or universal service. I challenge you to TRY! We shall see!

MONTHLY LETTER TO TRANSMISSION FLAME CLASSES

By the Maha Chohan, April, 1956

BELOVED CHILDREN OF GOD, SEEKING COMFORT:

Comfort from my heart is yours for the asking! How have I attained the position (unenviable in many respects) of becoming responsible to transmit comfort to every part of life, to electron, mineral, animal, bird and man? It is because I desired within my heart to be a comforting presence to all life. My desire was coupled with action (the necessary self-discipline and preparation) which qualified me for this position. Each one of you today is qualifying yourself in like manner to become some such "conductor" of a God-virtue to the evolution which you now, or in the future, will serve.

I learned something of the nature and feeling of divine comfort from contemplation of those whose energies already had become comforting presences and, in time, I too could generate and radiate at will a comforting feeling to the energy around me. One day, the call came! I was found ready to be the focus of this virtue and I took the vow, joyously withal, fully cognizant of the responsibility of such a service. I shall remain this focus of divine comfort to life until another evolves to a point where he may be such a comforting presence and I am released from this service to a greater one.

Today, you enter the halls of the Temple of Comfort at Ceylon. You breathe in its essence! Throughout each day's activities you can saturate your own energies with that essence, fill your tubes of light with my feeling of comfort and be myself in action to all you contact in anyway. Thus you and I become one!

The statement for the Transmission Flame Class of April 21, 1956, is:

1 2 3 4 5 6 7 8

I AM inbreathing	Maha Chohan's	feeling	and healing	power	of his	Comfort Flame
I AM absorbing	“	“	“	“	“	“
I AM expanding	“	“	“	“	“	“
I AM projecting	“	“	“	“	“	“

Color of flame: Crystal and pink. Hierarch: Lord Maha Chohan.
Keynotes: “Homing,” and “At Dawning.”

GROUP MATERIAL FOR TRANSMISSION CLASSES

Francis Ekey, April 21, 1956

BLESSED FRIENDS OF GOD'S PEACE:

In the name and love of the presence of Almighty God Fight within our beating hearts, whose holy name is “I AM,” we call directly to the great Elohim of Peace today to seal you and all you love, forever in oceans of the golden flame and fiery essence of Cosmic Christ peace, saturating your entire beings and worlds and bringing everything into perfect divine order through divine love. Here and now, still yourself for just a moment and feel yourself enveloped in dazzling golden flame for about nine feet in diameter. Without tension, try to feel its action and rest in that feeling. Perhaps at first you will only be able to concentrate for a few seconds, but if you will take a few moments every day to call this golden flame around you, you will experience a great relief from the hustle and bustle of daily living. Nothing in this world can be a blessing to you unless you accept it so TRY this and see what it, can and will do for you.

Did you ever think for even a few moments what the quality of peace means to all life, no matter in what form that life may be? Somehow peace seems to have become associated mostly with Christmas and the angelic command for “Peace on Earth.” What can be permanently accomplished without peace? The Great Ones have told us that the prayer which goes up most often from the mankind of this planet is “O, God! give me peace.” (this is spoken in every dialect and language—sometimes just in a silent cry from the heart). Health cannot be long sustained without peace, real happiness is never found without it, business cannot expand without it, the nature kingdom cannot provide the necessities of life without it and so on.

In paintings, we speak of farm scenes as being “so nice and peaceful” and today's trend in living is to move farther and farther away into the country-suburban living, away from the traffic and noisy factories.

It is considered beneficial to raise children in such an environment and, while these outer provisions are all steps in the right direction for happier living, yet how many people realize that the secret of a peaceful mind, body, home and world lies in the God-control of his or her own feelings? This is a secret which is well known in the Orient, where the pace of living is less rapid than in the Western world. Folks everywhere are more and more desirous of having “world peace” but THAT CAN NEVER COME AS A PERMANENT BLESSING TO MANKIND UNTIL OUR INDIVIDUAL WORLDS ARE AT PEACE (with our own loved ones and those with whom we come in contact).

The whole is made up of its component parts and until the “parts” are peaceful (without individual wars), there can not come permanent peace for the whole. Everyone loves peace, everyone wants it for himself, therefore it becomes not only our duty but our priceless opportunity to try to hold the peace, not only for ourselves, but for each other, when we see signs of irritation and distress begin to appear in another's world. The tendency of the personality is to mirror the feelings of each other, if one becomes disturbed, those around that one resent that disturbance of their peace and become inharmonious themselves. As God's peace-makers, let us reverse this. “Blessed are the peace-makers, for they shall be called the Children of God” said beloved Jesus and he himself was known as “The Prince of Peace.” The ability to hold his feelings at peace through unbelievable attempts to take it from him, was his practical victory over the daily trials and distresses in this world of form. We are told that: “He was tempted in all points like as we are, and yet without sin.” Jesus also said: “The things that I have done shall ye do also.”

Think a little about peace, about how comforting and restful it is and determine, first, to have it yourself. Then you can give others that feeling too, for the very atmosphere of your world is contagious to those around you. Start in a small way – determine to hold uninterrupted peace and happiness in your own feelings for just five minutes, then ten minutes and so on. When you can do this, it will be so comfortable and pleasant you will not want to ever be disturbed in your feelings again. TRY! TRY! TRY! This is the “watchword” of beloved Serapis Bey's retreat for you never know what you can do until you sincerely TRY! Then, “keep on keeping on” until you are a peacemaker of God to his children!

SUGGESTED DECREES

I AM! I AM! I AM! the resurrection and the life of the Ascended Jesus

Christ feeling of cosmic Christ Peace—that peace which surpasses the understanding of the mind—which I had with God in the beginning, before the world was—eternally sustained and ever-expanding. (Repeat 3 times.)

* * *

In the name of my very own beloved I AM Presence, anchored right within my heart, I call to the beloved Elohim of Peace. Take immediate, complete and eternal command of all the energy in my feeling world. Expand your ray in my forehead until it fills my world for at least nine feet around me on every side, saturating my feelings with your feeling of Cosmic Christ Peace. Make me truly feel it and then sustain and expand it for me until I become yourself in action everywhere I move—a real peacemaker among the children of our heavenly father. I consciously accept this done right now with full power! (Repeat 3 times.)

FRATERNALLY YOURS

Dear Editor: Enclosed are a couple of newspaper clippings for which we are so grateful as they prove the efficacy of our decrees. We have been calling for some time for the water element and especially the purification of our rivers. On Thursday of last week and the week before, we spent considerable time directing our forces through projected consciousness into an ice jam in the St. Clair river near here which has threatened the water supply. Last Thursday, particularly, we endeavored by visualization to create a stretch of open water in the center of the river in order that the ice might move out harmoniously. The enclosed clipping is from last Friday's paper. We are so grateful for the assistance of the Great Ones. We thought that these clippings might prove encouraging to others H. L. Canada.

(Excerpts of clippings referred to above: Free Press Sarnia Bureau: "The great ice barrier remains intact from shore to shore at Courtright and Sombra but farther south, at Port Lambton, *a section of open water has appeared in the center of the river.*"

"The Thames River was declared the number one pollution problem in Western Ontario. At an executive meeting of the 5000 member Ontario Federation of Anglers and Hunters in Hotel London yesterday the group adopted a resolution to get behind all projects in the area working toward a cleanup of the river and to keep after towns along the river shed to install sewage disposal plants to prevent pollution.")

Editor: This is proof of the efficacy of the Law called into action by a group of earnest students, using their collective energies impersonally for the benefit of the locality in which life has placed them with the hope that they would render just such service. Congratulations! If you could see the release of power from your forcefield (which is established over the sanctuary where your group meets rhythmically) into that ice-jam for which you were calling, your hearts would rejoice. These activities are real and practical in the extreme!

Suggested Decree

Beloved Mighty Victorious Presence of God, "I AM," and beloved Ascended Master Jesus Christ! Place upon my forehead this instant, sustained and expanded forever, a disc of the Golden Flame of your feeling of God-peace and place a miniature of your Luminous Presence within it, in blazing white light. Place a disc of this description over my solar plexus, larger in size. See to it for me that these protective discs of light keep my world entirely free from doubt and fear and, by picturing these activities placed upon those I contact, see that it keeps their worlds free from these distresses also. I consciously accept this done RIGHT NOW with full power, sustained and expanded until all are wholly ascended and free. I thank you, bless you and love you, beloved Jesus!

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
with the Great White Brotherhood and Cooperative World Service

MAY 1956

TO THE COSMIC SPIRIT OF MAY

Blessings upon you, blessed spirit upon whose sweet essence so many individuals among our company have ascended out of the toils of human shadow into the light of Eternal Day!

We do invoke the stimulating presence of your radiation to flow through the souls of men, resuscitating their spiritual selves which contain so much of the beauty and glory of God's kingdom.

In this season when the nature kingdom expresses so fully the glory of renewed life, beauty and perfection, let mankind also experience the joy of a "rebirth," each man a God, each woman a Goddess, each child a potential cherubim of Light!

Many of us remember the month of May as a month of personal liberation and victorious God freedom! We ask that all mankind may be sensitized enough to accept that which you offer and then utilize your ascending rhythm to rise above all limitations into full freedom!

Thomas Printz, Editor

The Homes and Retreats of the Masters of Wisdom

CHATEAU DE LIBERTE, HOME OF BELOVED PAUL,

THE VENETIAN MASTER

May 15th through June 14, 1956

In the southern part of France is one of the most beautiful retreats of the Masters of Wisdom, dedicated in spirit and in practical service to the development of the divine plan through the hearts, minds, souls and spirits of every, intelligence belonging to the evolutions in the Earth, on the Earth and in its atmosphere.

Upon careful discernment, one notices that everything about this magnificent chateau is expressed in the Trinity, denoting the Third Ray upon which our beloved Paul presently serves. The magnificent tree-lined drive has three rows of high trees on either side. There are three series of marble steps leading up to the doorway of this magnificent edifice, between each set there is a large lawn with a beautiful fountain in the center. The building itself is built in three stories. Behind the chateau there are the magnificent gardens in three tiers. Here the lovely statuary is displayed among the glorious marble columns wound round with roses of every known variety. In these gardens, many beautiful musical evenings are spent and, although few are privileged to attend in their physical bodies, many hear the celestial music wafted on the soft sweet air perfumed by the variegated flowers, which carries these gifts of love to the people of France, Europe and then all mankind.

The service of beloved Paul and the Brotherhood of the Chateau de Liberte is also threefold. First, the development of a true love for and faith in God—by whatever name the devotee chooses to call him, second, a love for and cooperation with the Cosmic Beings, Ascended Masters, angelic, seraphic and cherubic beings who are his messengers, as well as the unascended chelas who represent him in the world of form, third, by a sincere and practical love for the potential gifts hidden within the hearts of men and women everywhere. This love, impersonally but definitely directed, can, and does draw forth from the hidden recesses of the soul the talents, gifts, powers and activities for which every man was given being and was sustained through aeons of time by his own I AM presence.

Belief in and respect for the divine manifestation through every human heart signifies a true devotee and representative of this Brotherhood. As the beloved Paul himself said recently: “It is easy to love beauty, genius, and the developed talent, but it takes true divine love and faith to love the individual who has the desire to express some tal-

ent, not having had as yet either the training or development to give such expression its perfected channel of manifestation.”

Thus, although our beloved Paul (as well as those who have represented the Third Ray before him), has gathered around him in his retreat the perfect specimens of art, sculpture and every type of exquisite culture already developed by man in all the Golden Ages through which the Earth has passed. There are also retained the crude expressions of those who desire to become perfect channels for the divine concept in the world of form. He and his Brotherhood not only guard, sustain, encourage and protect the genius already at the top of the ladder, but the humble aspirant who has gingerly placed his timid feet upon the first rung of that Ladder of Attainment.

In Golden Ages that have been and the New Golden Age of the Master Saint Germain into which we have now entered, every nation will provide for, encourage, subsidize and develop this “budding genius” in foci patterned after the Chateau de Liberte. Then the many souls who come to Earth with gifts and talents will not find a cold, unresponsive world that shrivels their aspirations and steals the precious life energies of such potential geniuses in the necessity of “making a living” in the outer world. Until this time comes, the Brotherhood of Liberty do their best to hold a radiation of faith, love, encouragement, protection and sustained enthusiasm around such individuals whose potential gifts are ignored by a thoughtless world.

In this beautiful month of May, many souls are called to the Sacred Heart Temple before the beloved Mother Mary and are given the opportunity of taking embodiment upon the Earth, as she fashions gently the Holy Grail (heart) within which will pulsate the Threefold Flame of life. Through past embodiments and through study at inner levels at the feet of their Masters these souls have perfected, to a great degree, much of the beauty of the divine plan and they approach a new Earth life with much hope, much inspiration, much developed talent to give to a world that cannot or does not at present know how to receive them.

Within the Threefold Flame in their hearts is anchored the talent which they bring. For the men and women already incarnate, who have achieved their physical majority and who will be the parents, teachers and guardians of such incoming souls mentioned above, we pray that such prospective parents will prepare for their coming and join the Brotherhood of Liberty, thus giving such souls, opportunity to express that which is within their beating hearts.

Below the main floor of the Chateau de Liberte pulsates the Liberty Flame itself and those who are ready to give to the world something of celestial beauty are drawn, either in their etheric bodies or in their Holy Christ Selves, into this chateau to receive the added strength of the Liberty Flame to vitalize, energize and sustain their endeavors as they go forth to bring greater beauty to mankind en masse.

(Note: For further descriptions of this Foci of the Ascended Masters, please see "*The Bridge to Freedom*," September, 1953, September, 1951 and August, 1955.)

THE RIGHT USE OF THE VIRTUE OF LIBERTY

By the Beloved Goddess of Liberty

July 4, 1955

I AM the Spirit of Liberty, the Guardian Presence of that virtue from the heart of the great Sun of this system, endowed with the responsibility, the obligation and the opportunity to cultivate and keep liberty and love of liberty alive within the consciousness of the evolutions progressing upon the planets of this system.

It has been my service through the ages, since I first accepted the assignment of magnetizing, condensing, holding and radiating the quality of liberty from the electronic belt around the Sun, to nourish and develop the desire for liberty within all life, to keep alive within the minds and hearts of the people of the planets that innate cosmic quality which is part of their own God heritage.

Many, many of the virtues which represent the Twelve-fold nature of the Deity would have been completely forgotten, were it not for the temples in the electronic belt around the Sun and the beings who, within those temples, concentrated the positive ray of that virtue which they represent, as a pressure into the atmosphere which is breathed into the outer consciousness with the breath. The virtue of liberty and love for liberty has been guarded and guided by my lifestream into the hearts of those who have been chosen, by their own affinity to this quality, to establish and sustain foci of liberty at various points on the Earth's surface and, at various times on the screen of life, particularly when the light of liberty grew dim and tyrants and despots refused to allow the flaming presence within the heart to express through the masses.

Into many a heart have I anchored my flame, by the side of many

an earnest man and woman have I stood and, pouring the pressure of my love of liberty throughout that one, enabled them in the face of personal peril, to stand against despotism and tyranny. Then they built again a sanctuary of liberty of conscience, liberty of opportunity and liberty to pursue that course which their hearts desired.

Those individuals in Europe who were stirred to find a place where they might worship their God in freedom, were stirred by the flame within my heart and by the innate quality within their own immortal flame which responded to the pressure of my own. When this took place, men and women forsaking homes, fortunes, family and security, struck out into the “unknown” across uncharted seas and established within America the first pulsation of a New Era. Thus was created that cosmic cradle into which, at the proper moment, the Flame of Freedom could be established which shall be sustained as the heartbeat of the Golden Age, represented by that blessed Being, beloved Saint Germain.

By the sides of the pilgrims and early patriots, driven (against their will sometimes) from the comparative safety and security of their lives in other lands, either myself or one of liberty's angels stood and became the power and pressure of conviction which carried them across the seas to serve the cause of liberty, to establish a new nation under God, where all men and women, created equal, might have opportunity to plant their roots. Then, in time, when the great Violet Ray was ready, men and women who loved liberty have begun to spread the spiritual harvest of those early years.

Beloved ones, Liberty is a most unusual activity of life! I want you to consider it carefully, because as the class closes and the vibratory action of the Elohim of Peace enfolds you, locking within your world the radiation of the Ascended Masters which has been drawn forth here, you will be at liberty, returning into your own homes, sanctuaries and spheres of influence, to do what you will with the instruction, the radiation and the inspiration. That is a great responsibility!

In the life of the Master Jesus, factual as well as mystic, there are many lessons that have been discerned by the student and there are some that have not come to the attention of the outer mind's consciousness. One such lesson I would like to bring to your attention is the judging of the Christ before Pilate in its mystical sense. The Master Jesus represents the right use of life, the qualified energy of life going forth to bless, to heal, to illumine, to set free, Barabbas represents the misuse of life in the imprisonment of energy in discord, Pilate represents the personal self, washing his hands saying: “what is truth” and

allowing the liberty to use life in its destructive element through Barabbas while the constructive Christus was condemned. Each one of you is that personality and, when you release “Barabbas” in vital energies charged with discord (and even through indifference refuse to allow the Christ radiation to act through yourself), YOU ARE MISUSING LIBERTY!

When you were first created out of the hearts of Helios and Vesta, or from whatever Sun you belong, I stood by your side. That is why I am known as the Cosmic Mother. When you first felt yourself as an individualization and realized individuality, it was I who said: “YOU ARE AT LIBERTY NOW TO USE THE GIFT OF LIFE AS YOU WILL.” Free-will conferred upon you, you began to exercise the heritage of liberty and at inner levels released only the power of the Christ, for there was not yet the “Barabbas” of human creation. Then came the time after mankind embodied on the Earth plane when man learned to create discord from primal life, taking liberty with the gift of God which is life itself and fashioning imperfection out of that life!

This resulted in the requirement of a Karmic Board, to designate those who were to embody and regulate individual and mass karma. At each such choosing, as you have been told, one lifestream was chosen to embody and two remained at inner levels. There again in the office of Cosmic Mother, it has been my opportunity and blessing to say to you: “You are at liberty, child, to take incarnation and again, drawing on primal life, endeavor to fulfill your divine plan.” Again you grasped the gift of liberty and, with the breath of life within you, have taken great liberties with that life. Then after your “three score and ten,” when the soul was weary, the flesh body disintegrated to a point where it was of little use. Again my office required that I say to that soul: “You are at liberty to lay down the flesh vehicle for a time.”

One day, when your service to this planet has been completed, when you have taken the stand within the immortal flame of life within your heart that you will not take dishonest liberties with life, when you allow the Christ-Spirit in mind and feelings, in word and action, to go free, one day you will have served enough! That shall be the happiest day in all my experience when I say to you: “Beloved, you are at liberty to be released from the wheel of birth and death forever, at liberty to come home and go out no more.” For this moment I long, as every mother longs for the return of her children to their perfect estate, and for this I serve with you and by your side. Use not Liberty lightly! Use it wisely, in the consciousness that what you do with life today will build your tomorrow.

Beloved friends of great light, today, on the anniversary of the birth of our great nation (July 4th), as we bless her and we bless each and every lifestream who has contributed to her present light, we are utilizing the energies of your class and we are opening the great Causal Body that has been developed through your decrees. At the close of the address, as you sing to Liberty's angels* that blessing will cover the entire Western Hemisphere in a benediction of protection, peace and power. From Greenland and Alaska, down through Canada, the United States and Central and South America, that radiation will pour, bringing a sense of closer brotherhood.

*(Note: The Song "Liberty's angels" referred to above may be sung to the music and lyrics of "Angels of Healing," our latest musical recording. Just substitute the words "Liberty's Angels" for "Angels of Healing," using the rest of the lyrics as they are on the record. One may also use: "Angels of Freedom," "Angels of Victory."

WHITSUNTIDE (Pentecost)

May 20, 1956

Although the first Whitsuntide took place 10 days after the ascension of the beloved Master Jesus, (the disciples having been bereft of the strength, comfort, faith and powers that his visible presence afforded them) men and women everywhere have experienced an individual Whitsuntide from time to time throughout the ages. This special feast day celebrates the descent and merging of the Spirit of Cosmic Comfort with the individual's own outer consciousness. It is the mystic union between the divine and the human. Sincere students upon the path toward the Father's heart, sooner or later find their individual endeavors, prayers, aspirations and devotions raising the outer mind and feelings to the "upper chamber" and suddenly, as a "descent of fire" the Spirit of the Father becomes one with that of his children. Then, as the early disciples were, they too are filled with a new Spirit of accomplishment in his name! On this anniversary of the mystical "transfusion" of the Holy Spirit into the outer consciousness of the disciples, let us all enter the "Upper Chamber" and invoke as well as accept the descent of the Holy Spirit into our lives and expression. It is in our seeming "aloneness" that the mystic union takes place. Beloved Jesus knew this. He understood full well the dependence upon him of his faithful followers, which dependence in reality hindered their full God expression. He said: "For if I go not away, the Comforter (Paraclete) will not come

unto you, but if I depart, I will send him unto you.”

ASCENSION DAY OF MASTER JESUS

May 10, 1956

The public ascension of the Master Jesus was part of his great ministry, so that mankind might witness, through his victory, the ALL POWER of the Father, whom he loved and served so selflessly throughout his entire embodiment. Truly has it been said: “He is the GREAT EXAMPLE!” He himself said: “The things that I do, YE SHALL DO ALSO AND EVEN GREATER THINGS THAN THESE SHALL YE DO BECAUSE I GO TO MY FATHER WHICH IS IN HEAVEN.” Among these seeming miracles was his resurrection and victory over so-called death, followed by his ascension and transmutation of the elements of even his physical body in the presence of an assembled multitude.

Long before the final manifestation of his ascension, his Holy Mother Mary daily walked up the path to the top of the Hill of Bethany where she sent her prayers and devotions Heavenward. In so doing she had created for Jesus an actual pathway made up of her consecrated prayer force to help him accomplish this public ascension. Then, before the mingled consciousness of many minds, Jesus performed this final feat of mastery, hoping thereby to encourage those following after him to make the necessary endeavors to manifest like accomplishment! Upon this ascension day, let us look to beloved Jesus and ask for his feeling of the actual victory of the ascension into the natural God estate, from whence mankind has fallen through misuse of the life energies of thought, feeling, spoken word and action.

OUR PRECIOUS BUDDHA

Our precious Buddha!
We welcome you as our new Lord—
We want to serve you,
So help us, Great Karmic Board!
Your gentle Presence
Now help us to manifest here,
Let us outpicture our Father, so dear.

We are so grateful,
That you have prepared for this time.
Ready and willing,
To free such a friend sublime!
To you we're grateful,
For showing us God's "Middle Way."
Help us to live in,
Its victory each day!

Our gracious Buddha—our teacher and friend of the
past—
Flood men with wisdom
And set them all free at last!
Bless them with freedom
And hold them in love's Violet Fire,
Purify all ways
Their every desire.

Helios and Vesta!
Reward this great Master of Peace.
Flood all his being,
With blessings that never cease.
Make our dear planet
The fullness of all she should be—
Her evolution's
Forever all free!

(NOTE: Above lyrics may be sung to melody "Moonlight and Roses")

WESAK FESTIVAL

May 24, 1956—approx. 10:27 A.M. E.S.T.

From all over the world, guided by the compass of their own heart's love, pilgrims wend their way toward the Wesak Valley for the celebration of the yearly return of the Lord Gautama Buddha. Now, as he has acceded to the exalted position as Lord of the World, the celebration of the Wesak Festival takes on new significance. In his added power and glory, as his luminous figure appears over the Wesak Valley, all the fully gathered momentum which he has gained and which has made him able to fill the position of Lord of the World will be released through the pilgrims attending this Wesak Festival and, through them, to all evolution's in the Earth, on the Earth and in its atmosphere. Let us not forget to direct our consciousness, minds and feelings toward this particularly significant outpouring of Lord Gautama this year.

Thomas Printz

THE GURU AND THE CHELA

By the Ascended Master Kuthumi

{Note: As this subject is so pertinent at present, I offer my column to this article inspired by my humble self through the Curtis personality long ago — Kuthumi.}

Excerpts of Instruction on "THE MEMORY OF PAST LIVES" (from Voice of Isis by Curtis, written in 1914)

The memory of past lives is given not for amusement, nor to satisfy vain curiosity, but to inculcate a needed lesson. The destiny of each soul is ultimately to take its proper place in the divine plan. All follows an exact law. Remembrance only comes when the Higher Self sees that the personality is ready, when the physical brain has been trained to vibrate to some extent in response to the will of the Higher Self.

Many ask: "Why is not the memory of past lives more common?" There is a deep reason for this. In our evolution we have passed through many sad and embittering experiences which, if remembered, would so depress our spirits, so discourage and hamper us that we would make little progress. Also, did we remember who we were and who our present companions were, in many cases we would find it so hard to forgive the injuries, so hard to forget the troubles we had

passed through in connection with them, that our spiritual growth would be retarded. Since the Law, acting as karma, demands perfect compensation or adjustment, one great object in each new life is to readjust the mistakes of the past. When an opportunity to do so comes to us in this life, if we could remember all that had passed it would be far harder to “Love your enemies, do good to them which hate you, bless them that curse you and pray for them which despitefully use you.” Hence it is in love and wisdom that the knowledge of past lives is withheld.

Many think that could they remember who they were in the past it would be all joy and wonder. However, in the majority of cases it would be a bitter disappointment and a sad, depressing remembering. Therefore we shall never be permitted to remember our past lives until we have advanced beyond the point where the grieves, the ills and the unkindnesses done us can affect us, make us worry or become discouraged and thus retard our progress. We shall not remember until we have gained that poise which nothing can disturb, until we have become centered in the thought that to manifest divine love is all there is worth striving for.

Most souls find the memory of the trials and sorrows of one life as much as the personality can bear, therefore the complete remembrance of all it had endured in its many lives would tend to crush it. It is memory that haunts, that drives to insanity. No one day can hold enough sorrow to dishearten utterly the personality, it is the accumulated burden that overwhelms. A most important lesson to learn is to put from you all that is past. Live in the present. “Let the dead past bury its dead.” Until the soul has learned that what is passed is registered within the Real Self as a lesson learned—a needed experience gained—and can let it go, not being crushed by its memory, until the personality shows its strength of character by not brooding over mistakes, until it has exemplified this stability in its present life, its Heavenly Father, in loving mercy, draws a veil over the memory of previous incarnations. When it can bear without flinching or shrinking, the memory of the sorrows of one life, it will be ready to bear a more extended memory.

Another reason why we do not remember, is that at each incarnation the soul clothes itself in a new body, the brain cells of which have never responded to the past conditions and only when the brain is capable of responding to the memory stored up in the Higher Self, can that memory be impressed upon the waking consciousness. In other

words, the personality (the physical consciousness) cannot remember the past because it has experienced but the present life. Another reason is that many, many of our lives have been so common place or trivial that they have registered little of value in the Real Self, hence have little of importance to remember. For out of each life it is only those experiences and those lessons which have made for soul growth that are immortalized by being registered in the Real Self. Only good is immortal, evil is but transitory.

The memory of a past life is often awakened by reading about or seeing the picture of some historical character. This arouses a consciousness of having lived at that time or in that place, or perhaps, that the reader was himself the character mentioned. This is apt to give rise to ridicule, for many upon whom the memory of past lives is dawning seem never to have been anything but kings and queens, or notable characters in history. There is a reason for this for, like in most mistakes, it is rather a misunderstanding or misapplication of the remembrance than a deliberate attempt to deceive. It is a result of ignorance of the Law. In such a case the probability is that the person did live at the period remembered, and perhaps took a prominent part in the events enacted, but he was not necessarily the principal character.

The feeling of peculiar sympathy or aversion that one feels in such a case is precisely what he felt at the time of the event. In the past he may have been deeply interested in the characters under consideration, and fond of imagining himself in their place. Thus, when the attention is turned to those old times it awakens the old currents of feeling and he thinks he actually was what in the past he had wished to be. Often there is another explanation. The noted personage may have stood out as the keynote of his time and the circumstances that produced his eminence were lessons that many other souls learned. In fact, the leading character enacted the drama for all the lesser personalities belonging to the same group and all learned the lesson through the one.

For example, through the action of Abraham Lincoln the whole nation learned that slavery should be and could be abolished, and the lesson was impressed more or less deeply on each soul according to its sympathy or activity in the matter, but only Abraham Lincoln actually freed the slaves. He could not have done this, however, without the aid of the thought force of the nation. He was the executor of the will of those who thought freedom!

Every character in history had many persons who belonged to the same group, to the same nation, who were carried along in evolution

by the same current, who learned by the failure or profited by the success of that character. As the soul at first remembers only the most important events, personages and lessons impressed upon its consciousness, when that memory begins to be awakened it is natural for it to think it was the central figure.

There are hundreds who are sure they were Mary, Queen of Scots, hundreds who were Martin Luther, Julius Caesar, Cleopatra, Helen of Troy, etc. If they understood the Law, however, it would be quite easy to determine whether or not they were the great personages whose names are given. A careful study of the character (physical, mental, emotional and spiritual) will readily determine this. Study their mistakes and successes and try to calculate what would be needed, according to the Law of Compensation (karma), to overcome the mistakes or reap the rewards. Study their mentality and your own and know well there is no retrogression.

There are ups and downs that may seem like retrogression but they are like the ups and downs of a gravity railway, the downs are always above the level of the starting point. A personage of historical prominence may at this time be incarnated in a very lowly station, but he will still have the same characteristics that made him great, and the important lesson learned in the prominent life will be indelibly impressed upon his present personality. If he were the central figure of the group, either for good or evil, he will always be a central figure, no matter in what walk of life he may incarnate. An Abraham Lincoln might incarnate as a plough-boy where conditions made education and culture almost impossible, but he would always have the ability of a Lincoln to master conditions.

The general rule is that, after one has cultivated his mental faculties and developed his brain to a high degree, he passes through an incarnation devoid of all chance for education. This is, firstly, to give him an opportunity to develop his heart qualities, and, secondly, to prove how much of the former culture he has really assimilated. No one can prove his character unless he is forced to depend on his real inner powers. Hence, no matter what the gain has been in the past, whether toward physical, intellectual or spiritual perfection, he must, of necessity, pass through an incarnation where all outward helps toward the things attained are lacking, that he may prove himself.

When one is told that in the past he was some great personage, it is wise to look up the history and customs of the time indicated and search for any glaring discrepancies between his own character and the

character of the person under consideration. If discrepancies are found they indicate error somewhere. For example, if a woman is told that she was an Egyptian priestess, a glance at history will show that the Egyptians admitted only women of high rank as priestesses, while there were many women attendants, nuns, etc. The priestesses were specially trained to transmit the deepest mysteries, hence unless the person making the claim can prove that she possesses such powers today she probably was merely an attendant or perhaps a nun whose great ideal was to become a priestess. A woman who today possesses no independent psychic power could scarcely have been an Egyptian priestess, for such gifts once gained are never lost.

Thus an exceptional woman might have been an Egyptian- priestess but, if so, she would today display the characteristics which enabled her to hold that high office. This will show how easily psychic messages can be confused and how absurd it makes one to repeat them without verifying them. While such discrepancies do not always mean that the one giving the information has misled him, yet under such circumstances, a careful investigation of the message, and a consideration of its source, is advisable.

Absolute obedience to the higher guidance is required of all who would do the Master's work, but such guidance never violates common sense and even the vow of obedience is never required until the pupil, through repeated experiences, has learned to have implicit faith in his guidance.

THE MASTERS OF WISDOM SPEAK THE RESPONSIBILITY AND OPPORTUNITY OF EMBODIMENT

MAHA CHOHAN

In the beginning, the individualized I AM Presence consciously projected a portion of itself into the physical appearance world in order to expand the perfection and beauty of the kingdom of heaven upon the planet Earth! The centripetal power of the immortal Three-fold Flame around which the physical body was fashioned, is often called the power of pure divine love. From the natural elements found in and around the planet Earth, the builders of form, together with the Holy Christ Self, builded the physical body, as much like the divine image (the individual I AM Presence) as possible. Then began the long journey which,

through free-will, caused distortions in the physical body and its attendant vehicles (mental, emotional and etheric). Man today stands at the point where his own use of life has placed him. Some few desire within their hearts to return to their divine estate and assume their divine heritage as sons and daughters of the kingdom. This requires that they learn the lessons provided for them in the schoolroom of life in which they have fitted themselves to dwell (Earth). Thus birth upon the planet Earth is such an opportunity to learn those lessons which result in personal mastery of thought, feeling, spoken word and action. It is my joy to give to each such a one the breath of life at the beginning of each embodiment and to gently take the last breath from the lungs at the close of that embodiment.

EL MORYA

There are billions of individuals whose past utilization of energy has qualified them to learn the use of life upon the planet Earth. THESE INDIVIDUALS MUST AWAIT THE SUMMONS OF THE KARMIC BOARD, ONCE EACH YEAR IN THE MONTH OF MAY. There, from a great number of individuals who are destined by law in justice and mercy to embody, are chosen those who will be privileged to enter the activities of Earth-life in the next twelve months. The souls thus summoned can be placed in several categories. Some are those who have spent sufficient time at inner levels to have learned something of their past errors and are to be given opportunity to use their new-found wisdom in a new Earth life. Some are those who are reluctant to leave the pleasures of the inner levels and take upon themselves the “yoke” of their own karma. Some are the chelas and students of the Masters who have volunteered to help in a vital world hour.

KUTHUMI

The balance of the mass karma of the planet Earth is such that the Lords of Karma must watch very carefully that not too many with heavy destructive personal karmas are admitted as temporary citizens upon the Earth until an equal number with like karma are removed through the natural means of so-called “death.” Therefore, the more purification, illumination, understanding and instruction which can be given the soul between Earth lives makes the “mass karma” of the incoming children less in proportion to that of those leaving the Earth through so-called “death.” The establishment of schools, temples and institutions of learning at inner levels has done much to assist in this personal puri-

fication, preparatory to such re-embodiment. Of course, through free will, all souls do not avail themselves of the opportunities afforded them to purify and illumine themselves at the feet of the Masters. The impersonal mercy of the Law does require, however, that after the passage of a certain time, some of the souls who have been at inner levels, must re-embody. These form the saddest of souls who stand before the Karmic Board, for they know something of what awaits them after birth on Earth. For them, dear students, I ask that you sincerely pray!

PAUL, THE VENETIAN

Of the chelas and students of the Masters who volunteer to renounce the joy of staying in the inner levels in order to assist a cosmic activity, I would speak. When the soul has finished one embodiment, the emotions, the mental body, the etheric body are often weary with the experiences obtained in serving life. The purpose of “re-call” to the heaven realms is primarily to allow such individuals to rest and recharge their inner vehicles, as well as to utilize the instructions of the Masters and the activities of purification in the Temples so they may re-embody with greater strength and spiritual vitality.

Those who know the requirements of Earth at this time, often relinquish this period of spiritual revitalization, offering to embody almost immediately to help a cosmic cause. They also require prayers and blessings for, if they are among those chosen for such rapid re-embodiment, they will have to work through their lower inner vehicles already wearied by the discordant experiences of the past embodiment and this restriction will hinder, to some degree, the service to which they are dedicated. It is just as though a man, in an emergency works through his natural night of rest, rather than availing himself of the refreshing hours of sleep and then must spend the next day at his usual tasks.

SERAPIS BEY

Among those choosing to join the applicants for re-embodiment, there are always those who hope to complete their journey upon the Earth in the ultimate sublimation of self. They are marked as “candidates for the ascension” and come under the direction and supervision of the Brotherhood at Luxor. It becomes our responsibility and obligation to provide the necessary experiences in the Earth life which will

cause them to sublimate the baser tendencies of human nature and impersonally serve the race so that they can complete their service on the Earth and enjoy the victory of the ascension. Unfortunately, however, many forget that they have applied for such rigorous self-discipline and find the experiences discouraging and distasteful.

HILARION

The exact activity of the Cosmic Law is a comfort to those who have seen it in action! For each individual who for re-embodiment, two other individuals must be denied that opportunity during a twelve-month cycle. The entire chart of evolution is studied, the cosmic activity which forms the heart of the progress of the race is taken into consideration and then the Causal Body of the individual is studied, to see what merits, momentum's, powers and capacities such a one can offer to assist in the world scheme. For each chela who is given an opportunity to embody, two other fine and sometimes more developed life streams must wait for another year for opportunity to take an Earth body. Thus, the chela who secures such an opportunity should not take it lightly but press forward upon the path, contributing as best he knows how, to the Light of the world and the happiness and progress of his fellow-man.

JESUS

In the month of May, at my mother's temple of the Sacred Heart, it is a beautiful sight indeed to see all the souls gathering together to be blessed. These are those destined to take embodiment on Earth during the next twelve months. She herself takes the very substance that the soul has qualified through the ages and fashions the chalice (the Heart) from the purest of that substance in which the immortal Threefold Flame of that lifestream will function in the physical world. There are beautiful free spirits from other planets who volunteer to enter Earth's evolutions through the natural doors of birth.

There are also the chelas who have been chosen by the Karmic Board as possible contributors to the progress of the race, there are the "candidates for the ascension" and there are the great multitude who are called reluctantly from the joys of life at inner levels to the rigorous experiences of an earthly embodiment. These are all gathered together for the ceremony of the creation of the Sacred Heart and the blessings of Mary's lifestream upon their new pilgrimage! Also gathered

here are the Masters (Sponsors) of those who are to serve the Masters' cause, when they attain maturity upon the Earth. In the heart of each such Master is a sincere prayer that the vow taken and the enthusiasm enjoyed by the individual in the free atmosphere of the inner realms, will be sustained through the veil of birth and the long Earth life ahead! Pray, ye, also for these!

SAINT GERMAIN

When a Master is chosen to focus a ray through the outer consciousness of the people of Earth in any cycle, his responsibility is great indeed. It is his obligation to secure the interest, support and voluntary co-operation of as many of the souls at inner levels as he feels can assist him by taking embodiment. After such persuasion, the Master himself takes the obligatory karma of watching over such zealous volunteers and helping them in every way to remember the divine plan, their individual offer to assist in fulfilling it and to utilize their particular momentum's toward that end.

When the Master has added the pressure of his persuasion to the Karmic Board to choose one of his pupils rather than another gifted lifestream, in order to aid in his particular cause, then, particularly does the Master hope the chela will live up to his glowing descriptions of what such a chela can and will do, if given opportunity to embody! It is in this position that I stand! How many, who have responded to the cause of freedom at inner levels, will manifest my faith and trust in them? How many will return home with little harvest? For all, I shall have to stand before the Karmic Board and explain their achievements or lethargy as best I can. For these, pray!

MONTHLY LETTER TO TRANSMISSION CLASS

May 19, 1956

Beloved Children Of God, Seeking Liberty:

I AM the activating presence of all endeavor to liberate the divine plan through the immortal Three-fold Flame of God within the hearts of all belonging to Earth's evolutions! As the acorn holds within itself the pattern of the great oak, as well as the substance by which that pattern may nourish itself sufficiently until it has the strength to burst the encompassing shell, so does the immortal Three-fold Flame of God in every heart contain within itself some divine pattern, as well as the

strength to nourish and sustain that pattern, until it can be externalized here in this physical appearance world. As we use the powers of Sun, water and earth to assist in the development of the beauty of the nature kingdom, so do we use the love of our hearts to assist the striving spirit to externalize its potential divinity through mind, feelings, etheric substance and, finally, the outer consciousness and flesh form !

Everyone seeks liberty for himself. Few seek to give it to others. These few who choose to love their brothers' divinity into expression serve with us on the Third Ray.

As you enter the Chateau de Liberte and feel the stimulation of the Liberty Flame stir your own hearts light, remember your fellowman who knows not his way thither and ask, sincerely and often, that he too may have the benefit of and the stimulation from its tangible presence!

Maha Chohan

GROUP MATERIAL FOR TRANSMISSION CLASS

May 19, 1956

Loving Co-Workers With Beloved Mary's Sacred Heart Temple:

In the most holy name of God and in its full authority, I call upon each of you dear and gentle readers now and forever the full power of blessing from our beloved Mother Mary to you individually and then out through you to heal, bless, prosper and illumine all the life you contact everywhere you move, making all life permanently healthier, wealthier and happier because you passed that way! Please accept this blessing as presently and eternally real for so it is! Expect and accept its loving presence in, through and around you from this day forth.

The beautiful month of May is graced with many, many blessings and victories of Light's activities, here as well as in the Ascended Mas-

ters' realms. One of the most important of these activities is the special service to life given by our beloved Mother Mary in the forming of the heart of every dear soul who is to incarnate in this physical appearance world during the coming twelve-month period. The heart is one of the most important organs of the body, since it is the chalice or "Holy Grail" of each individual, holding the actual life essence of God, his creator. In one's heart is "The Secret Place of the Most High" and it is there one hears the "Still, small voice."

For several years now, we have been calling for the purification of as much as possible of the substance each prospective incoming soul has to offer to beloved Mother Mary for the forming of that heart. Beloved Mary now tells us that, in order to balance the activities of purification at inner levels before the soul takes re-embodiment, it now has become vitally necessary for us to call for the purification and illumination of the parents, homes, guardians, teachers and protectors of the incoming children and the younger generation already in embodiment here. As this is done it will tremendously speed up the release of our dear Earth and her people from multitudinous distresses which God never intended to be. We humbly offer a suggested decree to this end. Please keep it going, at least once every day, until we advise you that it has done its perfect work and the dispensation has been granted.

Yours gratefully and cooperatively in love's service,

Frances K. Ekey

(NOTE: It is interesting indeed to note that among the many observances in May there is the loving practice of showing our appreciation of mothers everywhere. We send up prayers of blessing for those who are still with us as well as for those who have gone on. This year, in the decree which follows, we have the glorious opportunity of praying for mothers yet to be!)

SUGGESTED AFFIRMATION

Precious, beloved members of the Great Karmic Board especially the beloved Goddess of Opportunity:

In the name of my own beloved I AM Presence, I humbly desire to add my energies to beloved Mother Mary's petition for the purification and illumination of the parents, homes, families, friends, teachers, guardians and protectors of the YOUNGER GENERATION AND INCOMING CHILDREN.

To this end, I petition a sustained pillar of the Violet Transmuting Flame from beloved Pelleur's domain in the center of the Earth, up through and around the homes where incoming children are expected, or where there are now such children under 18 years of age. Establish these pillars of Violet Fire immediately, and intensify them every 24 hours by the angels of the Violet Fire with as much power as they see is necessary to render the service needed.

I also ask for some dispensation which will allow the Holy Christ Selves of all expectant parents to come as close to their outer consciousness as possible, from the moment conception takes place. Surround each one with a pillar of Violet Flame.

For all such expectant parents, I ask some dispensation which will allow the Holy Christ Self to take these parents out at night into schools prepared for this purpose. Let the brain consciousness retain as much as possible of the instruction so given them the night before, let them remember it clearly in the outer consciousness through the following days. Let them be given the strength to give obedience to this illumination and instruction and make them want from within themselves to give this service to their own offspring. Through the beloved Archangel Michael, I call into action whatever limitless Legions of the angelic host can be summoned to abide within those homes as long as their purifying and illumining help is needed. Make every home and family on Earth the perfection of the Holy Family as quickly as possible and sustain this forever.

I do consciously accept this done RIGHT NOW with full power (3).

FRATERNALLY YOURS

Dear Editor: You wrote: "We ask the cosmic blessings of the Holy Spirit to amplify without limit your gift and return it to you on the current of your own life energy which prompted you to share the substance of your world in cooperation with the expansion of the Masters' service." Friday morning, when I went to work, the secretary came to me and said, "Your salary has been raised." It was a surprise to me for I did not expect this. The same day, more blessings flowed into my heart. Sometime ago I designed an altar for a new Church, the motif being the beloved Master Jesus' ascension. When I presented the idea with drawings and a little model, the building committee and minister did not fully accept it. I felt a little sad that time. Now I was informed that they had accepted my conception for the altar and would like me to proceed. You can understand my feelings of love, joy and gratitude for the manifest expression of the help of God and the Maha Chohan.

Editor: Truly was it said that not even a cup of cold water given in his name should go unnoticed or unrewarded. Thank you beloved one for sharing your experience, acknowledging the return blessing from our Lord Maha Chohan to you and for your own beautiful acceptance of the I AM Presence as the source from whence all blessings truly flow.

Dear Editor: As it is evident that the present chelas and servers in the Masters work will have to be supplemented by other equally dedicated and trained chelas, what can we as individuals do to prepare for this natural continuity of the Masters' endeavors from generation to generation? One of the greatest handicaps in the service of the Great White Brotherhood through the ages has been that when a generation of illumined souls are called from Earth, there has been a "lapse" in the continuity of the Masters' work because no link (succeeding generation) was trained, equipped and ready to take upon themselves the yoke of such service. F.C.P. Havana, Cuba.

Editor: This is a splendid question which is pertinent at this time and much in the minds and hearts of the Ascended Ones. If every chela would interest, train and prepare at least two understudies for himself, we should be greatly assisted. It would not only expand the present activity but assure its efficient continuity in the years ahead. If you would care to call to us in the name of your own beloved I AM Presence, we would be very happy to help you find such individuals as might be interested.

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
with the Great White Brotherhood and Cooperative World Service

JUNE 1956

TO THE SACRED FIRE, IN ALL ITS ASPECTS, GREETINGS

We consciously give gratitude and love to the God Parents of whatever system chose to focus a portion of themselves into life and create individual self-conscious intelligences who, through the immortal Three-fold Flame of Life so projected, could and did know and cognize the power to say and feel "I AM."

To every such self-conscious intelligence who has recognized the power of that immortal Three-fold Flame of Life as the center of being and through it has created and expanded certain specific God virtues, activities and radiations beneficial to this universe, we give gratitude and love.

To each foci of the Sacred Fire-of love, healing, peace, purity, opulence, mercy, sublimation of imperfection, faith, wisdom, we give our gratitude for the fully gathered momentum of that developed activity of the Sacred Fire which is available for the use and assistance of those desiring it. To every unascended being seeking his way back HOME, we give our encouragement and sustaining power.

Let all self-conscious intelligences know that the powers of the Sacred Fire within themselves are the actual Presence of God within their beating hearts. Let them enter into its presence, sublimate their destructive karma and human nature and then expand the particular virtues accumulated in their Causal Bodies for the enrichment of the race, nation and planet to which they presently belong!

Let the Sacred Fire be so honored, acknowledged, accepted and utilized by the chelas until, by their own individual and collective applications, they qualify to draw forth, visible to the physical sight of all mankind, the presence of the Sacred Fire! Let there be established on this Earth again the temples of the Sacred Fire! So be it!

Thomas Printz, Editor

The Homes and Retreats of the Masters of Wisdom
THE ROCKY MOUNTAIN RETREAT
June 15 through July 14, 1956

The magnificent natural cathedral, rising from the plains of the green fields of Wyoming, is the most ancient focus of the Ascended Masters upon the planet Earth. Here, ages ago, Lord Michael the Archangel and the Lord Manu of the First Root Race led the first members of the human race from inner levels into their first embodiment upon this dear Earth. Here, the sevenfold flame of the Great Elohim formed the glorious lotus of living fire, signifying to this universe that the Earth was ready for physical habitation. Here, beloved Virgo (Goddess of the Earth), Aries (Goddess of the Air), Neptune (God of the Water), and Amarylhis (Goddess of Spring) met the descending spirits of the First Root Race, offering the pristine purity of a planet to them in the greatest hospitality and generosity of service ever known.

Here, kneeling reverently around their Manu and Lord Michael, the members of the First Root Race thanked Almighty God for their hostess (Earth) and all her attendant servants of ministration! Here in the etheric substance, still pulsates the pathway of light upon which the Lord Manu, Lord Michael, the guardian spirits and the holy innocents descended for the experience of their self-chosen expression upon the dear Earth. From here, Masters, angels and new-born men went North, East, South and West to carry the light of God to the four corners of the Earth.

Thus, the Rocky Mountain Retreat is (by its very nature) the focus of precipitation, expansion of the light, and manifestation in the world of form.

Today the Brotherhood of the Rocky Mountain Retreat hold as their reason for being the sustained consciousness of precipitation of the divine pattern through every member of the human race who chooses to return (in consciousness) to their own individualized I AM Presence and ask: "Why was I born, sustained through countless ages, nourished by God and elemental life and given opportunity in this day to live upon the surface of the planet Earth?"

Because this retreat was established as the open door into Earth-experience, twice each year it opens its doors to those men, women and children who desire to become part of the redemption of the Earth which, through the ages, has lost much of its pristine purity, happiness, peace, perfection and opulence.

The Lords of Karma (further described in the “Masters of Wisdom Speak” in this issue) gather over the Rocky Mountain Retreat twice each year for the purpose of giving ear to the ways and means by which Masters, angels, elementals and-men may return the Earth and its attendant evolutions to perfection.

Petitions, ideas and spiritual designs to purify the Earth and raise its people to their own natural God-Estate, are discussed by the Brotherhood and chelas (still working in earth bodies). These ideas are presented to the Lords of Karma and, when feasible, the Lords of Karma grant the petitioners (Divine, human or elemental) opportunity to develop the seed ideas into practical, workable forms which will benefit the emotional, mental, etheric and physical planes. The results of the grants and dispensations given at previous conclaves determine much of their leniency and cooperation at succeeding conclaves.

Let all earnest chelas turn their attention consciously toward the Rocky Mountain Retreat each evening before they retire (and as often during the day as is practically possible) with an earnest heart-desire and sincere spiritual motive to help in the great cosmic service of redemption of misqualified life. When possible, actual petitions and plans can be designed by the chelas, given to the angelic being who accepts the suggestions and, if these plans show promise of assistance to mankind, the chela will be given opportunity to present them before the assembled Brotherhood. If the chela, himself, has not the capabilities of developing these plans entirely through his own endeavors, sometimes a Master or angelic being will accept the responsibility of incorporating those plans into the activities of his particular retreat or personal endeavor.

Such a Divine Being also often offers to assist the zealous but not fully capable chela in bringing to fruition those plans. Then the Lords of Karma, looking upon the Causal Bodies of the Divine Beings, their chelas and mankind en masse, study the thought-form for the year and the possible assistance such plans would be to the development of the unified endeavor of the Spiritual Hierarchy. After such thorough research, the Great Karmic Board gives or withholds acquiescence to develop that plan.

It is truly a glorious opportunity to attend these conclaves, more so, to participate in them! You are invited to do so!

SERVICE BY STUDENTS A PREREQUISITE FOR CONTINUED DICTATIONS

Address By Our Lord Maha Chohan

Holy Thursday, March 29, 1956

Beloved children of the one God, seeking to find comfort for your own souls, to you I come. In that seeking, you also desire to give comfort and to be a comforting presence to the rest of life.

The great spiritual partnership by which the Hierarchy of Heaven are joined with the consciousness of unascended beings is made possible when the chela consciously applies as much of the Law as he knows and then desires, not only to receive God's blessings, but in turn to give them to others so that such blessings may help to alleviate the distresses of those in his particular environs, his nation and the planet which forms his temporary home. THIS GIVING TO OTHERS BY THE CHELAS OF THE GIFTS, INSTRUCTIONS AND COMMUNICATIONS OF THE ASCENDED ONES IS CAREFULLY WATCHED BY THE KARMIC BOARD, BY THE BELOVED LORD MAITREYA AND BY ALL WHO ARE CONNECTED WITH THE OPENING OF THIS DISPENSATION.

The tremendous service which you have given life thus far by your personal and group application of the Law is more wonderful than you know because you do not see with outer fleshly eyes the results which are forthcoming from your endeavors. That service has enabled us to continue this "communion" between Ascended Masters and unascended beings who are still working out the karma of their own personal salvation and yet, while working out that karma willingly, raise their hands, hearts and voices in calling forth blessings and help for their fellowman.

Denial of Appearances Insufficient

Beloved ones, some of our good friends have taken the statement of our beloved Saint Germain very literally when he says that God is everywhere and that there is no nook, corner nor cranny in the entire universe where he is not. Some of our mental and metaphysical sciences have used that truth to deny appearances of distorted form. In many cases, through mental pressure, they have driven out of their own worlds and from the worlds of those whom they are assisting, certain distressing appearances (for the time being). Believe me, however, when this is done, usually the core and cause behind the appearances remain. Why? Because elemental life (which is the body of God and

which beloved Saint Germain does state in truth is everywhere), is intelligent and it has taken an individual vow to obey—what? Man! Therefore, through the thought and feeling centers, through spoken words and action, elemental life has been imprisoned in mass and individual discordant creations which seem very real to mortal minds.

It is the need for the dissolving of those creations which brings to Earth, its atmosphere and its people, the beloved Archangel Michael and his Legions of the sword of Blue Flame, together with the Mighty Astrea, the Angels of Purity, the beloved Saint Germain's Violet Flame and other purifying activities of the Sacred Fire so that the cause and core of so much human distress may be removed and the imprisoned elemental life released from such destructive form. This elemental life so freed immediately goes back to the Sun for re-polarization and is then either given to some Ascended Master or Cosmic Being to direct in creating blessing for mankind or it may be anchored into the Causal Body of the very individual who misqualified it as added power to achieve God perfection, if that individual has consciously used the Violet Fire to purify that life.

You see, dear friends, the nature of God is full perfection and is all-encompassing. In it we live, move and have being. If this same nature were your daily way of life, I would not need to speak to you now! However, the self-evident fact is that there are distressing appearances of mind, finances, body, of etheric resentments and rebellions which live in, through and around the mankind of this Earth—proving that there must be a creator of such distress. That creator is man, the mortal or outer mind of man.

The great masses of mankind which have lived in their chains and have called that existence “God's will,” are like an individual in a hospital room who is in a coma. The doctors, nurses and attendants continue to live their normal lives and yet protect this so-called “unconscious” one until the first faint glimmer of returning consciousness comes to that one. Then comes the joy and release on the part of the doctors and attendants as they draw that consciousness back into this world and help it to energize again the physical form. That is exactly our relationship to the masses of mankind and it has been our relationship—forgive me—even to you, our chelas, for the most part! In our full, free God estate, we are the attendants, the nurses, the spiritual doctors, the ones tiptoeing about, watching and waiting for the time when the light within the heart expands, the mortal consciousness bursts apart (so to speak) and the individual comes out of the coma. Recognizing

where he really is in God's glorious kingdom, he then begins to take a part in endeavoring to further the glory of that kingdom. Truly, "The kingdom of heaven is within you" and all about you.

As I speak to you tonight, this room is filled with angelic and Cosmic Beings, but do you see them? How many of you hear them? Therefore, there is a slight flaw in the concept of just the denial of human appearances, without a realization that the thought and feeling centers of mankind have concentrated elemental life (which I, myself, originally, drew from the Sun and focused into the world of form) into the cancer centers, leper centers and every other mass and individual accumulation of discord and suffering.

The Circle And Sword of Blue Flame

Blessed ones, if you could look upon any great metropolis even for one evening, if you could see the thoughts, feelings and actions of the millions of people who are living therein and you could see what was exuded from them, you would understand why our particular gratitude flows to you who choose to come and give your calls and decrees morning and evening for the removal of the cause and core of those distressing conditions. If you could see the effluvia around but one mental hospital, around one so-called "home for incurables," around one "old peoples' home," around any of the great institutions in your own city, you would be much more interested in removing the causes and cores of mankind's distress.

This effluvia is actual substance emitted from the physical, etheric, mental and emotional bodies of the inhabitants of those institutions, as truly as the octopus emits that inky substance into the sea. That is why the Violet Transmuting Flame has been given you to use. The particular service of the beloved Astrea (Complement of the beloved Elohim of Purity) is to clear away the cause and core of the discords through the activity of the Circle and Sword of Blue Flame, for she created this very Circle and Sword in order to render just such a service to life. Her Blue Flame activity clears away the discordantly qualified substance which is causing distress, just as you would take out the core of a boil or you would remove a bullet from a wound before healing can take place. Then the purity and grace of the beloved Elohim of Purity flows in and in that purity is every other God gift which mankind can desire.

Beloved ones, there is a certain confusion in the outer mind of many of the people at this time. For the most part, individuals do not

change religions or credos more than once or twice in an embodiment. When one has walked up the spiritual steps through various types of religious training, he has absorbed mentally, emotionally, etherically and into his brain structure, a certain portion of the concepts presented by that religion. Then he tries to fit that all into the new religion he is trying to understand and sometimes there is an ensuing confusion.

The activity of the Ascended Host is the purification (and I cannot emphasize this enough), THE PURIFICATION OF YOUR INNER BODIES until you can see us face to face, until healing flows from your very selves the moment you enter or walk through a room, until your body is radiant with light and the blazing flame within your heart stands forth visible to the physical sight of all, until you are completely God-free financially and in every other way! If you are not God-free in every channel of your experience and department of constructive endeavor, the reason goes back to one thing: impurity of some sort in one or more of your four lower bodies (physical, etheric, mental and emotional). This means the incarceration of elemental life in one or more of your vehicles (bodies) which has not been sublimated (refined by fire) and released from that imprisonment. Self-justification or ignoring this impurity will not remove it! However, application (conscious calls for the passing of the Violet Flame and other purifying activities of the Sacred Fire sincerely, conscientiously and persistently made (individually and collectively) will purify it.

At the time the beloved Astrea was given the opportunity to join with the Elohim of Purity and become with him One Being in a Cosmic Nirvana (state of perpetual Heavenly bliss), she voluntarily chose to remain as a separate, individualized conscious intelligence in order to provide this purifying action of the Circle and Sword of Blue Flame, in order that she might clear away, as the surgeon takes out the bullet, the substance of human creation. This allows the lovely activities of and substance from the higher realms to flow in and produce perfection.

Now, this is a science! Sometimes, I regret that it is a science because it would be so nice to be able to transport you instantly into eternal and celestial bliss through a mere “hocus-pocus” activity. However, this cannot be done! This purifying of the individual's world is a personal matter. I passed through the initiations of purification, the beloved Master Jesus also passed through those initiations. Of all the Beings who have gained their eternal freedom from this world since the Buddha, I think there has been no person more than beloved Mother Mary (while she still trod the Earth as an unascended being before her

victory took place) who has passed through so many initiations and tests of selflessness.

Now, you are those in embodiment today who have volunteered to give this selfless service to life as our representatives. Oh, there is much grumbling on that score. Many, many say: "I wish I had not volunteered so much service at inner levels and then come out down here and find it necessary to transmute so much discordant karma and distress." Precious hearts-that has been said, and you know it! Many of you have made that statement at one time or another. If you are not willing to give this assistance, who are going to be our representatives in this world of form? Think of this!

There are nine million people in this City tonight, many of whom are acknowledging Holy Thursday. Out of that great number, only those in this room are realizing the possibility of a communion between the Holy Spirit and the outer consciousness of mankind. If you had not volunteered, where would the Earth be today? Sanat Kumara would not be God-free! Lord Buddha would not have made the expansion of his own consciousness, which was necessary to create a Causal Body, equal in every way to Sanat Kumara's, so that the Great Lord of the Flame from Venus could take his freedom. The planet Venus and all her people would not be accelerating the pace of their vibratory action to a point where they will be ready for their solar initiations. Lord Maitreya would not have had the opportunity of becoming the new Buddha!

Imperative Need For Readiness

Presently, Kuthumi and Jesus, acting together as the Cosmic Christ, also still retain their offices as Chohans of the rays. Do you know why? BECAUSE NO ONE ELSE WAS READY! There was no one to take the places of Kuthumi and Jesus as Chohans of their respective rays at this moment.

ARE YOU READY TO RENDER THE SERVICE WHICH WILL BE REQUIRED OF YOU IN THE DAYS TO COME? Suppose tomorrow you were called upon to take over this sanctuary, to take over its expense, its responsibilities and its frictions, as well as the endeavor to combine the many selves into one. Suppose, one day, when you were alone in the heart of a business district or a shopping center, you were called upon to give instantaneous protection to many people. Suppose the streets began to crack open and the buildings began to shake. Suppose also your great rivers here were suddenly to rise above their normal water

line—would you be the calm, poised, majestic presence of your own God-Self, in full command and control of the situation?

Measure yourselves, children, oh—not with such a tension that you become impossible to use at all—but with wisdom! LORD BUDDHA DID NOT EXPECT TO BE CALLED FOR SEVENTEEN YEARS. He was ready. Lord Maitreya did not expect to be called either, but he was ready: Kuthumi and Holy Jesus were ready! Others, thinking they had seventeen years yet to prepare for Chohanship were not ready. You will recall that the wise virgins had the oil in their lamps and they were ready with lamp lighted when the bridegroom came.

FIVE YEARS BEFORE THE CONTINENT OF ATLANTIS SANK BENEATH THE WAVES OF WHAT IS NOW THE ATLANTIC OCEAN, WE ALERTED THE PEOPLE WHO LIVED THERE AS TO COMING CATAclysmic EVENTS. Ascended Beings and cosmic messengers from many realms came and spoke through the priesthood and the oracles. At first, the people listened to their words and the idea was entertaining for a while. It was something new and different and it was exciting. Then, as nothing spectacular happened immediately or soon thereafter, the people went back to their pursuits of so-called “happiness.”

WHEN EARTH CHANGES AND CATAclysms CAME AS PREDICTED, THE GREAT RUMBLINGS OF THE EARTH AND THE SINKING OF CONTINENTS, WHO WAS READY? ONLY A HANDFUL, willing to take those magnificent flames north, east, south and west. The rest of the population went down! Get ready! We are investing tremendous energies in you, beloved ones, energies which are our life, energies which are cosmic and we are investing them in you for a definite purpose.

Importance Of Sacred Heart – Thought-Form Of The Year

It is also my assignment tonight to give you something on the Law. You see, We are all given our subject matter for the classes by Lord Maitreya who still holds that office of service, still designing the instruction for the class work.

Now let us think upon the thought-form for this year—the Sacred Heart made of Pink Flame with the immortal Threefold Flame arising from it at the top. I shall use this thoughtform as an explanation of certain points of Law which I would like to present at this time. Now, when the immortal Threefold Flame has emerged from its airless cell within the heart, it has then become perfectly balanced. That is the

sacred heart which dwells within your own divinity.

What exactly does this thoughtform mean? It means the heart of divine love which should be beating through your own, flooding all your four lower bodies with its perfecting, forgiving, raising and illumining feelings. Now, because you have received this thought-form for the year, is there a change for the better in your personal activities, is there more happiness in your home life, more harmony in your group activities and in your outer world activities as well, since the beloved Sanat Kumara on New Year's Eve took his time and life to receive from the Silent Watcher this design which is a message to you, or are you just the same as you were before you knew of it? Has this Pink Heart (which shows the Three-fold Flame released from its airless cell), meant more to you than a "bauble"? Think about this!

You know, your physical heart has four chambers and they are called, interestingly, auricles and ventricles-auricle (oracle) the receiving center, the ventricle the directing and releasing center. In this symbol of the Thought-form of the year (1956) we have the Archaii Charity and the Lady Master Nada representing the auricles and we have Archangel Chamuel and Paul the Venetian (Chohan of the Third Ray) representing the ventricles. Their four-fold activity should fill your worlds with the actual feeling and expression of pure divine love from these four Beings. Charity and Nada, Chamuel and the Venetian are real, living Beings who represent the inflow and outflow of the actual substance, feelings and powers of accomplishment of the sacred love of the Sacred Fire through the Pink Flame in this service.

You say: "Oh, thou beloved immortal victorious Three-fold Flame of eternal truth within my heart, I love you! I love you! I love you! Take your full freedom in me now. You are inside of me—blaze your light through." Through what? Through your physical, etheric, mental and emotional bodies. When you take that decree and, speaking to Holy Amethyst you say: "Beloved Holy Amethyst, you are inside of me, blaze your light through," what do you mean? Again, you mean through your physical, etheric, mental and emotional bodies. Here is a lesson on the breath which some of you already know; those of you who have learned proper breathing and have taught breath-control.

WITHIN THE IMMORTAL THREEFOLD FLAME INSIDE YOUR HEART IS THE VITAL ESSENCE OF EVERY GOD VIRTUE. It is connected with every divine attribute, faculty and God-being in this universe. It is connected with the Resurrection Temple and the activities of Jesus and Mary, as well as with the activities of the Violet Fire and Holy Amethyst, the

Freedom Flame, the Flame of Truth from Pallas Athena and so on and on, indefinitely. Therefore, when you are breathing in—if you choose to learn the control and perfect rhythm of that breath, picture your heart as this Sacred Heart and then visualize around it your physical body first, your etheric body interpenetrating that, then your mental body and then your emotional. (In the undeveloped chela, these four lower bodies look just like ovoids. However the more spiritually developed you become, the more form they take on. So, your emotional body now has a figure and so have your mental, etheric and physical vehicles. This is easily seen with the inner sight!)

Instruction On Rhythmic Breathing

For instance, if you want the purifying assistance of Holy Amethyst, breathe into that focus of her Violet Fire within your heart—from your emotional, mental, etheric and physical bodies, every bit of the impure substance which is there.

Feel that substance being purified and transmuted into light while you are holding that breath within your body. (Note: Please consult Transmission of the Flame Manual for instructions on how to use the rhythmic breath.) Then, as you release the breath from the body rhythmically, feel the Resurrection Flame passing through this energy and then release it to each one of your four lower bodies, **GIVING JUST AS MUCH TO EACH VEHICLE AS *YOU* WANT THEM TO HAVE, NOT AS MUCH AS *THEY* WANT TO HAVE.** There is a great difference here and this is one of the activities of becoming Master rather than servant of your vehicles.

As you breathe out this Resurrection Flame into your physical body, you will feel that body vitalized, as you breathe it out into your etheric body, you will begin to feel the acceleration of the divine powers which you had in the Great Central Sun before the world was, as you breathe it out into your mental body you will feel the clarification of those divine concepts which come from the heart of the universal and as you breathe it out into your emotional body, you will begin to feel the buoyancy, joy and happiness of serving God, the Ascended Masters and your fellowman.

If you will faithfully practice this, it will slow up your breathing process. It will cause you to breathe more deeply instead of taking those shallow, surface breaths. This will let you live longer! Now, that may not be a promise which gives you much joy! However, do you know

your breaths are numbered? Do you know that if you use them up (in panting and hasty breathing—in short breaths as so many do who live in the Western Hemisphere), you do not live as long? Do you know, too, that those individuals spoken of in the Old Testament who lived eight or nine hundred years did so because they had control of and used the slow and rhythmic breath?

In your practice of this purifying activity through the breath, at first just experiment with it for about five minutes at a time. (it would be well if this could be done rhythmically three times a day.) Then, as you become more proficient, you may increase the time you are giving to this practice. When you do so experiment, you may find one or more of your bodies not wanting to lovingly co-operate as you draw its impure substance through your breath into that purifying action of the Sacred Fire within the heart.

Whatever vehicle you may have which is in particular “command” of your outer self is going to object to this attempt at its control. On the outbreath, whatever vehicle has heretofore always received the most energy is going to try to seize it. So, you are going to have to be very impersonal—just as impersonal as I am. You know, in my position as the Holy Spirit, until this new activity came forth, I had developed a very impersonal nature and you must become just as impersonal with regard to your vehicles of expression (bodies).

If you need more physical vitality through the day and not so much mental energy, allot that energy to the physical body where you desire to use it and vice versa. If you need more emotional buoyancy to overcome depressions or whatever is weighing down your feelings, breathe that buoyancy forth from the flame within your heart and send it out through the “heavy” feelings. If you will use this activity of the controlled and rhythmic breath, you will find you will walk more slowly, you will not hurry, you will come to a greater sustained peace of soul, mind and body, greater understanding and you will be a better radiating center of blessing to all the life you contact everywhere you go. This is so because, by your attention upon the Three-fold Flame within your heart, you can contact immediately any one or all of the flames of God-perfection—resurrection, healing, purifying and so on.

Beloved Helios and Vesta design a simple pattern, a thoughtform, for each year. Its purpose is to point towards a specific service that Masters and students alike are to render during the coming year.

Symbols For "Forcefields"

I have been asking for “forcefields” for years and for a simple symbol which can be used as the center figure of such “forcefield” with which the students who belong to that sanctuary are familiar. THAT SYMBOL SHOULD GIVE THOSE STUDENTS A SPECIFIC IDEA OF WHAT THEIR GROUP IS DOING AND WHAT PARTICULAR SERVICE OF MAGNETIZATION AND RADIATION IS GOING FORTH FROM IT. IF THE GROUP MEMBERS HAVE A COMMON SYMBOL, IT BUILDS STRENGTH. Through unity of mental concentration, the students cut out of universal light substance a good, clear pattern and fill it with the feelings of joy and Christ accomplishment as they continue to release their energy in decrees, songs and so on.

THEN, THROUGH PROJECTED CONSCIOUSNESS, THEY CAN “TRAVEL” IN THAT SYMBOL WHICH IS A REAL FORM CREATED OF LIGHT SUBSTANCE, SUSTAINED AND EXPANDED BY THE ENERGIES OF THE GROUPS. THROUGH THIS PROJECTED CONSCIOUSNESS, THE STUDENTS CAN VISUALIZE THEMSELVES TRAVELING ANYWHERE THEY WISH TO GO AND THERE, GIVING THEIR DECREES RIGHT INTO THE ACTIVITIES WHICH NEED HELP. For instance, you can go to the Middle East, into areas devastated by destructive climatic conditions, or wherever there is a need for your service.

The center of your “forcefield” can be any constructive pattern. Some of those who have complied with my request have used the Maltese Cross as their center figure. Several have used a large, pink rose and one is a large grail of blue flame. As you have seen in your “Bridge,” through their calls and directing of the energies in their “forcefields,” SOME OF THE GROUPS HAVE BEEN DISSOLVING ICE FLOES, STOPPING STORMS AND RENDERING SERVICE IN PREVENTING AND REMOVING FLOOD CONDITIONS.

Therefore, again I point you humbly to this idea and ask, if it is at all possible, that you decide upon and consciously create just a simple symbol which you wish to use as the central pattern for your particular “forcefield” in your local groups, wherever you live. Beloved sanctuary and Group Directors, please explain to the people in your groups that the Thought-form of the Year (the Sacred Heart) is not a “toy.” It is a message. It comes from the Heavenly Host and each student who looks upon it is supposed to use it practically to heal, prosper and illumine his own being and world as well as the lives of all with whom he comes in contact. Much of this is done through radiation alone. I challenge you tonight to see what you can do with this Pink Heart and your group forcefields for the rest of the year, in the name of God!

Now, beloved ones, thanking you for your grace, your love and your presence, I love you always, deeply, more deeply than you know. At the time when your particular Chohan came to me and said: "Oh, I have a wonderful chela, just the most magnificent lifestream. I would like to sponsor this one in the world of form." Many times I, (knowing what was in that lifestream) have smiled and said: "All right, son. You have not only my acquiescence but all the powers, gifts and help of my own life. Go ahead!" Those of you who are here today are those who have been so sponsored by such members of the Ascended Host and I have taken you into my heart. Tonight and always, I love you!

(NOTE: For further instruction on forcefields, please see "*The Bridge to Freedom*," Jan. 1955.)

THE MASTERS OF WISDOM SPEAK THE LORDS OF KARMA

MAHA CHOCHAN

Few among mankind know of the great service rendered by the august body known as the Lords of Karma. Of those few, many regard them with dread of punishment and only lately has the gratitude and love of mankind risen to this Karmic Board for their service of mercy rather than retribution!

EL MORYA

Orderly system, divine justice, absolute exactitude in the balancing of the personal, planetary and universal use of life, is LAW. The Lords of Karma are Instruments of this Law. The members of this board serve in order to give opportunity to each soul to grow spiritually, subliminate its human nature, develop and externalize the portion of the divine plan which can be expressed only through that particular lifestream.

KUTHUMI

When self-conscious intelligence and the gift of free-will were given to man, his subsequent use of life required the assistance of divine intelligence to help him (when he was ready) to set his world again into

divine order. The Law of the Circle-creating causes and reaping their ultimate effects, is inexorable. Energy magnetized and used by man must return to that man as happiness, if the energy was used constructively or unhappiness if the energy was used destructively. Man, caught in the web of his own making, feeling the return of the misqualified energy of his imperfect causes, sooner or later calls for help and assistance to God. It is then that greater assistance can be given such a man by the Lords of Karma, although they serve all evolutions impersonally with but one idea in mind, to help the individual, the planet and the universe to express more of God's perfection in whatever sphere the lifestream abides.

PAUL, THE VENETIAN

Because the karma created by an individual soul is sometimes very great, the Lords of Karma mercifully withhold the return of all of that karma in one lifetime. Thus the soul is allowed to mitigate as much karma in one embodiment as the Lords of Karma feel it can handle. This is true divine love, wherein much destructive karma is consciously withheld from the individual until he has learned how to sublimate it in happiness and peace.

SERAPIS BEY

When an individual desires to become a “candidate for the ascension” and asks for the opportunity to “clean his slate” of all destructive karma, the Lords of Karma must be in one accord as to whether such an individual has the necessary strength, fortitude, faith, illumination and general capacities to endeavor to balance the scales of justice in one lifetime. Without the knowledge and persistent use of the Sacred Fire of Mercy and Purification (the Violet Flame), no individual can completely purify his energies in one embodiment. However, some individuals who have redeemed through countless ages the destructive karma they previously created have only a small debt to the universe to “pay off” in the final embodiment.

Now as the knowledge of the Sacred Fire is allowed to reach the outer consciousness of individuals outside the Ascended Masters' retreats, this sublimation can take place more quickly. It is imperative, however, that the “candidate for the ascension” realizes that the returning karma seeking redemption is allowed to find its way back to that candidate in order to more quickly set him free. Sincere students,

faced with much of this karma, fall into the erroneous thought and feeling pattern of “failure” because they seem to have more to handle than their fellowman. The reverse is true. THESE INDIVIDUALS ARE HANDLING IN ONE LIFETIME THAT WHICH OTHERS MIGHT HAVE TO HANDLE IN HUNDREDS OF LIVES.

HILARION

It is the responsibility of the Lords of Karma to see that every individual receives as much assistance as is possible in sublimating the destructive karma created through misuse of free-will. At the end of each Earth-life, the soul is called before the Karmic Board and its experiences, opportunities, potential services, seeming failures and successes examined carefully. Then the Karmic Board sends the individual to that sphere where it can best prepare for another Earth-life, strengthened through purification, instruction and temporary respite from the pressures of its own karmic retribution.

Before a new embodiment, the soul is again examined and the best possible conditions provided for birth in the family, race, nation and planet which will allow it to work out that portion of its karma which the Lords of Karma feel it can handle. Chelas and conscious students of the Spiritual Law often choose to “take on” more karma than the Lords of Karma would allot them. Then when re-embodied, these earnest ones tend to “blame” the Karmic Board instead of realizing that the opportunity of such redemption of misqualified life was their own voluntary choice. We are gradually educating the chelas to a point of recognition that this Board is a helpful body of merciful intelligences and not a scourge to punish the bewildered outer self.

JESUS

When an individual comes to a true understanding of the Presence of God, he realizes that the Father and his agents ALL WORK TOGETHER FOR THE GREATEST GOOD OF THE INDIVIDUAL AND THE WHOLE! Thus the “God of Wrath” is replaced by the “God of Love.” Sins, transgressions of the Law, etc., can be sublimated through the use of the Sacred Fire, not only for the individual making the calls, but through intercessory prayer for others as well. When I said: “Thy sins are forgiven thee,” I used the power of the Sacred Fire (Violet Flame) in this manner and interceded on behalf of the individuals whom I desired to set

free from the effects of their own misuse of life.

SAINT GERMAIN

The Sacred Fire of Mercy (the Violet Flame) is made accessible to the sincere students outside the Ascended Masters' retreats at this time to more quickly help the earnest and sincere to purify, redeem and sublimate the distresses created by misuse of the gift of life. As more and more individuals learn the efficacy of this power of sublimation, we shall have an expressed brotherhood of freedom who can, at will, free themselves and others from the shadows which frighten, distress and disturb them.

Ponder well on the power of mercy to dissolve FIRST THE CAUSE AND CORE of the distress and THEN TO DISSOLVE THE EFFECT before it can appear, act, or manifest ever again. DESTRUCTIVE KARMA CAN BE DISSOLVED BEFORE IT ACTS, IF THE STUDENTS WILL CONSCIOUSLY SET THE VIOLET FIRE INTO ACTION. To do this, we shall see how much the understanding, conscious acceptance and persistence use of the violet flame will do for the chelas. All our gathered momentum of its efficacious use is available for any and all who choose to ask us to anchor into their worlds at this time our momentum and feeling of that power.

THE GURU AND THE CHELA By the Ascended Master Kuthumi The Sacred Fire

CHELA—Beloved Master, what is the Sacred Fire mentioned so often by the Masters?

GURU—Blessed chela, THE SACRED FIRE IS LIFE (*a flame*) CONSCIOUSLY QUALIFIED BY SOME GOD INTELLIGENCE WITH A SPECIFIC VIRTUE, RADIATION AND ACTIVITY WHICH IS BENEFICIAL TO EVOLUTION.

CHELA—Beloved Master, where is the focus of this Sacred Fire?

GURU—Blessed chela, within your own physical heart is a focus of the Sacred Fire, which is an intelligence, qualified by the God-parents who created you. Within this Three-fold Flame within your heart is a spark of every God virtue, radiation and activity which you can develop, nourish, expand and utilize practically in your every experience. Also, there are foci of the Sacred Fire in the retreats of the Masters in this physical appearance world, at inner levels and, of course, in the hearts of all God-free Beings.

CHELA—Beloved Master, how can a student tune into the greater foci of the Sacred Fire which the Masters and angels have developed?

GURU—Blessed chela, an individual can tune into the FEELINGS, ACTIVITIES, VIRTUES AND RADIATIONS of the Ascended Masters *by* turning the attention toward any one of these Beings. Along the beam of your own life (attention) the momentum of the Masters and angels flows back into the Sacred Fire in your own heart and begins to expand that same, virtue, quality, radiation and activity through your own physical, etheric, mental and emotional bodies. It is a splendid practice to develop the latent God virtues which are within your own “Spirit Spark” (the Three-fold Flame of life within your beating heart).

CHELA—Beloved Master, can this Sacred Fire be contacted and seen in the physical world?

GURU—In times past, when mankind were purified, the Sacred Fire was visible to the physical sight of mankind. Various specialized, qualified foci of the Sacred Fire have been drawn into the physical world and the very sight of these magnificent flames gave faith, courage, confidence and strength to the devotee seeking added assistance through pilgrimage to the foci where the Sacred Fire was established. These days are to come again. They are a part of the new Golden Age, when temples of the Sacred Fire will be erected and certain dedicated lifestreams will magnetize and sustain the presence of the Sacred Fire so that all who so desire may have the blessings of their radiation.

CHELA—Beloved Master, presently, the Sacred Fire is not visible to the student except on rare occasions. Why is this so?

GURU—Blessed chela, this is so because man has created about himself a shell (aura) of slowly moving energy and, looking through his own atmosphere, he is unable to perceive the glory of the kingdom of Heaven, which beloved Jesus said IS AT HAND. Also, the present students have not drawn through their flesh bodies the luminous rays of their own immortal Three-fold Flame. This too will be done in the future and every chela and student will be a manifest temple of the Sacred Fire through self-luminosity of the flesh and the glorious aureole of color in the aura. At present, mankind is so intent on leaning upon outer form, that the tendency would be for him to turn toward the visible presence of the Sacred Fire outside himself rather than turning to the focus of the Sacred Fire inside his own heart. This would result in a delay to his individual progress made possible by his consciously and persistently turning back into the flame within the heart. This latter procedure stimulates the soul evolution which we seek to develop.

CHELA—Beloved Master, does the Sacred Fire have more than one form of expression?

GURU—Blessed chela, the Sacred Fire has many forms of expression, dependent upon the specialized virtue, activity and service which it is to render. It is one reason why our Lord Maha Chohan has been teaching you to create “forcefields,” specialize upon one activity of cosmic service and generally prepare yourselves to be guardians of a specific focus of the Sacred Fire, whether it be protection, healing, mercy, illumination, faith, comfort, love or any other God-virtue and God activity.

CHELA—Beloved Master, how can a sincere student find his way into the Sacred Fire within his own heart?

GURU—Blessed chela, again, I repeat, through attention upon this focus, acceptance of its reality, invitation to its presence to act through the outer self and sincerity in invoking the Masters and angels who are specialists in that particular virtue which the student or group desire to magnetize and radiate for the blessings of all life.

CHELA—Beloved Master, is the focus of the Sacred Fire within us “the Secret Place of the Most High” referred to by King David in the Psalms and is it the “kingdom of heaven” which Jesus taught is within us?

GURU—Blessed chela, truly you have spoken. In all religions, the spirit of God is thus referred to, although perhaps it is in different terminology, that spirit is always spoken of as being anchored within the heart of each one's being.

(NOTE: “Guru and Chela” simply means “Master and student.” However, may we point out here that a “chela” is *much more* than a mildly interested reader and seeker after truth. “Chela” implies an individual whose life is *wholly dedicated* to the Masters' cause and service, and worthy to be entrusted with more than ordinary power and assistance from the Ascended Being.)

MONTHLY LETTER TO TRANSMISSION CLASS

June, 1956

Beloved Precipitated Flames From The Heart Of God:

I AM but one of those Intelligent flames precipitated in my time from the source of all self conscious intelligence! You, too, are such precipitated flames, around which has been coalesced the sheathes of an emotional, mental, etheric and physical body! You, in *essence*, are the immortal Three-fold Flame of God precipitated at your point in the universe for *one purpose*—TO FULFILL GOD'S DIVINE PLAN!

As we again enter the sacred precincts of the Rocky Mountain Retreat, we are all conscious that we stand on holy ground! Here, oppor-

tunity was given for the use of the free will in designing (according to divine promptings) the kingdom of heaven on Earth. Such opportunity was presented to all pilgrims who were to use the Earth as a school room. Many have forgotten their purpose. Some few, like yourselves, are remembering again and seeking the way to fulfill that purpose and return back HOME! As you stand within the precipitating power of the Brotherhood of the Rocky Mountain Retreat, let its impetus expand the immortal Three-fold Flame within your hearts until that flame becomes, once more, the Master control of all your energies, all your bodies, all your affairs and *be about your Father's business!* Anticipating our mutual joy in meeting at the conclave of Masters, angels, elementals and chelas before the Karmic Board.

Lovingly and humbly,
The Maha Chohan.

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
with the Great White Brotherhood and Cooperative World Service

JULY 1956

TO THE COSMIC FLAME OF FREEDOM

BLESSINGS from the hearts of all who have utilized your presence to sublimate the energies of our personal worlds and have ascended into the God-free estate by reason of your assistance!

To the beloved Master Saint Germain, Guardian of the Flame of Freedom, we send our gratitude on behalf of all evolutions in the Earth, on the Earth and in its atmosphere, who can, through the use of that flame which you guard ascend in like manner to become Divine Beings!

To the angels of freedom and the Brotherhood of Freedom who, when invoked, assist in the restoration of the Earth and its evolutions to perfection, we send our thanksgiving!

To the men and women throughout the ages who have loved freedom and sought to bring that freedom to their fellowman, we send our love!

As the Earth has entered into the activity of the Freedom Flame, upon whose ascending tide Lord Sanat Kumara has already received his freedom from centuries of voluntary exile, we decree that the knowledge, use and manifest expression of the efficacy of that Freedom Flame shall cover the Earth and every man, woman and child will arise, throw off the shackles of limitations and walk in FREEDOM'S ROBES! Anticipating the transmutation of the Earth (now known as the "dark star") into Freedom's Star, we move forward with those earnest chelas whose purpose, motive and activity is to a like accomplishment—Now!

Thomas Printz, Editor

The Homes and Retreats of the Masters of Wisdom

ASCENSION TEMPLE AT LUXOR (Egypt)

July 15th through August 14, 1956

The Brotherhood of the Ascension Temple have dedicated their lives to sustaining the Ascension Flame upon whose crest all who qualify may return “home” into the Ascended Masters realms of perfect expression.

When mankind allowed their consciousness to be impregnated with shadows and lost the control of their thought and feeling worlds, some few realized that a way back to perfection must be found and sustained. While the masses enjoyed the “pursuit of happiness,” these few continued to draw primal life, qualifying it with adoration to God and his heavenly messengers, then consciously sending that praise, adoration and thanksgiving up to them. This ascending stream of love is a current of actual power and lifts the energies of those who choose to avail themselves of connecting with the Ascension Flame for the purpose of raising the vibratory action of their own inner and physical bodies.

Every Being who has sublimated the impure energies of his own world has received assistance from the Brotherhood of the Ascension Temple to help in the acceleration of the vibratory action of the electrons composing the atoms in the four lower bodies. This momentum of ascending energy is increased by the gratitude and thanksgiving of each Being who ascended on its current into the God-free estate. The Seraphic beings who serve with the Brotherhood of the Ascension Temple gather together all the prayer-force of mankind and weave it into the Ascension Flame. Thus, in each man's personal victory, does the ascending current become more strong, powerful and efficacious for those following after him. The use of any activity of the Sacred Fire increases the power of that fire for all others, even as the first explorer, cutting his way through the brush, makes it easier for the next group to make a foot path, until finally there is a wide highway to a specific goal.

The focus of the Ascension Flame was changed when Atlantis sank. At that time the actual flame was carried by those who loved it, priests and priestesses of the Sacred Fire, across the seas to the land of Egypt. Here, traversing the Nile (some 480 miles south) they reverently established a new focus at Luxor for this Ascension Flame and have guarded it since that day!

The Hierarch of this retreat is our beloved Serapis Bey, who applied particularly to Sanat Kumara to include Luxor as one of the twelve retreats to be honored in 1956. His specific request was based on his

desire to stimulate HOPE in the consciousness of mankind. Let us then endeavor, while bathing in the stimulating, purifying radiation of the Ascension Flame, to invoke the beloved Archaii, Hope (twin flame of the beloved Archangel Gabriel), to help us in spreading HOPE to the world!

(NOTE: For further description of Serapis Bey's Ascension Temple at Luxor, please see *The Bridge to Freedom Journal*, Bk. 1.

ASALA FESTIVAL

(4:29 p.m. Eastern Standard Time) July 22, 1956

Once each year, the beloved Lord Maitreya celebrates the presentation of the spiritual Law as given by his Guru, Lord Gautama Buddha, by reciting to the Great White Brotherhood and the assembled and receptive chelas, the tenets of Lord Buddha's principle of living, the middle way. This ceremony takes place in July of each year. We present for your individual and collective ceremonies, excerpts of more recent comments by the beloved Lord Maitreya which will intensify his outpouring at the Asala Festival. Participate!

Thomas Printz

THE CONTROL OF THE FOUR LOWER BODIES

By Beloved Lord Maitreya

As the beloved Saint Germain has recently explained on various occasions, the four lower bodies (physical, etheric, mental and emotional) are closely interrelated, one with the other, just as climbers who are making a steep ascent upon a glacier, are tied together for safety's sake. Each one depends upon the other's sure footing, upon the capacity and training of the other, in order to reach the apex of the mountain. The slip of the foot of any one (caused by hysteria, emotional unbalance or, perhaps, by some accident to the physical body) is apt to plummet the entire group into a crevasse and obliterate them (temporarily, at least) from the physical appearance world. It is exactly the same thing with your inner bodies!

If, through habit, your feelings (emotional body) have been allowed to explode at will and to throw out resentment and rebellion with little or no attempt on your part to control them, that emotional body immediately pulls down with it the other three vehicles into the slower vibrations of the astral realm. Then you have a headache and mental fog,

you have another scar on the etheric body and you usually have some physical repercussion in the flesh form.

If the mental body is allowed to dwell upon thoughts of impurity, obscenity or the imperfections of other lifestreams (whether it is so-called “fact or fancy”) it eventually involves the emotional body. That body then comes over to see what is going on (so to speak) and a new party is started. Thus the entire group again is plummeted into the psychic and astral realm.

If the etheric body is allowed continually to revert to the injustices of the past, it revivifies those distresses again, many times making them re-occur in your present experience. You know, the etheric body is a great one to “watch” for such opportunities to express itself while you are on vacation or when you are not actually busy doing something else at the moment. That is when the etheric body becomes active and the stirring energies within it say: “Do you remember thus and so?”

Finally, the mind and feelings get into it and you have the “slough” of lowered vibrations again. Then there is only one thing to do and this same procedure has been used century after century by all sincere lifestreams who wish to become Master of their worlds. That procedure is, to change the vibratory action of those bodies by raising them (as the speed of the airplane propeller raises the plane into the air) by increasing the vibrations of those bodies to the point where harmony, purity, happiness, peace and general well-being exist!

God-Control Imperative For All

This is impersonal Law! It has nothing to do with any particular individual or any special lifestream upon the planet. It is just Law! While you allow the vibrations of any one of your bodies to become discordant, you immediately sink into the “slough” of the mass destructive thoughts and feelings of the race. You not only have to generate (through your application in the use of the Violet Fire and whatever other applications of which you know) enough “steam” to get up out of that “hole” again, but, while you are down there, you have opened your worlds to the destructive energies which form that mass strata and which then flow into and become a part of your world.

Beloved ones, this is the Law of the Retreats! It is the Law and the Science of mastery which is taught by every Being who has attained the right to be called “Guru” (Master) and who accepts initiates and chelas for development. Mankind (and chelas, too) are always looking

for an easy way out of their difficulties, for a “vicarious atonement,” for someone else to pay their debt, someone else to set them free! There is no one else but your own consciousness who can eventually control the energy which has been entrusted to you from God. NO ONE but yourself can control that energy. True, the Masters, angels, cherubim and seraphim can and do give you assistance in quieting the whirls of destructively qualified energy which you have already set up and they “pour oil on the troubled waters” far more often than that of which you have any concept in your outer minds.

True, the Master Jesus, (beloved Prince of Peace) when invoked by a soul in turmoil and in trouble, does send forth his radiation in answer to their calls and sometimes that one is sensitive enough to accept his peace. However, this is just temporary! Until the individual himself arises in the dignity of his own Godhood and realizes that he, himself, chose to take and use life from the heart of the God of the universe, he cannot be self-master over that life! The world around him and his own inner bodies are a record of what he has done with such life.

Silence – So Important!

When such a one so chooses to master his energies in dignity, poise and, preferably, in silence, he can succeed, if he will. You know, there is not too much kindness in this world of form. If you tell others of that which you endeavor to do before it is successfully achieved, you dissipate your energies which might be used to accomplish your purpose. Should you fail in your achievement, there will be many who will laugh at you. In the silence and dignity of your own Christ Flame, determine that these vehicles which you use are going to serve the purpose for which they were created, to expand the virtues of God. You may choose to develop and radiate any one or more of a number of God virtues which this world so much requires at this time. One could spend almost an entire evening enumerating the virtues this “crying” planet Earth needs: for one thing, PEACE, of a certainty! Will you allow your emotional world to be a conduit from your presence and the Ascended Masters' realm to carry uninterrupted PEACE into the souls of men which are torn with pain and agony, nations filled with unrest, an elemental kingdom despoiled and tortured by the ignorance, disinterest, unbelief and impurities generated by mankind, or must your emotional body be the “plaything” for any unkind word or displeasure of another which sends it immediately into distress?

Who Owns Your World?

Does your EMOTIONAL BODY belong to God or does it belong to the transients you meet upon life's way who take your world away from the authority of your Presence and steal your peace—God's peace—from you? If this is so, (for that moment at least) that discord “short-circuits” your energies through which the Godhead and all the God-free otherwise could pour peace into your worlds, then out through your atmosphere into the worlds of others.

Does your MENTAL BODY belong to God? Is it alert to the reception of the divine directions of your I AM Presence, or is it busy accumulating the gossip which is heard over the radio, read from the printed page, or spoken through the kindly (?) lips of your friends and associates? Is your mental body also the 'plaything' for the transients you meet on life's way?

Does your ETHERIC BODY belong to God? Is it the powerhouse it was intended to be in the beginning, in which there is recorded every magnificent experience you had with God 'before the world was', from the first time your immortal Three-fold Flame externalized from the Father when first you felt being and said: I AM, when you first looked upon the faces of your God-parents (of the system to which you belong) who created you, when you saw the shining light of the Archangels and there were no scales before your eyes, when you heard the “music of the spheres” just naturally and when you saw the beautiful temples of Light in the Inner realms, is that the content of your etheric body? Is that what surges up during your periods of relaxation and makes you remember God's perfection, or is your etheric body just a “Pandora's box,” containing the records of all the petty grievances and mistakes of others? Does your *physical* body belong to God? Is it vital and alert as it should be, ready to be about the Masters' business?

Take Daily Personal Inventory!

Today I ask you to take an inventory of yourselves. You are chelas, now, who must move forward under your own “steam.” These vehicles (bodies), which are yours to control, you must keep in the use of God if you are what you profess! YOU CANNOT SERVE TWO MASTERS! You are serving God when your bodies are conductors for his grace, you are serving mammon when your bodies are re-acting to the flash-tides of human emotions!

Think it through, beloved ones! You say: "All I am or have or ever hope to be or have is THINE." That is a big statement! Are you confirming it in your daily living?

O, lovely ones, think of the statements you make and have been making for a number of years now. Think upon them deeply, for they will affect the karma which you draw upon you.

It is up to you to create the glory of your Causal Body through your four lower bodies and make the Holy Spirit of God your personal aura, instead of its being a flashing and crashing of the discords of your various vehicles which are "offbeat." When they are so, they are creating the dissonance which is very evident to others and which causes your own personal distresses. It is time now that you bring your four lower bodies (physical, etheric, mental and emotional) into alignment, all of them, and then raise and consecrate them all to God and impersonal service!"

THE GURU AND THE CHELA
By the Ascended Master Kuthumi

As the beloved chelas are interested in developing my humble explanation of the efficacy of the breathing exercises as presented in "The Bulletin" during the month of May, 1956, I have been given permission to offer my column this month to an elaboration upon the initial instruction. This added instruction will assist those desiring to use these breathing exercises with more efficacy. I present such directions as prepared by our beloved chela, Mrs. Ekey, to those who choose to avail themselves of it.

**ON THE MASTERY OF THE FOUR LOWER BODIES THROUGH
RHYTHMIC BREATHING**

Frances Ekey

May 5, 1956

THROUGH THE CONTROL OF THE BREATH, the beloved Master Kuthumi has told us, THERE CAN BE DRAWN HEALING FOR EVERY CELL OF THE PHYSICAL AND INNER BODIES. ALL DISEASES, (INCLUDING CANCER AND LEPROSY) CAN BE SO HEALED. THIS RHYTHMIC BREATHING AND BREATH CONTROL IS ONE OF THE FIRST STEPS TO COMPLETE MASTERY OF THE INDIVIDUAL'S WORLD, for it allows the Holy Christ Self, through the expansion of the immortal Three-fold Flame with in the heart, to purify all the energies in the physical, etheric, mental and

emotional bodies. As the beloved Maha Chohan points out in his wonderful discourse given on Holy Thursday, March 29th, 1956 (which discourse has been published in the June, 1956 "Bridge"), at first, whatever body has been having its own way with our energies up to this time will probably attempt to rebel when this practice is first started. Therefore, it might be well to just take five (5) minutes regularly-three times a day, and, after a week or so, increase the time given to this exercise if the individual wishes to do so.

First of all, the student should either sit or lie down in as quiet a place as possible, making very sure that he is undisturbed during the time he is going to do this exercise. Regularity of experiment is of the utmost importance for, in rhythm of continuity, the individual gains strength of purpose, dexterity of action and confidence in ultimate accomplishment.

Consciously see the immortal Three-fold Flame within the heart expand until it is much larger than the physical body (at least filling your Tube of Light which is about 9 feet in diameter.) This Three-fold Flame is composed of three "plumes" of dazzling light substance, the gold plume in the center, blue to the left and pink to the right. These should be pictured as good, true, bright shades of these colors. The more brilliantly they are pictured the more powerfully they will act. The flame should extend at least 3 feet below the individual's feet and about 3 feet above his head, the physical body being held within the center of the Golden Plume.

Then see the "Golden Man" (the Christ) within the heart released from his airless cell arise and completely fill the physical form, thus giving the Holy Christ Self complete possession and control of that form. (In the case of the embodied angels, who have come from the Great Central Sun, the "Golden Man" within the heart would be a White Fire Being. If this is the case, then expand that white light). To expand this immortal Three-fold Flame in, through and around one, use the statement:

"O, Thou beloved immortal Three-fold Flame of Eternal Truth within my heart, EXPAND and DO THY COSMIC WORK!" Say this 3 times, with FEELING, knowing it has been waiting for centuries (since we first forgot its Presence within us) to obey your commands for its expansion, bringing your world into divine Order through divine love! Picture this large, blazing immortal Threefold Flame around the physical body—call directly to your own I AM Presence, and say:

1	2	3	4	5	6	7	8
I AM	inbreathing	th'plan	divine	fulfilled	from my	beloved	I AM
I AM	absorbing	“	“	“	“	“	“
I AM	expanding	“	“	“	“	“	“
I AM	projecting	“	“	“	“	“	“

The above are used on the indrawn, held, outbreathed and projected breaths as we use them in the Transmission Classes and as taught in the Transmission of the Flame Book). In this exercise, particularly in the beginning, one could just do the above four statements once—and once for each set of the following: After the above—then say:

1	2	3	4	5	6	7	8
I AM	inbreathing	th'full	accumulation	of all	the good	in my	Causal Body
I AM	absorbing	“	“	“	“	“	“
I AM	expanding	“	“	“	“	“	“
I AM	projecting	“	“	“	“	“	“

(Use the same as above statement). Then follow with:

1	2	3	4	5	6	7	8
I AM	inbreathing	th'nature	of God	from my	beloved	Holy Christ	Self
I AM	absorbing	“	“	“	“	“	“
I AM	expanding	“	“	“	“	“	“
I AM	projecting	“	“	“	“	“	“

(Use as stated before). Having done that, you have prepared your altar of the Sacred Fire by qualifying it with the full perfection of your three higher vehicles (I AM Presence, Causal Body and Holy Christ Self). You have now consciously drawn the full power and authority of the perfection of your lifestream into this Threefold Flame anchored within (and expanded from) your heart. Do you see?

Now in order to increase the power, activity and quality of any specific virtue of the immortal Victorious Three-Fold Flame of God within your heart, you can consciously invite the fully gathered momentum of any God-Free Being to accelerate that particular virtue through that flame within your heart by this exercise (we have chosen the Violet Fire of Transmutation, as purification is most required by unascended beings at this hour calling into action the assistance of Holy Amethyst, the Archaii who represents the purifying feeling of the Violet Fire).

Then, for the purification of the four lower bodies, through the

Three-fold activity of the flame—see that large, expanded Three-fold Flame turn COMPLETELY VIOLET—dazzling, blazing bright—the flame in all-powerful action. See the three plumes of pink, gold and blue ALL TURN VIOLET! The more powerful you want the flame the deeper you visualize its color and the more dazzling you picture its action

1	2	3	4	5	6	7	8
I AM	inbreathing	the Violet	Fire	of Trans-mutation	from Holy	Amethyst	
I AM	absorbing	“	“	“	“	“	“
I AM	expanding	“	“	“	“	“	“
I AM	projecting	“	“	“	“	“	“

Now, the “stage” is completely set for the PURIFICATION OF THE FOUR LOWER BODIES.

Consciously begin to draw into this all powerful Violet Fire by which you are now surrounded all the impurity in your emotional (feeling) body—drawing it in on the inbreath into this purifying flame. Hold it there on the “absorbing” or held breath, (feeling it being purified in that furnace of Sacred Fire). Then breathe that purified energy out again into the EMOTIONAL BODY on the “expanding” or outbreath and project its purification out into the atmosphere around you and into the Transmission Flame which is constantly encircling the Earth during the period of its 30-day service each month.

We suggest the following statement to be used for indrawing the impurities of each body (in turn) as that substance is drawn into the Sacred Fire (whatever flame is used):

I AM inbreathing for purification all th'energy of my feeling world
 (On this statement, feel it drawn in)
 I AM absorbing for purification all the energy of my feeling world
 (On this held breath, feel it purified)
 I AM expanding this purified energy of Christ perfection into my feeling world.
 (Here see that energy expand to the atmosphere around you).
 I AM projecting (same as above)
 (Now see this purified energy picked up and carried away on the Transmission Flame to add to the light of the world.)

Then take the impure energy of your MENTAL BODY in the same manner, using the same technique as that suggested for the emotional body. After that, do the same for the ETHERIC BODY and then the PHYSICAL. As we said above, in the beginning, it is best to stay with this practice about 5 minutes at a time. The time can be increased as

the individual gets more and more accustomed to managing the breath and the bodies begin to realize that they have met their eternal, loving but unyielding master at last!

Of course, one may use the Three-fold Flame in ANY COLOR he wishes, according to the quality he desires to charge into these four lower bodies. We used Violet because of the great need for transmutation of the impure energies there. Beloved Saint Germain said years ago that today, about 90% of the energy of the unascended individual's world is qualified with discord! For that reason, we suggested the Violet Fire FIRST!

However, if one wants to charge these bodies with TRUTH, for instance, of course that flame would be colored in the individual's "mind's eye" with a beautiful shade of Chinese Green. If divine love is desired, color the flame a beautiful shade of pink and so on, blue for energy, power and faith, dazzling white for purity, crystal (iridescent) for resurrection, yellow for illumination, gold for peace and ministration of blessings to all. The deeper the shade and the more dazzling the color used, the greater the power drawn through that particular flame. The technique is the same for all the flames. Just change the color of the Three-fold Flame in, through and around the body to render the desired service of qualification.

THE MASTERS OF WISDOM SPEAK THE ASCENSION PROCESS

MAHA CHOHAN

First, let us remind you that the process of consciously becoming a part of the evolutions belonging to the Earth, followed the voluntary choice of those who desired to fulfill God's will in the physical appearance world. Through the use of God-given free-will, every individual decided within himself to volunteer to consciously lower the vibratory action of his emotional, mental and etheric vehicles to a point where the immortal Three-fold Flame within the heart could draw around itself the substance and energy of the physical world. This process of creating a physical body out of the elements of earth, water, fire and air, required the use of centripetal force anchored within the immortal Three-fold Flame of God drawing the purified elements of Earth's atmosphere into a beautiful physical body, made in the Image and Like-

ness of his or her own individualized I AM Presence. The process of sublimating (refining by Violet Fire) those elements, consciously drawn, until they again radiate light is also a conscious process, a gradual ascension into the divine image which has become distorted through misuse of the faculties of thought, feeling, spoken word and action.

EL MORYA

When your God-parents projected part of themselves (the immortal Three-fold Flame) from their hearts into universal light which is made up of intelligent electronic substance, they endowed that flame with the gift of “free-will.” Through its use the individual so created was enabled to draw as much or as little of life as they desired from their own beating hearts and to create with it whatsoever their self-conscious intelligence chose within itself to offer as a gift of added light to the universe. This immortal Three-fold Flame drew around itself the intelligent electronic substance (the body of God) and created a glorious Electronic Body made in the image and likeness of the God-parents. Then through countless aeons of time, this presence used the life of the God-parents to develop the Causal Body (the repository of all its created perfection).

Each individualized Presence specialized upon the development of one of the virtues, activities, qualities and services of the seven rays. When the individualized Presence presented itself before the Lords of Karma and the Manu who represented their ray, offering to embody in physical form, again free-will was the motivating power of such voluntary action. After the pollution of the energies of the four lower bodies by misuse of the faculties of thought, feeling, spoken word and action, it is again free-will which brings the individual to a point where he desires to surrender to his own I AM Presence, set his world into order, fulfill his divine plan and return “home,” to go out no more!

KUTHUMI

The fashioning of the emotional body from the electronic substance of the world of feeling, the fashioning of the mental body from the world of mind-force, the fashioning of the etheric body from the world of etheric substance and the fashioning of the physical body from the world of physical elements was accomplished by the magnetizing power of the immortal Three-fold Flame of God within each beating heart. The ability of mankind to use these bodies to develop the strata of im-

pure thoughts, feelings, spoken words and actions (which has been done) was the result of his conscious use of free will, which gift he voluntarily accepted from his God-parents, thereby assuming his responsibility for the use of life. Also, the sublimation of these strata by the conscious use of the Sacred Fire of Purification (Violet Flame) is a conscious activity in which mind, feelings, actions and words are employed. Such conscious application upon the part of the chela results in the gradual ascension of his vehicles of expression.

PAUL, THE VENETIAN

There is comfort in knowing that, as man consciously distorted his vehicles through the liberty of using life and its creative centers imperfectly, so can he then consciously restore beauty and perfection to his vehicles by this same liberty to use life to “make things right. “

SERAPIS BEY

All of the electrons spinning around the central core of every atom in your emotional, mental, etheric and physical bodies are intelligent. Furthermore, these electrons have taken a vow to obey the mandates of the individual and create forms of beauty or otherwise. Standing upon this premise, surveying the condition of one's own vehicles, the wise decide to speak to these intelligent electrons and their composite whole and ask for their cooperation in throwing off the substance of impurity collected through the ages. These electrons are most eager to obey this command “Be ye perfect, even as your Heavenly Father is perfect.” With the conscious use of the Violet Fire, the substance thus thrown off by the electrons is sublimated (refined) and the world of form and experimentation is thereby wholly freed from any and all residues of impurity from the ascending lifestream.

HILARION

The awakening consciousness of the individual who desires to fulfill his divine plan, cognizes the truth that the immortal Three-fold Flame within his heart can and will expand to direct the activity of every electron and atom in his four lower bodies (physical, etheric, mental and emotional). This is done by the acceleration of their speed as they move around the central core of their own atoms. This acceleration causes the impure substance in the forcefields around the electrons to

be thrown off and allows the electrons in each of his four lower bodies to expand their light until the emotional, mental, etheric and physical bodies become self-luminous. This is the process of conscious ascension.

JESUS

The “transfiguration” of the physical form follows a scientific law. It merely requires the surrender of the destructive use of one's free-will to the immortal Three-fold Flame of God within the heart. At your conscious call, this flame (intelligent and all-powerful) will expand its light through the four lower bodies and, as the impurities of discord (which have been imposed upon the electrons) are sublimated by the use of the Violet Fire, the pure white light of the electron is then allowed to blaze its light freely, then meeting the blazing light so released from every other electron, the inner and physical bodies just naturally radiate light!

SAINT GERMAIN

One of the services of the Seventh Ray (The Violet Ray) is to help to sublimate and transmute the impure substance drawn into the forcefields around the electrons in the emotional, mental, etheric and physical bodies. Thus the individual redeems consciously all the energy he has drawn through the ages and used for experimentation. As in a carpenter's workshop, there are many shavings, much sawdust and other residue which result from his endeavors to produce a form of beauty, so there is in the aura (and the world at large) much residue which results from experimentation with the “tools of creation” (feelings, thoughts, spoken words and actions).

The good carpenter not only produces a beautiful piece of furniture but cleans up his workshop as well. The good, honest chela, in the process of ascending into his God-estate, has the use of the Violet Fire to clean up the residue of his experimentations with life while consciously developing his own divine nature. This is balance, spiritual integrity, and mercy to the rest of the universe. Too long have the nature kingdom and the Ascended Host continued to transmute this “residue” for man! Now, he has the way and means of making this personal transmutation of the energies for which he is accountable. At the same time, he thus qualifies to become an Ascended Being himself!

THE POWER OF VICTORIOUS ACCOMPLISHMENT

By Beloved Victory

April 5, 1955

All of you came from the heart of God, shining beings of light and life eternal. When you awoke to being and felt yourself the self-conscious intelligence, when you either said or thought within yourself "I AM," then you knew the power of victory. You knew that energy acted instantly, responding to your thought and feeling. All of you had within yourselves that calm, positive assurance which comes with the realization that certain constructive activities, cooperating with each other, bring a definite constructive result.

As you moved through the inner realms and builded into your Causal Bodies those colors which stand there now as a momentum of your power of good, (to be released for your use when you get still enough, balanced enough and harmonious enough), you knew no resistance to the all-power of God, released through your own creative centers of thought and feeling. Within your Causal Bodies is builded the memories of those victories as you lived in the First Realm with the mighty Chohan there and learned the activities of ideation. Your world was filled with the power of victory as those ideas, entering into your consciousness, became yours for use.

As you stepped into the Second Realm and you fashioned from those abstract ideas beautiful outline and form, you were filled with a sense of victory, because there was no opposition, no disintegrating force to act upon your own beautiful thoughtform. As you entered the Third Realm and breathed the love of the Holy Spirit into your thoughtform, giving it life, you had only the sense of Victory, for there was only love within that realm, and so on through the seven spheres.

It was only after you chose to take incarnation on Earth and after the entering into the atmosphere of Earth of the "laggards" from the other systems, that you began to meet resistance to the flashing forth of the victorious light from your thought and feeling centers. In that first resistance to victorious accomplishment, FEAR recorded in your etheric body. Then as the maya grew and as the energy in the outer world became more and more dense, responding less and less to the constructive vibratory action of the creative centers of thought and feeling, resentment, rebellion and disappointment acted and made "scars" within the etheric vehicle. All of these experiences lessened your original positive consciousness of victorious accomplishment.

Now, we come again to give to you the feeling of victorious ac-

complishment in your use of the Law! You grasp the possibility of victory for the moment, but, deep within the etheric vehicle, there is the murmuring, the grumbling and the surging of the tide of remembrance of those times when your energies sent forth did not accomplish that for which they were meant. The outer world has chosen to call a portion of this great etheric memory the “sub-conscious” mind. These discordant experiences of life are growths in your etheric bodies, which have dimmed your light as you have endeavored to accomplish that for which you decree, make application and visualize. These etheric remembrances of the past defeat and neutralize your endeavors to a great extent.

Draw the Violet Fire through your spleen (Zadkiel's, Saint Germain's and Arcturus' focus in the physical body) asking your I AM Presence to remove all destructive accumulations from your etheric vehicle (body).

If any of you had been at Luxor, if any of you had been in the retreats where you would have had to see your own discordant creation externalized, you would know something of the impurity that lies in the depths of your own etheric vehicle. Because of the mercy of the Cosmic Law, because of the service which we hope to render to mankind through you, because of your own great service to your fellowman, at this time we are endeavoring to draw off as much as is possible of the discordant accumulation of each of your four lower bodies. Now, we desire to restore the memory of the power of victorious accomplishment to the etheric garments. For this reason, I have been asked to speak to you today.

Beloved friends, besides the records which you have made wherein you have not mastered the fullness of the creative powers of life, you also have magnificent records of victorious accomplishments. These I wish to stir into action!! I am resurrecting the records that were made when you lived in that First Golden Age with the great Lord Michael, the devas and the Manu, when all the powers of life were visible and tangible. Then from your heart, throat, head and hand that living flame flashed, creating a visible, tangible focus of the immortal Three-fold Flame of Life.

Through the powers of precipitation, you once drew forth everything you required—set your tables, clothed your bodies, created your homes by conscious use of your thought and feeling centers, through the flame of God's life, flashing from the head, throat, heart or hand. When you lived on Atlantis as priests and priestesses in the temples of the Sacred Fire, you drew forth its powers to bless life. Then you knew

the power of victorious accomplishment. Before Poseidonis sank, you sailed forth in boats, guarding those living flames. You established them at Luxor, Peru and in various places that were to remain upon the surface of the Earth, and at that time you KNEW victorious accomplishment!

Now, in the name of almighty God, I implore you to stand within your own immortal flame of life! Stand by the principle that God is good and that the will of God for you and every man is beauty, opulence, purity, peace, youth and every good and perfect thing. When imperfect appearances arise, say: "I will accept no compromise! I will accept only victory! I command all the power that you have promised to me, all your momentum of victorious accomplishment! To all human appearances I say, "You have no power before the VICTORIOUS ALL-CHRIST! ""

Oh, children, stir yourselves from the lethargies of the centuries! Call for the fullness of Victory in all your experiences and you shall know perfection! I ask this in the name of your own I AM Presence, in the name of the ascended Jesus Christ, in the name of humanity! When you know victory yourself and are positive of the power of victorious accomplishment, your feelings become a contagious power. When your inner bodies are filled with victory and you know that power within you, then shall you become THAT which mankind desires within its heart.

I give you the Flame of Victory, the love of Venus and of every Being who has served the Earth, having now returned to our star. They have "come home to go out no more." It is a magnificent experience when your course is run and you return to the star of your birth.

Thank you and God bless you!

MONTHLY LETTER TO TRANSMISSION CLASS

July 21, 1956

Beloved Aspirants Toward The Ascension!

I greet you in loving gratitude for aspiring toward your natural divine estate! I Am grateful that you desire to complete your course of Earth lives and, in dignity, return “home” to serve with us as *conscious* members of the Great White Brotherhood! I am also grateful that MANY OF YOU HAVE CHOSEN THE PATH OF TEMPORARY RENUNCIATION OF YOUR EARNED FREEDOM TO HOLD AN ANCHORAGE OF OUR PRESENCE IN THE WORLD OF FORM!

Tonight, we honor the Ascension Flame! All of us who embodied on the Earth at any time, have reason to be grateful for that flame which assisted us to complete our ascension. A portion of our gratitude is within it. This Ascension Flame is, therefore, a composite of all the upward-reaching, striving and searching from the souls of men. Your own prayers and applications are lovingly woven into it by the seraphim to whom is assigned the task of collecting, conserving and purifying all prayer-force on this planet.

When you FEEL the buoyancy and joy as you direct your consciousness into this flame, you will have a glimpse of the moment when you will complete your earth journey to come HOME AND GO OUT NO MORE!

Lovingly, yours in service and spiritual comradeship,

Maha Chohan

Statement for the Transmission Flame Class of July 21, 1956:

GROUP INSTRUCTION FOR TRANSMISSION CLASSES

July 21, 1956

Beloved Friends Of Freedom:

In the name of God, the holy Presence of life within your beating heart whose sacred name is "I AM", I call into action now, in, through and around you, the full power of the FREEDOM FLAME, that all-powerful Violet Fire of divine love, mercy and forgiveness, transmuting into light right now every shadow and imperfection which has ever registered upon your consciousness. I call directly to your own Holy Christ Self anchored right within your beating heart, to expand its light through all your world, replacing every shadow by the glory of its own protection and perfection of every description, sustaining and expanding it all ways! So shall it be! Consciously accept it!

The tender solicitude of the love of the Father-Mother God of the universe for their children is perhaps most plainly shown by their gift to such children of the Violet Transmuting Flame. Its gracious presence and power, when consciously called into dynamic action, is so far-reaching in its merciful release from the penalties incurred in the discordant use of life's energies, that its full meaning and blessing seem quite incredible to the average individual, especially when it is brought to his outer attention for the first time. However, those who are very sincere and wise will instantly and joyously seize this opportunity to "make things right" by the use of this flame. In a very short time (if it is consistently and persistently called into action three times a day) they will begin to feel a much "lighter" atmosphere about them and many distressing conditions of body, mind, affairs and associations will adjust themselves and the annoyances fall away. Anyone can prove this for himself, if he will!

"Know Thyself"

"Know thyself" says the Sage. Yet, mankind in general are now and have been for ages, so interested in "knowing" about everyone and everything else that they have forgotten the most important thing about themselves, i.e. the ability to consciously master their very own life!

You see, life is energy, light-essence, which flows constantly in rhythm from the heart of God (one's individualized I AM Presence) into his physical heart and gives it the rhythm of beating. That life in its

primal state is pure and perfect until it is used by the individual to make some form (determined by the thought) and then energized and made a living thing by the feelings. When these creations are constructive, they make light, beautiful, happy forms in and around one's aura and they not only radiate their own blessings to their creator but act as magnets to draw like vibrations and forms from all they contact.

The opposite of this activity is also true and, here, man comes to a place where the conscious calling forth daily of the Violet Transmuting Flame of forgiveness and mercy is so essential. Depressed and destructive thoughts, feelings, spoken words and acts create such forms in the individual's world, also, and the individual feeling resentment, injustice, pain, anger, etc. concerning them, fills those forms with the destructive rates of vibration and makes them live! If the individual does not know how to protect himself against such forms in the worlds of others, since "like attracts like," one is drawn to persons, places, conditions and things of similar vibration, thus increasing the distress originally caused by the use of his own free-will. Do you see? The love of the Father-Mother God always provides a way out of the difficulties into which their children sometimes stray, by a forgetfulness of the true way, a desire to experiment with life or just a rebellion in the feelings against giving obedience to life and a determination to have their own way. The Violet Transmuting Flame is that way out, proving itself absolutely reliable and helpful beyond all words to describe, to all who care to try it.

How Do You Use The Violet Flame?

At least twice each day go by yourself for at least fifteen minutes and make sure you are alone and undisturbed. Use the statement provided at the close of this letter, thoughtfully and sincerely, endeavoring to picture the activity taking place just as and when you call it forth. Repeat the statement three times. Then keep your attention upon this Violet Fire, seeing it rush up from beneath the feet, right up in, through and around every cell and atom of the physical body, forming a pillar of Violet Flame around you, about nine feet in diameter.

Without tension in the feelings, try to feel the power of this pillar of Violet Fire like a "blow torch" dissolving and transmuting on the instant every discordant thought and feeling form which you have ever drawn about you or allowed to come into your world. Try it dear hearts, it costs nothing to experiment with this wonderful friend of the ages, who

cares nothing about your mistakes, its only desire being to transmute them into light, bringing you comfort and peace as it does so.

Use the above exercise faithfully for at least thirty days. Never miss it once, and prove to yourself what a mighty assistance has been given you by your own God Presence, the source of your very life.

Confidently yours, in gratitude for the use of Violet Fire—

Frances K. Ekey

CALL FOR VIOLET TRANSMUTING FLAME

Beloved mighty Victorious Presence of God “I AM” in me, Holy Christ Self of me and all mankind, beloved Saint Germain and all who have to do with the release of the Violet Transmuting Flame of Cosmic Christ love, mercy, and forgiveness to the Earth and her evolutions:

Let your Violet Fire SURGE up in, through and around me and my entire being and world, RIGHT NOW, this instant and forever. Let it BLAZE in dynamic cosmic power, doubled each instant of each hour, transmuting instantly and forever into the Ascended Master light substance of purity and perfection all life energy I have ever mistakenly qualified by discordant thought, feeling, spoken word or deed.

Let this Violet Fire remove completely this instant and forever—the CAUSES AND CORES of all human limitations and distresses which I have ever created in my own world and in the worlds of others, as well as anything and everything of a destructive nature I may have accepted into my world which has ever been driven against me.

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact

AUGUST 1956

TO THE GREAT MANUS OF THE SIXTH AND SEVENTH ROOT RACES

Blessings from the heart of heaven for undertaking the voluntary task of preparing, guarding and sustaining the spiritual light of the Sixth and Seventh Root Races, with their subsequent subraces.

Even now, as we honor God Meru, the children of the Sixth Root Race walk the Earth and the children of the Seventh Root Race await the purification of the evolutions developing in the Earth, on the Earth and in its atmosphere, so that they may enter into physical bodies and assist our beloved Saint Germain in the establishment the permanent Golden Age upon this Earth!

We thank you, Lord Manus, for your presence and for the sweet lifestreams you have prepared for this service. Let the children of Earth now embodied, quickly awaken to the responsibility of preparing for your children, by the restoration to their God estate, of the Earth, its atmosphere and its inhabitants, so that only peace, harmony, opulence, understanding, love and light form the aura into which these dedicated lifestreams are to come!

Thomas Printz, Editor

The Homes and Retreats of the Masters of Wisdom

TEMPLE OF ILLUMINATION OF GOD MERU

(August 15th through September 14th, 1956)

In the heart of the Andes Mountains in South America stands MERU, the Holy Mountain. Within it is the retreat of the God Meru and the Brotherhood of this retreat guard the feminine aspect of the Cosmic Ray which, together with the Masculine Ray focused in the Himalaya

Mountains, forms the matrix around which the Seven Elohim builded the planet Earth.

As the fiat of the Cosmic Law shifts the scene of cosmic activity to the Western Hemisphere preparatory to the development of and preparation for the permanent Golden Age upon Earth, the activity of the Feminine Ray and its Great Guardians is emphasized and, in like manner, slowly the Masculine Ray will transmit its power and momentum to this focus.

The Holy Mountain Meru has been guarded for many ages by the Illuminati of the race, who knew of the particular spiritual radiation focused there which would one day be utilized for the blessings of the Earth and its attendant evolutions. Opening the retreat of the Great God Meru to the chelas upon the path at this time has particular significance, as it shows that the Great White Brotherhood are joining together with unascended beings in an endeavor to intensify the radiation and power of the Feminine Ray and thus hasten the preparation of the continent of South America to play host to the children of the Seventh Root Race who are destined to embody there.

One has to climb high above the plains to come to the base of Mount Meru. Then, unless the individual is cognizant of its spiritual significance, the climber might not notice and so pass by the simple peasant's hut which is the outer entrance to this holy retreat. However, if an individual is worthy of entering the Temple of Illumination, he will be met by a simple guide, usually a beautiful individual with traces of Incan culture upon his face and person.

Inside, the purposely created simplicity of the hut (similar to others builded in that locality to act as hostelrys for sightseers, mountain-climbers, etc.) one is pleasurably surprised at the gentle beauty of the waiting-room, the magnificent hand-woven tapestries, displaying various legends of past glories in previous Golden Ages hang upon the walls. Soft cushions, dyed in beautiful colors by native dye-makers, provide pleasurable resting places for the waiting guests. Sweet music of another age fills the room, together with the perfume of the rose, the hibiscus and the lily. One feels that, to have come this far into the presence of peace, is the ULTIMATE.

However, in due time, everything taking place at a leisurely and rhythmic pace unknown to the average modern individual of the occident, the guide draws aside one of the tapestries and a long hall, illumined by the light that always accompanies the presence of the As-

cended Ones, precedes the guide and the chela. The walls of the passageway reveal the rich golden veins in the Andes Mountains which have not yet been discovered by the “greedy” searchers after wealth for selfish purposes. One can see how lovingly, how kindly these natural veins of gold have been polished to bring out their luster.

At the end of the passageway, we come to the great chamber where the actual directed ray is focused and where it blazes up in a great, golden Sun of Illumination. Around this Sun sit many of the chosen ones, breathing in its illumination and expanding their own consciousness before they return to the outer world to serve God and man.

The utter simplicity, the absolute peace, the sense of concentrated power is almost overwhelming. The chela joins those Brothers and Sisters of Illumination (ascended and otherwise) and begins to absorb the radiation of this flame with the one purpose of giving his added light (thus gained by proximity to its presence) to mankind through radiation, through teaching, through whatever channel he is fitted to serve. As the Lord Manu of the Seventh Root Race (known to some as the Great Divine Director and to others by many other names) is now pleading with the children of Earth to assist in the preparation of the planet and particularly the Continent of South America for their coming, as you visit this retreat and enjoy its peace and illumination, we would be so grateful if you would add your prayers and invocations for the quick redemption of this land.

(Note: for further information on God Meru's Retreat, please see, “Bridge to Freedom Journal,” Bk. 1)

(Note: God Meru (who is also known by many other names) is also the Lord Manu of the Sixth Root Race. As our gentle readers may know, each root race is divided into seven sub-races—the members of which embody according to cosmic rhythm and in accordance with the wisdom of their Manu when they can best help Earth's evolution and when they will find the best atmosphere for the spiritual expansion of their soul-light. Some members of the Sixth Root Race are already in embodiment.)

THE GREAT DIVINE DIRECTOR

I see a being so majestic,
Filled with power of light and love,
It is the Great Divine Director
Blazing Light Rays from above.

CHORUS:

Great Divine Director from the Sun,
Illumine all mankind, teach all that life is one!
Great Divine Director, set us free
In love's eternal harmony.

The Master Presence of God's wisdom,
We flood all our love to You,
The Master Teacher of our Saint Germain,
Jesus and Kuthumi too.

Beloved Great Divine Director,
In thy Cave of Light we stand,
Blaze through us all those glorious light rays
From your heart and head and hand.

Beloved Great Divine Director,
In thy radiance we would live,
Dissolving every human shadow
And by thy great love—forgive!

Hymn Tune: "In My Heart There Rings a Melody"

THE SEVENTH ROOT RACE

By The Great Divine Director

June 27, 1955

(NOTE: To the gentle readers: The Great Divine Director is the Great Lord
Manu of the Seventh Root Race, which is destined to embody on Earth.

“Hail! Beloved friends of light and life eternal. I come to you today
with the pressure and power of my love. I have seen within you the
great gifts which have been given you by my beloved son, Saint
Germain, of whom I am duly and, I might say, justifiably proud. He did
embody many times on this dear Earth, manifested and expressed
down here every God gift of the universal father.

As you know, I represent the Seventh Root Race. As the Manu of
that root race (and its subraces which shall stem from it) to a great

extent I represent the Father aspect for a race which has not yet had opportunity to embody upon the Earth. Therefore, I know how very important it is to secure chelas who are capable and willing to prepare for the externalization of the divine pattern and design of the new root race and with enough tenacity to hold that pattern secure in the world of form against the deteriorating influences which would attempt to change that pattern in many ways.

For instance, the body of an infant has many of the characteristics of the physical parents through whom it is born, it has something of the bone structure of the race to which it belongs, it has also the allotment of its own karma which the great Karmic Board has allowed it to bring into its present Earth life. With this conglomerate mass of imperfection and some perfection, the child is subject to change and imitation of its surroundings from the moment that its senses begin to record. Have you thought of that? People who live in close proximity and admire each other for many years very often look and act alike. Even in our realm, beloved Kuthumi, beloved Jesus and beloved Lord Maitreya are all much alike in appearance and nature. The senses record and elemental life substance begins to outpicture that which it sees and cognizes. This “reflecting” activity takes place whether it is done by electronic light substance or the atomic consciousness of the physical body. The nature of elemental life is to mirror and duplicate that by which it finds itself surrounded.

It is a startling thing to see the changes which take place in a physical body, how much perfection is manifest in a child's body in its very early years and then to see what has happened to that body by the time it reaches the age of even forty years (according to physical time). Impurities, disintegration, coarsening of the physical features, old age and so-called “death” , these are all race karma and are the outer manifestations caused by the soul's acceptance of the suggestions from the mass consciousness of mankind by which the soul is surrounded in an Earth life. There are very few lifestreams living on Earth today who are holding to the perfect pattern of their own divinity.

I speak of this with regard to my specific service to life, which is the bringing in and raising to perfection of the Seventh Root Race. No matter how perfect the divine design of a root race may be, the “fore-runners” of that race will begin to come in before all the previous root races and their subraces have gone on. No matter how exquisite, delicate and perfect the design of a soul belonging to the new race, each such a one will be subject (through the power of contagion) to the el-

ements of imperfection from the races which have gone before, absorbing that imperfection either from those they daily contact or from past destructive etheric records which still radiate in the atmosphere of Earth. Therefore, it is so important to me to secure the offices of those who will help us to hold the immaculate concept for the Seventh Root Race.

This race also comes under the supervision of the Ascended Master Saint Germain, as will also all the subraces which will come forth from the Seventh Root Race itself. Beloved Mother Mary rendered this service for the Master Jesus. Born without sin and destructive karma of his own, yet he lived in a world which did not then have the merciful walls of institutions to shut out the distressing sights around him and so protect his sensitive consciousness from the appearances of leprosy, insanity and all manner of wasting diseases, as well as so-called “death” itself. If he had not had the strength of Mary’s immaculate concept and Joseph’s mighty powers, as well as his early learning to use his own consciousness to “magnify the Lord,” what do you think would have happened to that exquisite, golden-haired boy before the mastery of the Christ Self expanded sufficiently to act through him?

The Seventh Root Race is very beautiful. It is a race where every man is a courtly Prince and every woman a Queen, where every child is a cherubim, an angel of purity, peace or some God-quality in perfect balance. That is the era toward which we aspire! In connection with this, we are waiting long and patiently for enough of the previous races to expand their light and progress from the Earth so that we can begin to bring in these lifestreams belonging to the Seventh Root Race who have been so prepared, who have passed through the Seven Spheres at inner levels, who have abided within each sphere for a certain time and, while they were there, builded into their Causal Bodies the color of that sphere and a certain momentum of the use of that ray.

When these lovely ones entered the Seventh Sphere, abiding within the Violet Fire Temples of Saint Germain, they could go no farther at that time. They have had to wait until the Lords of Karma could see that the people presently living upon the Earth would come to the point where, by the expansion of their own light, they would need the Earth no longer, thus leaving it for the next root race to occupy.

It is a scientific fact, beloved ones, that the actual weight of an individual’s karma is carefully taken into consideration by the Karmic Board before he enters an Earth life. For every person who embodies, thus revivifying his own karma through his soul consciousness, there

must be removed through the gates of so-called “death” another individual. The karma of such a one then lies quiescent in the atmosphere of Earth while he abides at inner levels during the merciful period of release from the pressures of physical embodiment. Because the Earth is a 'school room' ordained by divine Law, where certain mental and emotional lessons in God-control must be experienced. Individuals must return to the Earth again and again until they have found the mastery of energy (life) which is their reason for taking physical embodiment in the first place.

The Fourth Root Race and all since have been very recalcitrant in their learning and experience life here. That recalcitrance has held us up for some time. These beings who belong to me (the Seventh Root Race) are awaiting their first embodiment! These souls have never yet touched the planet Earth, have never smelled the fragrance of your Spring, have never looked upon the light of your Sun, have never seen the light dancing upon the rippling waters of your oceans and your streams. These lifestreams are waiting for the people who are taking the same “grade” over and over again in the “schoolroom” of Earth life, until they have qualified to graduate.

Do you see, then, why I am so vitally interested in assisting the acceleration of the present-day inhabitants of the Earth and those who wait redemption through re-embodiment? When that has been accomplished and when all who belong to the earlier races are ascended, then shall come to Earth an entire race so fair, so beautiful I know, for they are my own. Then shall our Earth be a star of freedom. Then shall men be Gods incarnate. It is for this that I wait and with me, waiting also, are all these beautiful lifestreams to whom the Cosmic Law cannot allow embodiment on this Earth at present.

South America – Host For The New Age

Now, you know that the cradle of this great new civilization is in your Western Hemisphere. You know that the South American Continent and all Latin America are to be cleansed and purified of all the lethargy and indifference, all lust and passion and everything that has externalized that great Amazonian jungle, having infested it with reptiles and other imperfection. Again, there shall come forth upon that Continent of South America a magnificent age of light and beauty which will be the final star in Saint Germain's cross.

Many of you lived in past eras of great light in South America and

many of you remember your worship of the fire and of the Sun. Many of you remember when the gold flowed freely and decorated the homes as you use paint today for the same purpose. That beauty shall come again. Believe me, greed and acquisition of personal wealth by cruel methods shall have ceased to be, before we build anew. No more shall men tear the golden representations of the God's from the temples, no more shall they slay the gentle guardian spirits. The Law will not allow the manifestation of greater perfection, beauty and wealth until those even capable of such greed and lust no longer inhabit this Earth.

In South America, beloved ones, there has been great light and also great darkness. Many a living sacrifice passed screaming from the body in so-called "religious rites." As you make calls for the purification of this Continent remember (as mothers prepare beautiful bassinets for their children) that when you think of and make calls for Latin and South America, you are preparing them for a race which is to come, a race of beauty and perfection, a race which is my own.

For your presence here today, for remembrance of me in your personal decrees and for your love of Saint Germain, I thank you!

ACTIVITIES OF THE KARMIC BOARD

By The Great Divine Director

(NOTE: The beloved Great Divine Director is one of the members of this board of divine love and mercy. The other members of that board are: beloved Cyclopea (also known as "Vista," one of the Elohim and the "all-seeing Eye of God"), Goddess of Liberty, Nada (Goddess of Love), Kwan Yin (Goddess of Mercy), Pallas Athena (Goddess of Truth and Twin Flame of the beloved Maha Chohan) and Goddess of Justice (also known as the Goddess of Opportunity), who is at present "spokesman" for the Karmic Board.)

The understanding of the offices of the members of the Karmic Board will bring to the consciousness of those of you who represent us in the world of form, a greater realization of that divine love which has made us willing to accept this rather thankless service.

Every lifestream, as you know, having magnetized primal life and chosen self-conscious intelligence and desiring through the use of free-will to learn how to use energy constructively, has created a heritage of karma. The good becomes the glory of the Causal Body and the evil becomes the weight of the personal aura, as well as the contributing factor through that great, seething mass of energy which you have

called the "Psychic" Realm. "This is the 'veil' between the glories of the kingdom of heaven and the earnest consciousness of the 'bound'."

It is the responsibility of the Karmic Board to see that these energies, woven out of life's substance by the evolutions on this planet, are transmuted, purified and redeemed and then returned to the natural state of perfection which they first expressed when they were invoked and drawn forth from the bosom of the Eternal.

It is the responsibility of the Karmic Board to develop through individual consciousness, a realization of the ways and means by which polluted energy, carrying the stamp of a lifestream, may be drawn back into the individual's world and purified, returning through the door of consciousness into its natural estate as part of the glory of his Causal Body.

It is the responsibility of the Karmic Board to see that the incoming lifestreams of each generation (bringing with them the heritage of their own personal karma) does not overbalance the already over-weighted Earth. It is therefore our responsibility to examine the karma of each lifestream who is about to embody on the Earth and to see that the karma of the lifestream leaving the Earth (through so called "death") is about in balance with the karma of the incoming soul.

Another responsibility of the Karmic Board is to allow into the twelve-month cycle of birth, enough lifestreams who have the capacity to transmute energy and to try in each generation, to remove at least a portion of the psychic creations from the Earth and its atmosphere, thus endeavoring to advance the redemption of the Earth in these rhythmic cycles.

The mass human creation (the "veil of maya") is also called the "Astral or Psychic Plane." This has been generated by every unascended being belonging to the Earth. The individual karma of every lifestream who has been given the ascension, has been transmuted prior to the invitation to dwell in the God-free realm. No lifestream becomes God-free who leaves a heritage of pollution behind, for that would not be either mercy or justice.

Therefore, when individuals ask for opportunity to complete their cycles of individualization and attain the ascension (all in the course of one final embodiment) it is made extremely clear to them by one of the members of our Board that their destructive karma (which now lies dormant in the atmosphere of Earth) will have to be revived and the opportunity given to such an individual to transmute all the discordantly

qualified substance and energy which carries the stamp of his lifestream through the use of his free-will. This discordant energy, is an actual weight upon the Earth. It is then necessary for the Karmic Board to discover whether or not a lifestream is strong enough to render such a service of personal purification in the course of one Earth-life.

Mercy would not allow us to grant the title of “Candidate for the Ascension” to a lifestream whose heritage of destructive karma would be too great for the developed consciousness to transmute. If the returning destructive karma were quickened and the catapulting energies of such invoked impurities were directed toward a soul which did not have certain inner understanding of the merciful use of the Sacred Fire (Violet Flame), certain fortitude, certain spiritual maturity, more harm than good would be done, because discouragement and an overwhelming sense of defeat might be impressed upon the etheric body.

Those of you who have accepted the responsibility of becoming a “Candidate for the Ascension” and who stood before us not so long ago, have been found capable of handling the individual transmutation of your energies. That which you sometimes feel entering into your world for purification (through the use of the Violet Fire) comes through your own invitation in order that you may more quickly balance your debt to life and be free. You are not required, however, to continue at this accelerated pace if you do not choose to do so. However, those of you who do desire to complete your course at this time, utilize the activities of purification through the use of the Violet Flame, feeling joyous release at every returning experience (no matter in what form it may return) which gives you opportunity to love imprisoned energy free. As you pass through that experience, poised and centered in your own God flame, untouched emotionally, mentally, etherically or physically but impersonally passing that energy into the Violet Fire, you are building into your Causal Body that minimum requirement of 51% which will magnetize your four lower vehicles and draw them “Home” the instant that that purification takes place which is required by Law.

In the earlier ages, when we were required to balance every jot and tittle, the lifestreams of the initiates went through far more trying experiences than those through which you are passing today. As you know, through my own world and aura, I have transmuted a great deal of the human creations of the student body but through the causative centers of thought and feeling, there has been woven again the same kind of chains which I had previously cut with my own hands and dissolved by my own life. You are at a point of great opportunity in the

opening of the door (conscious use of the Violet Flame) through which your energies may pass into eternal freedom.

I come again this morning to give the impetus of the purifying action of my Sacred Fire to flash through the energies already polluted in your worlds which are presently acting through your emotional, mental, etheric and physical bodies. However, you must self-consciously root out the causative centers of those qualities which are not of God. The Law allows us now to remove some of the effects of your human transgressions but the causative centers within you which produce these effects lie in the (to you) unseen, in the lusts of the flesh, in destructive etheric records, in your thought-processes and in your feeling world. Through self-conscious endeavor, in the majesty and mastery of your own God-Flame, these you must root out by the persistent use of the Violet Fire. Become the harmless one! Become beings of “cause” alone, that “cause” which you set up being directed by your Christ-Self to yield an effect of only benefit and blessing to yourself and all the rest of life. Nevermore allow a causative center in your being to create emotionally, mentally, etherically or physically, an effect which will again have to be redeemed through the energies of your world as an imperfection which has no right to live.

WHEN YOU BECOME THE CONSCIOUS CONTROL OF THE CAUSATIVE CENTERS OF YOUR BEING, YOU WILL NOT AGAIN WEAVE DESTRUCTIVE KARMA AND THROUGH THE ACTION OF MERCY WE (WHO ARE ALLOWED SUCH FREEDOM NOW TO REMOVE THE EFFECTS OF DISCORD) CAN RELEASE YOU FROM CENTURIES OF DISCORDANT ACCUMULATIONS!

THE MASTERS OF WISDOM SPEAK
PREPARATION OF THE EARTH FOR NEW ROOT RACES

MAHA CHOHAN

The original God-design for every lifestream who chose to incarnate upon the planet Earth was to allow each such a one embodiment under each of the Seven Rays. As the Cosmic Wheel turns once in 14,000 years, each ray is allowed 2000 years to play upon the Earth and all evolutions within it, upon its surface and in its atmosphere. The development of the Christ nature through physical form requires the nourishment provided by the outpouring of each of these Seven Rays. THEREFORE, BEFORE THE CREATION ON THE EARTH AND IN ITS ATMOSPHERE OF THE ACCUMULATED IMPURITY BY THOSE WHO HAVE LIVED UPON IT, AN INDIVIDUAL LIFESTREAM COULD EASILY AND JOYOUSLY ACCOMPLISH THE FULLNESS OF HIS DEVELOPMENT IN THIS 14,000 YEAR CYCLE. Many such lifestreams did achieve the perfect expression of their own divinity in the early Golden Ages, whose records are presently not available to the masses.

EL MORYA

In our present activity, with the cooperation of unascended lifestreams, we are endeavoring to so purify the atmosphere of Earth and the consciousness of its inhabitants, that great souls may take embodiment and fulfill their destiny without distress of any kind. It is not the divine will of the Eternal Father that an individuality should suffer while learning to consciously control the centers of thought, feeling, spoken word and action in this physical appearance world. However, the present distressing conditions upon the Earth, plus the discordant karma of individuals still embodying here, have created much suffering and grief. This we shall endeavor to remedy as quickly as possible. Then we can invite pure and beautiful souls to embody.

KUTHUMI

In my service at inner levels I am privileged to teach many individuals something of the Spiritual Law by which they may cooperate in mitigating their own karma and, upon taking embodiment on the Earth, help its evolutions as a whole.

PAUL, THE VENETIAN

From the time when the self-conscious intelligence decided to offer itself for embodiment upon the Earth up to the present hour, free-will has allowed such an individual absolute authority as to the use of life. This use of life (when charged with impurity—emotional, mental, etheric or physical) has created what we call “destructive personal karma.”

Therefore, when an individual is preparing to return to Earth in physical embodiment *again*, if this destructive personal karma is not completely sublimated (refined by Violet Fire) as it was in the case of beloved Jesus, the individual is given A PORTION of that karma to work out in his next Earth life, as well as opportunity to develop the latent talents, virtues, gifts and powers which are within his own immortal Three-fold Flame “I AM” which will be anchored within his physical heart so long as embodiment endures. THE CHOICE OF PARENTS, GUARDIANS, RACE AND NATION IN WHICH EACH SUCH SOUL WILL FIND EXPRESSION, IS MADE WITH REGARD TO HIS PERSONAL DESTRUCTIVE KARMA, AS WELL AS THE GOOD KARMA HE HAS EARNED AND HIS INDIVIDUAL TALENTS. Thus, there is the dual activity of the regeneration of the soul and service to God and man.

SERAPIS BEY

As we know, the planet Earth is a “schoolroom” from which there have been too few “graduates.” Therefore, the purer and more advanced lifestreams of the Seventh Root Race (which race is presently awaiting opportunity to embody here) could help the Seven Mighty Elohim and the beloved Saint Germain to build a permanent Golden Age on Earth. However, these lifestreams cannot embody here on Earth until some of the present “scholars” have expanded their own light sufficiently to enable them to leave this planet “schoolroom” and further progress along the lines of their own spiritual development. This is an unfortunate state of affairs because these advanced souls belonging to the Seventh Root Race and its sub races have been trained and developed by their Manus to assist in the creation of a “Star of Freedom.” As stated above, these cannot embody here until the redemption of the masses of the people who have been in the “same grade” for centuries. Sometimes (in very rare cases) the Karmic Board allows one of these Great Ones to make the sacrifice of entering into a physical Earth body so that the radiation of that one’s spiritual strength and light may more quickly stimulate the spiritual light in the hearts of the people of this planet. Buddha and Jesus are two examples of these.

HILARION

When the God-parents create an individualized intelligence that can

say, feel and knows itself as “I AM,” that individualized intelligence is permitted to travel through the Seven Spheres, sojourning as long as it desires in each one. Gradually such a one is drawn toward the specialized activity of one sphere. He incorporates his own energies into developing the particular service of that sphere, Lord Michael's faith (First Sphere), Jophiel's constancy (Second Sphere), Chamuel's love (Third Sphere), Gabriel's hope (Fourth Sphere), Raphael's power of consecration (Fifth Sphere), Uriel's healing power (Sixth Sphere), or Zadkiel's power of conscious invocation of the God Presence (Seventh Sphere). Wherever such an individual abides, by using his energies to help expand that particular facet of God's nature, his Causal Body increases in size and that momentum (carrying the color and quality of his service) becomes part of his Causal Body.

MANY INDIVIDUALS WHO PASS THROUGH THE SEVEN SPHERES NEVER SEEK TO EMBODY ON THE EARTH PLANE. They use the momentums gathered in their Causal Bodies at inner levels and are part of the “heavenly host.” Some choose to apply for the privilege of embodying on the Earth. Their Causal Bodies are carefully studied by the Karmic Board and these are, under the guidance and training of their Manu, encouraged to develop their momentums of good, until there is an “opening” at the gates of birth for them to take on an earthly form, for one purpose only, namely to “widen the borders of God's kingdom!” It is the salvation of the Earth to provide a purified atmosphere, educated parents, teachers and guardians for such individuals who hopefully await the summons to embody on Earth!

JESUS

I can speak with certain authority about these great spirits who are to be born on Earth without sin, for I, myself was such a one. I had the tremendous protection and assistance of my beloved Mother (Mary) and the guardianship of my beloved Father (Joseph, your Saint Germain). Yet, even with this assistance, I can tell you that birth into a world where sickness, disease, poverty and death abounded, was not easy. To hold my consciousness from accepting “human appearances” and thus distorting my own inner vehicles as well as the physical, took all my strength and all the God-power I could draw forth.

THE SENSES WERE PROVIDED TO RECORD. UNLESS CAREFULLY GUARDED, THEY RECORD DISTRESS. THIS IS HOW THE PURE SPIRITS ON EARTH WERE FIRST LURED FROM THE GARDEN OF EDEN. To allow embodiment of those waiting to come until these appearances have at least been mitigated would not be wisdom under Cosmic Law. We are, therefore, prayerfully hoping for the cooperation of unascended man-

kind in purifying the Earth and its evolutions so that these more advanced lifestreams may be allowed by the Karmic Board to embody here, bringing with them the tremendous gifts, talents and powers they have gathered into their Causal Bodies through centuries of study, application and service.

SAINT GERMAIN

This month we honor the Lord Manu of the Sixth and Seventh Root Races, who have many beautiful spirits awaiting embodiment on Earth. We thank them for their patience and we decree that mankind will soon make them welcome! May I humbly suggest that my ray (seventh) and the activity of the Violet Fire of Mercy, Compassion and Purification can hasten that day, when it is understood and applied by intelligent lifestreams. Thank you!

THE GURU AND THE CHELA

Using Your Already Present Powers Of The Sacred Fire

By The Ascended Master Kuthumi

CHELA—Beloved Master, so many conditions arise wherein I seem to find myself helpless before circumstance. How can I remedy this?

GURU—Blessed chela, the old adage “Behold I send my messengers before me to prepare my way” is still true.

CHELA—Beloved Master, who and what are these Messengers?

GURU—Blessed chela, you have been taught that within your heart is the immortal Three-fold Flame of God, the embryonic Christ Self. This flame has two specific powers: one to magnetize and invoke the radiating assistance of divine beings, the other to direct and send forth before you the powers and very presence of these beings to prepare your way. The “type” of messenger which the king or man of power sends before him will determine the happy accommodations and reception of the king himself. It is likewise true of unascended beings. If one chooses an unworthy representative, the resultant reception will be based upon the consciousness and preparation which such a one receives. On the other hand, if the king sends a man of intelligence, wisdom and loyalty, he will receive the welcome to which he is entitled.

CHELA—Beloved Master, is it not selfish to call messengers from divine heights to make our pathway clear?

GURU—Blessed chela, remember IN SERVICE EVEN DIVINE BEINGS GROW IN GRACE. THEY LOVE TO BE CALLED and the type of Ascended Master, angelic, seraphic or cherubic guard who will answer your summons will be determined by the requirement of your assistance, AS WELL AS BY YOUR FAITH in your invocation of their presence.

CHELA—Beloved Master, how do I make such a summons on the heavenly host for assistance?

GURU—Blessed chela, First: By learning through study who these messengers are and what they can do for you, Second: By believing they can help you (faith in their reality), Third: By recognizing that within the immortal Three-fold Flame in your own heart there is a power to draw them to you and to allow their fully gathered momentum and power to radiate the God-quality of perfection, letting that flow into and through your own immortal flame at your direction. The help which you thus draw forth from these beings will follow a consciously directed beam of your attention to the person, place, condition or thing you desire raised into harmony, balance and peace.

CHELA—Beloved Master, after a chela understands that these beings ARE, what is the next step in enlisting their aid?

GURU—Blessed chela, every Ascended Master and member of the angelic host hears the slightest call (prayer, decree, invocation) from man. They are Beings of Mercy, Compassion and Love. They will answer by their presence and radiation of perfection. This increases the power of the individual (through his own immortal Three-fold Flame) to direct the fully gathered momentum and actual presence of these beings toward the conditions requiring assistance. From the Master Presences so invoked, as well as by the radiation of centrifugal force from the individual's thus expanded immortal Three-fold Flame of God, SUBSTANCE flows in a directed ray to the person, place, condition or thing to be prepared by the “messengers” qualified with faith, understanding, love, purity, consecration to service, desire to minister to mankind, or purification through the Violet Fire. Thus, when the chela arrives, these wise messengers already have prepared the perfect atmosphere and conditions into which the hopeful chela may safely walk. If, however, the individual only uses outer thoughts (also energy) of fear, dread, disappointment and distress as his messengers, they too will act.

So, the place to which he goes will be prepared according to the type of messenger which he consciously chooses to be his ambassador.

Every unascended being has some experiences of a human nature to handle. He may try to handle them through his outer personality but the efficacy of employing the messengers of God who assist him in the development of the potential positive qualities that lie within himself is much more efficacious and permanent in results. This builds a confidence in the Christ within, as well as in the Masters willingness and ability to assist all who call, to develop that Christ power and, in general, to handle all discordant energies by a "higher power," call it what you may.

CHELA—Beloved Master, we encounter the timid, uncertain, vacillating individual who cannot seem to accomplish anything because of his very nature. On the other hand, we sometimes encounter the over-positive individual who accomplishes temporary victory over others by means of mere humanly qualified force of energy. What is the "happy medium"?

GURU—Blessed chela, in both the above cases, the personality is working only with the outer consciousness. Jesus himself said: "I, of myself, can do nothing. It is the Father, the Christ within, that doeth the works." When the individual truly can accept and know that the Presence of God "I AM" is anchored within his beating heart, he allows that Presence to connect with the Father or any of his Ascended Messengers and then allows the POWER of such a spiritual alliance to expand through him and to do the perfect work. Consciously or unconsciously, the personality endeavoring to work alone accomplishes little of a permanent nature and, sooner or later, such a one is brought to his knees before the only power through him which can and does serve when invited, invoked and allowed to act.

MONTHLY LETTER TO TRANSMISSION CLASS

August, 1956

Beloved Children Of God-Seeking Illumination:

I am so grateful that you are at the place upon life's Path where you truly *want* illumination of a spiritual nature in order that you may cooperate with your own I AM Presence, the Ascended Host and the evolutions in the Earth, upon its surface and in its atmosphere. As Solomon said so long ago, "With all thy getting, get understanding." This you are earnestly trying to do and to this end shall all of us help you, all of us who have gotten that illumination and, by its use, ascended into a state of consciousness where only perfection dwells.

During this thirty-day period, let your prayer be for personal illumination so that you may *use* the Law you have been given so lavishly under the New Dispensation to free yourselves from limitation and also to free imprisoned life which forms the shroud upon freedom's great star.

I shall meet with you often at God Meru's retreat and together we shall breathe in the Illumination Flame, expand our consciousness and then project the "fruit" of our joint endeavors into the mass mind!

Let that peace be yours which comes through understanding, beloved!

Love and blessings,
Maha Chohan

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
with the Great White Brotherhood and Cooperative World Service

SEPTEMBER 1956

To the Cosmic Spirit of Truth to this universe, as radiated forth from the Being of beloved Vesta, we send our love to the Cosmic Spirit of Truth to this Earth, as radiated forth from beloved Pallas Athena. We send our heart call for her increasing pressure and radiation of Cosmic Truth to and through the outer consciousness of mankind,

To the Chohan of Truth, beloved Hilarion, we send our gratitude for sustaining the Brotherhood of Truth at Crete!

Beloved Jesus has said: "You shall know the truth and the truth shall make you free." We now command, in the name and by the power of the Cosmic I AM Presence that such truth be forthcoming and that the Earth be raised, redeemed and be able to assume her perfect God-estate now!

While the attention of the Spiritual Hierarchy and the chelas is upon the presence of truth in this universe, we invoke the Holy Christ Self in every human heart to magnetize and radiate Cosmic Christ Truth to and through the individual and the mass mind as well!

Let truth now be known and applied in this physical appearance world and in that application god's will shall be done on Earth as it is in heaven! So be it!

Thomas Printz, Editor

The Homes and Retreats of The Masters of Wisdom

THE TEMPLE OF TRUTH, CRETE

(September 15th through October 14th, 1956)

The glorious focus of cosmic truth is anchored in the shining ethers over the island of Crete. In form, it is not unlike the beautiful Greek Parthenon. From this temple, Brothers and Sisters of Truth direct their concentrated green rays into the receptive consciousness of all those upon the Earth who are attempting either to teach, realize or manifest truth.

THE BEAUTIFUL PALLAS ATHENA, GODDESS OF TRUTH, IS THE PATRONESS OF THIS TEMPLE AND GUARDIAN SPIRIT OF THE VIRTUE OF ABSOLUTE TRUTH. IN AGES PAST, PALLAS ATHENA SUPERVISED THE DISCIPLINES AND PREPARATIONS NECESSARY FOR THE DEVELOPMENT OF THE RECEPTIVE CONSCIOUSNESS OF THOSE LIFE-STREAMS WHO WERE TO BE THE "MOUTH PIECES" OF THE GODS AS THE VIRGINS OF THE ORACLES AT DELPHI AND ELSEWHERE. The beloved God-mother of this universe, blessed Vesta, conferred upon Pallas Athena this honor and service.

The great follower of Master Jesus (St. Paul) now known as Hilarion, is the present hierarch of the Temple of Truth. HIS SERVICE IS TO DIRECT THE RAY OF TRUTH TO, THROUGH AND AROUND ALL SINCERE INDIVIDUALS WHO ARE CONSECRATED AND DEDICATED TO SPREADING THE MESSAGE OF THE SPIRITUAL LAW, AS THEY PRESENTLY SEE IT.

As searchlights comb the heavens above an airfield, so do the green rays of truth comb the Earth's atmosphere from this focus and find anchorage, through the power of magnetic attraction, in the consciousness of those who sincerely desire more light upon a subject, religious or secular. These rays of truth pour out as impersonally as the rays of the physical Sun and bless all evolutions belonging to the Earth. However, there are directed rays from the Brothers and Sisters at Crete which specifically envelop with more than ordinary power the earnest exponent or seeker of truth on Earth.

Every great avatar, messiah and teacher of every religion on Earth belongs to this temple and gives to it some of his or her time and radiation, just as doctors give of their time, skill and energy to a free clinic. Thus the power of the Temple of Truth embodies the combined radiation of all God-free Beings who have brought the Law to the people of Earth through the ages.

While the physical bodies of mankind sleep, many visit this temple in their finer bodies and literally “sit at the feet of the Masters.”

With the added radiation of cosmic truth which will be set into motion in January of 1957 (when Pallas Athena becomes one of the Sponsors of the year), much more truth will enter into the minds and worlds of men.

The glorious Brotherhood at Crete wear garments of white, banded at the hem of their robes and on the sleeves with varying shades of green, depending upon their spiritual status and particular service.

Constantly, throughout the year, great teachers speak from the Temple of Truth to those who find their way thither.

MANKIND DOES NOT PREFER TRUTH
An Address by Beloved Hilarion

June 28, 1955

Friends of God, of Light and of life! You who, by your very presence here, have shown a deep and abiding sense and feeling for the presence of truth, I greet you on behalf of the beloved Brotherhood at Crete and myself. I also greet you in the name and the grace of the Ascended Jesus Christ, by whose presence, example, virtue and nature, I was enabled in myself to sublimate and renew my soul and enter into the realm of Perfected Beings, where I now abide. From thence I have pledged myself to send my service, radiation and presence whenever possible, to assist any member of the race to know truth, if they so desire it.

For the most part, mankind are not much concerned about truth. They are eager to have a confirmation of those concepts which they have evolved, which are comfortable and seemingly pleasant to live with. For the most part, mankind prefers the “vicarious atonement” and THE PRESENCE OF TRUTH IS NOT ALWAYS WELCOME WHEN IT SHAKES THE CONCEPTS OF THE AGES AND CAUSES A CERTAIN DISCOMFORT WHICH ALWAYS COMES ABOUT WITH CHANGE. Brave is the man and strong, sincere in heart, earnest in purpose, who desires to know truth and will have no traffic with confirmation of the very errors which are externalized in the individual and collective worlds as manifest distress.

It is self-evident to the thinking individual that if any one were possessed of the fullness of truth within himself, that truth would have set

him free by its application to his own life's experiences. Thus he would have fulfilled the statement of the Master Jesus, "You shall know the truth and the truth shall make you free." The etheric, mental and emotional bodies of mankind have been exposed to religions, sects and isms of many kinds all through the ages for the receptivity of his soul, in an endeavor to produce a perfect pattern for man's consciousness to outpicture. IT IS ONLY WHEN THAT MAN OR WOMAN comes to a point where they do not desire confirmation of pre-conceived opinions but DESIRE THE PURE LIGHT OF TRUTH, that our Brotherhood, the beloved Pallas Athena and those whom we represent, can give the cosmic assistance to set such ones free.

I bring to you today the presence and pressure of cosmic truth. As it comes within the atmosphere of this room and passes through your emotional, mental, etheric and physical bodies, it will dislodge and remove a great deal of the accumulation of error of which your outer mind is not even cognizant. In the future, I am sure you will be amazed at the clarity with which you will be able to proceed in your contemplations and applications, if you can accept our presence, our power and our gifts today. Just please feel for a moment that same living white fire which was the gift from the Holy Spirit to the disciples that first Whitsuntide, surging through your four lower bodies and let go! In the name of the Ascended Jesus Christ, LET GO of that which binds you. Thank you, beloved ones, for your acceptance.

Even in the world of unascended beings, when an individual asks another for the truth, that truth is very seldom welcome. Beloved Goddess of Truth (Pallas Athena) who will speak to you this morning following my address, the Goddess of Justice and the Goddess of Purity (three of the most magnificent Beings in the heart of heaven) receive very little magnetization from the Earth plane. You see, people are afraid of justice, they are afraid of truth and of purity.

Through your decrees and calls for the removal of doubt and fear from the present consciousness of mankind and through the removal of much of that substance so qualified from the past, we are hoping that these Goddesses may be able to release to you that very pressure of their flames which can set you free if you will accept them and that, in the future, they may be more welcome in the consciousness of the mankind of this Earth than they have been in the past. The Goddess of Mercy, the Goddess of Love, the Goddess of Beauty, these are welcomed and sought after. However, THE VIRTUES OF TRUTH, JUSTICE AND PURITY ARE MOST ESSENTIAL TO PROGRESS. Those virtues and

their activities and the Beings who represent them would long since have retired from the atmosphere of Earth were it not sometimes FOR A SINGLE LIFESTREAM who, during an entire embodiment, kept an anchorage on Earth of their presence through contemplation and application. In this way, such individuals kept a thin line of light sustained between this dark star and that Realm of Light Eternal where these Goddesses abide.

At the magnificent Teton Retreat, the Great Karmic Board now sits and there is being shown upon the cosmic screen for the assembly at the present conference, the magnificent endeavors in which you are engaged nightly. This is proving to the Karmic Board what unascended beings can do in the activity of projected consciousness, sincerity of heart and the combination of vision, feeling and release of physical energy. It is a magnificent thing, beloved ones. It is a new facet in beloved Morya's presentation to the Karmic Board of that which unascended beings can do and it has stirred them deeply.

During this conference, you are engaged in calling for the purification of the various continents, seas and atmosphere of Earth, as well as calling for the REMOVAL OF THE DESTRUCTIVE QUALITIES WHICH ARE PRESENTLY ACTIVE THROUGHOUT THE ENTIRE RACE IN THE PSYCHIC AND ASTRAL REALM. Besides that activity, the great Ascended Masters and the angelic host who work with you, have set up an entire twenty-four hour constant repetition of your decrees which will not cease until the full completion of that purification has taken place.

Thank you for believing this is possible. You see, UNASCENDED MANKIND, JUST BY THEMSELVES, COULD NEVER ACCOMPLISH THE GREAT TASK OF PURIFYING THE ENTIRE PSYCHIC AND ASTRAL CREATIONS which have accumulated through the ages but they can "press the button," they can set into motion through their own bodies and very selves, activities which we are then allowed liberty to continue because individuals like yourselves who belong to the plane to be purified, have taken the initiative and have cut the path, so to speak, by their own bodies and soul's light.

Discrimination Always Necessary To Recognize Truth

The pattern of the class designed around the activity of grace brings to mind so forcibly my own experience. Lord Maitreya, the beloved El Morya and all who are connected with the addresses, suggest always that we weave into our informal talks enough of our own per-

sonal experience so that you may realize that the development of the soul-light—the happiness as well as the struggle—are not yours alone but have been passed through by everyone who has returned to the perfection of his God-estate in the victory of the ascension, through self-conscious application.

It is easy now to look back upon the Christian Dispensation. So many hymns have been written about the individual who would have stood by the Master Jesus if they had been there with him at that time. The glamour of the centuries has made of him a figure easily discernible among the masses who lived and walked the Earth in his day. However, speaking as one who was there, GREAT IS THE DISCRIMINATION, GREAT IS THE DISCRETION REQUIRED TO RECOGNIZE A COSMIC MOMENT AT ITS HOUR OF EXPRESSION. Small is the virtue of the man who discovers it only when the blazing meteor has passed through the sky and disappeared into the farthest recesses of the universe. I KNOW, FOR I WAS SUCH A ONE!

At the time of Jesus, I was embodied as Saul of Tarsus, afterward known as Paul. I was schooled in every department of Biblical lore, able to recite the Scriptures by heart, knowing every prophecy of Isaiah, Jeremiah and the others, a member of that proud and arrogant sect who knew that the Messiah would come to the “chosen few” and be among the priesthood, yet, this was not so! I remember well discussing often as we did, the coming of the Messiah, for Jerusalem waited earnestly for that Messiah and we had waited, I think, overlong. We, the scholars, would think upon the Scriptures and ponder over them. Remember, too, that at that time we had many, many individuals who had “Messiah complexes” through all those centuries, fanatics who had bands of followers and whose works were but ash.

So, among the intellectuals, there came a certain protective shell of reason so that we should not be deceived by the fanatics of the hour. I remember well donning my silken robe one day, perfuming my hands and putting on my jewelry to investigate the “ravings” of a man in the wilderness who was proclaiming the coming of the Messiah. I remember walking with some personal displeasure to the outskirts of the crowd and looking upon the uncouth figure of John, the Baptist. Convinced within myself that our King House of David should have no such precursor as that rough man, my feelings recoiled. I could not see through that “garment.” I confess, I never looked upon the physical presence of Jesus because I had not taken John at his true value and had not known his worth.

Personal Awakening To The Christ

Mercy was good to me! As I continued upon my self-righteous path of wiping out what I considered fanaticism (and in duty destroying even life) mercy was good to block my way. Mercy was good to open my consciousness and my sight to the living, breathing Christ on that road to Damascus. Think you who are called upon to change your nature that I do not know what that means? A proud man in silken robes, riding in state, filled with self-conscious righteousness, then suddenly humbled in the dust before the presence of a Being who had lived in my land in my time and whom I had not known! Think you that to change that course of a life was easy?

Even after that magnificent visitation—well, no one but myself could ever know what I went through! Finally, I was taken to the community of the beloved Mary and there I spent some stormy years. First I was filled with remorse and then resentment tinged with pride, to think that these men and women of humble birth with work-worn hands could speak so easily and freely of the days and nights spent in the presence of the Master Jesus, to think that I who could recite the Scriptures by heart had to listen to them and hear second-hand the story of the Messiah! It was Mary, the Holy Mother, who saved my sanity in that time, by that grace of which her son has spoken so often. It was Mary, who taught me the path of divine love. It was Mary, who taught me that which I have written, that which you will find in my letters in Biblical text.

I wrote that the greatest of all things is love because I knew that was so, having had the least of it among all that assembly. It was the Holy Mother who gave me that consciousness of divine love which enabled me to go forth and be a missionary in feeling as well as in fact.

YOU WHO ARE RECEIVING THIS INSTRUCTION NOW ARE FAVORED ABOVE ALL MEN, for you live in the hour of your Master! You need not look back and say: "If I had been there"—You are here now, giving these decrees, sometimes despite the contradictions of reason. At least, what you have done has been within the cosmic Hour and not too late! REMORSE IS ONE OF THE GREATEST HELLS OF EXPERIENCE and I am grateful that you will not have to know it. It is to spare mankind such remorse that we come to the skeptics, the agnostics and those who have been disillusioned in the past. We try to bring faith, courage and confidence to them wherever it is possible so to do, so that when mankind enters the Karmic Halls, and looks back upon the life they have lived, they will not have to say: "IT MIGHT HAVE BEEN!"

Persevere, persevere beloved ones! As one who knows, I can say to you—persevere in love and you shall wear the Crown of Victory and the White Garment! Thank you.

A TREATISE ON TRUTH
By Beloved Pallas Athena

June 28, 1955

Hail, beloved children of Earth of Light and of Life! I bring you greetings from the Karmic Board and commendation from our august assembly on behalf of all mankind whom you benefit by impersonal service to life. In the days, years and centuries which have been, mankind has worked locally, perhaps, in spiritual endeavors, but to work cosmically while yet in unascended bodies is a cause for great commendation and blessings by the Law. Your endeavor to bless, purify and raise the vibratory action of the Earth at this time is magnificent and has merited great reward because it allows us to apply to a Higher Source for the release of dispensations on behalf of the race.

The ultimate authorities (Helios and Vesta, so far as the Earth and the planets belonging to this planetary system are concerned) have now applied to Alpha and Omega of the Great Central Sun itself, for their cosmic assistance as well as to all the universes above the Earth and the Sun of our system. These Beings have responded. This means that, at this particular time, there comes to the Earth not only the radiation and blessings from these higher spheres, but the actual visitation of these great Beings themselves who are assisting!

Now, between each of your systems, blessed hearts, there is a great “band” (shall we say) of light. It is the periphery of each entire system. Except during certain cosmic cycles, even Ascended Beings do not travel between systems. Those intelligences from the realm of Helios and Vesta and the planets of this system do travel in interstellar space. However, unless highways are allowed to be purposely opened by some cosmic dispensation, the intelligences from superior universes do not enter into the activities which engage the consciousness and concern of a specific planet or a specific series of planets with their Sun Gods and Goddesses. On the other hand, whenever we find sufficient cause presented impersonally to us to apply for greater light, we can send our calls above through Helios and Vesta, receiving on the return current whatever the Central Sun of the system feels it can allow in the way of sending messengers, angels, devas or purifying powers to am-

plify the endeavors which we feel deserve more help.

We have received that commendation and that promise of assistance in this early part of our half-yearly Council here at the Teton this year and it is very much to your credit, individually and collectively, that we were able so to do.

Truth Ruled Here Long Ago

I have come to know you better in these last few years than I have known some of you since Lemuria. In the early days, before the Planetary Law opened the Earth to souls who had both light and shadow within them, every man, woman and child was able to see me clearly, speak with me and receive counsel. Thus we had a very close comradeship upon the planet Earth at that time. After the creation of the maya by the discordant thoughts and feelings of the people who had begun to forget their source (the truth of their being), the “human veil” was formed inside the physical brain.

This began to make our forms less distinct to the physical sight of the people until we were just outlines and our features were no longer distinguishable. Finally, even the outlines disappeared and we remained only in memory, fable and myth. That passed down from age to age, revived often by various sects of one kind or another who desired either to utilize our energies honestly, or who desired to further their own ends by professing to represent us.

AMONG ALL THOSE ASCENDED WHO HAVE LOVED THE EARTH, I THINK I HAVE BEEN MOST MISREPRESENTED. I think there have been more men and women walking the planet earth crying “this is truth” than there have been men and women doing any other thing. Now, again, thank God, I can take your hand and walk with you and, with the help of god, through you give man the truth which will set him free!

You are working today on the dissolving, of gossip, lies and malicious slander, everything which is an untruth. Beloved ones, I want you to think deeply upon this and make it mean more to you than just today's activities. I want you to think upon what I have to say as being applicable not only to your decrees but to your daily living.

WHAT YOU PLANT IN THE MIND OF ANOTHER, AND THEN WHAT GROWS THERE AS A RESULT, THE FRUIT AND THE HARVEST OF THAT ARE YOUR KARMA! Whatever word passes from your lips that pollutes

the consciousness of another is a sin. This is so even if it is based on so-called fact and whether or not it is spoken in innuendo or outright accusation. Why? Because you thus add to the shadows of the world and you are not speaking truth! THE TRUTH ABOUT EVERY MAN, WOMAN AND CHILD ON THIS PLANET IS ONLY GOOD. Whatever imperfection in another you see with your eyes or hear with your ears and then pass on to someone else will make you responsible to the great cosmic law and you will have to pay for that in some way, believe me!

In the use of your Violet Fire (Mercy's Flame), transmute all discord into light and do not create more distress than is already apparent here. I am being very positive in speaking of this to you today, for I have seen more lives ruined, more light dimmed, more disharmony created, more dissention brought about by gossip—individuals carrying imperfection from ear to ear, from mouth to mouth and on the written page. This has been the destructive element in every co-operative endeavor which has ever been on this planet Earth since the fall of man. No matter what the appearance may be, if one individual is strong enough to do so he can, within himself, transmute that appearance into light by calling into action the Violet Flame through all concerned with it, not allowing it to cloud the consciousness of many.

Gossip has been called a “justifiable sin.” Some of the souls of men who have lain in the “Sleepers' Realm” for thousands of years were driven there by slander and gossip. I shall not describe to you the thoughtform which is behind it, nor go into further detail concerning it, but I plead with you! Lend not your ear, your tongue, your mind or your feeling to that subtle enjoyment of sharing the failings of another, because it is not true! In the name of Almighty God, how is mankind going to ascend into perfection if those who profess to be the vanguard who are attempting to bring that perfection on Earth still look upon each other who seem to be in error and confirm that error by acceptance? “It is not true” should be the strong, determined fiat, silent if necessary and audible when discretion allows. Then, positively decree in its place the truth you want to manifest. Instead of confirming such an appearance in the feelings, one should see (picture) the erring lifestream (or group) strong and perfect. Lies and slander, these things must go!

I speak today not only to you in this room, but because through your presence here I have opportunity to speak through your emotional, mental, and physical bodies to reach the inner selves of the entire race, for all life is one. The energies which I leave within this room to-

day you will utilize within your very selves this night. They are universal in their positive consciousness. We are hoping that there will be at least one group among the entire race who will love enough to hold the concept of immaculate perfection one for the other.

Some may question why it is necessary for you to decree tonight to remove such discord from the comparatively pure and clean continent of Australia. That is a good question. However, remember that that landed surface in the Pacific Ocean was once a part of that great Lemurian Continent where first the shadows came upon this Earth. There, lies, slander and untruths first began to weave their veil of maya around the blessed souls of men. Then, too, you have there all the resentments and rebellions of those political prisoners from the British Isles who have been exiled there.

Now, I say to you, in the name of the God who made me and does sustain me, individuals who continue to deliberately express and direct imperfection one toward the other must find their place in some later regiments. They cannot remain in the vanguard of Saint Germain's new activity. Those who love truth will endeavor (at least) to see everyone a God or Goddess of Light and every child a magnificent potential master of perfection. These are my children! These are my friends! Good morning.

THE MASTERS OF WISDOM SPEAK RELEASING THE GOOD OF YOUR CAUSAL BODY

MAHA CHOCHAN

As soon as the Individualized God-Flame is projected forth from its Creator, can realize itself and feel the "I AM" identity, such a one begins to create certain momentums, of qualified energy which form a spiritual aura around it. This aura increases in size, power, virtue and radiation as the individualized I AM Presence continues to draw life from its source and experiment with the creative centers of thought and feeling. This spiritual aura is known as the Causal Body of the I AM Presence.

EVERY INDIVIDUALIZATION OF GOD HAS A DISTINCT, DIFFERENT AND YET WHOLLY BEAUTIFUL EXPRESSION OF SUCH GLORY AROUND IT, determined by its use of life and the particular avenue of service to which the Individualization of God has devoted itself. This spiritual aura

is the expression of the Holy Spirit in through and around the I AM Presence. The requirement of the hour is to purify the four lower bodies (physical, etheric, mental and emotional) of all the evolutions belonging to the Earth, so that the glorious momentums of the Causal Bodies of unascended lifestreams can pour forth their gifts and blessings to the race, through the outer selves of mankind.

EL MORYA

It is the will of God that the glorious gifts, talents, momentums and powers gathered by the I AM Presence of every unascended lifestream be released through the immortal victorious Three-fold Flame of God anchored within the physical heart. It is the will of God that each student upon the path purify his four lower bodies and allow the natural release of his gathered momentums of good to flow forth, into, through and around the personal self for the blessing of all life. To this end, we presently are securing every assistance from heaven and from chelas on Earth who are also interested in seeing God's will done for this sweet planet now!

KUTHUMI

The Causal Body of each individual is builded through aeons of time, even before the I AM Presence of such an individual chose to take physical embodiment. Then, in every Earth-life, all the energy used constructively was also raised into that Causal Body, and thus contributed to the ever-expanding glory of that Body. It is the process of "laying up treasures in heaven" of which beloved Jesus spoke. The I AM Presence of each lifestream uses this battery of spiritually charged, qualified and gathered momentums of energy to contribute to creation at cosmic levels. When the unascended lifestream becomes aware, even intellectually, of the I AM Presence and makes application for the use of the momentums of his own Causal Body, that one's Presence is happy indeed. Then there is set into action the process of purifying and sublimating the energies of the lower nature (four lower bodies) so that the Causal Body's gathered momentums of perfection may release it, through and around the outer self.

PAUL, THE VENETIAN

Within the physical heart is the immortal, victorious Three-fold Flame of God, an actual projection of the immortal flame within the heart of each one's own I AM Presence. As the student turns to his own I AM Presence in love, sincerity, humility, reverence and gratitude, he naturally begins to draw more light into his outer self, through the silver cord which connects the flame within his heart with that of his I AM Presence. This added light increases the size, power, efficacy and radiation of the flame within his physical heart. Then THROUGH THE SILVER CORD, THE I AM PRESENCE BEGINS TO RHYTHMICALLY RELEASE THE POWERS OF ITS OWN CAUSAL BODY. EACH ONE OF THE STUDENT'S FOUR LOWER BODIES IS CAREFULLY TESTED TO SEE HOW MUCH OF THIS ADDED POWER AND ENERGY IT CAN ASSIMILATE, HARMONIOUSLY CONTROL AND RADIATE CONSTANTLY.

The I AM Presence, with the assistance of the Holy Christ Self, acts very wisely in allowing its release of added energy and power to the outer self. As a man tests the strength of a plank before putting his weight upon it, so do the I AM Presence and Holy Christ Self release a little added understanding, power and energy at a time. Then they "test" the capacities of the four lower vehicles and the outer consciousness to use them wisely, to guard them well and to sustain their action by self-control. IF THE CHELA PROVES HIMSELF CAPABLE OF HARMONIOUSLY SUSTAINING AND USING SUCH A RELEASE, THE NEXT RHYTHMIC OUTPOURING WILL BE GREATER. If the chela's lower vehicles and outer personality can not or will not in grace and reverence, accept the responsibility of such added gifts, the I AM Presence must wait until such time as purification of those bodies has taken place and the sublimation of the soul, selflessness of the personality makes the conditions possible for the gradual but steady externalization of the glory of the Causal Body through such a one.

SERAPIS BEY

The subject chosen by our Lord Maha Chohan for this issue of *The Bridge* is the development of the receptivity of the outer self to receive and externalize the Causal Body. This is a subject dear to my heart. As beloved Jesus said: "ye cannot place new wine in old bottles," so I say that you cannot magnetize and radiate the gifts of your own Causal Body until you have purified the energies of your four lower bodies. When this purification has taken place, the natural activity of your own I AM Presence (through the kind offices of the Holy Christ Self within

your heart), will be to channel through your silver cord into the flame within your heart, those gifts, powers, momentums and talents which you, and you alone, can release to bless this Earth.

Purification takes place through the conscious determined, persistent use of the Violet Transmuting Flame and other purifying powers of the Sacred Fire which you have been taught. It also takes place through conscious sustaining of harmony in the outer self so that the dislodged, transmuted impurities are not replaced by more impurity generated through destructive use of the free-will. Some good students use the sacred fire but do not guard against the re-creation of similar discords. Others endeavor to maintain harmony but do not utilize the powers of the Sacred Fire to remove the CAUSES and CORES of disharmony. Both exercises are essential to sustained personal mastery.

HILARION

Even as no two snow flakes are alike in their beauty of design, so no two Causal Bodies of Cosmic Masters, angels or men are alike. This is because free-will has allowed the Individualized I AM Presence to use life to develop any facet of God's divine plan. The activity which has taken the greatest amount of energy, attention, time, interest and service through the ages will create the largest band of color in the Causal Body and the various other activities which have also engaged some of the energies of the individual will diversify the size of the other bands of color as well.

Thus the beauty of diversification of expression is manifest in heaven and will be manifest on Earth when man knows of a certainty that the Christ in every individual naturally, in time, will externalize the glory of his own Causal Body for the blessings of the entire evolution. The differences among the outer minds of men appear because of their seeming inability to cognize the TRUTH that the Holy Spirit (nature of God) is expressed in many ways. As long as those ways are loving, beautiful, harmonious and constructive, they are truly expressions of the individual's own Causal Body through the outer self.

The demand that all expressions of the Holy Spirit be the same is as ridiculous as a demand on nature that all flowers, trees, vegetables, fruits, etc. be exactly alike. It is the very diversification of expression of God's nature which makes for the beauty of heaven. However, many take this phase of the Law as giving them "license" to obey any prompting of the outer self. Here should be drawn the line of discretion, discrimination and God-Intelligence!

JESUS

It was my mission on Earth to externalize the Holy Spirit of my own I AM Presence. Thus I was required to keep my emotional, mental, etheric and physical bodies absolutely at peace so that the Holy Christ Self could easily draw from my Causal Body and externalize, as my personal aura, the gifts and powers of perfection which I had developed through the ages. When I had proven myself capable of so expressing my divine nature, I was given the added opportunity of drawing upon and externalizing the nature of the World Teacher, Lord Maitreya, as well.

There are unascended beings today who can and shall have like opportunity to not only express their own perfected Causal Body through their outer selves but also offer their lifestreams as conductors for Cosmic Beings and Ascended Masters to spread their radiations through the evolutions dependent upon God's help to rise out of present limitation. For each one so desiring to serve thus, I offer my humble assistance. I know the way, for I have trodden it successfully before you. If you wish my hand to help you upon your path, "Ask and ye shall receive"!

SAINT GERMAIN

YOU MUST LEARN TO THINK OF YOUR CAUSAL BODY, NOT AS JUST BANDS OF COLOR, BUT AS LIVING, INTELLIGENT, GOD-QUALIFIED ENERGIES AND VIRTUES WHICH AWAIT EXPRESSION THROUGH YOU NOW! It should be of encouragement to you to know that these virtues are already at your command. In the silence of your room, turn your attention to the Holy Christ Self within your hearts and invoke it to magnetize and externalize the gifts of your Causal Body through your outer self now! I challenge you to do this earnestly! It is truly the requirement of this world hour.

In the name and by the power of the victorious Presence of God, I invoke all the powers of the Sacred Fire to purify your outer consciousness and the substance and energy of your four lower bodies. They shall become and remain Grails for the glory of God to flow into and manifest through you now! I invoke the Holy Christ Self within your heart to expand the manifold gifts of your own Causal Body to hasten the externalization of the Golden Age of Freedom now!

MONTHLY LETTER TO TRANSMISSION FLAME CLASSES

September 15, 1956

Beloved Seekers After Truth:

God, the I AM Presence which beats your dear hearts, is truth! Loose that truth consciously into your outer minds and worlds through application. This month, visualize a concentrated ray of truth from the temple at Crete, directed by one of the Ascended Brothers or Sisters there, into your sanctuaries, homes, minds, bodies, worlds and affairs. See what magnetization of this cosmic truth can and will do for you!

AS THE GLORIOUS ARCHANGEL RAPHAEL IS DEDICATED, SPECIFICALLY, TO THE CONSECRATION OF THE ENERGIES OF ANY INDIVIDUAL TO A SPECIFIC SERVICE TO BLESS THE RACE, I STRONGLY RECOMMEND THAT YOU DAILY ASK LORD RAPHAEL TO CONSECRATE YOUR EMOTIONAL, MENTAL, ETHERIC AND PHYSICAL BODIES TO THE SERVICES OF THE MASTER SAINT GERMAIN. THUS YOU WILL FIND SERVICE A JOY RATHER THAN A DUTY!

We enter the Temple of Truth on September 15th this year, bringing all our full, gathered momentum of truth to add to the already established focus there. Utilize it! Draw on it! Make it your own!

Love and Blessings, Maha Chohan

Statement for the Transmission Flame Class of September 15 is:

1	2	3	4	5	6	7	8
I AM inbreathing	th'freedom	and victory	of cosmic	truth	from beloved		
Hilarion							
I AM absorbing	“	“	“	“	“	“	“

I AM projecting	“	“	“	“	“	“	“

Hierarch: Beloved Hilarion. Color: Chinese Green.

Keynote: Melody of “Onward Christian Soldiers.”

GROUP INSTRUCTION FOR TRANSMISSION CLASSES

September 15, 1956

Very Dear Flames Of Truth:

The great Shakespeare (now our beloved Ascended Master Saint Germain) has said: “To thine own self be true and it must follow, as the night the day, thou canst not then be false to any man!” It is to this reality and truth of our being that we would point your attention today,

that extremely beautiful, young, strong and vibrant Being which you really are, this Being who stands and waits and waits for what? For your attention to go to it and then for that attention to accept its presence and return to it more and more often until it has an opportunity to absorb you into itself and set you free forever from every distress, from all that God never intended to be.

This truth of your being (a tiny White Fire Image of your original perfection) lives right within your own beating heart. It will never intrude its gifts upon you but whenever it is given an opportunity, when the outer self is quiet and harmonious—it speaks to the outer self in the “still, small voice,” sometimes giving comfort, sometimes warning, or whatever the need of the individual may be. Wise is the one who heeds this inner prompting always, for that one shall then become the truth which sets all free. Beloved Master Jesus said that all should know the truth one day and that truth would set all free. His words were and are eternal and immortal and are just as true today as they were when he spoke them. They are just as powerful and efficacious too and he also said: “Let him who hath ears to hear, hear! If ye know these things, happy are ye if ye do them!”

Truthfully all ways, your friend of light—

Frances K. Ekey

SUGGESTED DECREE

Beloved Mighty Victorious Presence of God “I AM” in me, (right within my beating heart), beloved glorious Mother of Truth to this system (beloved Vesta), beloved Pallas Athena, beloved Hilarion and all who serve truth in the ascended realms of cosmic light! I love You! I bless and thank you sincerely for all your patient loving service to this Earth and her evolutions and for sustaining at least a remnant of the memory of that perfect truth from whence we all came and to which we shall all return one day.

Make and keep me strong enough to be the truth through my own being and to see, hear and feel that truth in others. Help me to know and believe only that which is true and make and keep me divinely just with myself and others as I walk the paths of Earth. Let your light of truth blaze a mighty searchlight before me, illumining my way and the way of all I contact, let that light draw me on and on until I reach my goal—the ascension—in the light of all truth, forever free! I consciously accept this done RIGHT NOW with full power, eternally sustained all-powerfully active and ever expanding!

THE GURU AND THE CHELA
By the Ascended Master Kuthumi

The Causal Body

BELOVED MASTER—What exactly is the Causal Body?

BLESSED CHELA—The Causal Body is the forcefield (aura) created around the individual's I AM Presence.

BELOVED MASTER—How is this Causal Body created?

BLESSED CHELA—When the individual I AM Presence is projected from its God Parents, an individualized focus of the immortal Victorious Three-fold Flame of God is created. This Individualized Focus has the potential powers of the God-Parents, i.e. it can think, feel, create from primal life that which it desires through the use of free-will. The attention of the I AM Presence thus created magnetizes primal life from its Source and directs this primal life into some type of constructive activity. The result of such direction (acting on the Law of the Circle) returns to its creator and director and becomes a qualified radiation and virtue around the I AM Presence.

BELOVED MASTER—Are all Causal Bodies alike?

BLESSED CHELA—NO! Each individual I AM Presence uses the prerogative of free-will and engages in different experimentations with the use of life in the seven inner spheres. The size of the various color bands which form the Causal Body is determined by whatever type of endeavor has taken the most energy, attention, time, application and service of the individual I AM Presence. THE LARGEST BAND OF COLOR (REPRESENTING ONE OF THE VIRTUES OF GOD) DETERMINES TO WHICH RAY THE INDIVIDUAL I AM PRESENCE BELONGS.

BELOVED MASTER—After physical embodiment has taken place, can the personality then created contribute to this Causal Body?

BLESSED CHELA—Yes, all endeavor, secular and spiritual, involves the use of energy. This energy, qualified by some specific constructive endeavor, rises and becomes a part of the Causal Body of the individual even when he is out of physical embodiment, or sojourning at inner levels between embodiments.

BELOVED MASTER—Of what use is this Causal Body at cosmic levels?

BLESSED CHELA—As it forms a battery of energy around the I AM

Presence of each lifestream which energy is already qualified and charged with perfection, the Causal Body can be and is used by the Presence as a momentum upon which that Presence draws to direct and focus its rays at cosmic, Ascended Master and angelic realms, thus helping in the activity of cosmic creation. The more energy qualified constructively, the larger the Causal Body of the I AM Presence and thus the greater pressure of radiation is created which forms the drive behind the rays sent forth by that Presence.

BELOVED MASTER—Of what use is this Causal Body in the physical appearance world?

BLESSED CHELA—The momentums of faith, wisdom, love, purity, concentration, ministration or invocation in the individual's Causal Body qualify the unascended being to serve in the progress of the race along some specific line. The release of the full, gathered momentum of the Causal Body through the physical, etheric, mental and emotional bodies of the unascended lifestream is the purpose for the service of the Maha Chohan particularly.

BELOVED MASTER—How can unascended individuals release the good of their Causal Bodies for practical use?

BLESSED CHELA—First, by cognizing the fact that these momentums are already gathered around his own I AM Presence.

Second, by desiring to purify the four lower bodies so that the I AM Presence can and will release the gifts and powers of the individual's Causal Body through the Christ Flame within the heart.

Third, by actually cooperating in such purification by the use of the Violet Fire of transmutation and the kind services of Astrea, Lord Michael, the Elohim of Purity and all who are concerned with purification of the outer self.

Fourth, standing alone in the privacy of one's own room and raising the arms to form a cup of the upper part of the body, dynamically “charge” all the good of the Causal Body into the physical, etheric, mental and emotional bodies for the use of the outer self, to give greater blessing to all the life he contacts. The activity of “doing something” with the upraised hands, gives confidence to the outer self when dealing with so called “invisible powers.” Quickly bringing the hands down, allowing them to be conductors of the gifts of the Causal Body, in, through and around the individual, gives this sense of confidence.

BELOVED MASTER—HOW can the individual know what particular

momentums are gathered in his own Causal Body?

BLESSED CHELA—This is not necessary. As the individual truly begins to invoke the full, gathered cosmic momentums of his own Causal Body through his lower vehicles, he will gain the feeling of the positive energy from within that glorious storehouse of all good. The intellect here does not need to cooperate. In fact, pre-determined intellectual knowledge is rather a detriment to this application. Just know it is there. Reach up and charge it into through and around you and the result will speak for itself.

BELOVED MASTER—What does the Causal Body look like?

BLESSED CHELA—It is formed of seven concentric bands of color around the individual I AM Presence. It is (as I have said before) the spiritual aura of the I AM Presence.

BELOVED MASTER—Is there any other service this Causal Body can render besides helping the I AM Presence to cooperate in the activities of creation at cosmic levels and expressing itself through the outer personality?

BLESSED CHELA—Yes, when only 51 PERCENT OF THE ENERGY OF THE ENTIRE LIFESTREAM IS QUALIFIED WITH PERFECTION AND ANCHORED WITHIN THE CAUSAL BODY, IT ACTS AS A MAGNET ASSISTING THE INDIVIDUAL TO ASCEND. Thus it becomes the “cause” of the ascension, from whence comes its name—the Causal Body.

OCTOBER 1956

To the Cosmic I AM Presence

We humbly dedicate the life which you have given us to fulfill your divine plan for the planet Earth and all evolutions manifesting in, through and around it!

We invoke the individualized I AM Presence of every self-conscious intelligence not yet ascended to direct, sustain and expand that portion of the divine plan which is its particular destiny through the outer self, that consciousness having been sustained by it through the ages.

We invoke the God-free Beings, Cosmic and Ascended Host of Light, Archangels, Archaii, seraphim, cherubim and the angelic host, to direct their fully gathered cosmic momentum of LOVING AND ILLUMINED OBEDIENCE TO GOD'S WILL into the feelings, the minds and the worlds of the evolutions we presently serve!

We invoke the Directors of the Forces of the Elements to direct their fully gathered cosmic momentum of loving and illumined obedience to God's will to all the elemental life, presently reluctant to serve longer so ungrateful a humanity!

In the name and by the power of the Presence of God "I AM," we are determined that the will of God shall manifest now! SO BE IT, IN HIS MOST HOLY NAME!

Thomas Printz, Editor

The Homes and Retreats of the Masters of Wisdom

TEMPLE OF GOD'S WILL, DARJEELING, INDIA

(October 15th through November 14, 1956)

Every Chohan representing one of the seven rays has established at certain spiritually strategic points upon the surface of the Earth, a focus through which the radiation and power of their ray may be magnetized and radiated forth for the blessings of all evolutions in the Earth, on the Earth and in its atmosphere.

These foci are created by the magnetizing of the fully gathered powers, momentums, gifts and talents of all God-free Beings who belong to that ray. The Elohim, Archangels Archaii, seraphim, cherubim, angels, elementals and Chohan representing that ray represent the already gathered God momentum of the constructive use of energy belonging to that particular facet of God expression. The Chohan and his unascended chelas represent the magnetizing and radiating centers by which the gifts of that ray are anchored into the emotional, mental, etheric and physical worlds of mankind.

When first the ray is so anchored in the lower atmosphere where the subtle vibrations and currents of divinity are slowed down sufficiently to be felt by the inner bodies, the minds, souls and physical forms of mankind, usually the Chohan and a group of Ascended Beings perform the service of connecting the concentrated radiation of their ray with the outer consciousness of the peoples. Thus, the Chohan of the First Ray, beloved El Morya, has so anchored in his elegant temple in the foothills of the magnificent Himalaya Mountains the concentrated focus of cosmic faith and the desire to do and to become the manifest expression of the will of God!

The will of God is done in, through and around every planet of the system born out of the loving design of Helios and Vesta except the planet Earth! Thus the focus of El Morya is tremendously important to Earth's evolutions, particularly at this time of planetary change.

The outer mind of man has become self-willed, arrogant, selfish and, for many ages, has refused to accede to the will of God! The resultant chaos and distress which is now expressing individually, nationally and throughout the planet itself, is proof of the rebellious natures of the evolutions so kindly given a planetary home through the courtesy of beloved Virgo and the Directors of the Forces of the Elements.

The sustaining of the Earth in this planetary system, as you know, is due to the love and sacrifice of Sanat Kumara and the other Lords of

the Flame from Venus.

Now, mankind must arise, individually and collectively and honestly declare their desire to know and to do the will of God! It is so decreed by cosmic fiat. The patience of the Eternal God and his cosmic, As-cended and angelic messengers (as well as the loving service of the Directors of the elemental kingdom and the beings under their command) has been without parallel! Parasitic sustenance through the endeavors of others can be no more!

Thus, as we enter into the beautiful temple of El Morya, gaze upon the crystal and royal blue flame upon the diamond and sapphire altar, kneel before the Hierarchy, touching the hem of his spiritual aura adding to the strength of that flame our own fully gathered cosmic momentum of loving, willing joyous, illumined obedience to God's will, every member of the Spiritual Hierarchy joins in the earnest petition that mankind, imprisoned angels and elementals will voluntarily desire to accept the will of God into their consciousnesses and then manifest that will on every phase, emotional, mental, etheric and physical! Such cooperation will re-establish the joyous forward movement of the three kingdoms—angelic, human and elemental, and hasten the cosmic Day of Freedom which the Master Saint Germain lives but to externalize.

As each retreat is opened, all the combined radiation of the heavenly host is focused through it to expand its sphere of influence. In like manner, as our Lord Maha Chohan has seen fit to allow unascended beings to journey to these retreats through the gift of projected consciousness, every chela and student may also help in the expansion of its sphere of influence.

In this case, the expansion of El Morya's focus of cosmic faith and obedience to God's will is most certainly required. You are invited cordially by our gracious host to attend the councils, to sit at the feet of the Masters and to be stimulated by proximity to this flame! Come! Feel its presence and power through your own consciousness and then return to your personal orbits carrying the radiation of this flame to your homes, loved ones, environment, city, state, nation, continent and planet!

Lord Michael, The Archangel

(Note: For further description of El Morya's Temple of the Will of God, please see *The "Bridge to Freedom Journal," Books I, & 2*)

HOW THE MASTERS PREPARE FOR AN ADDRESS

Beloved Ascended Master El Morya

June 24, 1956

Beloved ladies and gentlemen! It is my privilege and honor to again greet you through the veil of human maya, speaking my words into your outer brain consciousness. Each one of you receives according to his capacity to understand, in the outer self. Even among human beings talking one with another, there is a different amount of comprehension, understanding, clarity of perception and capacity to put the instruction into applicable works. When we come from the Ascended Masters' realm in which we dwell to speak through the "veil" into the consciousness of unascended beings, we see that there are no two chelas (no matter how earnest, honest and sincere) who have the same capacities, either in emotional receptivity, mental perception or the same etheric ties of the past with us, nor, of course, do they have the same type of physical consciousness and brain cells.

So, when we address a group of unascended individuals, when we come forth to speak at a conference such as this, we expect and we do receive very different types of receptivity and comprehension from each blessed heart. It is no reflection upon anyone of you. It is due to your own evolution upon which you have risen to this point where you at least accept the Ascended Masters as real beings. It is also due to your national and racial karma, your family karma and even your education in the school system, as well as in your churches from which many of you have come forth into greater freedom.

I speak to you now, each one, just in the same manner as did the Master Jesus in the Sermon on the Mount, when every man heard it in his own language. After this class, if I were to take each one of you aside individually and ask you to give a five-minute resume of what I had said, you would be amazed that there would be no duplication of theme matter, one point appeals to one person, one phase of the law to another, one power of perception perhaps is greater than another. Therefore, we throw the "seed" ideas into the consciousness of the group and each one is at liberty to weave them into that which he thinks is best to bring about the freedom of his fellow man and expand the glory of God.

In the first place, you would not be here if you were not vitally interested in expanding the glory of God through his living presence in this universe, as well as in developing your capacity to consciously contact that God Presence and through that contact with it, bring divine

order, purity, supply, health and balance into your worlds. You would not be here if you did not concede, at least mentally, that there are such Beings as the Ascended Host of Masters, the angelic kingdom, the devic kingdom and other Beings who are beyond the realm of human sight. You would not be here if you did not love your fellow man because, for many years, it has taken much of your energy, time and substance to sustain the activity of our beloved Master Saint Germain in this octave and to continue (according to your own light) to experiment with the use of the Violet Fire and with the use of the various facets of the Law.

Through all of this you have been trying, individually and as a group, to learn the mastery of that divine alchemy which will produce perfection for you upon a moment's notice!

You are yet in the apprentice stage and we can but give you the Law as we know it. This we shall endeavor always to do where we are given the opportunity. Then the karma of what you weave into that Law and what you make out of it becomes your own. Of course, behind you I always stand so that if you cannot fully "make the grade," I balance that karma in cosmic service.

Now, that should relieve you of mental strain. The endeavors of the chelas so often bring on a sense of mental strain which undoes much of the good that would ordinarily be accomplished in relaxation (not lethargy). Again, it is the following of "The Middle Way," the razor's edge. It is a relaxation, resting within the immortal Three-fold Flame of God "I AM" which is waiting to be called forth by you and through you, yet not allowing yourself to feel humanly responsible and apart from this Presence. In this connection, you could be given no greater words than those of your great teacher, Jesus, whom many of you followed in his last Earth Life: "I of myself can do nothing. It is the Father within that doeth the works." Every Ascended Being and every unascended Guru of great light points you to that same self-evident truth!

The Progress of the Bridge to Freedom

This class is dedicated primarily to getting you acquainted with the power of the immortal victorious Threefold Flame of God I AM (right within your beating heart), as an intelligence, as a Presence, as an actual Being who will act for you when called forth by you, filling your feelings, your minds, your etheric bodies and your flesh with the substance of the Godhead qualified according to your requirements.

COSMICALLY SPEAKING, WE HAVE ADVANCED FAR BEYOND THAT POINT WHICH WE EXPECTED TO ACCOMPLISH (IN THE ASCENSION OF SANAT KUMARA TO HIS OWN STAR). Through the service which has been given, a great deal of the human creation in, through and around this planet Earth already has been transmuted. Through your kind and efficacious decrees individually and in groups, many of the vortices of human distress have also been removed and dissolved.

The lifestreams who came out from the “Compound” are now studying in the Temples of Mercy and they are learning to use the Violet Fire to make things right. The individuals who had been within the “Sleepers' Realm” have resumed their conscious awareness and have applied to the Karmic Board for permission to embody again and fulfill their divine plan. The Earthbound (discarnates) have all been removed from the planet Earth. Those three great activities which took much of your energy are now depicted upon the frieze around the base of the marble altar at the Royal Teton and those activities have been completed, whether the outer consciousness accepts the reality of it or not!

This gives us time now (under the counselship of the new Buddha, of the beloved Maha Chohan and various other Beings of the Ascended Master Realm) to develop the individual mastery of each one of you and then make you, in turn, a focus through which mastery may be developed in, through and around yourselves, the group activities and then into the outer world. Perhaps this may not seem as glamorous a task as the dissolving of a “Compound,” but it is a very important one, beloved ones. You see, even one lifestream who has come to a point of perfect alignment with his or her own I AM Presence, being able to call forth its power and powers at will, to instantly create conditions of peace, harmony, purity, health and supply—just one such lifestream could and would do more for this activity and for us than all our worded and spoken instruction! When you come right down to fundamentals, all mankind today are looking for practical works.

We cannot blame them! When people are sick and diseased, when they need supply or are mentally troubled, abstract presentations of Law do not even register in the mind. After they have been relieved of those distresses, then is the time when good teachers should be ready, able and willing to show them the scientific applications by which the teachers were set free and the people, in turn, learn to become master through those same applications of the Law.

Of course, you will encounter the things experienced by the Master Jesus when he healed the lepers and only one returned many blessings

for which there will be no return from the individuals so blessed and no asking for the science by which you did it. However, there will always be the grateful few who really want to know and those few are the “leaven in the loaf,” carrying the love and the light to the many.

Need For Practice Of Stillness

Beloved ones, I have been asked to allow you some time for contemplation during this class. It is my nature and the nature of most of the First Ray people to drive and get things done. So, it is an initiation of patience upon all First Ray people to become still, periodically. Yet, if you will do this and will remember to daily invite the brother or sister from the retreat at the Teton (or from the retreat of the month) to come and stand with you while you are making your daily application, he will help you to understand and accept the reality and efficacy of this immortal, victorious Threefold Flame of God “I AM” within your heart.

He will help you as you endeavor to light the aura around you, to let you see that flame come forth from your heart, from your forehead and from the tips of your fingers. Do not stay at this practice for too long at a time, it is better to practice it for short intervals. In this way, you will begin to use the exercise which leads to the transfiguration of the flesh. Spending hours and hours in a corner trying to make your inner light visible or to precipitate would only cause greater mental tension than ever in your world and this is not desirable. We do want you to use good, sane, balanced God-sense in your endeavors to realize and call forth into action the Presence of God “I AM” from within your own heart.

We have been asked to emphasize to you the requirement of acknowledging the I AM Presence within the heart. Even in our realm, beloved ones, before we start to do anything of import, we get still. Most accidents and unhappy occurrences in the human octave are caused by hurry and by not getting still enough emotionally, mentally, etherically or physically before the individual starts upon a project. Before we attempt to render any service, cosmic, planetary or individual, we get very still and absorb more light from the Source of our Being, saturating ourselves with it. We anchor ourselves firmly within that Light and then direct it forth for a given purpose, whatever it may be, whether it be the instruction of a chela, the making of a star or planet, whatever the occasion might be!

"Directors" And "Receivers" — Both Essential!

Now, dear hearts, in order to have a perfect activity of the Light

Rays, you must have both “directors” and “receivers.” This is the way we work in the Ascended Master Realm. We have the Master who is directing the energy and the ray goes forth from him to another Master who is working with him. He receives it at the point where the service is to be rendered. We do most of our communication, of course, in this manner through the light rays, without worded speech at all. Through radiation and picture, the communication is directed and the service is given.

I think perhaps you may not completely comprehend just how much is involved in the preparation of one of our classes. First, we have cosmic currents which we must watch (in order to be able to take advantage of a specific blessing for the Earth at a given moment), then we have the instruction from the World Teacher which must be imparted to you, we also have the students in the Class, whose strengths as well as weaknesses we must also watch, and we have the activities taking place at current retreats with which we want to acquaint you. Then we must consider, too, the question of climate, especially at this time of year when it seems uncomfortably warm here to you. Concerning this, I would like to speak to you a moment about your atmosphere here.

I might say that if you had taken up my intended invitation to visit Darjeeling as the setting for this conference, we would have started at Ceylon and walked up through India. You would have found it there a good deal warmer than you do here in Philadelphia! You would have had to provide your own atmosphere, blessed hearts. It is very hot in the south of India. When you get up around Darjeeling, of course it is very beautiful, but we were going to start at Ceylon and let you see some of the lovely places that belong to history now, places where the Buddha walked and talked, where he gave his first message to the public and where he finally ascended. I took it upon myself (among all my other duties) to consult with our new Lord Buddha (formerly Lord Maitreya), our Lord Maha Chohan, the Archangel Michael and Lanto, concerning the possibilities of drawing here into this room certain cool air currents from the mountain ranges of the world. Having obtained their acquiescence, I went to the mountain ranges of the various Continents and contacted the Hierarchs of the retreats which are there. I spoke to our blessed Himalaya and asked him if he could have a group of Brothers direct cool currents of mountain air down here into this class room in Philadelphia from the Himalayas. He said: “Yes, if you have receivers.” I said: “I shall have receivers!” Then I spoke thus to the God of the Swiss Alps and he said: “Methinks I shall provide a

twenty-four hour cooling system there, if you have receivers.” I again replied: “Certainly! We shall have receivers.”

Then I spoke to Lord Michael in the Canadian Rockies and he said: “Oh, yes, we shall send our radiation from the Canadian Rockies, you have receivers.” I promised: “Oh, yes, we have the most wonderful receivers.” Then I went to Lanto and spoke with him at the Royal Teton. You can imagine the service he has to render! The Karmic Board is coming in this morning, all the Hierarchs are coming in from all over the world, all their scrolls are on their doors, all the Brothers and Sisters have wonderful ideas to present to the Board.

Have you any concept of the energy, wisdom and courtesy it requires to take care of all these activities, to get those presentations in order and, as well, to guard those energies as well as that of those around the Teton who are not yet qualified to enter the Light, but who do feel it? I said to him: “I know you are very busy and the Karmic Board is coming today but could you spare a few Brothers to send some Teton air to Philadelphia?” He said: “Yes, if you have receivers.” I spoke to God Meru and I asked his assistance from the heart of the Andes and, of course, he also acquiesced with the same statement. From the African mountains we asked assistance also!

FROM THE AUSTRALIAN CONTINENT, WE HAVE ASKED THE MASTER WHOM YOU KNOW AS DAVID LLOYD (GOD OF GRATITUDE AND DIVINE SPONSOR FOR AUSTRALIA) and the brotherhood there to send us here a ray of gratitude from Africa. We have also invoked the ray of Healing which is focused in one of the Etheric Cities over Africa. At the moment, there are many rays converging here from all these various places. Will each of you please accept the responsibility during this class of being a “receiver” for at least one of these rays each day so that I can show these great beings that my words are truth? Thank you, beloved ones, God bless you.

Complete Surrender To Great White Brotherhood

I have been asked today to keep my talk “light.” You know I am great on presenting the Law and sometimes it seems as though I must be almost forcibly restrained in order to keep the instruction “light.” You see, if we get into too deep an action of the Law the students get so tense and over-conscientious, likely to feel that they are either personal failures or that they are not doing what they should. For that reason, the, Maha Chohan asked me today to keep the instruction “light.”

You know, when you join the Great White Brotherhood, your name, your feelings, your mind, EVERYTHING goes to that Brotherhood.

Then we work under our new Lord of the World, the beloved Gautama (the former Buddha) and whatever he says, that is done! Suppose Saint Germain wants something done. Well that is done. We endeavor to assist whatever Master Presence is rendering the service and which the greater wisdom of those farther above us (on the Ladder of Light) know is for the greatest good for all. When mankind (and the students, too) come to have that same respect and courtesy for and to each other, how happy I shall be! I think I shall be the happiest Master in heaven when you have finished your experiments with what you call personal freedom and are willing then to know what freedom really is

Chelas are not too unlike horses while they are in training —I do not mean in consciousness of course! You know the “unbroken” horse rears, plunges and loves what he calls freedom. He runs through the fields, the wind flowing through his mane, and he is a magnificent creature! I have seen many such specimens. However, much more efficacious is that same horse when he has been broken to bit and bridle, when he has become a valuable “servant,” carrying perhaps, a potentate in dignity, still with his magnificent prancing step, still with flowing mane and the beauty of his nature, but doing something constructive instead of just running wildly over the fields. The same thing applies to individuals, they are desirous, many of them, of what they call freedom. They love the “clover patches,” they love the “high places” but if they are going to be part of the Spiritual Hierarchy, sooner or later they are going to have to submit, not to me, but to the infinite power of the Cosmic Law which requires controlled emotions, controlled minds, controlled etheric vehicles and controlled flesh! That is just common sense.

Entrance of the Karmic Board

While we are here speaking to you, the Karmic Board are taking the beautiful chairs prepared for them, set in position over the Royal Teton. We did not know on Transmission Night, June 16th, exactly when they would come. At that time, the builders of form were in the process of creating for them seven magnificent chairs of pink substance inlaid with pearl, in honor of the Third Ray, which is the ray honored by Sponsorship for this year. Those chairs have been completed and are beautiful beyond description. Of course, the back of the center one is a little higher and it has over it the canopy denoting the authority of the

Spokesman of the Karmic Board, the beloved Portia (Goddess of Justice and Opportunity). This Board usually does not come into session until very much later, closer to the first of July, but since they have come in early, it must mean that they are going to have visitors from other systems, galaxies and stars. It also means that there are certain activities which will take place which we did not wholly expect, both through your group work and the activities at the Royal Teton.

As the Karmic Board enters, they are a glorious sight indeed! They all wear garments of lovely pink also in honor of the Third Ray. I want you to look for a moment upon beloved Portia and see the magnificence of her entire Being, the beauty of those luminous eyes, the beautiful crown of pink diamonds upon her head, the soft chiffon veiling falling from it and then the long flowing train extending some forty feet. As she is seated, certain of the angels gracefully arrange her train so that it is very becoming. This evening, certain of the elementals have chosen to co-operate with the angelic host in making more festive the entrance of the Karmic Board and they are sprinkling lovely pink rose petals over them. It is a very beautiful sight! A bit below and in front of the Karmic Board, the beloved Lanto stands alone in pure white garments and behind him are the Hierarchs of the various retreats, with their conscious chelas.

Beloved Portia Rises And Speaks

“Beloved Lanto and friends assembled! We have come at this hour fulfilling a cosmic request from the Sun of this galaxy, known to you as Alpha and Omega. We are awaiting the messengers from the suns of the various systems, as well as from the planets that belong to those systems. These will address you, beloved Lanto and your assembly, before you fully formulate and present to us your petitions. Therefore, at the command of Cosmic Law, we are reversing the usual activity, which is the presentation of petitions from the Hierarchs, angels, elemental kingdom and unascended mankind to us. We are going to have the outpouring of certain designs, plans, patterns and truths from above which I know will elaborate upon those already prepared by you. We come to you today, beloved Lanto, and through the power of projected consciousness we are able to reach the handful of earnest souls in Philadelphia to give to them also this message. Thank You.”

Beloved Lanto Speaks

“Beloved Portia, in the name of God “I AM,” in the name of the Light of the World and in full reverence for life, first I thank Almighty God for the honor of guarding the Precipitation Ray here in the heart of the Teton, for the honor of guiding lifestreams who care to come to us in the expression of self-mastery, for the magnificent honor of your Presence with that of the entire Karmic Board above our humble retreat twice each year, for the added honor, unexpected even to us, of the visitors from other systems. When I speak thus to you, I speak, I know, for every Ascended Being, angel and elemental, as well as for every chela who is either present with us or is a part of this half-yearly conclave. Thus may we clasp hands from the realm of Earth (where the need is so great) to the realm of heaven from whence the help that is needed does come! I thank you, dear ones, for coming! Beloved Portia and Great Karmic Board, always we remain your obedient servants, yours to command at a moment's notice!”

Our Gracious El Morya Returns To Speak Again

As you have heard the conversation between beloved Portia and beloved Lanto, you will understand that the presence of these cosmic visitors will bring much added power into your individual worlds, beloved ones. I can see easily why it is essential for you to have as much peace and quiet as possible in your four lower bodies, especially during this class, so that you will be able to handle this power. Wherever a God-Being goes, he carries his Causal Body, (which is his aura) with him. Therefore, if the Earth's atmosphere is going to have visitors from the Central Sun, from the other Suns of the system and the other planets as well, you can be prepared for POWER, I can assure you! For this reason, I am very grateful that we are having this time of quiet and preparation. I am grateful, too, that I have the opportunity to speak to you about making these “air-conditioners” and I am expecting you to be good “receivers,” thus helping to create as comfortable and happy an atmosphere here as possible. Each one of you is responsible now to me, because I have pledged your services to the Cosmic Law.

THE WHOLE PURPOSE OF THE “BRIDGE”

By Beloved Ascended Master Morya

THE WHOLE PURPOSE OF THE CURRENT ENDEAVOR—THIS ENDEAVOR, WHICH WAS BORN OUT OF MY OWN HEART, IS TO ACQUAINT UNASCENDED BEINGS WITH THE REQUIREMENT OF THE MOMENT!! There are hundreds and thousands of magnificently inspired individuals who compose song, literature, poetry and every conceivable kind of beauty. They are all under the radiation of God and one or more of the other Masters, but, among all this group WE ARE A DISTINCT UNIT, FORMED FOR A PURPOSE. THAT PURPOSE IS “ON THE SPOT” REPORTS OF THAT WHICH IS THE REQUIREMENT ON EARTH AS SEEN FROM THE ASCENDED MASTERS' REALM, THEN THE WILLING COOPERATION OF UNASCENDED BEINGS RELEASING THEIR ENERGIES TO SET INTO ACTION (THROUGH SONG, VISUALIZATION AND DECREE) WHATEVER IS NECESSARY AT THAT EXACT MOMENT. OTHERWISE, I WOULD NOT HAVE ENDEAVORED TO ESTABLISH THIS MOVEMENT. That is the only differentiation, dear hearts.

You could take your Bhagavad Gita, a most magnificent inspirational work and enjoy reading it while sitting in the Wissahickon Park, for instance. You would draw wonderful radiation from above and create a peaceful, comfortable aura about yourself, maybe ten feet across. So, while you were nice and peaceful, anyone who would be fortunate enough to walk through that aura would get a blessing. However, what we are trying to do, precious hearts, is to cover the entire planet with light and give cosmic service. Thank you for your cooperation to this end and good morning.

THE MASTERS OF WISDOM SPEAK

THE SPIRITUAL PARTNERSHIP BETWEEN MASTERS AND MANKIND

MAHA CHOCHAN

The forming of the Great White Brotherhood by Sanat Kumara was prompted by the requirement of the hour to reestablish a conscious communion between the Ascended Master Realm and the outer consciousness of mankind. When the veil of maya (spun by mankind themselves from their secret thoughts, feelings, spoken words and actions) separated mankind in consciousness from their own I AM Presence, the kingdom of the angels, the Cosmic and Ascended Beings-mankind was

truly in a state of confusion and outer darkness. This Great Order began the long and rather thankless task of endeavoring to reach the outer minds of the “few” who, in the recesses of their memory, retained some concept of the ideal state in which Master, angel, elemental and man walked and served together with a common purpose, TO FULFILL THE DIVINE PLAN OF GOD.

After centuries of time, the “few” responded and, in time, others became interested in preparing themselves for re-instatement in God's kingdom. Each such a one, achieving and sustaining a state of spiritual grace, released a volunteer spiritual emissary from another galaxy or system, to return HOME! The new members then, in turn, began the long and tedious work of interesting others to take upon themselves the task of personal redemption of the energies of their worlds so that they might become conscious conductors of the purpose and plan for this Earth. Today, as we are in a time of planetary and universal change, we are accelerating the endeavors of ALL within whom is a desire to re-establish a conscious “communion” with the divine realm, from whence truly all blessings flow.

Let me counsel the earnest, the sincere, the interested chelas to watch their own motives, for therein lies their passport to such freedom or, conversely, their continued bondage to the desires of the emotional, mental, etheric and physical vehicles which encompass their still polluted souls. Man needs no outer guide, except for discrimination, honesty of introspection and humility, to show him the motive that stimulates his endeavor. My beloved Pallas Athena and the Master Hilarion are particularly interested in helping those aspirants whose motives are impersonal and humble, to a greater realization of truth for themselves. They know that, in that realization, the chela will desire to serve the entire evolution impersonally, as do all the members of the Brotherhood.

EL MORYA

The Great White Brotherhood (in the Ascended State) have voluntarily chosen to temporarily renounce the greater joys and freedom of cosmic service in order to help those among the human race who desire their counsel, instruction and assistance. In order to do this, the members of this Brotherhood have to find, sustain and expand an association with and through unascended beings. Thus the divine plan is conveyed to the outer consciousness of individuals who, in themselves, are not yet capable of reaching the state of consciousness where they

may perceive clearly this divine plan.

Of course, there are many “facets” of a divine plan which encompasses all evolutions in the Earth, on the Earth and in its atmosphere. Each Chohan endeavors to promote and develop that portion of the divine plan which is specifically delegated to him to externalize through individuals who belong, primarily, to his own ray. My ray is concerned with the projection of conscious knowledge of the will of God (the Cosmic I AM Presence) into the outer consciousness of those who choose to accept it and attempt, according to their various talents, capacities, powers and momentums, to externalize this divine plan for the benefaction of the Earth and its evolutions!

KUTHUMI

The service of the Second Ray (which I oversee) is to throw the Light of Illumination upon the individual divine plan of each lifestream belonging to this evolution. The Second Ray also intensifies the radiation of comprehension, discrimination and understanding through the outer consciousness of those who desire to help fulfill the divine plan of the entire race, besides developing and externalizing their own portion of the divine plan through co-operation with their individual I AM Presence. This Golden Flame of Illumination is no figment of the imagination but rather a specific “searchlight” of directed God-energy to make clear and distinct heretofore vapory and vague impressions which sometimes enter the consciousness of the earnest chela. It helps such an individual to distinguish between the promptings of his own personal self and the promptings of his I AM Presence, as well as those of the Ascended Host of Light.

THE PERSONAL SELF IS WILLING (YES AND EAGER) TO ACCEPT AS “GOSPEL” THOSE PROMPTINGS WHICH ISSUE FROM THE EMOTIONAL, MENTAL AND ETHERIC VEHICLES THAT TEND TO BUILD UP THE EGO AND GLORIFY THE PERSONALITY. THIS PERSONAL SELF IS NOT SO WILLING (AND, IN FACT, RELUCTANT) TO ACCEPT THE IMPERSONAL PROMPTINGS FROM THE I AM PRESENCE AND THE ASCENDED HOST WHICH ARE CONTRARY TO THE CONCEPTS, OPINIONS, PRE-CONCEIVED IDEAS AND DESIRES OF THE UNASCENDED INDIVIDUAL.

It is to help in the development of humility in the outer self, the discrimination of the consciousness, and the obedience of this self to the will of god, that illumination's golden flame is dedicated. Be assured

that any prompting, direction, advice or counsel which builds up the personal ego, stems from the impure energies of the lower bodies or the directions of other individuals who wish to use the weakness of the personality by such promptings and commendations. Be also assured that any promptings which tend to sublimate the personal ego and make of the individual a humble (yet withal positive) power for good in the world of form, issue from above.

PAUL, THE VENETIAN

The service of the Third Ray, of which I am presently Guardian, is to stimulate the love for God. We are also directly concerned with the development of the potential divinity within the hearts of all men, embodied angels and elementals. The direction of the substance, radiation and pressure of the Pink Ray in, through and around all such individuals, is a practical way of assisting them in the development of confidence in God, his messengers and the potential good within unascended beings.

This Pink Ray acts as a “Cosmic Incubator” which stimulates the divine instincts endeavoring to find expression through the soul-self as a blessing to the individual, as well as to the evolution of the Earth as a whole! “Self-love” is not enough! Love for God, his messengers and one's fellowman are the distinguishing characteristics of a well-developed Third Ray Man. Let me counsel all who will listen. There is a vast difference between sentimentality (which is short lived) and genuine interest and compassion for the suffering of mankind, elemental life and the animal kingdom. Compassion kindles the fire of divinity within the soul and makes constant the purpose, the service, the love and the practical works of the chela.

SERAPIS BEY

Many individuals seek contact with the Ascended Masters and the angelic host, motivated by a conscious (or often an unconscious) desire to inflate the personal ego and to extend the sphere of influence through which numbers of believing and credulous individuals may be governed and controlled by them. True communion between the Masters and aspirants can never come when such is the conscious or unconscious motivating power, for conscious endeavors of self-discipline, self-mastery and the attendant exercises for the purification of mind and body are absolutely necessary to bring about such communion.

However, there is the possibility of such communion with the Ascended Masters, which can result from a humble, sincere, compassionate and constant desire to assist the Cosmic I AM Presence to fulfill the divine plan of the universe. The MOTIVE for such an association determines the actual result.

HILARION

The vibratory action of the brain cells will determine the receptivity of the outer consciousness to the directives of the individual's I AM Presence, the Ascended Ones and, finally, the Cosmic I AM Presence of the universe. To quicken the vibratory action of the cells of the inner and flesh bodies is a science in itself. Besides certain exercises of breathing, invocation of light and its subsequent radiation through the individual's world and aura, a state of SUSTAINED HARMONY AND GRACE is required. This SUSTAINED HARMONY is a natural power which does accelerate the vibratory action of the vehicles of the unascended being, because HARMONY is the natural vibration of the kingdom of heaven and all its inhabitants.

Therefore, all the practices, exercises and invocations which temporarily lift the vibratory action of the outer consciousness, CANNOT be sustained permanently until the outer self CONSCIOUSLY endeavors to hold HARMONY AND PEACE in his thoughts, feelings, spoken words, deeds, body and affairs. This HARMONY AND PEACE enable the currents of the I AM Presence and the Ascended Masters to flow into, through and around the individual because, even as water seeks its own level, so do the currents of harmony and peace seek the level and complement of themselves in the lower atmosphere in which mankind presently abide, as well as in the atmosphere in which we abide.

JESUS

Long ago, I counseled mankind "Seek ye first the kingdom of heaven (HARMONY) and its righteousness (right use) and all these things (powers and gifts) shall be added unto you." In the days when I walked the Earth, there was much grumbling among the disciples and followers of John, the Baptist, because they followed the "letter of the law." My followers, less attuned to bodily disciplines but more attuned to disciplines of thought, feeling, spoken word and action, were directed by me to live in a state of grace. I can say today as I did long ago, that disciplines and privations of the flesh alone will not raise and

sublimate the individual, rather do they tend to nourish the worm of spiritual pride and arrogance. The disciplines of the feeling nature and thinking process (in purifying thought and feeling by self-control and use of the Violet Fire) will eventually outpicture in natural co-operation of the flesh garment. Remember, it is not the flesh body which is eternal. It is the finer vehicles of man which stand before the Lords of Karma and attain victory through love!

SAINT GERMAIN

The use of the Violet Fire of Mercy and Transmutation greatly assists the earnest individual to remove the CAUSES AND CORES of discord in his emotional, mental, etheric and physical bodies. Coupled with a CONSCIOUS ENDEAVOR to sustain personal, family, national and world peace, this brings VICTORY. Patience, application, realization and invocation of the momentums of the virtues which the Ascended Masters and angels offer to mankind, will assist any individual to rise to a point where he can receive the directions of his own I AM Presence and, eventually, qualify to receive the directions of the Masters and angels, for his personal edification. Those few who are qualified to receive the directions of the Masters and angels for a World Movement, have been prepared for ages.

THERE IS A VAST DIFFERENTIATION BETWEEN PERSONAL INSPIRATION (FROM THE I AM PRESENCE AND THE SPIRITUAL HIERARCHY) WHICH IS MEANT, PRIMARILY, TO HELP THE INDIVIDUAL IN HIS OWN DEVELOPMENT, AND THE IMPERSONAL DIRECTIONS WHICH FLOW FROM THE HIERARCHY THROUGH A PREVIOUSLY PREPARED AND QUALIFIED "CONTACT," TO GUIDE, GUARD AND COUNSEL A WORLD MOVEMENT. AGAIN THE SUBTLE INFLUENCE OF THE "EGO" MUST BE CAREFULLY WATCHED AND INDIVIDUAL DEVELOPMENT, IF TRULY ACHIEVED, NEED NOT BE PROCLAIMED BUT WILL BE MANIFEST IN WORKS!

MONTHLY LETTER TO TRANSMISSION CLASSES

Beloved Ones Seeking To Know And Externalize God's Will!

I love you for that seeking, for that desire to manifest God's will. It is that "very seeking" that has drawn the attention and added assistance of The Great White Brotherhood toward you, individually and in

your group endeavors. It is your earnest desire to participate in the purifying activities by which the Earth may be raised to her perfect God-estate, that has made possible those dispensations by which we may draw aside the veil of maya and allow you to enter into our homes, our Retreats and our hearts, as we share with you the confidences of our own experiences by which we attained the victory you so much desire.

Enter joyously into the beautiful home of beloved Morya. See there externalized the beauty which is God's will for you too, as his children. Absorb the faith and loving obedience which are focused there, those God-virtues by which we all, in our time, achieved our victory! Make real these visitations in consciousness! Create a pathway by your controlled, directed attention over which your soul may speed into our presence while this Focus is radiating its gifts to the world! You are in a Day of OPPORTUNITY! USE IT! Lovingly endeavoring to help you to enjoy doing God's Holy will,

Maha Chohan

Statement for the Transmission Class of October 20, 1956, is:

I AM inbreathing from beloved Morya th'God control that does God's will					
I AM absorbing	“	“	“	“	“
I AM expanding	“	“	“	“	“
I AM projecting	“	“	“	“	“

Retreat: Temple of God's Will, Darjeeling, India. Hierarch, El Morya. Color: Crystal and Royal Blue. Musical Keynote: “Pomp and Circumstance.”

GROUP MATERIAL FOR TRANSMISSION CLASSES

October 20, 1956

Loving Friends Of Light—Endeavoring To Know, To Do And To Be God's Will!

For the next thirty-day period, while the Temple of God's Will is in action, will you (every morning, on awakening) consciously turn your attention to the flame of God's Life within your heart and humbly say: “I am Yours, beloved 'I AM' of me! Let now your will be done in, through and around me and all I contact. I consciously accept all the good you want me to have, that I may enjoy using it for the happiness and freedom of my own world and that of my fellowman. Help me so to fulfill my divine plan (reason for being) this day! Keep this up faithfully

for thirty days and you must feel a greater love for and closer communion with your Source, your Father of Light, "I AM."

Perhaps the greatest misunderstanding in the minds of men is that concerning the will of God for them, despite the many, many assurances in the Bible and all divine literature, that God is the very nature of love! Read the definition of divine love in the 13th Chapter of First Corinthians in your New Testament and see if there is any suggestion there of poverty or the lack of any good thing! Jesus said: "It is the Father's good pleasure to give you the kingdom," "All that the Father hath given unto me give I unto you." (Remember-Jesus had the full power of precipitation and etherealization and therefore knew no lack of any good thing!) "Ask and ye shall receive..." "If ye shall ask the Father anything in my name, he will give it to you," "Prove me now herewith . . . and see if I will not open the windows of heaven and pour out upon you blessings more than ye can ever receive."

These are all statements taken from our accepted Bibles. Now, in all honesty, does this sound as though God's will for his children, the "crown" of his creation, was hard, cruel eternal punishment for human mistakes born out of the forgetfulness of their Source? Did our beloved Jesus (who came into manifestation on Earth to outpicture the nature of the Father) ever refuse to give a blessing to the life he contacted? Is there any record of his ever having lacked any good thing, whether it was wisdom he required to thwart the wily traps of the Pharisees or whether it was food to eat when there were five or seven thousand others to be fed as well? If he had full and free access to the Father, then if we will live in as close communion with that Father as he did, the same gifts, marvels and wonders can be ours.

Have you a problem at this moment—perhaps more than one? Arise and go to the Father! Lift your consciousness away from the distress and place it upon the flame of Life—God—right within your beating heart. There accept his will for you—the abundance of every good thing. "Come unto me, all ye who labor and are heavy-laden and I will give you rest!" This is the will of God for you, perfection—the truth of your being!

Lovingly, Frances K. Ekey

THE GURU AND THE CHELA
MANIFESTING GOD'S WILL
By the Ascended Master Kuthumi

"Thy kingdom come! Thy will be done on Earth as it is in heaven." — Jesus.

BELOVED MASTER—How can we know God's will when we must rely upon the integrity, spiritual honor and purity of unascended lifestreams who represent that will to us in so many and varied forms?

BLESSED CHELA—DISCRIMINATION, WISDOM AND UNDERSTANDING – ALL ATTRIBUTES OF THE SECOND RAY, MUST BE CONSCIOUSLY INVOKED FROM THE I AM PRESENCE AND FROM THOSE WHO REPRESENT THAT RAY IN THE ASCENDED MASTER REALM. This causes the "light of illumination" to arise from within the heart, which light then permeates the mind, the feelings and the brain consciousness.

BELOVED MASTER—Spiritual freedom is much stressed in the doctrines of today. How can we discriminate between the personal opinions of ourselves and our teachers and your directions or that of our own I AM Presence?

BLESSED CHELA—The measure of your teachings and also your personal promptings by comparison with the nature of God will clearly define their origin. That which endeavors to stimulate the feelings, thoughts, actions and spoken words toward externalization of the holy spirit (as represented by our Lord Maha Chohan) are of God. THAT WHICH EVEN MOST SUBTLY STIMULATES THE LOWER BODIES AND THE SOUL TO PERSONAL AGGRANDIZEMENT AND INFLATION OF THE SEPARATE "EGO" IS NOT OF GOD.

BELOVED MASTER—Sometimes we feel deeply, sincerely and honestly prompted to follow a course of action in complete variance with the Law as presented by men and women. What accounts for this?

BLESSED CHELA—First, the ray to which you belong will cause you to have an affinity toward certain devotions, spiritual exercises and practices, second, the far more subtle desires of the emotions, thoughts and memories of the past will seek life, continuity of expression and importance, through securing the cooperation of your yet untransmuted soul. These promptings are often not recognized as of human origin for the natural tendency of the evolving soul is to outpicture the subtle feelings, thoughts and human nature created through ages past. Examine honestly the motive behind such promptings and you will easily discover whether they are the divine impression

of the I AM Presence and the Ascended host or the buried ambitions of the outer self.

BELOVED MASTER—Beloved Jesus taught us to pray “Thy kingdom come! thy will be done on Earth as it is in heaven!” This prayer we earnestly desire to repeat in the pattern of our lives. How can we make these words LIVE in our personal and group activities?

BLESSED CHELA—First, you must remember the other statement of your Master Jesus: “Except ye become as a little child, ye shall not enter the kingdom of heaven.” This means renouncing all the accretions of mental concepts, of inharmonious, suspicious and impure feelings and the acceptance of the FATHER, I AM as a Real, a Living Presence! The individual must become still and know that I AM Presence. Then, allow it to flow freely through the imperfectly qualified energies of the outer self. When one feels that Peace, he is in the kingdom of heaven (harmony). There is the “false peace” of personal self-justification and there is the REAL PEACE which not only fills the individual's world but emanates from him as the light flows from the Sun. This REAL PEACE need not be affirmed, claimed nor boasted about, because, in itself IT IS PROOF OF THE ALIGNMENT OF THE OUTER SELF WITH ITS SOURCE!

TO BELOVED SANAT KUMARA AND LORD GAUTAMA

GREETINGS AND BLESSINGS from the Spiritual Hierarchy, the conscious chelas upon the Spiritual Path and all the mass of mankind who know not yet of your presence and your love!

To Sanat Kumara whose patience, constancy and love held the planet Earth in the universe, let there rise undying praise and gratitude from the Earth and all its attendant evolutions.

To beloved Lady Venus and the people of Venus who so kindly renounced the comfort of his presence for aeons of time, let there rise from the Earth and all its attendant evolutions, constant gratitude for such service!

To the new Lord Gautama! Greetings from the evolutions which you have prepared yourself to serve in love. I invoke every God-power and God-assistance to help you in this self chosen responsibility and task! May there arise in the hearts and souls of all Earth's people a realization of the centuries of preparation that equipped you to hold this high office! The people of Earth shall become your co-workers in establishing the kingdom of love, harmony and perfection upon this planet and in its atmosphere! The Spiritual Hierarchy welcomes you, Lord Gautama, and we pledge to you our full support and assistance in your service. Your READINESS to assume this great office with its attendant responsibilities, is a lesson to all ascended and unascended lifestreams.

Thomas Printz, Editor

The Homes and Retreats of The Masters of Wisdom

SHAMBALLA, FOCUS OF THE LORD OF THE WORLD

(November 15th, 1956 through December 14, 1956)

Shamballa! The very name carries a feeling of spiritual nostalgia to those who “remember” their visits to this glorious focus of the Lord of the World.

Builded (as all foci are builded on this Earth) from an idea and vision held in the consciousness of unascended beings and their Gurus) upon the pattern of the City of the Sun on Venus, Shamballa is one of the most exquisite foci of the Ascended Masters' culture and radiation that pulsates now in the etheric Realm above the Gobi Desert in Asia. ONCE, LONG AGO, AFTER THE CONFERENCE AMONG THE SUNS OF THIS GALAXY, IT WAS DECIDED THAT THE PLANET EARTH WOULD BE RETURNED TO PRIMAL ESSENCE BECAUSE IT WAS CONTRIBUTING NO LIGHT, NO MUSIC, NO CONSTRUCTIVE RADIATION TO THE UNIVERSE OF WHICH IT WAS A PART. THE GREAT LORD, SANAT KUMARA, ATTENDING THIS CONFERENCE, ASKED FOR OPPORTUNITY TO GIVE TO THE EARTH HIS RADIATION AND LIGHT AND TO ACT, THROUGH HIS DEVELOPED CAPACITIES OF THOUGHT, FEELING AND ACTION AS LORD OF THE WORLD FOR THE EARTH. HIS REQUEST WAS GRANTED.

Thus, when he returned home to his own star, Venus, he made the announcement of his offer and many of those who loved him well offered to precede him to Earth and prepare a suitable dwelling for this August Being.

The priests of Venus entered the Earth's atmosphere through the natural doors of birth (with the exception of their Gurus who were already ascended and for 900 long years, they endeavored to retain the picture of the City of the Sun through their outer consciousness and to build here on Earth, with the most beautiful materials that the Earth could offer, a duplicate of the Shamballa on Venus. This they did, although often their entire numbers were wiped out by the savage hordes that swept over them while engrossed at their labors. Finally Shamballa, the focus of the Sacred Three-fold Flame of Life, was completed upon the White Island, surrounded by the blue waters of the Gobi Sea. From the mainland to the White Island they builded a beautiful carved bridge over which the pilgrims seeking more light might pass into the sacred precincts of the temples. (Remnants of this bridge may still be seen beneath the shifting sands of the Gobi Desert, which, through cataclysmic action, was temporarily changed from blue waters to desert sand).

Finally, when all was prepared, Sanat Kumara bade his beloved Venus farewell, ascended into the atmosphere of his own star of beauty and love, blessed his people and, together with the Kumaras and certain of his spiritual court who were to accompany him, he consciously descended into the atmosphere of Earth, taking up his abode at Shamballa.

For millions of years Sanat Kumara has remained as Lord of the World. Through the powers of divine love, he began to stir the soul-light among those still belonging to Earth's evolution. These individuals were magnetized by his presence and visited Shamballa often (first in their finer bodies at night and between embodiments and later in their physical vehicles). Among the first two so to respond to Sanat Kumara's call for assistance for mankind, were the Lord Gautama Buddha and Lord Maitreya. For centuries, these beloved ones trained themselves to be of greater service to him and to the humanity which they had vowed to serve.

Very recently, Lord Gautama achieved the necessary expansion of his consciousness through divine love, which qualified him to accept the responsibility, authority and office of the Lord of the World. This significant event gave to the beloved Sanat Kumara freedom to return to his own star, Venus, so that he might assist in its evolution, preparatory to the Solar Initiation through which it will soon pass. Lord Maitreya, also, through like preparation qualified to become the new Buddha, filling the office held so long and so lovingly by Lord Gautama.

Sanat Kumara returned to Venus in January of this year for a very short period of time and then returned to the Earth to act as Regent and to assist Lord Gautama in his new responsibilities and services to the Earth and its evolutions.

For this thirty-day period (from November 15th onward) there is a constant stream of pilgrims in their finer bodies, who, removing the shoes from their feet, walk over the etheric replica of the carved marble bridge into the city on the White Island, bringing in their sheaves (accomplishments of the past year) to place upon the altar of the new Lord of the World (Lord Gautama). Besides these pilgrims, the Ascended Masters, Archangels, seraphim, cherubim and all who have served this Earth and its evolutions come HOME. It is a period of rejoicing, reunion, comparison of services for a greater future unity, as well as a period of divine worship to the immortal Victorious Three-fold Flame of God, "I AM," focused on the altar of the main temple and a period of blessing to the patient Regent, Sanat Kumara and his loving successor, Lord Gautama!

Preparatory to the Christmas Season, the beloved Spiritual Hierar-

chy and their chelas enjoy this holiday-time. All of the temples dedicated to the seven rays are festooned with flame flowers. All of the angel devas, builders of form, angels of ceremony and ritual are directed to make of Shamballa a most glorious home for the children of light! Both Sanat Kumara and Lord Gautama are in residence there and many are the interviews, counsels and instruction given to the Hierarchy and the chelas by these Illustrious Ones.

(Note: For further description of the Temple at Shamballa please see , “*The Bridge to Freedom Journal*,” Books 1 & 2)

BELOVED EL MORYA ANNOUNCES THE RELEASE OF SANAT KUMARA

(Note: May we kindly suggest, gentle reader, that you pause for just a few moments both before and after reading each of the following short addresses. Hold the attention upon each one who has spoken and endeavor to consciously accept and feel their outpouring to you. Then call for this gift of their love to be eternally sustained, all-powerfully active, and ever-expanding within you and your world, until you are wholly ascended and free. If you will do this, you will have tremendous benefit from it. Thank you!)

BELOVED EL MORYA: Greetings, beloved ladies and gentlemen, friends of light and friends of freedom! IT IS MY GREAT HONOR TO PRESENT TO YOU TODAY THOSE THREE GREAT BEINGS WHO HAVE PASSED THE “INITIATION OF READINESS” FOR GREATER SERVICE TO LIFE, SANAT KUMARA, RELEASED TO RETURN TO VENUS, HIS PLANETARY HOME, THE NEW LORD OF THE WORLD (LORD GAUTAMA) AND THE NEW BUDDHA (who was previously known as Lord Maitreya).

The outpouring and radiation of this triple activity already has been given at the Royal Teton Conclave which is now in progress. However, because of your sincere interest in Sanat Kumara's freedom from the Earth after so many ages of voluntary exile here and because of the fact that so much of this solar initiation was made possible by your individual and collective calls, I asked permission to present these beings to you this morning, together with the tremendous radiation which they bring. As you can see, I was given acquiescence for such a presentation.

I would like to point out to you today that, in the presentation of these three great beings, the most important aspect of their consciousness (and that which really enabled Sanat Kumara's freedom to take place) was their readiness, even before they were called to fulfill a

greater office. In other words, both Gautama (the new Lord of the world) and Lord Maitreya (the Buddha), prepared ahead in certain expansions of their consciousness and Causal Bodies at cosmic levels, so that they were ready at this time, even though we had been given a longer period of time in which to accomplish this release of Sanat Kumara.

I would like to point out also another phase of the activity of the Spiritual Brotherhood and that is the absolute joy which they experience in giving assistance to those on the ladder of evolution below them in their service. So should it be with you who serve with us in this octave, it should be your greatest joy to assist those you contact to attain the highest development of their good and expand their own light, even though their achievements in this respect may surpass your own!

Now, the nature of the new Lord of the World is such that he does not care to perform ceremony. As you know, Gautama is a naturally meditative, contemplative type of lifestream. Lord Maitreya, coming into the office of the Buddha has agreed to help the NEW Lord of the World in ceremonial activities, thus proving his love by offering his service where it is required. The NEW Buddha (your Lord Maitreya) also extends his hand to Jesus and Kuthumi, helping them to expand their service as they jointly assume the office of World Teacher, which office was formerly held by Lord Maitreya himself. It is all done in the greatest joy and the most magnificent loving co-operation, with no thought of anything but the complete and quickest possible freedom of this planet and its evolutions, in the Earth, on the Earth and in its atmosphere.

Now, may I present to you that Great Being who, for millions of years, sustained the place of Earth in the solar system and your place, your soul-light, upon this Earth, our Lord, Sanat Kumara!

Sanat Kumara Introduces Lord Gautama as Successor

Beloved Children of the one almighty God! I come to you today, bringing you the gift of love from my heart, love that enabled me to enjoy every moment while I was with your dear Earth, love that is justified now as this planet becomes a freedom star, love that is now manifest in giving me freedom, allowing me to return, even for a short sojourn, to my own planet Venus. Blessed ones, I love you!

You know, you and I are old, old friends! Even though your outer

consciousness may not remember it all. In some literature (in your own Bible, for instance) "I HAVE BEEN SPOKEN OF AS THE "ANCIENT OF DAYS." Together we have worked at inner levels. Sometimes your entrance into Shamballa was in your finer bodies at night, bringing with you certain problems upon which you desired more light and assistance for their solving in your waking state. Your coming so made my heart fill with a great compassion for your earnest endeavors on behalf of Earth's evolutions which you have vowed to guard and guide as spirits from other Suns and other systems. Sometimes, at the close of an Earth life, after you had cast aside your flesh garment and you had walked over the marble bridge into Shamballa, I would watch you as you would step into one of the lesser temples. Somehow or other you did not care to bring direct to me your small harvest which, before you took embodiment, you had sworn so joyously to bring with you in abundant proportions, if you were given such an opportunity of embodiment.

Then, gradually, by the magnetic power of my love, I would coax you from behind some pillar or statue or from under some tree and slowly you would come back into my gentle presence. Don't you remember it? Oh, then those seeming failures and mistakes were as nothing! We would smile at each other and I would tell you that you could try again. Then you would go out on wings of light, relieved in spirit and better able to enjoy your brief sojourn in Elysian fields.

Sooner or later, I would have word that another great spirit was ready to embark on a journey back into physical embodiment on Earth, in an endeavor to raise the planet into greater light and there you would be again—girded anew with fresh strength, courage and vitality from your Masters, from the contact with the angels, from the use of the Sacred Fire of Purification at inner levels. Again would come my benediction, sanctification and the ordination of your lifestream. We have experienced that, you and I, many times in the past.

This morning, I truly come with love in my heart, thinking of what your new Buddha has said, "You have really done your best!" Oh, what a beautiful "best" that has been for me!! You know, long, long ago, WHEN THE CONCLAVE OF THE SUNS OF THE SYSTEM DECIDED TO DIS-SOLVE THE PLANET EARTH BECAUSE OF THE INTENSITY OF HER SHAD-OWS CREATED BY THE DEGRADATION INTO WHICH HER PEOPLE HAD FALLEN, I, too, was a volunteer. I was filled with enthusiasm and fervor in my desire to render the service to this dear Earth which would prevent such dissolution and hold for her rightful and God-ordained place

in our solar system. Upon my return home to Venus from that conclave, my feelings were so evident (I did not even speak about them) that finally, my beloved Venus said: “Why don't you go?” We were, of course, always in the most magnificent accord and so I smiled and said: “Thank you! I shall!”

I then prepared for my journey earthward, but I never dreamed it would be such a long one. Through the establishment of the Great White Brotherhood I had hoped that the journey back to Venus would have transpired long ago. Yet, while the need remained, while the planet was in danger, while Its evolutions, particularly the “spirit sparks” within the ten million people belonging to this planet were apt to be completely snuffed out by the maya of human creation, I loved serving here.

Then, recently, at the Royal Teton Conclave in January of this year, I was surprised to be told that my freedom was at hand. I was told that THE EARTH HAD PASSED THE “DANGER ZONE” sufficiently, that enough purification had taken place in her atmosphere and among her people, that enough unascended lifestreams were interested in continuing service to this end and that Lord Gautama had prepared himself sufficiently to be able to take my place as Lord of the World so that I might return home, home, to Venus, to my people. Oh, my God, the gratitude which is within my heart for each and all of you who have made that possible?

Can you imagine my gratitude also to the beloved Gautama who had prepared himself ahead of time so that he might be ready to assume the duties of my office when I should be free? His love and light had expanded his Causal Body until it was of sufficient size and intensity to match my own. As you have been told, when our two Causal Bodies met, it was like the coming together in perfect alignment of the two halves of an orange. Knowing this, I was in supreme peace during my short stay on Venus. May I say that, since then, I have not been back to Venus, yet now, oh the joy of that freedom—knowing that I may come and I may go! I leave with you today my personal blessings upon all who have made this possible!

Will you now, beloved ones, honor Lord Gautama? Accept his radiation to you of victorious love and peace, his consciousness of “The Middle Way,” which he brings to you today.

Lord Gautama Speaks

Today I bring to you the feeling and substance of peace which has been my atmosphere for aeons of time. If you will accept it, that peace shall become for you a permanent part of your world for, as your Master Jesus has said: "I give not as the world gives." That which is the light and love of any member of the Ascended Host and which is consciously given to unascended beings, is a permanent radiating power-center, anchored within the feelings, the mind, the etheric substance and the outer flesh structure. This gift, if accepted by your feelings as reality, can be activated and expanded at any moment, just as you confidently turn a switch upon an electric fan and set it into motion.

When unascended mankind is raised to certain heights of illumination and peace in communal gatherings from time to time or, in the presence of a Master during an address, why do such individuals feel that the peace and uplift then received are only temporary accelerations and that the form of the speaker or the spoken word of the Master is essential for their continued activity within the bodies in which they are encased? Even among your unascended mankind, (which I have not personally contacted for a great many ages, except on rare occasions) do you give a gift today and snatch it back tomorrow?

When an Ascended Being gives you a feeling and blessing of radiation, that is a living activity in your world, an actual part of the Master's substance and consciousness. This feeling you can recall at will and make it part of your world at a moment's notice. However, the gifts which are not seen are not so much cherished among mankind, such as the gift of our light, our feelings and our power of accomplishment. We find that as soon as the individual returns to his own orbit, particularly if such a one is not right within an active heart center or some active sanctuary, that the gifts given slip away from the conscious memory of such an individual by lack of use.

I taught in India many hundreds of years ago, as you know. This year, nearly all of India chooses to recognize and honor my teachings, ALTHOUGH 2,500 YEARS AGO ONLY A FEW DUSTY MONKS AND MANY CURIOUS PASSERS BY WERE INTERESTED. I know what it is to have walked the Earth seeing human distress and, because of that, by deliberate conscious endeavor, I pierced through every one of the seven spheres of higher consciousness in an endeavor to find the holy truth of Life, obedience to the Laws of which would not only alleviate but completely remove and prevent the recurrence of such distress in the future.

Having achieved my goal, having found that truth, I then renounced my God-given right to stay there and voluntarily returned to Earth to resuscitate an almost totally incapacitated body which had been neglected during the years, years which I spent in my journey toward knowing the ultimate! Now, 2,500 years after my experience, there are shrines builded and one of the largest religious orders of the world bears the name of "The Buddhists." However, all this was not done in a day.

I speak to you today for the first time in my official capacity as the Lord of the World, Lord of the Planet Earth. This makes me very humble, very grateful and makes me desirous of expanding more and more divine love until all your endeavors are crowned with God-success.

Perhaps I shall not be a spectacular "Lord of the World" but I shall be a loving one! I think there is not one sincere heart within this room today who does not feel my personal ray anchored within his or her heart, carrying my love to you , for you are the hope of the Hierarchy, as well as of the Earth and its people.

And now to my successor, beloved Lord Maitreya, the new Buddha!

The New Buddha (Lord Maitreya) Speaks

Beloved ones, I bring to you today the deepest and most sincere blessings of the Buddha's radiation which it is my great privilege and honor now to direct to, through and around the atmosphere of Earth and her evolutions, as I humbly enter into the office of my great teacher, Gautama, and learn each day more of the feeling of pure and absolute love.

May I say that, in the outer mind, you sometimes wonder if there is an ultimate to any feeling in the Ascended Masters' Realm. Well, I can speak for myself and those with whom I have been in association, there is no ultimate that we have ever found! In my office as World Teacher, guiding, guarding and protecting each new religion as it has come into being, wherever possible developing and expanding the Christ nature within the human hearts of all belonging to Earth's evolutions and her "guardian spirits."

I realized more fully than ever before that there is no ultimate to that feeling. I am convinced in my heart that even Alpha and Omega (God and Goddess of our Great Central Sun) and the Sun Gods and Goddesses above them shall continue to externalize and experience that acceleration of divine love, joy, faith, peace and all the other God-

virtues and that even the Supreme Source behind every galaxy is, in itself, a constant expansion of those God-virtues and feelings which we so much desire to give to you.

When your great guest, Sanat Kumara, first came earthward so many ages ago, he had in mind the awakening of the consciousness of some individuals upon this Earth who had become part of its evolutions from other planets or were among those who were naturally inhabitants of the Earth. Through the magnetic power of his divine love, he began to draw toward him, at first, the finer bodies of lifestreams who wanted to find their way back to Godliness, to Godly feelings: to Godly thoughts and Godly expressions.

As the moth is drawn toward the flame, so are the souls of those whose prayer-force, thought and feeling desire Godly things, drawn toward Beings at inner levels who can give them assistance. So, along the current of our own prayer-force, our contemplations, our various spiritual practices (although we were in embodiment at very different parts of the Earth at the time), the beloved Gautama and I often met together before Sanat Kumara. We formed a spiritual alliance in our inner bodies and, as we watched the beloved Sanat Kumara's great outpouring of divine love (the only thing, mind you, with which he had to work to preserve our planet) we came one day to a realization that the Great Lord of the World desired a new Buddha. Both Gautama and myself then offered to prepare ourselves for that Initiation.

This we did, through many ages of study, contemplations and disciplines. Most of you are familiar with the story that, at the end of the long initiations, beloved Gautama excelled me in his radiation of love and light and I was grateful! I was one of the most joyous of those present at his ordination and I have been one of his greatest admirers and students ever since! Whenever time and opportunity allowed me to take my attention away temporarily from my service as World Teacher, I have spent that time in loving him. I honestly think, beloved ones, that it was my love for him which drew so much of his radiation into my own world that it has enabled me to be ready to assume his office today. Consciously, I did not prepare for Buddhahood at this moment, yet I was told I was ready!

I am serving yet, as you know, with Holy Jesus and blessed Kuthumi who are, of course, just "breaking in" on the tremendous task of being World Teacher. Each of them now has seven candidates preparing for the Chohanships of the Second and Sixth Rays which eventually will be vacated by them as they proceed together to fill the Office

of World Teacher, previously occupied by myself. Kuthumi and Jesus are personally working with those potential Chohans to develop them for that service and, of course, in time two of these will excel above the others and assume those positions. Meanwhile, all the assistance of the World Teacher is to be focused upon Saint Germain's new activity but, at present, Jesus and Kuthumi's forces are divided to a degree.

While they are working to pour the radiation of World Teacher to the new activity of the Ascended Master Saint Germain, they are also assisting in the development of the candidates who will replace them as Chohans of their respective rays. I, in turn, am working with Jesus and Kuthumi and I am also sustaining the cosmic radiation of the Buddha's rates of vibration. I am also serving with the great Gautama who does not enjoy processions or ceremonial activities. So, you see, if you think you are busy here below, we, too, are busy here above.

This morning, I would like to give each and every one of you, our blessings. In the name of life, I thank you!

THE MASTERS OF WISDOM SPEAK
NON-ATTACHMENT TO PERSONS, PLACES, CONDITIONS OR
THINGS

MAHA CHOHAN

As I have said repeatedly, the founder of any great world religion brings truth, the followers of that religion weave into it their concepts, ideas, patterns and methods of worship. Thus the purity of the original idea is often lost through the earnest, sincere but often misguided followers of the original World religion. One such Being, now the Lord of the World, known by millions of people as Gautama Buddha, TAUGHT NON-ATTACHMENT TO THINGS AND THE DOCTRINE OF DESIRELESSNESS. This has been misinterpreted by many earnest followers of his faith.

EL MORYA

The feeling world (desire body) was created and has been sustained through the ages in, through and around every self-conscious intelligence with a divine purpose. That purpose is to give life (energy) to ideas envisioned and to make them manifest forms. When the feel-

ing world is used again selflessly as a proper creative force to energize thought-forms, sustain and expand them for the good of the entire human race, it will have fulfilled its divine purpose. Without deep, sincere, impersonal but strong feelings no idea, vision, thought-form or world movement (spiritual or secular) can either come to birth or live and be sustained in the physical appearance world. It is the service of the First Ray to so train the feeling worlds of the chelas as well as those of all mankind, imprisoned angels and elementals so that they may use their feelings as God intends to energize and externalize in practical works the divine concepts and ideas received into the outer consciousness.

KUTHUMI

I WAS AMONG THOSE WHO WALKED WITH THE LORD GAUTAMA WHEN HE PREACHED THE DOCTRINE OF “DETACHMENT” TO HIS FOLLOWERS. His doctrine was that those who used the creative centers of thought, feeling, spoken word and action to lower the divine ideas into the physical world should not, at any time, become attached to the creation drawn forth. HE FURTHER STRONGLY RECOMMENDED THAT THE CHELA WATCH FOR A SENSE OF SPIRITUAL PRIDE IN PRECIPITATION, A DESIRE FOR PERSONAL GAIN AS WELL AS A PERSONAL ATTACHMENT TO THE MANIFESTATION DRAWN FORTH FOR THE GOOD OF HUMANITY. Some have followed this impersonal principle, others have chosen to ignore the tremendous need upon the planet Earth of the perfection waiting to express on Earth and many have chosen to personally benefit (financially or through a sense of personal power and authority) by the manifestation they drew forth. They have, therefore, forgotten the spirit of his teachings and follow the letter of the Law.

PAUL, THE VENETIAN

Personal attachment to persons, places, conditions or things, causes so much heartbreak while the individual is on Earth and, if possible, even more so after such a person passes through the change called “death.” The magnetism (when tinged with selfish or personal motives, known or unknown) which literally mesmerizes the soul toward its creation, is a tremendous line of concentrated energy which binds the soul to its creation, or to the individuals whom that soul has sewed.

When the service, as we offer and practice it, is done impersonally (although our feelings energize the blessing) it does not contain this “clutching energy” and the individuals and manifest blessings become,

as they should be, a part of the heritage of the race. Thus I too, can recommend that every service you give be rendered to the glory of God and to the establishment of his kingdom on this Earth, with no thought of personal gain, recognition or recompense! The Father who is in heaven sees all things and shall reward you accordingly.

SERAPIS BEY

To take the doctrine of “desirelessness” literally, would be to repudiate the Spiritual Law of precipitation. The motive behind the desire determines its efficacy and its ultimate worth to the evolutions progressing in the Earth, on the Earth and in its atmosphere.

Many chelas (particularly in the East) find it comparatively easy to rise in consciousness into the realms of bliss and there abide, allowing this Earth and its progress to continue to suffer in limitation and distress. The true doctrine of the Buddha was to learn to so rise, attune one's consciousness to the perfection which the Father has in store for the Earth and its evolutions and then to consciously descend and practically manifest for the blessings of the race that perfection. For this reason were the faculties of thought, feeling, spoken word and action given unto man. Observation of perfection and participating in its bliss are not enough. Bringing that perfection and that bliss to a planet in sore distress and a people in the agony of suffering, is the mark of a true chela of Lord Buddha.

HILARION

The desire body (feeling world) has truly been called by many the “bottomless pit.” It is also the unconscious instigator of many promptings wherein the personal self will be benefited, thus, the absolute necessity for purifying this body of all known and unknown personal habits, patterns, desires, appetites, cravings for power, etc. Then, it is ready to perform its natural function, namely to energize joyfully, constantly and lovingly the ideas and patterns in the mental body.

As by far the greatest amount of energy fills the feeling world, any thought, vision, pattern or design which is given life (energized) by the feelings is literally catapulted into form. You know, yourselves, in the outer world, that the greatest mental concepts never carry conviction unless their proponent has a true, strong feeling of their efficacy and practicability. I was able to perform the service as the Apostle Paul because I felt the truth which I endeavored to spread abroad. Thus it is

today, the teachers and chelas who truly accomplish spiritual conversion must first feel the truth which we have so freely imparted. Then, truly, your words become flesh and dwell among you and among all mankind.

JESUS

The more pure a man or woman becomes the greater the capacity of the feeling world to energize that which will benefit the human race. Desirelessness (as interpreted by many) may be pure selfishness and make the individual indifferent to the crying needs of his fellowman. Although I, myself, my mother and father and some of my followers, had no personal desires, we were fully cognizant of the need of humanity. Thus, we ascended “in consciousness” to the Realm of perfection, saw the Father's intent for all his children and set about practically to bring into manifestation that kingdom here on Earth. A study of the very brief records of the experiences through which I, myself, passed will show that I did have a burning desire to alleviate human suffering, to heal the sick of mind and body and to leave the world a planet of greater light. So also did my great predecessor, Lord Gautama.

SAINT GERMAIN

Seeing the agony of those who have passed through the veil called “death” as well as the distress of those still embodied who are prisoners of human desires, I offer the use of my Violet Fire of Transmutation and Mercy to purify the emotional bodies of the people.

The instruments by which the perfection of God's Holy kingdom is scientifically lowered into the physical appearance world, are thought, feeling, etheric consciousness and the spoken word and deed. To even cognize for a moment that the feelings should become inactive (desireless) is an untruth. Removing the cause and core of all personal desires and feelings is essential, of course. Then the feelings do their perfect work in energizing thoughtforms directed into the alert consciousness from the individual I AM Presence or any member of the Spiritual Hierarchy.

Great discrimination is required at this point on the spiritual path to cognize the difference between the promptings of the outer self (which seek personal gain) and the promptings from the divine realms which seek only to manifest here and now God's will for this dear Earth and all its attendant evolutions.

Do not ask for “desirelessness” but for right God-desire. Do not ask for the experience of exalted consciousness without asking for the constancy, perseverance, honesty and selflessness to draw the fruits of such exalted consciousness into the realm where you yet abide!

VISIONARIES AND DREAMERS ARE MANY. PRACTICAL WORKERS ARE FEW! IT IS THESE PRACTICAL WORKERS WHO ARE OUR HANDS AND OUR REPRESENTATIVES IN THIS WORLD OF FORM.

THE FIRE ELEMENT

By Beloved Astrea

(First of the addresses given at the Autumn Class on the Beings of the Four Elements)

Sept. 27, 1956

Blessed Children of God, seeking with all your hearts to purify the Earth and all the evolutions belonging to it, we are so grateful for your sincerity, your faith, your constancy of endeavor and for the actual works which have been performed through your knowledge, understanding and application of the Spiritual Law.

In endeavoring to understand the right use of the Sacred Fire, the student must first learn that the Sacred Fire itself is consciously qualified, obedient, intelligent life, eagerly willing and capable of rendering the service for which it is called forth! The acceptance in the outer consciousness (feeling world particularly) of the already gathered momentums of various qualities and activities of the Sacred Fire (such as the Freedom Flame, Resurrection Flame, etc.) is so essential to the success of its use.

The Sacred Fire renders two services, one manifesting as the power of precipitation, the conscious creation of constructive form in any sphere, including the physical appearance world, the other manifesting as the power of etherealization (dissolving) of form at the completion of its usefulness.

What Are Salamanders?

The salamanders are the beings which serve the Fire Element and are of tremendous assistance to the Directors of the Fire Kingdom. Many of these salamanders are as large as the Empire State Building (in New York City) while many are as small as the head of an ordinary pin. They serve constantly under their directors to dissolve the impurities released from mankind through the destructive use of their creative centers (thoughts, feelings and spoken words) and are a tremendous boon to the other three elements, earth, air and water.

Perhaps it is difficult for you to conceive of fire beings acting as purifying agents through the water element, but they do! WITHOUT THESE SALAMANDERS (MANY OF WHOM COME FROM THE ELECTRONIC BELT AROUND THE PHYSICAL SUN) THE FORCES OF THE OTHER THREE ELEMENTS WOULD LONG SINCE HAVE REBELLED VIOLENTLY, CAUSING MUCH CATAclysmic ACTION, FEAR AND CHAOS TO THE PEOPLE OF EARTH. I should particularly like you from tonight onto acknowledge and consciously bless these salamanders for their service all through the ages, not only in this physical appearance world but also in the inner spheres where disembodied lifestreams dwell between embodiments.

Fire, like every other element, has given great blessings to the race by manifesting in a constructive manner, i.e. for incineration, heat, light, cooking, etc. and in a destructive way, also, causing the loss of homes, lives and property. Therefore, mankind in general has a terrific fear (often buried in the etheric garment) of the action of fire. Tonight, we are endeavoring to remove this fear from the etheric consciousness (memory world) of the people and replace that fear by a love of the purifying radiation and activities which are within the Sacred Fire.

Many individuals (particularly those who have been burned at the stake in past lives or otherwise tortured by fire) have been deeply scarred etherically. The removal of the cause, effect, record and memory of such fear shall take place now. Then the activities of the Sacred Fire will be more welcomed by all the evolutions in the Earth, on the Earth and in its atmosphere as a liberating, purifying power. I so decree it!

Through ages of misuse of the fire element, many disembodied lifestreams are also very much afraid of fire. Thus the purifying currents of the Violet Transmuting Flame, as well as the radiation of my own ray and that of the Elohim of Purity, are violently rejected by man (even at

inner levels) who has utilized the fire element to cause agony and death to their fellowman. Will you stop right here, please, and call for the removal of the causes and cores of all fear of the fire element and then, sincerely call on the Law of Forgiveness for any and all misuse of the Fire Element by your lifestream and that of all mankind, back unto the very beginning of such unfortunate practices. As this is done, from our realm we shall be actively sublimating these errors of the past and present and preventing the mistakes of the future by mankind now embodied, as well as those who are to take embodiment here at a later time.

Astrea's Circle and Sword of Blue Flame

After the first Zarathustra brought back the remembrance of the use of the fire element to the outer consciousness of mankind on Earth, for a long time that fire was loved and blessed by the priests and the people and only used constructively. THEN CAME THE TIME WHEN, THROUGH MANY AGES, UNSCRUPULOUS PRIESTS AND PRIESTESSES INVOKED THE POWERS OF THE FIRE ELEMENT FOR SELFISH AND DESTRUCTIVE PURPOSES. SALAMANDERS WHO RESPONDED IN OBEDIENCE TO THOSE WHO WERE PRACTICING SUCH BLACK MAGIC RITES BECAME BOUND TO THE LIFESTREAMS OF THOSE WHO HAD INVOKED THEM AND HAVE FOLLOWED THOSE LIFESTREAMS EVER SINCE. WE ARE ASKING YOU NOW TO HELP US CUT THESE SALAMANDERS FREE FROM THESE LIFESTREAMS, MANY OF WHOM ARE YET TO BE BORN ON THE EARTH. Those with incendiary tendencies often have those tendencies stimulated by such salamanders who have taken on the "mischief" of their masters.

I smile at the consciousness of those who refuse to believe that the Earth first must be cleansed and purified from within out, before the glorious radiation of the Ascended Master Realm can be manifest again for the Earth and all her evolutions. This idea is just as foolish as to think one can ignore the weeds which fill a field and, sowing fresh grass-seed upon them, expect to have a grassy lawn of velvety softness!

My service to this universe is to help remove the causes and cores of all the "seeds" of human selfishness, discord, limitation and distress from within the four lower bodies of mankind, as well as the mass creations which blanket the Earth and its entire atmosphere. Many of you individually are going through the process at this time of having certain destructive qualities, tendencies and cores of impurity removed from

your four lower bodies. It is sometimes no more pleasant to experience this than it is to have a tooth pulled from an abscessed gum, but it is just as essential to the permanent well-being of the individual.

You would be amazed at the tenacity with which individuals hold on (in the feelings) to certain habits and tendencies. They really enjoy them and are not at all either eager or desirous of letting them go, also, the humanly created entities of discord really hate the purifying activities of the Sacred Fire, fearing the loss of their identity. This resistance is what we must meet with the help of sincere students who will invoke our aid, since we must have the call and authority from your octave—from those still in physical embodiment where the need is to be met.

As I have told you previously, I chose to co-operate with the beloved Elohim of Purity, CREATING, SUSTAINING AND EXPANDING BY USE, THE ACTIVITIES OF MY CIRCLE AND SWORD OF BLUE FLAME WHICH I RELEASE AT YOUR CALL IN, THROUGH AND AROUND WHATEVER DESTRUCTIVE CONDENSATIONS OF ENERGY YOU DESIGNATE IN THAT CALL. Dear hearts, I just cannot express to you in words my gratitude for your having called to me through the years and having thus given me such freedom to act in the emotional, mental, etheric and physical bodies of Earth's people. Thus the "wedges" of impurity which have been allowed to lodge between the electrons within the atom, are being removed tonight and the purifying grace (electronic light substance) of my beloved Claire is taking the place vacated by the discord. I now present my beloved Claire, the Elohim of Purity.

PRECIPITATION AND ETHEREALIZATION **By The Beloved Elohim Of Purity**

Beloved ones! As I come into the atmosphere of Earth tonight, I bring the full-gathered cosmic momentum of my purity to you, to all mankind and to all the elements which have served Earth's evolutions all through the ages. DO YOU KNOW THAT THE ONLY DISCOMFORT IN THE WORLD COMES FROM THE LACK OF THE SUBSTANCE OF PURITY IN ONE OR MORE OF THE FOUR LOWER BODIES? Misqualified energy, changing the ratio of the speed of the electrons which form the atom, causes pain, limitation and distress of various kinds. The vibration of the substance of purity quickens the vibratory action of the electrons, helping them to expand their light, throw off the substance by which the individual has surrounded them by discordant thought, feeling and

spoken word and restores them to the rhythm and harmony of the I AM Presence, in whose divine and perfect image each individual was originally created.

PURITY IS A SUBSTANCE. IT IS A RATE OF VIBRATION WHICH IS CONTAGIOUS IN THE EXTREME! Please accept my purity today! Consciously open your emotional, mental, etheric and physical bodies to me today that I may pour into them that quickening radiation of Cosmic Christ Purity which I AM!

After my beloved Astrea and all the Beings of the Sacred Fire (particularly those serving on the Seventh Ray) have removed the causes and cores of all impurity on this Earth from its people and its atmosphere, I shall be so much more welcome among mankind. People feel they are losing something when asked to invoke purity. I tell you that, instead of losing anything they are gaining permanent peace, comfort, healing, supply, harmony and perfect balance by such invocation to my element.

During this four-day period, we are endeavoring to anchor as much purifying energy as possible into the four elements which have served the Earth for so long. This will release these beings from the resentments and rebellions against mankind who have been their tormentors as undisciplined human beings. It will also more easily open the outer consciousness of the people to a greater realization of the truth and bring the restoration of the perfect atmosphere, individually and for the planet itself, in which there is no veil of maya hiding the glory of the angels, the Ascended Ones and all who are assisting the race as a whole.

Purity is very, very essential for the use of the two activities of the Sacred Fire to which my beloved referred earlier in her address, Precipitation and Etherealization.

IN PRECIPITATION, PURITY IS NECESSARY TO THE MANIFESTATION OF A CLEAR, DISTINCT, PERFECT PATTERN IN THE INNER REALMS OR IN THE WORLD OF FORM.

IF THE MENTAL BODY IS NOT PURIFIED, IT CANNOT RECEIVE THE PERFECT DESIGN FROM THE GODHEAD OR THE ASCENDED MASTERS, NOR CAN IT MANIFEST THE STRENGTH TO HOLD TO THAT DESIGN AGAINST THE DISINTEGRATING FORCES OF DOUBT, FEAR, RIDICULE AND THE MANY OTHER NEGATIVE QUALITIES IN THE ATMOSPHERE OF EARTH WHICH ALWAYS ENDEAVOR TO DESTROY A CONSTRUCTIVE PAT-

TERN IN THE OUTER WORLD in which you presently abide.

If the emotional body is not purified, the idea and pattern will be so tinged with selfishness and personal ambition that the beautiful design loses much of its perfection and efficacy.

If the etheric body (memory) is not purified, the failures of the past which are recorded there will often neutralize and sometimes completely destroy the form before it can be externalized for the blessing of life.

Purity is also essential to enable one to consciously etherealize substance which has fulfilled its purpose, releasing the magnetic pull which has held the form together and allowing the electrons which have made up that form to return to the Sun for repolarization.

In etherealization, if the mental body is not purified, it will devise all kinds of schemes to “hold on” to substance and form temporarily loaned to the personal self, by the use of which he may bless his fellowman.

If the emotional body is not purified, it will cling tenaciously to possessions as well as to people and clutter up the world with many forms which have completed their efficacy. These bind lifestreams (not only the embodied but disembodied) to such an individual, causing much unnecessary suffering to all concerned.

If the etheric body is not purified, it will remember previous losses, be filled with (suspicions) and fears and the process of etherealization will be hindered.

IF THE PHYSICAL BODY IS NOT PURIFIED IT, OF COURSE, WILL CONTINUE TO ENJOY THE PLEASURES OF THE SENSES AND THE FORMS WHICH GRATIFY THOSE PLEASURES.

Every Ascended Being, angel and builder of form uses life only as God intended it to be used, to give some blessing. Then, when the forms which they have created have given their service, they release that life from that form so that it may serve with greater purpose in the future, the opportunity for greater service having been earned by previous obedience to these Celestial Ones. Mankind must learn this lesson of “loosing and letting go.” Often have we witnessed the suffering that has ensued when individuals, refusing to learn this lesson, are finally forced by the bitterness of their own experiences to make this renunciation.

Tonight, I ask you to call on the Law of Forgiveness for your own misuse of life all through the ages and to accept my gift of purity in its

place, so that you may see, know and become the perfect expression of your own individualized I AM Presence, a Holy Grail, receiving into your outer mind the divine ideas from that Presence which, through your purified creative centers of thought, feeling and spoken word you can externalize for your own blessing, for the expansion of this activity and for the benefaction of your fellowman. Thank you, beloved ones, and good evening!

MONTHLY LETTER TO TRANSMISSION CLASS

November 17, 1956

Beloved Ones Seeking The Realization Of The Power Of God I AM To Act Through You:

I bring to you the love and illumination of my consciousness and the strong, directed ray from the heart of Pallas Athena to anchor into your outer consciousness the all power of God, through you, to act here and now. Upon the Sacred altar at Shamballa burns the immortal victorious Three-fold Flame! A portion of that flame is also anchored within your dear physical hearts.

That flame is all-powerful in our octave. By its use, we create and sustain manifestation and etherealize that which has already served its purpose. That flame is also all-powerful in your octave as you can accept it rather than the power and authority you have given to persons, places, conditions and things to limit you. It is all in the power of acceptance, realization and utilization of the power of the flame of God I AM in this physical appearance world.

As you find its power working through you more and more and cognize the sublimation of evil of every description thereby, you will eventually become "a Lord of the Flame" in your own right. At the close of this month of November, all the Spiritual Hierarchy, as well as unascended mankind, will bring in the harvest of their intelligent use of life energy, the flame of God I AM to Shamballa! We shall be there to accept it. Visualizing the glorious Three-fold Flame (pink, gold and blue representing love, wisdom and power) upon the altar at Shamballa: the magnificent Regent Sanat Kumara standing in the atmosphere, above the flame and the new Lord of the World, Lord Gautama standing within that flame: place the harvest of your year's endeavors upon the altar with the prayer that these beings will intensify your realization, acceptance and use of that flame of God within you in this coming year.

They will do so!

Love and blessings,
Maha Chohan

SUGGESTED DECREES

Oh, Thou beloved immortal Victorious Threefold Flame of eternal truth within my heart, ARISE! Illumine everything to me by the cosmic flame of cosmic love and teach me the Ascended Master Truth concerning all (3 times)!

Oh, Thou beloved immortal Threefold Flame of eternal Truth within my heart, ARISE! Compel all the energy in my body, mind and world into perfect divine order through divine love. Protect, sustain and expand this comforting balance in, through and around me, making and keeping me the comforting presence of the beloved Maha Chohan to all I contact, today and forever! (3 times)

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
with the Great White Brotherhood and Cooperative World Service

DECEMBER 1956

TO THE BELOVED MASTER JESUS

All blessings upon your accomplishment of a lifetime of victory—an example of mastery through a physical body—and a sacrifice that entailed so many thousands of lives of preparation that the human mind cannot cognize such love!

To the beloved Mary, your blessed Mother, for her capacity, will-
ingness, determination and love which enabled her to hold the immaculate concept for you and those who volunteered to serve with you in the Christian Dispensation, our gratitude and love!

To the beloved Joseph (now known as our brother Saint Germain) for his patience, his selfless guardianship, his life of works rather than words in fulfilling the cosmic role for which he volunteered, the blessings of heaven we invoke!

To all those, ascended and unascended, who participated in the presentation of the Christian dispensation to mankind, we invoke the blessings of the Most High!

To the angelic host, whose guardian presence hovered ever about the Holy Family, we are so grateful! Let the time soon come when all men shall acknowledge, accept and serve consciously with the angelic host as the God of all intends!

To the very Spirit of Christmas, whose individuality has grown with each successive celebration of the Christ-mass, we send our greetings and ask that her spirit not only continue to live but physically manifest as well in the lives of all mankind!

Finally, to the gentle readers, whose interest and love have helped us to sustain this endeavor, we do decree for you a holy, blessed, illumined Christmas Season!

Thomas Printz, Editor

The Homes and Retreats of the Masters of Wisdom
ROCKY MOUNTAIN RETREAT, WYOMING, U.S.A.
(December 15th, 1956 through January 14th, 1957)

In the beautiful Rocky Mountains in Wyoming, U.S.A, there is located the magnificent focus of the Temple of Precipitation into which, twice each year, are drawn the Cosmic Beings, Ascended Masters, angels and representatives from the elemental kingdom, as well as certain privileged chelas (who come in consciousness while their bodies sleep), all of whom counsel together to find ways and means of combining their energies, talents, gifts and powers for the blessing and forwarding of the progress of our dear Earth and its attendant evolutions.

After a brief spiritual "holiday" at Shamballa, where the sheaves (accomplishments of the year are reverently presented before the Lord of the World, the Hierarchs of the retreats and those particularly interested in the evolution of the Earth and its attendant life, prepare to enter the sacred walls of the Rocky Mountain Retreat. There, before the Great Karmic Board and the assembled Great White Brotherhood, they offer those ideas and plans which they feel could be of benefit to such evolutions in the coming year (1957).

As the interest of the chelas in these half-yearly councils has increased and greater numbers of unascended beings are attending these glorious conclaves (in their finer bodies during sleep), the original main council chamber has been augmented by seven lesser chambers which are used at these conclaves for the hospitality and comfort of the guests.

Long before the actual presentation of the petitions to the Karmic Board takes place, the Hierarchs of the retreats, the messengers from other systems, the representatives from the angelic and elemental kingdoms, as well as many of unascended mankind (in their finer bodies) are drawn toward this great focus of the Ascended Master Lanto. Wherever necessary, these are provided with individual council rooms. The scroll which these guests bring containing their petitions and ideas is then recorded by the Angel of Record and approved or disapproved, according to the directions of his superiors. If approved, this scroll is then posted upon the door of the council chamber to which its author has been assigned. Here posted on the door of his room, his petition is in full view for the perusal of all the visitors to the retreat and, if its contents stir an interest in the self-conscious intelligence so perusing it, that one is invited into that council chamber and given audience by the

Hierarch who is there (or his representative). This one willingly explains the further details of the divine plan. Then, such an individual (ascended or otherwise) may sign his or her name to the Scroll, thus offering his energies from whatever realm in which he abides, to help fulfill the divine plan in the coming year. All so signing will be called by the Hierarchy at the time of the presentation of the petition to the Karmic Board and that one, then, will have to be willing to accept responsibility for helping to fulfill this plan.

During this time there is a period of general counseling together and many a good constructive individual whose energies, talents, gifts and powers could not, alone, measure up to manifesting the fulfillment of the ambitious plans he has presented for approval, taken “under the wing” of some sponsor (Cosmic Being, Ascended Master or angel). This one either incorporates the sincere student's plan into that of his own or will offer to help that student to fulfill his own plan.

At this Conclave, the seven Council Chambers (each in the color of one of the seven rays of this system) are opened wide. The light golden-mesh curtains on which are depicted the Archangel and Archaii of each ray are so drawn back that the beautiful likeness of the Archangel and Archaii still remains visible.

The central chamber is equally visible to the seven antechambers, with the altar in the center around the base of which is depicted in delicate frieze the epic life of man upon the Earth. The first of these panels shows, of course, what part of the divine plan the Rocky Mountain Retreat actually played in Earth's evolution, as the beloved Archangel Michael, the Guardian Spirits and the Holy Innocents first touched the Earth at this spiritually strategic spot.

The altar of the central chamber is circular and a low golden screen rising above the base has allowed the Brothers and Sisters of Ceremonial to weave into the screen the beautiful green ivy and the golden lotus of China, Burma and other parts of the Eastern Hemisphere.

Upon the altar itself burns the concentrated Flame of Precipitation, a golden flame rising from the center of a base of bright Chinese green. Of course, at the time of the actual expansion of this flame (during the breathing activities of Transmission-Night and thereafter for that thirty-day period) this flame will extend North, East, South and West until it covers the planet round.

For the speaker who will present his petition to the Karmic Board, there is provided a raised platform made of a beautiful golden sub-

stance, studded with yellow diamonds. At either side of the Flame of Precipitation there is space allowed for the beloved Lanto and one of the sponsors for the year of 1957 (just which one has not yet been announced).

In the atmosphere above the Teton, the amphitheater of green jade-like substance will be created by the builders of form and the angels of ceremonial by December 15th. Above the amphitheater, in the inner atmosphere, the seven throne chairs for the Great Karmic Board will also be created, this year of the Chinese green substance, studded with pure white diamonds, in honor of the new sponsors for 1957, representing TRUTH and PURITY to the Earth. It is not known as yet exactly when the Great Karmic Board will all come together at the conclave, but we are told that from December 15th on, at least one such member will be available to any and all who desire counsel before the actual conclave formalities occur.

As there are many descriptions of this glorious retreat in your earlier "Journals," "Bulletins" and the "Transmission of the Flame" books, we refer you to these for further and more detailed descriptions. Just as when one describes a beautiful mountain scene or a lovely temple like the Taj Mahal, there are bound to be repetitions in further descriptions. Sometimes, in describing the Ascended Masters' Homes and Retreats, the students fall into the erroneous human thought that something constantly new to the intellectual consciousness is necessary to their spiritual progress. Be kindly reminded that the descriptions of the retreats are only a very small portion of the service rendered in allowing the students opportunity to visit those Retreats in consciousness.

Thus the students may absorb the feeling, reality and consciousness of those who have magnetized, sustained and radiated forth certain powers and gifts for the blessings of those who choose to avail themselves of these gifts while the retreat is open. A "storybook" is lovely for the relaxing of a tired mind but the main object of opening the retreats and inviting the consciousness of the students thereto (revealing a small portion of the activities taking place within them) is to increase the spiritual wealth of the individual lifestream as well as all the evolutions which are using the planet Earth as their home.

Hoping to greet you nightly (or by the day, if you choose to get still enough and come in consciousness) at Lanto's Rocky Mountain Retreat, I am your friend El Morya.

DEDICATION TO SERVICE
By Our Beloved Ascended Master
Jesus, The Christ

Sept. 2, 1956

Beloved Children of the one God! I bring to you today the Living Word which is my life, that word which also is the life of every Cosmic Being, Ascended Master and angel who brings to you their gifts of light from time to time. That word is a living part of their consciousness and very being. Does it continue to live in you after you have received it? What do you contribute to that Living Word given into your consciousness, your mind, your feelings, your flesh? Does that Living Word mean as much to you today (when to your physical eye-sight I seem invisible) as it did in the days when I spoke to you while wearing a flesh garment, so that your outer senses might have the comfort of form?

Think about this, beloved ones! Every bit of instruction, radiation and blessing transferred to an individual from an Ascended Being or even from a Teacher, Minister, Priest or Rabbi (Orthodox, Metaphysical or Occult) is a part of the very life of the Teacher entering into the world of the student. Thereafter, it either lives there, activated by joyous, buoyant acceptance, by mental remembrance in the process of application, by etheric vitalization of that instruction and by physical works, or, by lack of acceptance and attention, it is allowed to “go to seed” so to speak! Long ago, in some of my parables I spoke about the seed which was cast on shallow ground and on the rocks, in contrast to that which was cast into the good Earth, grew and brought forth a harvest.

I bring this to your remembrance this morning because our words are our life, containing our consciousness and our very selves, given in great spiritual generosity, according to the dispensation of the Cosmic Law. As at present, these great gifts are given to just a mere “handful” of people, hoping that those words will live in works well done, emotionally, mentally, etherically and physically.

Now, our particular activity of this month is to assist in the dissolving of the destructive etheric records and the emotional and mental scars on the etheric bodies, as well as the records of destructive experiences of the past which have been registered upon the physical brain structure and the flesh of the Jewish people. We have chosen this month (September) for this purpose because the attention of the Jewish people is focused on their great Holy Days during this time, releasing a great deal of their energies qualified with thought and feeling of

devotional worship of God, also, those who are sincere and earnest in the representation of that religion in their honoring of those Holy Days, form a natural magnet for the drawing from us and our realm of much more than ordinary protection and blessing.

Beloved ones, for the next few months we have mapped out a course of action through which we intend to send a specific purifying current of great power through the religions of the world and we began with the Jewish faith on last Thursday evening. This was so started not only because of the marvelous opportunity of more easily reaching those people through their attention upon the activities signified by their holy days, but also because, in the Near East, there is at present the clashing of the feelings of the people of the Mohammedan Religion and the people of the Jewish faith, together (I regret to have to say) with some members of the Christian faith as well.

Beginning with the month of October, we shall turn our attention in like service to the Mohammedans. Then, while the retreat at Shamballa is open and the great spiritual currents of the Buddha are more than ordinarily active in the East, we shall devote the month of November to the Buddhists. In December, when my humble presence is acknowledged by the attention of the masses of the people, we shall dedicate our energies to the purification of the Christian faith. So, to those of you who are hoping to settle down into a happy little "rest period," I personally regret having to bring you news of more service. However, in this activity, do not feel that you must become so very tense. As others of the Great Ones have told you, FIFTEEN MINUTES OF GOOD APPLICATION WHEN YOUR ENERGY IS FRESH, YOUR ATTENTION HELD FIRMLY UPON THE PERFECTION OF WHAT YOU WANT TO HAVE DONE AND YOUR FEELINGS OF FAITH AND ACCEPTANCE CHARGING INTO THAT, IS WORTH MANY HOURS OF RELEASING FIRED DISCOURAGED OR UNCERTAIN ENERGY.

So, dear hearts, as you enter with us into this service of purification, I want you to see this picture. We began this activity last Thursday evening and it has been expanding ever since. We established the double triangle representing the Star of David over and around this building (sanctuary) and then, continuing to use the energies of the builders of form, the Directors of the Forces of nature and the beings connected with ceremonial, we have now created a Star of David which is gigantic in size, so large that the Earth revolves within it and the Earth's axis forms a connection at either end with the inner part of that star.

Now, this star which has been so created is made up of pure white light, with a tremendous activity and radiation of Blue Flame outside that white light. The center of this Star of David is filled with Violet Fire. It is a living, breathing entity! It is not an individual being, but it is a created thought-form into which all of us (particularly every Avatar, Master, or the progenitor of the particular religion being purified) has poured and is continuing to pour our very life. It breathes thus: first, from the very center of the Earth (which is revolving within that Violet Fire in the middle of the star) is breathed out into the periphery of the star those destructive etheric records, thought and feeling forms particularly concerned with the Jewish Race.

Then, as these are drawn out through the Violet Fire, white light and Blue Flame, there is immediately breathed back into the place from whence they came, (right on the same current) the positive God-qualities and radiation of perfection from (in this case) the Great Being who was the main benefactor of the Jewish Race, the one whom you know as beloved Moses (today known as God Ling, God of Happiness). Others who have served that race through the ages are also giving their assistance here.

As we said above, this thought-form is breathing. It renders the same service which you give on the night of the Transmission of the Flame and what you should be doing daily in your individual breathing exercises. The activity of this thoughtform is that it breathes out into the Star of David (from the particular group we are purifying at the time) the discord and then it breathes back our substance into these people, qualified with protection and perfection. Beloved ones, in the outer consciousness, you have no concept of how deeply imbedded in the etheric body (memory world) are the experiences of both good and evil of the present and from the past. These are easily stirred into action whenever great pressures and cosmic tides of similar vibration move into, through and around the planet as they do during the time of the changing of the rays. This is now taking place when, because of cosmic progression, the time has arrived for the Sixth Ray (which has been the authority for the last 2000 years) to release such authority to the Seventh Ray. So, now that the new tremendous vitalizing radiation of the Seventh Ray is coming into action, those destructive etheric records (some of which have lain dormant for many, many hundreds of years) are brought to the surface. Coming into the conscious mind and entering the feelings of the lifestreams concerned, they sometimes bring with them very great bitterness and very great hatred, as well as (less often, however) the remembrance of great light.

It is to handle these that we are going to render this specific service now by this tremendous action of the Star of David described above. We shall sustain this activity of the star until the service is completed. Each month the Great Being who is the founder of the religion to be purified that month will take the authority of making the "count" for the rhythmic breath. Cosmically, beloved Virgo, Pelleur, Neptune, Aries, Astrea and all the Beings who represent the directors of the elemental kingdom are giving special assistance to us at this time because, naturally, the more impure substance which can be removed from the Earth, the more the Cosmic Christ Light can flow in to take its place.

Call On Law Of Forgiveness

Now, beloved ones, will you who are here today call with all your hearts, souls and spirits on the Law of Forgiveness for anything and everything which you may have contributed through the ages that are past, to the destructive karma which yet beats itself out upon the bodies and in the souls of human beings who are presently embodied in the Jewish Race? May I ask that, silently, right now while we are in your midst, you make that sincere heart-call, that all of life which you have injured and then all the life that has injured you, in or from this particular race and religion, (as you suffered martyrdom and various experiences of an unpleasant nature) be sublimated (refined by fire), transmuted and blessed, henceforth expressing only the perfection which God intended in the beginning. This is a ceremony of giving and receiving. It is a ceremony of grace!

Now, I ask you also to make the same call on the Law of Forgiveness for every other individual who belongs to that race (those who may not have touched your lifestream in any way), that they may be forgiven emotionally, mentally, etherically and physically for all that they have done that is wrong and all the wrong that has been done to them. Your call here will include a great many of those lifestreams who have passed out of their physical bodies because of terrific atrocities to those bodies in Russia, Siberia and Germany in recent years, as well as all the way back to the days of my own ministry. Some of these experiences also go back as far as the days of Moses, the sufferings by the people of Israel in Egypt and the rebellions and resentments that ensued out of the exodus of the Jews.

It goes back into the struggles between the Tribes of Israel for their rightful king and then all the iniquities of those kings and their

courts which followed. So, you are including a great army of lifestreams in this collective prayer. Many of such individuals are again in embodiment now and many more are soon to come. I think the greatest number to come into physical embodiment on the Earth this year (outside of the Buddhists) will be those of the Jewish Race. This is another reason why we are endeavoring to give this purification now so that, as these incoming children pass through the gates of birth, they will not have to take on the destructive karma of either commission or omission.

I do thank you for your willing assistance, beloved ones, and it would be well if you were to continue this daily until the service is completed for all the Religions we are endeavoring to help. You may hold the mental picture of the activity of the Star of David even as you are lying down to rest the body or while you are on your way to your places of business—just visualize the great star and see the Earth revolving within the Violet Fire in the center of that star. Visualize being drawn out of the bodies, minds and worlds of all in the Jewish Race (which we are purifying at this time) all destructive etheric records and impure substance.

See this done also for all those from that race who are not in embodiment at the present time, wherever they may be abiding in the inner realms. Then, as the thoughtform breathes in, try to see and feel the shadowed substance being replaced by the radiation from the beloved Moses whose quality is the feeling of God-happiness (the color of his flame is bright gold), as well as the pure Christ white light substance from myself, my beloved mother and all the other Great Ones who are assisting in this service.

Your Spiritual Vocation

Beloved ones, you are people who have a vocation and that vocation is a spiritual one! In other words, the immortal Threefold Flame of eternal truth within your heart made a vow to God and to certain Masters to perform a chosen service in this world of form. However, you do not have a vocation of the outer self as well, at least not completely—as yet. There is a difference, you see, and that is where your personal “Armageddon” comes in. In the fuller freedom of the inner levels, it is very easy for the immortal Threefold Flame of God – the immortal identity of you, to vow to assist, for instance, in a world movement like this of the beloved Saint Germain, but the outer self with its etheric memories, its mental concepts, its emotional tendencies, is not always wholly

cooperative with that spiritual vocation.

Now, to dedicate yourself and to really have a vocation of your outer self, you must persistently pursue the seven Steps of creation (or precipitation) which have been placed before you again and again:

First: You must be willing to do the WILL OF GOD in joyous humility.

Second: You must be willing to PERCEIVE how to do the will of God, that which he desires you to do—by listening for and hearing the “still small voice within” or from those of the Ascended Host who choose to assist you.

Third: You must have a willingness to learn to really LOVE God, the Ascended Host and the angels.

Fourth: YOU MUST BE WILLING TO BECOME ABSOLUTELY PURE IN MOTIVE. LET ME EMPHASIZE THAT AGAIN AND AGAIN. IT IS THE PURITY OF MOTIVE WHICH WILL DETERMINE THE EFFICACY OF YOUR WORKS.

Fifth: You must be willing to CONSECRATE your feelings. (Here is a place where you will have to watch yourself when you take step No. 5. If you were to give me your feelings this morning in a burst of enthusiasm and say: “Lord, these are Thine,” I should expect to keep them at the rate of vibratory action which is mine. Would you think it fair, then, to take them back and express through them the feelings of the outer self such as depressions or rage? Are you able to consecrate your feelings to me today with no reservations? I wouldn't answer that question, if I were you, until I had thought about it well, for if you were so to do, I should consider your feeling world my own.

If you were to give your mind to me today and say: “Lord, this mental body is thine, never, never again will I think of anything less than the same perfect concepts which fill your thoughts.” Could you then let your mental body lie within the compass of my thinking?

Were you to give your etheric body to me today and say: “Lord, here are all my memories. Transmute that which is not of light and keep the rest as a heritage.” Would you not be inclined to remember some grievance and take back the gift you had given me? Were you to give me your flesh body today and say: “Lord, without reservation this flesh body is thine.” Then, should I say: “We shall walk, then, the width of this great Continent (or its length),” would that flesh body still remain mine? When you make a sincere consecration which is part of a soul's vocation, it is ALL, dear heart, OR NOTHING!)

Sixth: You must be willing to stay and MINISTER to mankind long enough to finish the service you have vowed to give,

Seventh: You must be willing to believe in and desire to learn the most efficacious way of drawing the grace of heaven (INVOCATION) unto Earth.

Pin your soul against the wall, tonight, dear hearts, like the shadow of Peter Pan. See how much you are really giving and how much you are RESERVING! I say this only because the more you give us, honestly, without fear and without regrets, the more we can use you and the more quickly you become like us.

May all the blessings of the Most High Living God and the peace of the Eternal Father rest upon, be alive and active in and through you. May that day quickly come when your souls can humbly stand before whatever Master has sponsored you and make that surrender which will give to you the power of conducting all the radiation of that Master's presence into this world of form. Thank you, so much and Good morning!

THE MASTERS OF WISDOM SPEAK **SPIRITUAL REBIRTH**

MAHA CHOCHAN

Man's first spiritual birth is when he is created in the image and likeness of God out of the very heart of the Father-Mother God and unto him is then given all the powers of his God-parents. This first spiritual birth created what is known as the I AM Presence, the divine Archetype. Even as in the nature kingdom the pattern of the oak is created before the acorn, so is the divine man created before the physical man. The "re-birth" referred to by beloved Jesus takes place when the divine pattern of the lifestream is fully externalized through the outer personal self, even as the oak tree is externalized through the acorn. Both follow the same Law.

EL MORYA

It is the Father's will that every man shall know, experience and externalize the powers, gifts and manifest expressions of good which exist in what is called "the kingdom of heaven." It is our service to life

to awaken a desire within man to want to experience this awakening, to want to know the Law by which this manifest expression can come into being and then to set that Law into action so that the resultant expressions of good of every description can flow through him, not only for his personal blessing but also for the blessing of the evolution to which he is presently attuned.

KUTHUMI

The “second birth” which so confused the outer mind of Nicodemus, refers not to the physical body but to the spiritual nature of the individual. Through the course of many ages, the personality has forgotten much of the spiritual nature and today's manifest expressions of limitation, distress, decay and even “death” itself, are the result of such forgetfulness of the divine heritage of each lifestream as a true son or daughter of God. It is the service of the Second Ray to bring to the outer consciousness of each individual a realization that this “second birth” is spiritual, then to bring a deep abiding desire within each one to cultivate the qualities of God which lie dormant within the immortal Three-fold Flame of Truth which lives within each heart and which qualities can and must be cognized and manifested in the world of form.

PAUL, THE VENETIAN MASTER

The Brothers and Sisters of the Third Ray are particularly interested in this “second birth.” It is by the divine love, interest, tolerance and encouragement released by those from our realm that the talents, spiritual gifts and powers which lie dormant within the hearts of unascended mankind, are nurtured and developed. To all Earth's evolutions everywhere on the planet, we constantly endeavor to radiate that divine love (which is an actual substance) to encourage the externalization of the God-nature, so long forgotten by mankind.

SERAPIS BEY

THE “SECOND BIRTH” by which an unascended being can and, in compliance with Cosmic Law, DOES EXTERNALIZE THE PERFECTION OF HIS OWN INDIVIDUALIZED I AM PRESENCE, was the mission so beautifully manifested through the last Earth life of our beloved Master Jesus.

When individuals come to us at Luxor, we are privileged to look upon the perfection of their own individual divine pattern as well as the distortions which have been created by their own destructive use of

free-will all through the ages. Then come the necessary disciplines of the personality required to sublimate the distorted creations and the encouragement of the expression of the individual's true reason for being. Every man is a potential Christ! Some lifestreams have active within them the desire and illumined obedience required to be able to manifest that Christ nature right here in the physical appearance world where such example is so necessary to hold before the attention of mankind.

Others refuse to accept that their imperfections were created only by the personal self and they also refuse to give the necessary obedience to divine Law by which they can become that Christ in action! We welcome the “few” desirous of becoming the manifest expression of their own divinity (the individualized I AM Presence). To these “few” we dedicate our lives and service. Some day, all shall want to experience this transformation. Until then, we wait-in patience and in love!

HILARION

The science of consciously creating the divine nature through the emotional, mental and etheric bodies of unascended beings is our province to teach to those interested in developing their natural expression of divinity once again. This science, when properly studied and applied, does create the Christ-man manifest on Earth, even as the beloved Master Jesus did. The requirement of the hour is to have such Christ men and women walking the Earth, able, as Jesus was to accomplish all the feats of mastery over substance, energy and vibration. Such Christ-like individuals are the living example of practical love! Believe me, I had to learn this lesson for, once, long ago I lived by the letter of the Law rather than by the spirit and this very same Jesus whom we particularly honor at the Christmas Season, taught me the spirit of the Law, LOVE!

JESUS

When one is unhampered by the “veil” of maya, it is easy to look upon the divine Image (individualized I AM Presence) and pledge one's soul to externalizing that perfection on Earth. I was but one who made such a pledge and vow! Through the kindness and loving co-operation of my beloved mother (Mary), my Father (St.Joseph), the angelic host and many individuals who are as yet unascended, I was enabled to manifest my own divine pattern right here, in the physical appearance

world and through that give certain inspiration, hope, healing and strength to the spiritual as well as the physical selves of mankind. I am making the call now that others among you, who have made a like vow to externalize the Christ, may have the strength, the love, the constancy and the assistance from ascended and unascended friends alike to manifest that mastery. Long ago I said: "The things that I have done shall ye do also and greater things than these shall ye do..." and every word of this promise shall yet be fulfilled!

SAINT GERMAIN

I was privileged to be a very small part of the founding of the Christian Era. I would like to point out that the presence, love, guardianship and counsel of the angelic kingdom (from the time of the conception through the ascension of the beloved Jesus), helped us then to fulfill our mission. In the New Age, the angelic host will again come to the foreground of the attention of mankind. One of the services of the Seventh Ray is to unite again the three great kingdoms destined to fulfill their divine plan upon the Earth, the angelic kingdom, the human race and the elemental kingdom. Acceptance of the reality of the angels and their power of radiation does so much for the individual who truly seeks to develop his divine nature and experience the spiritual rebirth ("second birth") of which beloved Jesus spoke.

The very nature of the angels is loving, willing, joyous co-operation with God and the radiation which flows from the auras of the angels is an actual substance, a quality and a power which can and does miraculously assist the individual who, consciously, will invite and invoke their presence. I live for the day when the "veil" of unbelief is removed from the outer consciousness of the masses so that they can see for themselves the splendor, the beauty and the glory of the angelic kingdom, hear their voices raised constantly in Hosannas unto God and willingly take the hands of the angels in a spiritual partnership which will resuscitate this Earth! This day comes! Let it be soon!

THE WATER ELEMENT

By Beloved Neptune

(Second address of the Autumn Class, 1956)

September 28th, 1956

Beloved ones! I greet you today in the name of the Universal I AM Presence and the beloved Helios and Vesta (God and Goddess of our physical Sun, representing respectively the divine qualities of illumination and truth) whose summons I answered, offering the fully-gathered cosmic momentum of my lifestream, together with that of beloved Lunara (my twin-flame) and all the undines at our command. We offered to create and sustain the substance of the water element upon the planet Earth.

Each of the Directors of the Forces of the Elements had received, through aeons of time, opportunity to develop the power of precipitating certain substance, as well as the power to control that substance and those Beings offered to serve with us wheresoever we chose to offer our services. Other Great Intelligences also responded to the call of Helios and Vesta for the service of creating the water element for the Earth but, because of certain momentums and affinities in our lifestreams, beloved Lunara and myself were chosen to create and govern the water element which forms a cushion for the landed surface of this planet. It also makes up the greater part of your physical and emotional bodies as well.

All mastery requires the conscious control of the rate of vibratory action of each electron which is to be used for a specific purpose. Thus, to create the substance which you know as WATER, it was necessary for us to have learned how to consciously use our creative power of thought (making the substance of the water) and our power of feeling to sustain the harmonious quality of that substance and the Beings who work with and through that Element.

The vibratory action of substance required for the Water Element of the Earth at the time of creation was much more rapid than it is today. The waters of the beautiful oceans, lakes and rivers then were crystalline and iridescent. The waters literally “sang” and added to the music of Earth’s beautiful atmosphere. The undines were happy to serve in such a beautiful element and, truly, all was PEACE in the kingdom in which we served. At that time the people of the Earth loved the water and enjoyed its purifying and refreshing service, as well as sailing happily upon its surface. In turn, the undines and the electrons that made up the Water Element loved mankind and enjoyed serving them.

Because the emotional bodies of mankind were happy, reverent, pure and free of discord, the people moved effortlessly upon the Earth, there being no weight of misqualified energy around the electrons in their four lower bodies, particularly in their emotional worlds. It was truly an Era of contentment and peace in the loving association among angels, Masters, the mankind of Earth and the elemental kingdom. It is toward the re-establishment of this Era permanently that we are all now serving co-operatively in this cosmic “push” toward purification of all of the elements of the Earth.

Make Friends with the Water Element

After the pollution of the consciousness of mankind through the coming of the “laggards” from other Stars, it was necessary for the Directors of each Element to lower the vibratory action of that Element so that it might be efficacious to the more slowly vibrating action of Earth's people. This required the mastery of which I just spoke, changing the rate of the vibration of the electrons and atoms in the water element, but still keeping them harmonious, even as the slow, graceful rhythm of the waltz is just as harmonious as the rapid swirling rhythms of the great salamanders and sylphs whose dances are an expression of praise to God just for the very gift and use of life itself! Although the substance of the various elements had been consciously conformed to the use of the ever-densening bodies of the people of Earth, the actual pollution of the elements of air, water and earth was effected by the very people who were guests upon this planet!

Then the control of the undines, the natural obedience of the water element in the rise and fall of the tides, etc. took much greater power upon our parts. Natural rebellions arose among them from the unnecessary pollution of the water element and only great patience and Herculean God-control kept the waters of the Earth from engulfing the ungrateful masses.

Only at times when Cosmic Law ordained the necessity for cataclysmic activity wherein landed surface should be mercifully sink beneath the seas for purification, did we allow freedom to the water element to spread its curtain of purifying substance over polluted land.

We, too, are obedient to Cosmic Law and act only upon divine direction! We, too, draw forth from the one source whatever specific powers are required to serve in the element in which we offered to assist life. Water is ordained by the God of all as a friend to man. Is man

such a friend to the water element? Ponder upon this!

As the beloved Astrea and the beloved Elohim of Purity told you last evening, mankind's use of the various Elements to serve a destructive purpose always brings a recoil upon the personal self. The Law of cause and its ultimate effect upon its creator is inexorable, except where expiation of the cause and the effect can be invoked and utilized by those who love their fellow-man enough to consciously call for this expiation.

Beloved ones, many atrocities have been committed by the mankind of Earth using the Water Element to extinguish life (through drownings, etc.) not only of human beings, but of animals as well. Many lifestreams have participated in wars wherein many ships were sunk and great numbers of people passed from the body in excruciating fear and suffering. These records are still within the etheric and emotional bodies of those now in embodiment here, as well as within the inner vehicles of many yet to be born here. Fear of the water element is due to either having suffered shipwreck and drowning, or having participated in causing others to suffer such agonizing experiences. In certain specific places where many ships have been wrecked, the ethers are filled with the moans and cries of those who have long since passed into happier lives and, mercifully, no longer remember those tragedies. These destructive etheric records form vortices of distress in which hurricanes, typhoons and dreadful storms are born.

What think you of the etheric substance which vibrates in the atmosphere around the location of the sinking of the one ship alone, the Lusitania, not to mention the many other places where the tides, hidden sand bars or rocky peninsulas have formed snares for the unwary seamen? The use of the hidden mines and the submarine warfare in your present day has also heavily charged the etheric substance around the planet Earth with great distress, besides the many other tragedies of the seas in ages past.

You see, in cataclysmic action ordained by divine Law, some of the priesthood voluntarily offered to absorb into themselves and dissolve by their knowledge and use of the Violet Fire, much of the general fear of the people. However, where there are deliberate acts of human cruelty, these vortices of distress remain to be purified by some of mankind who are willing so to do by their knowledge and use of the Violet Transmuting Flame.

Call On Law Of Forgiveness

Will you please pause here and call for the cosmic removal of all mass etheric records of distress caused by the misuse of the water element by all mankind since the “fall of man?”

Then, please call on the Law of Forgiveness for every individual who has consciously or unconsciously used the water element destructively. This includes many lifestreams who will have to embody on this Earth in the future.

Some of the undines, too, (like the salamanders), have been invoked and used for destructive purposes and these are often attached to the lifestream of such an individual who has so invoked them. In this case the elemental has become the master instead of the servant of such an individual, spurring that lifestream on to continue his practices of cruelty in the use of the water element. Call now that every such undine be purified by the Sacred Fire and cut free from the desire to torment mankind ever again.

(Audience arose here and gave requested decrees, using the “Forgiveness” decree which you have in last month's “Bridge” and the call to mighty Astrea, the decree form of which you have, asking her to lock her Cosmic Circle and Sword of Blue Flame in, through and around the cause and core of these destructive activities.)

What do you suppose the “Lorelei” spoken of by Homer really were? They were undines bent on destruction, mischievously affected by their proximity to mankind's destructive impulses. (Like the salamanders, some of the undines are very small in size while others, producing the great waves in a storm at sea, are sometimes eighty or more feet tall!)

The emotional bodies of the people will find much relief from discomfort as the students continue to call upon the Law of Forgiveness for the misuse of the water element. Bless that Element consciously daily and accept the offer of its cooperation now in establishing our beloved Saint Germain's permanent Golden Age upon this Earth.

As you continue this practice, the water element in your own physical bodies will also be purified and much of the distress of the physical vehicles (especially that caused by excess water in the system) will be removed. We are ready! We are willing! We are standing by, just awaiting your calls to assist you!

DELIBERATELY AND CONSCIOUSLY MAKE FRIENDS WITH THE WATER

ELEMENT IN YOUR ENVIRONMENT. See how the undines and the electrons within the substance of water will respond to your love! Jesus was able to master the water element and it obeyed him lovingly, willingly and instantly because he had first mastered the water element in his own world.

The excessive droughts, the flash-floods, the unequal distribution of the precipitation of water in various places, is due to mankind's abuse of the water element in the past and present. All this can be remedied by your loving cooperation now. Beloved Lunara and I have worked almost alone in this endeavor heretofore, now I say to you as Jesus once said: "Hitherto the Father worketh, now the Father and I work."

The creatures of the deep such as the octopus, shark, killer whale (to mention but a few) have all developed their defense mechanisms as a result of their having contacted the "killer instincts" in mankind's outer consciousness. As you continue to call for the purification of the water element and the redemption of these creatures, you will see them disappear from the ocean depths. It is a marvel to me to see how many defenseless creatures on land and in the sea hunted by mankind have not developed a greater antipathy toward the human race and submit helplessly to the unnecessary slaughter, just for "sport." However, those creatures so hunted really retrogress and, in each succeeding embodiment, carry more and more of a destructive and vindictive nature within themselves. Were it not for our endeavors and the great assistance of the Elohim of Purity, Astrea and the beings of the Violet Fire, many of the pre-historic monsters mentioned in legend and fable would still be a threat to those sailing the seas, both for pleasure and for business purposes.

Man should not fear the seas and the great waterways provided by life for his blessing, nor should the water element and its inhabitants fear man! It is to remove the causes and cores of this fear that we are working during this four-day class.

In such places as New Bedford (Mass.), once a "whaling center," as well as in smaller fishing towns where in the past men made (and today still make) a practice of "following the sea" for a living, the inner atmosphere of those places is filled with destructive etheric records of the fear and sorrow of the sweethearts, wives, mothers and children who have lived in those places and have had the experiences of losing their loved ones to the sea. The removal of all such destructive etheric records and the purification of all such places is absolutely essential to

the preparation for the coming here of the new race to give them purer landed surface and atmosphere in which to live so that they will not have to “tune in” in the future to those records of distress of the past and present.

Willingness To Serve

I am speaking very plainly to you tonight! There are some who, (like the ostrich with his head in the sand) do not like the discomfort of hearing the actual facts as they exist which caused the distresses that plague the race, now and in time to come. There are some who prefer to dwell “on the side of perfection,” stating blissfully that “everything will come out fine.” Surely, it will, but someone has to be willing to make the calls to remove the causes and cores of the distressing appearances so that those effects may quickly disappear, then by decree set up new causes which will result in effects of perfection! If you do not want to know what the distressing conditions or appearances are or what caused them, you will be of little assistance to us in removing their causes and cores. However, if you are strong and intelligent enough to want to know, we will tell you. The fiat of the hour is PURITY AND TRUTH! To the “few” who desire TRUTH and who are willing to lovingly co operate with the necessary applications to bring about PURITY, we shall continue to come. Others will later enjoy the fruits of your labors and self-righteously say: See? We knew it would come out fine” but they will refuse to accept that the calls which have been made by the “few” have brought about the perfection they desire. So, be not disappointed if you find a lack of gratitude among the masses of the people and even among students of Spiritual Law.

Serve just for the joy of serving, with your minds and hearts open to our guidance and, one day, when the Earth is established as a planet of purity and peace and the waters of the Earth are again a blessed comfort to mankind, you will know that you have played an important part in this service, also, in playing such a part, you are not only gaining your own mastery and victory but you are redeeming too much of your own energies which, in the past, have been charged into the various malpractices of embodiments long since forgotten. If you choose to call to me for personal assistance as I have described it above, I, in turn, shall help you with your own emotional purification which will bring you PEACE.

MONTHLY LETTER TO TRANSMISSION CLASSES

December 15, 1956

Beloved Friends Desirous Of Assisting In Earth's Evolution!

I bless you for this heart-desire! It has drawn you out from the mass mind and placed you upon the spiritual path. This desire has magnetized hosts of Divine Beings who are assisting you at this time in the development of those ideas, plans, visions and patterns which will benefit the entire human race.

Again we prepare for the great conclave at the Rocky Mountain Retreat. Through your interest and works, we have been able to draw aside the "veil" sufficiently for you to be able to know, understand and co operate with the work of the Great White Brotherhood. Remember, beloved ones, if there is merit in the plan or design which you present to the Karmic Board and that plan fits in with the activity of the divine thoughtform for next year as lowered from the heart of the Silent Watcher into the upreaching consciousness of Lord Gautama (the new Lord of the World), you will have every assistance from our octave which is possible to be given, to help you sustain and expand your idea and plan until it is a manifest and practical blessing in this physical appearance world. Let me commend you on your sincere love for the Great Karmic Board! They are so appreciative of your love for them. Now, as we all prepare to expand the precipitating power of beloved Lanto's flame throughout the world, accept it for yourselves and your fellow-man. Precipitation is a natural activity of your being! A holy Christmas tide to you, children of my heart!—MAHA CHOCHAN

Statement for the Transmission Flame Class of December 18:

Hierarch: Beloved Lanto. Color: Chinese-Green. Musical Keynote: "Oh Thou Sublime Sweet Evening Star."

ADDRESS BY ASCENDED MASTER EL MORYA

I think perhaps you do not realize (even when there is not an Ascended Master address given at the meeting) how long in advance of your coming to that class you are prepared emotionally, mentally, etherically and physically, so that you may be in a state of grace and desirous of giving the most efficient attention and service through the outer self at that class. This preparation is always given you by some angelic being who has accepted the definite charge of purifying your atmosphere and bringing you into a state of comparative peace. This is so important because if either the feelings or the mind are in turmoil and the physical body distressed in some way, there is very little of our words which registers in the outer consciousness.

As the beloved Lord Maitreya (our NEW Buddha) said to you some-time ago—it is the outer consciousness which we must reach and to which we speak at this time, the divine Self of you is already free! So, it is the persuasion of the outer self that is needed, the bringing of this outer self to a point of willing, sustained endeavor which requires all the energies we can devote from our Side. From your side (messengers, sanctuary and group directors, field workers) it requires all of your energy, patience, love and light to sustain the interest of the people in the service of the Cosmic Law.

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
with the Great White Brotherhood and Cooperative World Service

JANUARY 1957

TO THE BELOVED SPIRIT OF 1957

GREETINGS AND BLESSINGS TO YOU! As yet not one ounce of energy has been written into your etheric garments. You stand in hopeful anticipation, awaiting the contributions of all the evolutions on the Earth, in the Earth and in its atmosphere! We decree that all who use the sacred energy of life in 1957 shall allow that energy to co-operate with the spirits of truth and purity and make of 1957 a year of glorious God accomplishment for mankind, imprisoned angels and elemental life! At the close of 1957, you shall return to the Father of all Life, the universal I AM Presence, with garments white as snow.

To our gentle readers who are actively interested in bringing the Earth back to its pristine purity and perfection, we decree a year when vision shall become manifest fact, when the hopes in the hearts of earnest chelas shall become expressed manifestation of the proper use of the Cosmic Law through purified vehicles of creation!

We decree for our gentle readers a year of God-victorious accomplishment, combining faith, hope and love, actually manifesting the Law, so that their own worlds are filled with all that is required for personal and cosmic service. We also decree that they stand forth, right here in the physical appearance world, Christ-victorious men and women— an example of a life well-lived—an inspiration to the masses to make like accomplishment.

To all we say—a Happy New Year, filled with an increasing understanding of the Cosmic Law and the necessary cooperation with the Law in its use, for their own betterment and for the redemption of our Earth.

Thomas Printz, Editor

The Homes and Retreats of the Masters of Wisdom
(January 15th through February 14th, 1957)

The description of the retreat for this period will be mimeographed as soon as we receive it and mailed to you separately. Thank you, gentle reader, for your patient and understanding hearts!)

HOW TO MITIGATE A CRISIS
By Beloved Saint Germain

March 31, 1956

Beloved Friends of Freedom, you who, among all the human race, have chosen to have faith and confidence in me, do you know how deep is my heart's gratitude for an opportunity to convey personally to you my thanks for that magnificent faith and capacity to "keep on keeping on" against almost insurmountable odds, handling your own personal returning karma, the national and race karma, as well as certain planetary karma, all of which you freely and voluntarily agreed to help to transmute when you became a focus for the activities of the Seventh Ray in an embodied form.

No matter to what ray you primarily belong, through the kindness of your interest in my new Golden Age, you have become, and have had anchored within your auras, a tremendous concentrate of that Violet Fire and Freedom Ray. For that reason, there is much of God's life which has been bound, imperfect and impure which, through the wisdom of your own Holy Christ Self (according to your personal application) is directed toward you and your world for transmutation and returned to the heart of the Sun for re-polarization.

Where else shall such energy go except to focuses of the Violet Fire, embodied in lifestreams who are walking the planet Earth? These are not always outwardly aware that, in their very recognition, acceptance and voluntary consecration of their lifestreams to the freeing of mankind, that such impacts of discordantly qualified energy upon their worlds are just a part of the obligation of representing the Freedom Flame upon the planet Earth. Then there manifests in the world of the chela, feelings of self-pity, self-depreciation and the various depressing thoughts and feelings which "bog down" the outer consciousness. At such times the chela often feels that he is not manifesting the full Christ perfection as he should or as does even the ordinary "good Christian man or woman!"

Beloved friends, in the days of Atlantis, on the Continent of Lemuria, in Egypt and in other places where the Sacred Fire had been magnetized and drawn through the veil of human consciousness, visibly and tangibly present upon the various temple altars, it was not unusual for people to come from far, far countries to those focuses of the Sacred Fire and there, bringing with them certain distressing karmas, find complete freedom in the power of transmutation (Violet Flame), not only individually, but for their loved ones, environments and nations.

So now, each one of you, as you move in your personal orbits, is a "Temple of the Sacred Fire" for the present, until there come into being in a future day (which may be beyond that of your present physical embodiment) those Sacred Fire Temples again, until the incoming generations which we are endeavoring to prepare for such service, are ready to live in the seclusion, constancy and dedication to the magnetization and sustenance of the powers of the Sacred Fire in this physical appearance world. However, until that time arrives, your own physical heart is that focus of the Sacred Fire and you, individually (as well as in your group activities) are the Temples of the Violet Fire of Mercy, Compassion, Forgiveness, Transmutation and Divine Alchemy.

Successful Use Of Violet Fire — A Science

For many, many ages prior to my own victory, I pondered upon and contemplated God's gift of mercy to all and endeavored in each embodiment (as well as between embodiments) to learn the science and efficacy of the divine alchemy which would change and raise the vibratory action of energy. As you have been told (and which does bear repetition) in time, this qualified me to be able to take upon myself the responsibilities and activities of the Seventh Ray as its Chohan. This divine alchemy is a real science, just as much so as any science of electronics in the outer world today. It is not something which works in a haphazard manner! You are in an age of experimentation. You now stand much as I did in those embodiments previous to my ascension, when I, too, was experimenting with various combinations of thought, feeling and spoken word in decrees.

You are in a period of transition at this time, transition in your personal lives, world transition and then, in a very few short years, you will be in a period of planetary transition as well. These periods of "world change" always cause feelings of unrest in the emotional and mental bodies of the masses of the people, as well as stirring up a great sense of fear in their flesh bodies and etheric consciousnesses.

Without being told, you know the people's tremendous fear of the various bombs, the "atom" bomb, the "hydrogen" bomb, cataclysmic disturbances, floods, hurricanes and other destructive actions of nature. Throughout many embodiments, you, yourselves, have experienced some of these cataclysmic activities in the past, you have been on continents which have sunk beneath the surface of the sea and, sometimes you have been among the few who carried the Sacred Fire safely (from the sinking continent) to another part of the globe, but even then you felt the rocking of the Earth as the sea claimed its own (temporarily) for purification.

Because you are now in this period of transition, because you have different momentums of energy gathered within your Causal Bodies, because you are different personalities and types and belong to different rays, we could not expect to have a complete unity and harmony of expression at this time. However, let us allow ourselves to be pliable enough to at least experiment until we have arrived at some efficacious method of application which cannot be confuted for, the moment such efficacious method of application has been found, you will have your manifestation result thereof. In other words when properly applied, the Violet Fire will produce instantaneous perfection for you!

Be Stabilized, But Pliable

Remember always, dear hearts, to keep yourselves both centered and poised within your own heart-flame, stabilized therein, yet pliable enough to act quickly in emergencies and unexpected changes. If you are not pliable, you will be broken as the tree which does not bend before the wind. THERE ARE CERTAIN COSMIC AND PLANETARY CHANGES OF WHICH EVEN WE DO NOT KNOW IN ADVANCE, but, if you were to look upon the universe, you would see that the entire galaxy is in constant motion. As it progresses along its path around the Central Sun, the Earth sometimes comes under certain beneficent radiations which can be consciously drawn here on a moment's notice for the blessing of the planet and her people. These radiations are drawn by the calls of those gathered together in the "Upper Chamber" (as it were) , by students who are dedicated to our service, whose physical bodies are rested, their mental bodies alert, their emotional bodies stable and their etheric bodies purified.

However, in such cosmic moments, sometimes we, ourselves, do not have more than five minutes' notice of such an opportunity. Then, if the student body is not pliable and ready to be called together at

once (changing their set routines and patterns of living) such constructive blessing is lost so far as the Earth and her people are concerned, because the student body was not pliable enough at that time to be used as a good “conductor” for the radiation.

For instance, take the ordinary example of your recent floods in the Eastern States and the storm conditions which arose unexpectedly. It is just good common sense, (and certainly the part of wisdom) for any one who has taken on the obligation and responsibility of a sanctuary or group of this activity, to gather together and prepare a dedicated and consecrated number of willing lifestreams who can and will, at the moment when the crisis arises, go into action collectively as soon as possible. IF FOR ANY REASON SUCH COLLECTIVE ACTION SEEMS NOT TO BE POSSIBLE, THEN PERSONALLY BE SURE TO HAVE A SET OF APPROPRIATE DECREES RIGHT AT HAND (BETTER STILL TO HAVE IT IN YOUR MEMORY, although some people do not easily memorize). THEN PERSONALLY GO INTO ACTION WITH THOSE DECREES FOR THE AVERTING OF DISASTER.

Be Ready! Your Help Will Be Needed

THROUGH THE COMING OF GREAT WORLD CHANGES, WE COME INTO STRANGE DAYS NOW, WHEN GREAT NUMBERS OF PEOPLE MAY BE IN DISTRESS. THEY WILL NEED YOUR CALLS TO SET INTO ACTION THE TRANSMUTING POWERS OF THE VIOLET FIRE WHICH YOU HAVE BEEN PREPARED TO CALL FORTH. Bless your dear hearts! You are now, and have been for many years, (through your devotion to my Violet Flame) transmuting much more discordantly qualified energy than you know, much that does not even belong to yourselves. So, straighten your shoulders and raise your head in the dignity of Gods and Goddesses of Freedom, realizing that if the so-called “sinister force” does make an inroad into your world, emotionally, mentally, etherically or physically, it may not necessarily be your own. It is just destructively qualified energy coming into the Violet Fire for redemption.

Let us learn to live above the tensions which plague the consciousness of the people of the world. There is no way for you to survive as a spiritual movement or even as a spiritual group, if you live below what I have chosen to call “the waterline,” where there is fear, all sorts of distress, intolerance, hate, anger, rebellion and jealousy. If you do, you are then a part of the “mass creation” and the “mass mind,” you are in the bottom of the “pit” of human creation, instead of dropping a rope (our instruction) to those below you, by which you can raise them (by

their acceptance) out of the darkness of human iniquity into “The Light of God that Never Fails!”

In this great and magnificent city of New York, you have a tremendous opportunity to raise and free life because of the very pressures of so many millions of lifestreams living here. Nearly all come this way with one desire within their hearts and that is to find expression for their particular talents and their particular developed momentums, or, through proximity to great numbers of people, to earn their living. These millions of souls all gathered here know very little, if anything, of the Law of Mercy and Compassion and know practically nothing of the activities of the Seventh Ray. So, in this city, in Philadelphia and all other cities, countries and nations all over the world where there are those fortunate lifestreams who know of the Sacred Fire and how to call its Violet Flame into action-these have the joy, responsibility and opportunity of setting their fellowman free through its use.

Never Limit Your Presence!

Now, as the beloved Mary said to you recently (and it cannot be repeated to you too often) DO NOT LIMIT THE POWERS OF YOUR I AM PRESENCE! Please, beloved ones, become re-acquainted with that glorious Presence of you which I choose to call “The Magic Presence,” because of its wonderful omnipotent power and its willingness to act to and through you at all times. Personally, you could not possibly even attempt to rehabilitate the entire human race, the three and one half billions who are already in embodiment, besides those billions who are awaiting physical embodiment here, all those who have been released from the “Compound” who are now working out their salvation in the various temples and spheres at inner levels. No! Of course not! But your Presence can!! Your infinite, individualized I AM Presence has sustained you for aeons of time. Then, as was described to you some time ago by the beloved Lord Maitreya (see February 1956 “Bridge”), when the outer consciousness voluntarily disconnected itself from the conscious contact with that Presence, the I AM Presence continued in graciousness and kindness to keep pouring its stream of light and life energy (the “silver cord”) into your physical heart to sustain your outer consciousness and give you the use of intelligence, emotional feeling, power of thought, memory and power of physical action.

Your Presence and mine are not limited in any way! Your Presence and mine are ONE in action, in glorious PERFECTION, and that Pres-

ence, which is ALL-KNOWING, is capable of instantly directing from itself a million or a billion rays of transcendent blazing light into whatever condition, place or person requires assistance. Therefore, can you not, with all humility, realize that the outer self, as Jesus said, is nothing? Will you not raise your deep and sincere attention to that Presence and make it feel that, for once, you desire to work consciously with it again?

Then, that Presence will turn its attention to you, the stream of light (your “Silver Cord”) will permanently widen and your capacity to serve will increase by that renewed partnership. From the heart of that Presence then, you can direct those mighty rays of intelligent light (within which is the Violet Fire of Transmutation) to all of the life everywhere which you ever may have injured or which may have injured you, from the time that the shadows of human creation first began to fall upon this dear Earth. Do you know that your Presence can locate in the Ascension Temples or in any realm (wherever they are now abiding) any lifestream which you may have harmed at some time, whether they are in embodiment here now or not? That Presence can and will (at your call) gladly balance that debt for you in one hour, perhaps in just one moment!

Beloved ones, in the Sacred Heart Temple, among those who are going to take embodiment here during the coming year, who are going to stand before the beloved Mother Mary for the formation of their hearts, do you know how many of these have karma of an extra weight because, in some embodiment, you caused them to have the feelings of despair, discouragement, rebellion or resentment, and that soul who is waiting to embody, carries certain etheric scars of distress, put there by past association with your lifestream? Think about it!! Then think what your Presence—in its unlimited capacities (by releasing its infinite powers of light and love) can do to make a balance to life for you at your call!

Incidentally, those of you who have four-footed creatures as pets or are associated with them in other ways, have you ever thought that perhaps you are paying back through them a service to life to balance previous actions, when, in the past, in self-righteous and zealous enthusiasm, you offered animals upon sacrificial altars, as well as bird and human life?

Oh, there is much that you do not know! Fortunately, there is a veil of mercy between the conscious mind and certain etheric memories and that veil is drawn apart very slowly from time to time because a

quite sane man has been known to go completely mad just by looking upon the “Dweller on the Threshold” as the human creation of his own lifestream is sometimes called. There is again the balance, it is really a razor's edge! On the one hand, we have the complacent type of individual who feels that everything will come out all right and there is no need to do anything about it. Then, we have the over-tense one, so eager and desirous of rendering the service (whether it be individual, planetary or cosmic) that he becomes so tense that the vibratory action of the Presence cannot flow through him. There is great balance and relaxation in a complete alertness to the reality of that Presence, to the reality of ourselves and to the capacity of the presence or ourselves to act through the Causal Body, directing our radiation and blessing at your call.

In my life as Francis Bacon, I had come upon certain understanding of the Law of Re-embodiment which interested me deeply. I was a great reader and, during the various temporary incarcerations in that embodiment, I had much time at my disposal. I became interested in the idea of my own past embodiments and as I read about certain historical characters, they deeply touched me, etherically. Feeling that perhaps I had some connection with these lifestreams in the past, I began to practice releasing the power of the presence to pay whatever personal debts I might owe to those lifestreams, even though I could not tell where they were abiding at that moment, whether they were disembodied, in embodiment, or in the “Compound,” whether they were awaiting embodiment in the Sacred Heart Temple or whether they were my next-door neighbors. That was not important!

One day, however, before my ascension, while in deep contemplation of the Presence and its Violet Fire of Mercy, Forgiveness and Transmutation, my inner sight was opened and I had a glimpse of a farmer walking through a field, sowing seed. This man was heavy-hearted and his head was bowed. Suddenly, I saw a light ray from my Presence go forth, within which was the Violet Fire. It blazed around that individual, instantly transmuting the cause of his distress, for which cause I had been responsible, at one time or another. Thus was paid the particular debt which I owed that lifestream. Then, that individual raised his head, free of that burden and actually ran laughing toward the farmhouse! Now, that person never knew from whence his release came. I did not even know the name of that man, but I knew that his burden was lightened and that at least some part of my karmic debt had been paid. Interesting—if you care to develop it!

Balance Required Between All Extremes

There are many aspects and uses of the Great Law which are in-

teresting if one cares to think about and develop them. One must always remember to stay within the balance between indifference and over-conscientiousness, between pliability and stability, between every extreme which I could continue to elaborate upon this morning, between over-confidence and self-depreciation, between personal dignity and pride, between humility and self-abasement. That balance is really a razor's edge! The natural dignity of the embodied men and women who truly represent freedom is expressed by their words, their works and their lives and by their walking humbly with their God.

It is always joyous for me when I am given opportunity to speak to you, even briefly and it is a happy and rewarding time for you, too, because, when I come closer than ordinary to you like this, I bring within the radiance of my Being and into your atmosphere and world, a much greater concentrate of that Sacred Fire of Mercy which I have loved and served so long. I have always said, you know, and I wrote it into the plays which seem to please the people (as "Shakespeare") that "the quality of mercy is not strained." Mercy is so magnificent! Oh, my God! If every man, woman and child, animal and elemental had to balance every "jot and tittle" of human mistakes, this world-task of purification and freedom would take an eternity!

BELOVED SANAT KUMARA THEN COULD NOT POSSIBLY HAVE GAINED HIS FREEDOM AT THIS TIME AND THERE WOULD HAVE BEEN REALLY ONLY ONE SOLUTION TO THE PROBLEM, THE DISSOLVING OF THE ENTIRE PLANET. But, the Mercy of the Eternal is always waiting for you to call it into action, thus utilizing its powers. It is also waiting for you to make your calls through the use of the decrees which have been given to you. If you will stay with them, they will give you, within yourself, all the proof you will ever need of the efficacy of the Violet Fire's power called forth. This will mean more to you than all the riches of all the world! You see, when you have gained the power to consciously and instantly sublimate and transmute imperfection into perfection, life will not be long enough, for you, you will scarcely want to go "home" when your call comes.

It takes alertness of the mental body as well as common sense and reason and it takes your personal interest in the application of the Law to bring it into outer manifestation for you. Look at the interest that Edison took in the study of electricity and the hours, months and years which he spent in just learning to harness its power. Is that of much permanent importance to this planet as the Violet Fire of Mercy and Compassion—which, at will, can be called forth to transmute human

shadows into light (i.e., sickness into health, financial lack into abundance, etc.)?

Oh that you would let me stir into action that “well-spring” of enthusiasm—which is buried deep within you—for the reality and efficacy of the use of the Violet Fire! When our beloved Jesus said to those who came for him for help: “Thy sins are forgiven thee...” he used his “miracle-producing Violet Flame and as the people saw its instantaneous action through his works, there was stirred up some enthusiasm for the use of the Violet Fire, but that was only a temporary accomplishment. There were only twenty or thirty people from the entire known world at that time who had only a half-interest in his mission. Later, beloved Mary had only forty— so you see we are not doing too badly with the numbers we now have, even though it seems at times as though we do not expand as rapidly as I certainly want us to and as you, in your hearts, do too!

Prepare now for service to come!

Now, there is this question of “readiness” again and the beloved Maha Chohan has asked me to speak to you briefly concerning it this morning. It is a most important subject and one which I think, perhaps you should seriously consider in some of your free moments. You never know ahead of time just when you will be called or to what post. I will tell you this much that, as a matter of Law, you will always be put into the position of the individual whose endeavors you have criticized! Therefore, it is wise to desist from criticizing another lifestream for, should you find yourself in his place, you might not be quite as comfortable as you are in your own, nor be as productive there as you were when, from your own place, you watched with folded arms the errors of your predecessor which errors then seemed so obvious to you.

But, in a lighter vein, TO BE READY AT A MOMENT'S NOTICE FOR ANY SUMMONS TO SERVICE WHICH MIGHT COME IS MOST IMPORTANT. It is something which has been brought to our attention recently. None of us knew that at the very moment when beloved Morya's petition was granted by Helios and Vesta for the opportunity to start our new activity, Lord Buddha then began to prepare himself by expanding his Causal Body until it was the same size and perfection as that Sanat Kumara, with the same outpouring of love and power. As we told you, at the time of the transferring of the title and powers of the Lord of the World from Sanat Kumara to Buddha, their two Causal Bodies coming togeth-

er were like two exact halves of an orange. The radiation was the same. Now, Lord Buddha did that without being told. He did it without being asked "all on his own" (as we say). So did the beloved Lord Maitreya prepare himself to take up the office of the new Buddha.

Beloved ones, when we speak so to you, it is not to engender any fear; it is not to make you feel tense in any way so that the Presence cannot even get five per cent of its energy through to you! No, we speak thus to you in order that you may be better prepared for your service which lies ahead, for you do not know when or where you will be called! Beloved El Morya has mentioned this to you several times. HE SPOKE OF YOUR BEING READY TO GO TO FAR-OFF PLACES LIKE TIBET, FOR INSTANCE, TO RENDER SOME SERVICE WHICH YOU COULD GIVE THERE. ARE YOU READY FINANCIALLY, PHYSICALLY, ETHERICALLY, MENTALLY AND EMOTIONALLY? ARE YOUR AFFAIRS IN ORDER? ARE YOU SO PLIABLE THAT YOU COULD GO IN PERFECT HAPPINESS, JUST IN THE GARMENTS WHICH YOU ARE WEARING NOW AND LIVE IN ALL SORTS OF INCONVENIENCE? THINK ABOUT THIS!

Of course, I do not know that you will be called upon to become a Chohan immediately, but, one never can tell!! You may be called upon to lead a group, ah, yes, and perhaps without a book or song lyrics. Perhaps you will be suddenly called upon to lead a group of people who have never heard a decree before. What do you have in your head that you can draw forth on a moment's notice like this for the help of the people? If, in the middle of the night or in the course of a busy day, suddenly some emergency arose and a frightened mass of people gathered around you, you would most surely need stability and absolute fearlessness and you would need something to work with which you could draw forth from your own memory.

Now, today, I bring you not only the benediction of myself but also that of the beloved Goddess of Liberty whose focus is established in the harbor of New York and who has chosen to welcome here from every land all those who have need of her assistance. You will remember that, at the time of my own ascension, the very first Being I met in that octave was this same Goddess of Liberty. Speaking to her then, I asked her if she knew from whom I might get more help for those of you whom I had left behind. She assured me that there was such a one, and, later, I found that she was speaking of her dear self. Since that time, she has most lovingly and graciously given all of us that help!

Thank you and good morning!

"Give me your tired, your poor,
your huddled masses, yearning to breathe free,
The wretched refuse of your teeming shores,

Send these, the homeless, tempest-tossed to me—
I lift my lamp beside the Golden Door!”

(The above is the essence of that which appear on the base of the pedestal of her focus in New York harbor.)

THE MASTERS OF WISDOM SPEAK **FORGIVENESS – THE GRACE OF GOD**

MAHA CHOCHAN

It is a most comforting and helpful truth to know that the “forgiveness of God” for misuse of his energies is ALWAYS available to those who want it. The “eternal damnation” propounded to emphasize fear, superstition and blind obedience to human will is not truth. No more than real, understanding parents can or would deny their children forgiveness for error, could a God of Mercy deny his children forgiveness and absolution of their mistakes! Take heart, beloved ones! Whatever the sin, whatever the past mistakes, whatever the causes and cores of impurity and imperfection which have been set up in your inner bodies, there is a conscious way to transmute and sublimate these errors through the Mercy of God, particularly through the daily use of the Violet Fire of mercy which is the ordained service of the Seventh Ray under the direction of my beloved son, Saint Germain.

EL MORYA

When God, the universal I AM Presence, created man in his own image and likeness, he also gave to man the use of free-will and the ability to call forth as much or as little of God-energy as he desired. The resultant experimentation with the use of this energy and its molding into forms of limitation have caused the present planetary crises, as well as the individual distresses which plague the people of Earth and the nature kingdom. However, when the divine source and his messengers saw that mankind was going to adopt the God-given prerogative of free-will to create imperfection, the activity of transmutation was begun at inner levels and prepared for the use of those who would, most definitely, require its assistance when they “had done” with their experimentations and were uncomfortable enough to send up the cry “Oh God, have mercy on us!”

KUTHUMI

When man comes to a realization that his own misuse of energy has caused all the distress and limitation which he experiences, he is

then ready for instruction upon the use of the Sacred Fire of Transmutation (the Violet Fire). Until this point is reached, he is either rebellious against God and circumstance or submissive to conditions, feeling that these unhappy experiences are the will of God. We await the realization of God's Illumination in the outer consciousness of man to the fact that he, himself, is the creator of all his distress. Then we are enabled to assist him to help himself to dissolve the cause and core of all limitations and know personal mastery over energy and vibration.

PAUL (THE VENETIAN MASTER)

Because mankind, for the most part, are mercifully protected from knowing what they have done with God's beautiful energy and their own originally beautiful emotional, mental, etheric and physical bodies, they do not cognize the fact that the cause of their distress (whether limitation, disharmony, disease or even so-called "death") lies within their own past and present use of this God energy. When mankind are awakened to the fact that the Law of the Circle (cause and its ultimate effect) is inexorable, they begin to want to "make things right." Then all of us are willing to help them. This help comes through the release from us of the already qualified energies of purification, gathered all through the ages (before and after our ascension) into the worlds of those asking for forgiveness for sins, known and unknown. This is always a blessed and happy time for us—when the Cosmic Law allows us (at the individual's call through the use of his free-will) to direct the Violet Fire through his world to perform the miracle of sublimating (refining) the discordantly qualified energies, removing the cause of distress, and, generally, raising man to his divine estate.

SERAPIS BEY

You would be surprised, yes, amazed at how little sense of responsibility even the earnest chela has with regard to his misqualification of energy through the ages since he first began to misuse his God given right of free-will in the use of energy and creation. At Luxor, we are constantly temporary hosts to those who wish to achieve personal mastery. Yet, when even a few of the creations of the past are revealed to the aspirant, often he will deny the authenticity of such experience. You have no idea how much man loves his outer self, nor to what lengths he will go to justify himself. These, of course, must go their way until they have learned the lessons of humility, honesty, discrimination and wisdom. Then they come again and are willing to accept the "karma" they have created and to learn the applications necessary to

invoke and sustain the purifying radiations required to wipe out the past errors, their cause, effect, record and memory, and begin to build anew!

HILARION

The forgiveness of God is more than a phrase. It is a science of divine alchemy. Energy is obedient to the thought, feeling, spoken word and action of man. Every man's aura is filled with the particularly qualified energy which he, through free-will, has chosen to magnetize, qualify and send forth into the world around him. Calling upon the Law of Forgiveness.

The Violet Flame taps the already qualified energy of the universal I AM Presence and the Divine Beings who have prepared that sublimating power for just such a day. Accepting the power of this Violet Fire to actually sublimate the energies of the lower bodies is an essential qualification for its entrance into the chela's world. Keeping constantly at the application will bring results which will not only prove to the outer consciousness the efficacy of this Violet Fire of Mercy, but will also give hope, faith and illumination to others caught in limitations of one kind or another. I implore you, USE THIS LAW.

JESUS

I was well acquainted with the "grace" of forgiveness and it formed one of the main themes of my teaching. How often have I said "thy sins are forgiven thee!" According to the acceptance of that forgiveness did those in distress who came to me have relief and release from all manner of human distressing appearances. Today, mankind has entered into a particularly powerful aspect of the Violet Fire as the Seventh Ray, under the direction of my beloved brother, Saint Germain, plays upon the planet Earth. When the principle of its use is fully cognized by the soul and outer consciousness, every man, applying the Law, can and will have the joy of seeing the "grace" of God (forgiveness and absolution) in his own world! Until that day, we are grateful that the Cosmic Law has allowed as much knowledge of the Violet Fire to come forth to the outer world as has been presented. Now, upon those given this knowledge, rests the obligation to use that knowledge, as I did, in manifest works!

SAINT GERMAIN

At the end of each year, the Law of Mercy and Compassion allows all the unconscious misqualification of energy belonging to the evolu-

tions in the Earth, upon its surface and in its atmosphere, to be wiped away. Thus truly each man is “made new.”

Many of us, for ages of time, have drawn primal life, qualified it with the capacity to raise the rate of vibration of discordantly qualified energy in purification, thus drawing the earnest one seeking forgiveness back into his God Estate. In the freedom you receive when 1956 folds her garments about her and the Violet Flame sweeps in, through and around the Earth, will you be so kind as to think of the glorious I AM Presence, the Cosmic Beings, Ascended Masters and countless members of the angelic host who make this yearly purification possible? Send to them your sincere feelings of gratitude and blessing. Then, please accept the purification for yourselves and all mankind and walk into 1957 determined to become Master of energy through divine love!

THE AIR ELEMENT

By Beloved Aries-September 29, 1956

(Third in the series of Autumn Class of 1956)

Life on Earth Impossible Without Air

I am Aries, the Director (with Thor, my beloved twin-flame) of the air element and of the sylphs, those loving, intelligent beings who serve so ceaselessly in the atmosphere of Earth to keep that air purified enough to allow mankind to live upon Earth's surface.

IF YOU COULD SEE THE AMOUNT OF POISON EXUDED JUST FROM THE BREATHING OUT OF POLLUTED AIR FROM THE PHYSICAL BODIES OF MANKIND IN ONE TWENTY-FOUR HOUR PERIOD, you would realize much more fully the tremendous service which the sylphs perform and certainly be much more grateful for it. These blessed beings, twenty-four hours a day, utilize the purifying powers of the Sacred Fire to keep mankind and imprisoned elemental (four-footed creatures) here from poisoning themselves to the point of causing them to experience so-called “death,” just through inbreathing again their own exhalations.

As you have been told, the atmosphere of Earth has a “ceiling” provided, in order to keep the dissonance and impurities released from the Earth from jarring the natural rhythm and harmony of the rest of the planetary system, as well as the entire galaxy to which the Earth belongs. This “ceiling” beyond which no discord or impurity can rise, is a blessing to the universe, but it is an added responsibility to us be-

cause it gives us much less space in which to perform the activities of purification. It also necessitates our calling forth a much more powerful and therefore quicker purifying action of the Sacred Fire—whereas, if there were no such “ceiling,” the tendency of the radiation from the Earth would be to rise and eventually transmute its shadows in the fire of purity which is the natural atmosphere of God and in which atmosphere abide the other planets of this galaxy. Therefore, we are called upon to act much more quickly in a smaller area (relatively speaking) to make and keep the atmosphere, around the Earth pure enough to sustain physical existence here.

WHENEVER THE DIRECTORS OF THE AIR ELEMENT AND THE SYLPHS UNDER THEIR COMMAND WITHDRAW FROM A PLANET OR STAR (ACCORDING TO THE DIRECTION OF COSMIC LAW), YOU SOON HAVE A “DEAD” PLANET AND EVEN PLANT LIFE CANNOT LIVE UPON IT. IT WAS JUST SUCH A COSMIC CRISIS WHICH THE EARTH FACED WHEN BELOVED SANAT KUMARA INTERCEDED ON BEHALF OF THE EARTH AND ITS EVOLUTIONS.

All through the universe you can see drifting those “shells” which were once planets and Stars, from which have been consciously withdrawn the Directors of the Forces of the Elements and the elementals who serve under them. These “shells” of former planets and Stars finally disintegrate into cosmic “dust” and return to the universal. There, the electrons which made up the former planet or star may be repolarized and returned to the particular Sun from whence they originally came. From there they are sent forth again at a later time to help create and sustain some new constructive creation which will benefit the evolutions of the galaxy or system which has been chosen for such blessing.

It is a commonly known fact that mankind can live for as long as forty days without food, approximately twelve days without water, but only about three minutes without breath (excluding, of course, initiates who have mastered the art of the suspension of the breath and these are rare in the extreme!). The new-born infant, breathing in the first breath, begins his existence in the physical appearance world. As long as he lives, provision of the life-giving essence of breath and the purifying of his polluted breath (exhaled from the body) is our responsibility and obligation.

When the individual I AM Presence chooses to withdraw the silver cord from a physical form (which “silver cord” is the “life-line” of light substance which comes from the heart of the Presence and anchors

within the heart of the physical body, there sustaining the actual heart-beat), mankind gives up his last breath and no longer continues to be, at least in the world of form.

All of your men of science, research and aeronautical transportation recognize the absolute necessity of providing what they loosely term “oxygen” for those who are to penetrate the stratosphere. This provides a pure and more natural atmosphere for the pilots to breathe in, air more comfortable to their lungs while they are out of their accustomed vibratory action of Earth. To purify the entire atmosphere of Earth so that all the life evolving here may be provided with, and sustained by the purity of air which God intended for all in the beginning, is the end toward which we are working. We are grateful, too, that to this end we have the marvelous loving cooperation of the directors of all the other elements which serve life and the beings who serve under them.

Loving Co-Operation Among All Who Serve The Earth

The beloved Neptune and the undines (of the water Element) provide the salt which anchors the substance of air into the lower atmosphere of Earth and gives assistance to the sylphs to rise up and out of the polluted air in which they are compelled to serve. The beloved Helios and Vesta draw the substance of the water element into the air, giving the “ballast,” so to speak, to the lighter atmosphere which we provide. By the use of the radiation sent forth from trees and various plant-life, the beloved Maha Chohan and the nature-kingdom help us to transmute the exhaled impurities of mankind and the animal kingdom and they also assist us to purify the ever-increasing fumes, smoke and stenches from so-called “modern” factories.

THE BELOVED THOR (MY TWIN-FLAME) MOVES THE GREAT AIR-MASSSES TO THE POINTS WHERE THEY ARE NEEDED MOST, PROVIDING COOLING BREEZES FOR THOSE WHO MAY BE SWELTERING IN HUMID HEAT, filling the sails of ships becalmed on tideless seas, directing the purifying energies of the North Wind which carries snow (the beautiful gift of the Elohim of Purity) to blanket and nourish certain portions of the Earth's surface preparatory to a new harvest. On the East Wind, beloved Thor directs the precipitating clouds which carry the necessary moisture to arid areas. He directs the soft, warm breezes on the South Wind and the moisture-absorbing currents which etherealize excessive precipitation and dry up waters which are in their wrong place. It is certainly one of the tragedies of mankind's expressed consciousness

that beloved Thor has been pictured as a great bloated figure, directing destructive energies through the wind to beset already distraught mankind!

My service is to provide the essence of air! Like Neptune and Virgo, the events of the ages have required that I lower the vibratory action of the electrons which make up the Air Element so that the lungs of man could absorb, utilize and benefit by its use. Beloved Thor's activity is to move that air in kindness and wisdom wherever it is necessary to give the greatest blessings to the Earth and its evolutions.

Like the other Directors of the Elements after the shadows of mankind's discordant creations came upon the Earth, we had to draw forth much more power and God-control to handle the beings of our element, the sylphs. THESE HAVE BUILT UP ALL THROUGH THE CENTURIES AN EVER-INCREASING MOMENTUM OF RESENTMENTS AND REBELLIONS AGAINST MANKIND BECAUSE OF HIS INGRATITUDE FOR THEIR SERVICE TO HIM, AS WELL AS THE CONTINUED CARELESS AND THOUGHTLESS POLLUTION OF THE AIR ELEMENT BY HUMAN EFFLUVIA AND THAT OF MANKIND'S INGENIOUS POWER PLANTS AND MANUFACTURING UNITS. Beloved Hilarion and the Brotherhood at Crete have helped us considerably by directing into the outer consciousnesses of certain sensitive individuals of research and ability, the practical ways and means of dissolving much of the pollution of the air element through mechanization. We bless beloved Hilarion and his brotherhood, as well as those unascended ones who have devoted their lives to this process of purification, i.e. placing smoke-consumers on the smokestacks of great factories, this being but one example of their expressed endeavors.

"Prana," Essential For Spiritual Development

Within the air are so many spiritual forces which the average individual uses not at all. By some, this spiritually stimulating energy is called "prana" and that was the "food ye know not of" of which beloved Jesus spoke. This sustained him not only during his temporal "fast" in the wilderness but also throughout the course of his strenuous ministry. Lord Gautama (former Buddha) also used the essence of "prana" to keep alive his physical body while he was away from it in the course of his long vigil, seeking truth by the elevation of his consciousness.

The average member of the human race responds only to the almost involuntary inhalation and exhalation of the breath as regulated

by the Holy Christ Self and the body elemental. THE SHORT, HURRIED, SHALLOW BREATHS OF MAN DO SUSTAIN A CERTAIN AMOUNT OF LIFE WITHIN THE PHYSICAL BODY BUT DO LITTLE TO SPIRITUALLY VITALIZE AND NOURISH IT. WE DO CALL NOW THAT MANKIND AWAKEN AGAIN TO THE ABSOLUTE NECESSITY FOR DEVELOPING THE RHYTHMIC BREATH, DRAWING DEEPLY UPON THE SPIRITUAL ENERGIES IN THE ATMOSPHERE ALL ABOUT HIM, DIGESTING THE NOURISHMENT OF THE ESSENCE, EXPANDING IT AND THEN GIVING, IN TURN, A BLESSING TO THE AIR AS HE BREATHES OUT THE PURIFIED BREATH FROM HIS BODY.

These simple exercises on the breath which have been presented to the student body (See July 1956 issue of "The Bridge") WERE GIVEN WITH A PURPOSE! Upon the utilization of these exercises (with the absolute certainty of resultant purification and energizing of the four lower bodies of the individual who uses them), depends the release of a further and more intricate explanation of how man (with the cooperation of his outer consciousness) can use the breath to hasten his spiritual expansion. As in all spiritual practices, there are certain deeper aspects of the Law which cannot safely be used without the presence and instruction of a trained Guru.

Those who foolishly rush ahead on the premise that the human ego can and will be able to provide the necessary control over forces released by exercises which should be used only while in the presence of the Master, will find to their personal sorrow that they had better master the few basic breaths than unleash powers and forces which they cannot safely, intelligently nor positively control.

In the other kingdoms, in ages past, many individuals learned how to use the breath to sustain life in the body for long periods of time in order to be able to perform certain feats of so-called "magic," thereby gathering around themselves great masses of credulous people. Becoming more bold, such individuals invoked certain of the sylphs to assist them in the producing of phenomena which awed the people. These sylphs, (like the salamanders and undines) became attached to the lifestreams of the individuals who had so invoked them and followed such individuals through many embodiments, thus becoming often the master of the individual rather than his servant. Bold, blustery individuals usually have either the presence of such a sylph or a momentum of such a sylph's power in their auras.

Call On Law Of Forgiveness

Let us pause here while you make the call for the freedom of every lifestream belonging to Earth's evolutions still unascended, from any inharmonious association with a sylph who has chosen, temporarily, to use God's energy destructively. Let us call for the freedom of all sylphs from the tendencies and desires to further follow the destructive patterns set up by mankind in the obedient consciousness of these elementals. LET US CALL ON THE LAW OF FORGIVENESS FOR EVERY MEMBER OF THIS EVOLUTION WHO HAS EITHER CONSCIOUSLY OR UNCONSCIOUSLY USED THE AIR ELEMENT OR THE SYLPHS FOR A SELFISH OR DESTRUCTIVE PURPOSE, SO THAT THE CAUSE, EFFECT, RECORD AND MEMORY OF SUCH UNHOLY PARTNERSHIPS MAY BE REMOVED FROM THE ETHERIC REALM AND THE AIR ELEMENT BE RETURNED TO ITS NATURAL BENEFICENT SERVICE TO THIS PLANET AND ITS PEOPLE.

Now, many lifestreams on this planet have also been a party to consciously or unconsciously shutting off the capacity to breathe in God's good air and suffocation ensued, causing the "death" of whatever living form was so involved. Such destructive records still live in the etheric bodies of those evolving on this planet. Call upon the Law of Forgiveness for your own and others' participation in any and all of such unfortunate experiences, then call on the same Law of Mercy, Compassion and Forgiveness to wipe out all the destructive karma for all other lifestreams who must use Earth as their schoolroom, now and in the future.

CALL ON THE LAW OF FORGIVENESS, TOO, FOR ANY AND ALL SYLPHS WHO HAVE LENDED THEMSELVES TO THE PERPETRATION OF MISCHIEF (from those who, with the undines, cause the great hurricanes, typhoons, etc—all the way to the smaller and mischievous sylphs who blow off awnings and who are likely "candidates" for greater destructive activities in the future!)

There are many charlatans in embodiment here now, as well as many who will be coming into embodiment here in the future and these will have a desire to use their knowledge of the control of the breath for destructive purposes. With your assistance, we are endeavoring now to remove their desire and capacity to so use this knowledge to further enslave the people. There are also, of course, many fine teachers who have the knowledge of the right use of the exercises of rhythmic breathing and these can, do now and will in the future open to mankind much of the spiritual perfection which can be his by the right use of breathing exercises. Again, it requires great discrimination and

wisdom on the part of the chela. DO NOT ATTEMPT TO EXPERIMENT WITH THAT OF WHICH YOU KNOW ALMOST NOTHING!

During these four days of Class, we are primarily concerned with the purification of the entire atmosphere of Earth and the removal of the “veil of maya” (which is an accumulation of shadowed substance abiding right within the brain structure of the individual). When this has been done, mankind will again be able to see his own individualized I AM Presence face to face, as well as the angels, Masters and beings of light. You have no idea how much confidence, real faith and spiritual strength can be drawn into one's consciousness by such confirmation of belief when the personal self actually sees the reality of his own Presence and ascended or angelic beings with his physical sight.

Today, we are also concerned with the purification of the etheric bodies of mankind so that there are no longer desires to compel the forces of the elementals to obey the destructive free will of human beings. We are concerned with the removal of the rebellion and resentments which exist at present between the forces of nature and mankind at large. When the elementals know, through proven endeavor, that mankind really does seek to co-operate with them, we shall see the re-establishing of that glorious kingdom of angels, mankind and elemental life which will be externalized in beloved Saint Germain's Golden Age of permanent perfection for this planet and its evolutions.

I AM REAL! I AM YOUR FRIEND! BELOVED THOR IS REAL! HE IS YOUR FRIEND! The sylphs are real, too and they want to be your friends. Despite so much ingratitude upon the part of mankind for the blessings received from the sylphs, those sylphs have proven their willingness to serve by making and keeping the atmosphere of Earth pure enough to sustain life here day after day human life as well as that in the nature kingdom

When you hear of or read about vortices of air currents of a destructive nature attempting to manifest at any point on or around the Earth, call to us! Ask us for assistance and see how quickly we will come to the aid of you or those for whom you call. In loving gratitude for your comprehension, your desire to co-operate with our kingdom and its inhabitants, I bless you in the name of the one God and the spirits of the air whose direction I have voluntarily undertaken to assist in making Earth a happy, beautiful and habitable planet. Thank you and Good evening!

Calendar of Holy Days for 1957

April 21st, Easter

May 1st, Saint Germain's Coronation Day (and his Ascension Day}

May 8th, Day of Buddha's Enlightenment

May 13th, Wesak Festival, 5:34 P.M. (E.S.T.)

May 30th, Jesus' Ascension Day

June 9th, Pentecost (Whitsuntide)

July 11th, Asala Festival, 5:19 P.M. (E.S.T.)

August 15th, Mother Mary's Ascension Day

September 30th, Harvest of the Angel, at Shamballa

October 31st, Harvest of the Elementals at Shamballa

November 1st, All Saints' Day

November 2nd-All Souls' Day

November 30th, Harvest of Human Kingdom (Thanksgiving) December

25th, Christmas.

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
with the Great White Brotherhood and Cooperative World Service

FEBRUARY 1957

TO THE COSMIC SPIRIT OF PURITY AND THOSE BEINGS WHO REPRESENT THIS VIRTUE TO OUR EARTH, OUR LOVE

To the Elohim of Purity, whose purifying essence flows constantly in, through and around the atmosphere of Earth and the elements who serve it, Greetings!

To beloved Astrea, who foreswore nirvana to dissolve, when called into action, all the causes and cores of impurity that spew forth their discordant effects into the world of form, Blessings!

To beloved Archangel Gabriel. Who chooses to intensify the immaculate concept through the outer mind of all who will accept his blessings, gratitude!

To beloved Hope, who keeps alive the desire to return to the God estate from whence man has fallen, our love!

To Serapis Bey and the Brotherhood at Luxor who provide a radiating center through which purity may anchor into the emotional, mental, etheric and physical strata in which mankind abide, thanksgiving!

To those earnest ones among Earth's population who demand purity, we are so grateful! Let the Spirit of Purity enter this year into the invisible world that surrounds the Earth and be manifest in the visible world through the sons and daughters of God who want PURITY OF EXPRESSION WHICH IS GOD'S WAY! Thus God has spoken and to this end we all serve, above and below!

Thomas Printz, Editor

The Homes and Retreats of The Masters of Wisdom

ASCENSION TEMPLE AT LUXOR (EGYPT)

(February 15th through March 14th, 1957)

The glorious Ascension Flame is guarded and expanded by the Brotherhood at the Ascension Temple, established at Luxor in Egypt. This flame is a REAL, MOVING, ASCENDING CURRENT OF ENERGY by which any of the human race, embodied angels and even elementals can complete their cycle of service upon or around this Earth into their natural God-estate. Let us not look upon the activity of these flames as ephemeral, abstract and visionary. These flames are foci, magnetized by some God intelligence, sustained by the love of these intelligences and radiated forth through the four lower spheres (emotional, mental, etheric and physical) for the nourishment and spiritual enlightenment of all the evolutions presently using the Earth and its atmosphere as a schoolroom.

When the glorious Atlantean civilization began to decline, when the powers of invocation were utilized for selfish and personal aggrandizement, plans were made by the Great White Brotherhood to secure these foci of the flame upon the portion of the landed surface of the Earth destined to remain above the waves of purification when the water element was commanded to assist in the submergence of this once beautiful continent.

Upon Atlantis, the temples where the flames (representing the virtues of God) were housed in physical, tangible buildings, the White Brotherhood and the Illuminati of that era often came to one of the Temples which contained the flame of virtue he desired, to gain added strength, power and the vitalizing radiating essence of that virtue. That day shall come again in the not too far distance future.

One of those chosen to carry the responsibility of holding the focus of the Ascension Flame on Earth is now known by the name of Serapis Bey, Chohan (Lord) of the Fourth Ray. On Atlantis, he was a priest of the White Brotherhood who voluntarily, constantly, focused his attention upon the possibility of the ascension for all who chose to return to their divine estate. In the physical appearance world, God needs the bodies of those who are willing to magnetize and radiate his virtues through the human race. Thus the various orders of the priesthood held close to the virtues to which they had dedicated their lives, services, invocations, applications and ministrations.

The very nature of the flame is to rise! Therefore, unless some un-

ascended lifestream will continue daily to call forth the flame of the virtue desired, thus magnetizing it and sustaining its action right here in the physical appearance world, that virtue rises to its own octave “in the aura of the Godhead.”

When the Island of Poseidonis was destined to sink beneath the waves of what is presently called the Atlantic Ocean, certain priests and priestesses (unascended at that time) were allowed the privilege of using the vessel of their own hearts and the energies of their own lifestreams to sustain the flames of the virtues which, through many long ages had been drawn into the atmosphere of Earth. SERAPIS BEY, AS ONE SUCH PRIEST, WAS GIVEN THE OPPORTUNITY AND OBLIGATION OF TRANSFERRING TO THE LAND OF EGYPT THE CURRENT OF ASCENDING ENERGY (ASCENSION FLAME), INTO WHICH WAS WOVEN ALL THE PRAYERS, APPLICATIONS, SPIRITUAL SERVICES AND ACTUAL ASCENDING FEELING OF EVERY LIFESTREAM WHO HAD USED IT UP TO THAT TIME. HE AND HIS BROTHERHOOD SAILED ABOUT 480 MILES UP THE NILE RIVER AND ESTABLISHED THE ASCENSION FLAME AT LUXOR IN EGYPT. To the momentum of this Ascension Flame has been added all the centuries of prayer, application and God-victorious accomplishment of every ascending .being to this present day.

Beloved Serapis (at that time not ascended) asked permission of the Cosmic Law to re-embody many times in Egypt for the purpose of serving this Ascension Flame and he, together with his particularly devoted followers, finally builded a glorious temple around that flame. Centuries passed, Egypt entered into her “dark ages” and the Temple of the White Priesthood was gradually camouflaged for protective purposes, the Brotherhood building subterranean chambers in which to hold their secret rites. Today, but one white building remains, which is the entrance to the Ascension Temple and the presence of its mighty Hierarchy, Serapis Bey.

Those few unascended lifestreams who are invited to Luxor are examined as to motive and given opportunity to avail themselves of the exercises, disciplines and instruction of the Brotherhood of the Ascension Temple, in order to raise the vibratory action of their four lower bodies and consciously ascend into the perfection of their own individualized I AM Presence whose perfection they once knew and experienced. It would amaze many to see the elementals that utilize that up-rising stream of energy to free themselves from the discordant atmosphere of Earth.

THE ATLANTEAN EXODUS
Address By Beloved Serapis Bey

Speaking of the founding of our beloved Luxor brings back memories that are both sweet and yet filled with that nostalgia which I always accompanies “partings,” from home, loved ones and from familiar routines which have formed the pattern of one's living in this world of form. As the edict of the Eternal Father is UNITY and ONENESS, that which makes for separateness and partings is against the nature of the heart and, like all inversions of the Law, brings pain with its experience.

Among those individuals who sailed with me from the sweet islands of the remaining glory of Atlantis, are some still unascended who are interested in our new activity today. ALL IN ALL, ONE HUNDRED SHIPS OF THE GREAT ATLANTEAN FLEET SET FORTH TO CARRY THE FLAMES OF THE VIRTUES OF THE GOD-HEAD WHICH THEY HAD MAGNETIZED AND SUSTAINED ALL THROUGH THE CENTURIES. SOME WENT WESTWARD AND SETTLED IN THE NEIGHBORHOOD OF THE EASTER ISLANDS, PERU AND MEXICO. OTHERS VENTURED FURTHER ACROSS THE VAST EXPANSE OF THE PACIFIC INTO ASIA. OF THE ONE HUNDRED PARTIES WHICH ORIGINALLY SET OUT, ONLY TEN ARRIVED AT THEIR VARIOUS DESTINATIONS with the enduring focus of their flame, which contains with it, today, a portion of the actual undying Sacred Fire from the Atlantean Temples. These flames were carried with us in the great golden braziers which used to hang above the Altars in those early times.

After the establishment of a portion of the Ascension Flame at Luxor, each one of us finished our span of life for that embodiment. Many times after that, some of us returned and took embodiment in Egypt, in and around Karnak and Luxor, serving again the flame we so adored. In those early days, there was no written discipline necessary, for we remembered well the purity and honor of the priests and priestesses of the flame. Only as the light of the Atlantean Day grew dim, before the days of Moses, did the Hierarchy insist upon writing down the disciplines for the neophyte to preserve them through darker days.

Many of the early Israelites were guests of our temple. Joseph (who through the Pharaoh was to rise to the throne of Egypt), Moses, Aaron, Miriam and those who were to be instrumental in the Exodus. Beloved Jesus, Mary and Saint Germain were also guests in our retreat in their day. Much of the Hebrew Law incorporates the instructions given in the temple and much of the Mosaic Law was imbedded in the consciousness of Moses, long before his ascent into the Mount. Thus is truth conveyed from heart to heart and then carried by the feet of men into far places.

LOVING LIFE FREE

(By Serapis Bey)

During this thirty-day period, as Luxor opens her temple doors to the masses of the people (who come to us in their finer bodies while the physical sleeps) nightly shall I speak on the Law of Life and all who hear me will remember at least some of the truths so spoken. This I do decree!

Greetings, blessings and love from the heart of Luxor. You who have consciously volunteered to join with us in serving God must accept as your watchword, UNITY, incorporating selfless service and loving cooperation, TO LOVE LIFE FREE.

The consciousness of all the Sons and Daughters of heaven stands ready to pour the fullness of their purpose and design into your keeping for the enlightenment of the groping souls who seek The Way. The mechanics by which this understanding is brought to the consciousness of mankind, lies under my jurisdiction. We have one thought in mind, reaching the people! We have one feeling which motivates our activities-loving life free!

From now on, I shall endeavor to assist you as much as possible in making you an impersonal instrument through which this understanding may be dispensed quickly, clearly and universally. We are unconcerned with any personal aggrandizement and so, we know, are you.

To this end has come forth to assist us the Great Cosmic Angel of Unity of Spirit, Purpose, Motive and Design, the Great Cosmic Angel Micah . Through the melting of the separate selves into the UNITY OF ONE-POINTED PURPOSE in the white fire of humility and love, shall we be able to create a mighty channel of strength and purity, through which the word of God may be incorporated into the hearts and souls of men everywhere and, by the acceptance and use of that "word" IN ACTION our light shall be builded into the world and atmosphere of all who sincerely want it and will receive it.

THE IMPORTANCE OF MUSIC

By Serapis Bey

For the purpose of this instruction, I want to elaborate upon the natural emanation of musical sound which forms the music of the spheres. Every lifestream which belongs to this universe who has attained the victory of the ascension and every Cosmic Being and Master Presence, is a contributing factor to this sea of music which, like light itself, forms the atmosphere of the octaves of light. The beloved I AM Presence of every unascended being also pours forth its particular mu-

sical keynote into the realm in which it functions, prior to the ascension of the outer self.

It is from this sea of light that the Masters draw the exquisite melodies which they focus through Music Temples under the direction of angelic beings who amplify it by their own life and direct it toward certain composers on Earth who are worthy of more than ordinary inspiration and assistance. They also direct it toward artists who have developed (through centuries of dedication to the Spirit of Music) sensitivity to the spiritual currents which may flow through specific musical activities (operas, etc.). These people are usually fortunate enough to be permitted entrance into some of these Music Temples in their finer bodies at night while their physical bodies sleep. The glorious melodies from the higher realms, so “stepped down” by such good men and women, are the results of this endeavor in which I, myself, am extremely active.

When a composer (for instance, Wagner) picks up the melodies from a Music Temple, usually some one of the Masters there directs his personal ray into the mind of the composer, endeavoring to allow that composer to build a suitable story around the music. You see, the state of development of the inner body which receives the impression of the story and the development of the emotional body which is the recipient of the feeling and theme of the music, will contribute greatly to the ultimate results. Some composers did marvelous things with the musical interpretations but were unable to receive clear mental directions concerning the “story” of the opera and the resultant “story” was not truly representative of the music of the theme.

In the case of the Wagner compositions, we had the assistance of his mental body and thus the mystic initiations were woven all through his works. Of course, you are acquainted with the fact that the insignia of the Knights of the Round Table was the swan, which represents the initiate able to soar through the air, master the emotional element of water and, through the particular faculties of the swan (long neck and sharp eyes), pierce beneath the water and discover the elements of the “deep” as well. Again and again Wagner uses the swan as a symbol of the mystic initiations. The ancient Norse mythology tells how the noblemen of that age sang their “swan song.” Today people interpret that as the acknowledgment of failure, defeat and submission to fate but in those early days the “Great” were allowed to sing the “swan song” when Earth’s battles were finished, to signify that they had become Initiates and were consciously ascending from the limitations of “mat-

ter” to a new freedom.

Whenever an opera is sung, the quality or virtue which is its pre-dominant theme is greatly amplified by the Music Temple and its attendants and, from the central focus where such music is presented, angel devas, cherubic and seraphic hosts direct and often carry the rising, harmonious energy of that opera as it is performed, into the city, state, nation and all over the Earth. Great buildings (opera houses, etc.) from which have been played and sung the magnificent works of the musical geniuses of the race, are always presided over by angel devas and builders of form who cooperate with the officiating Deva Temple in this service.

“Lohengrin” is primarily the story of FAITH. The aspirant (Elsa) stands before the Karmic Council. Her sponsor (and twin-ray) comes to stand by her side and give her the spiritual assistance she requires. He comes riding on the back of the swan (mystical powers, controlled by self-mastery). She must accept him at his worth, without curiosity—which she does. Then comes the TEST, during which Ortrud and Telramund are allowed to instill doubt into her mind as to her beloved's true identity. Unfortunately, she accepts their suggestions of doubt and forfeits the right to have his presence and help. Lohengrin calls his swan to him and commands it to remain to help Elsa in a lesser capacity, for such is the mercy of life. However, she has forfeited the presence of her beloved, (Lohengrin) at least for the time.

Thus does each student stand one day alone and, with only the light in his heart to guide him, he must decide on the nature of his teacher, not by his name, his person or his heritage. At this time, all the forces of doubt and uncertainty rise from within and without the student's world. This is the crucial moment in the life of the chela who has been chosen for more than ordinary association with a Master of Light. If doubt and uncertainty are allowed to prevent the student's acceptance of the teacher, such as Lohengrin would have been to Elsa, such a teacher must withdraw and a lesser light becomes the guardian presence of the lifestream until a later time.

THE EARTH ELEMENT

By Beloved Virgo

(This is the fourth (and last) in a series of addresses by the great beings who govern the beings of nature and forces of the elements.)

September 30, 1956

I am Virgo, Spirit of the Earth, affectionately called by many “Mother Earth.” In a time long, long ago, my beloved Pelleur (the twin-flame of my lifestream) and I answered the call of the Mighty Helios and Vesta for volunteers to assist the seven Mighty Elohim in their joyous task of creating a habitable planet for the mankind which, in time, would proceed as individualized lifestreams from the heart-flames of Helios and Vesta themselves.

Others besides ourselves were given opportunity with us to show their particularly developed capacities to create and sustain a substance for this planet, whose vibrations would be of such a rate as to make it solid enough to form a platform for the feet of the people of Earth, where they could walk in safety and in happiness. Finally, we were chosen for this honor and given opportunity so to serve. Then we were called upon to manifest the “staying power” (centripetal force) which would keep the landed substance of Earth in its appointed place, cushioned by the water element. We were also called upon to create just the right amount of “gravity pull” which would not be a distress upon the feelings of the people, but yet keep their bodies from flying off the planet into outer space.

Pelleur then offered his full-gathered momentum of centripetal force to create the Law of Gravity for this Earth, the magnetic pull which would hold the landed surface in its appointed place. Through the ages, this had to be adjusted from time to time, according to the vibratory action of the bodies of the people, the actual weight of their bodies as well as the weight of the substance which they had drawn about them, to sustain and expand their civilizations. As my gift to this creation, I offered to mold universal, intelligent light-substance into the design for this planet, which design was created by Helios and Vesta. This perfect pattern was held within the bosom of the Silent Watcher for this planet. It was necessary for me to determine just the right density of substance required to allow the God-radiation which was anchored in the center of the Earth by beloved Pelleur to flow through the planet, out to and through its surface, thus blessing the mankind and nature kingdom who were to live there.

I worked in close harmony with the first Maha Chohan who served

this Earth, the Beings of each of the Four Seasons, as well as with the great nature spirits who ensouled the mountains, fertile valleys, trees, shrubs and flowers and the gnomes, fairies, elves and smaller nature spirits whose activities would be on the surface as well as within the very body of the Earth itself.

When the first inhabitants of Earth embodied here (called “Holy Innocents”), the Earth was garlanded in the most fragrant flowers, Amaryllis (Spirit of Spring) having prepared for more than nine hundred years to develop the greatest possible beauty for the incoming lifestreams.

Earth Once A Glowing Star

In the beginning, the first Golden Age, the Earth's substance was crystalline, pure and iridescent and the glowing radiation from the very center of the Earth was easily discernible, pouring up, in, through and around the Earth and all its attendant evolutions. This glowing center of the Earth was the place where my beloved Pelleur focused his magnetic ray (at the point where the masculine and feminine rays meet) , the Masculine Ray of Gold entering the Earth at a point in Tibet and the Feminine Ray of Pink entering from a point in South America, near Lake Titicaca. This heart-center of pink and golden light within the Earth created a tremendous buoyancy and raising power of divine love which surged out through the Earth and its atmosphere, allowing the bodies of the people to absorb the radiant substance and to live, move and have their being within that divine atmosphere of purity and peace. This gave the people assistance in the speedy fulfillment of their own divine plan.

As you look down through clear water and are able to observe the submarine life, so could any member of the race then embodied look into the depths beneath the Earth's surface and see the salamanders disporting themselves in the pink and golden rays from the center of the Earth. These beings carried the surging, vitalizing energies of the Sacred Fire upward through the entire nature kingdom and to the lifestreams dwelling upon the surface of the Earth as well. In like manner could they observe the busy little gnomes and other nature spirits (in that time all were in perfect proportion and symmetry of body) serving to nourish, develop and push up to the surface of the Earth, the plant life designed by the builders of form and the directors of the nature kingdom.

In those days, there was perfect harmony and rhythm in the changes of Season as each of the Great Beings who direct the Four Seasons (together with their Divine Complements) served to give variation of color and design, as well as variations in types of harvest, to nourish and sustain the bodies of the people.

Shadowing of Earth's Light

Then, as has often been described to you (appearing in other issues of "The Bridge") there came the need of some planet of our system to offer to be host to some souls from other planets, which souls did not chose to progress along the Path of Life as quickly as the rest of the lifestreams evolving with them. By command of Cosmic Law, these planets were destined to move forward into greater perfection and much more rapid vibratory action and these recalcitrant souls vibrating at a slower rate, would not be able to embody thereon.

WHEN THE CALL WENT FORTH FOR A VOLUNTEER PLANET WHICH WOULD OFFER SUCH SOULS OPPORTUNITY FOR EMBODIMENT, THOSE WHO WERE IN CHARGE OF THE EARTH AND HER EVOLUTIONS AT THAT TIME, ANSWERED THAT CALL AND OFFERED THE EARTH AS A HOME FOR THESE "LAGGARDS." These lifestreams then began to come into embodiment here, of course bringing with them the shadows in their consciousness, formed by their rebellious feelings against moving forward more rapidly into greater light. The lower vibrations of these shadows were contagious to Earth's people, so much so that, in time, it caused the lowering of the vibratory action of the bodies of the people, as well as the vibrations of the planet itself.

Of course, as the vibratory rate of mankind's physical bodies lowered, those bodies became less and less luminous as well as heavier in weight and the excrements of impurity from these bodies began the creation of that which is so aptly called "soil." The original rapidly vibrating substance of Earth would no longer sustain such physical bodies in comfort and so, in mercy, the great Cosmic Law called upon us to lower the vibrations of the substance of Earth so that it would hold the weight of man and the civilizations then extant here, during his decline into what has been referred to as "matter." Beloved Pelleur then also had to lower the vibrations of the "gravity pull" of Earth and create a centripetal force within the Earth which would correspond to the dense type of creation which mankind had drawn about them on Earth's surface.

As had taken place in the other three kingdoms (salamanders, undines and sylphs) among the gnomes (and other nature spirits) there began to build resentments and rebellions against the thoughtless, careless and selfish members of the human race who used the body of the Earth—the riches of its mountain ranges and the harvests of the selfless workers in the nature kingdom, just as a matter of course. For all these blessings, the people returned little or no gratitude to life—giving back nothing but refuse and impure excrements in exchange for this freely given heritage of harvest, of precious stones and metals and the very platform provided for man to stand upon, as well as upon which to build their temples, homes and various foci of pleasure and vanity.

Like all the other beings of nature, the gnomes are imitative in the extreme. By their very vow of obedience to man, they mirror that which they see, whether it be good or otherwise. Many of the originally delicate, ethereal gnomes became distorted in form, in imitation of that which they saw mankind creating by the destructive use of their words, thoughts, feelings and actions and the destructive thought and feeling forms which individuals had drawn about them by their misuse of life's energy. These gnomes also became very mischievous in nature and enjoyed playing tricks upon their human tormentors.

Like the leprechauns of Ireland, they were well acquainted with the rich locations of the gold deposits in various places within the earth and would promise those whom they could contact that, if such individuals would do their will, they would give them riches without limit (“the pot of gold at the end of the rainbow”). Of course, these leprechauns had no intention of revealing the locations of these riches to the people but, knowing the lust for gold and wealth of every description in the consciousness of man, these elementals played upon these carnal desires. Pelleur and myself would so love to see the gnomes and nature spirits cut free from this distortion of form right now, as well as from such mischievous and tricky activities of thought and feeling.

WORSE STILL, SOME OF THE GREATER MOUNTAIN SPIRITS, CATCHING UP THE SPIRIT OF REBELLION, SPEWED FORTH FIRE, SMOKE AND MOLTEN LAVA, THUS CAUSING GREAT HAVOC, DEATH AND DESTRUCTION TO THE PEOPLE FROM TIME TO TIME. ALL VOLCANIC ACTION, PAST AND PRESENT, IS DUE TO SUCH AN ANTIPATHY BETWEEN THE ELEMENTALS OF THE EARTH AND THE PEOPLE WHOM THEY HAD COME IN SUCH LOVE TO SERVE.

Remember, beloved ones, that the Earth has suffered much for

many ages from the destructive consciousnesses and activities of mankind. The decaying bodies of the "dead" have been buried within the Earth century after century and the gnomes have had the unpleasant task of completing the dissolution of polluted vehicles which had reached such a state of imperfection because of the discords of the personality which had formerly inhabited that body, that the Holy Christ Self of such individual and the body elemental thereof, could no longer use that body for any constructive purpose. Thus, in mercy, (embodiment after embodiment) the Cosmic Law called such lifestreams from those "shells" of physical imperfection and mankind, callously, gave to the Earth the body which God, himself, felt was no longer fit to allow to dwell therein the focus of his own life, the immortal Three-fold Flame of Eternal Truth.

In the process of embalming (used so efficaciously by the Egyptians and the Atlantean races long ago) the task of decomposing these diseased bodies was made more difficult for the gnomes who, for ages of time, had to suffer the presence of these discarded and decaying "shells" in their element and home. Thank God that some races have used the funeral pyre and that here, in the Western Hemisphere, cremation is again coming to be recognized as an acceptable means of disposing of the out-worn earthly "shell."

Cremation Preferable For "Dead" Bodies

Let us pause here to call on the Law of Forgiveness for all the misuse of the earth's gifts by mankind, all the discord inflicted upon the gnomes and nature spirits by all mankind, by yourselves, all other embodied lifestreams who have ever been here, all who are now here and all who are to embody here in the future. Let us also call on the Law of Forgiveness for all the havoc and disaster, as well as mischief caused by all the rebellions, resentments and hates of the beings of earth toward mankind. (These decrees were given here). Thank you, so much!

As the other beloved Directors of the Forces of Nature have told you, we are speaking very plainly to you at this time. Many earnest students do not wish to look into the causes of distress, preferring to assure themselves that, eventually, all will come out all right. Yet, how shall we (and you who desire to help us) re-create a harmony and an affinity between the various beings of the elements, the angels and mankind, unless some understand and consciously endeavor to remove destructive causes behind the effects which so distress the people of Earth? You see, not until the causes are removed can the effects cease

to be! This is perfectly obvious.

The substance of Earth has been used, as have the other elements, for various types of torture, burying people alive (as well as animals, etc.). There are very few of the people of Earth who have not participated in some way in such unwholesome and zealous task at one time or another, throughout the ages. The fear of being “buried alive” is very real among some of the people of Earth. Why? Well, it is either because they were so buried themselves by some of their kind (?) brothers and sisters, by eruptions of nature, or because they participated (often in the name of religion) in such practices.

These old records live in the etheric bodies of the individual who took part in such deeds. Today, at this point, let us call on the Law of Forgiveness for any such transgressions of the Law of Love by yourselves, all embodied mankind, all who are to come here in the future and all erring members of the nature kingdom. Let us call in the name of the beloved I AM Presence to Mighty Astrea to lock her Cosmic Circle and Sword of Blue Flame in, through and around the cause and core of such discord and, removing it, replace it by the feeling of loving gratitude for the beings of nature and forces of the elements, as well as the feeling of loving trust and cooperation between the mankind of Earth and the elemental kingdom.

Let us ask that there be dissolved and removed from all belonging to this evolution right now, the desire and capacity to use the Earth, the riches of her mountain deposits, etc. for destructive purposes.

Now, during this class, your physical bodies are having a very great deal of the substance of impurity removed from them. Please feel and accept now the reality of our presence and our endeavors to help you and the entire planetary evolutions, restoring you all to the perfection you once knew and expressed, right here upon this blessed planet.

As so many salamanders, undines and sylphs have become attached to certain lifestreams through being invoked by them in mystic rites and black magic, so also have many gnomes and larger nature spirits become attached to lifestreams and they, like the genie invoked by Aladdin and his Mystic Lamp, have served their masters for some time, then, in time, these elementals became masters themselves of the very lifestreams they had formerly served. Today, I ask that you call for the freedom of all such nature spirits and gnomes from the destructive influences of mankind. Call also for the freedom of such gnomes and those who work with earth from the remembrances of

such associations, destructive directions and activities.

Could you see how many salamanders, undines and sylphs have been released thus far through your calls in this class alone, your hearts would rejoice. This freeing of the elementals will not only help you personally, the people on the Earth at the present time and the nature kingdom as a whole, but it will assist tremendously the individuals who are to embody here in the future who have had such attachments, powers and inclinations in the past.

Your physical bodies are destined to outpicture the glory of your own individualized I AM Presence, I am here to help you regain that perfection!

In closing, may I ask you to send your deepest love and appreciation to beloved Pelleur who abides within the heart of the Earth, for his service to the Earth and her people all through the ages? In those planets where the centripetal force of some Great Being like Pelleur has been removed (where there is no “gravity pull” to hold lifestreams upon that planet nor the forces of nature) you can witness the disintegration of those planets and stars until they become again “star dust,” without form or purpose. Remembering that, through the centripetal force of his love, Pelleur has given you opportunity again and again to live upon this planet through the course of many embodiments (which were necessary to allow you to develop and fulfill your own divine plan) and that I am your “Mother Earth,” I do hope you will think upon us kindly and very often!

Thank you and good morning!

THE MASTERS OF WISDOM SPEAK
PURITY OF EXPRESSION IN EVERY SPHERE

MAHA CHOCHAN

Students of truth know that purity of manifestation stems from purity of cause (that cause often at inner levels). It would be wise to ponder the great gifts of the Directors of the Forces of the four elements particularly known and utilized by mankind—fire, water, air and earth! If it were not for these Mighty Beings and those who serve with them, the nature kingdom could not and would not provide an atmosphere in which the physical bodies of man, bird and beast could survive.

The clarity of the atmosphere, the refreshing purity of the water element, the fecundating powers of the actual substance of Earth and the Light by which the evolutions evolve in the Earth, upon its surface and in its atmosphere, are due to the gifts of service by the Directors of the Forces of the Elements and those beings who help them to dissolve the effluvia of mankind's distress, so that life can be sustained upon this planet and have opportunity to fulfill its divine plan. Serving, as I do, with the nature kingdom, I am eternally grateful to these beings for their patience, constancy, love and service in this regard.

EL MORYA

The will of God is that every lifestream belonging to Earth's evolutions and all its guardian spirits return to the pure, divine pattern in which they were originally designed and from which they voluntarily departed, gradually descending in consciousness into a state of great impurity. Most of mankind have even forgotten what they are supposed to be! Therefore, it is essential to keep before mankind a constant reminder of the divine image in which they were made, until the outer mind and feelings can accept that divine pattern of God-perfection. Then, truly, they begin the self-conscious task of returning to that pattern, expressing it as beloved Jesus did right here in this physical appearance world for the encouragement, upliftment and blessing of all life!

KUTHUMI

It is well nigh impossible to express perfection unless one has a pattern or design to follow! That design was provided when the God-head created man in his own image and likeness. The service of the Second Ray is to remove the clouds that obscure the divine image and allow man to see, know and accept that image. Then, through whatever applications are best suited to the individual, he must endeavor to recreate that divine image through his emotional, mental, etheric and physical vehicles. To this end, the Brothers of the Golden Robe, under the direction of the World Teacher, study the evolution of each lifestream who professes a desire to return to his or her God estate. Then a course of study and application is provided for such a one (usually through a natural channel, books, teachers, etc.) to see if the desire is to be coupled with endeavor.

There are many "wishful thinkers" who enjoy contemplating a kingdom of heaven on Earth but there are not so many who wish to

start WITH THEMSELVES in establishing a manifest example of the divine pattern here on Earth. The “steps” (lessons learned from life's experiences) upon which the chela rises out of the impurity of wrong thought, feeling, spoken word and action are provided only as the motive of the chela signifies his determined desire so to rise. Many spiritual pilgrims are content to rest for many lifetimes upon one “step,” considering it the ultimate and until that individual, through free will, desires to go higher, we cannot intrude.

PAUL (THE VENETIAN MASTER)

The Brotherhood of the Third Ray are particularly concerned in drawing forth the purity of expression of each lifestream from the immortal Three-fold Flame of God, “I AM,” within each heart. We are privileged to see the divine plan of each lifestream, the potential talents and gifts which are God-ordained to find expression through all mankind. Thus, like the Sun which warms the Earth and encourages the growth of the seeds planted for a future harvest, do we stand by ALL people and, whenever possible, endeavor to help them express this divine plan. Many among the human race, enjoying the pleasures of the day, do not even want to know what their divine plan is.

Others, whose immortal Three-fold Flame has expanded to a point where its gifts demand expression, have selfish motives of personal aggrandizement, glory and homage in the perfecting of their gifts. Few really desire to use these gifts for the blessings of the entire evolution. The amount of assistance we can give is always determined by the hidden motive (often obscured from the outer mind). When the individual truly wants to LET GOD, through him, have his own way, we are free to give unlimited assistance.

I strongly recommend that the sincere student ask the Divine Complement of the beloved Elohim of Purity, blessed Astrea, to remove the cause and core of all selfish motives within the lifestream, so that we may give our full and unlimited assistance to such a one in his desire to become the manifest expression of what the Godhead has foreordained that he manifest. When these selfish motives are removed, then are we given much more freedom to assist such a one to the fulfillment of his goal.

SERAPIS BEY

At Luxor is provided the retreat where the chelas are allowed opportunity to purify their four lower bodies. Here, if the chela is strong enough, constant enough, humble enough and faithful enough, the disciplines, applications and necessary instructions are given by which the chela can and does sublimate (refine by Violet Fire) the impure energies in the four lower bodies, which purification then manifests through the physical form as self-luminosity. Let me warn the chela that, IT IS THE INNER BODIES WHEREIN LIE THE CAUSES AND CORES OF MOST DISTRESS.

These inner bodies require purification even more than the physical vehicle, for that is but a depository of all thought, feeling, spoken word and deed—the individual's present use of life and the memory of his past expressions of such use of life during his long life course. Many an ascetic, crucifying the flesh vehicle with abstinences, only builds up a “spiritual pride” in such practices, while the cause and core of impurity lies like a coiled serpent waiting to spring forth at any moment and destroy his so-called “advancement.”

The beloved Astrea has offered to remove the cause and core of all known and unknown impurities in the lifestream, back unto the beginning of time! Wise is the man who invokes her, does not fear her and accepts her service. Astrea, until recently, was not known outside the Ascended Master Retreats but I assure you, all who enter Luxor, utilize that service of the retreat, if they remain. When the cause and core of impurity are wiped from the lifestream, beloved Archangel Gabriel can then, easily, part the human veil and allow the outer consciousness to see and know his own I AM Presence! Once the individual has looked upon it and seen what he can again become, he seldom slips back into the soul-sleep of the ages but continues in his endeavor to express the perfection of that I AM Presence on Earth, where he has been ordained by life to serve.

HILARION

Purity is a dual expression of feeling. First, it is a positive desire to express and be that which the Godhead desires one to be, second, it is a state of “listening grace” to accept the directions of the individualized I AM Presence and the Masters who desire to help such a one. Sincerity alone is not sufficient to express divine purity. I, as Saul of Tarsus, was sincere in my conviction that persecution of the Christians was a great service to life.

“Grace” came to me through the kind visitation of the Lord of the Christian Dispensation, beloved Jesus, and **THUS MY SINCERITY WAS ILLUMINED**. I was then enabled to use my developed quality of sincerity to further, rather than obstruct, the fulfillment of the divine plan. There are many etheric records in a soul who has lived for many ages of time. These will often prod the individual to courses of action which are sincere in motive but yet impede the progress of the divine plan. Wise is the chela who invokes the assistance of the Divine Beings who can help him to know, feel and express his own divine plan, rather than emphasizing what, to his limited consciousness, is the right thing to do!

JESUS

Truth and purity are almost synonymous so far as manifesting the divine pattern of the Godhead is concerned. Before taking embodiment it is quite easy to see, cognize, accept and desire to cooperate with the divine plan. Thus, so many volunteers embody with zeal and enthusiasm, determined within themselves to forward the evolution of the race. Destructive karma and personal impurities, however, often impel such dear ones to distort the vision and design when once they are embodied and placed in a position wherein they may be of real assistance to the Father and his Spiritual Brotherhood. Now we are engaged in a world endeavor to remove from those who really desire to serve God, the causes and cores of those impurities accumulated through the ages. Then the victorious outer manifestation of the divine plan to which they have dedicated themselves at inner levels, will be expressed more quickly and God's will be done on Earth as it is in heaven!

SAINT GERMAIN

One of the great activities provided by the Cosmic Law of Mercy and Love to purify the inner and outer vehicles of mankind is the Violet Fire of Mercy and Sublimation. It is my honor to assist any sincere student to use this Violet Fire if they will ask for it! The Violet Fire is a natural element (invisible to most) but nevertheless powerful in purifying the substance that the individual has drawn into the forcefields of the electrons which make up the atoms of the four lower bodies. Please invoke its use! I shall help you!

MONTHLY LETTER TO TRANSMISSION FLAME CLASS

February 16, 1957

I AM grateful that the experiences of life are such that you want, at last, to complete your cycle of birth and rebirth and are willing to cooperate, according to your light, with those who can and will help you.

Do you realize that a chart of the progress of the average man over the period of a year would look like the rise and fall of the sea—every constructive emotion, thought, memory, word and action raising the vibratory action of that lifestream and, conversely, every discordant activity lowering it again? We are in the process of teaching you how to sustain that ASCENDING CURRENT of energy through the use of your own four lower bodies, directed by your God-given free-will.

A sponsor from the Ascension Temple will help you in this service (if you will call him daily) so that there need no longer be the dip and the rise of the vibrations of your energy, instead, the manifesting of the steady quickening of the vibratory action of all your vehicles. Take advantage of proximity to the Ascension Flame and its faithful Hierarchy, Serapis Bey. FEEL the buoyancy of that flame and allow it to help you. I decree that all fear of self-discipline be removed from you and that the JOY you know in the Ascension Temple will make you continue to visit it until your own beloved I AM Presence calls you “Home!”

Love and Blessings.

Maha Chohan

Statement for Transmission Flame Class of February 16, 1957:

GROUP INSTRUCTION FOR TRANSMISSION CLASS

February 16, 1957

(NOTE: For the last four months we have given you the addresses of the Directors of the Forces of the Elements and this has necessitated the omission of some of our regular material. The "Group Instruction Letter" to our gentle readers is here continued from the Oct. 1956 issue of our "Journal," and also refers to beloved Saint Germain's address in the issue of January 1957. Since the jewel (birthstone) of February is the Amethyst, this material corresponds nicely. Thank you for an understanding heart.)

Beloved Friends Of Love, Preparing The Paths Of Light For Earth's People:

God bless you in your voluntary task of helping to clear the way for those who follow after you, seeking their "home" of beauty, happiness, limitless supply of every good thing and eternal peace, longed and prayed for by all men since the so-called "fall of man." Now, we call upon each one of you individually the full glory of that beautiful, all-powerful Father-Mother God, all the perfection which you once knew with that Father before the world was.

Previously we spoke about God's will being good for all mankind. Then, if God be all-powerful and his will is good, how did his beloved people come into their present expressions of such distress? Because of their use of the gift of free will with which that Father-Mother God endowed mankind in the beginning. That free-will was originally intended to be used to create, sustain and expand only beautiful patterns of substance in loveliness of design and texture for the delightful use of all. When the shadows came upon the Earth and the people forgot their Source as well as the reason for this constructive use of the free-will, imitation of the forms created from the shadows of careless and destructive thought and feeling began to be prevalent, continuing all through the ages, a great deal of the time with less and less perfection. Therefore, mankind themselves are the cause of the present predicaments in which they are living today, all brought about by the deliberate turning away from the God of Love who made them and his way of purity and perfection, which they knew in the beginning.

In order to sustain a magnificent, well-ordered universe such as the one which we can see all around us, particularly at night as we look into the myriad stars which make up the "Milky Way" alone, there must be some regulating Laws which govern them and keep them in their appointed places, manifesting their own perfect divine plan. Just so

were the Laws of Life given to mankind in the beginning of his advent upon this planet, “The Golden Rule” being one of the most important and perhaps, the best remembered of these. “The Ten Commandments” are also a part of those laws and, incidentally, no one ever “broke” any one of those commandments. Mankind have “broken” themselves in health, finances, happiness and in every other way by disobedience to those commandments but “The Ten Commandments” stand today as “unbroken” as they were when first they came forth from God!

Now, there is a very merciful and speedy release and relief from the conditions in which mankind find themselves today, individually and collectively. They have but to consciously turn back again to the loving God who made them and, incidentally, he is not far away! The life of that God-Presence (which is your consciousness!) is anchored right within each one's beating heart and if we will obey the command which has been given us: “Be still and know that I AM, God!” we shall again come to know peace of mind, health of body and supply in our affairs, as we rhythmically continue such a practice.

In the January issue of our Journal, beloved Saint Germain has spoken of “readiness.” There is a very wonderful way to be ready which, perhaps, most folks don't think about. It is the “readiness” to forgive! Since every one of us still abiding in this world has made mistakes and done some wrong to someone, sometime, somewhere, would it not be fitting for each of us walking the Path of Light to train ourselves this year to be “ready,” ready to forgive, especially if that feeling does not come easily to us? You know, “To err is human, to forgive is divine.” When someone asks for forgiveness, let us be quick to give it for in this way, we gain quicker forgiveness of our own mistakes from the Great Law. Remember Jesus' prayer: “Forgive us our debts as we forgive our debtors . . .” and just so does the Law act, dear gentle reader. If you find it difficult to forgive yourself and others, use, use, use that blessed Violet Transmuting Flame every day and accept its feeling of Christ forgiveness, for that is its very nature! Try it! It costs nothing and it works! The persistent use of that flame will make and keep us all ready to fulfill our divine plan here and then “enter into the joy of our Lord” at the end of the trail!

Making ready for greater service to life,

Frances K. Ekey

MY WONDERFUL ONE

My wonderful one. Thou adorable presence
Of God, anchored now in my heart:
In beauty supreme and in power majestic,
The source of my being thou art!
I now humbly bow at the throne 'of thy glory,
Surrendered forever to thee!
Let all life adore thee, my life I live for thee,
Thy victory fore'er let me be!

My wonderful one, blaze thy Violet Fire through me.
Forgiveness divine let me feel,
Protect and perfect, all my bodies illumine—
And teach me God only is real!
Completely possess and control me forever,
Blaze through me thy light from the sun,
Thy power revealing, release Mercy's healing,
My wonderful, wonderful one!

My wonderful one, blaze thy glorious light rays
In, through and around all I've met,
There let it transmute every wrong and injustice,
Make all human shadows forget.
Then fashion a gift from the good of my lifestream,
From my Causal Body of light,
Give ten times the blessing of error's oppressing—
By love, make and keep all things right.

My wonderful one, let all heaven's love bless thee
As God's divine plan is fulfilled,
Then send me thy love in its mightiest power
To make me perfection, God-willed!
Oh, Great Central Sun, through our Helios and Vesta,
Bless my Holy God Self—"I AM"!
Our consciousness blending, at last I'm ascending
To Thee, my own wonderful one!

Melody: "My Wonderful One" (Popular song)

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
with the Great White Brotherhood and Cooperative World Service

MARCH 1957

TO THE COSMIC REPRESENTATIVE OF COMFORT TO THIS EARTH, OUR LORD MAHA CHOCHAN

Blessings of all the sons and daughters of heaven who have found inspiration to continued endeavor and have attained their ascension through your grace! The blessings of your seven sons (the seven Chohans) whom you have counseled so wisely and taught so well. We, particularly, thank you for your PATIENCE and your wisdom!

The blessings of all mankind, who (for the most part) draw on your merciful comforting flame without even knowing of your reality and presence in this universe!

The blessings of all the kingdoms of nature which receive the direction toward productivity and recreation through your life!

The blessings, of all the disembodied from whom you have gently received their final breath, giving them merciful surcease from the rigorous experiences of earthly embodiment!

The blessings of the new-born into whose nostrils you have breathed again the breath of life, giving opportunity of experience and service in this world of form!

The blessings of the four-footed creatures who have not the ability to bless you audibly and of the lovely bird who can sing, praise to your name!

All evolutions in the earth, on the Earth and in its atmosphere give praise and thanks for the comforting presence of your blessed self! God, the Cosmic I AM Presence, bless you! We love you and decree that we shall prove that love in works well done on all planes, according to the will of the Father of all, which Father you live to serve and whose nature you embody, sustain and radiate to us all.

Thomas Printz, Editor

The Homes and Retreats of the Masters of Wisdom
TEMPLE OF COMFORT, ON THE ISLAND OF CEYLON
(March 15th through April 14th, 1957)

The planet Earth, like all planets in our solar system, requires the actual presence, vibratory action and radiation of all the virtues of the Godhead. One such virtue which is particularly required by man and beast alike today, is Cosmic Christ Comfort. How are these virtues anchored into the emotional, mental, etheric and physical strata in which the Earth abides? By the magnetization and radiation of that virtue by some Being who is, in himself, capable of cognizing that virtue, drawing it through the consciousness of his own lifestream, and, finally, sustaining the radiation of that virtue, despite the discordant vibrations of the inner and outer atmosphere of this planet.

From the time when the first man and woman found themselves capable of creating a dissonance in the harmony of their own life-flow of energy, the requirement for volunteers to magnetize and sustain the connection with the higher realms was apparent. Thus there is literally “channeled down” from the higher realms the many virtues of God. These virtues are consciously projected forth into the lower atmosphere of Earth and create a balance of constructively qualified substance against the riptides of humanly qualified energy, thus enabling the Christ to live in the hearts of man, hoping for resurrection in a New Day.

Our Lord Maha Chohan is one of these great spirits who, through aeons of time, has concentrated his energies to magnetizing the quality of comfort. He has created in his causal body and aura a great store of the feeling of comfort and, finally, after many experiences, lives on Earth—(wherein his capacity was developed to magnetize and radiate comfort, no matter what the external or internal pressures of discord might be), he qualified to become the representative of the Holy Spirit of God for this Earth and its attendant evolutions. He is not the first Great Being to act as a “conductor” of the Holy Spirit to those who seek its comforting grace, nor will he be the last to so serve. His very name “Maha” (Great) “Chohan” (Lord) is the title of a spiritual office and, as he himself prepares for even further development, (those preparing to qualify for his present office also moving forward), he will ascend into greater cosmic service.

His focus at Ceylon is the meeting-place of the spiritually elect throughout the world. On the surface of the Earth he owns a tea plantation, run according to the laws of this world and only one or two

trusted servants know the Master of this plantation as a Cosmic Being. Beneath this plantation is his glorious retreat, his council chambers and his study rooms for those qualifying to become comforting presences to life. He often visits his plantation, taking the form of a high Indian nobleman. Here he gives his wise counsel, when asked to do. Many unascended are aware of this “wise men” of the East but few, indeed, know the true identity of their gentle host and counselor.

In their finer bodies, many members of the human race visit his retreat, receiving training in the control of energy and the qualification of that energy with comfort, peace, healing and supply. This training is recorded in the etheric garment usually and the outer consciousness remembers only the feeling engendered by proximity to his presence and his Brotherhood of Comfort. Yet, these good people are disciples of the Holy Spirit and manifest it in their particular services along the various channels of constructive endeavor in the outer world.

Under our Lord Maha Chohan, seven beings serve, the seven Chohans of the rays, each specifically manifesting one of the virtues of the Lord Maha Chohan. These seven Chohans come to him for assistance, counsel, guidance and authority to expand their service to those who serve under them, under the ray to which they belong. Our Lord Maha Chohan is also vitally interested in the kingdom of nature and its Mighty Directors. Every intelligence, from the smallest elemental to the greatest angel, enjoys the radiation of comfort that flows through him and enters their world. Any and all who wish to become comforting presences to life are invited, particularly at this season, March 15 thru April 14, 1957, to visit him at this retreat.

Proximity to this consciously magnetized virtue of comfort increases the individual's own spiritual development of a like quality in himself. We who have had the privilege and honor of serving with him, can only recommend, that you ask him for his assistance. Then consciously feel (accept) his grace. It is the same grace which descended upon the disciples at the first Whitsuntide and the grace which has flowed like sweet perfume from the auras of those blessed ones through the ages who have dedicated their lives to comforting the people of Earth and its attendant evolutions. Be assured that this grace is not a projection of WILL to do right but rather a projection of LOVE to do right. As this temple has been described previously in issues of “The Bridge,” we shall not repeat ourselves here. Speed yourselves to the presence of comfort! Abide in that presence! Return to your personal orbits filled with that comfort and, then, radiate that virtue to all about you!

Thomas Printz

THE KINGDOM OF HEAVEN IS WITHIN YOU
Address By Our Beloved Lord, The Maha Chohan

Dearly beloved children of the one Eternal God, seeking again your way back “home,” where is that “home”? it is really just a state of continued, uninterrupted harmony in which we abide. “Home” is where the feelings, the thoughts, the memories, spoken words and actions are in complete harmony with the Music of the Spheres at all times, with the Godhead and with one's fellowman. To maintain this state of uninterrupted harmony within one's four lower bodies (physical, etheric, mental and emotional) is the choice of one's free will.

We who have gained the glory and the victory of the ascension know the peace which is experienced by those who dwell within the absolute harmony of being. At your call, we direct our energies to you, as well as our spoken word when given opportunity so to do and there is always available to you, for your acceptance and use, all the radiation of the full-gathered momentums of perfection which are within our Causal Bodies. Now, if you were to use your free-will to direct and hold your attention often enough and long enough upon us, daily, thus drawing forth into your world here the perfection which exists in our realm, you would find that there is absolutely nothing else important enough to allow it to change the vibratory action of your consciousness, by allowing discord to register there.

So, you have a very simple key to the attainment of your own ascension. That ascension is not accomplished in a moment but over the course of many lives through the bringing of your thoughts, feelings, memories, gestures, spoken words and every activity of the outer self into a state of sustained harmony. Then, at any moment, should the Great Masters of Light desire to use you as a conductor of their light and through you give some blessing to the life around you, their light will find no opposition or resistance from any impurity in your world. After all, such impurity is only a lack of harmoniously qualified energy in your four lower bodies. When the complete purification of those bodies finally has taken place and sustained harmony is your natural way of life, then will the glories of your Causal Body flow freely through your silver cord into your outer consciousness and use, then will the immortal Three-fold Flame expand within you filling your aura with perfume and radiance, then will you individually become those channels of love and light, prosperity, healing, peace, comfort, truth and faith and every God-virtue which this world desires and requires so much in its present state.

We are working toward the establishing of such radiating centers of God-love and light through unascended lifestreams who still belong to the emotional, mental, etheric and physical bodies of mankind and we are endeavoring to teach your outer consciousness how to become such centers. When we can have a collective group who are in such sustained harmony and accord, know their reason for being, desire that sustained harmony more than the enjoyment of having their own way, then we will have a group-center for a sphere of influence and a forcefield which can become world-wide at a moment's notice. Through such centers and forcefields, the God-beings will then be able to direct their specific momentums of perfection into the consciousness of unascended mankind for the blessing and upliftment of the race.

The kingdom of heaven to which Jesus referred when he said that that kingdom was within you, we might call the "kingdom of harmony," for all is complete and sustained harmony in that realm in which we abide. Long ago, having victoriously passed through the same Earth experiences as you are encountering today, we have earned the right to live here. That kingdom of harmony is also within you and, by the complete surrender of your outer consciousness to the immortal Three-fold Flame of love, wisdom and power within your beating heart (listening for and obeying the 'still small voice' within it) you allow its full God-authority to act for and through you. You then allow its authority to produce and sustain for you peace in your feelings, your minds, your etheric as well as your flesh bodies.

In just such a manner was the beloved Jesus enabled to instantly still the waves of the sea. As you daily practice this surrender of the outer personality to the flame within, you will find that the kingdom which is within you will then be externalized through and around you. Then you will move in a "charmed" world, magnetizing into your daily practical use, whatever you require at the moment from your God-partner above (Cosmic Beings, Ascended Masters, angelic hosts and all who abide there in the realms of Light). Thus are you in a position to radiate and send forth those blessings to your fellowman, with no thought of self-acclaim.

TEMPLES ON ATLANTIS AND LEMURIA

By The Beloved Maha Chohan

Beloved ones, you have heard something about the beautiful Temples of Light which have been active on this planet in the past. Of course, there were foci of the flames of the Sacred Fire upon the continent of Lemuria where the Ascended Masters and the angelic Hosts walked and talked freely with the priesthood there. This Priesthood was made up of men and women who were highly spiritually evolved and who were able, through the developed powers of the Sacred Fire which was anchored within their own hearts, to magnetize from the Ascended Masters' Realm certain God-gifts for the blessing of the entire race.

This magnetized radiation of perfection kept Earth's atmosphere filled with the FAITH of the First Ray, with the ILLUMINATION of the Second Ray, with the LOVE of the Third Ray, with the PURITY of the Fourth Ray, with the CONSECRATION TO SERVICE and the POWER TO CONCENTRATE of the Fifth Ray, with the PEACE and desire to continue to MINISTER TO MANKIND of the Sixth Ray and a conscious realization of the POWER OF INVOCATION AND RADIATION of the Seventh Ray.

All these God-qualities were constantly charged into the atmosphere of our planet and were naturally breathed in by all the people, even those who did not belong to the temples and who were not consciously consecrated to the magnetizing and radiating of these centers. If you could have seen with the inner eye, each of these temple-centers was like a beautiful Sun of Light, its radiation constantly releasing from it, creating a charged atmosphere about it, just as the retreats active on the Earth today, create an atmosphere of God perfection about them by the radiation of their own specific God-virtue.

Before the continent of Lemuria sank beneath the waves for purification, the priests and priestesses of the temples were warned in advance of the coming cataclysmic changes and various foci of the Sacred Fire were transported to other landed surfaces of the Earth which were not concerned with this particular cataclysmic activity. This was a similar procedure to that which has been described to you previously as the way in which the priests and priestesses of Atlantis also transported the flames of the Sacred Fire to safer locations before that continent also sank beneath the sea.

In the case of Lemuria, before that continent sank, many of the priests and priestesses brought the foci of the Sacred Fire which they guarded, to that great continent of Atlantis. There they focused and

sustained those flames over quite a period of time in a certain location to which they had been directed, during which time that priest or priestess, with his group around him, continued daily to invoke the flame which was their particular responsibility. Thus they charged magnetized the atmosphere of the entire locality and the very substance of Earth itself at those points.

After a time, before Lemuria went down, certain of these priests and priestesses returned to their homes on that continent, volunteering to go down with it and its people, giving the assistance of their radiation of confidence, comfort and fearlessness to them. They offered this help to counteract the fear which always comes with cataclysmic action. These loving benefactors, by the radiation of their God-controlled energies, literally, blanketed the auras of the people in their feelings of confidence and a freedom from fear so that the etheric bodies of those lifestreams would not be too badly scarred, thus saving those people, in coming embodiments, from having to experience the tragic results of such fear.

Re-Establishing Of Flame Foci

Just before the Atlantean Age came to its perfection, many of these same priests and priestesses re-embodied on Atlantis and, being in possession of the glorious God-gift of consecutive memory (remembering all experiences from one life to another) were able to find the locations where they had previously established the momentums of the flames which they had brought from Lemuria long ago. These priests then drew around them, in those locations, others who had served with them while the Lemurian Age was at its greatest height.

As the beloved Serapis Bey has already described to you, THE FOCUS AND RADIATION OF FAITH WAS ANCHORED THROUGH THE TEMPLE OVER THE PRESENT LOCATION OF PHILADELPHIA AND MY OWN FOCUS OF THE COMFORT OF THE HOLY SPIRIT WAS ANCHORED IN, THROUGH AND AROUND WHAT IS PRESENTLY KNOWN AS LONG ISLAND, NEW YORK. IN THE MIDDLE WEST WAS THE FOCUS OF MY BELOVED TWIN-FLAME, PALLAS ATHENA AND THE RADIATION OF COSMIC CHRIST TRUTH.

Now, beloved ones, during the Atlantean days, many, many of the laggards of the system came into embodiment here and so we did not have the pure, glorious, pristine perfection which we had in the Lemurian Age, because these individuals became what you might call

the priests and priestesses of black magic. Therefore, there began to be two forms of temple worship, the first was that served by the true priests who remembered the perfection of the temple service and radiation from Lemuria. These lifestreams consecrated to truth, were able to consciously contact the realms of Light and the Cosmic Beings, Ascended Masters, Archangels and all who abide there. To a great degree, they were able to sustain and expand the Atlantean culture, bringing it to great heights of perfection.

Then there was the other group who were the charlatans. They also had built magnificent temple buildings and had a great show of religious worship. However, there was within their consciousnesses seeds of discontent and disharmony and, although many of them were trained in the powers of invocation, they used that power to invoke certain evil forces which had been generated by the discordant thoughts, feelings, spoken words and deeds of the laggards who were the guests of Earth's people. That radiation also went out into the atmosphere of Earth as well as the radiation of good from the Atlantean Brotherhood which was the true priesthood of Light.

One day, when you are privileged to read the scrolls in our possession which record authenticated historical data (some of which Luxor, some which are guarded by beloved Himalaya and some are under the care of God Meru) I think you will find that the Atlantean civilization was really the greatest struggle between the powers of light and darkness that this Earth has ever seen. It was the beginning of two factions, both of which professed obedience to God and his will. The charlatans exercised the destructive use of free-will and through this certain powers of evil were set into motion which affected great masses of people destructively.

ATLANTIS WAS ONLY ONE OF THE CONTINENTS ON THIS PLANET AT THAT TIME, even as your North American continent is one of the continents here now. In those days, as the lifestreams came into embodiment on Earth through the gates of birth, they were required to exercise considerable discrimination, discretion and alert spiritual insight in order to be able to determine within themselves which was the true and which was false and to decide with which activity they would ally themselves.

During the tremendous flourishing of the Golden Age on Atlantis, the priesthood who held true to the divine principles of the God-virtues of light, truth, purity, were in supremacy and the magnificence of that age was well known to all. It was a simple thing for the high priest (or

any of the other twelve Priests who worked closely with him) to levitate their bodies from place to place and therefore it was no problem for them to quickly traverse the distances between the Temple of Truth, the Temple of Comfort, the Temple of Protection, or any focus of the flame which they desired to visit. These priests, levitating themselves to a given central focus, often conferred together, discussing the activities which would be of the greatest benefit to the whole. Then, returning to their own temples, they continued their own rites of service to the Light.

These rites consisted of each priest through his attention upon certain Ascended Beings and foci of their activities and radiation in the Ascended Master Realm, connecting the flame in his own heart with those Beings and activities. Thus such a priest magnetized the currents of the God-qualities from the higher realms until he, himself, became a veritable Sun of such perfection here. As they did this, they of course built into their Causal Bodies a tremendous momentum of the substance and color of the particular virtue which they were representing.

You see, at first, the Lords of Karma (and those who govern birth upon this planet) allowed only the purer lifestreams into embodiment here and they held back from physical embodiment for a time, those very dominant destructive lifestreams until the constructive activities of the Atlantean Age could be built to a certain perfection. However, when the greater number of these laggard lifestreams were permitted to embody here, the natural affinity of their own vibrations connected them with those temples which were not conducive to the development of the divine nature in man.

BECAUSE THAT PRIESTHOOD HAD DRAWN TO THEMSELVES MUCH POWER WHICH THEY HAD QUALIFIED DESTRUCTIVELY, IN THEIR TEMPLES THE PEOPLE LEARNED CERTAIN ACTIVITIES OF BLACK MAGIC, CERTAIN ACTIVITIES AND POWERS OF PRECIPITATION AND WERE ABLE THROUGH THE PROJECTION OF ENERGY, TO CONTROL THE THINKING AND FEELING OF THE MASSES OF THE PEOPLE WHO LIVED AT THAT TIME. The great Atlantean culture then began to decline as more and more of the populace became aligned with those temples and their priesthood.

At that time, there was really very little that could be done to stop these destructive activities because, through his God-given gift of free-will, every individual has the right to choose that which he desires of life and many of the people then were seeking individual power and the capacity to control great numbers. Most of the dictators which have

risen, even those whom you can trace back through your very limited history-were trained in the power of mass hypnotism in these temples in Atlantean days. They could not lose that power because the records and radiation of its past use were still registered within their etheric bodies.

THEN, THE SINKING OF VARIOUS PORTIONS OF THE ATLANTIAN CONTINENT BEGAN UNTIL ONLY THE ISLAND OF POSEIDONIS WAS LEFT. There the true Priesthood remained with their Temples of light. After a time, here too the shadows of human discordant creation increased until the Great Law said that even Poseidonis deserved a rest from human discord and was also to sink beneath the waves. The Priesthood prepared again to carry the flames of the Sacred Fire which their very life had guarded for so long, to various other points on the landed surface of the Earth which would remain untouched by the cataclysmic sinking of that island. Serapis Bey brought his flame of the ascension to Luxor in Egypt, various other Great Beings carried their flames North, South, East and West and, so far as the outer world knew, the days of Atlantis were over.

Transmission of the Sacred Fire Through Forcefields

However, there remained always among the unascended lifestreams still belonging to Earth's evolutions, those who had aligned themselves with one or the other of these temples of the past and who have a background of spiritual training along specific lines of religious worship and service all through the ages. From time to time, these unascended lifestreams build as best they could from memory, the glorious temples in which they served and worshipped on Atlantis. There are in embodiment today (and there will be more born in the future) others who so served and who will assist in the creation of the glorious perfection of Saint Germain's Cosmic Day.

The unification of energy by which constructive activity takes place is the delight of the ascended and angelic hosts and, even in the human octave, the lifestreams who can draw and sustain the cooperative endeavors of a number of individuals can effect a greater blessing, whether it be through an entirely commercial venture or a spiritual endeavor. In our octave, we are constantly looking for opportunities to utilize the energies of great numbers of people when they are drawn together and their attention is focused upon some constructive activity.

It was so that Serapis came upon the idea of utilizing certain musi-

cal activities to draw the prayers and aspirations of the human race all together and then by the power of God-beings, raise that energy out of the realm of hopeless supplication into the positive demand and command for a return of the blessings of divine love which would be of specific benefit to the race.

The heaviness of most prayers and the hopelessness of most heart-cries so qualifies that energy that, as you know, they seldom are able to rise out of the lower atmosphere of Earth and would not, if it were not for the intercession of the angelic host who are particularly under the direction of Lord Michael. These angels are dedicated to literally gathering up these prayers in receptacles which they carry to the throne of grace in the realms of Light, for answering. The service of the angelic host is not only to bring the God-virtues earthward, but to carry the aspirations of mankind heavenward and they are constantly working on the ascending and descending rays to this end.

The individual lifestream accepts the responsibility for the qualification of energy in each of the seven spheres, in each one of which one of his bodies functions. There is a heart-focus in the Electronic Body, the Causal Body, the Higher Mental Body, (Christ Self) the emotional body, the mental body, the etheric body and the physical body. Each of these seven bodies is constantly contributing, by the qualifying power within its own intelligence, to the activities and the actual atmosphere of the sphere in which each one of these bodies functions.

When the ray from the Presence passes through the seven bodies, the essence of life which it carries is in its natural pure and unformed state and the responsibility for the qualification of that energy is voluntarily assumed by the incarnated lifestream, knowing full well that, under the Law of the Circle, everything that is sent out will return with more of its kind.

For a Master to assume the responsibility of keeping any of the bodies belonging to an individual from qualifying energy according to the dictates of that one's own consciousness, would be to create an automaton and contradict the actual purpose of the Father in allowing (through experimentation) the individual's right to draw and qualify energy and in so doing, to develop control and mastery through love in all the seven spheres.

The inner bodies and consciousness of each lifestream are always subject to the qualifying power of the consciousness, therefore the energy voluntarily released in any of these spheres is bound to be colored

by the consciousness and development of the seven instruments which form the creative centers for the lifestream. There are certain tendencies within the nature of the individual which act almost automatically and the energy passing from the Presence through the hearts of the seven bodies is literally catapulted into the sphere in which that body dwells, creating form, color and sound simultaneously.

Our project has drawn the interest and co-operation of intelligences who, for countless aeons of time, have occupied themselves with the drawing of the primal life essence into their consciousness, then qualifying it with the particular God-virtues which form the nature of divinity. Thus primal life, magnetized through love, becomes the Sacred Fire of Purity, of peace, of healing, of supply and so on, indefinitely, through all the God-virtues. This Sacred Fire is already qualified God-life awaiting use through the channels of unascended incarnate lifestreams when called forth!

Do you see the opportunity herein? An individual may call forth primal life essence and, through the agency of thought and feeling, endeavor to qualify that life with power and efficacy to manifest perfection. True! However, such an individual can have the full use of already qualified life, if he will connect with us by his attention and accept our momentums of the Sacred Fire already prepared and awaiting claiming.

It was my idea to create strong forcefields made up of individual lifestreams drawing together in co-operative endeavor and when they have proven themselves by constancy of service and sustained enthusiasm, use these forcefields to conduct the qualified powers of the Sacred Fire through them into the world at large.

These Transmission Classes are now ready for this experiment. The breath of the students forms the forcefields, the energies incorporated in the meeting determine the size of the periphery of the field (smaller or larger according to the directed co-operative energies of the group). The quality of the consciousness determines the invocative power to magnetize the Sacred Fire and the ability of the leader to hold a concentrated picture of the actual flame and service in the retreat, determines the projective power of the group. Naturally, the Ascended Sponsor does much to assist as yet, but we are endeavoring to concentrate the responsibility and opportunity for God-expansion through leaders and students themselves.

Activities of Cherubim

The activities of the great Cherubic host are particularly concerned with the guarding of the qualified energy which is to be utilized by the Intelligence of the Godhead for a specific purpose. All of the energy and vibration within the electronic light is the body of God and the self-conscious Intelligent Beings, ascended or unascended, who dedicate themselves to a cause by which the race or the evolution of a planet will be benefited, is the qualifying power by which this energy becomes a specific momentum which can be utilized at a cosmic moment.

To sustain the energy within a “Cup” or “Chalice,” Great Beings volunteer to ensoul that energy and keep it from returning into the primal state of the universal light, because the nature of the flame is to rise into the higher realms. Thus, when a Great Being becomes invested with the responsibility of embodying a quality of the Godhead and, through his very self, awaking a like quality in any sphere, a member of the Cherubic host volunteers to hold the drawn, concentrated and qualified energy of such a one and all the contributing energy of those lifestreams which the sponsor can interest in a similar cause, becomes the momentum which builds until the hour of fulfillment is at hand. Then through the heart-center chosen to be the channel or faucet for its release, the gathered momentum of the ages flows and the life of the planet is enriched thereby.

It is just such a service which has been rendered by that Great Being whom we have revealed to you as Cherubim Lovelee. She is really well known to each one of you who has contributed through the centuries to her priceless store of light. (Note: “Cherubim Lovelee” is the beautiful and powerful guarding cherubim of channeled light and love which enables the Ascended Masters' instruction and radiation to come through our beloved “contact” for this new activity of beloved Saint Germain and beloved Morya. The Great Cosmic Angel “Micah” was such a guard for the Jewish Dispensation under Moses.)

THE MASTERS OF WISDOM SPEAK THE LAW OF THE CIRCLE

MAHA CHOHAN

The use of primal life is a gift given to each self-conscious intelligence by which that intelligence (with discrimination and wisdom) may

learn to qualify that life in a manner that radiates comfort into the universe, bringing back similar comfort on the return current of the sender's qualified energy. The initiative of the individual intelligence in the use of primal life prompts him to qualify that God-gift, send it forth, feel the result of its return and thus, through experimentation, learn the joy of using life constructively. This initiative is another gift of the Giver of Life—free-will. Without free-will and discriminative selective powers of thought and feeling, no intelligence could become a conscious co-worker with the Cosmic I AM Presence and those who serve with it in expanding the nature of God on every plane.

EL MORYA

It is the opportunity and obligation of the Brothers of the First Ray to help any self-conscious intelligence to find within himself the will of God. It is not our purpose nor our service to cause any such intelligence to lean upon us for directions, which would ultimately weaken, rather than strengthen, the development of that intelligence. We KNOW God's Holy will and, when invited, offer suggestions and counsel which any individual is free to accept or reject, according to his own development and capacity to receive the wisdom therein.

No true Master or Guru (ascended or otherwise) will weaken the discriminative faculties of the chela, but rather, such a one will strengthen and encourage the development of such faculties by gradually directing the outer self toward the chela's own intelligent mentor within himself (the Holy Christ Self). Many, however, use this very freedom to exploit and externalize some personal motive. The few expand in consciousness and grace through proximity to the Master and the manifest expression of such expansion of divinity is true humility which radiates from the heart and is not a garment thrown over the deceptive vesture of spiritual pride and desire for “place” in the world of form.

KUTHUMI

The Law of Cause and Effect is really a tremendous opportunity for the individual to learn how to use the priceless gift of life. By the distress he experiences after placing his hand upon a hot stove a child learns to avoid burning himself in the future, so does the student of life learn how to avoid setting up causes of future distress through the generation of inharmoniously qualified energy in anyone of his four lower vehicles. Such a one then is not struck by the impact of returning energy of an unhappy and discordant nature. THE MORE ADVANCED

THE STUDENT, THE QUICKER DOES THE ENERGY SENT FORTH BY HIM
RETURN WITH MORE OF ITS KIND.

PAUL (THE VENETIAN MASTER)

Even physical science now agrees that all form is in constant motion, including so-called inanimate objects. They have explored the nature of form only in the physical world. The pioneers on the spiritual path discovered that all form on the higher planes is also in constant motion. The radiation directed forth from that form takes on the quality of the self conscious intelligence who is directing it, or, if it is a so-called “inanimate” object, the radiation released from it is that of its designer and possessor. Therefore, when we counsel you on the development of more and more divine love in your nature, we know whereof we speak.

We see the movement of your energy through thought, feeling, spoken word and action and we know that the movement of that energy will be in circular motion. Thus, if this energy is allowed to go forth inharmoniously qualified, the sender of that energy will experience distress on the return current of his own energy. Also, may I say here, that one should be very careful of those so-called “inanimate” objects which previously have been in the possession of a rather destructively inclined nature. This is because the sensitive energy in such objects has taken on obediently the vibratory action of such a one and radiates that vibratory action into the world of its present possessor.

Through the knowledge and the use of the Violet Fire of Transmutation, such objects can be purified. They can be re-polarized through love and thus be raised to a more perfected state. However, indiscriminate acceptance of gifts and objects without this process of purification draws much unnecessary distress into the worlds of individuals. Even your present means of exchange (money)-affects its receiver according to the manner in which that money was accumulated and the feeling with which it is given. Places of occupation likewise become saturated with the energies of all who have served there and should be purified daily by the conscious use of the Violet Fire in order to remove any radiations of imperfection charged into the substance of that place.

Then such a place should be consciously charged with the quality and feeling of pure divine love. Many scoff at the admonition to purify the substance in which they move. Yet, remember that all substance is intelligent and is both absorbing and radiating constantly!

SERAPIS BEY

One of the easiest ways of showing the chela the truth of the Law of the Circle is practiced in the Ascended Masters' Retreats. A circle of energy is formed around the periphery of the emotional world of the student and then he is allowed to project his energy forth within that circle. When the chela's energy touches the periphery of this circle, it literally bounces back and the chela instantly feels the result of his own qualification of life. In the usual course of life, no such small periphery is provided and the length of time through which the individual passes is such that he has forgotten the cause set up within himself which produced the unpleasant effect.

Then, as a rule, he is surprised and rebellious when the circular current returns as a distressing experience. In our schoolrooms at inner levels we have set up laboratories as described above, wherein any individual desiring to learn the truth about the action and reaction of energy may experiment in a small concentric ring which returns his energy quickly. I decree that this manner of teaching may soon be made available to the earnest chela outside the retreats. It surely would teach quickly the wisdom of right qualification of primal life.

HILARION

We are well pleased with mankind's recent scientific research which has discovered the constant motion of all energy. The metaphysical discovery of such motion on all planes will soon follow. Then man will know the truth of beloved Jesus' words: "As a man soweth, so shall he also reap." THE FACT CANNOT BE TOO STRONGLY EMPHASIZED THAT ENERGY, FROM THE SMALLEST NUCLEAR CENTER TO THE GREATEST SUN, IS INTELLIGENT, also, the fact cannot be stressed too much that energy is obedient to the creative centers in man. The qualification of energy creates a cause, that cause is directed into the universe and creates an effect. The effect is directed back toward its creator and the creator's reaction to that effect (emotionally, mentally, etherically or physically) creates another cause. Thus you have circles within circles.

Accepting the return current of energy as having emanated from oneself, the creator then learns quickly that it is wise only to send forth from his world constructive causes, also that he should receive gracefully the effects of previous causes and not start a chain reaction whereby a new series of both causes and effects are set into motion. Some earnest souls have misinterpreted this Law by just accepting the distressing return of their own misqualified energies, piously saying, "It

is God's will"! Others rebel and cry: "There is no God"! These are two extremes of human reaction which must be illumined and corrected by the Brotherhood of Truth through patient teaching, counsel and example!

JESUS

My mission came at the close of the Mosaic Dispensation wherein the doctrine of "An eye for an eye and a tooth for a tooth" was accepted as Law. It was my service to teach the possibility of transcending personal karma through the use of mercy and forgiveness. My words (St. John 20:23) "Whosoever sins ye shall forgive, they are forgiven, whosoever sins ye shall retain, they are retained." This power of forgiveness applies to every man. When an individual chooses to retain grievances against persons, places, conditions or things, he retains the distress. When he chooses to release such grievances, the erring party, as well as the forgiving one, performs the mystic rite of transmutation of the disharmonies which tie lifestreams together for centuries, making both bitterly unhappy by such restraining bonds. FORGIVE! FORGIVE! FORGIVE! Thus you shall set yourself and all who have injured you free from unhappy bonds that must be transmuted so that all the individuals involved may rise to greater freedom and happiness!

SAINT GERMAIN

The knowledge of the presence of the Violet Fire, its use and the feeling of the acceptance of its efficacy are so important to the earnest chela. Mercifully, individuals do not remember all the various activities in which they have been engaged through the ages. ENERGY, HOWEVER, DOES REMEMBER AND REMAINS QUALIFIED BY ITS ORIGINAL CREATOR UNTIL IT IS CONSCIOUSLY TRANSMUTED. The human kingdom, the bird life, the nature kingdom and the animal kingdom are all bound by innumerable connections created through aeons of association. The safest and surest way of freeing the soul from the fetters of unpleasant associations (some of these having occurred in former embodiments) is to sincerely and deeply call on the Law of Forgiveness for all misqualified energy all the way back to the time of one's individualization and to ask the angels of the Violet Fire to assist such a one to truly want to forgive and then truly accept forgiveness.

Thus the Law of the Circle can be a happy experience, when the student creates and sends forth only constructive causes and then subsequently reaps, of course, only happy effects. Slowly but surely there

is dawning in the outer consciousness of the comparatively few interested in the use of the Violet Fire the realization that the power of transmutation (perfecting the quality of one's own returning energy or projected energy from another lifestream) is a possibility. By practice, the outer self will become more cognizant of such power of transmutation and the binding laws of karmic retribution will no longer restrict the aspiring lifestream. The individualized I AM Presence WILL HELP in this transmutation when called into action to do so and thus save the outer self even the knowledge of much of that wherein he erred. Remember "to err is human, to forgive is divine"!

PICTURES OF DIVINE BEINGS

Instruction from Serapis Bey

Consider the world around you as a moving sea of energy. Have you ever tried to see your image in water that is violently agitated? That is the position of the artist in endeavoring to create the impression of a Divine Being, either seen through clairvoyance or within his own consciousness.

Then too, let us take into consideration the etheric memories of such an artist such as previous training in various schools of art, proximity to Masters and angels in past ages, as well as the subtle influence of already presented pictures which are recorded through the avenue of human sight. All of this conglomerate mass forms the effluvia through which the artist endeavors to place, on a two dimensional canvas, the likeness of a three or four dimensional Being. Each artist will, naturally, paint into any picture all of the above influences. However, the Divine Being so depicted uses all constructive reproductions of himself as a channel through which to pour his blessing, from the roughest hand-hewn crucifix to the most beautiful canvas or piece of sculpture.

There should be no confusion in the minds of students as to the many differentiations in presentation. Just know that the one whom you love is radiating to you (through whatever focus you have of that one) as much of his love, light and blessing as you can receive. For instance, the earlier artists depicted Master Jesus in the harsh lines of the age in which they themselves lived. Later artists, living in more luxurious surroundings, softened his visage. Every nationality and religion has its concept of Deity and you will note that such concept invariably follows the race pattern to which the artist belongs. When the riptides of discordant qualified energy are completely transmuted, art will be

more accurate in expression. In the meantime, BE AT PEACE! If you like one representation of Deity more than another, it is no doubt because you remember such a one in that guise. Discrimination and wisdom lead out of the valley of confusion into the path of serenity and peace!”

MONTHLY LETTER TO TRANSMISSION FLAME CLASS

March 16, 1957

Beloved Ones Seeking To Become A Comfort To Life!

I LOVE YOU for that earnest desire in your hearts. Be assured that I offer you freely all the fully gathered momentum of my own humble endeavors to become, sustain and radiate that comfort, not only in the physical world, but on all planes of consciousness in the Earth, on its surface and in its atmosphere.

Comfort is a virtue that can be magnetized by those who desire it. It is a gift of God to you. In the atmosphere in which you abide it is sustained by our Brotherhood. It shall be expanded through you into the atmosphere around you, if you are persistent enough, constant enough, humble enough and willing enough to become impersonal channels through which this actual rate of vibration can be poured. You have but to ask for it. We give it. This is our reason for being! To you who require comfort, healing, peace and supply, I say: “Come to our Presence! Drink deeply at the WELL provided for your You shall not leave us empty of comfort. This I promise to you in the name of God, I AM.

Love and blessings,
Maha Chohan

Statement for Transmission Flame Class of March 16, 1957 is:

I AM inbreathing Maha Chohan's feeling of th'healing power of th' Comfort Flame

I AM absorbing “ “ “ “ “ “

I AM expanding “ “ “ “ “ “

I AM projecting “ “ “ “ “ “

Hierarchy: Lord Maha Chohan. Color of Flame: Pink and Gold. Musical Keynote: “Homing.”

GROUP INSTRUCTION LETTER FOR TRANSMISSION CLASS

March 16, 1957

Blessed Friends Of Comfort:

In the name and authority of our own beloved God Presence “I AM,” we call in through and around you, your loved ones and your worlds a veritable ocean of the golden-pink flame of Cosmic Christ Comfort from the heart of our beloved Maha Chohan. This Great Being actually embodies the full nature of God himself to our Earth and its evolutions, every electron of energy needed for the sustaining and expansion of life on this planet coming through his dear consciousness and form of expression. His great wisdom shall govern the power and activity of this release of comfort to you and yours so that all is held in perfect balance to fulfill the divine plan.

Everything is more real to one when it penetrates the feelings. So, please try to feel the comforting action of this flame in, through and around you right now. Let it become a living part of your being and world, not only for your own comfort and well-being but that the Maha Chohan may be able to use you as a radiating center of his feeling of comfort to all the life you contact from now on. You can do this if you will, but it requires your daily concentrated attention upon this Great Being (preferably the same time every day). This allows him to intensify the flame in your world so that you just gradually expand more and more of his feeling of comfort as you proceed along the way of light to the Father's house, your eternal “home.”

Real comfort is perfect balance! That which is out of balance for any reason whatsoever, is uncomfortable and in some kind of distress. For speedy healing to take place and be sustained, the patient is made and kept as comfortable as possible. Remember the words of the old hymn “Earth hath no sorrow that heaven cannot heal”? How true! In his great loving solicitude for the comfort and well-being of all his children, God has provided a perfect way and means by which our bodies, minds and all our affairs may be put and kept in perfect divine order and comforting balance.

That “way and means” is the loving, grateful, consistent use of the immortal Three-fold Flame of love, wisdom and power which, by the way, is anchored right within our own beating hearts. Within this flame is the anchorage of the life and light of our own God-Presence “I AM” and this Three-fold Flame invincibly protects the focus of that beautiful God Presence by the dazzling brilliance of its three plumes of flame representing the vibratory action of the qualities which comprise the Threefold nature of God, love (pink), wisdom (gold) and Blue (power).

F. Ekey

LOVE TO ST. PATRICK

(In Loving Observance of March 17)

Our dear St. Patrick in constancy stood
On a green hill in Ireland one day,
Strongly determined to prove, if he could,
Unyielding love would bring Vict'ry's way!
Constant he stood through sun and rain,
Looking to God 'til Vict'ry came!

Not for himself was the service he gave,
But for his people in error's chains,
Hoping to gain dispensations to save
All those he loved from sorrows and pains.
Glorious St. Patrick we adore
Your faith in Vict'ry evermore!

Vict'ry beloved, to your gracious heart
In all love's earnestness we call!
Charge all the lifestreams of mankind a part
With your sweet constancy that frees all!
Bless our St. Patrick there above,
Raise all the Earth to You in love!

APRIL 1957

TO THE COSMIC SPIRIT OF RESURRECTION AND TO THE BELOVED MASTER JESUS

We send gratitude, blessings and praise this Holy Season for the magnificent gift that lies within all life, to restore, resuscitate and resurrect the divine pattern through the seemingly lifeless or decadent form. We send that same gratitude, blessing and praise for proving to mankind that such a power does exist within life. In his ministry, he called forth boldly in the name of God, the perfect expression of life, from all who came to him in faith and asked for such resuscitation.

We bless the beloved mother of Jesus for her tremendous assistance to him during his ministry. We thank the brothers and sisters of the Resurrection Temple who under the direction of the Archangel Gabriel, assist in directing the life-giving, renewing resurrecting power into the lives of those who in faith ask for such assistance.

We bless our Lord Maha Chohan who, through the nature kingdom, gives the proof of the power of resurrection in each recurrent Springtime.

It is our decree that mankind accepting the resurrection in name and rejoicing in each Springtime, shall take this lesson personally and apply it to the resurrection of their own divine natures here and now!!

Thus shall it be! A resurrected Earth with all its attendant evolutions, joining in the music of the spheres and emitting light, love, beauty, harmony, and praise into the universe, of which the Earth is presently a part. Let this Easter be your Resurrection Day!

Thomas Printz, Editor

The Homes and Retreats of The Masters of Wisdom

THE RESURRECTION TEMPLE OVER THE HOLY LAND

April 15th through May 14th, 1957

The blazing focus of the Resurrection Temple radiates forth its re-suscitating power from the etheric realm over the Holy Land, where the beloved Master Jesus lived and proved the power of resurrection at the beginning of the Christian Dispensation.

This temple is created of substance which resembles “mother-of-pearl.” The presiding beings who magnetize and radiate this resurrection power are beloved Jesus and his mother, beloved Mary. The purpose of this focus is to continue to pour into the emotional, mental, etheric and physical consciousnesses of all the evolutions belonging to the planet Earth, the reality of the actual power of resurrection that lies within life itself.

To resurrect means to “bring to life again” that which is seemingly dead. Mankind are witness to this resurrection through the nature kingdom in each Springtime. It is the decree of the Holy Ones who guard the Resurrection Flame that mankind shall also “tune in” to this Resurrection Flame and consciously resurrect the perfection which lies dormant in most human beings.

As the Spring sunshine stirs the dormant life within the nature kingdom, our Lord Maha Chohan sends forth the pulsation of the Resurrection Flame through the Earth and obedient life responds, literally “rising from the dead” in the miracle of Spring.

THE BELOVED MASTER JESUS ENDEAVORED TO SHOW MANKIND THAT WHAT NATURE CAN DO, MAN ALSO CAN DO! HE, THEREFORE, SUBMITTED HIS HOLY, UNDEFILED PHYSICAL BODY TO SO-CALLED “DEATH” AND THEN, THROUGH THE INVOCATION OF THIS RESURRECTION FLAME, HE BROUGHT LIFE BACK INTO THAT SAME BODY AS AN EXAMPLE TO ALL MANKIND THAT WHAT CAN BE DONE BY A FLOWER, A SHRUB OR A TREE, CAN ALSO BE DONE BY MEMBERS OF THE HUMAN RACE.

Mankind, for the most part, have accepted the resurrection of Jesus as a “miracle” only possible for him and have not availed themselves of the use of the Resurrection Flame to restore their own vehicles to perfection, rather submitting to disease, disintegration, decay and finally so-called “death.” However, to keep alive the feeling of the power of resurrection in the consciousness of unascended mankind, beloved Jesus and Mother Mary now continuously send forth into the

atmosphere of Earth that victorious radiation from this temple which is the focus for the activities of the Great White Brotherhood during this thirty-day period.

Individuals sincerely desiring to overcome disease, old age, disintegration and decay are drawn in consciousness toward the Resurrection Temple while their physical bodies sleep, by the magnetic power of their own desire to accomplish that which Jesus did. This temple is particularly beautiful, for it is the focus of the directors of the forces of nature and the lovely elementals representing the four kingdoms—fire, air, water and earth—play in the atmosphere and aura of this temple at all times. The radiation of the Resurrection Temple is like a glorious rainbow of colors and the visitation to it by those God Beings interested in developing the capacity to resurrect the divine plan on this Earth add to its great beauty and light.

The Resurrection Temple is circular in design. It is composed of seven circular corridors around the central altar where the Resurrection Flame rises. As this Resurrection Flame radiates its buoyant, uplifting, life-giving, resuscitating power through the seven corridors, beautiful beings in each of these amplify its power and direct it to all life upon the particular ray which they serve. Visitors to the Resurrection Temple enter the corridor where the radiation of its flame has an affinity to their own and their potential expression of divinity. Here they are charged with renewed hope and spiritual vitality and are made consciously aware of the truth of “life everlasting.”

Great teachers from the Ascended Masters Realm often discourse with unascended beings in these corridors (drawn to them there in consciousness while the physical body sleeps), helping them to accept in their feelings the power and practical use of the Resurrection Flame, in the hope that, when they return to the outer world, they will carry sufficient conviction of the power of resurrection into their own spheres of influence.

Like all talents and virtues, there can be an inversion of the use of the power of resurrection. Man uses it often in resurrecting memories of an unpleasant nature and experiences long since past away, which should be completely forgiven and forgotten, thus causing distress to himself and others. In the Resurrection Temple, man is taught to use the power of resurrection only to bring to life the divine plan for himself and those whom he is privileged to influence.

Jesus' statement: “I AM the resurrection and the life” like many

other statements of the Immortals repeated by mankind is not completed. "I AM the resurrection and the life of perfection" is the completed statement.

Enter into the Resurrection Temple at least once in every twenty-four hours, bathe in its flame, practice the use of the resurrection power that is within your own life to restore to you the perfection of being which you knew with the Father before the world was! This is the invitation of the Ascended Host to all mankind during this Holy Easter Season. Accept it! Use it! Feel the resurrecting power of divinity (presently quiescent within you) stir into action and then allow it to flow through all your inner vehicles, your physical body, your aura and into the world in which you presently abide. Thus do you become a Resurrection Temple in yourself.

(NOTE: For further description of the Resurrection Temple, please see "The Bridge to Freedom Journal" Books 1 and 2)

BELOVED MOTHER MARY RECALLS HER LIFE

December 2, 1957

Beloved and blessed children of God, my own "heart children" too, how often have you stood before me, having been called by the Karmic Board to receive new opportunity for embodiment on Earth, opportunity again to "make things right" and balance past mistakes. When you thus came before me, in the Sacred Heart Temple, how often have you held behind your back that portion of some destructive karma which was yours to expiate in the next Earth life! Then as one would do to a little child, I would take your hands in mine and, opening them, look upon that karma. Then with all of my great love for you, with the help of the mercy and powers of light which are mine, I would give you the greatest help I could in the creation of the best heart possible.

How many times have you and I met? When you really meet a person, what do you meet? Just their consciousness, is that not so? Two physical forms may be as near each other as these two microphones are here, yet the consciousness of those two individuals can be miles apart. Whether one "meets" another in person, over the telephone or by reading his or her words upon a written page, still all "meeting" is just an exchange of consciousness.

So far as we in our octave are concerned, most of our "meetings"

with unascended lifestreams consist of receiving from mankind the consciousness of petitions, prayers and various other types of invocation for help, asking for some supernatural surcease from the suffering of returning destructive karma. Lately, from dedicated groups of consecrated individuals here (this has more often occurred in the East) the sweet perfume of prayer arises to us without a request or desire for some special assistance, just gratitude for your own being, gratitude for our friendship and our desire and ability to give you our help when it is needed.

Now, dear hearts, we are always so grateful for whatever consciousness you do give to us, for your attention upon us gives us the only "open door" we have into your worlds through which we can answer your calls and give you the help required. WE WANT YOU TO CALL TO US WHEN YOU HAVE PROBLEMS AND DISTRESSES TO HANDLE, for we have become masters of those problems in the physical appearance world and have earned the right to abide in these octaves of God's eternal peace and perfection, these past experiences of victorious accomplishment over the same types of distresses you are handling today having equipped us to transmute them into light.

After all, just what are those problems? They are nothing more nor less than energy, vibrating too slowly to produce perfection. By the power of love and light which we have become, we can project our light into that energy and raise it into a vibratory action which cannot produce distress of any kind. Whatever your problems may be, think upon me and I shall not fail to answer you immediately. I am as real as you are, shall we say more real than you are in your outer consciousness, for my entire being has become eternally changeless God-perfection!

Remember, I have walked the dear Earth as you have done and have suffered many of the vicissitudes of human experience upon this planet, many of its insults and, later, many of its praises. I am a woman who wore a flesh form, bore an infant son, held that Infant in my arms, cared for him and watched that little body grow. If you can think of me as such a very real being and divine friend to you, letting our friendship grow in strength and efficacy as the days go by, who among you can tell me what a tremendous service to all life we may be able to render together?

Why could not any soul, sincerely consecrated to the drawing forth of God's loving care and healing power for his people, be efficacious in that service and, calling to us, enable us to establish a focus of healing

for the transmutation of the distresses of certain individuals, for that matter, a whole city? Such a dedicated lifestream long ago offered us similar opportunity to establish such a healing shrine on a rocky hillside in France (the Shrine of Lourdes) builded to its present efficacy by the faith of those who come for help but who know not how and care not how they are restored.

Unusual Assistance Available Today

Beloved ones, you are really so fortunate today for you live in a time when the great Cosmic Law is allowing us to bring you so much of our consciousness! The door to our realms of light has been opened wide to you and your love, light, constancy and interest in helping mankind out of their distresses has been such that those who have the power and authority so to do, have directed to and through us the permission to come and bring to you our presence, our consciousness and our words of instruction. May I also say that we hope, one day soon, to be able to bring forth through you, our works!

“Faith without works is dead,” you have heard it said and there is a great deal of truth in that statement. You see, it is not a real, deep and true faith if there are no works to support it. I saw my beloved son raise the so-called “dead” body of Lazarus which had been entombed for some time and surrounded not only by the winding cloths of death but also by the “winding cloths” of grief and despair of his loved ones. I watched the beloved Jesus reach forth his hands toward Lazarus and through him God's great infinite restoring power of life and light flowed, raising and making completely whole again a body which was so diseased.

I have seen men, women and children who had been blind from birth, those who had never seen the blue of the sky or the bright green of the early Spring, open their eyes and see for the first time in this embodiment, able to enjoy the beauties of life, all done through the releasing of the currents of God's healing light, directed through the channel of a single lifestream (beloved Jesus) who was completely consecrated and dedicated to “his Father's business.” The “Second Coming” has been promised and there has been much talk about it. Do you know that it is promised in “multiple numbers,” through you and you and you, through any and every one who will so dedicate and consecrate his or her life to be about “the Father's business,” doing his will?

Oh yes, this can and will be done when, by your daily attention to

it, that individualized Christus now sealed within your hearts, has expanded sufficiently to completely control your outer consciousness in sustained harmony and peace, when your blessed souls have received enough God-light, when the appearance world has lost its tremendous hold and “pull” upon your attention, when you really take our hands and allow us to assist you, not as ephemeral, cloudy beings or as Gods and Goddesses upon pedestals of ivory or marble, but as living, breathing lifestreams who, either upon this Earth or some other planet, have learned how to use the powers of creation, have learned how to magnetize and radiate the gifts of the Father and, in so doing, became God-free forever.

Like most of you, I first came to the Earth filled with enthusiasm and desire to help mankind, sure and certain of my own God-connection with my own divinity, positive that no riptide which flows through the atmosphere of Earth nor any contagion of the fears, hates and diseases of the people could or would possibly enter my mind or feelings. I know whereof I speak, for I have been through it all! Long, long, before I was privileged to take my initiation before Lord Maitreya and qualify to become the guardian and protector of the lifestream of Jesus in his final embodiment here on Earth, long before that I took embodiment on this planet as a woman, was raised to my maturity, and then given in marriage unto a very holy man whose name today you would know were I to mention it.

This man was filled with reverence and peace but I was unhappy there and I lived rebelliously within his home. In my own thoughts and feelings there was a resistance to his sanctity. Where that resistance came from I shall not tell you but to this man I bore a child, a child whose body was builded of my own concepts, deformed, a child that no one but a mother could love.

I lived with that child and raised it, learning during that time something of what hidden and destructive thoughts and feelings can do, not only to the molding of the flesh of the unborn carried beneath one's heart, but also to the energies of one's own personal world. That child passed on not too late in life, thank God, and all during this experience, my loving husband protected both the child and myself. When I finally passed from that embodiment, believe me, I certainly did apply for entrance into those temples of light at inner levels where one is trained to govern and control thought and feeling. It was then that I took the vow (when I was ready to do so—how many embodiments later it was I do not care to tell you!) to be the protector of the children, the unborn

and the born, especially the deformed. and unwanted, and of the mothers and fathers who suffer the agonies of distresses which are similar to those of my experience.

You see, dear friends, sometimes these very “trying” experiences become the very good one requires to compel the stubborn human knees to bend to the goodness and perfection of God's holy will. The only reason I have related my own story to you was that I thought it would encourage you to know that I had such an experience. For no other reason would I put the thought of anything less than perfection into your minds.

Now, understanding as I do, I am so grateful to be able to help every child who comes before me in the Sacred Heart Temple and to give them all the blessings I can where I see that there is a tremendously heavy destructive karma to be expiated in their next earth-life and I see something of the distress they will have to live through. When I do look upon such a one, I ask one of my assisting ladies of heaven to take that lifestream aside and place them within a special room which I have created for just such occasions. Then, as soon as I can, I go to such a one and take the time to talk to them, explaining the situation and how they can best handle it. This helps to prepare them in some measure and sometimes the great Archangel Gabriel brings into that council room at night (while their physical bodies sleep) the prospective mothers and fathers of these children for consultation too. That radiation at inner levels has often given the incoming lifestream the strength, courage and power later to go through those experiences of distress victoriously.

Because so much of our activity is not visible to your physical sight and outer consciousness, it seems unbelievable to you. You see, dear hearts, you do not see all that we do for you. You see mostly just the conditions of chaos and distress, those of which Jesus said, “Judge not according to appearances.” Of course, you all know you should not, but when that unhappy experience is looking right at you (as it were) it seems so difficult for you to know its unreality and that you should be calling for its transmutation into light by Violet Fire, replace the imperfect picture by that which you desire to see manifest—the immaculate concept.

There is much more spiritual light in the world now than we had here in our day. Many of the riptides of mankind's combined destructive thought and feeling are gone and much of the discordant accumulations of the centuries in, through and around your own worlds is gone,

through your persistent faithful use of the Violet Transmuting Flame, with the help of the Great Ones. All of this is to the good and all of this makes us feel very, very grateful and very reverent before the Universal First Cause. We are so grateful also to and for those unascended beings who are willing to come together, stand on their feet and rhythmically give those determined calls for the removal of the cause and core of plagues, germs, epidemics, disease and all pain.

At this time and for some time ahead, the beloved Jesus, Saint Germain, beloved Raphael and the angelic host as well as myself, in fact all of us who are particularly concerned with the freeing of the Earth, are going to endeavor to make you feel our closeness to you, that we are living breathing beings, just as responsive to you as would be a trusted friend whom you would call on the telephone to make a request of that one. You know that friend would respond instantly to your call. THAT IS THE FEELING OF SPIRITUAL PARTNERSHIP WHICH IS OF THE NEW AGE, IT IS THE ERA OF YOUR MASTER, OUR BELOVED SAINT GERMAIN, THE AGE OF THE PRACTICAL PARTNERSHIP BETWEEN THE ANGELIC HOST AND UNASCENDED MANKIND, THE AGE OF THE PARTNERSHIP BETWEEN MANKIND AND THE ELEMENTAL KINGDOM AND THAT AGE HAS ALREADY BEGUN TO COME INTO MANIFESTATION.

Sustained Peace, A Vital Necessity?

Now, most of you, all of this life, have been seeking peace, health, sustained harmony and illumination, mostly peace, may I say, and you will never find permanent peace until you have found it inside yourself! I know! When the beloved Gabriel came to me with that Annunciation concerning the coming of Jesus and when I began to know something within myself of the great responsibility entailed in bringing forth the physical form of that one who was to render such a transcendent service, it was not so easy to hold that calm, uninterrupted peace.

As I have told you before (and I do not wish to be repetitious) IT WAS NOT EASY TO HOLD THE PEACE WHEN, ONCE WE THOUGHT WE WERE ALL SETTLED AFTER THE CHILD WAS BORN, THEN THE BELOVED JOSEPH WAS WARNED BY AN ANGEL OF DANGER TO COME. We had to leave quickly for Egypt and there it was not easy to hold sustained peace either, as we made a new life with very little in the way of this world's goods, among an alien and rather unfriendly people and beneath a strong, hot Sun which beat down relentlessly practically every day. Those of you who have been in Egypt (some of you will be one day) will know what I mean. IT WAS NOT VERY EASY FOR ME TO HOLD THE PEACE WHEN I LED THAT LITTLE "INFANT" (AT LEAST TO ME HE

SEEMED SO) INTO THE GATES OF THE TEMPLE AT LUXOR. IT WAS NOT EASY TO HOLD THE PEACE, EITHER, WHEN, AFTER THE PASSING OF JOSEPH, JESUS WENT THE LONG WAY ALONE ACROSS MOUNTAINS AND PLAINS INTO INDIA FOR FURTHER INSTRUCTION. I HAD TO LEARN TO HOLD THAT INFINITE PEACE IN MY FEELINGS WHICH, INCIDENTALLY, STOOD ME IN GOOD STEAD ONE GOOD FRIDAY. THAT DAY I ALSO HAD TO HOLD THE FEELING OF PEACE AROUND THAT BLESSED JESUS AS A PROTECTIVE AUREOLE WHILE HIS BLESSED BLEEDING BODY WAS NAILED TO A CROSS.

Also, that inner peace stood me in good stead again when I was called upon to gather together around me the frightened, disillusioned disciples and followers of the Master Jesus' teachings, as well as during the many years when we built our community, the details of which would make a book in itself. IF I HAD NOT BEEN ABLE TO HOLD THAT INNER PEACE, THERE WOULD BE NO CHRISTIAN DISPENSATION TODAY, NO MIGHTY CATHEDRALS WITH THEIR SPIRES POINTING TO THE SKY, NO GREAT CHOIRS OF LOVELY SINGERS AND NO ECCLESIASTICAL GLORY OF THE CHRISTIAN CHURCH.

So, I say to you now, while you are yet in that state (shall we say) of "spiritual infancy," while you are yet groping toward an understanding, paraphrasing Solomon, may I say: "WITH ALL THY UNDERSTANDING, GET PEACE," NOT A SURFACE FEELING OF ENERGY CONTROLLED BY YOUR WILL, BUT A FEELING INSIDE OF A DEEP, ABIDING PEACE WHICH CANNOT BE DISTURBED. ONE DAY YOU WILL NEED IT! If you are the type that is prone to become hysterical in emergencies, I recommend that you apply daily to the Elohim of Peace, to beloved Jesus, Prince of Peace, to beloved Gautama, New Lord of the World, or to my humble self, asking that we charge into your feeling world (letting that feeling of peace expand through all your four lower bodies-physical, etheric, mental and emotional).

If you really want this peace which we can and want to give you, you must give us opportunity to charge our feelings into your worlds. Our feelings are the actual substance of our life and we can only give you our blessing through your giving us your attention. Your attention is the open door through which we can reach you and to have a sustained and expanding radiation of our peace come into your worlds, you will have to give us a few minutes of your attention rhythmically every day at the same time, preferably.

Also, just before entering sleep at night, you may ask your Holy Christ Self to take you out to these great Beings of Cosmic Christ Peace at night while your physical body sleeps. Ask, too, that you be allowed to bring back into your physical brain consciousness when you awaken,

all the peace you experienced while in those higher realms.

Peace, you know, is not a negative quality! It is not relinquishing your stand for the right. "Peace at any price" is not peace at all, it is merely appeasement for the moment. There is a great difference here, PEACE IS POSITIVE! Peace is positive in the complete knowledge that right is being done by and through yourselves and peace is also in the knowledge that your fellowman is doing the best he can according to his own light, greater or lesser as that light may be.

Your peace is also sustained by your developing the capacity to take your hands off other people's energy, giving them freedom of expression, all the while making the calls to your own I AM Presence and theirs, seeing what can be done to harmonize things by the radiation of that light called forth. What you try to handle or adjust through your words (spoken or written) or your actions through the outer self, many times will cause some recoil of distress to you and all concerned. Believe me, I have tried that too! Every experience of which I speak to you I have passed through myself.

Before the birth of Jesus, suppose I had tried to justify myself to the men and women who expressed doubt upon his legitimacy? Suppose I had chosen to stay at home in comparative comfort rather than travel the long way to Bethlehem over a rough road, a cold and uncomfortable ride, just before the birth of Jesus? Suppose I had chosen to just forget the Archangel's assistance and tell Joseph that inasmuch as the Holy Child had been perfectly born, he would most surely be protected? Those would have been acts of appeasement and they would have resulted in the destruction (even before it got started) of the great dispensation we were to represent. Then what would have happened? We would have lived out our lives and eventually passed on as holy men and women perhaps, and, at a later date, other lifestreams would have been given opportunity to anchor in that dispensation.

Please remember, beloved ones, that divine love, peace, compassion, any of these God-qualities of which we speak, are not negative qualities! They are never lethargic in their expression. These qualities are the positive control—first of the energies within yourself and then of all the energy which is around you; that control accomplished wholly through radiation. In the name of God, I BEG OF YOU TO PRACTICE THE HOLDING OF THIS SUSTAINED PEACE, particularly now while you have such opportunity and such tremendous assistance is available to you from us.

Archangel Gabriel Will Help You

At this time, I would like to bring to you again something about the offices of the great Archangel Gabriel. This great Archangel, as you know, helps all to hold the immaculate concept. How much have you thought about that? You know, to many of you, your Presence is a lovely figure off in the atmosphere some place, feeding light and life into your physical form through your silver cord. You are most certainly glad it is there, but is your Presence not pretty abstract to you?

We have told you previously that there are about ten billion souls belonging to the evolutions of your Earth, not all of them embodied at once, however. That blessed Archangel Gabriel has voluntarily taken it upon himself to become acquainted with the divinity of each one of you, your own beloved I AM Presence, to learn its nature, its colorings, from what planet it originally came, what it is doing at cosmic levels, what your divine plan is and what you are to do upon this planet and he has taken this obligation as well of holding that immaculate concept of perfection for the entire ten billion souls to evolve here! Believe me, dear hearts! That is a task, a task which as a rule only the Silent Watchers themselves take on. So, if you want to know more about what you should be and how you can achieve that perfection, how about speaking for a few moments every day to beloved Gabriel?

I assure you he knows more about your Presence than your outer mind and soul can possibly know at this time and he will give to you such a tremendous radiation of his love, light and wisdom. Of course, you are all lovely ladies and gentlemen here now, but, even in heaven's realm, there is room for, shall we call it, the "expansion of loveliness!"

Revere Sanctuary Atmosphere

There is quite an assembly here this morning of Cosmic Beings, Ascended Masters, cherubim and angels, you can feel it by the radiation. This radiation can be sustained and expanded, if you will keep the atmosphere of your Sanctuary as holy as possible at all times. Do you realize that sometimes when you enter the Sanctuary, there is a Master of light upon your platform addressing a whole group of lifestreams from the inner levels or angels? Sometimes these very chairs upon which you are now seated are being occupied by angelic and sometimes Ascended Beings (of course, while no class of yours is in session). It is so! Sometimes there is a mighty Master or Cosmic Being of light upon your platform, giving instruction to some audience of lifestreams

with which he is working at inner levels. All of a sudden someone bursts noisily into the room and there is a shattering of the finer vibrations drawn here, I know you would not want that to happen.

When we need some place in the physical octave in which to render some service to life that cannot be rendered elsewhere, is it not perfectly natural for us to use a place which has been dedicated and consecrated to our service and into which the Sacred Fire has been rhythmically drawn in a given momentum? It would be well for all to hold a very sacred and reverent attitude toward and in these lovely places which have become just what their name implies, sanctuaries of peace, love and light, away from the pressures of the chaos and confusions of the outer world. Won't you all try to make and keep them so?

Please do not impress upon the ethers of your sanctuaries any thought, feeling, spoken word or deed that is not of Godliness. Render the service you wish to give in grace and please remember the transcendent blessings which have been brought to you by our presence with you in your meetings. Whether there is an actual address by the Master or not, where the heart-calls of the lifestreams present are sincere, there is always one or more of us in attendance to answer those calls and give you all the help you can and will accept. There are many, many lovely and sincere lifestreams devoted wholly to the service of the Christian Church who would really worship for the rest of their embodiment here just one visitation from "The blessed Mother," yet we come to you again and again to help you!

Think about these things, dear hearts! Think often upon them and upon us-upon the beloved Saint Germain who, as Saint Joseph, was so good to me in that time long ago, think often upon my son and the great Archangel Gabriel, Archangel Raphael and all the angels of heaven. Think upon these often for, you know the Law, "What your attention is upon you become." Wherever you work, wherever you stop, wherever you go, go and act there as though you were on a spiritual pilgrimage and the angels will accompany you, if you do. If you will hold the peace in your feelings everywhere you go and in all you do, you have no concept in the outer mind of just what can be done through you, what transcendent beings will give you protection and help you in many ways of which you know nothing now.

Now, in the name of the Father and of the son and of the Holy Spirit, in the name of my own beloved Jesus and in my own name, I make the call for the Lord to bless you with his peace, sustain you in good works, illumine your souls as to the pattern and fulfillment of your

own divine plan, keep you from bodily harm, keep you supplied with the limitless abundance of every good thing, unity of feeling required to create, sustain and expand “The Diamond Heart.” May Lord Michael with his own blazing Sword of Blue Flame remove now and forever the causes and cores of all in your worlds that can hurt you, your families, your loved ones and your fellow students! Oh, how I long for the day to dawn when you have completely and forever lost the capacity to hurt any part of life. I finally came to that day after many very bitter experiences. Work diligently toward that day when you are not able to hurt any part of life ever again and thereafter be that comforting presence to all life. I do love you so much! Thank you and good morning!

THE MASTERS OF WISDOM SPEAK
LIFE, ITS INTELLIGENCE, OBEDIENCE AND IMMORTALITY

MAHA CHOCHAN

Life is a gift from God! Life, therefore, is intelligent and does respond to direction. Life is obedient to man because God (by whatever name you choose to call Him) directed the intelligence in life to obey. Life is immortal because it is the essence of God, Who is immortal, given freely into the creation of planetary systems, individual beings, and generally, all that lives.

Mankind are studying life. No scientist has yet been able to actually generate life, although many dedicated men and women have prolonged life in a particular form. The orthodox people refer to life as that which “The Lord giveth and taketh away.” However, they err in their belief that the Giver actually takes away life. That life which seems to have been “taken away” is merely summoned to function in a different sphere, still under the direction of the free-will of its user. You, gentle reader, are one of the billions of souls belonging to this planetary system who have been given the use of life, which has obediently fulfilled your conscious or unconscious commands through the ages. The nature of your soul, the state of your mind and bodies (inner and physical) your surroundings and aura are a result of your qualification of life through the ages. Now we come to a time when you are offered the knowledge and application by which you may redeem the life given to you, resurrect the divine image in which you were created and, generally, allow life within and about you freedom to express perfection.

EL MORYA

Life, gentle readers, flows into your being constantly. Because it

does so silently, without fanfare, it is accepted as very commonplace by man. Life gives intelligence to the brain and various members of your body, receptivity to the senses, power of motivation to the physical and inner bodies. It is time to consider from WHENCE comes this life and WHAT should be done with it. Man can no longer continue to be the beneficiary of the great Giver of Life and not courteously ask of that Giver for what purpose is that life given. When that question comes from the heart and the mind of man, the answer will be forthcoming from the giver of life. Then man will be held responsible for his further use of life, much more so than the individual who has not come to the point of spiritual awakening, where he asks this question and receives the answer. I AM among those who have offered to convey the answer to the earnest ones who truly desire to know from WHENCE comes their life, WHY they are sustained in this physical world and HOW they can use life to help fulfill their individual destinies, as well as COURTEOUSLY COOPERATE with the Giver of Life.

KUTHUMI

Mankind has used life rather promiscuously through the ages. Because life is obedient and intelligent, it has obeyed the directions of mankind's thoughts, feelings, words and actions. Life has taken on the forms which mankind themselves created. These forms are not always pleasurable to the outer self. When mankind realize that life in-itself is immortal, obedient and intelligent and that they, themselves, have the power to direct it into constructive channels, they will come to a point where self-mastery is possible. Truly it is said, "He is worthy to command who has learned to obey." The Earth is a schoolroom where mankind have been endeavoring to learn how to mould life-substance into beautiful forms, beautiful colors, beautiful radiations, for their own blessings as well as their fellowman. However, man has "fumbled" a great deal in this process of learning and as the apprentice-carpenter leaves many shavings from the beautiful wood upon which he practices, so have mankind left many similar "shavings" in the atmosphere of the Earth where their experiments have taken place. Many of these "shavings" are not of constructive expression and are called "human creations." It is to clean up the "shop" (the Earth) of these imperfect expressions of the use of life, that the earnest student is dedicated.

Even as the worthy apprentice must sweep clean the "shavings" of his crude endeavors, so must the student who wishes to use life constructively engage in the task of cleaning up the discordant creations

and clumsy efforts of his ages of experimentation with the use of life. For this purpose, the Violet Flame of Mercy and Forgiveness has been created and its use given to a few among the sons and daughters of men. If they willingly use it, as the apprentice-carpenter uses his broom to clean his room, then they are ready to be given the instructions which lead to conscious direction and channeling of their life energy into forms of beauty, harmony and perfection of expression. We are in this period now!

PAUL (THE VENETIAN MASTER)

Having seen the very smallest electron projected forth from the Godhead (the Universal I AM Presence), we know that within even one of these electrons is all the power and potential creative activity of the Deity. It is our endeavor to draw forth from the individual who is ready for such assistance, the gifts that are inherent within the life so freely and constantly given into his use and governing power. As uncountable numbers of these electrons pass into the being of every member of the human race every minute, if an individual were to utilize the talents, gifts and creative power within even one such electron, he would be amazed at the perfection and generosity of the gift of life itself.

However, man lets life (like water) flow through his being unused or, worse still, destructively qualified by thought, feeling, spoken word and action. The Music of the Spheres, the colors of the heavens, the wisdom of the ages, all these gifts and more are within his own life. We, the Brotherhood of Love, endeavor to direct our rays into this life and release some of its perfection. When we have good results through the co-operation of the individual, the life that flows to and through him is qualified with some expression of beauty. Often such a one, once in possession of the power to constructively control the flow of life, forgets the assistance given, reveling in his talent, receiving the benefits from its use, basking in the applause of his contemporaries and, generally, feeling that life's talents merely expressed through him are his own! Then such a one (by Cosmic Law) is denied the use of that gift in a succeeding life, until the lesson is learned that life and its Giver are the doer, the doing and the deed.

SERAPIS BEY

At Luxor, we allow the student to see the color, the form and the effect of his personal qualification of life. This is a hard lesson, but it promotes the development of humility in the great and of rebellion in the small. Yet, if the student can and will accept his own qualifying power as the cause and core of his distress, he is on the road to permanent and eternal freedom. He then cherishes the gift of life and develops the potential divinity within it and, most important of all, he uses life to bless all in the sphere in which he has fitted himself to dwell, without thought or motive of personal gain or merit.

HILARION

Life is immortal! This is an encouraging statement yet it denotes to the thinking man that there is no escape (even in so-called death) from learning the lesson of using life to fulfill the divine plan. While the Creator (God) chooses to direct a flow of life-energy into an individual, that one must be held responsible for the qualification of life and for the sublimation of the life he has already used and misqualified in the past ages. While we are in the Resurrection Temple, each student has tremendous opportunity to invoke the Resurrection Flame through the life in his mind, body, world and affairs. We are sincerely hoping many will take advantage of this opportunity and have the wisdom to ask that the Resurrection Flame only re-animate the perfection within his life expression. Thus the inner and physical bodies are quickened, renewed and vitalized and the human creations of the ages are transmuted into beauty and perfection.

JESUS

When an individual thinks, feels, writes or speaks the words "I AM," he immediately receives the attention of life within him as well as around him. Why? Because the words "I AM" are the signal to intelligent life to create. I learned this lesson at the feet of a beloved Guru in India. I saw life come to attention when those words were used, silently or audibly. I then saw life immediately obey the fiat or decree that followed the use of that creative statement. It was at the feet of that Guru that I learned the power within the Creative word "I AM" and began to utilize it myself, enjoying the buoyant, uplifting feeling of the constructive use of any statement preceded by the words "I AM."

I SINCERELY BELIEVE THAT THE ULTIMATE SUCCESS OF MY MINISTRY WAS THE CONSTANT AND DEEPLY FELT USE OF THE SIMPLE STATE-

MENT "I AM THE RESURRECTION AND THE LIFE OF MY DIVINE PLAN, PHYSICALLY MANIFEST HERE AND NOW." Life will obey you? It always has! Every creation that lives in your world constructive or otherwise, is the result of the obedience of life to your command someplace upon life's way. Turn to the constructive, positive, conscious use of the resurrection power of the creative words "I AM" and prove to yourself that intelligent life will obey you and manifest according to your decree. There is no greater teacher than one's own experience. Try it! I challenge you!

SAINT GERMAIN

Many individuals all through the ages learned of the obedience of life to the words "I AM" and they purposefully followed these words with imperfect decrees which life proceeded to manifest. Then the masses, used to following some leader, also began to use the words "I AM" to manifest imperfection. Later, they forgot both their teachers, and the power within these words, subsequently falling into a loose and uncontrolled use of the creative word "I AM." It is now the opportunity of the Spiritual Brotherhood to show mankind how to use the words "I AM," always followed by a positive and constructive statement.

The difficulty lies in the fact that man tends to make any statement of power a mere repetition of words without feeling and conscious thought. Thus most invocations, prayers and attempts at resurrection and redemption are not as efficacious as they might be, were the student to truly ponder the truth that the words "I AM" cause life to obey instantly and become that which the speaker indicates he wishes to manifest. Let us now endeavor to use the creative word "I AM" only in a constructive manner, then witness the resurrecting power of perfection which will flow through the life energy of the student body and all the evolutions using Earth as a planetary home!

MONTHLY LETTER TO TRANSMISSION FLAME CLASS
Beloved Ones, Seeking the Conscious Use of the Resurrection Flame

I greet you in the name of your own divine heritage—IMMORTALITY! Ponder often, this Springtime, upon the truth that within the life which beats your heart is the power of resurrection of those talents, gifts and momentums which you have drawn forth from your own I AM Presence through the ages!

The directing of the rays from the Resurrection Temple during this thirty-day period will help you to quicken this power of resurrection within you, if you will accept them. Be sure to qualify the Resurrection Flame's activities to only resurrect the good in your lifestream. Tune into that cosmic momentum of the Resurrection Flame and let it flow through you, giving you proof of its presence and efficacy to act, raising you and your worlds into the perfection which God intended for you when you were first created and sent forth from his heart!

I have directed this Resurrection Flame through the nature kingdom for many ages. The acceptance of the nature kingdom of the pulsation of the Resurrection Flame has written on the face of the Earth the proof of the power of resurrection in nature with each recurrent Springtime. Beloved Jesus proved the power of the resurrection in his ministry. It is now the responsibility of earnest chelas to consciously draw forth that resurrecting power. All of us who have used it will help you to experience the buoyancy, happiness and freedom that come with its use. Enter the Resurrection Temple in consciousness (at least once in every twenty-four hours while it is active). Meet us there. Then return to your worlds and FILL them with that uplifting radiation! Be the resurrection of divinity wherever you move!

Love and Blessings,

Maha Chohan

Monthly Breathing Statement

I am inbreathing/absorbing/expanding/projecting from Jesus and Mary the victorious feeling of the Resurrection Flame

Hierarchs: Jesus and Mary. Color of Flame: Mother of Pearl. Musical Keynote, "A Perfect Day."

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
with the Great White Brotherhood and Cooperative World Service

MAY 1957

TO THE COSMIC SPIRIT OF GOD'S HOLY WILL.

Blessings for your presence in this universe. Gratitude for your motivating power which directs the Cosmic Beings, Ascended Masters, Archangels and Archaii, seraphim, cherubim and angelic host!

We invoke consciously the descent of the fully gathered cosmic momentum of the divine will of the Universal I AM Presence into the emotional, mental, etheric and physical strata wherein mankind presently abide! LET the inherent desire to do God's will expand through every unascended being! LET the joy that is the reward of such service expand through their auras! LET the outer mind of man accept that God's will is the fullness of all good and perfect experiences for all his creations! LET the fallacy that distress and imperfection are God's will be removed from the consciousness of all people! Remove the lethargic acceptance of imperfection from the people of Earth! Replace it by a keen acceptance and awareness of the all-encompassing love of the Creator for his creations!

We accept, upon behalf of all mankind, the Presence of God's will externalized through every beating heart! So shall there be established on Earth the glory of God, find the fulfillment of beloved Jesus' promise: "Eye hath not seen, nor ear heard, nor has it entered into the minds of men, the glory that the Father hath prepared for those who love him."

Thomas Printz

The Homes and Retreats of The Masters of Wisdom

TEMPLE OF GOD'S WILL, DARJEELING, INDIA

(May 15th through June 14th, 1957)

The beloved Master El Morya, Chohan of the First Ray, has his focus of God's divine will established in his retreat in the foothills of the great Himalaya Mountains. He has a magnificent white palace, approached by a winding road which leads to the front entrance of this home. From the palace steps, one can look out upon the grandeur of the Himalayan Mountains, rising crest after crest into the distance. Within the palace, on one side of the entrance hall, beloved Morya has a comfortable drawing-room wherein he entertains friends and chelas from time to time.

A lovely garden has been carefully designed just outside the drawing-room windows, in which garden bloom in perfect harmony the flowers and shrubs of both East and West. Often, he and Kuthumi play upon the rosewood piano which is situated so that the player of the instrument can look out upon the garden and the inspiring sight of the Himalayas beyond. A fire is kept burning steadily in the grate, tended by faithful servants, so that even when the Master is not in attendance, there is always a living flame in this comfortable and beautiful room for the pleasure and inspiration of his visitors and guests.

At the other side of the entrance hall is the Council Chamber wherein the beloved Morya discusses with chelas and lifestreams of influence in the world of men, certain plans designed to further the fulfillment of God's will upon the Earth.

The impression created by this blessed Ascended Master in his home and retreat is a combination of "homey" comfort and exquisite taste. In the entrance hall is the replica of the Taj Mahal of India which was builded centuries ago by his beloved brother of light Kuthumi with whom El Morya has served for many embodiments in furthering the cause of God's will to this Earth.

The actual temple room is exquisite indeed! The altar which holds the focus of the Sacred Fire qualified with the desire to do God's will, is composed of exquisite blue sapphires and diamonds, the carpeting is an electric blue and the windows are of the finest stained glass, depicting scenes from the life experience of beloved Morya. The color of these windows is predominately blue and the scenes depicted include the Magi following the star to Bethlehem, the Knights on Crusade to Jerusalem, a figure playing upon the harp so famous at Tara, Saint Francis

feeding the birds, a scene in Ireland near the lakes of Killarney, as well as many other representations which are unfamiliar to the consciousness of man in this day. There is one picture of beloved Morya and Kuthumi directing light through the consciousness of Helena Blavatsky, who is seated with an open book before her. There is one window dedicated to Hercules, another to Lord Michael the Archangel, both of whom serve with beloved Morya on the First Ray. There are five windows yet to be finished, indicating future activities of this great Lord of Love.

The purpose of keeping this retreat open is primarily to magnetize, sustain and radiate the positive consciousness of God's will into the atmosphere of Earth and to counteract the negative acceptance of every distortion created by human mind as God's will for his creations. As you have been told often, the nature of the flame is to rise. Therefore, it is vitally essential to have some unascended lifestreams offer to draw the particular virtue and flame from the higher realms into the lower atmosphere of Earth and sustain it there by constancy of application. Without the presence of these individuals who so offer to magnetize, sustain and radiate the virtues of the Godhead into the lower atmosphere of Earth, there would be no stimulus to the divine spark within mankind to further constructive endeavor to expand and fulfill itself upon this plane.

The pressure of these constructive rays directed through the atmosphere of Earth is powerful and does keep alive the desire to utilize and expand the nature of the seven rays, faith, illumination, love, purity, consecration (and concentration), peace and ministration, and rhythmic invocation of God's help.

Each chela who "tunes in" to one of the seven rays becomes, in himself, a radiating center of the particular virtue to which he has consecrated himself (often this consecration is unknown to the outer self).

As like always attracts like, those unascended chelas and earnest students who desire to assist the Ascended Masters in their service to the mankind of Earth are always drawn into their radiation and often (in their finer bodies) into the retreats of that Master. Thus the chelas increase the virtue which they seek to generate and radiate to mankind. Then, when the chela has proven himself by constancy of endeavor, he is ready for a closer association with the Ascended Master. Ways and means are then found to reach his outer mind and gain his attention (books, lectures, etc). What the chela does with the knowledge and added radiation given him will determine when such a

chela can be accepted by the Ascended Master on a conscious level. The Master then secures from our Lord Maha Chohan permission to accept such a chela for individual instruction and greater illumination.

Thus, the hands and hearts of the Spiritual Hierarchy reach through the veil of human creation to the minds and hearts of men. Those who respond are accepted in the spiritual partnership between the Hierarchy and the masses who are not cognizant of the existence of the Ascended and Angelic Hosts, nor the service of these Great Beings to their evolution.

Beloved El Morya, together with Kuthumi, determined to bring to the western world a knowledge of the Ascended Master. Their endeavors are recorded in the Theosophical History. Gradually, the prejudice and unbelief of a few of mankind was broken through and acceptance of the Ascended Host as real beings began the great impetus Earthward of the heavenly kingdom. Other individuals, sensitive to the Ascended Masters, furthered their work until now the western mind is acclimated to the Masters reality, to a certain extent.

Faith in the goodness of God's will is constantly pouring fourth like rays from the Sun into the feelings, the minds, the etheric bodies and the brain consciousness of mankind from the Temple of God's Will. Desire to do God's will is constantly stimulating the expansion of the Christ light and power within every man. This is the service of El Morya and the Brotherhood of God's will who sustain that flame at Darjeeling.

In consciousness, enter often into the home and retreat of blessed Morya, especially during this thirty-day period. Sit by the fire in his drawing-room. Absorb the radiation of his faith and desire to promote the expression of God's kingdom on Earth. Bring back into your own worlds and consciousness the radiation so received. Remember, few know of his retreat. Few know of his service. Few are invited into his home and presence. You are among those few. Remember also that what you do with opportunity given, will determine the blessings yet to come!

(NOTE: For further description of the Temple of God's Will, please see The Bridge to Freedom Journal, Books 1 and 2.

EXPLANATION OF "THE HOLY TRINITY"

By Beloved Ascended Master Jesus

May 1956

Dearly beloved of Earth, I bring you the benediction of the Father, the son and the Holy Spirit.

Today we come into the activity of the forming of that magnificent "Star of David." The upper part of that star (the upper triangle pointed downward) exists long before the lower triangle pointing upward—the lower triangle aspiring toward connection and merging with the upper one. In other words, there must be a focus of some God-intelligence already established and releasing from above, God inspiration and the electronic pull of light and love to be able to stir within the hearts of men an impetus toward the desire for God-perfection once again.

For instance, on this Holy Day (Ascension Day) centuries ago, my ascension from the Hill of Bethany formed first the pattern of light, which is the upper triangle of that star.

Throughout the centuries which have since passed, the aspirations and devotions, the meditations and contemplations of countless millions of people upon what they choose to call "the Mysteries," have formed a triangle pointing upward, in an endeavor to contact and even reach that Ascended Jesus Christ mastery and make it their own!

In this new activity (the Bridge to Freedom) which has been established and brought forth by the Ascended Master El Morya to assist the Ascended Master Saint Germain, we have now the merging of the two triangles through grace. The merging of those triangles takes place when that which is the Ascended Masters' gift (the radiation of their consciousness) which is their feeling of victorious accomplishment, is lowered into and through the emotional, mental, etheric and physical consciousness of one or more sincere lifestream gathered together, who can accept, not only our presence, but the possibility and actuality of the communion between Perfected Beings of light from our realm and unascended beings in this octave. Today this "gift" to you is the radiation of my consciousness of Ascended Jesus Christ victory, but it could just as well be any other Ascended Masters' gift to you.

You have the forming of the perfect "double triangle" ("Star of David") when the Ascended Masters' radiation is directed down into the consciousness of earnest, unascended lifestreams. The lower triangle pointing upward is formed by the consciousness of the up-reaching lifestreams whose physical bodies form an actual grail through which

that grace and benediction is allowed to flow into and through the brain consciousness, then you have the perfect “double triangle” which is the full connection between the cosmic Ascended Master and angelic realms and the realm of humankind, in which you abide at present.

All over the world this morning, from the dawn of this Ascension Day, as the beloved Helios and Vesta (God and Goddess of our physical Sun) began to pour their glorious light rays from the Sun to our Earth, there have been public services and individual communions with the Ascended Jesus Christ consciousness which I represent. The energies in the uprising devotions have been incorporated by the builders of form (in co-operation with the angel devas of ceremony) into the double triangle of the “Star of David” of which I speak. The radiation of my victorious accomplishment will steadily intensify all through this day and, finally be world-engulfing in its uplifting service to mankind. So, consciously accept the gifts which I bring to you today from the upper portion of this “double triangle,” which also represents the outpouring of the gifts from the Great Central Source of all life.

Beloved ones, this great radiation which it is my privilege to bring into the world of form today, brings to mind my own experiences with that beautiful, immortal Three-fold Flame of eternal truth within my heart, which abides also within your hearts! At that time, we called that Three-fold Flame “The Christ.” In as simple terms as possible, let me now endeavor to explain to you the Holy Trinity and the activity of the Christ for you. (Today, we shall not go up beyond Helios and Vesta of our physical Sun, but we could go up and up indefinitely).

First, you have beloved Helios and Vesta, representing the Father-Mother God to this system of worlds. Then you have the creation by them of the individualized I AM Presence of each lifestream and their projection of the immortal Three-fold Flame of eternal truth into its heart. In turn, the beautiful Electronic Presence (“I AM”) externalizes through itself the divine nature, the spirit of the Father-Mother God, representing the activity of the Holy Spirit in celestial realms.

Of course, this is in celestial realms! First you have the God-parents of the system and then you have the millions of electronic I AM Presences which, in turn, have around them their Causal Bodies which they have created by the release of their God nature, following the divine plan of the God-parents. Now, we come to a consideration of the lower activity, insofar as it affects you, unascended.

For our instruction now, let us consider thus: your own I AM Pres-

ence becomes for you the Father-Mother God, the Christ abiding within your physical heart is the Son which, when allowed to consciously direct and completely control the four lower bodies creates around your physical form the same glory as your own Causal Body and a Holy Spirit in the atmosphere around you, as well.

So, as we have explained to you, there is the Holy Trinity of God-expression so far as the celestial realms are concerned. Then, too, in a perfectly developed individual still unascended, the I AM Presence of that one represents the Father to him, the Christ Presence within his heart represents the Son (which son is made in the image and likeness of that Presence), then there is also the Holy Spirit present, the created aura of harmoniously qualified energy, filled with FAITH in the perfection of the will of God, of ILLUMINATION as to the fulfillment of the divine plan, the LOVE of the God-parents expressing to all creation, the PURITY of the God-nature holding to the perfection of the fulfillment of the divine plan, the ability to CONCENTRATE upon and follow through the producing of the divine ideas and designs, the RHYTHM OF INVOCATION needed to produce a symmetrical pattern and the feeling of God-peace which protects, sustains and expands the perfection drawn forth.

In all religions and occult studies, you will find that that which cannot be explained clearly to the people is carefully placed in the category of “mysteries” by its priesthood. There it remains and the sincere aspirant is left without a full cognizance of the simplicity of the truth. Therefore, the Holy Trinity has been referred to as “a mystery” for many ages.

Let Your Christ Control

I came into embodiment in this world of form to represent the nature of the God-parents at the heart of this universe. All through the ages, I spent much time studying the presence, activities and nature of Helios and Vesta. I considered very carefully what they had done with the immortal Three-fold Flame of Truth within their beating hearts. Now, unascended lifestreams, looking upon the physical Sun, might feel that it is “The Ultimate,” but, as a matter of fact, your physical Sun is a very small Sun in comparison to the galaxies which swing around the Great Central Sun.

Helios and Vesta drew primal life from the source of their beings. Then, they consecrated themselves (according to their capacities) to

use that flame of life to magnetize from that infinite source of their own life, as much as they could assimilate and radiate, according to their abilities to utilize that radiation as a benediction and a blessing to the universe which they had drawn forth. They had learned the use of the two activities of the flame within the heart, magnetization (cohesion) and radiation, (centripetal and centrifugal force). They knew that by radiation they could keep the planets of their system in a certain order, each planet a certain designated distance from its sister planet and so create a harmony and unity of pattern and purpose in their universe. They knew, too, that by magnetization (cohesion) they could hold the planets in the perfect place in their orbits, keeping them from flying off into interstellar space.

Helios and Vesta used the same two activities of light and life which we are endeavoring to use now to develop among the earnest and sincere chelas, the power of magnetizing the God-qualities of perfection, then radiating them forth.

While I was studying the nature and activities of the beloved Helios and Vesta and saw the precision of their use of the powers of magnetization and radiation, as I looked upon the glories of their Causal Bodies from the consciousness of my own Electronic Presence, I was able to absorb much of their nature of Deity which nature I brought with me through the "veil" of birth and embodied it through a physical form here on this Earth. I began at my mother's knee to learn how to externalize what we called, in that day, the Christ Presence.

As I grew a little older, I voluntarily submitted to and victoriously passed through the initiations of the temple of Luxor in Egypt (the Ascension Temple). When we finally returned to Jerusalem, I began that activity of conscious magnetization and radiation of the nature of the Father in daily life, which was a practical blessing to our fellowman. Of this radiating activity we never spoke. We kept it in our hearts and others only knew of it by the manifesting about us of a certain peace, of healing, faith, illumination and of the various God-virtues and qualities which mankind required, of which they desired possession and came to receive. However, the consciousness of unascended mankind has accepted my personality as the author and giver of the gift, rather than the Christus, the immortal Three-fold Flame of Eternal Truth which had expanded from within me, releasing its God-gifts to all. THIS SAME FLAME IS WITHIN THE HEART OF EVERY ONE! That is why I said: "The things which I have done shall ye do."

As this erroneous consciousness increased in the worlds of those I

contacted at that time and those I had come to teach, it became quite clear to me and to my own beloved Guru (Lord Maitreya) as well as to others who were watching the progress of my ministry from the Ascended Master realms, that even the most sincere devotees of my teaching were losing the perception that it was the Christ Flame and not my personality which was doing the so-called “miracles.” FOR THIS REASON, I WAS CALLED UPON TO CLOSE MY MINISTRY AT THE TIME I DID, FOR THROUGH THE DEVOTION TO MY PHYSICAL PRESENCE, THOSE I WAS TEACHING WERE NOT EXPANDING THE POWERS AND ACTIVITIES OF THE CHRIST WITHIN THEIR OWN HEARTS.

In the recession of my physical form (through the victory of the ascension) the disciples who gathered in the “upper chamber” and those sincere men and women who chose to join together with my mother and form the Holy Colony at Bethany, began to externalize from within themselves the powers and controlled activities of this magnificent Christ Presence. They began to know beyond the shadow of a doubt that, at their call, it could-and would act through them to bring peace, instantaneous healing, the capacity to teach, or whatever God blessing was required to bring divine order everywhere it was needed.

The Presence of God is Within You

Now, beloved, it is this same expansion of your own Christ Flame which we are so desirous of bringing forth at this time. Develop a feeling of absolute confidence in the presence and power of that Christ within you, let that flame expand in, through and around you until it becomes the absolute Master and God-control in and of your life.

Daily, practice the realization that the Presence of God is within you, the Christus, “The Jewel in the Heart of the Lotus” (whatever name you may choose to give it). Even in its smallest and unexpanded state, that flame is more powerful than all manifest form! As you keep placing your attention upon it in divine love, giving it full authority to direct and control the energy of your world, you will begin to let go of the efforts of the human ego to accomplish and, instead, allow the dignity of the Christ to take command. Then without struggle it will bring and sustain peace, instantaneous healing and all the blessings of divine love wherever you go.

MONTHLY LETTER TO TRANSMISSION FLAME CLASS
Beloved Children Of God, Seeking To Know And To Do God's Will:

I invoke the presence of truth to enter your outer mind and your brain consciousness to help you in your sincere, determined, selfless desire to find the truth which beloved Jesus promised would set you free! Long has been your search for truth! Heart-rending have been your disappointments as you followed by-ways that seemed to lead to truth, only to come to a realization that truth was not at the end of that road! Heartening has been the constancy of the pulsation within your hearts to find truth, no matter what the experience, that by that truth you may set yourselves and your fellowman free from distress.

As we enter the gracious and beautiful retreat of El Morya, each of us who has found and become the embodiment of truth brings his consciousness to add to the already powerful radiation of faith in God, determination to know and do his will and a distinct radiation of the First Ray which is constancy of endeavor until manifestation occurs!

As you enter this retreat in consciousness, you bring with you all your experiences wherein you witnessed truth expressed, even long before you took your first embodiment on Earth. You bring also the etheric memories of all the so-called "miracles," as well as the doctrines set forth by the "wayshowers" upon the spiritual path from past eras when you were associated with such spiritual pioneers!

Thus, we become ONE in offering the good of our lifestreams to expanding the radiation of El Morya's Flame of God's will manifest now for every part of life still in bondage and limitation. Let us walk together up the steps, enter the glorious entrance hall, look upon the replica of the Taj Mahal and wait for our host, El Morya, to greet us and take us to the temple room together!

Maha Chohan

THE GOAL OF ALL MANKIND, THE ASCENSION

MAHA CHOHAN

Mankind, as a part of all self-conscious intelligence created by God, the I AM Presence, is endowed with the power to think, to feel, to speak, to act and to remember. These gifts are used according to the free-will of such an intelligence (constructively or destructively), often unconsciously by the masses who do not even know they have the power to control these gifts. The life which is also given by the Creator to each intelligence, is obedient to the use of these powers. The creations in the world of an individual, a nation or a planet are the result of the free-will use of these powers, whether consciously utilized or unconsciously allowed to act.

In order to have an individual ascension or a planetary ascension, mankind must first understand that the powers of thinking, feeling, speaking, actual motivation and remembering (on any plane) are under his own control. Then comes the process of learning such control of thought, feeling, speaking, motivation and memory, followed by the absolute necessity of using the knowledge that such control is possible. Finally, as these powers are utilized to consciously create perfection, the individual unit and the national and planetary aura ascend into a realm where only perfection of expression exists!

EL MORYA

The will (desire) to do is the activity of motivation. It is the free-will choice of any self-conscious intelligence to use life for a certain purpose. This choice is made by every individual (ascended or unascended). It is primarily an activity of feeling. Until the individual feels (deep within himself) a desire to do God's will, there cannot be permanent progress of the soul toward sublimation of the lower nature and expansion of God's kingdom on this planet.

When such a deep desire arises from within the confines of the soul and animates the feelings, the mind and then, particularly, the physical vehicle, we are enabled to help such a one to set into motion the necessary causes (at inner levels) which will manifest as a change of vibratory action in his four lower bodies (emotional, mental, etheric and physical forms) and the world around him. Such a one who, through free-will, so decides to do God's will, becomes a channel

through which our fully-gathered cosmic momentum of knowledge, understanding and services flow in the form of “ideas” which enter the conscious mind and which can be developed by such an individual, if he desires to follow through with the necessary use of his disciplined faculties until such an “idea” becomes a manifest fact.

Unfortunately, however, many such “ideas” are “stillborn,” remaining only as visions and few are translated into practical works for the benefit of the race. The ones who do follow through in the process of creating from an “idea” a beneficial manifestation, are ascending daily, hourly, into greater personal mastery, as well as being of great use to the Spiritual Hierarchy who desire, through them, to bless the race.

KUTHUMI

The quality of the energy which forms the vehicles of man is determined, primarily, by the free-will choice of each individual in the use of those vehicles through the ages. The vibratory action of these is also determined by what they have been “fed” by the lifestream through the long course of individualization. This “feeding” of the lower vehicles (emotional, mental, etheric and physical) is determined by the type of teaching which he has accepted, the associations with his fellow man, what his attention is allowed to rest upon and, generally, the nature of his free-will choice of thought, feeling, spoken word, actions and memory. Very few people know that they can govern, through calling to their I AM Presence, their thoughts, their feelings, their speech, their physical activities and their memories. Rather, most people are used by their vehicles, instead of using them as God intends. Thus the vehicles of a man become his master rather than his servants.

Once man realizes that his powers of thought, feeling, spoken word, physical action and memory can be consciously controlled (not by human will but by the Christ within him) he comes under the direction of the brothers of the Second Ray. Our specific service is to show such a one how to take the “idea” and form it into an actual practical cup. This requires the control of the mental body and its use in creating such a cup and sustaining it against the doubts, fears, ridicule and discouragement of himself and others. When the mental body is thus trained, it ascends out of the “mass-mind” and the individual truly thinks. Most of mankind do not think for themselves, preferring to use the already designed thoughts of others, accepting them as fact. This, although it is the lazy man's way, slows down the vibratory action of the mental body, which then just functions as a repository of all the

knowledge already gathered in a certain strata of thought.

Such people repeat, like parrots, the already expressed thoughts of others rather than ascending into a receptive consciousness where God himself can direct his thoughts. Then, if such a one chooses to develop those thoughts, he can make of these thoughts practical manifest expressions in the world in which he abides. The more a man really thinks (not revolves others' thoughts) the quicker the vibratory action of his mental body becomes, the more alert it is to the divine pattern and the less such a one becomes a prey to the mass-thought of the day. Thus using the mental body makes it elastic, alert, alive and receptive to divine inspiration. This is the ascension of the mental body out of mass thought into individual reception and individual creation of divine ideation.

PAUL, THE VENETIAN MASTER

When an individual decides within himself to act upon an idea, he usually sits down and thinks about the various ways and means by which such an idea can be made a practical reality. This activity is described above by beloved Kuthumi. Then the activity of the Third Ray becomes essential to the sustained life of the idea (clothed in thought). Here the motive behind the creation of some practical manifestation is most important. If the motive is selfish, the idea clothed in thought and animated by strong feeling will manifest, but the manifestation will be temporary and of little use to the entire human race. If the motive is selfless, the manifestation will be permanent and of great use to humanity. Thus the Third Ray builds the consciousness of LOVE OF GOD and of man into the feeling body of the individual engaged in the process of creation.

The still ephemeral thought is given life (through feelings) in the third realm and the type of feelings which animate the thought will determine the final precipitation. As the generation of good feelings is possible for every man, we endeavor wherever we are given opportunity, to so stimulate the emotional body of man in the creation of constructive feelings. This generation of good (God) feelings quickens the vibratory action of the emotional body and helps it to ascend out of the mass feelings of the race into a purer and more holy vibratory action. Such a one, with the control of his feeling world, can quickly animate a good thought and precipitate it forth into the sphere in which he is serving. He thus becomes a channel for the activities of the Holy Spirit and the brothers of the Third Ray through him. He also accomplishes,

personally, the ascension of his own emotional nature into the nature of God.

SERAPIS BEY

All the vehicles of man are composed of infinitesimal particles of energy, qualified by the individual himself through the long ages of his individualization, with a certain type of sensitivity to various strata of thought, feeling, memory and activity. The development of these vehicles progresses according to the free-will choice of each individual in the use of life. Concerning the four lower bodies, if they are sluggish, lethargic and uncontrolled, the individual has poor “reception” in so far as divine ideas, divine grace and God-assistance are concerned, although such a one may have particularly good “reception” in the sphere where one or more of his vehicles has found happiness, peace and satisfaction.

When the Christ in man quickens the vibratory action of his vehicles, he is literally “born again” into a new world where thoughts, feelings, memories and activities of a higher nature form the stimulus for his life and expression. This is the state of the consciousnesses referred to by beloved Jesus when he spoke of the “quick and the dead.” The transmutation of the energy particles, the use of the individual's vehicles for constructive purposes, the experimentation with the power of thought, feeling, spoken word, recollection of perfection, as well as practical physical works in a constructive endeavor, naturally raise the vehicles into a higher strata of consciousness. This process of raising the vibratory action of the individual's vehicles is known as the ascension into the pure light in which we dwell.

HILARION

Life in its primal state is perfect but unformed. Self-conscious intelligence is allowed, through free-will, to form this life into any manifestation desired by an individual. The learning of the lesson of using the vehicles created for man so that he may become co-creator with God, is the purpose for which he took embodiment upon the Earth. At first, having no contaminating influence or bad example, man used his creative faculties only to design and precipitate beauty and perfection, for that is all he knew, it was the era of the Garden of Eden (before evil was presented to the consciousness of man through the senses). After the imperfect designs of others the laggards reached the outer consciousness of man, and he began to experiment (at first secretly) with

these creative powers to duplicate the imperfect designs which he allowed to enter his consciousness. Then (becoming bolder) he openly used his creative powers of thought, feeling, spoken word, physical action and memory, to create and sustain these imperfect designs.

The first estate (the Holy Innocence) was not particularly to man's credit, because he had no stimulus to consciously hold to a divine design, there being no other manifestation that could coax him to use his creative powers for imperfect manifestation. The real test came when man was exposed to the imperfections created by others. Some refused to allow their thoughts to entertain these designs, their feelings to enjoy their sensuality, their memories to revert to such impure manifestations, or their bodies to be motivated to like actions. Most of mankind, however, did respond to such impure stimulus and the resulting chaos in the world of the individual as well as in the planet Earth itself today is the expression of such use of the creative powers of God, given to man and misused by him.

Now, we come to the point where these imperfect creations must be removed at their core, which is the stimulus to continue (even secretly) to create more distress, then in the place of this former "cause and core," there must come the training of man to use his vehicles constructively once again. Having tasted of the "fruit of both good and evil," man will consciously choose to use his creative powers constructively. Thus the second estate will be greater than the first, because man has, through free-will, chosen to "tune in" to God's design and fulfill it! Such choice accelerates the vibratory action of all his vehicles and the individual begins the process of the ascension into the estate where only God's will is done.

JESUS

In my own experience, I had to be consciously on guard throughout my Earth-life so that I did not accept, through the avenue of the senses, the appalling human appearances with which I was surrounded. It took a tremendous effort not to accept these appearances as real. Out of my own experience, I made the statement: "Judge not according to appearances."

My mother, beloved Mary, my father, beloved Joseph (now Saint Germain), my Guru, Lord Maitreya and the angelic host gave me tremendous assistance in keeping my inner vehicles, as well as my physical body, free from the mass consciousness of that era. If I had allowed my consciousness or vehicles to tie into the appearances of dis-

stress and imperfection around me, the vibratory action of all my vehicles would have been lowered and the resultant density of those vehicles would have “shut off” the flow of spiritual vitality required to achieve a public ascension.

You, each one, choose hourly and daily the type energy which you allow to enter into your minds, thoughts, feelings and actions. You, each one, are either ascending or descending, according to that to which you allow your attention to flow. In your final hours, your ascension will be determined by the vibratory action of your inner vehicles, as well as that of your flesh body. This I say your ascension does not manifest as the result of a moment's grace but of entire embodiments vigilance, self-control, self-mastery, aspiration and service to God.

SAINT GERMAIN

The activity of the Violet Flame is to help to remove the miscreations consciously or unconsciously filling the emotional, mental, etheric and physical strata in which mankind abide. When these miscreations have been removed and, most important, the desire to create further imperfection has been removed from those on the Earth and in its atmosphere, we shall be well on our way toward creating—through illumined men and women—the kingdom of heaven on Earth which shall not pass away. Why? Because the feelings motivating the design of God's kingdom of perfection on Earth will sustain the creation of a permanent Golden Age.

Few know of the power of sublimation (refining by fire) in the use of the Violet Flame, fewer still have learned to use this transmuting power. However, in time, many shall know of its efficacy and, in so using it, the individual's world will be cleansed of imperfection and as the unit (individual) is lifted up, so will the entire race be lifted up in like manner. The desire born in the hearts of men, fashioned through intelligent thought, given life by the feeling of love for God and man, will easily be precipitated into the world of form. This is the teaching of the Seventh Ray!

FESTIVITIES IN MAY

May 1, 1957, Saint Germain's Coronation Day and anniversary of his ascension.

We give praise and thanks for the strength, love, constancy, service to the light and subsequent ascension of our beloved brother, Saint Germain. Because of that service, he was ready to accept the great responsibility of becoming Chohan of the Seventh Ray and, later, was duly coronated by the Lord of the World (May 1, 1954), thus being given full authority to begin the direction of certain rays into the atmosphere of Earth, which will result in the establishment of the permanent Golden Age upon this Earth. To the beloved Ascended Master, Saint Germain, our gratitude flows. Let the Earth open its heart to his presence, his Violet Ray, his service!

May 8, 1957, Birthday And Day of Illumination of Lord Gautama.

As the spiritual progress of the Earth has recently elevated Lord Gautama to the position previously occupied by our beloved Sanat Kumara, we all pledge our spiritual allegiance to the new Lord of the World, on this day, when so many people celebrate his birthday as Prince Siddhartha and his day of illumination, when first he began to teach the doctrine of the "Middle Way." Welcome Lord Gautama! Let the people of Earth soon know you and feel your presence and your love.

May 12, 1957, Mother's Day

Today is the day of acknowledgment of the Feminine Aspect of Deity in the higher realms. We love and honor all such beautiful Goddesses and all mothers on Earth as well!

May 13, 1957, Wesak Festival, 5:34 P.M. (E.S.T.)

As the pilgrims make their way toward the Wesak Valley, we know Lord Gautama, in his expanded consciousness, will give to them all, this year, the greatest blessing they have yet received. We invoke the light in the hearts of all pilgrims to guide them to the Wesak Valley and to open their minds, feelings, souls and bodies to the communion with the Holy One. We shall all be there! We hope our gentle readers will be there in consciousness at least.

May 30, 1957, Ascension Day of Master Jesus.

As the public manifestation of the ascension remains the crowning

glory of beloved Jesus' ministry, we do invoke his consciousness of immortality to flow in, through and around all unascended beings on this day. Beloved Presence of God, "I AM," today take away from all mankind the fear of death, as well as the grief and distress which accompany the passing of loved ones. Replace it INSTANTLY with the joyous acceptance of the possibility of the resurrection, for all elemental life and the ascension of every member of the human race, as well as embodied members of the angelic kingdom. For your strength, your service, your EXAMPLE OF VICTORY over all human appearances, we bless you, Lord Jesus and all who assisted you to that victory!

NEARER, "I AM" TO THEE

Nearer I AM to thee, thy light I see,
Draw me by love divine, thy self to be.
Possess my mind and soul, make thou my bodies whole,
Help me attain my goal, "I AM" in thee!

Holy Christ Self of me, reveal thy power,
Hold God-control of me every passing hour.
Thou art my friend divine, holding my God-design.
By love my world refine, blaze thy light through me!

Though I have wayward been, wandering afar.
Now I return to thee, bringing Freedom's Star.
Watch o'er me day and night, help me make all things right, By
glorious victory's might, Ascend me to Thee!

I claim thy Presence new, love's victory wont
Thy crown upon my brow, my long journey done!
Now free from every stain. By use of Freedom's Flame,
grateful to Saint Germain. I ascend to Thee.

Upward from Earth I soar, into Thine arms,
Now free forevermore. From all fear's alarms.
"Welcome" I hear thee say—"Thou has been long away!
Now be perfection's ray. For eternity!"

In heaven's beauty rare, now I abide,
Sure that no earnest prayer ever is denied.
So, knowing Freedom's worth, grateful for love's rebirth,
I call "Now raise all Earth "I AM," to thee."
(Hymn Tune: "Nearer, my God to thee")

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
with the Great White Brotherhood and Cooperative World Service

JUNE 1957

TO THE COSMIC SPIRIT OF PRECIPITATION, BELOVED LANTO, THE BROTHERHOOD OF PRECIPITATION, BELOVED NEPTUNE AND THE UNDINES

Blessings from all of us who are, in truth, precipitated light rays from the heart of God! We, in turn, choose to precipitate our blessings to all life everywhere, charged and qualified with the virtues which we have developed through self-conscious endeavor throughout the ages.

Blessings from all of us and from all mankind whom you give, generously, kindly and constantly, teaching them once more to wield the power of precipitation from, within themselves, to create and sustain only manifestations of beauty, harmony and perfection.

Blessings for the visible and tangible act of precipitation of the water element to this Earth. Let it be a constant reminder to the outer consciousness of man that precipitation is a perfectly natural activity, even in this world of form! We do call in mercy that the precipitation of the water element be governed through divine love and only released wherever and whenever necessary to nurture life so that harmony may be established again between the water element and human kind.

Beloved Universal I AM Presence, bless the precipitating power in all mankind and release through those whose desires and motives are to forward the progress of the race and the manifestations of that power NOW!

Thomas Printz, Editor

The Homes and Retreats of The Masters of Wisdom
(ROCKY MOUNTAIN RETREAT, WYOMING, U.S.A.)
June 15th through July 14, 1957

The beautiful natural cathedral of the Grand Teton Mountains, rising from the plains surrounding them, is the focus of the beloved As-cended Master Lanto and the Brotherhood of Precipitation.

Precipitation is a power, the use of which mankind so eagerly seek. Mankind is not conscious that when the active ability to precipitate is released through them, all the secret thoughts and feelings, spoken words and actions will also be externalized WITH POWER. It is, therefore, mercy and wisdom to purify the inner vehicles of the chela before he experiences the conscious use of the power of precipitation which, otherwise, would cause him much personal embarrassment and no little amazement if the cause and core of impurity were not first removed from the lifestream.

As the vicinity of the Teton Mountains was the first place where mankind took embodiment upon the Earth, the focus of the Seven Elohim, like an open lotus with seven petals of flame, is located there in the ethers and encompasses the retreat and its environs. The Seven Elohim, having participated in the creation of the Earth as a habitable schoolroom for certain evolutions, provide an impetus of the power of precipitation into form from this locality. The beloved Lanto, many ages ago, accepted the offer to become Hierarchy of this retreat and guardian of its beautiful Green Flame of Precipitation.

Twice each year, the Spiritual Hierarchy meet at beloved Lanto's retreat, in order to bring there gifts of their own consciousness and in order to receive the impetus of this Precipitating Flame. At these half-yearly conferences, the great Karmic Board is always present. This year, in honor of the flames of truth and purity, the chairs for the Karmic Board are made of beautiful diamonds, encrusted with flawless emeralds. Beloved Pallas Athena is presently spokesman for the Karmic Board. As she is also one of the four sponsors for the year of 1957 (our Lord Maha Chohan, the Elohim of Purity and beloved Astrea being the other three of the sponsors for this year), she will wield more power and influence than usual at this conference.

The original Rocky Mountain Retreat has been enlarged as most of our gentle readers know, by adding seven beautiful ante-chambers which now surround the main audience hall. Each one of these is opened to the audience hall by the drawing back of the golden-mesh

curtains at their entrance, on which curtains are portrayed the figures of one of the great Archangels and his divine complement. Each of these antechambers is in the color of one of the Seven Rays. You can see, therefore, how the etheric lotus of the Elohim is outpictured in the actual substance of Earth in this retreat.

Throughout the year, except for the time when the retreat is host to the Spiritual Hierarchy (December-January and June-July) the golden curtains are kept drawn and only the central audience chamber is open for use in ceremonial activities particularly connected with the expansion of the power of precipitation throughout the emotional, mental, etheric and physical consciousness of mankind and the evolutions belonging to the Earth.

Beside the glorious audience chamber and its seven antechambers, the Rocky Mountain Retreat has many council halls which are courteously offered for use to the beloved Ascended Masters who visit this retreat with the specific intent and purpose of helping to precipitate into the world of form some God-design and blessing which will be beneficial to the race as a whole. There is always a beautiful angel placed in charge of receiving the scrolls upon which are written the petitions and proposed plans of the Ascended Ones, as well as those of their conscious chelas. This Angel of the Scrolls is chosen yearly as an honor to that one for having rendered some special service in the world of form.

After the angel has received the scroll from the petitioner (who may represent the Brotherhood of a particular retreat), the angel assigns the petitioner a council chamber and the scroll is fastened in front of this chamber. Those visiting Ascended Masters, who read the scroll and who have an interest in bringing the ideas of the petition into fruition, visit the petitioner in the council chamber and after a conference their support is enlisted in manifesting of the petition in the world of form.

In this way, the Ascended Ones as well as their unascended chelas, are given opportunity to study, contemplate and, generally, widen the scope of their own vision with regard to a particular plan before they agree to consciously assist in furthering the outpicturing of that plan.

By the time the Karmic Board is ready to listen to the petitions and plans as presented by the Divine Beings who often incorporate as well as present plans of their chelas in their addresses to the Board, each individual is well versed in the content, ways and means of execution

and personal responsibility involved in becoming an active sponsor of such a petition. It is entirely a free-will endeavor.

In recent years, due to the dispensation given by the divine Law, more and more unascended lifestreams are cognizant of the activities in the Rocky Mountain Retreat and they, in turn, have a greater awareness of the opportunities available to them to more quickly further their own spiritual progress and that of all mankind by lovingly co-operating with the Brotherhood here. Unascended chelas are also given an opportunity to face and address the Karmic Board themselves, if their petitions are of sufficient value to the evolution of the race and if their sponsors believe they have the ability and spiritual development necessary to help externalize these plans through their own endeavors and through whatever collective energies they may be able to enlist from their fellowmen.

One of the most solemn moments in these conferences is the presenting of the addresses and petitions to the Karmic Board who sit, facing the assembly, the expressions upon their lovely faces, wholly impersonal. Another such solemn moment is the moment when, from time to time, the Karmic Board acquiesces to the plan of some petitioner (Ascended or unascended) who is thereby given permission to try to externalize a particular Idea. The most solemn moment for the petitioner is when he receives that acquiescence and the responsibility for developing that idea is placed upon his own shoulders he knowing full well that within a period of six months, he must return with a full report of what he has done to fulfill that plan in the world of form as a practical benefaction for the race.

As the beautiful Rocky Mountain Retreat has been described so often in our other published literature, we shall not take up further space here to reiterate the magnificence of this focus of light, referring the gentle readers to the many "Bulletins" issued after the various Transmission of the Flame classes in December and June of each year, as well as the Bridge to Freedom Journals, Book 1 and Book 2.

THE LAW OF THE CIRCLE

By Beloved Kwan Yin

December, 1956

Beloved friends of Earth, I bring to you tonight the blessings of the great Karmic Board, that Karmic Board of which I am a member, which has been established as an instrument of mercy rather than an instrument of judgment. We, in the Ascended Masters' realms of perfection, are so eternally grateful that through the expansion of the understanding of the outer mind of mankind at this time, beloved Master Morya, Saint Germain and all those who serve with them, have brought enlightenment to the people concerning our position in relation to the evolutions which are now progressing on the Earth, upon its surface and in its atmosphere.

It is our complete desire and was, long before we qualified for membership upon this Board, to give every soul and every electron, making up every form belonging to the planet Earth, the greatest possible assistance to the manifestation of its divine pattern and plan. It is also our present desire (and we hope it shall be our victorious accomplishment, depending upon the amount of energy released from those embodied on Earth who are willing to co-operate with us and the amount of energy the Cosmic Law will allow us to draw from the universal) to mitigate as much as possible the karma of distress, to transmute as much as possible of the destructively-qualified energies which are now returning to the Earth and her people for redemption and to place the cloak of mercy around the lifestreams of the people so that they may not have to feel the full impact of the returning energies which they have sent out discordantly qualified in the past.

Beloved ones, if you could witness with the inner sight the action of the Law of the Circle, if you could watch just one stream of electrons (which is your own life) pass through your feelings, your thoughts, your words and your actions into the atmosphere about you, see their effect upon the entire planet and all its evolutions and then see that return current as it comes back to you, if you could see that just once, I am sure each of you would be a great deal more careful about your use of the gift of your own life. It is because of the careless use of life by mankind that the Law of the Circle is compelled constantly to return this discordantly qualified energy which continues to plague the race.

It is because of this also that we, as members of the Karmic Board and we as directors of activities on all of the Seven Rays, render this service to the Earth and her evolutions during the latter part of each

year, dissolving by the power of the Violet Fire all human mistakes of mankind of the past year which have been made without deliberate intent, i.e. mistakes of ignorance and misunderstanding. At this season of the year the great Law allows us to call forth a much more intensified action of the Violet Fire, which blazes from the heart of the Earth wherein abides beloved Pelleur's domain, out to the periphery of Earth's atmosphere, passing through every electron which makes up the planet itself, the elements and your four lower bodies. This performs the unspeakably transcendent service of transmuting into light all of the karma which has been created in a blundering fashion, but without intent to hurt.

Mercy Shown For Unintentional Mistakes

Now, there is a great deal of difference between making mistakes which have behind them a deliberate intent to hurt some other part of life and “stumbling” into error, even though in such “stumbling,” even when the motive and intent are good, great harm can be done to the feelings, minds and soul growth of others. However, the returning karma of such a blundering error is not nearly as great as the returning karma to one who strikes with intent to hurt and has planned distress. Even in your courts of law in the outer world, you know that there is clemency allowed when there is no pre-conceived intent for crime.

So, through this month of December, the entire planet Earth has been being bathed in the Violet Fire of Freedom's love. This activity is produced and sustained by the salamanders of the Violet Fire (most magnificent beings who wear robes from the most delicate pink to the deepest purple), the great angels of the Violet Fire representing my own Legions of Mercy and those of beloved Saint Germain and lovely Portia, beloved Mighty Arcturus, Glorious Diana, Mighty Zadkiel and Holy Amethyst. These are very, very real Beings, beloved ones, and what are they doing?

Just as you are constantly drawing life into your hearts through your silver cord, these Great Beings are drawing life, from the Supreme Source of all life, the Godhead—and they are choosing what they wish to do with it. They desire to charge this life which they draw with the power to sublimate error, transmute distress and add their assistance to the relieving of this Earth from the suffering caused by its shadows. This is a very wonderful gift of their life to this Earth. Remember! These are beings of free-will and, if they should choose so to do, they would be free to explore the cosmos which is exquisite in the extreme,

particularly at this Holy Season.

At this time of year the Cosmic Highways are open for them to travel and yet, like ourselves and those of you who choose to lovingly co-operate with us at this time in the task of freeing this entire planet, they are “prisoners” of divine love, love for the light and life of God which is hidden within each individual creation. But, although we are such “prisoners” of love, we have chosen so to be! Even in our God-free estate, we have chosen to remain where we can give assistance to this Earth and her evolution at this time of their great need.

We saw this dear planet born, beautiful and shining, we saw the magnificent descent upon her surface of the great Manu and the First Root Race. Ah, we have seen this Earth as God intended it to be and as it shall be once again! When once you have seen such beauty and perfection and then have seen the shadows of human creation distort that, it stirs within your inmost being a tremendous desire to re-affirm Deity in man, the elemental kingdom and all life! So, we of the Karmic Board, do re-affirm this night the truth of Deity within the soul of every lifestream, not only those embodied but all who belong to this evolution still not ascended. The great Karmic Board are now enthroned in the atmosphere above the glorious Royal Teton. Our beloved Portia (Goddess of Justice and former spokesman for the Board) is giving her place (which is the central chair) to Pallas Athena, Goddess of Truth! Think about this! You are facing a year of truth and purity and may the God who made us all, help you to enjoy both!

Spiritual things and activities should be enjoyed and yet they are so often felt to be so dutiful and rigorous in the doing, that the joy of spiritual worship is lost. We come again, I hope one day very soon, to a time when the giving of praise, thanksgiving and service to God will be a joy to the hearts of men, especially to the hearts of the chelas, when service well done makes the emotions rise as it does within the hearts of the angels. Such joy should also make the illumination of the mind expand and the vibratory action of the flesh accelerate. Such is the blessing of worship in the kingdom to which you aspire. Such is the worship of the Gods, and you, each one, is a God or Goddess, just waiting to manifest that full perfection, the moment you can and will accept it!

From all over this great universe and from out the cosmos, Great Beings of Light have come to visit the Teton which opened its doors on your latest Transmission Evening. Beloved Lanto has changed the substance and color of the chairs for the Karmic Board for use during this

half yearly council. Last year, they were held in pink because of the thoughtform of that year. These have now been changed into a very beautiful substance which looks something like your white marble, veined in gold. The members of the Karmic Board are all in attendance now. The Hierarchs who are visiting from the various retreats have been given their places in the private council chambers.

Inner Self Always Ready For Service

Many of you have already visited the Teton recently in your etheric bodies, especially with the assistance of beloved Leto. You have given your petitions to the Keeper of the Scrolls. Sometimes, we have smiled to ourselves as we have heard your outer selves very firmly state that you would make no big petitions this year which would cause you to exert extra energies in decrees, etc. Yet, the moment your inner self is released from the flesh body, that feeling of spiritual buoyancy returns and you are immediately off to the Teton again with greater enthusiasm for more service.

Perhaps we do not laugh too much as we serve on the Karmic Board, for our responsibilities are very great. However, we do often see you so tense before entering sleep at night, oh, you think you have just about all you can handle! Then, as the physical body sleeps and your consciousness “flies” from it into the realms of light for instruction and service, well, then, the cosmos itself is not too large for you!

Once in a while, one of the Great Ones (particularly beloved Sera-pis who has taken it upon himself to do so) goes about among you while you are out of the body at inner levels and he says to you: “Now, remember! Your outer self may not like this which you have offered to do.” But, when the inner self sees the plan of perfection for the Earth and knows what can be done by the releasing of cooperative energies from the outer self, without any thought of the likes or dislikes of the personality, the inner Presence will confirm and serve the Deity within each individual, even as we are doing tonight.

It is only the heaviness and weariness of the flesh body, the disappointments and disillusionments which have registered in the etheric body and the actual weight of the discord which fills the minds and feelings as well, which make the outer self of one feel that the path is too steep to climb and that it would be much more comfortable to have provided a nice, comfortable ladder upon which to be carried!

INCIDENTALLY, THE GREAT COSMIC LAW IS ONLY ALLOWING

LIFESTREAMS TO REMAIN BUT THREE MONTHS IN THE "SLEEPERS' REALM" NOW, so you might just as well remain here until your service is finished. All who think they are going to spend an eternity in resting, bless their dear hearts, it is really going to be a strange experience for them when they leave those physical bodies. You know, through your calls and application here, you made possible this shorter period in the "Sleepers' realm." We are very grateful for you and your service, dear hearts. We are most grateful for the opportunity to reach your minds for even these few moments because, while I am speaking to you, the energy and power of the Violet Fire (which is my nature and my aura) is filling the entire planet and its atmosphere, passing through all within and upon it. All the beings who work with me on the Seventh Ray are using you tonight as a radiating center and you, then directing it into your sanctuaries, your homes and all places of mankind's need and discord, expand the efficacy of the Violet Fire before the beginning of the New Year of 1957.

Association Of Ascended Masters, Angels And Men

Beloved ones, will you please accept and rest in the purifying activities and forgiving feeling of that Violet Fire as much as you possibly can because, in the year of truth and purity, the more of the human concepts and feelings which have been dissolved by the Violet Fire, the greater will be your opportunity to enjoy some of the happiness of walking and talking with the angels and the Ascended host.

At this time of year, for a few short days perhaps, the people in general depict the angels as walking and talking with Jesus, Mary and Joseph. This is accepted by the outer minds of the masses and seems real to them that such a thing could have occurred in those days long ago. Yet, were you to tell the average person in your city that the Gods were talking to you tonight, they would not believe you, nor would they be able to comprehend it. So, in this Western World, where so much unbelief and distress exists, it is a real miracle to find even this many lifestreams willing, ready and eager to accept our gifts of life!

Now, beloved ones, just for a moment, let us think! You are receiving constantly life into your own hearts (and it radiates out through your four lower bodies.) That life is the essence of your own God-Presence. It is so simple! Just what you do with that life from this moment forth will determine just what can be done for and through you. Every destructive vibration of thought, feeling, spoken word and deed, by the action of the Law of the Circle, returns to you for redemption. If

it were not for the assistance to you of the Violet Fire Angels who constantly guard and assist all who are calling forth that merciful Violet Flame, as well as the activities of protection established around you by the calling forth of your Tubes of Light, the impact of your own destructively qualified energies would be much greater for you to handle.

The ceremony of the changing of the spokesman for the Karmic Board will be, I believe, late tomorrow night. At present, beloved Portia holds the center chair and all the other members of the Board (with the exception of myself as I am present here with you) are in their accustomed positions. All have been wearing pink until tonight, now they wear pure white garments in honor of purity.

The beloved Lanto has prepared for the presence of many, many guests who are visiting the Royal Teton this year from other galaxies. The Cosmic Highways have been opened this year as far as Alpha and Omega and that highway insures a safe entrance into the planetary system to which the Earth belongs. Many, many of the seraphim, cherubim and angels as well as other Perfected Beings who otherwise live only in their own planetary systems, are visiting the Teton this year. It is believed that even the God and Goddess from the Great Central Sun (beloved Alpha and Omega) as well as all the Sun Gods of this entire system will be in attendance in the atmosphere over the Teton by New Year's Day. If you will keep yourselves as harmonious as you possibly can and keep yourselves from becoming too tired during this period, so that your four lower bodies can absorb that perfected energy released by these great Beings, such radiation absorbed will be very helpful to you now and to those who are going to look to you in the future.

Beloved Lanto has been very active during this period. He has had conferences in every council room and has talked with every one of those who are about to present petitions. He has done a great deal of preparatory work so that, when the petitions are presented New Year's evening, that those who have not the strength of spirit to present their own, those petitions may be taken up by some Ascended Master Sponsor.

Now, for just a moment, will you consciously feel the most intense action of the Violet Fire possible? In the name of the Presence of God which I AM, I consciously call on the Law of Forgiveness for every error made by every lifestream in this room from the beginning of time. Through the full-gathered momentum of that Violet Fire which is mine to command, I now CHARGE and CHARGE and CHARGE the actual substance of that Violet Fire through the emotional body, the mind, the

etheric and flesh structure of these bodies here. I ask the great God of Acceptance to help those in this room to accept and realize the fullness of the import of this baptism of Violet Fire. Great Angels of Acceptance, anchor this into their worlds until they all feel as one in unity of spirit!

Looking at you now from the inner level of consciousness as I am, it is the most marvelous activity to witness. All of you here have formed, as it were, one triangle of energy, the point at the platform and the base at the back of the room. Now all of your energies have merged into the feelings of this Violet Fire and your separate personalities have ceased to function, for the moment. It is the first time that we have been able to achieve this feeling of unity in a class and if you can hold that feeling of oneness and that stillness for a moment, we can and shall use it to expand to the world. The feeling which you are experiencing this moment is the feeling of unity and oneness for which beloved Morya has hoped, as well as Saint Germain before him, since this new activity (the Bridge to Freedom) began. You can feel it and we can see it!

In the name and by the power of almighty God, Mighty Arcturus, beloved Zadkiel and Holy Amethyst! Through this student body now direct those currents of forgiving love which melt away the errors of misused life and CHARGE and CHARGE and CHARGE through the emotions, through the mind, through the ethers and through the flesh structure of all evolutions in the Earth, on the Earth and in its atmosphere, this power of the Violet Fire which changes the quality of energy from darkness into light!

May the Elohim of Peace seal you now within his feelings of uninterrupted Cosmic Christ Peace and hold that feeling of oneness, especially until this class is completed. In the name of love and light, I, as a member of the great Karmic Board bid you "Adieu" but not "Good-bye."

THE MASTERS OF WISDOM SPEAK
CONSCIOUS PRECIPITATION OF GOOD

MAHA CHOHAN

The power of precipitation is part of the divine heritage of every individual. Such a one is, in fact, literally precipitated, himself from the heart of the cosmic I AM Presence into being. The constant flow of the life which keeps the Individual "I AM" conscious as such a being (intelligent, creative and directive in nature) is also an activity of precipitation from that Cosmic I AM Presence. The delegation of the power of precipitation from the Cosmic I AM Presence to and through the individualized I AM Presence of every lifestream is for the express purpose of allowing the individualized I AM Presence to create (in any sphere) that portion of the divine plan which such an individualized I AM Presence has accepted as its reason for being. The individualized I AM Presence decides, through the use of its own free-will, in which sphere it will act. Then it draws that life required to create suitable vehicles for its service in any such sphere. Be assured that any such service is GOOD in ESSENCE and in FORM.

EL MORYA

Those individualized I AM Presences who have chosen to create a physical body and serve upon the planet Earth consciously will to do so! There is no power that forces any I AM Presence to serve at any level of consciousness except the motivating power of its own desire. Many of these lovely I AM Presences prefer to serve only at inner levels and never take physical embodiment at all. The Great White Brotherhood is primarily concerned with those who so do decide to create and serve the Earth and its evolutions through physical bodies. We have offered to help these I AM Presences to fulfill their divine plan through the physical vehicles which they have created. This service we render is also an activity of precipitation.

We consciously charge life with the quality of energy which every individual requires, offering it to that one's own I AM Presence to release to and through the physical, etheric, mental and emotional bodies at ITS OWN DISCRETION. Thus the qualities of faith, illumination, divine love, purity, consecration to God, concentration upon fulfilling God's plan, ministration to man's distress and purification of the results of his imperfect experimentations with life, all of these are projected by the Cosmic Being, Ascended Master, Archangel or angel, invited by the in-

dividual's own I AM Presence into the world of the one requiring assistance.

This projection of a momentum of a God quality is often made by the individual's own I AM Presence which accepts the gift and directs it through the silver cord into the heart flame of the individual. On occasion, the individual's own I AM Presence asks that the Ascended Being offering such assistance do so directly, enveloping all the four lower bodies in his or her radiance. When the Divine Being gives the assistance directly, the chela often feels the blessing more powerfully than when it is released through the naturally accepted heart beat.

KUTHUMI

There could be no form at any level of consciousness, without the use of the power of precipitation. It is to be lamented that man has accepted the constant precipitation of life which keeps his heart beating but has forgotten that from his heart that precipitation should flow naturally into the world around him. Thus man, by his own concept, accepts life (precipitated to him every second) but refuses to accept the possibility of allowing that natural precipitating power within him to fill his mind, body, world and atmosphere with perfection. Those individualized I AM Presences who chose to create physical vehicles and, through them, externalize perfection, are now being given assistance by the awakening of the outer consciousness of man to his conscious use of the powers of precipitation which are his inherent birthright. This assistance is given primarily by the members of the Great White Brotherhood through both instruction and radiation.

PAUL (THE VENETIAN MASTER)

Acceptance that the individualized I AM Presence would have only GOOD to externalize through the outer self, places the chela in a consciousness of expectancy, hope and confidence. Realization that the improper use of the powers of precipitation (in destructive thought, feeling, spoken word and action) has created distress and limitation for the individual and for the entire planet evolution, places the consciousness of the chela in a state of clear recognition that limitation is man's creation and abundance is God's creation. When these two important facts are accepted, particularly in the feelings, the chela can begin to transmute his limitations through the use of the Violet Fire and as he was intended to do, fulfill his divine plan.

This, his own I AM Presence will assist him to do by releasing to him ideas, promptings and thought patterns which can be externalized, if the chela is constant in his development in practical as well as mystical ways. Examine as carefully as you can the motive behind the idea, prompting or thought pattern you receive, to be sure it is selfless and will be beneficial to all life. When you have considered this and can say, as did the Source of all life, looking upon his creation, "It is good!," then proceed to externalize that idea. Think upon it. Fill it with your love. Practically endeavor to make "thoughts become things." I give you an assignment. Create in mind, energize with your love and physically manifest a pink rose!

SERAPIS BEY

The power to think creates form. The power to feel fills that form with life. These two activities precede all precipitation (conscious or otherwise). Most people do not control their thinking faculties and thus the forms created by their thoughts are indistinct and imperfect. Learn to use your thought to create a clear-cut, distinct pattern of that which you desire to precipitate. Then learn to actually generate feelings of happiness, joy and perfection and thus fill the cup which is created by your thought. As you do this for a few minutes at a time, earnestly and without strain, you will begin to enjoy your "practice of precipitation." Then, one day, you will hold in your hand the actual thought-picture, energized by your feelings, which has become a physical reality to bless you and others. The question arises: "Does this precipitation come directly out of the atmosphere or is it brought into my world in a natural way through some individual?"

At first, the precipitations may come through individuals. As one progresses, they can be and some times are manifested directly from the universal without the medium of intercession by another unascended lifestream. Any tension and unbelief in the chela greatly retards his use of the power of precipitation and awaiting a manifestation right out of the atmosphere would not create the proper state of receptivity for the beginner. However, when such a beginner starts to receive the objects which he has so faithfully created and nourished (even though they come through human beings) he gains confidence and can then endeavor to produce actual direct precipitation. It is always wise to begin conscious precipitation with a small object, such as, for instance, the rose suggested by beloved Paul, because it is easy to picture a rose and takes less energy to make the mental image and less energy to give to it perfume, color and body.

HILARION

The science of precipitation is both studied and used extensively in the Fifth Sphere. All constructive form begins with an idea. This idea is received by an Ascended or unascended being from the one Source-God. Then the training of the mind to hold that idea and develop it takes place. This is followed by teaching the individual to energize the idea with his own God given life. Here we, in the Fifth Sphere, direct the perfected patterns into the minds of constructive men and women in embodiment. If they are receptive, they develop these ideas and the entire human race is benefited thereby.

Many hundreds of thousands of such projected ideas and patterns are not immediately “picked up” by the outer consciousness of mankind and these we again receive into our realm awaiting the birth and maturity of lifestreams who can receive our directives and use them. Seen with the “inner eye,” there is a constant flowing forth of beautiful patterns and forms, a few taking root in the consciousness of embodied individuals, the many returning to us unused. We patiently await the day when all such projected ideas are assimilated by the minds of men and externalized through their co-operation in the use of the energies of their own creative centers.

JESUS

It is always easier to precipitate something which the individual has already seen and with which his outer consciousness is familiar. When the individual comes into the greater use of the power of precipitation, he rises above the things that have already been manifested and enters into the realm where perfection not yet expressed on Earth abides. This process is natural. For instance, it was comparatively easier for me to duplicate the coin of Caesar than to manifest the Christ. When an individual has truly learned to control thought and feeling, he is harmonious. This opens his outer consciousness to the divine perfection which is being directed toward him and he can far more easily proceed to precipitate those blessings of the Father's kingdom of which it has been written: “Eye hath not seen, nor ear heard the things which the Father hath prepared for them that love him.” Here the “minds eye” of the outer consciousness records the etheric memories of perfection witnessed either between embodiments or while sojourning in the temples of light while the body sleeps. These can then be precipitated into form, thus expanding the kingdom of heaven on Earth.

SAINT GERMAIN

As it is the service of the Seventh Ray to actually bring into manifestation the perfection of the kingdom of heaven on Earth, we are all vitally interested in the training of chelas to receive the perfect pattern for that permanent Golden Age. The power to invoke aid from the individual I AM Presence and the Ascended Ones is essential to both transmute the imperfect manifestations of the past, as well as to create anew in a more perfect mold and design. Therefore, while the Spiritual Hierarchy and the chelas are gathered together in beloved Lanto's retreat, where the Science of Precipitation is the primary activity, I cannot urge you too strongly to ask the brother or sister from this retreat (Rocky Mountain Retreat) to help you to enjoy learning to consciously precipitate something of a constructive nature.

Enjoyment in learning makes the process of assimilation and use of knowledge both quicker and more efficacious. "Duty study and duty application" both produce fatigue, strain and stress. Let us then ALL fill the atmosphere of Earth with beautiful pink roses, radiating their perfume through the emotional, mental, etheric and physical consciousnesses of all people. See how many actual pink roses come into your possession in this thirty day period. You will be amazed and delighted at the results. As June is the "month of roses" in many vicinities, nature itself will help you. Be sure, however, to accept every such tangible rose as an actual precipitation and acknowledge your Source as the giver and the gift as well.

MONTHLY LETTER TO TRANSMISSION FLAME CLASS

Beloved Ones Seeking The Use Of The Power Of Precipitation:

I say: "God bless you for seeking." Thus you will find the science behind conscious precipitation and you will also have the assistance of the purifying activities of those who have dedicated themselves to removing the cause and core of selfish and impure motives which might tempt you to use this power and its resultant gifts for personal pleasure and aggrandizement.

In my service with the nature kingdom, I have found such enjoyment in the obedient co-operation of all the Beings who form this kingdom, that I desire to impart to you the feeling of joy in conscious precipitation of some God gift. Let me say here, that any member of the human race can precipitate happiness, peace or any God virtue through the self-conscious control of the quality of energy released through the

emotional body! All our gentle readers know how much distress has been precipitated by the ungoverned feelings of mankind.

Proximity to the ESSENCE of that flame, faithful invocation of the brother or sister from the Rocky Mountain Retreat into your presence and daily applications, frequent visits in consciousness to this retreat especially during this thirty-day period, all of these stimulate the use of your own precipitating power and your desire to use that power constructively, impersonally and beneficially for the upliftment of the race. I cannot urge you too strongly to take advantage of visiting the currently active retreat and mingling freely with the Divine Beings who are present there. The old adage “show me your company and I will tell you what you are” holds true with divine association as well as human. Keep divine company in your thoughts and feelings and you will externalize the nature of your friends, even as keeping company with undesirable human beings affects seriously your own nature, actions and even your physical appearance, in time!

As beloved Lanto (dressed in the glorious Chinese Green, deeply banded at the sleeves and the hem with pure gold) stands at the door of the great Council Hall and welcomes you, reach forth your hand to greet him. Accept his love and hospitality, he will then graciously turn you over to the particular Being whose ray you serve and you will enter into that antechamber where others of the same ray are gathered. Together, as he breathes forth that Precipitation Flame, you can become a part of it by breathing it into yourself and then by consciously projecting it into the world in which you presently abide.

Walk through the corridors of the retreat. Read the scrolls of the Celestial Ones upon the panels outside their council rooms. Enter into those rooms and listen to the Masters of Wisdom as they speak upon the activities in which they are engaged. It will truly stimulate your spiritual progress.

Anticipating your presence at Lanto's blessed retreat, where I hope I shall meet you often during this thirty day period, I am always your loving Guru and Comforter,
Maha Chohan

Statement For The Transmission Flame Class, June 15

I AM inbreathing/ absorbing/ expanding/ projecting the gracious feelings and precipitating power from beloved Lanto.

Hierarchy: Beloved Lanto. Color of Flame: Chinese green. Musical Keynote: “Oh, Thou Sublime Sweet Evening Star” from Tannhäuser.

**EXCERPTS FROM INSTRUCTIONS BY
BELOVED KWAN YIN**

Jan. 1953

Perhaps I can explain my feelings for mankind in general by asking you to feel your reactions when a blind man makes a misstep and suffers an unfortunate fall. You know that it is the lack of the faculty of sight which has caused his unhappy blunder. Well, so we feel with regard to all human mistakes and blunders of the race. All of them are caused by the loss of the use of the faculties of the higher self, because the blunted and dulled faculties of the human are a far cry from the natural divine perceptions of the divine Presence. There is no part of life which is fundamentally evil. Oh, may mankind quickly be awakened, purified and raised to the full use of the faculties which are their divine heritage, that in such awakening, stumbling and confusions may forever cease!

As you may know, I occupy one of the thrones of the Seven Lords of Karma and all of us endeavor constantly to effect the greatest possible blessings for the race in the world of form.

How well do you remember me, your friend of long ago? I hope you will remember me well now and in the coming days by your giving of mercy to all life, that within your own bodies as well as to the life in each other and in all mankind. Thus shall I know how well you remember me. By your calls to me for my assistance to you in this respect, I shall know of your desire for our friendship to continue always, in the fullness of divine love and active service to life.

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
with the Great White Brotherhood and Cooperative World Service

JULY 1957

TO THE COSMIC SPIRIT OF ILLUMINATION

We invoke, through your divine emissaries, illumination for the outer consciousness of the mankind belonging to Earth's evolutions NOW!

LET your light dissolve all shadows of human concepts and opinions in the emotional, mental, etheric and physical worlds of mankind and replace these shadows by TRUTH. This truth can and will set mankind free from the mistakes of the past, the present and the future. It can and will reveal to the mankind belonging to Earth's evolutions the way to serve God and their fellowman. It can and will provide the stimulus to use knowledge in practical service.

We welcome the Presence of the God and Goddess Meru and their divine Brotherhood as a radiating center of that divine illumination during this thirty-day period. We invoke the spark of divine intelligence within the heart of every man to reach forth and accept the gift of divine illumination while the Temple of Illumination is spreading its rays throughout all the planes of experience where understanding, knowledge, truth and activity of a constructive nature are desired. The outer mind, the intellectual consciousness and the divine intelligence in man SHALL respond. So be it!

Thomas Printz, Editor

The Homes and Retreats of The Masters of Wisdom

(TEMPLE OF ILLUMINATION NEAR LAKE
TITICACA, SOUTH AMERICA)

July 15th, Through August 14th, 1957

The Temple of Illumination, hidden from the curious eyes of spiritually unawakened mankind, is located high in the Andes Mountains of South America. The Flame and Ray of Illumination are guarded by two Great Beings, known as the God and Goddess Meru. THIS FEMININE RAY OF PINK IS ONE OF THE TWO COSMIC RAYS WHICH TRULY FORM THE AXIS OF THE EARTH. THE PINK RAY ENTERS THE EARTH AT A POINT NEAR THE FOCUS OF THIS RETREAT. THE OTHER RAY (MASCULINE, GOLD) WHICH HAS BEEN MORE ACTIVE UP TO THIS TIME, ENTERS THE EARTH AT A FOCAL POINT IN THE HIMALAYA MOUNTAINS AND THESE TWO RAYS MEET IN THE HEART OF THE EARTH, FORMING A GIGANTIC FOCUS OF LIGHT AT HER CENTER.

The radiation of this golden ray accounts for the drawing to that part of the Earth of those lifestreams particularly interested in the development of spiritual understanding. Now, as mankind enter into the greater and greater expression of the final and permanent Golden Age upon this planet, under the direction and guidance of the Ascended Master Saint Germain, the Feminine Pink Ray will come into more and more powerful action and those pilgrims who seek spiritual illumination and guidance from now on will be drawn to South America as they have been previously drawn into the Himalayas. To this end, the directors of the forces of nature and the elemental kingdom are making preparation toward providing a natural means of access to this hitherto "untapped" spiritual focus of illumination in the Andes Mountains.

As the conscious chelas still embodied here recognize the presence of the Holy Mountain Meru and its beloved guardians, visiting this focus of illumination in consciousness, the first channels of energy in the physical appearance world are thus opened toward this glorious fount of wisdom. The condition of the energy which makes up the lower strata of Earth is like a jungle morass and spiritual pioneers volunteer to move forward first to make pathways into and through this morass, just as certain explorers and pioneers have always done in the physical world. Then, later, when the inner pathways have been well-defined and clearly opened, it will be easier to make actual physical paths to certain foci of light which hitherto have been inaccessible to the outer consciousness of the people. Over at least one of these, in their physical bodies, the people then will be able to make pilgrimages to the

wealth of spiritual understanding which lies within the retreat of our beloved God Meru and his Brotherhood.

Many of the sacred documents recording the various aspects of truth received by illumined beings all through the ages, have already been removed from Asia and brought to this retreat for safe-keeping and for the use of the chelas of the New Age.

To the average tourist, the retreat of our beloved Meru is carefully disguised as a resting place for those who climb the Mountain. Many such individuals have received hospitality, rest and refreshment here in the lovely but unostentatious lounge which forms the "outer room" of this retreat. These have then gone happily upon their way, not knowing just how close they had come to the divine Presence of the God Meru and his beautiful Goddess. This "outer room" is pleasantly and comfortably furnished and, like the bland expression on the faces of many of the wise ones, gives little or no inkling of the presence there of the great retreat which may be entered only by those who have been invited so to do. This is done by merely drawing aside the curtain which covers the doorway at one end of the room.

From time to time, a few chelas have penetrated the carefully prepared "illusion" and, by merit and grace, have been invited into the actual retreat itself. Such an invitation is given by a silent messenger who draws back the mystic curtain and beckons the chela to enter the long hall leading to the Flame Room itself. I, myself (El Morya) have seen the outer room filled with tourists, mountain-climbers and travelers and I have seen the quiet invitation so carefully given to one in their midst that the other members, enjoying their rest of the moment, were not even aware that such invitation had been given, nor were they cognizant of the acceptance or withdrawal from their midst of the privileged one. An individual so chosen is always one whose inner light signifies to the Great Ones the merit of the student which enables him to receive such a blessing.

If a chela should be fortunate enough to be invited into the Temple of Illumination, he would see the great Flame and Ray of Illumination rising from a natural cave in the center of the Holy Mountain. Divine Beings and unascended chelas will be seen seated upon beautifully colored cushions, facing the flame, absorbing its radiance and, often, listening to the inspired speakers who are invited to give of their knowledge and wisdom from time to time.

In days to come, a great temple will be builded on the surface of the Earth itself in honor of this flame and its guardians. For the pre-

sent, the activity, radiation and service of the Flame of Illumination are guarded by the Brothers of Illumination and only the ESSENCE pours forth into the atmosphere of Earth.

Come, now, you who seek illumination, knowledge and understanding, to the Temple of Illumination. Help us to create those spiritual pathways there through your attention and projected consciousness. Thus you become a very real part of the preparatory work necessary to the expansion of Meru's great radiation for the benefaction of your fellowman!

THE PURIFYING ACTION OF THE VIOLET FIRE

Address By Beloved Arcturus

May, 1957

I am Arcturus, Elohim of the Violet Fire of Mercy and Compassion, in which Violet Fire you have found some interest and some solace in this embodiment, as well as in ages which have gone by, and with which you have experimented under the instruction of various Masters and Teachers (Ascended and otherwise).

I represent the activity and power of that Violet Fire of Mercy, Compassion and Forgiveness, which can and actually does raise the vibratory action of the electrons which make up the substance and the form of any created thing.

Beloved ones, the use of this Violet Fire is just as much a science as is any of the sciences manifest in the world of form. This Violet Fire of which we speak is an intelligent substance and activity, already created for your use. By anyone who cares to experiment with it, it can be drawn in, through and around the four lower bodies in particular, as well as in, through and around their homes and affairs or through the entire planet itself and all its attendant evolutions still unascended. At your call and visualization of its presence that Violet Fire will go into action instantly to render the service of raising the vibrations of energy, thus changing its quality into perfection.

If your inner sight were opened at this time, you would be able to see the purifying action of that flame as it passes through the substance of your flesh body, transmuting into light as it does the accumulation of shadows which you have drawn around the electrons. This accumulation, of course, has shut in the radiation of their blazing light and this has shut off your natural self-luminosity. If you could see this

action just once and really see how much more light is released through your physical bodies after the use of this Mercy Flame, I feel sure that, as sincere as you are, you would become even more confident and enthusiastic about its reality, its efficacy, its power and your desire to use it.

Now, our actual size varies according to the requirement of the cosmic moment and the planetary service which we desire to render. Thus, when I came into the atmosphere of the planet Earth twenty-four hours ago at the direction of the Cosmic Law and through the invitation of your own upreaching consciousnesses, the Great Beings who direct Earth's evolutions suggested that I expand my Electronic Body until it was larger than your entire planet and its atmosphere. Of course, I immediately obeyed as obedience is so much a part of the Law of the Elohimic Builders.

For the last twenty-four hour period I have been holding the entire planet, all within and upon her and her atmosphere within my own body, robe and radiance of Violet Fire. Now, of course, when I came closer here in order to address a group of people, I diminished that size and the concentration and focus of my presence now comes within the compass of this room, within the Electronic Body of the speaker, into, through and around yourselves, and then is charged through you into the emotional, mental, etheric and physical bodies of all mankind. So, if your inner sight were opened, you would have seen first myself larger than the planet Earth. Then, as we came closer and closer to the class work, you would have seen my form, clothed in the same Violet Robes and the same jeweled crown of the Elohim becoming smaller and smaller in size but no less potent in power, I assure you.

Accept Reality And Blessing Of Arcturus' Decree

Now, this morning, in the name and by the power of the victorious Presence of God which "I AM," I do now consciously invoke and direct into the emotional, mental, etheric and physical bodies of all mankind belonging to the evolutions of Earth still unascended, the Violet Fire of Mercy, Forgiveness and Compassion, to raise now the vibratory action of the physical and three other lower bodies to a point where the veil of maya no longer remains. Then they may see their Presence face to face walk and talk with the Cosmic Beings, the Ascended Masters and the angelic host and thus can there be restored to this planet the beauty and perfection which it knew and had in the beginning of her existence, before this veil of maya was created. To this end have I been

sent to you this day by the great Cosmic Law.

I speak to the waters of the Earth, I speak to the substance of the Earth itself, I speak to the substance of air which makes up the atmosphere of the Earth and I speak to the element of fire. In the name and by the power of that Violet Transmuting Flame, shall you now know freedom from the accumulation of discordant effluvia. You shall know that freedom in harmony of action. From the most developed undine, salamander, gnome and sylph to the least of these, we command, in the name of the I AM Presence, OBEDIENCE to the Law of peace and balance, the Law of loving co-operation with harmony in this universe! I speak directly to all of these beings and call for their continued obedience to the Law of harmony so that we may again create a glorious Garden of Eden upon this Earth.

Beloved beings of the elements and your mighty Directors. As the Elohimic Representative of the Seventh Ray and the superior of the Chohan of that ray, I call for added assistance from your realms in, through and around the Earth and all its people, as well as for the great “invisible” realm which surrounds the planet to HOLD THE PEACE, PEACE ON THE WATERS, PEACE ON THE LAND, PEACE IN THE AIR AND PEACE IN THE FIRE ELEMENT as well in the name and by the power “I AM.”

You Are a Scepter of God-Power

Beloved ones, I bring to your attention again the truth that you are, by your very being, a scepter of authority. You see, the electronic light streaming from the heart of your I AM Presence into your beating heart (this stream of life is sometimes called the “Silver Cord”) forms a constant scepter of dominion, the positive pole the glorious Three-fold Flame in the heart of your own individualized I AM Presence and the receiving center is the immortal Three-fold Flame within your own physical heart. In the spiritually unawakened lifestream, this focus which abides within the physical heart is the negative pole. As such, it is the receiving center of just enough light to sustain sufficient intelligence within the brain to animate the four lower bodies and to render those specific services which sustain the individual personality's world and orbit.

When one comes to a point where he is ready and able to serve great numbers of people and be a center of activity wherein much energy is to be set into motion for constructive purposes (protection,

healing, etc.) he will find that the negative pole anchored within the heart becomes a positive center. Then you have the Three-fold Flame in the heart of the Presence at the upper end of your scepter (the “Silver Cord”) and the individualized focus of that flame within your physical heart as the opposite end. This forms a tremendous scepter of power which is really your own life! This can be qualified with any one or all of the virtues of the Seven Rays and can be grasped and directed with authority to give any service and assistance required, wherever the need arises. Beloved Saint Germain has referred in previous instruction to the scepter of authority which stands before every advancing student which scepter he may actually grasp and use to redeem discordantly qualified energy, causing it to become and radiate perfection.

Remember, beloved ones, a focus of that scepter is already within you, as the smaller Three-fold Flame at its lower end. That flame is beating your own physical heart and the larger one at the top of the scepter (your “Silver Cord”) is beating the heart of your Presence. Your “Silver Cord” is actually life and light which is pouring down into the immortal Three-fold Flame within your heart and it is that light which is then directed forth with such power to give the necessary assistance required. Through your “Silver Cord” the life and light from your Presence keeps you connected with it at all times and, if given opportunity so to do, that Presence will help you to hold the perfect poise and balance in your consciousness, within your outer form and aura.

Then, feeling yourself no longer to be a limited human being, but just that blazing scepter of light, you can mentally (if you were to be in public it would not be wise to make yourself conspicuous by doing so by the use of your hands) direct that scepter into the cause and core of whatever condition needs perfecting, whether it be in person, place, condition or thing. By the use of this scepter, you can draw forth and direct whatever activities of the Seven Rays are required protection, illumination, love, purity, concentration, peace and the power to use the Violet Fire of Transmutation, as it is needed. I think, however, you will require mostly the capacity to command and sustain PEACE!

While you are practicing this activity and building a momentum of it in your own world, may I suggest that you concentrate upon one short command or decree at a time, thoroughly saturating your consciousness with that decree until it is really a part of you and can be drawn forth on demand almost automatically, as it were. You see, when there is a great deal of energy in motion around you, your own mental body

is liable to be subject to the general agitation in the atmosphere and, unless you hold yourself very positive and absolutely controlled and unless you are very retentive of memory, some of the longer decrees might not be remembered by you in the crisis of the moment. However, you can always remember the words, "PEACE! Be still!" As you know, the statement "The Light of God NEVER Fails" (spoken three times, either silently or audibly) is an excellent statement to call protection from the Ascended host and you already have a good-sized momentum builded of that statement.

Now, please visualize that scepter of light of which I have spoken to you. I want you to really mentally "see" this scepter while I am talking to you. THE TOP OF IT IS THE GLORIOUS THREEFOLD FLAME FROM THE HEART OF YOUR PRESENCE, THE CRYSTAL-WHITE LIGHT (YOUR SILVER CORD) STREAMING DOWN FROM IT INTO YOUR PHYSICAL HEART, THEN SEE THE THREE-FOLD FLAME WITHIN YOUR HEART AT THE BASE OF THE SCEPTER. For the moment, just please mentally "block out" the form of your Presence and, "block out" your human form also, so you see only that scepter. That scepter is your life and your light, your own lifestream. That is the same power which every Ascended Being uses!

As we proceed with the following exercise, the actual substance of the virtues of these various rays called forth, will flow from the scepter as you so wield it, blessing all the life it contacts.

Let us visualize your scepter in this manner: Instead of the crystal-white "staff" of the scepter this time, see that "staff" become the magnificent blue of Lord Michael and the First Ray (still retaining, of course, the Three-fold Flame at the top and bottom). The Blue Flame is the power of protection. Now, just mentally grasp the scepter (which is vertical in position to start with) and lay it horizontally in the atmosphere of the room, just a little above the heads of the assembly. Then let it move fan-like from left to right over the heads of all who are here. Let it move back to left again and then raise it to its original vertical position.

Let us now take the activity of the Second Ray (which is yellow) and let us see the "staff" of that scepter having become a magnificent yellow flame which embodies the virtues of illumination, understanding and wisdom. First grasping it in its vertical position, let it descend in a horizontal position again over the heads of the audience and then, fan-like, let it follow the movement from left to right, then back to its vertical position in the center.

Here let us wield the scepter in beautiful pink (the activity of the Third Ray). Visualize that scepter (which is your own life flowing from your Presence), the “staff” thereof becoming now a beautiful shade of pink. You see, you qualify it by your thought, for you must first know what pink looks like. Then ask your Holy Christ Self to qualify the flame with its feeling of divine love. Let that scepter then descend horizontally to a point a little over the heads of the people and move it fan-like from left to right as before. Thus is directed this beautiful scintillating pink substance as it radiates the true feeling of divine love. Then return the scepter again to the position of the vertical life-line.

Now, for the activities of the Fourth Ray, we shall charge the scepter with the virtue of purity, the absolutely pure crystalline substance. We now let the scepter descend again into a horizontal position over the heads of the audience and, starting at the left in fan-like formation, let it swing to the right, back to the left again and then to its vertical position. Thus it pours its purifying radiation over the entire assembly.

Next, let us visualize the scepter in the lovely green (activity of the Fifth Ray). This is the green flame of concentration, consecration and dedication to service. First we hold the scepter in its vertical position. Then, as before, let it descend horizontally over the heads of the people and move fan-like from left to right and back to left again over the audience, pouring that power and feeling of divine consecration into, through and around the four lower bodies of each one present, then return it to its vertical position.

This time, let us draw the magnificent activity of THE SIXTH RAY, THE RUBY RAY OF THE MASTER JESUS (WHICH, INCIDENTALLY, HAS NOTHING WHATSOEVER TO DO WITH THE DESTRUCTIVE VIBRATIONS OF “BULL RED” OR “FIRE ENGINE” RED OF THE OUTER WORLD OF TODAY. THE RUBY RAY HAS A GREAT DEAL OF BLUE IN IT, SOMETHING LIKE THE SHADE OF THE AMERICAN BEAUTY ROSE). You may use this ray in a beautiful shade of brilliant gold, if you are more accustomed to using the Sixth Ray in that color and here you have the activities of ministration and peace. This will be one of the more active radiations to be drawn forth at this time and in the days to come.

As you place that scepter in the usual horizontal position which we have been using over the heads of our audience this morning, try to feel that radiation of Christ peace and ministration as you visualize that virtue flooding out into the atmosphere of the room and being absorbed by the bodies of the people. Here let me suggest that, after you have used this activity for just your own home or study group, you can

then ask your own Holy Christ Self and me to expand that scepter until it is large enough and powerful enough to sweep fanlike over your entire city and bless all its inhabitants with the outpouring of that golden essence and feeling of God-peace. Always, at the end of its service of blessing, the scepter is returned to its vertical position.

Let us now draw on the power of transmutation, the Violet Fire (an activity of the Seventh Ray). See that glorious scepter with the “staff” thereof made of beautiful living Violet Flame and place the scepter again in the horizontal position as we have been doing. Let it pour its transmuting blessings into the worlds of all present, having moved fanlike from left to right, back to left again and then to its vertical position.

Experiment With All Seven Rays

Dear ones, I have given you an exercise which I would like to have you practice daily when you have an extra moment or two. Practice this and when you are alone, in the privacy of your own room, you may raise your hand to grasp this scepter and, if you will take a moment to feel it, you will be able to cognize the added power flowing out through your arms and your finger-tips as you hold it. When you are in public places (dining rooms or places of business, etc.) and a need arises for the use of this scepter of authority and power, of course you would not make any fanatical gestures, nor would you let anyone around you know you were making such a call. In such instance, you would silently make the call to your own I AM Presence and the Being whose ray you were using. Sometimes, you may see some response from the consciousness of certain individuals there who are receptive to the vibrations of the activities of one or more of the Seven Rays.

We know that not all of you will like to use the activities of all seven of the Rays. Perhaps you will choose to work along one ray alone, but I think it would be wise for you to expand your consciousness somewhat and experiment with the entire Seven Rays. You see, no one of you here, not even myself, knows just where you will be when the requirement for this assistance may come, nor what particular type of people or condition it will be your opportunity to serve. Some may need peace, as I have said, some protection, some healing, etc. The various activities of the Seven Rays should become so very, very well anchored in your outer consciousness that you may be able to use them instantly, on demand!

This may seem like quite a prosaic exercise to you but it has been

thought wise by the great Cosmic Law for me to give it to you for your use. Thank you for your loving interest and attention.

Explanatory note: The top of the scepter is, of course, the glorious Three-fold Flame from the heart of your I AM Presence and it is surrounded by a large sphere of crystal-white light which is its own natural protective radiance. Then, flowing from it is the “staff” of the scepter, in whatever color (quality) you wish to use it. The lower Three-fold Flame from the heart of the unascended lifestream is in an upright position, surrounded by a sphere of the same crystal-white light (its natural protection). This sphere of light holds the lower Three-fold Flame attached to the “staff” of the scepter.

THE MASTERS OF WISDOM SPEAK **THE PRESENT IMPORTANCE OF THE SEVENTH RAY**

MAHA CHOCHAN

The natural, spiritual cycle required for an individual to gain the necessary experience to attain self-conscious mastery in this physical appearance world is 14,000 years. During this 14,000 year cycle, the individual spends two thousand years living in the radiation of each of the Seven Rays in physical embodiment as well as between such embodiments when he abides at inner levels of consciousness. At the head of each of the Seven Rays is a great Ascended Being whose responsibility and service it is to direct the qualified powers of his particular ray to the evolutions evolving in the Earth, upon its surface and in its atmosphere. The last 2,000 years of this spiritual cycle is under the direction of the Seventh Ray and its Chohan.

At the present time, we are again entering the 2,000 year cycle of the Seventh Ray and its Chohan, the Ascended Master Saint Germain is endeavoring to provide the spiritual impetus to the Christ Self in man. As the lifestreams belonging to this Earth have not completed their spiritual journey in 14,000 years and have had to repeat again and again the same lessons in the schoolroom of life as each 14,000 year cycle was completed, it is most important that all take advantage of the 2,000 year cycle in which we, as well as unascended mankind, are now entering.

EL MORYA

Each individual who chooses to take embodiment is required to develop and externalize from within himself the seven attributes of divinity, as exemplified by the virtues of the Chohans of the Seven Rays. Thus, for the first 2,000 years of embodiment, the individual develops the will to perform God's services upon the Earth where the substance and energy is less malleable than at inner levels. It requires considerable constancy and determination to pass through this period of training of mind-force and feeling without allowing the resistance of so-called "matter" to discourage the aspirant to spiritual mastery.

Many have not even yet learned the lesson of the First Ray (will to do, decision), whereas all mankind should be ready for the final inculcation of the doctrine of the Seventh Ray. For this reason, the Cosmic Law allows the Chohans of the Seven Rays to serve together, bringing up the recalcitrant souls of men to a workable understanding of the entire plan of conscious creation and thus preparing them for the teacher of the present 2,000 year cycle, our brother, Saint Germain.

KUTHUMI

The cycle of 14,000 years referred to above by our Lord Maha Chohan, might be likened to a great wheel, the spokes of that wheel in the colors of the Seven Rays (blue, yellow, pink, white, green, ruby and violet). Seen with the inner eye, that wheel turns slowly (it takes 2,000 years for each successive "spoke" to focus its radiation upon the Earth and its attendant evolutions). When the wheel has made one complete revolution, the Earth and its evolutions are under and encompassed by the radiation of the Seventh (Violet) Ray.

Because of certain gathered momentums of discord which have been drawn about the Earth and her people, created by their destructive use of free-will, the spiritual progress of the entire race has been greatly retarded and mankind has not advanced as he should with the turning of the cosmic wheel to which we referred. Many, many times, the Seventh Ray and its attendant Chohan have endeavored in vain to complete the divine plan for the Earth and her evolutions. Now, we are again in the perfect place, spiritually speaking, wherein, by the use of his God-given gift of free-will, mankind can cooperate with the present Chohan of the Seventh Ray and complete the divine plan for themselves individually and for the planet as a whole. It is our desire to see this two thousand year cycle manifest the kingdom of heaven on Earth and to this service we all pledge our love and assistance to the great Chohan, the Ascended Master Saint Germain, Lord of the Seventh Ray!

PAUL (THE VENETIAN MASTER)

As the wise navigator utilizes the ebb and flow of the tides of the sea to more easily bring his ship to harbor or set it forth upon a new voyage, so does the wise soul utilize the cosmic currents available to him in order to accelerate his spiritual progress. As the Seventh Ray releases the cosmic currents which complete each fourteen thousand year cycle of activity in the physical appearance world, wise is he who avails himself of the opportunity of utilizing these currents provided at this moment to complete his life course.

From time to time, a few have completed their course as the Seventh Ray played upon the Earth in previous cycles. A few have completed their course during the ensuing cycle but the masses still remain awaiting liberation of their God faculties at this time. Allow the purifying, liberating, transmuting currents of the Violet Fire now provided so freely for your use by the Ascended Master Saint Germain and the Seventh Ray to help you to so complete your course in the schoolroom of life during this period when, once again, through the patience and mercy of the Cosmic Law, the cosmic wheel allows the gifts and assistance of the Seventh Ray to pour its beneficent radiation upon the Earth and into the souls of men!

SERAPIS BEY

The conscious ascension into light of all the energies of every lifestream which has taken embodiment here is the goal of all mankind. This ascension is the full control and mastery of all energies drawn forth by any individual as well as those released by and through that individual in all spheres of activity. This ascension can be most easily and efficaciously accomplished during the 2,000 year cycle when the merciful, purifying activities of the radiations of the Seventh Ray are playing upon the Earth. This is because of the greater availability at such times of the conscious use of the Violet Transmuting Flame of divine compassion, mercy and forgiveness, which helps the aspiring soul to "make all things right."

As there have been too few ascensions from limitation and human consciousness in previous eras, we cannot urge mankind too strongly to avail themselves NOW of the impetus of ascending energies which are provided by the Seventh Ray and its mighty Chohan, Saint Germain. As the Brotherhood at Luxor are primarily concerned with assisting in these ascensions, we are lovingly and devotedly cooperating with Saint Germain in his endeavors to make mankind aware of the

opportunity of this cosmic hour, as well as of the applications by which they may prepare for the conscious ascension of themselves, all their fellowmen and the Earth itself.

HILARION

In early ages, before discordant human creation entered the atmosphere of Earth, many races here did complete their course of spiritual education in the 14,000 year cycle provided for them. After the creation of human shadows imposed upon the electrons began to slow down the vibratory action of the Earth and its evolutions, lifestreams then had to repeat the same “courses” again and again. Even to us, the patience of the Cosmic Law is a marvel, as it continues to provide the same loving spiritual impetus over and over, turning the cosmic wheel again and again, always hoping for the attainment of the divine mastery of each individual and the divine redemption of the Earth itself.

WE ARE TOLD, HOWEVER, THAT THIS REVOLUTION, releasing the merciful benefits of the Seventh Ray, IS THE LAST ONE TO BE PERMITTED OUR EARTH! THIS IS WHY IT IS SO VERY IMPORTANT FOR MANKIND TO QUICKLY AWAKEN AT THIS TIME TO THE REQUIREMENTS, AS WELL AS THE OPPORTUNITIES PROVIDED SO FREELY FOR THEM as the beloved Saint Germain and his messengers (divine and human) direct the currents of the Violet Flame and Ray through the substance of the planet itself, as well as through all who live upon it and its atmosphere.

JESUS

For the edification of the sincere students, I would like to point out that the Chohan (Lord) of each of the Seven Rays is not always the same Being. In each 14,000 year cycle, different Beings qualify to hold this office. Also the full, gathered momentum of the past cycle is added to the amount of qualified energy which the succeeding Chohan has available for use. Thus, although the recalcitrance of the race is deplorable, the sustained and repeated outpouring of each ray has made a much stronger power available for use in the next cycle.

The beloved Ascended Master Saint Germain has available for use all the momentums of every Being who has acted as Chohan of the Seventh Ray in previous cycles. This is a mighty storehouse of energy, knowledge, power and efficacious God service. Through this momentum, together with an awakening of the outer minds of as yet unascended mankind to the orderly procession of the Earth and its evolu-

tions through the seven cycles, the kingdom of heaven SHALL be manifest on Earth to the glory of God and to the eternal perfection of man!

SAINT GERMAIN

I would like to publicly express my gratitude to all my predecessors who have left the heritage of their light at my disposal for use in this cosmic hour. I am also very grateful to those of the mankind of Earth who have accepted the knowledge of the Violet Fire and have used it (even though timidly). To my beloved Portia (the Goddess of opportunity and justice) I am also very grateful, for her consciousness embodies the very attribute which makes the Seventh Ray so important to all who desire to fulfill their Earth missions, redeem their miscreations and serve impersonally to set the entire planet and its evolutions free from distress and limitation of every kind. We have the opportunity to establish the kingdom of God on Earth! I AM DEPENDING UPON YOU, EACH GENTLE READER, TO HELP ME SO TO DO!

MONTHLY LETTER TO TRANSMISSION FLAME CLASS

July 20, 1957

Beloved Children of God Seeking Truth,

I bless you for seeking that truth and, at the same time, I remind you that truth, like faith, without works, is dead! Those who do not know truth are not held so accountable before the Cosmic Law for works not done, BUT THOSE WHO HAVE RECEIVED SPIRITUAL KNOWLEDGE AND USE IT NOT FOR THE IMPERSONAL BENEFACTION OF THE RACE, THESE ARE HELD RESPONSIBLE AND ACCOUNTABLE TO THE SOURCE OF THEIR OWN LIFE AND TO THE COSMIC LAW FOR NEGLECTING TO USE THE GIFTS OF TRUTH, ILLUMINATION AND UNDERSTANDING WHICH THEY HAVE RECEIVED.

As we all honor the God and Goddess Meru, the Brotherhood of Illumination and the Feminine Ray that is guarded by them within the Holy Mountain, I do decree that the understanding and illumination received by each of you, dear pilgrims, shall become practical works to bless and raise the Earth and its attendant evolutions! The Brotherhood of Illumination wear a pink rose upon the breast of their garments and they are truly messengers to carry illumination wheresoever it is called forth. Blessed Nada is one of the messengers of God Meru. As the heart of all flame is white, so does the ascending flame from Meru's

heart have a white core, a golden radiance (representing illumination) and a pink outer radiance (representing love of service to God and man). Anticipating your greater wisdom and your greater service, I am, lovingly and so gratefully, your friend, Guru and servant,

Maha Chohan

Statement For The Transmission Flame Class

July 20, 1957

I AM inbreathing/ absorbing/ expanding/ projecting the life-giving essence and freeing power of the Illumination Flame.

Hierarchs: God and Goddess Meru. Color of Flame: Gold and pink. Musical keynote: "Faith of our Fathers" (Hymn tune).

Suggested Decree

Beloved Mighty Victorious Presence of God "I AM" in us, beloved Saint Germain and Portia and all who serve on the Seventh Ray! Blaze! Blaze! Blaze the most dynamic action of your all-powerful Violet Transmuting Flame from the heart of the Earth up, in, through and around her, causing this to form a gigantic Maltese Cross of that flame.

Let this flame extend out through the Earth and her atmosphere for at least 10,000 feet, purifying, illumining, healing and raising forever the entire planet itself and all her evolutions, whether or not they are in or out of embodiment at this time. Make our dear Earth FREEDOM'S STAR as quickly as possible, in spirit and in truth. We consciously accept this done RIGHT NOW with full power, eternally sustained, all-powerfully active and ever-expanding.

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
with the Great White Brotherhood and Cooperative World Service

AUGUST 1957

TO THE COSMIC SPIRIT OF PURE DIVINE LOVE

Greetings and gratitude from all of us who have been created and sustained by your motivating power. You are the stimulation to constructive creative endeavor, the sustenance of that endeavor, the cohesive power which invites the creation of form, and the very core of every form, human and divine!

To the beloved Venetian Master, Paul, and the Brotherhood of Divine Love, we send our gratitude for your continued belief in the ultimate destiny of every lifestream—an expressed and manifested Christ!

Upon behalf of the mankind in whom you so believe, stimulating them to the manifesting of their highest expression of creative ability, we offer our thanksgiving for your perseverance in seeing them, each one, as God sees them.

We do decree that all unascended beings shall soon come to feel that divine love, one for another, and establish the universal brotherhood of man upon this Earth! To this end, we invoke your aid, beloved Presence of divine love, in sublimating the human and expanding the divine in every one! So be it!

Thomas Printz, Editor

The Homes and Retreats of The Masters of Wisdom

HOME OF PAUL, THE VENETIAN MASTER,
CHATEAU DE LIBERTE

August 15th through September 14th, 1957

The focus for the beautiful Liberty Flame is located in Southern France and guarded by the beloved Chohan of the Third Ray, known as Paul, the Venetian Master.

As consciousness always outpictures itself, the blessed Paul's divine love for all life is truly externalized, in the beauty of his presence, as well as in the magnificence of his abode. Here, at the Chateau de Liberty, one finds the conscious knowledge that LOVE, generated and sustained, does produce beauty through every facet of expression. One has only to look upon the gracious beauty of the brothers and sisters of the Third Ray to see the result of generating and sustaining divine love through self-conscious endeavor. As example is always the best and most efficacious teacher, the very presence of beloved Paul and his Brotherhood are most certainly a stimulus to the chela to create and sustain that feeling of divine love for all life.

The entrance to the hall of the Chateau de Liberty is famous for the painting of the Holy Trinity which hangs therein. This painting was begun by the beloved Paul before his ascension and was completed by him after his ascension. The delicacy of detail in the carved Seraphic figures at the foot of the double stairway reflects the delicacy and refinement with which all are entertained while guests at his retreat.

Under the picture of the Holy Trinity there have been added these words in golden script by Paul himself: "Perfect love casteth out fear!" As the Spiritual Hierarchy is presently engaged in removing the cause and core, as well as the effect, record and memory of fear of every kind from the consciousness of all Earth's evolutions, the beloved Paul and his Brotherhood are naturally a part of this endeavor!

The beloved Paul has asked us to remind you that the sponsors from his retreat who have been chosen by him to help you to visit his retreat in consciousness while your physical body sleeps, during this thirty-day period when the retreat is open to all, are real, tangible Ascended Beings. These sponsors will come instantly at your call, abide with you, and help you to develop your individual consciousness of divine love, as well as guide you to the Chateau de Liberty. These sponsors, when given opportunity so to do, will so raise the vibratory action of your lower vehicles that you may qualify to personally enter this fo-

cus of beauty in your physical bodies, upon invitation from the beloved Paul at a time in the not too far distant future.

As you reach the top of the beautiful marble steps which lead up to the Chateau, you will see on the wall at the right of the door a long, golden cord which, when pulled, releases the sound of three beautiful chimes of music. Then the doors are opened by one of the Brotherhood of this retreat, a gracious being of divine love. Inside the entrance hall, one can feel the living pulsation of the Liberty Flame which is located beneath the richly patterned mosaic floor. Remember, a focus of that Liberty Flame lives in you! It is three-fold in design, looking somewhat like the Fleur-de-lis. This design is also woven into the carpeting, draperies and furniture of the Chateau. Proximity to this cosmic Liberty Flame stimulates the expansion of that flame within your own hearts, for this Liberty Flame is an expression of your right to qualify life as you may direct, through the use of your God-given gift of free-will. It is the service of this Brotherhood of Liberty to help mankind to use this free-will only constructively.

The formal gardens around the Chateau are filled with the fragrance of the flowers there, the music of the birds and the songs of the Brotherhood and their guests. The color of the entire radiation is that of a delicate pink. The beloved Paul is host, not only to the accomplished artists who visit there but also to the humble amateur. The only qualification necessary for the receiving of his assistance is the sincere motive within the individual to serve life with impersonal blessing.

The strength of this focus of divine love has been used by many of the Ascended Masters to stimulate a spiritual revival in the hearts of unascended mankind, the energies of whom could be used by those Masters to further some cause for the benefaction of the race. When some Master sees the possibility of rendering such service, that Master secures the permission of beloved Paul to bring his chelas into the Chateau (in their finer bodies while the physical sleeps) and there the Liberty Flame, surging through the worlds of those chelas, raises their vibratory action out of the feelings of the personal self long enough for them to accomplish a certain benefaction.

You who desire to serve life more expressively and more efficaciously, ask to enter the Chateau and experience for yourselves what proximity to that flame can and will do for you!

(Note: For further description of the Chateau de Liberty, please refer to the Bridge to Freedom Journal, Book 1.)

ATTAINING BUDDHAHOOD
An Address By Our Beloved Gautama
(Former Buddha, Now New Lord of the World)

May 8, 1957

I am come this morning to bring to the planet Earth and its evolutions that feeling and substance of God-peace which is developed through the control and mastery of energies that have been allowed to run rampant through lack of understanding and self-discipline. The “Silver Cords” of energy, are held within the cosmic radiation of my feeling of peace this morning. Thus are those energies already qualified with my feeling of peace before they enter into the four lower bodies of mankind. That peace cannot be requalified by the human!

Beloved ones, peace comes not through a feeling of lethargy but through the conscious mastery of energy in balanced action! I, too, once walked the ways of Earth and experienced for myself all of the “pull” of the physical senses, all of the interests which mankind find temporarily enjoyable and, through my own self-conscious endeavor, I chose to discover the path to ultimate and undisturbed peace. That path took me on a long journey, not an outward journey but an inward one, into the very heart-center of my being, into that to which the Orientals refer as “The Jewel in the Heart of the Lotus.”

There abides that part of a man which is immortal, uncontaminated by anything human, sustaining his original pattern of divinity until that hour when the personal self consciously chooses to walk fearlessly into the heart of that flame. Then he finds the shell of the outer personality dropping away and experiences the joy of bathing in that flame of immortality, which is refreshing indeed!

Thus you have the way of the Buddha, “the bud,” the closed-in flame, waiting patiently for release century after century within the heart of personality after personality, as the lifestream chooses physical embodiment and creates its various karmas. Then comes the time when circumstances created by karma, good or otherwise, when pressures, depressing or exalting make the individual (through self-conscious decision) desire to proceed along the pathway of light into the heart of his or her own God-being, and there discover that immortal flame. That flame, then expanding through the lifestream, becomes the “open lotus” of perfection for that one and its virtues, perfumes, gifts and manifestations become an impersonal benediction to the race, as well as to all life which is evolving upon the Earth.

In the recognition of that flame, man can become impersonal enough to choose to release all selfhood in its favor, man can walk upon the divine path and explore the magnificent aspects and activities of Deity, willingly allowing them to flow forth emotionally, mentally, etherically and physically through him to the just and the unjust alike, with no thought of favor to any particular person, place, condition or thing. When such a man is found, that one is on the road to becoming a living Buddha. As the sun shines, as the waters that cover the sea serve life impersonally, so do all who become applicants for and who finally attain Buddhahood, serve impersonally magnetizing certain God-radiations and directing those radiations forth at inner levels to bless those disembodied members of the human race who yet require assistance in sublimating karma, as well as to embodied mankind and the elemental kingdom, imprisoned angels and the four-footed creatures in embodiment here.

Selflessness Of Motive Essential To Buddhahood

Concentration is one of the aspects of the follower of the true Buddhistic teaching, concentration determined by selflessness of motive. In the case of the one who walks upon the spiritual path into the heart of Light, the concentration must be motivated by a desire to bless life impersonally, to remain in physical embodiment here upon this Earth plane, if necessary, as did the beloved Mary, the Holy Mother of Jesus, until there is more Light and more God-virtue here, or to enter into the inner spheres of Light (if it is so directed) and there be a Sun of Righteousness. The doctrine of the Buddha, as I found it to be for myself and presented it to man, is one of renouncing self and selfish interests and this renouncing goes way back into the causes and cores which motivate even spiritual exercises. When that motivating power behind all asceticism, all spiritual exercises and self-denials is for the magnification of God's Presence, such a one is a disciple worthy to wear the garment of a neophyte in the temples of the Buddha.

When these disciplines, asceticism and various spiritual exercises are practiced for personal enlightenment and for the ultimate freedom of the individual alone, such a one will achieve a result wherein and whereby that individual eventually comes to the point of being ready for the ascension. However, such a one has not become an expression of the impersonal Buddha, who joyously, willingly lives and serves on any plane, wheresoever his light may be desired, his protection required, his understanding essential and his healing, raising, illumining,

uplifting presence a necessity. The Buddha becomes a “cup” into which, without any obstruction whatsoever, there flows the gifts, light and virtues of the Godhead. That “cup” is just as impersonal in the outpouring of its gifts as is any “cup” or grail filled with fresh water which is available to those who are athirst.

There are not too many among mankind, the motives in whose hearts are to be and remain a pliable, impersonal “cup” of living light, for love of God alone, magnetizing those virtues from the higher realms, while still sustaining a physical vehicle in the world of form which is subject to all of the various vibratory actions of the lower atmosphere of Earth. Those “few” who do so serve are indeed blessed among men! The farther one goes upon the spiritual path the more subtle and delicate is the thread of the test and, oftentimes, in its tremendous endeavor to work out its own karma and to be personally free there from, the outer self does not cognize selfishness within its motive.

He who follows the Law of the Buddha willingly remains in that sphere into which his own Christ Self has directed him, there joyously magnetizes the gifts of the Godhead, impersonally letting the radiation of his God virtues flow forth. He has no opinion as to the worthiness of those who are the recipients of his benediction, any more than the Communion Cup which is held to the lips of the communicants, decides within itself whether or not there is sacrilege within the soul of one who kneels before the rail. Can you come to that place where your life and your virtue belong to God, to man, to elemental life, embodied angel or four-footed creature alike without any pressure of personal feelings from your outer self, choosing to direct your gifts impersonally to one or more of those whom karma temporarily has drawn around you, either through good or evil influences from the past? I had to learn that way!

Surrender To Inner Light Is Personal Victory

As I enter the atmosphere of Earth today and as I serve through you who believe in my reality, I shall endeavor to help you, first, to remove every motive (known and unknown) within your lifestream which would cause you to walk upon the spiritual path for just personal attainment. Then I shall endeavor also to help you to replace those by setting up constructive causes and pressures of light which will enable you to walk that path impersonally. These new pressures of light will inspire you to plunge with all the intensity of your being into the purity

of the heart of the Sacred Fire, thus enabling you to serve for the sake of the redemption of this planet and its people.

You see, when self is shorn away, you will find that spiritual impetus will be stronger than any effort of human will which brings you reluctantly to the door of the temple of Light and then will not allow you to experience the full enjoyment of entering into the flame, lest that which you thought you were should be no more and that which you really are should stand forth, transmuting and sublimating personality into IMMORTALITY! Then shall you have become Gods and Goddesses of light, joyously willing to remain in embodiment here, a living example of God's love and light so long as mankind require assistance.

Children of God, I determined long ago to find the truth! Seven long years it took me to divest myself of all human concepts which had bound my intellect and my soul. Remember! I was born with no destructive karma to expiate and yet, as do all beings who serve this Earth in a physical garment, I came into a physical vehicle, surrounded by an etheric, mental and emotional envelope, and lived in the vibrations of the Earth plane. Yet it required seven long years for me to cognize reality and know that "Jewel in the Heart of the Lotus" to which you refer as the immortal Three-fold Flame within your hearts. After I had bathed within that flame and, on its tremendous power had arisen into the Presence of Almighty God, then there came to me the subtle test, the test of which I speak, that of making the sacrifice of returning into the physical world and bringing to the attention of mankind the understanding which I had gained.

Ascension, Just Raising of Vibrations

The words "ascending" and "descending," "higher" and "lower" are more descriptive of rates of vibration than they are of motion through space. However, because the beloved people of Earth are so accustomed to dealing constantly with form, the word "ascending" just naturally depicts to the outer mind an upward motion of form, whereas, in truth, it is merely an acceleration of the vibratory action which makes up the atoms of the vehicle. The word "descend" as mankind's outer mind visualizes its action, is merely the slowing down and lowering of the vibratory action of the electrons which make up the atom.

Now, beloved ones, let us take the visible presence of the great El Morya, for instance. You speak of his "descending" into the sanctuary to address you through your "contact" and, WHEN YOU COME TO THE

POINT OF ENOUGH PURIFICATION AND CLARIFICATION OF YOUR PHYSICAL SIGHT, HE WILL BE QUITE VISIBLE TO YOU. Why? Because his “descending” is simply the slowing down of the electronic rates of vibration in his vehicles and the acceleration of the vibrations of your power of sight until the two meet. Then you have your visible, tangible presence of any Ascended Being.

Now, during these years which are being given to us to help you, we are in the process of gradually accelerating the vibratory action of your four lower bodies by speaking to you, encouraging you, and by giving you those spiritual exercises, songs and decrees which have accelerated all of your senses and, to a degree, open your inner sight and hearing. At the same time, we are lowering the rate of vibration of our own bodies of light of course never below that rate which compels and sustains perfect harmony, but slowing our vibrations down in spoken word and radiation so that we may establish a communion between your outer minds and that consciousness in which we all abide. When the acceleration of the student body has reached its apex, then will be the manifestation which so many desire.

It is simply a matter of the control of energy. Of course, we are always in absolute control of all energy and, as Lord Maitreya himself has said, we could so lower the vibratory action of the electrons which spin around the atoms of our light bodies to a place where we would be perfectly visible to your physical sight RIGHT NOW! THIS WOULD BE A TREMENDOUS DISPENSATION OF THE COSMIC LAW BUT IT WOULD NOT CAUSE YOU TO DESIRE TO FURTHER ACCELERATE YOUR OWN VEHICLES. You see, once the gift is received, almost without fail the invocation and application of the chela ceases, unless, of course, that lifestream has come to the place of mastery.

"Human" Security – Undependable!

In the experience life of the outer world, individuals sometimes work for an entire lifetime, just to obtain for themselves an annuity, a home or general security. Yet, often, just when the gift is within reach or perhaps has been received, the individual concerned passes from that embodiment at the very time when their whole life energy has been expended and their pursuit of happiness resulted in the externalization of that to which they dedicated their thought, feeling, words and action, their entire life!

That is true of “inner” things as well. Ever since the time of my

own conscious ascension, I have seen chela after chela and neophyte after neophyte who desired the visible, tangible presence of the Master. Then, when the chela did achieve that mastery of clairvoyance (true inner sight) and clairsaudience (true inner hearing), when he was one-pointed enough in concentration, when a dispensation allowed even a flashing glimpse of that Ascended Being, such a one would cease his own endeavors and become in himself a “sainted one,” full of pride.

Beloved ones, the outer self is so undependable! Those who have not seen through the “veil” and yet have touched the hem of the garment of the Divine Ones, those who have accepted with all their beings the ESSENCE and not the form – THOSE ARE THE “SAINTED ONES!” In the words of Jesus, our beloved brother, “Blessed are they who have not seen and yet have believed.” I say to you who have believed in us and who have FELT ESSENCE, you who have known and accepted God-virtue radiated to you by us through the veil, that when the acceleration of your senses brings you to the point of physical manifestation, it will mean nothing to you except just the joy of confirmation of that which you already had known as you kneel and kiss the garment of your Benefactor or Benefactress and Friend.

I know, for I returned to Earth after my period of God-illumination, walked with simple men and women and yet had that gift of being able to accelerate my being so that I could be instantly present in consciousness in any sphere. I know how much the masses desire phenomena and how few desire the ESSENCE! Those who follow me, those in the East who are true masters and gurus, yet unascended, usually do not allow the exercise of phenomena for that reason. I lived simply and unostentatiously, letting GRACE and ESSENCE, EXAMPLE and WORKS take the place of phenomena which seems miraculous to the curious but which does not sustain the earnest chela. The curious and passing fancy of the masses is not worthy of the investment of energy which such phenomena would entail.

As you know, the great Sanat Kumara has returned to serve with me for a time and, as we together enfold the planet in our love, patience and impersonal benediction today, I would like to tell you that the rim of the periphery of the atmosphere of your planet Earth is filled with so many shining ones! They stand at the outer edge, yet not having been allowed into the inner atmosphere of Earth. However, they are peering over the edge of the Earth's atmosphere, desiring to give of themselves. They are really living sacrifices, desiring to literally

throw themselves into the emotional, mental, etheric and physical consciousness of Earth's people, so that by the radiation of their greater light, they may speed up the freedom of Earth and her evolutions. They are restrained only by the Lords of Karma and those who guard the gates of birth, through which these souls would have to come.

Just how many of these magnificent lifestreams will be allowed to enter into Earth's atmosphere in the coming months and years has not yet been determined, but the more of them who are allowed to come, the quicker will be the increasing of Earth's light and that light is the redemption of the planet and its evolutions. That light is the illumination of the individual as well as of the masses, the acceleration of the consciousness of all people, the restoration of the Earth to its perfect God-estate.

That light which is within me is within you also! That light is the “bud” within the hearts of all mankind and the stimulating and expanding of that “bud” into that great open lotus is the purpose for which I serve and for which you serve too. It is the purpose for which others in the East serve also, as well as a few in the West, until there shall be many, many lighted lamps, many “cups” from which mankind may drink and many, many God-virtues surging through those “cups” into those who hunger and thirst after goodness, peace, mercy, healing and benediction.

Now I speak to all mankind! Who among you will be such a “cup”? Who among you, standing pure, strong and selfless, are willing to be that grail through which my light shall flow? Your hearts will answer!

The benediction and blessing of the Most High Living God and that peace which does surpass the understanding of the human mind be with you and all who have loved me, who serve with me and who aspire to like attainment. May the God of Mercy protect you on your spiritual path toward enlightenment.

THE MASTERS OF WISDOM SPEAK
DIVINE LOVE, THE GREATEST CREATIVE POWER IN THE
UNIVERSE

MAHA CHOHAN:

Love should not be qualified with sentimentality, which is changing and vacillating. Pure divine love is changeless and constant. It is the one virtue of the Universal I AM Presence, into which all the other virtues blend. It is the highest expression of the nature of God and, in time, will be the highest expression of man, also. Divine love, unlike human love, is not grasping but giving, is not variable but constant. This feeling and substance of divine love is the cause and core of all creation, as well as the sustenance of such creation and, when that creation has served its purpose for being, its ultimate etherealization in dignity and honor is accomplished by that same divine love.

One focus of that divine love is your own I AM Presence and such a Presence is also anchored within the heart of everyone. Expression and expansion of this divine love upon and through the planes of experience in which a self-conscious intelligence lives, is truly the “reason for being” of such an intelligence. Until that full expression of the nature of God is so made manifest, there can be no permanent individual, national, racial or planetary peace!

EL MORYA

It was the desire to express divine love which caused the Universal I AM Presence to create sons and daughters through whom to pour the love and the life of his own Being and endow such sons and daughters with his gift of the use of free-will. It is that same love which, since such creation, has continued to sustain these intelligences and to believe in their ultimate expression of his nature. Serving mankind, who for the most part have forgotten their Creator, we live but to bring to man the remembrance of the love of God for all his creations and to awaken a feeling of that love in the human hearts wherein the divine love of the Universal I AM Presence dwells.

KUTHUMI

Divine love is a cohesive power which magnetizes pure electronic light, causes it to rhythmically move around its own central core and thus creates an atom, the coalition of many of which may be used to

form a vehicle through which mankind can express itself, a nation, a continent or even a planet itself. When the divine love projected forth by the I AM Presence is removed from any creation, human forms or so-called inanimate objects, that form then begins to disintegrate because the cohesive power of divine love which held it together is no longer present.

Therefore, in conscious precipitation, the development of impersonal divine love is most essential to sustain the precipitation. Unascended mankind's comprehension of divine love is a travesty as measured against the true divine love of God. Hence man's own physical body, as well as his creation of great civilizations are subject to decline and decay. Why? Because the cohesive power of divine love is not at their center and a lesser expression of love, while it may create temporary form, has not the sustaining power to hold that form until it has served its full purpose. Disintegration, disease, decay and death itself are the greatest proof on Earth today that divine love was not the cause and core of the creation. Thus the creation was transitory and subject to the disintegration to forces within and without the individual who had drawn such manifestation forth.

PAUL (THE VENETIAN MASTER)

Divine love is a natural activity of the expansion of good. As we get up the ladder of spiritual evolution as we can see, there is a constant expansion of the light, virtues and gifts of God through every Divine Being who has been created and sustained by that divine love and who has cognized that love, utilizing it to do the will of the Being who has created and sustained him (or her). In unascended mankind, the same law holds true.

If an individual has a gift or talent and uses it to expand happiness and beauty for life, he is the greatest beneficiary of the expression of his own gift. If so used, his talent expands, matures and generally develops. If, however, he selfishly grasps the gift and through a process of inversion, seeks to hold it to himself for personal gain or pleasure, he is either temporarily deprived of the use of that gift or talent, or temporarily is deprived of the opportunity to use it in the sphere in which he presently functions. The measure of the individual's use of talent, money, power and opportunity lies in the use to which he puts them. If he uses those gifts as God and the Divine Beings do, to expand the blessings of light, comfort, happiness and greater perfection in his sphere of influence and the worlds of others, he will prosper.

However, through his use of free-will, if he chooses to use such a gift for personal aggrandizement or gain, the forces of disintegration and decay will teach him the lesson which Jesus taught so forcibly: "To him that hath shall be given" (to him that has the understanding of how to use them, more substance, power and talent shall be given him), "to him that hath not, shall be taken away even that which he hath" (from him who has not the understanding of how to use life impersonally to bless others, shall be taken away that which he already has). We use our consciousness and understanding to expand God's kingdom through the mankind of Earth. This is the activity of the Third Ray. We welcome all who choose to join it in expanding their gifts, talents and powers as God intends and invite them to join us in the glorious expansion of the kingdom of God right here on Earth!

SERAPIS BEY

Etherealization (returning of the substance of form to the universal) is also an aspect of divine love used by the Ascended Masters, Cosmic Beings and angelic host. We consider the life and gifts of God so precious that we would not dream of utilizing that life in any sphere longer than is required to sustain some blessing to the universe. Divine love utilizes intelligent life to create form as a radiating center through which to bless the universe. When that blessing is completed, we love life enough to give it freedom (etherealizing it) so that it can be returned to the Sun of the system for re-polarization and, at a later time, be used again by another intelligence for some other form which may be necessary to the requirements of the cosmic hour.

Giving, not grasping, is the Law of the Universal I AM Presence and it is the Law of our Being as well. Sometimes the wisdom of the Law requires that we either withhold or withdraw a gift from some lifestream in order to teach that one a lesson, for even a temporary absence of the possession of such a gift often awakens the individual to the true worth of its blessing which had been given in love for service to others, sustained by that love, and offered through that love only to enrich the collective consciousness of the race. Such etherealization is never to be considered a punishment. It is always designed as an opportunity for spiritual expansion through the development of a conscious appreciation of the worth of the gift or talent which had been too casually received and absorbed either by individual lifestreams or the race as a whole. Etherealization is a conscious activity of Divinity and must not be confused with disintegration and decay.

HILARION

Divine love is a science. Every manifestation, from the smallest form to the greatest solar system, is builded on the cohesive power of divine love. When great Golden Ages have come into manifestation upon the planet Earth, they were literally born through the love of Beings who chose voluntarily to create as God creates. These Golden Ages have been sustained just as long as some being held the feeling of divine love for the creation. This feeling was the cohesive power which held the form, the expanding power which increased its beauty and the etherealizing power which withdrew the manifestation when it was no longer required to remain upon any plane of existence.

In human experience, there is more or less of divine love expressed in the creation of a home, a family, or a business. When the one who is the focus for the cohesive power of such a cooperative endeavor relinquishes this cohesive power (through death or otherwise), disintegration of the manifestation occurs. In spiritual organizations, almost without exception, when the founder, spurred on by divine love to make the supreme effort to establish and sustain such an organization, leaves the Earth plane, unless there be another who can be found who will hold that focus of divine love and expand it, then the organization itself disintegrates and is no more.

This was the Law which beloved Jesus took into consideration in asking his Mother, Mary, to sustain his love by remaining on Earth after his ascension, until there was enough magnetized and radiated divine love to sustain the Christian Dispensation for two thousand years! Similarly, the visitation of Lord Gautama yearly at the Festival of Wesak was designed to stimulate and expand the divine love which he had magnetized and sustained in his Earth life. All Beings who so design a blessing for the benefaction of the race seek unascended beings to be for them truly “the body of Christ” through which divine love may flow. If such are not found, the beautiful teachings and accompanying grace gradually recede and the benefactions established by the founder are etherealized into finer realms beyond the range of sight of the human mind.

JESUS

“The Lord giveth and the Lord taketh away” is an eternal verity. However, unascended beings consider this verity as a punishment, whereas it is rather a blessing to make the outer consciousness cognizant of the value of the gift, the giver and the benefaction received.

The word “Lord,” of course, means the “Law of God” which is inexorable, impersonal and unchanging. Even I, when my compassion for my disciples caused me to hesitate for a moment to leave them, could not change this Law.

I knew full well that the conscious etherealization of my form was necessary in order for my followers to develop their own Christ nature. Yet, knowing their natures, I did apply for mercy and the Lord Maha Chohan promised to give them comfort and expansion of consciousness after my ascension (conscious etherealization of my outer form). This promise he fulfilled in the visitation of the Holy Spirit to them on Whitsuntide. **THUS, ALL UNASCENDED BEINGS MAY CALL FOR A MEDIATOR, A COMFORTER, IF THE LAW REQUIRES THAT THEY COME “HOME” SO THAT THEIR PEOPLE SHALL NOT BE LEFT COMFORTLESS. I ADMONISH EVERY EARNEST TEACHER AND GURU TO MAKE SUCH AN APPLICATION NOW!**

SAINT GERMAIN

Golden Ages have come and gone wherein the masses of mankind enjoyed the developed gifts, powers and radiation of beautiful Ascended Beings. However, the masses, accepting such gifts as a “matter of course,” made it necessary for their benefactors to withdraw their spiritual support and mankind then found the beauty of that Golden Age fading until it disappeared. It is now my opportunity to help to awaken the consciousness of all mankind to a point where a permanent Golden Age can and shall be established upon this Earth and sustained, not only by my enthusiasm and endeavor, but by the energy of awakened people.

Thus the blessings and manifest beauty of the permanent Golden Age will be sustained by those who enjoy its glorious perfection, long after the few who envisioned its inception and sustained it by divine love have gone to their “eternal reward.” When this awakening is accomplished, the Law will not require etherealization here for the people themselves will prove that they are worthy to enjoy a permanent kingdom of heaven manifest on Earth. We are presently engaged in such awakening of the outer consciousness of mankind. The chelas now embodied are charged with the responsibility of awakening their fellowman to these truths. Thus is the Golden Age builded and thus will it be sustained.

“Love is not getting but giving, not a wild dream of pleasure and a madness of desire! Oh no! Love is not that, it is goodness and honor, and peace and pure living, yes, love is that! It is the best thing in the world, and the thing that lives the longest.” (Henry Van Dyke)

MONTHLY LETTER TO TRANSMISSION FLAME CLASS

August 17, 1957

Beloved Children Of God Seeking Divine Love:

It has been truly said "All the world loves a lover" but the human aspect of "love" is merely a shadow of that divine love which is an expression of the Third Ray. As we enter the beautiful home of the Chohan of the Third Ray, my beloved son, Paul, let us individually and collectively ask that we may learn (particularly in our feelings) what divine love truly is! I can assure you that one who knows and experiences impersonal divine love lives in peace on the Earth plane and has full freedom to rise to any level of consciousness at inner levels.

Divine love seeks ALWAYS to encourage and develop the good in any part of life, human, elemental or the four-footed creatures. When this divine love is truly the motive behind ALL activities, good responds and expresses through the life so loved. Saint Francis of Assisi was an example of the expression of that divine love and even the beasts of the fields, feeling his love for them, responded with the best expression of good intent of which they were capable. You, in serving mankind, can render a cosmic service in LOVING THE GOOD IN EVERY MAN, you may not even know his name, his race or his country.

Divine love knows no barrier, has no periphery. To generate and send forth that pink essence until it is world-engulfing is to stimulate the God centers in mankind which, responding to that spiritually fecundating power, will begin to expand in and through the emotional, mental, etheric and physical vehicles of the race. Thus you join Paul, the Venetian Master, and all who serve with him on the Third Ray, in expanding the light of the world through the shriveled souls of men!

Love and blessings,

Maha Chohan

Statement for the Transmission Flame Class August 1957

I AM inbreathing/ absorbing/ expanding/ projecting the balanced feeling of the Three-fold Flame from Paul the Venetian.

Hierarch: Paul, the Venetian Master. Color of Flame: pink, gold and blue (gold in the center, blue on the left, and pink on the right). Musical keynote: "The Marseillaise."

GROUP INSTRUCTION FOR TRANSMISSION FLAME CLASS

August 17, 1957

As this issue of our Journal is dedicated to the grateful acknowledgment and blessing of the Third Ray and as we have been asked by our gentle readers from time to time why we repeat our decrees three times (whenever possible) each time we give them, we offer here the following good and logical reasons for this practice:

1. Just as in the Orthodox world they pray in the triple activity of the Deity, "In the name of the Father and of the son and of the Holy Spirit," so do we give our decrees at least three times, in the name and authority of love, wisdom and power, which is the triune activity of the Godhead.

2. Repetition of the decree at least three times by the outer self (personality) of the individual signifies that the outer consciousness of the physical self, the consciousness of the Holy Christ Self (of which the beloved Jesus spoke as "the Mediator between God and man") and the omnipresent, omnipotent and omniscient consciousness of the God-self (the I AM Presence) are all in one accord, agreed upon the bringing forth of the same manifestation. "In Unity there is strength."

When such loving co-operation does come about, it means that the outer self has spiritually awakened sufficiently to realize and consciously accept the truth that the life of the personality is God-in-action and, therefore, is a very real part of the triune nature of God. It means that the light (the good) of the personality (or outer self) recognizes and calls into action the greater divine love and wisdom of his own lifestream and the Law of Life. When the lesser consciousness calls to the greater for any assistance whatsoever, the greater consciousness ALWAYS RESPONDS, INSTANTLY!

3. It is the Law that, in order to bring into outer manifestation here in the physical appearance world that for which we call, the outer self of the individual (or group) desiring such manifestation must release from this octave of expression at least one-third of the energy required at inner levels of consciousness to produce such a manifestation. The other two-thirds of the energy required for such producing is supplied by the Ascended host. Since the average individual does not release a great deal of energy through his own thought, feeling and spoken word when making a decree, the repeating of his decree three times helps him to gather much more quickly the necessary energy required for manifestation.

4. Still another reason for repeating the decrees at least three times at a time is that, in this way, the decrees actually help to convince his outer self of the truths which he is voicing, by hearing those

decrees repeated either by himself alone, or by others in a group. This is one reason for the tremendous opportunity as well as efficacy of group decreeing. The outer self gains a feeling of confidence when he sees and hears others engaged in like activities with him.

Should an individual not have much faith in his decrees at first (even though giving them alone), still, in the repetition thereof with sincerity, he would find himself beginning to believe in his decree, affirmation or statement of truth (regardless of appearances). Then, if he stays with it long enough, he finally consciously accepts that truth with all his heart and is fully convinced of its reality. Then, his manifestation (fulfilled decree) comes into being here. "According to your faith, be it unto you!"

5. Repeating a decree (affirmation or statement of truth) builds a good, strong thought-form, layer upon layer, as it were. EACH TIME THE DECREE IS GIVEN, IT CREATES A THOUGHT-FORM IN THE ATMOSPHERE. Since "like attracts like," each of these forms draws the next one to it as the same pattern is repeated over and over again. At first, the thought-form is more or less vapory, but, as layer after layer of substance (energy released by the individual in the decree) is qualified with the same pattern and added to the original, that form becomes strong and definite and becomes the "cup" into which is poured the feeling of faith and acceptance of the decrees. Then it becomes a living thing and, in obedience to the spoken word (in the authority of the I AM Presence), that form comes into outer manifestation.

You see, everything comes from the invisible to the visible. Everything starts from THE ONE. The great coral reefs in some parts of our oceans are formed from the tiny skeletons of those little sea-creatures whose cast-off shells we call "coral." When the life within that shell is about to die, it usually rests upon another shell of its kind and thus, millions and millions of such tiny shells combine to make a habitable island which some of mankind can and do live upon.

Remember! The activity of decreeing for ourselves and each other is a tremendous privilege of God's merciful love. It should always be a most joyous pursuit and should never be considered as laborious or a "chore" of any kind. It enables God's promises to be fulfilled for it is in accordance with his great Law: "DECREE A THING AND IT SHALL BE ESTABLISHED UNTO YOU," "CALL UNTO ME AND I WILL ANSWER YOU," "ASK AND YE SHALL RECEIVE." Gratitude for such opportunity is the wide open door to more and more blessings in your daily life.

Blessing and thanking you for loving life enough to decree it free,

Francis K. Ekey

Suggested Decree

Beloved Mighty Victorious Presence of God "I AM" in me, beloved Holy Christ Self of me and those of all mankind, Beloved Goddess of Liberty, beloved Paul, the Venetian Master and all who serve with them!

Expand, expand, and forever expand the perfectly balanced activities of divine love, wisdom and power which are within the glorious immortal Three-fold Flame of Eternal Truth anchored right within my own beating heart. Expand the light, the substance and the feelings of the God-control and victory of that flame in, through and around me until it completely possesses and controls all the energies of my entire lifestream.

Let this Three-fold Flame of my divinity direct, correct, protect and perfect me at all times, keeping me always supplied with the limitless abundance of money and every good thing I require for the fulfillment of my divine plan. Keep these activities eternally sustained, all-powerfully active and ever-expanding until I am wholly ascended and free!

What I call forth for myself, I also call forth for all belonging to Earth's evolutions, still unascended. (Repeat the above 3 times, then say: "And I consciously accept this done RIGHT NOW with full power!")

THE GODDESS OF LIBERTY

The beloved Goddess of Liberty is a great Cosmic Being who is the living embodiment of the God-virtue of Liberty to this entire universe. Liberty as one of the twelve virtues which abide in the electronic belt around our physical Sun and form a part of the glorious court of beloved Helios and Vesta, God and Goddess of that Sun. The Goddess of Liberty, is a very majestic Being of great beauty and perfection, large of stature and wielding power unbelievable to the human mind. Yet her consciousness and release of true mother-love is so tremendous and her radiation of that feeling and substance is very real and tangible to all who will call to her for the benediction of her Liberty Flame, and then give her the courtesy of accepting her gift by placing their attention upon her for a few moments each day, receiving her blessing.

She was the first Cosmic Being to meet our beloved Saint Germain just after the moment of his ascension and it was she particularly, who watched over him and enabled him to attain victory. She now stands ready and willing to help any and all who desire her assistance.

As you know, a magnificent representation of her presence stands

on a small island in the harbor of New York and her loving protection has been an unspeakable blessing to all who have contacted her in any way.

Beloved Goddess of Liberty! We sincerely, deeply and dearly love and adore you! Make and keep us always worthy of your patient, transcendent love and service to us all on Earth! Great Central Sun! Bless this "Wonderful Mother of Light" with every gift from your heart and keep those eternally sustained and ever-expanding!

Excerpt From Beloved El Morya's Instructions.

"I would like to thank all of you this morning for manifesting such a real interest in our endeavor to combine current activities taking place, with decrees, visualizations and songs which have proven to be so effective in producing the results we desire for mankind's greater illumination and freedom. Your willing cooperation with us in releasing energies, allows us to give to the great Karmic Board more and more proof that mankind, when apprised of certain distressing conditions which need perfecting, will give assistance to that end."

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
with the Great White Brotherhood and Cooperative World Service

SEPTEMBER 1957

TO BELOVED LORD MICHAEL, PRINCE OF THE HEAVENLY HOSTS:

We in the Ascended Master Realm send our limitless, eternal gratitude and blessings for your service to us and to our chelas!

There is not one member of the human race, not one guardian spirit who has become enmeshed in discord, not one bird, animal or any other part of imprisoned life belonging to Earth's evolutions which you have not assisted to freedom from their self-imposed distresses, time after time!

Great Archangel of Compassion, of Mercy, of Faith, of Protection and of Love! You who voluntarily offered some time ago to serve within the psychic realm twenty hours out of every twenty-four in order to cut free from distress the life that was bound there, restoring that life to God, we love you!

So often your shining presence has carried a weary soul to the Karmic Board, to the Sleepers realm, to the temples of light from places of darkness and despair! Never wearying in your service of love which is to restore to all mankind the dignity of their God-estate, we salute you! Hallowed be your Holy Name. Archangel Michael! Defender of the weak, protector of the aspirant, we welcome you and your legions of light now, as always, in these days and years of restoration of the Earth's perfection, God's kingdom manifest NOW when angels will again walk and talk with men! Your loving friend, servant and assistant,

Thomas Printz, Editor

The Homes and Retreats of The Masters of Wisdom

(TEMPLE OF FAITH, NEAR BANFF)
September 15th through October 14th, 1957

One of the foci from which the Great Archangel Michael and his angelic host serve is the Temple of Faith, located in the etheric realm near Banff, in the Canadian Rocky Mountains.

Many long ages ago, at the inception of mankind's individualization upon this planet, Archangel Michael, as guardian of the absolute faith in God in the hearts of the Holy Innocents (the very first of mankind to use the Earth as a place of habitation) accompanied them here as their feet touched this then beautiful Earth for the first time—coming into the vicinity of the great Teton Mountains in Wyoming, U.S.A. Many centuries later, after the advent of the “laggards” who came here from other stars bringing their shadows of discord, Archangel Michael and his angelic host withdrew more and more to the magnificent Temple of Faith which they had created from the substance which Earth offered—flawless diamonds, flashing sapphires and pure molten gold.

From this focus (which was then an actual physical structure upon Earth's surface) beloved Archangel Michael and his legions continued to guard, protect and serve the mankind of Earth for many ages. In the beginning, the veil of maya had not yet been created and mankind's natural estate was to walk, talk, serve and accept counsel from the angelic hosts and their great directors. From all points of the Earth's surface, people came to bathe in the powerful radiance of Lord Michael's presence, finding there new strength to continue in their respective services to God and man and filling their souls with his faith in the ultimate expression of God's kingdom of heaven on Earth.

At that time, Lord Michael walked daily among these pure people and wherever he went, spiritual enthusiasm and desire to expand God's perfection were increased and sustained. His shining presence, his flashing eyes, his exquisite golden hair were a natural and God-inspiring sight to all who looked upon him.

After the “laggards” came here from other stars (our Earth having accepted the responsibility of giving hospitality to souls within whose natures were the seeds of impurity), Lord Michael and his legions did not desert the Earth and its struggling evolutions. Archangel Michael had made a vow to his God to protect the spiritual light within the hearts of mankind and no human appearances ever could or ever did swerve him from his holy purpose!

As the ages passed, his magnificent temple, his blazing presence

and the presence of his divine helpers became less and less visible to the sight of the impure of heart and mind, until the shadows of human discord formed a veil between mankind and the angelic host and their beautiful temple of jewels. The existence thereof today is ignored and almost completely forgotten by the great masses of the people. Yet, within the etheric realm, Archangel Michael has sustained that temple and from it, even to this day, the rays of absolute faith in God and determination to do God's Holy will, still pour forth into the souls of men.

From this temple his helpers constantly continue to go forth on missions of protection, mercy, redemption and salvation. From this temple, the ray of absolute unswerving faith in God continues to radiate forth through the emotional, etheric, mental and physical substance of the planet Earth and its attendant evolutions.

Into this temple (in their finer bodies at night, while the physical body sleeps) come all who seek to be liberators of the race from disease, soul-weariness and all manner of human limitation. Within this temple, inspired by its great Hierarch Lord Michael, these liberators find new courage to continue their service upon the planet Earth, while still clothed in the garments of flesh which either karmic conditions or volunteer service have created for them.

The temple itself is magnificent in its circular design, its jewel-encrusted surface, with its golden dome shining like the Sun itself, builded only as the divine angelic host themselves can build, but the service rendered in it and through it far transcends even the beauty of its structure.

Messengers from the heavenly host are constantly coming and going to and from this temple, carrying messages from the highest heavens. Elementals, wearied with their task of creating and sustaining beauty upon the Earth, find renewed energies and enthusiasm in its radiance. Angels who have taken human form to help the race, are lovingly welcomed and re-charged within its walls, increasing their desire to serve God and man. Human beings who have dedicated themselves to helping the angelic host to restore the Bridge between the divine nature of God and the outer consciousness of man, are filled with spiritual vigor by proximity to its pulsating energies.

Often, in the gardens that surround the temple, the Archangel Michael and his helpers talk informally with such individuals and they are invited to attend some of the less transcendent services within the temple itself. The mercy of Lord Michael spares all life from too great

an exposure to the effulgent light of God drawn at the inner ceremonies.

You beloved ones who long to set life free, come now during this thirty day period into the Presence of the Great Archangel Michael! Enter into the Temple of Faith! Find within yourselves the renewed strength and spiritual stamina required to continue in your service to the Earth and its evolutions! Speak to Lord Michael, strong and powerful as the messenger of the Most High, yet gentle as a mother to all who require assistance for themselves or the mankind he lives to serve!

(Note: For further description of the Temple of Faith, the descent of the Archangel Michael to the Earth and his services, please see the Bridge to Freedom Journal, Book 1, Archangel Michael, His Work and his Helpers and the book, The Seven Beloved Archangels Speak.)

CONFIDENCE IN THE POWER OF GOD
An Address By Beloved Archangel Michael

July 2, 1956

Hail, beloved children of the one eternal God! To you who are temporarily walking the ways of Earth, I come tonight to bring to you my conviction of the power of positively qualified energy which is within true divine love.

The expansion of this particular aspect of the nature of God has been my service in the angelic kingdom for many, many ages. With the help of the one Supreme Source of all life, I have developed the quality and feeling of God-confidence in positively-qualified energy. This I have developed within myself, in the angelic kingdom and in some few among mankind who have chosen, from time to time, to give their attention to me and have chosen to invoke my presence and protective power in, through and around themselves, and their loved ones here embodied, as well as around their loved ones who have passed through so-called "death."

Think you not that it takes a tremendous capacity of divine love for an entire evolution, for me to be willing to stay here for service in the Astral Realm twenty-hours out of every twenty-four by earthly count, which I have been doing for quite some time?

Think you not that it must take a tremendous amount of divine love for imprisoned angels, mankind and elemental life for the Legions of

Lord Michael to come and remain with me in such service?

Think you not that there has to be a very great power of positively-qualified energy within that love, for us to be able to focus it in, through and around a soul whose human creation (of course of its own making) is so heavy that the soul itself is practically inert and cannot even arise by itself to enter the Halls of Karma, there to receive its assignment from the Karmic Board to go to some specific schoolroom of instruction between embodiments? Sometimes too, a soul is so rebellious against God that it absolutely refuses to comply with the divine edict and Law of the Universal which governs those who have “passed on.”

Think you not that it must take a tremendous “drive” of energy, qualified with the full power of divine love and directed one-pointedly, to set that soul free from as much as is possible of that discordant accumulation?

Think you not that it must take a great deal of positive energy qualified with the power of divine love, for us to be able to assist those lifestreams for whom some of you have chosen to pray in specific “liberation” services, after they have passed through the veil called “death”? Many, many times at inner levels, with my own hands of pure light, have I stripped from the inner bodies of your relatives and friends for whom you have called (those for whom I pledged to you my assistance because of your faithful service to our cause for so long, promising you that these would never have to embody here again but could finish their course at inner levels and make the ascension from there), “stripping” them emotionally, mentally and etherically of as much destructively qualified energy as the mercy of the great Law would allow, so that they could make the best possible showing before the Karmic Board. Do you know that some of them I actually had to “push” into that River of Violet Fire (commonly known as the “River Styx”), persuading them to remain within it until that substance of humanly qualified energy around them was transmuted.

Many such a one have I helped in this manner, radiating the faith, confidence and power of my conviction in the goodness of God, which later enabled that soul to walk down the long corridor in the Royal Teton, finding the council chamber which had been allotted to the country of their birth and where they waited in turn for invitation to appear before the Karmic Board. (I tell you, those Halls of Karma are a rather forbidding-looking place to those whose consciences know of wrongs done by them on Earth). Having given them the strength of my own

faith in the merciful forgiveness of Almighty God, I accompanied them to the Halls of Karma and stood by their side as they appeared before that august body. There I continued the positive radiation of my love and my conviction of self-confidence, that feeling of “YOU CAN DO IT, FOR GOD IS WITH YOU!”

That is the vibratory action of faith which is representative of our kingdom, particularly of those who serve with us on the First Ray. That is the vibratory action which is directed by my legions into the feeling worlds of unascended beings who seem to be in great distress and, at least temporarily, have lost hope. Some of them seem to have lost all faith in God himself and to these I send my legions, telling them to give such souls through the radiation of divine love, confidence in the power of God within them to do that which they know must be done. Then these angelic protectors, standing in the auras of such souls needing assistance, radiate the feeling of “YOU CAN DO IT BY THE POWER OF GOD WHICH IS WITHIN YOU!” Can you think of a greater aspect of divine love in service? I think not!

Divine Love Always Active On All Seven Rays

I want you to see and know that on each of the Seven Rays, the divine love aspect is behind every expression. It is tremendously active, of course, on the First Ray of faith (Blue flame) and the expression of God's will as we have said.

It is also very active in the radiation of illumination, the Golden Flame of the Second Ray, where the interest of the student is magnetized and held by the radiation of pure divine love, until he or she comes to the point where they really want to know and ask for an explanation of the Law of Life. Then, again, by the radiation of that same divine love, is given the Ascended Master understanding of that Law and its correct application.

Divine love is primarily and most extensively evident, of course, in all the activities of the Third Ray (Pink Flame), where tolerance and complete understanding of all of life holds sway.

It is certainly evident, too, on the Fourth Ray (Crystal Flame) where purity of emotions, thoughts, etheric substance and flesh are essential to the establishing of a close connection with the Godhead and the externalization of the God-design.

Divine love is expressed in concentration, (Fifth Ray), for that

which you love to do you stay with and do. You know that, even in your outer world associations. If you love something or someone enough, you will give your life in service to it or to them, no matter what the personal discomfort or inconvenience to yourself may be.

Again, divine love is most certainly active on the Sixth Ray (ruby or gold) in the desire to minister to imprisoned angels, mankind and elemental life.

Also, this same divine love is one of the most important aspects of the Seventh Ray (violet), for what greater love can there be than to invoke from cosmic heights, the Ascended Master realm and angelic kingdom, help for an evolution in pain and torment of various kinds, especially that assistance which they can and do bring at your call, the Violet Transmuting Flame of divine compassion, mercy and forgiveness.

Now, let us NEVER consider divine love as being a negative quality! It is always an extremely positive activity, although its expression at times may be that of a dynamic release of faith, confidence and protection, or in illumination and understanding, or in the feeling of kindly tolerance. Its expression may also be in the purity of the feelings of the ascetic, it may be in the concentration of your energies upon the producing of something which can be of benefit to the whole human race, it may be in the ministering to men, women and children in distress in your hospitals and asylums or in the alleviation of the suffering of any part of life.

Divine love may also be expressed in the use of the power of invocation, in calling forth the divine alchemy of the Violet Fire which, as it passes through any shadowed substance, raises the vibratory action of that substance into perfection instantly. There is no greater expression of divine love anywhere in the universe, than for any man or woman to get the complete understanding of the absolute science behind the divine alchemy of the Violet Transmuting Flame and then, by its use, become an example of its reality and efficacy particularly revealing its tremendous blessings and possibilities to his fellowman. What one can do all can do!

Luminous Presence of any Ascended Being Sustained By Rhythmic Calls

Beloved ones, I have loved you for a long time! I have often been with you at inner levels just before you took an embodiment and I have met you often at the close of an embodiment, at that time helping you to get your world in some semblance of divine order before you went before the Karmic Board. Now, I meet you often in consciousness, as you either call in decrees or sing to me and I often come in my own Divine Presence at your call. I am here constantly in my Luminous Presence and anywhere else where I am rhythmically invited to be.

Where there is a rhythm of invocation which is constant, there the Luminous Presence of any Ascended Master or Cosmic Being thus called for is established and sustained. Therefore, in the various sanctuaries all over the world where certain Masters have been accorded the privilege of working with the group and where that group consciously gives attention to that Master in song and decree, those places have in and around them a Luminous Presence of that Master which remains a part of their “forcefield” and through which that Master pours his divine love and assisting energies at all times.

However, in order to sustain such a blessing, such a Luminous Presence should be rhythmically acknowledged at least once in every twenty-four hours. If it is not possible to go personally this often into the sanctuary or meeting place, because of the tremendous pressures of today's daily living, business interests, etc. which obligations arise mostly from the necessity of “making a living,” then use the activity of “projected consciousness” which you have been shown how to do. This is done by consciously projecting your attention (for “WHERE YOUR ATTENTION IS THERE YOU ARE!”) into the seat usually occupied by you in the sanctuary or on the platform if you are the director of the group, giving loving adoration and acknowledgment to that Luminous Presence of the Being or Beings, which Luminous Presences you desire to be sustained there.

If you will conscientiously do this, approximately at the same time at least once in every twenty-four hours, such a Luminous Presence will be sustained there for you. Otherwise, the powerful radiation of that Luminous Presence tends to lessen if such rhythmic acknowledgment is not given it. Of course, such foci of Ascended Master light or that of the Cosmic Beings always increases when there is an address given or when the regular group meetings or services are held.

Rhythmic Applications Most Essential

The lack of sufficient rhythmic application was one of the reasons why the Temple of the Sacred Heart finally disappeared from visibility upon the Continent of Atlantis. The majority of the priests and priestesses of that temple did not give rhythmic attention to the Sacred Fire established within that temple. You see, to keep here the visible tangible presence of the Sacred Fire (which you yet have not drawn visible to the physical world) it had to be fed by the conscious ritual of the group of priests and priestesses who had volunteered to magnetize sustain, and expand that flame, at least once in every twelve hours. Because of the steadily increasing shadows brought here by the “lag-gards” at that time, the energies of these priests and priestesses became enmeshed in the creations of the outer world and their attention began to wander from the sameness of their ritualistic pattern of invocation.

Finally, on many of the altars the Sacred Fire just disappeared because there was no one interested or faithful enough to hold it there. As you know, the nature of the flame is to arise and return to the octave from whence it was originally drawn. We cannot and shall not bring that Sacred Fire back here again, visible and tangible to the physical sight of all mankind, until we can have the loving, constant, rhythmic service of those upon whom we can depend to magnetize that Sacred Fire at least once every day.

We know that you are calling for greater freedom from the demands of “making a living” so that you may be able to serve the light better and more. You see, you cannot work in the business world all day or give your energies to your homes and families and then, in the evening hours, when your energies are mostly spent, draw forth the type of energy which would be required to sustain a visible, tangible flame. That is just common sense and it goes without saying that we would not demand such a service of you. However, we are calling with and for you and, during this class, while the greater purification of your inner bodies and physical flesh structure is going on, we are asking for the removal from you of the causes and cores of your human creation which manifests in your world of experience as financial lack, ill health, disintegration, old age and every other human distress.

Of course, “According to your faith be it unto you.” According to your faith in our actual reality and in the reality of that which we are endeavoring to do for you, in other words, just as much of us and our activities as YOU CAN AND WILL ACCEPT AS REAL, just that much we are

able to do for you and your four lower bodies NOW, the rest will remain around you in your aura until some time later, some moment when you are very peaceful and spiritually attuned. Then, suddenly, the realization and feeling of acceptance of our gift will come into your consciousness and manifest for you in your outer experience. I have seen individuals who have been “exposed” (shall we say) to the radiation of the Ascended Masters for an entire embodiment, with very little change of nature apparent in the outer self.

Then, suddenly, in just a period of absolute relaxation, when the outer self and its anxious tensions just “let go,” all of that accumulation of Ascended Master radiation of perfection rushed in to such a one's outer consciousness and purification took place on the instant! Call for feeling of God-acceptance! Now, we can see very clearly why you do not experience the instantaneous manifestation of all your calls and of our release of radiation of perfection into your worlds. It is because of a “block” in the inner bodies (mostly in the emotional body and of these feelings the outer self is usually not aware) , feelings of doubt, fear and a lack of the feeling of complete acceptance of the reality of that which we wish you to have and which you want, but which you cannot as yet see, hear or cognize with the five outer senses.

However, everything comes from the invisible to the visible and a thing may be very tangible, although invisible to the physical sight. Your hearts are so sincere and your souls are calling more and more light. You have come to this class in the hope of procuring the blessings of that light and the healing which goes with it, whether that healing be physical, financial or otherwise, especially a freedom from financial strain which you know should come with the steady expansion of your light. You also desire a greater feeling of unity with and closeness to your Holy Christ Self, which abides in your own hearts. Be sure that we shall assist you all we possibly can.

Since the beginning of this class, once in every twenty-four hours I have gone personally into your homes and hotel rooms and, with my own hands of pure light, I have “stripped” your four lower bodies of a great deal of humanly qualified energies which, had I not done so, would have acted later to bring you some kind of distress. DEAR GOD! IF ONLY YOU COULD, AND WOULD ACCEPT THE REALITY OF THIS IN YOUR FEELINGS.

I would to God that for just one minute I could stand visible to your physical sight and, drawing aside the veil of maya, ask one of you in the audience to stand here before me. Then, passing my hands of pure

light through the aura of that one, you would then be able to see something of the darkness of the shadowed substance which would disappear from the aura as I stripped it away. Then too you would realize more of what it means to have one of us “strip” the physical and inner vehicles of humanly qualified energies which have accumulated there.

If daily you will so make the call to us (myself, the Elohim of Purity, Mighty Astrea or any of us who have to do primarily with the service of God, purification) we shall be glad to come, or perhaps send an angel of our presence, to render this service for you, once an hour, if you so desire. Try us out on this, keep up your rhythmic calls for this to be done and see what we can and will do for you! Of course, always be sure to decree that all of the substance so removed be instantly and eternally replaced by the full perfection, command and eternal control of your own Holy Christ Self, so that no shadows of human creation can ever manifest in your world again. Do you see? This is a great safeguard for you.

“Almighty God! Because of the service rendered by the student body in the purification of the Earth, which purification is now going on, I ask that the veil of maya be allowed to be removed at least from the students themselves, so that they may be able to see the magnificent results of some of these activities which we describe to them from time to time.

This would give them greater faith in you, faith in us, faith in this work and faith in their own endeavors. Almighty God! I make this call in your Most Holy Name, “I AM!”

Accept Archangel Michael As Your Loving And Close Heart Friend

Dear Heart-Friend,

Beloved ones, with all the gathered momentums of dynamically and positively qualified energies which I carry in my world, still I am part of the expression of divine love which is being released through this class. Like our beloved Morya, I sometimes get somewhat carried away by my enthusiasm in service. Please try to forgive any tremendous releases of my energies while talking to you, which have seemed unusually powerful. You know, there are times when one is required to be quite powerful, more powerful than at other times. You know that yourself. You know that there are certain destructive conditions which do not yield easily. In the past, I have wrestled with some of those who

were in the “compound” and I know!

However, I have also held in my arms a very small child which had just been released from its Earth body. I have bathed it with my own hands cupping the essence therefore from the River of Violet Fire and have then carried it to the “sleepers realm.” There, placing it on a small cot, I covered that little form with a blanket of roses.

Once, long ago, when that blessed Mother Mary who was the one through whom our beloved Master Jesus took his last embodiment, when she was a very small child and alone in that great temple, I took upon myself the aspect of loving comfort to her. Sometimes I would visit her little room at night before she slept and entertain as well as instruct that little one by telling her stories of our kingdom. Then I would sometimes bring to her tiny angels, directing them in rhythmic “drills” and other manifestations of beauty and grace, right there on her bedcover. You know, she was only three when she entered that temple and during the time of her stay there, I tried to banish some of her loneliness and make a little happiness for her. So, you know, there really is a very “sweet side” to me, as well as the more powerful protective one by which, perhaps, I am better known to the greater numbers of humanity. One day you will all be glad that I have been so powerful—for the power I release is truly divine love!

THE MASTERS OF WISDOM SPEAK **THE BROTHERHOOD OF ANGELS AND MEN**

MAHA CHOCHAN

The natural God-design for the planetary experiences of all evolutions in the Earth, on the Earth and in its atmosphere, is for a conscious co-operative service between the angelic host and unascended beings. The angelic host stand ready to assume this delightful association with mankind again. Man is gradually being educated as to the existence, service and actual reality of this kingdom.

Thus, as in the early ages, when there was the Bridge of Light connecting the consciousnesses of angels and man (before the veil of maya shut from the eyes of man the sight of the Shining Ones, before the ears of man were closed to the music of their speech and song), so again today are we building a bridge from the kingdom of the angels into the outer consciousness of all mankind. Over this bridge the angels are coming, even now, in greater and greater numbers into the physi-

cal octave of Earth and mankind's experience world. They are welcomed by those who know of their presence and, in the Golden Age into which the Earth has now entered (presided over by the beloved Ascended Master Saint Germain, Chohan of the Seventh Ray to be active here for the next two thousand year cycle) angels, elementals and humankind will all serve together joyously to recreate the beauty and perfection of God's holy kingdom on Earth! God hasten that day of fulfillment, oh, Lord of all!

EL MORYA

The angelic host are a real joy to me because their nature is LOVING OBEDIENCE to God and to his messengers, at all times! Among the angels, there are never the arguments of “reason” and “logic” to cause vacillation and delay in their service. Thus so much energy is saved and utilized for the development and fulfillment of the divine plan in every sphere in which they serve. The angels KNOW that the will of God is good and they hasten to bring the “glad tidings” wherever they are bidden to serve. This is certainly a delightful contrast to the sometimes reluctant service of mankind, whose energies are often exhausted in weighing the “pros” and “cons” of every suggestion made by the Great Ones, until the cosmic moment of fulfillment is long passed and the service which might have been performed is left undone. God bless the angels! I love them, every one!

KUTHUMI

THE ANGELIC HOST MAY BE CLASSIFIED INTO THREE DISTINCT TYPES OF MESSENGERS AND SERVANTS OF ALMIGHTY GOD. The SERAPHIM are the great messengers of the Suns of the system. They can and do travel in full freedom from one solar system to another and, in form, they are extremely beautiful, delicate of feature and very aesthetic. The CHERUBIM who embody the nature of God, bathe in the spiritual aura of the Universal First Cause or in the radiation of any of the temples of their choice in any one of the Seven Spheres. Then, when they have learned to sustain in their feelings a particular virtue, they are directed to carry that feeling forth and radiate it to and for the blessing of all in the sphere to which they are sent to serve. The GENERAL ANGELIC HOSTS are composed of those angels from the spiritual courts of every divine Being and their service is determined by the Divine Being whom they have offered to assist, such as the guardian angels of individuals and homes, the protecting angels of Lord Michael, the healing angels of beloved Jesus and Mary, etc.

PAUL, THE VENETIAN MASTER

Angels, of course, are the embodiment of PURE DIVINE LOVE! They await the invitation of mankind to assist unascended beings to develop a similar nature. It cannot be overemphasized that the cultivation, sustaining and expanding of the feeling of divine love within the nature of human beings can be greatly accelerated by their invitation to one or more members of the angelic host to actually come and abide within the aura of the individual making the call, then to allow them to radiate to and through the soul and outer consciousness of that one making the call, the feeling of impersonal divine love.

That day is over when the angelic hosts are acknowledged only at the Christmas Season! We are entering into that era when the angels will be accepted as ever-present helpers of mankind. Cultivation of sustained harmony, beauty, peace and divine love in the soul of an individual is an invitation to the angelic host to come ever closer to the one desiring assistance from them. As “like attracts like” in every sphere, the angels are naturally drawn toward those individuals whose natures and auras most closely resemble and express the divine nature of God. Those blessed ones who, at this time, cannot accept the existence of the angelic host will be given more and more proof of their reality as time goes on, by the members of the human race who can and have already pierced through the veil of maya, bringing back here in picture, in song and in words, the truth about the angelic kingdom.

SERAPIS BEY

The seraphim, of course, are particularly close to my heart for, as you can easily see, both our names are derived from the same source. Seeing their majestic flights through interstellar space upon cosmic mission bent, hearing the music which radiates from their presence when they meet or pass a fellow-messenger from “on High,” witnessing the beauty of the personages of the seraphim, I do decree that mankind soon shall come to know these Beings as we do and welcome them into their hearts and worlds.

HILARION

Angels evolve, even as all self-conscious intelligences do, for there is no ultimate to perfection! Angels are a particular evolution in themselves, from the smallest angels, cherubim and seraphim (born from the heart of the Universal I AM Presence or from the heart of any divine Being) to the great cosmic messengers who have learned the full lesson of their evolution. They all keep in mind and heart the motto of

the angelic kingdom, “The Highest” and express that full perfection of the God-head in their particular evolutions.

Angels, having free-will even as mankind, may remain in the aura of the Father-Mother God or in the aura of one of the Archangels, as long as he or she may desire. Sooner or later, however, they cognize the fact that it is the will of God to serve by creating and expanding God-perfection everywhere. Then they enter the temples of their choice wherein they are given specific instructions as to how they may best serve God, the Spiritual Hierarchy and mankind, along the line of the particular service they have willingly offered to give. In such training, at first the angels are allowed to perform small missions and, when those missions are successfully accomplished, they hurry back to the divine realms from whence they came, where they enjoy the God-feelings of divine love and security. Through experience, they learn how to better serve and then attempt more valiant and difficult tasks in God's Name “I AM.”

Because of the tremendous need for the expansion of the feelings of divine love in the nature of unascended mankind-which need, of course, is seen by the angelic host in their endeavors to set mankind free from human imitations, some of the angels have applied to the Lords of Karma for permission to take on physical bodies and thus serve mankind, elemental life and all living things belonging to Earth's evolutions, especially those still unascended. When such permission is given, such angelic beings learn more of the nature and needs of the kingdom which they have offered to serve and how to meet that need God's way. Some of these Shining Ones who have been given permission to embody here, thus have become enmeshed in the discordant thoughts, feelings, spoken words and deeds of the mankind they came to serve in the vibratory action of the Earth-plane. However, buried deep within the substance of the etheric body (memory world) of such lifestreams, there is often a very faint but quite persistent remembrance in the consciousness of such, of their divine nature and the freedom they once enjoyed in the higher spheres. This often creates a tremendous struggle in the endeavors of an imprisoned angel to regain the perfection of his natural God-estate. I admonish you to pray for all such angelic volunteers, who are so caught in the veils of flesh, for theirs was and is a sacrifice of love!

JESUS

I am greatly indebted to my own beloved Mother Mary (divine complement of the beloved Archangel Raphael) for her assistance in enabling me to acknowledge and accept the existence of the angelic host as very real, tangible, divine beings. All throughout my final Earth-life, the angelic host guided, guarded and protected me, first through my mother, then through my father (Joseph, now Saint Germain) and, later, through my own association with the angelic host.

Countless legions of Healing Angels are even now at our command, beloved ones! By loving invocation, in the name of your own beloved I AM Presence, call their presence into hospitals, prisons and all foci of mankind's need and discord and into the lives, homes and worlds of all you hold near and dear. We and they await your invitation to come and help you. The wall of skepticism and unbelief concerning the reality of the angelic host, which wall has been builded all through the centuries by the doubts and fears in the masses of mankind, is being transmuted by the faith of the "few" who really KNOW of the existence of these beings. Will you not join these few and enjoy the opportunities of this cosmic moment, when the heavens are about to open and the divine beings there step forth here, visible and tangible to the physical sight of all mankind? I implore you so to do!

SAINT GERMAIN

"The Brotherhood of Angels and Men" is one of the planks in the platform of the Golden Age which, as Chohan of the Seventh Ray, I have been privileged to usher in. As the Seventh Ray is primarily a ceremonial ray, the beautiful participation of the angelic host in the spiritual ceremonies of mankind will greatly hasten the manifestation of God's kingdom right here on Earth. All through the ages, angels have walked and talked with those whose spiritual perceptions were clear enough to cognize their presence. It is the decree of the Cosmic Law that now all mankind shall know, accept and serve cooperatively with the angelic host. The great Lord Zadkiel and his divine complement, Holy Amethyst, are helping me to stimulate the feelings of acceptance in mankind of the angelic host at this time. You, too, gentle reader, are helping me by your calls to us and to them and for this I am so grateful!

I now decree that legions of angels, carrying the particular powers and virtues of the Seven Rays, instantly shall come at your sincere, loving call and make you feel their presence with you, thus proving to you

the reality of their presence and ability to assist mankind in the recreation of God's kingdom on Earth. God bless you, one and all, for your loving assistance to our cause of freedom!

For many, many years, the date of September 29th has been set aside for the adoration to our beloved Archangel Michael. It would be well for all of us to consciously acknowledge this day, individually and in groups, in gratitude for the transcendent service beloved Michael has given to us and all mankind, not only in this embodiment, but all through the ages. Blessed be his most holy name!

MONTHLY LETTER TO TRANSMISSION FLAME CLASS

Beloved Children Of God Seeking Liberation For Your Selves And All Imprisoned Life:

I bless you for the sincerity of your motive! I invoke the presence and power of the First Ray to anchor itself within your thoughts, feelings, spoken words and actions, henceforth and forever, tempered always by the pure divine love which is my nature!

Again we are privileged to enter the Sacred Temple of Lord Michael, the Archangel. Here we, in the ascended consciousness, add all the faith fulfilled of our lifestreams to Lord Michael's invoked and sustained flame of faith in God and his goodness which he desires to express to and through every living thing.

To you who seek renewal of enthusiasm, rededication of purpose, stimulus to your own faith in God, I humbly extend the invitation to visit (in consciousness) the great Archangel Michael's retreat daily during this thirty-day period!

Remember to invite from this retreat the sponsor assigned to you by Lord Michael and let this sponsor who has been trained by Lord Michael help you in your service, your meditations, your work and your creative endeavors! Anticipating a joyous reunion with all who desire to do God's Holy will, I am, lovingly and gratefully,

Maha Chohan

Statement for Transmission Flame Class September 21

I AM inbreathing / absorbing/ expanding/ projecting, the protection and power of Cosmic Christ Faith from beloved Michael.

Hierarch of the Temple of Faith and Protection, (Canadian Rocky Mountains.): Lord Michael, Archangel. Color of Flame: Crystal with radiance of sapphire blue. Musical Keynote: "Soldiers' Chorus" from Faust.

EL MORYA SPEAKS ON RACE-RELATIONSHIPS

July 2, 1957

Beloved chelas, I do implore you to make individual and collective calls for the instantaneous removal of all bigotry, bias, prejudice, resentment and hatred caused by differences in racial backgrounds, religious affiliations, national and planetary karmic differences at this time.

There are three reasons why an individual is born into any particular race, religion, nation or family:

First, because through the use of his own free-will, he has earned a place in any of the above mentioned categories.

Second, because he has hated or persecuted the very race, religion, nation or members of the family into which he is born.

Third, because he has volunteered to help that race, religion, nation or family.

All thinking people realize that it is the timbre of the soul, the nature of the feelings, the service of the individual, rather than the "envelope" (body) he wears which is of value to the Great White Brotherhood. OF COURSE, INTER-MARRIAGE BETWEEN THE RACES IS NOT ACCORDING TO DIVINE LAW BECAUSE OF THE SUFFERING CAUSED TO BOTH PARENTS AND CHILDREN ALIKE. However, common worship is to be applauded with a full realization that those in each race can best serve that race by lifting it from within rather than endeavoring to escape the confines of that race for temporary pleasure.

In the East, the greatest block to spiritual progress is this prejudice among the various races and religions. In the West, this same attitude caused the Civil War and, lately, great unrest among the "down trodden," which could lead to revolution and great distress. I am counting on you and you and you to help me to cognize the worth of every man by his service and nature and "pour oil on the troubled waters."

Thank you, El Morya

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
with the Great White Brotherhood and Cooperative World Service

OCTOBER 1957

TO THE COSMIC LAW OF MERCY

WE ARE ETERNALLY GRATEFUL, which allows the conscious transmutation into light of discord, limitation and imperfection. Nothing of discord is permanent, thank the God of Mercy! Therefore, a way and means of raising the quality of discordantly-qualified energy is provided for those who so desire to use it. This way is the use of the Violet Fire of Transmutation and Mercy.

To the great Elohim of the Violet Fire and his divine complement, Diana, we give our limitless and eternal gratitude and blessings for focusing that Violet Flame and Ray into, through and around the Earth, as well as for making that Violet Fire available for the constant use of all self-conscious intelligences who desire to participate in this planetary redemption.

To Lord Zadkiel, priest of Invocation and Archangel of the Violet Fire, together with the Spirit of Mercy herself, (Zadkiel's divine complement, Holy Amethyst), we are so grateful!!

To the Chohan of the Seventh Ray, the beloved Ascended Master Saint Germain, whose service it is now to make mankind en masse cognizant of this Violet Fire and desirous of using it,

We give all the love and assistance of our lifestreams at this time! To beloved Portia, Goddess of Justice (and divine complement of our beloved Saint Germain) we send our love!

LET THE VIOLET FIRE OF MERCY AND COMPASSION NOW BE KNOWN, ACCEPTED AND USED BY ALL MANKIND, IMPRISONED ANGELS AND ELEMENTALS! LET THEM BE FIRED WITH GOD-ENTHUSIASM IN ITS USE UNTIL THE "DARK STAR" BECOMES A PLANET OF LIGHT, "FREEDOM'S STAR," SHINING IN THE FIRMAMENT, A JEWEL IN THE CROWN OF HELIOS AND VESTA! SO BE IT!

Thomas Printz, Editor

The Homes and Retreats of The Masters of Wisdom
TEMPLE OF PURIFICATION BY VIOLET FIRE
October 15th, 1957 through November 14th, 1957

Pulsating in the etheric realm over the Island of Cuba is the magnificent Temple of Purification, presided over by the Archangel Zadkiel and his divine complement, Holy Amethyst. Like unto all the temples of the Archangels and their Archaii (divine complements), the Temple of Purification is a focus of such beauty, elegance and spaciousness that it staggers the outer consciousness of mankind. Once this temple was a physical focus located on the substance of Earth itself, in the days when Cuba was a part of the great continent of Atlantis. Then, when the Cosmic Law decreed that the Atlantean civilization had served its purpose, a major portion of the Atlantean Continent sank beneath the waves of the Atlantic Ocean for rest and purification. One day, in the not too far distant future, that beautiful continent shall rise again to serve its purpose in the divine scheme of creation.

When the Atlantean culture flourished and the Cosmic Beings, Archangels and angels walked and talked with men, there was a "White Order" of unascended lifestreams who loved and served God and his holy messengers. Among this "White Order" were the priests and priestesses of the Order of Lord Zadkiel! Our present Chohan of the Seventh Ray, the Ascended Master Saint Germain, was one of these priests.

"Laggard" Souls Born Naturally To Earth's People

At that time the "laggards" from the other stars had already found homes upon the Earth and were living with the people of Earth, most of these people did not know nor cognize these "orphans" from other stars. These "laggards" had been left behind when their own stars had graduated into greater light and had passed through cosmic initiations which brought them closer to their particular Sun. The use of free-will had allowed these people to refuse to accelerate the vibratory action of their own emotional, mental, etheric and physical bodies to a point where they were qualified to move forward with their own planets and, in divine mercy and compassion, the Hierarchy which governed the Earth offered them a place in which to work out their individual evolutions.

As the "laggard" souls had refused to comply with the necessary obedience to the laws of their own evolutions on their own stars, which

obedience would have enabled them to progress with their own planetary scheme, their chief faults were arrogance, rebellion, resistance to progress, stubbornness and resentment toward change. Naturally, they brought these qualities with them to the planet Earth which had so graciously received them. These “laggard” souls were then accepted as Earth's responsibility in the Lemurian Age which preceded the Atlantean Age by many centuries.

The priests and priestesses of Lemuria, forewarned as to the coming of these “laggards,” spent one hundred years in sincere, devout and constant application, making the calls that the people of Earth would not succumb to the insidious influence of the soul-emanations of these “laggards.” However, as the masses of the people were unaware of the offer to accept these souls by the planet Earth and as these “laggards” were born on Earth quite naturally through the physical bodies of certain mothers who consciously sacrificed themselves to this service, there was little outer cognizance of the infiltration of the “Holy Innocents” by these people.

Although a tremendous amount of energy was released in the calls of the Priesthood of Lemuria to prevent the spreading of this destructive influence (even though it was unseen by the physical sight of the people), a greater amount of destructively qualified energy was brought into Earth's atmosphere by these “laggards.” This shadowed energy began to weave its ugly web of thoughts and feelings of a rebellious and disobedient nature, here in the atmosphere of Earth. Then, through contagion, many of the people of Earth began to harbor these thoughts and feelings, first in secret and then openly. Thus, on Atlantis, the real war between light and darkness reached its greatest apex on this Earth.

"White Order" Activities Copied And Distorted

The activities of the “White Order” above referred to, whose followers remained true to God and his divine messengers, were carefully and skillfully duplicated by those whose arrogance gave them false assurance as they proceeded with their nefarious practices. For some time, the “Black Order” thus formed flourished, with many followers who believed in the sincerity of their teachers.

Thus the requirement was vital for a Temple of Purification to be established in the physical octave of Earth. This was done and from it the great Archangel Zadkiel, himself, chose to invoke and radiate the

Violet Fire of Transmutation and Mercy into the atmosphere of Earth, which atmosphere and substance of the planet itself were already growing heavy with the weight of the discordant effluvia released from the thoughts, feelings, spoken words and actions of the “Black Order” and its followers. With the help of the builders of form, the angels of the Violet Fire, the ceremonial devas and the unascended lifestreams who had remained true to God's purpose, beloved Zadkiel established his Temple of Violet Fire on the Continent of Atlantis.

This temple was circular in form and very large. It was created entirely of the pure amethysts which the people had brought from the four corners of the Earth. Its dome was crowned with a golden figure, life-sized (about seven feet in height) of Holy Amethyst (divine complement and Archaii of Lord Zadkiel). In the center of this temple, an altar builded of the same beautiful amethysts, cradled a focus of the Violet Flame. This flame was attended by the priests and priestesses of Lord Zadkiel who continued, as he had instructed them, to invoke, sustain and project this purifying essence of Violet Fire into the atmosphere of Earth. If it had not been for this focus, the flames (virtues) held on other portions of the Atlantean Continent by other members of the “White Order,” could not and would not have been sustained, nor would they have been allowed later to be carried by their own priests and priestesses to other parts of the landed surface of the Earth at the time when the Atlantean Continent sank beneath the waves.

As the Violet Flame and Ray represent the Seventh Ray, around the Central Temple of Lord Zadkiel were builded, in the same circular design (although smaller in size), seven lesser temples. From the golden dome of each of these, there arose a living, visible, tangible Violet Flame which could be seen for a thousand miles in every direction.

In these lesser temples, through his priests and priestesses Lord Zadkiel taught the power of conscious invocation of the Violet Fire of Purification from the heart of God himself, to those pilgrims who desired to purify the particular nations and continents to which they belonged.

Violet Fire Feared by "Black Order"

The Violet Fire was greatly feared by the "Black Order" and its followers because it meant the transmutation of their energies and endeavors into light and the decline of their personal powers. Some of those who were followers of this "Black Order" still fear that Violet Fire today.

The Seventh Ray, being in itself an activity of invocation, was naturally developed through instruction and training of lifestreams in the power to hold the attention upon God, the Universal I AM Presence, and, through the power of that sustained attention, the mercy of God was magnetized until it became a tremendous force for good in that era when darkness and light struggled for supremacy.

Rhythm of invocation, constancy of devotion to the magnetization, sustenance and expansion of the Violet Fire through meditation, contemplation, song and decree, were the fundamental principles of the teachers of the temples of Lord Zadkiel. All other priests and priestesses of the "White Order" were fully aware of this focus and often came themselves to bathe in the purifying essence of this flame. They sent also their unascended chelas so that the effluvia of discord that was growing upon Atlantis might be dislodged from their consciousness. These chelas left the temples of Lord Zadkiel purified of mind, feelings, etheric consciousnesses and revitalized in flesh, eager and willing to serve in their own temples to preserve God's will and his kingdom of righteousness on Earth.

Above all things, the "Black Order" desired to get rid of this focus of light as all forces of evil prefer to work in darkness rather than light. The illumination thus created by the release from the Violet Fire Temple through the veil of human maya cast light upon and therefore revealed the nefarious practices of the "Black Order" followers and this light also began to infiltrate the consciousness of their constituents. Thus the focus of Lord Zadkiel became the primal target for the destructive practices of the "Black Order," who sought to destroy this focus on Earth of the Violet Fire, from which was being released that purifying essence which slowly, but surely, was uncovering the motives of selfishness, arrogance, self-aggrandizement and pride. Through fear, the followers of the "Black Order" were held loyal to its teachings and teachers.

Etheric Remembrance of Violet Fire's Mercy Eternal

These individuals, however, forgot that in the heart and soul of each of the priests and priestesses of Lord Zadkiel there would ever live a remembrance of the possibility of redemption through Mercy and love of and for God.

Finally, because the greater interest of the people was in allowing their life energies to be used in the creation and expansion of the shadows rather than in self-purification, there came about the removal of this Violet Fire Temple from the surface of the Earth but, since "THE LIGHT OF GOD NEVER FAILS," the etheric replica and activities of this temple still pulsed in the ethers over the Island of Cuba, where they have remained and serve life, even unto this very day!

HOWEVER, THE "BLACK ORDER" COULD NOT AND DID NOT ERASE THE MEMORY OF THE VIOLET FIRE OF MERCY AND COMPASSION FROM THE ETHERIC CONSCIOUSNESS OF THOSE WHO HAD SERVED IN THESE TEMPLES. ONE SUCH TRUE PRIEST IS NOW THE LORD (CHOHAN) OF THE SEVENTH RAY, OUR BELOVED ASCENDED MASTER SAINT GERMAIN. When the forces of darkness had sufficiently influenced the consciousness of the masses of the people on Atlantis to disobey God and follow the rebellious way of the destructive use of the free-will, the Cosmic Law decreed that the Golden Age of Atlantis was at an end and slowly, in various cataclysmic activities, the great continent was submerged beneath the ocean. Along with many other flames representing the virtues of God, the Violet Flame was safely transported by Saint Germain from Cuba to a place of safety and security in Transylvania, Europe, before Lord Zadkiel's physical temple was removed.

Saint Germain (then unascended) in due time passed from the Earth-plane, but he, as well as many other good lifestreams, remembered the glory of Lord Zadkiel's Temple and the tremendous service it had rendered to the people of Atlantis. The Law of life does not allow any force of evil (no matter how powerful it may temporarily seem to be) to destroy the memory of the glory which all had with the Father before the world was, in any era when the Father's will was done on Earth, or anywhere else in God's creation. Only the use of the free-will of the individual himself allows the memory and consciousness of that glory to be pushed back into the deep recesses and folds of the etheric body where they sometimes lie quiescent for many ages before they are revived again. As before mentioned, the Temple of Lord Zadkiel has remained, together with its seven lesser temples, pulsating in the ethers over the Island of Cuba to the present day.

Violet Fire Temple to Appear on Earth Again

In the future when the permanent Golden Age presided over by our beloved Ascended Master Saint Germain is established on Earth, this temple, as well as the seven lesser temples around it, again will be builded from the jewels of the Earth and utilized by her people for purification of their four lower vehicles and the atmosphere of the planet. Those who know of this etheric temple of Violet Fire still use its beneficent presence and activities, visiting it in their finer bodies (at night, while the physical sleeps) and drawing its purifying radiation into the atmosphere of this "Dark Star."

IT WAS NOT "HAPPENSTANCE" WHICH DREW COLUMBUS (NOW OUR BELOVED SAINT GERMAIN) WESTWARD ACROSS AN UNCHARTED SEA TO THE ISLAND OF CUBA, SO LONG AGO. IT WAS THE MAGNETIC PULL OF LORD ZADKIEL'S TEMPLE AND SAINT GERMAIN'S PERSONAL LOVE FOR THE VIOLET FIRE ITSELF. TODAY, ON THE ISLAND OF CUBA, THERE STANDS A TREE MARKING THE SPOT WHERE COLUMBUS AND HIS FELLOW-SAILORS LANDED. Although, at that time, Columbus did not fully cognize the magnetic attraction of Lord Zadkiel and the Violet Fire as the motivating power behind his determined and relentless search for a trade-route to the riches of Asia, his voyage marked the beginning of a new era.

Embodied in Cuba are many lifestreams who have served in the past with Lord Zadkiel, Holy Amethyst and his priesthood. Many more will either embody there in the future or will find their way thither from the continents of their birth.

The Violet Fire of Transmutation and Mercy SHALL AGAIN BE KNOWN, SEEN AND UTILIZED BY THE PEOPLE OF EARTH! THE PRIESTS AND PRIESTESSES OF LORD ZADKIEL SHALL AGAIN PROVIDE THE PURIFYING POWERS OF THAT VIOLET FIRE FOR ALL WHO SEEK THE REDEMPTION OF THE EARTH! IT IS A PART OF THE DIVINE EDICT OF THE COSMIC LAW! TO THIS END "THE FATHER WORKETH" AS WELL AS HIS DIVINE MESSENGERS AND DEVOTED CHELAS!

(For further information about Lord Zadkiel, please see our book: The Seven beloved Archangels Speak, and the July 1957 issue of "The Bridge" in which there is so much interesting, instructive and extremely practical material given by beloved Arcturus on the use of the scepter of Violet Fire.

PETITION OF BELOVED ZADKIEL TO KARMIC BOARD

With Introduction By Serapis Bey

December 28, 1954

Tonight the beloved Zadkiel is addressing the Karmic Board. As you know, he is the Archangel of the Seventh Ray and one of the most important of his activities is the releasing of the power of invocation and the teaching of the ability to use that power, both to the angelic kingdom and to any of mankind who will consciously make the call for his assistance in this respect. The beloved Jesus spoke to you last evening about the necessity at this time for your calling for the removal of the causes and cores of those curses, hexes and various destructive incantations invoked in the past by certain unfortunate lifestreams, which curses have followed races, families, jewels, tombs and homes for generations.

As beloved Zadkiel represents the constructive use of that same power, tonight he is requesting of the Karmic Board their permission to remove every such curse and its cause and core, all the way back to the days of Lemuria when they first began, those released by the Black Magicians of Atlantis, the Druids, the voodoo practices of Africa, the "witches" of the past and all connected with the cursing of life in any way. This has been an invocation of concentrated power qualified with shadows and all of this life so shadowed now has to be released and transmuted into light again.

This evening, beloved Zadkiel wears his beautiful purple vestments with a large Maltese Cross upon the back. Upon his head he wears the great seven-pointed jeweled crown of amethysts. He holds within his hand an amethyst-encrusted scepter, representing the authority OF THE ONE SUPREME GOD, in conscious invocation by the use of his name "I AM." Now you will hear his words.

Beloved Zadkiel speaks: "Hail, Lords of Karma, mighty and infinite powers of justice. In the beginning of Earth's creation, it was I who brought to her people the power of invocation and it was I who then took the responsibility of giving mankind (and some of the imprisoned angels here) the knowledge which they have unfortunately used in the past to destroy the perfection of God's kingdom rather than protecting and expanding it. Therefore, I, Zadkiel, ask now, in the name of life, for the privilege and opportunity of removing from the Earth and from every race of people upon her, the incantations, the hexes and the curses which have followed them century after century.

I also ask in the name of life and light, for the opportunity of removing from all tombs (especially in Egypt) those curses which surround those embalmed figures (many of which are still there) and which have discordantly affected the lifestreams of archaeologists and those who have attempted to open those tombs.

I ask for your permission too, to invoke the power of infinite light to dissolve and transmute all curses which have followed crown-jewels and other jewels of great light, which jewels were originally meant to be concentrates of great constructive power.

With all my heart, I ask your permission to remove the curses which have followed families down through the centuries, as well as all the blood-rites which have been performed in Africa and those of the Druids. I ask this in the name and by the power of Light.

I ask your permission to release tonight every lifestream who has gone into this "Bridge Activity," and all who even lightly (jokingly) have spoken words to or about another part of life which did not bless it (and was therefore a curse to it), I ask that such lifestreams be released tonight from the recoil of such mistakes.

I call for permission to dissolve by the power of light all the causes and cores of that which caused groups of individuals to engage collectively in past embodiments in incantations, which destroyed constructive movements, from the very beginning of such activities right down to the present day!"

Beloved Portia replies: "Beloved Zadkiel, as there are many within the "Compound" who through the use of free-will had engaged in these destructive activities, it will be required of you to proceed to the "Compound" and secure the voluntary release from each such one of their desire to continue or repeat such practices. If you can get such a release, we will be able to give you the grant requested."

Beloved Zadkiel speaks: "Beloved Portia and great Karmic Board! At least for these here assembled, if they will consciously offer to "make things right," may I tonight remove the causes and cores of all such unfortunate destructive foci in their four lower bodies?"

Beloved Portia: "It may be done!"

Beloved Zadkiel: (to audience present) "Are you willing to do so?"

Audience responds: "Yes!"

Beloved Zadkiel then says: "I, Zadkiel, Archangel of Invocation, in the name and by the power of life I now release and relieve you from

experiencing the recoil of conscious or unconscious participation in any type of curse, hex, or incantation, which, through fear, has caused mankind so much suffering. This release I am giving today will include all the fear which has been charged into the consciousness of mankind by priests or heads of religions ever since the shadows began their unhappy existence on Earth and in her atmosphere. Consciously accept my gift to you tonight and feel this greater freedom from now on! Thank you so much!"

Editors Note 1): As our gentle reader will see from the above date (Dec. 28, 1954), this activity of beloved Zadkiel took place before the dissolution of the "Compound" and the willing coming forth of those who had been in that unhappy realm for so long. These lifestreams are now studying in temples of light prepared for such activity at inner levels and they are making ready to come back into physical embodiment, this time to "make things right." Since this issue of our "Bridge" is dedicated to beloved Zadkiel and his power of Invocation, we desired to draw his personal radiation into it by giving these few words of his blessed self as he rendered this tremendous purifying service to life here.

2) Will each gentle reader please accept the above gift of freedom from the beloved Zadkiel? He wants you to have it, whoever and wherever you are! Please take just a few moments right here to be very still and, placing your attention upon the Three-fold Flame of life within your own heart, feel your personal connection with beloved Zadkiel through that flame and let him do for you what was done for the audience above referred to. Try it! It will bless you tremendously!

ZADKIEL, ARCHANGEL DEAR

Zadkiel, Archangel dear,
Coming to Earth today-Winging your way to us here,
Bringing us Freedom's Ray, Lift our attention on high,
Make us of your world a part! For your being so selfless,
So willing to help us, O Zadkiel dear! Bless your heart!

Zadkiel, brother of light,
Flood Earth with Violet Fire, Help us to make all things right,
Purify all desire!
Take away pain and distress,
Let all in peace now abide, Let the love of God seal all
In flame that will heal all, And angels stay close by our side.

Zadkiel, Eternal 'Friend'
All through the ages past-Help us all good to defend,
Bringing Earth home at last! We hold you close in our hearts,
Archangels, Archaii too! For your service unending
Our praise is ascending-O Great Central Sun, bless them too!

Melody: "Oh, How I Miss You Tonight" (old song) (Key of G)

THE MASTERS OF WISDOM SPEAK **THE RECREATION OF THE EARTH AS "FREEDOM'S STAR"**

MAHA CHOHAN

The beautiful little planet Earth was designed by the God-parents of our solar system, Helios and Vesta, who are the God and Goddess of our physical Sun. It was created for the express purpose of allowing opportunity to be given to a certain number of lifestreams who voluntarily sought the experience which would be afforded them through physical embodiment here. This planet was beautifully builded through the kind and generous co-operation of the Seven Elohim of Creation who, from time to time, consulted its divine idea and pattern which were held within the bosom of the Silent Watcher of this Earth. Then they molded the planet from pure electronic light substance into the pattern which had been designed by Helios and Vesta themselves.

This electronic light (always instantly obedient to the will of God and the vibratory action of the word "I AM") joyously entered into the plan of creation. The Directors of the Forces of the Elements and their subjects (sylphs, gnomes, undines and salamanders) joined the Great Builders (the Elohim) and a beautiful planet was thus created, shining with concentrated light-essence, held in its orbit by the great guardians of its axis, the Cosmic Beings Magnus and Polaris and adorned with all the beauty of the kingdom of heaven by the beautiful Amaryllis (Goddess of Spring). Then the newly-created Earth was placed before Helios and Vesta for their benediction, blessing and use.

Approximately three and one-half billion "spirit-sparks" created from the hearts of Helios and Vesta were destined to have opportunity for expression on this new and shining planet. These "spirit sparks" who took their first embodiment upon this Earth were called the "Holy Innocents."

EL MORYA

As expressed through the use of the Earth as a schoolroom for the "spirit sparks" whose own individualized I AM Presences chose voluntarily to embody on our Earth's surface, the will of God was, is and always shall be, to allow such lifestreams opportunity for expression on a beautiful planet, where no discord abides! In approximately fourteen thousand years (allowing each such individual opportunity to embody at least once in every two thousand year cycle during which time each of the Seven Rays would express itself in turn), man should have and could have attained full mastery over the physical appearance world, ascending in grace to the Father-Mother God from whence he came. This would allow such a lifestream to live under the direct radiation of each of the Seven Rays at least once as the cosmic wheel turns in its fourteen-thousand year cycle.

As you know, mankind have lived upon the planet Earth far longer than was necessary to his complete illumination and perfecting in the light and thus has delayed not only his own evolution but that of the rest of his fellowmen and has also polluted the beautiful planet provided for his education, experimentation with the Laws of Energy and Vibration and development of experience in being co-creator with his God in sustaining and expanding the beauty of the Earth.

This is not the will of God. The mercy of God is in allowing such men, women and children, as well as all the evolutions in the Earth, on its surface and in its atmosphere, OPPORTUNITY NOW, not only to

complete their individual expressions HERE, but to leave the Earth at least as beautiful as they found it in the beginning. I suggest that it should be left more beautiful than even its original loveliness, because of the patience, kindness, courtesy and hospitality of the planet to these evolutions through the ages. If one uses home, through the courtesy of a friend or loved one, it is not enough to protect and sustain the beauty and comfort afforded such a beneficiary, but it is necessary, yes, essential, (at least for spiritually minded individuals) to add to the beauty of that home as a gracious token of gratitude for its use! So do the Ascended Masters always add to the beauty and perfection of any place by their presence. Shall, then, the mankind of Earth who seek to be like us, do less? I think not!

Then, let us join together, man, imprisoned angels, elementals and all living things, in this glorious process of RE-CREATION of the beauty provided for the Earth and, expanding that beauty, give to the Earth its proper place in the solar system, as a shining, self-luminous planet, "Freedom's Star"! I am ready! Are you?

KUTHUMI

Why has the Earth descended in vibratory action so that it is called by all who know, "The Dark Star"? Why has it been necessary to place a protective band of light around the Earth so that its dissonance cannot pollute the other planets of this system? It is because mankind, of his own free-will, chose to experiment with his creative centers of thought, feeling, spoken word and action to create dissonance, in harmony and shadows which, for the most part, makes him feel a separation (which really does not and could not exist) between him and his own I AM Presence, the Ascended Masters, the angelic host and the elemental kingdom.

Perhaps you know that I am now and for many centuries past, have been very much interested in music. As Pythagoras, I came into a further understanding that each planet of our solar system had a musical tone predominant in its cosmic melody, which tone could be duplicated on the limited scales of the musical instruments of that time. I was appalled to find that, although the theme of every other planet in our system contributed to our Music of the Spheres, the key note of the planet Earth (whose true, tone is F below Middle C) was so much "off-key." This was caused by the radiation from the Earth of the dissonance released from the discordant effluvia of her people.

Therefore the Earth itself was unable to contribute its natural har-

monies to the Music of the Spheres and the cosmic melody of our entire solar system had mercifully obliterated this dissonance so that the cosmic song might not be disrupted by Earth's disharmony. However, the entire cosmic composition was not complete because of the lack of the contribution of the spiritual song from the Earth, originally designed and maintained in such love and beauty.

Thus, through carefully trained chelas, I endeavored to raise the vibratory action of the Earth, allowing these chelas to “step up” their own personal harmony in an endeavor to re-create the cosmic Song of Earth. Unfortunately, my endeavors at that time were not completed by me because of certain base and selfish destructive influences in certain lifestreams who did not know or understand my motive. For a time, these destroyed my endeavors, scattering my pupils and chelas and making it practically impossible for me to continue in this training at that time, which training, if it had been allowed to continue, would have done so much to re-create the music of the earth as she turns on her axis.

Now, again, I am afforded the opportunity to experiment with individuals and collective groups of interested lifestreams in re-creating the cosmic Song of the Earth. Can you not see how very much interested I am in this endeavor? Will you not, please, offer to assist me now and help in this endeavor to return the Earth to its original harmonious estate, allowing the Music of the Spheres (harmony) through you? This will enable me to do my part in establishing “Freedom’s Star.”

Many of you were with me during the experiments above mentioned when I worked at Crotona and many of you have been with me, as conscious chelas, since that time! You have some knowledge, even though it is very deeply imbedded within the folds of your etheric garments (memory world), of the beautiful song which Earth originally sent forth when first she was created by the Father-Mother God. To you I appeal for assistance at this time!

PAUL, THE VENETIAN MASTER

The music to which my illustrious brethren refer is not only that which can be played with perfection and finesse upon the instruments of your present time, but it is also the Music of the Heart. The brothers and sisters of the Third Ray are intent upon developing the natural harmonies of every individual who has used the Earth as a schoolroom at any time. This is done through the cultivation and development of the immortal victorious Three-fold Flame within the hearts of all people,

until the soul-shroud of humanly-created energies is transmuted and the harmony of self-expression (God-expression) creates the feelings of peace and harmony through the individual, the nation, continent and planet to which he belongs, at least for the time being. Like a “chain-reaction,” each such redeemed individual whose aura is a radiating center of love, light, peace and harmony, will contribute to the raising of the vibratory action of all.

True and beautiful music does not stem from the perfection or dexterity in the outward performance of an individual. It comes from the very heart of man. The dissonance that fills the Earth and its atmosphere, likewise stems from the shadowed and discolored auras, the uncontrolled thoughts, feelings, spoken words and actions of Earth's people (as well as from the auras of those lifestreams which came to assist Earth's people). Therefore, when we can find even one individual whose Holy Christ Flame is desirous of re-establishing that harmony, we are grateful indeed. Are you such a one? If so, I am at your service, as are all the Brotherhood of the Chateau de Liberte!

SERAPIS BEY

The planet Earth, like all individuals who have used it as a field of experimentation, has a divine plan. We who work on the Fourth Ray devote ourselves to helping those individuals who desire to know and express their divine plan in the process of personal redemption. However, if the motive of such a one is only personal redemption for the sake of his own freedom from distress and limitation, he will not proceed as quickly as the individual who is desirous of helping to re-create the divine plan for the entire planet.

Holding the immaculate concept for the Earth and its people is one of the services of the Archangel Gabriel. Sustaining the enthusiasm of such people in their endeavors is the service of his divine complement Hope (feminine counterpart of his lifestream). The training of individuals in the control of energy and vibration is the service of the Brotherhood at Luxor. Purification of the very atmosphere of Earth, as well as its inhabitants, is the service of the Elohim of Purity and his beautiful complement, the Mighty Astrea. (The Elohim of Purity and Mighty Astrea, as you know, are two of the Sponsors for the year of 1957.)

All of us are serving toward the stimulation of the desire in the souls of men to re-establish the kingdom of heaven (harmony) on Earth. To do this, man must be very honest with himself. In introspection and retrospection, he can learn much as to his present contribution

to the harmony of the Earth and its inhabitants. When he desires further assistance, we willingly oblige by “forcing to the surface” of his conscious mind, the impurities gathered there through the ages, so that he may view them as impersonally as possible and then, acting upon the directions of his Guru, endeavor to transmute those discordant creations and put his own house (world) in order.

However, many individuals refuse to accept the responsibility for or the accuracy of the externalization of their own auras, preferring (like the ostrich with his head in the sand) to blame persons, places, conditions and things, rather than themselves, for their own as well as world turmoil and chaos. Such a one usually leaves Luxor in a “huff” and is quickly swallowed up in the complacency of the mass mind. The few who are willing to face the “Dweller on the Threshold” (the human creation of the outer self) and use the purifying activities of the Violet Flame (and other activities of the Sacred Fire) to re-create peace and harmony through the energies of their own thought, feeling, spoken word and action, are given every assistance in this task by our Brotherhood.

To them we come, upon invitation and thus, one by one, such individuals ascend out of their distressing creations and leave the music of their own redemption and freedom as their heritage to the race. World conditions, yes even planetary conditions, depend upon the individual's acceptance of his own contribution to the general discord and his willingness to “make things right.” Are there such among you? If so, welcome to Luxor!

HILARION

The law controlling the vibratory action of energy is a SCIENCE, not an ephemeral fantasy! The speed with which energy moves and the quality with which such energy is charged by self-conscious intelligences, is determined by the free-will use of all self-conscious beings. Elemental life (energy) is obedient to the commands (conscious or unconscious) of every intelligence which can think, feel, or use the Word of Creation “I AM.” And God said: “Let there be light (energy) and there was light.” (Genesis 1:3). And “God said: “Let them have dominion over all the Earth and all upon it.” (Genesis 1:26). In the mercy of God, he directed this energy (light, life) to obey the self-conscious intelligences who were his children. Thus has energy (light, life) always been the servant of man, quickly molding itself into the patterns and forms created in the mind, energized by the feelings and expressed in spoken

word and action.

Because of this obedience upon the part of the malleable nature of life, man has created "hell on Earth," as well as in the invisible spheres beyond the veil called "death," often referred to as the psychic or astral plane. It is also within man's compass and ability to raise the vibratory action of primal life to its natural harmony of expression through this very dominion over energy. This raising of the vibratory action of every cell and atom of the Earth and its attendant evolutions through self-control of their creative centers, will result in the redemption of the Earth and the establishment of our august brother Saint Germain's permanent Golden Age upon this planet.

Start where you are! Know that life is absolutely obedient to your thoughts, feelings, spoken words and actions. Give thanks to God who made you and who has sustained you, for this opportunity of being an active part of such redemption of the Earth, so lovingly prepared in the beginning and so beautifully given to the "spirit sparks" who, under the supervision of their Manu, chose to embody upon Earth's surface. Even one harmonious, controlled lifestream can do so much to assist in this redemption. Remember, not will but love will help you to raise the vibrations of your own inner and physical vehicles, as well the worlds of those with whom you are associated. This raising of the vibrations of the "few" will act as the "leaven in the loaf" and, through contagion, enter into the outer consciousness of the many.

Spiritual endeavors are so often relegated to the visionaries and the impractical men of the times. This is wholly wrong! THE PRACTICAL MAN, KNOWING THAT THE REDEMPTION OF THE EARTH WILL BE ACCOMPLISHED BY A SCIENTIFIC WORKING KNOWLEDGE OF THE ACTION AND RE-ACTION OF ENERGY DIRECTED BY SELF-CONSCIOUS INTELLIGENCES, WILL BE THE TRUE REDEEMER OF THE PLANET AND ITS ATTENDANT EVOLUTIONS! The Cosmic Law has issued the fiat "The Earth shall give forth more light." Where shall that light come from? The auras of mankind! Think about it!

JESUS

In the short prayer which has been repeated by my devoted followers through the Ages, I spoke the words: "THY KINGDOM COME! THY WILL BE DONE ON EARTH AS IT IS IN HEAVEN!" This is the divine plan, that the kingdom of God be established again right here on Earth, in the physical appearance world. The "kingdom of heaven which is within you" of which I spoke is the Holy Christ Flame within your

hearts, by which you can, as I did, and as others did before me, help to externalize that kingdom here and now!

It is not sufficient to live a “harmless life,” allowing your planet and its evolutions to suffer discord, limitation, decay and ignominious death. It is essential for you to use your powers while yet in a physical body (as I did), not only to establish the manifest example of the Christ man through yourself, but to help all men to achieve a like accomplishment. I said also: “Hitherto the Father worketh, now the Father and I work.” While there is a soul in bondage, an angel imprisoned, an elemental confined to a distorted form, that work is not completely done.

While the Earth groans as she turns on her bended axis, and cries of misery and pain rise to the Throne of the Eternal for help, that kingdom of heaven is not established on this Earth and my disciples would do well to consider this, rather than desiring only a personal “redemption” which, while commendable and wholly desirable from the personal standpoint, is not the fulfillment of the Father's will for all his creations! A redemption of the Earth, a purification of its atmosphere, a freedom for all the lifestreams belonging to its evolutions is the establishment of the kingdom of heaven on Earth which will not pass away. This can come about only through the co-operation of unascended lifestreams with the Divine Beings who SEE the divine plan for the Earth and who SERVE UNCEASINGLY to re-establish the beauty and perfection for the Earth as well as its present and future inhabitants.

My beloved brothers have explained the many ways you can assist in establishing this kingdom NOW! Grace, humility, selflessness and, most of all, pure divine love, all of these can be cultivated by the people of Earth. These virtues are redemptive in nature. If you are not seemingly in possession of these virtues, I can assure you that the Holy Christ Flame within your heart holds them all, awaiting your invitation to allow them to externalize through you for the benefaction of all life.

I can further assure you that those of us who are in possession of these virtues can and will give you the full gathered momentum of our feelings, until you can develop them yourselves. Whenever you hear or recite “The Lord's Prayer,” remember my statement: “THY KINGDOM COME! THY WILL BE DONE ON EARTH AS IT IS IN HEAVEN!” This is a fiat issued by my humble self centuries ago. Now it is issued by the Cosmic Law to all recalcitrant members of the race who have used the Earth as a “playground,” rather than a “schoolroom,” as the Father intended it to be used.

Oh! Sweet Earth! We who have seen you as you were before the contamination of your substance and atmosphere, have not forgotten you. We have forsworn Nirvana to re-create your perfection in the solar system! To do this, we must have the co-operation of the people presently using your gifts so lavishly and so unconcernedly, accepting your blessings! To this end, we work! Pray God that mankind soon awaken to their own responsibility and work with us! Amen!

SAINT GERMAIN

Making of the planet Earth "Freedom's Star" is the privilege accorded me by Helios and Vesta. Angels, men and elementals shall again walk hand in hand, serving in the redemption of the Earth. To those who are interested in helping me, I Am so very grateful. I have offered the conscious use of the Violet Fire of Mercy and Compassion to such lifestreams, to help them in their voluntary and self-appointed task! I URGE EACH AND EVERY ONE OF THEM TO USE IT! The veil of maya grows thinner by the hour. PERSEVERE for the sake of the Earth itself, for my sake, for the sake of your fellow travelers upon life's path, as well as for the sake of those who are yet to embody and enjoy the fruits of your labors.

You shall not be sorry for the energies thus expended and you shall not say with remorse "it might have been"! You have offered to help me! I have accepted your offer. One day this Earth shall be a shining planet, the "Ring-pass-not" of flame around the Earth which has mercifully confined the dissonance of this planet with certain bounds, shall be no more for it shall not be needed. The Music of the Spheres shall be enriched by the Song of "Freedom's Star." Then the sons and daughters of freedom will enjoy the kingdom of heaven upon this Earth! I decree it!

MONTHLY LETTER TO TRANSMISSION FLAME CLASS

October 20, 1957

Beloved Ones Who Desire To Help Purify The Earth:

I am come to bless you for this desire, to encourage in you the constancy of endeavor required to perform this service, to invite you, personally, to enter into the Temple of Lord Zadkiel in consciousness, and learn how to invoke the Violet Fire into your own Foci of light, to accept the feeling of the efficacy of this Violet Fire to act for you and the evolutions in the Earth, on its surface and in its atmosphere. Thus can you truly serve your Master and my son, the beloved Saint Germain.

Wherever possible, make the invocation (silently or audibly according to discretion and conditions), for the removal of the fear which lies buried deeply within the etheric consciousness of many who, in their souls, do not want purification and redemption.

Together, you and I, as well as the Spiritual Hierarchy, shall honor Lord Zadkiel and his priesthood during this thirty day period. We shall increase the efficacy and power of the Violet Fire of Transmutation and Mercy to act in the emotional, mental, etheric and physical consciousnesses of all the evolutions belonging to Earth. AS UNASCENDED BEINGS, YOU FORM THE "LIFELINE" FROM OUR REALM TO YOURS BY YOUR CONSCIOUS ACCEPTANCE OF OUR REALITY, YOUR ATTENTION UPON US AND CALLS TO US. Over this "lifeline" this knowledge, power and use of the Violet Fire can find anchorage in the outer consciousness of the masses.

I am eternally grateful to you for loving this Violet Fire enough to render this service.

Love and Blessings,
Maha Chohan

Statement For Transmission Flame Class Of Oct. 20

I AM inbreathing/ absorbing/ expanding/ projecting
the Archangel feeling of Violet Fire purity from beloved Zadkiel.

Hierarch: Lord Zadkiel, Archangel of the Violet Fire. Color of Flame: Royal purple. Musical Keynote: "Blue Danube," Strauss.

GROUP INSTRUCTION FOR TRANSMISSION FLAME CLASS

October 20, 1957

Dear Gentle Reader, Seeking God-Freedom:

Right here and now, won't you please stop for just a moment in the midst of this "wild race" of trying to make a living and consciously try to quiet all the energies of your world thought and feelings, as well as spoken word and physical movement, and, even if it is just for one full minute-put your attention upon this pillar of Violet Fire blazing up all-powerfully around you like a draught up a chimney. Hold your attention upon it for one full minute AND LET IT INTO YOUR WORLD to do its perfect work for you. Remember, your attention is the only open door through which it can come into your world! You stand as a monitor at the door of your consciousness and nothing can enter there except that which can first get and then hold your attention. Think this through!

The attention is a beautiful and wonderful servant but a tyrannical master, if left to its own devices. The attention acts as a conduit into our worlds for that upon which we allow it to rest. Therefore, it can bring us the freedom, beauty, supply and happiness from Almighty God "from whom all blessings flow"! ALL MANKIND'S TROUBLES COME FROM LOOKING DOWN! When we allow our attention to become fixed upon discord, either from sympathy or otherwise, they begin to come into our own worlds and we must then deal with that shadowed energy. It is not that we should ever be unsympathetic, far from it!

However, those of us who KNOW the Law of God's goodness and his willingness to give it freely to all who will ask him for it and then abide within the Golden Rule so that his good may flow freely to and from our worlds to bless life, those of us who KNOW this, upon seeing the distressing appearances about us, should take our attention away from them and place it upon the God-self of that individual, calling this blessed Violet Flame into action for them to dissolve the cause and core of the distress and then see the Luminous Presence of beloved Jesus envelop that form or condition and see that perfection take the place of the distress. This is at least a part of the holding of the "immaculate concept" which the beloved Mother Mary has so persistently asked us to do, for ourselves and for each other!

Beloved Jesus said: "If ye know these things, happy are ye if ye do them!"

The beloved Apostle Paul wrote to one of his churches along this line thus: "Whatsoever things are good, whatsoever things are pure,

whatsoever things are lovely, whatsoever things are of GOOD REPORT, THINK ABOUT THESE THINGS AND THE GOD OF PEACE SHALL BE WITH YOU!" If we want the good things of life, if we really want FREEDOM from human limitations and distress, then we must PLACE AND KEEP OUR ATTENTION UPON THAT BLESSED VIOLET FLAME OF FREEDOM'S LOVE as often and as long as possible, every day. Otherwise, we shall have deprived ourselves of its heavenly presence and blessing. It is ready and willing to serve you! Will you use it and accept that which it alone can give you?

Hopefully and gratefully in the light,
Frances K. Ekey

DECLARATION OF FAITH

I believe in the universal I AM Presence which is the source of all life and very essence of divine love, God in action, everywhere present!

I believe in the individualized I AM Presence of God, acting through the Holy Christ Self, focused within every human heart, through which the will of God can manifest in the world of form!

I believe in the immortal Threefold Flame of Life, the perfect balance of love, wisdom and power of the Holy Spirit which is the animating principle of all self-conscious intelligence, and anchored within every human heart!

I believe in the universal fatherhood and motherhood of God, the universal brotherhood of man and in the fellowship and conscious communion with the great host of Ascended Masters who comprise the Great White Brotherhood!

I believe in the eternal forgiveness and forgetfulness, through divine love and mercy of all human transgressions against the Law of Life, the purification of the soul through the conscious use of the Violet Transmuting Flame and all other purifying activities of the Sacred Fire!

I believe in the ascension in the light in full Christ perfection through self-conscious mastery by divine love, of all substance and energy used in thought, feeling, spoken word and deed. This is the fulfillment of the divine plan and reason for my being!

NOVEMBER 1957

TO THE GREAT SPIRIT OF SHAMBALLA, GREETINGS

Born out of the seed-idea received by our gracious regent, Sanat Kumara (in his earnest and selfless desire to help the Earth in her time of greatest darkness), nourished by the love of Sanat Kumara and the selfless renunciation of his divine complement, the Cosmic Being Venus, the Spirit of Shamballa was earth-born in the very presence of Sanat Kumara and his Spiritual Court, being made manifest in this physical appearance world.

THE SPIRIT OF SHAMBALLA THEN BECAME AND REMAINS TODAY A LIVING, PULSATING, VIBRANT AND RADIATING CENTER OF LIVING LIGHT, motivated by divine love, SUSTAINED BY SERVICE, ENERGIZED BY PRACTICAL WORKS on behalf of the redemption of the evolutions using the planet Earth as a schoolroom.

Each being, including the new Lord of the World, Gautama responded to the divine feeling of that ineffable love, entered into the shining presence of Shamballa, received there the impetus to go forth in impersonal service and, after each visit left some of their own essence of Universal Brotherhood to further develop the Spirit of Shamballa. This spirit is a real, living, intelligent Being of Light! It is a source of encouragement to all who seek more light upon their spiritual paths. It is also the impetus to the teachers of the race to go forth and serve the Lord.

As all Divine Beings enter into this Spirit at the beginning of this Holy Season, bringing in the sheaves of their accomplishments of the year, this Spirit glows with added Light. Place your attention upon this Spirit of Shamballa at least once in every twenty-four hour period. Consciously enjoy its blessedness and let it energize in and through you the vital spiritual energies from your Holy Christ Self so that you, too, may engage in the delightful task of "widening the borders of God's kingdom" here on Earth.

Thomas Printz

The Homes and Retreats of The Masters of Wisdom

SHAMBALLA

November 15th through December 14th, 1957

SHAMBALLA! How the heart stirs at the mere mention of that Holy Name! How nostalgic is the remembrance (buried oftentimes beneath the pressures of outer living) of the peace and light of Shamballa, mystic home of the Great White Brotherhood and, while on Earth, the dwelling-place of beloved Sanat Kumara, our “Lord of the World” for so long!

SHAMBALLA! A truly divine focus, faithfully designed and manifested upon the planet Earth by those voluntary lifestreams from Venus who accepted the idea and desire of their Lord to personally come to Earth to free her and her people by the tremendous radiation of the divine light and love which they had become. These volunteers then preceded Sanat Kumara to Earth to prepare a place for him.

Working for hundreds of years, suffering all the fluctuations and resistances of the “Shadow Star,” these lifestreams at last completed the City of White upon the White Island which was then located in the Gobi Sea (later this locality became the now known Gobi Desert), their city shone like a jewel upon the breast of Earth, awaiting the moment of the coming of the Lords of the Flame from Venus.

SHAMBALLA! Its glorious temples duplicating the beauty of the architecture of the planet Venus, its streets wide and landscaped in glorious floral array, its many-colored fountains of pure water rising in loving gratitude toward the Sun, its central temple with a dome of gold, the altars prepared with the fresh flowers gathered from the Earth's sweetest blooms, in silent awareness awaited the first and august descent of Sanat Kumara here!

Upon Venus, at the cosmic moment, when all was finally in readiness, the people gathered together to witness an event which even they did not cognize in its fullness at that time. It was an awe inspiring spectacle indeed-the rising of Sanat Kumara into the atmosphere above the planet Venus, the eloquent farewell between their Lord and his beloved Lady Venus (who had voluntarily agreed to assume the responsibility of guiding and protecting the planet Venus and its evolutions while Sanat Kumara would be gone on his mission of love), the hymn of praise rising from the lips and hearts of the people of Venus at gazing upon the personage of their Solar Lord, then their amazement as he, together with the other Kumaras, disappeared into cosmic space,

leaving a trail of light, like a comet, behind them!

The songs of the cherubim and seraphim, mingling with the cosmic Music of the Spheres enfolded this august company as they passed through interstellar space. On the Earth, the one hundred humble volunteer lifestreams who had come ahead and prepared Shamballa, awaited with bated breath the coming of their Lord, the songs of the birds were stilled for the moment, the seas themselves ceased their restless motion, the nature kingdom was silent for a season, the turbulent, restless and distraught souls of men were stilled for a short time as Sanat Kumara entered into the atmosphere of Earth and began his slow and majestic descent into the temple so reverently and lovingly prepared for him. Then, as his feet touched the Earth, as the radiation of his vibrant presence of divine love emanated through the four planes of Earth wherein the darkness lay heaviest (emotional, mental, etheric and physical) there was the renewal of spiritual life, more light, hope and beauty brought here again.

AS THE IMMORTAL THREE-FOLD FLAME OF ETERNAL TRUTH WAS DRAWN FORTH BY SANAT KUMARA UPON THE ALTAR IN THE TEMPLE AND AS TINY THREADS OF LIGHT FROM THIS THREEFOLD FLAME BEGAN TO FLOW INTO EVERY HEART OF THE TEN BILLION SOULS BELONGING TO EARTH'S EVOLUTIONS (IN AND OUT OF PHYSICAL EMBODIMENT AT THAT TIME), THE CRISIS PASSED, the birds sang again, the souls of men were renewed in courage and strength, the seas again swept in rhythmic tide, the nature kingdom expressed itself in hosannas according to its kind. In the temple at Shamballa, the smiling presence of that glorious Being Sanat Kumara and the other Lords of the Flame from Venus were reflected in the hearts of all who had so faithfully prepared for his coming.

SHAMBALLA! Once an idea, then a manifest and practical focus of light! Within it dwelt the great Sanat Kumara all through the ages, using his tremendous momentum of divine love to draw the souls of men toward him that they might absorb the radiation of his great light and be free! At Shamballa, the souls who thus responded to the tremendous magnetic attraction of his love were given new impetus to their desire to further assist in the redemption of the Earth.

Here at Shamballa these souls were trained in the ways of divine love and went forth as conscious messengers of that love, carrying the light of their King to all the world. Finally, when enough of these souls had absorbed into their consciousness the reason for the coming of Sanat Kumara and had proven through the efficacy of their

messengership practical works to mankind in his name, the Great White Brotherhood was formed.

The word “white” does not refer to the color of the physical skin of the individual but to the aura of light which emanates from the physical form of those so developed in spiritual understanding.

THIS BROTHERHOOD HAS BUT ONE PURPOSE IN BEING, TO REACH THE CONSCIOUSNESS OF ALL THE PEOPLE OF EARTH AND RAISE THEM, INDIVIDUALLY AND COLLECTIVELY, TO A SPIRITUAL AWARENESS OF THE IMMORTAL THREE-FOLD FLAME WITHIN THEIR PHYSICAL HEARTS, SO THAT, BY SUFFICIENT EXPANSION OF THAT FLAME, THEY MIGHT ALSO BECOME, INDIVIDUALLY, A LORD OF THE FLAME.

Many are the descriptions of glorious Shamballa, given in previous issues of “The Bridge,” to which our gentle readers are here and now referred. In this issue, we desire to emphasize the SPIRIT of Shamballa which like the Spirit of the Great White Brotherhood is to joyously serve imprisoned life to set it eternally free!

Every messenger trained by Sanat Kumara returned rhythmically, once each year, to this celestial focus and the ever-expanding perfection of their consciousness each year became their gift of love to this spirit so that it has expanded rhythmically in grace, beauty, wisdom and love. Nothing in the divine world is ever static, all is ever-expanding beauty and grace. Thus the divine essence of Shamballa which was its endowment from the first by Sanat Kumara's love, has been greatly increased all through the ages. The beautiful Spirit of Shamballa ensouls this divine essence and guards it, directing it forth to and through all who enter Shamballa, giving them new spiritual life and vitality for further service.

Recently, our beloved Sanat Kumara was freed from his voluntary exile here and he returned to his planet, his divine complement and his people. Into Shamballa came Lord Gautama to take up the activities of Sanat Kumara as the New Lord of the World. However, very frequently does this great Lord of Love and Light, Sanat Kumara, return to Shamballa for service to the Earth for love's sweet sake.

Today, the beautiful Shamballa exists only in the etheric realm above the atmosphere of Earth and at this Holy Season when cosmic messengers, Ascended Masters, seraphim, cherubim and earnest chelas, too, (the chelas in their finer bodies while their physical bodies sleep) walk over the marble bridge on to the White Island where

abides the lovely temple of light for the period of reunion with one another. Sanat Kumara and his Lady Venus will be waiting there, smiling their greetings to the visiting children of love.

The Spirit of Shamballa opens its arms to all and awaits the coming of those who love life enough to desire to help to set the Earth and its people free. What brings you to Shamballa this Holy Season? Your hopes, of a certainty; your prayers, your harvest of the year. Will you enrich this spirit by your presence? Think about it!

Anticipating our mutual happiness within the Spirit of Shamballa in the presence of Sanat Kumara and his beloved Venus, I am always so sincerely, your fellow-worker in the cause of freedom!

Thomas Printz, Editor

BEAUTY, GOD'S GIFT TO ALL

By the Beloved Lady Master Venus

(Goddess of Beauty and divine complement of Sanat Kumara)

January, 1947

ALL SO-CALLED "MATTER" IN THE PHYSICAL APPEARANCE WORLD IS SIMPLY ENERGY AND HAS INTELLIGENCE WITHIN IT! THE SUBSTANCE WHICH COMPOSES THE ACTUAL PHYSICAL CHAIRS, TABLES, ETC. WHICH YOU USE HAS INTELLIGENT LIFE (LIGHT) WITHIN IT. THE "ELECTRON" IN EVERY ATOM OF THIS INTELLIGENT LIGHT WITHIN WILL RESPOND TO THE DIRECTION GIVEN IT BY THE CONSCIOUSNESS OF THE LIFESTREAM WHICH HAS WITHIN ITS BEATING HEART A FOCUS OF THE CREATIVE THREE-FOLD FLAME. Therefore, to draw about you greater beauty and perfection which you desire and which is not now manifest, is simply a matter of your speaking directly to the "light center" in every cell and atom of the substance around you, always, however, speaking in the name and authority of the Creative Lord "I AM." Before so doing, however, still the outer self for just a moment or two and, realizing your ONENESS with that Creative word and power of manifestation, "I AM" [which is God's own name (Exodus 3:14) and your own life!] command the substance of this physical world to yield to you the beauty which expresses the divine plan. The desire for beauty is really innate within ALL life, for it is one of the greatest

qualities of the Godhead and therefore it is man's natural estate, since all life is one, no matter where or how it is expressing.

So, when there is a craving within you to draw forth more beauty into this physical appearance world, just realize that this is really in accord with your divine plan of life (your reason for being) and you are, RIGHT THEN, “in tune with the Infinite.” You see, your very desire for beauty is a propelling power which moves you forward to victorious and NATURAL accomplishment, not one which is in opposition to God's will for all. In other words, you are “swimming” with the tide, taking advantage of Life's natural forward moving current, not, in your frail bark (outer limited consciousness), getting into currents of energy which are not in accord with the divine plan and so attempt to hold back the glories of the Golden Age which has now dawned. The ray of beauty is the Crystal Ray, the highest rate of vibratory action expressed in each of the Seven Rays. It is the centralized core of each ray, the color of that ray enfolding the Crystal Ray which is its heart center.

Beauty and love are the very essence of divine perfection and the more beauty which is expressed by one (in person and surroundings), the higher the vibratory action of his world.

The mental and feelings worlds of an individual are creative centers and are constantly receiving a flow of life (energy-light substance) from that lifestream's God-self, the I AM Presence. When this stream of life is allowed to flow into and out through the four lower bodies, not interfered with by human discordant thoughts, feelings, spoken words and deeds, the rate of vibration expressed by that lifestream will manifest only perfection in, through and around that person. Then that which is drawn about the individual would produce God-beauty because it would correspond in substance to that perfect vibration of the I AM Presence and the musical “keynote” which also naturally belongs to every lifestream. The presence of any Perfected Being always brings an exquisite fragrance, color and musical tone.

However, through the destructive use of their own gift of free-will and having forgotten their divine Source, mankind have used their creative centers of thought, feeling, spoken word and action in such a manner as to create shadows, rather than expanding light. In this way they have lowered their natural vibrations to a point where sustained harmony in the feelings is not held and those vibrations are then slowed down to the place where disease and other distressing limitations manifest. Life is perpetual motion and if one will not allow the God-self to manifest its plan of perfection, then the outer self is likely

to manifest that which is just opposite to that plan.

Therefore, to have more beauty expressing in, through and about one, the lifestream so desirous of that quality must quicken the rate of vibratory action of his four lower bodies (physical, etheric, mental and emotional). This is done by the daily, rhythmic use of the Violet Transmuting Flame which purifies the substance that has been qualified with discord and raises its vibrations into light, the natural rate of his own keynote. Thus the consistent use of the Violet Fire removes the causes and cores of human distresses and the distressing effects simply disappear since their source is gone. Then, as light takes the place of the shadows, the rate of vibratory action is raised and, as this continues to increase, the exquisite beauty of the higher vibrations will be drawn about the individual, since "like attracts like," both above and below!

The Law of Magnetic Attraction is little understood by the students. Those who desire to bring forth beautiful temples to the Sacred Fire and the exquisite decorations and furnishings which will adorn them, those individuals who desire to make themselves a focus of the bringing forth of such physical beauty in this physical appearance world must remember that, unless the vibratory action of their own lifestreams (the high vibrations of their own natural "keynote" of perfection) is the drawing and sustaining power of their creations, the beauty they draw, even though it may appear by sheer effort of will, cannot and will not be sustained.

Thus there must be a constant vigilance on the part of those who desire to attend the flames in the temples, to keep their worlds in such a high state of consciousness constantly that they will vibrate at a rapid enough rate to sustain the gifts which the Gods will give into their keeping at their call. In other words, the living, breathing lifestreams of those who so wish to dedicate themselves will be the living divine magnet to draw and hold the glories of perfection here on Earth which will compel mankind at large to stand and gaze in wonder and in admiration. Then, through the natural craving in their hearts for beauty, this perfection will impel mankind to seek the instruction and understanding of the divine Law by which they, too, may be able to surround themselves and their loved ones with the choice gifts which it is the divine will of the Father for them to have and which his messengers (among whom are the Ascended Masters and angelic host), can and do bestow upon those who qualify as guardians of such gifts.

(Note: Perhaps some gentle reader may think it strange that we should have instruction given us by the Glorious Being Venus, from her

planet which is in the system above the Earth. Not so! Our gentle reader is urged to remember that there is no barrier to divine love anywhere in the universe. One may call in sincere and grateful love to any Ascended or Cosmic Being anywhere in Infinity and that one will answer as surely as the Sun is in the heavens. IT IS THE LAW THAT THE GREATER CONSCIOUSNESS MUST ALWAYS ANSWER THE CALL OF THE LESSER. However, it is always the greatest joy, such joy as is quite unimaginable to unascended lifestreams, for these Great Beings who have become the FULLNESS of God's love to answer such calls! This freedom to thus call and be answered by those who love to assist all life presents limitless possibilities of greater accomplishments to those who will avail themselves thereof.)

RE-CONSECRATE YOURSELF DAILY

By The Beloved Archangel Raphael

Sept. 26, 1957

Dearly beloved and blessed ones who are consecrated in heart, mind, soul, spirit and body to the redemption of our Earth, I greet you today on behalf of the kingdom of the Archangels which represent the pressure of the buoyancy of feeling of joy in service to God and to imprisoned life everywhere!

In order to tie into the Ray of Consecration and pour its blessing and benediction to the evolutions of the Earth while we are here with you today, I would like to bring out an important point of instruction on the Law of Consecration.

What is the very first thing that your own individualized I AM Presence did when it first felt and cognized itself as "I AM"? Have you thought on this? Before any other activity took place, your individualized I AM Presence knelt before its God-parents in gratitude for life and self-conscious intelligence and asked for a consecration of that life, wheresoever it might choose to serve, through the use of its God-given free-will.

Thus your God-parents, in response to your free-will request, did so consecrate all the life you might ever use through all the ages of time to the fulfilling of God's plan in any sphere, realm or planet into which your enthusiastic search might take you.

Now the Holy Christ Self, being a part of your individualized I AM Presence, is also a being who, of its own freewill, has asked for and

received the God-consecration of its life. Of course, it has no desire to use its own free-will destructively, releases to and through you the life which animates your outer personality and soul, constantly and silently awaiting your request for its assistance and to be allowed to radiate through you.

However, the personality, the soul and the four lower vehicles need RE-CONSECRATION, because, although in the beginning they were part of the plan of Divinity, they descended in vibration below the rate of the natural harmony of the kingdom of heaven and its right use of life, misusing the pure energies of God. Thus they became a part of the human creation in Earth's atmosphere, being a part of the creation of the personal karma which certain lifestreams have to handle and, one day, transmute. So, the four lower bodies must be RE-CONSECrated to serving God. When such consecration is made, it follows a distinct pattern. Such pattern begins to manifest when the outer consciousness (personality) decides firmly within itself that it will serve God according to its best capacities. Then it is illumined as to how to use its talents, virtues and assets at hand to fulfill that plan (again according to its best capacities). Following that, there begins to stir within it a great love for God, for man and for all living things.

Next, the consciousness experiences the feeling of selflessness and that great desire to surrender completely to God. This is the most difficult of all the initiations and it takes place in the Fourth realm where self (the full accumulation of all the energy used by the four lower bodies-for the Holy Christ Self, Causal Body and I AM Presence have always been consecrated only to perfection!) is completely, willingly and lovingly surrendered to the God-Presence, "I AM." At such time the outer self is ready for consecration and it is my great opportunity then to come with my angels for the purpose of re-consecrating the life energy as it flows into the flame within the heart, re-consecrating the feelings and the mind, the etheric body and the various avenues in the flesh form through which the life flows into the senses.

PLEASE DO NOT BE DISTURBED IF THIS ACTIVITY OF CONSECRATION HAS TO BE REPEATED OVER AND OVER AGAIN! Beloved ones forgive me if I remind you that you have consecrated your life again and again all through the centuries to just what you thought was having a happy time. You see, you cannot consecrate your mind, heart, soul and the members of your physical vehicle (eyes, ears, lips, hands, feet, etc.) just once, for you have not yet the momentum builded to allow you so to do! Even though I were to come often and pour that green

essence of God-consecration into, through and around you as a blessing, remember that HABIT IS ENERGY USED OVER AND OVER AGAIN until it is a momentum more powerful than you have any idea. Now, those habits of the ages which have been developed by the personality are not going to let go of you and your energies just because you place your hand upon the altar, nor because you have placed your heart in my keeping.

THEREFORE, RE-CONSECRATE YOURSELVES DAILY! If your eyes behold iniquity, YOU KNOW WHERE I AM! Just say silently, "Father, forgive me for the transgression of your Law of love. BELOVED RAPHAEL, RE-CONSECRATE MY EYES TO SEE ONLY PERFECTION."

If you listen to gossip or discord, letting it record in your feelings to make them "boil," just stop for a moment! WITHOUT ANY SENSE OF SELF-CONDEMNATION (you know, you have been doing these discordant things for hundreds of thousands of years!) say: "Father, forgive me for the misuse of your great sense of hearing. Beloved Raphael, re-consecrate my ears so that I may hear only the Music of the Spheres, the divine voice of my Presence, the Ascended Masters and the sounds of harmony!"

If your hands are impatient and in gesture you release anger, which is a red flash in the atmosphere about you, (and only God's blessing and the protective radiation of some Ascended Master has kept those hands from doing worse than gesturing impatiently!) all right! Hold your hands at rest for a moment and say silently: "Father forgive me for the motive which animated that impatient gesture, for any harm I have done to life thereby, any feelings I have hurt. Transmute the cause, effect, record and memory of that form as it left my hand and consecrate my hands only to bless."

If your lips and your tongue (that unruly member), continue to use sharp words, even though you have consecrated yourself to expanding only God's love and comfort to life, self-condemnation, regretfulness and all manner of depression is not the remedy here! Thank God you still have a tongue for-do you know that there were ages in the past when the priests and priestesses of the Temple of the White Order were forced to remove their own tongue, if they issued a single negative word! Now, in your case, that is not required. Just look at the mercy of life, you still have your tongue after you have flashed forth your impatient remarks many, many times. So, if this has happened again, just say: "Father, forgive me for saying that unkind, impatient or thoughtless thing. Thank you for the gift of your voice and your life and

re-consecrate the power center of my throat, my vocal cords and my tongue, to carry only the messages of harmony.”

What if you have to repeat this? Paderewski did not become a master musician in one day! None of the unascended chelas becomes perfect in just one hour, but it is the keeping at it that counts!

Now, it is the same thing with the feet and any of the organs of the body. If there has been error, of course it is not permanent. The God of Mercy who created and has sustained you all through the ages, has provided a way and means by which you can wipe out that error and replace it with that which will help you fulfill your divine plan. The only lifestreams which are really in danger are those who do not wish to pick themselves up, dust off their knees and try again. WE ARE ALWAYS AVAILABLE TO YOU AT YOUR CALL! WE ARE ALWAYS WILLING TO HELP! You have learned a good deal now about our specific services and I shall be glad to re-consecrate any member of your vehicles twenty or more times an hour if you will ask me so to do! I do not mind, you know, IT IS MY REASON FOR BEING! That is why I am in the universe and am one of those who is assisting in the freeing of Earth's evolution at this time.

Now, this is a great fallacy in the outer world. Many feel that the consecration of baptism and christening is the salvation of the soul throughout the entire life. None of these activities of the Sacred Fire, beloved ones, can be done JUST ONCE, unless it would be done by a Being wholly without karma like the beloved Jesus was in his final embodiment here, or like Gautama.

Now, self-consecration is head and shoulders above the consecration of life by another. For instance, you render a great service when you call for the consecration of the lifestreams which are about to embody. You also render a great service when you consecrate (with or without request) children who have just been born. However, when the soul-self of the outer consciousness asks for consecration of its own free-will, and desires willingly to co-operate with that consecration, then you have spiritual partnership between our realm and yours which cannot be destroyed.

You see, an activity of the orthodox religions which is not too well understood is the baptism and christening of an infant, before that lifestream has come to a point of self-conscious intelligence where it can make its own decision. (You see, that lifestream has free-will with which not even God himself will interfere, for only by the use of that

free will can that lifestream fulfill its own reason for being).

In the average case, an individual is baptized as an infant (or christened or consecrated) in the faith of its parents and, of course, that is a blessing because wherever such a baptism or christening is given, we give as much as the Holy Christ Self of all concerned will allow. But, in the New Era and the New Day, every lifestream which wants to be consecrated to God and baptized in the name of the Holy Spirit, will ask for that activity of its own free-will without coercion, whether he is ninety or whether he is nine! When that request comes forth from the chelas, I shall stand there, wherever the request is made and give that CONSCIOUS CONSECRATION AND BAPTISM WHICH HAS NOT YET COME FORTH IN THE NEW ENDEAVOR BECAUSE NO ONE THOUGHT ABOUT IT ENOUGH TO ASK FOR IT! (I am really transgressing on the Law here by putting this into your minds, for you should use your own initiative to ask for it!)

I now enfold you in the most powerful radiation of Mother Mary's and my love, thanking you for having been pliable enough to assist us thus far.

THE MASTERS OF WISDOM SPEAK
THE SPIRIT OF UNITY OF THE GREAT WHITE BROTHERHOOD

MAHA CHOCHAN

The Great White Brotherhood has a spirit, even as Shamballa! This spirit was born when Sanat Kumara first conceived the idea of helping the Earth and its attendant evolutions toward redemption.

As Sanat Kumara is a Great Being of Solar light, the spirit born from his heart was naturally conceived, nourished and externalized in PERFECTION. The Spirit of the Great White Brotherhood lived in Shamballa, nourished by Sanat Kumara and his helpers, until it grew strong, radiant and magnetic in the atmosphere of Earth.

When the first individual (Lord Gautama) responded to the magnetic pull of the Spirit of the Great White Brotherhood, that spirit was happy indeed! It welcomed Lord Gautama and, shortly thereafter, Lord Maitreya, into Shamballa and into the presence of the shining Lord of the World. Every time these two pioneers returned to Shamballa to learn more of the Law of Love, they left something of themselves to the Spirit of the Great White Brotherhood and thus it grew in grace by

each such visitation!

AS THE LONG AGES ROLLED BY, MANY OTHERS RESPONDED TO THE SPIRIT OF THE GREAT WHITE BROTHERHOOD AND, WHEN THEY WENT FORTH ON MISSIONS THEY ALWAYS BROUGHT BACK THE HARVEST OF THEIR SERVICE TO THE SPIRIT OF THE GREAT WHITE BROTHERHOOD, ADDING TO THE ENTHUSIASM, JOY, ILLUMINATION AND CONSTANCY OF THAT PULSATING SPIRIT. THUS AGE AFTER AGE THIS SPIRIT HAS BECOME A MORE AND MORE POTENT POWER IN THE AFFAIRS OF MANKIND, through the ministrations of those who love and serve that spirit along the seven constructive lines of endeavor which it is my privilege to guide, guard and protect.

Accept the Spirit of the Great White Brotherhood (the fully gathered conscious momentum of all the Illuminati who have blessed this Earth) and allow that spirit, through YOU, to stimulate the manifestation of your part in God's divine plan.

AS NOTHING OF LASTING BENEFIT TO LIFE IS ACCOMPLISHED WITHOUT UNITY OF PURPOSE, DESIGN AND ENTHUSIASM, I thank God for The Spirit of the Great White Brotherhood. I, too, responded to the call of love and entered Shamballa, became imbued with the love of Sanat Kumara and filled my cup (consciousness) from the Spirit of the Great White Brotherhood. Thus I have been sustained through ages in a seemingly endless task, the redemption of destructively qualified energies through LOVE!

None of us has ever brought to the Spirit of the Great White Brotherhood anything of an imperfect nature. All of us have given to this spirit our ALL, without reservation for love's sweet sake! Thus, we (having complied with the Law by not attempting to despoil the beauty of the Spirit of the Great White Brotherhood) have received from that spirit all the impetus we have required from time to time as the need arose for greater assistance than our personal momentums could give. The wonderful selflessness of this spirit is truly beautiful. It gives ALL to anyone whose motive is pure and unselfish and it asks nothing in return but greater opportunity to express for the benefaction of the entire evolutionary scheme. Would that man could find such UNITY in himself, his family, racial, national and planetary life!

KUTHUMI

THE SPIRIT OF THE GREAT WHITE BROTHERHOOD IS LIKE THE SUN IN ITS IMPERSONAL OUTPOURING OF BLESSING. YET IT IS AN INTELLIGENCE THAT CAN AND DOES RESPOND TO THE CALL OF ANY INDIVIDUAL DESIRING TO SERVE THE EARTH'S EVOLUTIONS AT THIS TIME. It is particularly important for individuals seeking to sustain constructive activities in these seemingly chaotic times, to learn to know this spirit and to call upon it for help. Light is always triumphant over darkness but, as unascended helpers of God serve mostly in the astral realm, they require more than ordinary assistance to sustain their faith, constancy, love and patience in such service.

Here, it is suggested that you become acquainted with the actual PRESENCE of the Spirit of the Great White Brotherhood, who is like a Silent Watcher over all those desiring to maintain a constructive balance for man, elemental, four-footed creature and every living thing. You will notice in your group activities and in your personal applications, that there will be LESS STRAIN AND EFFORT AND MORE BUOYANCY AND ENTHUSIASM IF YOU CONSCIOUSLY INVITE THE SPIRIT OF THE GREAT WHITE BROTHERHOOD INTO YOUR MIDST! TRY!

PAUL, THE VENETIAN MASTER

One of the greatest joys in serving the Spirit of the Great White Brotherhood is the absolute selflessness expressed by every Divine Being to serve a particular cause that requires immediate attention. Solar Lords, Cosmic Beings, Archangels, Archaii, cherubim and seraphim, as well as the Ascended Host, have such diversity of interest and momentum of service.

Yet, the very instant the Spirit of the Great White Brotherhood signifies there is a requirement to be filled, ALL WITHOUT EXCEPTION OFFER THEIR GIFTS, TALENTS, POWERS AND VIRTUES TO FULFILL THE REQUIREMENT OF THE HOUR. There is no discourtesy of "changing" the design, no infringement of personal opinions, but the refreshing UNITY to ACCOMPLISH "ALL FOR GOD!" That is, naturally, the particular service of the Third Ray and we do invoke that Spirit of the Great White Brotherhood NOW into all constructive activities until it enters into the conscious minds of men and women everywhere and self is put aside in the name of God to set this dear Earth free!

SERAPIS BEY

Every intelligence which has offered to assist the Earth is connected to the Spirit of the Great White Brotherhood by a line of energy from this Spirit's heart. Along this line of energy the Spirit of the Great White Brotherhood pours whatever the particular intelligence requires to assist it in constructive endeavor.

Conservation of energy and reverence for life are so great in the realms of perfection, that NO ONE would even think of using this energy except to fulfill the divine plan. In the case of well-meaning unascended beings, however, unfortunately that is not always true. Thus there is provided a "shut off valve" so that if the chela were to be inharmonious, he is temporarily disconnected from this Spirit of the Great White Brotherhood and no tinge of impurity can ever enter into its great presence. When the chela becomes harmonious again, this "value" is opened and the life force of the Brotherhood flows freely to bless the earnest one seeking to do God's will.

Even little undines, who have accepted Neptune's offer to make up the waters of the Earth, come under this rule. While they faithfully perform their services in the rising and falling of the tides, they too have a tiny "life line" from the Spirit of the Great White Brotherhood that flows into their little hearts. When they become discordant and floods and tidal waves ensue, the "shut off valve" disconnects them from the PEACEFUL PRESENCE OF THIS SPIRIT. This is true of the gnomes of the Earth, the sylphs of the air, and the salamanders of the fire element as well. Knowing this, the conscious chela can call in emergencies dealing with disturbances of nature, for special dispensations to allow the free-will of the forces of nature to be set aside so that the PEACEFUL PRESENCE OF THE SPIRIT OF THE GREAT WHITE BROTHERHOOD may hold the balance so needed in these times.

It is also a great mercy to make this call for your fellow workers when, due to certain pressures upon them, they have "shut-off" their inflow of vitality from the Brotherhood. It is then, more than ever, necessary that they have the sustaining power of that Spirit. It also tends to create a greater TOLERANCE in the chela's feeling world for, rather than condemnation, he is invoking restoration of another's peace! TRY!

HILARION

The Spirit of the Great White Brotherhood is such a marvelous scientific example of the dual power of centripetal and centrifugal force.

WHEN REQUIRED, ALL THE POWER OF THIS SPIRIT CAN BE DIRECTED ON AN INSTANT TO ANY POINT IN THE ATMOSPHERE OF EARTH TO HELP RENDER SERVICE. When the requirement is fulfilled, the power is drawn back into the heart of this spirit where it builds to fulfill future demands. ALTHOUGH IT IS USED HOURLY, IT NEVER LOSES IN POTENCY AND POWER BUT RATHER GAINS IN STRENGTH THROUGH SUCH IMPERSONAL USE. You might say this spirit is like a "Trustee" or "Guardian" of tremendous powers which, at its discretion, it directs into the world of an intelligence endeavoring to promote peace on Earth and good will toward men. This spirit, being an Intelligent Being, sees and knows the motive of every individual and acts, according to the sincerity of such motive, to help such a one in a good cause.

Let us take a cosmic example. When Lord Maitreya (now the New Buddha) signified to the Great White Brotherhood that the cosmic time had come for the birth and mission of Jesus Christ, the Spirit of the Great White Brotherhood gathered into itself ALL BEINGS (Divine and human) who could help Jesus in the fulfilling of this mission. This spirit endowed them with added strength, grace, constancy and enthusiasm and when, in the course of human events, the pageant of Jesus ministry was finally thrown upon the screen of life, this spirit not only sustained Jesus, Joseph and Holy Mary, but also the lesser developed but earnest disciples throughout the course of their lives.

Let us take a human example. When an individual desires to benefit the human race, without personal motives of any kind, the same spirit pours more and more of its love and light to such a one helping him, in the face of the greatest odds, to complete his service (invention, humanitarian benefit, or whatever it may be).

Thus any individual who is serving on this Earth to expand the Light of the World is literally sustained by the Spirit of the Great White Brotherhood which spirit lets such a one finish his course honorably and give to the race the fruits of his labors. Without such invisible but potent aid, no unascended being could or would be able to so do. Therefore, bless the Spirit of the Great White Brotherhood wherever you see some good man or woman performing work in God's Holy Name, for that individual is literally and practically sustained in those works by this spirit and its generous sustenance!

JESUS

We have been asked, this Holy Season, to speak about the mighty Spirit of the Great White Brotherhood. I, myself, and those close to me, most certainly benefited by the protection and blessing of this spirit which gave so lavishly of itself in helping us to fulfill our mission.

Remember, beloved ones, THIS SPIRIT RECEIVES ALL THE FULL, ACCUMULATED GOOD THAT ANY ONE, HUMAN OR DIVINE, ACCOMPLISHES IN THIS WORLD OF FORM into itself. Thus each year, it grows in grace and beauty and power. This is only just. As cosmic "Trustee" for the investment of more than ordinary spiritual energies through any lifestream, that lifestream's momentum of good is automatically the property, one might say, of this spirit. For instance, in my case, innumerable angels and Divine Beings were sent by this spirit to guard, protect, warn and sustain us through the long and trying experiences of my final Earth life. At the request of this spirit, they gave a tremendous amount of their own life, to the cosmic cause (establishment of the Christian Dispensation).

Thus, the fruits of that dispensation belonged to and were freely given into the keeping of that spirit, not only during my Earth life, but even up to the present day. So, anyone with a pure, selfless motive may invoke all the full gathered cosmic momentum of the Christian Dispensation to flow to, through and around them or others whom they see are doing the work of the Christ in the world of form (or in the inner levels of consciousness where souls, not wholly free, are still working out untransmuted human karma). Anyone may, in like manner, invoke the full-gathered cosmic momentum of Lord Gautama's service to, through and around sincere unascended lifestreams who are continuing in his name to spread the doctrine of the Middle Way.

It is only in the human octave that personality seeks to hold onto the power, the glory and the benefits of works well done. THE TRUE "DEVOTEE" OF THE GREAT WHITE BROTHERHOOD DOES THE WORKS IN THE FATHER'S NAME AND GIVES ALL CREDIT, AS WELL AS ALL FRUITS OF THE HARVEST, BACK UNTO THE SPIRIT OF THE GREAT WHITE BROTHERHOOD SO THAT IT CAN BE UTILIZED AGAIN AND AGAIN TO HELP OTHERS SEEKING TO DO THE SAME TYPE OF WORK IN A LATER DAY. The Spirit of the Great White Brotherhood is the Cosmic Trustee, appointed by God himself, to hold the fruits of works well done (and the feelings of accomplishment generated in doing these works) in the atmosphere of Earth so that all who desire to hasten the freedom of Earth's evolutions may have easy access to these powers and graces.

Personally, I do bless this spirit for its sustaining power in Gethsemane's Garden and on Golgotha's Hill. I am rejoiced that this spirit has sustained the harvest of our endeavors and I am always delighted when anyone chooses to partake of our humble gift to the Earth which the Spirit of the Great White Brotherhood, upon request, makes available to any sincere and unselfish lifestream! Invoke this Shining Presence into your services and feel the power of its Presence acting through you! I know whereof I speak!

SAINT GERMAIN

The Spirit of the Great White Brotherhood has many messengers in the divine realm, for every Perfected Being is only too willing to respond to this spirit and serve on any level of consciousness where there is a need for more light. The angelic host are particularly messengers of this spirit and that is why, in this New Era, it is part of the duty of the Seventh Ray to bring a closer understanding to the outer minds of mankind as to the nature of the angels, their reality and their desire to serve the Earth and her evolutions.

As Chohan of the Seventh Ray, I am engaged in helping to bring this understanding to people who can and will accept the assistance of the angels. The co-operation of the angelic host with enlightened human beings is part of the New Era which it is my joy to bring to Freedom's Star. You may well ask what sustained the Holy Innocents and people of light before the coming of the "laggards" and the creation of maya which caused Sanat Kumara to come to Earth and to create the Spirit of the Great White Brotherhood. I will tell you. It was the Spirit of the Cosmic I AM Presence whose vibratory action was and is so high that the present consciousness of even the most spiritually developed people on Earth today could not reach it!

It was to "step down" this Cosmic I AM Presence to a vibratory action that could be assimilated by the sluggish souls of men that Sanat Kumara created the Spirit of the Great White Brotherhood (a child, you might say, of the Cosmic I AM Presence). In the same mercy, the physical Sun "steps down" the vibratory action of the Great Central Sun and your own Individualized I AM Presence "steps down" the vibratory action of itself into the Holy Christ Self. This does not mean that any of the processes of slowing down the vibratory action of God allows imperfection to register! It is only perfection, moving more slowly for the benefit of those consciousnesses that cannot reach the subtle vibratory action of the cosmos. All acts according to Law, even as your great

electrical currents are consciously magnetized and “stepped down” in frequency so that they may be used to illumine your homes and temples.

The speed of vibration of any God gift is always determined by the receptivity of those who can be benefited by it. The frequency of this vibration is always under the control of divine intelligence and never impinged upon by impurity. Only in the human octave does the frequency of vibration become tinged with impurity because it is not under the conscious control of the individual directing the frequency of the manifestation. You can have a very slow, but perfect, frequency, when the intelligence directing the electrons to move at a certain rate of speed, consciously directs them so to do for an impersonal and God directed reason. Thus, when we manifest through our radiation and our instructions, we consciously lower the frequency of the vibratory action of our instruction and radiation to a point where the brain consciousness can receive it.

However, we are masters of that energy and its movement. As mankind's outer consciousness is quickened, the speed of that consciousness (the etheric, mental and emotional worlds) will, of course, be accelerated and we will not have to use so much vital energy to perform this “stepping down” of the graces which we desire to give. Thus to “quicken” the receiving stations (outer consciousnesses of the people) will mean a tremendous conservation of our energies, as well as the energies of The Spirit of the Great White Brotherhood as a whole. When Earth has become Freedom's Star, this spirit will remain as the Silent Watcher of the Earth! Hasten that day!

LETTER TO TRANSMISSION FLAME CLASS

Nov. 16,

1957

Beloved Children Of God, Seeking The Comfort Which Comes With Unifying Your Consciousness With Your I AM Presence:

I call to the Universal I AM Presence and your own individualized I AM Presence, particularly during this season at Shamballa, to open your feeling world to the SPIRIT OF ONENESS which is the activity of the Great White Brotherhood. Thus you can and will begin to enjoy that comforting feeling of ONENESS in impersonal service to the evolutions in the Earth, on the Earth and in its atmosphere.

As you enter into Shamballa and its actual spirit enfolds you, as you witness the happiness of all Ascended Beings who do serve so impersonally and happily, I decree that your own feeling worlds absorb this radiation of UNITY and that you bring it back with you into your own outer consciousness and into the group activities where you have offered to serve.

SHAMBALLA! All year long we await the joyous re-union among God's angels, Masters and chelas! The opportunity awaits us all of relaxing in the presence of the great Sanat Kumara and Lord Gautama and of filling our "cups" with the essence of their enthusiasm and willingness to be constant in service to God and man!

I shall meet you, beloved ones, at Shamballa and we shall share our experiences, joining together in even closer communion by reason of such counsels.

"I AM," lovingly and gratefully,
Maha Chohan

Statement for Transmission Flame Class of November 16:

I AM inbreathing/ absorbing/ expanding/ projecting the masterful feeling of the Middle Way from belov'd Gautama

Hierarch of Shamballa: Lord Gautama. Location: Etheric realm over the Gobi Desert. Color of Flame: Pink, gold and blue. Musical keynote: "Song of India." (Note: This keynote has been changed because of the recent change in Hierarchs.)

LOVE IS PERFECT BALANCE

It is the divine edict that all men shall become Masters of love in its true sense! There is no lifestream in all the great universe of God who is not in some manner a dispenser of the divine love element. Love is the dual force of expansion and contraction, cohesion and radiation. It is a centripetal and centrifugal force. The lifestream must be anchored in the exact center of his world (his heart) and the two forces equally controlled according to the requirements of the moment. This is mastery. Love must be able to give of itself in the release of radiation and hold an object in its own orbit so that it neither comes too close nor goes too far from the governing central intelligence, according to the God Design.

This is the most difficult aspect in the achievement of mastery, to control the in-drawing vibration of the love force and keep the balance between blessing and absorption. If the attraction of the Sun draws a planet even infinitesimally too close to its center, that planet ceases to be. On the other hand, if a planet is driven just a little too far out of its orbit by the Sun, it ceases to be. So it is with man in his relation to every living and breathing thing, every inanimate object and every force and power with which he is endowed.

Even spiritually, the one who draws knowledge and power from life and does not give a balance in service, that one is off center. In his present-day experience with the Law and power of love, man uses either too much of the outgoing force (which repels the presence of people and things) or, through the misuse of the cohesive power, accumulates more than he can balance in service. The great lesson for us to learn is that of the balanced activity of pure divine love.

DECEMBER 1957

TO THE HOLY CHRIST SELF EXPRESSED THROUGH BELOVED JESUS

We humbly bow! Grateful are we, indeed, that the Master Jesus had the spiritual strength and endurance to manifest this Christ Self while he walked the ways of Earth. His great example is a living power and a motivating pressure of energy which continues to act through the souls of all belonging to Earth's evolutions, until every such a one also becomes a Christ in action.

Beloved Jesus constantly pours his feeling of mastery through the emotional, mental, etheric and physical consciousnesses of all mankind. When their attention is upon him, particularly at the Christmas Season, Jesus intensifies the radiation of his feeling of mastery through them and thus the Holy Christ Self in everyone is expanded. So, at each Christmas Season, there is more and more Christ light expanded through the Earth's atmosphere, from all in embodiment here.

To dear Jesus, Holy Mary and all the Ascended Ones who assisted him to leave this example of divinity manifest, we send our love and the love of the mankind whom HE LIVES TO SERVE!

Thomas Printz, Editor

The Homes and Retreats of The Masters of Wisdom
ROCKY MOUNTAIN RETREAT, WYOMING, U.S.A.
(December 15th, 1957 through January 14th, 1958)

The glorious Teton Mountains in Wyoming form a natural cathedral for the Ascended Master retreat there, which retreat is dedicated and consecrated primarily to precipitating into the emotional, mental, etheric and physical consciousnesses of all unascended beings, those God-virtues, talents, gifts, powers and radiations which will assist mankind to externalize the kingdom of heaven on Earth. Most of our gentle readers have previously read the description of the glorious Royal Teton which rises from the plains of Wyoming like a giant finger pointing toward the heavens. For those who are not so familiar with the Royal Teton, we refer you to previous issues of "The Bridge" as given in the footnote to this review. However, we are primarily interested, in this article, in stressing the activities of the retreat and its primary purpose in being, its Hierarchy, beloved Lanto and the Brotherhood of Precipitation who serve here, all of whom live but to teach the aspirant the joy which is within the use of conscious precipitation of good, through the expansion of the Holy Christ Flame within the heart.

Purpose of Ascended Masters' Retreats

An Ascended Master retreat is established and maintained upon the Earth for the purpose of forming a radiating center of the feeling of a particular God-virtue which the people of Earth require in their search for God-mastery and its attendant peace of mind, soul and body. As the First Root Race came forth upon this planet in the vicinity of the Royal Teton, the activity of precipitation of individualized light rays began here and, from the Royal Teton, the first inhabitants of the Earth went forth to people the planet, attended by their angelic guardians. As precipitation actually means "going forth," this retreat has always been and still remains a focus from whence "go forth" to bless the race, the divine ideas from the Spiritual Hierarchy, the trained Brotherhood and the earnest chelas.

An Ascended Master retreat is sustained by its selfless ones who choose to anchor some God-virtue into the lower atmosphere of Earth and provide the ways and means by which those unascended lifestreams who are interested in forwarding the speedier progress of the evolution of the Earth and its people may have access to that virtue, as well as to the training required to consciously generate and radiate that virtue

through the expansion of the Holy Christ Flame which beats each one's own heart. Thus the Brotherhood of the Royal Teton is constantly expressing the precipitation of good, whether that good is health, spiritual vitality, emotional stability, mental alertness or physical blessing, and they have sustained to this day the focus of precipitation there. Now, all life is invited to come to them and learn the science of manifesting this God-gift.

The present Ascended Master Hierarchy of the Royal Teton is known as beloved Lanto. Ages ago, he came to America from China to voluntarily assume this office and has remained to the present day, assisting in the magnetizing, sustaining and expanding of this Precipitating Ray, with its attendant feeling that such precipitation is a natural power of all self-conscious intelligences (unascended as well as Ascended).

Masters Help Through Radiation

Every thinking individual knows that proximity to a feeling (whether good or evil) affects the consciousness of all unascended life. Thus, proximity to the feelings of the Ascended Masters is really a spiritual "transfusion" of their feeling of confidence in the unfailing use of the natural talents and gifts which are now (and always have been) right within the Holy Christ Flame in each heart. That is why it is often suggested so earnestly by the Great Ones who are the teachers of the race that those unascended lifestreams who wish to so cooperate with them in such service, cultivate closer and closer proximity to the Ascended host.

This closer proximity does not mean that anyone should expect the Ascended Ones to do things for them, but that, by the power of radiation, the unascended one may be stimulated to use his own God-given powers to be able to do things for himself. Then, through such lifestreams will flow that which will raise the evolutions of the planet and bring greater harmony, balance and sustained peace.

The beloved Jesus made this very clear when he said: "If I do not go (ascend), the Comforter will not come!" He realized that even his dearest disciples and followers were merely allowing the tendencies of human nature to act as they leaned upon his powers, rather than developing their own Christ nature. In a far later age, beloved Kuthumi also admonished a student about this same Law when he wrote: "If you wish to heal, do so, but remember that your capacity to heal will depend upon your own faith in yourself (the Christ within you) more than upon my capacity to heal, acting through you."

Any honest teacher (unascended) or any divine teacher (Cosmic, Ascended or angelic) will strengthen, not weaken his pupil's individual capacity to develop the talents of his own indwelling Christ, rather than weakening the pupil by causing such a one to "lean" upon the teacher.

Thus the beloved Lanto and the Brotherhood at the Royal Teton are concerned with the development of the power of Precipitation through their pupils. To this end, they will, give encouragement, scientific teaching, radiation and sustaining power to each such one who desires to learn again how to precipitate God's kingdom on Earth; but they will not do for such a one what he or she can and must one day do for himself!

Precipitating Flame Lives Within Each Heart

Beloved Lanto stresses the feeling of reverence for life itself, which life (every individual has a constantly flowing stream of precipitated electronic particles from the heart of God. This forms the actual immortal, victorious, Threefold Flame of Eternal Truth within the heart of each individual and this Threefold Flame is the chalice within which lives the focus of the Holy Christ Self for every man. In his own case, beloved Lanto loved and worshipped that Threefold Flame of life within him so well and nourished it so constantly by that attentive love, that it expanded in power until it became actually visible to the physical sight of all who looked upon him, right through the physical garments which he wore (even while still unascended)!

The teachers at the Royal Teton encourage the cognizance of this ever-present precipitated God-flame in the hearts of all their pupils and the development of this God-flame so that it can and does continue its natural activity and so precipitates a portion of the divine plan in whatever sphere the individual is serving.

In himself, man is a precipitated being and the natural activity of his life is to allow this Christ Flame to continue to precipitate through him the particular virtue which is the reason for his being. Through the loss of the remembrance of this eternal verity, man (for the most part) has become subject to the fear of human limitation of every description and seeks here and there for some other intelligence to precipitate for him the gifts, spiritual vitality, peace of mind and health of body, as well as the actual requirements of supply for the sustenance of his body and world while here on Earth. Such precipitation for him by another simply weakens the urge within his soul to make self-conscious endeavor to so USE AND THUS EXPAND THE PRESENCE OF THE CHRIST WHICH IS

WITHIN HIMSELF!

It is important for every chela to have the true understanding that the Cosmic Beings, Ascended Masters and angelic host will always nourish the desire for the individual to develop this Christ power by their radiation, but will not do for the pupil what he must do for himself to grow in mastery. This will help all to overcome disappointment when the Guru seems to withdraw as Jesus did at the time of his ascension. The activity of the Cosmic Law is to allow the chela proximity to the Divine Ones, nourish his vehicles by allowing him to absorb the feelings of the Ascended Beings and then allow such a chela, through his own endeavors and initiative, to utilize the additional energy, power and gifts which have been given him by his Ascended Master Friends, for the blessing of the evolutions to which he belongs, or to which he has offered service.

Use of Gift Determines Increase

The expansion of the chela's light determines how soon and how much greater investment of the Ascended Masters' energy will be allowed on the next wave of spiritual nourishment which is sent to him. If the chela absorbs but does nothing with that gift, does not give of the blessings from "on High," he must wait for more until he learns that what he has done with the gifts he has received is the measure of his next gift from the Divine Ones.

Thus the invitation to the Ascended Masters' retreats allows the chela tremendous opportunity to receive of their wisdom and feeling of mastery. The expansion of those gifts by their externalization in this physical appearance world for the good of his fellowman determines just how much the chela can and will receive at his next visitation into the Ascended Masters' foci and presence.

While the Temple of Precipitation is open for expanded service twice each year, the chelas are given full access there to the natural powers of precipitation which live within the Holy Christ Flame within their hearts. It is a stimulus to the development of that precipitating power. The chelas there see Divine Beings magnetizing from the Sun of the system additional powers, ideas, patterns, gifts and virtues and they watch these Divine Ones externalizing these powers for the benefaction of the race. Some are so enamored of the process of precipitation by the Divine Beings, that they do not fully cognize the eternal truth that the very same powers are inherent in their own heartbeat.

The patience of the Cosmic Law is such that, through free-will, these

chelas are allowed to witness the activity of divine precipitation again and again, until the outer consciousness realizes the possibility of becoming such a precipitating presence itself. Then do the brothers and sisters of the Temple of Precipitation rejoice indeed, for at last, the chela is on the true path of self-development of his or her own power of precipitation.

The Ascended Ones who have so selflessly chosen to remain in service in these retreats in order that they may assist the people of Earth are the way showers and teachers of those who truly desire (with pure motive) to externalize the Christ Presence within themselves. The Ascended Masters' retreats are the foci where tremendous feeling of mastery is generated and radiated forth. Please be alert in your visitation (of course, in consciousness) to these retreats that this privilege is for the primary purpose of development and expansion within you of your own Holy Christ Self, so that you, too, may do the works performed so easily by your Ascended Master Hosts. When you are so alert, you can best benefit by your visits.

Lowering Of Yearly Thoughtform

The great thoughtform which is lowered into the bosom of the Silent Watcher of the Earth by Helios and Vesta is then magnetized by the Lord of the World (now our beloved Gautama) December 31st of each year. After receiving this divine idea, his first activity is to precipitate the form into visibility for all, through the use of his own thought and feeling centers so that it immediately becomes clearly visible to the entire assembly. The gathered assembly then at once recreates this original thought-form and precipitates it into the atmosphere of Earth. Unascended chelas (present in their inner bodies, usually while their physical body sleeps) witnessing this activity, are invited to precipitate the "theme" (meaning) of this thoughtform into their own sphere of influence, right here in the physical appearance world during the coming year, using whatever gifts, powers, activities and substance which are at their command.

The thoughtform itself is merely a symbol to the entire assembly, ascended and unascended, of those God-virtues which are seen by the God-parents of the system to be most required upon the Earth in the coming twelve months. Each one uses this symbol as a divine directive of the energies at his command. You are invited to return again and again during this thirty-day period to the Royal Teton and see how the Ascended Beings and angelic host are interpreting this thought-form. Then you,

too, can make it a guide-post for your individual and collective endeavors during the next year. The power of conscious, instantaneous precipitation direct from the universal is one of the most sought after gifts by unascended beings. Its conscious use will alleviate so many of the distresses to which the people of Earth are presently subject.

Therefore, without strain or tension, ask beloved Lanto and his Brotherhood to help you to learn to use this gift which is alive right within your own heart, for the blessing of the race. It is the power to use the gift, rather than the gift itself, which is mastery. The feeling of confidence which has grown within those who have learned the use of this power of precipitation is offered to you now. Accept it! Use it! Try it! Rejoice that you now know of its presence within you and remember, always, that as the use of the power of precipitation is restored to you, earnestly pray that you will always use it only for the benefaction of the race. Then rejoice, too, as others reap where you have sown.

You now know of the power of precipitation, which, as we said above, is one of the natural God-powers of your very life. Others may have and enjoy the gifts which result from your successful use of that power within you. Thus the Divine Ones serve and thus do all sincere chelas serve also.

Yearly Presentation of Future Plans

On December 15th of each year, from every Ascended Master retreat there comes to the Royal Teton a representative with ideas which, if accepted, will hasten the redemption of our dear Earth and its evolution. Many unascended chelas also come with many constructive ideas and plans. All are welcomed and the petitions, ideas and plans are carefully perused by the Angel of the Scrolls and offered at the proper time to the Karmic Board for acceptance. According to the use made of the ideas which have been accepted and confirmed by the Karmic Board during the last twelve months, do they allow greater and greater freedom to those bringing new ideas for the next year.

If your ideas and plans have not yet been fully externalized, please do not be self-condemnatory nor discouraged. Remember, in such a case, you would just require more training to learn how to precipitate these ideas into practical form and use. That is the reason for the sustenance of the Rocky Mountain Retreat. The patience of its Brotherhood is endless! Only the sincere desire to fulfill one's destiny, sustained in the heart of a chela, is required to secure their help, counsel and instruction.

Welcome to the half-yearly council at the Rocky Mountain Retreat!
Welcome into the FEELING OF PRECIPITATION which is its heart-core!
Accept that feeling into yourselves and go forth renewed in confidence
that the Holy Christ Self within your hearts is a natural precipitating
presence, when allowed by the outer self to act through you. I shall
meet you there as you bring in your "sheaves" of already accomplished
precipitation (constructive accomplishments of the past year) and your
ideas for future accomplishment.

Yours in love, in mutual service and in confidence,

El Morya

MINISTERING ANGELS
By Beloved Archangel Uriel

Sept. 27, 1957

I am Uriel Archangel of Ministration, and I have come to you today in
response to the heart-calls of certain lifestreams in embodiment here
who are so sincerely interested in bringing about the eternal freedom of
the planet upon which they presently abide!

It is our reason for being and service to life to minister unto any part
of creation which requires assistance, especially now in the re-
establishing of the natural harmony and higher vibratory action of the
Earth itself, as well as of the vehicles of expression used by Earth's evo-
lutions at this time. This will culminate in the fulfilling of the divine plan
of perfection eventually manifesting through individual lifestreams, ele-
mental life evolving here and through the inner spheres of the very plan-
et itself.

Beloved ones, I might say that the activity of ministration to which
we so lovingly dedicate our lives, represents a great deal more than the
average individual thinks when they either refer to or contemplate upon
a ministering angel.

In the first place, within the ministering angel there is the WILL TO
SERVE until the entire world of the lifestream to which that angel has
dedicated himself, is in complete harmony. Now, there are those minis-
tering angels who deal with just one lifestream at a time and even that is
quite an expenditure of time and energy, quite enough when one con-
siders that the lifestream needing such assistance has builded the causes
of his distress (the transmuting of which now needs the angel's help) for

millions of years in the pursuit of what he calls "happiness!"

You see, to be allowed to render this service, that ministering angel must personally desire to do so. That angel is a being of free-will and so must offer to serve. Every individual present here today and every member of the human race still unascended (this, of course, including every "laggard" who came here from other systems and every guardian spirit who came to give the Earth assistance) has such a particular ministering angel who has volunteered to serve him from the beginning of his evolution here, staying with him until his journey is completed. Before Helios and Vesta, a long time ago, that ministering angel took a vow to serve a particular lifestream until it had achieved its ascension.

Angel Develops Discrimination

Next, that ministering angel has to DEVELOP WISDOM in dealing with you because, first of all, it had to get acquainted with you and your world. Since you, too, are a being of free-will, that angel did not know ahead of time just what momentums you were going to develop which would give him opportunity to expand his light. As you were developing your tendencies, he had no way of knowing just how you would react to ministration, for there are many individuals whose natures tend to repel ministration, if and when they are cognizant of the fact that it is being given.

So, the discriminating faculties of the ministering angel develop through association with a lifestream. In some cases, that angel learned that it would be best to minister to the individual, even to the distresses thereof, (emotional, mental, etheric and physical) while the person slept so that the conscious mind would not feel the angel's current of healing energy!

On the other hand, where there was some co-operation between the lifestream and the ministering angel, the assistance could be given all during the day, as it was with the beloved Mary, Mother of Jesus, as it was with beloved Jesus himself, as it was with your blessed Saint Germain, (particularly in his embodiment as Saint Joseph) and many more of those who not only consciously cognized and revered the angelic host, but consciously welcomed their service as well.

Then the ministering angel had to expand his FEELING OF DIVINE LOVE for the immortal Threefold Flame of God which held the divine pattern of perfection within the heart of the lifestream he had offered to

serve. He had to develop a tremendous momentum of that love which, all through the ages, has given and still gives him the infinite patience to continue to serve a personality which is so often resentful and rebellious against what that one considers an interference with his use of free-will even resenting the help of the angel who can see far ahead and see what distresses will be the lot of the individual should he be allowed to follow his own course of destructive tendencies. So, these ministering angels of my legions have developed tremendous momentums of God-patience while dealing with unascended mankind.

Even in the outer world experience, you know what a feeling of rejection or repellent force will do to your own sense of joy in service. So, in a beautiful schoolroom at inner levels, these ministering angels are taught how to draw and hold these feelings of divine compassion, patience and understanding. Here they learn that the outer selves of those they try to serve might react to their help in many, many ways. However, they are also taught that their responsibility is to be able to hold steady our beautiful Flame of Peace (the gift and activity of the Sixth Ray) and where ever and whenever possible, to pass that flame through the energies of the lifestream they are assisting, compelling God, peace there to manifest.

Angels Hold "Immaculate Concept"

Now, too, the ministering angels have to remember the activity of the Fourth Ray, sustaining within themselves a consciousness of the PURITY of the "Immaculate Concept" for the individual they are serving, and not be caught up in a desire to change the subject of their devoted service by ministering to another. You see, sometimes, when a joyous and wholly-free angel from our realm sees some very fine soul stand before the Lords of Karma, offering to become a guardian spirit to those evolving here, it is very easy for that angel then to say: "I will gladly go with that one and minister to him. I will stay with him until the end of his journey, for he has a magnificent Causal Body (the gathered momentums of one's accumulated good up to that time) and he has much opportunity for great service." Then, of course, always eager to have this assistance for a lifestream, the great Law accepts the offer of the angel.

But, after several millions of years of such service to that lifestream, the ministering angel still must be able to sustain his original enthusiasm for service to that one with the beautiful Causal Body, holding the "Immaculate Concept" for his "ward" hoping for the eventual manifestation

of that perfection through a physical form, as well as the other three lower bodies which, too, have disintegrated a little from the magnificence of the light body in which the angel had first seen that one at inner levels. Here, the activities of RE-CONSECRATION by the beloved Raphael plays such an important part in sustaining the constancy of that angel, keeping his feelings enthusiastic, his energies buoyant and eager to serve. The only time these ministering angels have some temporary release from the lifestream they are serving is during the time when that one might be in the "Sleepers' realm" for some time between embodiments. Then, they may have a substitute to guard and minister to the etheric body for them, while the soul-self sleeps.

This will give you some idea of the tremendous task of these ministering angels because, as soon as the individual is conscious again (after his "rest" in the "Sleepers' realm") and his thinking and feeling worlds are active, thus creating karma, it is the responsibility of the ministering angel to be on hand to give that soul assistance, trying constantly to hold as much peace as possible for him. These ministering angels also need CONCENTRATION. Do you think it is easy to work almost continuously with one lifestream for literally millions of years? Think about this! It is a case of voluntary imprisonment through love, which has little parallel.

You see, while the physical body is asleep, the consciousness of the individual is still functioning somewhere! If that consciousness is earth-bound and (in the past while discarnates were still allowed in Earth's atmosphere) prowling around in old castles or places of former abode in which the lifestream had been previously interested, if the consciousness is having certain experiences in the psychic realm (discordant activities) that consciousness is creating destructive karma. So, the ministering angel is obligated by Law to accompany such a soul and, at every opportunity, this angel projects a light ray into the consciousness of the one he is assisting, with the hope that perhaps it will help him to look higher and desire more light.

Natural Conductors of Peace and Healing

These ministering angels are natural conductors of both PEACE and HEALING but it is sometimes difficult to get mankind quiet enough in their thoughts and feelings to receive these gifts. Even when the physical body sleeps at night, the aura about it is still swinging around, the soul is darting here and there in various directions, always in search of some sort of happiness. It is part of the service of this ministering angel of the

Sixth Ray to quiet the feelings, mind, memory and flesh body and bring them PEACE.

Finally, the ministering angels are very powerfully developed along the RAY OF INVOCATION. Of course, they have constant access to all the virtues of the Godhead, and, because they have the God-gift of inner sight, they know just what is required by the lifestream whom they have offered to serve. Therefore, from time to time, as the Cosmic Law permits (according to the Karmic obligations of the soul concerned), these angels do invoke the help of the Ascended Beings and powers of light to draw the particular assistance which that lifestream requires at the moment.

Beloved ones, there are many blessings available to mankind which they could have and enjoy if they only knew of and would call for them, as well as Ascended Master and angelic friends who could release those blessings into man's experience. I know, because in the activities of ministration, we work with the Silent Watchers over every city, state and nation, as well as with the Silent Watcher of the planet itself.

As you can easily see, the ministering angels are always endeavoring to draw your consciousness to something which is constructive and hold it there. That is part of their power of concentration, as well as their desire to bring you peace. This ministration is our great joy to give to the Earth.

Now, as we previously said, these angels of which we have spoken have offered to serve just one lifestream. In my capacity as Archangel of Ministration, I have offered to serve the entire planet Earth and all the lifestreams who would ever take embodiment upon her, all elemental life and every living thing, until the substance of Earth itself and the forces of nature should be restored to divine harmony and eternal perfection. So, what I have said about individual ministering angels you can multiply by ten billion and then know something of the service to this planet and her evolutions which has been offered and given by beloved Donna Grace and myself.

Remember! You have a personal ministering angel who has been with you for many centuries. By your call to him, let now this ministering angel daily anoint all your four lower vehicles with his substance and feelings of divine love, light and grace, thus helping you to hold sustained peace regardless of any human appearances or aggravations. Give him your undivided attention for just a few moments each day, during that time consciously accepting into your feelings the help he wishes to

give you.

Editor: Now our gentle reader may ask why, if these ministering angels are ever with us and have the capacity to prevent human distress, why is mankind in the present state of need and despair? Again may we remind you of mankind's ability to use his God-given gift of free-will destructively—often deliberately defying the wise promptings of what he calls his “conscience”—which are often the feelings of warning from these ministering angels themselves. These angels are also sometimes called “guardian angels.” Have all of us not felt a strong prompting not to do a certain thing but, because the desire to do it or to have something was so strong within us that we willfully disregarded the prompting and “kicked against the pricks” (so to speak), only to regret our disobedience later when it was required of us to handle the agonizing consequence of our human stubbornness and arrogance. How often have we said: “Why did I not listen? I had a feeling not to do that, etc. etc.”

Now that we have been given this wonderful instruction about our ministering angel let us daily acknowledge this personal friend of the ages and endeavor to lovingly co-operate with him to make our way easy, plain, successful and perfect at all times.

Were it not for these transcendent beings of light and love who have given themselves to mankind here, most lifestreams would have completely destroyed themselves long ere this! God bless the ministering angels, every blessed one of them and God bless our beloved Uriel and Donna Grace for their sustaining power of love and grace for all life!

THE MASTERS OF WISDOM SPEAK
TO LIVE MEANS TO GIVE

MAHA CHOCHAN

The very first activity which caused every intelligence to come into being is based upon the truth that the Father-Mother God gave from themselves a portion of their immortal, victorious Threefold Flame to create another self-conscious intelligence. Then, also, as the very first activity of the elemental light-substance was to give of itself to create around that flame a shining Electronic Presence, it follows through into every sphere in which the lifestream of that intelligence abides, that giving of life, (which is energy, substance and virtue) are not only the inherent nature of such intelligences, but an absolutely necessary activity for survival.

Should a consciousness ever refuse to give of itself, it would thus contradict the Law of its God-parents. Then, sooner or later, some other intelligence willing to so give would be found to take the place of that original facet of expression, through which such heavenly parents could continue their process of giving life and its benefactions to bless the various spheres and planets in which such requirements of externalized God-gifts are most needed to fulfill the divine plan.

When some (unascended) intelligence, through free-will decides not to fulfill his purpose for being (that is, to be a channel through which the God-parents, Ascended Masters, Cosmic Beings and angelic host may pour their benedictions), he thus voluntarily shuts himself off from the natural joy of giving, which activity is really his spiritual vitality and reason for being!

The Universal I AM Presence lives but to give! Mankind should take note of that fact and begin to emulate the perfect expression of the giving of his own energies, in the release of his talents, powers and substance in order to enjoy life, rather than experience a mere existence in the physical appearance world or even beyond the veil called "death."

EL MORYA

Most unascended lifestreams, mainly because of the fear of experiencing lack and limitation have lost their interest in contributing to life in an impersonal manner. Thus much of their spiritual consciousness just "shrivels up," because the tendency to withhold the gifts of their life is not the natural expression of their divine nature.

At this Holy Season, we are asked to bring to your attention the unalterable truth that a man enriches and renews himself emotionally, mentally, etherically and physically, by giving of his talents, gifts and powers to his fellowman for their greater blessing – which gifts and talents have been vested in him by his God-parents and the divine hosts of heaven. Giving does not necessarily mean the exchange of the substance of this world's goods, but there is no individual belonging to this Earth's evolutions who has not, in his or her Causal Body, certain momentums of good which can and should be released NOW, right here-into this physical appearance world, to give assistance in the redemptive process of the Earth and her evolutions. "HOLDING BACK" THESE GIFTS, VIRTUES AND POWERS IS A SERIOUS KARMIC OFFENSE OF OMISSION, FOR WHICH EVERY INDIVIDUAL LIFESTREAM MUST ACCOUNT ONE DAY BEFORE THE KARMIC BOARD."

KUTHUMI

Let me assure you that no Manu would allow embodiment at any time into the race of which he was in charge, to any individual who already had not builded certain constructive momentums into his Causal Body. These can and should be used NOW for the impersonal benefaction of the evolutions to which he has voluntarily dedicated his life and energies. We are speaking only of the Earth at this time in order to make your scope of study more comprehensive to the outer consciousness.

Therefore, each one of you, dear gentle readers, has been accepted into Earth's evolutions by some Manu because you already have gathered momentums of virtues and powers which the Earth's people require. The giving of these momentums of good for the impersonal benefaction of the race is to follow the example of our beloved brother Jesus, who lived only to bring the gifts of healing, inspiration, peace and understanding—impersonally—to all who would accept his blessing.

His Guru, Lord Maitreya, (now the New Buddha) used beloved Jesus' Causal Body as a channel through which to allow to flow Cosmic Christ gifts into the lower planes of consciousness where the mass of mankind dwell upon this planet—during embodiment, as well as between embodiments. So also does your Ascended Master Guru desire to use your Causal Body as a channel not only through which may flow your own momentums of good but as a channel for the greater cosmic momentums of perfection to flow into the atmosphere of Earth where unascended mankind dwell. The offering of yourselves to this impersonal ser-

vice is the greatest gift of the Holy Season, the greatest gift you can give to life.

If you wish to give such a gift at this time, you can make it in the name and to the honor of our beloved Jesus, Holy Mary or beloved Saint Germain (formerly Saint Joseph) reminding the outer consciousness often through the course of the day, that this allowing of the goodness of heaven to flow through you to bless life, is your gift to the evolutions belonging to the Earth.

PAUL, THE VENETIAN MASTER

The greatest artists, musicians, sculptors, poets and authors never measure the release of their gifts by the personal gain to the self. In fact, they usually go to the opposite extreme and insist upon pursuing the development of their talents without the slightest consideration as to what they, personally, will receive in return for the manifestation thereof. Usually, it is the case that centuries after the masterpieces have been completed, others less talented and more calculating individuals reap the monetary reward of the original artists' service. When an individual is a true devotee of the Arts (or any other constructive endeavor) he is usually so one-pointed in developing and externalizing his gifts that he gives little or no thought to the personal prestige, monetary recompense, etc. which might result from the completion of his endeavor.

It should be so, particularly with spiritually-minded individuals who have taken embodiment to be an example of and radiate the virtues of God to mankind. Remember always the LAW OF BALANCE! What every man sows, he surely reaps! Life, magnetized by any intelligence, must follow the Law of the Circle, because of the very stature of its being! It must ultimately return to the intelligence who has sent it forth, with an impersonal blessing and benefaction, always, too, with accumulated energy!

SERAPIS BEY

Following the words of our beloved Venetian, I shall attempt to answer the question in the minds of some individuals as to why so many great artists, poets, philosophers, scientists and inventors live out their years in poverty and amass so little of this world's goods. It is because they are so one-pointed in their endeavors to create something of beauty that they do not allow their attention (their life!) to rest upon the amass-

ing of wealth in this world of form.

However, nothing of a constructive nature is ever lost and while they live (and oftentimes die) in poverty (according to the world's standard of success), they have laid up for themselves stores of riches in their own Causal Bodies. Sooner or later, such individuals will receive the benefaction of their dedicated energies. You see, all that life becomes the wealth of experience in the Causal Body which will make them more efficient servants of their God in a future day. The lesser developed lifestreams may seemingly profit by the exchange of these masterpieces, but the one who originally drew them forth has the cause and core of creative ability in his or her own Causal Body, for use when and where required in any sphere in which he may be fitted to dwell.

Of course, this is particularly true of chelas on the spiritual path. Others may plagiarize and temporarily profit from the wisdom which has been drawn forth by the original researcher, but, in reality, the original magnetizer of truth who has drawn forth virtue and grace, has truly laid up treasures in heaven, which are his to use again and again. In other words, those who profit by another's gift have just the shell, but the original creator of beauty has the spirit of the gift, which spirit is eternal!

This accounts for the fact that so often a religious, metaphysical or occult teaching loses its life when the originator of such teaching finishes his Earth-span.

HILARION

I can honestly say that, watching as we do from the Ascended Master's octave, that the Law of the Circle is inexorable! Beloved Jesus' statement that "As a man soweth, so shall he also reap" is an eternal verity.

From the standpoint of the quicker expansion of our activities to free the Earth, it seems a pity that there are not yet more embodied among mankind, more illumined and intuitive lifestreams, who recognize the "gifts" and capacities of those who have consecrated their lives to us, those who understand the necessity for assisting and sustaining the "gifted" and consecrated ones to our service, both by the offering of their energies and substance to help such servers. Such "gifted" ones could be greatly protected from much unnecessary limitation and distress while these (who are our representatives in the world of form) serve selflessly to enrich the heritage of the human race.

You will notice that, almost without exception, the cognizance of the research of such dedicated souls (scientific, spiritual or otherwise) is nearly always realized by the beneficiaries of those blessings long after the consecrated souls so serving have passed from the Earth-plane. In the very near future, however, the worth of such individual lifestreams will be cognized while they can yet have the assistance of less-developed but interested lifestreams. These will make it possible for them to pursue their research, giving their talents freely to mankind, not distracted by the need of producing what they require for sustenance upon the Earth. This was always done previously in every Golden Age upon the Earth, and it shall come again in beloved Ascended Master Saint Germain's Golden Age which is finding root in the hearts of the more awakened among humanity.

So often, because of past karmic ties, impersonal and dedicated lifestreams are surrounded by family and friends who require (and rightly so) a certain measure of protection, sustenance and assistance. This condition distracts the consecrated soul from his one pointed endeavor to magnetize and develop some blessing for the race. Thus the consecrated one has the double responsibility of paying off karmic debts all the while he is endeavoring to perform his service for the benefaction of the race.

When other less developed chelas understand this, they will joyously assist the researcher to transmute his karmic burden, allowing him or her fuller freedom to concentrate upon the God-manifestation which he desires (prompted by his or her own Holy Christ Self) to develop and externalize. When this time comes, the people of Earth will be much more quickly illumined, much richer in every way and the entire evolution of the Earth and all upon her will be greatly accelerated.

This pattern was the original intent of the founders of the "caste system" in India but, unfortunately, like many good ideas, it has been greatly distorted and has caused even more limitations to the various "castes," rather than bringing greater freedom to the light-bearers of the world.

JESUS

I can speak on the subject "It is more blessed to give than to receive" with tremendous positive assurance because I, myself, experienced the joy of giving to bless the race, that which the Father and Divine Beings had loaned to me for just that purpose. Also, I had the great good fortune to have a Mother and a Father who did not selfishly "pull" upon my vital energies which had been dedicated to my mission, but

rather gave of their energies to me so that that mission might be successfully accomplished. Besides, I had no unpaid personal karma, any and all such karma having been completely transmuted by me in previous embodiments.

When I returned “home” at the completion of my ministry, I was amazed at the expansion of the size of my Causal Body, because of the free-will service of having given ALL of my life to the alleviating of the distresses of the people of Earth. Because of this, since my Causal Body was so enlarged in size and increased in grace, it has been possible for me, through all these succeeding centuries, to again and again give of that momentum to any and all of my followers who truly desired to emulate my example. Now this, in turn, is also steadily increasing the size and efficacy of that Causal Body, for the expanding light of one's chelas also adds to the gathered momentum of the good of his teacher. This has been the experience of Lord Gautama and all other Beings who used their earnest disciples as channels for their gifts.

Remember! Nothing is static anywhere in this universe and the Law is that: “To him that hath shall be given, but to him who hath not (the desire to give of his God given talents) shall be taken away even that which he hath!”

SAINT GERMAIN

Let no sincere chela allow himself to fall into the “Slough of Despond” because he or she cannot quickly and wholly fulfill the individual service which his or her Holy Christ Self prompts him to externalize. Remember always we cognize the motive of the chela as well as his (or her) as yet unpaid karmic debts! We also see the possible loving, practical co-operation by certain other lifestreams (who are so very precious and who could easily give it), but, because of the absorption of their life by allowing their attention to be so firmly fixed upon the daily living routines and personal affairs, these are a bit thoughtless (perhaps?) concerning the actual physical needs of the researcher, whom they really love! So many really seem to care or think little about just how those practical needs are supplied. Such practical assistance, lovingly and freely given, would do so much to hasten the expansion of our help to mankind, thus allowing the researcher more time and energy for his or her service to us.

This assistance may be given emotionally, mentally and etherically by daily holding the immaculate concept for this one and, practically, by assisting in the increase of supply. Remember also that there is a way to

clear the channel for the release of the fully-gathered momentums of good from each one's own Causal Body (which includes abundant supply of every good thing) so that those gifts, talents and virtues can be more readily externalized. This is through the use of the Ascended Masters' Law of Forgiveness and the purifying of the individual chela's world through the merciful use of the Violet Fire, thus removing the cause and core of the appearance of lack which he seems to experience. Then the sins of omission upon the part of others who have been given opportunity but hold back the helping hand, will lie at the door of such others and not at the door of the chela seeking divine expression for the impersonal benefaction of the race.

Depending upon other unascended lifestreams for your sustenance will only result in disillusionment, bitterness and frustration. Looking for the support you require to the God who made you, will bring you harvest beyond your fondest dreams. By daily, consistent and rhythmic application (conscious calls to the I AM Presence and Ascended and angelic hosts) for the help you require, you allow your own God-Presence and his messengers to raise up those individuals who will joyously assist you, providing whatever is needed here, whether it be energy released in loving service or financial support.

It is not your province to choose such individuals so to do or to personally designate through what channels the supply is to come to you. Just know that, if your heart is sincere, your motive pure, your service truly that of setting all imprisoned life free, we shall find some channels through whom we can give you the help you require. Service for the sake of serving is most important. God's service is always rewarded if not by thoughtless mankind, then by the very angels themselves!

At this season of the year, we are celebrating the birth of the beloved Jesus. By example, he taught us all to look only to the Father within for all his needs. I now counsel you so to do. Should there be those who are prompted from their hearts to assist you, be assured that we are most grateful for their help and, sometimes, we have even prompted them so to do. However, if there are those who disregard the promptings of their hearts and refuse to give such assistance, let the consecrated chela who desires to serve us and all life evolving here, CONTINUE to serve as best he can. Let him PERSEVERE! And more and more quickly will there be gathered around them those lifestreams who are glad and willing to help. Thus, at the time of beloved Jesus' ministry, Holy Mary and myself were so grateful for opportunity to help him and, since then we have been so grateful for the knowledge that our humble endeavors

were a good part of that which contributed to the success of his service to life.

Ponder much upon the life of Jesus this Holy Season! Think how he exemplified the spirit of giving of himself AT ALL TIMES. Then, in honest introspection, measure your gift of constructively qualified life to bless the race against his. Ponder upon the life of Holy Mary and see how such a consecrated one, gifted beyond your own personal development, can more greatly bless life. Then let your God life flow forth in those virtues, talents, powers and substance which your God has loaned to you and for which you must render an accounting one day.

I do decree that those chosen to be the way-showers of the race shall not be guilty of the sins of "omission" in this crucial hour and that those who have been sent to form a "Bridge" from the divine realm into the human octave shall be sustained by the I AM Presence, even if their contemporaries neither cognize nor sustain their gifts.

(Note: From time to time we have been asked: "Why do not the Ascended Masters supply those who serve them, as well as precipitating the books and other media of releasing their instruction to the people?" Beloved Serapis Bey has answered this for us in this manner: The great Cosmic Law does permit the Ascended Ones to give of their riches of consciousness, their feelings of conscious attainment through the use of the Laws they are now teaching us. By the radiation of that consciousness to any and all who will accept it, they are able to give mankind transcendent assistance unto their eternal victory of the ascension, which assistance the people could not get in any other way or from any other source.

However, the great Law does not permit the Great Ones to precipitate money or material into this world for the expansion of their light, for such assistance to the work must come from the chelas so benefited by their instruction. This makes the balance on the part of the chela for the blessing received. Mankind are already far, far in arrears in giving a balance to life for all they have received of good all through the ages. Therefore, in giving of their substance to expand the Masters' words and works they are helping to balance their debt to life for ages of service as yet unpaid. Do you see?)

MONTHLY LETTER TO TRANSMISSION FLAME CLASS

December 21, 1957

Beloved Precipitated Beings From God's Own Heart:

How we love you! How we desire you to come to a conscious remembrance of the power of precipitation which is your natural God birth-right! How we breathe upon the Holy Christ Flame within your hearts our feeling of divine love, hoping ever for that day when you shall allow it full freedom, through your outer consciousness, to externalize its particular gifts and powers for the blessings of the race. How we anticipate your joy when you come to a point of cognizance of yourselves as precipitating beings!

This thirty-day period we all enter together into the Temple of Precipitation you bringing your gifts of your presently developed consciousness and we bringing ours. They shall mingle in this joyous time and you shall have available to you for your acceptance our feelings, realization and use of these powers which we use and which are lying dormant within you, right now! In your feelings, try to consciously accept our gifts to you! We will help you! Let us all, now, ascended and unascended beings, share the same power of precipitation and put it to the fullest possible use for the expansion of the light of the world.

We love you so much! We know your sincerity of motive and service and you have proved, that you love us too! This forms a strong spiritual tie which will make it possible for us to help you more.

Not only at Christmas time, but always, (even when you seem to be temporarily alone), we are ever with you! You see, we, too, give strict obedience to the Law and, sometimes, when you think yourselves to be alone, we are merely observing the Law of allowing you to develop and expand your own light during the periods of the ebb-tide of our energies flowing to you, as well as when we are allowed the joy of flooding to your world the fuller tide of the light of our presence.

Love and blessings,
Maha Chohan

Statement for the Transmission Flame Class of Dec. 21, 1957

I am inbreathing /absorbing/ expanding/ projecting Lanto's feeling of God control and reverence for life.

Temple of Precipitation, Rocky Mountain Retreat (Royal Teton), Wyoming, U.S.A.. Hierarch: Beloved Lanto. Color of Flame: Chinese-green. Musical Keynote: "Oh, Thou Sublime Sweet Evening Star" from Tannhäuser.

GROUP INSTRUCTION MATERIAL FOR TRANSMISSION CLASS

December 21, 1957

Beloved Friends,

One of the greatest gifts of the Godhead is PEACE! All the world wants it collectively and certainly we all require it individually these days. We always think of Christmas as being a day of peace, the birthday of the Prince of Peace, and even physical wars have been temporarily interrupted for that day! Beloved Jesus has freely offered us the gift of his consciousness of peace-just for the taking! He said: "My peace I give unto you, not as the world giveth, give I unto you!" How is Jesus' gift different from that which the world gives? In one way, for any gift given, the "world" (outer consciousness of the mass of mankind) always expects something in return! Strictly speaking, you know, THAT IS NOT GIVING! It is simply exchanging the things of this world, one for the other.

To really give the Christ-gift, one must "blanket" (as it were) his entire world and all the life he contacts with the benediction of his presence, his feelings of divine love, gratitude, courtesy, understanding and forgiveness, just as impersonally as the snow falls and covers the ground upon which it lies, whether that be field or forest, whether its gift be appreciated as a blessing or cursed as an obstruction in someone's way. The snow simply IS WHAT IT IS, it gives all it is and has and all who contact it may accept or reject it as they like, the snow asks nothing for itself.

So does the beloved Jesus give. So does every Illumined Being give. Such a consciousness is perfectly aware of his permanent connection with his unfailing source of every good thing and that to give of that good is simply to expand it, even to himself, for the Law is that all good sent forth must eventually return to its sender, always with accumulated energy. Therefore, truly, "it is more blessed to give than to receive."

For one to so learn to live and give will prevent much heartache, disappointment and bitterness for to give for the joy of giving, expecting neither credit nor reward for the gift or service, brings Jesus' feeling of peace "which surpasses the understanding of the mind." Try it and see!

Releasing Light's gifts in love's service, Francis Ekey

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
with the Great White Brotherhood and Cooperative World Service

JANUARY 1958

TO THE NEW-BORN AND BEAUTIFUL SPIRIT OF 1958:

We send our greetings, blessings and gratitude for another year of OPPORTUNITY to serve the evolutions in the Earth, on the Earth and in its atmosphere, until the planet itself and all such evolutions are God-free, expressing the perfection of "Freedom's Star."

Dear Spirit of 1958, we thank you for allowing us such opportunity to continue in our redemptive process for those energies, misqualified by those who have used the Earth as a school room through the ages.

As you unfold your wings of light and expand your radiation around the Earth, we do decree that we shall secure such assistance from every unascended member of the human race, all imprisoned angels, elementals and every living thing, that it will enable you to wear the crown of victorious Jesus Christ accomplishment and present the Earth and its evolutions to the Ascended Master Saint Germain as his own star of light within this twelve-month period! So be it!

Thomas Printz, Editor

The Homes and Retreats of The Masters of Wisdom

RESURRECTION TEMPLE OF JESUS AND MARY

January 15 through February 14, 1958

Due to the extreme kindness and courtesy of the new Lord of the World, beloved Gautama, and also due to the acceleration of the entire Earth's evolutions, we are aware of the sponsors for 1958 at an earlier period. This enables us to include the article of the Homes and Retreats

of the Masters of Wisdom, together with our Lord Maha Chohan's letter to the Transmission Flame Class in this issue, instead of our preceding procedure of issuing a supplement to the January "Bridge." For such "advance" material we are so grateful and we know you are too!

Beloved Vista (Elohim of the Fifth Ray) and his divine complement Crystal, together with beloved Archangel Gabriel and his divine complement, Hope, are the Sponsors for 1958.

Therefore, we have secured permission to announce that the first retreat to be opened in 1958 is the Resurrection Temple of Jesus and Mary, in which beloved Gabriel and Hope will also serve for this period. As you will note by the contents of this issue of "The Bridge," 1958 will be predominantly dedicated to the awakening of mankind to the reality and existence of the angelic host.

Lord Gabriel, who holds the immaculate concept for everyone of the ten billion lifestreams belonging to this Earth's evolutions, offered to assist the Holy Christ Self of each lifestream to awaken within them a remembrance of the angelic host and man's previous association and joyous service with them. Beloved Hope, who as her very name implies is a resurrecting power through all the energies toward which she directs her attention, is also eager to give the assistance which the Cosmic Law demands NOW in mankind's conscious acceptance of the angelic host as co-workers with the people of Earth and all who are to use the Earth as a schoolroom in the future.

The restoration of the power of the Holy Christ Self of every man to express freely through his outer consciousness is essential to the progress of the race. Hope of an established kingdom of heaven right here on Earth is also essential for the stimulating of mankind's enthusiastic endeavors to lovingly co-operate with God and his divine messengers in the bringing about of such a glorious and permanent Golden Age.

Lord Gabriel knows the destiny of every man! The pressure of his love will help the earnest and sincere chelas to much more quickly outpicture that divine destiny. Beloved Hope knows that the feelings of discouragement, disintegration, decay and even "death" itself, which lie like a pall upon the souls of men, must be transmuted by her buoyant energies which will sustain them until, individually and collectively, they have outpictured the perfection of the divine plan for the people of Freedom's Star.

Beloved Jesus and blessed Mary have offered the hospitality of their retreat to the students at this time, in order to co-operate with the spir-

itual stimulus required to move forward in 1958 with confidence, happiness, expectancy and joy!

You all have the descriptions of the beautiful Resurrection Temple of Jesus and Mary in previous issues of "The Bridge to Freedom." Each visitation which you make there in consciousness strengthens your feeling of the power of resurrection of all the glory which you knew with the Father before this world was. Your "Sponsors" from this retreat who will be assigned to you by blessed Gabriel for this thirty day period, are all very handsome gentlemen of his own Court. They will come at your bidding: remain with you as long as you desire their assistance and, at your dismissal, return to resume their services in the Resurrection Temple.

Anticipating a year of hope fulfilled in manifest service and of divinity expressed through the children of Earth, I shall await your presence at the Resurrection Temple where we shall join together in honoring the Resurrection Flame and our hosts, Jesus and Mary, beloved Gabriel and Hope. I am always your obedient servant,

El Morya

RE-CONSECRATE YOURSELF DAILY
By Beloved Archangel Raphael

Sept. 26, 1957

It has been our endeavor and it has been the direction given to us for this class, to charge into the emotional, mental and physical consciousness of mankind OUR FEELING OF JOY IN SERVICE so that the sense of duty, the sense of service bound around by fear, the sense of service because it is a habit, is replaced by an intelligent, receptive, pliant, buoyant, joyous consciousness. Such a consciousness, upon the very spur of the moment, can receive the God-direction from the individualized I AM Presence or any Divine Being in the universe and then be pliable enough to act upon that God-direction, no matter what it does to the habits and patterns which form the course of daily living.

Beloved ones, mankind and you who are consecrated to serve life, have no consciousness yet as to how habit-bound your lives are. You arise at a certain time, you make your application at a certain time, you bathe and dress at a certain time, you eat at a certain time, and you have activities planned for your day (of a constructive nature – true) but every little portion of your day is fitted into place as you would fit your mosaic into a floor. Then you feel that you are very orderly persons in

having such a set pattern which is constructive.

Now, because the currents which flow through the cosmos are such that even we or the Solar Lords themselves do not always know in advance just what opportunities may present themselves which can be of blessing to the Earth at a given moment, we are dependent upon the ability to instantly contact unascended lifestreams who are our chelas and who have already designed their day, these chelas who are willing to accept our words in the outer mind. Now here is the test of pliability, the test of holding the balance of harmony when the entire mosaic of the individual's world is disturbed (shall we say, in regard to your carefully laid pattern). Then everything so planned must be laid to one side in order that we may be able to avail ourselves of a cosmic current for the blessing of the individual chela, as well as Earth's entire evolutionary scheme and the entire galaxy at this time!

Complete Self-Surrender Is "Listening Grace"

Now, beloved ones, you are earnest, you are honest, you are sincere and you are selfless (you think) but you have yet to learn the great self-surrender which is the "watchword" of the Fifth Ray upon which I serve! The service of this ray requires of every truly consecrated man and woman the state of "listening grace" of which my beloved Mary has spoken to you so many times, the discernment to be able to lay aside important matters, even the drawing forth and presentation of the beloved Morya's activity, if necessary. You must learn, beloved ones, to accept a difference in your pattern of rising, sleeping, eating and dressing and be always ready, like the Selfless Ones. You have been told that the Children of Shamballa have no place to lay their heads (which really means, no "set place" to abide).

The Children of Shamballa are those who are so free emotionally of family ties and obligations, so free mentally of the concrete pattern of daily living, so free etherically of resentment and rebellions against the changing of a pattern and so free physically through the disciplines of the physical self, that the vehicles can joyously respond and be moved from place to place as the Master may require a physical vehicle as a magnetizing center upon an instant's notice.

Now all through the centuries we have dealt with unascended beings who, first of all, have karma untransmuted from the past, second, have a great amount of logic and reasoning and they have to think over and ponder the reason and efficacy of a move until the cosmic moment has

passed and the great cosmic current which we have endeavored to anchor through such a one, is gone into another galaxy. We have had to deal with earnest and sincere chelas whose emotional bodies like “same-ness” and, beloved ones, as you pass on through the course of years, your physical vehicle becomes “set” into a pattern which is the result of the use of your energy (life). When that pattern is changed, the physical vehicle and the body elemental are not always responsive, although your heart’s light is!

Now we deal with a cosmic scheme. The Archangels and the Archaii paint truly upon a cosmic canvas. We have, thank God, insight into the divine pattern and plan of the universal scheme and we see, for instance, in the moving of a great Solar Body through the heavens, we see that there may be, for a twenty-four or forty-eight hour period, a tremendous radiation from this Solar Body which does not belong to Helios and Vesta and this universe. We see that that benediction and blessing can be magnetized and be made part of the redemptive process of Earth IF we can reach unascended lifestreams, sincere chelas, in time! Then, if they will put down their pencils and pens for a moment and seize upon that energy, drawing it into the atmosphere of Earth, it then becomes a permanent part of the planet itself.

Conscious Call From Earth Required

Now I can tell you that, through the ages, while I have served in this capacity as Archangel of Consecration and Concentration, literally millions of these beautiful Solar Beings, Cosmic Beings and Interplanetary Emis-saries have passed in the vicinity of Earth on a mission which originally did not include a particular benediction or stopping place upon the Earth at all. When there was in incarnation upon the planet Earth even ONE unascended lifestream whom we could contact and who would, of himself, prepare and reach up to that envoy, that Divine Being invariably stopped in solar flight and a portion of the benediction which he was carrying, maybe to an entirely different galaxy, was poured down to Earth according to the magnetizing power of the “cup” which is the consciousness of the chela we have contacted.

However, for the ONE for whom we have been able to make such an appointment, there have been millions of these Great Beings who have swept through the cosmos in the vicinity of Earth and have not been able to give their blessing here. You see, these Beings are absolutely obedient. First, they have a mission, second, they have a goal to which they

are going and they have no particular reason for releasing their blessing unless it is ASKED FOR by some unascended member of the planet in the vicinity of which this Cosmic Being travels.

Therefore, you can see that INSTANTANEOUS READINESS is absolutely essential to our being able to use the consciousness of our chelas, especially at this time. We are now dealing not only with the redemption of this planet's evolutions, but WE ARE DEALING WITH THE FORWARD MOVEMENT OF AN ENTIRE GALAXY. For this reason the Interstellar Highways between the galaxies (even as far as Alpha and Omega in the Great Central Sun) are now open and the cosmic emissaries who travel between the Suns of the system are often en-route from one star to the other.

Now, we would like to be able to seize upon as much of this light as possible, this light which is flashing backward and forward and yet shut out from the Earth and her people by the protective "Ring-pass-not" of Blue Flame which had to be created so that the discords of the Earth would not pollute interstellar space. It would be so wonderful and of such great assistance to us if you would try to prepare yourselves to magnetize such Beings. If you would care to do so, YOU COULD SO MAKE YOUR CALL AT THE BEGINNING OF YOUR GROUP ENDEAVORS (AND PERSONAL APPLICATION AS WELL), OFFERING ALL THE ENERGIES RELEASED DURING THOSE ACTIVITIES TO YOUR OWN I AM PRESENCE, TO THE ASCENDED MASTERS AND OURSELVES, OFFERING IT TO BE USED AS A MAGNET TO SO DRAW THESE BLESSINGS.

This is a completely separate activity from that of dedicating your meetings or personal application to a specific God-being whom you know by name. This which we are now asking you to do is to gather in Solar Forces which would otherwise pass the Earth by and which, by magnetization, can be utilized in this majestic process of redeeming the Earth and her evolutions.

Please do not change your pattern of dedicating your meetings to specialized Beings of whom you know and whose radiation you thus draw in, through and around you, but you are to remember that the great "unknown" divine intelligences are also passing through interstellar space and their radiation is available to you upon conscious request.

May we also suggest that the magnetizing of these Great Beings depends also upon your releasing a confident, positively qualified energy in your songs and decrees (either personally or in groups) for a lukewarm, slightly interested feeling released when participating in the group activi-

ties could not possibly draw the interest of such a Cosmic Being. Do you see?

Let us see how many of these great Solar Lords and cosmic messengers we can draw into Earth's atmosphere from now on – Beings who will greatly assist the Earth's freedom by the gifts which they are so willing to give, for they are always looking for opportunity to expand their light!

Incidentally, in the past, we have sometimes used your energies to call for such assistance, even without your conscious knowledge of our having done it. However, the requirement now is that you consciously make the call for this blessing.

May I tell you that already, today, while this meeting has been in session, we have been able to magnetize the presence of a great Solar Lord of the Fifth Ray who has now entered the Earth's atmosphere. At our request for his visit to Earth today to give his blessing, he has contacted his superior upon the Sun from whence he has come, and has obtained permission to stay with us for the rest of this four-day class. He is a guest of your beloved Adelpia, the great cherubim in charge of your “forcefield” here.

My beloved Mary (Mother of Jesus and Twin-Flame of beloved Raphael) and I leave with you the limitless blessings of our love and light, always!

(Note: During the class, there were four such Beings drawn; one belonging to each of the rays represented by the Archangels of the days, (Raphael, Uriel, Zadkiel and Michael). These blessings are, of course, eternally sustained and ever-expanding.)

CULTIVATION OF "LISTENING GRACE"

By Beloved Archangel Uriel

Sept. 27, 1957

Beloved ones, there are many God-blessings available to mankind which he could have and enjoy if he knew of them, as well as Ascended Master and angelic friends who can and will release those blessings into his experience at his conscious call! I KNOW, because in the activities of ministration, we work with the Silent Watchers who abide over every city, state, nation, continent and the planet itself. Of course, these Divine Beings neither slumber nor sleep and are therefore ever cognizant of the needs of the life evolving within the scope of their watchful care.

One of the very simple ways by which mankind could open their worlds to the greater blessings of and from the Godhead to them would be by cultivating, using and expanding the feeling of sincere gratitude for blessings which they are already enjoying. You see, mankind's conversation with God (their prayers) usually consist not of gratitude for what they have, but of such statements as: "Dear God! Why has this happened to me?," "I need help here," etc. Most of their prayers are truly cries of pain and distress and there are very few honest and earnest prayers of thanksgiving for the constantly flowing fundamental gift of life, as well as the benefits thereof.

Now, looking upon mankind and seeing how much grace has been given them by the beloved Neptune alone, in keeping the waters of the planet purified, keeping them clean as he has, also by his holding them in check and governing the undines so that they render the most perfect service possible, Virgo's constant release of the substance of her Being to create harvest after harvest, through Aries' tremendous activities of moving the clouds from place to place and releasing the waters in the form of rain when and where needed, as well as purifying the air by the mighty sylphs who have served mankind for ages, "unknown, unhonored and unsung," to say nothing of the governing of the fire element by the beloved Oromasis to transmute that which has served its purpose and therefore is needed no longer.

Without this assistance of the fire element, mankind would quickly smother in the midst of their own accumulations of discarded substance especially in the densely populated cities of the globe. All of these beings of nature and forces of the elements have served mankind for ages, "unknown, unhonored and unsung" and have assisted them from the time the "Holy Innocents" first took embodiment upon this planet. All this is

the benediction to man by God through these great intelligences who, individually and voluntarily, have foresworn the joys of the higher levels of consciousness in order to help the Earth's evolutions.

With all our hearts, we call now that the veil of maya may be quickly parted enough so that mankind will be able to see and know something of the blessings which he has been taking for granted for so long. Then will he begin to release more and more grace in the feeling of gratitude for gifts so freely given gifts which make it possible for everyone who lives upon this planet Earth to even have a foothold upon it. In fact, through the loving grace of Sanat Kumara, Polaris and Magnus, (the light from whose hearts forms the very axis of the Earth itself), this planet has been sustained in its service to life, which service has been and still is to provide a "schoolroom" for the life evolving upon her.

Real Gratitude To And For Life Is Grace In Action

Now, the cultivation of grace (which is the primary activity of my divine complement, Donna Grace), is a very wonderful pursuit. Grace always begins to manifest as a feeling of thanksgiving. A graceless person is a very unpleasant one with whom to associate. You know that it was said of Holy Mary, the Mother of Jesus, that she was always "full of grace." In your case and in the case of all those who represent the Ascended Master Saint Germain (one of the most graceful and gracious Beings in all the universe) I do ask that you all, individually and collectively begin to endeavor to really enjoy invoking the spirit of grace from my beloved Donna Grace. Try to be grateful for something every moment of the day. Try to find perhaps just one small thing in every life you contact for which to be grateful and in every activity of the day in which you engage. Doing this, gradually you will come into a state of grace which, by the way, is not a state of mind, but a feeling!

Throughout the centuries which have been, there have been courtiers and various individuals occupying diplomatic posts, representing various nations. These individuals go through all the motions of grace but, behind their actions is so often the motive of self-preservation or self-aggrandizement. Therefore, those individuals are not the "diplomats without guile" of which your beloved Saint Germain has often spoken, these are hypocritical! So, you may say "thank you" a thousand times in many ways, you may open the door for another like a real gentleman and say: "God bless you" but, if the motivating feeling within you for doing the act is not that of genuine love and gratitude to life for the exist-

ence of the other lifestream and his endeavors to promote and expand the activities of God (good) upon this Earth, then all your words of simulated grace are as nothing!

However, when the feeling of grace is released from within the heart, it really makes the hand-shake, the blessing, the benediction or even the small favor, a gift from God himself and the receiver feels that! You cannot deceive the feeling world of another individual unless he or she is under the influence of that destructive humanly created entity of flattery.

On the other hand, if the individual is honest, earnest and sincere and has been shorn of the capacity to allow flattery to swerve him from his purpose, the lifestream releasing the feelings of grace does reach the heart of the other, there finding an anchorage in the world of the one who seeks love, comfort and encouragement along life's way. Thus the blessing one is able to give his benediction.

Call For Feelings Of Sustained Grace

Constantly sustained feelings of grace create a beautiful world in which to live. When you and we come together in your group activities (and particularly when the Ascended Master gives an address), for an hour or so you are in our radiation and, therefore, in a state of grace, at least as long as the address is being given, the songs being sung and the visualizations held. However, almost as soon as our radiation ceases to directly pour, you go back into the vibratory action of your accustomed consciousness that which was familiar to you before. Because of this, you lose much of that radiation of sustained harmony which you so greatly need and which we are so desirous of anchoring in, through and around you, until we can say to the beloved Lords of Karma: "Every chela under this radiation is filled with sustained grace, is in a state of sustained harmony and is, therefore, a true representative of our beloved Saint Germain. Through that harmony, each one is able and willing to be a conductor of all the virtues of the Godhead to mankind."

If you think about it and about any of the Divine Beings, you will notice that wonderful grace in their nature. In the first place, they never come unless and until they are invited, they do not give advice unless they are asked for it, they leave when you are finished with their services and they are at hand again when you make conscious call for their assistance. These are the Selfless Ones who give all they are and have, asking no return to themselves but fervently hoping that their endeavors will

bear some fruit of expanding perfection in this world of form.

Now, that is what you aspire to! "Keep on keeping on" with these aspirations until each and every one of you is so filled with sustained grace that you are really like your Master. Can you think of our Lord Maha Chohan as being anything less than the fullness of grace in all his service? The beloved Morya, mighty Being of Fire that he is, is the most graceful of all the princes of heaven. As we have said, the beloved Saint Germain is so outstanding in his gracefulness that, when he moves into a room, when he raises his arms to give a blessing, when those lovely violet eyes flood forth their gratitude to the chela every gesture is a manifestation of such grace, such dignity and such love!

Continue To Aspire To Ascended Master Perfection!

As our Lord Raphael has said to you recently: "Do not feel that because you are not yet the full manifestation of the virtues of the Sixth Ray (ministration, grace and peace) that you are to feel discouraged in any way. This is simply something to which to aspire, a goal to reach. Since you do wish to be like the Ascended Ones here and now, why not let the gracious Spirit of the Sixth Ray flood into, through and around your world and be a benediction to your lifestream?

Let it guard and guide you and radiate out through you to bless all the life you contact. In order to so let this spirit act to and through you, you must, of course, give that spirit your conscious and undivided attention for a few moments at about the same time every day-rhythmically opening the door of your world (through your attention upon him) to the inflow of those feelings of grace which is actual light-essence, already God-qualified with the feelings of grace. Such feelings can never be re-qualified by the human. Do you see? Why not reach up and accept your daily blessings of grace in this manner?

Since you know of his presence, consciously endeavor to make friends with your angel of ministration. When you do, you will find yourselves gradually letting go of certain destructive habits which you have had since birth in this embodiment, those habits sometimes going back in your lifestream for perhaps many, many centuries. Then you will begin to come into that New Era in your life of more graceful living, where your Holy Christ Self will be able to expand itself through you in youth, beauty, honor and dignity.

Beloved Raphael recently has said that the habits and momentums of the ages have become very powerful currents of energy sometimes

really “rivers” of force. However, there is nothing more powerful in this universe than the God-feelings of grace and peace. The strongest man alive is the man who can hold peace in the face of every aggravation and the weakest one is he who cannot hold that peace! So, never let it be said in your presence that a peaceful person is a weak one. Not a lethargic type, but a truly peaceful individual (like Gandhi, for instance) is a power for God in this physical appearance world.

Jesus Christ was a most peaceful man and yet he was a power indeed, stronger than all the human appearances around him – even that of so-called “death.” Do you think for one moment that our beloved Jesus came by that peaceful control of energy just automatically? No, beloved ones, every instant from the time of his conception by the beloved Mary did his Mother and Father consciously hold around his form the vibrations of Cosmic Christ Peace. Then, when he later became cognizant of his own individualization in the body of Jesus, he was also trained to sustain that peace by beloved Mary, Joseph, the Ascended host and, particularly by the angels. Do you think he could have walked through the multitudes untouched by their doubts, fears and general distresses, do you think he could have raised Lazarus from the so-called “dead,” make the blind to see, heal the lepers and continue to keep his devoted and well-meaning (but not always understanding) disciples united enough in purpose to form the heart-center of the Christian Dispensation, had he not had a strength which was greater than any human appearance, even “death” itself?

Jesus could not have walked up the hill of crucifixion had he lost his feeling of peace, had he allowed the hysteria of the mob and even of his own followers to frighten or affect him in any way. He could not have manifested the mastery on Golgotha's Hill, nor the resurrection of his outer form on Easter morning, nor the victor of his public ascension later, had he lost his peace, even for one moment! Both Mary and John gave him great assistance, of course, but he had to hold that peace within himself, peace in his emotions, mind, etheric body and even in his flesh! IF ONE HAS DONE IT, ALL CAN DO IT! What he has done, YOU CAN DO ALSO!

Sometimes the tensions and pressures of the human – serving in this appearance world, even in divine service, are such that one wearies a little of the “sameness” of activity, sometimes you even weary, a little in well-doing. However, I venture to say that, were any of you in this room temporarily to be freed completely from the physical appearance world for about forty-eight hours and then were asked if you would care to

come back and finish your task, you would most joyously do so. Often, when serving begins to become a burden upon an individual, it is just a good rest and “change of scenery” that is necessary to allow the outer self to regain its balance of energy and, in re-consecration by the beloved Raphael, return to his service with renewed enthusiasm!

Thank you for being in service thus far and for loving us. From the Elohim of Peace, Donna Grace and myself, the benedictions of our hearts' love!

THE MASTERS OF WISDOM SPEAK

THE CO-OPERATIVE SERVICE OF THE ANGELIC HOST WITH MANKIND

MAHA CHOHAN

There is no planet in any universe which has survived and fulfilled its divine destiny without the presence and assistance of the angelic host. When the angelic host leave a planet, that planet is on its way to dissolution. When the angelic host come into closer and closer communication with the evolutions of a planet, it is a sign to all who know that a next Golden Age of perfection is already dawning on the spiritual horizon. That is why the Spiritual Hierarchy rejoice at the ever-increasing awareness of the human race as to the existence of the angels as real, intelligent, co-operative beings, who can and who do (when invited) assist in establishing the kingdom of heaven on Earth. Who, better than the angels, know what that kingdom is? It is their natural home and their willingness to create a similar experience of perfection on the Earth which is a free-will choice to remain and to assist in the development of that perfection for the benefit and blessing of the race. Please, therefore, send your gratitude daily to the angelic host and their Lords, the Archangels, for being so willing to assist mankind in this hour!

EL MORYA

Obedience to God, the creator of all good, is the nature of the angelic host. Absolute faith in the “all power” of their God to render so-called “miracles,” is their feeling. Respect for the free-will choice of the individuals embodying upon the Earth draws them only to those who can believe in them, love them and desire to serve with them. Their inborn courtesy does not allow them to act in the worlds of those who reject

them. Thus, an increasing awareness of their presence and an ever-increasing demand for their assistance is very powerful magnet which draws them close to the people of Earth and, particularly, to those who want to have a conscious contact with their radiant presence.

Among his many diversified pursuits, the chela is wise to develop in the consciousness of those who come within the compass of his personal sphere of influence, a consciousness awareness of these (to the human) unseen but powerful helpers. This can be done most efficaciously when the chela, himself, has accepted in his own feelings the existence and presence of the angels here.

The development of such a conviction of the presence and reality of the angelic host can be individually activated in the feelings of the sincere chelas by thinking upon the angelic host, inviting them to assist him, contemplating their pictures and, generally, consciously impregnating the outer consciousness with the words, instruction and radiation of the angels.

When the chela has proved to himself, without any doubt, that the angelic host are real, then that chela's aura forms a positive pressure of conviction of the presence of the angels into the worlds of those he contacts from time to time. When a chela is doubtful as to the reality of the angelic host, all his endeavors to convince others of lesser light of the reality of the angels, will have little effect upon the consciousness of those who are skeptical and unbelieving.

Mankind, enmasse, are swayed mostly by the feelings of those around them. Therefore, in 1958, we ask you to make the angelic host your daily companions and thus, through your feelings of their reality, you will do much to help in re-establishing the spiritual partnership between the angelic host and mankind. TRY! Not through effort of human will, but by the very pleasant exercise of practicing, through your own thoughts and feelings, to gain the acceptance of these angelic beings so that they may come into your auras, homes, worlds and affairs. Thus you serve the Ascended Master Saint Germain, whose assignment is the uniting of the kingdoms of angels and of men in this New Golden Age which he is destined to externalize.

KUTHUMI

Angels are, primarily, beings of feelings. Therefore, intellectual accretion (even of spiritual knowledge) does not magnetize their presence. They are drawn by the sweet essence of love, which is emanated from the heart of man. As angels do not cognize form, it is not the empty shell of thought creations but rather the perfume, color and virtue of God-feelings which magnetize them. Thus, when a planet (still in form) ceases to radiate love, the angels recede! When a planet, together with its evolutions, learns to radiate love, the angels come ever closer into association with the evolutions thereof, thus creating the cooperation so much desired to enable perfection to be expressed upon that planet.

The "Open Door" through which they come into the atmosphere of any planet is the feeling released there from of love for God, the Universal I AM Presence and for the angels themselves. If it were not for the direction of the great Archangels and the Archaii (Twin-Flames of the Archangels), together with the love of Sanat Kumara and those who cognized the angelic host upon the Earth through the ages (since the angelic host were repudiated by the masses of the people), the angels should have long since returned to their heavenly home. Then the Earth itself eventually would have ceased to be and her evolutions would have been thus deprived of a planetary home upon which to fulfill their divine plan.

Learning of the nature of the angelic host, accepting their help, serving with them consciously, in love, is the assignment of every sincere chela of the Ascended Host for the year 1958! They are powerful allies! They are essential beings in the redemptive processes now going on in Earth's atmosphere and we cannot urge you too strongly to help us in expanding the acceptance of their presence as part of the Earth's redemptive process at this time!

PAUL (THE VENETIAN MASTER)

Why is the angelic host such an essential part of the sustenance of a planetary evolution? Because they embody the virtues of God, himself. They keep alive radiating centers of these virtues in the lower atmosphere of Earth and these virtues kindle the spiritual centers in the hearts of men. Were the angelic host to remove these radiating centers of God-virtue, man would have only the effluvia of human discord to feed upon. Soon such a "diet" would cause spiritual starvation and the ultimate removal of man from the planet, as well as Earth's actual dissolution as a

schoolroom of spiritual development.

The angelic host are really “cosmic incubators” for the dormant virtues in the mankind of Earth, as well as the stimulators of the development, through self-conscious endeavor, of those virtues through the people of Earth. Through the rip-tides of human creation, the angels’ flashing colors shine brightly, their virtue “flows out from them” as did the virtue of God flow forth from beloved Jesus, himself. As we on the Third Ray are particularly interested in helping man to externalize his potential divinity, we are also extremely grateful for the constant, patient, loving presence of the angelic host who assist us in this endeavor.

SERAPIS BEY

The seraphim, as messengers of God and his divine court, play an important part in the redemption of the Earth and its evolutions, because they bring to those alert enough to accept their messages, the directions from “on high.” The seraphim are not concerned with the acceptance of their messages by human kind, but the beloved Archangel Michael, as Prince of the Heavenly Host, is particularly concerned with the reception of the Seraphic Beings by those qualified to receive them. It is he who protects earnest and sincere individuals from acceptance of impostors in the realm of the “unseen,” who pose as angelic messengers. These sometimes lead the credulous but indiscriminate to accept “messages” purporting to come from the divine realms but which in reality come from unascended beings, elementals and capricious spirits in the “unseen” realm who desire to have “sport” with mankind.

Whenever such a “visitation” takes place, the earnest chela, calling to Lord Michael, will have instant relief from the lesser spirits in the “unseen” realm who desire to have “sport” with man the protection and support of the true angelic host. Discrimination upon the part of the spiritual pioneer is essential to progress. However, where such discrimination is not yet present, Lord Michael gives the protection of his entire kingdom to the individual whose motive is right, but whose discriminating faculties are not yet developed to a point wherein he can cognize the true messengers of light.

While walking the narrow path that leads upward into a lasting association with the Cosmic Beings, Ascended Masters, angelic host, seraphim and cherubim, wise is he who asks for the protection of Lord Michael and his legions against any seen or “unseen” power which seeks expression through him. Such an invitation to Lord Michael brings instan-

taneous results. Many hesitate to make such an invitation because they enjoy their temporary “prestige” as a channel for these powers which awe their fellowman. However, the chela with a sincere motive to promote the development of the kingdom of angels and men will not hesitate to invoke the light of Lord Michael into any and all such experiences. If they are of God, they will endure. If they are not of God, they will pass away.

HILARION

The angelic host have not been considered as a scientific element by many sincere devotees. Yet that is their actual service to life, because they raise the quality of energy wherever they are present. No two qualities of energy can exist at the same place, or in the same consciousness, at the same time. Therefore, from a purely scientific point of view, the angelic host are a mighty power in the redemption of misqualified energies. Why? Because the radiation of their auras is positive, constructive, uplifting, pure and perfect. When that radiation infiltrates the atmosphere of the planet and her evolutions, it changes the quality of energy of the entire race, bringing all into harmony and peace.

The angelic host have full mastery over the qualification of energy. Mankind is upon this Earth to learn such mastery. Are there any better teachers than those who have already expressed that mastery? I think not! If you are not able to successfully qualify your own energy constructively, the angelic host will help you to do so by offering the proximity of their presence to you and the full pressure of their auras will raise your own energies scientifically into a constructive, happy radiation. Try! You have nothing to lose but the discordant feelings which bind you and everything to gain by the acceptance of the constructive feelings which give you peace and harmony and all the attendant blessings that will fill your worlds when such peace and harmony are sustained.

The angels who serve under the Archangels of the Seven Rays have particular positive gifts of radiation which they offer to you. Experiment with inviting them to help you to feel those gifts and prove for yourselves how powerful an influence for good the angelic host can be in your lives. When you have proved this for yourself, you are then in a position to convey the results of your personal research and attendant mastery to others. Your own conviction will be the strongest “persuader” in your mission to promote the existence of the angelic host to your fellowman.

JESUS

I had a constant association with the angelic host during my ministry and I can honestly say I would not have been able to successfully fulfill my mission without their assistance, protection and fellowship. I am eternally grateful both to my mother and to my father for their belief in and acceptance of the angelic host, so that my consciousness was nourished always by the acceptance of the reality of the members of this glorious kingdom. Poor in spirit is the man who has neither belief in nor association with the angelic host.

You who follow me will do well to accept the angelic host as your helpers for, whatsoever mission the heavenly Father sends you upon, you will require the sustaining power of the angelic host to fulfill that mission successfully. Even though I was born without personal karma, the tremendous blanket of human creation which enshrouded the planet at that time was a weight so heavy that I required the buoyancy of the angelic host to be able to hold myself above this human creation in thought and feeling. The auras of the angelic host truly created a protective wall of light around me and enabled me to hold fast to the contact with my heavenly Father and my Guru (Lord Maitreya), even during the times of greatest trial and personal persecution. These same Beings will so assist you, if you will invite them so to do! In 1958, please endeavor to cultivate a joyous realization of the angelic host and their earnest desire to assist you in the performance of every constructive activity. You will be delighted at their response and enriched in soul and spirit by the proximity of their presence.

SAINT GERMAIN

As all students know, the new Golden Age will combine the assistance of the angelic, human and elemental kingdoms. We are, therefore, so grateful to every religious channel which has brought to the minds of man a greater knowledge and understanding of the angels' service. We are extremely grateful that the bridge between the angelic kingdom and that of mankind grows steadily wider and that more and more of the angelic host are crossing that bridge into the worlds of those still unascended who can accept them. This is of great inner significance to those who hold the Earth's divine plan in mind and heart and spirit.

The angelic host are particularly helpful in the performing of ceremonies that raise the vibratory action of the emotional, mental, etheric and physical consciousness of the race. When the angelic host and mankind can consciously participate in such ceremonials, your hearts will be delighted at the beauty and perfection of the worship of the New Day.

Some attempts have already been made to effect such a cooperative ceremony and, as the chelas understand the nature of the angels and their specific services, these ceremonies will be much more efficacious. Thus our gratitude does flow to all who have enabled us to present to the consciousness of mankind the particular gifts of the angels of the Seven Rays.

I anticipate a great mass awakening to the reality of the angelic host in 1958. The beloved Archangel Gabriel, assigned by the New Lord of the World to be one of the sponsors for 1958, will be of inestimable value in stimulating this endeavor. You, too, as you study all available information already presented about the offices, services, virtues and gifts of the angelic host, will be qualified to assist Lord Gabriel in his service. Blessings of God, success, beloved chelas, upon your earnest endeavors to better know and consciously associate with the angelic host! These efforts are the open door to their presence in your midst!

With you, I am anticipating a glorious New Day when angels will again walk and talk with the people of Earth. God hasten that day!

ACTIVITIES OF THE VIOLET FIRE
Beloved Archangel Zadkiel

Sept. 28, 1957

I AM Zadkiel, High Priest of the Order of the Violet Fire, that Sacred Fire which is given into your use through the mercy and compassion of almighty God, your creator. Today we are intensifying the purifying, forgiving and freeing activities of that Violet Fire on a planetary scale.

The beloved Polaris and Magnus (the light rays from whose hearts form the actual axis of the planet itself) have projected and are sustaining up, in, through and around the Earth (from the very axis itself) the most powerful concentrate of Violet Fire which has yet come forth to the Earth from the heart of the physical Sun. This cosmic intensification of the Violet Fire is under the direction of the great Arcturus and his twin-flame Diana and this activity shall continue to expand and expand through the very substance of the Earth itself, through the water element and through the air, then through the physical, etheric, mental and emotional bodies of all mankind, as well as through all Earth's evolutions still unascended.

Thus is drawn that magnificent forgiving, freeing power of the Sacred Fire which transmutes discordantly qualified energy into light! I ask

you to prepare yourselves daily for this greater purification by remaining as much as possible within that Violet Fire, repeating often your decree which calls on the Law of Forgiveness for every impurity, error and obstruction which you have ever imposed upon life, or that some part of life seemingly has imposed upon you.

Let that Violet Fire blaze up, in, through and around your four lower bodies (especially through your brain structure), commanding it to transmute the hard and unforgiving thoughts and feelings in your etheric, mental and emotional bodies. These “hard” feelings, incidentally, are the causes and cores of most of your distresses. Then let these be replaced by grateful, joyous receptive feelings which open your world to the goodness of God and make you a mighty magnet to draw to you all the good God wants you to have, all the good you knew and had with him in the beginning, before the world was! Then shall the feelings of gratitude to the Father for these gifts so flood your world that you will be able to more quickly outpicture the very Spirit of the Third Person of the Trinity (The Holy Spirit), represented to this planet by the Mighty Being whom you know and love as our Lord Maha Chohan.

Activities Of Violet Fire Vary In Different Spheres

Beloved ones, as we have told you, all the activities of the Violet Fire are not identical in every sphere. This has aroused a little curiosity, in the minds of the “research” members of our activity, so I shall endeavor to explain.

In any realm where no imperfection exists, the Violet Fire is utilized by Cosmic Beings, Ascended Masters and the angelic host, to etherealize a form which has served its purpose for being. For instance, let us take the First Sphere which is the natural habitat of the Archangel Michael, beloved Morya and Hercules, into which ideas of the Godhead first flow. The Beings of the Blue Ray are in constant busy service there, endeavoring to utilize those ideas for the ever-expanding blessings of God to man.

Each of those ideas has a heart-center, which represents the magnetic power of the immortal Threefold Flame of Eternal Truth which abides within your physical heart and renders that service of cohesion to you.

Later, around those ideas the Beings of the Second Ray coalesce the form thereof. These ideas are tremendous in their scope and there is no human mind which can describe them! However, if the Great Beings in the First Sphere, by looking at the Cosmic Screen (not only for this planet

Earth but for all this entire solar system), see that those particular ideas cannot be efficaciously used at that time, what do they do? These great Beings then invoke and project the Violet Ray into that idea and, by the activity of etherealization, they release the substance within and around that form, letting it return to the universal from whence it came, to be used again in the future for some other purpose and form. The conservation of energy in heaven's realm is most magnificent indeed! Even in the realms of light, no Perfected Being would ever hold in form any substance (which is really the body of God!) after it has served its purpose and has completed its course of manifestation.

Etherealization through the conscious use of the Violet Fire is well known on all the planets of this system and was used here on Earth by your own dear selves before you forgot the way back "home." At the completion of a designated life span, etherealization is the way and means by which the people of Venus, through conscious endeavor, transmute into light (leaving no residue behind) the physical vehicles in which lifestreams have functioned. Conscious etherealization can be used by any man, woman or child on this planet Earth who will consciously, lovingly and gratefully call forth the Violet Flame.

God-Given Free-Will Always Paramount

Now, let me hold your attention for a moment upon the difference in activity between the ray and the flame. When self-conscious intelligence within itself wills to create, its first activity is to send forth a ray. The length of that ray, the strength of it, the sustaining power of it, all of these are determined by the service that ray is to render and the place to which it is to go. Because the nature of all fire is always to rise, when that ray reaches its destination, it instantly bursts into living, rising flame as it returns to its source, in order to complete the cycle of its existence. (The Law of life is a circle, as you know, and all eventually returns to its Source!) So, first you have THE RAY, then you have THE FLAME! Now, let us make this as simple as we can.

When your God-parents in love desired to create each and every one of you, what did they do first? They sent forth a light ray from their own hearts into universal light-substance, at the termination of which was formed the immortal Threefold Flame of Eternal Truth, within which abides the REAL YOU! That ray was not too long in the beginning, because the God-parents desired to keep you within the compass of their own auras for a time.

Then universal light substance coalesced around that immortal Threefold Flame and the White Fire Being came into existence. As soon as the intelligence within the White Fire Being cognized itself as an individualized part of the God-life of the universe, that instant it was given free-will choice as to whether or not it would continue as an individualized part of the Creator, drawing more of his energy into that immortal Threefold Flame within its heart, which would enable it to create as the Father creates. Cognizing itself as "I AM," the immortal Threefold Flame in the I AM Presence, through the exercise of its God-given free-will, could refuse self-conscious individualization. If it did so, that Threefold Flame then was drawn back by the God-parents into their own hearts. (I believe this has never been explained to you before.)

So, let no one ever tell you, beloved ones, that you have conscious being regardless of your own desire or will, or that you had being, even at cosmic levels, (before you took any physical embodiment) without the assent of your own free-will! For every individualized White Fire Being (Cosmic I AM Presence) who accepted the responsibility of being a co-creator with the Father, there were at least a dozen or more who chose to return to the universal, because it was more comfortable just to remain a part of the whole, rather than to take the personal responsibility of individualization and the use of life's energies.

Therefore, you have the ray from the heart of the God-parents, at the termination of which arises the immortal Threefold Flame, and you have the self-conscious intelligence within that flame, cognizant of its own being, making its first choice as to whether to become a co-creator, or to return into the heart of the God-parents from whence it came.

The use of this same principle of free-will continues on through the division of the White Fire Being into the twin-flames. Perhaps one twin-flame will choose to associate itself with the beings in the First Sphere and the other may go on to the Second or Third Sphere, each having as much freedom and opportunity as he desires to draw from the cosmic ray of his God-parents whatever he requires to fulfill his divine plan.

Naturally, the source of every ray, flame and virtue is the heart of God! In the case of this universe, the beloved Elohim Arcturus and his Twin-Flame Diana drew that Violet Ray and flame from the Sun of this system in the very beginning of the creation of this Earth, making it available for use on our Earth in beings at inner levels who were serving the planet and her evolutions. Then, through the process of "stepping down" its vibratory action and power, that Violet Ray and Flame were made available for us to use in any sphere where they would be con-

sciously called forth by any and all who sincerely desire their beneficent assistance. However, here is the point we would like to make:

The ray strikes downward to the point where the call has gone up, where the magnetic pull of energy consciously invokes it, then, beginning the return to its Source, that ray becomes a flame, which rises upward because, as has been said so often, it is the nature of the flame always to ascend! Inasmuch as LIGHT IS LIFE, God's own life the substance of the ray and flame which have come forth as the result of someone's conscious invocation, that light is the very life-essence animating any project or activity.

That is why so many good "movements" of a spiritual as well as of a secular nature cease to have life when the magnetizing lifestream in physical form takes his or her departure to inner levels in so-called "death." As a rule, the followers of the doctrine which that one had magnetized do not fully understand this power of invocation and its use and so they accept and use the harvest which was the result of the magnetization of the ray by the founder of the "movement" and the establishment and sustenance of the flame by that one. Usually, such followers do not understand that that flame must be rhythmically called forth and nourished by daily application. Otherwise, the flame will ascend right back to the Father from whom it came and the sustaining power of the activity, therefore, ceases to be in this octave.

When you want the Violet Fire of freedom's love, mercy and compassion to act in the physical appearance world, you invoke it in the name and authority of your own God-self, your own individualized I AM Presence. The Violet Ray and Flame have become more and more powerful as they have been called forth all through the ages, in every sphere, by every Divine Being, as well as by the nourishment of those Great Beings who have served and drawn forth this ray and flame right here on Earth (including the great Sanat Kumara himself). At your call, that ray and flame will answer you instantly because the immortal Threefold Flame of eternal truth which lives right within your own beating heart is the divine magnet which the Violet Flame lovingly desires to obey! Then that ray immediately becomes a living flame and begins the process of ascending. This, again, represents the dual activity of centripetal and centrifugal force.

Now, to sustain the Violet Flame in this physical appearance world, there must be self-conscious lifestreams to act as magnets for this flame, with willing minds and hearts and an understanding of the efficacy of this application. These lifestreams should continue joyously to draw that

flame and rhythmically bathe the physical, etheric, mental and emotional vehicles of themselves and the entire race in that Violet Fire. Thus they sustain its action here in Earth's atmosphere.

Great Opportunity Now for Use of Violet Fire

In these days when the activities of the Seventh Ray are so much in evidence and the reign of our beloved Saint Germain as Chohan of the Seventh Ray has already begun, you have great opportunity to call forth this Violet Fire into this physical world around persons, places, conditions and things where it is most surely needed. To have the most efficacious use of this purifying activity of the Violet Fire, I am going to try to bring to you today a realization of the importance of RHYTHM in your use of it. IT IS BETTER TO USE THE FLAME FOR SHORTER PERIODS AT A TIME AND NOT TO STAY AT IT TOO LONG. It is much better to call it forth more often, for shorter periods at a time, in a RHYTHMIC activity as we have suggested to you time after time.

Set aside some uninterrupted time each day, if only five full minutes at a time, (say three times a day, morning, noon and night) to invoke that Violet Flame, calling for it to blaze up, in, through and around you, at that time giving conscious recognition to the Great Beings who serve it and who have sustained it all through the ages by the gift of their own life. FEEL ITS ACTIVITY in, through and around you, then expanding out into the world about you which require, it so much. If you will do this, not tiring of the exercise or considering it a chore, but with a consciousness of joyous gratitude for the use of this merciful transmuting power which is yours as a glad free gift of love from your heavenly Father (your own individualized I AM Presence), there is no reason why this Violet Flame cannot be externalized in this physical appearance world, visible and tangible to the physical sight of all that sees.

On Atlantis, long ago, we did externalize a gigantic focus of this Violet Fire and it's radiating flame was seen by the physical sight of all for a distance of a thousand miles in all directions! Of course, this was done before the radiation and followers of the "black order" descended upon the disciples of the true way and destroyed the priesthood through the imposition upon the consciousnesses of the people of skepticism, fear and various negative qualities. While this flame was visible there, beloved Amethyst (my own divine complement) and myself, or some priest and priestess of the Violet Fire from the divine realms, stood with arms raised and invoked that Violet Ray until it appeared right here on the

physical surface of Earth as a gigantic pillar of flame.

In order to keep that purifying activity of the Violet Flame in Earth's atmosphere, it had to be consciously called forth once every hour during each twenty-four hour period. If this had not been done, there would not have remained enough priests and priestesses true to the "White Order" to have made it possible to transport to safe locations on the planet the other concentrated flames of various God-virtues from the Island of Poseidonis, which was the final remnant of the Continent of Atlantis to sink beneath the waves in a cataclysmic action.

Avoid Tension In Application

Beloved ones, the use of the Violet Ray and Flame IS SO PRACTICAL! We see that there is often quite a tension manifesting in your outer consciousness when you have endeavored sincerely to magnetize a divine quality and virtue to act in your world and your endeavors have extended over quite a period of time. Sometimes these qualities do not manifest for you as quickly as you would like and you find your outer nature is not outpicturing this which you so desire and for which you have been calling for so long. I implore you, please do not allow those feelings of fear, doubt and discouragement to remain in your world and to register within your etheric bodies (memory worlds) because, in essence, they are really DOUBT OF THE TRUTH AND EFFICACY OF SPIRITUAL LAW!

The moment you become tense in your application or the moment you sense within yourself a feeling of strain in applying the Law, that moment your feeling world has questioned THE ABSOLUTE SCIENCE OF THE MAGNETIZATION AND RADIATION OF THIS FLAME. If this occurs, just let your application alone for a while, turn your attention to something else. Later, when you have quieted your feelings again, call upon your Ascended Master Friend of Light (whichever one or more of us you desire) and ask that one to give you HIS FEELING OF THE EXACT SCIENCE AND ABSOLUTELY UNFAILING LAW which is within the magnetizing and radiating of this virtue of freedom! Believe me, YOU WILL RECEIVE THAT FOR WHICH YOU ASK! Be still for a moment, however, AND WAIT FOR THE MASTER'S FEELINGS to flood your own emotional bodies (feeling worlds). You see, it is the TRYING TOO HARD, the striving, through over-conscientiousness (in essence) which delays so much of your manifestation.

Now, some of you have chosen to magnetize virtues which, through an honest introspection in the private chamber of your own heart, you

have found were lacking in outer manifestation in your world. That is very commendable, indeed. The average person usually chooses to do the thing he likes the most and turns away from that at which he is not proficient. For instance, it is easy for the musician to play because it is a natural talent in his lifestream and he loves to do it. The aeronautical pilot likes to fly and individuals who, for ages of time, have builded momentums in the Causal Body of the God-virtues of peace or healing, love to rest comfortably within the magnetizing and radiating of those virtues which, to all outer appearances, are really a natural release of that lifestream. However, in order to become a well-rounded individual completely, master of all the substance and energy of one's whole lifestream, it is much more commendable for one to choose to magnetize and radiate a virtue which is not already a manifest part of his personality. To those who will so endeavor to "round-out" their lives shall be given added assistance from our realm.

Consciously Put Your Faith In God's Unfailing Law

Dear hearts, beloved Saint Germain and I have talked together so often on just how, in the most efficacious way, we could present to you THE ABSOLUTE UNFAILING LAW OF THE USE OF THIS VIOLET RAY AND FLAME, so that you can and will use it with faith, confidence and certainty, as do the Ascended Hosts of Light right here in this physical world. Every time we come to you, we bring a concentrate of that Violet Fire with us and, during the time we are with you, you are buoyed up to a certain extent by the feelings of OUR CONFIDENCE IN ITS REALITY AND USE, some of the substance of that ray and flame remaining permanently in your worlds.

However, when you return again to the experiences of your daily living and the limiting shadows of human creation seem still to appear in your own experience, it seems difficult for most of you to stand alone with your God, judging not according to appearances, giving all power to the transmuting activities of the Violet Fire of freedom's love to remove those shadows, letting that Violet Flame replace them by perfection's light. THE VIOLET FIRE ALWAYS LEAVES A RESIDUE OF ITS OWN SUBSTANCE OF DIVINE LOVE wherever it passes through.

THINK! JUST WHERE ARE YOU PLACING YOUR FAITH? Where are you allowing your faith to abide? Where are you placing the power (which is really YOUR OWN LIFE) in the appearances which plague you, in the appearances which displease or in Almighty God and his virtues and rays?

These are as available to you at your conscious call as the air you breathe, the water you drink and use for bathing purposes and the Earth which you use as a platform beneath your feet. Did not beloved Jesus say: "For everyone that asketh, receiveth!"

The Violet Ray and Flame are tremendous momentums of God-power. Perhaps you will remember that the beloved Sanat Kumara was the very first Chohan of the Violet Ray to this Earth and our beloved Kwan Yin (Goddess of Mercy) was one of its Chohans also. Beloved Saint Germain, long before his ascension in 1684, knowing of the conditions upon this planet and realizing the tremendous necessity for the purification of the energies of the planet and her evolutions, volunteered to have that Violet Ray really grafted into his own heart. Thus he came into embodiment, century after century, as the most powerful concentrated radiating center of that Violet Ray and Flame until the very places where he lived and everywhere he moved, the scent of violets was clearly discernible and rays of violet fire energy drove into the actual substance of Earth.

I can tell you that, when mankind have ceased to feed their various differences, individual, national and international, when the surface of Europe is cleansed of the distressing wars and "blood baths" which have been perpetrated there, (this impurity not only upon the surface of the Earth but within its substance also), man will find that every place where "The Wonderman" of Europe walked, there are deposits of the amethyst jewel. One day these will be found by those embodied here and utilized as talisman of the virtues of freedom and will be carried from wherever they are found to places all over the world.

Even in this country, every place where our beloved Saint Germain has walked, there are deposits of the magnificent amethyst deposits created by his invocation of the Violet Fire into those localities, his love for the Violet Ray and his constant and absolute devotion to it. Wherever the jewels of the Violet Ray have come forth in commercial pursuits, some member of the Order of Zadkiel had a temple in that place at one time or another and had utilized the vibratory action of the Seventh Ray there.

So, the people who wear the Amethyst jewel upon their person are really using the condensed energy of prayer force, invocation, power and magnetization of the priests and priestesses of the Order of Zadkiel. Every individual who has personally benefited from the commercial sale of this life essence (the amethyst), owes to the Order of Zadkiel a certain balance in service to life for the profit which they have created from the

use of the energies of the brothers and sister of the Violet Ray, condensed in the form of this jewel.

In the days and years ahead, when the greed and selfishness of mankind have been removed completely, cause, effect, record and memory, when each lifestream is anchored within his own heart flame and he is able to magnetize and radiate the substance required to precipitate the food, clothing, housing and general sustenance of the body, when there is no longer any fear of lack, these magnificent jewels which are now held within Virgo's own body will be released again into the use of mankind. Then they will be used mostly to adorn the temples or as foci (talismans) to magnetize more of the virtues of the Seventh Ray from the Godhead. The great gold deposits now safely kept secret will also be released for the use of all, not so much for personal adornment but to use in many, many ways to bring forth the beauty and perfection here which will make our planet like unto the kingdom of heaven that perfection God created here in the beginning and which he desired to have sustained forever.

Violet Fire Also Active At Inner Levels

At inner levels of consciousness below the perfected realms, just what does the Violet Fire do and what is the service of its ministering angels? As you have been told, there are limitless legions of Angels of Mercy and Compassion (qualities of Violet Fire) who give as much service as they can in the astral realm. This is the realm which constitutes most of the Earth's atmosphere, in the past and up to this time, for that realm extends out from the Earth about ten thousand feet. In this realm abide the destructively qualified thought and feeling forms, created and released by mankind during embodiment here and, until a year or so ago, souls who had passed from physical embodiment but, because of certain magnetic attractions to the discords of Earth through habits of thought, feeling, spoken word and deed of a like nature, were often bound in this realm for long periods of time.

This condition, as you know, has now been remedied and no soul is allowed to remain in Earth's atmosphere after leaving the body. They are taken directly through to inner levels where they are assisted in gaining their freedom more quickly. This is one of the tremendous mercies of the great Cosmic Law which has been recently made possible during the last few years in particular by the calls from unascended mankind for the use of the Violet Transmuting Flame and other activities of the Sacred Fire.

Today there are no discarnate souls allowed to remain in the atmosphere of Earth. Now, as a soul leaves its garment of flesh in what the world terms "death," that one is met by certain angels who render that service. These souls are then taken (I am speaking of the masses of mankind now who know nothing of the use of the Violet Fire as you do) to the "river" of that Violet Flame (spoken of in mythology as "The River Styx"). This river has been provided at inner levels for the purification of those lifestreams from as much discordantly qualified energy as possible, before either going to the "Sleepers' realm" (if they need that rest) or before appearing before the Karmic Board to receive their assignments of study and service at inner levels between embodiments. You see, this astral realm, which at present extends around the Earth up to about the ten thousand foot altitude, is that realm in which the outer bodies, minds and feeling worlds of Earth's evolutions abide. Therefore, you can easily see that these angels would be very, very busy every moment of the twenty-four hours as you count time.

This river of Violet Fire of which we spoke above has been drawn forth by those who serve the Seventh Ray according to the same principles which we described to you earlier in this address, the drawing first of the ray through invocation to the Godhead, in the name and authority of the creative word "I AM," then as that ray reaches the destination into which it was called forth, it immediately turns upward in the living flame activity, as it returns to its source, completing the circle of its existence. As this invocation is rhythmically continued day after day, year after year and century after century (in the case of the angels who have drawn this River of Violet Fire), this ray and flame become very, very powerful and expand in size until they become a veritable "river" of this merciful, purifying, freeing essence, into which the evolutions of Earth may be taken between embodiments for as much purification as possible. This "river" has been sustained by the constant, never-ending, rhythmic calls of these angels at definite periods during the twenty-four hours.

The beauty of this Violet Fire River is indescribable, therefore its appearance does not frighten these souls who have passed through the change called "death" when they are invited to step into it and bathe in its substance. This Violet Fire then dissolves much of the causes and cores of the physical distresses of the individual's past Earth-life, especially those which caused their recent demise.

Legions of Violet Fire Angels surround the Halls of Karma as the soul who has just been released from an Earth life is called to appear before the Karmic Board. These angels provide an atmosphere of purifying Vio-

let Fire there so that every soul who, as he appears before the Karmic Board, must pass through their radiation as they enter these halls. Then, when the souls are given their individual assignments for instruction and assistance between embodiments, some of these Violet Fire Angels go with them to their places of abode at inner levels. While in these inner spheres, the Violet Fire Angels often use a very delicate shade of violet so that, as easily as possible, they are able to minister to these individuals without arousing the rebellions and resentments of their inner bodies by too quick or powerful an activity, even of the Mercy Flame!

Again, before entering the Gates of Birth, when the soul who desires to re-embody stands before the great Karmic Board to ask permission to do so, these lovely Angels of Violet Fire stand around the Karmic Halls, circle after circle, tier upon tier, as far as the eye can see! The love and beauty of these Violet Fire Angels is simply beyond description! Here again they provide an atmosphere of mercy and purification to assist the soul who needs their help.

Especially since the advent of the Seventh Ray to this planet, whenever and wherever possible, the angels of Mercy and Compassion go with an incoming soul, going into places, sometimes, which are not too pure. They endeavor to prepare the home and its atmosphere (as well as the parents, as much as they can) for the coming of the infant. At times, such an angel is permitted to remain with that infant for a while, at least until the time comes when its little mind is disabused (shall we say) of the reality of angels. When this "shell" of rejection in thought and feeling is thus set up around the child, this beautiful angel must leave that one and return to the inner spheres again!

Angels of Mercy and Compassion are always serving as much as possible in hospitals, mental institutions and foci of mankind's need and discord. Today, some of these are actually living in the auras of the conscious chelas (those of you who are daily consciously calling forth the Violet Fire, at least six of these glorious beings stand around every conscious chela who daily calls forth the Violet Fire for purification. These have been with you for quite a few years now!) Such angels await your daily conscious recognition and call for their greater assistance to your use of this merciful Flame of Freedom.

Practical Use of Violet Fire So Very Simple

Beloved ones, the use and activity of the Violet Transmuting Flame here in this physical appearance world, is so simple! There is nothing

occult (meaning “hidden”) about it and it certainly does not require the mind of Einstein to comprehend it. One is merely required to make the sincere and conscious call in the name of his own individualized Presence of God “I AM,” to these specialized beings who have been trained in the invoking and projecting of this Violet Ray and Flame. Such beings to whom you have called instantly direct that ray and flame into this physical appearance world. Then, having called it forth, ONE MUST EXPECT its raising of discord into harmony as the Violet Flame arises in, through and around that which is to be purified. You have all witnessed transmutation, as you light a match and by its flame burn a piece of paper. It is just as simple as that! However, because the physical senses, especially the eye, and ears, do not yet see or hear the physical flame of Violet Fire, it seems not quite so practical to you as we know it to be and as it truly is!

Today we are entering into a New Age. The priests and priestesses of the Order of Zadkiel are now not only given opportunity so to do, but they are COMMANDED AND EXPECTED to bring into outer manifestation, visible and tangible to the physical sight, acceptance and use of all, this Violet Flame IN ACTION, RIGHT HERE IN THIS PHYSICAL APPEARANCE WORLD. That is a fiat which came, not from me, but from the Godhead itself, your Creator, whose humble and grateful servant “I AM”!

Those of you who know of, love and use the Violet Transmuting Flame have a special opportunity now to draw forth from your Causal Bodies all that stored-up knowledge of your use of this transcendent flame in the past. You see, many of our present gentle readers consciously worked with us on Atlantis in the use of this Violet Flame there, at the time when the contagion of the laggards’ shadows entered into the consciousness of the masses of the people.

Therefore, those of you who did so work with us have special opportunity to more quickly and powerfully call forth its action now. Then, enjoying its use impersonally use it upon the just and unjust alike, for no ray, flame or virtue of the Godhead has cognizance of personality, name, stature, race, creed or nationality, according to the outer valuations. That flame merely acts as does the sunshine, IMPERSONALLY, and it will act INSTANTLY, whenever and wherever it is called forth. May I here remind you that where the shadows are greatest, the Violet Fire IS REQUIRED THE MOST, not so much where someone is peaceful and harmonious for the time being, although that is a good place to practice.

Among the student body drawn together up to this time by beloved

Saint Germain and El Morya, quite naturally, there may arise many personal differences of opinions. Thoughts and feelings from momentums of disagreement in past associations, concerning methods and types of applications, etc, arise. Now, HERE IS OPPORTUNITY TO MAGNETIZE THE VIOLET FLAME, calling it into action to remove the shadows, FIRST FROM YOURSELF and then from those with whom you feel a sense of difference. WHAT GOOD IS ALL THE BEAUTY, FORGIVING, PURIFYING AND PERFECTING BLESSING OF THIS VIOLET FLAME, IF IT IS NOT USED?

Violet Flame Gains Power Through Rhythmic Use

The Law is that "Energy becomes power through use." Saint Germain told all of you that, long ago. So, the Violet Fire becomes more and more efficacious in your own personal world as you call it daily and rhythmically into action. It becomes more and more efficacious not only for yourselves, but as a tremendous transmuting power for all life, FOR ALL LIFE IS ONE and when one part of life is benefited, all the rest of life is also benefited to a certain degree. Of course, when you call forth this flame, either for yourself or for some other part of life, YOU MUST LET IT ACT IN ALL ITS FORGIVING, PERFECTING SERVICE, making no personal reservations in your mind as to just HOW it should act!

Needless to say, there should not be allowed to remain within anyone that feeling which enjoys seeing some other part of life uncomfortable, just because they have made mistakes. After all, does not the Bible say: "All have sinned and come short of the glory of God."

You see, there is a certain unfortunate "kink" in human nature which sometime, when there is the power within an individual to free another from distress by calling forth this Violet Fire which would transmute that distress and set that person free, the onlooking lifestream enjoys seeing the other suffer and refuses to set into action that impersonal Law WHERE THE DARKNESS IS GREATEST THE LIGHT IS NEEDED MOST! On a planetary scale today, that Violet Fire is certainly needed in Russia, Siberia, Africa (called the "Dark Continent" for so long) and, in fact, that Mercy Flame is very much needed in, through and around every cell and atom of this dear planet itself, as well as being needed in, through and around your own dear personal selves.

THERE SHOULD NOT BE EVEN A BREATH OF DIFFERENCE AMONG ANY OF THOSE IN WHOM THAT BELOVED SAINT GERMAIN HAS INVESTED SOME TWENTY YEARS OR MORE OF HIS OWN LIFE, especially when you all know that the Violet Fire is there waiting to be called into action by

you to settle those “differences” harmoniously and eternally, IF YOU ARE WILLING TO LET THEM GO!

If you find it difficult to hold your peace and balanced harmonious feeling in the aura of someone whom you may have allowed to disturb your feelings (this condition oftentimes coming about because of past discordant association), you do not have to remain in that one's presence when you call that Violet Flame forth. In fact, I suggest that you do not call it forth audibly in such a one's presence. But, THE CALL CAN AND SHOULD BE MADE SILENTLY while in their presence, for the instantaneous manifestation of the Violet Fire to transmute that appearance of discord into loving feelings of peace and harmony.

Beloved ones, if you really love Saint Germain with all your heart instead of just your lips, where there is shadow of disease and appearances of disharmony running rampant, if you will go by yourself (as Jesus suggested) and magnetize that Violet Flame by calling for it to blaze up, in, through and around the person, place, condition or thing in distress, THAT FLAME WILL ANSWER YOU AND GIVE THAT LIFE FREEDOM!

You see, we watch closely the motive within the consciousness. Do you know that you are not consciously aware of about sixty percent of your own motives, nor of your real feelings? However, honest, daily introspection of your own consciousness is essential and a certain amount of purification is absolutely necessary before you could be safely entrusted with these greater powers and activities of Light!

Once that Sacred Fire comes forth visibly and tangibly to the physical sight of all in the world, just who is going to care for it? Can you then go off hither and yon and just leave it? If you do, do you know what will happen? As we said before, without daily rhythmic invocation, that flame will just etherealize (return to its Source). For one hundred years, the priests and priestesses of Lemuria invoked the powers of the Sacred Fire to save their continent from sinking through cataclysmic activity. For millions of years did the patience of Sanat Kumara daily invoke the loving assistance of Almighty God to keep this planet extant in this universe.

If you want the gift, you must also accept the obligation of protecting it, the responsibility to sustain it, the balance to remain humble when individuals are grateful for its presence and help, the poise necessary to handle the energies of those who will want the fruit of the Violet Flame's blessings, but will not be willing to make the necessary endeavors and release the energies which would make them a part of the magnetization of that flame. The priests and priestesses of any order, of any of the

cosmic virtues, are always few in number.

On Atlantis, we had but a small order of these, yet a whole planet benefited from their service. People came from the four corners of the Earth to bathe in this purifying essence of Violet Fire. They not only brought themselves but also their families and problems, all to be purified in and by that flame. Then, when they had received their blessings, they returned to their homes, sometimes without so much as a backward glance or any expression of gratitude. You have the example of this in Jesus' experience of the return of the one leper of the ten who had been healed. So, be prepared for this state of affairs when you begin to handle the masses of the people.

It may have taken many lifetimes to magnetize a virtue. Then you sustain that by your life and your love and that virtue becomes visible and tangible as a blessing for all to use. People will enjoy its benediction, even as during this four-day period, all mankind embodied on Earth are enjoying the pressures of our love and peace (which are the natural radiation of our energies) as we speak to you, although they may not be consciously aware of just where those peaceful feelings come from. However, these same people would not be interested in coming together, week after week, month after month and year after year as you have done, doing the work of magnetizing over and over again, those flames and rays which, have made this class possible. Do you see?

If you will thoroughly understand this point and get it fully anchored in your consciousness that that is the way the outer world of mankind acts, you will not be so disappointed in the future when you contact it. THERE WILL ALWAYS BE THE FEW WHO ARE THE DIVINE SERVANTS OF THE LORD and there will be the MANY who are the recipients of his grace. That is just the way it is. However, as the Holy Christ Self is given greater freedom through the outer selves of the people, as their destructive use of free-will is removed and the atmosphere of Earth permanently cleared of so much of the discord of the past, the people will become more and more amenable and receptive to this instruction of truth.

So, those of you who have chosen to serve us on Earth at this time form a mighty chalice for the magnetizing of the Violet Flame here. When your inner vehicles are balanced enough, when you have been constant enough, when you have completely transmuted your own human nature through the use of this Violet Flame, it shall come forth visible and tangible upon your altars! Then, twenty-four hours out of every twenty-four, some unascended lifestream will have to guard it! Thank

you, beloved ones, and good evening!

Explanatory

1. The references to the “White Order” and the “Black Order” in the address of beloved Zadkiel have no connection with the color of the skin of any lifestream. They merely refer to the radiations of either light or shadow emanating from the bodies and worlds of those concerned. Do you see?

2. When mankind first took embodiment on Earth, he had the personal God-gift of the Tube of Light which was a natural protection to that lifestreams energies, not from discord, mind you, because there was none here in the beginning! However, just as the insulation on an electric wire not only keep, extraneous vibrations away from the current within, allowing the current to flow steadily through that wire and preventing its escape into the atmosphere. So did the Tube of Light hold the personal energies of each one around him, to be consciously directed forth when desired. That Tube of Light was ignored and neglected by mankind, so it eventually disappeared. For this reason, mankind are held responsible for the discords manifesting in their own worlds for if they did not personally create it, they did let it in from others, because they did not protect themselves against it.

MONTHLY LETTER TO TRANSMISSION FLAME CLASS

January 18, 1958

Beloved Children Desiring To Manifest Your Divine Plan:

I LOVE YOU! All the Spiritual Hierarchy loves you! All the angelic host love you! We are combining our services now on your behalf, in order to help you to manifest that which your heart desires to express your own mastery while right here in this physical appearance world!

Thus, as we enter the Resurrection Temple of beloved Jesus and Mary, I do invoke all the powers of that Resurrection Flame to flow through the energies of your four lower bodies, raising you out of the discordantly qualified energies of the masses and holding you sustained, as Jesus was and is, in that uplifted consciousness while you serve those still imprisoned in misqualified energies. I do urge you to come to the Resurrection Temple often. I have used the powers gathered there so often for the resurrection of the nature kingdom and I know what those powers can and will do for you while you have the added stimulus of proximity to their presence.

Love and blessings,
Maha Chohan

Statement for the Transmission Flame Class of January 18:

I AM inbreathing/ absorbing/ expanding/ projecting the resurrecting feeling of masterful living from Gabriel and Hope. Hierarchs: Jesus and Mary. Color of Flame: Mother-of-Pearl. Musical Keynote: "A Perfect Day."

FEBRUARY 1958

TO THE BELOVED ARCHANGEL MICHAEL AND TO HIS LEGIONS OF PROTECTING AND DEFENDING ANGELS

We give gratitude upon the part of those of us who have been extricated from human limitation, misconcepts and distress by thy service and upon the part of those unascended lifestreams who literally owe the sustaining of their souls as individual expressions of potential Deity on Earth, to thy watchful and protecting care!

Beloved Lord Michael! With humble gratitude we accept the aeons of time and limitless God-energy released by thee in service to the evolutions of this planet by thy almost continuous presence in Earth's atmosphere.

Now, in this New Era, as angels and men come into a much closer relationship of divine love, service and understanding, we invite thy presence FIRST among all the angels of heaven! Part the veil of maya and allow all mankind, imprisoned angels, elementals and every living thing to witness for themselves thy tangible presence here the Mighty Warrior Angel (yet as loving as a mother when the requirement so demands), standing visible to the physical sight of thy benefactors! So be it!

Lord Michael COME!
Thomas Printz, Editor

The Homes and Retreats of The Masters of Wisdom

**THE TEMPLE OF FAITH AND PROTECTION, BANFF
(Canadian Rockies)**

February 15th through March 14th, 1958

In the Canadian Rocky Mountains stands the Temple of Lord Michael, the Prince of the Archangels and angelic hosts. Presently, it is an etheric temple, although long ages ago it was physically manifest on the surface of the Earth. It is circular in shape, of tremendous proportions and has four entrances at the cardinal points of the compass. This temple is made of beautiful gold substance, encrusted with magnificent blue sapphires and upon its dome stands a representation of Lord Michael himself.

This temple is a focus for absolute faith in God and supreme trust in the ultimate manifestation of his divine will (which is perfection) for this planet and all her evolutions. Here the beloved Lord Michael and his legions of angels constantly magnetize that faith in God and radiate it forth to all imprisoned life belonging to Earth's evolutions.

From this temple Lord Michael directs legions of his protecting and defending angels all over the Earth to the souls of all in distress, helping those souls to re-kindle that perfect faith in the goodness of their divine source which once they knew, for this faith is really an integral part of their own immortal Threefold Flame of Eternal Truth, anchored right within their beating hearts. These angels also help these souls to extricate themselves from innumerable distresses of mind, body and affairs which hinder their spiritual development.

The beloved Lord Michael came to the Earth of his own free-will when the "Holy Innocents" first came upon the Earth. With his legions he came primarily as a guard for those "Holy Innocents," so that their Holy Christ Selves might expand, develop and mature through them, enabling them quickly and in perfect balance to fulfill their individual and collective divine plan during a fourteen thousand year cycle, according to divine Law. At the end of this cycle, these "Innocents" were to return into their own Electronic I AM Presence in the victory of the ascension, spiritually matured and much richer because of the mastery gained through the experiences of their Earth lives. Because of the service of this great beneficent, loving friend, those who first came to Earth in the great purity and perfection which was here then (and also within themselves) returned "home" within the time scheduled for their victorious accomplishment.

At that time, Lord Michael, himself and his heavenly legions were daily and hourly visible to the physical sight of all and their tangible, practical assistance was always available to help everyone during his or her life on Earth. For many, many ages, since the “laggards” first brought the shadows of discord to the Earth, Lord Michael has been acting as a Spiritual Father and Spiritual Mother to the people of Earth, protecting them from many, many pitfalls and temptations arising from the destructive use of their God-given free-will, much of which service is entirely unknown, unhonored and unsung by the outer consciousness of the very lifestreams who have been so protected and blessed.

At inner levels, while the outer consciousness sleeps at night, he often counsels the unascended lifestreams of Earth as to the proper use of their life in order to enable them to fulfill their individual divine plans. He always has been and is today a true messenger and representative of the Father-Mother God for Earth's people.

In the early ages, before the coming of the “laggards” from other planets, Lord Michael's wise counsel and loving protection of the “Holy Innocents” was consciously and practically accepted and obeyed and, often, from all over the planet, people came individually and in groups to his temple to bathe in the radiation of his loving presence and consciousness of absolute faith in God's goodness.

It was only after the “laggards” from other planets came here that Lord Michael, seeing the subtle infiltration of the destructive use of the free-will into the consciousness of the “Holy Innocents,” prepared himself and his legions to become active defenders of the faith and trust in God. At this time, he fashioned his glorious Sword of Blue Flame, seeing the need for its future use, and has wielded that sword almost constantly to this very day, to cut away the causes and cores of all destructive use of free-will which has literally “cluttered up” the Earth and its atmosphere by discordant thought and feeling forms, delaying her spiritual evolution by countless centuries, as well as having enmeshed the souls of men in depravity, limitations and suffering of every kind.

Through the creation of the veil of maya, spun from the conscious discordant use of thought, feeling, spoken word and deed of the “laggards” and those who belonged to the Earth who drew these distresses to themselves by allowing their attention to rest upon these shadows (at first in secret and then more openly), slowly but surely the knowledge and vision of the angelic host were shut off from the outer consciousness of mankind. The glorious Temple of Faith in God then disappeared from

the physical surface of the Earth and the presence of Lord Michael and the angels was all but forgotten by mankind, except for the few who, in every age, have remained true to the order of Godly living and accepted the “unseen” but palpably felt benefactors.

From then on, Lord Michael and his legions devoted their time and service to the purification and freeing as much as possible of the life within the astral realm (the effluvia of discord in which the Earth and her evolutions presently abide). He now continues to serve, selflessly and constantly, ever watchful over the spiritual light within the souls of men, although that light at present shines but dimly most of the time through the shroud of human creation which the individual has drawn about himself or herself.

Again and again, during the life-span of such individuals, (as well as after passing through the veil of so-called “death”), Lord Michael and his legions use that Sword of Blue Flame to cut away those shrouds of discord from lifestreams who will accept that service, thus enabling the souls of men to be more quickly and easily illumined and set free. Again and again has he or one of his legions breathed upon the spark of spiritual faith in the heart of the discouraged and seemingly abandoned ones, until they felt and accepted the feeling of fresh courage to arise and continue their course toward ultimate divine expression.

Now that the Spiritual Hierarchy is again allowing the mankind of this planet to know of the reality of Lord Michael and his legions and of his Temple of Faith and trust in God, more and more people of Earth are availing themselves of the opportunity of visiting this etheric temple, there asking for the conscious assistance of Lord Michael to help them to remove the distresses of soul, mind, body and affairs which have temporarily delayed their divine expression and victory over all things human. These visits to this temple are made, of course, while the outer consciousness sleeps and the inner self is freed from the body to visit the realms of light to gain assistance.

We would emphasize here to our gentle readers that Lord Michael and his legions are only “Warrior angels” insofar as their constant vigilance over the spiritual selves is concerned. They use their energies only to remove the limitations and distresses which bind mankind to unhappy experiences. His legions never “battle” with human personalities, but only with misqualified energies which seek to limit and delay the fulfillment of the divine plan for the Earth and all her evolutions. This “battle” so referred to is merely the releasing of mankind, imprisoned angels and all

living things here from pressures of discord which have fastened themselves upon them and which live upon their very life. Some of these mass pressures (called "mass entities") are tremendous in size and accumulated energy and just one individual alone, caught in the pressures of such an entity (by connecting with it through similar vibrations of thought and feeling) has not enough spiritual vitality and wisdom, strength and courage to extricate himself from the accumulated viciousness of such a "mass entity."

Any soul who feels the need of Lord Michael's help to free them from unhappy experiences (or anyone who sees another caught in such unfortunate conditions) is wise indeed to call to Lord Michael and his legions for their instantaneous help, either to free themselves or another who needs that help. At your call Lord Michael and these legions WILL COME! REMEMBER THAT!

You see, even those souls who have passed through the change called "death" still carry with them certain tendencies and habits of thought and feeling of a discordant nature, so it is expedient for the wise chela to call to Lord Michael to help those who have passed through that "veil" to attain a higher and freer existence, even on the "other side." This service he is glad and willing always to render to anyone who will call for it.

Before entering sleep at night, turn your attention to the Temple of Faith and Protection of Lord Michael and ask your own beloved I AM Presence to take you there in consciousness. While there, feel his loving protective arms around you and accept again his kindly counsel. Ask him to cut you free from the causes and cores of the distresses which bind yourself and others to limitations of every kind, here in the physical appearance world.

Thus enjoy the presence of beloved Michael right here on Earth and allow him to prove himself to be your friend of light (right here today), as he has been for so many ages, ever since the Earth first became a habitation for spirit sparks from the hearts of Helios and Vesta. Be sure to ask the beloved Lady Master Leto to see that you remember in the outer brain consciousness (when you return to the body after sleep), where you were and what you learned there through the experiences which your inner self really enjoyed.

I shall meet you in this Temple of Faith.
El Morya

Monthly Letter To Transmission Flame Class

February 15, 1958

Beloved Children Seeking To Renew Your Faith In God:

I am indeed anticipating your presence at Lord Michael's great retreat during this thirty-day period wherein, through proximity to faith and to the beloved Lord Michael himself, you SHALL AGAIN FIND the strength within your own dear selves to place your FAITH AND TRUST IN THE ALL-POWER OF GOD to act to, for and through you at all times!

I am also anticipating the renewal of your individual acceptance of the entire angelic host as your personal helpers and co-workers in re-establishing the conscious co-operation between mankind and the angelic kingdom here on Earth!

In consciousness, let us lovingly walk together into the presence of Lord Michael and bow before him in loving gratitude for his patience and constancy of service to us all. Then, I implore you, join his legions by your daily attention and attendance upon them and become-right here on Earth, radiating centers of faith and trust in God's good-will for all life, which radiation will have a contagious effect upon the masses of the people, even though you speak not a word to them. God bless you for wanting to know God's Holy Will! Here is your opportunity to really know it and, most important, TO DO IT NOW! Love and blessings,

Maha Chohan

Statement for Transmission Flame Class of Feb. 15th, 1958

I AM inbreathing/ absorbing/ expanding/ projecting Archangel Michael's feeling of faith in the goodness of God.

Hierarch: Archangel Michael, Color of Flame: Crystal with sapphire blue radiance, Musical Keynote: "Soldiers Chorus" from Faust.

REDEEMING MISQUALIFIED ENERGY

Beloved Archangel Michael (Sept. 29th, 1957)

I AM Michael, divine protector and defender of the spiritual light within the hearts of mankind. By the graciousness of the Sun of this system, I have been given opportunity to serve as the prince of the angelic hosts and, in regard to the Archangels and the angelic hosts who serve with them, this is exactly the same office as that held by the Lord Maha Chohan with regard to the Chohans of the Rays.

Now, as the protector and defender of the faith of man in God and the sustaining of that very spirit of faith within the immortal Threefold Flame within the heart of every human being, I have gained a reputation for being a rather fierce and warrior-like angel! I would like to repeat some of my words of a short time ago when I said: "My service is to restore to heaven every lifestream who, through self-conscious use of God's pure energy has removed himself from a state of divine harmony and grace. Some of the legends which have sprung up through the centuries about my service to life have some basis in truth."

I repeat: I am the divine protector of the faith in God of the people of Earth and it is at least part of my task to prepare for entrance to those realms where only harmony and peace abide, the consciousnesses who, of their own free-will, have not chosen to generate and sustain the harmony which allows them entrance into the divine realms. Do you see? Together with other members of the angelic kingdom and Ascended host, it is my endeavor to train lifestreams who have lost conscious control of their thought and feeling centers, to a point where they are again in God-control of those centers. It is also the activity of the protecting and defending angels to keep within the compass of Earth's atmosphere any radiation which is not qualified with the divine love and peace which fills interstellar space.

"Ring-Pass-Not"-A Living Reality

Now, this "Ring-Pass-Not" of Blue Flame which you have been told has been established in the atmosphere of Earth at a certain distance out from the planet itself is a real and living thing! It is composed of the living, breathing bodies of the Legions of Blue Flame, tier upon tier, and it was devised after the "laggards" came from the other systems, as the way and means by which the ten billion souls using the Earth as a schoolroom might be kept from polluting interstellar space with their chaos and discord.

These Angels of Blue Flame are of course those who belong to the First Ray and they are great Beings, wielding tremendous power of light. Since there is no discordant vibrations in the entire universe except those generated by Earth's evolutions, these angels need not protect the Earth against such intrusion of discord from interstellar space as there is now none there.

However, the discordant human creations around individuals, the mass destructive thought and feeling forms which abide in the atmos-

phere of Earth and the effluvia which flows forth constantly from them, form the mass tides of destructively qualified energy which sweep constantly back and forth through Earth's atmosphere-these are all imprisoned (as it were) within this "Ring-Pass-Not" of Blue Flame.

Now, it is the joyous service of the angels of this "Ring-Pass-Not" to welcome and admit through this ring into Earth's atmosphere and into the various foci (retreats) of Ascended Master radiation in the Earth, on its surface and in its atmosphere (especially to the half-yearly conclaves at the Royal Teton) Solar Lords, Cosmic Emissaries and interplanetary travelers who may be passing in the vicinity of Earth and who are so joyously willing to expand their own light by giving such service wherever it is required. By the constructive use of your energies in visualizations, decrees and songs, you have made possible (especially recently), the drawing to Earth of Sun Gods and Goddesses from other systems who have answered your calls and have graced us with their presence at the Teton.

You will see, then, that the "Ring-Pass-Not" is not just a static band of light but is actually made up of living intelligences, divinely alert and on guard ever moment of every twenty-four hour period. Therefore, there is no space-ship, "flying saucer" nor occupant thereof that could possibly enter into the atmosphere of Earth with either destructive motive or intent for even without this "Ring" there is no life in any of this universe that could possibly desire to do so.

So, this activity of the "Ring-Pass-Not" of Blue Flame is one which is very close to my heart. It shall remain in the service which it has been giving to the Earth for such a long, long time, until the masses of mankind are taught to use their own life always and only constructively and the causes and cores of those habits which form the seven mortal sins (and their many ramifications) have been removed forever. Then the discordant effects which have emanated from those causes and cores and which formed the veil of maya in the first place, will be no more. Quite naturally, since there is no barrier to divine love anywhere in the universe, when you have group activities and you join together in visualizing, decreeing or singing to any Celestial and Divine Beings, these angels of the "Ring-Pass-Not" allow those harmoniously qualified energies to arise and pass out of Earth's atmosphere to become a benediction to all the planets of the system and then upward and on to the Solar Lords and Beings in Superior systems.

In other words, this Protective "Ring" is elastic and intelligent. It is not like a brick wall or wire fence, it is made up of intelligences who have

been trained in their service for ages and, when individual lifestreams gain the victory of the ascension, they pass quite easily through this "Ring" into the Ascended Masters' realms of light where they then dwell.

Therefore, my service is dual in aspect, shepherding Earth's lifestreams "home" and protecting the harmony of the rest of this universe from the intrusion of discordant effluvia of Earth-which radiation is sometimes very subtle, not too apparent in its very beginning, just as it was when the "laggards" first came to use the Earth as their schoolroom.

Original Trinity Of Association To Be Restored Here

You have been told that it was I who brought the "Holy Innocents" to the Earth in the very beginning of their habitation here. Ascended Masters and angels daily walked and talked with the mankind of Earth in those early ages and then there was no veil of maya no discordant human creation of any kind between ourselves, the mankind of Earth and the elemental kingdom (the sylphs of the air, the undines of the water, the gnomes of the earth and the salamanders of the fire). You have been told, too, that in the beginning, our planet Earth was just as pure, beautiful and perfect as the Seven Mighty Elohim of Divinity could create it and as the Directors of the Forces of the Elements and the elemental kingdom could prepare it for habitation.

In that day, we had the trinity of activity, association of the angels, Earth's people and the elementals, all lovingly co-operating in daily and hourly association. Now, there is to be the re-establishment of this divine pattern here again. It is the re-instating of the perfect balance of the Holy Trinity in action the divine realm, the human and elemental realms, the governing of all of which will come under the direction of your beloved Ascended Master Saint Germain, as he occupies the office of the Lord of the Seventh Ray, reigning here for the next two thousand years. This "Golden Age" which is now being ushered in by the advent of the Seventh Ray's dominion here shall be permanently sustained and expand forever!

You can readily see that just so long as there exist feelings of antagonism between the elemental and the human kingdoms (built through centuries of ingratitude on the part of mankind for the selfless and constant services of nature), while there is a rebellion within the feelings of the members of the nature kingdom against mankind's needless and wanton destruction of food and various gifts of nature (to which that nature kingdom has given so much of their very life and energy to produce)

the elemental kingdom and mankind cannot be joyously and fully united in co-operative service.

It is only the power of divine love from beloved Neptune and Virgo, Aries and Oromasis (and particularly in their use of the fire element which has transmuted as much of the human effluvia as the Cosmic Law would allow from time to time) which has kept the nature kingdom from rebelling violently and casting back upon the human race in the form of tornadoes, floods and various cataclysmic activities, some of the destructive effluvia of man's own discordant creations.

During these changing times when the Earth and all her evolutions are being purified and freed from much which really never should have been, the Angels of Protection and Faith in God are required to serve even more actively here than ever before. Our glorious Regent (Sanat Kumara) and our Gautama (Lord of the World) have recently asked me if we would allow the Retreat at Banff to remain open for at least seven succeeding months, in order that we might magnetize and radiate forth more of that protecting power through conscious chelas here, through the nature kingdom and through the emotional, mental, etheric and physical vehicles of all mankind embodied here.

Of course, we acquiesced to this request and now find ourselves in possession of an even greater opportunity than that of being one of the active retreats in the beginning of this momentous Year of the Angels, 1958. We are extremely grateful for this added opportunity and, even when our retreat closes its especially active service on the 14th of March (1958), although you will have your successive processional through the other retreats at thirty-day intervals from then on, our focus of faith in God shall still remain vibrant, vital and directing its Cosmic Christ protection to the Earth and all its evolutions for some time to come.

Beloved ones, you are now a part of a great cosmic "change" which is little known and less understood by the minds of the billions of people who belong to the evolutions of this planet. Perhaps it is well that, for the most part, the outer minds of the people are not cognizant of such a "change" because of the tremendous fear which practically dominates many lifestreams. I am eternally grateful for your calls to have the cause and core of all fear removed from yourselves, all mankind and the elemental kingdom as well and I do ask that you continue and increase those calls until each of you has become an absolutely FEARLESS ONE!

Then you will stand in your own place, wheresoever your own God of Light desires you to be, with the Blue Ray of faith in the supremacy of

Almighty God and his power over all, this ray directed through your own spinal column, animating your aura and flashing forth into the atmosphere around you as a power of positive energy which can raise into confidence and faith the quality of fear for an entire city, a nation or the planet itself.

Try Not To Personalize Energy

Now, in your daily endeavors as you move upon a comparatively peaceful course of living, you have opportunity hourly (by the use of the Violet Fire) to practice raising the quality of unhappily qualified energy of fear and other discordant feelings, whenever you see such energies acting that are less than the virtues of God. This can and should really be a joy instead of a tedious task, if you will realize that through this practice you are arising into individual mastery.

Again and again the Ascended Masters have said: "Try not to personalize energy." If that energy is shadowed, depressive, inharmonious or unhappy in any way, that energy needs forgiveness, purification and redemption. Be not concerned with the facet (personality) through which that "soiled" energy flows. If it is discordant, it is some of God's beautiful life which temporarily has been imprisoned in discord and is now calling for freedom.

Please do not become so concentrated in your attention upon the form through which the "soiled" energy is flowing that you actually add your own resentful feelings to it and thus increase the riptides of those distresses, which riptides sweep constantly back and forth through the Earth's atmosphere. In the name of God! Let us recognize the fact that, wherever there is a sharp word, a depressed feeling, an impatient gesture, wherever you sense heaviness, lethargy, discouragement or any of the negative qualities, try to realize that that energy is really beautiful God-light-part of the body of the glorious Helios and Vesta (or some other Solar Lord if the lifestream is a guardian spirit and has come here from another planet). This life has been imprisoned temporarily through discordant thought and feeling by those who really know not what they do. The opportunity of the wise, then, is the immediate use of the Violet Transmuting Flame and other purifying flames of the Sacred Fire to raise and redeem that discordantly qualified energy, thus not only freeing the energy but gaining personal mastery by the practice of the use of the Sacred Fire as well.

One need not audibly call forth this Sacred Fire if he is in the presence of individuals who need assistance but who are not cognizant of the Ascended Masters and their ability to help them. However, through the power vested in you by the presence of the immortal Threefold Flame of Eternal Truth anchored within your beating heart, you can silently call forth an all-powerful focus of the Violet Transmuting Flame which will instantly go into action to control and purify that destructively-qualified energy. You can raise the quality of energy in yourselves as well as in an inanimate object by the use of that flame.

Beloved Serapis Bey told you some time ago that the Ascension Flame was so practical that it could actually tune a piano or “tune-up” a motor. The Ascension Flame could render you many practical services in the restoration of those so-called inanimate objects which you have around you in your home. Individually, I challenge you to invoke that Ascension Flame to blaze up constantly through your homes and see what it will do for the substance and actual appearance of your present furnishings, not to mention what it can and will do (if you will allow it to do so by your feeling of acceptance of its power) to transmute the disharmonies which often arise in family life.

Our beloved Saint Germain long ago promised you assistance in the use of the Violet Transmuting Flame in, through and around your homes, if you will just believe in its reality, efficacy and immediacy of action for you, self-sustained and ever-expanding. So command it to be! If you feel you have not enough faith in its willingness and ability to serve you, ask me to give you MY FEELING OF THAT FAITH WHICH YOU REQUIRE. I live but to express the reality and power of Almighty God as the Supreme Source of this universe and, remember, THE CREATOR IS ALWAYS GREATER THAN HIS CREATION! Therefore, whenever your destructive use of free-will has satiated your feelings with the distressing experiences of the outer world, the everlasting love and mercy within the heart of the Eternal Father are not only willing but able to allow you to come “home,” there to live in invincible, eternal harmony and peace and “go out no more.”

Beloved ones, please believe me for I know whereof I speak! I stood before the throne of your God and mine, long, long ages ago, in the beginning of the habitation of this planet. I stood there then and I stand here today as a servant of that God and of the light within your hearts. I have no other reason for staying in the lower atmosphere of Earth twenty-two hours out of every twenty-four except my very love for your life and my very determination to convey through my radiating into your

world my feeling of conviction in the ultimate destiny of each of you as God-beings and the ultimate destiny of the planet Earth and its evolutions as Freedom's Star.

Divine Power, An Aspect of Divine Love

Now, beloved ones, I know that the pressure of energy which is mine to direct is sometimes a little uncomfortable to those who desire the angelic host to be expressions of gentle "motherly love." However, the dynamic release of energy with which I direct my feelings to you is necessary to get through the individual "shells" of thought and feeling in which you live, your personal auras. Think for a moment with me! When the door to that "Compound" was opened to me and I entered therein, think of the energy required of me to be able to pierce the "shell" around individuals there who had refused to bend the knee before the Lords of Karma for centuries, preferring rather to remain within that darkness living their particular "hells" over and over again.

If I had gone in there gently and on tip-toe, lightly touching their worlds with a little wand, (the like of which is sometimes carried by a character portrayed by Mr. Disney), think you I could have reached through to the flame in their hearts? You see, there is the right time for every God activity! There is a time to release the power of love and there is a time to release the gentleness of love. There is a time for action and there is a time for inactivity. For instance, in the case of a so-called "accident" of the outer world, first it is necessary to remove from the scene of the accident either the individual or the group concerned from further distress or danger and then follows the time of ministration, rest and peace when those lifestreams are restored to harmony again, according to the best abilities of the ministering ones.

When people speak of me as roaming through the world battling the spirits of evil who seek to destroy the souls of men, those people are not too far wrong. You have not seen (and I pray to the God of Mercy that you shall never have to see) the destructive mass creations, many of which recently have been dissolved, thank God, that would actually smother and kill you, not your physical bodies so much as the constructive desires within you to serve Almighty God or stay upon the pathway of light. Do you think I could approach creations as large as the one which was referred to in "The Seven Mighty Elohim Speak," WHEN I TRANSMUTED THE ENTIRE MASS CREATION OVER THE CONTINENT OF AFRICA, without considerable power and release of positively, God-

controlled energy? Beloved ones, those destructive mass creations in the atmosphere of Earth are intelligent (for, after all, they are made of God's misqualified life) and their nature is to seek the ruin of human souls.

When serving in the astral or psychic realms where these creations abide, we must wield a power of light which can and does protect us and sustain our mastery. I would suggest you do likewise! However, the very (shall we say "automatic") protection which you receive from us, which you often feel but do not yet see with your physical sight (nor thank heaven do you see the huge and vicious creations of discord in Earth's atmosphere into which you direct our flames and light rays through your decrees), makes you a little lax in calling for your own blazing protective light.

Use Protective Armor Of Light

Beloved ones, there are certain vicious conditions active in the astral realm into which I would not think of entering without first putting on an entire armor of light. Yet, so often we see you, through mighty decrees, plunging into mass creations of sickness and disease and all manner of distress, just clothed in those Tubes of Light which you have drawn about you (without full faith in their adequacy) and which you puncture every few moments by discordant thought, feeling, spoken word or deed! I am very grateful indeed that you do call those Tubes of Light forth and that you are strengthening them as you continue to call for them and then hold more and more uninterrupted harmony in your worlds.

Now, WHY DO YOU THINK I HAVE OFFERED YOU AGAIN AND AGAIN THE USE OF MY ARMOR OF LIGHT? Please use it, for it is, of course, to completely enfold you in my feelings of protection, my helmet, armor, sword, shield, Cross of Christ, PLEASE PUT THEM ON AND USE THEM BEFORE you go into action, dealing with powers of certain concentrated viciousness of which your outer self knows nothing!

Dear ones, when I see you so sincerely and earnestly making your calls to light, and without adequate protection of the light, I always immediately call in limitless legions of angels around you to give their Christ protection to you. You have no concept of the amount of Cosmic Christ protection which has been necessary to be invoked by myself to enable you to receive from "On High" through the psychic plane into the lower atmosphere of Earth, the radiation and spoken word of the Archangels, even during this four-day period.

Up until now, most of this protection has been given from our side, but it would be so wonderful if each of you individually and all collectively (when in group activities) were to call my Protective Armor of Light into action before you call forth and direct the mighty flames and light rays into the rip-tides in the atmosphere of Earth of hate, uncontrolled sex, crime and viciousness of every kind. Unless you had been given this protection by me and our legions in the past, you would not even be here today, nor could there have been anything of a permanent nature anchored into your outer consciousness from the Great Ones to whom you have called, nor could there have been the tremendous purification which has taken place here.

Now it is not that we are not either able or willing to sustain this protection for you, but it is a matter of divine economy. You see, you are all at a point of consciousness now where you are able to hold this protection for yourselves and when you do reach such a consciousness, the great Law requires that you use it! There is a great conservation of energy in the heavenly realms as you have been told. For every project we undertake, we are allotted a certain amount of energy to accomplish that task and, if we are obliged to use that energy to protect you, there is less for us to use in other ways-either to expand your own personal light or our activity. Do you see? So, it will be of tremendous assistance to us, to our activity and to yourselves if, from now on, you will call forth more constant and complete protection as you proceed in the service of the light. Will you try?

Silence And Peace Are Not Lethargy

Sometimes it takes actual phenomena to stir up the constructive energies of the etheric body, otherwise the outer self remains unimpressed. For instance, the sun rises each day without sound and so it sets, your Springtime comes and the leaves and flowers unfold quite silently, your harvest comes into being without sound and mankind just accept all these as a matter of course. However, if the sun came up each day with a great roar like thunder and if in your Springtime every flower burst with some sound or other which could be heard throughout your home as well as your garden, I think perhaps mankind would be much more cognizant of the magnificence of the Spring. So, the great cosmic activities of purification and protection which have been going on in, through and around the Earth for sometime now and which are performed in so-called "silence," are just taken for granted by mankind and accepted in a very placid way.

I do pray to our heavenly Father that all the purifying changes which Earth is passing through will also be accepted in a placid manner by mankind-free from fear and every kind of distress. However, a placid "outside" does not always signify a placid "inside"-so let us all endeavor to make and keep ourselves ALWAYS PLACID WITHIN calm and peaceful of heart, physically, etherically, mentally and emotionally-God-controlled at all times. Now, mind you, I do not mean that you should be lethargic! I mean to be constantly and divinely alert and at peace!

In teaching the outer mind to be at peace, it seems so difficult to gain just that perfect balance between lethargy or indifference and tension. When you tell people to be at peace, they like them to assume the lethargic consciousness and say: "I'll just do nothing, let God's will be done, I'll fall where I stand." I want you to stand NOW where you fell before! For millions of years you have been failing, ever since you first fell from grace.

Now, in the name of almighty God, I CHARGE YOU INDIVIDUALLY WITH THE CAPACITY AND POWER TO STAND SERENE AND POISED IN THE FAITH THAT GOD CAN CONTROL EVERY PERSON, PLACE, CONDITION AND THING AT YOUR CALL, knowing as well that my presence is always with you, that my life is yours to command, for I am the servant of your spiritual self! As I have often said, I have followed you along many highways and byways of existence: through about just ever dark spot you could find and again and again I have drawn you forth there from by the magnetic power of my great love for you. Now, you are on the upward path again and your light is expanding.

Returning to the subject of your Tubes of Light, you have drawn them about you, but (looking upon you as I am doing now) I see that they are pretty undefined in texture, because you have not as yet completely accepted their efficacy to serve you. Dear God, make those Tubes of Light around each one so powerful that they actually become for them the Armor of Light of the First Ray.

The beloved Polaris and Magnus (the Great Beings whose light rays form the actual axis of the Earth itself) are radiating the Blue Flame from the very heart of the planet up through its substance and all that lives upon it, not only those embodied but those who also belong to the Earth who are now at inner levels, out of embodiment at this time.

Since the qualities of the Blue Flame of the First Ray are both faith and protection, this radiation today is anchoring in through and around all it contacts assistance in the ability to accept the truth of the innate

goodness of God, acceptance of the realization that all discord and evil of every kind are created by the human misuse of life and this flame is also disabusing the consciousness of mankind of any acceptance that a good and loving God could or would inflict upon mankind or sustain any kind of evil as a punishment for any one or all of his creations.

This I do now decree: Mankind shall learn to know our good God as a Father of the tenderest divine love and mercy and they shall be big enough to take upon their own shoulders the responsibility for misqualifying life, acknowledging honestly that the destructive experiences and sufferings which they sometimes endure are the result and return of their own voluntary magnetization and misqualification of life. Then mankind will cease to accept as the will of God sickness of mind or body, age, disease and decay of flesh and all its attendant ramifications of imperfection. THESE APPEARANCES ARE NOT THE WILL OF GOD, for his will is peace, purity, happiness, health, limitless supply of every good thing, with never a shadow of distress of any kind.

Think Of The Constancy Of Nature!

Think for a moment about the nature kingdom and how it continues, season after season, year after year, thus to fulfill the will of God by giving you the beauty, fragrance and color of the flowers in the gardens, sustains the heavenly blue of the sky and the twinkling stars therein, that blessed Sun to illumine the Earth by day and radiating its life-giving warmth to all that is, keeping the water element as clean as possible and the air purified so that mankind may continue to breathe the refreshing ozone, the harvests come and go, even though often wantonly wasted and destroyed by the recipients of these bountiful gifts.

Beloved ones, perhaps you do not know that when our beloved Sanat Kumara first came to this Earth, at the time when the axis had already bent to about 45 degrees and any further "bending" would have been totally disastrous to this planet and the evolutions upon her, the nature kingdom gave notice that they would no longer produce their gifts for a mankind so filled with discord and lack of appreciation of their services and harvests. Think you not that was a dark hour in Earth's history? Just think what would happen here if, for just one year, the nature kingdom refused to give of its substance which sustains your bodies' life in just food and drink alone!

However, disaster was avoided by the tremendous release of beloved Sanat Kumara's divine love, that love which is the motivating pow-

er of the entire universe. Through the coming of his very presence here and that of the three Kumaras who came with him (as well as the loving assistance from those nine hundred lifestreams who volunteered to precede the coming of Sanat Kumara and prepare Shamballa as a home for him here), there was the needed ease and peace brought to the nature kingdom and every elemental within it. Then they said: "Well if these Great Beings are willing to leave Venus to stay with this "Dark Star," if Polaris and Magnus are willing to keep the axis from bending further, if the great Solar Lords and Cosmic Law are willing to give the Earth another opportunity to be sustained as a jewel in the solar necklace, we will continue to supply the substance for mankind as they live upon the planet." That was millions of years ago!

Cultivate Feelings of Appreciation

In the book of "The Seven Mighty Elohim Speak," the Elohim of Peace describes to you in detail just how he became a little yellow flower and appeared season after season as such a little flower for millions of years! You see, those little elementals have to spend a great deal of time and energy to learn how to actually become the form of that which they wish to create, let us say, for instance, a lima bean. They first become the form themselves and into that form they draw the substance which makes that particular vegetable, or whatever it is. When their service is completed, they return to the nature temple and teacher who sent them forth. Then, some folks just don't like lima beans! There has been much of some little being's energies go into the creation of just one of those beans, think of it! Then think of the disrespect and ingratitude people have for and toward food. They reject this and reject that, and are so "fussy" concerning the gifts given them so freely. Think of the variety of harvests which are provided for the people of this Earth in order that all may not have to eat the same thing and may have a change of food from time to time.

After beloved Sanat Kumara came and the elemental kingdom finally decided that they would continue to grow and give to the people that which was for their sustenance, the elementals spoke together in counsel and said: "How about just one kind of harvest, for instance wheat? Let the people do with that as they will and make as much of that as they can." Then the great Directors of the Forces of the Elements replied: "No, we shall give them a diversity of crops-wheat, rye and other cereals, vegetables and fruits of many kinds and description. We shall also continue in the diversification of flowers, trees and shrubs." Dear people,

you have been saved much distress of which you know nothing, through the constancy of endeavor of many Beings who have loved and served you, as well as all the rest of life-regardless of the lack of appreciation for those gifts.

You know, beloved ones, there is not one even here in this room who has not, at one time or another, in this life alone, rejected some of nature's gifts as repellent (whether in food or otherwise), when some individual elemental gave of his or her own life to create and sustain that. Now let us come to a point of FEELING gratitude, gratitude that you do not have to eat the same thing all the time! Be grateful that there is such a diversity of form for your enjoyment. If you do not wish to partake of that substance, at least bless it! Thank life for having created it and make the call that it will fulfill its divine plan for being, whether that concerns your own life or not. Never despise anything! You cannot be a chela of the realm of love while you despise any part of life, its creations or anything which nature has provided for some part of life to use. If you feel that the energy within that form is not good, with your present knowledge of the use of the Violet Transmuting Flame, you can raise the quality thereof by passing the Violet Flame through it. (This in no way suggests the eating of meat).

Now, perhaps you do not like loud music, First Ray People, or some kind of food or drink, that "mild dislike" is all a ramification of hate which is a repellent force and which is part of the effluvia of human creation. When you come to the Archangel consciousness (which I am endeavoring today to convey to you) of loving life free, then you may be positive all right, but positively loving and kind and forgiving to all that is!

Suppose I hadn't liked the people in the "Compound." I certainly had no particular affinity for the distress they had consciously created all through the ages-but suppose I had said: "Oh they have created so much discord, let them stay there!" No! That is not Divinity's way. Divinity's way is that of forgiveness and redemption, FREEDOM THROUGH THE REQUALIFICATION OF ENERGY, IMPERSONALLY! IMPERSONALLY! So, if you do not like some other religious denomination or race or creed, that is a ramification of that same quality of hate.

Therefore, any manifestation of life which is repellent to you is simply opportunity for you to requalify that energy. YOU CAN DO IT! God has given you dominion over all the substance of land and sea and all the creatures which dwell thereon and therein, through the power and use of the creative word "I AM," the focus of which is anchored within the immortal Threefold Flame of Eternal Truth which beats every physical

heart. You can raise the quality of music, you can raise the quality of service in all religions and churches, you can raise the quality of energy in all races without even speaking a word, by the use of the Violet Transmuting Flame just so long as you remain POSITIVELY LOVING GOD, POSITIVELY LOVING LIFE and honestly asking that the cause and core of dislike, resentment, rebellion and hate be removed from them and replaced by the perfection of their divine plan fulfilled. Then do not struggle with or against those things! That is one of the reasons for our being here, to help you! This is why I am here, to help you and all Earth's evolutions to be free, including of course, the Earth itself. For what other reason would we stay?

The causes and cores of human distresses are often buried deep within the etheric bodies, dear ones. A few of you have seen surgeons remove a bullet from a wound and you know that it sometimes takes a bit of probing. In these days of such opportunity for complete and eternal purification, the Mighty Astrea comes instantly at your conscious call with her Circle and Sword of Blue Flame to remove the causes and cores of all human distresses, I am here with my Sword of Blue Flame, and all of the activities from above which the Ascended Host and Cosmic Beings are and have, all these are available to you! JUST LET US INTO YOUR WORLDS!

Oh God of life and light In thy mighty name "I AM," I call to you for assistance in opening the consciousness of Earth's people to the reality of the angelic host, to the place where they will allow the angels into their worlds, to abide there as divine friends and fellow-servers of the light, until the completion of this task of purifying the Earth and her evolutions. Because I know that you always answer every call, IT IS DONE RIGHT NOW! Thank you for attention to me and my words of love to you! Good morning!

THE MASTERS OF WISDOM SPEAK *IN GOD WE TRUST*

MAHA CHOCHAN

The nature of God is good! Therefore, it is his will, desire and eternal decree that all his creations express that goodness in every facet of their experience and in any sphere or plane in which they are fitted to dwell. The strength of the Spiritual Hierarchy of Ascended Beings lies in their full acceptance and trust in God's Holy will as being beneficent, loving, merciful and always endeavoring to externalize perfection through all his creations.

The weakness of the outer consciousness of mankind lies in the fact that, through centuries of living in the forgetfulness of the true nature of their divine Source, they have assumed the will of God to include for them unpleasant and distressing experiences and every type of chastening of the soul, expressed as punishment for human mistakes, consciously made or otherwise. In truth, such is not the case, and it is now the desire of the beloved God of the universe that mankind come again into a conscious acceptance of God's goodness, as well as his desire for perfection to act to, for and through them individually and en masse. It is the fiat of 1958 issued by the Spiritual Hierarchy that mankind shall accept and feel, as we do, that "IN GOD WE TRUST."

EL MORYA

The qualities of faith and trust are, of course, FEELINGS! There is no self-conscious intelligence which cannot feel nor which does not have emotions of one type or another. Therefore, each chela must examine himself to find out exactly in what he has placed his faith and trust, then, through self-conscious endeavor, each chela must personally try to place and keep his feelings of faith and trust in God and his holy messengers.

Through the use of free-will, every individual actually magnetizes by the release of his feelings of faith and trust, that in which he believes! In order to experience the goodness of God (each one's own individualized I AM Presence) right here in this physical appearance world, faith and trust in him must be self-consciously directed toward him, daily and rhythmically. Then back through that channel so formed by the rising energy of faith and trust in that God Presence, will flow the visible tangible blessings which will be sufficient proof to any individual of the efficacy of such spiritual exercise and control of his emotional world.

KUTHUMI

As educators of the shepherds and the human race, we are called upon at this time to emphasize the feelings of faith and trust in God and his divine messengers. Herein, again, we must point out the use of God-discrimination and wisdom, faith and trust in God are practical and require the loving, willing co-operation of the outer self of the chela, according to his developed faculties. Many well-meaning men and women who are taught to trust God expect to receive manifestations of a super-human nature, without any endeavor on their part to consciously cooperate with the inspirations and directions of God to and through them. They just "lean on the everlasting arms," expecting God to do FOR them what he only CAN AND MUST DO THROUGH THEM!

Disillusionment and discouragement are bound to result from assuming such a negative and childish attitude. The very gift of free-will in the use of life is a sign-post to the alert that they, themselves, must cooperate with the God who made them and that his spiritual vitality will then sustain their endeavors. As has been said so often, "God needs a body" (through which to serve). The beloved Ascended Master Jesus was one who cognized this truth during his ministry on Earth and, although he had absolute faith in his heavenly Father, Jesus himself was always (and still is!) practically "about his Father's Business." This spiritual partnership develops within the chela the strength of his own God-Presence acting through him and the joy of self-conscious creation of perfection. TRY!

PAUL, THE VENETIAN MASTER

It is in the inherent God-power within the Holy Christ Self of each individual (anchored right within each one's beating heart) that we place our faith and trust for the expansion and development of their ultimate spiritual victory. The actual concentrated rays directed from our Brotherhood nourish and encourage the development in all the particular God-gifts, talents, powers and general mastery along the lines which fulfill their divine plan on the Earth plane. Would that mankind also would develop such faith and trust in the ultimate perfection to be expressed through every member of the human race.

Unfortunately, most of mankind judge each other by the outer personality and condemn them on the presence of their personal idiosyncrasies (which are of a temporary nature), rather than judging them as beloved Jesus once said: "by righteous judgment" (holding the immaculate concept of their eternal divinity for them). May I humbly suggest that faith and trust in the CORE OF GOOD (God) in every man be also incorporated into the earnest chelas' feelings!

This does not mean that a discriminate individual should either accept or condone the imperfections of any personality (either audibly or silently), for this is but flattery and does more harm than good. It means that every sincere chela should endeavor to fully realize that within the beating heart of that personality there abides the Holy Christ Self of perfection which, when lovingly encouraged, can and will externalize its God-perfection through that personality, finally transmuting it completely. Thank you for your endeavors so to do!

SERAPIS BEY

The subject "In God we Trust" is particularly interesting to me because I have the privilege and opportunity to examine each lifestream desiring to make the ascension and to prepare for them the particular initiations which their innermost thoughts and feelings require for their spiritual development and expansion. These initiations are not punishments, but are opportunities to strengthen the chelas' faith in God and trust in his goodness. Sometimes the experiences which are necessary for this transformation from the human into the divine seem extraordinarily difficult, especially when a chela asks that his entire nature be transmuted in one embodiment, whereas, according to natural divine Law, he or she might have as long as twenty embodiments to achieve this transformation!

It is the tremendous speed of transforming the human nature into the divine which often causes the chela to feel that he is being "tried" beyond the limits of his endurance. Yet, is it not better that what must be done, be done quickly, inasmuch as it must be done sometime! Chelas sometimes "beg off" further initiations at Luxor under our direction and prefer to finish their course in a future life. It is entirely a matter of their own free-will. Yet, one day, in some year, in some embodiment—every such chela will have to complete this transformation of the human personality and be able to say and feel, as we do, "In God and in his goodness, we do trust!"

HILARION

Faith and trust are particularly interesting subjects to me. As you all know, at least part of my service to life is to help those skeptics and agnostics who have misplaced their faith and trust in some activity wherein they found bitter disappointment and disillusionment. This has left deep scars of doubt, suspicion and unbelief in their etheric bodies and these people are not easily persuaded to use the beautiful virtues of faith and

trust in God and his holy messengers again. It requires infinite patience and perseverance (both on our part and their own) to dissolve their self-created “shells” of distrust before they will even listen to the sound and balanced doctrine of truth, realizing that it was their own misplaced faith and trust which caused the bitter experiences through which they passed, rather than any power outside of themselves.

However, once they have been thus persuaded, then can we begin to present to them the truth that GOD IS LOVE and, gradually, according to their capacity to accept this eternal verity, are they again willing to use their faith and trust in God and his goodness to help them rise out of their embittered and unhappy estate. I am so willing to help any interested individuals on Earth in this cause which is so dear to my heart. On your own behalf, or on behalf of your loved ones, ask me for my feeling of faith in God and trust in his goodness! I shall answer you instantly!

JESUS

In my experience of nearly two thousand years ago, during my ministry upon Earth, I had the daily and hourly God-assistance of that magnificent faith in the goodness of my heavenly Father. Of course, in my Ascended Master consciousness today, that faith is tremendously expanded and all-powerfully active. This faith in God's power to act instantly and perfectly through me enabled me to bring about every miracle which I performed.

Yet, I realized fully that I, myself, had to set up in my own consciousness the thoughts and feelings through which the Father could freely act. Many individuals who sought my aid were wise enough to ask: “Lord, help thou my unbelief !” For this I was very grateful, for it enabled me to help them accept the assistance they required. Others, refusing to accept the power of God acting through me, could not receive the blessings for which I was then the channel. Therefore, blessed ones, in the secret prayers of your own heart, do not hesitate to ask me to help your unbelief. I shall do so!

SAINT GERMAIN

It is not by happenstance that the statement "In God We Trust" has been placed upon the "coin of the realm" of the American people. It was a divinely inspired message from "on high" which the masses of the people could (although most do not, unfortunately) read, accept and use in their daily barter and exchange. In this year when the angelic host are coming closer and closer to humankind, I say: "IN YOU (the Christ dwelling within your beating hearts) I TRUST! THAT TRUST SHALL YET BE MANIFEST IN WORKS WELL DONE." So be it!

THE BRIDGE

TO FREEDOM

**A Monthly Journal Devoted to Individual Unfoldment, Contact
with the Great White Brotherhood and Cooperative World Service**

MARCH 1958

TO THE COSMIC SPIRIT OF THE ASCENSION, TO BELOVED SERAPIS BEY AND THE BROTHERHOOD AT LUXOR

We send our gratitude for providing a way back "home" to those children of God who have completed their earthly experiences and have earned the white garment of immortality. We, the Great White Brotherhood, who have ascended through the use of the momentum of this flame, know something of its power! We decree that all unascended mankind, imprisoned angels and every living thing belonging to Earth's evolutions, now and in the future, shall accept this power and use it to regain their God-estate!

To beloved Jesus who, wearing a flesh garment like unto the people he came to teach and serve, we give special gratitude and blessings at this Easter Season, for his example of a public ascension, witnessed by hundreds of people and which he hoped would be THE ULTIMATE EXPRESSION OF ETERNAL PERSONAL FREEDOM for all his followers when their Earth's lessons were completed.

To all mankind, slumbering in the mass consciousness of the inevitability of so-called "death" as the end of their life experience here, we offer our gift of love, the charging into their worlds of beloved Jesus' consciousness, feeling and full-gathered cosmic momentum of the ASCENSION IN THE LIGHT! LET ALL MANKIND FULFILL THEIR REASON FOR BEING and so ASCEND, as Jesus DID! So be it!

Thomas Printz

The Homes and Retreats of The Masters of Wisdom

ASCENSION TEMPLE, LUXOR EGYPT

(March 15th through April 14th, 1958)

The Ascension Temple of the beloved Serapis Bey (Chohan of the Fourth Ray), is located near the ruins of the magnificent edifices built by Ramses II at Luxor, in Egypt.

The Ascension Flame itself is a constantly rising current of energy which truly leads to the Father's Throne. Like an escalator, it provides an added impetus to the individual's endeavors to ascend back into their God-estate. This flame is composed, not only of the actual focus of ascending energy which beloved Serapis and his priests brought from Atlantis (before that continent sank beneath the waves of the ocean for purification), but it is also made up of the ecstatic feelings which have been joyously experienced by everyone who has gained his or her personal ascension.

In addition to these feelings charged into the Ascension Flame, the Seraphic host gather all the prayer-force, aspirations and upreaching thoughts and feelings of whatever members of the human race are using the Earth as a schoolroom and literally "graft" this energy into the Ascension Flame itself.

As the very nature of all the flames of God is to RISE, unless some Divine Beings voluntarily choose to magnetize, anchor, sustain and expand particular flames in the emotional, mental, etheric and physical consciousnesses of the people of Earth, the Ascension Flame itself would long since have arisen out of this physical appearance world-out of the ken of human mind and the use of unascended mankind. Beloved Serapis Bey and the Brotherhood at Luxor have made the sacrifice of remaining here and so sustaining the Ascension Flame in the Temple at Luxor to provide a way back "home" for all unascended lifestreams, when they have earned the right to its use by purification of all the energies of their lifestreams, thereby fitting themselves to dwell in the Ascended Masters' realm.

It is, therefore, strongly recommended to the gentle reader that he or she not only honor the Ascension Flame, but give daily gratitude to beloved Serapis Bey and the Brotherhood at Luxor for providing, protecting and sustaining this way back "home" by their voluntary exile here, in a realm from which they long since have earned the right to be eternally free.

A conscious, dignified ascension into light, in full control of all one's consciously transmuted faculties of mind, soul, feeling and flesh, is the natural God-intended goal of all physical embodiment and the reason for which all physical experience is endured. Decrepitude, disintegration, disease, old age and ignominious "death" are not the NATURAL activity of LIFE!

In the early ages, before the contamination of Earth's people by the shadows of the laggards brought here from other stars, the ascension was accomplished consciously and beautifully by every individual, after he had completed his cycle of Earth embodiments, spending some time on Earth during each of the seven-two thousand year periods which make up the cosmic cycle of each fourteen thousand years. On other planets belonging to this system and in superior systems, such a glorious ascension in the light is presently utilized as the altogether NATURAL culmination of the individual's experiences because, on those planets, there is no discord or disintegration of any kind.

This CONSCIOUS ascension into the Ascended Masters' realm has been all but forgotten by the masses of the people of Earth. The Ascended Master Jesus Christ came to remind the outer consciousness of mankind of their ultimate destiny and was the living example for them to follow. Unfortunately, during his life and in the centuries since his ascension, most people have considered Jesus' example as a unique expression of mastery, forgetting his statement: "The things I have done shall ye do also, and greater things than these shall ye do..."

Beloved Jesus, his Holy Mother Mary, John (his disciple) and others before and since who have achieved the ascension, had the assistance, instruction and radiation of beloved Serapis Bey and utilized the full-gathered cosmic momentum of the Ascension Flame to achieve this so-called "miracle" of over-coming "death."

Because beloved Serapis Bey is required to teach the chelas how to transmute their own lower natures and purify their emotional, mental, etheric and physical vehicles preparatory to making the ascension, he has been feared by many earnest chelas who unconsciously enjoy the feelings radiating from the causes and cores of certain human discords which are buried deep within their own inner and physical vehicles (which radiations eventually lead only to disintegration!). Let the chelas be assured that beloved Serapis is a Lord of Love and his ONE PURPOSE IN LIFE is to actually free every individual upon this planet and all who are to come here in the future, from the recoil of those impure causes

and cores of limitations and disease and their inevitable effects of distress of body, mind, soul and affairs.

When a lifestream in embodiment upon the Earth has so served and purified himself enough, so that he is ready to be prepared for the ascension, that one is singled out from the masses by the Brotherhood at Luxor as one who can be given more personal assistance by them. From then on, the sometimes “trying” experiences through which such a chela must pass are really initiations prepared and assigned by Serapis Bey for that lifestream-to bring about whatever transmutations of his lower nature are necessary to enable him to gain the ascension at the close of his present Earth span. Because these experiences do not actually take place within an Ascended Master's retreat, the chela does not recognize that it is a real initiation and is often discouraged by the tremendous weight of his own personal karma which is being directed back into his world for transmutation by the use of the Violet Flame and other purifying activities of the Sacred Fire.

When such is the case, at your call, beloved Serapis can and will mitigate the presently returning destructive karma. However, all destructively qualified energy of each lifestream must one day be transmuted either here on Earth or, in the case of those who have earned the beneficent assistance of the dispensation which allows them the ascension at the close of their present embodiment (because of unusual selfless service in freeing life here), these are sometimes permitted to transmute whatever remains of their discordantly qualified energies at inner levels of consciousness, before the ascension can take place.

You see, everything acts under divine Law, especially where the Spiritual Hierarchy is concerned. When an individual applies for the privilege of gaining the ascension in one given embodiment, that one must be accepted as a neophyte upon the path.

When such a one signifies that he desires a respite from the rigors of quickly transmuting a great deal of destructive returning karma, that one is given such a rest. Therefore, please do not feel that the beloved Serapis and the Brotherhood at Luxor even “try” a chela beyond his individual endurance, for this is not the Law of Love by which they live and serve. Exactly as some students in school ask for permission to complete several years of learning in one and are allowed opportunity thus to prove whether or not they are capable of successfully mastering such added study and application, so is the chela who asks for the opportunity to gain his ascension in one embodiment, given permission to try to achieve

the purity of body, soul, mind, feelings, words and actions to qualify him or her for the speedier attainment of his goal.

Beloved Serapis well knows that many of those chelas who apply for the privilege of finishing the round of their Earth lives by gaining the ascension in one embodiment, are not really ready for the rigorous initiations which result in transmutation of the lower nature. However, because he is a Lord of Love, he allows all who so apply opportunity to qualify for this magnificent accomplishment. NOTHING GOOD ACHIEVED BY ANY CHELA IS EVER LOST remember, beloved ones! So, even though many good and earnest ones in the past have applied to beloved Serapis Bey for the opportunity to make themselves fitted to dwell in the Ascended Masters' realm but at that time were not able to successfully complete their initiations. They left Luxor, temporarily renouncing the disciplines thereof. Yet whatever they there individually accomplished will make it much easier in a succeeding life to continue to the point of "graduation" from this Earth into the Ascended Masters' realm.

As has been described in previous issues of "The Bridge to Freedom" every candidate for the ascension, whether ready for this transition into the realm of perfection or not, must stand in the presence of Serapis Bey (usually in their etheric body at night while their physical body sleeps). He then externalizes the aura of each such a one and carefully and lovingly prepares those initiations which will help such a candidate in the process of transmuting his lower nature. Then he assigns such a candidate to a brother or sister from Luxor whose obligation is to provide the OPPORTUNITIES (not punishments!) so that all of the earnest candidates (if they persevere) CAN ACHIEVE THE ASCENSION IN THE LIGHT. Many of us have had the loving guidance of Serapis Bey and his Brotherhood and have truly gained the ascension through their assistance. Believe us when we say, HE IS TRULY A LORD OF LOVE!

El Morya

Monthly Letter To Transmission Flame Classes, March 15, 1958

Beloved Children Seeking The Ascension In The Light:

How I love you for even desiring that ascension, which is your own ultimate and divine destiny. As we meet at Luxor, I decree that all fear and distress in your etheric and emotional bodies, particularly, (resulting from past and temporary failures to achieve the ascension) shall be removed and you shall joyously and happily meet our great Hierarchy, Sera-

pis Bey and the Brotherhood at Luxor. I shall hold you in my COMFORT FLAME to help you so to do!

Quite naturally, all of life loves the joyous, buoyant, raising feeling of the Ascension Flame and so the millions of elemental beings which I protect, guide and direct, enjoy the assistance of this flame's activity. Of course, all the elemental life which you personally have imprisoned all through the centuries of your Earth embodiments when you used your God-given gift of free-will destructively, shall now have opportunity to be purified and redeemed by the use of the Violet Flame and then by this glorious Ascension Flame and its divine guardians.

The desire to achieve the ascension is inherent in every lifestream which has fallen below the natural state of harmony, love, peace, comfort and perfection. As the soul matures, this innate desire makes itself known to the outer self. Then do we rejoice indeed.

Luxor has been the scene of so many victories in the past and will be the foci for so many victories in the future. Please accept that glorious sense of accomplishment and victorious God achievement which is the ESSENCE of the Ascension Flame.

Love and blessings,

Maha Chohan

Statement for the Transmission Flame Class of March 15, 1958

I AM inbreathing/ absorbing/ expanding/ projecting the angels' feeling and joyous freedom of the Ascension Flame.

Color of Flame: White. Hierarch: Serapis Bey. Keynote: "Liebestraum."

THE MASTERS OF WISDOM SPEAK
REDEEMING IMPURE ENERGY

MAHA CHOHAN

Let us remember that all life is voluntarily drawn forth from the body of God (the Universal I AM Presence) by self-conscious intelligences who desire to manifest as individual expressions of deity in any sphere into which they fit themselves to dwell and serve. In its primal state, this life is pure, perfect, beautiful and all powerful, because it contains within itself the nature of its donor (the Universal I AM Presence).

From the time of individualization, each self-conscious intelligence is personally responsible for his or her use of that life through the use of

free-will and his own creative faculties of thought, feeling, spoken word and action, moulding it into constructive or destructive manifestations. When such a self-conscious intelligence uses his free-will in a destructive manner and produces discord, he then begins to create the long chain of karmic ties and comes under the Law of cause and effect.

The Law of Karma requires that each such intelligence personally redeem all the life he has misqualified. This is the glorious mercy of the Law which is taught by my sons, the Ascended Masters Saint Germain and Serapis Bey. These Masters show the individual how to redeem past and present errors (made by them personally) by the removing of the causes and cores of discord from the four lower bodies through the rhythmic use of the Violet Transmuting Flame and other activities of the Sacred Fire. Thus they set themselves free from the results of their own misuse of life. Particularly during this thirty-day period do I recommend to you the advisability of consciously asking your sponsor from Luxor to help you in this happy activity, the redemption of your own destructive karma and the humanitarian service which you can render, of redeeming the destructive karma of the Earth and all her evolutions.

EL MORYA

The first step on the spiritual path of each honest, earnest and sincere chela is to accept that the causes and cores behind all his distresses were set up at some time by himself and that the effect is a result of such misdeeds in the past. Many self-righteous individuals refuse to accept the responsibility for having been the cause of their present limitations and they, of course, are not ready for the process of joyous redemption of destructive karma.

Instead, they prefer to brood over the seeming injustices inflicted upon them and, with these people, we can do nothing but wait in patience until they can and will accept full responsibility for their own unhappy estate, then ask for our help to extricate themselves from the limitations that plague them. There are rare instances, however, where very strong chelas voluntarily accept the destructive karma of others and offer (at inner levels) to redeem it.

The Lords of Karma allow such individuals to assume this task only when they see that the chela has the strength, tenacity of spirit and momentum of redemptive power required for this almost super-human task! Beloved Jesus was one of such chelas and, in the present day, those chelas who have been acquainted with the use of the Violet Flame

of Mercy and Compassion are also, in a lesser degree, helping in the mass redemption of the destructive karma of the race. The important feeling required by each chela who serves in this redemption of destructive karma is joy for opportunity to set life free. When resentment, rebellion, self-depreciation and condemnation enter the feeling worlds of such chelas who are carrying more than their share of the "cares of this world," the Lords of Karma, in mercy, relieve such chelas from this task and look for others willing to accept and perform this service.

KUTHUMI

Redemption of discordantly qualified life, whether it is manifested as discord, disease, limitation or distress of any kind, means merely restoring that life to its natural estate, PERFECTION. There is nothing occult nor mystical in this process. The chela merely has to know how to call to the Spiritual Hierarchy and the particular flames and rays which the Great Ones, at your call, then will direct into any person, place, condition or thing requiring redemption. Then the chela must constantly and faithfully continue his calls until that redemption actually has taken place.

The efficacy of the "redeemer" is determined by his faith in the power of the I AM Presence and the Spiritual Hierarchy to answer his calls and by his constancy of endeavor until the misqualified energy is redeemed. There is no such call that is not answered if that call is continued until its ultimate effect is manifested. The constancy and persistence of the chela engaged in such redemption determines how efficacious he is in this service. Truly, as my brother Jesus said long ago: "Many are called, but few are chosen."

PAUL, THE VENETIAN MASTER

The true "redeemer" of each lifestream is, of course, the Holy Christ Self which dwells within each one's own beating heart. When this "redeemer" is allowed self-expression through the four lower vehicles (emotional, mental, etheric and physical), its first activity is to quicken the vibratory action of the cells and atoms which make up these vehicles. Then as the outer consciousness becomes aware of, consciously accepts and uses the Violet Transmuting Flame (daily and rhythmically), then the misqualified energy which has lodged between the electrons in the atom is thrown off into that Violet Fire and purified.

We who serve on the Third Ray do all we can to encourage and assist the quicker manifesting of the Holy Christ Self through the outer per-

sonal consciousness of all the billions of lifestreams presently using the Earth as a schoolroom, as well as those “guardian spirits” who came from other stars so long ago to assist the people of Earth and have become temporarily enmeshed in the distresses here. When the individual can and will recognize that his “Redeemer liveth” RIGHT WITHIN HIMSELF, that one can help us considerably in allowing that “Redeemer” (Holy Christ Flame) full freedom to expand and quicken the vibratory action of his lower vehicles, transmute his personal karma and then, in love, serve by helping in the redemption of the mass karma of the race.

SERAPIS BEY

During this thirty-day period, I have appointed one of the seraphim from Luxor to be the sponsor for each chela who has applied for the ascension in this embodiment and who has offered to help in this redemption of all imperfectly qualified energy which shrouds the planet Earth and most of its people at this time. The activity of the seraphim will greatly increase the feeling of joyous enthusiasm, constancy and endeavor upon the part of such chelas to continue in their service until the Earth and all its evolutions are free of every limitation.

These seraphim are very real beings who, for ages of time, have witnessed over and over again the restoration of misqualified life back into its perfect estate. Therefore, their feelings of the actual certainty of accomplishment are a mighty sustaining power which will help the unascended chela to move forward more quickly to his or her own victorious accomplishment! Please accept the loving assistance of the seraphim while you are our guests at Luxor during this thirty-day period particularly, as well as through all the rest of your Earth-span! The seraphim live but to serve and, under my direction, they are your servants of light who can and will give you help without limit at your conscious call, helping you to fulfill your vow to set all of Earth's imprisoned life free from limitations of every description! PERSEVERE!

HILARION

Divine alchemy, transmutation of substance, redemption of discordantly qualified life energy, each of these is an EXACT SCIENCE! It is as exact and unerring as the Law of Mathematics. They have nothing to do with personality, partiality or “favor.” All substance is intelligent life, whether it is manifesting at a discordant rate of vibration in the astral realm which is Earth's atmosphere at present (where the cause and core

of the distress has been set up, although invisible to the average physical sight), or in the world of form where the distressing effect is quite visible and tangible! Through the use of the divine fire of purification, this substance can and does respond to self-conscious intelligent direction and the atoms will as quickly respond to positive commands to express perfection as, in the past, they obeyed the commands of thought, feeling, spoken word or action to create discordant expression.

No imprisoned life (living below the natural state of harmony and perfection) is happy because the inherent intelligence within that life knows its natural estate is beautiful and perfect! Thus imprisoned life will literally “leap” forward into freedom when the command for its release from distress is given with God authority, by the use and in the name of the I AM Presence! If the chela can and will accept the fact that life is willing and eager to obey such commands to express perfection, such a chela can, without tension, work with life intelligently, impersonally and happily! If the chela believes (in his feelings particularly) that life will resist his endeavors and thus choose to remain in limitation, the efficacy of such chela's endeavors is greatly diminished. EXPECTANCY of response is essential to performance of redemption.

JESUS

I was born without personal karma of a destructive nature. Thus, I had the advantage over many earnest chelas who serve now as “redeemers” of the Earth's discord. Therefore, to each such sincere lifestream who yet has not fully redeemed his own destructive karma, I offer my fully-gathered cosmic momentum of the redemptive process which I used to set life free during my final Earth life. Those who will consciously use the power of my name (the Ascended Jesus Christ) and use my Ascended Jesus Christ consciousness WHICH HAS ALREADY OVERCOME THE WORLD, have been, in the past, and shall continue to be able to control and redeem so much of the discords of the outer world. Ask me to help you.. I shall answer you, joyously and INSTANTLY!

SAINT GERMAIN

We have now entered into the Age of Redemption! Earth shall now become “Freedom's Star”! All its attendant evolutions shall know complete and eternal freedom from every distress! Every Cosmic Being, Ascended Master, seraphim, cherubim and member of the angelic host (assisting Earth's evolutions at this time) is helping in this redemption. Also,

through the kind and co-operative service of my unascended chelas in the world of form who are making the calls for such redemption, this process is being tremendously hastened and I am so grateful to all As-cended and unascended beings, who are helping me to make the Golden Age of Freedom manifest here on Earth! Please accept my feeling gained through many centuries of experimentation with the requalification of energy, particularly through the use of Violet Fire, into your own feelings.

I promise you that, as soon as the Law will permit, I shall give you visual aids which will impress upon your consciousness through the outer senses, the way in which the use of the Violet Flame actually does raise the vibrations of shadowed (misqualified) energy, raising it into the vibrations of pure light and thus setting it free from discordant appearances. This allows that energy, raising freedom to act in its natural estate, PERFECTION! PLEASE DO NOT FEAR HUMAN APPEARANCES OF ANY KIND! Released by your own beloved I AM Presence at your call or by Divine Beings to whom you call in addition to your Presence, the Sacred Fire is much more powerful than any human appearance or accumulation of them-even so-called "death" itself. Beloved Jesus proved this in actual physical manifestation! YOU CAN PROVE IT TOO!

Remember! All imprisoned life WANTS TO BE SET FREE and you will have the full co-operation of this imprisoned life when you desire to set it free, as well as our full co-operation in such activities also. Then, be NOW "about your Father's business"! I SHALL BE WITH YOU EVERY STEP OF THE WAY!

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
With the Great White Brotherhood and Cooperative World Service

APRIL 1958

TO THE COSMIC SPIRIT OF MERCY—THE VERY NATURE OF GOD—THE UNIVERSAL I AM PRESENCE ITSELF

We send our deepest feelings of divine gratitude for the magnificence of this spirit, which CAN AND DOES transmute all discordantly qualified substance back into its natural God-estate of ABSOLUTE PERFECTION!

To our beloved Kwan Yin, Goddess of Mercy, whose service to life is consciously directing the flame of God's infinite mercy to all imprisoned life everywhere, we humbly bow! In all her loving presence, all sins of omission and commission are completely transmuted into light and each such soul is allowed the full freedom to then arise and become the MANIFEST EXAMPLE OF HIS OWN HOLY CHRIST SELF IN ACTION-right here, in this physical appearance world!

Every individual who has used life imperfectly, at any time, now has full and free access to the presence, forgiveness and compassion of the Flame of Mercy, which the gracious Lady Kwan Yin embodies. Reach out in consciousness and touch the hem of her robe (which you do when you place your attention upon her). Let Mercy's Flame give its limitless assistance to your eternal freedom and transmute the misqualified energy of your own personal world, as well as that of the entire Earth. The Flame of Mercy will answer you— and at once.

Thomas Printz

Homes and Retreats of The Masters of Wisdom

TEMPLE OF MERCY – CHINA

(April 15th through May 14th, 1958)

The beautiful Temple of Mercy, around which are twelve smaller temples, is located in the ethers, near Peking, China. This is the focus for the Flame of Mercy and Compassion for the Earth and all its evolutions.

The Lady Master, known well in the Orient as Kwan Yin, Goddess of Mercy and Love, magnetizes the Flame of Mercy and Compassion from God's own Heart into the lower atmosphere of Earth, wherein the distresses of soul, mind and body are temporarily experienced.

Long ages ago, beloved Kwan Yin was well known to many of the people of Earth who, being aware of the tremendous gifts of her Flame of Mercy, which could be theirs for the acceptance thereof, often came to her temple for assistance in the transmuting of their own destructive karma, as well as that of their loved ones. At certain times, Kwan Yin and her spiritual court would travel over much of Eastern Asia and those who were not able to make the long pilgrimage to her temples were so given personal audience by this gracious lady—at that time visible to the physical sight of the Earth's people. She has always been, and still is, particularly interested in helping children and parents to redeem their respective and collective destructive karmas, so that they may more quickly outpicture the perfection of their own I AM Presence.

Often, in those past ages, beloved Kwan Yin would baptize with Violet Fire the children who were brought to her for blessing, holding them during that ceremony in her own compassionate arms and, as much as the Cosmic Law would permit, she would mercifully transmute as much as she could of the (to the physical sight) unseen, but destructive karma, of these little ones, before it could externalize as distresses of soul, mind, body or affairs. These destructive energies, of course, had been generated in past lives.

After the veil of maya had been created by the mass of mankind, beloved Kwan Yin, like others of the Divine Beings, was no longer seen by the outer physical sight of the people but she has continued her services from the inner levels of consciousness which, of course, are very efficacious and render a transcendent service to mankind, the Earth and its atmosphere. Since mankind's "attention" is the open door into his world of all upon which he fixes that attention, when the beloved Goddess of Mercy is again better known to Earth's people and her beauty and loveliness (as well as those who serve with her) are again visible to the physi-

cal sight of the people, then will such blessings of healing, balance, peace and joy come forth to the people as have never been known on Earth before. This is just one of the glorious gifts of “The Seventh Ray,” which she serves, and has served so selflessly for ages and which await mankind as the Permanent Golden Age comes into its complete fulfillment.

Wise, indeed, is the chela and grateful, indeed, is Kwan Yin for such a one who will consciously, daily, offer the younger generation and incoming children to our beloved Kwan Yin for her loving and merciful assistance in these days. She will answer your calls and take each such lifestream into her embrace, performing for them that same service which she rendered in those past ages.

After a soul has passed through the change called “death,” at the close of an Earth-life, beloved Kwan Yin again renders each such a one a specific service—helping to wash away many of the “scars” upon the etheric body of that one of disappointment, feelings of apparent failure, remorse and the causes and cores of other distressing conditions which the Law will permit her to remove. This makes it much easier for the individual to stand before the Karmic Board (which, of course, must see all that is within the entire world of the applicant) and it enables that loving and merciful Karmic Board to assign that soul to the highest possible sphere for instruction and help between embodiments.

The beloved Kwan Yin, with her Sisters and Brothers of Mercy, as well as her limitless Legions of the Angels of Mercy, are also dedicated to the complete removal, as quickly as possible, of the cause and core of the scorn which the so-called “righteous” direct toward unwed mothers and their illegitimate children. One of her Legions is always a guarding presence over all homes and orphanages, where such lifestreams are given as much assistance as possible. Her Flame of Mercy and Compassion always surrounds the mothers and mothers-to-be, whether they are helped by their fellowman or not and, in many instances, abortions and suicides often have been averted by the protecting, faith-sustaining power of the Legions of Kwan Yin—the radiation from whom gives such tremendous help to those unfortunate lifestreams who have become enmeshed in distresses of this nature.

The extreme quiet of the Temple of Mercy is the very first thing a visitor notices. The Brothers and Sisters move silently from temple to temple, rendering their service without “fanfare” of any kind. So does true mercy act, even through unascended human beings.

The exquisite graciousness of Kwan Yin is embodied in all her celestial helpers and even in the unascended chelas who belong to her Legions of Mercy. This graciousness is also the predominant nature of the beloved Ascended Master Saint Germain and it is a heart feeling—not a surface expression of kindness and love.

There are many individuals belonging to the Earth's evolutions who cannot, or do not, desire to forgive injustice done to them. Even sincere chelas sometimes harbor feelings of resentment and rebellion against other lifestreams, as well as against circumstances of an unhappy nature. To these, I recommend the invocation of beloved Kwan Yin's own feelings of true mercy, compassion and forgiveness. She will give to you the feeling of her full, gathered cosmic momentum of forgiveness and mercy, until you, too, find the joy that comes in generating that feeling for yourselves.

So, come often in consciousness into the Temple of Mercy. Kneel at the feet of beloved Kwan Yin! Feel all the love of her Heart fill your beings. Then return to your own homes and activities and become an Angel of Mercy—unassuming—but powerful in action, until all distress has been transmuted into Light!

El Morya

LET US MAGNIFY THE LORD
By Beloved Mother Mary and Jesus

December 30, 1957

Blessed and beloved ones, you are my children! There are certain lifestreams belonging to every planetary scheme who are natural Mothers and there are other individuals who are natural Fathers. Some of us, who are now rendering service to mankind here on a more than ordinary scale, have been given the privilege and opportunity of a motherhood wherein a particular Avatar or Christ Being was guarded. We spent many embodiments previous to the one in which such an Avatar was to be born, preparing for such motherhood. We also spent much time at inner levels being trained in the powers of protecting and guiding those particular souls, whom we later brought into physical birth. Thus did I qualify to bring the Master Jesus into his final physical embodiment here.

In other embodiments, I was a mother to other lifestreams many, many times and to some of you I have been your actual physical mother. However, for the most part, cosmically speaking, I have served in the feminine aspect for many ages, developing that activity and authority, as well as protecting the immaculate concept of every lifestream. Therefore, at the time of Jesus' birth and on through his whole life, I was fully prepared and able to assist him. When he gained his ascension (as I explained in my "Memoirs"), I became the mother of the world—meaning the spiritual mother of all the billions of lifestreams who belong to Earth's evolutions (those who are in embodiment now and those who are abiding at inner levels between embodiments). That is one of the purposes of my being and one of my services to life.

So, tonight, as we draw here and into Earth's atmosphere the healing radiation from my beloved Jesus' heart and from my own, will you please listen and feel (even if just for this short time) that you really are my children? Please feel that every problem and every condition that is less than perfection in your world can, and will be, melted away while we are here together tonight, if you will just let it go! Let it go in your feelings! Let us come into that close, friendly feeling—not only through the memory which I have awakened within some of you from time to time of—days that have gone before when we all knew each other so well (when we too wore physical bodies similar to those which you are wearing today), but right here tonight, in this room, LET ME BE YOUR MOTHER!

I rendered the service of holding the immaculate concept for beloved Jesus, time and again, when he was young in years, so sensitive in consciousness and so desirous of helping life. Whenever Jesus' outer senses would report imperfection to him, he would come to me and, standing by my side, together we would say: "Now let us not magnify this appearance! Instead, LET US MAGNIFY THE LORD! LET US MAGNIFY THE GOD-GOOD IN ALL IMPERFECT APPEARANCES WHICH WE WITNESS!"

So, as I draw you into my arms tonight and into the radiation of my very Presence, will you silently say with me and try to really mean it: "I NOW let go of these appearances of imperfection in my world and consciously magnify the Lord of Life—the Lord of Health—the Lord of Youth—the Lord of Vitality—the Lord of Love and Limitless Supply."

Let us learn, and practically use, the great God-truth that our souls may either magnify the appearances of distress (which seem so real to us) by keeping our attention upon them—believing in their reality and thus allow them to remain and increase by the feeding of our very life

into them, or our souls may magnify God-goodness right here and now! Tonight I ask you to accept and feel a real transfusion of my energies into your world so that you may more easily magnify the power of the Lord—of God—within your heart, within the hearts of all you hold near and dear, within the hearts of all mankind in distress tonight—until that tremendous impetus has expanded and released the God-powers within each such a one and everything that is less than perfection is transmuted into light NOW! Come children of my heart! Beloved of my bosom! Friends of the Ages! Let us magnify THE POWER OF GOD TO HEAL, TO GIVE YOU EASE AND PEACE AND HARMONY! COME BELOVED ONES! PLEASE LET GO, LET GO, LET GO, of those appearances which have en-meshed you in fear and distress and let your consciousness arise with me into the presence of my Father and yours, my Mother and yours—there to feel the ONENESS between the God-parents and your very own life!

Accept Mother Mary In Your Feelings

Oh, precious ones-especially those of you who have served so long with the Earth's people—ACCEPT TONIGHT THE HEALING GRACE WHICH IT IS MY GREAT JOY AND HONOR TO DIRECT EARTHWARD! LET IT MANIFEST PRACTICALLY FOR YOU NOW! Accept the presence here with you (and all who will read these words) of the great angels from Raphael's Legions and the mighty angels from my own temple, for I am sending them into your atmosphere and homes tonight. Won't you please let those angels BE A SUSTAINING POWER of the grace which I am and which I now flood into your worlds?

Beloved ones, you need not descend from grace, when once you have been raised into the higher vibrations of our consciousness by your attention upon us. When we enfold you in the actual essence of our hearts' love, when the angels intermingle with your precious selves in these meetings and your auras are filled with the vibrant colors of our radiant energies, which are of heaven, all of this can be sustained for you! ACCEPT THAT! Accept that, after the meeting, you no longer need to return to the conditions of distress and limitation which have been your past and recent experiences but, from now on, if you will accept it as possible for you, you can remain in this state of grace, harmony, healing and peace!

This is the perfection of the sphere in which we have become fitted to dwell and into which we are endeavoring to raise you when we have an opportunity to come close to you, reaching into your worlds through

radiation, our spoken word, and your attention upon us—which attention is the “open door” into your world.

When we see you gathered together from time to time—so comfortable and happy during the short time while you are in our radiation, temporarily (at least) raised out of the conditions which distress you, it seems so unfortunate to us that, at the close of the meeting and our communion with you, through thought and feeling you return, again, into the unhappy conditions and the experiencing of appearances which really need no longer exist for you except as your mental body searches them out, again, and as your senses then energize the destructive etheric records thereof, by the energy which is flowing through you NOW! Thus are those thought and feeling forms re-created by yourselves! They have been dissolved for you over and over again—hundreds of times by your Ascended Master Friends of Light!

The Secret Of Holding Grace Sustained

Now, tonight, as I said—I AM YOUR MOTHER and I am speaking to you with a Mother's love, just as I spoke to Jesus. I say to each and every one of you: You are a magnificent Being of Light! Your Holy Christ Self is expanding its beauty and perfection through you and is expanding the perfume of its presence into the atmosphere about you. One of the melodies of the Music of the Spheres is flooding your world with the harmony of your own individual keynote of expression—all of this made possible for you and personally belonging to you as your divine birthright, through the gift of life, which flows to you through your silver cord from your own individualized God-Presence I AM. Your own cherubim can also be visible and tangible to your physical sight (when you desire it enough), as well as the magnificent angels of our legions, which often walk by your side. Think about this! This is the ABSOLUTE GOD-TRUTH ABOUT YOU! Try to hold this picture of perfection for yourself. If you wish, you may ask your cherubim to help you hold that picture and consciousness.

The secret of sustaining that consciousness and feeling of divine grace lies mostly in your remaining within that feeling and radiation, until it has sufficiently penetrated and saturated the substance of your four lower bodies—not letting your attention be diverted or drawn below the vibratory action which we have established around you. We have often said that if, after an address, each one of you literally could be enfolded in the arms of one of the angels of light, be transported to your own homes and placed in your beds without any contact with other individu-

als or things of this world of form—then if you could sleep the night through in that same radiation, how much more efficacious would be our assistance to you!

In the Ascended Masters' Retreats, that is why the chelas progress more rapidly. You blessed ones, who serve in the outer world, having to travel back and forth to meetings through means of conveyance, have the vibrations of your worlds raised as you enter these sanctuaries and take part in the services. Then, after the meeting has been closed, you leave the sanctified altar and sanctuary, having become much more sensitized than the ordinary individual and subject to more of the lower vibrations of the masses of the people. This is not experienced by the chela in the retreat. Each one needs to protect himself or herself after such meetings, one could use Archangel Michael's protective shield here with great efficacy.

For instance, in our retreat (the Resurrection Temple), after we have talked to our chelas, giving them instruction on the law, those chelas are immediately returned to beautiful quarters, where angels attend them. Here they are allowed to lie down, completely undisturbed, and assimilate the instruction which has just been given them. Then, when they are ready for their next lesson, they do not have to raise themselves again to the point of contact in consciousness with their instructor—whoever that may be. Now, greater assistance to this end will come, in time, to all. We are giving you every God-help the Great Law will permit, believe us!

Before you come to a meeting, beloved ones, we send into your homes an angel, who “tunes up” the vibratory action of your four lower bodies. In many ways, they clear your path, protect you and try to sustain as much harmony as possible in, through and around you, so that the raising of your consciousness to those of the Ascended Ones officiating at your meeting does not become entirely a “last minute affair,” when you enter into the vibrations of a sacred sanctuary and then quickly into the vibratory action of the Ascended Ones. You see, the Ascended Masters' radiation, even when we lower it, is vibrating very much more rapidly than the energies in the emotional, mental, etheric and physical vehicles of any person outside of an Ascended Masters' Retreat.

The purpose of the music, the visualization and devotion to the Master or Archangel to whom the meeting is dedicated is to draw all those four vehicles, of everyone there, high into the vibrations of the Masters' presence. The better that can be done, the less energy the Presiding Master must release from his world to make the contact with your outer

mind, thus, the more he has to release to bless you during the meeting. Do you see? However, we understand that, in your world of today, as you are all more or less engaged in the dissolving of various karmic debts (certainly not one of the least of these being the necessity of “earning a living” in the outer world), that you can but do your best (and may I say that yours has been a VERY GOOD “BEST!”) We are grateful, indeed, that you take the time and have the interest to come and listen to us, thus receiving at least SOME of that grace which is ours, even though ALL of it is not always sustained in your worlds!

Angels To Come Closer Into Earth's Atmosphere This Year

The year of 1958, as you have been told, is going to be called “The Year of the Angels.” It is the year when the angels, themselves, will play a very great part in the activities of accelerating the vibratory action of the strata of consciousness in which mankind lives. You will see more and more books, pictures and representations of the angels as 1958 begins to unfold. Of course, being of that kingdom myself, I am very grateful, indeed to have the angelic host receive this opportunity.

Once you have felt the pressure of the power of some of these mighty angels (and you can feel that pressure by placing your attention upon them and asking for their blessing of protection, healing, or whatever your need may be you will be grateful indeed, to have them as your constant and all-powerful friends of light, as you progress along life's path with your hand in the Hand of God, serving your fellowman and imprisoned life, everywhere.

It is the MOST TREMENDOUS JOY TO SERVE GOD—beloved ones—especially when you have the great buoyancy of the angelic host to sustain your enthusiasm in that service, when you have the angels' faith to sustain your TRUST IN GOD, when you have the healing power of the angelic host instantly available at your call to resuscitate and re-vivify the atomic structure and when you have the full, angelic momentum of Violet Fire at your command to use for the purifying of those destructive etheric records, which may still be in your world and which are the causes and cores of all distressing appearances!

As one who once wore an Earth-body similar to yours, I can tell you that neither Joseph, Jesus, nor myself could have been victorious in our association with the mankind and human appearances of that day, nor in my association with the disciples in the establishment of the Christian Dispensation, if it had not been for the constant presence and loving care

of the mighty Archangels and the angelic host. I have said this, over and over again. For all eternity I shall be grateful for their vigilance, care of me and service to me. You, who have been present here during the visitations of those great Archangels (when the addresses for their book were given), you, who therefore have in your worlds, at least some of the substance of their very life—know something of what I meant.

Just think of those great and mighty beings who also deal with other planets and other universes than this one and yet give their life and attention to a few unascended lifestreams, in the hope of awakening within those consciousnesses the same love which they have for life and the same desire and determination to have that life free. Grateful am I, indeed, as one who was also a beneficiary of their outpouring, that you have these great Archangels as your friends, too. I am grateful, too, that you know something of their service to life and that you are willing to call them by name and feel the radiation of their Presence with you.

Without the assistance of the angelic host, mankind could not enter into this millennium and its new order, which our beloved Saint Germain is bringing forth now. The angelic host are a primal part of the great ceremonial activities which will delight you as they come forth in this New Age. These angels are graceful in the extreme, humble and yet so powerful, so obedient and willing to do the will of God, as expressed through any of us. Many a time I have sent those legions of my own to places where there were the sick, the destitute and the distressed. Those angels—so beautiful—with shining wings of light, beautiful golden hair and scintillating garments of iridescent hues, just bowed humbly before me and willingly went into those places where the suffering was so great. Many, many times their assistance was rejected because of unbelief and a lack of acceptance of their services. Many times the people to whom the assistance was sent, in answer to their prayers, did not accept their help when it came but never once, although those angels returned with their mission unfulfilled, did they ever feel discouraged. They just bowed humbly before us, waiting for the next expression of our will. Sometimes the same angel would return to the same individual again and again until that one, in a moment of grace, could and did accept the gift of healing or whatsoever it was that I had sent in answer to their prayer.

Angels Are Real Friends And Always Answer Your Call

You will find the angelic host so easy to work with! They are not beings of either logic or of reason, but they are beings of such transcendent, divine Love! They are intelligent—yes—very intelligent! But their love responds INSTANTLY to the direction of any God-being or unascended being who will earnestly call to them in the name and authority of their

own individualized I AM Presence. Especially do they respond to those of you who know many of them by name and who call to them daily.

I have seen groups of angels from the Sacred Heart Temple, from Zadkiel's Temple and in many of the other temples in our octave, in the midst of performing one of their lovely rituals in gratitude for life to the Sun or in one of their Fire Dances. Even as they were in motion, have I seen them register the call for help of some kind from those among you, who know of them. Then, as quickly as possible, they would gracefully complete that which they were doing and come instantly into your aura or that of your loved one, who needed their assistance.

There is no such thing as an angel who does not answer a call from any individual, not only those of you who know of the wider service of the angelic host—but of any soul who needs help! Those of you who know the names of the seven Great Archangels and their Archaii and know the names of many of the Great Cherubim and angelic host, are particularly blessed, for you have a closer communion with these beings because of that. This close feeling of association can be builded into quite a momentum, until you really feel, right here in the physical appearance world, that you are on “close terms” with one or more of them. That affinity oftentimes is consummated while your physical body sleeps at night. Your angel-guard often accompanies you to the Royal Teton or some other retreat, where the Ascended Masters are gathered together. You are then enabled to counsel with them and learn much from them. This angel-guard may be either your ministering angel or, as we have just said, one with whom you have developed a particularly close feeling of divine love and devotion.

Beloved ones, during this year which we are just now entering, PLEASE anchor, within yourselves, the consciousness that the angelic host are as real to you as you are to each other. They are far more willing to assist you than the human,-for to serve life IS THEIR ONLY REASON FOR BEING!

Tonight, from the heart of the Great Central Sun of this system, I do invoke the most powerful healing essence into this room, to heal the soul, the mind, the feelings, the bodies and affairs of every blessed one, using the fully-gathered momentum of my healing consciousness so to do. Then I amplify that to include all who now (or ever did) belong to our beloved Saint Germain's activities. I decree that this same radiation from beloved Raphael's Legions shall be established in, through and around every sanctuary and group under this radiation from this night on.

Now, my children, LET GO, LET GO, LET GO, of the appearances of lack, ill health and discordant appearances of any kind which are disturbing you! From now on, LIVE IN THE ACCEPTANCE OF PERFECTION, NOW MADE MANIFEST! Always know that, as your mother, I am as available to you with my healing help as is the most loving mother on Earth—even more so, because my CONSCIOUSNESS IS ALL-ENCOMPASSING! I can hear the calls to “Mary” coming from your heart, even though such a call be inaudible to human ears!

Now, my beloved Jesus, great prince of heaven, will give you his blessing of the evening!—BELOVED JESUS SPEAKS:

Beloved of the Light and my blessed mother! I thank you for the opportunity of speaking to you all tonight, during this holy season, when my advent is honored among the sons and daughters of men.

In speaking of the angelic host, my beloved mother brought to my mind, very forcibly, the God-truth that I, myself, in Gethsemane's Garden and in many other “trying” places, during my final embodiment on Earth, could not have sustained that positive consciousness, which was so vitally necessary for me to hold, had I not had the help of the angelic host, which made and kept me victorious upon life's path until my completion of the pattern which I was to fulfill. I had the great assistance of that mighty host of heaven and I am grateful, in the extreme, that those among you who belong to Earth's people, as well as those of you who are guardian spirits and who have come from other stars (having temporarily succumbed to human appearances) shall now have more and more conscious, tangible help from these friends of light, also.

In the name and authority of that great and glorious universal I AM Presence, In the name and authority of that ascended Jesus Christ Presence which I AM, In the name and authority of your own individualized I AM Presence, I NOW COMMAND YOU FREE, FREE, FREE, again—just as free as the lepers through whom I once called my victorious healing Flame into action, as free as Lazarus, from the appearance of so-called “death,” as free as were the obsessed when I called from them the torturing human creations which had attached themselves to them, then letting their balanced mind take command again, as free as the men who came to me blind and left my presence with perfect sight! On this night, as I stand here speaking these words into this atmosphere. I COMMAND THIS FOR YOU! I ACCEPT THIS FOR YOU! Please endeavor to consciously accept it for yourselves, to be active in your worlds. Do not strain or try too hard to do this—just ask your own beloved Holy Christ Self to flood your feeling worlds with the feeling of acceptance of this, which I am

giving you.

(The foregoing decree was given with tremendous release of power—even through the voice of the “contact.”)

When one is dealing with a very small focus of discord, one needs to release but little power to transmute it, especially from our side of the “veil.” However, when we take advantage, as we do in these classes, of the use of your energies (because your life is one with that of all belonging to Earth's evolutions) to release millions of people from tremendous accumulations of discord, we must send our powerful fiats forth through you and your “forcefield.” That is why all your bodies must be very strong if we are to use them for such a purpose, because you must (so to speak) BE OUR BODIES in the world of form!!

Do you realize that the sincere students all over the world really comprise the “Body of Christ” in the world of form? You see, through years of loving devotion to us and the application of our law, rays and flames into your worlds for the healing of your bodies and the solving of your human problems, you have drawn about yourselves a great deal of the substance of our individual worlds. Of course, some have drawn more than others and some have drawn more from one particular Ascended Being than another.

Therefore, because you have much of our actual essence around you, you can be a body of Mary in the world of form, you can be a body of Michael and one of Saint Germain in the world of form and many others. Therefore, such chelas who will so let us act through them, become actual “arms of our presence” and we can and often do, utilize the energies of such chelas to heal, bless, prosper and illumine many in the atmosphere or in association with them, when such opportunity presents itself. It goes, without saying, that UNINTERRUPTED HARMONY IN YOUR FEELINGS is necessary, to be held to the best of your ability, so that, when some cosmic moment allows us to give a more than ordinary service, your energies are ready for us to use. Tonight was such a cosmic moment, when we were enabled to render you the service of cutting you free from so much distress, as we did. Please accept this freedom from now on—this is permanent good decreed for you, because your motives are to serve God and expand the light!

Many of you have loved ones to whom you can direct the full power of this fiat, which I made for you tonight. One day, when Mother and I stand face to face with you, you will be grateful for what was done tonight—not only for yourselves but for every member of the race. This

decree, which I released tonight went right into the realms where the disembodied dwell and into the realms of the “sleepers” also. It also went into the realms where those now dwell who were formerly in “The Compound.” It also penetrated the realms where there are those awaiting physical embodiment.

Sometimes it takes a tremendous surge of positively-qualified energy to reach through the “shell” of unbelief and the human habits of thought and feeling that are not accustomed to instantly accept the feelings of perfection decreed for them. This power I had to use upon certain occasions before my ascension—during my ministry here—to suddenly shock, from the etheric body (particularly), some destructively qualified pattern or patterns which had been build and rebuild there time and again, as mother has told you.

For example, if you had a rubberized sheet (let us say) which had sagged a bit because of an accumulation of water which it was holding and suddenly someone raised that sheet and emptied the water from it, that would be a similar action to that which takes place when one of the Ascended Ones removes, from the etheric body, some deep-seated record of discord of some kind. It takes a powerful surge of energy upon our part to remove such “obsessions,” for sometimes such creations become just that!) Then, after we have removed the “water” from the sheet (the thought and feeling form, or forms buried deep within the etheric body) the old habit of the human mind (immediately after our departure, when the attention goes back to the outer self again) is to turn back to its old habit, and pattern, of thought and feeling and refill that sheet with the very same vibrations and substance which were there before and from which it had been freed.

Now, in the name and authority of almighty God, I do call for every possible assistance, even from the beloved Alpha and Omega (God and Goddess of the Great Central Sun), from beloved Helios and Vesta (God and Goddess of our physical sun), as well as from all the Sun-Gods and Sun-Goddesses of the systems which belong to this galaxy and to all the solar lords who are in the atmosphere of Earth during this holy season! I ask them, as far as they possibly can, to see to it that everyone for whom I have spoken this decree tonight DOES ACCEPT IT and quickly receives its blessing. I ask them to help all not to again accept as real, the imperfections from which I have released them.

This decree I command made manifest, not only for those present here tonight and for those who are “tuning in” to this heart-center during

this class, but I command it to go to the far corners of the Earth—for I am releasing my healing power to all tonight. Expect the manifestation of this decree, for MY WORD IS LAW in this physical appearance world! However, try not to be concerned about the “how or when” of its manifestation. JUST ACCEPT IT and TRUST ME to bring it to pass at the right time and in the right way.

By the power of almighty God, by which every so-called “miracle” I ever performed was accomplished, I call for the release here and throughout the world tonight, of the SUSTAINING POWER FROM THE ASCENDED MASTERS' RETREATS, to permanently enfold each and every one. As you return safely to your homes tonight and, retiring, enter sleep in as much of this radiation as possible, I ask that you be enabled to awaken tomorrow in that buoyant and confident Christ-consciousness which is not only mine to give, but which is within the power of your own Holy Christ Self to give also—and sustain for you too!

I am very grateful that the “veil of maya” is steadily growing more and more thin and, one day, when it becomes thin enough, you will see us standing right here before you. So—until we meet later tonight at the Teton, in love, in gratitude and in the full acceptance for you from your Jesus Christ, FREEDOM FROM DISTRESS, Mother and I remain—your humble servants, and your loving friends!

Note: Whenever one of the Great Ones gives a blessing or releases a powerful fiat of some kind for your freedom, be sure, always, to be alert and quickly say (silently within yourself), thank you beloved I AM Presence, see that I accept that in my feelings! Keep it eternally sustained, all-powerfully active and ever-expanding, until I and all mankind are wholly ascended and free!)

These addresses are not lightly given and, in the case of the foregoing one, it may take some conscious endeavor, on your part to allow the freedom of which Jesus speaks, to outpicture. We sincerely hope that it will manifest for our gentle reader in one flash—but, remember, we have been centuries upon centuries building their causes and cores. Think it through!

Perhaps some of our gentle readers may not clearly understand what our beloved Mary meant in her reference to “your cherubim.” About five years ago, our beloved Saint Germain secured the interest of certain cherubim, who willingly offered to abide within the personal auras of sincere chelas, who were willingly engaged, not only in freeing themselves from the limitations of the ages, but who were earnestly interested in

helping to free all mankind, as well. Those cherubim have remained with those lifestreams, and will stay with them, until their ascension is completed. Recently the Great Ones have told us that every sincere student who has been in "The Bridge" activity for at least one full year and who makes daily application for himself and others, has had such a living cherubim anchored in his or her personal aura. If you have such a God-friend in your world, be sure to consciously acknowledge its presence with you at least once a day. You can become very well acquainted with such a one and that cherubim can, and will, give you much help, unto your eternal freedom in the light!

THE MASTERS OF WISDOM SPEAK
GAINING THE ASCENSION THROUGH TRANSMUTATION
OF IMPERFECTION

MAHA CHOHAN

The supreme and ultimate goal of every individual lifestream is the ascension into the Electronic Body of his or her own I AM Presence, wherein such a one becomes forever free from discord, strife and limitation of every kind. It is to be deplored that more of the people of Earth, today, do not accept even the possibility of their own personal ascension. They are so willing, through misconcepts of their own (and the acceptance of such from others), to believe in and accept disintegration, limitation of every kind, decay and even ignominious "death", itself, as the natural order of a good God's magnificent divine plan.

We are now endeavoring to expand into the outer minds of the people of this planet, that the ascension is the ultimate goal for every lifestream and to explain, wherever possible, the ways and means by which such an individual's ascension can be achieved. Blessed are those who will listen to us, believe in our counsel and act upon it!

EL MORYA

Although the will of your own beloved I AM Presence is actually to fulfill itself through the expansion of the Holy Christ Flame, acting through your physical form right here on Earth and thus to externalize the perfection, gifts, powers and virtues of your Causal Body for the benefaction of the race evolving upon Earth, the free-will of each lifestream must, of itself, decide to willingly and lovingly co-operate with that divine plan and consciously desire to transmute the lower nature by the rhythmic use of the Violet Fire of Freedom's Love. This must be done before we can give more than ordinary, assistance to such a one. No member of the Great White Brotherhood—nor even your own I AM Presence—will impose his or her will upon your own free-will choice. That choice must be made through our own feelings. When it is—ALL OF HEAVEN WILL ASSIST YOU at your call!

KUTHUMI

What is the ascension in the Light? It is merely the drawing back into your own personal aura of all the energies you have discordantly qualified, all the way back to the beginning of your having become enmeshed

in the shadows of human creation. In your own aura, you joyously and willingly transmute that shadowed substance into its natural God-estate, by the use of the Violet Fire of divine mercy. The ascension is made possible of attainment for the individual who desires to reclaim and purify his miscreations of the past and thus remove the causes and cores of impurity in his own lifestream, which causes and cores were the sustaining power of his distresses.

Usually, those blessed chelas who are about ready for their own ascension voluntarily offer to transmute not only their own destructive karma but, also, to help in the redemption of the karma of others, and of the race, itself. These lifestreams are interested not only in their own personal freedom but also in the redemption of all astral and psychic creations which plague the masses. To this end, we have partners on Earth who have been and still are, eager and willing to help us to create again (and permanently this time)—the kingdom of heaven on Earth. Thus shall we be able to give to our beloved Ascended Master Saint Germain, the joy of an externalized “Freedom’s Star,” upon which he may quickly manifest the permanent Golden Age for the present and future inhabitants of our dear Earth.

PAUL (THE VENETIAN MASTER)

The ascension, for any lifestream, is attained by the quickening and raising of the vibrations of the electrons, which make up the atoms of the emotional, mental, etheric and physical vehicles of each lifestream. One of the greatest powers which can be called forth to so assist in the quickening of these vibrations, is your own Holy Christ Self. This Holy Christ Self lives within you but for one purpose,—namely to externalize your own divine plan right here on Earth, through your outer consciousness (personality). It eagerly and instantly responds to your invitation to give you its assistance in the gradual process of ascending into your natural God-estate. We, the Brothers and Sisters of the Third Ray, are primarily concerned with the expansion of the Holy Christ Flame through you and, to this end, continually pour upon it our love and blessings.

The very nature of your Holy Christ Self is harmonious, peaceful, confident and happy. Therefore, when it is invited to act through your four lower bodies, it naturally begins to raise the feelings, thoughts, words and actions of the personality above the strata of discord. This “raising” activity quickens the vibrations of the electrons in these bodies, so that they literally throw off the shadowed substance of discord, which has wedged itself between the electrons. Then the Violet Fire of Mercy

and Compassion does transmute this discord for you, when consciously and rhythmically called into action so to do. So do you become the “quick” (mentioned in the Bible) rather than the “dead” (this phrase, of course, is symbolic of the vibrations of the inner and physical vehicles of unascended beings).

SERAPIS BEY

Of course, I am most interested in the individual ascension of every lifestream since, together with the Brotherhood of my Temple at Luxor, I am the divine guardian of the Ascension Flame on Earth and every “candidate for the ascension” must one day stand before me to receive assistance unto the attainment of that glorious goal. That is my reason for being! The misconcepts of the outer mind of the masses are deplorable, indeed. How can any individual (even a student) can continue to allow his inner and physical vehicles full freedom to do as they please in the satisfaction of the senses of the outer self—thus creating heavy and discordant vibrations, which not only affect his own world and aura adversely, but also add to the sorrow of the world, and then, in the “twinkling of an eye,” suddenly expect to be swept into the victory of the ascension! Those who accept the possibility of ascending into our realm must also accept full responsibility of accelerating the vibratory action of their four lower vehicles, continuing to sustain and constantly expand that acceleration, during all the rest of their service here on Earth.

We do give much more than ordinary assistance to any chela who desires to participate in this self-discipline, when we are invited so to do. Remember! The atoms which make up your four lower bodies are charged with the vibrations which are the result of your own use of life, for aeons of time. If those atoms are heavily charged with discord, you will require our assistance, primarily, to help you change the pattern of your habits of thought and feeling, even as an individual who is drowning is often helped safely to shore by a lifeguard who keeps the head of the one in distress “above the water-line.”

Self-condemnation, self-pity or self-depreciation upon the part of earnest chelas who temporarily “fall from grace” is to be deplored, as those feelings are exactly what we are endeavoring to remove from the atoms and cell of your inner and physical vehicles. Joyously set about the process of personal, family, national and planetary redemption! Impersonally face temporary failures! BE CONSTANT IN ENDEAVOR—AND YOU SHALL SUCCEED! All we require of any dear and earnest chela is his persistence in endeavor. That is why the watch-word of the Brotherhood at

Luxor is "TRY!"

Many are the experiences through which the "candidates for the ascension" must pass, just so that such candidates can learn that the four lower bodies are the servants of the Holy Christ Flame and not the master of energy! Sometimes these experiences seem so difficult, but to him who perseveres through every condition of a distressing nature, and continues to "TRY," our help and ultimate victory—WILL COME! It is only those whose souls become weary and who seek surcease from the self-disciplines required to master their four lower bodies and allow the Holy Christ Flame to express freely through them, who in kindness must be given surcease from further present endeavor until (at inner levels), they re-kindle their enthusiasm for this task of redemption of their own worlds. At a later date, these are given another opportunity in physical embodiment to become Master of their own energies and thus Master of all the energies they contact. "He who is Master of himself IS MASTER OF ALL!"

HILARION

The ascension is not so much a "mystic" experience as it is a scientific one. In the beginning, electronic light (which is the actual intelligent body of God) took a vow of obedience to respond to and become that which any of God's children directed it to become. Therefore, the very electrons which compose the atoms of the inner and physical vehicles of the individual, vibrate at the speed at which the self-conscious intelligence has directed them to do. The slower their vibrations, the more vulnerable do these atoms become to like vibrations which fill the lower atmosphere of Earth. The quicker their vibrations, the more sensitive and receptive they become to the grace and perfection of the higher realms. Thus, when a chela prepares for the ascension, he is taught how to quicken the vibrations of all the atoms in his four lower bodies, throwing off the discord which has wedged itself between the electrons which make up such atoms and, as surely as the sun shines in God's heaven, the quickened vibratory action of the atoms of each vehicle magnetize the heavenly vibrations from the Spiritual Hierarchy.

Throughout the centuries, some chelas have quickened the vibrations of one of their four lower bodies far beyond the development of the other three. Here, we must emphasize that each chela should examine himself and ascertain which of his vehicles requires assistance the most. Then, scientifically, without stress and strain, he should endeavor to cul-

tivate a positive and powerful vibration through the recalcitrant vehicles and bring his four lower bodies into alignment. This, of course, we help every chela to do in an Ascended Master Retreat and, when such an individual applies for the privilege of becoming a "candidate for the ascension," beloved Serapis Bey, looking over the four lower bodies of such a one, prepares a schedule of events and conditions to be experienced by the chela which will enable him to completely purify and redeem those bodies which as yet have not been brought under the full control of the individualized "I AM" Flame of the lifestream.

Let us warn the sincere chela, that one will always feel some resistance from the vehicle which is not yet under control. Centuries of that body's having had its own way have made it stubborn and resistant to God-direction. In the name and authority of your own beloved I AM Presence, lovingly command such a vehicle to co-operate with you in the redemption of your world. This would be wise, indeed!

JESUS

My public ascension was for the express purpose of showing mankind their ultimate destiny! More and more, as the New Golden Age comes into manifestation, shall I endeavor to impress, upon the consciousness of every unascended lifestream the feeling of my fully-gathered cosmic momentum of the ascension in the Light, as possible of achievement for every one of the human race. I came under the same law as do all lifestreams who choose the planet Earth as a schoolroom. It was necessary for me to keep the vibrations of my four lower vehicles harmonious at all times-no matter what the human appearances might be!

In this self-discipline, I was exceedingly helped by my beloved Mother Mary, whose spiritual strength and wonderful ability to hold the immaculate concept of my lifestream for me was a strong, powerful and buoyant vibration, which played in, through and around me at all times. Today, she is just as willing to give to you the assistance of her fully-gathered momentum of the feeling of grace of which she has become the living embodiment, and she has, in the past and will continue, in the present and future to hold for you (as she did for me) the IMMACULATE CONCEPT of your own divinity. ACCEPT HER HELP! ACCEPT MINE TOO, AND BE FREE!

SAINT GERMAIN

Remember, dear children, the Violet Fire is ALREADY QUALIFIED LIFE,

which you are invited to use in the process of personal and planetary redemption. You do not have to “create it” any more than you are required to create the beautiful water element, which you use so freely to cleanse your physical vehicles.

Think for a moment of the mercy of life, in providing water for your use. Suppose, before you could cleanse your physical vehicles, you had to precipitate every drop of water you desired to use. How long would that precipitation take and how precious would every drop of water be to you? It is the same with the Violet Flame. If you had to consciously precipitate every wave of that purifying agent, the process of redemption would be interminable. Accept that, like water, it is already for your use. It is our gift to you. If you will invoke it and use it, it will act so efficaciously for you and cleanse not only your physical bodies, but still more important, your inner bodies, of any and all impurities which manifest as limitations of mind, flesh and affairs.

WE CAN ONLY OFFER YOU OUR GIFTS. YOU, YOURSELVES, MUST ACCEPT AND USE THEM. Please accept the use of the Violet Flame and experience for yourselves the joyous cleansing of that misqualified energy which lives in, through and about you, awaiting redemption through your own self-conscious endeavors. I shall help you, beloved ones, in this service, for we are all so grateful when anyone wants our gifts and will use them to fulfill God's Holy Will!

MONTHLY LETTER TO TRANSMISSION FLAME CLASS

April 19, 1958

Beloved Children Of God:

I am grateful, indeed, for the presence of mercy, particularly here in the lower atmosphere of Earth, which flows like a beautiful purple tide of light through the emotional, mental, etheric and physical strata, wherein so many unascended lifestreams, imprisoned angels and elementals experience temporary limitation. As we join together to honor the transcendent flame of divine Mercy and Compassion in beloved Kwan Yin's retreat this thirty-day period, let us all—ascended and unascended alike—ask for an increase in our feeling of the acceptance of mercy as a very real and tangible presence of help, which is available to all in distress of any kind. Daily bathe in that flame of mercy yourselves and ask the lady of mercy—Kwan Yin—and your lovely lady sponsor from her Temple of Mercy, to make you feel, the mercy they feel, for all impris-

oned life! Thus, you will become ladies and gentlemen of mercy in your own spheres of influence.

Remember! Mercy is divine compassion, which actively engages in raising the qualities of discordantly—qualified energies into those qualities which are harmonious, pure and thus God-like in nature and expression. If you desire mercy for yourselves and your loved ones, remember the Law-dear children: “As you give—so shall you receive!” Therefore, enjoy the feeling of giving and calling forth mercy for ALL imprisoned life and your own worlds will receive mercy—far beyond the compass of your outer mind to understand.

Love and Blessings,
Maha Chohan

Statement for the Transmission Flame Class:

I AM inbreathing th’Angels’ feeling of Mercy’s forgiveness from beloved Kwan Yin, (use also for “absorbing” “expanding” and “projecting.”)

Color of Flame: Royal Purple. Hierarch: Beloved Kwan Yin. Musical Keynote: “In a Monastery Garden.”

THE BRIDGE

TO FREEDOM

**A Monthly Journal Devoted to Individual Unfoldment, Contact
With the Great White Brotherhood and Cooperative World Service**

MAY 1958

TO GOD'S MOST HOLY WILL:

We, the Great White Brotherhood, sincerely dedicate and devote all our fully gathered cosmic momentums of the power of divine love to the externalizing, here on Earth, of the divine will of God, WHICH IS GOD GOOD!

Beloved Hercules and Amazon, Lord Michael, Faith and my humble self pledge, particularly, to make God's will clearly known to the chelas who desire to co-operate with that will, through themselves first and then through the evolutions in the Earth, on its surface and in its atmosphere. Further, all the enthusiasm, constancy, endurance and strength of our lifestreams are at the service of such chelas, INSTANTLY AT THEIR CALL. By this help, their knowledge may be coupled with active service on those planes of consciousness wherein GOODNESS is not fully expressed through the emotional, mental, etheric and physical planes of consciousness, wherein, for the most part, the people of Earth dwell during embodiment here and even where they abide after so-called "death."

Thus, there comes to you, as our humble contribution to the forward evolution of the Earth and its people, the instructions of the Great White Brotherhood, in simple, practical, usable terminology, through "The Bridge to Freedom." Accept our gift! Use it! Create upon the Earth the kingdom of heaven and make her freedom's star, manifest NOW! So be it!

Thomas Printz, Editor

The Homes and Retreats of The Masters of Wisdom
TEMPLE OF GOD'S WILL – DARJEELING, INDIA
(May 15th through June 14th, 1958)

In the foothills of the majestic Himalaya Mountains, looking out upon the ever-rising crests of snow-covered peaks, stands the home and retreat of the Chohan of the First Ray, beloved El Morya. It takes a tremendous strength of character and determination to represent God's will on Earth, where the mass mind of the people—lethargically or resentfully—accept as God's holy will the many vicissitudes which plague them as a result of their misuse of life and disobedience to that will.

Thus, through centuries of time, the beloved El Morya was prepared to hold this office and his own nature, coupled with the light in his causal body, finally did so prepare him to become the manifest example and exemplar of God's Will to the people of Earth. Then, to be able to expand the manifestation of that will among Earth's' evolutions here, it became necessary for him to find chelas (unascended lifestreams) who could and would accept his directions and council and endeavor through the use of their own talents, gifts and powers, to make these directives available to the more receptive minds of the race.

El Morya chose India as his headquarters on Earth, because he had served in that country for many ages before his ascension, and because it has such tremendous momentums of a spiritual nature from the past. He chose the particular location of his retreat also because of the inaccessibility of these high lands to the merely curious. This location gave him and his Brotherhood greater freedom to develop their momentums of the manifesting of the will of God as a living, breathing, pulsating flame and ray, whose radiation is constantly flowing through the lower atmosphere of Earth, wherein the unascended people dwell. The Masters of Wisdom have always preferred the quietude afforded by the relatively inaccessible places provided by nature, especially for their homes and retreats.

It takes a real conscientious seeker after truth to make a physical pilgrimage to such retreats, for such a pilgrimage is very tedious and discomforting to the physical, as well as to the inner bodies and few there be who, setting out upon such a quest, carry it through to victorious accomplishment. Now, of course, as the homes and retreats of the Ascended Masters have been so mercifully brought to the conscious attention of the chelas through this activity and such chelas have been invited to visit them by means of projected consciousness and without physical strain of any kind, the old order has changed and every man,

woman and child interested in such visits is lovingly and joyously welcomed as they visit these retreats.

Driving or walking up the tree-lined entrance to beloved El Morya's home and looking upon the magnificent edifice which is his headquarters, beloved Morya's personal elegance and fastidiousness are noted by the discerning chela, being reflected, not only in the architectural beauty of his home, but also in the magnificent gardens which surround it. There is a great sense of warm welcome and graciousness which radiates forth from this focus. Many holy men and women are drawn toward this retreat and the campfires of the pilgrims often light up the surrounding hillsides by night, adding to the lustrous glow of the Temple of God's will. Some, more venturesome, may be seen in the early morning hours, silently walking through these gardens, sometimes picking just a single flower to take with them as a memento of their visit. Often, beloved Morya smiles at this seemingly "unknown" devotion, as a prince of princes. He stands looking out of one of the bay windows in his lovely drawing-room. Well he knows that such a flower, in the possession of a pilgrim, is an anchorage of his consciousness in the world of such a one.

Entering into the actual home of El Morya, the chela is always graciously welcomed by one of his hosts and, according to the chela's spiritual development and requirement, is he or she allowed to enter into the drawing-room at the left of the center hall. In this hall is a miniature of the Taj Mahal, in loving honor to his brother and fellow-server, the Ascended Master Kuthumi. In the drawing-room there is always a fire burning in the grate, a tea service set out and the piano opened, so that chelas so inclined may play upon it. Sometimes, beloved El Morya will play upon this piano. He plays the beautiful Music of the Spheres, or the more commonly known melodies which have become dear to the hearts of men as his own endeavors at musical composition when, before his ascension, he was the Irish composer, Thomas Moore. This is not to be confused with Thomas More, who lived some centuries before, but whose personality was also ensouled by El Morya.

At the right of the beautiful entrance hall is the council chamber of the beloved El Morya. Here, from time to time, the wise and spiritually elect gather together, to learn the law of life. Also individuals who are primarily interested in the furthering of universal brotherhood and divine government are allowed the privilege of entering this privy council and sitting at the feet of El Morya, whose advice has helped many a patriot and governmental official to avoid national and even international disaster.

All of the Ascended Masters, having become HARMONY, itself, in

every cell and atom of their beings, are very talented musically. It is not unusual to see them gathered around beloved El Morya's rosewood piano, blending their voices in song. El Morya has a lovely tenor voice, beloved Kuthumi often accompanies him on the piano, the blessed Saint Germain plays the violin and beloved Paul, (the Venetian Master) plays the harp. So do they have a merry time. Of course, the energy thus released and qualified with such exquisite harmonious beauty, is always consciously directed into the worlds of the chelas and then out through all mankind, as a buoyant and spiritual, vitalizing power. THE ASCENDED MASTERS NEVER USE LIFE WITHOUT SOME DEFINITE PURPOSE. Yes, surely, they do enjoy communion with each other, but, always, the gifts which result from such communion becomes a vital, redeeming quality of energy for the entire human race.

Serapis Bey

MASTERS ENERGY MUST BE RETURNED

By Beloved El Morya

December 31, 1957

By Jove—beloved ones—at the end of a year as exacting as was 1957, it is really magnificent to be able to present to the Karmic Board all of my chelas intact—and have an expansion of the light of those chelas, as well as an increase in their numbers! Now, at the close of the year, you have come to join in the various festivities and councils at the Royal Teton. Think a little about the word “intact”—it means a great deal more than just “all together!”

I am grateful to have this opportunity to personally thank you again for your service, your constancy, your faith and your practical application of the law, all of which have been made manifest in works well done. You see, as your sponsor at inner levels, it has been, and still, is my opportunity, as well as responsibility, to offer my light as a balancing power for every bit of the light which was given you by the divine ones but not used by you during the year. Your divine friends, from time to time, present to you certain applications for your edification, illumination and, perhaps, most important of all, for your practical use!

You see, as we have told you many times before, life is very precious in our octave and, when we give you our assistance through radiation, that is our own life! We are held wholly responsible, of course, for what we do with that life and having sent it forth, there must be a return on

our “investment,” as it were. If that “return” is not forth-coming from those to whom it was given, as works well done by its use, then we must “make up the balance” therefore, by some extra service on our part, for the perfect balance of giving and receiving is always held inviolate with us. Therefore, we are always so grateful when you take up the instruction we present and use it in practical service, both for yourselves and your fellowmen.

Opening of Cosmic Highways

Concerning the subject of Cosmic Highways, which the beloved Maha Chohan mentioned in an earlier address in this class (but upon which he had not the time then to elaborate), before we go to the Teton later this evening, I thought I would give you some information thereon which might interest you.

When any Sun-God and Sun-Goddess desire to create a planet (or series of them) and the evolutions which will inhabit them, they do so with the loving co-operation of the planetary Silent Watcher, the seven Elohim, the builders of form and forces of nature. Finally, when that planet (or planets) is habitable and the spirit sparks, which have been held within the Heart-flame of the Sun-God and Sun-Goddess from whom that planet came, are ready to take embodiment thereon, there is a Rod of Spiritual power placed within the keeping of the Lord of that planet. This being is known as “The Lord of the World.” That rod of spiritual power keeps the souls who are destined to evolve upon that planet within its orbit while they are in embodiment there and between embodiments, as they abide in certain spheres around the planet, until they are ready for physical birth again.

This rod of spiritual power has been used, all through the ages, by our beloved Sanat Kumara and some of you have read about it many times. It has been safely kept at Shamballa and now our beloved Gautama (new Lord of the World) guards and governs it and its use for the Earth. Beloved Lord Maitreya, (the New Buddha) also wields this rod of spiritual power with great efficacy at the Wesak Festival each year. The action of this rod of spiritual power is similar to that of the gravity pull of Earth, as it keeps all the life which belongs to the planet within its own orbit and sphere.

In interstellar space, between the various planets and systems, there are great cosmic highways of light, created by divine intelligences and, most of the time, these highways are closed and guarded until some

cosmic moment, when certain important activities are about to take place. At such times, great divine beings from the highest sun of our galaxy (in our case, beloved Alpha and Omega of the Great Central Sun), are sent forth to open these highways, with the loving co-operation of the lords of each planet concerned, these beings literally demagnetize the rods of spiritual power held on the various planets. Thus, they create an open pathway into the atmosphere of the Earth and other planets concerned. That de-magnetization usually takes place by great Seraphic Beings and this allows the coming into Earth's atmosphere and even upon her surface (as in the case of those visiting the Royal Teton) of divine beings of tremendous light, who are so lovingly willing and able to assist in the expansion of our planet's light in the cosmic "push" of this moment.

When the cosmic moment has passed and the service to the planet in question is completed, the Great Seraphim then closes those highways between the various planets and systems. They simply restore again to the rods of spiritual power held by the lords of those planets, the original magnetization, which remains with them until another cosmic moment comes into being. As each divine guest from other planets and spheres returns to his or her own "home," the magnetization of the rod of spiritual power belonging to that planet is returned to that Lord of the World. Then, during the time the Cosmic Highways are closed, these great beings remain and serve within their own solar system, within their own universe, let us say.

The opening of these Cosmic Highways, from time to time makes it possible for great Solar Lords, Cosmic Beings, seraphim, cherubim and the angelic hosts, some of whom belong to the Sun-God and Sun-Goddess Isis and Osiris, Apollo and Diana, Krishna and Sofia, and the various Sun-Gods and Sun-Goddesses of those planets and systems who are particularly interested in helping the Earth and her evolutions to emit more light now and become "Freedom's Star." YOU SEE, THE "S.O.S." HAS GONE OUT FROM OUR PLANET HERE AND THIS HAS BEEN HEARD BY THE ENTIRE COSMOS. Of course, because it is the very nature of all divine beings to want to raise life and thus expand their own light, such beings take advantage of the use of these beautiful Cosmic Highways, particularly when the retreat of the Royal Teton is open. These days, these highways are just filled with such glorious beings of blazing light, great numbers of them just streaming into the atmosphere of Earth to visit here. They bring with them all the love, understanding and radiation of their own suns and systems and all therein, and this is all added to the

assistance of the people of Earth, as their gift.

Now this explanation of the Cosmic Highways and Rod of Spiritual power makes it very clear why the possibility of unascended mankind visiting other planets—even in our own system (as conceived by certain of Earth's people) is not possible at the present time, because of the powerful “pull” of the Rod of Spiritual power held at Shamballa, which holds all that belongs to the Earth within certain confines of space. Of course, once a lifestream (from the Earth or any other planet) achieves the victory of the ascension, that one automatically arises out of the atmosphere of Earth and then, by the use of his or her own free-will, chooses whether they will return to serve in the atmosphere of the planet where they gained their victory, or go to some other sphere to serve.

Presenting of Petitions to the Karmic Board

Beloved ones, the magnificent Royal Teton is presently the host to many divine beings from other suns and stars, from every Ascended Master retreat upon the planet Earth and the etheric realm around it, as well as from the foci of activities of cosmic beings and angels at inner levels. Over the Teton, in the atmosphere, stand the seven beautiful chairs of the Great Karmic Board, made of a substance like crystal, studded with blazing emeralds. These chairs are upholstered with a beautiful bright green substance, similar to your velvet.

The glorious Portia (Goddess of Justice), as the present spokesman for this board, is seated in the central chair, the back of which is higher than the rest. In honor of her own twin-flame, the beloved Saint Germain, she wears the magnificent purple garments, holding in her hand the scepter of power which is his rod of power and authority, as the presiding Chohan of the Earth for the next two-thousand-year cycle. The other six members of the Karmic Board are also wearing purple, and the seven-pointed crowns, studded with brilliant amethyst jewels. At the close of this meeting tonight, the beloved Vista will again occupy the chair of the Spokesman of the Karmic Board, because of his activity in 1958 as one of the sponsors of that year.

Our beloved Portia and the other members of the Karmic Board have begun to listen to the petitions being presented at this Teton gathering, the first of those being from the beloved Hercules, the Great Elohim of the First Ray, and his Twin Flame, the glorious Amazon. They made a tremendous plea for the resuscitation of the Earth at this time and for the strengthening of both the inner and outer vehicles of the chelas.

They also made a plea for permission to give added vitality to the elemental substance of the planet and to allow an ever-greater release of power from the beloved Polaris and Magnus who control the axis from the heart of the Earth. After the Elohim were heard, the mighty Archangels presented their petitions, which have had incorporated into them, many of your own personal petitions and ideas for light's expansion here.

As you know, the Great Karmic Board reserves the handing down of their decisions until they have heard all the petitions from all assembled and until they find out just how many unascended lifestreams, now in embodiment on Earth can be depended upon to co-operate here to the actual bringing into manifestation of that petition during the coming year. So, we eagerly await the results of their findings. While I am speaking to you here, the beloved Lanto and Confucius are honoring the sponsors for 1958 and, while the beloved Vista is seated with the Karmic Board above the Teton, the other three sponsors (Crystal, Gabriel and Hope) are within the great central hall of the Teton.

Beloved Mother Mary again made a tremendous petition for the dissolution, at inner levels, of all destructive karma of those who are to take embodiment here from now on. As she made her petition, she was joined, as always, by the beloved Kwan Yin, beloved Meta, beloved Nada and all of those who are so desirous of seeing destructive karma removed from lifestreams BEFORE they come into embodiment! Now, with so many Violet Flame cauldrons active in the atmosphere of Earth and with the temples active at inner levels, open for instruction between embodiments, there should be a great deal more purification available to these lifestreams, to transmute destructive karma before they enter into birth here, again. Beloved Mary's petition is that this may be done, so that when she vests each lifestream with the Sacred Heart in May of 1958, there may not be born to any mother upon this planet, either now or in the future, any child with a deformity of mind or body, or even the "cause and core" of such a deformity which might manifest later in that one's life experience here!

"Causes And Cores" – Living Entities

Speaking on the subject of "causes and cores," upon which you work so much here, individually and as a group, have you thought about the picture you hold in mind concerning this "cause and core" of anything? Looking at your inner worlds of thought and feeling as, of course, I am easily able to do, I see that, to most of you, that "cause and core" seems to you like a "dead" and "still" accumulation of substance. I see your picturization of such "causes and cores" looking something like charcoal, dark and dead. However, it is very, very different from that!

Actually, such "causes and cores" are constantly pulsating accumulations of substance discordantly qualified, which send out radiating energy all of the time. This is the "heart-center," which gives life to the entity. When I say "radiating" substance, I did not say "radiant" energy; there is a difference. Let us be specific; I mean that the "cause and core" of any condition upon which you are decreeing is a living, moving thing, like a whirlpool of energy, with discordant radiation passing out from it.

When you call to the beloved Astrea to lock her Cosmic Circle and Sword of Blue Flame of thousands of suns from the Great Central Sun around such a "cause and core" and then "close in upon it"—what happens? Through the beloved Astrea's great assistance, the motion of the whirling center within that "cause" is stopped, the radiation of the destructively qualified energy ceases and the cohesive power which held those electrons together to form a focus of distress, then lets go. When that lets go, those electrons immediately arise and return to the sun of their source, for purification by Violet Fire and re-polarization by divine love, so that they may be used again to fulfill some divine plan. We shall be so grateful when you are actually able to see what takes place at your call.

As the beloved Astrea moves into action upon that "cause and core," with her Circle and Sword of Blue Flame, that Circle of Blue Flame completely surrounds that whole accumulation and closes in upon it. The Sword of Blue Flame strikes down from above, directly into the center of that "cause and core," loosing the cohesive power which holds it together. Then the electrons separate; they literally "fly apart" and that focus of discord is no more.

Now, conversely, you have a constructive manifestation of a "cause and core" of light, in what you refer to as your "silver cord," the stream of life (light-essence) constantly pouring from your I AM Presence into your physical heart and your Holy Christ Self which is anchored there. Of

course, the radiation which pours out from these “causes and cores” is wholly constructive and is a living, constantly flowing activity of light substance. There is really nothing static in this whole universe, beloved ones. Your individualized Presence “I AM” originally set up the “cause” of your manifestation here and then the “cause and core” of divinity was actually anchored within your physical heart. The radiation passing out from this “cause and core” is good and is the positive, constructive, vibratory action of your own individualization.

Tiny Replicas of Chelas' Inner Bodies

We have told you before (beloved Kuthumi and I, particularly) that we have made very small replicas of the inner bodies of each of our sincere chelas and these are held in a certain place prepared for them within our retreats. Your many and frequent calls for our assistance during 1957 were the “cause and core” of many buzzing sounds coming forth from those replicas, sometimes it sounded like a hive of busy, buzzing bees. You see, these replicas are made of very, very sensitive etheric substance, which records your every thought, feeling, spoken word and deed of each day in form and color and they register very accurately!

Whenever there is a call directly to us, one which uses our name particularly, our attention is drawn to these replicas by a little “buzzing” sound. Once in every twenty-four hours each one of these replicas is looked over by us and in this way we are kept wholly cognizant of the steady expansion of your light and the type of assistance you need to “keep on keeping on.” However, during that twenty-four hours, there are many “buzzes” coming from these little forms as you consciously call for assistance of some kind.

While we are always so lovingly and eagerly willing to give you full and immediate help and, by so doing, we expand our own light in service, still we are hoping that 1958 will be a much happier year for you and that the “buzzes” will be from the “causes and cores” of happier experiences than some you may have had this past year. However, keep our “lines” humming with your love and calls to us for “I AM WITH YOU ALWAYS!” I love you and am ever desirous of helping you when you have any apparent need.

Sometimes, when we hear these “buzzes” coming from the little replicas, we may be engaged in some vital conversation in another room with, perhaps, the beloved Maha Chohan, or we might be engaged in some cosmic service which we could not well leave at the moment. As

soon as we hear the call, immediately there goes forth from us a light ray which will take care of the immediate need. Then, at the very first opportunity, we many times go, in person, to the individual to complete the assistance necessary to be given.

You see, your appearances of distress are not real to us as they seem to be to you! WE KNOW THEIR UN-REALITY, WE KNOW THAT NO DISCORD HAS ANY POWER OF ITS OWN AND IS NEVER PERMANENT! We have passed the way of Earth, have passed through those experiences ourselves and, having mastered them, we are now in a position to give you the benefit of our fear-free consciousness and feeling concerning them and our feeling of ABSOLUTE FAITH IN THE INFINITE, EVER-PRESENT GOODNESS OF GOD. As we radiate our feelings to you, they comfort and sustain you, setting your worlds into balance again, so that you are able to handle your problems with greater ease, intelligence and victorious accomplishment.

Dear hearts, we love you and while we could have gone into the higher realms (Nirvana) many times, while the Cosmic Highways were open, we stayed here to minister to you, FOR LOVE'S SWEET SAKE. We believe in you! We trust you! We are happy, indeed, that you are on our "wire!" We are so glad that you believe in us and our power to help enough, to make the call. Always remember that IT IS OUR JOY TO SERVE YOU—UNTIL ONE DAY YOU WILL NO LONGER REQUIRE THAT ASSISTANCE, for you will then have YOUR OWN GOD-FREEDOM!

Let me thank you all for your pliability, interest in our cause and eager willingness to give the obedience to our requests. I smiled a bit during a recent address in which you were getting a lesson in pliability. I think if there was anyone who needed to learn to be pliable, it was myself! Of course, this was before my ascension. I was most adamant in my ideas as to the will of God and I am sure that my association with the beloved Kuthumi for hundreds of years was at least a part of that which helped me to develop the pliability which is so essential to the chela on the path. I am grateful, indeed, that you are endeavoring to master this God-quality, for I know that some of you are so very one-pointed and find it difficult, at times, to be pliable. I can understand your feelings in this.

May I remind you again tonight that "where your attention is, there you are!" Therefore, while your attention is upon the Teton, your lifestreams are actually connected with the glorious radiations from the beloved Alpha and Omega (from the Great Central Sun) who are present there tonight, as well as the Sun-Gods and Goddesses of our galaxy, So-

lar Lords, Cosmic Beings, angels and you are also connected with the energies of my own humble self, as I am speaking to you here.

Bringing Down the "Thoughtform" for 1958

As you have been told so often, each year the beloved Helios and Vesta, (God-parents of our Earth and our system) decide what can best be done for the planet Earth and her people during the next twelve-month period. Then, rather than outlining, in detail the ways and means of manifesting this assistance, they design what we call a "thoughtform" (for lack of a better medium of expression). That thoughtform is given into the consciousness of the Silent Watcher of the Earth. Then the Lord of the World raises his consciousness to the Silent Watcher, and draws the thoughtform into his own consciousness. He then projects it into the assembly of all the Great Beings present at the conclave, each of the assembly in turn re-creating that thoughtform and, at the word from the "Lord of the World," the assembly then breathes out millions and millions of replicas of this "form" into the atmosphere of Earth, some of these forms being larger than others.

Now, tonight, our beloved Sanat Kumara has returned to the Earth, to be present for these activities and it will be he who will receive this thoughtform. Let us think about the sending forth of this form for a moment. The beloved Sanat Kumara, after receiving it, has to use the power of precipitation in order to externalize it to the gathering. Then, every being present re-creates that form according to his own nature, size and capacity and sends it forth.

Therefore, some of the forms are gigantic—say those going forth from beloved Hercules and Amazon and some, going forth from the tiny elementals present at the conclave (those no larger than a fingernail), would send forth a thoughtform so tiny, that it would be about half the size of the head of a pin. These are all directed out into Earth's atmosphere, and mind you, this is not done just once! This activity continues for a full twenty-four hour period and receptive consciousnesses will "pick up" the idea of this form in some way, all over the planet.

The thoughtform, itself, is not as important as the message it conveys to each individual. What does that thoughtform mean to you? What are its possibilities, which you can externalize this year, practically, to heal, bless, prosper and illumine mankind? Here is where your discrimination, your inspiration, your discretion and your practicality combine. For instance, the "Lamp of Truth" as the "thoughtform" for 1957 was

used by some to draw forth more truth for others, such as the rhythmic releasing of "The Bridge," "The Bulletin," the new book "The Seven Mighty Elohim Speak." To some it simply meant the expanding of their own consciousness of truth. Some simply did nothing with it. In the Ascended Master Retreats there were some marvelous things accomplished through its use. You, who have magnetized more truth through your wonderful applications, singing, visualizations and decrees, have drawn forth from us more instruction, which is at least a part of bringing into fulfillment some of the manifestations represented by that "form." The thoughtform for 1958 will mean just as much to and for you, as that which you can do with it to make it practically serve life.

Now, as the beloved Sanat Kumara awaits the descent of the "Thoughtform for 1958," he is standing in the Teton on the circular altar. He is dressed in the lovely violet raiment which he usually wears when serving upon the Earth and, tonight, serving as regent, he wears it again. For a few moments, the oratory has ceased, and all attention is upon our beloved Sanat Kumara. This is a moment of great reverence for all present in the heart of this Great Mountain. Even the little elementals, which are usually very active, are now quite still.

Now we can see the pristine beauty of Immaculata, the Great Silent Watcher of the planet Earth, who has held the immaculate concept of the pattern of perfection for this planet for so long. We then see pass from the Silent Watcher into the world of beloved Sanat Kumara that "thoughtform" which, as we said, the Great Sanat Kumara breathes out into the assembly. It comes now in the form of a magnificent double triangle of crystal light, in the center of which is the great all-seeing-eye of God. The whole form is outlined in the most magnificent green Flame of Truth. This whole form signifies clarity of perception, and many, many other things which you individually and collectively may develop through this year.

We thank our beloved Silent Watcher, the Great Sanat Kumara, and all who have participated here tonight in the releasing of this "thoughtform" as opportunity for all. I ask for you (and I know you ask with me) that for each of you it shall bring the complete clarification of all your senses and your four lower bodies.

I am so grateful to be able to speak to you. As always, I am yours in love!

THE MASTERS OF WISDOM SPEAK
OBEDIENCE TO THE I AM PRESENCE

MAHA CHOCHAN

One of the main spiritual feelings which must be developed in the chela who is aspiring to his own ascension is JOY IN SERVICE, individually, as well as on a more general scale, to the evolutions which he or she has voluntarily offered to assist. As it is my office and responsibility to help any and all such chelas to achieve their own highest potential in expanding their own Holy Christ light, as well as the light of the world, I cannot over-emphasize the truth that the desire to serve must be “born” into the hearts of these chelas and externalized in joyous expression (not, however, in unbalanced fanatical zeal).

Spiritual service is so often performed through a sense of fear, superstition and duty upon the part of the unascended lifestream, but such endeavor has neither the merit nor the efficacy of joyous, happy serving, doing God's Will. Destructive karma (as yet untransmuted) must return for redemption to the one who originally sent that energy forth discordantly qualified, even though that chela be now serving on the Spiritual Path. Blessed, indeed, is the chela who continues his JOYOUS service, while still redeeming his own personal karma!

EL MORYA

JOYOUS obedience in the performance of God's Holy Will seems so difficult for the outer mind to grasp, yet it is the KEY TO FREEDOM! Disobedience to the Will of God has been the cause of every limitation experienced by mankind and all the evolutions living in the Earth, upon it, or in its atmosphere. Every direction and instruction that will ever come from your own I AM Presence or from any of the Great White Brotherhood WILL FREE YOU (if conscientiously applied) from the “causes and cores” of the distresses which limit and bind the outer self. The suggestions to the outer self, which have come from the lower nature, caused disobedience to the divine plan in the first place. The very word “obedience” causes the feelings of some people to bristle. Let me point out to you, dear chelas, that you are required only to give obedience to your own Holy Christ Self (which is the anchorage of your own beloved I AM Presence within your beating heart) and to the Ascended Host of Light (who have become one, with the perfection of your own Presence), in order to be able to free yourselves from the manifested results of the

seeds of disobedience, which have been sown by you in the past!

This God-obedience is an individual surrender of the outer self to that divine I AM Presence and an acceptance of and loving co-operation with the directions of that Presence by the outer mind. This brings tremendous release to the individual and, through such a one, allows the I AM Presence to begin to externalize that one's divine plan.

As Chohan of the First Ray, quite naturally I can see into the auras of all chelas. Even among the most earnest of these, I often see them flinch at the idea of giving obedience to the Law of Love. After all, obedience to God is only loving co-operation with GOOD! Let me point out that such obedience is wholly a self-conscious, voluntary activity, entered into by the chela, wherein and whereby he learns to master the energies of his emotional, mental, etheric and physical vehicles. The presenting of the idea of the need for obedience is never an attempt to intrude upon the free-will of the lifestream and we, the Brotherhood of God's Holy Will, always courteously await the conscious invitation of every lifestream who desires, within himself, to give this obedience. Then are we able to assist such a one! Remember! WE NEVER INTRUDE! WE COME ONLY AT YOUR INVITATION!

KUTHUMI

Obedience to God's will requires discrimination upon the part of the chela. This quality is often lacking in the student and we, the brothers and sisters of the Golden Robe, are so willing to help any one develop this God-quality of spiritual discrimination and discernment within each such earnest chela. Discrimination is not to be confused with "logic," which is purely an activity of the lower mind. True discrimination is a God-gift, which enables the chela to cognize truth and ACT UPON IT! Often, well-meaning teachers upon the Earth impose foolish disciplines upon their earnest followers and the hope in the hearts of such chelas, coupled with innumerable fears and doubts, causes them to follow such disciplines, in an endeavor to find Godliness. Think for a moment of the exquisite freedom your own I AM Presence and Holy Christ Self have given to you to use life, throughout the ages. Measure your present condition of mind, body and affairs against your use of free-will in the past and present and then, honestly accept the truth that any distress or discord results only from your own personal abuse of such freedom and your own free-will choice to disobey the Law of Love!

Any disciplines that raise your consciousness and the energies of

your four lower bodies into a vibratory action of harmony, peace and love, are of god. Any disciplines that merely repress untransmuted feelings and cause frustrations of mind, body, soul and feelings, have little efficacy in your spiritual advancement. THE CHELA MUST WANT TO DO GOD'S WILL and be discerning enough to know what the disciplines offered are now doing, and will do, in the future, to so raise his personal energies BEFORE he really begins the upward climb out of disharmony into peace, out of limitation into opulent supply, out of disease into health, and finally, out of Earth's evolutions into his ascension in the light. Thus did we, each member of the Great White Brotherhood, attain our freedom and thus will you!

PAUL (THE VENETIAN MASTER)

The brothers and sisters of the Third Ray rejoice, indeed, when any one of God's blessed children desires to know the will of God and to ACT UPON IT! There are many sincere individuals who think they want to know the will of God and spend many lifetimes in pursuing various methods of study prescribed by their fellowmen, in the vain hope of learning God's will. Remember, beloved ones, the will of God is to establish the kingdom of heaven on Earth, through the expansion of PURE DIVINE LOVE. Surely, when the outer consciousness becomes aware of this blessed will of the Father—Mother God for all their children, each individual can accurately measure those disciplines offered to him by the Ascended Host which will bring love, harmony, peace, balance and joy to himself and to his fellowman. Then, through such an individual, the Holy Christ Self is allowed freedom to expand. The aura of such a one becomes a conductor of that divine will into his own world FIRST, then into the atmosphere about him.

Will is often confused with domination. God, himself, and we, his representatives, NEVER ATTEMPT TO DOMINATE ANYONE! The chela, himself, MUST WANT to do God's will and then ENJOY expressing that will in every facet of his activities. He truly becomes a happy, joyous, willing chela and we can assist such a lifestream, almost without limit, in his personal as well as planetary endeavors, toward the redemption of the unhappy and distressing karma, not only of himself, but of the entire human race.

SERAPIS BEY

The subject of discipline is close to my heart. For many ages, at the request of earnest students, I have examined their auras and provided for them those disciplines which I knew were necessary to enable them to master the energies of their four lower bodies. When these disciplines were provided in our retreat, the chelas were at least somewhat prepared for them and endeavored, according to their own capacities, to utilize them in the overcoming of the habits and tendencies of their human nature. Thus, they became conductors into the outer world of pure, impersonal divine love. Even here at Luxor, however, many chelas have rebelled against such disciplines and have left the retreat, feeling unjustly and harshly treated.

Now that the dispensation of the New Age allows chelas the privilege of having our assistance while they are still living in the outer world, rebellions against such disciplines (which usually manifest through the ordinary experiences of daily life) are even more apparent. Let each dear chela know and remember that every experience of daily life is provided only for the express purpose of developing the divine love nature, which is the true nature of every child of God. If rebellion, discouragement, discontent and soul-weariness are the fruits of such disciplines, we immediately discontinue them, until such time as the soul is ready to truly enjoy co-operating with the will of God, which is the expression of perfection of all, individually and collectively. PERSEVERE!

HILARION

Practicing obedience to the will of God through the outer consciousness is a SCIENCE, which requires the loving, willing, joyous co-operation of the emotional, mental, etheric and physical consciousnesses, until that will is manifested in, through and around the chela. The vibratory action of each of the four lower bodies of any chela is quite different in each of those bodies. The quickening of the vibrations of each of these bodies so that they act in accord, balance and harmonious expression, humbly and reverently externalizing the perfection of the I AM Presence through the outer self, is the SPIRITUAL SCIENCE of which many people have spoken and written but all too few have actually manifested!

Fear and superstition are two of the mass entities which have impeded the efficacious use and expansion of this spiritual science. Man's reluctance to think for himself and, instead, accept the doctrines of others who are in like limitation, has been a cause of great distress to ear-

nest seekers after truth. These humanly-conceived doctrines, bearing only the fruits of disappointment and disillusionment, have caused many earnest seekers after truth to become temporary skeptics and agnostics.

As you know, our service on the Fifth Ray is to present and expand truth to all, especially to these confused and unhappy individuals and one of the facets of our service is to restore their faith in God's goodness and his desire to have ALL his children happy, harmonious and free of limitations of every kind. This is not always so easy of accomplishment, for the scars of past disappointments are deeply imbedded in the etheric bodies of the disillusioned and such individuals do not quickly accept the true doctrines of divine love. Yet, even the beloved ones who formerly abided in the "compound," are now beginning to realize that the will of God is GOOD for them, as well as for all Earth's evolutions.

This is the FIRST step, followed by ACTIVE participation in the making of that goodness available to all mankind. This second step is one with which few are willing to co-operate as yet. The science of mastering the rebellious and uncontrolled energies of the soul through transmutation of such energies (by the use of the Violet Transmuting Flame), IS PRACTICAL INDEED. To this end we serve and to this same end do we invite each and every sincere chela to serve, until the will of God is known to the outer consciousness of every lifestream embodying upon this Earth, as a joyous and beautiful expression of perfection. Help us to this end, beloved ones, and we shall be so appreciative, proving our appreciation to you in ways of which your outer mind knows not!

JESUS

Many centuries ago, I said "Thy kingdom come! Thy will be done on Earth as it is in heaven." Those who have followed me have endeavored to express my decree in their own lives and for this, I truly bless them. In my own life on Earth, I faced many of the trials and tests through which you are passing today. Therefore, I know something of the requirement for you to consciously accept that the will of God is always for your good. Think you not that, before my crucifixion, I questioned God's will as being good in such an experience! Yet, the centuries have proved, without a question of a doubt, that the crucifixion, the resurrection and ascension of my physical form were necessary to be experienced, in order that I might be the example for humanity, which would keep hope alive in the souls of men.

Now, we enter the Permanent Golden Age for this planet, which

Golden Age is under the direction of the beloved Ascended Master Saint Germain, for the next two thousand years. At your call, I shall gladly give you my fully gathered cosmic momentum of my own personal conviction and feeling that THE WILL OF GOD IS GOOD and I shall give this feeling to and through every channel which will allow me expression in thought, feeling, spoken word and deed. The prophecies of old are soon to be fulfilled and, truly, THE WILL OF GOD SHALL BE MADE MANIFEST for and throughout the entire human race! The expression of that will, will be good!

SAINT GERMAIN

True inner joy comes to the individual when he voluntarily surrenders his personal will to the Will of God! Then nothing of the outer world can disturb him. Such was my experience before the ascension and such was the experience of every member of the Great White Brotherhood who has attained the ascension from this planet, or any other planet in this universe, system or galaxy, even those of which you are not presently aware! It is only the refusal of the outer self to surrender to God's will that causes the Armageddon of the soul. It is my privilege to re-establish the kingdom of heaven right here on Earth.

Thus, I am so eternally grateful to beloved Master Morya and his Brotherhood, for sustaining the focus of God's Will on Earth. As this Crystal Flame, with a radiance of sapphire blue, constantly radiates through the emotional, mental, etheric and physical strata of Earth's atmosphere (during this thirty-day period particularly), its vibratory action and feeling are bound to be picked up by the more spiritually sensitive lifestreams still in embodiment here. They, in turn, will aid my cause to make of Earth a star of freedom.

To beloved Hercules and holy Amazon, to beloved Lord Michael and Blessed Faith, I am also grateful for keeping a living focus of the POSITIVE FEELING OF THE GOODNESS OF GOD'S WILL upon Earth and in its atmosphere.

To the dear chelas who have offered to assist me, I am also most grateful. In this month of May when I achieved the ascension into the light, when Lord Gautama received his enlightenment, when beloved Jesus achieved his ascension, there is a MORE THAN ORDINARY CURRENT OF ADDED SPIRITUALITY flooding the atmosphere of Earth. Accept it! Use it! EXPERIENCE THE JOY OF DOING GOD'S WILL.

MONTHLY LETTER TO TRANSMISSION FLAME CLASS

May 17, 1958

Beloved Ones Seeking To Know And To Do God's Will:

I bless you for wanting to KNOW God's will for you, and further, for endeavoring to do that will here on Earth. Little does one realize how much real merit there is in such loving, willing, joyous obedience to God's will, while one is still in embodiment here.

I cannot over-emphasize the love of the beloved Master Morya for each of you, nor the welcome he has for you at his temple. I do anticipate meeting you there and helping you to accept all the buoyancy which his focus of light offers to all who seek to externalize the kingdom of heaven on Earth!

Let go NOW of all reservations and reluctance to accept God's will as the manifestation of all good for you, your loved ones and the Earth, itself! Firmly and joyously enter into the presence of beloved Morya and his Brotherhood! You will find LOVE there, NOT DOMINATION! You will enjoy proximity to the flame of God's will and you will be able to bring back into your outer consciousness, world and affairs that happiness which comes, alone, from knowing and acting upon the knowledge that the will of God is good!

Love and Blessings,
Maha Chohan

Statement for Transmission Flame Class of May 17th:

I AM inbreathing from beloved Morya th'joyous obedience that does God's will. (Use also for absorbing/expanding/projecting)

Hierarch: El Morya, Color of Flame: Crystal with radiance of sapphire blue, Musical Keynote: "Pomp and Circumstance."

**GROUP INSTRUCTION MATERIAL FOR
TRANSMISSION FLAME CLASS**

May 17, 1958

Friends of beloved El Morya's Diamond Heart:

God, the infinite source of all, bless you and yours, this very instant and forever, with the FULLNESS of his will made manifest for you in outer physical action, right here in this physical appearance world! I call directly to your own individualized God Presence "I AM" (whose very life is beating your physical heart even as you read) and to the beloved Master

Morya, to seal you and your worlds in an all-powerful focus of the beautiful Diamond Heart of perfection, all the rest of your way “home,” releasing to and through you its gifts of invincible protection, illumination, peace of mind and, the limitless supply of money and every good thing you require to fulfill your own divine plan, the Will of God for you. Ask our beloved Jesus to flood your world NOW with his feeling of acceptance of these gifts, that they may manifest practically and physically for you!

The will of God is good—for what? To instantly produce and eternally sustain absolute perfection in, through and around everyone, everything, everywhere forever!

If god is all-powerful, why does not his will constantly manifest here? God has so generously and graciously endowed every lifestream his own gift of free-will, that free-will having been given them so that they could be co-creators with him of greater and greater perfection and not mere automatons, simply doing as they were directed, without choice.

It is easy to understand that there could be no real mastery without the use of free-will and choice. The Ascended Ones are often called “The Masters of Wisdom.” Wisdom is the RIGHT USE of knowledge and knowledge comes from experiencing the results of cause and effect, learning what causes produce what effects—constructively and otherwise. Once the lifestream has gained this mastery for himself, he is then ready and able to teach others, having trod the same way, himself.

However, wherever the perfection of God's Will seems not to manifest here today, it is because of the interference of man's ignorance of that Will, mankind's will being imposed upon the pure, obedient life and light of Almighty God! In the infinite patience of the heavenly Father, one day that, too, shall give way to the all-powerful, limitless love of the Creator of All, FOR DIVINE LOVE IS THE GREATEST POWER IN ALL INFINITY!

THERE IS NO SUCH THING AS FAILURE, there is only delay to the full manifestation of God's Will for all, everywhere, forever! All discord is temporary, thank God! Anything manifesting the appearances of imperfection can only last for a limited time. GOD'S WILL OF ULTIMATE AND ETERNAL PERFECTION SHALL MANIFEST HERE AND LAST FOREVER! That perfection shall still be there, in ever-increasing loveliness, beauty and happiness, when all else has long since gone into the sea of forgetfulness (through the use of the Violet Transmuting Flame). Emerging therefrom the pure and perfect Diamond Heart of God-manifestation, a veritable phoenix, arising from the ashes of a dead past!

Gentle reader, God's will for you is good, all good and is meant to

manifest for you every day, here and now. Be patient with yourself and with the Law, for it can only work for you as fast as you will permit it so to do, by your absolute faith in its loving willingness and all-powerful ability to serve you.

Frances Ekey

SUGGESTED DECREE

I AM , I AM, I AM the resurrection and the life of the perfect health and action of every cell and organ of my body, mind, world and affairs, here and now made manifest and forever sustained, (Repeat 3 times)

I AM , I AM, AM the resurrection and the life of my finances, visible and tangible in my hands and use today. (Repeat 3 times)

I AM, I AM, I AM the resurrection and the life of all the Ascended Jesus Christ peace and protection, happiness and limitless supply of every good thing I once knew and had with the Father. before the world was-made manifest here and now today! (Repeat 3 times)

(After repeating the whole group of three decrees three times-follow with: "and in full faith, I consciously accept this made manifest for me here and now, with full power!")

THE BRIDGE

TO FREEDOM

**A Monthly Journal Devoted to Individual Unfoldment, Contact
With the Great White Brotherhood and Cooperative World Service**

JUNE 1958

TO THE BELOVED ASCENDED MASTER LANTO AND THE BROTHERHOOD OF PRECIPITATION:

We send all our gratitude to you for your perseverance and constancy in HOLDING THE FOCUS OF THE PRECIPITATING POWER, until some unascended member of the human race can cognize and utilize this natural power of his or her own being. Then he must use it CONSTRUCTIVELY, for the benefaction of the human race, without personal desire or motive to benefit the outer self, alone.

Your magnificent reverence for life and your knowledge of the potential powers which, for the most part, lie dormant within the immortal Threefold Flame within the hearts of every human being, have caused you to make the tremendous sacrifice of refusing the greater spiritual status which awaits you, until some able and willing chela has been found and trained in the conscious use of this power of precipitation, right here in this physical appearance world. Thus you have become a living example to all of what all men shall one day be and do. Your sacrifice (like that of our beloved Regent, Sanat Kumara) is a gift of your love. We bow before you, in gratitude, for your willingness to remain with the Earth's evolutions until such an unascended lifestream is awakened and manifests this power!

Blessed be Lord Lanto, beloved Confucius and the Brotherhood at the Rocky Mountain Retreat, for their patience with the recalcitrant human race! Hasten the day when mankind confirms, through WORKS—not words, this faith in their externalized precipitating powers!

Thomas Printz, Editor

The Homes and Retreats of The Masters of Wisdom
TEMPLE OF PRECIPITATION
(ROCKY MOUNTAIN RETREAT, WYOMING, U.S.A.)
(June 15th through July 14th, 1958)

The magnificent Teton Range in the Wyoming Rocky Mountains is the focus of the beloved Ascended Master Lanto and his divine Brotherhood, whose “reason for being” is to PRECIPITATE into this world of form, all the God-designs received by them, which receptive chelas can, and will, accept into their own outer consciousnesses.

Here, twice each year, the Spiritual Hierarchy meet to counsel together as how best to serve the evolutions in the Earth, on its surface and in its atmosphere. Here, also, the Spiritual Hierarchy and their chelas present, to the Karmic Board, the results of their endeavors to externalize the divine plan for the Earth and her evolutions.

The natural beauty of the Teton Mountains, rising as they do from the verdant plains which surround them, inspire admiration and awe, even in the most casual tourist. Chelas, cognizant of the Temple of Precipitation within the Tetons, know of the pulsating spiritual power that flows forth to them, particularly while they are in the actual aura of the Tetons. Now, through the mercy of the Cosmic Law, that aura is expanded through the sphere of influence of every dear chela, even though he only visits the Temple of Precipitation through the use of projected consciousness, or in his or her etheric vehicle, while the physical body sleeps.

As this issue of “The Bridge to Freedom” is primarily concerned with the development of an understanding and love for the elemental kingdom, we would like to point out to the gentle reader how much cooperation the elemental kingdom, the builders of form, the Gods of the Mountains and all their servants have done to create such a place of beauty in this physical appearance world and how much energy they have used to sustain that beauty, to the present day.

Have you ever considered the amount of energy it requires to keep a mountain raised against the gravity “pull” of Earth, like a mighty finger pointing Godward?

Did you ever consider just who or what keeps the great glaciers from descending as tremendous avalanches into the valleys below?

Who or what sustains the pristine rivers, which flow from the heights, bringing sparkling waters into the fertile plains—those waters

charged with beloved Lanto's own feeling of reverence for Life. This feeling is absorbed, at least to some extent, by any and all who drink of those streams!

Beloved ones, the Teton Mountains, like the Himalayas, the Andes and all mountain ranges, are consciously sustained by mighty intelligent beings known as "Gods of the Mountains," whose service it is to keep the heights before the sight of men!

Beloved Lanto, having long ago achieved the ascension, spent many centuries in China before that ascension. There, he learned and builded into his feeling world the beautiful reverence for Life, which is a natural expression of the Oriental nature. Centuries ago, beloved Lanto offered to establish his residence on Earth within the Rocky Mountain Retreat (Grand Teton, U.S.A.), thus to bring his feeling of reverence for Life to the Occident and there expand that feeling through radiation. We, of the Ascended Host, bow before his light and loving, patient service, all through the ages. We know that you, the chosen chelas of beloved Saint Germain, also give to him your gratitude and love for this service.

The Temple of Precipitation has been described and referred to so often in previous issues of both "The Bridge" and "The Bulletin" that, to refresh your dear memories, we suggest you review such descriptions of this glorious temple.

Consciously accept NOW your opportunity (particularly during this thirty-day period) to enter the Temple of Precipitation in consciousness, sit at the feet of beloved Lanto and the Brotherhood of this temple, to learn the Law of Precipitation, as well as absorbing beloved Lanto's feeling of REVERENCE FOR ALL LIFE! Then, endeavor to radiate such feelings forth, individually, and in your group activities, to help your fellowman.

Anticipating meeting you in consciousness, my heart-friends, at the Rocky Mountain Retreat, daily, while the attention of the Spiritual Hierarchy is focused there and, further anticipating the joy in my heart as I show your fine accomplishments to my brothers and sisters who will gather there. I am always your obedient servant, counselor and friend!

El Morya

MAKE USE OF YOUR PRESENT OPPORTUNITIES

Address By Our Beloved Lord Maha Chohan

August 6, 1956

Beloved and blessed children of Light, endowed with that magnificent gift—the free-will use of the primal essence of deity, life itself, as your intelligence desires through the use of thought, feeling, spoken word and deed. CONTEMPLATE THAT GIFT of self-conscious intelligence and the right to use primal life as you choose! Try to realize how rich, how magnificent is your heritage! Think! That life never ceases to flow for a moment, day or night, waking or sleeping, in embodiment or out of it! The love of your source, from whence that life comes, is so merciful, so compassionate and so understanding that, never has that Supreme Source said “Enough! I shall give no more,” no matter how much of its life you have used in the past through aeons of time, experimenting with thought, feeling, spoken word and deed, which produced subsequent creation, according to its kind, constructive or destructive, as its cause was sent forth!

Constantly, there flows into your being, that gift of primal life with your every heartbeat, life which can either be woven into the glorious pattern of your own divine plan fulfilled and into your Causal Body, or life which can be woven into the chains and limitations which temporarily bind you to distressing experiences here. It is all a matter of your self chosen use of free will!

In acknowledging the gift of Life, let us be grateful to the universal first cause for its patience, its tremendous generosity and its capacity to hold for you that divine pattern and plan, knowing that some day that plan inevitably shall manifest for you. Your Source of Life knows that when you have misqualified ENOUGH energy (thus creating conditions unhappy enough), that very discord will become the spur and prod which will turn you back again to your Supreme Source, there asking for the way and means by which you again can set your worlds in order.

Then, beloved ones, the same Source from whence flowed that life, which you have qualified with shadow, disintegration, decay and general disharmony still will let flow to you more of its life, to qualify as you desire (this time constructively) and, with the assistance of the Ascended Masters, raise your emotions, your minds, your etheric bodies and your flesh garments back again to the dignity and beauty which always has been and is now your divine destiny. This destiny is expressed by the externalization of your Holy Christ Self through the outer form, in the

fulfillment of your divine plan here on Earth.

Think for a moment! No matter how much Violet Fire there is in this universe, if your source did not continue to supply you with its life and intelligence, that Violet Fire would be of no use to you, for you would have neither the consciousness nor intelligence to accept it, nor the wisdom to use it to set yourselves and ALL mankind free from shadows of every kind. Therefore, to the Supreme Source of all that is and to the individualized God-intelligence, which holds within itself the sacred fire of your individuality, be grateful for the gift of life and for the opportunity of using that life, even while you yet wear a garment of flesh.

At the close of an embodiment, I have received the “Breath of Life” from individuals who have laid their burdens down, finding those burdens (for the time being, at least) too heavy to carry further. Then, after they had self-consciously given up their breath, which had enabled them to be sustained in a body in this world of form, I have seen those individuals filled with remorse and regret for the tasks not done on Earth, the services not rendered, the opportunities of the past life not woven into loving accomplishments. I have seen those individuals begging for opportunity to return to Earth at once, to make things right but, through the action of the Cosmic Law, they were required first to appear before the Karmic Board and then spend some time at inner levels for needed rest and necessary instruction, which would help them live more constructively in their next Earth life.

These lifestreams were also required to pass through the necessary rituals and applications to receive new birth. Also, I have seen such individuals, who were so desirous of making things right, come back upon the scene of life so long after the distressing experiences involving certain other lifestreams, that those with whom the balance could and should have been made had already passed from the Earth-life and there was no way for the new brain consciousness of the newly-incarnated individual to make the contact with those gone before.

Therefore, TODAY IS YOUR OPPORTUNITY—each one in his or her own chosen place of service—to draw that flame of healing, comfort, peace and supply, to magnetize that flame of truth and to help us to establish and radiate, through this activity, those particular virtues which belong primarily to beloved Pallas Athena and myself.

**ALLOW CHRIST SELF WITHIN TO MANIFEST
HERE AND NOW!**

Address By Our Beloved Lord Maha Chohan

NOW IS THE TIME to create emotionally, mentally, etherically and physically, channels through which may flow the nature of the Holy Spirit, whose nature I represent to the Earth. You cannot do this by endeavor of human will, you cannot do it by repression of untransmuted, destructive tendencies, but you can do it by entering into the secret place of the most high, which is within your own beating heart. There you can call to me, asking for the presence of my Comfort Flame in, through and around you, letting it give you my feeling of comfort. Instantly, at your call that Comfort Flame shall flow to you from my heart, down through the golden radiance which surrounds your silver cord and fill your feeling world with my desire to be a comforting presence to the universe!

This same activity can take place with any quality or virtue of God, the fullness of which you do not now feel and yet which lies dormant within that immortal Threefold Flame of Eternal Truth, which lives in your heart. Of course, you can endeavor to stimulate such qualities by the expanding of that immortal Threefold Flame itself, but you can also have the great assistance of the fully-gathered cosmic momentum of every Cosmic Being, Ascended Master and angel in heaven. At your call, these will gladly give to you their understanding and their feelings of God-accomplishment, until you have developed a similar momentum in yourselves.

That part of the Christian credo which speaks of the "Communion of the Saints" refers to the capacity of the unascended lifestream (in the silence, privacy and sincerity of his own prayer hour) to reach up and draw upon the perfected energies of the Ascended Ones, asking for their understanding and their feelings of God accomplishment, then allowing those feelings to fill your inner bodies and blaze through your flesh for the benefaction of all who are using the Earth as a schoolroom.

As I have previously told you, it is my obligation to life to help every soul who desires to become a Holy Spirit, a spirit filled with holiness, healing, love and peace. For this reason I remain in this universal scheme and I can never refuse (nor would I wish to) to personally assist, individually, or in group endeavors, lifestreams who want to become the Holy Spirit in action.

There are few upon this planet Earth, beloved ones, who are cognizant of my presence, my service and even my name. Of these few, there

are fewer still who have the opportunity to come as close to me as you do, able to take of my life and instruction, given freely to you for one purpose, to raise you and make you such conductors of the gifts and powers of my life and light that mankind, feeling more than seeing the radiation of your aura, will want to make the application necessary to come into a like estate of peace.

I thank you for this opportunity to reach your hearts and outer minds and, at the same time as I am speaking to you, I thank you for the opportunity you have given me to pour the Comfort Flame through the energies of your inner and physical bodies. This shall be a permanently sustained activity, which you can re-animate at will by thinking upon it. You know that it is possible for you to re-animate unpleasant experiences of the past just by thinking upon them and then, by securing the cooperation of the emotional body (your feeling world), you can stir your entire set of four lower vehicles into conditions of distress. That same law works constructively, of course. If you think of your own beloved I AM Presence, the Ascended Masters, the angelic host, the Cosmic Beings and the suns of the systems, your emotional, mental, etheric and very physical body, too, will respond and all will begin to absorb and radiate those higher vibrations of light, which the beam of your attention upon these God-free Beings has drawn toward you. **WHATEVER A MAN THINKS UPON AND WITH WHICH HE ALLOWS HIS ATTENTION TO CONNECT through the use of God-given free will, DOES SUCH A MAN DRAW INTO HIS WORLD!**

Therefore, take the search-light of your attention—that beam of your God-given energy—and consciously direct it toward the comfort, the truth, peace and supply, as well as all the Ascended Master qualities and virtues which you desire to have manifest in your world. Consciously govern that beam of attention, not allowing it to play upon the quagmires of distress, which you can see everywhere about you. **THE FARTHER YOU GO IN THE LIGHT, THE MORE ENERGY AND POWER YOU DRAW, THE WIDER IS THE BEAM OF YOUR ATTENTION AND THE MORE POWERFUL THE MAGNETIC ATTRACTION WHICH DRAWS INTO ITSELF** (just as your vacuum cleaner draws the dust from your rug) that upon which your attention rests!

Now, among the masses of mankind, that beam of attention in many is not very wide. In fact, sometimes it is no wider than the width of an ordinary straight pin. It can flit from one subject and experience to another and not particularly magnify any distress in the individual's world, except something in which he is particularly, personally interested. You

would be amazed to see the beam of attention of a mass of people flowing over the headlines of a newspaper, for instance, just barely noticing them with a thin pin-like beam of attention. Yet, if there is something in the paper that directly concerns a particular lifestream who is reading, the beam of that one's attention instantly can become as wide as a nine-foot span! Then all the distress and turmoil connected with that experience is thus given an open door to flow into that individual's experience world. You see, the personality feels so very important, especially when the outer self and its affairs are touched. So, even in the case of the masses of the people, the open door formed by the direction of the attention into the description of distress in the paper, draws more of that grief and distress into the inner bodies and brain consciousness of the reader, when his or her own personality or those near to him is concerned.

In the case of a chela who is consciously walking the Path of Light, where the immortal Threefold Flame has already expanded within the heart (at least to some extent), where you have consciously drawn forth certain powers of the sacred fire and you have learned to direct your attention to the retreats of the Ascended Masters, to the suns of the systems and have had the added assistance of being able to project your attention to a galaxy above you, do you realize what power there is in that life energy? That is your own life and it is a mighty powerful magnet, which can draw to you, from superior galaxies, the glorious life that is there, or it can draw to you the distresses which are in the outer world, if you allow your attention to dwell upon them!

That is one reason why, until this new dispensation came forth, we did not invite individuals to attend the activities in the retreats of the Ascended Masters, even in consciousness, because we knew that the beam of attention and power of levitation through consciousness would become not only a power to enable that lifestream to reach these various inner activities, but that beam would continue to act during the rest of the twenty-four hour period. Then, without control, that same attention could draw into his world a great deal more discord than could be drawn by the individual who had the very small and pin-like beam.

Therefore, with every God-power conferred upon you, with every expansion of consciousness, with every bit of training from the Ascended Masters' realm, you must be cognizant of the requirement for more God-protection and more wisdom in the use of your faculties. You must become cognizant of the fact that you have become a greater power for good or for evil after you have received the pressure of the Ascended

Masters' radiation and when your attention has been raised. In order to proceed in consciousness to the throne of Alpha and Omega (God and Goddess of the Great Central Sun) or even just to the planetary system above you, the beam of your attention is literally held by the hand of some Great Being of the First Ray and is moved up into the realm upon which your attention is fixed. Then it is "pinned" in that galaxy (you might say) by the hands of the blue ray angels and devas.

Otherwise, you would not be able to retain consciousness here during this period, you would either go to sleep, or perhaps faint. However, in order for you to have a visit into these powerful realms, these beings hold the beam of your attention upward there and sustain your outer consciousness here, allowing you to look, for a moment, at a superior galaxy and see a part of the divine plan. Then, ever so gently, that beam of attention is lowered by the same angels back into your own galaxy, then from the Central Sun into the Sun to which your system belongs, then horizontally back into the planet of your present habitation (the Earth).

I have told you and others that many, many souls who proceed on individual spiritual experiments without the protection and assistance of the Ascended Masters cannot find their way back to sane living on the Earth plane. Do you think that if you were to be left alone in consciousness, in the heart of a great solar system, that you could come back, carefully and safely, into the atmosphere of Earth without help? Beloved ones, the outer mind takes SO MUCH for granted!

When your Transmission Classes are in progress, devas and angels hold the beam of your attention in the Ascended Masters' Retreats, to which you have consciously directed it, so that you may receive, from such active retreats of the month, those tremendous currents of energy, which vitalize your inner bodies and your flesh, as well. Then, in the same manner as I have described, they draw back that beam of your attention, into your natural orbit.

Why do you think sponsors from each retreat are provided to be with you during the time that each such retreat is active? They are there that your consciousness may be drawn to the retreat and then safely drawn back into your own personal sphere of influence. Then, during the thirty-day periods of the retreats' activities, at night while your bodies sleep, or when you consciously direct your attention toward an active retreat, these angels convey your consciousness again to the retreat, let you feel the radiation which is there and then bring you back safely in the morning to

your physical body, home and environment, with as much of the substance and energy of the Flame as the Hierarch and Brotherhood of that retreat deem it wise to anchor within your physical body and inner world. As conscious chelas on the path, you are constantly guarded and guided by angelic beings, as well as by the Spiritual Hierarchy. Every exercise that we give you or application that we suggest you make, we give with the forethought as to how we may protect you in the use of that exercise or application (breathing, decrees, songs, visualizations) because you are as yet living among the dangers of the outer world, in the astral plane.

Now, you well know, especially those of you who have studied something of the Occult Law, that much instruction to the chela is given only while the chela is within the aura of a competent and well-trained Guru, and that much of such instruction is given through radiation, alone. The chela receiving such instruction, through radiation from the Master, must be alert and illumined enough to be able to interpret it correctly and then apply it efficaciously, to produce the results desired by the Guru. This instruction, through radiation alone, is really quite a protection to the chela himself, for thus he has no actual words from the Guru to repeat, even with a slight coloration of his own interpretation, through his own mental concepts.

You see, the Guru's aura provides the chela with protection against certain influences of the astral world, in which all unascended beings abide here. While the chela is so protected by the Guru, he is able to perform some deeper breathing exercises, which are very helpful to his spiritual advancement and the chela there can also practice certain exercises of precipitation and levitation. The Guru's aura also protects the aspiring chela against the weaknesses of his own personal nature, as well as certain destructive influences of the astral plane, as we mentioned before.

It is, too, the Guru's loving endeavor to protect the chela as he goes out again into the world to serve, when such a teacher admonishes his chela to seal his lips against divulging certain instructions to others with which he (the chela) himself is not altogether familiar. You see, beloved ones, if the chela takes that Law to others, with which Law he is not wholly acquainted himself, the karma for this lies upon the shoulders of the outer self of the chela who divulged the instruction.

Now, the reason for this is quite simple. As we said previously, the chela, taking training from a competent Guru, is held within the protective aura of that teacher, while his instruction is being given and his ex-

periments are being tried. When such a chela promiscuously divulges such instruction to others and they attempt to produce the same results without the protective aura of a trained Guru, they may (and often do) get into considerable difficulties and, naturally, the karma for this would fall upon the shoulders of the well-meaning, but indiscreet, chela.

Therefore, when you have actually entered into our sanctified aura (by placing your attention upon me or any of the Cosmic Beings or Ascended Ones in loving devotion and gratitude), you then have protected freedom to experiment with your expanding faculties, as well as with your dormant ones, which we are trying to help you develop. The exercises and applications which we know are quite safe for you to use, are given in the published literature of this activity, according to the discretion and discrimination of beloved Morya in "The Bridge" literature and of my own in "The Bulletin." Common sense will tell you, of course, that such instructions of truth may be utilized and given forth to help others at any time.

The Planet "Aquaria"

For your interest and illumination, as well, let me take you now on a little mental journey, which will tend to expand your consciousness and acquaint you with at least something of what is in the rest of the universe.

Placing our consciousness for a moment in the heart of Helios and Vesta, we move outward first to the planet Mercury, then to Aquaria, then to Uranus and then to the Earth. Presently, of course, you are living upon the planet Earth and your reason for being here is that you have volunteered to help raise this planet and her evolutions. In this cosmic hour of the forward movement of this entire galaxy, Mercury will move forward into the Sun. When this takes place, the Earth and her evolutions will be ready to move into the orbit of Uranus. Uranus, in turn, will move into the orbit of Aquaria and Aquaria will move into the orbit of Mercury. All of this will bring the planets of this system closer to their Sun (presided over by beloved Helios and Vesta).

Now, you know something about your Earth, so today, for just a moment, we will take you to the planet Aquaria, which will be the closest one to the Sun when the present planet Mercury has been absorbed into the heart of that Sun.

Uranus is a very large planet and upon it there are a very great

number of lifestreams evolving. Aquaria is a planet smaller in size than Uranus and, looking at it from cosmic space, it presents a beautiful blue color, something like your aquamarine. Its color is really a combination of aquamarine and turquoise, as you know those colors on Earth.

Aquaria is a very “delicate” planet. Everything about it is along the seraphic lines of the most delicate and refined stature—even its verdure and the nature kingdom. All of the buildings on Aquaria are beautifully frescoed. The columns are narrow and often end in lovely seraphic figures. The people's bodies there are beautifully fashioned as well and the Aquarians have golden hair and blue eyes, as have the Uranians, also.

The Aquarians have accomplished divine mastery through the expansion and use of the immortal victorious Threefold Flame of Eternal Truth within their hearts. In them, it is visible to the physical sight above their waists. This makes them self-luminous and the light blazes from the upper part of the body. Everyone wears a natural Crown of Light, which is made up of the seven rays of the Elohim. The jewels they wear and use in their adornments are of precipitated fire and everything these people do is done with great delicacy and finesse.

These Aquarians wear garments mostly Grecian in style, both men and women. Their footfall is very light because of the self luminosity of their bodies and when they move, they do not even touch or make an imprint upon the beautiful surface of their land, an aquamarine-colored ground covering, which is similar to your grass.

There are beautiful mountains upon this planet, in variegated colors—pink, gold and violet—from base to summit. Perhaps some of you have seen, from time to time, mountains in the sunset, with these lovely colors playing around their peaks, but on Aquaria these colors play all through the substance of the mountains, themselves. Because these people levitate as easily as the Ascended Masters do, you will find lovely golden Pagodas and Lamaseries way up in very high places in these mountains which, from the human standpoint, would make them seem quite inaccessible were you to look at them from the bases of the mountains.

On Aquaria there are seven continents and seven oceans, and this pattern of seven continents and seven oceans follows through on all of the planets belonging to our system, governed by Helios and Vesta. In the system above—the one to which our beloved Alpha and Omega belong (our Great Central Sun)—there are twelve planets, with twelve continents and twelve oceans on each planet. You see, there is a great

symmetry and divine pattern of perfection in all the activities of nature.

Since these people of Aquaria are self-luminous and since the atmosphere of the planet has no discord in it, the Music of the Spheres is easily heard by the masses. These people pass through a fourteen thousand year cycle (seven two thousand year periods) from the time of the birth of the lifestream into its first embodiment on Aquaria, until its ascension is attained at the end of such a cycle. Of course, so-called "death" as you think of it here is unknown. On Aquaria, at the close of a life-span (some life-spans running as long as one thousand to twelve hundred years, because there is no disintegration or decay there), the individual just steps within a concentrate of the Violet Fire of Etherealization, which is focused in certain temples provided for that purpose. Thus, such a one passes instantly from Aquaria into the Inner realms around it, for rest and instruction before taking another embodiment.

There are temples on Aquaria which are similar to your crematories. Not only every continent on the planet has such temples upon it, but every inhabited locality upon those continents has such a temple, which the people call "Completion." When the individual has completed a life-span, that one proceeds to that temple, his family invariably accompanying him. To the melodies of beautiful music and appropriate ceremony, the individual steps into the flame and just disappears into the light, consciously entering into the inner realms. As we said before, such a lifestream often returns after a certain period of rest and instruction, re-assuming his contact with the various members of his previous family, because of the long life-spans which the people of Aquaria enjoy. Even should he be out of embodiment for as long as two or three hundred years, most of his loved ones are still in embodiment on Aquaria and they joyously wait for him to return.

On Aquaria, the "birth" of a new body comes, of course, through the conscious projection of precipitating light rays from lovingly chosen parents and such an individual is in full command of all his faculties from "birth." He comes into embodiment wearing a very light garment, which could not be called a "flesh" garment, but is similar to the bodies worn by those in the realm in which he has come to abide. Such an individual will very often continue with the studies in which he was proficient before he left his former body—arrangements having been made previously with his family and friends before he entered the Temple of Completion, to keep his books and experimental data together—usually in a lovely golden chest, which is marked with his name and approximate date of his

return. This continuity of consciousness makes things very much easier for the lifestream on Aquaria.

When a lifestream comes into re-birth upon that planet, there is a ceremony again in the temple which they call "The Temple of Opportunity." There the parents stand, accompanied by the other members of the family, friends and loved ones. As the parents project intelligent light rays into a Precipitating Flame at a given point in the atmosphere before them, they are directed to form the vortex of the heart of the incoming one, into which the Holy Christ Self of that one descends within the immortal Threefold flame. There is no veil of shadow here.

Then the parents coalesce around that flame a "physical" vehicle, through the process of self-conscious precipitation. Sometimes it is only a matter of ten minutes or so of time before the "new-born" steps out of this Precipitating Flame, in full possession of all his faculties, as has been said. He usually greets his parents with a handclasp or loving acknowledgment of some kind, greeting his friends in a like manner. Then he has a period of adjustment to the planet, after which he is free to go and repossess the treasures of his previous life and continue with his experiments and activities of light.

From the foregoing, one can easily see how very beautiful is this planet Aquaria. The lifestreams who have come to help the Earth from this planet (long ago, when such assistance was offered in Earth's darkest hours), you will usually be able to distinguish by the very delicacy of their forms. They will always be individuals who are very slender, rather ethereal and they carry a great buoyancy and sensitivity of spirit. The present endeavors of Aquaria and her people are to prepare, as quickly as possible, to enter into the fiery orbit of Mercury, in this great cosmic "push" of the hour.

Now, again, the Mercurians are an entirely different type of lifestream. They are tremendously charged with fire and are a very positive people. Thinking upon the nature of the beloved Ascended Master Morya (who is a Mercurian), you can understand this rather well. So, the adjustment of the Aquarians to take the orbit of the fire people of Mercury, is also quite an initiation! Many Mercurians are already living on Aquaria, rendering service and assistance to this end.

This is just a "bird's-eye view" of life on Aquaria, but I would like to have you somewhat acquainted with the planets which belong to the system in which you are serving. Then you can travel hither and yon in consciousness, you can go and see the people there, as well as invite

them to visit you. In your outer world contacts, when you see the different types of lifestreams, you will be able to realize from whence they came and thus understand them better. You can cognize Uranians as well as the “fire people” from Mercury and it will be interesting and helpful to you to be able to test your own discrimination and your capacity to recognize them. As you now have some understanding concerning their different natures, it will be easier for you to associate with them much more harmoniously.

As the time allotted for our little visit has now expired, I again give you the benediction of the Holy Spirit, asking always that you remember to rhythmically give me your loving attention.

Note: As mentioned by our beloved Maha Chohan in the previous address, the first move in the cosmic evolutionary progress of this system is horizontal. For the edification of our Gentle Readers, we give you below the names of the seven planets which belong to the system to which our Earth belongs, whose Sun is Helios and Vesta.

Mercury	Aquaria	Uranus	Earth	Freedom	Athena	Purity

THE MASTERS OF WISDOM SPEAK
ESTABLISHING FAITH AND TRUST
IN THE ELEMENTAL KINGDOM

MAHA CHOHAN

As the Lord of the nature kingdom, so far as the planet Earth is concerned, I am vitally interested in every tiny elemental who has served so long, so patiently and so diligently to help sustain the beauty, as well as the actual sustenance, of the physical vehicles of man. The great Directors of the Forces of the Elements are to be complimented, for their magnificent control of their servants, undines, salamanders, sylphs and gnomes. The Divine Beings (particularly Mother Mary), who have trained the elementals so patiently at inner levels, to perform their services faithfully, rhythmically and constantly, deserve the gratitude of all who have used, are presently using and in the future, will use the planet Earth as a schoolroom.

The elementals would long since have abandoned their service to the Earth were it not for these Great Directors, Helios and Vesta (Fire), Aries and Thor (Air), Neptune and Lunara (Water), and Virgo and Pelleur (Earth). The incoming Permanent Golden Age requires the cooperative activities of the angelic, human and elemental kingdoms. In this month, when reverence for all life (imprisoned or God-free) is the keynote of Lord Lanto's Ascended Master Retreat, I ask a personal favor of sincere chelas with regard to assisting the re-establishment of harmony between unascended mankind and the elemental kingdom. I know you will be happy in such a lovely service.

EL MORYA

The Will of God has been well and constantly expressed by the elementals but, as their very nature is to mirror that which they see and feel, much of the catastrophic conditions which have externalized since the "fall of man" are not due to the naturally obedient elementals. Rather, they are due to man, to whom the elementals have taken the "vow of obedience," as man is the highest intelligent consciousness upon the Earth. So do they mirror mankind's chaos and confusion.

AS WE ENTER THE NEW GOLDEN AGE, THE COSMIC LAW, IN MERCY, IS ABOUT TO RELEASE THE ELEMENTALS FROM THAT "VOW," INSOFAR AS OBEDIENCE TO THE DESTRUCTIVE USE OF FREE-WILL BY THE PEOPLE OF THE EARTH IS CONCERNED. UNLESS HARMONY BETWEEN THE ELEMENTAL

KINGDOM AND MANKIND IS CONSCIOUSLY ESTABLISHED BY THE DEAR CHELAS. EVEN THE DIRECTORS OF THE FORCES OF THE ELEMENTS CAN NO LONGER PROTECT MANKIND FROM THE HARRIED AND RESENTFUL ELEMENTALS. THIS, OF COURSE, WOULD CAUSE UNNECESSARY HARDSHIPS TO THE PEOPLE OF EARTH AND CATAclysmic ACTIVITIES, WHICH CAN BE AVOIDED IF OUR LOVING WARNING IS NOW HEEDDED! Garner your spiritual strength, my beloved, and HELP NOW those of us who are using every grant of the Cosmic Law, every dispensation at our command, to prevent these destructive activities. For this reason I chose you, each one and I rest in trust, in your calm, poised and alert assistance in this hour!

KUTHUMI

Beloved ones, ponder for a moment the truth that the very physical vehicles which have been created, in love, for you, in order to pass certain initiations and learn specific lessons in the conscious control of energy and vibration, are made up of countless little elementals, who have foresworn the joy, freedom and beauty of their natural sphere, to sustain your physical structure, not once, but for countless centuries of time! How much of the water element, the earth element, the air element and the sacred fire of Creation (the immortal Victorious Threefold Flame of Eternal Truth in each of your dear hearts), has been invested in sustaining you, PRECISELY FOR SERVICE IN THIS PRESENT HOUR to the God who made you?

Endeavor to learn to love the Elements that comprise your physical garment and see how quickly they will mirror your love, externalizing health and beauty in, through and around you, for they are VERY intelligent! Cease condemnation of those organs, muscles, nerves and cells of your body which temporarily seem to have stopped functioning perfectly. Remember! The fault is yours (the personality's), not that of the dear little elementals, who are simply mirroring your thoughts, feelings, words and actions. Their redemption can only come through your own self-conscious endeavors to love them free. When you have truly, humbly and sincerely become the Master of the Elements in your own physical body, you are then already qualified to become the Master of the Elements of your city, state, nation and the planet which has been your Hostess for so long. You cannot "whip" the elementals in your physical body into perfection but you can LOVE THEM FREE! I SHALL HELP YOU.

PAUL THE VENETIAN MASTER

The personal savior and redeemer of every member of the human race, imprisoned angels and confused guardian spirits here, is the HOLY CHRIST SELF, anchored right within your own beating hearts. We, the Brotherhood of Love, are particularly interested in expanding the power and beauty of that Holy Christ Self through each aspiring chela. It is our reason for being! This Holy Christ Self has been entombed within the outer personality of the billions of lifestreams who have used the Earth as a schoolroom for many ages. Now, the Cosmic Flame to all upon the Earth and who must embody here in the future is "LOOSE THE POWERS OF THE HOLY CHRIST SELF AND LET IT ACT!" For this, we are so grateful! To some, the Holy Christ Self is still very ephemeral and impractical. To a few, it is a REALITY. Now, for all mankind, it shall become the REDEEMER. No longer shall we have to coax the outer mind to accept the presence of the Holy Christ Self within the hearts of all mankind! That very Holy Christ Self is stirring within its tomb, preparing to break through the bonds of destructive use of free-will and express itself! For this, I thank God!

With regard to the subject matter of this issue, your own dear Holy Christ Self will be of inestimable assistance in helping you to love free the elements that compose your present physical vehicle. It will give to you the FEELING of love for all imprisoned life. This FEELING is not the negative expression of "sympathy" but the positive expression of "compassion," for all imprisoned and shadow-bound life, wheresoever you witness distress. "LOVE THOU ME FREE" is the call from imprisoned life. Yours is the power to do just this. Be not guilty of the sins of omission at this, your time of special opportunity! Truly set about our Father's business and help us to LOVE ALL LIFE FREE! I SHALL HELP YOU!

SERAPIS BEY

We, the Brotherhood at Luxor, are interested in the ascension of all imprisoned life, wheresoever it exists, not only on the Earth, in the Earth, but in the atmosphere surrounding it as well. We are extremely grateful that, at this time, the Cosmic Law is allowing the instructions to go forth to earnest chelas outside the Ascended Masters' Retreats on the way and means by which they, too, can cooperate with us in making the conditions for the ascension of all imprisoned life possible, as well as the ascension of the very planet Earth into the orbit of Uranus. Then, at the proper time, Earth will move into the orbit of the planet belonging to the system immediately above that of Helios and Vesta, Venus.

Let me here explain to the chelas that the ascension out of discord and limitation, into harmony and abundance, does not necessarily mean the etherealization and disappearance of form into another realm. While there is a requirement for assistance upon the planet Earth, there will be lovely volunteers who, having raised their consciousness into a permanent state of harmony and abundance, will remain as foci, through which these God-qualities can, and will, flow into the atmosphere in which the Earth and its inhabitants abide. Thus, you can be, like beloved Jesus, "In the world, but not of it." Then you will be ourselves in action helping the White Order to prevent the distresses which the masses could neither experience without fear, nor pass through without tremendous etheric scars, which would delay their souls' purification and their spiritual development.

Each of you, dear chelas, has the full, detailed description of the creation of the Earth in the "The Seven Mighty Elohim Speak on The Seven Steps to Precipitation." Therefore, you know something of how much love, patience, constancy and fidelity were, and still are, involved in the very creation and sustaining of the Earth, which has been your hostess through the ages. You can realize, then, how desirous we are to see her restored to that pristine purity and perfection which she expressed when first the Holy Innocents, together with the Manu of the First Root Race and Lord Michael, prince of the Archangels and his Legions of Light, descended, in grace, to use the Earth for a schoolroom.

Call upon me and the Brotherhood at Luxor to help you to be a part of this redemptive process! We shall be so happy to assist you.

HILARION

There is a SCIENCE in establishing good-will between the elemental kingdom and the human kingdom. Of course, nothing is done by the Spiritual Hierarchy without the use of actual SCIENTIFIC PRINCIPLES, which never deviate from truth. As we are speaking to chelas developed along the seven specific lines of constructive endeavor, the SCIENCE of such good-will will have seven types of constructive expression: the powerful decrees of the First Ray people, the wisdom of the Second Ray people, the love and tolerance of the Third Ray people, the purity of motive of Fourth Ray people, the consecration of energies toward a specific manifestation of good of the Fifth Ray people, the peaceful radiation of the Sixth Ray people, and, finally, the magnificence of ceremony which will be developed through the Seventh Ray people, incorporating songs, music, visualization, decrees, chants and rituals which will delight all who

enjoy the “fruit” of the pioneers of the Ascended Master Saint Germain's New Age.

JESUS

It was easy for me to master the waves of the stormy sea, which so appalled my frightened disciples, because I had already become Master of all the elements composing my inner and physical vehicles! In like manner, the so-called miracle of walking upon the water was just another manifestation of that mastery. I cannot recommend, too strongly, to the earnest chelas, that they sincerely endeavor to harmonize the elements which compose their own vehicles. THIS TRAINING WILL STAND EACH SUCH A ONE IN GOOD STEAD WHEN HE OR SHE IS CALLED UP ON TO HOLD THE BALANCE FOR THE MASSES OF PEOPLE DURING THE TIME JUST AHEAD, WHEN NOT ONLY CONTINENTAL, BUT PLANETARY CHANGES, WILL TAKE PLACE.

SAINT GERMAIN

I do thank, most sincerely, our Lord Maha Chohan and all the Chohans, who are giving to me their fully gathered cosmic momentum of assistance in redeeming this sweet Earth and all imprisoned life, at this time. Of course, the Violet Fire of Mercy and Compassion is one of the greatest purifying agents in this redemptive process. The loving cooperation of all unascended chelas, in whom I have implicit faith and trust, is a source of great encouragement to me.

I PROMISE you my continued assistance in the development of whichever of the seven lines of constructive service to which you have a natural affinity. I think I am most fortunate, of all the Chohans, to have so many dear chelas all over the world willing, eager, capable and desirous of helping me to bring the Permanent Golden Age to the planet Earth!

When you stand with me in your Robes of Freedom (having truly earned your ascension), you too, will know and experience grateful hearts, because you have had the strength of spirit, clarity of mind and constancy of feeling to endure any temporary discomforts until this sweet Earth becomes Freedom's Star!

LETTER TO TRANSMISSION FLAME CLASS, June 21, 1958
The beloved Maha Chohan

Beloved Ones Seeking The Powers Of Precipitation Of Good For The
Impersonal Benefaction Of The Earth:

I have come to give to you my blessings for the sweet sincerity of your dear hearts, in endeavoring to resuscitate the natural power of precipitation for your own dear selves and your fellow-man.

As I am also among those divine personages who are interested in the conscious use of the power of precipitation, utilized so freely and magnificently through the nature kingdom, I can but rejoice that now, in this hour of planetary crises, there is arising within the deep recesses of your spiritual nature, a beautiful and sincere desire to learn to use the power of precipitation. This power you once knew and utilized through aeons of time, before the "veil of maya" (with its limited concepts), temporarily caused you to lose this power and accept limitation as being God's Holy Will for you!

Precipitation of GOOD is part of your divine heritage. Now reach out, beloved, and consciously accept this power. I shall help you. Remain no longer in the acceptance of your spiritual impotence. What the nature kingdom externalizes each year for the beauty, nourishment and encouragement of mankind, you too, can do RIGHT NOW! This will be the greatest example to mankind (who enjoy more the fruit than the patient tree which produces it) and will cause some few among them to desire to learn the Law of Precipitation for themselves. Be not disappointed, beloved, if the many pluck the fruit of your spiritual disciplines and resultant manifestations, but are much less interested in the way by which such manifestations occur. It has always been so.

Remember always, beloved children, that the New Day has dawned and that my son, the Ascended Master Saint Germain, depends upon you, each one, to bring forth the Permanent Golden Age upon the Earth, through your dedicated spirits. This is the kingdom of heaven come NOW!

To those of you who consider seeking the power of conscious precipitation as either selfish or unworthy of a spiritual life, I suggest that you abandon such false human concepts. It is not for yourself, alone, that you seek the resuscitation of that power, but that through you (as channels) the beauty that lies in the Seventh Sphere may, and shall be, externalized upon the Earth.

Consider, rationally, the nature kingdom for a moment! After the long winter months, which have been provided as a time of rest for the various members of that kingdom, if such members took the conscious stand of mankind and thought it of no use to “bother” to tie into the Resurrection Flame, if they did not consciously endeavor to cooperate with their own divine plan (which is to show mankind the beauty of their expression), how would you personally feel? If, even for one year, there were no glorious spring, no harvest, no magnificent autumn, mankind's hope, as well as his practical physical sustenance, would disappear! Are you not equal to the challenge which we, the Spiritual Hierarchy, place before you, to precipitate GOOD through the expansion of the divine plan held by the Holy Christ Self within your heart?

On behalf of the beloved Ascended Master Saint Germain, whose cause you have vowed to serve, I IMPLORE YOU NOW to be about your “Father's Business,” as blessed Jesus was, centuries ago and still is! The desire to learn how to consciously use the power of precipitation for the blessings of the Earth's evolutions is GOD-INSPIRED, GOD-DIRECTED AND GOD-PROTECTED! The human vows of “holy poverty” have been misinterpreted by well-meaning individuals. The God-vow is “holy humility” in the use of all the God-powers and their attendant expressions, whether these expressions take the form of FAITH in God, WISDOM in the use of his life, LOVE of God and his messengers, personal PURITY (so that one is a more efficacious channel of his Holy Will) CONSECRATION of his life (through you) to expand any constructive line of endeavor, MINISTRATION to those expressions of imprisoned life (whether they be angelic, human or elemental), or INVOCATION of God's Holy Will manifest NOW on the sweet Earth.

Note carefully that the power of precipitation of good is coupled with reverence for life! In that conscious knowledge is your safe-guard against selfishness of any kind. Let us daily enter together, in consciousness into the beautiful Rocky Mountain Retreat and sit at the feet of beloved Lanto and the Brotherhood there. They have guarded the power of precipitation for ages and are filled with the FEELING OF REVERENCE FOR ALL LIFE. From them accept the blessings which are yours for the asking. I shall be waiting there for you! Please come and, within the compass of my own loving heart, you can be the beneficiaries of all the full, gathered cosmic Momentum which is within this retreat! Then, as you return to your respective spheres of influence, you will have a greater impetus to use the instruction concerning reverence for all life, which I trust you will utilize without strain or stress, to bless all imprisoned life, at this crucial time of planetary initiation.

**GROUP INSTRUCTION MATERIAL FOR
TRANSMISSION FLAME CLASS**

June 21, 1958

Dear Gentle Reader, Desiring To Comfort Life:

To each of you, individually, as well as to all the life you ever contact, we offer the sincere blessing of this call, in the name and authority of our own beloved I AM Presence and yours, for oceans of the glorious golden-pink Comfort Flame from our beloved Maha Chohan's heart to flood in, through and around you now, be eternally sustained, all-powerfully active and ever-expanding. Accept this in faith, believing now, for he always answers instantly.

"Do as you would be done by," is a shorter version of "The Golden Rule." This "Golden Rule" was one of the first of the laws to be given to mankind, when they came to live upon this dear Earth. For much more than a million years after the Earth's people came here, obedience to this law, by them, kept everyone and everything young, beautiful, happy and God-supplied, with every good thing, in every way. Now, in the Permanent Golden Age for this planet, into which we are now entering, that lovely way of life shall come into being here again. It is truly the Ascended Masters' way of life and wonderful wonderful, wonderful!

Our beloved new Buddha (formerly Lord Maitreya), once said in one of his lovely addresses to us, that one does not find too much kindness expressed by those who yet abide in this world of form. How true we have all found this to be, from time to time. Of course, those of us who love the Ascended Ones, are certainly not among those who either could or would be consciously unkind at any time, to any part of life, for it is we, alone, through whom our beloved Maha Chohan and the Ascended Host can be represented here in the physical octave of expression.

For just a moment, stop here and think! Just how do you feel when you are really comfortable? What does it take to make you feel so? Is it thoughts, feelings, spoken (or written) words or acts of criticism, ridicule or a legion of other unfortunate qualities which mankind sometimes feel inclined to impose upon each other, most of the time unthinkingly? You know it is not!

If we are to be like the Great Ones and if each of us is to be a literal "arm of their presence," we will never consciously impose hurt, discouragement, or disparagement of another's gifts upon the feelings of any part of life (animate or so-called inanimate). You see, no Ascended Master ever (for any reason whatsoever) blames, criticizes, condemns or

even disapproves of any part of life or its expression. Beloved Saint Germain once said (and he is known as the most courtly of all the Gentlemen of Heaven!): “Remember! No Ascended Master ever disapproves of you, no Ascended Master could!” Is that not comforting, indeed?

This thirty-day period is a particular opportunity for each of us, individually and all collectively, to learn real reverence for life! A definite divine pattern to follow is given by our beloved St. Paul (now the beloved Chohan Hilarion), in a letter to one of his churches, (Bible ref. Philippians 4:8) which says, in part: “Finally, brethren, whatsoever things are honest, whatsoever things are just, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report, if there be any virtue and if there be any praise—think about these things, and the God of Peace shall be with you.”

As beloved Maha Chohan's volunteers to bear comfort to this world of form, let us all sincerely endeavor to do unto others as the Ascended Masters do to us and as they would have us do to others —accept the best—transmute the rest! Thus shall we all fulfill the “Law of Love”—the greatest law of them all!

Lovingly, forgiving all life,
FRANCES K. EKEY

THIS PASSING MOMENT

Within this passing moment—NOW—is ALL God's good for you,
Here's strength to fulfill every vow, and render service true.
Oh, Please do not—by looking back—or e'en too far ahead—
Clutter your world with regrets or dreams, til this moment—alas has sped.

You can't recall it once it's gone—you cannot get it back,
Today is all that's really yours—for time is a one-way track!
This very blessed minute know, that God's free-flowing life
Just a fleeting moment ago, with him, was free from strife.

You ask: “Now that it's in my world, “What can it do for me?”
Whatever you determine—for, it acts obediently!
Then if you really mean you want God's will to manifest—
Guard every passing moment. and do your very best.

To keep your thinking happy, your feelings full of cheer,
Hold a “God's-eye-view” of ev'ry man—Thus life you will REVERE!
Perfection is the will of God for you and ALL—my friend—
This moment is your open door, to happiness without end!

Statement For Transmission Class, June 21, 1958

I AM inbreathing/absorbing/expanding/projecting:

Lanto's feelings that precipitate peace where'er I move.

Color of Flame: Chinese Green. Musical Keynote: "Oh Thou Sublime Sweet Evening Star," from Tannhäuser. Hierarchs: Beloved Lanto and beloved Confucius.

Notice

As all of our dear students know, we are in a time of planetary crisis when it is necessary that all sanctuary and group directors be apprised as quickly as possible, of any Ascended Master instruction, class announcements and reports. Previously, you have received these from our beloved Mrs. Ekey but, because of certain pressures of service which this lifestream has assumed, in its mercy, the Great Cosmic Law, at least for the present, requests that you receive such information direct from the Mother House of our beloved Lord Maha Chohan (the mailing address of which is P.O. Box #5, Flourtown, Pa.).

This will temporarily lighten Mrs. Ekey's responsibilities and enable her to more efficiently continue in the specific service which she is rendering as manager of "The Bridge," as well as continuing as the director and sustaining lifestream of the power center of this activity, which has been established through the Philadelphia Sanctuary. Her letters containing practical group instruction material will continue to appear in our monthly journal as space permits, for preference is always given by her to the Ascended Master's words.

El Morya

THE BRIDGE

TO FREEDOM

**A Monthly Journal Devoted to Individual Unfoldment, Contact
With the Great White Brotherhood and Cooperative World Service**

JULY 1958

TO THE BELOVED CHOHAN PAUL AND HIS BROTHERS AND SISTERS OF THE TEMPLE OF LIBERTY:

We bow in loving gratitude for all your God-assistance all through the ages, as well as at the present time, in holding the immaculate concept for the expanding Christus, through all mankind. This Christ Presence, when fully released, shall be the ever-expanding light of this star.

TO THE BELOVED ASCENDED MASTER SAINT GERMAIN

We offer as our willing, joyous and humble assistance, all the fully-gathered cosmic momentums of the God-energies of beloved Immaculata, the glorious Seven Mighty Elohim of Creation and their divine complements, the seven great Archangels and their Archaii, the seraphim, cherubim and angelic host, Cosmic Beings, Ascended Masters and directors of the elemental kingdom, as well as those of the Holy Christ Self of each of the ten billion lifestreams who, from time to time, are using the Earth as a schoolroom of experience through embodied physical forms. We offer all of this God-qualified light and love to be used to raise the Earth NOW into the perfection which is her divine destiny—that of becoming “Freedom’s Holy Star,” the coming great perfection of which star will greatly bless all who use it as a temporary home—not only at present, but in the future, as well.

“Freedom’s Holy Star” is no longer just an ephemeral vision, but a palpable reality, awaiting full manifestation through the loving endeavors of dear, unascended chelas, who are serving along the lines of all Seven rays of constructive activity.

We decree that this perfection for the earth shall now externalize quickly through such endeavors, and thus be our grateful gift to the be-

loved Saint Germain, to the beloved Helios and Vesta, and to the beloved Immaculata. Their tremendous love for the Earth has been expressed in their constancy in holding the immaculate concept for her and her divine manifestation, in this solar system. Such constancy has made her present victory possible. Not only is this our decree—it is also a cosmic fiat! To this end do we serve and to this end are all earnest chelas serving also, now awakening to the requirement of the cosmic moment “Freedom’s Holy Star”—we love you!

Thomas Printz

The Homes and Retreats of The Masters of Wisdom
CHATEAU DE LIBERTE – SOUTHERN FRANCE
(July 15th through August 14th, 1958)

The magnificent Chateau de Liberte, whose host is the Chohan of the Third Ray, Paul (called “The Venetian Master” to distinguish him from our Brother Hilarion who, before his ascension, was the famous convert of beloved Jesus and called “St. Paul”) is located in southern France. It is one of the most beautiful of the Ascended Master foci on the planet Earth today, because its present Chohan is the exponent of divine love, beauty, Ascended Master dignity and perfection, through all expressions of life.

The focus of the Liberty Flame is located here, protected and sustained not only by beloved Paul and the beloved brothers and sisters of his retreat, but also by the Great Cosmic Being known as the Goddess of Liberty. Liberty and Freedom are very much linked together, expressing as manifestations of Deity when allowed to act through unascended mankind. Liberty, as our gentle readers well know, is derived from the word “libra” meaning “book” and, in this case, refers to the Book of the Law of Life, which is God’s eternal truth. Freedom comes from the practical use of that knowledge and practical use of the laws of that truth, through constructive endeavors to assist the human race to manifest its divine expression, individually and collectively. Without knowledge of the truth of God-law, true God-freedom cannot express wisely, constructively nor permanently through any unascended being.

The beloved Chohan Paul and his Brotherhood are primarily dedicated to the educating of mankind as to the truth of their own divinity. This Christ-self lives within the physical heart of every human form and its anchorage there gives the physical heart the rhythm and energy of beat-

ing. There, that Christ-Self patiently awaits conscious liberation through divine love to allow it to externalize its divine destiny through the outer personality of every lifestream belonging to Earth's evolutions.

The symbol of our beloved Paul and his chelas is the lovely "Fleur-de-Lis" which symbol also has been used by the French people for many centuries as a national emblem. The complete expression of Deity's plan for the Earth as "Freedom's Holy Star" depends entirely upon the release of the particular gifts, powers and virtues of each Holy Christ Self through the outer form. It is now the decree of the Spiritual Hierarchy that this Christ-Self of all in embodiment today, as well as the Christ-Self of all who are to come here in the future, shall now be allowed liberty to externalize these gifts and have full freedom to use them for the benefaction of the entire human race and the very Earth, itself.

How delighted is beloved Paul and his Brotherhood, who have awaited this hour for so long! Silently and unostentatiously have they served, through the ages, up to this time, nourishing as much as possible the dormant Christ powers in those chelas who have proven themselves to be willing and ready to guard, govern and impersonally direct these powers for the benefit of the race.

In the past, certain dear chelas who were feeling the natural pressure of the desire for expression from their own Christ nature, have been drawn by our beloved Paul and his Brotherhood to the Chateau de Liberte (more often at night while the physical body slept or, much more rarely, in the physical form). There they have been given the spiritual guidance, encouragement and other necessary stimuli to return into the outer world for service, determined enough to release their gifts to an unappreciative people and, for the most part, to careless, and resisting consciousnesses. These latter sometimes reluctantly accept the gifts but seldom offer to practically assist in nurturing the earnest endeavors of the giver.

Seeing, as we do, with the "Inner Eye," the resistance of human nature to any change, even for the better, is deplorable indeed. So, for this reason, many good and earnest people, who have dedicated themselves to the raising of the Earth and her evolutions from their distresses, constantly require the loving protection and encouragement of beloved Paul and his Brotherhood, to help them "keep on keeping on" in their endeavors to promote and externalize that which is good for all. You see, the Cosmic Law requires that this be done by those who, while still serving in flesh bodies upon the planet Earth, must work within the riptides of all

kinds of destructive human creation.

Although beloved Paul is particularly interested in developing the latent talents of the artist, sculptor and musician, he and his Brotherhood are also vitally interested in helping good men and women everywhere, who are serving one or more of the seven rays of constructive manifestation under the beloved Maha Chohan, who is Paul's superior at this time. By nature, our Blessed Paul is a true perfectionist but, at the same time, he is very, very gentle and tolerant, in loving grace accepting the clumsiest endeavors of the least of men, whose hearts desire to contribute to the externalization of the divine plan to be expressed by the Holy Christ Self. Therefore, at the Chateau de Liberte you will meet not only the accomplished artist but also the amateur as well, whose motive is pure and who thus have deserved the personal assistance of this beloved Chohan and his Brotherhood.

Not only the priceless treasures of perfection produced by those who have become professional in their accomplishment, but also the less perfect manifestations of the amateurs are displayed in his magnificent chateau. His reason for being is to encourage the release and expansion of the living Christ within every heart, by the giving of its gifts through the outer self. This expanding magnetic power of divine love is of course the nature of beloved Paul and the aura of his focus of Liberty.

Standing at the door of his chateau in the majestic beauty and loving dignity which is his, he greets all aspirants who come to him, desirous of externalizing their divine plan and then assigns them graciously and discreetly to the teacher who can best assist such a one, according to the spiritual development of each such aspirant. In his magnificently landscaped gardens, there is a great deal of beauty and perfection of nature, which some artistic aspirants enjoy attempting to reproduce, either on canvas or in some suitable sculpturing form. Walking through those gardens, as he sometimes does, beloved Paul always encourages, not only the more developed, but also the earnest, hopeful aspirant, to continue to TRY! Beloved Paul makes no distinction between the spiritually developed aspirant and the undeveloped but eager aspirant, except in his personal choice of teacher for each one.

Beloved Paul and his Brotherhood not only serve within their Temple of Liberty, but also, wheresoever some sincere lifestream desires to do God's Holy Will, one or more of these Brothers or Sisters of love always attend such a one (nearly always invisible to the physical sight). To such a one they pour their radiation of divine love, to sustain him in his en-

deavors. Thus, although such good people do not know of their benefactors, they are able to continue in their constructive services in the face of ridicule and derision from the masses who, in good time, will enjoy the fruits of these lifestream's individualized accomplishments.

The beautiful Chateau de Liberte has been described previously in back issues of "The Bridge to Freedom," to which the gentle readers are referred in the footnote following this article. However, we are stressing herein the idea of the accessibility of beloved Paul and his Brotherhood to help any one, or all, who desire to fulfill his or her own divine plan NOW, by allowing to come into outer manifestation his own Christ Powers for greater individual freedom of action, as well as for the benefaction of the entire race. Thus does the Earth become "Freedom's Holy Star" more quickly and the thread of the divine plan, which is anchored within your own dear hearts, is woven into the divine tapestry thereof.

El Morya

PREPARE YOUR SUCCESSOR IN SERVICE – NOW!

By Beloved Saint Germain

May 1, 1958

Beloved and blessed ladies and gentlemen who have loved me long and served me well.

This morning it is my joy, it is my honor and it is my privilege again to cross the bridge from the realm of divinity into the world of form, to give you my love and implicit faith in your capacity to be constant in our service, until the Permanent Golden Age is established upon this Earth. Then shall every man, woman and child know the glory of wearing "Freedom's Robes!" Then shall every imprisoned elemental be free to live in its God-estate and every imprisoned angel presently embodied here shall yet know the harmony and joy of again living with the angelic kingdom, even though these souls may be presently sacrificing, for a time, the fullness of their ascension.

Thus shall the three kingdoms be eternally united on "Freedom's Holy Star"—angels, men and elementals. In this way does my vision of the ages become physically manifest, through the loving, conscious co-operation of those who have believed in my reality, those who have accepted my life, my light and my humble endeavors to instruct them and who have given to me FIDELITY! Now, as we begin to intensify the activi-

ties of the New Era, others will reap where these have sown. Forty years from today this Earth will show a great harvest of their earnest endeavors.

As I have mentioned to you several times before, concerning those who are to follow you in service, PREPARE NOW for your successor among the lovely younger generation. In the name and authority of your own beloved I AM Presence, call daily to us to raise up those Ascended Master youth who will be interested in the expansion of our cause and who can be trained as you have been. Then they will be those to whom you will be able to pass the “torch” when your journey here is done, when the call comes from your own beloved I AM Presence and, in dignity, you enter into your own Electronic Presence—thus becoming a divine Ascended Being.

Of course, in the years just ahead, some of you will relinquish these bodies, having earned your “Robes of Immortality.” When this does take place, I pray to God that you—each one—will have prepared at least one chela to take your place. Let us not allow it to be said of a single one who has been asked to do so, that he or she has neglected to prepare another hand to be ready in time to take from him that “torch” of our light, which he has been carrying. To have such a one prepared would be to make available an unbroken chain of consecrated service to us and his fellowman.

Let us not repeat, this time, what has happened century after century in the past, that of letting the “Bridge of Light” from our divine realms into yours disintegrate, because the generation which drew it forth to reach great heights, finally passed on to well-earned rest. Then the younger generation, being not sufficiently grounded in the instruction to be able to sustain that bridge of consciousness unbroken, could not hold for us a continuous and ever-expanding conscious contact with unascended beings here, through which they might receive our radiation of perfection to absorb.

REMEMBER, DEAR ONES, THE GREAT LAW WILL NOT HOLD YOU GUILTLESS IF YOU DO NOT PREPARE SOME “TORCH-BEARER” TO CARRY THIS LIGHT, TAKING YOUR PLACE WHEN YOUR COURSE IS RUN. THE FEELING OF REMORSE IS A VERY UNHAPPY ONE. Should such a condition of affairs come about in your world, were you to finish your course here and, looking back upon the records of the life you had just lived, find a vacant place where there should be a living flame, a dedicated youth filled with enthusiasm for and an understanding of the Ascended Master's

Cause, that certainly will not make you happy!

You see, the Great Cosmic Law demands that, as we invest our life, light and love in some chela who loves us and declares himself ready to serve our cause, that chela, in turn, must give the assistance to others as he has received it. We expect each loving chela whom we have assisted to so invest his life in at least one other lifestream who, as we have said, will be able and willing to take up the "torch" from that one's hands and carry on.

The spiritually awakened Oriental mind knows this truth well, for it applies also to those who study with unascended masters and gurus. For every bit of light (instruction, illumination, etc.) a chela receives, that one must balance his account with the Cosmic Law by giving such assistance to someone else of lesser light whom the chela must find, interest and instruct. If the chela does not find such a neophyte, that chela is removed from the circle of those receiving further instruction, until he has fulfilled that part of his mission.

Here in the West, our beloved chelas are so good-they are so earnest, zealous and sincere, However, in the exacting and time consuming demands upon their attention and energies in this busy Western world, they are inclined to forget their obligations to the future generations, to those younger lifestreams who are already here, as well as to those yet to come, forgetting that teachers must be provided for the immediate, as well as for the more distant future. They also are inclined to forget their obligation to us to balance that which we have given to them.

We know that sometimes the good chelas weary a bit of hearing about their responsibility to make application upon this and that. We are quite aware of the diversity of application for all the different avenues of expression which must be called for. There are the calls (decrees) to be made for those yet to be born, those who have been born, the families into which they come while they are here, calls for the assistance to be given to souls who are finished with an Earth-life and then calls to prepare the incoming souls for embodiment here again! Oh, dear hearts! I have been all around that circle with each one of you, many times! Now it is your turn to take that circle of application through for your fellow-man. I know you will find it interesting and most rewarding.

May – A Sacred Month of the Year

In this holy and sacred month of May, again many, many souls will be entering the Sacred Heart Temple, preparing to stand before our beloved Mother Mary, who will fashion for their new embodiment a “Sacred Heart.” Of these, there will be thirty-five lifestreams who recently were released from the “Compound.” There will also be many embodying who have recently come from the “Sleepers' Realm” and there will be many of the laggards, as well as many beautiful spirits who belong to the Ceremonial (Seventh) Ray. We are sure that many of you will want to assist those so recently come from the “Compound” by calling for the transmutation of all their destructive karma before taking embodiment here.

You see, through old habits of thought and feeling, resentment and rebellion have qualified the energies of their lifestreams for ages. Will you please pray for these? Pray also, dear ones, for protecting grace for the lovely, pure spirits who as yet know no tarnish of Earth's shadows, coming as they are now from other stars and other planets of greater light so that, through radiation, they may help to expand Earth's light more quickly. Call that they may not take on the contagion of the shadows here, as they come into Earth bodies through the best of the lifestreams we have to offer, in the families which make up the masses of Earth's people.

Pray with me, too, that the Holy Mother Mary may have at her command as she fashions their hearts, the fully accumulated momentums of all the Violet Fire which you have builded into your causal bodies and utilized in your applications these long years. This is constructively-qualified substance of your own lifestreams and, if you will, you can offer it to beloved Mary and so make it available to purify and bless every lifestream as it passes through her Temple of the Sacred Heart. I know you will all enjoy giving this service and I personally thank every one of you who does give it.

Visit by Solar Lords of Violet Fire

From the higher galaxies, into the atmosphere of Earth during this twenty-four hour period today, when my coronation as divine ruler of the Seventh Ray upon the Earth for the next two-thousand-year period is being honored so graciously, (not only on Earth but in heaven's realms as well), there have come twenty-five of the Great Solar Lords from the Violet Fire Temples. These Beings are so tremendous in size, as well as in power, that, to the outer sight of unascended mankind, they would

even appear frightening. However, they are the magnificent glory of divine love embodied! These great Solar Lords are on a mission of divine light and love, enroute to the planetary system which follows this one, to which the Earth belongs. But, having been attracted here today by the glorious coronation activities, which have been so kindly prepared for me at inner levels, they stopped to visit with us for this twenty-four-hour period. It is always the nature of divine love to be grateful for opportunity to serve for, in so doing, divine love and light are permanently expanded. These magnificent Solar Lords desire to add the blessing of their light to the Earth, as their gift to me on this day.

**Saint Germain's Long-Dreamed-Of Vision "World Brotherhood"--
Now Becoming Fact!**

As you know, beloved ones, today is "May Day." Those words "May Day," mean so very much to me personally, for even as a small child, that day was always set aside for me by my mother as a sort of holiday for us both. Nicholas and Lady Bacon (in whose home and family I spent the very early years of my life), would always dress me with such care for this holiday, often placing around my shoulders a violet cape (sometimes of velvet or, if the weather was too warm for that, of some lovely lighter material). I remember thinking about that coming day all the night before, as your children dream of Christmas morn on Christmas Eve. Then on "May Day," my own mother and I would go into the lovely woodland to leisurely walk and talk together, pick the early violets and, generally, enjoy the feeling of the close companionship.

Then, much later, (but also on a May Day), I took my leave from all further physical embodiments upon this Earth, when I finally accepted the full victory of my ascension. I remember that day so well—the sweet fragrance of the flowers in the garden of that home in Transylvania, as it came on the soft breeze, through the open window of the room where I was. I remember well experiencing the feeling one has when he is obliged to leave a task not quite completed. You see, at that time, my "Utopia" was only a book, my dreams only written into the lines of the Shakespearean plays and upon the hearts of a few faithful students. If it had not been that my superiors thought it wise for me to take the ascension at that time, I think I could not have left the Earth in that hour, with my vision still unfulfilled. Yet, in loving obedience to their great wisdom, I did.

Grateful, indeed, am I to you, my faithful students, who have embodied again and again since that time, taking that vision into your own

consciousness and endeavoring to make it real, tangible and practical in this world of form. The establishment of the reality of this vision is taking place first here, in your beautiful United States of America, which was brought into being through the loving co operation of my faithful students and myself. It shall expand and expand, until it is worldwide—a great SPIRITUAL FREEDOM, which has no regard for nationality, creed or color—having regard only for the light within the hearts of all people, that light which is endeavoring to illumine their souls.

We are now coming into the day when world brotherhood shall be completely understood, as an activity which raises the soul to the place where the individualized Christus of each one is externalized, by the expansion of the immortal Threefold Flame of Eternal Truth, through that soul, into outer manifestation. In this New Age into which we have now entered, every lifestream, regardless of color, creed or individual status, shall externalize that Holy Christ Self!

“May Day” has become universally accepted as a day of happiness. Do you think it happenstance that your Air Corps uses the words “May Day” as their distress signal? Ah, no! There is no such thing as “happenstance.” When those men are at a point of great distress in the high, blue sky and that word “May Day” goes forth from them, who answers? I do! Of course, in their outer consciousness they do not know that, but it is the reason for their having made “May Day” their S.O.S. call for assistance. We are interested in your Air Corps and we are interested as well in every constructive activity which takes place within the Earth, on its surface or in its atmosphere, for this Earth is to become “Freedom’s Star.” This achievement I have dreamed of for so long, as I have told you often before—my vision of world brotherhood which I tried to force into existence here before its time. I, for one, can tell you that human feelings of disappointment do not last long when the soul is filled with grace.

"Patience Brings Its Own Reward"

Long ago, before my ascension, I thought I could direct the bringing about of world brotherhood for all nations through the authority of the throne and crown of England, which I felt was rightfully mine. This was denied me, yet the great God of Mercy now has given me the throne of eternal freedom and the undisputed divine authority to be the presiding ruler for this magnificent Permanent Golden Age of Freedom, which already has begun upon this planet and which is four years old today!

Ah, beloved ones, in those days before my ascension (in my last Earth life as Francis Bacon), not understanding the completeness of the divine plan, I wept often in disappointment, because I felt so strongly, the great possibilities of that which I could accomplish in the way of fulfilling my vision, if my rightful heritage were only mine! Within my very self I experienced "The Tempest" that comes within the feelings of the outer self, when a much-desired vision is not fulfilled at the very instant when the outer mind thinks it should be.

Long, long ago I was shown clearly, and saw so perfectly, just what was the divine God design for this Earth. In those days, it seemed as though the only way and means open to me to present my vision to the world was through the Shakespearean plays and through the various articles which I wrote (some of which I was able to publish) as Francis Bacon. Finally, one day in that embodiment, as I have told you, I made a rather unostentatious departure from this world of form, making my conscious ascension from the home of a dear friend in Transylvania.

Now I come again with my glorious vision, a vision of a world where there is neither cause for, nor results of sin, where there is no pain, unhappiness or need for tears, where there is no disease, no disintegration and no death! In this vision there is absolute liberty and freedom for all who embody here (at the close of his or her lifestream's experiences) to take his or her leave of this planet in dignity and joy, in the victory of his or her own individual ascension. Thus does each one become a wholly Divine Being, eternally free and perfect, in the complete fulfillment of his or her own divine plan.

Oh, dear hearts, is not the bringing into manifestation of such a vision worth all the loving, dedicated service you can give, at least for all the rest of this Earth life? Many, many times, all through the centuries, I have given my life for this cause (and to help you to personal victory as well) and our beloved Morya has done the same. Now, we must depend upon you to help us, conscious chelas, for, to whom else can we look for such service? To this end have we invested our life and love so that you would be prepared to serve until those new lifestreams are raised up to carry forward the light which you have guarded and expanded, thus far.

"Hurry" – A Dangerous Habit

These days are days of great acceleration, as the Earth's axis is being permanently straightened and the planet moves rapidly forward at the same time. The entire system of which beloved Helios and Vesta are Sun-God and Goddess is also rapidly moving forward which, of course, makes it necessary for the vibratory action of your own bodies to be "stepped up" a certain amount, every twenty-four hours, just as much as you can comfortably stand. Here may I bring to your attention this IMPORTANT point that, because of this acceleration of the speed of your four lower bodies (your emotional bodies—feelings, your mental bodies—thoughts, your etheric bodies—memories, and even your physical—flesh bodies) there is often the tendency to hurry.

You see, it just naturally follows that the vibratory action of your world must accelerate as you purify yourselves more and more. Then too, it must accelerate as you accept our assistance, which comes to you through the radiation of our light and love. This "radiation" which we give, is our very own life, the actual substance of our being and that substance quite naturally vibrates much faster than do your own worlds here. So you can easily understand why your worlds vibrate faster than those of the masses of the people. Now, with the added acceleration of the planet, itself, you sometimes individually feel the tendency to hurry, and hurry always brings distress of one kind or another.

It is very necessary for the chela to clearly understand this at the present time, so that he will consciously control these feelings. Calling to any of the Ascended Host (particularly to beloved Gautama, New Lord of the World) in the name and authority of your own beloved I AM Presence and asking us to charge your world with our feelings of PERFECT BALANCE in all your activities, will enable you always to take THE MIDDLE WAY. This will enable you to enjoy and benefit by this natural acceleration, which must take place as our planet Earth moves into the orbit of Uranus, first, and, later, into the orbit of the planet Venus the "Love Star," in the system above.

Such a conscious, watchful control of your energies will enable you also to enjoy, in practical daily living, greater emotional stability, mental alertness, etheric clarity and more physical strength and energy, all of which will allow you always to hold the feelings of balanced poise, dignity and general self-control which are the God qualities and real nature of the Seventh Ray and all who sincerely serve me and my cause. Remember, you now belong to the royal house of freedom! You are accepting

my life and love, using my name and representing me to the world. In this regard, to the very best of your individual and collective abilities, I know you will endeavor, always, to represent me worthily!

Oh, we are such happy beings and sometimes, informally, we laugh and just enjoy life. However, there are other times when we are embodied dignity and there will be times in your own personal experience, yet to come, when that magnificent quality of Ascended Master dignity will stand you in good stead, were you to develop it now! There will be times in the near future when the qualities which are mine as Lord of the Ceremonial (Seventh Ray) and which I would like you to allow me to invest in you, will help you through certain experiences through which you shall yet pass. Will you give me opportunity so to help you?

Desire For "Place" – A Human Quality

Beloved ones, let me speak for a moment upon the question of "place," which seems so important to unascended beings. In the Ascended Masters' realm, we are all ONE in the desire to have the divine plan fulfilled, all ways, everywhere. Our desire is always, to have made manifest, the greatest good for the greatest number. Each of us has a certain gathered momentum of perfected qualities, which we offer in the service of producing such perfection and each of you also has such gathered momentums of perfection, stored in your causal body. When there is a requirement for the use and expansion of some divine quality, whether it be faith, protection, divine love, tolerance or whatever it may be, any one of the Spiritual Hierarchy offers himself or herself to fill that place, or render that service.

For instance, think of the great sacrifice of our beloved Sanat Kumara who, for love's sweet sake alone, took leave of his beautiful planet, Venus, and his loved ones there, to blaze the redeeming power of his light and love upon a star which had fallen into great distress because of the shadows brought here by the "laggards" from other planets, when those planets moved onward into greater light. Then, abiding in the lovely Shamballa which had been built for him by those of his own people who had come to prepare a place for him, he also filled the office (for a time) of the Chohan of the Seventh Ray, always graciously willing to give whatever service was needed, at the moment, for the greatest good of all. Beloved Gautama also held the office as Chohan of the Seventh Ray, in days gone by.

Our beloved Nada made her ascension many, many centuries before

the beloved Jesus—yet, today, as beloved Jesus and Kuthumi, in combined service, have taken the office of Cosmic Christ and World Teacher, beloved Nada has accepted the post of Chohan of the Sixth Ray, where she is serving with great grace. Beloved Lanto, although having fitted himself for service in the higher planes, in July of this year is taking over the office of Chohan of the Second Ray. So, you who are so vitally interested in our cause and serve us well in these momentous days, consider not the importance of your particular place of serving.

Just be grateful for opportunity to release the fully gathered momentums of the good which is in your causal bodies, to anchor and hold this activity firmly and immovably in the power and powers of love divine, until we can reach the masses of the people and until SPIRITUAL LIBERTY has been added to POLITICAL LIBERTY which, as a gift from myself, America has known. Upon you I depend for this assistance, in this day and hour.

Gossip, A Most Destructive Practice

Before we close the address today, may we lovingly request that all of you, individually and collectively, call to beloved Pallas Athena, as well as to the beloved Goddess of Liberty and the Goddess of Light, to loose their mighty light rays into the causes and cores of all gossip and remove them, cause, effect, record and memory forever! Beloved ones, I tell you that, as an unascended being, I suffered much from that human quality.

As an Ascended Being, I can truthfully say to you that gossip can do more harm than physical murder. As Roger Bacon I was called a “charlatan” and as I walked the streets, women would cover their children’s heads with their aprons, lest my shadow fall upon them. Now, the only thing I was doing in those days, was endeavoring to teach some brilliantly-minded men who had no money. Most of the professors of that day exacted large fees, while I asked for none. I lived on little more than bread, a small sustenance, indeed, and that which I did was quite harmless. However, the fact that I was not living up to the code of the other professors in the school, caused gossip to spread. They thought that, in the little dark room which we used, we were performing feats of “black magic,” when we were studying only geography and calculus.

As Francis Bacon I again took the lash of gossip upon my shoulders but that time voluntarily, to save the face of England’s James, who had conveniently borrowed all of the money from the national exchequer. Even today, on the records of English history, the name of Francis Bacon

is not yet cleared. However, so far as your worlds are concerned and the worlds of all connected in any way with our activity, let no one have anything more to do with this unfortunate human habit!

Now, although there is still much which I could say to you today, let me close with these few words:

You are my dearly beloved children! In you I have invested my very life and my faith that, as I place in your hands the protection and sustenance of the Seventh Ray and its glorious activities (as it takes its dominion here upon Earth), you will all be constant and steadfast in this service, until my beloved Portia and I can stand forth visible and tangible to all. Then the veil of maya will have been forever parted, and we shall be able to take our places as the King and Queen of the New Era of God-freedom, the PERMANENT GOLDEN AGE, which already has been begun with your faith in us and which, I know, you will sustain and expand for Love's sweet sake! Thank you and good morning!

THE MASTERS OF WISDOM SPEAK

THE THREEFOLD FLAME

MAHA CHOHAN

Every so-called "human" being has been endowed by the father-mother God with the priceless gift of creative power, the self-sustained focus of which lives within every "human" heart and, as you know, is known as the immortal Threefold Flame of Eternal Truth. Fully developed, this same power is acting in and through every God-free being for, allowing the expression of complete mastery over all, by the Christ-self, makes one become an Ascended Master!

As has been said, this Holy Christ Self abides within this immortal Threefold Flame, which is held in the chalice of the beating heart of all unascended mankind, where it awaits opportunity to express itself, releasing its particular gifts of perfection for the benefaction of all. We have come now to the hour in planetary and universal progress where the cosmic fiat is the requirement for each such Christ-self to be given full liberty and freedom of expression. We, the Spiritual Hierarchy, truly rejoice in the issuing of this divine edict at this time and, at your call, we shall joyously lend every possible assistance of our individual and collective momentums to the helping of mankind to become Lords of the Flame. This is their divine destiny!

EL MORYA

As our chelas have been told from time to time, every unascended lifestream, during the course of its Earth lives and experiences, has given more liberty and freedom to one of the three aspects of this beloved Threefold Flame than to the other two. In other words, some have developed more of the POWER aspect, some more of WISDOM and some more of LOVE. Thus, no two unascended lifestreams are exactly alike in their expression of this immortal Threefold Flame through the outer form. In the present era, where perfect balance of the emotional, mental, etheric and physical vehicles of all our chelas must be developed, if they are to be of real and constant assistance to us, let each one now avail himself or herself of the instruction and radiation of our beloved Paul and his gracious Brotherhood, especially during this thirty day period, in order for each one to be able to develop the particular virtue of this Threefold Flame, which has not been nourished or allowed to expand up to this time.

KUTHUMI

Primal life-essence is constantly flowing from the individualized I AM Presence of each lifestream, into the immortal Threefold Flame within the heart, while such a one is in physical embodiment. The God-given gift of free-will has allowed those who have used the planet, Earth, as a schoolroom to nurture and develop, as they chose, just one (sometimes two) of the virtues of that Threefold Flame of love, wisdom and power. The fiat of the Cosmic Law already has gone forth for the setting aside of all destructive use of free-will and so we are now gratefully able to proceed with much greater speed, efficacy and freedom, to teach mankind how to release the latent powers within them, as well as balance those which they have already developed.

Unfortunately, in the masses of mankind, the outer consciousness would rather revel in the use of already developed powers, than undertake the more "trying" and arduous task of developing those which have been neglected, sometimes for ages! However, the accomplishments produced by the use of the already-developed powers sometimes tend to inflate the human ego which, of course, results in a lack of balance in the activities and affairs of so many well-meaning people, even at this present hour! "Knowledge becomes power through use." All of the knowledge in the world of form or, for that matter, from our realm as well, will never set any one free unless it is applied! The true teacher (ascended or unascended) encourages his or her student to practically

use the instruction given and, upon the amount of constructive application which is made of such instruction, depends the giving of more knowledge. Ponder on this!

PAUL, THE VENETIAN

How rejoiced are our hearts to have the opportunity to greet beloved chelas at the Chateau de Liberte during this thirty-day period. Be assured that you will be welcomed and instructed by us all, in the most kindly and gracious manner. As the development of the perfect balance of the Threefold Flame in every human heart is our particular reason for being, you can at least partially understand what this opportunity means to us, in this world hour. Let no chela, no matter how apprehensive or unworthy he may feel, neglect this opportunity to come to us here, because often, within the humblest of hearts and the simplest of forms, the greatest light abides. The very quality of true humility (often expressed in the feelings as unworthiness of our assistance and instruction) is the open door to such assistance. It is not the prideful egotist, but the gentle man, who is the hope of the world.

SERAPIS BEY

Invocation of the powers of the sacred fire have been practiced on Earth ever since the time the holy innocents first accepted the hospitality of this planet. After the so-called "fall of man," much of the power of invocation became a travesty of this Sacred Ritual and some of the unfortunate results of this manifest to the present day. Having witnessed this misuse of the true power of invocation from the Lemurian and Atlantean Ages, as well as the destructive activities of the men and women who called themselves priests and priestesses in my beloved Egypt, I am delighted to help, at this time, to restore the power of God-invocation through chelas interested in learning how, impersonally, to undo the terrific chaos created by the willful and rebellious use of this sacred ritual in the past.

Egypt was once a land of great light but, as you know, it has sunk into a land of comparative darkness, due to the nefarious practices of the priests and priestesses referred to above. The whole continent of Africa has reaped the unhappy harvest of the subtle, as well as open, defiance of God's Will. Egypt shall become again a land of great light! Luxor and its priesthood shall expand that light and dissolve, forever, the present humanly-created effluvia, which lies like a heavy fog over Africa, its people and even the nature kingdom!

Those lifestreams now in embodiment on Earth who, in the past, have contributed to the creation and sustaining of this distress, not only have opportunity to participate in Egypt's redemption but, besides, such lifestreams are now required by Cosmic Law so to do! For this the Brotherhood at Luxor and I are grateful, indeed. To this end, I shall seek out, personally, every unascended lifestream, now embodied or otherwise, who had any part in the creations of this distress and charge them with my feelings of loving, joyous enthusiasm to help us in this redemptive process, now. I am determined that my love shall draw these forth and cause them to serve men willingly!

HILARION

Invocation of the God Powers is a true science and must be learned, as is all other science, carefully and methodically. As the primal life essence flows from the I AM Presence of each lifestream into the immortal, victorious Threefold Flame in each physical heart, the Blue Flame qualifies that energy with the power to do practical works in God's name, the Golden Flame illumines the outer mind as to the constructive use of such power and the Pink Flame directs the illumined power, through love, for the benefaction of all life. When only one or two of these activities are developed, the science of God-invocation is not balanced and, without exception, the lifestream endeavoring to so use the powers of Invocation finds himself in distress.

This unfortunate situation has caused many over-zealous people to both invoke and manifest distresses for themselves and others and create, temporarily, the chaos to which our beloved Brother Serapis so forcibly refers. Therefore, all logical minds (which, under the Fifth Ray, are those with whom we deal primarily) will understand that the learning of the science of invocation is essential to redeem personal, continental and planetary karma in this world hour. To this end we, the Brotherhood at Crete, offer our services, grateful, indeed, for the opportunity of helping our beloved brother, the Ascended Master Saint Germain, to create the necessary atmosphere for world wide brotherhood, so long his vision and NOW to become a fact!

JESUS

As at least some of my ministry on Earth, in my final embodiment here, is so well known to many of our gentle readers, I am sure that they will cognize the fact that, in that embodiment, I constantly availed

myself of the power of invocation of divinity, through the use of the name of God "I AM," for the blessing and benediction of the entire human race. Herein was my safeguard, because the invocation of powers less than divine also bring a response from the consciousness so invoked! Intent upon building some manifest expression of their own outer consciousness, for ages of time (and even in this present day), good people sometimes have invoked lesser powers than those of the God-presence and thus have been caught in the meshes of psychic creations.

Now, I offer to all students on the spiritual path, invincible protection from any such further mistake, conscious or unconscious. Always calling FIRST to your own individualized I AM Presence and then using my name, the Ascended Jesus Christ-(which name carries all the fully gathered momentums of perfection of my lifestream) as a preface to any and all God-invocations made by them, will bring God-protection always. For instance, you may say: "In the name of my own beloved I AM Presence and in the name of the Ascended Jesus Christ, I now invoke whatever powers of the sacred fire are needed here and now for the blessing of my fellowman, the dear Earth and my own being and world. Keep these blessings ever-flowing, eternally sustained, all-powerfully active and ever-expanding here!"

We can do no more than offer you our loving, willing and joyous assistance. It is yours to accept or reject, according to your use of your own free-will. Fortunately, I am among the few of the Spiritual Hierarchy most readily accepted as an authority in spiritual matters. For this, I am so grateful!

SAINT GERMAIN

How delighted I am, particularly at this time, to have the services of those dear, unascended lifestreams who are proving themselves to be vitally interested in the making of our planet Earth, "Freedom's Star." Be assured that, at your call, every possible assistance of the Violet Fire Temples and of all of our legions will joyously assist you in the redemption of the destructive karma created in the past by yourselves and others.

Although our beloved brother Serapis seems so fiercely determined in his promise to seek out all who have created temporary chaos upon the planet Earth (especially in the land of Egypt), this very determination on his part is born of his great love and desire for the eternal personal freedom of all who participated in creating the causes and cores of those

distressing conditions which manifest in Africa, today. He knows very well that the more such karma is consciously transmuted by its creators, the greater will be the expanded spiritual light of each lifestream so participating in this service. Ultimately, of course, this will result in the ascension of each such a one.

The subject of invocation is very dear to my heart, as it is my reason for being! I assure you that, on the planet Earth at this time, only the very surface of the magnificent ceremonies and rituals of the TRUE WHITE ORDER have been touched, as yet, by the minds of men. After the complete sublimation and transmutation of the chaos of mankind's destructive activities, which have shrouded the Earth, your hearts will delight in the beauty and perfection of the New Age, which perfection shall take the place of the former unfortunate creations. This New Age is much closer to outer manifestation than your dear hearts realize. Thank you, beloved ones, for persevering in our service—sometimes in the face of almost insurmountable obstacles—continuing in this redemptive process, which is being made manifest in my name. I love you beyond the ken of human mind!

MONTHLY LETTER TO TRANSMISSION FLAME CLASS

July 19, 1958

Beloved Children Of God Who Are So Interested In Externalizing Your Divine Plan While Yet Unascended:

I am so grateful that this heart-desire is now manifesting through you. I cannot too highly recommend to you the priceless assistance of my son, beloved Paul, who, together with his brotherhood, live but to help you to loose the Christ-powers of your very own lifestream, not only for your personal freedom but for the benefaction of this sweet Earth and her evolutions, as well. These Powers have laid dormant for so long, within the immortal Threefold Flame of Eternal Truth, which abides within your beating heart. Many of the earnest students have the WILL (desire) to do God's will, by the loosing of those powers, but know not the WAY to let them manifest! Beloved Paul and his Brotherhood will teach you patiently and kindly if, in all sincerity, you will ask them so to do. Then practically use the suggestions and instructions they give to this end.

Of course, true humility is one of the prime requisites for each chela who asks for the assistance of beloved Paul. Even the slightest bit of self-

ishness of the personality must be transmuted by the aspirant in the use of the Violet Fire before beloved Paul can encourage and accelerate the development of greater latent powers—for only then is it proven that such a one is worthy to use them impersonally, for others.

As the beloved Paul will one day become my successor as the Maha Chohan (Holy Spirit) to all the Earth and her evolutions, there is a special affinity between this blessed Chohan and my humble self.

Both beloved Paul and myself eagerly and hopefully await your coming to this retreat, for we shall enjoy meeting you there while your physical bodies sleep, or as you may care to join us through the marvelous avenue of liberty and freedom—the use of “projected consciousness,” which gift has been given you through grace. Come to us here and let us show you how to loose into practical outer manifestation NOW the dormant Christ-powers of your own lifestream through the outer self and how to sublimate all human and selfish desires.

Love and blessings,
Maha Chohan

Statement for the Transmission Flame Class of July 19, 1958

I AM inbreathing th’ patience and poise of love divine from Paul

**GROUP INSTRUCTION LETTER TO
TRANSMISSION FLAME CLASS**

July 19, 1958

Heart-Friends Of Freedom's Light:

God bless you, every gentle reader, with the fullness of all the power and glory of FREEDOM'S LIGHT—for this God-virtue of Freedom is inherent within all manifest form and is one of the most important of God's gifts to his creation.

"I AM' (is) the light that lighteth every man that cometh into the world," said the beloved Ascended Master Jesus. The focus of that light, in our individual worlds, is the Immortal Threefold Flame of God's Eternal Truth and Reality, anchored right within our beating hearts! Connected to that Threefold Flame in the heart and sustained by the radiating light and love from it, is a tiny "point" of crystal-pure light (let us call it an "electron" in the heart-center of every cell of our bodies.

You will recall that beloved Jesus said: "The light of the body is the eye and, if thine eye be single, thy whole body shall be full of light." The above is the King James translation of this Bible verse, with which translation most of us are familiar. However, our beloved Jesus has told us that the correct translation of that verse, as he gave it originally, should be: "The light of the body is the 'I AM' and if that 'I AM' be the ONE (single) authority in thy body, thy body shall be filled with light. "Did not beloved Jesus prove this, when he was transfigured on the mount and did he not always identify himself COMPLETELY with the Father-especially in his statement, "He that hath seen me hath seen the Father... for the Father and I are ONE!" God is LIGHT, AND LIFE, AND LOVE!

Beloved ones, that LIGHT is also the reality of you and is the FULL AUTHORITY OF PERFECTION over everything human, if the personality consciousness would only accept that truth and surrender to it! This "surrender" (which is so feared by that outer self) is merely the letting go of every human limitation and entering into the God-world of happiness, peace and the abundant supply of every good thing which, we have been told so often, God has prepared for us from the beginning! We once knew and had it all, before the world was!

This God-light is now arising within the innermost being of every sincere lifestream who really wants to live the constructive way of life and wants to serve it to the best of his or her ability. THAT LIGHT IS TAKING ITS DOMINION NOW, in the Earth, on its surface and in its atmosphere. That was its God dominion here in the beginning, before human shadows

manifested their attendant ills and distresses of every kind. "The Light of God NEVER Fails" to fulfill itself and, through divine love, patience, illumination and cosmic Christ merciful forgiveness, will redeem all into God-perfection again. Now, TODAY, is the day of that God-dominion, which is outpicturing more quickly than most realize.

To the end of manifesting Earth's complete freedom more quickly, the daily rhythmic use of the following decree, by our devoted chelas, will be of tremendous assistance as she arises out of everything human into all that is divine, becoming "Freedom's Star" in our solar system.

May we gently suggest that, since at present there are so many more of conscious chelas living on the continents of Europe and North America than there are on the other five continents (South America, Asia, Africa, Australia and Oceania) some of the chelas living either in Europe or America might enjoy giving the selfless service of making the decree first for their own land and then repeat it for one of the other Continents of their choice. As we know, the blessed continents of Asia and Africa are teeming with unascended lifestreams, many of whom need tremendous help to arise out of human limitations and distresses. Recently, too, our beloved Saint Germain has asked for the assistance of as many chelas as would care to do so, to give this assistance to our beloved South America, thus helping to quickly prepare it for the incoming Seventh Root Race, of whom there are so very few in embodiment at this time—so far as we know, not more than two or three.

The Continent of South America will be the land into which the majority of this race will embody, for that Continent is to be the heart center of the Permanent Golden Age on Earth. If there are any who are interested in helping to purify the seven seas also, these are: North Atlantic, South Atlantic, North Pacific, South Pacific, Arctic, Antarctic and Indian Oceans. Remember always, "the call COMPELS the answer," especially when that call is made in the name and Authority of the "I AM," for this is God's very own MOST HOLY name (so said God to Moses long ago) and the CREATIVE WORD of the universe-used by all God-beings even here for that purpose, not just on Earth! (Bible-Gospel of St. John, Chap. I:1--"In the beginning was THE WORD and without THE WORD WAS NOT ANYTHING MADE THAT WAS MADE.")

SUGGESTED DECREE

Beloved Mighty Victorious Presence of God "I AM" in me and beloved Mighty Astrea. LOCK Your Cosmic Circle and Sword of Blue Flame of a thousand Suns in, through and around the cause and core of all destructive etheric records and all destructively qualified thought and feeling forms, in, through and around or driven against the Continent of... its government, and its people, today and forever, as well as the desire and capacity to create any more. Transmute, transmute, transmute them all (3) cause, effect record and memory, before they can act, or manifest.

I consciously accept this done RIGHT NOW with full power!

Grateful for opportunity to serve,

FRANCES K. EKEY

DECREE FOR FREEDOM'S LEGIONS

In the name, love, wisdom, power and authority of my own beloved I AM Presence, the immortal, Victorious Threefold Flame of Eternal Truth within my heart, Holy Christ Selves of all mankind, beloved Saint Germain and Portia and all who serve the Seventh Ray, the Violet Transmuting Flame of Freedom, we decree:

UNIFY us as Freedom's Legions—
Hold us all together. Make and keep us one in purpose
In fair or stormy weather.
Now protect, perfect us,
Supply us with all good, Help us walk in Mastery
As Freedom's Legions should!
Saturate our feeling worlds
With God's forgiving love, Let us radiate the joy
And peace of Comfort's Dove!
Let us humbly work together
In co-operation true, Let us selflessly serve life
As Ascended Masters do!
Charge us with enthusiasm
Freedom's Cause to serve, From the service we have offered
Never let us swerve!
Let the good of our lifestreams
Now be used as part of all that's needed here to form
Blest Morya's Diamond Heart!

THE BRIDGE

TO FREEDOM

**A Monthly Journal Devoted to Individual Unfoldment, Contact
With the Great White Brotherhood and Cooperative World Service**

AUGUST 1958

TO THE BELOVED GOD AND GODDESS MERU, GUARDIANS OF THE FLAME OF GOD-INSPIRED ILLUMINATION

We thank you for your glorious Golden Flame, which flows so freely from your hearts, as a constant benediction into the outer consciousness of those on Earth who are willing to receive it and who consciously prepare themselves so to do.

Through self-conscious endeavor, chelas prepare themselves to receive your gift of illumination, with the full, conscious knowledge that such illumination will not only shed its blazing light upon their individual paths, but will also reveal to them whatever human shadows are still abiding in their worlds. Such imperfections, if allowed to remain, will delay their progress toward personal and collective self-mastery.

To our dear chelas who desire the assistance of this flame, we say, particularly during this thirty-day period, open the doors and windows of your souls to these cosmic rays of illumination. Honestly ask that flame to reveal to you TRUTH concerning the self-created imperfection which yet abides in your worlds. Then make earnest and persistent application with the Violet Fire to purify all that is not of God.

The golden plume of the immortal Threefold Flame within your hearts IS the Illumination Flame and I decree that this golden flame shall now ARISE and EXPAND through the brain structure and four lower bodies of everyone desiring to do God's Holy Will on Earth. Let this flame fully awaken the dormant Christus within you and allow it to express the fullness of itself through your personality. This will allow your own beloved I AM Presence to practically contribute to the permanent Golden Age, that which you alone can give. So be it!

Thomas Printz

The Homes and Retreats of The Masters of Wisdom
TEMPLE OF ILLUMINATION, NEAR LAKE TITICACA,
SOUTH AMERICA
(August 15th through September 14th, 1958)

The Temple of Illumination, situated high in the Andes Mountains in South America, is one of the two greatest foci of Light upon the planet Earth today. As most of you know, here is focused the Feminine Ray, sustained and protected by the beloved God and Goddess Meru, whereas the Masculine Ray (heretofore so active for so long) is focused in the Himalaya Mountains, sustained and protected there by the beloved God Himalaya.

These two rays form the actual axis of the Earth, entering the body of the Earth at the points of their respective foci. These rays are that around which the Seven Mighty Elohim of Creation builded the planet Earth in the beginning and, where these two rays meet in the center of the Earth, there is located the planetary immortal victorious Three Fold Flame of Eternal Truth. This is the actual centripetal force within the Earth which, by the magnetic power of divine love, holds together the elements which make up the Earth and holds all her attendant evolutions within her, on her surface or in her atmosphere.

For many centuries, the Masculine Ray was the predominant focus of wisdom upon the Earth, drawing to it many earnest and sincere seekers after Truth. To reach the retreat of beloved God Himalaya in days past, the chela had to travel through many dangerous mountain passes in the Himalaya Range. Within their hearts, such earnest ones had the sincere hope that, in this retreat, they would find a teacher (ascended or unascended) who could, and would, help them to find that which would set them free from all human limitation. Now, as the Earth is entering the Permanent Golden Age, under the direction of the Ascended Master Saint Germain, the feminine Ray in the Andes Mountains becomes the predominant focus for such wisdom.

Gradually, it will be more and more noticeable that the spiritual aspirants will turn their attention to the Andes Mountains, rather than to the Himalayas. Thus will be born the new spiritual impetus, coupled with the physical presence of such aspirants as are able, and worthy, to be the spiritual pioneers, to create again an actual Garden of Eden in South America. Here the beloved Great Divine Director soon will be able to allow the members of the Seventh Root Race to embody (that race of which he is the Manu, i.e., spiritual guide, teacher and protector) and,

eventually, as this perfection, so created here, expands, it will externalize the full perfection of heaven on Earth.

In the New Era, through the avenue of developed, protected and guided projected consciousness, it is not required of our chelas today to make the arduous physical journey to South America in order to receive the practical blessings of this retreat. With the expenditure of a little of their personal energies, coupled with the concentration of their attention upon the Temple of Illumination, the chelas are now able to visit this holy retreat IN CONSCIOUSNESS, sit at the feet of the God and Goddess Meru, receive there the priceless instruction from these divine beings and, returning to their own spheres of influence, expand God-illumination to others through their own auras.

Ponder in gratitude upon the great dispensation which allows you so to visit this focus of God-illumination and remember daily to give thanks to the beloved Maha Chohan who, through his own personal intervention on behalf of the recalcitrant human race, secured permission from the Great Cosmic Law to allow certain unascended beings, who are vitally interested in serving our cause, to enter these glorious Ascended Master retreats through projected consciousness.

Like so many of the Ascended Master retreats of light, the focus of the God and Goddess Meru is located high in the Andes Mountains, near Lake Titicaca. This isolated location is chosen so that the idly curious travelers, as well as the spiritual dilettantes, cannot intrude upon its holy presence. Thus, the Brotherhood of Illumination continue to radiate forth the Illumination Flame for the benefaction of the entire human race, undisturbed by the violent and uncontrolled emotions of the people who use the Earth as a temporary schoolroom wherein they learn the self-conscious control of energy and vibration.

Remember always that, by the natural magnetic power of their divine love and perfection, the Ascended host always draw the consciousness of mankind upward toward their heights. However, true God-illumination never at any time, inflates the ego of the outer personality but, conversely, creates, in the chela, a consciousness of ever-increasing humility towards his own individualized I AM Presence and the great Universal I AM Presence, as well as the Divine Beings who serve it, assisting it in its endeavors to bring the redemption of misqualified energies to Earth's evolutions.

The God and Goddess Meru, their entire Brotherhood of Illumination, as well as our beloved Lady Master Nada (for many centuries one of their

well-known messengers), lovingly welcome into their retreat all sincere chelas who are deeply interested in the impersonal development of the greater and greater God-illumination, which such chelas may then use to serve their fellowmen—such chelas not being interested in just the accretion of personal knowledge. Here these chelas are carefully instructed, guided and protected in their earnest endeavors to develop, from within themselves, the Illumination Flame, with its attendant virtues of discrimination, discretion, diplomacy and wisdom, for the greatest possible benefaction of the entire human race.

The Illumination Flame is completely impersonal! Its service is to bring the perfection of the light of God into the outer consciousness of mankind and it acts like the physical sun in this respect—shining upon the just and unjust alike. As we have told you often, EVERY BLESSING GIVEN TO A CHELA BY THE SPIRITUAL HIERARCHY REQUIRES, IN BALANCE, SOME EXPANSION OF GOD'S DIVINE PLAN OF PERFECTION TO BE MADE MANIFEST THROUGH THE CONSCIOUS ENDEAVORS OF THE CHELA SO BLESSED. This is Cosmic Law, under which we ALL serve!

A period of personal introspection and honest measurement by each aspirant into the MOTIVE behind his or her desire to acquire more wisdom (which is the RIGHT USE OF KNOWLEDGE), will bear fruit in the development of an honesty of purpose, which precedes the release of more spiritual blessings. Therefore, I say to those beloved chelas who desire to secure more illumination upon their paths, prepare yourselves in humility to enter into the Temple of Illumination!

If you visit the retreat at night, while your physical body sleeps, ask the beloved Lady Master Leto to help you remember clearly, in your brain consciousness, where you were and what you learned there. Beloved Leto is so well prepared to render this service and she is so joyously willing to give it, too. Then, as you return in consciousness to your physical form in the morning, upon awakening expect to remember and wisely endeavor to use the instruction received. Thus do you qualify to receive more and more of the blessings of God-illumination. I am sincerely hoping for, and really expecting this loving cooperation from each of you. The Temple of Illumination has been described in detail in “The Bridge,” in previous issues.

Yours in the cosmic redemption of the Earth and its evolutions, I am
El Morya.

THE FEELING OF GOD-PEACE
Address By Beloved Gautama
On The Anniversary Of His "Day Of Enlightenment"

Today I bring to you that gift which is mine to give, my feeling of God-peace, which is the divine heritage of every lifestream when, by the conscious outpouring of divine love, he or she has overcome every externalized appearance of imperfection, as well as having dissolved the far more insidious causes and cores of distress which live within the "many selves" of his/her own human nature.

Beloved ones, I am grateful to have the opportunity today to speak to those lifestreams on Earth who are dedicated to expanding the Light and who wish to be a living, vibrant part of the dawning Age of Freedom, which is under the direction of our beloved Ascended Master Saint Germain. I am grateful to have the loving cooperation of your life, understanding and willingness to accept and assimilate knowledge which has been buried far too long in the Lamaseries of the East. It is so gratifying to me to know that the release of my consciousness to the people of Earth is no longer confined to the few short lines of instruction which I gave on that day of my illumination, when I returned from my endeavors of seven long years, spent in my sincere search for God-truth-the Heart of the Silence.

The masses of mankind enjoy glamour and the excitement of the unusual. They also enjoy the feeling of security which they have, when they can look backward to their teacher, who is safely beyond the veil of so-called "death" and (they think) cannot then confute whatsoever translation has been made of the instruction originally given by that teacher. My teachings have been no exception to this, nor have those of the beloved Jesus, or any of the divine beings who taught here while in an unascended body, to a kindly, but not always too alert, group of people.

In regard to those comparatively few words of mine, which have been immortalized and which form the actual text as it appears in English today, those words state the truth concerning THE MIDDLE WAY, and practicing this enables one always to walk in the perfect balance of life. I am grateful, too, to know that they are so little discolored by human concepts. However, I am far more grateful, as is every one of the Spiritual Hierarchy presently under my direction, that you do not delegate us only to the days of past glory, but allow us to come now and again to you, keeping up with the times and yet elaborating upon the eternal verities for your enlightenment. Some of these truths which have been given

in the past, have lost much in essence and much in accuracy through translation, due to the lack of complete comprehension by those kindly men and women who, for posterity, endeavor to record and translate the teachings of truth from those of us who, from time to time, came forth upon the screen of life as the particular light of an era.

Gautama's Spiritual Awakening

I am sure that most of you know that, in my early years (in my final embodiment here), I lived in an environment and atmosphere of quiet and beauty, provided for me by the loving solicitude of my (physical) father who, at that time, reigned as a king in India. I was educated in my father's palace and, in the gardens which surrounded it, there were only the most perfect manifestations of the nature kingdom—vegetation, animal and bird life—and only the most perfect of the men and women of India were allowed to serve me. The children who came to play with me were picked from the finest of the families at Court and, before they came into my presence, they were trained to refrain from allowing me to learn of the conditions in the world outside those garden gates.

Not knowing otherwise, I believed that such perfection as I enjoyed, was manifest also in the whole world, even outside the gardens of the palace. That was a false Eden. However, one day through a careless remark from one who was serving me, I suddenly learned that outside of my world, all over India, there were conditions manifesting of starvation, disintegration, decay, death and chaos of every description. I can tell you that then my consciousness was sorely shaken at such a revelation. Of course, in my last embodiment here, I was born without any destructive karma and with very alert outer senses as was the beloved Jesus. Therefore, pondering upon these conditions of distress, which I had just learned existed in the world, I could not believe that such was the Will of God for his beloved creation. Then and there I determined to do whatever I could to remedy these conditions.

At the same time, I began to feel the pressure from my Holy Christ Self within, its desire to have me fulfill my divine plan and reason for being. I then made my first renunciation, that of my father's name, throne and the security of temporal power. I also left my own beloved wife and baby son, going alone into the heart of the forest, there to try to find the divine way to control my own energies and to find God-truth. To do this, I had to sustain a physical vehicle during the entire seven-year period while I persistently directed my consciousness up through the psychic

realm which surrounded the Earth at that time, (much less purified than it is today—I can tell you!) Then I continued to ascend in consciousness up through the divine realms of perfection.

In the lower realms I heard the many voices there, some good and some evil. I also had the same temptation that every unascended being has, at one time or another, to relinquish this self-imposed task and return to a throne of temporal power. However, through the radiation (particularly) of the beloved Archangel Raphael, I was sustained in my quest for TRUTH and my physical body did remain in the heart of the forest, while my consciousness proceeded onward and upward into Light.

Through the loving direction of the blessed Pallas Athena (Goddess of Truth to this Earth) and many others of the Cosmic and Ascended Beings who were assisting me, I did so proceed up through the Seven Spheres of perfected consciousness until that glorious, wonderful day, when I personally stood in the effulgent glory of the Godhead of this system of worlds, beloved Helios (whose cosmic service is illumination) and Vesta, his divine complement (who represents the Goddess of Truth to our entire system and whose cosmic service is the holding of the immaculate concept and the releasing of God-truth to all in our system). There I saw and knew the eternal truth that God is good, that his desire for all his creation is good and the truth as recorded in your Bibles of today, “(human) eye hath not seen, (human) ear hath not heard, neither hath it entered into the heart of man ... the glories which God hath prepared for them that love him. “I knew then that all these distressing appearances of desolation and imperfection, which were manifest upon this Earth and its evolutions, WERE NOT GOD'S WILL, NOR ACCORDING TO HIS DIVINE PLAN!

Gautama's Use Of "Projected Consciousness"

Now, this process by which I made these various trips was “projected consciousness,” the very same process which you have been taught to use today. My physical form was seated beneath a tree in the forest, of course quite wasted because of the lack of rhythmic intake of food and drink, as well as from lack of exercise for, remember, my search for ultimate truth lasted for seven long years and my body stayed in the forest all of that time. However, that body was sustained, in part at least, by gifts of food and drink from passing travelers, who saw it seated there. When the vital energies of my body would get too low, those divine beings who were assisting me, would have me return to that body and par-

take of the food and drink which had been provided. Thus, I could resuscitate that body enough so that I could journey farther in "projected consciousness."

Never, never, never shall I forget my feelings of joy at seeing the beauty and perfection in those seven spheres. To be successful in such a venture as I had undertaken, one must be altogether one pointed in consciousness, invincibly determined to accept or stop at nothing short of the attainment of one's ultimate goal, no matter how magnificent or attractive other distractions might be to his consciousness. In this connection, let me tell you that just being able to witness the perfection in any one of the seven spheres would be quite enough to divert one's attention and determination to progress further!

As I have told you, as I began my search for truth and directed my consciousness to the divine realms, first I had to pass safely through the astral or psychic plane which surrounds the Earth, at least for some ten thousand feet around it! Then, as I began to enter the divine realms, I entered first the Seventh Sphere, that presided over by the beloved Ascended Master Saint Germain. As has been explained to you in previous issues of "The Bridge," every lifestream originally came forth from the heart of the Godhead and by self-conscious choice decided to take the journey through those seven spheres of divinity. So, having passed first through the First Sphere and on through the seventh, when one returns to the "Father's House" he must, of necessity, proceed through the Seventh Sphere first as the spheres would be traversed in the reverse order from one's "coming out" from the Godhead. Do you see?

Beloved ones, the beauty and perfection of those magnificent Violet Fire temples, angels and majestic ceremonials of the Seventh Sphere might easily hold the attention of the most earnest seeking soul, more particularly so because this is the first contact with the perfection of the seven divine spheres which one contacts, on such an upward journey.

Next came the glory of the Sixth Sphere (activities of Ministration and Peace). Here I had a great test, as my heart was that of the missionary and my desire was to minister unto the people. In this sphere I saw the great angels and activities of ministration in action, releasing the mighty healing rays, blessings and assistance of every description to every one on Earth who so required such help. Here, I must confess that I thought: "Yes, this is my place." Yet, within me something kept saying: "On, on and on to the HEART of Truth!"

Then, as I entered the Fifth Sphere wherein abides the Flame of

God-Truth, I thought: "Here is the truth I desire and this is the sphere in which I shall dwell! I shall learn all that is herein and take it back to men." Again something within my heart urged me on, and I entered the Fourth Sphere.

In this Fourth Sphere of God-purity, I witnessed the magnificent Cosmic Beings, Ascended Masters, seraphim, cherubim and Angels of Purity in action and, as such perfection was made manifest right before me, I experienced again my personal conviction that, THAT sphere must be the Ultimate! However, I was assured, from within, that this was not so, the "voice within" still urging me on.

Then on this upward-reaching journey, as I passed into the Third Sphere, I found it to be that of the most powerful divine love, that divine love which is, of course, the true nature of the Godhead itself, as well as of myself and of every lifestream which God has created, that divine love which all were, and knew, and had with the Father "before the world was!" Here I thought: "Now, truly is divine love the ultimate!" But here, again, something within me said: "Press on!"

On I went into the Second Sphere, where the Ascended Master teachers and educators work and here again I must confess I did pause briefly. You see, teaching long had been my profession. I visited there the temples and listened well to the Great Ones, who were preparing instruction and various assistance for the religions accepted and served by the various peoples of Earth. I thought here: "Perhaps this is my place and I have found it at last!" However, still something within me said: "No, still proceed!"

Then, after having passed through the realm of the teachers, I finally moved on into the First Sphere, the Sphere of Ideation, where the Blue Flame and Ray of Power are created and released. Here, in the tremendous speed and power of activity which takes place constantly, as I entered into this accelerated consciousness, at first I thought I had "overshot my mark" and felt, that perhaps I should have stayed in the Third Sphere of divine love. In this First Sphere it was not so easy to hold my consciousness steady in this accelerated movement of energy. There the Mighty Hercules and Amazon (Elohim of the First Ray and his divine complement) and others of those who serve on this ray, were speeding back and forth in service so fast, that it was difficult for me to know just what they were doing at the moment. Yet, the light within me said: "If you will yet press on through this sphere, YOU SHALL FIND TRUTH!"

So, garnering up all my spiritual strength, in as much dignity as I

could, in the presence of the constantly flashing fire of beloved Hercules, Amazon, Archangel Michael and the Mighty Morya, I went on.

Finally, as I have told you before, I came into the heavenly presence of our Father-Mother God! So brilliant was their light, so loving were their hearts, so magnificent was their peace and their power, that I could but prostrate myself before them. Then, in that tremendous, loving graciousness which is theirs, they bid me arise and, giving me their personal blessings as well as the blessing of those of their entire sphere, they allowed me full freedom to enjoy the wonders of perfection to be experienced there. In this heart of the Godhead I enjoyed the feeling of oneness with my creator, just as you will one day do, when you have finished your course and, in the victory of your ascension, become one forever with your own Electronic Presence "I AM." However, in your case, you will have permanently arrived at your eternal home—"to go out no more!"

Do you know, lovely ones, that when I finally decided to leave those glorious God-parents to bring back to men the truths I had found there, that renunciation was much harder to make than the one of leaving my physical father's court, for I had reached my goal, the heart of truth, for which I had been seeking so long. There, with my magnificent God-parents, I was living in the heart of love and peace with my divine parents who, in the very beginning of my individualization as a self-conscious being, had created my spirit, not my flesh!

Eventually, however, the presence of the feeling that it was necessary for me to fulfill my own divine plan, and the loving assistance of my Guru to such fulfillment, impressed upon me the fact that just the enjoyment of Nirvana was not my task! That "task" (the fulfillment of my divine plan), was to bring the truth and glory of Nirvana back through the seven spheres to the worlds of men. To do this, I had to re-animate that emaciated physical form and, resuscitating it, use it to move among mankind, bringing truth first to India, where I was living on Earth at that time. Through India, it had been hoped, by the Spiritual Hierarchy that this truth might be consciously expanded to all the world. Thus, I made this final renunciation gladly too, dear friends. I made it not only for myself, but for you and all mankind, as well. In the last analysis, when all these outer enjoyments have been experienced, everyone finally realizes that there is no genuine or permanent joy except that of doing God's Will!

So back I came to Earth, through all the seven spheres again, this

time not stopping long anywhere on this return journey, lest I lose even a very small part of the virtue and enthusiasm to move forward the activities which would fulfill my divine plan here. I came back into that blessed physical form, rhythmically charging it with energy from above and, as soon as I was able to use it, began to move about among the people. Then began my real pilgrimage upon Earth, the sweet and lasting association with Ananda (formerly in embodiment as Moses) and the gathering together of my disciples, whom I taught as best I could, enabling them to go forth and spread, abroad, my message in God's name.

Unfortunately, however, from the invisible astral plane which surrounded the Earth then and where there were certain mass momentums and creations of discord gathered (especially in that part of the world) that "force" would not allow the light which we had brought to India to spread to the rest of the world. Finally, when my own divine plan had been fulfilled and the time for that Earth-life here had been spent, I asked the Great Cosmic Law to allow me to return into the atmosphere of Earth at least once each year at what is now known as the "Wesak Festival," in order to expand the illumination, enthusiasm as well as the physical and spiritual energies of those who serve my cause, even today. Then, I rejoice to say, that a very lovely and humble princess (known today as the Ascended Lady Master Kwan Yin, Goddess of Mercy), carried the truth of my teachings into China and, whereas India renounced those teachings for a long time, China held the faith!

Accepting Gautama's Feeling Of Peace

Beloved ones, will you please try to remember and hold the feeling (for at least twenty-four hours from now) this radiation of peace, which I am giving you today (and, of course, shall give to all who read my words). Remember always, too, that I love you, love you, love you, and, if you seek the peace and comfort of pure divine love and find it not in human beings, may I humbly offer you my feeling, substance and energy of my peace, which is MY GOD-GIFT TO MAN! Remember, I am your eternal friend and I joyously await your conscious entrance into our realm, in the victory of your ascension.

My dearly beloved ones! If you only knew just how important is the drawing, sustaining and expanding of the feelings of true peace! It is much more important than the obtaining and using of money (to which the outer consciousness attaches such supreme importance!), it is more important than almost anything which the outer consciousness considers

of value for, in true peace do the healing currents freely flow, in true peace you are able to understand clearly what the divine beings desire you to do and have done, in true peace your own Holy Christ Self has opportunity to direct that outer consciousness. Do you know that in TRUE PEACE just seven men or seven women (or a harmonious co-operative group composed of both) could create and sustain a temple, wherein the healing of any lifestream could be accomplished without any one of those seven speaking even one audible word? This peace of which I speak is not surface peace! It is the peace of which beloved Jesus spoke, when he said that it surpassed the understanding of the outer mind. It is the peace which comes when you have found your real self, the peace that comes when you know that god's will is good for you and for all, the peace that comes when you are willing to renounce that which is dearest to you, in favor of God's Will being done. From personal experience, I can tell you that, in renouncing my physical father's name and throne, as well as my lovely wife and baby son, I really found them and my wife and son later became two of my most earnest and loyal disciples in helping to spread THE WORD!

In having renounced the joy of living in the realm of great perfection, wherein dwell the Father-Mother God, I found on Earth the God-presence in the heart of every simple peasant, in every blade of grass and in every living thing. These God-parents are the Creators of all and their light and love interpenetrate all. So, I found that renunciation brings its own reward. That which you renounce in God's name and for his service, is returned to you as a permanent blessing of good, Believe me, beloved ones-believe me!

Now, like many others, the doctrine of renunciation has been distorted into meaning that one should take the vow of absolute poverty. This is not god's will! My teaching is that of learning personal detachment from persons, places, conditions and things, giving no power to hurt or distress to anything external. However, this does not mean that one lacks in the feeling of divine love and blessing for and to all, nor that one should deliberately live in foolish poverty, experiencing the lack of any good thing which, if he had that good to use, would enable him to fulfill his divine plan much more easily, quickly and perfectly.

Now, I have radiated into your worlds the actual substance and qualified energy of my feelings of god-peace. let it anchor in, through and around all your four lower bodies today, there to be eternally sustained, all-powerfully active and ever expanding. May the God-reality of my very presence ever be made manifest everywhere you move, through the ra-

diation of your own dear selves and auras. Thank you and good morning!

THE MASTERS OF WISDOM SPEAK
THE DEVELOPMENT OF PERSONAL GOD-ILLUMINATION

MAHA CHOCHAN

God-illumination is one of the most priceless gifts given by our loving Creator to every self-conscious intelligence, at the time when individualization of each lifestream first takes place and the immortal, victorious Threefold flame of God is projected forth from the Father-Mother God. This flame (which is the heart of being), is blue on the left, gold in the center and pink on the right. As we are concentrating this month upon the development and expansion of the Golden Flame of Illumination, I implore you to develop the expansion of this Golden Flame within you, with the assistance of the God and Goddess Meru and the Brotherhood of Illumination at their retreat.

For this thirty-day period, these great beings are lovingly offering each dear and earnest chela the services of a personal sponsor, a lovely Lady of Light from their retreat, who will be in attendance upon you for the entire twenty-four hour period of each day. If you will accept her presence, at your call she will help you to successfully perform your chosen God-service, as well as give you the assistance of her light, to illumine your own individual way.

Beloved ones, believe me when I say that LIGHT IS INSTANTLY OBE-DIENT TO YOUR CALLS! Invoke its limitless power and powers, right here and now, through your outer selves and practically experience its immediate and joyous response to your every call. It will act in, through and around you, setting you free forever from any and all temporary shadows, either of your own making, or those which you may have accepted from others. Of course, you can give a tremendous service to your fellowman by calling it forth to free others, too.

EL MORYA

Unascended beings, in the deep recesses of their souls, often do not really desire God-light to illumine themselves or others. Today, the Cosmic Law has issued the fiat to the Earth and all her evolutions that they must contribute more light to this universe and to the entire galaxy, as well. No lifestream can refuse, permanently, to give obedience to this fiat and remain as a guest upon the planet Earth, or in her atmosphere.

Sufficient loving, willing obedience to this cosmic fiat, by those evolving upon the Earth at this time, could and would avoid many of the distresses which otherwise may have to externalize here in the world of form, until all life, of necessity, will desire to cooperate in this universal endeavor to make Earth a shining star!

Tremendously forceful though my energies may seem to be to some unascended beings who, as yet, are not spiritually cognizant of my real love for this sweet Earth and her attendant evolutions, let the gentle reader be assured that the pressure of such energies, which are mine to contribute toward the establishment of God's Holy Will on Earth, are motivated only by a wholly divine desire to help each intelligent being to expand his or her own light, thus creating beauty and perfection in the Earth, upon its surface and in its atmosphere. After all, should not one naturally expect more powerful energies from the First Sphere, where I abide and from which I release the energies of the First Ray, since they are those of the pure power of divine love, and proceed directly from the heart of the Godhead itself.

You know that it takes tremendously harnessed and consciously directed, intelligent energies to light a whole metropolis here-even by artificial means (electric power). So does it require a tremendous pressure of concentrated and consciously directed God-energy to help free the imprisoned life (human and elemental) which make up all of Earth's evolutions, thus allowing it to quickly release its own, natural light. To love life free from that which is not now and never was God's Will for it, is my reason for being. So, of course, I cannot be disturbed in any way by the human opinions of those who, not completely understanding, might feel inclined, sometimes, to disapprove of my endeavors to direct the pressure of God's Will to assist them in the expanding of their own God-light.

Light shall be released to and through this earth now, by the natural "conductors" of that light here, i.e., those lifestreams who have been using the Earth as a planetary home for centuries! Artificial conductors of light have been a great blessing to mankind all through the ages, but

now we enter the day when every man, woman and child shall be called upon to contribute his or her own personal light to the Light of the world! Be ready! Prepare yourselves to be light-bearers now! You know that one becomes such a light-bearer by the expansion and practical daily use of the God-virtues from within his own lifestream. At your conscious call, we shall joyously help you! Surely you know that we have no desire to press you into making endeavor beyond your capacities, but we see so clearly your potential worth as light-bearers and we want you to experience the joy, right here on Earth, of being a conscious part of the expansion of the Light of the World!

KUTHUMI

True God-illumination is, of course, the gift of the brothers and sisters of the Golden Robe, who serve on the Second Ray. Many are the pitfalls of human delusion into which earnest chelas sometimes stray, in their search for knowledge and illumination upon mystical subjects, if they do not have the constant God-protection and guidance of the Ascended Masters. Their sole interest is in awakening and expanding the dormant powers of Divinity through the Holy Christ Self of every unascended lifestream. This God-protection and guidance is the conscious radiation of the Ascended Master, which radiation enfolds the earnest aspirant in divine love and protects him (or her) from both visible and invisible destructive forces which would tend to lead such a one from the true path toward God-mastery.

Students who have attained a little knowledge of mystical practices are often inclined to more and more, ignore the loving protection of the Ascended Masters by neglecting to daily call for such protection and “go off alone,” experimenting with the knowledge which they have intellectually stored within their own brain consciousness. Such independent experimentations so often result in enmeshing the soul and personality in various strata of the psychic and astral realms, linking such lifestreams with wholly undesirable “entities” (destructively qualified thought and feeling forms). These creations are often “mass entities,” which abide, particularly over heavily populated areas and live by a vampire activity upon the energies of embodied lifestreams endeavoring thus to express themselves on Earth. The astral or psychic plane surrounding the Earth (where these creations abide) is now steadily being purified but until this is completely done, every lifestream sincerely seeking to serve the constructive way of life needs tremendous protection against even the radiation of these creations.

At this time, too, there are also mischievous elementals who, unfortunately, have absorbed much of mankind's discordant vibrations and these, too, often influence certain individuals to do their will. You see, these discordant activities connect with a lifestream through the power of attention, invocation and, sometimes, a similarity of vibration somewhere in the world of the receiver of their messages. When these creations are allowed to act through their "mediums," they eventually do great harm to such individuals, as well as to the entire sphere of influence which the "medium" has created about him.

Calling to any Cosmic being, Archangel (especially the beloved Archangel Michael), cherubim, angel or to any Ascended Master for constant protection against such insidious influences will bring immediate and quite satisfactory results. As this calling to such a Divine Being is wholly a free-will process, it cannot be forced upon any searcher after truth. Besides the above, there is also the unredeemed karma of the personality and the soul to be considered. This often desires expression and to the unwary, these "many voices" which they hear (that seem to come from God), are merely the pressures of the accumulated energies of the outer self, which want to continue to dominate the soul and restrain the spirit. Absolute honesty on the part of the chela is essential, to achieve the spirit of grace, which enables him to cognize and obey the "still, small voice within," which, of course, is the spirit of God acting through the Golden Flame of Illumination, right within one's own beating heart.

We are so willing and able to help any and all chelas who really desire to avoid such pitfalls (subtle or flagrantly apparent), by the giving of our advice, instruction and protecting radiation. We are willing to help you to rise emotionally, mentally, etherically and physically above all vibrations of a discordant nature and prepare yourselves to visit with, and enjoy the actual presence of the God and Goddess Meru! When you have had such an experience even once, no fraudulent energies will be able, even for an instant, to touch the hem of your spiritual vestments (purified aura). It is well worth your constant endeavor to persevere to this end!

PAUL, THE VENETIAN

As our gentle readers so well know, the service of our Brotherhood is to expand the immortal, victorious Threefold Flame of God's Eternal Truth through every individual belonging to Earth's evolutions, still unascended. This flame is held within the chalice of every beating heart and the Holy Christ Self, which lives within that flame, is now destined to

burst the tomb of the human creations which have limited it for centuries, allowing it now to become the divine, directing intelligence of all personalities on Earth. Thus, quickly, we shall see manifest the Permanent Golden Age on Earth. The activity of our Brotherhood is to pour the pressures of our feelings of divine love upon the Christus in every "human" heart, until those very pressures set that Christ-self free!

Through the gracious invitation of the God and Goddess Meru, to visit their Temple of Illumination in consciousness during this thirty-day period, every blessed chela will have added opportunity, now, to expand the golden plume of the Threefold Flame within his own heart and thus balance, more quickly, the triple activity of divine love, wisdom and power through them for the benefaction of themselves and the entire human race.

SERAPIS BEY

At Luxor, from time to time all through the ages, we have been approached by many lifestreams who sought spiritual knowledge which they could use for personal gain. However, the divine law is such that, as each morsel of true spiritual knowledge is released to any individual, careful measure of what such an individual does with the knowledge so given, must be recorded on their book of progress. This recording determines how much energy, instruction, radiation and grace can be given by Cosmic Law to such a one. Thus, the aspirant, himself, not the Ascended Master or Guru, really keeps the door open to a continued steady flow of the God-given directives of the Spiritual Hierarchy, or conversely, closes that door, by the lack of that one's impersonal use of the knowledge which he has received for the benefaction of the entire race.

Those, who have selfish motives behind their desire to pierce through into the mysteries of spiritual science, automatically disqualify themselves to receive more of the deeper aspects of truth. Such individuals, oft-times, are not even cognizant that they have temporarily closed the door to the greater reception of those truths which, if practiced, would result in their personal self-mastery and, ultimately, their ascension into the realm where we abide!

HILARION

As it has been my great joy to be among those who endeavor to teach individuals the science of self-mastery, I cannot overemphasize the necessity for the earnest student to develop, from within himself, true God-illumination, as differentiated from intellectual accretion, which merely overfills the brain consciousness and inflates the personal ego.

God-illumination always manifests as true humility, wisdom, selflessness and impersonal consecration to the service of that particular constructive line of endeavor upon which the individual has volunteered, thus externalizing, in manifest works well done, his particular portion of the divine plan. Whatever avenue of service to which you have consecrated your life energies, this can best be developed and expanded (particularly during this thirty-day period) by making good use of your opportunity to enjoy closer proximity to the Illumination Flame, by giving it your rhythmic attention for a few minutes, each day, for this purpose. Such a practice will allow this glorious flame to widen and enrich your abilities to serve your fellowman with greater blessing.

JESUS

Recently, through the loving kindness of the Cosmic Law, both beloved Kuthumi and myself have been elevated to the office as World Teacher. We have now have the great privilege, as well as responsibility, of endeavoring to perform the services previously given with such God-perfection by our great teacher, Lord Maitreya.

The lovely Lady Master Nada has kindly and graciously offered to accept the Chohanship of the Sixth Ray, which I formerly held. Therefore, in the succeeding issues of "The Bridge," she will give to you her instruction on the activities of the Sixth Ray. I would like here to thank, personally, the beloved Lady Master Nada for her gracious acceptance of this office, for her acceptance thereof has allowed me the fuller freedom to utilize my energies in the preparation necessary to act as a world teacher for this dear Earth and her attendant evolutions.

LADY MASTER NADA

It is with great gratitude and joy that all members of the Ascended Host of Light accept any spiritual office offered them by the Cosmic Law, as opportunity for greater service to all life. Therefore, in all humility, I have offered to the Great Karmic Board, those energies which are mine,

to be utilized in expanding the loving ministration so beautifully expressed and freely given by my illustrious predecessor, our Brother Jesus.

Having had the splendid training and experience of living in spiritual communities before my ascension and, under the direction of the beloved Archaii Charity, I learned to consciously bring into being, maintain and expand sustained harmony through the radiation of pure divine love! Now, I offer the full-gathered momentums of my lifestream to any and all of the brave chelas who, today, form the focal point of the spiritual energies which are being channeled through them, for the benefaction of all the members of such communities or groups. Those who can accept this specific service, which I can give (because of my having developed them through many centuries), will find it a great deal easier to transmute into light the many hidden, as well as apparent, imperfections which may be in the members of such communities or groups.

My offer particularly applies to the beloved sanctuary and group directors, who voluntarily take on the responsibility of assisting in the transmuting of yet-not-atoned-for destructive karma of those who are drawn about them, to magnetize some specific virtue of the Godhead, then releasing and expanding that virtue in this world of form for the blessing of all. Of course, the director of the community or group is God-inspired as to which particular virtue is to be magnetized at certain points on the Earth's surface, where such groups are located. Those who are attracted to such a director already have builded into their causal bodies certain related virtues, to enrich the entire activity.

Beloved ones, remember always that the actual ray and flame magnetized through your spiritual director are augmented in power and efficacy by the release of the energies from the members of the particular group or community. Where one or more members of such a community attempt to dominate or interfere with the harmonious directing of the actual ray and flame as magnetized by such director, rather than to impersonally contribute to its efficacy, by holding to a single purpose and design, there is bound to be temporary conflict and disharmony. Individuals who find themselves out of harmony with their sanctuary or group director, will wisely and quickly transmute that desire for self-expression, to protect the individual and collective harmony of the entire unit, or, if they so desire, they may call on the Illumination Flame to place them in some other group or community, wherein their energies will be able to express themselves constructively and in loving co-operation with others.

As you know, at the invitation of the beloved Serapis Bey at Luxor, I

served there for some time as a harmonizing presence among those hopeful aspirants, in his magnificent temples. I bear witness to the fact that, through endeavor of human will and certain spiritual arrogance, many desired to complete the rigorous course of self-discipline at Luxor, wherein they suffered undue hardships, because they were not willing to transmute their own human nature. Had these good people followed a less arduous discipline, in another retreat, they would have been happier in themselves and, too, would have lessened the pressures and strain upon the qualified aspirants!

(Lady Master Nada made her ascension more than 2,700 years ago!)

SAINT GERMAIN

I personally bless the Great God and Goddess Meru, the Illumination Flame and its sincere and devoted Brotherhood, for sustaining this cosmic focus of light upon the Earth and in its atmosphere. Full freedom for the individual, the family, the nation and the planet depends upon God-illumination. My cause, of course, is that which will establish the kingdom of heaven on Earth and it can best be served by the full illumination of the outer consciousness,-not only of the chelas, but of all mankind.

As the Seventh Ray is primarily devoted to the Science of the conscious invocation of God-free beings, I cannot urge you, too strongly, to invoke this glorious Illumination Flame into your own personal consciousness daily and, (if you wish to give an impersonal service), then into the consciousness of all mankind, particularly the leaders and directors of the thoughts, feelings and actions of the masses.

The Gods of the Mountains (of which beloved God Meru is one) are some of the most glorious friends you shall ever know. I await the day when you have qualified (by complete purification of your lower vehicles) to see them with your physical sight. Until that day, take advantage, my beloved, of the dispensation afforded you to visit in projected consciousness, the Ascended Masters Retreats (particularly during this thirty-day period, when the Illumination Flame is so freely and lovingly offered to you). Such radiation as you can receive by proximity to this flame of God-perfection, will enable you to raise your consciousness above the petty human discords of the lower strata of Earth, into the pure, clean, uncluttered heights of the Andes Mountains. Here is the lovely retreat of the beloved God and Goddess Meru, your gracious host and hostess, who await your coming. They are so lovingly and graciously willing to serve you. I too, shall be among those who await you there!

MOTHER MARY SPEAKS ON HER ASCENSION

(We honor her ascension on August 15, each year)

After the triumph of the resurrection of my beloved son, Jesus, he told me that I had opportunity, at that time, to make my ascension at the same time he made his own. Jesus said that I had then earned my eternal freedom to live in the spheres of light in which he would dwell—he, who through that entire embodiment had been most precious to me of all individuals. However, as I have told you in my “Memoirs,” on that first “Good Friday,” I ascended Golgotha’s Hill the mother of one, and descended it THE MOTHER OF ALL! So you, beloved children, and all mankind, are now as dear to me as Jesus was then, is now and always shall be.

Naturally, the heart of a mother longed to accompany her son and enjoy his continued companionship, without separation. Yet, with a mother’s sensitivity, I felt that within the heart of beloved Jesus was the hope that I would make a temporary renunciation of the crown of immortality at that time, so that I might be able to stay here a bit longer to comfort, protect, and educate his disciples, apostles and followers, as long as my service was needed here. Remember! I had prepared for, and lived, that entire lifetime almost solely to serve him and our Father-God who sent him. Thus, the sacrifice of my immediate ascension was easy to make then, so that beloved Jesus could enjoy the glorious experience of his ascension without any sense of apprehension as to the God-success of his dear friends, in establishing the heart-center of the Christ Dispensation, for which he had taken embodiment and which he had served so faithfully and so well.

Almost as well as blessed Jesus, I knew how very much his disciples and apostles would require a stabilizing influence for some time to come, in order to firmly anchor into the emotional, mental, etheric and physical consciousness of the Earth and her people, those roots of the Christian Dispensation, which would form a foundation strong enough to endure for the next two thousand years. The years that followed proved, in manifest works, his wisdom in desiring me to stay for a while, for it enabled great, divine assistance to be given to those who so dearly loved the blessed Jesus. This assistance enabled them to develop, from within themselves, those certain virtues and strengths to anchor, serve and expand that dispensation.

As you know, his gracious father, the beloved Joseph had left the earthplane some years before and so it was my truly great joy and humble privilege to recount, over and over again, to the disciples, the more intimate, and yet very pertinent, information concerning his nativity,

childhood and ministry, which I alone knew. This made possible the writing of the simple gospels, which form the heritage of the Christian Dispensation even today, which so many of mankind have enjoyed and from which they have received so much benefit.

During the establishment of the first Christian community at Bethany the demands upon my physical energies, alone, were tremendous, and, at that time, there was the daily requirement for the exercise of real understanding and God-patience with those who were so earnestly endeavoring to harmonize and adjust the personal differences, spiritual and otherwise, which quite naturally arise when many unascended lifestreams, with personal idiosyncrasies and varying backgrounds of previous experience are brought together. However, I can assure you, that when I did attain my final victory, that was worth every hour of the service which I joyously gave.

When, finally, I was apprised of the fact that my service was to be completed here, I rejoiced that my earthly pilgrimage was soon to come to an end, for the years had taken their toll of my physical form. I called about me the disciples and apostles who were then with me and, giving them my personal blessing, bid them a fond adieu. Then, in the glory of God's blessed mercy, I rejoined my son in the heavenly realms, where I now remain, as he does, the constant faithful friend and protector of all who desire my help. Now I am your mother too, beloved ones, and I urge you to call upon me whenever you require assistance of any kind. It is my joy so to serve you, each one!

Remember, my children, we who have achieved the ascension are your divine friends who, by the sincere and persistent application of the very same Laws of Life you are being taught today, have attained our own individual victory of the ascension, returning into our own individualized God-Presence, "I AM." Having victoriously walked the ways of Earth ahead of you and knowing the FEELING of God-mastery over all things human, we are now able, and so joyously willing, to assist you to successfully finish your own pilgrimage which, one day, will end in the victory of your personal ascension too! Your acknowledgment of, as well as your adoration, devotion and service to your own beloved I AM Presence is always paramount to you, and neither beloved Jesus, myself, nor any of the Ascended Host desire to be worshipped as deity, IN PLACE OF YOUR OWN INDIVIDUALIZED I AM PRESENCE! Rather, at all times, we desire to be considered as your divine Brothers and Sisters, who have attained the perfection of the divine image of our Source. Thank you and good morning!

MONTHLY LETTER TO THE TRANSMISSION FLAME CLASS

August 16, 1958

Beloved Children Seeking More Light For Your Own Dear Worlds And More Light For The Earth— Your Hostess:

I bless you, without limit, for the earnest desire which is within you, to reclaim into your outer consciousness your God-given heritage, illumination through God's love!

This night we shall all gather together in the blazing focus of the retreat of the God and Goddess Meru, there adding our light and blessings to their sustained Illumination Flame. As we, the Spiritual Hierarchy of Ascended Beings and the humble, worthy chelas give of our light and blessings to these two mighty beings and the Cosmic Ray and Flame of Illumination, which they and their Brotherhood have guarded all through the ages and still guard, we also must receive, into our own individual worlds, that specific quality of ever-expanding God-illumination.

Here let me bring to your attention that the Gods and Goddesses of the mountains are very highly-developed intelligences, about whom the masses of mankind (particularly in the Western world), know little, into whose presence so very few unascended chelas ever come and to whom they give little attention. However, let me assure you that these great Beings are the very embodiment of divine love for, the higher each intelligence rises on the spiritual pathway toward ultimate perfection, the more loving, humble, gracious and kindly such an intelligence becomes (ascended or unascended)! Then, think not of the beloved God and Goddess Meru (or the Gods and Goddesses of any mountain range) as austere and unapproachable beings. Consider them as they really are, mighty magnets of divine love, to draw the consciousness of all unascended beings UPWARD into the Light of God's beautiful Presence!

Even before entering sleep and directing your Holy Christ Self to take you to this retreat, ask that Christ Self also to accept and sustain, for you, in your outer consciousness and atmosphere, those feelings of buoyancy, light and God-mastery, as you return to your personal orbit and physical body, after your visit in projected consciousness to the presence of the beloved God and Goddess Meru.

Those of you who ever have visited any mountain range know something of the feeling of freedom one receives, from the disturbing vibrations of the petty thoughts and feelings which plague the outer self. This greater clarity of consciousness and the feeling of God-freedom are those which one receives from these great beings and these are intensified a thousandfold as one enters their holy temple and actual presence. Anticipate experiencing those feelings of joyous and complete freedom! Ac-

cept them!

In your outer consciousness, it is not vitally necessary, at this time, for you to remember your actual visit to the Ascended Masters' Retreats (where you do really go when you so consciously direct your Holy Christ Self to take you in consciousness, while your body sleeps!) In fact, it is a great mercy that many do not bring back the fullness of such remembrance for, such memories might make your needed services in the mundane world more difficult to perform. You see, remembering the beauty, ease and peace in which you functioned there, might make service in the lower vibrations of the astral world, in which you abide, even less attractive than they sometimes are!

Therefore, since I am he who secured this dispensation, which allows the opening of the retreats to unascended beings through projected consciousness and set into action certain aspects of the Cosmic Law wherein and whereby you might be apprised of the activities in these Ascended Master foci, I am also the one to encourage you to feel no sense of disappointment or discouragement if, at least for the time being, you do not vividly remember such experiences. However, by now you should be able to feel the results of such visits and be able to experience, as well as use, their practical benefits in your daily lives. As your four lower vehicles become completely purified of the causes and cores of every human distress, you then will be able to remember every detail of such visits, just as easily as you are able to remember the details of a trip taken by you in your outer consciousness. Of course, in order to be able to bring back such remembrances, one will have to be humble, grateful, reverent and wise enough to hold the privilege of such visits and their attendant blessings in the Sacred Heart of the Silence, allowing your LIGHT, not your lips, to proclaim your having had the blessing of actually sitting at the feet of the Ascended Host!

Lovingly yours in the ever-expanding consciousness of illumination here on Earth, I am

Your MAHA CHOCHAN

Statement for the Transmission Flame Class (August 16, 1958)

I AM inbreathing th'victorious feeling over all things human from Illumination's Flame. (Use also for absorbing; expanding; projecting.)

Hierarchs: God and Goddess Meru. Color of Flame: gold and pink. Musical keynote: "Faith of our Fathers."

(Note: The messengers from the Illumination Retreat always wear a single pink rose upon their vestments, over the heart.)

Remember Public Libraries, Prisons And Soldiers' Camps

The need of the hour is to disseminate the words of the Ascended Masters. One way of doing this is by sending our books as gifts to public libraries, prisons and soldiers camps.

Our students have now the opportunity of economically rendering this very valuable service by availing themselves of the reduction of our prices, even 50% in some cases, for a limited time.

SEPTEMBER 1958

TO THE BELOVED MAHA CHOHAN, REPRESENTATIVE OF THE HOLY SPIRIT TO THE EARTH AND ALL ITS ATTENDANT EVO- LUTIONS

We, the Spiritual Hierarchy, send our gratitude and love for the Maha Chohan's comforting presence, which enfolds the sweet planet Earth and all evolutions in, through and around it, which require GOD-COMFORT!

We thank him, too, for his wise and kindly counsel, given to us so freely, when we ask for it!

From the children of God, not yet even aware of his presence, we offer their gratitude for their unseen and unknown protector and guide. From the elemental kingdom, which obeys so promptly his directions, we offer their thanksgiving for his understanding heart!

From the earnest chelas, desiring to be a comforting presence to all imprisoned life, we direct, consciously, to the beloved Maha Chohan, the Flame of Gratitude from their Holy Christ Selves for his willingness to help each such chela to learn the Cosmic Law of Love, which will set them eternally free from limitation of every kind, when used in daily application, according to their present understanding. Beloved Maha Chohan! We love you!

Thomas Printz

The Homes and Retreats of The Masters of Wisdom

TEMPLE OF COMFORT, CEYLON

(September 15th through October 14th, 1958)

Located in Ceylon, the beautiful Island south of India, is the focus of the Temple of Comfort, presided over in dignity and graciousness by the beloved Maha Chohan, supervisor of the seven Chohans and representative of the Holy Spirit to this Earth.

So humble and unostentatious is he, that many of his servants do not know that he is an Ascended Being but merely love him for his kindness and courtesy. He maintains, for appearance sake, on the landed surface of the Island, a very beautiful tea plantation, and to this plantation come often, the dignitaries of many countries of the Occident to counsel with him about the affairs, spiritual and secular, of their respective nations. He always greets them warmly and gives what counsel they choose to receive, accept and apply. They return, then, to their countries enlightened and comforted by their host, most of them totally unaware of the actual being who has royally and wisely entertained and counseled with them.

Under the surface plantation is the Temple of Comfort, hidden from the eyes of the curious and protected against intrusion by any and all peoples who are not yet worthy of entering into and becoming an active part of the teachings and practices of the Holy Comforter and his disciples. Thus, always, the true gurus serve, never giving cognizance to "position nor place" in so far as the world honors it, but always eager and desirous of giving assistance to any dear chela who has placed his or her feet upon the spiritual path, which leads to enlightenment and ultimate spiritual freedom. There is no outer means by which any unascended being can force him or herself into the Ascended Masters' presence or into their glorious retreats, except by individual preparation of their souls, in true humility, and by having, within themselves, the motivating power of pure divine love for all life, and an honest purpose, not a surface desire, to help in the program of the evolutions presently using the Earth for a planetary home.

The beautiful Silent Watchers of each locality, with the inner vision, see and know the motivating power behind all such desires to sit at the feet of the Ascended Masters. As surely as the sun rises each morning and sets in silent, but glorious, splendor each evening, when any individual's aura and inner bodies indicate that they are ready for individual teaching, instruction and knowledge at the feet of the Ascended Masters,

means are provided, instantly, for such assistance to be given them.

Therefore, it behooves each and every dear chela to prepare himself or herself to become worthy to be chosen by the Ascended Host as personal pupils. As most of the dear chelas know, the beloved Maha Chohan, until very recently, has not accepted personal pupils, leaving the instruction and preparation of their four lower bodies and the purification of their souls to the seven Chohans, who so lovingly and so reverently serve with him and under his supervision. In the New Cycle, however, he has opened the doors of his own sacred retreat to the worthy chelas of his Chohans and has offered, in his gracious love, to teach any of them who so desire, to be a comforting presence to all life, as they return to their own spheres of influence. He has, further, applied to the Karmic Board, for the privilege of revealing to the earnest chelas many other Ascended Master foci, so that the beloved chelas might participate in the services of the Great White Brotherhood while those services (connected with the progress and evolution of the planet Earth) are currently active.

We, who prostrate ourselves before this holy presence, cannot emphasize, enough, how privileged are the chelas of today, in having access to the princely presence of the beloved Maha Chohan, as well as opportunity, during this thirty day period, of entering his Temple of Comfort and learning from him, and his spiritual court, the way to become comforting presences while yet unascended. Take not lightly this magnificent dispensation, beloved, but avail yourselves of the opportunity, during each thirty day period, to enter the homes and retreats of the Ascended Host of Light and particularly, visit the Maha Chohan. Write your dear names upon the scroll at the door of the Flame Room, wherein the Comfort Flame rises, expands and enfolds the Earth, as one who desires to be comforted and then to be a comforting presence to all imprisoned life!

Heretofore, the names of very few unascended chelas were so written, as hopeful applicants for this privilege of entering the Temple of Comfort, and of these few, fewer still were accepted as worthy of the personal attention of the beloved Maha Chohan, himself. Like unto Lord Gautama, his service, and that of his Brotherhood, has been to impersonally radiate comfort to life, and the fact that he is willing, eager and desirous of accepting pupils at this time is very significant of the cosmic hour!

Even we, the Chohans, who serve under him, seldom called upon his priceless energy for counsel, endeavoring to spare his precious energy for cosmic service. In this present dispensation, we are privileged to

counsel with him more often, but we never lose our sense of reverence and gratitude, for even a moment of his precious attention!

Our beloved Maha Chohan has chosen, through his own free will, to invite the earnest and worthy chelas to his Temple of Comfort, to enter into the Sacred Flame Room, to counsel with him, to receive from him greater understanding, by which each such a privileged one can intensify, with greater wisdom, his or her constructive activities on any one of the seven rays to which such a chela, by nature, belongs! For this courtesy we are so grateful, as it greatly assists us in helping our chelas to develop their own latent talents, gifts, powers and services in the world of form. Through projected consciousness, either in sleep or in times of contemplation, the chelas are brought safely to the Temple of Comfort, enjoy its beauty and the gracious hospitality of the Maha Chohan and then, when they have received all that their own dear consciousnesses can assimilate, they are, as carefully and kindly, returned to their physical vehicles to activate the teachings given, the radiation absorbed, the blessings received.

Do not, ever, take for granted this blessing. Accept it, always, as a particular gift of grace from the loving presence of the Maha Chohan. Remind your outer consciousness often of the privilege that is yours and, always, enter his Temple of Comfort humbly, reverently and gratefully, as we do. Then we shall be happy, as your sponsors and gurus, to present you to him, that he may see the Light expanding within you and know that the dispensation which he secured for you and the energy he has invested in you is truly worthy of his kindness and graciousness in accepting you, each one, as a chela of his own! Thank you, and God keep you always cognizant of the privilege that is yours today!

El Morya

MONTHLY LETTER TO TRANSMISSION CLASSES

September 20, 1958

My Beloved Children, Seeking Comfort And Desiring To Become Comforting Presences In Your Own Spheres Of Influence:

I AM so grateful that in this cosmic hour there are, among the billions of lifestreams presently embodied upon the Earth, those few who are willing to apply directly to me and to learn how to become an outpost of myself in this physical world, wherein so much temporary distress and chaos disturbs the minds and feelings of the peoples!

I welcome you, each blessed one, to Ceylon and to our Temple of Comfort. As any one of the seven Chohans under my direction finds that your advancement in the use of knowledge already given to you warrants my personal supervision of your further knowledge, I so willingly accept you for such training. Until that time, you are among those privileged to enjoy our comforting presence, and, in the wise and protecting care of beautiful lady sponsors assigned to you, each dear heart, by myself, you can come to us, through the activity of projected consciousness, before going to sleep at night, as well as through the day, when you have time, undisturbed, to turn your attention toward us.

Remember, beloved ones, when you are in a period of contemplation of any Ascended Master focus, to be sure your physical body will not be disturbed, as that shock to your four lower bodies, bringing your consciousness violently back to your natural orbit, is a deterrent to the natural spiritual blessing you would otherwise receive.

Please accept my gratitude for accepting my presence and reality. I shall be waiting for you to come to me at our Temple of Comfort.

Love and Blessings, Maha Chohan

HOW TO BRING COMFORT TO DISCORDANT CONDITIONS

Address By Our Beloved Lord Maha Chohan

Flourtown, PA, July 1, 1958

As the representative of the Holy Spirit to this planet and all its evolutions that are in distress, do you know how deeply my heart is touched when unascended beings, still feeling the power of their unredeemed destructive karma, desire to prepare themselves to become representatives of myself in the world of form, bringing God-comfort, impersonally, to all life for the benefaction of all in distress?

Ah, my children, little do you know, even those of you who have the gift of true inner sight, and whose ears are attuned to the dissonant sounds of the Earth, how much comfort all the life which uses the sweet Earth as a schoolroom require? For human pride oftentimes locks within the breast of the lifestream requiring the greatest assistance the required call for that comfort. In the case of little ones that have not yet learned the use of words (such as animals) they have only their feelings to apply in their calls to their group souls, who in turn apply to me. Of course on the return current of my energy comes the humble gift of my comfort to life.

Beloved ones, there are those who have been recently released from the "compound," there are those who have been awakened from the "sleepers realm," where they were enjoying a sojourn where neither speech, feeling, thought nor action was required of them, who have not yet stretched forth their hands for comfort. It is to the chelas, the unascended, that I make my plea that you, on behalf of all life, although it is not necessary to know the particular lifestreams nor conditions that require assistance, just once in every twenty-four period send your call to me for comfort for all life. That opens the door into the realm wherein I abide. Ask that the Comfort Flame flood forth in, through and around the Earth and all its attendant evolutions. I will answer, and all the Angels of Comfort at our command, will answer you.

Many, many in distress, who know not how to call, or who are too stubborn or rebellious to call, will receive the comfort which always precedes lasting peace. When the mind and outer consciousness is in distress, when the body is in pain, when the emotional world is disturbed, when the financial conditions of the present day temporarily are chaotic and changing and individuals are concerned about their very livelihood, they need comfort and assurance, so that they can become still enough to receive the healing, the financial assistance required, faith in the light

to help set them free from all distress, and the ministration of the angelic beings, the stimulant to the Holy Christ Self, which externalizes the perfection of the divine plan through each individual who gives an opportunity so to do!

There is no unascended being who does not require comfort before he or she can even concentrate upon the development of a constructive activity for the benefaction of the race, much less concentrate thought, feeling, word and action for a lifetime, aye, for an eternity, to the establishment of God's Holy Will here on Earth, as it is in heaven. This comfort brings peace. This peace of mind, soul, thoughts and feelings allows the truth now presented to you so freely, by those of us who are interested in your specific lifestreams—to register in your outer consciousness. In that peace, you can concentrate upon the aspects of the truth, which must appeal to you, having full freedom (not license) to utilize those aspects of truth and bring forth manifestations of a lasting benefaction to the race.

Comfort Is Not A Negative Feeling

Comfort is a very positive virtue; it is like mercy. Neither of these virtues is negative in quality. They are positive pressures of energy. Now, let us think it through and counsel together, as I do with my beloved sons and my lovely daughter, Nada. Let us think about the quality of comfort. An unascended individual, as well as an animal in distress, is releasing energy CHARGED with the quality of pain, agony or unhappiness of some kind. That energy is usually a great deal more active, when an individual or even an animal, is in distress, than the energy that is around them while they are temporarily at peace.

Therefore, the aura of the individual or the animal in distress who desires comfort, help and assistance is about three times as large and moves with about nine times the rapidity of the same individual or animal in their normal happy little orbit where they are secure and safe. That is something to really think about. You are dealing with a rapid vibratory action discordantly qualified within the emotional world, in a sea of chaotic feeling, where the mental world cannot concentrate, where the etheric body is filled with all the memories of disappointments of the past and where the physical body or some member, or portion of it, is in distress.

That forms the energy which you, who desire to be a comforting presence, will have to meet. All right. Now if, as a comforting presence,

you assume a negative feeling and even mentally encompass, in your arms, that entire condition or person, you draw into your own emotional, mental, etheric and physical bodies exactly the condition which the other individual had and there are then two people in distress. This does not mean that you should not be compassionate, merciful, understanding and tolerant, but it means that you must be as the beloved Jesus said: "Wise as a serpent and gentle as a dove."

When these conditions express even through one individual, you may practice this, because there will be times when you will have hundreds, maybe thousands of individuals, whom you shall have to protect, comfort and guide. You all have some one on whom you can practice. When these conditions arise in the other individual, please, in the name of God, the I AM Presence, have discrimination and do not speak immediately. Hold the dignity of your silence as long as you are able so to do. Direct your attention to your I AM Presence, then allow it to expand your light through your Holy Christ Flame through you, then call to me, your own elder brother, Maha Chohan, and allow me, through you, to direct the currents into the person, place, condition or thing you are assisting. Do not even raise your hands when you are endeavoring to help antagonistic individuals, because you rouse the sleeping tiger, their human creation. This can all be done absolutely in the power of the silence. As you are seated, or preferably standing, you have the guard over your own solar plexus and feeling world. Then allow that radiance, which I promise I shall give, to flow through you, and through your own spheres of influence, to bless all in distress.

After some practice, because first it will take you longer to accomplish this activity of being a comforting presence to life, after a time you will master more quickly this very simple application. When the other individual is quiet, then is the time for a few well chosen words, words that will give him peace in the mind, in the consciousness, until he returns to you to be comforted all over again.

Patience A Requisite

I can tell you, beloved ones, that those of you who are being trained to be a comforting presence, shall learn patience, for you do not comfort a human being once and have it done forever. I have comforted more lifestreams since I have assumed this office than I would care to record. They are almost always the same ones that come back again and again for comfort. However, it is my joy, my privilege and my honor to comfort

them, until one day, oh, that magnificent day, when they are alert and say: "Now, how can I learn to control my energy and be a comforting presence?" Oh, beloved ones, when you have waited for hundreds of years, those are sweet, sweet words. You will learn too, beloved ones, particularly those who live in the great metropolises on the Earth's surface, what it is to comfort life again, again and again. To give of your love, of your light and substance and energy, and find, returning to you, those same individuals only when they are in dire distress.

That is part of the training for chohanship and it is part of the training for my successor, who will assume the office of the Maha Chohan, as I too, ascend the ladder of evolution when the cosmic moment allows, and there is someone ready to give the assistance which I presently give to the Earth and its attendant evolutions.

At the present time, however, having come so close to my chelas, my beloved Pallas Athena and I, having read over so lovingly so many letters written, so innocently containing, within themselves matter, not only of cosmic, spiritual and soul import, but matters concerning the most mundane events, I desire to remain a part of this great cosmic era when my gracious and beautiful Ascended Master Saint Germain shall see, externalized on the planet Earth, the beauty of a permanent Golden Age, where comfort will be the aura of the Earth. The radiance which flows forth from this sweet star shall be a comfort as it rises and becomes a part of the Music of the Spheres. Oh, if you could see how earnestly all of the great Chohans and the Hierarchs of the many Ascended Master retreats prepare for this era, if you could see how much your sponsors have done, if you see how much is being prepared right now at this half-yearly council for the benefaction of your dear and blessed selves, as well as that of all mankind, all living things, all belonging to this evolution, your hearts would rejoice, indeed.

We Are In A Period Of Initiations

Oh, surely you are going through some severe initiations, there is not one in this activity who is not passing through initiations, each of you in different temples of initiation according to your light and the capacity of your individual lifestream to meet and conquer certain destructive karma, individual and assumed. Let me remind you that, when you pass through such initiations, your divine sponsor is always with you, invisible often, but directing the protective ray from his own flame and heart to see you God-successful and God-victorious in the light, until that great hour

comes, for which so many of you long, when the call for the ascension comes from your I AM Presence, and beloved Serapis Bey, blessed Son of Light, signifies that you are ready to come "home." Then, I have the task of receiving your last breath. After all is said and done, as the beloved one said yesterday, even, the most sincere chelas hold on to that breath, when so gracefully and in such dignity I can take you "home."

It is not so light a task, to give the first breath to the infant that is born, full of vitality and promise, and breathe into its lungs the breath of life, knowing yet the glory of the inner realms, knowing yet some of the perfection of the Ascended Masters' temples in which the soul dwelt, even though that infant form does not seem, for a time, to focus his attention upon the world without, either through sight or any other of his outer faculties. That particular activity, at present, is the mercy to give time for the great builders of form and the Holy Christ Self of such a one to anchor in, through and around that baby boy or girl the life, light and protection which will be required once the senses are open to sight, to hearing and to all the faculties that are utilized by mankind and which records so much discord in the individual's world.

The New Era

When we come into the New Era, when mankind has raised itself out of the degradation of the present day experience of birth and death, when again the child is born in dignity through the direction of the light rays from the hearts, heads and hands of the parents, into electronic light, where the immortal, victorious Threefold Flame is established and around which a beautiful light body is created, then we shall see the Seventh Root Race and its several sub-races come forth quickly, and the Great Divine Director, Manu of the Seventh Root Race, will be able to manifest his portion of the divine plan. Unto that day, unto that hour, do we serve and do you, individually, serve.

Beloved and blessed ones of the light, those days which I have described were once manifested on this very Earth. Some of you have known, on other planets, on other suns and other stars the activity of the precipitation of the individuality of a beautiful lifestream. You have seen the etherealization of that lifestream, in dignity, within the flame at the close of a certain span. That is why birth and death today, as manifested on the face of the Earth, is often repugnant to advanced and illumined lifestreams. That is why the Great Goddess of Mercy, beloved Kwan Yin, Holy Mary, the mother of blessed Jesus, and beloved Meta, daughter of

Sanat Kumara, have sent, into the atmosphere of Earth, individuals who can give that assistance to those entering into Earth life through the gates of birth and passing again from the Earth plane, through the gates of so-called death, while such conditions remain.

Remove The Cause And Core Of Rebellion

Meanwhile to you, each and everyone desiring to become a comforting presence to life, I say, learn, in patience, to remove the cause and core in your own lifestream of all rebellions, resentments and disdain for that which is not yet perfect. Thus you can be a comforting presence wherever you move. No Divine Beings—the Great Goddess of Light, beloved Astrea, Mary of the immaculate hands and the gracious heart—pull aside their skirts from even the most discordant and repugnant appearances, but they go, in all their kindness, into those conditions and into those places to give God-assistance. They are the great examples for earnest chelas who desire to be a comforting presence to life.

The greater your light, the wider the scope of your understanding, the wiser your minds, the purer your vehicles, the more humble you become. I will tell you that the great Lord of the World is one of the humblest of beings, and Sanat Kumara, in all the majesty of his magnificent presence, and the Lady Master Venus, his beautiful complement, have eyes like those of children and have graciousness radiating around them, which forms the hem of their spiritual garments. There is no divine, cosmic, ascended, cherubic, seraphic or angelic being who is not, at all times, kind, although some times firm. Sometimes it is required that one be firm, but if your feelings are kindly before you use the directives that are necessary, your firmness can never hurt any part of life. If your directives come forth, as they must of course, particularly through those of you who are going to handle great numbers of people while your own feelings, your own thoughts and your own memories are disturbed, those directives carry the lower vibratory action of your outer self.

So please, those of you who are handling any number of people, and everyone in this activity will handle greater numbers of people, AS YOU LEARN TO CONTROL YOURSELF, learn to become still within yourself and then call to the loving Presence of God “I AM” and to any one of the members of the Third Ray or myself, then your directives going forth, although they are positive, are enfolded in our love. Why are the great beings like the beloved Ascended Masters Morya, Serapis, Hilarion and others screened through my very consciousness before their energies

reach the vibratory action of your aura? Because the vibrant power and energy of such beings which would be truly overwhelming to the outer self.

There is not one person in this activity who knows, for I have never chosen to reveal it, that I always stand between the audience and the speaker, so that any being, Elohim, Archangel, Chohan, whoever he or she may be, would have the momentum of that love which is mine, through which their rays flow to bless all in the group. Now, as some dear chelas seem weary and as the outer minds tire so quickly when we talk on celestial things, and yet they can spend hours of time talking of things terrestrial, I shall, in courtesy, give you my blessing and adieu.

Nada And Lanto, New Chohans

Beloved ones, every one of the seven rays, as you know, is under my direct supervision. There are magnificent unascended lifestreams on each one of these seven rays, as well, of course, as the magnificent Elohim, the Archangels, the Archaii and my seven blessed sons (the Chohans), to whom I have added the Daughter of Light, blessed Nada. Soon I shall accept, in the place of my dear Kuthumi, the beloved Lord Lanto. So my family grows larger. It grows larger so far as the chohanship is concerned, it grows larger as each dear and blessed chela holds my hand and chooses to receive the comfort which I can give and chooses to enter into our retreat at Ceylon, learning to become a comforting presence in himself or herself, to all of life in distress.

THE MASTERS OF WISDOM SPEAK OBEDIENCE TO GOD'S HOLY WILL

MAHA CHOHAN

The only true and lasting happiness for any self-conscious intelligence is to willingly accept, cognize and do God's Holy Will, in whatsoever sphere such an intelligence presently functions. Mankind, for the most part, have feared to relinquish their own human will to that of the heavenly Father, feeling that in so doing their habits, tendencies and human nature will be curtailed in its expression.

The truth is, that the divine will of the heavenly Father for all his children is to expand the virtues, talents, gifts and powers of his nature through them, for their personal blessing and for the benefaction of the race to which they presently belong. When the chela comes to a true understanding that the surrender of the personal (outer) will to the heavenly Father brings lasting peace and abundant joy in all his avenues of expression, such a one is truly upon the path toward spiritual freedom.

EL MORYA

I shall affirm and re-affirm, so long as I am the representative of God's Holy Will for this sweet Earth and her attendant evolutions that, that will is good! I cannot over-emphasize the fact that, through erroneous teachings and accepted doctrines every instability which befalls the human race is always placed unjustly as God's Will for peoples, nations and even the planet, itself. I shall continue to affirm and re-affirm, that the limitations manifesting in, through and around all the evolutions presently using this Earth as a schoolroom are the result of conscious misuse of free will, as endowed by the Father of all life, and which manifests in the respective worlds of their human creators.

My affirmations carrying the full pressure of the truth, proven in my own experiences, is a powerful radiation which flows constantly into the mental, emotional and physical strata, wherein most unascended beings presently abide (whether embodied or disembodied). The acceptance of this truth by the chelas and the practical use of this knowledge will enable them to experience, personally, the joy of giving obedience to God's holy will.

LANTO (Newly appointed Chohan of the Second Ray):

For many centuries, I have devoted myself to the development of a natural reverence for life, knowing that life is a primal and priceless gift from the heavenly father. The misuse of that life, which has created all the distresses and limitations apparent on the screen of life is due to a lack of understanding how to use the creative principles of thought, feeling, spoken word and action to design and precipitate the beauty in any sphere in which a self-conscious being dwells. As beauty is synonymous with Godliness, it is our endeavor, through the beloved chelas who are willing to learn how to control their creative faculties, to assist them to re-create the beauty and Godliness in their own emotional, mental, etheric and physical vehicles and then be conductors of that true spiritual beauty and Godliness, through their spheres of influence into the world about them.

PAUL THE VENETIAN

Loving, willing obedience to God's holy will allows the immortal Threefold Flame within the heart opportunity to expand and externalize the particular portion of the divine plan which the heavenly father desires to externalize through each one of his children. Until the outer self honestly desires to cooperate with the heavenly Father and allow him the full courtesy of externalizing that particular portion of the divine plan through such a one, the divine tapestry of God's kingdom manifested here on Earth cannot be completed.

We, the Brothers and Sisters of the Third Ray, have dedicated our lives and services to nourishing the latent talents and gifts of all God's children, century after century, as they have had opportunity to re-embody again and again upon the Earth and fulfill their divine destiny. Now, as the cosmic hour is already upon us, when such a heavenly kingdom is to be quickly established upon the Earth, under the direction of my beloved brother, the Ascended Master Saint Germain, we are very grateful for the assistance of the entire Spiritual Hierarchy, who are endeavoring to reach the outer consciousness of the chelas and to emphasize that loving obedience to God's Holy Will, will bring them, individually, joy and happiness and establish upon the Earth the perfection which is now known only in the Ascended Masters' octave.

SERAPIS BEY

Obedience, like order, is one of heaven's first laws. Every Divine Being follows the laws of obedience and divine order in the performance of their respective services to life. Unascended chelas, earnest and sincere though they may be oftentimes rebel against obedience to a higher intelligence, feeling that they are losing their sense of independence and the right to self expression. As Hierarch at Luxor, I have, for many centuries, learned the devious excuses of personalities who whole-heartedly desire the harvest of spiritual freedom, yet cling tenaciously to those very personality traits which make such freedom impossible to attain.

There are disciplines which are kindly offered at Luxor, wherein and whereby chelas can overcome these imperfections of character and attain a lasting spiritual freedom. However, few there be who are willing to apply the instruction given, abide within the disciplines set forth and know the joy that comes in lovingly cooperating with their teacher, who leads them always Godward.

Disciplines practiced for "duty's sake" create inner rebellions in the soul and these do not permanently profit thereby. Other chelas, knowing that by the use of these disciplines, in loving cooperation with their teacher, are much more quickly graduated into that freedom to which all mankind aspire. Do not apply for entrance into the rigorous disciplines provided by myself and the Brotherhood of Luxor if you seek only a refuge from personal discomfort and limitation. Just providing a shelter is not the main purpose of Luxor.

Our gift to the human race, imprisoned angels and all imperfect elemental life is the permanent redemption of destructively-qualified energy and the permanent freedom into the natural God-design for each kingdom, and, at the close of each one's service upon this sweet Earth, the ascension in the light. Do not consider us inhospitable, but rather kindly in pointing out to you our particular curriculum, so that you may enter that Ascended Master retreat which can best accommodate your requirements and desires.

HILARION

Doing God's Holy Will is an exact science, which is manifested beautifully through the nature kingdom. Each flower, shrub, tree and plant is a manifest expression, in each yearly cycle, of obedience to the externalization of the divine image or archetype for that particular species, with the exception of that portion of the nature kingdom which has been

temporarily polluted by the pressure and effluvia of the mankind of Earth, who have used it so long for a playground, rather than a school-room.

It is time that the mankind of Earth apply to the Heavenly Father and their own divine archetype (Individualized I AM Presence) for knowledge as to what is their particular part in manifesting the kingdom of heaven here on Earth, as well as in any sphere in which they may dwell, between embodiments. The same science is applicable to mankind and the cosmic moment is upon us, when everyone of the ten billion souls presently belonging to the Earth's evolution contribute a constructive benefaction to the Earth and its attendant evolutions.

We are willing to teach this science to any and all who care to visit us at the Temple of Truth, over the island of Crete. I shall expect those of you who are sincerely interested in being a part of this glorious, redemptive process to so visit us there. I shall further expect that the truth so invested in you shall be manifested as practical works in the world of form.

NADA

Through my own experiences, even before my ascension, I learned that the generation and projection of pure divine love to the Holy Christ Flame of any unascended lifestream caused that flame to expand its virtues, gifts, powers and blessings through the outer personality. This service I rendered silently, with discrimination, under the direction of my beloved Guru, Charity, and the fruits of my application resulted in the harmonious expression of God's Holy Will through those to whom I was assigned to serve. The blessed chelas seeking also to help to free the powers of the Holy Christ Selves of all mankind, are humbly invited to ask me, as well as the beloved Charity, to give to them our feeling of impersonal divine love to the Holy Christ Selves of the individuals in their immediate environment.

Then such chelas humbly, and without spiritual pride, can and will enjoy the development of those talents and gifts through their associates. Thus, the chelas become qualified to expand their services to a larger sphere of influence. Loving imprisoned life free is one of the greatest joys which can be experienced by any chela. The efficacy of such service and its ever-expanding radiation will be determined by the humility of the chela using this application and remaining silent when the fruits of his labors are manifest. Rejoice in the works well done, but nev-

er, under any pressures of a personal nature, reveal yourself as the instrument through which the Holy Will of God has been resuscitated and externalized, either through yourself or others.

SAINT GERMAIN

I am so grateful for the loving, willing obedience of the Spiritual Hierarchy, the angelic host, the cherubic and seraphic kingdoms and the earnest and sincere chelas, in assisting me to establish the Permanent Golden Age of Freedom on this Earth. The destiny of the new Golden Age is for the angelic kingdom, the human kingdom and the elemental kingdom to lovingly and consciously cooperate in creating and sustaining a virtual paradise, wherein all life, free of every limitation and discord, shall fulfill its individual and collective divine plan. To this end do we serve and, knowing our vision, we call around the standard of freedom those chelas who have served that vision and desire quickly, to make it a fact. To all who have already participated toward this end, I am most grateful, to those who are presently engaged in this service, I am thankful, indeed. In the name of the incoming children and the generations yet to be born who will reap the harvest lovingly sown by those who have gone before them, I give thanks to God and to all who have participated in this endeavor.

FEAST OF SAINT MICHAEL, THE ARCHANGEL (September 29, 1958)

The beloved Lord Michael, Prince of the Archangels, has voluntarily served all imprisoned life in the Earth, on its surface and in its atmosphere, ever since the veil of maya was spun out of the outer consciousness of mankind.

When the laggards from the other stars and planets were first destined to use the Earth as a planetary home, Lord Michael, wisely, began his preparation for defending the faith in God's holy will, through all the souls who belonged to Earth's evolutions. Seeing the seeds of rebellion, discord, and discontent in the consciousness of those laggards, which made it impossible for them to evolve with their own stars and planets, Lord Michael knew that the spawn of such seeds of imperfection would find temporary root in the consciousness of other lifestreams who had, until that time, only known the goodness of God, and who had lovingly, graciously and reverently obeyed his Holy Will, thus sustaining the at-

mosphere of Earth in a state of purity and grace.

Lord Michael then created his glorious Sword of Blue Flame and has used it, efficaciously, ever since, to cut away the discordant human creations which, through contagion, the mankind of Earth accepted into their own consciousness and later externalized into the atmosphere about them.

Lord Michael, together with his limitless legions of angels, has constantly watched for every opportunity to set individuals free from any type of limitation and distress. In his own arms, he has carried many a weary soul, who has passed through the change called death, into the "sleepers realm" and placed such a one gently upon a couch, under the supervision of one of his own legions, who guarded that soul until it was time for such a one to awaken and enter the Halls of Karma for judgment as to his or her use of life in the past embodiment.

Lord Michael, then, accompanied that soul to the Halls of Karma, giving of his courage, strength, love and light, so that the soul would be strong enough to present the record of his own "book of life" for an embodiment in which, oftentimes, opportunities were great, but use of such opportunities for the blessings of the race, were embarrassingly few.

All year long, the services of Lord Michael and his legions of angels continues, with but one purpose, to set imprisoned life free. multiply this by the centuries of time which have passed since first the veil of maya was created between the Ascended Masters' realm and the human octave, and you will understand why at least one day in each year is given to commemoration of his services and gratitude for his presence in the universe. Of course, chelas conscious of his service, honor him every day.

However, the entire world chooses to give him recognition on September 29th of each year. The Silent Watchers, the ceremonial angels, the seraphim and cherubim, gather all the prayer force and devotion given to him on this day, and (as the harvest of the angels is also brought to him at the end of this month), he has a great deal of consecrated energy at his command. Michael uses this energy to continue his service of protection of the souls of men, dissolving of humanly-created entities (all the vices to which men have fallen prey), and the injection, through his own beautiful presence, of FAITH IN THE GOODNESS AND ULTIMATE VICTORY OF GOD, THROUGH EVERY LIFESTREAM WHO HAS IN THE PAST, DOES NOW IN THE PRESENT, OR WILL IN THE FUTURE, USE THE EARTH AS A SCHOOLROOM.

As the new era of the Ascended Master Saint Germain requires the conscious, loving cooperation among the angelic kingdom, the human kingdom and the elemental kingdom, Lord Michael and his helpers (divine and human) are serving with even greater enthusiasm and devotion to this cause NOW!

To those interested in the liberation of all imprisoned life, we heartily recommend you to apply to the beloved Archangel Michael for assistance and in so doing become a co-partner with him on Earth.

El Morya

Suggested Invocation To Beloved Lord Michael

In the name of the Presence of God "I AM" in us, we call to you, Lord Michael, Prince of the heavenly host, to assist us to become worthy of serving with you:

To become liberators of all imprisoned life into its God-free estate,

To cognize, instantly, requirement for protection of the souls of men, wheresoever they may abide,

To remember, daily, to invoke your Presence and your God-free angels on behalf of all those who have passed through the veil of so-called death, that they may be taken quickly through the psychic and astral realm into the ascension temples provided in your loving mercy and learn the Law of Love at the feet of the Ascended Masters.

To you, beloved Lord Michael, we, the children of Earth send our gratitude for your assistance and loving protection through the ages.

THE LOVING COOPERATION OF ANGELS, ILLUMINED HUMAN BEINGS AND THE ELEMENTAL KINGDOM

By Beloved Saint Germain (July 17, 1958)

In the ages before the veil of maya was created, shutting out the visible, tangible presence of the divine beings, who were the counselors of the race, as well as their obedient servants, the angelic, cherubic and seraphic hosts, the Earth was likened unto the kingdom of heaven. Every man, woman and child had access to these divine personages, as well as individual contact with their own divine I AM Presence, whose directions all followed in loving, joyous cooperative obedience to God's Holy Will.

The new Golden Age, which is my joyous opportunity to bring forth on this sweet Earth, will again manifest the loving, joyous co-operation of these three kingdoms, which are even now being purified, preparatory to that day when angels, men and elementals shall serve together with

ONE PURPOSE, in making of this sweet Earth Freedom's Holy Star.

The angelic host is, by its very nature, obedient to God's holy will, the elemental kingdom, through the influence of its mighty directors, have served mankind long and faithfully, with little conscious recognition of such patient and constant service. However, mankind, for the most part, through the destructive use of his free will, has, up to this time refused to lovingly cooperate with the other two kingdoms, who have literally sustained man's spiritual, as well as physical, presence here on the Earth. This day is over! The cosmic fiat has gone forth to the Great White Brotherhood, who in turn have instructed their trusted chelas to this effect, that MANKIND MUST ARISE OUT OF THE DEPENDENCY UPON THEIR UNSEEN PROTECTORS AND GUIDES.

The elemental kingdom, held in leash by their mighty directors, have become rebellious at the ingratitude of the beneficiaries of their services, through aeons of time. The angels, of course, are never subject to human feelings and willingly cooperate in rendering their service of loving ministrations to a recalcitrant race. However, as the Permanent Golden Age REQUIRES the conscious cooperation of the three kingdoms to re-create the beauty indicative of the Seventh Ray, of which I am the present representative, I do implore those interested in this cosmic event to help us to remove, from the elemental kingdom, all those rebellions and resentments which could cause unnecessary cataclysmic action, to invite the presence of the angelic host into their midst as living, intelligent beings, who can assist them in creating and sustaining a state of listening grace, and to, wherever discretion allows, bring to the attention of their contemporaries, the beauty which will result in such loving cooperation among angels, men and the elemental kingdom.

To this end I look trustingly towards my dear and earnest chelas, who have vowed to serve the cause of spiritual freedom and to help, according to their developed capacities, to prepare for this day. Thanking you for your continued service in the future, I am always your loving friend, guru and servant, as you continue in your individual and collective endeavors to liberate all imprisoned life.

THE MIRACLE OF RESURRECTION

Within life, itself, is the power of resurrection, of renewal, of survival and resuscitation. The kingdom of nature, through which I'm privileged to serve, lives in obedience to this natural gift and power. By its use, every species sustains itself for the blessing, nourishment and benefit of the human kingdom. The glorious flowers, the verdant life-pulse manifest in the springtime, are the proof of the possibility of resurrection. May mankind soon awaken sufficiently to this self-evident truth, written across the face of the Earth they inhabit and may they draw the resurrection currents through their own soul, to recreate the glory, the perfection, the beauty and mastery which they had in the beginning, before the world, itself, was.

Maha Chohan

HOW TO PRECIPITATE

By Beloved Serapis Bey

The power to think creates form. The power to feel fills that form with life. These two activities precede all precipitation (conscious or otherwise). Most people do not control their thinking faculties and thus the forms created by their thoughts are indistinct and imperfect. LEARN TO USE YOUR THOUGHT TO CREATE A CLEAR-CUT, DISTINCT PATTERN OF THAT WHICH YOU DESIRE TO PRECIPITATE. THEN LEARN TO ACTUALLY GENERATE FEELINGS OF HAPPINESS, JOY AND PERFECTION THUS FILL THE CUP WHICH IS CREATED BY YOUR THOUGHT.

As you do this for a few minutes at a time, earnestly and without strain, you will begin to enjoy your "practice of precipitation." Then, one day, you will hold in your hand the actual thought-picture, energized by your feelings, which has become a physical reality to bless you and others. The question arises: "Does this precipitation come directly out of the atmosphere or is it brought into my world in a natural way through some individual?" At first, the precipitations may come through individuals. As one progresses, they can be, and sometimes are, manifested directly from the Universal, without the medium of intercession by another unascended lifestream.

Any tension and unbelief in the chela greatly retards his use of the power of precipitation and awaiting a manifestation right out of the atmosphere would not create the proper state of receptivity for the beginner. However, when such a beginner starts to receive the objects which

he has so faithfully created and nourished (even though they come through human beings) he gains confidence and can then endeavor to produce actual, direct precipitation. It is always wise to begin conscious precipitation with a small object, such as, for instance, the rose suggested by beloved Paul, because it is easy to picture a rose and takes less energy to make the mental image and less energy to give to it perfume, color and body.

SCRIPTURAL QUOTATIONS

For Encouragement

And ye shall seek me, and find me, when ye shall search for me with all your heart. (Jer. 29: 13).

The Lord thy God in the midst of thee is mighty, he will save, he will rejoice over thee with joy. (Zepha 3:17)

For Faith

Therefore I say unto you, what things so ever ye desire, when ye pray, believe that ye receive them, and ye shall have them. (Mark 11:22)

The Lord said, if ye have faith as a grain of mustard seed, ye might say unto this sycamore tree, be thou plucked up by the root, and be thee planted in the sea, and it shall obey you. (Luke 17:6)

For Fearlessness

For the Lord your God is he that goeth with you, to fight for you against your enemies, to save you. (Ex. 20:4)

Fear thou not, for I am with thee, be not dismayed, for I am thy God, I will strengthen thee, yea, I will help thee, yea, I will uphold thee with the right hand of my righteousness. (Isa 40: 10)

For Giving

Jesus said unto him, if thou wilt be perfect, go and sell that thou hast, and give to the poor, and thou shalt have treasure in heaven and come and follow me. (Matt. 16: 19)

Give and it shall be given unto you, good measure, and running over, shall men give unto your bosom. (Luke 6:36)

PRESENT OFFICES OF ASCENDED BEINGS

BELOVED HELIOS: The Sun God for the planetary system to which the Earth belongs.

BELOVED VESTA: The Sun Goddess (Divine Complement of Helios).

THE ELOHIM: Planetary builders of universes and galaxies.

LORD MAITREYA: World Teacher of the Great White Brotherhood (recently elevated to position of Buddha).

LORD MAHA CHOCHAN: The superior being under whom the seven Chohans serve; also representative of the Holy Spirit for the Earth.

ARCHANGEL MICHAEL: Prince of the heavenly host. Lord of the seven Archangels.

ASCENDED MASTER EL MORYA: Chohan of the First Ray, director for world government.

ASCENDED MASTER SERAPIS BEY: Chohan of the Fourth Ray. Teacher of spiritual discipline necessary to achieve the ascension.

ASCENDED MASTER SAINT GERMAIN: Presently engaged in preparing new world religion on the basics of ceremony.

GREAT DIVINE DIRECTOR: Manu of the Seventh Root Race, whose civilization will be expressed in South America.

BELOVED SANAT KUMARA: Lord of the Flame from Venus, who came to Earth at a time of cosmic crisis and remained as Lord of the World, until Siddhartha Buddha accepted this office.

GOD MERU: Guardian of the Feminine Ray focused in the Andes Mountains of South America. (God Himalaya is guardian the Masculine Ray in the Himalayas.)

ASCENDED MASTER JESUS: The beloved Master who manifested the works and the nature of the heavenly Father on Earth during his mission in Judea (Now a World Teacher.)

ANGELIC HOST: Beings whose nature it is to love and serve God and his divine messengers.

GREAT NATURE DEVAS: Beings who serve with the seven Elohim to create and sustain the beauty of nature.

ASCENDED LADY MASTER CHARITY: Archaii of divine love; divine complement of Archangel Chamuel.

ASCENDED LADY MASTER NADA: Chohan of the Sixth Ray.

ASCENDED MASTER KUTHUMI: New World Teacher.

NOTICE TO SANCTUARY AND GROUP DIRECTORS

Please be advised that our beloved Mrs. Zora Fellows has been appointed, by the beloved Master El Morya, to act as director of sanctuary and group activities. Her address is Mrs. Zora Fellows, P.O. Box 3776, Daytona Beach, Fla. Special announcements from the Ascended Masters will proceed, as specified in the June BRIDGE announcement, from The Mother House of the beloved Maha Chohan, Postal address: P.O. Box 5, Flourtown, Pennsylvania. Thanking you for your loving cooperation, I am, in the service of the Light.

Geraldine Innocente, President, The Bridge to Freedom, Inc.

Our New Address

Gentle readers, please be advised that the principal office of The Bridge to Freedom, Inc. has been transferred from Philadelphia, Pa., to Flourtown, Pa. Therefore, to avoid delays, please do not send your correspondence to P.O. Box 335, Philadelphia, Pa., but to The Bridge to Freedom, Inc., P.O. Box 5, Flourtown, Pa.

SCRIPTURAL QUOTATIONS FOR ALL REQUIREMENTS

Healing

The prayer of faith shall save the sick. (Jas 5:15)

They that wait upon the Lord shall renew their strength...they shall run and not be weary, they shall walk and not faint. (Isa 40:31)

Supply

All that I have is thine. (Luke 15: 31)

If they obey and serve him, they shall spend their days in prosperity. (Job 36:11)

But seek ye first the kingdom of God, and his righteousness, and all those things shall be added unto you. (Matt. 6:33)

Pride

His mind hardened in pride, he was deposed from his kingly throne, and they took his glory from him. (Dan. 5:20)

And they shall bring down their pride together with the spoils of their hands. (Isa. 25.11)

False Teachers

Beware of false prophets, which come to you in sheep's clothing, but inwardly they are ravening wolves.

Ye shall know them by their fruits. Do men gather grapes of thorns, or figs of thistles? (Matt. 7:15, 16)

Evil Impotent

Every plant which my heavenly Father hath not planted shall be rooted out. (Matt. 1:13)

THE BRIDGE

TO FREEDOM

**A Monthly Journal Devoted to Individual Unfoldment, Contact
With the Great White Brotherhood and Cooperative World Service**

OCTOBER 1958

**TO THE MERCY OF THE UNIVERSAL I AM PRESENCE WHICH
HAS PROVIDED THE WAY AND MEANS BY WHICH ALL IM-
PRISONED LIFE CAN SET ITSELF FREE!**

We, of the Spiritual Hierarchy, who have utilized that Violet Transmuting Flame to attain our own spiritual freedom from all errors created through the destructive use of God-given free will, are so grateful!

To those Cosmic Beings, the Elohim of the Seventh Ray, beloved Arcturus and Diana, to the Archangels, beloved Zadkiel and Lady Amethyst, and to the beloved Brothers, the Ascended Master Saint Germain and his divine complement, Lady Portia, all of whom have guarded, sustained and expanded the Violet Transmuting Flame in, through and around the Earth and its atmosphere, we send our deepest love for that service, on behalf of imprisoned life everywhere!

To the Violet Fire of Freedom's Love, itself, an intelligent and conscious activity of God's mercy, we bow, in humble gratitude, for service to us and to those who follow after us on the spiritual pathway home, into the victory of the ascension into the light!

This issue of the Bridge to Freedom is dedicated, primarily, to the service of the Violet Fire (which can and does transmute all distress and limitation, when called into action). We urge our gentle readers to use it, to benefit by its practical service to free themselves and our sweet Earth of all distress and to invoke the FEELING of the efficacy of the Violet Flame's reality from those Divine Beings who, through its use, have set themselves and all the life they contact, permanently free from temporary shadows and chaos of every kind. Thank you so much.

Thomas Printz, Editor

CHELAS HAVE WORKED TOGETHER BEFORE, MANY TIMES

Address By Beloved Saint Germain

Flourtown, Pa. July 4, 1958

Beloved friends of Freedom, drawn here from every point on the Earth's surface, because you are interested in my cause and interested in the activity which I humbly endeavor now to manifest on this planet Earth, I bid you welcome, welcome from a friend who has loved you, does love you and shall love you until you are God-victorious in your own magnificent Ascended Master realms of light, free eternally from every passing limitation and knowing the fruit of the labor that you have performed, not only in this embodiment but in many other lives preceding this to bring freedom to mankind. This was not only political freedom, but spiritual freedom, freedom of the press, freedom of speech, freedom of the fears and superstitions of the dark ages and freedom from any manner of human concepts that all down through those dark ages mankind feared.

Beloved ones, you are those lifestreams who, embodiment after embodiment, along all the seven lines of constructive endeavor, pursued some course of research wherein greater freedom might be the benefaction for this Earth and its people, and all life thereof. It is, therefore, no happenstance that you join my banner of spiritual freedom, and it is no happenstance that you have loved me, have served with me in this short life. How close, how very close we have served together, loved together, enjoyed happiness, personally together, and, in confidence, have come through some stormy times together to reach a safer shore.

We Are Like The Artists

Now, in this new era and day, which the Hierarchy so kindly are assisting me to establish upon this planet Earth, I can but express to you, here assembled, my personal gratitude for the constancy of your endeavor, for your patience, one with the other, and for your capacity to understand, even a small bit, that you have seven types of mankind to deal with, and that the momentums of good which will form, and are forming, the activity which is the bridge of light of which Morya spoke, come from the Causal Bodies of those developed lifestreams along the seven rays.

If you were an artist and you had just begun to use oil paint, you would find your first endeavors would result in a mixture that, perhaps, would be not too satisfying to yourself, and most assuredly not satisfying to others. Then, as you developed dexterity, you could find the blending

of those colors on your pallet, and then upon the canvas. You would develop a dexterity which would be pleasing to yourself and a satisfaction to the rest. Now, this is exactly what we are doing from our realm. We are blending together the fully gathered cosmic momentum of all the chelas' good energy for this world cause.

The difference between the chelas and the oil pigment is the obedience of the pigment to the artist, but when you deal with living beings with free will you have perhaps a very nice combination, we shall say, to form a group or a sanctuary, or even a family unit, and then through circumstance of pressures, internal or external, some of the colors are mixed unpleasantly or diluted and there is again the opportunity, love's opportunity for us to go into action with the Violet Flame and Ray and remove the cause and core, as well as the record and memory, of the temporary tangle, shall we say, of the energies of the earnest ones.

Conservation Of Energy

We, on the Seventh Ray, Arcturus and Diana, beloved Lord Zadkiel and Holy Amethyst, myself and the gracious Portia, we never tire of our service. We enjoy using more and more of the power of the Violet Fire, to set mankind free. We do appreciate those rare instances where individuals are alert to put into action what knowledge they already have in the invoking of the Violet Ray and in the blazing forth of the transmuting flame, in order to conserve our energies at a particular point, or for some local incident.

You see, order is heaven's first law. You all have known this for centuries of time, and conservation of energy is also one of the orders of heaven. Therefore, the more energy that we require to harmonize, to balance and purify trained chelas, the less energy is allowed for us to develop and expand certain cosmic activities which will be for the benefaction of the human race. Therefore, to the chelas, dear, sincere and honest, I again ask that wheresoever you can, silently or audibly, as conditions permit, where you see there is temporary discord or distress, make the call with full feeling of the efficacy of this Violet Fire and allow it to act through you and through the conditions. Then we have a funnel from the Ascended Masters' realm, through which any of the members of the Seventh Ray can pour assistance into the condition, without ourselves having to make a full descent into that person, place, condition or thing.

Thus, you have within your power, the most magnetizing activity in

the universe. The Holy Christ Flame that is within your hearts, and that Holy Christ Flame which is your divine love, can tie to any Divine Being, wheresoever they are in this universe, and if that love is intense enough, it proceeds, even from this universe, to the one above. If it is not intense enough, there are Silent Watchers provided over your sanctuaries, your homes and your countries to accept the prayer force, or the invocative power that you individually and collectively send up. They CHARGE it with their momentum and direct it on through the psychic and astral realm into the Ascended Masters' octave. Not only beloved Immaculata, who is the planetary Silent Watcher of this Earth, is constantly alerted to give assistance, but the lovely Silent Watchers of every planet, and that of the planet Earth are alert to give help and assistance, and your own Silent Watcher gives you the assistance too, when it is required.

Call To Hercules And Amazon

There are times in every chela's life when he or she is in a position where the energies and dynamic power are not available through the outer self. When that condition does so exist, call to the beloved Hercules and the beloved Amazon, call to the beloved Michael and beloved Faith, call to beloved Morya, call to any of these Divine Beings to give their help and assistance to you and they will help you revitalize your lower bodies with that power that you require to keep on keeping on.

Ephemeral stock piles of energy, like clouds that are whisped or fly before the winds, are not the activities of the sacred fire of which we speak. We speak of energy that has been qualified and charged, for aeons of time, by self-conscious intelligent beings and which is yours to use by merely sending up a thread of thought, or a prayer from the heart, without even using words, if the occasion is important and you are not in a place where you can make audible expression with discretion.

Now, beloved ones, if somebody told you here on Earth that they had placed, as an endowment for you, in one of the safest investment houses on the planet, a million dollars in cash, for you to use all through your life, freely, as you wished, to enjoy the pursuit of happiness and to have your freedom. What release would come to those of you who temporarily have not that freedom. Now, that million dollars is as a piece of paper, which is all it is anyway, as against the cosmic stock pile of the Elohim, the Archangels, the Archaii, the cherubim, the seraphim, the angelic host, the Cosmic Beings, the Solar Logoi, the World Teacher, the Hierarchs of the Retreats, the Maha Sahib and ourselves, for world

wealth is changing in this day, and soon only those whose light burns brightly will have the sustenance to sustain the masses.

The Light Of God Given To You

The Light of God, which forms those stock piles of energies, is eternal, knows no limitation and we give it to you without a lock and key or a pass book or a check book. We give it to you, and asking you only to use it, because in using it, life imprisoned shall be free. That is the gift of heaven, to all mankind, who can understand that already established, for everyone, is this magnificent stock pile of energy. It is yours to use and within this energy is contained every virtue, every God gift.

I am the Master of ceremonies and rituals, I am the Master that shall draw forth those magnificent ceremonies, in which I choose to incorporate angelic beings as well as selected chelas in cooperative song and visualization and rituals, which I know will please your hearts, but first must come anchoring in the consciousness of the chela of the process of redemption, which goes on now all over the Earth, all over the water element, all over the air element and into the fire element, that has been, through proximity to mischievous human beings, somewhat mischievous, itself, in its activity.

Until that hour comes when this full redemptive process is completed, the glorious ceremonies, which are yet ephemeral in some of your minds, cannot be drawn forth in their fullness and beauty, but they shall come, beloved ones. There shall be a day when you shall hear an angelic choir, Hosanna to God, when you will see a procession of the angelic host led by one of the magnificent seraphim, holding aloft the living Flame of Freedom, visible to the sight of the elect and the select. God speed this day!

Visiting Retreats At Night

Beloved and blessed ones, when our Lord Maha Chohan opened the Ascended Masters' retreats to you, he gave you such great opportunity to visit with the Hierarchy and mingle with the Ascended Host who are there, and as the beloved Morya said, for those that are new and a little wobbly as to consecutive projected consciousness, we provide, always, safe sponsors here, there and back again. So even in your etheric bodies, if you are going to sleep, be wise enough to direct your attention towards the Ascended Masters focus which is active during the thirty-day

period. You will be welcomed into the heart of the retreat and you will absorb and be permeated with the particular FEELING that is gathered there and you will return, renewed, in the morning, renewed in mind, recharged in feeling, revitalized in flesh.

I stand dear hearts, with the inner sight. You may say, you worked too hard during the day to even think about visiting a retreat at night. You can hide nothing and I just want to answer gently, it will take one minute of your time, after you have refreshed your bodies, and lay down, one minute only, before you close your eyes, to think of the retreat which is open. Your sponsor for the month will see that you go there safely. Do not be concerned if you don't stay there ten hours, dear hearts. Five minutes in one of these Ascended Masters' Retreats does so much for you. Some of you are so earnest, so sincere and because you do not have a consecutive eight or ten hours sojourn without interruption without returning to the physical body, there is a sense of condemnation in you. I assure you if you will take one minute, and before going to sleep just ask your sponsor to take you there, you will be there, you may not remember it in its fullness but we never break a promise. A promise given by an Ascended Being is a bond that holds century after century.

When I promise you protection in the projection of your consciousness, I stand, in God, ready to fulfill it, even if I, myself, have to carry you to and from, and it is not the first time I have performed, lovingly, such a service, some of you remember. It is a lot easier now, but when I wore a flesh form, carrying the chelas back and forth to our meeting place became a little arduous and yet, I did that many a time when seven or eight of us were gathered together practicing the law of alchemy, and in those ages there was much superstition and consciousness of witchcraft and darkness of mind. The chelas who were really interested in our activities, were frightened to leave their homes. Many a time I have carried, over my shoulder, an interested chela who was cowering behind his own shutter, and then carried him home again and gave him bread and milk before I left.

NOW! Isn't it a little easier for you? You don't at least have to bodily carry your chelas to and from the sanctuary.

Polaris And Magnus

To the Cosmic Beings, Polaris and Magnus, I am eternally grateful. Have you thought what it has been for them, TO HOLD THIS EARTH ON THAT BENT ORBIT, AND TO KEEP IT FROM SLIPPING? Think of the LOVE of those two beings and their great mercy, as they slowly move it, and then cease when there is too much strain. When the oceans begin to churn, when the Earth's surface cracks, when the chelas feel it, when elemental life feels it, those two great beings, with loving hands cradle this earth, as you would hold a small infant, and move it, stop it, again and again. Beloved ones, this Earth is in the hands of magnificent powers of love, so be fearless. They are not going to jolt the Earth, or any of the peoples on it, rapidly. They are endeavoring to do it gradually, according to the capacities of the chelas to be fearless.

YOU HAVE INITIATIONS ALMOST EVERY TWENTY-FOUR HOURS in the outer world and Divine Beings record how fearless you are in the face of what you think are very ordinary and mundane circumstances! That is recorded by those Divine Beings who are watching the movement of the axis. When there is fear, whether it is fear of lack of health or supply or distress of somebody else or whatever it may be, when that is recorded in the book of life of a chela on whom we particularly are depending to hold the balance, then the cosmic record is read and the movement of the Earth slows down.

So, I ask you to go into action in your groups and individually, in yourselves, call to beloved Astrea or anyone whom you like among the Ascended Host. We smile, sometimes, at the great love and great distaste that you have for various members of the Hierarchy, but I think there should be among us all somebody that you can love. Those others that you can't love, you just don't understand. So if they bother you, as far as the outer self is concerned, keep away from invoking them and their power and pray until you get a better understanding. Even in the human octave that is the part of wisdom. You don't deliberately encounter individuals who are distressing to you, and you must learn the power of discretion to proceed to God-maturity in this activity.

Call And I Will Answer

I recommend to you, heartily, that you choose an Ascended Master or angel that has an affinity to your present consciousness. You see, the law of heaven is, call and I will answer, knock and it shall be opened, seek and ye shall find. So if you continue to look for Hercules and Ama-

zon you shall find them, and if you are one of these very placid souls, and placidity is nice if it is not lethargic, you are going to find the tremendous pressure and power of Hercules and Amazon will shatter, shall we say, the placidity and charge you with a tremendous power.

Kuthumi Or El Morya?

So if you like the serene way of life and the gentle gracious pathway up the hill from the plain, with many resting places, call to Kuthumi or Confucius, but if you want to make that mount of attainment straight up the glacier side, you know whom to call. I will tell you this, beloved Morya may be a strong and relentless Guru, and if you follow, you will make that mount in about three years, as against maybe several embodiments, but don't take his hands unless you mean it, because once you take it, he will never let you go. You know it and so do I.

In the radiation of the Ascended Host and while we are visiting with you and speaking with you, all your energies are vitalized and you become very enthusiastic, but I warn you as a friend, be careful, because you will be shot up the mountain, skinned knees and garments torn over every kind of obstacle, if the great Morya is your Guru and your guide. If you care to circle round and round, you will get there, too. You can listen like Kuthumi did, so long ago, to the birds in the fields and watch the flowers and rest in green pastures and take a step now and then when you get enough vitality.

That is your privilege as children of free will. Give that privilege to each other. If somebody is going the long way and you choose to go the direct way, try to be tolerant. Because in the long run, although you will be there before, they will come straggling in and then of course you will have to have the great restraint not to say, "Hah! If you had come direct, you would have been here long ago.

It takes all types of men and women to make this beautiful world, dear hearts. Those who do make the ascent quickly, I know, are more or less impatient with those who like the easier pathway. It is, shall we say, opportunity. I try to keep that before the attention of the chelas. Instead of a sense of service or work, it is my opportunity to see that all get home, and to learn, as the great Sanat Kumara did, that patience with every type.

Every day you have love's opportunity to be tolerant and patient and representative of either a daughter or a son of freedom, wherever you

move, to help them along on their own path. Do not intrude upon their free will. If you are advancing more rapidly, keep it in your heart, for he who shares initiations before they are completed, loses a full sixty per cent of the benefaction, as you know. You have no need to speak of your light. You are your light. Each and everyone of you, passing before the Karmic Board, as you did last evening, were only a radiation of your aura and size of your Christ Flame.

Chelas of Freedom – Sail On

It is the same in this human appearance world. You have temporary names and personalities and positions in life, but in essence, you are just your life and light, and your aura, that you consciously create and externalize, speaks so loud that your words to the discriminate, cannot even be heard. To the indiscriminate yes, words are a powerful persuasion, but to the poised, anchored lifestream, with his attention upon his God, it is the light, the aura and the radiation, not the worded expression that is the indication of where such a one is on life's path.

Now beloved ones, I would like to say, as you are about to participate in a magnificent banquet, prepared so lovingly in my name and that of the beloved Portia and all beings on the Seventh Ray, that I, too, shall participate in that with you. I would like you to remember that long ago I crossed an uncharted sea, to find this land now called America. That celestial wind blew those sails and the great Lord Lanto was the energizing power that put wind in those sails. When my men were all ready to turn back, to mutiny, they were filled with fear and distress, yet even though I and my privy council, in the cabin of the boat, the Santa Maria, knew that we were days overdue and land was not in sight, yet did we hold our heads high while on deck, conveying courage, confidence and assurance to a mutinous crew, and praying with all the faith in our hearts for land. I was unascended then, I would raise my head, not knowing in the outer consciousness, and just say to them, "Sail on and on and on," and then, reluctantly, but obediently, they did so.

Now, you come from the Ascended Masters' banquet. Your cups are filled to the brim with radiation and instruction. You will soon be returning in your own little boat, the celestial winds of heaven directing them and settling you in those spheres of influence which are your sanctuaries, groups, homes and activities, and wheresoever you are, remember my words as I speak them this morning, CHELAS OF FREEDOM, SAIL ON AND ON AND ON TO VICTORY! Thank you and good morning.

Saint Germain

CONFUCIUS

On July 4th, 1958, after completing the ceremonies at the Rocky Mountain Retreat, welcoming the Karmic Board and, generally, officiating as host to the Great White Brotherhood and their unascended chelas, beloved Lanto, Hierarch of the Rocky Mountain Retreat for centuries of time, took the seven-pointed Golden Crown, which lay in state on a golden pillow, before the Precipitation Flame, and lovingly placed it upon the head of his chosen and qualified successor, Confucius, who was Lord Lanto's disciple, even before his ascension.

The beloved Confucius, known by his contemporaries as "the Master K'ung," was born in 551 B.C. His birthplace was the village of Ch'ueh, in the state of Lu, where the family had migrated from the dukedom of Sung, of which they were a branch of the ruling house. The lineage of Confucius may be traced to the sovereign, Hang Ti, who reigned 2,697 years B.C.. His father, renowned as a soldier, was twice married. Confucius was the child of the second wife.

His own words trace the growth and development of his intellect and genius. "At fifteen," he tells us, "my mind was bent on learning. At thirty I stood firm. At forty I was free from delusions. At fifty, I understood the laws of providence. At sixty, my ears were attentive to the truth. At seventy I could follow the promptings of my heart without overstepping the mean."

R. Dimsdale Stocker tells us that Confucius married when but nineteen years old, and had one son and two daughters. When fifty years old, he entered political life, being appointed governor of Chung Tu. Having previously established a reputation as a teacher and moralist, Confucius rose still higher in public esteem, until, at length, he became a veritable idol in the eyes of the people.

This state of things, however, was destined to prove of but brief duration. He had to resign his position and began a period of exile and wandering from state to state. But his followers and disciples were able to testify that, even in the hour of adversity and defeat, the courage and serenity of the Master did not desert him. His passing on occurred in 479 B.C.

The following are a few of his well known sayings:

On the Superior Man

What the superior man seeks, is in himself. What the mean man seeks, is in others.

The superior man is quiet and calm, waiting for the appointment of heaven, while the mean man walks in dangerous paths, looking for lucky occurrences.

In archery we have something like the way of the superior man. When the archer misses the center of the target, he turns around and looks for the cause of his failure in himself.

On Sincerity

To see what is right, and not to do it, is want of courage.

Make conscientiousness and sincerity your chief object.

Sincerity is the way to heaven. The requirement of sincerity belongs to man.

I do not see how a man without sincerity can be anything but good for nothing.

What is required in feeling is sincerity, in words, that they be susceptible of verification.

The superior man practices before he preaches.

On Virtue

Is virtue remote? I wish to be virtuous, and lo, virtue is at hand.

Virtue is not left to stand alone. He who practices it will have neighbors.

Genuine virtue rarely accompanies artful speech.

What needs no display is virtue.

Is he not a man of perfect virtue, who feels no discomposure though men may take no note of him?

Miscellaneous Sayings

When you have faults, do not hesitate to abandon them.

He who expects much from himself and little from others, will prevent himself from being disliked.

The untruthful man is like a chariot without a yoke.

If you would avoid vexation, reprove yourself much and others little.

The wise have no doubts, the virtuous no sorrows, the brave no fears.

While you are not able to serve man, how can you serve the gods?

What do you do not like when done to yourself, do not to others.

When you are laboring for others, let it be with the same zeal as if it were for yourself.

If acts of goodness be not accumulated, they are insufficient to give their stamp to one's reputation. If acts of evil be not accumulated, they are not sufficient to destroy one's reputation.

Make happy those who are near, and those who are far will come.

The Homes and Retreats of The Masters of Wisdom

TEMPLE OF PURIFICATION BY VIOLET FIRE

(Etheric Temple over the Island of Cuba)

(October 15th, through November 14th, 1958)

The beloved Archangel Zadkiel, together with his divine complement, Holy Amethyst, have a glorious temple in the etheric realms, over the Island of Cuba. This temple was once a physical temple on the landed surface of the Earth, at the time when the White Order still held the balance for God's divine plan active, through the Holy Christ Self of every individual, using the Earth as a temporary schoolroom, as well as the God-free angels who walked and talked with mankind, and the happy, cooperative elemental kingdom, which, under their mighty director, served joyously to maintain, sustain and expand the kingdom of heaven on Earth for the blessings of all life in the Earth, on its surface and in its atmosphere. The day is coming again, and quickly, for the beloved Chohan of the Seventh Ray, the Ascended Master Saint Germain and his divine complement, blessed Portia, to re-establish the conscious, joyous and loving cooperation among these three kingdoms!

We, the Spiritual Hierarchy, are consolidating our individual and collective energies and services, to assist our beloved Ascended Master Saint Germain and his divine court, to quickly make of the Earth, Freedom's Holy Star. The day is already here when the angelic host, mankind and the elemental kingdom are destined, by cosmic fiat, to lovingly cooperate in this God-ordained plan! We invite you, each dear and earnest chela, to assist us in this cosmic hour!

The beloved Archangel Zadkiel, like unto the Ascended Master Saint Germain, is a high priest of the White Order, particularly endowed with the God-given gift of training all sincere and worthy chelas in the power of invocation of God virtues for the blessing and benediction of the Earth and its attendant evolutions. During this thirty-day period, while the be-

loved chelas have the opportunity of visiting Lord Zadkiel's Retreat, avail yourselves of the loving instruction which he and his God free angels will impress upon the inner vehicles of all who will sincerely request their assistance.

Remember, beloved ones, that while Lord Zadkiel's Temple was physically manifest on the surface of the Earth, the greatest battle between darkness and light took place. Some individuals, secretly, aligned themselves with the black order, and few remained sincerely affiliated with the White Order, whose only service then, as now, is to sustain and expand God's Holy Will for the Earth and her attendant evolutions. This malpractice caused the sinking of Atlantis and the temporary withdrawal of Lord Zadkiel and his legions from the great privilege of personal, contact through the outer consciousness with the Cosmic Beings, the Ascended Masters and the angelic host.

Many individuals, after so-called "death," witnessing the devastation caused by their destructive use of free will, asked the Lord of Karma for an opportunity in succeeding lives to transmute the evils which they participated in invoking and which have plagued mankind and all imprisoned life from that time up to this present cosmic hour. The Mercy of God, the I AM Presence is NOW giving ALL individuals opportunity to so participate in the redemption-of these temporary evil expressions and to remove (at inner levels) the cause and core behind such manifestations.

Avail yourselves, beloved chelas, of this opportunity! Help us now in the re-creation of the beautiful planet Earth, preparatory to the descent of the Lord of the Seventh Ray, beloved Saint Germain and blessed Portia! Lord Zadkiel and his legions of light will help you! Blessed Holy Amethyst has provided for you, each dear one, a lady sponsor, charged with the fully gathered cosmic momentum of the power and efficacy of the Violet Fire to, AT THIS TIME, make things right, not only personally but for the entire planet and its attendant evolutions! I KNOW you will avail yourselves of this opportunity!

El Morya

MONTHLY LETTER TO TRANSMISSION FLAME CLASS

October 18, 1958

Beloved Chelas, I AM blessing you for seeking such freedom, not only for yourselves, but for all imprisoned life in the Earth, on its surface, and in its atmosphere.

As we, the Spiritual Hierarchy, and you, the earnest chelas, have opportunity, without parallel, to enter into the glorious retreat of Lord Zadkiel and absorb there the magnificent momentum of the Violet Flame of transmutation of all distress, I shall ask that one of Lord Zadkiel's legions accompany you when you return to your physical vehicles, after the time you have visited with him and beloved Amethyst, to hold the conviction of the radiance and power of this Violet Fire to set you, all you hold near and dear, and the very Earth, eternally free from limitations of every description. Lord Zadkiel, as you know, is a cosmic master and teacher of the powers of invocation of the white order. So many of you, dear and blessed ones, served with him when his temple was visible and tangible on the landed surface of the Earth! I invoke the resuscitation of your divine memory of those glorious days when angles, men and elementals served together to expand the light, music and aura of this sweet Earth! This will give to you, each and every one, renewed enthusiasm in your present service. Anticipating meeting with you, beloved of my heart, at Lord Zadkiel's retreat, I am always your friend, counselor, Guru and guide.

Maha Chohan

Statement For Transmission Flame Class

I AM inbreathing the Archangels' feeling of th'masterful use of Violet Fire.
(Use also for absorbing/ expanding/projecting)

Hierarch: beloved Archangel Zadkiel. Color of Flame. Royal Purple. Musical Key-note: "The Blue Danube."

ZADKIEL, ARCHANGEL DEAR

Zadkiel, Archangel dear—
Coming to Earth today,
Winging your way to us here,
Bringing us Freedom's Ray,
Lift our attention on high,
Make us of your world a part!
For your being so selfless,
So willing to help us—
Oh Zadkiel dear! Bless your heart!

Zadkiel, Brother of Light,
Flood Earth with Violet Fire,
Help us to make all things right,
Purify all desire!
Take away pain and distress,
Let all in peace now abide,
Let the love of God seal all
In flame that will heal all,
And angel, stay close by our side.

Zadkiel, Eternal Friend ,
All through the ages past,
Help us all good to defend
Bringing Earth "home" at last!
We hold you close in our hearts,
Archangels, Archaii too,
For your service unending
Our praise is ascending,
Oh Great Central Sun, bless them too!

Melody: "Oh, How I Miss You Tonight" (Key of G)

YOUR COSMIC RAY

Address By Beloved Archangel Zadkiel

December 28, 1957

Hail to thee, children of love and of light, who have foresworn a happy existence, in a freer plane, to serve a planet in distress! Great is your personal darsham, gathered through your individual and collective sacrifice, particularly during a time when the planet Earth is going through a period of cosmic initiation and planetary crisis.

Little do you know, from the outer, how strong is the ray, directed through your own emotional, mental, etheric and physical, vehicles, and how real it is. That ray beloved ones, is concentrated, positively-charged, qualified life, that can never be misqualified, no matter of what the antics of the human personality.

The ray, which the Karmic Board took into cognizance before the guardians of the race were allowed embodiment, is an already fully-gathered cosmic momentum of quality, a virtue, a gift and a power that is as needed to sustain life on the Earth today as is the sun and as is the very body of Virgo, beneath your feet. That has nothing to do with the misqualified energy which is subject to the use of your free will and which still flows through your emotional, mental, etheric and physical vehicles.

There is a part of the Master Ray from the heart of your own individualized I AM Presence which is energy, which you have consciously generated and magnetized, qualified with some God virtue at inner levels sometimes, on different planets, in different spheres, in different universes. That ray is the property, shall we say, of your individualized I AM Presence and is directed into and through the lower strata, of which we have spoken, so long as you remain in embodiment here on Earth. That Cosmic Ray of your I AM Presence carries the particular gift, which is part of the universal tapestry required in order to seal the Earth 'round in the magnificent Violet Fire and make of it Freedom's Holy Star, so that every man, woman and child born in the future, as well as those who survive through these present changes, may truly be born to the royal purple and wear it in dignity and honor.

So, sometimes when you feel very insignificant, when you feel individually that your part in the God-plan is very small and would not be missed, remember please this cosmic ray directed from your Presence through the emotional, mental, etheric and physical substance of this Earth for a specific reason which is the nourishment of the souls of mankind as well as the nourishment of the elemental life that serves mankind, and the nourishment of all the God-qualities that are required to manifest, in time, from the Holy Christ Selves of all who inhabit and are to inhabit the Earth. You hold that ray within the immortal Threefold Flame within your heart, just as if you held one end of a scepter in your hand and the other end was in the hand of a God Being. Only in this case, that Master Ray, the upper end, is in your own Presence and keeps drawing from your Causal Body, as the lower end is anchored in the Immortal Threefold Flame within your physical heart.

We are, spiritually speaking, very interested in the evolution of the Earth and we are very interested in sustaining these particular rays through the chosen few, usually the guardian spirits from other planets, and other systems. We, wherever possible, encourage those blessed ones, who are the anchorage of those particular rays required, to remain within their physical garment, until this specific crisis is past.

Chelas May Be "Drafted"

When the beloved Polaris and Magnus have completed the task of straightening the axis of Earth, when the individual and planetary strain of such a tremendous task is completed, some of the students will have the opportunity of being "drafted" you might say, and to them can be transferred that ray which you have guarded, guided, magnetized and radiated for a specific God purpose. You have been told, beloved ones, how even the Ascended Master who takes the obligation of holding the focus of the Ascended Masters in any retreat, cannot leave that retreat in honor, until a successor has been found and is qualified to render the service through that retreat.

This is equally true in regard to those individuals who have magnetized specific cosmic rays through their own physical vehicles, to hold the balance for the Earth's evolution. When there is raised up, and it is a very good call for you to make individually, when there is raised up another soul, developed emotionally, mentally, etherically and physically, to a point where the Karmic Board feels that through such a one the ray that you have guarded may be sustained, such a cosmic transfer can take place. It is a mystic and little-understood subject so far as the outer mind is concerned, but it is very important to us, just as important as it is to hold the Ascended Masters retreats as foci throughout the world and too, wherever we can, to encourage the sustenance of the sanctuary and group endeavor.

I, as you know, am the teacher of the powers of invocation, one of those teachers at least. Most of you, during your long and intricate course upon the planet Earth, have more than once been my pupil. You have developed to a lesser or greater extent, of course, according to your understanding to magnetize life, and how to invoke the unseen powers which can be of blessing or of great distress, according to that to which you have tied your attention and your feelings.

Wrong Use Of Invocation

As I have described to you before, on Atlantis many, many very dear children of God have learned the power of invocation but then chose to use that power in order to invoke unseen influences, which were not of benefit either to themselves or to the race, as a whole. Even today, in embodiment, there are many good and sincere lifestreams who gathered that momentum of the power of invocation throughout many centuries of study, both in the physical body and at inner levels, but whose ultimate goal, shall we say, for which they direct their attention, is below the Ascended Masters' level, and their motive for invocation, plus their capacity to connect with the powers beyond the human veil, determine the type of manifestation that they will draw forth.

Some of these good people have invoked spirits of the departed, sincerely, honestly and faithfully, and have had a measure of success in connecting with those individuals, particularly before the "clean up" by the great Prince Michael in the astral or psychic realm. Many, many more unconsciously used the power of invocation to connect with mass entities of a discordant nature, such as war, pestilence, fear and any number of the negative activities that form the effluvia around the planet Earth. These individuals invoke those very activities upon the screen of life through their attention upon them, through thinking of them, through feeling violently about them and they manifest them as distresses to themselves and to other people. They are unconscious of this power of invoking anything or any one or any activity upon which their attention dwells!

For instance, beloved ones, take the mass entity of fear. It has intelligence, because it is God's life, that has been misqualified. It has a name, "fear!" When you speak that name you draw the attention of that entity just as when you speak the name of Jesus the Christ, you draw the attention and the momentum of love and light which are the power of Jesus the Christ. Now this is more important than you will perhaps understand until you think it through. War has a name, pestilence has a name, and those names invoke the very manifestation of the conditions that are distressing. So if you can enable yourselves as priests and priestesses of the Order of Zadkiel, to remember that the name of anything or anyone is a part of the presence of that one and will, as surely draw the attention of that one as though I were to speak any one of your names here this morning, those of you in this room, and you hearing that would turn and respond by the flowing of your energy forth toward me as I speak.

Therefore, let us endeavor in the invocation of the power of the Ascended Master Saint Germain and his new order to keep our invocations, our decrees, our visualizations, our songs and our activities connected with a positive virtue, quality or Divine Being and thus, avoid unnecessarily tangling with the fully gathered cosmic momentum of some discordantly qualified mass entity which answers your call it looks at you and immediately begins to act.

Beloved ones, this point of law I have longed to put before you for sometime, and this is an opportunity so to do. Call to any of the Divine Beings, the Ascended Beings, the angels, all the Powers of Light and call to and call for their virtues, gifts and powers and you shall have them! Call or think or speak or write about anything that is less than harmony, and you will draw that momentum of discordantly qualified energy toward you, because it is intelligent, it knows the speaker and it is seeking an outlet and that outlet will naturally be through the one to whom the attention has been called.

Dissolution of Humanly Created Entities

This is a part of another activity which we on the Seventh Ray are particularly concerned with, the dissolving of it, and that is the vampire activity of the humanly created mass entities. They live only on the life of individuals! Those individuals being fed constantly by the various media of expression, with the ideas of war and pestilence and distress, are really the subjects of the subtle vampire activity for their very life as they read upon it, think upon it and feel upon it, flows back into that entity and it blows up, beloved ones, growing strong on the life energy of the masses.

Therefore it is our endeavor, to, as quickly as possible, place before the chelas first, the students and then the masses, something that will uplift them through the mind, through the sight, through the hearing, through every medium of the senses, rather than through that which allows their life to pour out from them to increase the mass entity that lives on the fear and the various emotions engendered by unconscious and not always fully cognizant lifestreams.

Beloved ones life is so precious as Lanto has said, and that life is given through the silver cord to every human being in physical embodiment and is intended to express the beauty and the perfection of life, but that life is stolen by every type of seen and unseen force for the magnifying of distresses. You know, that even in your constant vigilance and

guard to connect yourself with your own I AM Presence and our realm, how much of that essence of life leaks away from you and becomes part of the riptides of distress. You are the ones who have learned, to a degree at least, through magnetization of power, of light, and through the use of your Tube of Light, you have learned, at least to a degree, how to prepare your life essence, so that it may through you fulfill the divine plan.

Watch Your Invocations

Take measure of yourself, without condemnation. We do not condemn you. No Ascended Being or Cosmic Being or anyone who lives in the realm of perfection, condemns any unascended being for any error, even conscious mistakes, let alone unconscious ones. You can begin to take a measure of what you are invoking, what you are giving your life to, and you will see how much more vitality, spiritually and physically, you will have, as you do not let your Tube of Light be a sieve, and let your attention be easily distracted from the constructive manifestation and allow your energies to flow through the vampire activities into these riptides of distress, which leaves the physical vehicle exhausted.

The concentration of your energies, beloved ones, on the Ascended Hosts of Light will raise the energies in your individual world, and will vitalize all of your garments, even your flesh form, bringing it back again into a state of beauty and perfection, if you do not let the river of your life flow forth hither and yon without channeling it. This I can tell you.

Those individuals, who have in the past used the powers of invocation for unseen forces that are not constructive, particularly on Atlantis, are in embodiment, a great many of them, again. They have learned that power of invocation, and let me tell you, beloved ones, they are using it to channel energy into the White Order, just as they did when we had our beautiful temple in the vicinity of the Island of Cuba. More and more of the individuals who at first adhered to the White Order, began to enjoy the phenomena created by those who wanted to increase a sense of power and personal glorification and financial support. The masses, interested in the phenomena which was of a temporary nature, did not adhere to the principles of purity, selflessness and godliness, which are the absolute requirement of the true priesthood of the Order of Zadkiel.

Phenomena

Now, the masses as yet, were you to leave this room and go down into one of your large lecture halls in Philadelphia, would be much more

interested in your precipitating, from the invisible, a lovely amethyst or a shower of roses, than they would be in hearing my instruction, or yours. The beloved Kuthumi, and the beloved Master Morya through a special dispensation from the Cosmic Law, endeavored to sustain the interest of the heart center of the Theosophical Society, by allowing Madam Blavatsky the powers of precipitation, for a time. Yet, even with all that power which drew the vital prana from her life, beloved ones, and was a major cause of the illness of her later years, the curiosity seekers were not satisfied by any amount of phenomena that was produced and they sooner or later returned to an easier orbit.

Phenomena naturally comes with spiritual development as you go higher and higher in consciousness. That is the Ascended Master phenomena, the light which you see, the magnificent Violet Fire, sometimes the face of one of the great Ascended Ones, true, but that is a result of application and a means of a conviction of a consciousness that is not merely seeking, curiously, for something new. So these individuals who produce so-called phenomena need the prayers and application of the remaining members of the White Order on the Earth, for they are literally eating into their own etheric bodies and their vital prana, which could be used for something much greater, later, than the floating ectoplasm and manifestations at seances in the outer physical world.

Beloved ones, your life has one purpose, to fulfill your divine plan here on Earth. Some of you dabbled, through the ages, with black magic, some of you enjoyed the results and the harvest for the time being, but at inner levels, when you came again before the Karmic Board and saw the result, not only to yourself, your own soul growth, but the result of the effluvia that such an incantation caused upon the planet Earth, you foreswore the use of that. Thanks be to almighty God and it is to you who have foresworn incantations of a lower order, that we look for re-establishment of the White Order on Earth, again.

Quality Versus Quantity

NUMBERS ARE NOT SO IMPORTANT AS THE QUALITY OR SPIRITUAL NATURE OF THE INDIVIDUALS WHO ARE INVOLVED. Please remember that there are people on this Earth, today, who still practice hexes and curses and blood-rites. Those things are all to be discontinued, with the assistance of the angels of the Violet Fire temples and the assistance of the White Order.

Be assured, as a teacher who has watched every guardian spirit,

every angel that took embodiment, and every human being that belongs to Earth's evolution, I shall make it my personal responsibility to stand with the Karmic Board and ask that those of the White Order who have proven, beyond question of a doubt as to their spiritual integrity and sincerity, be given first opportunity to embody, and those who are already embodied be given every God-assistance of the Seventh Ray to dissolve every memory even, of imperfection of any kind!

We have come to the Christmas Season of nineteen hundred and fifty-seven, closing a year that has been particularly difficult, in the outer sense of the experiences of the blessed chelas. We are entering into the year of nineteen hundred fifty-eight which, according to the great Prince of our Legions, Archangel Michael, is a year when the angels are to be given a great deal more freedom in the lower atmosphere of Earth. These are not only the small angels, but they are also the great powerful seraphic and cherubic beings, whose energies are so potent that they can envelop an entire continent in balance, poise and peace.

1958 A Year Of Promise

The Cosmic Highways have been opened from the hearts of Alpha and Omega down to this universe and those Beings will make the year 1958 a joyous one, in comparison to your individual and collective struggle in 1957, this I can assure you!

Beloved Lord Michael has asked for and secured the privilege of having his retreat opened right after that of the Resurrection Temple, in order to properly greet these beings. You know Michael's Temple is tremendous in size. It has a great power of faith and protection around it, as would naturally be present in the aura of the great Prince of the Heavenly Host. These great devas and seraphim will require such a tremendous focus into which to come, for some of them are as huge as the entire retreat—one being! They are tremendous beings of power and they represent not only the seven rays that you know of, but the twelve rays around the activity of the Sun above your own.

So beloved ones, although 1957 has seemed strenuous, we have been busy on the Seventh Ray, dissolving and transmuting, through the power of love and light, all of your human creation belonging to your worlds, more than you shall ever know, and we shall continue to do so, until you are wholly free. Please remember me and all of the heavenly host, please accept my blessing for being willing to be a member of the White Order, which, in itself, is a strenuous task. Please think of the con-

structive structure of your decree and fiats, so that nothing of a discordant nature can enter into your world. You are dealing with powers beyond the ken of human mind, and it is a blessing that the veil of maya shuts from your physical sight much of that which you, individually and collectively, have volunteered to transmute. It is enough, the experiences that you have touched upon.

The Vestment Does Not Make The Priest

Now, let us joyously enter into the transmutation of all energy into light, the removal of that vampire activity through the attention of the masses, the calling forth of the White Order everywhere on the planet Earth, and let me tell you, in this day it is not the vestment that makes the priest. In this day it is the heart, and the spirit and the soul and the light, which makes the true priest or priestess of our order.

Looking back to the days of Atlantis there were men and women with garments woven in gold, encrusted in our Holy Amethyst, engaged in such nefarious practices that I would not place them before your human mind. There were simple priests and priestesses of the White Order, in plain linen robes. The outer mind loves the show, but the soul of man, in his heart and spirit, knows the radiation and the feeling of truth.

This shall be a test unto you, beloved ones, judge not according to human appearances, but judge by that listening grace, by the essence that flows through those who say they represent us. Even as in the days of your beloved Jesus, there are many who say, and are yet to say, that they come in our name, but all of their vestments, insignia and adornments should not cause any true individual, searching upon the pathway of light, to be drawn by that phenomena, when the essence radiating out through such a one is negative or repellent.

I Will Manifest Before You

You are my beloved chelas, children of the White Order, come into embodiment to serve your glorious Saint Germain and to bring in this age of beauty, ceremony and perfection. I love you! I am fierce as Lord Michael in defending truth, God, Life, Light! Never again, in the name of almighty God, shall the Order of Zadkiel come forth as a travesty!

When I stand, one day, as the result of the acceleration of your vehicles manifest before you, you will be grateful that you have listened to me this day and prepared in grace for tomorrow!

In the name of the great Arcturus, whom I love and serve, beloved Diana, in the name of our blessed Holy Amethyst, your glorious Ascended Master Saint Germain and Portia, beloved Kwan Yin and all the beings and powers that serve the Seventh Ray, I bless you with the discerning mind and illumined understanding heart, with a consciousness of listening grace, with a purity and childness of spirit and of infinite protection against that which appears, on the surface, to be true, but when you cut through that surface you find nothing but imperfection there.

So until we meet again, I am your
Lord Zadkiel

BELOVED ZADKIEL

Beloved Zadkiel, Archangel of power
Transmute for us this very hour
Our thoughts and feelings of the past
Into perfection that ever lasts.
Bring back our memory divine,
And all the powers that once were mine.
Zadkiel, we love thee, bless and adore,
Zadkiel, come forth to us once more!

I have come forth to you again,
To show you how to help all men,
My temple bright shall raise all higher,
Transmuting dross by Violet Fire.
Priestesses and priest, I call thee forth,
Draw forth thy power and save this Earth!
Blaze forth thy light—set all life free,
Blaze forth thy love —I AM WITH THEE!
Tune: Holy Christ Flame

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
With the Great White Brotherhood and Cooperative World Service

NOVEMBER 1958

TO SHAMBALLA, CITY OF LIGHT:

From your radiant presence there was sent forth, aeons ago, the very first call to the hearts and spirits of the guardians of the race, to gather around the banner of beloved Sanat Kumara and to learn, again, how to teach the masses to redeem mankind and all imprisoned life, everywhere.

Into the lovely and gracious presence of Sanat Kumara, the illuminati of the race came, answering the call of LOVE DIVINE! From Shamballa, went forth the first messengers, appointed by Sanat Kumara, charged with the spiritual fires of a newly-awakened desire to serve the recalcitrant race. Always the name of Shamballa rings in the hearts of those privileged to have visited it, been blessed by it, and who have gone forth, renewed in spiritual vigor, to bless the masses of mankind. Now, a new Lord of the World occupies the place of Sanat Kumara! Lord Gautama, too, is a radiant presence of love. At the end of each year, into Shamballa come the Cosmic Beings, the Ascended Ones, the angels, and the devoted chelas, to commune with him, to be re-assigned to service in the name of imprisoned life, everywhere!

We, who have visited Shamballa, who have walked over the marble bridge, back into the world that requires assistance and redemption, bless the builders of Shamballa, its original Great Lord, Sanat Kumara, and now, his successor, Lord Gautama. Without the pressure of pure divine love, with which Sanat Kumara and Lord Gautama have animated us, we should have slept the slumber of the lethargic, rather than serving, in light, the new day! One day, in the not too far distant future, Shamballa shall be known, loved and blessed by all mankind. Hasten that day!

Thomas Printz, Editor

THE THREE DISPENSATIONS
(The Golden Plume Of Wisdom, The Blue Plume Of Power, The Pink
Plume Of Love)

An instruction by beloved Maha Chohan, read from the platform at Philadelphia on November 8th, 1953, in which it is said that the Pink Plume of Love is The Bridge to Freedom activity.

In explaining, recently, the perfectly-ordered sequence of the three great releases of the Masters' light and love to the people of Earth in the last century or so, the beloved Maha Chohan had this to say, in substance:

The Golden Plume Of Wisdom

As you know, every 100 years the great ones in charge of a planet and the illumination and raising of their people, are given a quota of light substance, which is energy, to use to forward their plans on that particular "star." In the 19th century, those in charge of our planet used their quota for that century in bringing forth and working through the great Theosophical Society, which did so much to make the Masters more real to the Western mind and world. There was much accomplished, which made it so much easier to bring their later activities into greater acceptance by the Western mind, in both Europe and America. This, in reality, was a part of the great divine plan for redeeming the Earth and her peoples, and was the release of the GOLDEN PLUME OF WISDOM of the Threefold Flame, the supreme power in the universe.

The Blue Plume Of Power

In the 20th Century, about 1930, The Great Ones again invested their energies through Mr. Ballard, to begin with, in the bringing forth and establishing the "I AM Activity," and the group activities from about 1935 to 1950, returned that energy through the singing and decrees and various activities of the groups all over the world. This was the release of the BLUE PLUME OF POWER, which quality, not being balanced by LOVE AND WISDOM, could not continue to do its perfect work.

The Pink Plume Of Love

The present NEW ENDEAVOR (The Bridge to Freedom Activity) has come forth as the PINK PLUME OF LOVE activity, and must be carefully guarded and supported, always, by WISDOM AND POWER that it remains

divine love and does not become soiled by the outer mind's ideas of so-called "love" or become silly sentimentality. Thus we see the thread of truth running through all these activities and "time and harvest" will prove the authenticity and God-effect of this New Endeavor.

THE USE OF THE SACRED FIRE (I)
An Address By Beloved Zarathustra

Royal Teton, July 8, 1954

Note: Each of the priests of the Order of Zarathustra carries the name "Zarathustra." The Order embodies the spirit of the Fire Element of the Great Central Sun. (See part 2)

Hail, oh spirits of fire from the Heart of God, thou who walk the pathway of life, I, ZARATHUSTRA, priest of the sacred fire from the heart of the Central Sun, have been summoned by your light!

I stood before the Karmic Board and at thy direction I have come forth to speak directly to you who have applied, from within the recesses of your innermost being, for a knowledge in the use of the powers of the sacred fire, that sacred fire which is the master element in every sphere where it is active, that sacred fire which, focused through the temples, is now the master control and balance within every one of the seven spheres but which up to this point, in the physical appearance world, has been guarded, guided, protected and secluded within the retreats of the Ascended Masters!

The Cosmic Order of Zarathustra

It is time, the Cosmic Law has spoken, the fiat of the eternal has gone forth, when the gifts and knowledge of the sacred fire, the balance which it brings, the radiation which it will sustain in the world of form, is to come forth again, under the control and protection of lifestreams who yet wear garments of flesh and have the authority vested within them to invoke, consecrate and radiate these powers of the sacred fire!

The Order of Zarathustra, established in the Heart of the Central Sun of the system, is carried by the Priests of Zarathustra to every sun in the system, and at a given cosmic moment, from the sun to every planet in the system does a messenger of Zarathustra go, to establish, within that planet, the knowledge of the Sacred Fire entrusting it to the priests and priestesses dedicated to sustaining and expanding its light. The Zarathustra then returns to the sun and so, from time to time, there have

been called forth from the heart of this universe, from the living presence and radiant throne of Helios and Vesta, priests of the order of Zarathustra.

When The Fire Element Was Lost To The Masses

In the first golden age which existed upon this planet, a priest of the Order of Zarathustra, came with the first group of incarnating lifestreams. He was the master control of the fire element and the guardian spirit in each temple. He drew forth and qualified life, establishing forcefields which were radiant suns, stockpiles of qualified light, which were the nourishment of the peoples!

As the veil of maya, in succeeding ages, clouded the minds and consciousness of the race, the Order of Zarathustra became a secret and a sacred one. The priests and priestesses in the temple no longer divulged the powers of the sacred fire or the knowledge by which they were invoked, to the masses! Those who remained true, however, to the principle of Zarathustra, did sustain, in every succeeding age and era, the certain balance through which the God life could be conducted to nourish and sustain and protect the peoples.

Then, as the immortal Flame of God within the heart was ignored, as the attention of mankind fed primal life into the appearances and builded those entities of thought and feeling which formed the great blanket of astral and psychic pressure, even the physical use of the fire element was lost to the masses, and there were eras upon this fair Earth where physical fire was not known! Such an era preceded the coming of Sanat Kumara and the Lords of the Flame from Venus. In those times, the great hordes of savages, the degenerate races, had no use and knowledge of fire. The spiritual communities, wherein the spiritual lifestreams retained the knowledge of the physical fire, were walled in, and the warmth, the comfort and the light of the fire, which was a protection not only against the invisible psychic and astral creations, but also against the roaming animals, was denied the mankind who had forgotten to feed and sustain the immortal flame, which was their God Presence, with all the powers of God the Father!

The Arrival Of Sanat Kumara

After Sanat Kumara arrived at Shamballa, he drew forth, through his own energies, the visible power of the sacred fire upon the altar and the elect witnessed the activity. After that rhythm was established, the individuals privileged and drawn by the magnetic pull of their own light and development entered the City of the Bridge, and the glorious White Island. They magnetized the sacred fire from the heart of the Central Sun, through adoration and invocation. Thereafter, a priest of the Order of Zarathustra came and re-established the use of the physical fire to those living outside of the walls of the spiritual community. That was the darkest period in the progress of the planet, the period when the immortal flame had dwindled to a tiny spark, the period when the physical flame, which had been the protection of the evolution, was known no more!

Why The Transmission Flame Activity Was Established

We come today to another cosmic moment, the bringing back into the use of the lifestreams who have shown sufficient interest in our cause, the conscious use of the powers of the sacred fire, with which we are hoping you will choose to experiment, draw forth through your sanctuaries and group activities and into your homes. If you can sustain the rhythm, if you can understand the application and if you can be constant in your magnetic pull, one day that fire will be visible in the physical appearance world!

It is to this end that the great Maha Chohan has chosen to establish the Transmission Flame activity. It is to this end that the forcefield, through the sanctuary and group activities, has been encouraged, and it is to this end that I, the spirit of the sacred fire from the heart of the sun, have been invoked and come forth today to vest you, each one, as a priest or priestess of the Order of Zarathustra, to bring to your remembrance, once more, the knowledge of the powers of the sacred fire IF YOU CHOOSE TO ACCEPT THEM!

Much has been spoken of in legend, much has been spoken of in myth and in occult law about the sacred fire! Yet the conscious mind is very vague as to exactly what it is. Allow me the honor of reminding you! Look now at the Holy Christ Self for a moment. There is the magnetic power vested within its cosmic heart, which draws pure primal life from your Presence, primal life which the Presence has drawn from the sun of this system. Even if you belong to a superior system or the Central Sun itself, when you act and function in a universe, the causative center

which is the pulsation which feeds primal life through your vehicles is anchored through the localized unit of the sun, in the universe where you function.

A Look At The Christ Self

Those of you from the Central Sun have a mighty stream of light flowing into the physical sun, which is again magnetized by the White Fire Being and the White Fire Being directs it through the Electronic Presence of the twin rays, through your Holy Christ Self and your lower vehicle.

In order to clarify my picture and to concentrate your attention, we shall eliminate that great cosmic skeleton of channeled energy and ask you to look at the Holy Christ Self.

Within the heart of the Holy Christ Self is the magnetic power of the immortal Threefold Flame, which does invoke primal light, drawing from the universal stockpile, electrons. Now, look at an electron, just for a moment, as I pass my hand through cosmic space we will stop the motion of that electron, that you may look upon it. Within it is the pattern of your own lifestream. Within it is the divine pattern, the brand, you might say, which every electron, invoked by your own White Fire Body and passed down for you through your vehicles, has been stamped in order to differentiate it from all other primal energy flowing through other causative and invocative centers throughout this planet and universe.

An Electron Described

Within that electron is the pattern of your life. That means that everywhere that electron goes, once it has been magnetized and directed through your Holy Christ Self into the use of your personal self and its vehicles, everywhere it goes it carries the brand and stamp of your self conscious invocation for use of light. Those electrons, when they are clothed in form by thoughts of a discordant nature, when they are charged with feeling and move out into the psychic and astral realm, are part of your responsibility and must be redeemed through drawing them back into your own world and sending them back pure and perfect into your Causal Body, where they belong.

Look at this electron. It is primal life, with your name written upon it. It is life you have applied for. It is life that you have drawn pure, shining,

iridescent, magnificent from the pure heart of the Sun! Within that electron, even within a drop of blood of your body, within that electron is the pattern of the Godhead, of the White Fire Body, of the Electronic Body and all the power and powers of the sacred fire in this universe quiescent! It is like a beautiful drop of water, except that it is individualized by the stamp of your light pattern, which may be a flower, a glorious Maltese Cross or an open lotus.

Those electrons from your Holy Christ Self are destined to be magnetized by the immortal flame within your heart and their procession down through that series of vehicles, which seize upon them, should be completely uninterrupted by motion of the emotional body, mental body or etheric body. Those electrons magnetized from the I AM Presence and entering the Holy Christ Flame within your heart, are your "rod of power," your scepter of dominion and authority, when uninterfered with, when you center yourself within that glorious, breathing presence within you, and SILENCE, the vibratory action of the feeling world, the mental world, the etheric world and the physical body, giving back to God primal life, to use as it directs!

In the silence of those vehicles, you can visualize and feel the stream of electrons expanding the Presence of God within your heart, making that immortal Threefold Flame of Life grow, to mature and to become the Master Presence of primal life!

Then, then comes the activity of the priest or priestess of the sacred fire, in qualifying life, for the sacred fire is but consciously-qualified primal light directed forth for constructive intent, through the free will consciousness of the God within the heart! Is that so difficult? Is it mysterious, occult?

Primal life, these electrons within the use of the presence of God within the heart, is then molded into form, according to the perfect design of the mental body. If it is the Violet Flame the mental body outlines that magnificent action of the transmuting power of divine love, and the feeling body breathes into that glorious mental concept, giving it energy and light, and the sacred fire then functions within the mental and emotional world, the etheric body, if stilled, accepting it.

How To Draw The Sacred Fire

Then, the sacred fire is lowered into the physical appearance world, through the instrument provided for such conduction, the physical body, through the spoken word. Every vehicle is provided to radiate the sacred fire in the realm and sphere which is made up of the same substance. That which is done in the mental sphere acts throughout the mental world of all mankind. That which is done in the feelings acts through the feeling world of all mankind. That which is accepted etherically, acts within the etheric realm of all mankind!

BUT, in order to draw the sacred fire into the physical appearance world, the physical instrument, the vocal cords, the conducting power of the hand and the consciousness of the physical instrument must be employed! That is the importance of coupling visualization, adoration and the activities which develop the inner bodies with the physical cooperation of the flesh!

Proof of this lies within the fact that the etheric realm, which is the closest to the physical appearance world, is already filled with perfection. The seventh sphere, belonging to your Master and my pupil, Saint Germain, is already in full use of the power of the Violet Fire. The physical appearance world that requires the assistance of this transmutation must have the coupling of the inner energies with the activities of the flesh. When that is done from realm to realm, and sphere to sphere, one lifestream can draw any of the powers of the sacred fire, first through the Electronic Body, the Causal, the Holy Christ Self, the emotional, mental, etheric and physical form. You will have, then, the seven-fold activity of the sacred fire flashing forth through your consciousness and into this world of form.

MANKIND ARE EXTREMELY INTERESTED IN RELEASING THE POWER WITHIN THE ATOM! GOD FORGIVE THEM! It is only the power of the Zarathustra that shall release the active powers within the electron and the atom for benefits and blessings of the race!

Your great deserts, your barren waste land, are a result of the presumption of man in seeking to release these powers, which can come forth only through divine love, for the sustaining of balance and the conducting of the powers of God through the world of form!

I, Zarathustra, from the Heart of the Sun behind the Sun, speak into the atmosphere of this Earth today and say to every lifestream engaged in such a nefarious practice STOP, STOP, STOP in the name of GOD, ere

you destroy all that has come forth for the benefit of the race!

The Sacred Fire is like the physical fire. It is an activity of transmutation. Your physical fire, beloved ones, is a fourth dimensional activity, drawn forth in the third dimensional world, through the combination of two forces. Mankind have called it friction, the combining of two elements by which a spark is struck and the flame invoked. Let me show you that the same is true with the powers of the sacred fire, from the inner realms!

The Masculine And Feminine Elements Must Be Combined

The masculine and feminine elements within the feeling world, or within the mind, must combine to create the spiritual spark from whence the sacred fire grows, develops and expands. Either element without the other is barren. As the Great One brought forth to you, the feminine feeling, I will repeat: You have adoration, consecration, illumination and ministration. These are feminine feelings, feelings of softness, feelings of mercy, feelings of benediction. When those powers are used, they draw forth what? The sacred fire? No! Light! They draw forth the substance of light!

When the adoration flame, the concentrate of the mighty Chamuel, flows upward to any God-free being or to the heart of infinity, the return of that ray is a radiation of light. When the adoration flame is combined with the masculine feeling and used for protection or directed into the world of form, as visitation, the carrying of the qualified blessing to benefit many, you have "sacred fire." When the adoration flame is combined with the masculine flame of invocation, visitation and protection, you have fire! Conversely, the masculine element of feeling, invocation, visitation, protection, alone, are barren. They draw forth light. Invocation through the powers of the sacred fire draws forth a response of light from the beings within it, the beings invoked.

Invocation to become sacred fire must cross with ministration, the carrying of that power invoked, into the world of form. Invocation must cross with illumination, carrying the received thoughts into the world of form. Invocation must cross with the activity of consecration, that the energies drawn from the Heart of God may be consecrated to service.

You Must Combine Thought And Feeling

When, within one lifestream, you take adoration and protection, invocation and ministration, or combine these elements, you immediately have the balance which brings the sacred fire into the world of form! There is no exception, unfortunately, to this law! It is the same if you take the principles of thought and feeling. Thought from the masculine element, which draws the idea, does not become a thing until the feminine element of feeling blends with it and gives it life, and form ensues.

We have endeavored to show you the powers of invocation and adoration, each magnificent in themselves, but the blending of the two brings the sacred fire, which is the expanding, expanding, EXPANDING of the gifts of God into this world of form! Now, each man and woman who desires to be a focus of the sacred fire in the world of form, must develop, from within himself, the particular balance. The feminine must develop the masculine, the masculine the feminine and each lifestream must become complete in itself.

I understand this perhaps is a little abstruse, but on the other hand, if five of you get it, you should make a focus, which is of merit! The Master Saint Germain made a statement which is familiar to you all, "as the conscious is to the unconscious, so is the use of the flame to the recognition of the light." Think about it. In the days and years ahead, many will love the light. Many will enjoy the return currents from the qualified priests and priestesses, which rising in adoration, we will say, bring forth a benediction which is soothing to the feelings, which is relaxing to the body, which is restful to the mind. They will enjoy the light in a similar way as the moths come to the flame. Others coming in distress of mind and body, wishing healings of flesh, will enjoy the light of the qualified priests and priestesses who, through the power of invocation, draw down that qualified light.

These are the children of light, these are the beneficiaries of the workers, these are the drones, that in their day, will become workers. These are the ones whom you will meet and I ask that you remember to feel no disappointment, for they want the fruit, the harvest, but not the ways and means of securing it. But those of you, within yourselves, who are determined to become conscious conductors of the sacred fire, you who are willing to develop and mature the element within you that yet is quiescent, lethargic, you are those to whom I speak this morning. It is to you that I bring the crown of Zarathustra! It is to you that I give the remembrance of the way and means to draw forth the sacred fire!

You who are the priests of the Order of Melchizedek, Melchizedek walks again! I feel the stir in your hearts in remembrance, as I speak the name! Jesus was of this order! Beloved Saint Germain was of this order! Mary was of this order! To you, who were among those who knew the powers of the sacred fire in Lemuria, on Atlantis, in the seventy-thousand-year civilization, in the heart of Egypt and in all the great ages where that sacred fire formed a funnel from the inner realms, to you I speak!

(Continued in December 1958 issue)

The Homes and Retreats of the Masters of Wisdom
SHAMBALLA

(November 15th, 1958 through December 15th, 1958)

One of the greatest foci of Light, shining in the etheric realms above the Gobi desert, is Shamballa, created, in love, by the disciples and pupils of Sanat Kumara, as a fit dwelling place for his august presence when he should, in love, make the voluntary exile from his planetary home, the star Venus, to help the Earth and its recalcitrant humanity.

The lesson of the building of Shamballa alone, is one to be pondered upon, sincerely, by the dear and earnest chelas of today. Sanat Kumara offered to make the sacrifice of leaving his star and abiding place, for a time in Earth's atmosphere, to hold, by his love, the very planet (and its evolutions) in the planetary system to which it belongs. Yet, the vision of such service was accompanied by the practical service of those beloved chelas of Sanat Kumara, who, realizing the tremendous sacrifice of their Lord, came to the Earth nine hundred years before his advent and they suffered tremendous opposition by those individuals who did not want the Earth and its evolutions to survive.

These chelas, through constancy of purpose, love of Sanat Kumara, and willingness to undergo any hardships inflicted upon them, did make the vision of Shamballa a fact through these nine hundred years of selfless, consecrated and devoted endeavors, to create upon the resistant surface of the Earth, a duplicate of the glorious Shamballa of Venus.

Now, in this cosmic day, the chelas of the beloved Ascended Master Saint Germain have OPPORTUNITY, to create for him, a similar beauty upon the Earth, for his august presence and that of his lady, Portia. Shorter is the time, however, than was allotted to the blessed chelas of Sanat Kumara, but more assistance is forthcoming from those of us who

have achieved, through the assistance of Sanat Kumara, desire to help each earnest and sincere chela toward accomplishment of his or her part in the fulfillment of the divine plan for the Earth and its peoples.

Shamballa again opens her arms to those who have served the Earth and its evolution, during the past year. Sanat Kumara, together with the New Lord of the World, Gautama, stand ready to greet and embrace those who have so lovingly and constantly served them. Again, the divine beings and the earnest chelas will mingle in loving cooperation and counsel, before the New Year of 1959 begins. All who have participated in the impersonal service to the evolutions presently using the Earth as a schoolroom, will again be privileged to place their harvest within the immortal victorious Three Fold Flame, centered upon the altar of the high temple that crowns the White Island, making that flame increase in power by their works well done.

Shamballa is a result of love incorporated into active and practical service, in the name of the Lords of Light! It shall always remain so and its temples, shining like the Sun at noonday, are open to those dear, unascended chelas who desire, in the deepest recesses of their heart, to expand the Light of the world!

The repetition of the name "Shamballa" seven times in reverence, either audibly or silently, will quickly raise the vibratory action of the earnest chelas, as well as re-animate the etheric memories of visits there in the past as well as during this thirty day period. Thus the dear chelas can prove for themselves, not only the existence of Shamballa, but its palpable presence as a motivating power for the expansion of God's kingdom of heaven on Earth, here and now!

There is always a focus of Light through which any and every Divine Being directs his virtues and radiation into the emotional, mental, etheric and physical strata wherein the greater numbers of mankind abide. SHAMBALLA is the focus of BALANCE wherein the focus of power, directed by wisdom and animated by love, abides. All who require an expansion of that BALANCED POWER in their individual worlds will do well to avail themselves of the opportunity of entering the Holy City and, through proximity to its flame and its hierarchy, receive the impetus required to continue their service in their own individual spheres of influence, until this Earth is truly Freedom's Holy Star.

The very spirit and nature of Shamballa, which forms the glorious aura in, through and around this Holy City, is an outpicturing of the vision of Sanat Kumara, whose motive, even before its creation, was to

bring to a shadow star and its peoples, love divine. This is equally true of the externalization of any plan that is brought forth upon the Earth. The actual motivating power behind the vision determines its radiation, service and sustenance in the world of form.

Shamballa has been sustained in the etheric realm because of the constancy of devotion to the vision of Sanat Kumara by those beings who have foresworn Nirvana to sustain THAT LOVE DIVINE, which he brought for the benefaction of the race! Always, again and again, CONSTANCY OF PURPOSE IS THE MOTIVATING POWER OF ALL GOD ENDEAVORS and the devotion and consecration of self conscious intelligences to that PURPOSE literally HOLDS the focus of the Divine Beings who established it, in love, for the blessings of the Earth. Each Divine Being, who so volunteers to magnetize and sustain such a God focus, takes a voluntary vow to sustain that focus until another Divine Being qualifies to sustain that focus for him or for her. Thus, the love of Lord Gautama, which qualified him to relieve Sanat Kumara of such a vow, cannot be over-emphasized. The regent, Sanat Kumara, all beings on Venus, and all of us who have loved and enjoyed Shamballa through the ages, bless Lord Gautama for assuming the responsibility and obligation of holding this focus of light to the present day!

Let us join together on the sacred island of Shamballa and bless him and his court! Let us breathe the blessings of our collective love upon Shamballa and let us renew our association, one with the other, in this holy time.

MONTHLY LETTER TO TRANSMISSION FLAME CLASS

November 15, 1958

Beloved Children Of God, Seeking Your Way Back Home:

I am so grateful that we shall have opportunity, together, to enter the sacred city of Shamballa, greet and counsel with our friends (divine and human), meet the beloved founder of Shamballa, Sanat Kumara, and his gracious successor, Lord Gautama! As the flame at Shamballa burns high and the divine beings and the earnest chelas, collectively, bring in the harvest of their year (1958) of service, how happy each dear sponsor is for the works so well done, as a result of their investment of energy, counsel and radiation to the chelas. This adds to the HAPPINESS AND BUOYANCY OF SHAMBALLA'S AUREOLE. Let us remember, always, that eternal gratitude to the divine beings who have established these

retreats and will keep the door open to the visitations afforded unascended beings to enter them and profit thereby.

With me, beloved, take the shoes off your feet, walk in reverence and holiness over the marble bridge, visit the temples of Shamballa and then bring the harvest of your year's endeavors to the feet of the present Hierarchy, Lord Gautama, who, as always, receives each such harvest, from the tiniest elemental's gift of love, to the ones of greatest elohimic splendor in graciousness and gratitude because, each such a one, using the power of his or her own developed capacity, has persevered constantly in the cosmic moment, now at hand, to make the Earth a Holy Star.

I have been, in a humble way, responsible for opening the Ascended Master foci to the outer consciousness of mankind. I, also, have the responsibility to see that the chelas who so take advantage of this dispensation utilize this privilege, bringing back with them, into their own spheres of influence, the radiation and the will to serve wheresoever they are presently living on the landed surface of this Earth.

As your blessed forcefields increase in power and efficacy, through your visits to the various temples and retreats of the Ascended Masters, so do I rejoice, for it is the beginning of the re-establishment, upon the very surface of the Earth, of the glorious perfection wherein the various flames of God will again be visible and tangible to the physical sight of all mankind. In this New Era, the peoples will have the blessings of these flames and virtues, will be able to bathe in their presence. and quickly accelerate their own lower vehicles by proximity to the flame which is most required, according to whichever of the seven virtues is demanded by them to help them to fulfill their divine plan NOW!

BALANCE, POISE, LOVE, CONSTANCY! These are the gifts of Shamballa! Accept them, as you enter the Holy City and bring them back, in joy, to your own forcefields, your cities, states, nations and continents. Thus are you conductors of the gifts of the Gods. You have done well. You shall do even better. I shall kneel with you before the magnificent Three Fold Flame guarded and protected by the Kumaras and Lord Gautama and his court and ask for a re-consecration of your energies for the service yet to be done! Your sponsors, selected by Lord Gautama, are ascended ladies of oriental background, gracious, poised, loving and constant in service. Invite them to help you in your own service and they will do so!

Love and Blessings, Maha Chohan

Breathing Statement for Transmission Flame Class of Nov. 15, 1958

1 2 3 4 5 6 7 8

I AM inbreathing th' balance and poise of beloved Gautama's Middle Way

(Use also for absorbing/expanding/projecting). Hierarchy of Retreat: beloved Gautama (new Lord of the World) over the Gobi Desert in Asia. Color of Flame: Pink, Gold and Blue. Musical Keynote: "Song of India."

EXPANDING THE LIGHT

An Address By Beloved Lord Maitreya

Flourtown, PA. June 30, 1958

Blessed and beloved ones, I greet you now in the office which I hold, which is the embodiment of the love aspect of the deity. It is the love which the great predecessor, Gautama, in his many, many Earth lives and since his ascension, has continued to expand, to keep the Earth cradled in his blessing. It is the love to which I aspire, and it is the love within your Holy Christ flame, which, continuing to expand through your outer self, shall manifest as the new era and age begins, and set you free from every shadow, distress and limitation into the glory and perfection of that permanent Golden Age, under the Ascended Master Saint Germain's direction.

Then every man, woman and child shall wear, in grace and dignity, the robes of freedom, where every home shall be a temple of the sacred fire, where the veil of maya woven through the use of thought and feeling, shall be removed, forever, between the consciousness of mankind and the Divine Beings.

Your strength, love and light increases by the proximity of our presence even now and shall be expanded more in that day and in that hour when you may see our living, breathing presence and reality. To that end and to that day do we move. All of the Spiritual Hierarchy, all of the mighty Elohim, who cooperated with Helios and Vesta in the creation of the blessed planet Earth which has been your hostess for so long, all of the mighty Archangels and the Archaii, all of the seraphim, cherubim and the angelic host, all Cosmic Beings and every one of the Great White Brotherhood, are dedicated and consecrated to this one specific service: that of re-creating, through the outer minds of mankind through their own I AM Presence and through their own Holy Christ Selves, so that the direction of the Presence may be clear and distinct, and that the lower self may be so purified, that never shall the cause and core of any personal or selfish motives externalize.

Beloved ones, we are engaged in the redemption of the souls of ten billion lifestreams, not all of whom belong to the planet Earth. Some came as you well know, from other stars and systems of worlds. We are engaged in the cosmic redemption of imprisoned angels and elemental life and all life which suffers temporarily from distress, and you, in the unascended realm, through your kindness and cooperation with the Ascended Master Saint Germain and with the beloved Ascended Master Morya, who are so dear to my heart have assisted tremendously in this purification.

Many of the peoples of Earth are interested today in what they call the solar and the cosmic rays. They are Interested only from the standpoint of curiosity, with the exception of the good men of science, in research, who are interested in utilizing those natural rays, wherein mankind's labors may be lessened.

There are many, many good, sincere individuals interested in experimenting with the unseen powers and drawing lesser activities than those from the God-free realm. Each one, according to his own design, his own motive, his own capacity to reach into the Ascended Master's realm, and his capacity to hold fast that which is drawn there until it is anchored in his own emotional, mental, etheric and physical consciousness and then to pours this forth as a blessing to all life around him. Each such one is receiving personal and individual training at this time.

Now, much of this training goes on while you are out of your physical bodies at night, and there is some temporary distress, because you do not retain, fully, the consciousness of all that you experience at inner levels.

It Is Mercy Not To Remember The Past

Beloved ones, I can affirm as others before me have that it is an action of mercy, that individuals who, either through their own unredeemed karma or through personal vows, desire to remain or have to remain in physical embodiment, remember not the glorious freedom of those inner spheres, fully, in the outer consciousness. Beloved ones, you could scarcely be coaxed back into the physical vehicles which you wear with such patience, which have endured even in the course of this one life, so many hardships, were you to fully bring into your outer mind, at this time, your experiences in the magnificent Ascended Master Realms of Light.

Then truly would your waking hours pall upon you, but gradually, according to the sincerity of your motives, according to your capacity to apply the knowledge already given, knowledge which you have received so freely, there will come a time when the here and the there will not be so far apart, when the vibratory action of your own vehicles shall be so raised and sustained in grace, that it shall not be a strain upon you. Then, that magnificent memory as to what you learn at the feet of the Ascended Masters at inner levels, shall be restored. This instruction you shall, in grace, bring forth in your waking state and utilize fully for the benefaction of all life, wheresoever you stand at any given moment.

Beloved and blessed ones, so long have I been World Teacher, so many civilizations have come and have gone, raised to tremendous heights, wherein the people have mastered the powers of levitation, precipitation, and yet always, within those civilizations, there was the seed of decay. Within the heart of all discord is the seed of decay and its fruit is manifold, causing those civilizations which were magnificent, in which many of you dwelt in great light, some of you being no part of that discord, to fall into decay. They are no more except in the sketchy records of historians or in the poetry and prose of the folklore of many lands.

Today, I say, beloved, we of the Ascended Host of Light shall leave not one seed of discord, not one cause and core of imperfection upon this Earth within the soul or outer consciousness of any lifestream who has used the Earth so freely for centuries. When the glorious Ascended Master Saint Germain builds his magnificent Permanent Golden Age, there shall be naught to cause it to decline.

I thank, individually and collectively, those of you who have cognized at least a portion of the necessity of removing, from the invisible realm, the causes and cores of distress, rather than using just a mitigator on the external manifestations, knowing by the power of the Cosmic Law that, unless the cause is removed, the same individual shall experience like effect embodiment after embodiment. Those of you who have kindly made those calls not only for yourselves, but have also made them likewise for all mankind and all imprisoned life, have your names written in the heart of the beloved Ascended Master Saint Germain.

Practice Your Knowledge

How long beloved Saint Germain has waited, how long he has dreamed of a world brotherhood, wherein the light of the heart coming from the Universal Father, the Cosmic I AM Presence, shining through

the Holy Christ Selves of every man is the tie that binds all members of the human race in an impersonal, divine brotherhood! That life, the only eternal part of you, is being released this hour and constantly from the fetters self-imposed or directed, which are merely temporary change of human limitation. Beloved ones, accept this, the Law of Love, as I have taught it and as my chelas have taught it, for centuries. Each person's consciousness is like a cup held up and for knowledge to pour into it. When it is filled to the brim and not utilized for the benefaction of the race, there is room for no more, until that is absorbed, digested spiritually and then radiated forth as a gift of faith, illumination, love, purity, consecration, peace, healing or supply.

As you allow the substance in your cup to radiate forth, giving yourselves time, at first, to anchor the substance of the Ascended Masters' radiation into your own lower bodies, then does more of the radiation of the Divine Beings come. Your cup becomes broader in aspect, there is room for more cosmic truth and understanding to be revealed to you and you are freed from the karma of having received divine knowledge and instruction and not using it.

For, that karma, too, is written in the book of your life, and YOUR MASTER, YOUR GURU, YOUR SPONSOR IN THE ASCENDED MASTERS' REALM IS RESPONSIBLE FOR EVERY ASPECT OF COSMIC TRUTH WHICH IS PRESENTED TO YOU WHICH YOU DO NOT UTILIZE. Think about it, beloved ones, think about the amount of truth that has been given to you recently. Think about how much you have utilized it, and how much is the obligation to the Divine Being who is your sponsor in the Ascended Masters' realm.

All of you with a sense of spiritual integrity and pride, all of you with a sense of honor, shall want to write on your book of life that you have utilized, to the best of your known capacity, that law, that love imparted, that faith and trust placed in the hands of unascended individuals by Divine Beings, as they share with you, in communion, their very LIFE. Think what the gift of a person's life is. Even you, in the unascended realm when you commune one with the other, you are sharing the priceless gift from the I AM Presence—life, but is that life which you share with your fellowmen qualified with love, discrimination and power? Or is that life which you pour into the consciousness of another unascended being charged with sorrow and distress?

Let Go Of Your Distress Into The Violet Fire

Beloved ones, make of the Ascended Host, the angelic host, any one of us, your confessors. For that which you place into our keeping, that which you lay at our feet in the way of petitions, in the way of calls for assistance, we can transmute instantly, and return to you more quickly the blessing you require. Thus, all of us are willing to act, and have acted, for ages, as intermediaries and intercessors between unascended mankind and the Godhead, not as idols, but as elder brothers and sisters willing to accept that portion of your particular destructive karma which you desire to let go. Oh, how tenacious is the hold of the outer self consciousness upon its own karma. Only we who pry a portion of it, at every visitation, know how tenacious is the hold of the outer self upon personality traits, etheric memories and every type of distress. Beloved, let go! Let go of your distresses into the Violet Fire, into the keeping of Kwan Yin or of our beloved Mother Mary or any one with whom you have a particular affinity, even if you know not that you are holding unto certain distresses.

I speak truth from the heights of heaven, when I say that there is karma that is stowed away in the most earnest and sincere lifestream, that should have long since been relinquished into the Violet Transmuting Flame. IN THE NAME OF GOD! LET GO of that karma of a destructive nature! We are only asking that the burdens which you find so heavy may be placed in that Violet Fire. For every bit of that destructive karma, every human personality trait, and all human consciousness that you release, we will give back to you on the flame and ray of love, a permanent, good, cosmic virtue which will be of assistance to your blessed lifestream on its pilgrimage.

Hear you me, children of Earth, as I speak to your minds and to your souls. I plead today, that in the name of the Ascended Master Saint Germain, you place that destructive karma into the Freedom Flame and accept the blessings of my humble self, and then of my great teacher and guru, the Lord of the World (Lord Gautama). When the cosmic rays and flames are made visible, in those certain sacred places where they once were manifest, you shall have to have a strength of spirit and a humility beyond the understanding of the present day mind. What do you think you would be the activity in a large city were the magnificent presence of the Archangel Michael, Master Saint Germain and his Freedom Flame to appear visibly and tangibly? Do you know of the thousands of curious and greedy individuals who would rush toward you, toward the guardians of that invoked power. Prepare then a solid phalanx of

dedicated and alert chelas for that day.

For years now we have said, prepare for the day, the day is upon us and the hour is here and the very Earth moves on her axis. Divinity's realm is bursting with goodness, the beloved Ascended Master Saint Germain is at the very door awaiting reception by unascended chelas, in a manner like unto that accorded Sanat Kumara as he came on his exile from Venus centuries ago. When the Lemurian Pole Star reached its zenith there was no more time and there, shining in the atmosphere above the Earth was Sanat Kumara and his cosmic court. Think of the fidelity of those who prepared for 900 years for his coming. Think of yourselves! This is the era, it is the hour the Star of Freedom has risen and the beloved Ascended Master Saint Germain shall bring forth his manifestations. You are the chelas upon whom he depends. You have had now years to prepare. I say to you, before I relinquish the platform to our beloved Lord of the World, your era of preparation is completed, your era of service, in the name of God has begun.

THE "MIDDLE WAY" IS THE WAY OF PERFECT BALANCE
An Address By Beloved Lord Gautama

Flourtown, Pa.

June 30, 1958

I bring you peace, that cosmic peace which can never be disturbed, which is the very essence of my being, and therefore the greatest gift which I can give to you.

In these days, wherein all mankind and imprisoned life of every kind on Earth are in a state of temporary chaos, it is required that there be, among unascended beings, the peacemakers. I, as the Lord of the World, give to you, my chelas, even you here assembled, the fullness of that peace which I achieved through ages of living. Accept it now, and let it flow to and through you for your own comfort and for the salvation of those who will be drawn around you, as the moth to the flame, for sustenance, faith and protection in the years which begin as I become the sustaining power which so long was held by my great-superior and Lord, Sanat Kumara.

As you all know, it is my custom to delegate, almost entirely, all official ceremonies to my beloved brother Lord Maitreya, who has recently attained Buddhahood. It is seldom that I speak, even in the ascended master and cosmic realms, my nature being for so long to radiate that love, that peace, that comfort and tranquility, which we have endeavored

to put into worded expression, simplified enough for the outer consciousness of mankind to comprehend. Beloved ones, the fullness of the way back into the Father's heart seems difficult.

However, I can assure you that the only safe path is the one I have so long recommended as the "Middle Way," the way of perfect balance, attentive always to your God, and letting your radiance flow in benediction to the life that surrounds you, swerving neither to the left, to the lukewarm, to the apathy and false security of individuals who have made some small endeavor, who feel that their work is done, nor swinging to the side of violence and over zealousness in a desire to accomplish that which even the Ascended and Divine Hosts cannot do through vehicles that are in the process of preparation for greater manifestation.

Hold therefore, as my counsel, the path of the Middle Way, which is kindly, centered, poised, swinging neither to the left nor to the right, but facing into the heart of your God, as I did long before you until I pierced through that veil, and , through the very powerful First Ray and Sphere , into the exalted presence of the Deity. You too, as I before you, have made and are making a great sacrifice in returning and sustaining your physical vehicles on this Earth, in a time when truth is being unveiled, and I bless you for it. I know what it is to return to a vehicle from whence almost all of life had fled, during my seven year period of search in the inner realms until I reached the very Heart of the Deity. I also experienced the sacrifice of surrender after I had reached my goal, when I knew I would have to return to re-animate that form and walk among those still in bondage mentally and emotionally, bringing some of the Father's life, love and understanding to those pilgrims who gathered around me.

Remember, I had the full conscious memory of all the beauty of the seven spheres, the memory of the Father-Mother God's glorious presence, the radiance of the highest heaven, while I walked the hot sands of India, teaching as I went. So I can agree with the beloved one who spoke to you a few minutes ago before me, when he said, "It is well that you have not yet the full conscious memory of all the glory you knew before this world of chaos was," because then it would be hard for you to walk the middle way. Again I say, they call me the "Lord of the World, the Lord of this blessed Earth," but what is a Lord without a kingdom? My kingdom is made up of all mankind, all life, all angels, all evolutions that have used this Earth for a schoolroom and shall, in the future. And with God's help I shall abide, like Sanat Kumara, in patience until some other Master of love and life qualifies for my position.

All this time, remember, you are my children and I love you with all that love which is mine to give. There is no censure in my love—there is no blame for temporary failure, here is only the deepest heartfelt feeling, which your own Holy Christ Flame shall expand through you, and quickly you shall yet know the truth, and knowing it, use it to set yourselves, and all imprisoned life on this dear Earth, free. I am and have always been, and shall remain, the humble servant to your life, which is part of the life of my own heavenly Father, and I am always yours to command.

Peace, beyond the understanding of the human mind, is mine and today it becomes yours. Empty not your cup so quickly but assimilate what I have said unto you! Thank you and good morning! Your friend in God, Lord Gautama

OUR SCOPE

Individual enfoldment: Explanation and practical application of the laws governing health, opulence, peace and enlightenment.

Purification of the individual through the understanding and use of the Sacred Fire and controlled, creative consciousness.

Daily contemplation, scientific prayers and decrees to free the individual from limitation and distress.

Contact with the Great White Brotherhood: Unpublished teachings of the Masters of Wisdom. Visits in consciousness to the retreats of the Masters and information about their current activities. Pictures of the Ascended Masters.

Co-operative World Service: Active application of the teachings of the Great White Brotherhood to the solution of the age-old individual, national and world problems such as ignorance, sickness, poverty and war.

Directed, co-operative, synchronized world prayers, affirmations, visualizations, to eradicate the evils of the day, and current crises as they arise, and to accelerate the incoming New Age of World Enlightenment that we shall witness in this generation.

Establishment of groups of spiritually minded men and women in every country of the world to act as outpost for the radiation and love of the Ascended Masters. Dissemination of the Laws of Life in foreign languages so that the good people of the world of all nations may participate in the above program.

PEACE ON EARTH AND GOOD WILL TO ALL MEN

To The Beloved Ascended Master Jesus:

We send all the love and gratitude of our beings for your public ministry, your God-accomplishments, while here on this Earth, and for his glorious ascension, at the close of his Earth-life! To your beloved Mother, Mary, who assisted you throughout his ministry, we are so grateful.

To the beloved St. Joseph (now the Ascended Master Saint Germain) who, throughout his life as the father of beloved Jesus, guarded and guided and protected the Holy Family, we are so grateful.

It is the decree of the heavenly father, that every family become a holy family right here on Earth and that the new cycle of the Ascended Master Saint Germain be manifested to the Glory of God and for the blessings of all peoples who use her as a temporary school-room. At this Holy Season, let us, the Spiritual Hierarchy, and all mankind, join with the angelic kingdom, in bringing beloved Jesus' and beloved Saint Germain's lasting peace on Earth and good will to all men! So be it.

Thomas Printz, Editor

A PERMANENT CHRISTMAS BENEDICTION TO OUR READERS

Let this be our Christmas gift to you: A spiritual benediction and blessing whereby the soul within you, ever aspiring upwards, is grasped by the higher self and the connection made a permanent bond whereby the grace, the gentleness and the love of the light of your divine archetype might express freely through the vehicles that you wear at present.
Maha Chohan

**BEING LOYAL TO GOD TO MANIFEST HIS ALL-POWER IN YOUR
SPHERE OF ACTIVITY**

A Christmas Message By Beloved Master Jesus

December 25, 1953

Dearly Beloved Brothers and Sisters:

I AM with you always, especially when the priceless beam of your own life is voluntarily turned toward me, either in supplication, in invocation, in loving gratitude, or in contemplation of my world, my works, and my consciousness. Mankind has not yet fully realized the tremendous power that lies within the attention of even the most undisciplined lifestream, because through the energy that flows from the individual toward any person, place, condition or thing, the door is opened into the personal world of that individual, for the anchorage of good or evil, according to the subject contemplated.

At the celebration of the Christmas Season, my mother and I have particular opportunity to bless life, because the attention of so many individuals is turned toward us. Every song, every prayer, every church ceremony, every card of display that reminds the outer consciousness of the Christ, is one more open door through which we may pour our love, our gathered momentum of light, our Ascended Master consciousness, into the world of form.

The subject of my Christmas message to you who have already come out from among the masses and have signified to life that you desire to become master of circumstance and become God free of limitation, is **LOYALTY TO GOD!**

Loyalty is builded on love! Love is developed through contemplation of the gifts and blessings and the kindnesses of life that issue from a benefactor, human or divine. To know God is to love him! To love him is to believe, with every fiber and atom of your being, that he is all powerful! contemplate for a moment, the significance of that statement. How loyal are your feelings to the all power of God to always act instantly when you call him into manifestation at your point in the universe? It is not the timid, uncertain, mildly-hopeful consciousness that rationalizes with appearances, who signifies loyalty to the illumined faith in God to manifest perfection instantly! It is rather the consciousness that believes the nature of God is to give every good and perfect thing to his own creations, the children of his bosom, who were externalized by him in LOVE in order to multiply his own divinity and increase the centers through which perfection could be externalized.

Let us look, for a moment, at my own experiences, that have formed the pattern of the religious thought of the past cycle of time. My entire ministry, and my victory, too, were based on absolute loyalty in feeling, thought, word and action to the conviction that God, my Father, was not only all powerful in his own sphere of activity, but also in mine, wherever I was at any given moment. I could not allow myself to even think, for a moment, of the possibility of a power opposed to God, either within me, or without me. I did not dare to leave the comparative privacy of our humble dwelling until I had anchored myself in the active realization that my Father, who had created me and sent me forth in the world to represent him and to manifest his will, could possibly either refuse to respond to my call, or withhold immediate, God-victorious miraculous assistance, whenever and wherever I should invoke him to dissolve shadows, dissipate error, and flash the fire of perfection through appearances, making them yield to the God-design.

What is the most fearful appearance but a concentrated mass of energy, humanly qualified! Think of that for a moment. Is then, human qualification more powerful than God Qualification? NO, thank God. Within that mass of energy is imprisoned life, the very body of the Father-Mother-God, awaiting the summons to come forth and throw off the human qualification and, responding to the God Qualification, be perfect! You are either loyal to the power of human qualification or you are loyal to the power of God through you, or any of God's children, to compel energy and substance to manifest according to the direction of the moment.

I walked the ways of Earth and shared the instruments of expression in this physical world with other incarnate spirits of my time. I worked through a feeling world, a mental world, an etheric world, and a physical body, just as each of you do, today. I was in possession of the five senses, through which there could have been recorded the tremendous appearance of evil, which had stamped itself on the flesh of my fellowmen, as well as on the writhing substance of the etheric envelope, and the clouded vessel of mind. I saw the pressures of desire, that impelled the weak to succumb to lust and passion, but I knew that it was imperative that I remind myself, constantly, of the fact that energy and substance responded to qualification. True! But whereas it was imprisoned by human qualification, it could be freed INSTANTLY by the power of God to act in a manner in accord with his divine will.

If you are loyal to a friend, you believe in his potential goodness, you endeavor in every way to stand by him, regardless of appearances. The

blessed mothers of the race! How they have manifested this loyalty for the children of their flesh, but where is the God-loyalty to the all power of your father, your cosmic mother, to flash through you and around you, instantly, the cosmic Flame of Freedom from shadows, pain, limitations and distress?

Children of God! The measure of a man's loyalty to God is determined by what he allows to remain in his world, his body, his affairs, his home, and his aura. Submission to circumstance is disloyal to the Father. I do not mean an outward violent show of emotional zeal, I mean a constant looking toward the nature of that heavenly Father, until you realize his power as supreme, even over the appearance of death, until you come, through contemplation, to really love him enough to trust him to respond instantly to your slightest whisper or your strongest command to manifest his glory, his freedom, his healing, his supply, his will at your point of the universe!

I give to you as my Christmas blessing, my loyalty to the beautiful Father of Light and his exquisite complement, your own Cosmic Mother! I trust that when you move forward in the new year, you may start your day contemplating the love and power of your own God, and walk through each twenty-four hour period, not giving power, allegiance nor loyalty to any appearance which you might confront, not feeling, for even an instant, fear or uncertainty, but knowing that where you are GOD IS, and his power acts instantly when called into action. May you have a Holy Christmas and a God Victorious New Year!

THE TEMPLE OF PRECIPITATION
(ROCKY MOUNTAINS, U.S.A.)
December 15th, 1958 through January 14th, 1959

The beautiful Temple of Precipitation is located in the Wyoming Rocky Mountains and is now the focus of the beloved Confucius, successor of beloved Lanto, who endeavors always to combine the divine reverence for life of the Eastern Philosophy with the manifest and practical service of the peoples of the West. During this thirty-day period, all of the Spiritual Hierarchy will attend this retreat, and many of the dear chelas, unascended, will also bring their ideas and plans for the year of 1959 for presentation to the Great Karmic Board. Again, this magnificent focus of precipitation is opened to all who desire (in their innermost motives) to expand the kingdom of heaven here on Earth.

The loving reverence for life of blessed Confucius is an imperative part of positive and constructive precipitation and this gift, he, in love, offers to all who accept the invitation to attend this council. In reverence for life, the individual automatically removes many of the causes and cores of selfish motive for precipitation in their own worlds.

Beloved Lanto will, of course, return to this retreat during the time it is open, to assist his successor in the greeting of the dear friends and earnest chelas. The beloved Lord Zadkiel will be keeper of the scrolls and will accept all those patterns and designs which they desire to present to the Karmic Board. As in all previous years, the keeper of the scrolls will read them over carefully and assign to each Hierarch (or his representative) a council chamber, wherein the Ascended Master can, and will, counsel with those who desire to participate in forwarding God's kingdom.

The builders of form, in honor of beloved Ascended Master Saint Germain, have created, over the Teton Mountains, magnificent chairs of deep amethyst, with purple foot-stools to match. Here, the Karmic Board will listen to and approve those ideas and patterns that can best be worked into the thoughtform for 1959. This thoughtform is lowered by the Silent Watcher of the Earth, Immaculata, into the living consciousness of the new Lord of the World, Gautama, who, in turn, projects it forth into the visible, tangible, consciousness of all assembled at the council. They, knowing its import, expand millions of replicas of this thought form forth into the emotional, mental, etheric and physical consciousness of mankind, where it is picked up by the outer minds of those sensitive to its vibration and, in a perfectly natural manner, these good people then create, each according to his or her own ability, and manifest it on Earth as a blessing to all life.

Not too many peoples on the Earth today are acquainted with the gift, secured by them by the beloved Maha Chohan, of even entering such an Ascended Master Retreat. This, however, makes the gift no less in its potency and, of course, proximity to the Ascended Host and the actual witnessing of the thoughtform as it is externalized by the Lord of the World, greatly helps the unascended beings so privileged as to be a part of these councils.

The perfect pattern for every unascended being is to release all the good of his or her own Causal Bodies at this time into the physical appearance world. Thus, the purification of the energies of the four lower bodies is essential in order that such a cosmic release through each and

everyone can, and will, take place NOW. Great Divine Beings on the seven rays are awaiting each chela at this retreat, to help each such a one, individually, to learn how, first to purify the lower bodies, and second, how to release, consciously the good in their causal bodies.

As this retreat has been described in detail many times in "The Bridge to Freedom," this issue is primarily concerned with the learning by the chelas of impersonal service to life and gentle, loving, reverence for life. Throughout the ages, mankind has experimented with the science of precipitation for personal benefaction, but now those who are willing, able and selfless enough to learn the true science of precipitation, which is only for the benefaction of the entire human race, will be particularly assisted in this science and its manifest effects.

Come with me to the heart of the Teton! Sit with me at the feet of the Ascended Masters of Precipitation! Learn how you may, and truly shall become Lords of the Precipitation of Good! I implore you, in my name!

Your obedient servant, El Morya

THE LAW OF HEALING EXPLAINED
An Address By Beloved Mother Mary

Flourtown, Pa.

July 2, 1958

My beloved children, each and everyone of you represent such a deep part of my heart. I follow you throughout the course of every embodiment with such hope, just as every unascended mother does, delighting in your victories and, wherever possible, glossing over those temporary failures, until that hour when you stand and know the full release and relief from every human tie, and in dignity, your course run, return home to dwell with us in the realm where there is no pain, where there is no suffering and distress, where even temporary partings cause no unhappiness. That is the realm towards which your sweet endeavor is preparing. It is the realm in which we love to abide, except for those hours when, as servants of the Law of Love, we choose to come earthward whenever and wherever necessary.

Beloved Gabriel, beloved Jesus and our beloved Saint Germain often refer to me as having exceeding grace, but I would like to say to them that I too, received the power to sustain that grace through the great Lord Maitreya who is now your Buddha, and through the presence of the

Archangels and through the help and assistance of beloved Charity and the various members of the divine kingdom who enfolded me, as we now enfold you, as much as you will allow us in our feeling of love, purity and happiness.

My Activity Has Been Healing

Beloved ones, my activity has been concerned with healing for many, many centuries. Naturally, as my beloved son Jesus rendered many miraculous healings during his lifetime, so far as the outer mind of the people was concerned, although he used merely the spiritual law of love, so too, have I devoted my life, all during the time since my own ascension, to helping those who sincerely desire to heal the minds, bodies and souls of men in whatsoever constructive activity they serve: whether they are advanced students who know the mystical science of healing, whether they are the missionaries, whether they are the doctors and nurses under Hilarion's care, whether they are those who work under the ray of purity and in the cloister, whether they are those who work for world brotherhood, the humanitarian aspect of beloved Paul, the Venetian, whether they are the men and women who use the activities of the second ray in research and accretion of knowledge which they put to use, or whether they are the honest and sincere individuals who heal by faith.

Few Desired To Know The Law

With Jesus, particularly, so many of the consciousnesses of mankind rejected him in life but have accepted him hundreds of years later. But that is the way of human consciousness. Only when one has passed safely beyond the gate of so-called death, is it safe for the human to accept their truths. That will not always be! I saw a man, majestic beyond all words to describe, walk humbly in Judea and speak to men and women by the hundreds, giving them the Law, and then proving that Law in raising the so-called dead, making the blind to see, making the deaf to hear, the lame to walk again and the lepers whole. That man was my Son! I saw how few desired to know the law, how many wanted the fruit thereof!

Protect Yourself First

Today we see on the screen of life, as we measure each dear chela, that more and more among you are those who apply the law yourselves and this is magnificent, for it was not so in our time on this Earth. I say to you who are particularly dealing with the activities of healing, will you constantly remember while you are unascended, to ENFOLD YOURSELVES IN THE LUMINOUS PRESENCE OF SOME MEMBER OF THE ASCENDED MASTERS REALM, BEFORE YOU EVEN BEGIN TO DEAL WITH THE PROBLEMS AND DISTRESSES THAT WILL COME TO YOUR ATTENTION so that you do not, as the Maha Sahib said yesterday, draw that distress into you, but rather locked, sealed and insulated in my presence or the beloved Jesus or Lord Michael or the Ascended Master Saint Germain, you may then direct the healing currents into those individuals who need the assistance either from their own I AM Presence or any Ascended Master, calling all of the flames and rays of Divinity's kingdom with which you have been acquainted into those lifestreams to give the assistance.

Remove The Cause And Core Of Distress

Let me again remind you, although all of us have, FIRST YOU MUST REMOVE THE CAUSE AND CORE OF THE DISTRESS AT INNER LEVELS, WHERE IT IS NOT SEEN, BEFORE YOU CAN HAVE PERMANENT HEALING here on the Earth plane. Otherwise you do exactly like this: you place, through mental power, a 'kerchief over the condition and for the time it is not apparent, particularly while the practitioner or healer is alive, whose very energy and life repels that cause and core and very often accepts it into himself or herself. But when the individual who is rendering that healing or service is removed from the body, preceding the individual who has been afflicted, most often the condition returns even while in that embodiment, or if the individual who has been temporarily healed passes on, and the cause and core of the condition at inner levels is not removed, they will have to again experience that condition until someone makes that call.

THERE IS A CAUSE AND CORE BEHIND EVERY CONDITION, WHETHER IT IS MENTAL, EMOTIONAL, ETHERIC, PHYSICAL, FINANCIAL OR WHATEVER IT MAY BE. When that is plucked out by the roots by any of the Divine Beings who offer to do so, myself, the Goddess of Light, Astrea, Kwan Yin, any number of us, when that is removed THEN YOU HAVE A PERMANENTLY HEALED PATIENT and remove also the tendencies to create new causes and cores, because on Earth you will find very busy people!

Don't Create Distress, Create Comfort

Individuals are creating constantly, waking, sleeping, day and night, constructively or otherwise. As our beloved Maha Sahib said yesterday, they create either more distress, requiring more comfort, or they create more comfort, more light.

Those of you who are interested in healing will know very often the individuals you heal, or whom God heals through you, will re-create those conditions unless you are alert and call to the I AM Presence, the Holy Christ Flame, of that one to remove the capacity to create a new cause and core. I have practiced this, beloved ones, I have done it now for almost two thousand years. I give it to you as an explanation of the law of healing for those who choose to have it.

I Share With You My Light

It is not always too comfortable to have the full truth presented, and I know it is always more comfortable to just tell you, and this is true, that I love you with all my heart. I love you enough to share with you my light, to believe in you as I believed in Jesus, even on the cross on Golgotha, when every cell and fiber of my being cognized the reality of light immortal, sustaining that feeling for him, until his resurrected form gave me relief from that particular vigilance.

So I believe in you, and I hold for you the immaculate concept, for you each one, and for each other, even when you lose, for a time, the pattern of your own path home. Lovingly, kindly and always your mother in light.

Mother Mary

HOW TO USE THE SACRED FIRE (II)

An Address By Beloved Zarathustra

In the name of God, now develop that vehicle which needs it and learn in drawing your life into your hearts to use thought to concentrate the picture you desire, use feeling to energize it and use the vocal cords and the power of conduction through heart and throat, and head and hand, and as you see that sacred fire upon your altars first with the inner sight some day it shall be manifest.

Every Chohan is a priest of this order. The sacred fire is consciously-qualified primal light, into which a self conscious intelligence has invested

a certain specific blessing, which that light carries forth through the sphere of influence and radiates into the world of form. All of the electrons that pass through your aura are either the sacred fire or just primal light or they are part of the shroud of the Earth.

Zarathustra's Benediction

Oh, great host of salamanders, thou who represent the fire element on this Earth, oh, salamanders of this great mountain range, I bring you the benediction of the sun behind the sun, I bring you the blessings of Helios and Vesta, I bring you blessings from the heart of Zarathustra, the Spirit of the Fire, and of all the Zarathustras who have represented the fire in every one of the planets, in every one of the universes! Oh great planet Earth, I bring you the purification of the sacred fire which is vested in me and through my body does pass into this atmosphere today!

Oh immortal flame within the hearts of these here assembled, I speak to you who are of my element, sleep no longer. Awaken in the mastery of the supreme element and expand that fire through this earth! You who have chosen to be specialists, who have within your hearts and minds and souls some impersonal service that you would render life, you who have established sanctuaries and groups to this end or who have established them before and now are prompted to qualify your life, particularly, with a certain element, to you I speak.

I come as the spirit of the immortal flame of life and I will energize the spirit of any flame which you have chosen as your gift to the universe. If it is the flame of healing, the Spirit of Zarathustra within it will charge that radiation with all the momentum of the sun behind the sun, if it is the flame of protection, the flame of purification or the flame of truth, I am the servant of fire, the messenger of fire and the spirit of fire and I hope that those of you who have just enjoyed light may become, now, conductors of the sacred fire!

How do you think the Violet Fire, which you use so joyously, with such wild abandon, came into being? You know mankind uses with such freedom, water and earth, sunshine and air and now some of you, who have just touched the fringe of the mysteries, invoke the sacred fire with the same abandon. Yet, that is primal life drawn by some self-conscious being, using the exact formula of which I spoke today and qualifying, through thought and feeling, through adoration and invocation and through the combination of their own faculties, that primal life with a quality to bless mankind. The sacred fire, the Violet Transmuting Flame,

drawn by Zadkiel, drawn by Buddha, drawn by Sanat Kumara, Kwan Yin and Saint Germain is a gift of their attention, concentration, qualification and radiation, that somewhere along life's path there might be an already established momentum of the sacred fire for the use of those who wanted it.

I am the Spirit of Enthusiasm

It would be a far different thing if your own creative centers had to establish the Violet Transmuting Flame, if you did not have the momentum of all the beings who went before you, so that at your call it blazes up, in, through and around you in the fullness of the momentum of those beings.

The same is true of the power of healing that the practitioners and the faith healers and the lifestreams who are natural conductors use. It is primal life, which beings from the beginning, Uriel and all those down through Jesus have qualified and sent forth. When you or any man desires to render service through healing, you have already-qualified life which can be conducted through you, in cooperation with your own endeavors, to render the assistance.

Now you are to become conductors! Will you be as selfless? Will you be as willing to stand within that pillar of light, nameless, radiating centers of a gift that will remain long after you have gone? Truly I hope so!

I am the Spirit of Enthusiasm! Without enthusiasm and feeling NOTHING lasting is accomplished in the world of form. The most beautiful visions, the most magnificent thoughts peter out and are stillborn, until the fire of enthusiasm is in the feeling world to give them life.

Every man and woman, every saint and sage, every pioneer and inventor, every member of the kingdom of science that has achieved, has done so because the fire of enthusiasm burning through the vision sustained that vision, until it became fact! Those of you with vision, who have not the fires of enthusiasm within you, will never have the drive required to pass through the mass momentum of resistance against change, even for good! Without enthusiasm Columbus, after one attempt at the court of Europe, would have abandoned his quest and returned to the monastery where his son was, and his heart was, for he was at heart a mystic, but enthusiasm sustained him in face of ridicule, in face of poverty, in face of every kind of discouragement and as those boats crossed that chartless sea and as the mutiny arose within the hearts and souls of

lesser men and as the sails caught no wind and the seas rose and the groaning board split, it was the enthusiasm in the heart of ONE MAN that carried those boats, carried those lifestreams across the sea and rounded this nation that you enjoy!

Without Enthusiasm Nothing Can Be Accomplished

Without enthusiasm Jesus would have abandoned his ministry! In Gethsemane's garden, facing death, it was enthusiasm and fire that helped him to hold the vision that life is triumphant and that death, in truth, had no reality! Enthusiasm carried those blessed feet over the road to Calgary and held him upon the cross at Golgotha! THOSE OF YOU WHO DESIRE TO BUILD A FOUNDATION UPON WHICH A NEW AGE SHALL STAND, those of you who profess to lay the cornerstone for freedom, I say to you, couple your vision with enthusiasm and use me as yourself!

The fires of enthusiasm are not the fires of the zealot, the fanatic, which burn to ash and destroy! Enthusiasm is balance! Enthusiasm is a positive, conscious progression but the feeling is always under the control of the presence of God! Enthusiasm is contagious, even as is doubt and fear! Be careful that which you carry in your feeling world, for contagion through the feelings has been the destruction of every golden age, as well as the foundation of every magnificent spiritual and physical perfection! If we did not have feeling to which we could tie, which could stir the masses out of lethargy, we would not have sustained the planet to this day!

You are, some of you, spiritual incendiaries! The fire of enthusiasm is in your hand. The powers of the sacred fire are within the compass of your being and to you I give my hand and heart! The others enjoy the radiation of light, that light which comes from those who wield the sacred fire and which is the sweet anointing and benediction that will survive and remain long after I gather into my robes and arms the enthusiasts and take them home!

HOW TO PRECIPITATE

By The Mighty Elohim Hercules

In the name of God, I bring you the FIRE of HERCULES! I am the Elohim who embodies the WILL TO DO! I am the Elohim of DECISION, and God spare me the vacillating man! Everything that has been accomplished by men and women of decision, by angels, elementals and devas of decision, by beings who have voluntarily chosen to combine the energies of their lives with the WILL TO DO! Without that WILL TO DO, there is no permanence of accomplishment

The Seven Steps To Precipitation:

First: Hercules—The DECISION and WILL TO DO.

Second: Cassiopeia—PERCEPTION, the capacity to cognize the idea, to grasp to meditate on it.

Third: Orion—DIVINE LOVE, the power of cohesion which draws the unformed into form.

Fourth: Claire, (the Elohim of PURITY)—to hold steady the clarified picture, not distorting it by any opinion or desire of the outer self.

Fifth: Vista, (Cyclopea)—holding the CONCENTRATION (CONSECRATION) of the energies until the design is completed.

Sixth: Arcturus, (Seventh Ray)—use of the Violet Fire, RHYTHM OF INVOCATION and PRECISION, perfecting the symmetry of form.

Seventh: Tranquility, (Elohim of Peace, Sixth Ray)—takes the form, increasing it in beauty, harmony and service, sealing it within his flame of Cosmic Christ Peace. This enables the creation to be permanently sustained.

The reader will observe that in the sixth step, the Seventh Ray comes into action, and that the last step is under the Sixth Ray. This inversion occurs because all precipitation, to be permanent has to be sealed in the Ray of Peace.

Beloved ones, if you were to concentrate upon the Law as we give it, you could come from a consciousness of limitation into one of complete freedom very quickly. It all depends upon how much you WILL TO BE: YOU WILL TO DO and YOU WILL TO BECOME.

HOW TO APPROACH A RETREAT
An Address by the Ascended Master Lanto

Teton Retreat

June 23, 1954

Honorable guests, gracious ladies and gentlemen, I come to you to be your servant, so long as you choose to abide within the comforts of our aura, the flames from the heart of the Brotherhood of the Royal Teton. One day, in the future, the flame within your own heart will be your servant, and in that day, each and everyone of you will again assume the full mastery, which you knew and which I shared with you, many centuries ago, before you chose to let the shadows into your consciousness and create the veil between the heavenly realm and the realm where you chose to abide.

As you invited the shadows, through the senses, into your consciousness, you came to a point where no longer was the spiritual intercourse and companionship between the Ascended Master Octave and the human the joy of your daily and hourly association. Each man drew the veil across the bright and shining expanse of the Holy Christ consciousness. Each one created for himself or herself a small sphere of consciousness in which he abode and through which he functions, life after life.

How To Dissolve The Human Veil

It is, therefore, the intent and the purpose, as I am told by my illustrious brothers and sisters of the kingdom, to endeavor again to widen the borders of your individual consciousness, through drawing to your attention our words, our purpose and design in the universal scheme, as well as our current activities. Each time that you voluntarily choose to open the door of your consciousness to one of us and allow us access to those inner realms that you have held so long in shadows, you begin to dissolve individually, that human veil.

Each man in his own time, according to his own spiritual pace, comes, at last, to the point of spiritual awakening, illumination and awareness, when for him his own created veil is no more. For such a one the illustrious and magnificent presence is revealed and the Masters, the angelic host, the Cosmic Beings and the devas, again having been welcomed and entertained in consciousness, become part of the daily association, and man again walks hand in hand with the angels and in companionship with the God-free.

We come to invite you to project your consciousness into our humble retreat, which we have established and sustained through the ages, in memory of the descent of mankind upon this Earth, in the hope that through the radiation which we could so sustain, we might in time contribute, as each star contributes to the light of the night, the spiritual essence necessary and requisite to maintaining the soul life of the evolutions imprisoned in their own thought and feeling pattern.

We Must Help Virgo

We are but one of many great foci of light. We are but one humble part of a great cosmic movement which is taking, not only this planet, but also the sun which created it, and the galaxy to which it belongs, forward to a higher and more glorious destiny. We have heard from the God who has chosen to give us life and sustain us, that it is a cosmic moment of opportunity, and the planets and the galaxies and the suns and stars belonging thereto, gathering their celestial garments about them, must obey the fiat of the Eternal and be upon their way.

The blessed Virgo, who has so long been your hostess, is among those who have been summoned to a greater life, a more beautiful destiny than that of carrying the weight of the shadows of the creations of mankind. Those of us who love her, those of us who have lived upon the surface of this Earth, are determined that Virgo shall have her opportunity and that the component parts that make up her glorious body shall not be destined for disintegration, due to the recalcitrant energy of the evolutions she has sustained to this hour.

The beauty, the patience of your Mother Earth, how can I describe it! A platform beneath your feet, the nourishment to sustain your bodies, the exquisite scenery to refresh your souls, an orbit wherein those of you who have condensed your energies to such a point, may find at least an atmosphere not too rarified for your present vibratory action and comfortable by the very reason of its density, so that you can again find your way home.

What Motive Has Brought You Here?

I am told by my teacher, the beloved Himalaya, that you aspire, each one, to become Buddhas. Now, I am going to speak to you as I speak to every aspirant who enters the Royal Teton. You can feel yourselves entering within the heart of that mountain and standing in my

presence. "Beloved, blessed ones, you have come, motivated by some intent into the compass of our aura. What brings you here?" Will you ponder that in the days that are ahead? What exactly has brought you into the compass of our aura? Much will depend, beloved children, upon what you find is the answer. Every man and woman and every child that goes upon a pilgrimage, receives a blessing proportionate to that which was the actual motivating power behind the pilgrimage.

I have seen a million pilgrims walking to Benares. I have walked among them as they entered the sacred city. Some joined the hands of fellow travelers for conveniences sake, for certain protections against the jungles and dangerous mountain passes through which they are required to make their way. Almost, without exception, these people are conscious that a pilgrimage is a solitary and individual activity.

Each one who walks upon a Holy Pilgrimage seeking light, seeking understanding and mastery, must remember and keep before the mind's eye, throughout the entire course of such a retreat, the motive which inspired him first, which caused him to gather up the reluctant energies of the flesh and at no small cost to self, propel that flesh forward toward a destiny, whether it be Mecca, Jerusalem, Lhasa, whether it be the Teton or Titicaca or Suva.

Think not that we are not delighted to find people interested enough to touch the hem of our spiritual garment! We are honored and grateful, beyond human words to describe. Can you understand that we have worked for many centuries, when no unascended lifestreams even knew we had being, when there was no way and means of reaching the consciousness of even the most earnest or engaging the interest of their energies? Then when we receive the interest and voluntary support of such a goodly number, our hearts do respond, and we give to you our heart flame to be your servant.

Command Ye My Heart Flame

What shall ye command of my heart flame? What shall you individually ask of it? For it will answer you! It is intelligent! It is the fully gathered cosmic momentum of my individualization and being, from the day that I was born out of the bosom of the eternal. All of the consciousness, all of the prayers and aspirations that builded my own freedom, all of the love and devotion to this planet and its evolutions are within it! All are yours when accepted!

Like the light of the sun, or the air you breathe, so is the aura of the mighty Teton. Some absorb much. Some draw in the spiritual currents of that sun and breathe in the finer ethers and vitalize the form. Some shun it, some, in the shallow breath never know the vitality that is within the air. Some sitting in the aura of the Teton may not exert their inner energies through the magnetic power of their own heart flame to vitalize flesh, mind, feeling, and spirit, beloved ones.

Free will, you know, is defended and held by the ego as the prize possession of self. Yet that very free will with which you are all so blessed, will not allow me to tell you how much or how little of the gifts of the Teton you may accept. I give you all that the Teton offers. I give you all of its Light and its powers and its accomplishments. Drink deeply, I implore you, each one.

The Discipline Of The Pilgrim Is Threefold

The discipline of the pilgrim who has examined his motive, and who has found, within himself, the reason for his entrance or application for membership in our Brotherhood, is to develop the three flames, centered within the heart, the throat and the head, the encircling of the body with light at the waist to cut off the animal nature and the releasing of balance through the inner vehicles.

If you will choose to be, forgive me, I know it is a hard task, less interested in each other and more interested in the radiation, we can assist you in the deep breathing, in the contemplation of the flame within your heart, and I am sure you will find in your hours of recollection, before you sleep each night, that you have accomplished something. You will have developed, in your consciousness, a certain awareness and in your feelings a greater peace, faith and power.

Etherically, beloved ones, the mountain atmosphere as you know, represents a great purifying agent. Through the etheric bodies, are pressed, so many pictures and memories. Draw those mighty devas of the mountains, who will purify them as they do this great atmosphere. Forget not your evening of recollection over your day. Building thus, I will help you.

How To Contemplate Your Divine Nature

I have asked for volunteers from within the heart of the Teton, one to be the spiritual teacher of each member of this august company. Because of the tremendous activities within the Teton, it is no small sacrifice for them to choose to accept this service. Therefore, please do not call your particular brother until you are ready for your spiritual meditation, exercises and contemplations. Do not require him to remain beyond your actual contemplation because the courtesy of the Brotherhood is such that if they accept a trust, they will not relinquish it unless bidden to do so. So do not ask them to remain through your social hours. When you choose to contemplate your own divine nature, and in the breath accept the deepness of the spiritual light, invite your Brother and at that very instant, the sacrifice of love is so great that no matter what goes on within the great council hall, that brother will be by your side and remain until your contemplation, your spiritual exercises are completed.

When the Karmic Board meets, you will be interested to know that the retreats are heard in order, starting with Sanat Kumara, the Brotherhood of Shamballa, then Lord Buddha and his group, the beloved Lord Maitreya and the Maha Chohan, the seven great Chohans of the rays and then the other representatives of the foci of light. We are hoping that with your own contemplation and your wonderful inspiration and assistance of the Brother assigned to you, that you, too, will have something of merit to offer.

I Am Your Servant And Your Friend

We want you to be happy. We want you to be relaxed. We want you to realize what the heart of a true pilgrimage means, a true retreat wherein you go home rested in body, vitalized in mind, purified in feelings, thought and etheric substance. If you will abide within my humble suggestions, you will, I am sure, benefit thereby.

Weary not in your well-being. Through your own hearts many have been blessed, for God needs a body! In every focus, and around every retreat, some humble folks are situated, who represent that conductor, unknown, unhonored and unsung by the world without, but well known by those within. Remember I AM your Servant, and your Friend of the ages.

Lanto

HOW TO ATTAIN THE STATE OF GRACE
An Address By Beloved Archangel Gabriel

Flourtown, Pa

July 2, 1958

Hail children of God that walk for a time the ways of Earth!

I am Gabriel, the messenger of the Lord, come always to bring good tidings of grace and joy to every lifestream who can receive my presence, who can accept my reality and who desires deep within the heart, to know the joy of holding the immaculate concept for themselves, their fellowmen, the sweet Earth and all life that is upon it. I have come many times as such a messenger from on high!

People in every civilization, who were endeavoring to sustain the magnificence of God's Life and God's Will and God's Way, when they were filled with Grace, a constant listening consciousness for divinity and were not diverted, constantly, by the voices of the many outer activities with which they were surrounded, were able to hear my message and on many occasions to see me face to face!

The import of remaining in a state of Grace cannot be over emphasized to any earnest and sincere chela who intends to pass from the outer shrouded consciousness of the masses into the awakened, liberated God-free state of the illumined.

The Ingredients Of Grace

Beloved ones, it has been described in detail to you, the activities that are ingredients of a constant state of grace. They embody the mercy of almighty God, the peace and balance that is held within your own Holy Christ Flame, the knowledge of the truth which has been presented, century after century, to lifestreams who chose to accept portions of it, to utilize portions of it, and who have placed it on the shelves of libraries, the greater majority of those truths. Grace means purity of motive. It is a most subtle initiation wherein you are able to stand apart from the personality and measure honestly the motivating power behind your action and prepared action.

Grace contains a true abiding love for God, a love that is in the feelings and not on the lips or in the mind of the outer consciousness, a love for God that cognizes, in feeling, that ONE, in dignity with God, is a majority over all human creation and all disturbing appearances, and love and reverence for the divine Hierarchy who, through the mercy of the law have passed through the veil of maya created by mankind, and who

stand before you, time and time again, giving of their love and their life to help you to redeem those energies that have been distorted and to set you free from that karma that you have created through the misuse of free will, a love for your fellowman in distress, for the animal kingdom and elemental kingdom and all imprisoned life, even so-called inanimate objects—that is a part of grace.

When I came to beloved Mary, as I promised to do before the birth of Jesus, it was possible for me to give confirmation to her and strength to her in the time when she required it most, because she was, despite all of the personal aggravations, in a state of listening grace! All through her blessed life she remained so, and so I could easily say, “Hail! Thou Mary, filled with Grace!” So say I now to you, guardian spirits from other stars, human beings belonging to this Earth, imprisoned angels, elevated elementals, “Hail, children, be thou filled with grace!” May the great Mother Mary so imbue you with that grace that you, feeling it, KNOW the comfort that abides within it.

Beloved ones, all men and women, unascended, seek confirmation of truth but mostly they seek it through phenomena. Some of the earnest and sincere students who have made the pass-over at Easter time into the new era of dignity, reverence and beauty can understand that phenomena, by itself, is not a lasting confirmation for your faith in the Divine Beings who have lived, loved and served you through the ages, for the outer mind, the human consciousness is a very unsettled entity.

Grace contains within it discrimination, discretion, the capacity to cognize the truth and to cognize and reverence Divinity's presence in your midst, and to cognize, also, the petty outer consciousness of those with whom you must deal in your capacities as sanctuary or group directors, and in your family and business associations, the discretion to cognize the Holy Christ Selves within them, and to place where it belongs, in the Violet Transmuting Flame, all of those petty differences of every kind.

Grace contains within it illumined faith in the power of God to render service to all life everywhere, knowing that the Father and Mother God who created you and everyone of the individualized beings using this Earth as a planetary home, certainly wishes for you and yours, and all of mankind, the very best. He created you, my beloved ones, in his own image, in his very likeness, endowed with the magnificent, immortal Threefold Flame, which beats the heart of the White Fire Being from whence came forth your Electronic Presence and from whence then

came forth your Holy Christ Selves, around which was coalesced the beautiful forms that you wore when you, either as holy innocents, or as protectors from other stars, came first to the planet Earth and chose to use her as your hostess.

Flames And Rays Versus Phenomena

The greatest phenomena performed will not convince the soul of the efficacy of the divine powers to act, but the cosmically directed flames and rays called forth, in the name of anyone of the Cosmic Beings and the Ascended Masters and CHARGED silently when discretion indicates, audibly when discrimination directs, will FILL the feelings and world of any lifestream who chooses to experiment with the powers of invocation that are held within the consciousness of my beloved Brother Zadkiel, beloved Holy Amethyst, the beloved Ascended Master Saint Germain and the blessed Portia.

The power of these rays and flames is also for the purpose of establishing upon this Earth, again, the pristine purity and perfection which it knew before the first Manu and the holy innocents came forth, until that holy, immaculate, concept for this planet Earth, is re-established through the self-conscious endeavors of those embodied, disembodied, and awaiting embodiment, who, century after century have despoiled the perfection of this sweet planet, this planet into which Helios and Vesta and the great Elohim and Archangels and the Hierarchy have poured so much love, and which Sanat Kumara, in all his love, saved from dissolution by an exile long in patience.

Be Ready To Meet Saint Germain!

When Helios and Vesta draw this planet closer to their hearts, pray to God that all those who have been released from the "compound" and the "sleepers realm," all those who are not yet fully accepting even the reality of the Ascended Master kingdom, may have the assistance of the God Pelleur and whoever is in embodiment, who chooses to take upon themselves a portion of this impersonal karma, and may be so accelerated that they, too, move forward and enjoy Freedom's Holy Star.

Pray to God that when the veil of maya is dissolved and your Lord and King Saint Germain and his Goddess Portia stand forth in the atmosphere, that you are ready emotionally, mentally, etherically and physically, and that you can face this great and gracious son of heaven who has

loved you so long, served you so faithfully and trusted you beyond all human powers to describe. May you look upon him and hear those words, "Well done, my good, my faithful child." It is worth centuries of endeavor, not alone one short life, to be received by your Master and know that you have done your best.

Measure Not Your Light Against The Light Of Another

Remember beloved ones, that each one's best is not the same. The developed capacities and powers of each lifestream are determined by the star, the planet, the system, the sun to which they belong, by the service that they have rendered at inner levels, and by what they have done with life, personality after personality, embodiment after embodiment and, in-between embodiments, as well. Therefore, measure not your light against the light of any other man, but measure your light silently when you are at home, in a period of introspection and retrospection.

Your light living in the chalice of your heart, your light, the Holy Christ Flame expanding through you, is all that you will be judged by when you leave this earthly sphere and stand before the Karmic Board. As that flame expands, as your aura becomes more beautiful, have you left behind you a trail of light and a beam of light for those following after you? THINK ABOUT IT! One day, each one unascended, shall so stand, shall face his sponsor, shall face the Karmic Board, shall face their God! You will take nothing with you but the records in your etheric garment and your soul and the light that you have expanded from within your heart. When you bring in your sheaves, beloved ones, you are stripped of personality, you are ONE in a long line of those who come into the Halls of Karma and stand before that august body. The knowledge you have received in this earth life, alone, and that which you have done with it, is measured carefully.

As Master after Master has said to you, many are those who feel remorse after the life span is closed. Many are those whose tears have flowed as they say, "It might have been." NOW you are in the era of performance according to your teaching in the past. You are in the era of using the law and your God-given discrimination in expanding your light in whatsoever way and means life directs you to. You have in your hands and use already enough substance of the truth to illumine an entire planet, as well as yourselves.

Remember beloved ones, dispensations come and they go! Cosmic

moments strike and then they are over! Even Jesus Christ, was under that law wherein and whereby, after the three years of his cosmic ministry, he was invited and directed to return to the Father's home. He made that ascension which you have read about and heard about, both in your Gospel and in the manifold expression, prepare and released under the auspices of our beloved Morya.

I am a Messenger, That Means I am a Servant

I am a messenger of the Lord. That means I am a servant of the Law. Any unascended lifestream, wherever they may be, if they honestly and sincerely consecrated to God's service, are the servants of the Law of Love. Think about it.

I send to you today, the fully directed power of my capacity to hold the immaculate concept for each and everyone of you, for your groups, your families, your loved ones and affairs. Accept it, use it, and help us, oh Children of Earth , HELP US in this great and magnificent hour of opportunity, to redeem the Earth, its people and all imprisoned life. Make it a platform of dignity and beauty of the Ascended Master Saint Germain and all succeeding generations. Thank you.

Archangel Gabriel

MONTHLY LETTER TO THE TRANSMISSION FLAME CLASSES

December 20, 1958

BELOVED ONES SEEKING THE POWERS OF PRECIPITATION:

I am surely desirous of seeing you acquire those powers, which you once had, even before this world was! I invite you, in my name, to enter this Temple of Precipitation, and to enjoy with me the buoyancy and enthusiasm which is there, as well as the instruction which is yours, in learning the divine science of precipitating from your own causal bodies, into the atmosphere of Earth, those particular desires which will be of blessing and benefaction for the peoples presently, or in the future, who will use it as a schoolroom.

As the year 1959 will be primarily dedicated to the beloved Ascended Master Saint Germain's new era of perfection and to bringing the greatest benefaction to all unascended lifestreams, we require channels for the gifts, powers, talents and virtues which are ours and which can be

released through you, beloved of my heart. Co-operate with these Divine Beings, Solar Emissaries and God-free angels, in learning how you may fit your outer consciousness to be such channels. I will help you.

Love and blessings, Maha Chohan

Statement For The Transmission Flame Class

I AM inbreathing th' wisdom joy and Presence of Precipitation's flame

Repeat statement. Use "absorbing," "expanding" and "projecting" for "in-breathing."

Temple of Precipitation, Rocky Mountains, U.S.A. Hierarch: Confucius, (assisted this month by Lord Lanto), Color of Flame: Chinese Green. Musical keynote: "O Thou Sublime Evening Star," from Tannhäuser.

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
With the Great White Brotherhood and Cooperative World Service

JANUARY 1959

DISTRESS IS NOT GOD'S WILL

We send our gratitude and our praise for the presence of God's will in this universe! Those of us who are endeavoring to permeate the emotional, mental, etheric and physical strata of mankind are always so desirous of seeing any unascended chela accept the will of God as good. These blessed ones, through radiation, then convince others of mankind of the goodness of God. The many afflictions and distresses to which they and the human race fall heir are not God's will but, rather, their own misuse of the creative centers of thought, feeling, word and action, through the ages.

Placing the cause of distress of any kind on a good and merciful God is a sacrilege and a sin! When the mankind of the new era realize this and are willing to accept their own sins of omission and commission as the cause of their individual and collective distresses, we shall have progressed far in our endeavors to redeem the Earth! The Brotherhood of God's Holy Will at Darjeeling serve constantly and it is my joy to be an integral part of such service!

Thomas Printz, Editor

A NEW YEAR GREETING TO OUR READERS

The New Year represents another opportunity for each soul to ride upon the cosmic tide higher into the heart of heaven, placing the years that have gone before into the cosmic incinerator of forgiveness and forgetfulness. If you would try to live in the New Year as if there had never been an old, the limitations and evils would drop away and only the good from the past year would endure and become a mantle of fragrance around you.

Maha Chohan

SELF-MASTERY IS THE ONLY MASTERY THERE IS

By Beloved Ascended Lady Master Meta

August 12, 1952

To the students on the pathway of life who are seeking so earnestly the truth of life, I come:

Understand first, that the truth of life is merely the HARMONIOUS EXPENDITURE OF THE ENERGY OF YOUR LIFESTREAM IN A MANNER THAT DOES NOT DISHONOR THE ELECTRONIC SUBSTANCE LOANED TO YOU BY THE CREATOR OF ALL LIFE.

The Bridge to Freedom activity endeavors to teach the student that the misuse of the energy of his lifestream creates limitation and discord in his world. It shows him, unmistakably, that the harmonious control and expenditure of energy through his individual lifestream is the way of the Master. Mastery is what all lifestreams are seeking. SELF-Mastery is the ONLY mastery there is.

No man will advance beyond the threshold that leads to the open doorway of truth until he acknowledges, fully, that no lifestream in the universe, no set of circumstances, no appearances on the screen of maya—can possibly disturb the rhythmic expression of his own divine pattern unless he chooses to give the direction of his energy to that appearance. You are either the master and controlling, directing intelligence of the energy of your lifestream, or you are mastered by any expression that can change the quality of your energy into anger, condemnation, hatred, or depression.

In the world of men where many lifestreams are “rubbing shoulders” through karmic ties and the natural activities of daily living, man is prone to allow any passing force, spoken word or idiosyncrasy of another to completely change the pattern of his thought and feeling processes and destroy his harmony and peace.

When man determines to become the Ascended Presence, all this must give way and he must become like the SUN and continue in his peaceful orbit, letting the wave of human emotion dash hither and thither as it will, not allowing it to touch his equanimity or to disturb his tranquil heart.

THE USES OF THE PINK FLAME OF LOVE

By the Ascended Master Himalaya

July 11, 1952

Beloved children, the potent force of love is little understood by the aspirant and yet there is no form that can come into being or be sustained without the cohesive power of Love within it, which keeps the elemental substance from returning to the great unformed. The planet Earth, the stars in the heavens, the Sun in your sky, the garments that you wear are held together by the presence and power of Love.

Mankind, in all its seeking, can never draw the fullness that life holds, until the magnetic currents of love within the heart center are sent forth, over which all good comes in to the experiences of the one who loves.

To make yourself a cosmic center of love is to draw from the heart of the great eternal Father, from the heart of the Lord Buddha, myself, the Princely Jesus or the Lady Mary, the substance of love which begins to enter the inner bodies and the consciousness, and there to generate, deep below the surface, the divine vibration of love.

When one loves enough, all the supply, all the good of the universe rushes toward the source of that love for benediction and bathes in its essence, as happy children bathe in a fountain on a hot summer day. When one loves enough, both animate and inanimate life draws toward the heart center of that love because such is the kingdom of heaven, and from the plant, the mineral, the vegetable, the animal and the human kingdoms the heart cry is for the re-establishment of the soul and spirit in that kingdom from whence all have strayed.

Seeing your endeavors to establish and sustain a focus of the Ascended Masters in the western world, I say to you, if you were to fill your buildings from the foundation beneath the surface of the ground to the topmost spar with the substance of love (which is the natural Pink Flame generated and drawn forth from the Threefold Flame in the heart, even as you draw water from a well, you would draw to yourselves both students and children that would tax the capacity of your present equipment and facilities and you would experience opulence of every kind and every form.

True love is not sentiment, it is not spasmodic, but constant, and can transform your activity into a mountain of pink flame as high as Mount Everest, and at its apex will stand the crowning victory of your vision in the visible temple to the Lord of Life and to his children.

From all over the planet Earth I have drawn the greatest minds and hearts, over mountain passes inaccessible and dangerous, through hardships that you in the western bodies cannot comprehend, into the vastness of the upper regions. What, think you, has drawn them? The flame of love!

If I could draw people across a nation or a continent by that flame, would you not, in the accessible region in which your present environment has placed you, utilize my cosmic power to draw this activity from a struggling few, into a majestic victory of love.

To each of you, this morning, I give the power, the authority and the responsibility to flood forth upon your automobiles, upon your property, upon your assets, upon your children and upon your students, the substance of love, and no other qualification will I allow in this great opportunity which I place in your hands.

You can train yourselves to flood, from the heart of the presence, that flame of love that no person nor part of life can resist, for entry into their hearts for their blessing and enrichment and in that blessing and outpouring, you are increasing the strength and opulence your own lifestream and drawing it ever closer to the pink mountain of attainment.

What I have done YOU SHALL DO and you can build a great mountain of pink flame, charging and feeding it with the great flame within your own hearts amplified with the Glorious Pink Flame of Love within the hearts of all Ascended Beings, which will flow forth to victorious accomplishment as you utilize it.

Ascended Master Himalaya

Decree For Pink Flame

IN THE NAME OF THE PRESENCE OF GOD WHICH I AM, BY THE MAGNETIC POWER OF THE SACRED FIRE VESTED IN ME, I call to you, BELOVED LORD HIMALAYA, beloved Paul, the Venetian, beloved Chamuel and Charity, beloved Nada, beloved Orion and Angelica to CHARGE (3) every atom of my home with the substance of the PINK FLAME OF LOVE. CHARGE any automobile, my body, and everything that I am connected with in any way, with the SUBSTANCE OF THE PINK FLAME OF LOVE and hold it sustained. I thank you.

HOW YOU CAN BATHE IN AN OCEAN OF MUSIC By The Beloved Goddess Of Music

August 15, 1952

I want you to visualize a cascading sea of sound, like a prismatic crystal waterfall, descending thousands of feet through the mountain. This exquisite cascading river of pure electronic force pours a melody through the seven octaves of expression, in its descent from the heart of God into the world of physical appearance and represents the constant flow of the harmony of each lifestream from the solar God to man.

Each plane through which this exquisite sound of the life tone passes is enriched by this glorious melody and the sub-plane below repeats that melody in an octave that can be enjoyed by those dwelling within the vibratory action of that particular octave where, again, it is lowered and transposed to enrich the lower octave in its descent earthward. Thus, you can picturize the constant melody of your own individualization, because the lifestream is a constant repetition and is replenished anew constantly by the limitless source of the fountain of life eternal, which with unerring accuracy, sustains the note and expands the melody of all created beings according to their original composition. Thus, in the world of cosmic creation, color and music represent the manifestations of divine thought and feeling.

When the glorious melody flows forth from the Holy Christ Self, for its four-fold expression through the lower vehicles, the resultant melody and color depends on the harmony within each of these vehicles. The natural foreordained melody does not find expression until all vehicles are in perfect alignment.

Here we come to an understanding of your oneness with that exquisite prismatic cascading sea of sound and color, and of you will open yourself to its outpouring, you will experience great peace of mind and heart and great balance, as well as a much fuller realization of the ecstasy of just being.

To witness an expression of Cyclopea's (Elohim Cyclopea is also called Elohim Vista) life essence is to be privileged to see one of the most beautiful manifestations of creation, as that great being's life river flows from the source of creation, bathing cosmic space in literally oceans of melody, color and harmony, this, mind you, in his passive or restful state, which is the natural order of his just being, but when the mighty Elohim chooses to animate this natural harmony by the power of the flame of his heart, this tremendous ocean of prismatic sound and color is directed consciously in millions of individualized streams from his heart, which widen like fans as they pass from his body, each carrying,

mind you, the keynote and fundamental principle of his own spiritual emanation, into which are woven so many original exquisite interpretations of the ONE SONG that the whole universe seems ALIVE with the ecstasy of that music, which passes, alike, through the bodies of the solar gods, the angels, the devas and the consciousness and inner bodies of men.

In interstellar space, whatever any individualized being is doing, he is always conscious of that rush of exquisite energy passing through him when Cyclopea is in cosmic action, and his beauty, ecstasy and perfection are intensified by this outpouring.

When you realize that Cyclopea is but ONE (although the major one) of countless legions of perfected beings, Solar Gods, devas, angels, cherubim and seraphim who represent the musical outpouring of Divinity and that ALL are more or less constantly engaged in creative activity, you can, in a measure, grasp the exquisite perfection of the inner spheres and how the glory of all life is being, increased, instantly by the expression of each one's heart in service.

Although Cyclopea and the mighty legions belonging to the Music Ray are more concentrated expressions of the music of the spheres, yet through every perfected lifestream flows exquisite music, beautiful color, tone and fragrance of the natural outpouring of God's grace and the realm referred to as the Ascended Masters' Octave is a realm of music, perfume, beauty, peace and perfection that the word "perfection" but poorly describes.

Contemplating the above, which is but a mere sketch of the realm to which you aspire, you can see how you may call forth and have directed, through your own life-thread, oceans of harmonious energy, for the universe is literally saturated with it and then your lifethread, locked within this protecting essence, brings you to that state of peace where you will consciously enter into this inner sphere and experience and know the realm of harmony and happiness for yourself.

I am known as the Goddess of Music. My life is dedicated to presenting beauty, harmony, happiness, fragrance and attunement, which are all natural expressions of the ONE LIFE, and when you PASS THROUGH THE VEIL OF MY NAME, you may perceive my identity, which will delight and surprise you.

NOT ALL WHO USE THE NAME OF EL MORYA REPRESENT HIM
Darjeeling, India
January 15th through February 14, 1959

Because the year 1959 will have such tremendous import in the affairs of governments, nations, and individuals as well, it was thought wise, by Lord Gautama, the new Lord of the World, to open the doors of this blessed retreat early in the year, so that all who truly have spiritual discernment, can have the instruction of this beloved master and his Ascended Master sponsors, as well as the added impetus of the proximity to the magnificent flame which he guards, guides, protects and expands for love's sweet sake!

Our gracious host, El Morya, so often reminds us of the very presence of our Father-Mother God in his kindness, as he greets us and takes us into the magnificent drawing room, where we can and do converse with him and his Ascended Master receptionists. The light from the fire always burning on the hearth in the living room warms the souls of men worthy to be thus entertained. However, El Morya is a strict guru and teacher in his actual acceptance of a chela, in whom he invests his instruction and council! For this reason, many sincere seekers upon the spiritual path prefer the gentler disciplines of the other Chohans.

When an Ascended Master, like El Morya, takes upon himself the actual responsibility of teaching the Spiritual Law to unascended beings, he also accepts the obligation of making good for any sins of omission or commission upon their behalf. This is no small assumption upon the part of the Ascended Master. WHEN EL MORYA DOES SO CHOOSE TO INVEST HIS ENERGIES IN ANY UNASCENDED BEING, HE SPENDS AT LEAST ONE HOUR IN EACH TWENTY-FOUR (SPEAKING IN THE USE OF TIME) IN MAKING APPLICATION FOR THESE SO-BLESSED ONES. Of course, the Ascended Masters never feel disappointment, but often, in the course of a lifetime, well-meaning individuals do not fulfill their vows of obedience to the Ascended Host, and then, for that embodiment, they are no longer of use to the Ascended Masters.

Often, in previous issues of The Bridge to Freedom, there has been described the actual beauty of El Morya's home. We, therefore, refer our gentle readers to these previous issues for such instruction.

Be assured, however, that the beloved El Morya entertains in his retreat only those upon whom he feels he can depend to further the cause of God's will on Earth, not the spiritual dilettante, nor the curious, nor even those who have put a temporary interest in things of a spiritual nature for personal gains and profits. As his beloved brother Jesus said long ago "Many will come in my name, but I shall not be with them!" This also

applies to the “many” who dare to take the name or use the activities of El Morya and his White Brotherhood in falsity. Upon them shall return the karma of such misguided activities.

Long, long ago, the beloved Ascended Master Morya and Kuthumi tread the spiritual path together. For them both, it was an initiation in patience, through which each of these elder brothers absorbed the very spiritual nature of each other. This, of course, was not happenstance, but rather the actual guidance of their guru, so that each of these beloved Ascended Beings might learn, absorb and actually become a part, one of the other.

Enter, with us, the Temple of God's Holy Will, where you will meet beloved El Morya face to face, even though you do not desire to become an active chela on his ray of perfection! Enjoy his friendship and his abiding love! Here, you have opportunity without limit to become, in truth, an outpost of his loving blessing, wheresoever your physical body is presently functioning.

To all, the beloved El Morya sends his love. TO THE “FEW” IN EVERY AGE WHO ARE WILLING TO BE CONSTANT IN SPIRITUAL SERVICE, HIS LIFE IS DEDICATED. We can, like El Morya, pray that you are among those “few” who shall serve with him, until the Earth and all her attendant evolutions become the fullness of Freedom's Holy Star!

YOU ARE INVITED TO EL MORYA'S TEMPLE

(Monthly Letter To Transmission Flame Class, by the Maha Chohan)

BELOVED CHELAS SEEKING TO KNOW AND TO DO GOD'S HOLY WILL!

Bless you, forever, for your kindness and cooperation with all the Ascended Host of Light! As it was my endeavor to open the doors of the Ascended Master Retreats to you, I am so very delighted at your reverence for such opportunity.

Take my hand now, beloved, and together we shall enter my Son, El Morya's home, visit with him, and then become a part of the sacred ceremonies in the flame room at his retreat. Here you will absorb the actual feeling of the goodness of your heavenly Father and you will be charged with the enthusiasm of your dear host and his Brotherhood!

Your sponsors, chosen by El Morya, are magnificent gentlemen of the First Ray. They will enter the Flame Room with us and look upon the White Flame, which has a radiance of sapphire blue, rising from the

golden chalice which El Morya guards and protects at all times.

I await your visitation during this thirty day period, January 15th through February 14, 1959, whenever you have opportunity to visit with us there!

THE VICTORY OF THE BRIDGE

By Beloved El Morya

Flourtown, PA.

July 3, 1958

Beloved ladies and gentlemen, again it is my privilege and honor to speak to those whom I have sponsored through the years, who reaped for me a harvest of great merit, and who have individually and collectively made worthy my own individual trust placed before the Karmic Board, that now sits over the magnificent Teton Range, waiting to hear the petitions of each and every blessed person in human embodiment as well as the disembodied, the angelic kingdom and the elemental life.

This great Karmic Board, I love so much and as you come to love it, you will find a board of mercy rather than a board of judgment. Therefore, you can know and cognize, to some degree, how eternally grateful I am, at our half-yearly council, to be able to present even one lifestream who has incorporated some of our activities, endeavors and instruction into practical works.

How grateful I am to be able to say to them that you can see the result from reaching from divinity's realm, and by the very strength of our light, directing and anchoring into the outer consciousness and feeling worlds of the few, the truth and reality of our being, in order that over the bridge which is made of our own very life, we may reach you in hours of crisis, in order that we may, over the Bridge made of our light, caution you against errors that need not re-occur, that over the Bridge of our own very life we may direct those currents of faith, illumination, peace, purity, concentration and consecration, and more and more knowledge of the preparations that are being made for Ascended Master Saint Germain's Golden Age.

That age shall endure upon this Earth so long as the planet remains, until one day, in glory, even as you, yourselves, are absorbed into your I AM Presence, the Earth and all the planets of this system are absorbed into the heart of Helios and Vesta and become one with the God-Parents from whence they came forth so long since.

Hold The Bridge By God's Own Hand

WE ARE LIVING IN A DAY WHEN MY SMALL DREAM OF CAMELOT IS TO BE EXPANDED INTO A WORLD BROTHERHOOD, although I be not the king. Saint Germain, who has earned that right, reigns upon that throne, and I shall also always offer my advice as privy counsel, but I ask you, in the name of God, those of you who have broken bread with me, those of you who have shared my light, not only in this embodiment but in many years and centuries past, I ASK OF YOU ONE BOON— HOLD THE BRIDGE BY GOD'S OWN HAND UNTIL IT IS STRONG ENOUGH FOR THE ASCENDED HOST TO PASS OVER FROM DIVINITY'S REALM INTO THE HUMAN and all mankind may see and know those divine Beings whom we have presented through the veil as best we can until this hour. Thank you so much, please be seated.

It is more, dear hearts, than just a rise, it is a long, arduous, uphill walk to the very end. The chelas who achieve the peak will be those who hold that Bridge with their hands. Yes, sometimes bruised, sometimes lagging, but the constancy in their hearts shall hold it. One day those who do shall be grateful. You will be grateful over the rainbow's span, made up of the seven colors in the Causal Body, directed earthward. You will be grateful to see the divine Beings descending, and in like manner, you will be grateful to see your loved ones ascending out of limitation and distress in dignity to the inner levels. This is being done now but of course you do not see it. Some of you have accepted the dispensation that was granted, that all your loved ones passing on would be cared for and taken into the ascension temples, prepared and finally given their ascension in the Light. Now this is a great gift. Some of course have it only as an intellectual book on their shelf.

How To Pierce Through The Psychic Plane

I am deeply and sincerely concerned with the assistance of that sweet Chohan of the Seventh Ray, whose love and trust, kindness and willingness to serve mankind, is, without question, one of the greatest manifestations of brotherly love. Because I have a certain pressure and a certain power of energy which comes through the First Ray, I have offered that energy to him in order that he, in the more gentle, the more dignified and gracious capacity as the Prince of Heaven, might have whatsoever I, and those of us on the First Ray can offer, to help him externalize that kingdom, which will not only be for you, but for all succeeding generations, a kingdom of beauty, of harmony and of righteous-

ness, here on Earth.

Consider, my friends, what it takes to direct a beam of energy through the psychic or astral realm and anchor it into the outer consciousness of even one lifestream. Consider, beloved ones, that it requires our love first, our willingness too, before the Karmic Board and the Cosmic Law, our willingness to make up, for any lack in any chela or chelas in whom we choose to invest our life energy. Then it requires all of the great assistance of the mighty Beings who open that channel through the psychic or astral realm, to keep pure and uncontaminated, the instruction that is given. I It takes a great cherubim or seraphim to guard and guide and protect the instruction as given, because so much of it, although it has been written and spoken, is not fully anchored yet, either in your feelings or in your mind, for beloved Cherubim Lovelee has rendered, and is rendering, that service for us.

She keeps, within the storehouse of her own great body, every bit of the truth that we have presented in public addresses, as well as in private. Those are carefully stored in the folds of her garments of akasha and can, and will be released, again and again, through the Holy Christ Self of any individual who will call that remembrance forth. Some of you have had very wonderful success with that particular application, of asking your Holy Christ Self to retain for you the truth, that you hear in these very short dissertations, and to recall to you that portion of the truth, whenever you should require it. In that way you have a storehouse upon which you may draw without limit, for IN THE PAST EIGHT YEAR PERIOD ALONE, WE HAVE COVERED EVERY FACET OF EXPRESSION THAT YOU REQUIRE, DEAR AND BELOVED ONES, TO GAIN YOUR OWN INDIVIDUAL ASCENSION.

The Radiation Of The Master Reaches You Wherever You Are

Now, I know fully well that all of you have not been present at the actual visitation nor at the address, but EVERY SINCERE CHELA, WHEREVER THEY ARE ACROSS THE FACE OF THE EARTH IS ALWAYS CONNECTED WITH THE ROSTRUM, THE PLATFORM AND THE DIVINE BEING WHO IS SPEAKING, and there is charged and charged and charged into their emotional, mental, etheric and physical vehicles, the ESSENCE OF THE TRUTH that is presented in spoken word, that is recorded, is later transcribed, edited and prepared for the public.

Now there comes the hour when the chelas must cognize the fact that wheresoever they are, wheresoever their forcefield may be,

wheresoever the great Maha Chohan has placed them to carry the light and has given into the direction of your leader a specific pattern for the forcefield, there is no time when we give an address that the group, the forcefield, the leader and all connected with it, wheresoever you may be, is not blessed according to the consciousness of each and everyone. We are not limited, beloved ones, by time nor are we limited by space, except insofar as human affairs are concerned. Therefore, I want you to have the perfect assurance that, as you call to be placed in your perfect place, that wheresoever that place is, if your motive is sincere, if your heart is pure, if you are selfless and pliable, that the radiation of the Divine Being shall reach you and you shall benefit thereby.

What The Projected Consciousness Accomplishes

The activity of projected consciousness, as drawn forth in this activity, is a magnificent field in which many of you have so successfully accomplished the protection of various localities, by carrying your entire group in thought and feeling and consciousness to places to where there are distresses of a temporary nature, and anchoring down your blessed forcefield on the very substance of the Earth in those locations, you have, to my great delight, averted so much catastrophe, not only of a cataclysmic nature, but also regarding the governmental affairs and international condition. For this I am grateful!

After you project yourselves and your group to this locality, you should remember to return home! It is more difficult for an individual, particularly an undeveloped student, if you take them let us say to Tunisia or to Asia to have them return home.

We have had to send out, time and again, beloved friends, cosmic scouts to pick up the fellows and the ladies, too, who have fallen off your respective carpets. So would you please be so kind in the future to remember the least among you, and when you use that carpet of whatever design it may be, will you be so kind as to collect your little flock and return safely to your own sphere of influence, at least into the sanctuary, give them the benediction of your love and light, and then, pray God that through the mercy and protection of God they safely arrive in their respective and individual homes. This will relieve us of a certain amount of unnecessary service, service that we willingly do because we are glad to see you even experiment with the idea. That is just one point.

The Straightening Of Earth's Axis

By the 15th of September, barring any more blocks in the consciousness of the chelas or obstructions in the elemental nature, the axis of this Earth is destined to be straightened, praise and thanks to beloved Magnus and beloved Polaris and all praise and thanks for your assistance. Thank you, will you be seated.

I knew, even before I spoke it, there would be a sense of relief and release to you all. Let us remember, also, that we are dealing with a very unpredictable mankind and a very unpredictable nature kingdom. If all goes well, and I hope to God for the sake of the chelas it does, September 15th will be our day. We are working toward that end and I know you, who are the practical members among the assembly gathered here, are working with us.

(Due to the causes pointed out by the Master as possible, the straightening of the axis of the Earth did not take place on September 15th, 1958, nor on any other subsequent date. Thus, the blessings that this world event would have brought to mankind have been delayed for some time. If it had taken place, everyone would have known it, as it will be accompanied by many signs, one of which will be a collective turning to the Light by the people, Ed.)

What will this axis change do? It should not frighten anyone. Let you, who go back into your groups, carry the word or the portion of the word that you remember, tell your people not to be frightened and that the great God that made each and everyone will take care of all, in their perfect divine place. There is no need for mass exodus, there is no need to flee from a magnificent God experience. Some day, each one will stand, each one alone with God! Wheresoever he or she may be, that place can be a place of safety, security, protection, peace and abundance, or it can be a place of quicksand.

Concern yourself with yourself, that there be a Rock of Gibraltar beneath your feet and that the many hands that are raised towards you will have room, if necessary, to ride out any storm that might ensue upon your rock. Let us be fearless, beloved ones, and we can only be fearless when we have absolute faith in the light of God and the goodness of God, that always manifests perfection when given opportunity to act.

Let me give you my faith in the goodness of God to act through you NOW! For me there is no yesterday, there is the NOW and the bright tomorrow, builded on the activities of today prodding though I may be, to energies that sometimes sag and weary, that very prodding my love, that seeks to break through lethargy and set and keep you free, free eternally from bondage and distress of every manner, free in the glory of the mastery of the energy that pours through your being. That is the freedom which I offer, for which I foreswore nirvana, for which I spon-

sored you, each one, for which I plead with you constantly, only that you shall have that freedom, only that you shall know how to give that freedom to others, only that you shall rise out of every temporary distress and know that God is GOOD!

Long, long ago I endeavored, unsuccessfully, to establish a very small brotherhood, based on the principles of Jesus, wherein the knights and ladies fair were to live according to their highest principles and seek the living Christ. That experience has come and gone. Those of you who read know the record thereof. By the very reason of that record have I chosen some among you to help make things right.

CONFUCIUS, THE NEW HIERARCH OF THE ROCKY MOUNTAIN RETREAT

The members of the Karmic Board, as I tell you, are in session. The great Lanto is still acting as Hierarch of the retreat. The beloved Confucius will accept the crown at about midnight tonight, from the beloved Lanto's head and then he will become the hierarch of the Rocky Mountain Retreat. Lanto will assume my blessed Kuthumi's place as the Chohan of the Second Ray. Those of you who are still awake at that time, I advise you to enter into the center hall and take your place at the very beautiful ceremony. The crown of the beloved Lanto, with the green and gold, symbolic of the activities of precipitation, is now resting on a lovely golden cushion, before the Precipitation Flame. At midnight, Eastern daylight saving time, the beloved Lanto himself, will perform the ceremony, Lanto wearing the plain white robe with the green trim and with no head adornment, the beloved Confucius wearing the same type robe with lighter shades of green.

Those of you who read or perused, shall we say, the latest Bulletin, know something of this activity. Beloved Lanto is now engaged in the actual service at the Teton, the Archangels, the Elohim and the Great Ones are giving their petitions to the Karmic Board. Perhaps it would be nice to give honor to him in song.
(Audience sings)

The Pattern Of The 1958 Summer Conference

Beloved Ones, the activity of this class has a pattern and a form. The pattern and form for this Summer Class of 1958, sponsored by myself

and confirmed by your gracious presence, is that of the rainbow. It differs, however, from the ordinary rainbow in color and it is seven-fold in its span. Before the class even began, having gathered all of the energies of all of the groups through the year, we established a canopy of that seven-fold rainbow like a horse-shoe, you might say, over the occident, and as the class continued, the rays have continued on through the Earth and at the completion of your lovely song to Lanto, they have gone right through the Earth like the lower half of the horse-shoe and have completed the circle.

Now that enfolds the Earth, all life within it, upon it, and in its atmosphere, in the seven-fold span of the seven Elohim, the Seven Archangels and the Archaii, and the seven Chohans. That is a particular special blessing, which was designed by the builders of form and which is active now, in your own individual auras and orbits, wherever you go. For you, it acts like a beautiful ovoid of the rainbow colors, except that the outside is blue. It is reversed, the outside in blue to give you the protection, coming right in to the center. In other words, to picture that, directly reverse the bands of color of your Causal Body and the violet, of course, will be closest to you, but the great protection of the Blue Ray is around you and that, too, will be around your automobiles and the various means of transportation. If you visualize it even once a week, in and around your sanctuaries and your groups as well, it will give you great individual assistance, I know, in the balancing of the seven types of individuals.

Though I Am Strict, I Am Still Your Loving Friend

Now, as I am rather a stickler on time, as I have always felt that the cosmic moment comes and the cosmic moment goes, and as I have seen, so often, a cosmic moment that has come and gone, just when an individual, earnest and sincere in the extreme, for a moment w, off guard or was out of patience and lost the blessing. I want at this particular moment, as there are certain petitions going forth for the benefaction of mankind, I want you to have the assistance of the great cosmic petitions that are being offered up to the Karmic Board, the Solar Logoi, Helios and Vesta and the suns of the system. So I shall say no more except that I am grateful for your presence, I am grateful for your belief in me as a being with common sense and reality, and I am grateful for those among you who feel that though I am strict, I am still your loving friend.

Thank you and good morning. El Morya

HOW THE MASTERS WALK THROUGH THE BODIES OF THE PEOPLE

By Beloved Ascended Master Harmony

July 29, 1952

I would like to explain to you the great import, as well as the physical significance and the actual activity that take place when an individual invites and invokes an Ascended Being to walk through the bodies of the people at regular intervals and in rhythmic pulsation. Your physical body has thousands of pores which are little octagon-shaped openings through which the body draws in the nourishing substance of the sun, the air and water and through which it exudes the poisons of the system. An enlarged portion of the flesh body, greatly magnified would show these pores to be "little doors" and would illumine the intellectual consciousness through the fact that the physical body is porous and not a solid mass. When an Ascended Being is invoked, he must respond to the decrees sent forth by life, when they are in agreement with the expansion of constructive endeavor. This is an irrefutable law, covering all life, and the Ascended Masters are no exception to it. The God Powers and God intelligence ALWAYS respond to any request which will result in an expansion of Perfection's Flame, constructive endeavor and ultimate good.

These Perfected Beings immediately begin to pass through the bodies of the people, charging the full power of their Ascended Presence through the poisonous substance of the physical and inner bodies, at each such rhythmic cycle. They carry a great percentage of the human accumulation away from the human forms through which they pass and they leave an added momentum of love and light in its place. Those of you who have seen a honey comb inside the beehive will remember that many times a comb will be filled with a certain amount of solid wax and that other portions of the comb will be empty. Well, that is the appearance of the substance that has clogged the pores of mankind's bodies, and as the Masters' radiation passes through these bodies, they dislodge and dissolve that psychic and astral substance, and they increase their pressure of light, each time, according to the capacity of the lifestream to receive the beneficent food from their currents of energy.

This rhythmic pulsation of the Ascended Masters walking through the bodies of the peoples of the Earth is a gradual attunement of the structure of their bodies, and a rapid raising of the inner and outer conscious-

ness of the people. It is one of the most powerfully-concentrated and effective methods by which the individual lifestream may be purified and the bodies of men may be made fitting instruments, which the Gods may use at any moment. When sufficient accumulation has been burnt out of the lifestream by the flaming presence of the Masters, individuals will feel the sensation of the Great Beings in their outer vehicles, as they pass through their bodies, in an acceleration of the heart, the throat and the head and the general feeling of well being in their inner nature.

DECREE

In the name of my I AM Presence I hereby ask the beloved Ascended Master (name) to walk the Earth through all of my inner bodies, as well as through the inner bodies of all in the city of....

Dissolve all discord (3) including its cause and core. Replace it by Ascended Master perfection. I thank you for answering my call.

NOTES AND NEWS

All men belonging to The Bridge to Freedom Activity are cordially invited to join the ORDER OF GOD'S MEN OF ACTION, under the radiation of beloved El Morya and under the auspices of the Bridge Activity. For information please apply to the Director of the Order: Mr. Henry J. Lavender, P.O. Box 8, Chatham, Ontario, Canada.

GOD'S MEN OF ACTION

God's men now march again!
God's men of every kin!
Right here on Earth to win!
Victory by Light again!
Phalanx of Freedom's Light!
Knowing God's Will is might!
Living to make things right,
God's men of action all!
Treat we Freedom's way!
Bring God's New Day!.
Serve now, work and pray!
One for all, and all God's way!
Each one a blazing part!
Serving right from the start!
El Morya's diamond heart!
God's men of action all!

CALENDAR OF HOLY DAYS

March 17	St. Patrick's Day
March 29	Easter
May 1	St. Germain's Ascension Day
May 7	Jesus' Ascension Day
May 8	Lord Gautama's Enlightenment
May 17	Pentecost (Whitsuntide)
May 22	Wesak Festival, 12.56 P.M. EST.
July 19	Asala Festival, 10.33 P.M. EST.
Aug. 15	Mother Mary's Ascension Day
Sept. 30	Angelic Harvest at Shamballa
Oct. 31	Elemental Harvest at Shamballa
Nov. 1	All Saints' Day
Nov. 2	All Souls' Day
Nov. 30	Mankind's Harvest at Shamballa
Dec. 25	Christmas Day

THE BRIDGE

TO FREEDOM

**A Monthly Journal Devoted to Individual Unfoldment, Contact
With the Great White Brotherhood and Cooperative World Service**

FEBRUARY 1959

LIBERTY, INDIVIDUAL AND COLLECTIVE

To the beloved Goddess of Liberty, to Mighty Orion, to Celestial Chamuel, to the Chohan of the Third Ray, Paul, the Venetian and the Brotherhood of the Chateau de Liberte':

We direct to you, with bowed head and in humble and eternal gratitude, our Adoration Flame, in its most potent, cosmic power, for all you have done, are doing and will do to establish liberty on this sweet Earth, not only in its higher spiritual sense but in all its other aspects which mankind require, to live a harmonious life, in order that the ascension of all the peoples of this planet be accelerated so it may be truly called "Freedom's Holy Star."

We offer you our full and loving assistance, to bring to the conviction of mankind that the Flame of Liberty is essential to the manifestation of the Holy Will of God, that is, mankind must be free from every discordant condition, and must learn to keep his attention on the true and the eternal, as the only way to obtain liberation from the false and the transitory, and not be affected by persons, places nor circumstances.

Here is our decree: The Liberty Flame, with a power as of a thousand suns, shall touch every heart of mankind and free them from every limitation. We pledge, also, our willing and joyous assistance to you, to bring the Torch of Liberty to the several strategic points on the surface of the Earth where Liberty is conspicuous by its absence, not only during this 30-day-period but until Liberty is enthroned in all the countries of this sweet Earth. The Holy Will of God is Liberty, therefore, we are already humbly cooperating with you, to bring about the accomplishment of the above end. We decree: The tyranny-ridden countries of the world shall be free! So be it.

Thomas Printz, Editor

HOW TO INVOKE AND USE THE FLAME OF THE SACRED FIRE

By the Beloved Maha Chohan

THINGS TO KNOW AND REMEMBER ABOUT THE FLAME OF THE SACRED FIRE: (The Sacred Fire is a flame which has been qualified by an Ascended Being with a certain God-virtue, such as "truth," or "peace.")

In this presentation of the use of the flame, I would go further than merely unrolling the scroll and deeply urge your consideration and your concentrated interest, because it is the revolutionary activity which, when it enters Life, hastens the final awakening of the consciousness and greatly increases the powers and capacities of the soul to serve the race.

1. The Bridge activity is designed primarily to acquaint the consciousness of mankind of Earth with the flame.

2. The flame is the vibration of the Godhead and the cohesive power that holds the Sun and stars in space and which, through the Light rays from the Sun, fills the atmosphere of the Earth.

3. The Flame is the animating principle of life. Wherever there is God-activity, flame becomes its expression. Flame is the first manifestation that is externalized.

4. The flame is a power, a substance and intelligent force. The flame of cosmic love, of cosmic healing, of cosmic peace is all-powerful; it is master. The flame is a fourth dimensional activity. The cosmic flame is the power, intelligent life.

5. The flame's radiation is Light, because the electronic substance, which will become the created thing, is woven right out of the cause, which is the flame, complete within itself at the moment that God thinks and feels his idea.

Flame is the power of accomplishment, and the clothing of the flame, which is Light, is the substance from which the idea will finally secure its form.

Within the egg is the substance of the body of the child, within the seed, the body of the tree. Within the flame is the power of motivation and through its own light emanation, the full substance is provided for the manifestation of the idea.

The size, therefore, of the original flame will be determined by the amount of substance required to externalize its complete manifestation, because from its own Light will that Flame mould the form.

6. The flame is available, like air and water, and the beauties of nature, to all who, consciously or unconsciously, are capable of accepting it.

The Relation Between Man And The Flame

1. The only power in the universe that can accept a Master's flame into the heart, is the feeling of loving gratitude.

2. The immediate assignment of an aspirant is to learn how to avail himself of the electronic substance, so that he may become a natural and conscious conductor of it. In order for individuals to intelligently use the power of the flame, there must be a certain illumination of the consciousness regarding both its essence and its nature.

3. The student should meditate upon the powers within this activity of the flame, seeing and feeling its independent, positive effects, proving beyond the question of doubt, the presence and the efficacy of the flame.

4. By invocation and direction of the flame, man must become a channel for its disbursement in the lower octave in which he functions at present. Invoke the flame and then stand aside and let its rushing substance continue, unrecalled, until the effect is manifest. The emotional body must be trained in the power, the power which is the flame. Practice becoming the observer as well as the director of the flame.

5. The intelligent attention, the emotional devotion is all that is required to make that contact by which this substance might flow to enrich the lower atmosphere, and it truly makes a localized sun in and around the very environment of the chela, which is more powerful, potent, and of more cosmic import than the worshipping one shall ever know.

6. To become a conscious director of the cosmic flame of love, supply, healing or peace, one must be able to magnetize the electronic substance that surrounds him, through the generation of a vibration which is a complement of the vibration of this power and essence of flame. In other words, the lifestream must come into sympathy with the natural vibration of the electronic force held within whatever flame is to be invoked and directed for a certain definite purpose.

How To Invoke And Direct The Flame

"I cannot urge you too deeply or too earnestly to experiment with the invocation and direction of flame, visualizing and feeling it an intelligent, capable, independent element and allowing that element as much freedom as you allow the physical flame, when you apply it for cooking or disposing of unwanted substance."

Preparation

1. Determine clearly your idea and your desire, if you want to manifest health, supply, freedom, etc., and be certain that your motive is to produce perfection in your need, and universally.
2. Ask the beings in charge of the flames of humility and receptivity and gratitude to flood your feelings with their flames.
3. To establish the right vibratory action, magnetize, with your thoughts and feelings, the electronic substance that surrounds you with the quality you wish to manifest. This will establish the bridge or conductor between its source and you. You can say, I AM THE HAND OF GOD, CHARGING (3) the electrons around me with an infinite supply of money, health or whatever you want.
4. Meditate upon the powers within the flame and see and feel its independent and positive effect, and its freedom of action.
5. Select the Master who is a specialist in the quality desired, direct your attention and love to him. Visualize him rendering his special service to individuals, personally near them, or from his temple of light. By this time you and the master are in spiritual rapport.

Action

1. Now, Invoke the Master you have selected and ask him to send you a flame of the quality you desire from his own heart or from his temple of light. See it! Feel it acting!
2. Then ACCEPT the flame with a feeling of joy, and deep gratitude, love and blessing for the Master. Visualize yourself taking from the Master, as if with extended arms, a substance and a form.
3. Then, stand aside emotionally and allow the flame invoked to act. Become an observer as well as a director of the flame. KNOW that the flame has rendered the service demanded, and act accordingly.
4. TO HELP ANOTHER. To help another, ask the Holy Christ Self of the individual to help you make the proper petition to the Master, then make your request to the Master and see the flame acting.
5. It is a necessity and a requisite for the student to have some knowledge of the nature of the various Beings who are part of the Brotherhood.

PARTIAL LIST OF ASCENDED MASTERS AND THEIR QUALITIES

HEALING: Helios, Jesus, Mary, Leto, Diana, Vista, Kwan Yin.

OPULENCE: The Maha Chohan, Surya, Saint Germain (Freedom from limitation).

ILLUMINATION: God Meru, Archangel Jophiel, Kuthumi and the Eider Brothers and Sisters of the Second Ray.

LOVE: Lord Buddha (the former Lord Maitreya), Nada, John the Beloved, Charity, Chamuel and Paul the Venetian.

POWER: Hercules, Archangel Michael and El Morya.

HOW TO CONTACT THE ASCENDED MASTERS By Beloved Ascended Master Saint Germain

To the evolving soul and spirit who seeks to ascend to the Ascended Master consciousness and tries, by various means, to achieve this goal of unity with perfected thought and feeling, I offer the following instructions:

As the four lower bodies are contributing factors to the fluid consciousness, which, in unascended beings is in a state of constant change, we must see that to rise into the Ascended Master consciousness, we must have the control of and cooperation from these four sources, that are constantly qualifying the individual consciousness of the lifestream.

The Four Bodies Must Be Balanced

As Serapis indicated, for the plane to rise, the four engines must be in complete unison as to revolutions of the propellers, the power of the motors and the efficacy of the individual engines, in order to unite completely with the power of the other contributing engines, that their united impetus might transcend the law of gravity.

Due to the uneven development of the inner bodies, it is more of a task to raise and harmonize one than the other and the particular inner vehicle requiring the greatest treatment varies according to the aspirant's development through the centuries. For instance, many devotional lifestreams find their emotional bodies easily tune into the spiritual currents, whereas the physical and mental bodies often lag behind. Here you have a spiritual phenomena, so to speak, wherein one of the four

bodies, or two, can often experience a great ecstasy, which vibrates but little through the others, and this does not, as a rule, have a lasting and permanent effect, because the weight of the other bodies, not having been raised to a transcendent place, where they were not completely submerged in the higher consciousness, affect adversely the transcendent experience. This has happened time and again when individuals have experienced emotional ecstasy.

A Developed Mental Body alone Is Not Sufficient

Individuals with highly developed mental bodies have probed the inner possibilities of the occult law, which have greatly increased their mental capacity but which are oftentimes never experienced in the emotional body, to any extent. You may continue this trend of thought with regard to the other bodies, but of course the etheric body is always impressed by any experience of these three sister vehicles.

A little contemplation will assure you that these experiences when not entered into by the four vehicles of man's expression do not lead to a balanced evolution of the spiritual nature and will one day require the training and preparation of the lagging vehicle, in order that the four may enter the chamber of devotion and aspiration at once and, kneeling simultaneously before the risen host, accept the spiritual communion.

Self-Analysis And Preparation Necessary

In preparation for your meditation and contemplation, it is therefore to your greatest advantage to secure the conscious cooperation of your physical, your mental, your emotional and your etheric bodies. Self analysis will truly reveal to you the various vessels that require more preparation and tuning up than the others which are naturally prepared for this contemplative period. Then, by devoting a little time to the raising of the recalcitrant members of the team, you will move the entire consciousness of the lifestream into the higher octaves. You will then find your contemplation more satisfactory and its resulting effect more lasting and you will also be of greater service as conductors, because the fine vibrations playing equally through the entire set of vehicles will be of great assistance in developing them toward a more Godly expression.

Now, having prepared your nature for the inrush of the divine consciousness from your own higher self or an Ascended Being, you come to the truth that it is only vibration of thought and feeling which changes,

and that you enter the higher octaves consciously and at will by raising the vibration of your four bodies to a point where you enter the vibratory action ALL AROUND YOU, that is ever-present and into which you can tune yourself by sounding the same keynote as that to which the Ascended Masters consciousness is vibrating.

How To Tune In To God Qualities

For instance, take kindness—the spirit of kindness is ever-present; it is not something that must be drawn from beyond the farthest star. The lifestream desiring to have his consciousness filled with kindness merely raises the vibratory action of his inner bodies and finds that in the room in which he is sitting the air is filled with the substance of kindness and that as he tunes in toward it, the vibratory action of kindness rushes toward him, and when they meet, the lifestream experiences the cosmic feeling which kindness is. This is the same with purity, wisdom, love, and the various God-qualities, just as the music is within the room but requires a mechanical contrivance to draw the vibratory action downward to a point where the physical ear may hear it, so is “the kingdom of heaven at hand,” requiring but the conscious attunement of the inner bodies, that you may experience in a mechanical and scientific way, the fullness of the octaves of light, just as you hear a program over the radio.

Saint Germain

YOU CAN BECOME A RADIATING CENTER OF LIGHT **By Beloved Ascended Master Harmony**

As individuals pass from a state of unawareness of the beauty and majesty of life, they gradually become cognizant of the tremendous privilege it is, to be the recipients of the countless millions of electrons that are directed through the channel of their own lifestreams, in the journey of the universal life substance from the fourth dimension, into the world of form.

You Have To Re-Orient Your Thoughts And Feelings

The outer self has to still itself, repeatedly, during the process when the personality first becomes aware of the tremendous responsibility that comes with the dispensation of light through the lifestream, because the outer self has, for so many centuries, used life so freely and accepted it as so much a part of the personal property of the soul, that it takes quite a time for the aspirant and chela to re-orient his mind and feeling world in order that he may receive each electron that is passing into his keeping for safe convoy into the universe around him with the same reverence, humility and respect accorded the sacred host on the altar in many churches.

The mankind of Earth are in a constant state of communion and should be in a constant state of grace, because every electron passing through them contains the body, the spirit and the consciousness of the father of all life, from whence it flowed, and as these countless millions of electrons flow through the lifestream during the course of one day, we see that a magic and mystical experience is constantly taking place, wherein the spiritual essence of the Father is actually visited upon his children, not only on great feast days or at long intervals, but constantly.

Humility And Inner Joy Essential

In studying the lives of the great and holy men and women that have passed through the Earth sphere in their journey toward perfection, you will find a gentle humility and an inner joy characterize them all, because each one, reaching a certain point of spiritual evolution, began to regard the gift of life as a very holy trust and an exquisite experience, and the light flowing through them was no longer forced into false patterns by the personality, but allowed its natural expression, both within their own character, and in the lives of those blessed by the presence of the sanctified one.

Saint Germain has said that the natural activity of life is beauty, opulence, happiness and perfection without limit and as soon as the personal self can disconnect itself, in consciousness, from the idea that life can be taken lightly or thoughtlessly, then such a one comes to the threshold of a new experience, wherein he is no longer the dominant figure but the silent witness to the constant outpouring of the qualities, manifestations, miracles and beauty that life will carry through him and into the universe beyond.

When individuals come to a place where they will no longer seize life at an unguarded moment and force it into an unhappy expression, they will then be entrusted with a greater out-pouring of the electronic force from their own Presence, the Cosmic Beings, the angelic host and the Ascended Masters.

The Personal Self Must Be Purified

To energize an undisciplined lifestream beyond a certain point, would merely be sending more of the spirit of God into the keeping of a human authority which would transform this pure essence, again, into imperfection. In order to release the greater powers that lie within your own causal bodies and in order to form a constant conscious connection with the members of the Ascended Host, it is necessary to make the constant call for the purification of the personal self, to a point where misqualification of energy can never again take place.

The lifestreams who have achieved that sense of humble, gentle submission to divine will are rare, but they do become the outposts of cosmic powers, as the Maha Chohan said, of which the outer world has no concept.

Your Four Lower Bodies Must Be Balanced

There are many Ascended Masters who have never come to the attention of the outer world and who have, as yet, no conscious link with unascended beings. Those who would choose to unite their lifestream with these perfected ones, will render us the greatest service possible, if they will make the calls to their own Holy Christ Selves to so equalize and temper their four lower bodies that, even under the greatest provocation or shock, they would remain balanced, calm, poised and peaceful, then the Cosmic Law would allow these Cosmic Beings to give as much energy as they choose to enrich the Earth-sphere.

You can see that, without this self-control and mastery, were a Cosmic Being to choose a lifestream as a radiating center of his energy and a sudden surprise or shock or an appearance of any kind would allow the unascended being to requalify tons of that energy, in an instant it would do untold damage, whereas, if he had not been released by the Master, the lifestream in question would not have so much to qualify of his own natural allotment.

We are seeking selfless souls who love harmony and who are willing to sacrifice the defense of self for the maintenance of a harmonious set of vehicles, through which our outpouring may continue to expand.

THE LAW OF PRECIPITATION

by Paul, the Venetian

The correct understanding of the God-power is essential for the individual who wishes to become the Holy Spirit in action. This fact I would like to impress upon the chela on the path. ENERGY, IS MAN'S TO COMMAND. Energy becomes power through use, whether in the wielding of a sledge hammer or the strengthening of the biceps of the arm, or in using the God-power to build a momentum of victory, in commanding the electronic light to manifest the completed form of fiat or decree.

One Must Sow The Seed Of Perfection

This Law of Balance, also referred to as "the Law of Retribution" and set forth in the old axiom "As you sow, so shall you reap," was not intended as a threat of punishment for evil doers, but as an expression of the mathematical precision of life, that one must sow the seed of perfection in concise mathematical accuracy and then the reaping will be in exact proportion to the sowing. This Law has been dulled, in its potency, by the inference that if one casts his bread upon the water, his good will be returned unto him. This is true, of course, but it is rather a haphazard way of living, as the "bread" one throws has no definite form, continuity or precision of outline.

You Can Become A Master Of Energy

He who would work with the divine plan tunes in, consciously, to the perfect etheric plan and rather than daily "casting bread" haphazardly "upon the waters," takes that great energy of life, coupled with his mental picture and drives it into the substance of the earth by the power of his feeling. Then issuing the great fiat, "I AM," projects into the mental form of the desired manifestation, the perfect atom contained in the Great Command "I AM," which is the cohesive power of love. This way, instead of receiving back miscellaneous "loaves and fishes," one becomes Master of Energy and receives back exactly that which he has ordered.

THE RIGHT HAND IS THE DIRECT WIRING through which the energy

may be catapulted into the appearance world and when you are conscious of it as the Five-Rayed Representative of the Holy Spirit, you become the authority of life when you release that energy, through the hand, in a cosmic fiat.

Experiment In The Privacy Of Your Room

When you study Serapis' Ray, you will learn the significance of the index finger, and why it is so often dignified with the ring of authority.

In the privacy of your room, draw that energy into your body with your left hand, then direct it into your-world with your right hand and let us see some definite manifestation through your conscious use of this Law of Life.

THE TEMPLE OF LIBERTY

The Ascended Master Retreat of the Month (Chateau de Liberte, Southern France), February 15th through March 14th, 1959

The purpose of this Ascended Master retreat is to establish the spirit of liberty in the hearts of mankind, so that the Christ Self of each one be made manifest. Since order is heaven's first law, this retreat, like all others, has an admirable organization, not only to take care of the different grades of advancement of its chelas, but to attend to all the requirements of mankind which need liberty for their blessing.

There are several departments under the direction of Ascended Masters, with the assistance of numerous chelas. Here are six of these departments:

Spiritual Liberty, which is freedom from contact with thoughts, feelings, actions, persons, places and circumstances which are not in accord with the will of God

Personal Liberty, which is freedom from external restraint (such as discord, sickness and want), from slavery, bondage or control of another, as well as freedom of opinion and conscience and its expression

Civil Liberty, which protects the rights of citizens of any nation to live in peace and prosperity, having the right to share in establishing and maintaining their own governments

Art, for the development of all latent artistic faculties in all their ex-

pression

Other God-Qualities, for the encouragement of genius and inventions for the benefit of mankind

Petitions. In this department all petitions and prayers and decrees are lovingly received and charged with the power of the Liberty Flame and referred to the different departments, which in turn contact Christ Selves of the different individuals, or the Silent Watchers of different localities, as the case may be, to render the required service.

Description Of The Retreat

The Temple of Liberty is situated at Chateau de Liberte, on the banks of the Rhone River in Southern France, which is the home of our beloved Paul, the Venetian, Hierarch of the Third Ray.

For the benefit of our readers, we offer the following excerpts from a previous description of this retreat and its Hierarch, to facilitate their visualization of both, to better approach the retreat in consciousness.

The natural beauty of the profusely flowered countryside emphasizes the grace of the buildings, framed in the loveliest of nature's setting.

The musical play of the water, rising from the marble fountains, mingles with the songs of the birds and the warm sun unfolds the petals of the water lilies, lighting up the multi-colored plumage of the many birds who find safe sanctuary in this peaceful environment.

Entering the spacious hall, a beautiful painting faces us, representing the Holy Trinity, a magnificent being depicting the Father, a lovely white dove with a wingspread of almost nine feet, representing the Holy Spirit, and a glorious likeness of the Master Jesus, representing the son.

The radiation from this picture is so tremendous, that it envelops the entire entrance hall and holds the visitor spellbound in its presence. This painting was begun, as has been said before, by Paul Veronese and was completed by him after his ascension. Therefore, it has the unique distinction of carrying the vibratory action of both realms of activity, in which he is vitally interested.

A Pen-Picture Of Our Beloved Paul, The Venetian

Our beloved host stands, framed for a moment in the open doorway leading out into the rose garden. His beautiful presence is so breathtaking, that even the roses, that form a background for his figure, seem almost dull, by comparison. He wears a robe of emerald green, which looks like mirror velvet, over which is thrown a beautiful cape, caught at the breast with a cord of gold, fastened by a gorgeous emerald, two inches in diameter. His deep, golden hair, softly waved, contrasts beautifully with the emerald green of his garments, and the delicacy of his features are emphasized by the deep, celestial blue of his expressive eyes. His voice, as he bids us welcome, carries the melody of the liquid voice of the presence that soothes and heals and blesses all life.

LIBERTY, THE REQUIREMENT OF THE HOUR

(Monthly Letter to Transmission Flame Class)

February 21st, 1959

Beloved Liberty-Loving Children:

I bless you for your awareness of the requirement of the hour and your determination to satisfy it. LIBERTY, LIBERTY, LIBERTY, is that requirement, in the individual and in the world! But remember, liberty does not mean lack of discipline, disobedience, disloyalty. It is the right to express freely, the Will of God.

You are very near to my heart, because you worship at the temple of my beloved son and future successor, Paul. In it you are learning to perfect yourselves in the activity of the Third Ray, which consists, among other objectives, in the purification and control of the feeling world, as a basis to enjoy and share with others, the liberty you love.

Beloved children, during this 30-day-period do three things: first, enter into your secret place of the most high, then send your rays of love, gratitude and adoration to the brothers and sisters of the Temple of Liberty, then offer your wholehearted assistance to the Silent Watchers of all countries wherein the people live in bondage, so that Liberty shall prevail. Accept this as your assignment for this month.

Your gracious sponsor from this retreat is lovingly waiting to assist at all times, at your invitation.

We, the Goddess of Liberty, my beloved son Paul, my beloved

daughter Nada, my humble self and others of the Ascended Host, shall be waiting for you, lovingly, at the Chateau de Liberte, during your hours of sleep, particularly. On going to sleep, please direct your steps in consciousness to this retreat, leaving your physical bodies comfortably in bed.

Love and Blessings, Maha Chohan

HOW YOU CAN EXTERNALIZE YOUR GOD PRESENCE
An Address by Beloved Paul, the Venetian

Dear brothers and sisters, you who have come from the heart of God, have chosen to give of your life and light to bring comfort to mankind, to you today, on behalf of the great Master whom I serve, I bring the comfort of his own great feeling world. Will you tie the energies of your feeling world into that great aura of the beloved Holy Spirit this day? Will you feel that radiation and that pulsation which is the true, complete divine nature of God, anchoring into the energies of your feeling and then, through you, passing outward to give comfort to all the life that you contact, in the elemental kingdom, your fellow students, the mighty devic and angelic kingdom and then mankind at large!

The Feeling World Is The Activity Of The Third Ray

The great activity of the Holy Spirit for the planet Earth is under the direction of the blessed Maha Chohan, so much of whose energies you have absorbed, digested, assimilated and enjoyed, through his extreme courtesy and your willingness to accept the gift which he offers. The Holy Spirit and the activity of the third person of the Trinity is directly concerned, beloved ones, with the development of the divine feeling to every lifestream who is part of the evolution of Earth.

The raising, purifying harmonizing and perfecting of the feeling world of the individual chelas is the specific activity of the Third Ray, of beloved Maha Chohan and my humble self, who serves presently in the office as its Chohan. So, those of you who are interested in becoming a comfort to life, becoming a radiating center, not only through the qualities and momentum released through your own Causal Body, but of the cosmic comfort, which is already gathered and desiring expression through the mankind of Earth, who will magnetize it, to those of you I direct your attention to the beloved Maha Chohan and ask that you invite him to use your feeling world as his own, that everywhere you go, the hem of your spir-

itual garment may bring comfort and peace where there is disease, distress of any kind of mind or body.

How To Be About Your Father's Business

May I say, that in the enjoyment of being a conductor of the cosmic qualities of the beloved Maha Chohan or any other God-free being, you, in yourself, find a tremendous acceleration in the energies of your individual world and in the completion of your divine pattern and plan. So that you may, while you remain among the peoples of Earth, be no part of their pain, discomfort and disease, but be a contributing factor to conducting and radiating the gifts and powers and qualities of the kingdom of heaven, that you may be about your Father's business, that you may have reason for being, and that you may, at any moment be utilized by a Master of the God-free realms, who seeing a crisis or an opportunity to render assistance to a group of mankind, may use the energies of your controlled feeling world as his own, and flashing the flame of protection, of balance, of sanity, of security, of healing through it, handle conditions that otherwise, on the screen of life, might act in a very discordant and unhappy manner.

When the beloved Gabriel spoke to you about living in a state of perpetual listening grace, he was prompting you to learn, through the contemplation of your heart flame, how to govern the vibratory action, forming for the Ascended Masters a magnificent conductor into the energies of people who are disturbed, confused, fearful, frightened, or in distress of any kind.

Maintain The Control Of Your Feelings

Every being who has risen above the masses, and who has been of benefit to the Spiritual Hierarchy, has been such a conductor, has in personal application learned to be the master of the vibrations that move through the feeling world and has learned to not allow either the thought or the etheric murmuring from within himself, or the pressures of the foolishness of mankind, to become master of his feelings, even for a moment, for whatever intelligence or whatever energy changes the quality of your feeling world and is not in accord with the will and director of the governing intelligence of yourself, is, for the moment, the master of you.

The Consciousness Of The Great White Brotherhood

May I speak to you, for a moment, about that consciousness? The Great White Brotherhood, of whom the Lord Gautama is the absolute authority for this Earth, is composed of God-free beings, devas, angels and all the majestic beings at inner levels, who, when they attained the ascension, or in voluntary relinquishment of God-freedom on other planets, stood before the Karmic Board and offered to remain Gods in exile and to serve the mankind of Earth until every consciousness was again awakened to truth, every man and woman restored to their God estate, princes or princesses in the house of the celestial king of kings.

Each being who belongs to that great august and inner body, contributes the fully gathered cosmic momentum of his own Causal Body to that consciousness. Every prayer, every aspiration, every bit of energy, which has earned the right to rise and become part of the Causal Body, is the momentum of the individual, which he signs over, you might say, to the Great White Brotherhood. It becomes the combined and cooperative property of the entire Brotherhood, on which any single member may draw when need arises.

All the beings in this Ascended Master Court of the Brotherhood share the vibratory action of the thought, the feeling and the general radiation of every other member. They are all part of a celestial body. Unascended beings, who apply for membership and who are accepted, also at that time contribute the energies of their Causal Bodies, adding the strength of their light and momentum. The Masters are free, to utilize the energies of the individual lifestream as their own, whenever the occasion arises and there is a need in a certain locality for conductors for the Ascended Masters' energy. They direct the beam of their energies towards the chela or representative of that Brotherhood who is in that locality.

The Responsibility Of The Chela

If the energies of the mental body are calm, receptive and listening, if the energies of the emotional body are at peace and radiating good will and harmony, the Master then channels all of the combined powers of the Brotherhood, or as much as are required for the assistance, through the emotional world, the physical body and the aura of the individual chela, and blankets the locality in that blessing, balance, harmony, peace, or healing, whatever the case may be.

When the great Silent Watcher of the continent, the great Silent Watcher of the city, or the Silent Watchers of the local units see some great need, then they call an S.O.S. to the heart of the Brotherhood for help. The Brotherhood looks down upon that location and seeking a chela. If it finds the chela's energies in a state of violent emotions, disturbed and distressed, that individual is temporarily cut off from the consciousness of the Brotherhood and the conductor through the world of form is not there.

Do you see then, the responsibility which is yours, you who profess to be foci of the Great White Brotherhood, who love your fellowman. You see only a few of the requirements of any hour, but yet walking the ways of Earth are guided and guarded carefully by Cosmic Beings, who hope, in time of emergency, through your energies, assistance and protection a balance may be given.

When To Build Momentums Of Energy

May I remind you, in all kindness, that it is in times of comparative peace that momentums of balance, of harmony, of kindliness must be builded—momentums of energy which can be utilized in times of stress. It is too late when continents shake and seas rise, when plagues walk the Earth. It is too late when the fear of the masses, the hysteria of the untrained, set into motion the elemental kingdom, and those great riptides, the like of which you do not remember, begin to play through the atmosphere. Then it is too late to build those momentums. But now, in the hearts of these majestic mountains, where the strength and radiation of the devas, the clarity and purification of the air, the beauty of the grasses and the flowers are all reminders, to those of you who get still enough, of the natural beauty of your being. NOW IS THE TIME TO BUILD FOR THOSE DAYS.

You all remember when the plague walked through England and the beloved Leto, endeavoring to give the assistance, found herself seemingly limited in her ministration, the Great Divine Director told her she did not fulfill the activity which it was possible for her lifestream to render. And then, holding the energies of her feeling world in absolute peace, she connected with the cosmic currents of the healing light, drew them forth and stopped that activity, relieved and released those people from that fear and restored that nation and the remaining members of its humanity to health. These things have been.

There is coming a time when men and women who have passed the

test of humility and whose lips will not divulge the blessing that flows through their aura, will be able to carry those healing currents and people touching the hem of their garments will find relief and release and never know from whom that blessing flowed, from whom that virtue passed. These are the few, the very few, willing to relinquish "name" and place for service. Through these, beloved Mary, beloved Jesus, beloved Leto, Nada and Kwan Yin, and others will manifest that activity.

May you come to a place where your loyalty to God is so great, that there is nothing that would cause your energies to be qualified in a manner less than that which he, himself, would desire, when your spiritual honesty and integrity is such, that every electron that passes into your beating heart is consecrated to him, and you will not think of using it in word or action, except to widen the borders of his kingdom.

Heed This Invitation To The Secret Place Of The Most High

Come with me, for just a moment, away from the cares of the outer self. Just enter with me into that chamber within your own heart, the secret place of the most high! Standing there, contemplating the immortal Threefold Flame which is the garment of your own beautiful Christ Self, just relax in the love of the Presence of God. As your adoration flows to that presence, remember your body is the temple within which is the immortal Flame of eternal life, within which, seated upon his Golden Throne, is the tiny Christ Self, made in the image and likeness of the Eternal God, waiting your adoration, your love, your devotion, the energies of your world, through which He may grow and expand until your entire body is filled with that presence, and the Master Christ, bursting through the flesh, stands revealed, the divine pattern of your individual identity.

The Uses Of The Adoration Flame

The Adoration Flame, increases every good thing to which you direct it. Why is it that the immortal Threefold Flame within the heart has receded until it is, in the unawakened, about one-sixteenth of an inch in height? Why do you think the shadows and creations of the world have increased, until the entities around the human bodies are larger than the flesh form! It is because the attention has not poured to God, but has energized appearances. It is the Law, that which your attention is upon, lives on your life. That which you energize in the secret, silent time,

through thought, through feeling, through spoken word, through action, that is what grows and manifests and all who run may read!

Why has the race come to a point where even that tiny flickering spark would not have been sustained if it were not for the God-free beings who have breathed upon it? Because, through free-will every man and women is allowed to energize that which he desires! And that desire lives and grows for him and is either a garden of paradise or a purgatory. That which is in your world, my children, is living on your life!

Worship Before The Altar Of Your Divinity

Will you please now give your life to the I AM Presence? Will you please now nourish it by adoration and devotion, contemplation of its living, breathing Presence, reverence for it, respect for its wishes. Desire to utilize the Life which it draws and magnetizes. to serve its purpose in the world of form. What do you think keeps the silver cord, anchored in you ? What do you think gives you a beating heart ? It is the magnetic love of the Christ Self that keeps the adoration upon the Electronic Presence drawing the electronic light, drawing pure life, giving you, each day, primal essence, unused, and opportunities to make things right.

What have you done with Life, so freely given to you from the hands of this great one, enthroned within your heart, and pressed into the pleasures of your day? Ah, come home, and worship before the altar of your divinity, press your weary heads against the bosom of that Christ, not in some far distant heaven, not shining in some star. How good, how beautiful is God, that so close has he placed himself, that in your heart-beat is that presence, saying to the very few who even bow before it, to the very few whom even ask it for assistance, "My Beloved, ALL this you ask I can be, all this and more!" When your adoration, beloved ones, not only in group worship but when your personal adoration becomes the constant activity of your innermost self, this being will grow, will expand. You will not need words to proclaim it. The light, expanding from that ever-increasing Presence, will respond to your life poured into it and will stand as a radiant and blazing aura about you, that all who run may read!

Let Me Give You My Hand Of Fellowship

Oh, beloved infinite Presence of God within these hearts, shining within thy blazing tabernacle, within the Holy of Holies, I greet thee on behalf of the great Ascended Brotherhood, and I ask that through these human forms, now, in dignity, beauty and mastery, you shall come forth and manifest the perfection which you have designed for them, each one!

And so, wrapped in the arms of love, enfolded in the presence of the Holy Comforter, not only when you desire to love your God, but when times of bitterness, times of loneliness, times of bereavement are upon you, call to me! Let me come and give you my Comfort Flame. Let me give you my hand in friendship. Let me give you the substance of my world. Long since has it been given to the Hierarchy and it now for use for my fellowman. For I am he who is called his "Brother's Keeper." You are my brothers and my sisters who have not yet found the full ecstasy which comes when you know this presence within. Until that day, I am your Paul, and your servant.

I thank you. Paul, the Venetian

THE EMOTIONAL BODY AND ITS TRAINING **An Instruction by Beloved Lady Master Nada**

The authority for the qualification of the energy allotted through each lifestream is vested, for the most part, in the emotional body, and the vibratory energy passing through the four lower bodies is more or less based on the predominant rates of vibration within the emotional nature. As the emotional body is the life-giving force to the thought energy and as it governs the vibratory action of the physical form as well, careful consideration of this tremendous power house should be given by every aspiring student on the path to mastery.

The feeling nature of mankind often acts independently, through the momentum of habit, and the average individual is no more aware of the subtle qualifications of the energy in his feeling world, than he is of the activity of the heart of the sun. Nevertheless, the feeling nature is in constant motion and the predominant characteristics of the feeling world are radiating their vibratory action through the mind, through the body, through the world and affairs and environment of the lifestream, setting the pattern of energy which the electrons in ALL the bodies follow.

The spiritual treatment of the emotional body can only result in greater advantage for the evolving soul (etheric consciousness). The emotional body, being the storehouse of over three-fourths of the energy allotted the lifestream, can become a tremendous pressure of dynamic energy to bring into manifestation any constructive thought, desire or plan, but the qualities of the emotional body will determine the vibratory action of the resultant expression.

To invite the direct ray of any Ascended Master to play upon and establish pulsations of their qualities in the emotional nature, is to change the very substance of that nature and, filling it with Light, make it a mighty storehouse, that can be drawn upon at any moment, as the requirement appears, and the carefully trained, illumined emotional world, flowing through the channel of the attention, will give light to and manifest in any particular expression that the controlled mental processes have drawn to a focus to be energized.

The light, purity, confidence, joy, exhilaration, faith, strength, courage and power of the emotional nature makes the lifestream so endowed a Master, when the emotional nature is directed by God-intelligence into specific channels for accomplishment.

Nada

THE PURPOSE OF THE BRIDGE ACTIVITY

By Beloved El Morya

The condition of the consciousness of seekers after truth warrants the opportunity to find peace in the companionship of the Ascended Masters, without homage to personality. It has always been my thought to give such opportunity, letting the balm of the I AM Presence, the joy of the Ascended Masters' friendship and the freedom of conscience, which such an open door would allow, to flow freely to all life, without requiring allegiance to any human form.

The idea or design which it is our endeavor to incorporate into the world of form is the provision of a conscious bridge of intelligent, consecutive energies. Over this Bridge we will pour instruction, radiation, illumination, and the requisite principles of application by which mankind, in themselves, will produce light, health, illumination and supply, individually, and will collectively, through the natural aura and radiation of their own bodies, produce the Spiritual Light required by the Cosmic Law to

sustain the planet Earth in its rightful place in this solar system.

Those who are chelas and conscious workers, those whose motives are to spread the light and render the greatest possible service, not to personalities, but to the unfoldment of the potential fire within the Holy Christ Self, must be one-pointed in this cooperative and individual desire to provide and sustain such a Bridge, each according to his particular individual and collective talents.

Is it not pathetic, that the one source from whence all blessings flow MUST be in the cup of the worshipper's choosing, or he will dash the cup from the visitor's hand and defame the Visitor?

Why, Our Bridge ?

A Bridge does not, necessarily, have to be horizontal in structure! It is, in our activity, the bridging between the divine realm, where ALL the Ascended Beings abide and the outer consciousness of mankind. Thus, the Ascended Beings actually form the upper half of the bridge and the worthy chelas, desiring to contact the Ascended host, form the lower half of The Bridge. For this reason, was this activity brought into being and shall be sustained. This bridge is made up of energy, God-qualified, given by the Ascended Host and by the worthy chelas who sustain it, in the world of form. IT CAN NEVER BE "FINISHED" UNTIL EVERYONE OF THE TEN BILLION PEOPLES BELONGING TO THIS EVOLUTION ARE GOD FREE!

El Morya

RECOGNIZE THAT YOU ARE A LIGHT RAY
By Beloved Ascended Master Mercury

It has been said, repeatedly, that man is a precipitated Light Ray. The student who chooses to contemplate this as an actual fact, rather than a fantasy, will come into a great illumination as to his Being, and as to the power to which he is indebted for all so-called initiative and self-conscious action.

Light Is Motive Power

The axis of the body is a blazing pillar of Light, sheathed in the spinal cord and carried by the nervous system through the various members of the organism. Light is life in motion. There is no activity that takes place in this system of worlds, or any other, except through the motivating power of Light. Light is the conductor which carries the energy wave, whether it is to raise a book or raise a continent. If the student would contemplate the fact that his capacity to even move a muscle is dependent upon the motivating power of light, he would come to an understanding that his individual evolution cannot be separated from the Presence of Light, because there would be no motion, no intelligence, no sense activity, no being, except for the Presence of Light, which is the life by which these experiences are vitalized and enjoyed.

Man's presence in the universe is possible only because the Presence of Light has offered freely to animate and sustain the so-called free-will activities of the personal self. Man could not utter a prayer, nor commit a sin, without the Presence of Light, which is the energizing power of his being. Once man can recognize that his very being exists only while Light IS, he will become aware of the Silent Presence, and acknowledging that Presence as alive within him, he will open the door of his consciousness, so that the Light which has served him, without recognition for the most part, can show him its powers when consciously coupled with his will.

Your Life Depends On Light

Let us take a practical example. A man determines, in his feeling to raise his hand and throw a stone. He draws on the Light, which is the life in the arm and proceeds to the culmination of his act, thoroughly unaware that his arm, without the light current, would be as inanimate as a withered branch disconnected from a tree, lying upon the ground. He is an unconscious conductor of Light, living by the grace of Light, moving

through the universe due to the presence of Light, but unaware of his dependence on Light for every breath. Then we will take, as an example, the Master Jesus determining to raise his hand so that the currents of the almighty Father might flow through that hand, in healing. The Master, fully aware that the Light forms the wire or conductor, is a conscious co-worker with the Light, which immediately tunes in to the Healing Flame, or whatever masterful activity in which he is engaged, and the benediction fills upon the grateful receiver.

The student who would remind himself, constantly, that every activity is dependent upon the Presence of Light, would see how no one, no matter how imperfect the manifestation, lives in darkness, and that when he is convinced that it is the Light Presence flowing through, that performs every action, the individual truly rests in the Light's arms, and where Light has served him unconsciously, Light, when recognized, loved and acknowledged, will burst into its full glory and consciously coursing through his vehicles, rush to fulfill his command.

Acknowledge The Light As The Only Power

Light is the universal messenger, whereby thought is translated into action. The Light rays projected by the Ascended Master into the consciousness of the student is but an expanded activity of the direction of the Light through the body in the ordinary course of the human events, and rises to a peak of mastery and efficiency when the individual precedes all action by acknowledging Light as the only power and then visualizing the Light carrying the thought into form.

Remember, your presence in the universe is a positive affirmation that a Light Ray has been anchored upon the surface of the globe where your physical vehicle abides, and that there could be no body, no form, no activity were that light withdrawn. So you are constantly in the Presence of Light, and the more you accept it, the more will the light do for you in fulfilling your destiny.

THE BRIDGE

TO FREEDOM

With the Great White Brotherhood and Cooperative World Service**

MARCH 1959

THE POWER OF RESURRECTION

To The Beloved Spirit Of Resurrection:

We send our love and gratitude, this holy season, for the magnificent gift that lies within all life, to restore, resuscitate and resurrect the divine pattern through all decadent forms.

To the beloved Ascended Master Jesus, who proved the efficacy of the power of the resurrection here in this physical world, we send our gratitude. To his holy Mother Mary, who throughout Jesus' entire embodiment helped him to sustain that feeling of victory over human creation, we send our deepest love.

To our beloved Maha Chohan, whose very being animates the nature kingdom, bringing forth new glory and new life, we are so grateful.

To beloved Amaryllis, the Spirit of Springtime, who has faithfully given of her love to bring forth one Spring after another, to bless mankind, we send our love.

To every dear chela upon life's pathway, who desires to become a resurrecting presence for the glory of God here and now, we project the required encouragement and blessings of our love to sustain them in that desire. Again we decree, as we have done before, "ALLOW THIS EASTER MORNING TO BECOME YOUR INDIVIDUAL RESURRECTION DAY!"

Thomas Printz

ORTHODOX RELIGIONS AND "THE BRIDGE"

An Address by beloved Mother Mary

The Ashram, Flourtown, Pa.

Good Friday, April 19, 1957

Beloved friends of light,

Today is a day of rejoicing in heaven and it is a day of rejoicing in my heart! The outer world of mankind have made it a day of sadness and of mourning. Therefore, it is the expectancy of the great angelic host, as well as those of us who are dedicated and consecrated to the redemption of mankind's energies, to bring, through the feelings and the minds and the memories and the flesh, the power of JOY in the eternal expression of life!

For myself, too, it is a day of joy, stretching back to Calgary's Hill because upon that day, I became the mother of all. The beloved Jesus, gave unto me, in an expansion of consciousness, the obligation and responsibility, which I willingly accepted into my heart, of holding the immaculate concept for every member of this race. That concept helped me to endure what was a period of trial and that concept I hold for you and for all, not only those who are in embodiment but also those unascended lifestreams who await the gates of birth and those who have passed through the gates of death but who must yet secure another physical form.

Joy Instead Of Sorrow

Beloved ones, let us charge, while we are together this morning, that great buoyancy of the knowledge that there is, in reality, no such thing as death into the atmosphere of this Earth. On Good Friday and on Memorial Day, more than other times of the year, mankind enjoys dwelling upon the passing, the ephemeral and the depressive qualities. Particularly lifestreams who were present at the time of the ministry of beloved Jesus and myself find their etheric garments sending forth a vibration that is akin to that of the sorrow of the cross rather than the joy of the resurrection morn!

Now, the angels of all the legions of all the seven rays, have come earthward and they are fanning out in every direction bringing with them and radiating forth that consciousness of eternal life, that consciousness for which Jesus lived. The whole point and purpose of his final test on Calgary was to prove that life is eternal and although the stress has been placed upon the crucifixion, yet through the kind offices of unascended

beings who believe in and who have witnessed the continuity of consciousness from embodiment to embodiment, together with the kindness of the Spiritual Hierarchy and Ascended Ones who direct their rays into the outer consciousness of receptive individuals, we shall, in time, raise the peoples from an acceptance of death as finality!

Life Is Perpetual Motion

Beloved ones, let us think for a moment upon life, itself. As the great Lord Gautama said, "it is perpetual motion," from the time it is projected forth from the God-Parents, from the time that it enters into your own individualized presence and passes then into your physical heart and radiates in, through and around you, it is a constant activity of motion. Even the radiation and the very presence of the Ascended Beings, the angels and the Archangels is in perpetual motion and has perpetual life within it. That life now we are desirous of charging with an acceptance of immortality. As far as the souls of men are concerned, they do not even know there is a second death and this should bring great encouragement to the spiritual student upon the path, particularly those who have delved deeply into occult studies of various natures and who have, within themselves, a realization of what such an experience entails.

Now let us feel life this morning, each of you feel life within your hearts, the life that comes to you of God, that sustains you among men so long as the wisdom and direction of your Presence desires a physical form. Life carries you freely at night, when the physical form rests. Life eternal carries you into the presence of those Masters whom you love so well. Life helps you to understand their teachings as you sit at the feet and witness their magnificent perfection. Life intelligently brings you back into your own physical envelope in the morning and sustains you again through the course of the day.

Today our message is the message of life eternal and the intelligence that is within life. Beloved ones, mankind takes life much for granted, until the current begins to wane and then they begin to cognize how much of life has passed through their consciousness, without being qualified with some constructive blessing for themselves and their families and their associates. Let us not allow ourselves to be among those who feel remorse when opportunity has spent itself and when the life given freely, animating the physical vehicle, is called back into the inner spheres and this particular sojourn on Earth is completed.

Beloved ones, let us use life to its fullness, each one according to our ability and capacities developed. This we do on our side of the veil; you do so on yours. The more you use life intelligently, joyously and with happiness, to produce a kingdom of harmony in the world around you, the more life will be given to you and the greater will be the amount of the actual substance of this world's goods with which you can manipulate to ever expand the glories of the kingdom.

You know the law, in intellect at least, that what is done with any gift determines how much more of that gift and how much greater dexterity in the use of that gift shall be given. It is also true with the spiritual law; that which is done with what we have received will determine how much more you can receive. Otherwise, before the Karmic Board, your debt would be too great. Much knowledge, unless directed into application and the changing of your natures and worlds and making of the planet a better place on which to live, much knowledge so given would be a great responsibility on our part and we, of course would have to make good for that knowledge when it lies dormant within the intellect or the mental vehicle.

The Two Activities Of Mother Mary

Life is given to us, as it is given to you, by the One Supreme Source and we are given free will in the use of it. I chose, my particular service when my time for magnetizing the currents for the Christian Dispensation was over, and when I was told that I might have the victory of the ascension. Besides holding the immaculate concept for all mankind, I chose to work, as you well know, with the incoming lifestreams, helping, whenever and wherever possible, to transmute their karma, to put them in suitable schools while at inner levels and to give them teachers with an understanding, who could help them to translate their problems into a workable application, so that when they were ready to re-embody they could have greater assistance from the Karmic Board, from myself and beloved Kwan Yin, beloved Meta, and all those who are assisting at the gates of birth.

What Happens Between Two Embodiments

Now beloved ones, this circle of birth and death is an interesting one. When the lifestream lays down a body, it is the nature of the soul that determines the experiences following and preceding so-called death. The illumined individuals who are very active spiritually, usually do not require nor request any period of rest or vacation after passing through the veil. The individuals who have had very strenuous embodiments and who have done great things of a spiritual nature or of a material nature that were constructive are sometimes given a short vacation, even against their own will, in order to vitalize the etheric vehicle through which the consciousness works at inner levels.

Sooner or later they come, each one, before the Karmic Board and then they are assigned to the particular sphere to which their own previous embodiment has fitted them to dwell. So, at this time of assignment, we who are the sponsors of the incoming souls, must also be present, because we know that every individual having passed through the change called death (unless they wear the robes of ascension) must return to the Karmic Board. Therefore, one of us watches carefully during the process of the assignment of the souls by the Karmic Board to their particular sphere.

Then, whenever it is possible, whenever the light within the etheric envelope is developed to a point where we see a possibility for an intervention, we approach the Karmic Board and ask for the opportunity of intervening, personally, on behalf of such a soul or group of souls. If that is given to us, then we do as I told you. We go to that soul, or one of our representatives does, and we help them just as they do in the outer world, help them through training, in the very beautiful schoolrooms, to overcome the problem which has caused failures in a past life. We help them to become acquainted with the reality of the one God and help them to learn to harmonize their energies. Then, before the consecration of the incoming souls to the Sacred Heart Temple takes place, the individuals so helped at inner levels are in a position to get greater assistance from us.

Receptivity And Action Required

Then, of course, since you individuals in the transcended state have been calling for the purification of the incoming children and the younger generation and as I have been given the use of the beautiful wand of flame, I have been able to do a great deal more for these lifestreams.

For this I am so eternally grateful!

In the course of our address, it was stated that there was a need for added prayer and added assistance for the incoming children and the younger generation. There was receptivity in the consciousness of our listeners and there was designed that wand of fire, which in turn was energized by the feelings of the group and became a living reality and authority from unascended beings placed in my hands which can and is used for the entire nine billion souls belonging to this race.

Now if there were no such communion in the first place, from our realm to yours, you would not know of the requirement. If there was no receptivity in the consciousness of your realm and there was no ACTION following our requests, there would be no completion of the bridge between the divine and the human and the human and the divine. That is the point that sets aside the present activity, beloved ones, from all of the glorious and magnificent and developed religions through which, most naturally, we pour our love and our light.

Orthodox Religions And The Bridge Activity

Now dear hearts, this morning, on many altars priests are sending up prayer force. Devout people are saying their rosaries and my name is honored, as is that of the beloved Jesus Christ. That energy is beautiful and it is good and it does bring back a benediction and a grace into the officiating priest and into the congregation. However, there is no direct line of communication by which they know exactly what to do at this moment, this day, beloved ones, and the congregation is listening to that which was mostly written from my own memory into the gospels, two thousand years ago.

Today however, I can speak from my consciousness, which has grown since then, and is endeavoring, through the veil, to grasp the hands of mankind and LET THEM KNOW THAT DIVINITY WALKS AND TALKS AND LIVES WITH MAN, that Divinity is represented in the angelic host as well as the Cosmic Beings, the mighty Lord of this World and the Stellar Beings from other stars. Beloved ones, that is the message of beloved Morya and beloved Saint Germain. Holy and blessed be their precious names!

Accept My Healing

And now, as I stand within the heart of the Flame of Healing, will you accept my reality and my presence with you and be willing to let go of those limitations that distress! Then accept healing power which is mine to give as my gift to your life on this Good Friday! Thank God, that in all of the efforts to concentrate mankind's attention on death, they have at least called it "Good" Friday. It is one of those miracles that come through the sieve of the human mind. It is a day of life, it is a day when I intend to use you to remove all sense of grief at the loss of a loved one and all sense of grief, particularly for those who have lost loved ones in the service and for that terrific fear which the word "war" engenders in the outer consciousness.

Now, accepting into yourself my healing and accepting through me relief and release, I shall join Lord Raphael and we shall begin the expansion of those currents of life and immortality throughout this Earth. In the name of my beloved son, Jesus the Christ, I bless you as an individual and as a communal unit serving God and life and constructive purpose until the day when you are called home. That day I shall say to you, "Has not everything that I have promised you, been so?" And we shall stand together on equal terms, expanding life. I shall take you to those schoolrooms and let you visit with the little Buddha's and the ones of your families who have received the dispensation and give you every experience that your heart desires.

Persevere

But persevere. I know what perseverance means! For long years after Jesus' victory, "persevere" used to be written in the atmosphere. Oftentimes, during a so-called difficult experience, endeavoring to hold the harmony and balance of light, I could see that word. Sometimes it would be written right on the forehead of the individual whom I was endeavoring to serve. Sometimes it would be written on a flowing brook, where I would sit for a moment, and endeavor to contact the Godhead to sustain my endeavors. It was written on the great Mediterranean Sea, as we sailed across it, and that sense of perseverance and constancy of endeavor so long as you remain here, is all that is required.

So persevere in the name of my Son, Jesus the Christ, and you shall know the reward of one who is constant! Thank you, beloved ones!

**“BRIDGE” TEACHINGS CANNOT BE MIXED WITH OTHERS –
TIMELY CLARIFICATION**

The note at the end of “Our Scope,” published in our issue of November 1958, states that, in accordance with the freedom of conscience, cooperation with any of our activities does not demand the relinquishment of any one's present affiliations. This note has been erroneously interpreted by some students, and therefore it needs explaining. It was written in the spirit of the words of Paul to the Thessalonians, “Prove all things, HOLD FAST that which is good.” They were meant as a bridge to investigate. The Ascended Masters expect that those who have found their teachings, as expounded through the channel of the Bridge Activity to be GOOD, to HOLD FAST TO THEM, as Paul directed, and they are very pleased with the referendum made on November 15, 1958, through Notice No. 2 of THE LIGHT BEARER, because 99% of the Bridge Student Body have expressed their gratitude, their love, their support and their loyalty to them and to the Bridge Activity, as will be proved when these testimonies are published.

The note at the end of “Our Scope” is not to be interpreted in the sense that it is permissible for our sincere and loyal students to mix the teachings of the Ascended Masters, given through the channel of the Bridge Activity, with other presentations of truth, true or false. That only creates confusion. Our sincere and earnest students are not eclectics. That is, they do not pick and choose, like butterflies, what they like in the Bridge teachings, according to their understanding, limited or unlimited, patching them up with other real or false presentations of truth.

It is evident that if you go to a university you will never graduate if you mix the teachings of your professors with the opinions of others, who do not belong to your university. Moreover, you cannot have and use a dollar bill, by merely accepting one side of it and rejecting the other. To be able to use a dollar bill, you have to accept both sides, the front and the back. To be or not to be, that is the question.

Furthermore, it is audacious to claim that there is, or that there can be, a new activity for the purpose of the expansion or improvement of the present Bridge Activity, because anyone dares to say so. That is merely a masquerade. When the time comes for that expansion or improvement, and it is already going on, it will spring from our own activity, and not from an outside organization, old, established or dissident. Any endeavor to mystify the truth can only have one effect and we all know what that effect is.

FRANK C. PITA, General Manager

HOW TO USE THE RESURRECTION FLAME

(An Instruction by our beloved Maha Chohan)

Now beloved ones, there is your own sacred heart, in which your divinity dwells. You say, "Oh, thou beloved immortal victorious Threefold Flame of God within my heart, I love you, I love you, I love you. Take your full freedom within me now. You are inside of me, blaze your light through! Through What? Through your physical, etheric, mental and emotional bodies. Very well, when you take the decree and you speak to holy Amethyst and you say "beloved Holy Amethyst, you are inside of me, blaze your light through." Through what do we blaze her Light? We blaze it through the physical, etheric, mental and emotional bodies.

Here is a lesson which some of you, who have learned breath and have taught breath control, know. WITHIN YOUR HEART, WITHIN THIS IMMORTAL THREEFOLD FLAME, IS THE VITAL ESSENCE OF EVERY GOD VIRTUE. IT IS CONNECTED WITH EVERY DIVINE ATTRIBUTE, FACULTY AND GOD-BEING IN THIS UNIVERSE. It is connected with the Resurrection Temple and the activities of Jesus and Mary, as well as with Holy Amethyst, the Freedom Flame, the flame of Pallas Athena, just to mention a few.

Then, as you breathe out the Resurrection Flame into your physical body, you feel it vitalized into your etheric body, you feel the divine powers which you had in the Great Central Sun before the world was, accelerated, into your mental body you feel the clarification of those divine concepts which come from the Heart of God and into your emotional body. You feel the buoyancy, joy and happiness of serving GOD, the Ascended Masters and your fellowman.

AN EASTER MESSAGE

By Beloved Mary, Mother of Jesus

At Easter time, I am reminded, again, of the beautiful first Easter Day when my own beloved son, overcoming so called death, came forth from the tomb in which he was lovingly laid, and proved to his disciples and followers that the power of resurrection is an eternal verity! Such a victory I was later able to accomplish myself, although in a far less ostentatious manner than my son, and also the final glorious happy victory of the ascension.

Therefore, I am always so eager to convey the truth that both the resurrection and the ascension are possible of attainment by every hu-

man being, imprisoned angel and elemental yet using the sweet Earth as a schoolroom.

I wish for you, each lovely one, a glorious Easter, filled with God-buoyancy. I invite you, as your Cosmic Mother, to come to our Temple of Resurrection, where I myself, may hold you in my own arms of light, conveying to you my feeling of your own ability to resurrect the good in your dear lifestreams. Consider this, beloved, a personal invitation from my heart to yours, for you are to become each one, a cell in the Universal Diamond Heart which I am creating to envelop this dear Earth!

Mary, Mother of Jesus

THE TEMPLE OF RESURRECTION

In the Etheric Realm, over the Holy Land

(Ascended Master Retreat, March 15th through April 14th, 1959)

Over the Holy Land, where the beloved Jesus performed his ministry, culminating in the victory of his own ascension, as well as that of his one disciple, John, and that of his beloved Mother Mary, there pulsates the tremendous radiation of the Temple of the Resurrection. Therein are found the beloved Master Jesus and Mother Mary and the Resurrection Flame, directing it always into persons, places, conditions and things which are in a state of decay and dissolution, thus raising them (when they are receptive to the blessing) into the God-ordained perfection which ALL should and will, one day, express. Resurrection, according to the dictionary, means actual restoration or renewal of imperfection. This is the service of beloved Jesus and Mary and the sponsors of their holy retreat, to make whole and renew, that which has temporarily become imperfect. Not all individuals on the blessed Earth today know of the palpable existence of this temple but all are bathed in its rays and essence, particularly, during this time of year, when so many of mankind honor both the personage and the victory of the beloved Jesus' resurrection.

Those dear souls are impersonally blessed by the Hierarchs of the Resurrection Temple but the conscious chelas on the spiritual path are invited into the temple and, witnessing the glory of the Resurrection Flame, bathing in the mother-of-pearl essence pouring forth through it, listening to the Ascended Master Teachers who give forth the instruction so that the chelas, too, may become foci of the Resurrection Temple. They are infused with its efficacy and bring much of its essence back with them into the world of form, when they return to their physical bod-

ies after such a visitation.

Mother Mary, the divine complement of the Archangel Raphael, has trained many angels and elementals in the art of resurrection, and a few of mankind, themselves. She so eagerly awaits your visit to the Temple of Resurrection, both for your own vitalization, as well as the buoyancy and conviction of the power of resurrection for all mankind in distress, particularly at this time of world chaos and confusion. Not only her beloved son, Jesus, performed this art of resurrection, but every flower, tree and shrub, each year, point the wise man to that resurrecting power alive within all of the nature kingdom. This power of resurrection is possible for mankind to use, as well. The Temple of Resurrection is builded in circular formation, with seven corridors of graded intensity of the flame, so that each dear chela may, according to his capacity, receive instruction, love and light, by entering the corridor wherein his own consciousness can receive the power of the Resurrection Flame in that particular focus wherein he or she is most comfortable.

The mercy of the heavenly father and his divine messengers is always so great, that they never expose a chela to a divine radiation above and beyond their capacity to both enjoy and benefit by it. Of course, our beloved Maha Chohan focuses his power also through the Resurrection Temple into the nature kingdoms, at the time of year when the season of Springtime expresses in your locality.

The Resurrection Flame was not required on Earth until the laggards came from other systems and decay and discord ensued, causing life to descend from its natural, pure and perfect estate. When such an event took place, the wise action of the Cosmic Law was such that preparation was made for the ultimate restoration of mankind and all life upon this sweet Earth at such time, according to free will, when mankind desired this service. That time is NOW!

Enter into the Resurrection Temple, beloved ones, and learn to be a resurrecting power in your dear beings and world. Help restore those you hold near and dear, and all mankind, imprisoned angels and elementals, into their divine externalized perfection again! Thus, you become a Resurrection Temple, in yourself.

It never was intended, by the heavenly Father, that Jesus alone, should achieve the resurrection and the ascension, but that he be the way-showers, the example for all mankind, who, for the most part, prefer the enjoyment of Jesus' victory rather than making personal, individual endeavor toward their own resurrection and ascension, here and now.

THE ASCENSION OF JESUS

(Excerpts from an Address by Ascended Master Jesus)

Flourtown, Pa.

May 15, 1958

Beloved blessed friends of Light, who have loved me long and love me still, grateful I am for your presence on this day, which is a memory sweet, in many respects, to my heart and yet, it was a day in which I had to leave so much yet unsaid and undone, into the keeping of my mother, beloved John, and the disciples, with a prayerful heart that that vision and dispensation which has lasted two thousand years, might be anchored firmly through those blessed ones. Some of these individuals renounced the ascension at the time of my own victory, in order to bring and to keep in the emotional, mental, etheric and physical consciousness of mankind, not only the radiation which I left, but the instruction, as well.

The Gospels Have Been Amplified

Oh beloved ones, it is with grateful hearts that we honor every sincere chela who has helped us to open the bridge from divinity's realm into the realm of the outer consciousness, so that those of us who have been glorified and honored by many, may no longer have to confine our instruction and radiation to the small amount of recorded doctrine which we presented, and of course, through the channels of energy of unascended beings, who have had great love and devotion to us. No longer are the small Gospels the full extent of my teachings to the peoples of Earth, for the open door has allowed us, from divinity's realm, to bring to you now, from the past, and in the more glorious future that is to come, more and more of the eternal verities of that truth which I taught long ago and re-affirm. THAT TRUTH, if applied, will set you free!

Beloved ones, as the great Lord of the World said to you so recently, and I repeat, ALL OF THE INSTRUCTION AND KNOWLEDGE IF NOT APPLIED INDIVIDUALLY THROUGH YOUR OWN PRECIOUS APPLICATION AND EXPERIMENTATION WITH THAT KNOWLEDGE AND THAT LAW, WILL NOT GIVE YOU FREEDOM NOR SELF-MASTERY OVER ENERGY AND VIBRATION. This I know through my own personal experience. When I had attained that mastery, good men and women, enjoying the so-called, miracles which such mastery made easy to manifest, preferred to see the fruits, and very few listened to the law by which they might have become Master over the appearances of sickness, disease, disintegration and even so-called death.

Experimentation On The Physical Level Required

Beloved ones, I am grateful for opportunity to affirm and to re-affirm to you that the importance of receiving knowledge, insofar as your soul growth is concerned, is the actual practical experimentation with that knowledge received, even though, at first, your results may not express to you full perfection. Why? Because, as your individual Presence pours its light through you, which is the very beat of your heart, that life-essence is colored by your feelings, thoughts and your memories, as well as by all the traits of character of the present physical personality, and you are subject, likewise, to the mass ties of limitation and distress.

Therefore, it takes the bold, the constant, the trusting, the faithful and the wise to continue to experiment with the Cosmic Law, as beloved Saint Germain did before he was ascended. Even if you do not have full manifestation on your first try, or on twenty years' application, there is nothing wrong with the law, beloved ones. It is just that your channel has not been purified sufficiently so that the same gifts and powers which I used, merely to be the example of what every man, woman and child should be, are yours today, not in some far distant heaven with streets lined with gold! The mastery over energy and distress is not required there, for all is peace, beauty, harmony and perfection. Why should I then have come through the veil of birth and live in a world of great darkness, if it were not that the great Father of us all desired to show to the people of my generation and those of succeeding generations who believed on my chronicled life, what could be done by a man wearing a coat of flesh.

Your Holy Christ Flame

Your Earth, today, is in a great period of chaos. The strongest points of light, even as in my day, are foci for the remnants of discord. I say to you, that Light and that life which is the gift of the Father of all, that beats your hearts, is all powerful in and through you, when your motive is sincere and you are selfless in the desire to give the gifts from your own Causal Body for the illumination, harmonization, and healing of the distresses of mankind, elemental life and imprisoned angels.

I love the angels! All during that Earth life, the great Archangels and lesser angels were my companions, Mother, her- self, coming from that kingdom. Oh, to see angels imprisoned in gross form, with such great feeling for our perfected realm and yet willing to so remain because Earth is not yet free.

I love the elemental life, that beautiful life that has given and is giv-

ing you so freely of itself. I love that great Holy Christ Flame within your heart, which shall one day be master over every bit of the energy and vibration which you have qualified destructively, until the upper parts of your bodies are blazing with its light, until your hands become as mine, conductors of the Healing Flame from God's own heart, until where you stand, death ceases to be, and LIFE is manifest again in dignity. These things I came but to teach you, that they could be done by other men and women. Yet, even those who lived within my aura, slept within the compass of my mother's home, when first they attempted to call forth those powers, returned to me distressed, because human appearance yielded not, and yet they had physical proximity to my presence for a number of years.

Become Christ In Action

You now have proximity to my presence. You have proximity to me by merely mentioning my name! I have given my name to all mankind as a protection against any and all evil and distressing thoughts, feelings and pressures. In the NAME OF THE ASCENDED JESUS CHRIST men and women have healed. They have suffered privation and have come forth victorious. They have learned and used the powers of levitation and precipitation. They have ministered in the name of the Ascended Jesus Christ unto those who were temporarily under the spell of seeming illness. I speak now to every chela on this planet Earth who believes in my Presence and my capacity to speak in this day and age!

IT IS TIME FOR EACH ONE OF YOU TO BECOME CHRIST IN ACTION! I DO NOT ENJOY THE SOLITARY CONFINEMENT UPON THE PILLARS OF MARBLE. IT WOULD BE A LONELY HEAVEN, WERE I THERE ALONE. Thank God, it is not so! There are many sons and daughters of light, as you well know, who are my companions and many superior beings, so far above me on the ladder of divine evolution, that I cannot even see the outlines of their I AM Presence or their White Fire Bodies due to the radiance of their Light. So it is with you, as you move upward and forward on the path of self-mastery. Always be sure that there is someone on the rung below you whom you are lifting to take the place on that rung on the ladder as you move onward into greater and greater light.

The Ascension Of Jesus

John and Mother Mary chose to take that place for me, and thus, on that morning I was enabled to quietly and unostentatiously walk up that grassy path to the top of Bethany's Hill and have just a little solitude, watching the sunrise, enjoying the beauties of Earth before my beloved disciples and those following after them, coming to wonder and to question, reached the brow of the hill. So it was, in that inner resurrected body that I was able in the presence of almost five hundred people, not all of whom believed that such a thing was possible, to quicken the vibratory action of that resurrected form and with the great assistance of the mighty prayer force that my mother had established through her years of prayer on Bethany's Hill, and with the great assistance of my own I AM Presence, the ascension was publicly manifest.

Some saw it, some did not, because as the light came brighter, the natural activity of the human self is to cover the eyes against glare. Some were frightened. They turned their backs lest they be distressed. Some flung themselves on the ground, but the few stood and can bear witness. Some of these are within this room today. From the top of the Hill of Bethany, I completed my course, leaving it in the hands of those who were to form the foundation of the Christian dispensation. I ascended to my Father and to yours, enjoying that company of Divine Beings who have foresworn nirvana, continuing my assistance as best I could to any and all lifestreams, who in their turn, would direct their attention toward me.

The Crucified Christ To Be Replaced By The Ascended Christ

I ask this morning, a boon of the Cosmic Law, in the removal of the crucified Christ from all of the Christian Churches, and the replacement by a visualization of the Ascending Christ, so that the people can look upon that which will uplift their vision and give them hope, help and strength to want to achieve like mastery. That very crucified Christ, which the orthodox world places before the people, is the symbol of vicarious atonement. It is the way of the outer self, as you well know, to let some other lifestream carry your sin. Every time that you honor us with your presence, transmute as much of the karma of your own creation as is possible. God knows, while we are in the atmosphere of Earth, how much of the mass karma, the riptides that flow through the Earth and its atmosphere, are sucked into the substance which forms our auras and there are transmuted into Light, charged into the I AM Presence of

the individual who created that discord and then held there until the I AM Presence of such a one finds worthiness in the personality and can safely, through the silver cord and the Holy Christ Flame, release that Light again.

In the power of invocation as I used it, and as every God-free being uses it, the Threefold Flame in your hearts has a definite reason for its coloration and its place. As you draw the power, and wisdom directs it, and love sends it forth, you are completely protected from every adverse human motive, even those which you do not know of in the outer self. Every healing that I performed, every leper that was cured, every blind man that was made to see, every obsessed one that was freed of a discarnate that had no place in that form, and every man and child that was in the appearance of death, who was given again life, was given that boon through the magnetizing of the POWER of my Father, WISDOM to use it where I saw that the lifestream could be benefited or a lesson could be taught to the witnesses, and then the LOVE for the individual who received healing, as well as for the Father who gave me the power by which to do it.

Beloved ones, keep that in mind in all that you endeavor to do! Power alone is the most dangerous of the qualities, unless it is directed by true wisdom and discrimination that comes of your Father, and unless it is qualified with honest love for your God, the Divine Masters, your fellow man, imprisoned angels, little elementals, four-footed creatures and every living thing.

I repeatedly said over and over again and I still maintain the statement today, "I, of mine own self, can do nothing. It is the Father within that doeth the works," to remind you that the power that was drawn through my lifestream, directed by the wisdom of the Father and sent forth in love, should never be used, and it never was used, in my whole embodiment for anything but to do God's will here on Earth, to attempt to establish the kingdom of heaven on the planet Earth, to attempt to arouse the dormant spark of divinity within the peoples of that era. Now, the Cosmic Christ has spoken and the Christ Selves of men and women and children, too, are beginning to act.

Those who want power of the personal self, find themselves sheared of it. Those who want power to use with wisdom to expand the cause of love, shall INCREASE in majesty, in dignity and in works well done. Thus is the teaching of the new era. It was the teaching of the Christian Dispensation which was my era, in which very few of mankind received the

ascension. Now you come to the New Age of the great Ascended Master Saint Germain where the kingdom of heaven shall manifest on this Earth. Through whom shall it manifest? It shall manifest through those in whom we have invested our life, our instruction, those who have reached their hands out to us from divinity's realm to form that Bridge, which remains unto this day through your individual and collective endeavor.

Censure Not The Outer Self

You are my brothers and sisters, not of blood, but of spiritual light. That light which flows through you and through me is the life blood of the spirit and flows from the one Father, whom I represented on Earth, and whom now you have opportunity to represent. Oh, censure not the outer self, if you are not the fullness of the mastery that you should become for the negative qualities of depreciation and self blame merely fill your feelings and your minds with more substance and the next beloved Master, and in this case it is Morya, will have to dislodge it. Rather fill yourself with the feeling of rejoicing that I, too, was a man and was subject to pressure and bore witness to many unpleasentries, not only in the world at large but also among my immediate disciples. Yet, through the grace of almighty God and my steadfastness in holding to his will, I had a victory, the victory of the ascension, which is to be your victory, too.

Perhaps, in your case, it will not be so spectacular and I hope for your sake it will not. Ridicule and bigotry and disbelief upon a soul departing, particularly in that delicate fabric of ascending into the Light of the I AM Presence, is not a happy experience. I made that sacrifice, although like all unascended beings, I tried after the last supper, to remove myself from it. Yet I made that sacrifice of the crucifixion and the ignominy that preceded it. Then, the returning and resuscitating of that form, the walking and talking and convincing of the disciples that it was, and the final sacrifice of a public ascension, an experience which should be the most sacred of all one's experiences, one that really should not be a spectacle. I went through that so that all men would know and could know that what I had done, they could do also. Yet glorified as has been my work, for the doing of what I did, that day is yet to come.

In the name of my beloved Mother Mary, in the name of our beloved Ascended Saint Germain, in the name of the great Hierarch, El Morya, in the name of the beloved Serapis Bey, whose Ascension Flame blazes at Luxor, I thank you for believing in me sufficiently to make a pilgrimage to my presence. You shall be rewarded for the endeavor and the love.

APPEARANCES OF JESUS AFTER THE RESURRECTION

ACCORDING TO SCOFIELD

On the Day of his Resurrection: (1) To Mary Magdalene (John 20: 14-18), (2) To the women returning from the tomb (Mat. 28:8-10), (3) To Peter (Luke 24:34), (4) To the Emmaus disciples (Luke 24:13-31) (5) To the Apostles, except Thomas (Luke 24:36-43, John 20: 19-24)

Eight days afterward: To the Apostles, Thomas being present (John 20:24-29).

In Galilee: (1) To the seven by the Lake of Tiberias (John 21:I-23), (2) On a mountain, to the Apostles and 500 brethren (1 Cor. 15:6)

At Jerusalem and Bethany again: (1) To James (I Cor.15-7), (2) To the eleven, (Mat. 28:16-20) (Mark 16:14-20) (Luke 24:33-53) (Acts 1: 3-12)

To Paul: (1) Near Damascus (Acts 9:3-6) (1 Cor. 15:8), (2) in the Temple (Acts 22:12-21,23:11)

To Stephan: Outside Jerusalem (Acts 7:55). To John: On Patmos (Rev. 1:10-19)

Total: 14 recorded appearances.

A HISTORIC DESCRIPTION OF JESUS

According to Publius Lentulus

By his contemporary, Publius Lentulus, who was the predecessor of Pontius Pilate, as Governor of Judea. Excerpts from a letter to Tiberius Caesar, Emperor of the Romans.

"He is a man of noble stature and of very beautiful countenance, in which such majesty resides that those who look on him are forced to admire him. His hair is of the color of a fully ripe chestnut, and from his ears down to his shoulders, it is of the color of the earth, but shining. It is parted in the middle of the forehead, after the manner of the Nazarenes.

His forehead is smooth and very serene. His face is free from wrinkle and spot and with a light color. The nostrils and lips cannot reasonably be found fault with. The beard is thick, and, like the hair, not very long and is divided in the middle.

The eyes are like the rays of the sun, and it is impossible to look him steadily in the face, on account of their brilliancy. He makes himself loved, and is gravely cheerful. His hands and arms are very beautiful.

In conversation he is charming, but he seldom engages in it, and when he does converse, he is very modest of countenance. In presence he is the most beautiful man that could be seen or imagined, just like his

mother, who is the most beautiful young person that was ever beheld in these parts.

In learning, he is an object of wonder to the entire city of Jerusalem. He never studied at all and yet he knows all sciences. He wears sandals, and goes bareheaded. It is said that such a man was never seen or heard in these parts. In truth, as the Hebrews tell me, there never was heard such advice, such sublime doctrines as this Christ teaches, and many of the Jews hold him for divine and they believe in him, while many others accuse him to me as being contrary to thy majesty.

It is acknowledged that he has never done harm to any one, only good. All that know him and have had dealings with him say that they have received from him benefits and health.

Publius Lentulus

THE EMBODIMENT OF THREE BUDDHAS

By Beloved Mother Mary

There will come before me in May this year, three more of the beautiful Buddhas, who will take embodiment. This is quite a magnificent accomplishment, in so far as the individuals who attend the Sacred Heart Temple are concerned. It is also a great accomplishment upon the part of unascended beings, who have made the light of the world increase and, who have made possible pure enough lifestreams and pure enough homes for the blessed ones. Of course, with Lord Gautama, his radiation being that of the pure Buddha at heart and his radiation now encompassing the Earth, the Buddhas cluster around that radiation like bees around a flower that has honey within it. If it were up to the free ones, all hundred of those Buddhas would come through the veil of birth this year but we who stand at the gates of birth, we who are cognizant of the opportunity of bringing that added light to the world are very grateful to the law for allowing us to prepare three such illumined ones to enter into the earth plane. Can you imagine what it will be for the planet, when these illumined ones attain a majority and their consciousness and radiation can be outpoured in its fullness to bless the race! That day comes for which we are so eternally grateful!

RESURRECT THE GOOD IN ACTION
(Monthly Letter to Transmission Flame Class)

Beloved Ones Seeking To Actually Become Resurrection's Presence Here
On Earth:

I greet you in the name of the actual divine mercy and heritage of your own being, the power to become again, beautiful divine beings (as you once were) right here on this sweet Earth. As you know, I have directed the Resurrection Flame through the nature kingdom for many ages. I also helped the beloved Master Jesus in resurrecting his own physical vehicle. I am also eager and desirous of assisting you, dear ones, to achieve your own personal resurrection here and now. The sponsors from the Resurrection Temple for 1959 are lovely Lady Ascended Masters from Mother Mary's Legions.

Please, at least once in every twenty-four hours, enter this Resurrection Temple and enjoy the glory of its powers. Meet us there. Then, return to your worlds and fill them with that uplifting radiation! Be that example of resurrection of good in action here and now.

Love and Blessings,
Maha Chohan

Breathing Statement for Transmission Class March 21, 1959

I AM inbreathing Jesus' and Mary's peaceful resurrecting love
(Use also for "absorbing," "expanding" and "projecting")

Hierarchs: Beloved Jesus and Mary. Color of Flame: Mother of Pearl. Musical keynote: "A Perfect Day."

With the Great White Brotherhood and Cooperative World Service**

APRIL 1959

GRATITUDE TO LUXOR

To the Beloved Serapis Bey and his Brotherhood at Luxor:

We send all our gratitude and praise for the many individuals who have risen on his Ascension Flame into the full victory of the Ascended Master Realm!

To the Ascension Flame, itself, guarded and guided by Serapis Bey and his Brotherhood, into which all the aspirations, hopes, joys, and finally victories of the ascension are woven, we bow in humble gratitude.

It is one of the mercies of God that Serapis Bey and his Brotherhood have sustained, through the Ascension Flame, the way back home into the heavenly kingdom, from whence all, at one time or another, came forth for experimentation in the use of life's energy on this sweet Earth. To the very cosmic door which this Ascension Flame provides for such resumption of the God-estate, we, who have used it, bless it!

Until the day when mankind, imprisoned angels and elementals also use it, and are qualified so to do, no words can describe the joy of having an open door into God's kingdom! Praise be to God for all who have held it open for this day!

Thomas Printz, Editor

THE MASTERS OF WISDOM SPEAK
THE ASCENSION INTO THE LIGHT

MAHA CHOCHAN

Ascension for all Evolutions

The very process of the ascension is a natural feeling of all evolutions after they have made their descent into the world of form. It is one of heaven's great and unchangeable laws. Through the use of free-will, angels, mankind and elementals descended into the evolution of Earth for service and for training.

When that training and service is completed, it is natural for the very spirit of each kingdom to desire, within itself, to again ascend into its natural estate, as the creator intended. The feeling which propels any members of these kingdoms toward the ascension is accentuated by those of us who know that the individuals of each kingdom have performed, perfectly, their service on this sweet Earth and are ready, at inner levels, to make such an ascension into their rightful God-estate.

Imprisoned angels and mankind who have such a feeling often cannot define it and only know that they are unhappy in limited forms. Be at peace, beloved, and know that the feeling of desiring greater freedom is also the will of God for you.

EL MORYA

Requirement for the Ascension

As we have often said, THE WILL OF GOD IS GOOD! The ultimate expression of THAT WILL is the ascension, at the close of each embodiment, into greater freedom. For this, we foreswore Nirvana, seek in all ways to increase that feeling within the hearts of any worthy chelas serving for the time being on this sweet Earth (upon whatever evolution they are rising), so that they will make the necessary endeavors to become, as we have, ascended and free!

Sometimes such spiritual prodding becomes annoying to the aspirant and, at any such time, we, in mercy, allow them, through free will, to rest upon the pathway home until they, themselves, through free will, are again ready for such ascent and the necessary disciplines required to again endeavor to prepare for this, their ultimate goal, which sometime, somewhere, they shall have to achieve!

Whereas physical laws are accepted by the masses, so often spiritual laws are either ignored or given a “happenstance” glance by the aspirant. I have seen so very many of the applicants for the ascension temporarily disappointed when they found that personal application was and is necessary for God-accomplishment. They have the foolish idea that they can rise on the “hem” of someone else’s garments into the ascension, rather than make individual personal endeavor to earn this great service.

LANTO

Motives for Desiring the Ascension

Let me here gently remind you, that based on the promptings of one of the four lower vehicles (emotional, mental, etheric or physical), individuals often think they desire the ascension as a means of escape from the lessons that are not fully learned here on the earth plane. This, of course, is not the real God-inspired feeling of the chela whose service has been fully performed and who is ready for such ascension. It is rather builded upon the premise of human desire to escape from that which is unpleasant. Such a one will, invariably, have to render the service for which he or she volunteered, either here on Earth or in God’s holy kingdom, upon some other planet.

Call, always, that the motivating power behind all your desires to so ascend be God-inspired, and then, quickly, as your service is completed you shall have that victory of the ascension “to go HOME and come out no more!” We shall help you, each and every gentle reader, to achieve the ultimate of your victory when your motive is right and when you, as GOD INTENDS, have finished, in dignity, your service here on Earth!

PAUL, THE VENETIAN

Externalizing Divine Love

One of the most efficacious ways to complete your God-service on Earth is, of course, to cultivate and externalize pure divine love toward all life that is imprisoned. That being the activity of the Third Ray, we are desirous and eager of giving you assistance toward the development of this pure divine love. Then, your service, being impersonal in nature, raises you and all the life you contact into the natural vibratory action of freedom from limitations of every kind. There is no better beginning than now! Particularly this year of 1959, when the Divine Beings of the Third Ray are the sponsors for the evolutions belonging to the Earth.

SERAPIS BEY

Living In Harmony

The activity of the ascension is, of course, primarily my service on the Fourth Ray. Personal and impersonal service must be employed by the individual, to achieve the right to victorious accomplishment.

So long as the doctrine of vicarious atonement is taught, mankind, for the most part, expect someone else to raise them into a state of "heavenly bliss." It is foolish, in the extreme, to accept this consciousness. No more than an airplane or one of your motor vehicles could rise without the employment of the necessary laws of this world to overcome gravity and forward motion, can an individual attain the ascension without the compliance with the Spiritual Laws which make such an ascension possible.

In the year of 1959, the lesson is, primarily, that of living in HARMONY with your fellowman, the nature kingdom and imprisoned angels. The lesson of IMPERSONAL DIVINE LOVE (not sentimentality) is the aspect of the law which we teach at Luxor and purposely place within the orbit of each aspirant.

HILARION

Raising Your Vibratory Action

As I have so often explained to the chelas, the process of the ascension is absolutely scientific. Each tiny electron, moving around its central core of love, forming the atom, has to be released of the accumulation of discord, self-created, until those electrons are free to raise the human body into a sphere in which such a one has become fitted to dwell. This can only be done through the free will of the individual, who, desiring such freedom from limitation, calls to us, as well as his own Holy Christ Flame and I AM Presence, to so raise the vibratory action of these electrons and sustain them, each one, in a state of harmony, peace and love.

Spasmodic raising of the electrons through proximity to divinity and its messengers often does temporarily raise the consciousness of the chela, but until that chela can and does sustain that divine consciousness within himself, he cannot remain aloft, nor enter those spheres of perfection toward which he aspires.

NADA

Keeping Silent About Service

As one of the sponsors for 1959, and also as a humble assistant to Serapis Bey himself, I speak with authority when I say, you can learn how to impersonally love all imprisoned life, making it more comfortable and perfect in its expression. As I have told you often, the personal experience which was mine, fitted me to help beloved Serapis. I had to learn to love the Holy Christ Flame in the hearts of my family first, until they developed certain latent talents and virtues.

One of the commandments given to me by my teacher, blessed Charity, was to never allow anyone to know the service I was rendering. Many individuals who have attained the development of various virtues, are unable to restrain the outer ego from the sin of boasting of their accomplishment and then the gift, virtue and blessing are gone.

I am willing to help you, beloved ones, to learn this law of impersonal service to all imprisoned life now. Further, I am willing to help you to overcome the inflation of the outer personality through temporary successes. Into the beautiful pink rose, symbolic thoughtform for 1959, I shall most happily descend into your aura, upon your invitation, giving you the assistance of the energy which was and which is mine to offer.

JESUS

God as the Doer

Although, through the grace of the heavenly Father, I have achieved, with Kuthumi, a higher position in the heavenly Hierarchy, I, too, can affirm that pure, divine love is a most positive quality. Human appearances were all about me during my ministry, as they are about you now—a great “practice-ground” for the use of divine love and compassion, rather than sympathy and acceptance of imperfection as God’s will for mankind.

I, too, like beloved Lady Nada, was apprised of the truth that I, of myself (the outer man) could do nothing, but the Father within me did the works. How often have I said (recorded in the New Testament) after such restoration, “Go and tell no man!” Those who enjoyed the flattery of their contemporaries, invariably lost the healing performed in His name and by His power. My whole ministry was based on the law of pure divine love, humility and sustained peace! I can recommend to you, each one, such a formula, for this particular facet of ministration.

SAINT GERMAIN

Affinity of the Three Kingdoms

I am grateful to Lord Gautama, particularly, for dedicating the year of 1959 to the cooperative service of the beings on the Third Ray. Elemental life, for the most part, is not particularly interested in mankind, and some elementals actually endeavor to block the forward progress of the sweet Earth and all upon it. Imprisoned angels, too, caught up in the meshes of human effluvia, are often not only antagonistic but actually employ their energies toward the destruction of their fellowman.

We have a tall order in 1959, to bring into affinity these three kingdoms, and we, on our part, are using every method known in heaven's realm to convince even a few of mankind of the vision of heaven on earth, here and now.

Let us, you and I, serve together while the love ray is so very active, to reach the minds of even a few earnest chelas. All of heaven's glories are destined to come forth here on Earth, as soon as the Earth's inhabitants are ready to receive them.

* * *

THE PARABLE OF THE TARES OF THE FIELD

The kingdom of heaven is likened unto a man who sowed good seed in his field, but while men slept, his enemy came and sowed tares among the wheat and went his way. When the blade was sprung up, and brought forth fruit, then appeared the tares also.

So the servants of the householder came and said unto him, "Sir, didst not thou sow good seed in thy field? From whence then hath it tares?" He said unto them, "An enemy hath done this." The servants said unto him, "Wilt thou then that we go and gather them up?"

But he said, "Nay, lest while ye gather up the tares, ye root up also the wheat with them. Let both grow together until the harvest, and in the time of harvest I will say to the reapers, gather ye together first the tares, and bind them in bundles to burn them, but gather the wheat into my barn."

Then Jesus sent the multitude away, and went into the house, and his disciple came unto him saying, "Declare unto us the parable of the tares of the field." He answered and said unto them,

“He that soweth the good seed is the son of man, the field is the world, the seed are the children of the kingdom, but the tares are the children of the wicked one. The enemy that sowed them is the devil, the harvest is the end of the world, and the reapers are the angels.

“As therefore the tares are gathered and burned in the fire, so shall it be in the end of this world. The Son of Man shall send forth his angels, and they shall gather out of his kingdom all things that offend, and them which do iniquity, and shall cast them into a furnace of fire. There shall be wailing and gnashing of teeth.

“Then shall the righteous shine forth in the kingdom of their Father. Who hath ears to hear, let him hear.”

—Matthew 13:25-30 and 36-43

Note: Bible commentators say that “the end of the world” means the end of a cycle, that the “devil” is the sinister force, and we know that “fire” is the Violet Transmuting Flame.

VIOLENT DECREEING NOT DESIRABLE **By Beloved Astrea**

Now, as our beloved sister spoke to you the other day, I can but repeat, the removal of the cause and core of any distress is essential before the great benediction and healing. So if you care to ask for my assistance, using your own initiative, will you remember please, not to be so violent in your feelings. I do not mean, do not be positive, you **MUST** be positive—you cannot be lethargic. A lethargic person does not accomplish, but there is a razor’s edge between positive energy which is used in invoking the power of the Ascended Host of Light, and **VIOLENT** energy which is not under control. Now, you can tell that by listening to the timbre of the voice as the fiat or decree is made. When your energy is in control, you can make your decree as Saint Germain tells you, in a low, masterful tone, or where conditions permit, you can make it in a good, loud, positive tone, but remember not to allow the emotional body to become unstable.

When there is a quiver in the energy, that decree is emotionally unbalanced and the efficacy of it does not take effect. Now dear ones, when you call to myself, to Lord Michael, to any of the beings who represent purification, you would be amazed at the amount of tension and violence that there is in the emotional body. You can find, I have seen

often, individuals who are making those decrees, with the imprint of their own fingernails in the palm of the hand. Now that is a closing in of energy and it is not the full release that you can use or that is required. So please, when you call us into action, those of us who are for purification, particularly, remember the control of your emotions will help us so much, because when there come times (as there will in the future) when great numbers of people will require your assistance, your emotional stability will be the forcefield over which our protection can flow. So BUILD IT NOW. And in your sanctuaries and groups, watch the quality of the decree work. Watch the quality of your songs. Watch the quality and energy and fiber of your group-endeavor, to keep that wonderful positive balance, but not to allow hysteria or violence to enter in.

THE SEVEN TEMPLES OF LUXOR

By Beloved Serapis Bey

In the first temple at Luxor, the chelas learn the reason for being. They make the great surrender and they are willing then, whatever the difficulties entailed, to work upon themselves. If they need physical endurance, certain exercises, certain dances, certain breathing exercises are given, and strength and vitality are builded into the body. If they need etheric purification, disciplines are offered to develop these. If they need concentration, that is builded in. If they need emotional tranquility and balance, disciplines are also offered to develop these. Each one is his own guru and that is the most difficult part about the Temples at Luxor.

In the second temple, everyone is happy. It is the temple of the beloved Kuthumi and the educators. The good in the Causal Body has been studied and there is this action of the Law which is familiar to a goodly number of you. When you receive more assistance than is your due by merit, you must give a balance by service, to equalize the account of the book of life. So from the Causal Body and from the heart, the chela determines wherein is his greatest possible service to the community and to mankind. He determines to become a great singer, a great artist, an inventor, a teacher, a healer, a priest and so on. He is then assigned to a temple where he can develop greater and greater efficacy according to the field of endeavor which he has chosen.

In the third temple, you are required to live with six other lifestreams who have within them the particular characteristics and general qualities

that irk you. You must live and pray with them. You must live and learn the law which Saint Germain gave you not so long ago, "that persons resist persons, places, conditions and things because they have not mastered themselves." After you have adjusted yourself to these six individuals, you are moved to another group with another six, unless, of course, you are among the few who do not need this. It is at this temple that almost all of our friends leave. This temple is supervised by the gentle Venetian, the "gentleman" of heaven. Yet to be a gentle woman or gentle man, you must be so strong, and your tolerance so developed, your love so magnificent, that nothing can change the radiation of your aura, except your will, directing it forth for a good cause. Those who pass the third temple to mastery, come before me for the first time since entering the retreat. Many, many have left by the open door before this!

In the fourth temple comes the wonderful experience—which some of you have had for a moment—of unification with the Christ. It is an initiation in which I, myself, am the presiding Master, and those who have learned to live with their fellowman, then have earned the right to live with God and to see the Presence face to face! Here the veil is rent, the Holy Christ Self is revealed and the anchorage which you will enjoy, established.

In the fifth temple which is the Temple of Consecration, there is another happy experience, and those here do not know anything of a discordant nature. They take the linen garments, and the sandals and they are consciously vested under Hilarion's radiation with the garments of the priest, the jewels of authority, the scepters of power, the secret word of invocation. That exquisite ceremony is performed where each one walks up the steps of the temple and presides, for the first time, in drawing the visible sacred fire directly from the universal, in any of the seven temples, according to the ray to which the lifestream belongs. Many remain here and go no further.

In the sixth temple the chelas have to pass through a tremendous renunciation. They are the missionaries under the Archangel Uriel and beloved Jesus, who take off the beautiful vestments, fold away the velvets and the silks, take off the jewels of power, remove their crowns from their heads, assume the begging bowl and the garment of the mendicant, take the vow of silence and go out of the door of Luxor to perform, through radiation, alone a specific service of world benefit. Jesus passed through this initiation at the age of five.

In the seventh temple are the few who return, and those few are the candidates for the ascension, and who, through radiation, become foun-

tains of nourishment and mercy to the Earth sphere until the hour of their complete victory is attained.

Serapis Bey

ON FRAUDULENT REPRESENTATIVES

By Beloved Saint Germain

April, 1959

Once, long ago in Europe, I was plagued with an unhappy fellow who, taking my name, undid all the good I was endeavoring to do in Europe. Such an individual did untold harm at that time, but I have secured the personal sponsorship of that lifestream, and now that he is in embodiment again, I shall endeavor to help him to "make things right." Now, other members of the Spiritual Hierarchy are finding fraudulent representatives here on our sweet Earth. I can feel for them, having been through this experience myself (as the Wonderman of Europe).

I can but implore you to investigate, in your feelings, the veracity of your Guru and then, knowing his true nature, follow him, making of Earth a heavenly realm, and also preparing your dear selves for the victory of the ascension at the close of this earth life.

My Utopia COMES! At last, I am assured of that! I should also like to be assured of your fidelity, constancy and desire to impersonally love life free. This is the greatest gift which can be given to me. I ask no more! Arise, sons and daughters of freedom, rally around the banner of freedom, and let us all be about our Father's business, which is to bring to Earth the glory of the kingdom of heaven for all life in distress here on Earth, and for those who are to use the Earth for certain instructions and lessons in the future. Thus, you earn your ascension, and leave a heritage of beauty for those who will follow after you.

**YOU ARE INVITED TO SERAPIS BEY'S TEMPLE
(Monthly letter to the Transmission Flame Class)**

April 18, 1959

Beloved Chelas Seeking Your Ascension into Your God-Estate:

How grateful I am that the very desire and motive in your hearts prompts you to again endeavor, with the help of holy Serapis, to sublimate your human nature and qualify, at the close of this embodiment, for the ascension in the light. Also, you are so willing, and it is so important at this cosmic hour, that you assist in the ascension of all recalcitrant humanity, imprisoned angels and the elemental kingdoms, as well as the dear Earth itself—so long a schoolroom for each of you.

Be assured I shall greet you there, as will Serapis Bey and the mighty seraphim who live to serve him. Your sponsors will be gentlemen from his court. I count on you, each one, now to persevere through the seemingly difficult tests encountered at Luxor, and in dignity, receive your "diploma" to return home and go out no more!

Love and blessings,

Maha Chohan

ASCENSION TEMPLE
The Ascended Master Retreat of the Month
At Luxor, Egypt
April 15th through May 14th, 1959

Shining like a cosmic star amidst the effluvia of human creation, there stands, for “all who run to read” the magnificent Temple of the Ascension, guarded and guided by beloved Serapis Bey and his Ascended Master friends. On the banks of the Nile River (life-line of Egypt’s fertility), this temple has been visited often by the neophyte and student upon the spiritual path who sought more light and understanding upon their individual pathway home.

After entering the outer court of the unostentatious building, being relieved from the heat of the desert sands, the aspirant enjoys, without limit, the fertility and beauty of the courtyard, with its brilliant foliage and its glorious bird life. For this short time, he often forgets that he has asked for audience with one of the strictest members of the Hierarchy—Serapis Bey—from whom no human creation can be withheld.

Upon being called into Serapis’ presence and finding all the known and unknown impurities of his lifestream externalized for his appraisal, some are less enthusiastic about the individual requirements of transmuting the dweller on their own thresholds, and eagerly await Serapis’ command that the human creation be, again, for the time, returned into the unseen, but no less real realms, for future and more gentle disciplines of transmutation.

The Seven Temples

Throughout the time when the neophyte is within the Ascension Temple, certain disciplines and studies are given to him and thus he passes from temple to temple (seven in all) or he chooses to return to the world of form. As beloved Serapis says, embodiment after embodiment, he looks upon the same familiar faces, and oftentimes smiles inwardly at the progress which such a one will make.

Now, in this hour of planetary crisis, when the Earth, herself, is to make her ascension in the light, he greets all who have a heart-desire to help in this cosmic push toward the Sun of the system, beloved Helios and Vesta, themselves. As usual, many are called but few are chosen, as Jesus said long ago. The glamour of acceptance into the Ascension Temple is a pull upon the spirit, but often a pall upon the outer personality.

At Luxor, there is no time for “playing” with the Spiritual Law. It is a steady, constant discipline until the neophyte is graduated and God-free.

Serving And Learning

As in all Ascended Master retreats, the chela is serving the Earth and her attendant evolutions, while learning self-mastery. Thus, there is avoided spiritual “gluttony” and actual practice of the Laws so learned give the chelas greater confidence in the use of those very Laws, which will help them in future service. “The reward for service is always more service,”—below and above!

Let us all now enjoy the Ascension Flame, not fear it, and enter into the presence of Serapis as a Lord of Love, which, of course, he really is. Here, in the Ascension Temple, looking over the ruins of man-made structures subject to decay, rejoice that the Temple of Serapis and his Brotherhood can never know such disintegration because the very motive upon which it was builded was and is LOVE DIVINE, the greatest cohesive power in the universe.

Nirvana Renounced

Let us remember that Serapis Bey, like others of the Spiritual Hierarchy, voluntarily foreswore Nirvana in order that there might be sustained on Earth the Ascension Flame, which is the way back home for all who have temporarily sunk below the level of personal harmony and sustained peace.

Let us, looking at the Ascension Flame itself, in the glorious flame room wherein it abides, guarded by the seraphim and their Lord, Serapis Bey, give gratitude today and all during this thirty-day period (April 15th through May 14th, 1959) to that flame which we, of the Ascended Host, used, and which each one of you will also use in such happiness and joy one day soon, when your course on Earth is run, and you are ready and able to achieve your ascension in the light.

El Morya

(Note: For further information on the Ascension Temple at Luxor, please see “The Bridge to Freedom Journal,” Book 1, Book 2 and Book 3.)

THE DAILY USE OF THE ASCENSION FLAME

An Address by Beloved Serapis Bey

Beloved friends seeking the way toward eternal freedom, it is my privilege and my honor to bring to you some of the buoyancy of that Ascension Flame, that flame which is constantly rising from the earth as a ladder of light and energy, upon which, when any man, woman or child is treading, he or she may ascend into perfection, the realm of divinity from whence he came.

The Composition Of The Flame

Of what is the Ascension Flame composed? It is composed of the magnetic powers that were drawn by beings who volunteered, when the Earth first came into being, to stay upon the Earth and to magnetize that light as a ladder in the atmosphere upon which those who were ready, might ascend. It is composed then of the powers of invocation and magnetization by many priesthoods in every Golden Age that has been. That Ascension Flame is composed also of the ascending energies of all the prayers and decrees and fiats, all the invocations and aspirations of every lifestream upon this planet Earth. It is gathered up by the brothers and sisters of the Ascension Temple and by the Silent Watchers of all the various nations upon this planet. That energy is gathered up and becomes part of the Ascension Flame.

The Ascension Flame is therefore like all the flames and rays—dual in activity. It is the descending, conscious stream of energy from the Godhead which is drawn and sustained upon the surface of this Earth through the self-conscious cooperation of the Brotherhood at Luxor, and it is also ascending energy of the mankind of Earth, the angelic host imprisoned here, and all of life that is aspiring upwards.

The Record Of Every Ascension

Within this Ascension Flame is the record of every ascension that has taken place upon this planet Earth. That is why it is such a happy flame. The first and second root races and all their subraces went home, you see, on that flame. Then the lower activity came in with the laggards from the other systems, but yet, from time to time, individuals did persevere in the purification of their vehicles and utilized this Ascension Flame. The gratitude of the lifestream when it is caught up into the infinite I AM Presence and knows eternal freedom from bondage, from limitation,

from fear and distress of every kind, can hardly be described to the outer mind. That is the imprint in the Ascension Flame. Everyone who has become God-free, has utilized it—many of your loved ones who have passed through the change and have ascended—have utilized it, and their energy is within it. This buoyant flame is not to be treated with a consciousness of fear and a consciousness of a negative feeling.

The Fourth Ray, like the First Ray, is a very positive ray and it is liable at times to affect people adversely, shall we say, and because our disciplines at Luxor seem so severe, and because all recorded history seems to have shown up the weaknesses of unascended individuals, unfortunately, there has not been recorded the joy of those who have utilized that Ascension Flame.

Now when any lifestream is ready for the ascension, he is either summoned to Luxor in his inner body, while his physical body sleeps, or a sponsor (one of the Ascended Ones) goes to that one, enfolding that lifestream in a river of that Ascension Flame.

That Ascension Flame is intelligent, beloved ones, and I have loved it long and loved it well. It can ascend any condition in which you find yourself. It can ascend that condition from limitation into harmony, from distress into peace, from poverty into opulence, from discord into perfection. It is one of the activities of divine alchemy which the student body, for the most part, have not thought about using.

How To Ascend Depression

If there are heavy conditions in your world, if your soul is weighted down, if there are depressions (sometimes not your own) in the group of people with whom you work, if there are financial depressions that are made apparent to you through your telecast, then call to the Brotherhood at Luxor to send the Ascension Flame to bring into life the ascendancy, the buoyancy which resurrects the depression and brings it to a natural state of happiness and harmony.

The Ascension Flame, like the Resurrection Flame, is a most marvelous antidote for depressions, individually and collectively. Now many among you are group directors, sanctuary directors, and all of you will one day become teachers, if not in this physical appearance world, then when you pass through the change and gain your ascension.

Please remember when you are dealing with groups of people that you will not always have the same quality of energy in their emotional,

mental, etheric and physical bodies. You may have one in tiptop condition physically but mentally very slow. You may have one that is mentally alert but is physically very depleted. You may have another emotionally stable, but with another vehicle that is out of order. Now you may get that conglomerate mass of earnest people, the cream of the crop, because they are the conscious students seeking the way to the ascension. But you get a roomful of them—or a handful of them—together and each has his own graph, and it is fortunate for you for the most part, that you do not have inner sight, because that would give you something more to handle. But you get them together, and if you call to me and to the beloved Hope, the beloved Gabriel, to the powers of the ascension, we will assist you in raising that vibratory action into a happy, sustained vibration which is one with the music of the spheres.

War-Torn Areas Can Be Helped

Now beloved ones, this is required so much on the planet Earth today. There is so much depression, so much of fear, with the world records speaking of wars and atom bombs and explosions and the end of civilization, and with the etheric bodies of so many of mankind and womankind, too, bearing the ravages of wars which they passed through in this embodiment alone, and the loss of loved ones, the suffering of atrocities in concentration camps and so on, the use of this Ascension Flame in, through and around those war-torn areas, and in, through and around the people who have passed through those conditions will do much to help.

I speak particularly, of course, of Europe, Africa, up through and around the Jordan area, and in China, Korea and all those places that were war-torn through the last half century, and have suffered so much. Now that energy is intelligent. Energy is God's light, qualified by somebody's thoughts and feelings through the use of free will. Energy is never quiescent. Even science has proven that so-called inanimate objects are in constant motion and that the electrons that make up the atoms that make up seemingly inanimate objects, are pulsating and moving.

There Is No Death

Now dear ones, the ethers are also in constant motion and one man's voice may be heard and may be directed around the entire world, especially when we, from the Ascended Master Realm are speaking, and that energy comes forth through us, through the utilization of your emotional world. We take a mass of energy from the entire class, of your emotional, mental, etheric and your physical best, and that is the best of the least of you, and that we use like a great loudspeaker, and into it is directed not only the truth which we speak, but most important, the feelings which we are and have become. And my feeling and my virtue is that of IMMORTALITY, that of the certainty of the resurrection and the ascension of every lifestream belonging to this planet Earth since the beloved Kuthumi, through his great dispensation, did remove the second death.

Now that consciousness of immortality, again today I charge and charge into the feelings of mankind, into the thoughts of mankind, into the etheric consciousness of mankind, into the flesh structure of mankind—There Is No Death. There Is Only Life Eternal.

The Assistance of Hilarion

Now beloved, LIFE being eternal, sometimes bogs mankind down and many of the agnostics and many of the sleepers will not face the FACT of the continuation of consciousness beyond the grave because they are tired and they are disillusioned, and so they either go into sleep or they refuse to accept the fact that they are dead, and the great Hilarion spends a great deal of time with those blessed ones who pass through the change, particularly in accidents and who are shot from the body suddenly, not through a gradual illness and decline, which allows the soul some time to prepare for the passing. These individuals who are shot from the body quickly in accidents, explosions and of course war casualties, need a great deal of loving training. Beloved Hilarion takes care of them.

Then there are those who are just stubborn and they retreat from life. In the physical world they often retreat into becoming mental patients and after the change called death, they retreat into the sleepers' realm, but now through your good applications and the bridge between the divine and the human and your understanding, they cannot remain in the sleeper's realm any longer than a six-month period, so this too, does not make them too happy. It is like waking a person in the morning be-

fore his usual time for getting up, and perhaps you have had occasion to feel that resentment at being disturbed, so these sleepers that have gone out of the body, non-believers and agnostics, after six months have to face the fact that they still ARE. That tremendous resistance there takes the power of the beloved Hilarion, believe me, to get them into line. Now with the activity of the assistance being given to the friends from the compound, we are expecting great things to happen for the progress of the race. The activity of Luxor is yours. Please do not allow depression in your sanctuary, in your homes, in your businesses in the world.

Having Money And Food In Times Of Need

If you are in New York, go down to Wall Street. If you are in another town or city, go down, or send one of your chelas down, into the heart of that financial area, and of course do not make a show of yourselves, but silently while you are within that location and your physical body is there, call the Ascension Flame. I speak of this with a purpose, because with coming changes and coming world conditions, you may find the necessity of restoring your values so far as your currency is concerned. That is the same thing, beloved ones, in the times that are to come. You can have great assistance in drawing forth food quickly to feed great numbers of people. Lord Ling will help you, of course, as he rendered that service as Moses to the Israelites. But if you find yourselves with great numbers of people around you and they are in need of physical nourishment, you can call the Ascension Flame and have multiplied that substance which you already have. It is a wonderful activity and it can be utilized. You see, these flames are so ethereal that you do not realize sometimes how practical they can be in ordinary things. And you know the Ascension Flame can even tune a piano or a harp. I'll bet you haven't thought about that!

Beloved ones, these flames are as practical as the fingers on this hand that can lift up this paper. THESE FLAMES ARE FOR YOUR USE. God Almighty, we have stayed within the confines of Earth's atmosphere and guarded them and sustained them and magnetized them and loved them, and then, when our Lord Maha Chohan saw fit, we have given you the understanding of them, and every thirty days you are given a new sponsor and enter a new retreat, and another flame is explained to you again—and it is thought a beautiful idea, BUT LET US MAKE IT PRACTICAL NOW!

Put The Flame Into Action

Beloved, ASCEND the substance in your worlds, everything and everywhere. I am most willing to help you and most joyous to put it into action. For instance, when you are riding on a trolley car, if that Ascension Flame was placed on every seat, think what it would do for the atomic structure of every person who rode on that trolley car again. A you ask that it be eternally sustained, all powerfully active and ever-expanding. One of the angels from Luxor will do that. The same in an airplane, a bus or a private car, or whatever you are using, even the chairs in your home. Streamers from the central flame will flow forth at your call and they are so grateful to be invited! As you have been told time and again, the first activity of the flame—not only the Violet Flame but ALL the flames—is gratitude for being called into action. The first activity of every Hierarch and every Ascended Master at every retreat is gratitude when somebody speaks his name, calls upon his service and asks for radiation to assist him or her.

We are never too busy, because we foreswore the glory of Nirvana. We stood at the apex of the cone, so to speak, when the ascension was attained and then the Karmic Board asked each lifestream, “Do you wish to go on into cosmic service, or do you wish to be a part of a certain planet?” And those of us who form the Great White Brotherhood are those who at that point, after attaining the ascension, spoke voluntarily; nobody coerced us any more than anyone coerced you into this room, and chose to come back into the atmosphere of Earth and work through the unascended chela.

How The Brotherhood Selects Chelas

Now, accept this Ascension Flame in God’s most holy name. Perhaps it will help you to remember me, happily. Morya and I stand alone in the severe discipline. Sometimes we are very lonely, but we can be very sweet and I know that the Ascension Flame can do much for you. God knows that I want you ascended more than you do yourselves, for you don’t know how important it is, and you don’t know the glory. But no matter how much I want you ascended, I want Saint Germain’s kingdom established on Earth more.

Therefore, you see how the Brotherhood works. It is my service to life to ascend mankind. The Cosmic Law has decreed that the Golden Age shall be established on the Earth. Do I rush in and pull everybody that I see who has a possibility of the ascension, out of the activity into the ascension and leave nobody here for Saint Germain? No! That would

be foolish, wouldn't it? My service is to cooperate with him, watching you, each one, when you get to a good point, praying to God you will stay there as long as you have volunteered to stay, so that when the call does come, you haven't lost the merits and we have to start all over again. BUT that is the unity that must come out between and among the chelas. The service of the moment is the important factor, and not the particular individual, Master, deva, angel or Chohan. I am sure you understand this.

So I have been the guardian of the Ascension Flame for a long time, as you know. All right! IF FIFTY-ONE PERCENT OF YOUR ENERGY IS HARMONIZED, YOU ARE READY. Sometimes it takes a long series of embodiments to get an individual to that point, and we just see on the cosmic graph that you are ready, and then the Law, the great Saint Germain or Maha Chohan may say, "Well, you cannot take that one for it will leave a hole and at the moment we have no replacement," and my goodness, when I look at the graph again, it is down to forty-eight percent, you see. Now, that becomes my obligation, and it is the same above as below.

If I require a First Ray man for a specific purpose, I can direct my attention and find him, but I usually, through courtesy, go to the beloved Morya and say, "Now I have a certain job here in, say, Korea. Have you got a good First Ray man in Korea?" Oh, he has wonderful people always—everywhere! Morya has the most wonderful chelas! He is always talking about them. The Maha Chohan gets many a smile out of it. Then if I want a gentle person to ease a situation, I will ask the great Venetian and, of course, he is very courtly and says gently, "Certainly!" and will offer some lady or gentleman of great spiritual culture and that saves my going over all the people on the Third Ray, combing out their lifestreams and opening the books in the Maha Chohan's library. So that is how we work together. I thank you!

Serapis Bey

MAY 1959

MAY, THE MONTH OF ILLUMINATION

To the Beloved Lord Himalaya and his Brotherhood at the Temple of the Blue Lotus:

We extend our gratitude for opening his sacred shrine and focus of tranquility and peace to the peoples of Earth at this time. Having, like the beloved Maha Chohan, made innumerable attempts to reach this retreat, physically, long before my ascension, I know something of the dispensation presently afforded the chelas through the loving intercession of the Maha Chohan at this time.

As the month of May is also dedicated to the victory of the ascension of our beloved Jesus, and the Ascended Master Saint Germain, the enlightenment of the new Lord of the World, Gautama, the Festival of the Wesak Valley, the visitation of the Holy Spirit upon the confused, but earnest disciples of Lord Jesus, the fashioning of the sacred hearts of the incoming children by the beloved Mother Mary, there is a great upward surge of spiritual energies rising heavenward. Wise is the chela who joins his energies with this ascending tide, into a greater illumination of his outer consciousness and uses that illumination in a practical manner for the benefaction of this race. I SHALL EXPECT SUCH COOPERATION FROM EACH ONE IN WHOM WE HAVE INVESTED SO MUCH OF OUR LIFE ENERGIES!

This is your hour to shine—USE IT!

Thomas Printz, Editor

OUR BELOVED HIMALAYA
Melody "Love's Old Sweet Song,"
(Keynote of the Himalaya Retreat)

Once in the ages, now beyond recall—
 When o'er the Earth, the mists began to fall—
Out of the heavens came a sacred sight—
 Lo! from God's heart, a messenger of light!
To our dear Earth, he poured his great light rays,
 Holding love's balance in those darkening days.
Our beloved Himalaya, hallowed be your name,
 Raise our Earth in victory—for this cause you came!
Glory, laud and honor, unto you belong,
 Masters, men and angels sing you love's song,
We sing you love's old sweet song!
God of the mountains bearing your great name,
 Towering peaks now guard your Wisdom's Flame;
Haven of love's blue lotus, your retreat,
 Radiant with power, knowing no defeat;
Guarded by snow and ice-laden crevasse,
 Only the faithful through your portals pass.
Dear belov'd Himalaya, thank you for your peace
 Flooding o'er Earth's millions Cosmic Christ release.
Gracious is your mercy, glorious is your power!
 Free Earth by love's victory, doubled each hour.
Oh double love's victory each hour!
Heart-friend of love (but known to such a few),
 Let all that lives and breathes send love to you!
Raise men's attention unto your great height—
 On that attention flows back all your light.
Earth now arises, free from human pain—
 Lives in the sunshine of God's love again.
Central Sun eternal, all that is thereon—
 Honor all Earth's Saviours—sages come and gone!
Bless our dear Himalaya and his service true.
 Gods of all the mountains—WE LOVE YOU TOO!

THE MASTERS OF WISDOM SPEAK
**THE JOY OF ILLUMINATION AND THE PRACTICAL SERVICE
WHICH CAN BE RENDERED BY SUCH ILLUMINATION**

As the reader will see, this month the Ascended Masters have not spoken in the order of the rays, but in the chronological sequence of the festivities of May, to ask for specific benefactions for mankind.

SAINT GERMAIN

Saint Germain's Ascension, May 1

On May 1st, centuries ago, I was enabled to attain the victory of my own ascension, through the kindly assistance of the divine beings who had been my gurus and guides, as well as the so generous courtesy of certain unascended individuals who provided the place, in comparative privacy, for my passing through the gates of so-called "death" into the ascension. There is always a sense of sadness in leaving the Earth and the friends who have become dear to you, especially when you have been apprised of the divine design which is yours to fulfill and which, at that time, seems to you somewhat vague. Yet, the joy of the ascension and the promise (yet to be fulfilled) by my friends of that day to help me to bring heaven to earth, gave ease to my heart. Now, as Lord Himalaya opens his retreat, I ask of him the favor of allowing his Illumination Flame to blaze through the consciousness of those who promised me to bring in the permanent Golden Age. I know, as that is my one wish before the blue lotus, he will help me!

JESUS

Jesus' Ascension, May 7th

Through the assistance of Lord Maitreya and my beloved mother, I was enabled to attain a public ascension, not as a phenomenal expression, but as a way toward a similar experience by all mankind.

I ask beloved Himalaya to enlighten the Christians throughout the world as to the purpose of my public ascension and also to make them feel and know that it is not only a possibility, but an eventual requirement for every one of the peoples of the Earth.

LORD GAUTAMA

Lord Gautama's Enlightenment, May 8th

On May 8th, after searching for truth, I found full illumination and enlightenment. Beloved Himalaya helped me in this sincere search. I was then enabled to return to the peoples of India and preach the doctrine of enlightenment, which many, even in this present day, use as a measure of their spiritual progress. I ask beloved Himalaya to give to all leaders, spiritual and secular, such enlightenment on this day!

MAHA CHOCHAN

Pentecost (Whitsuntide), May 17th

The feast known as Whitsuntide or Pentecost, wherein I was enabled to assist mankind by bringing some of the actual radiation of the Master Jesus to his disciples, giving them renewed faith and courage, is performed daily all over the world, according to the receptivity of the chela to receive this particular grace. I ask beloved Himalaya to illumine all peoples as to what grace is—the actual infusion of the powers of the I AM Presence into the Holy Christ Self, for the benefaction and blessing of all imprisoned life everywhere.

LORD MAITREYA (NOW LORD BUDDHA):

The Wesak Festival, May 22nd

As the earnest pilgrims from all over the world make their way toward the Wesak Valley, I ask that each one, following the flame of his own heart, shall know the victory of attending this festival this year and none shall be denied. This is my request of beloved Himalaya.

MARY, MOTHER OF JESUS

New Souls Entering the Sacred Heart Temple

As so many of the embodying spirits enter the Sacred Heart Temple in May, and you, my children, have done so in the past, I ask from Lord Himalaya, that all the destructive karma of those individuals coming into embodiment, be dissolved by the Violet Transmuting Flame, and the new vehicles so lovingly prepared for them by the builders of form shall be sound of mind and body.

BELOVED HIMALAYA

Deep in my heart is the remembrance of you,
Of your love and your teachings that I once knew,
Beloved Himalaya, thou God of great might,
Blaze through me now all your love and your light.
Our hearts leap with joy just to know you are near,
We love you, we bless you, Himalaya dear,
Our praise and our gratitude to you,
Beloved God—Thou great Manu!
Blaze once again all the power of your flame,
To help us awaken mankind in your name,
To the wisdom and truth that you brought forth,
To bless and redeem all the people on Earth.
Oh grant to us now our one request,
That quickly all men be awakened and blessed,
And help each one to desire to be
Embodied love—all mastery!
We offer our minds and our hearts and our all,
We answer with joy once again your call,
Your great Golden Flame let it cover the Earth,
Bringing it quickly to its great new birth.
To help Saint Germain our new King who has come
To blaze Violet Fire 'til Earth's victory is won.
Oh, do whatever needs to be,
To set our Earth completely free!

CHARITY MASTERS

TEMPLE OF THE BLUE LOTUS—WISDOM AND PEACE

**The Ascended Master Retreat of the Month
(At the Himalaya Mountains)**

May 15th through June 14th, 1959

The glorious Himalaya Mountains rise, like a frozen ocean toward the skies. Long has mankind—drawn by the magnetic power of pure divine love toward the Lord Himalaya and his court—sought true wisdom and illumination within the Himalaya Range. Lord Himalaya himself, the embodiment of wisdom and illumination, is often sought, but seldom found, within the vast recesses of the mountains which bear his name. Like all of the Gods of the mountains, he seeks to draw the chela upward, no

matter what the wavering of the outer self, into his very presence. So many earnest pilgrims, seeking truth, tremble and turn back from the journey toward the Mount of Attainment. Some, clutching onto the bare-faced rock, which is the final ascent into his presence, are also drawn backward through fear of bodily injury or fall from their precarious perch, when they are just on the very brink of the vast plateau wherein he has chosen to focus his temple.

In countenance, Lord Himalaya embodies the dignity and the perfection of the Oriental peoples, of whom he is the fourth Manu, remaining with the Earth until all of the fourth root race and its subraces are ascended and free.

Making A Request

For the pilgrims today, through the gift of projected consciousness, it is not necessary to make the long, arduous and extremely hazardous journey through the mountain passes of the Himalaya Mountains to visit Lord Himalaya and his court. They can, in wisdom, literally project themselves there and, looking upon the blue lotus, have the opportunity—not afforded them before this gift of projected consciousness—to make their heart wish in the presence of the blue lotus and Lord Himalaya. Of course, upon the motive behind such a request, which should always be of an impersonal nature, depends its fulfillment.

Many are the earnest and sincere chelas, embodied and disembodied, who can testify to the fact that the physical ascent into the Ascended Master retreat of Lord Himalaya is almost impossible and that the qualification for entering this retreat is even more difficult to achieve. He, although a God of love, is very exacting as to those whose motive for seeking out his focus of wisdom and peace, are ready to use these gifts for the blessings of all imprisoned life everywhere.

He is naturally primarily concerned with the illumination and redemption of the fourth root race and its subraces, for as their Manu, he is truly a prisoner of love, until each and every one of them fulfill their divine plan and then, in dignity, make the ascension into greater and greater light.

You, beloved ones, can help Lord Himalaya by making calls for the redemption of this fourth root race, particularly during this thirty-day period while his retreat is opened to all mankind, who receive the benediction of his presence and the blessings of the glowing blue lotus, even though they do not know that he or his lotus flame are in existence.

The Guardian Of The Masculine Ray

Lord Himalaya is also guardian and protector of the wealth of true wisdom, written down by the sages of the past, and of the Masculine Ray which, meeting the Feminine Ray of his brother, God Meru (whose focus is near Lake Titicaca) in the center of the Earth, make a focus of love and thus create the Threefold Flame which is the actual cohesive power which keeps the Earth as a solid orb. This is the permanent atom, created and sustained by Himalaya and Meru for love's sweet sake.

If you are fortunate enough to so enter the presence of Lord Himalaya and look upon the blue lotus, consider yourself blessed, indeed. If you qualify to enter his retreat, your spiritual development is exceptional. Lord Buddha, Ananda, his faithful disciple, Kuthumi, and other Ascended Members of the Spiritual Hierarchy (who are now ascended) have sat at the feet of this beloved God of the mountains and gained there the wisdom and illumination which enabled them to fulfill their missions among the peoples of Earth.

In this cosmic hour, the more faithful and worthy chelas who can and will enter his retreat, will prepare themselves also for the task of teaching the masses the truth of life. Like all of the Gods of the mountains, who sustain, protect and guard every continent on the Earth, beloved Himalaya has chosen his focus in a rather inaccessible place, to protect his cosmic service from the curious masses, as well as the spiritual dilettantes who would never make the necessary physical endeavors to hazard the almost inaccessible peak wherein his focus is consciously maintained, through love.

Lord Himalaya Welcomes You

During this thirty-day period, if you can cognize in the outer consciousness, a pure lotus in a clear pool of crystalline mountain waters, uncontaminated by human effluvia, you will receive some of the feeling of peace which you will receive daily as you gaze upon the glorious cosmic lotus of Lord Himalaya, breathing into it your love and receiving from it the permanent tranquility of spirit which all spiritual seekers after truth earnestly desire!

The beloved Himalaya welcomes you, each earnest seeker after truth, into his very presence, where, after gazing in awe and rapture at the shining face of the mountain peak, you see it open, and his serene presence standing in the doorway beckoning you into the courtyard and

the outer temple wherein his blue lotus in the particular chaste golden bowl rests, awaiting your visitation. Anyone with enough spiritual perseverance to have this great privilege will know from within their very beings a spiritual exhilaration of their lower vehicles, which is a permanent gift from beloved Himalaya. The acceptance in the feelings of the chela of the invitation afforded to visit his temple, will greatly determine the blessings received.

Becoming A Messenger

As our gentle readers know, much of the Sacred Law and spiritual culture has been already transferred from beloved Himalaya's focus to that of his brother, God Meru. Each student in the Occident during each visitation to Himalaya's focus, has opportunity now to continue to carry back with him into the Occidental world, more of the spiritual wealth of the Orient into practical service, reverence for life, and usable understanding. This will greatly hasten the cosmic move of the hour.

Come, rise with us NOW and be the guests of beloved Himalaya, look upon the Blue Lotus, obtain his gifts of serenity and peace eternal, and be a practical messenger from this great God of the East here in the Western world, wherein so much must be done, and quickly, to accelerate the spiritual comprehension of the Western minds, so often filled with materialistic concepts rather than spiritual ideas.

YOU ARE INVITED TO HIMALAYA'S RETREAT!

(Monthly letter to Transmission Flame Class of May 16, 1959)

Beloved Ones Seeking True and Lasting Peace:

Is it not significant, that the official opening of the God Himalaya's retreat is on the eve of my feast day (Pentecost)! I shall, of course, help you to make the visitation to Himalaya's retreat and you will carry back with you, not only his peace, but a tiny replica of the immortal blue lotus, in your dear hearts. As an Oriental in ESSENCE, I can assure you that the privilege you now have of visiting his temple of peace and tranquility is great. So many dear pilgrims, earnest in the extreme, endeavoring to make the physical pilgrimage thither, have been lost in the tremendous mountains, which we know and love so well. One focus, that of the God Himalaya, has never been climbed by the average man, nor will it be,

until such a man is proven worthy of such a visitation. Yet you, each one, are carried easily, through projected consciousness, into the very presence of this Lord of Wisdom and Peace!

It is worth your time and attention to make such a pilgrimage, I assure you! Once, centuries ago, before my ascension, I made my way thither, but was not admitted by the Great One, but rather returned among the rejected and distressed pilgrims seeking the true way to Godliness. While this dispensation is opened to you, through my humble endeavors, I do plead with you not to take so lightly these visitations, but using every faculty of your thought, feeling and desire to be present, create the necessary aura that is required for your sponsor to present you to beloved Himalaya. Himalaya, strong and powerful, has chosen gentlemen from his retreat to sponsor you during this thirty-day period. Be assured that a sponsor from a God of the mountains will be powerful yet, withal, loving in the extreme.

A spiritual dispensation is granted only when unascended beings are qualified and examined before the Karmic Board to benefit by it. Thus, the opening of the Ascended Masters' retreats to you, my beloved, required some guarantee upon my part that you would truly use this dispensation of entering into the Ascended Master retreats, enjoying the participation in the cosmic activities of the hour, and, most important, using the truth imbued in your inner vehicles as well as your outer consciousness, to bless your fellowman.

Now, as a gift to Himalaya, let us, you and I, help in the redemption of the fourth root race, through the sublimation of their karma, and allow this great God of the Himalaya Mountains to return HOME, carrying in the golden robes he wears, every member of that race. That is being practical! Yours, in love and in service, too,

Maha Chohan

The Statement for Transmission Class of May 16, 1959:

I AM inbreathing Himalaya's peace, tranquility, mastery and Godliness. (Use also for "absorbing," "expanding" and "projecting.")

Color of Flame: Gold; Musical Keynote: "Love's Old Sweet Song." Hierarchy: Beloved Himalaya.

HOW TO BECOME A BUDDHA

An Address by Beloved Himalaya

Contemplation Of Truth Brings Illumination, Illumination Brings Peace,
And Peace Brings Mastery

Beloved children, I am told that you aspire to become BUDDHAS! I have come from the heart of India to bring to you an understanding of what Buddhahood requires and a way and means by which the earnest desires of your heart may become fact. It is my privilege, in this great World Order, to be the teacher of those who will hold the Office of the Buddha upon the planet Earth, or other planets belonging to those other systems designated by Law—and therefore, as I speak with you, I will give you some of the opportunities that have been mine through the ages, and as I entertain your consciousnesses, I hope you will feel the pressure of my presence, my aura and my peace that I give.

The Purpose of the Buddha

The purpose of a Buddha is to hold a spiritual aura around a planet long enough to nourish the souls of all evolving consciousnesses who are unfolding toward God-mastery in that scheme of evolution. The aura of the Buddha, himself, becomes for the soul what the atmosphere of Earth and the forces of the elements are to the bodies and nature kingdom.

The very nourishment which sustains the soul's life and keeps a continuity of pulsation within it, is provided through the living presence of an individualized intelligence, who chooses to radiate through his own heart flame a sufficient intensity of love and light to stimulate the breathing of the Threefold Flame within the heart of those in embodiment, and those belonging to the evolution awaiting incarnation. Without that aura and that stimulation, the flame, itself, would not pulsate.

Exactly as you draw breath into your physical bodies and expel it, so does the flame which is your spiritual identity, draw in and expand in the pulsation, pressure and stimulus of the aura of the Buddha, who upon completion of his service becomes, in turn, a Lord of the World.

You will see, then, that the development of a world-engulfing aura, which contains within it no element that would have an effect of discord upon the soul life, is the preparation for such a God-intelligence to become the light of a world, as Sanat Kumara was. Throughout all the ages that have been Buddhas have been provided for every new-born planet and in the everlasting arms of that one's love, the evolution has evolved,

developed and matured. Finally, from within the evolution itself, candidates for Buddhahood have applied and those who were given the opportunity for such direction and instruction, were taught how to expand the sphere of influence and the quality of radiation.

The Thousand Petal Lotus

Now, we will take the course of instruction of a potential Buddha, one who has responded to the magnetic pull, which is the only indication that ever goes forth from the heart of the great Himalayan Range and which is a pull upon the soul light of those developed to a point where they can, in time, be of great service and be radiating centers of the quality of love. When such a one presents himself as a candidate, those who work with me—primarily beloved Kuthumi and the Brothers of the Golden Robe—the nature of the aura is the first consideration. The aura, of course, is your energy, which carries quality, color, tone, sound and form.

The aura is to be developed into a sun, an expanding radiation, carrying a particular quality of comfort, healing, light, illumination or peace—so that is the primal substance with which we work. The nature of the aura being examined, each candidate then is instructed in the ways and means of purifying the aura and then becoming master of the quality of energy, the color of the energy, the actual molded form of the energy that is drawn from his Holy Christ Self and externalized through him. He then begins to create what the East has called, “The Thousand Petal Lotus.”

You, who know the prayer of the East to the Jewel in the heart of the Lotus, know that it is the development of a concentrated aura, which is not the master, but the servant of the intelligence, which is being invoked within that prayer.

The Duplication of the Causal Body

The individual consciousness, and I point now to you who have aspirations toward mastery, is shown that the priceless gift of life, which is the jewel in the heart of the lotus, the pulsating flame of divinity, becomes the impetus for the development and unfoldment of those temples and talents, those qualities and expressions of the God-nature, which it is the design of the Holy Christ Self of each one to externalize.

As the attention enters deep into the heart of that jewel, deep into the heart of that flame, then the great Holy Christ Self, drawing from the Causal Body of the individual, begins to develop the pattern of the life plan and the energies begin to take on a similar qualification and a similar color pattern to that of the Causal Body of the individual.

When the outpouring first comes from within the retreat or the monastery, there is a distinct difference between the color, radiation and the position of the rays around the Causal Body and the auras around the physical form. The developed inner eye of the Master, of the Guru, immediately can see how much or how little is required to make the two wheels exactly the same—"as above so below!" And the individual contemplations which are given to the aspirant are for that exact purpose. The Guru, looking on the Causal Body, seeing the design, listening to the keynote, sensing the fragrance of the life-flower which is in the Causal Body, gives to the intellectual consciousness of the chela those exercises which enable him to create out of this chaotic aura an exact duplication of the Causal Body, and these contemplations if faithfully followed, cooperating with the rhythmic breathing in the stimulating aura of the Guru, will greatly hasten the evolution of the aspirant.

In the East, the people have a natural grasp of the stimulation to the soul which is gained by proximity to the sanctified, and as the flowers that would grow in your sunny windows exceed in bloom and fragrance those that are confined to the darker recesses of other rooms, so do the souls of the individuals who will avail themselves of the proximity of the sanctified, grow more rapidly in that stimulating and uplifting vibration.

The Aura of the Master

This is why in the East the earnest and sincere are in constant pilgrimage, seeking the sanctity, seeking the presence of a sanctified and Holy One. When the individual who is earnest and sincere, following the flame of his heart, finds his Master, sitting within that aura, this is what takes place: the aura of the unascended Master is the duplication of his own Causal Body and all of the energies flowing within it are flowing constantly upward, for that Master is in a state of constant listening grace and constant contemplation, even though his hands and his outer consciousness be engaged in the mundane activities of living. When the less developed enters within that aura, his fire-force is caught in the aspiring radiation of the Master, and where it perhaps could not connect fully with his own Holy Christ Self without an impetus greater than his

own, it is swept upward and he reaches heights of illumination, and heights of aspiration that he could not hope to attain within his own personal chaotic and whirling orbit.

The exact activity is true to a limited degree in the West, where individuals who enter great cathedrals or shrines find devotion rising within them of which they are not capable when they are within their own aura and world—because of the tremendous concentrated prayer force of men and women who have prayed and sung and offered adoration within those sanctified and holy cathedrals. The individual takes advantage of that and rises upon the momentum of that prayer force into Light. That is conveyed radiation and it is the activity which you in your individual world can now set into motion for others.

How to Reach a Higher Sphere

When you come into your groups and you join with the momentum which has been gathered through your forcefield, when the stronger vibratory action of your leader's energy directs your energy upward, you individually reach a higher sphere, a more sanctified state of thought and feeling than you could achieve alone, and on the return current of that from that sphere, there flows a greater blessing and radiation, peace, sanctity, faith and confidence into your world.

The rhythm of life is absolute—the rising of the crest, the very extreme tip which forms the maximum endeavor of the lifestream—enters a particular strata or sphere of sanctified energy, and back from that crest flows the blessing to the individual. He who has the capacity of rising higher, automatically draws around himself individuals who wish grace but have not yet the momentum to achieve that height and can take advantage of the aura of sanctity and the contemplated momentum of the developed, and joining their energies with the aspiring one, they pierce into the higher heavens and the returning benediction blesses each a hundred fold, a thousandfold more than he or she would have within the confines of his own personal aura.

When the beloved one has developed that jewel within the heart of the lotus and has begun to exude the spiritual perfume, which, I assure you, comes to a point where it can be actually sensed by people in the outer world, when the tone of the aura is so harmonious that those who touch the hem of that spiritual garment find instant peace, that individual is then ready to enter into the deeper aspects of the laws of invocation, and to magnetize greater powers from above. It is not the part of ex-

treme wisdom to magnetize powers through lifestreams who are not yet balanced and controlled, because if you cannot handle the energies in your small world, how can you then handle the cosmic currents and tides that flow through interstellar space?

Ascended Buddhas Offering Embodiment

The advantage we have in the East is this—that a man or woman requires only one garment, requires no particular roof over the head, and just a very small amount of physical nourishment to pursue the spiritual path, and he is not constantly torn between the contemplative life of the mystic and the active life of the individual, who has responsibilities and obligations in the world of form. Therefore, in the East, when the individual stands before his Guru and his Causal Body or the gifts of the Master, and through that power of magnetizing the exquisite, blazing blessings, he becomes a little sun and a channel into this turmoil of motions in the mental, feeling, etheric and physical worlds, that live for the most part in the psychic and astral realms in the atmosphere in which mankind moves. These little suns of light, with their heart, their attention, contemplating love and drawing from the universal these qualities of hope and faith, are the salvation of the race! They look like beautiful suns, or beautiful chandeliers in a dark room, and all over the planet Earth one day they will again come forth.

Through your application to the Karmic Board, several more of these free Buddhas who did not have to take embodiment again have offered to embody within this year. They have not yet received acquiescence, but we feel very hopeful that they will. If they do, I certainly hope that my presence here today will magnetize at least half of them into the Western Hemisphere and that there may be found individuals who will sense their light and assist them in their great and mighty service.

What Happens When the Presence of an Ascended Master is Drawn?

I would like to speak to you upon your own evolution. Beloved ones, you who are so earnest and whose Causal Bodies are so beautiful. Do you know what happens when you come within an aura which has been created for the express purpose of giving cosmic benediction to a magnificent hemisphere? Do you know what happens to you as an individual? I guess you have thought a little about it, but not enough. As soon as the presence of the Ascended Master is drawn, as soon as the radiation

begins to flow, the radiation begins to press through the funnel of the consciousness of those assembled, there occurs a growth and an expansion of all your vehicles. Your Causal Body, which immediately receives all of the good that you do, expands tremendously in size and that is a permanent storehouse of qualified energy for you. Your Electronic Body glows more brilliantly because through it has come the stepped-down currents from the Presence. Your Holy Christ Self expands through you and is given more power and authority to act in your world, your inner bodies are developed, expanded and made of greater efficacy in the world plan, and that is fine. Your four lower bodies are also nourished and vitalized and will have more energy within them from this point forth, forever.

Now this is light, life and energy. It has entered your mental bodies, it has stirred there many, many, many vibrations which have been dormant for centuries. It has entered your emotional world, stirring memories of happiness and of sorrow. It has brought into your emotional world great exhilaration through the drawing back of the veil and showing of the blessings to your beloved ones particularly, and those who are about to embody. It has stepped up the motion of the electrons in your physical bodies so rapidly that it is often difficult for you to maintain a calm, poised balance within them.

This is good—it is the action of life and of growth, it is, spiritually speaking, your growing pains. But remember, I would like to emphasize, and I feel I must speak to beloved Kuthumi and ask that it be emphasized, that when you return into your own orbit, you will not have the stimulus of that concentrated aspiration which is the Ascended Masters' prayer force, but you will have the added energy in your own world, through which we are hoping you will radiate the blessings of the class to others.

Watch Your Reactions

The rhythm of giving from the Ascended Masters is followed by rest in action. The crest of the wave is followed by the slough. That is the rhythm of life. When the apex of the outpouring is completed, it is the wisdom of your life to rest in action and draw that light and blessings into yourself, to give you a period of contemplation and retrospection, in which you can go over again the worded instruction, make of it your own and move forward in balance a step higher on the pathway of life.

You see I am a teacher of teachers! I am so used to the reaction of

chelas and Gurus. I have seen those who have stood in the aura of Lord Gautama, the Lord of the World, and who have experienced that magnificent ecstasy which he was able to give by the touch of his hand. I have seen them weep bitter tears when his beautiful presence receded. Yet, for the moment that they looked into that light and saw the glory of Nirvana, they received a blessing and a privilege which will never make them again enter into the darkness that they knew before they saw Nirvana. It should have given them a stimulus and an aspiration to achieve that through their own energies.

The Results of Contemplation

In all kindness may I say this, you are Westerners—I am the heart of the East! Are you contemplating the instruction at the close of your class, or does your mental body begin to whirl before you are out of the door? I stood listening to the beloved El Morya, to beloved Serapis, his instruction of releasing the light from within the atoms, and the beloved Gabriel in his instruction on the resurrection, and I have been watching how much contemplation you have done. Now the reason I say this, beloved ones, is because you must digest the spiritual instruction, you must assimilate it and make it your own, grasp the opportunity while it is yours and hold it until it is your own. Contemplation of truth brings illumination, illumination brings peace, and peace brings mastery!

I have brought to you today my peace, I have brought you a realization that your aura can be a stabilizing power in your home, in your community, in your nation, on the Earth itself.

On Lemuria, most of you were among the temple guards. We knew, before she was to sink, that the continent would go down due to the entrance of the many laggard souls. We knew that if the masses went out in fear, which cataclysmic action brings, that the soul would be bound to a much lower sphere at inner levels, just as the animals that go out in fear in the stockyards are not at all as blessed as those that pass quietly in sleep in the shade of a tree at the close of their life.

It was decided among the Lords of Life that the great sacrifice would be made among the temple guards and, while the documents and the valuables from Lemuria would be taken by boat to places of safety by the high priests of the temple, that a certain guard would remain, and as the captain stands with his ship, they would stand in their various strategic locations—and as they sang with their choirs, let the continent sink! And that is what was done!

The Origin of the Song “Should Auld Acquaintance Be Forgot”

Much of the light was brought into China and Tibet and I was privileged and I am privileged still to guard it. Much of it will be brought into your Western Hemisphere and much of it has already been brought and is stored at the Teton and Titicaca. Through the stabilization of one individual, which you have noticed many times in stampedes of crowds, that one person's energy saves many souls, if not bodies, and they pass out in a state of peace. It happened on the Titanic. It happened in many of your disasters of fires, but it happened cosmically on Lemuria! And the song they sang, I will ask you to sing today as we close. Most of you sang it then and mankind of Earth have brought it forth again today and have put very pathetic words to it—"Should Auld Acquaintance Be Forgotten." As the continent went down, I went with it. I chose to stay, but before it went I said that one far distant day, we will sing this song again and know Earth's victory is won—that is today!

While the bodies of the people slept, while the night sky was blue—it was over and none had left their post, none of the guardians had evinced fear, and all went in dignity. Remember this and build your aura for a happier day true, one when many will require the tranquility, the balance, the mastery and peace of you who have been nourished to this cosmic hour. I thank you.

Himalaya

THE RHYTHMIC BREATH **(An Instruction by our Beloved Maha Chohan)**

If you want the purification of Holy Amethyst, breathe in from your emotional, mental, etheric and physical bodies into the presence of Holy Amethyst, anchored within your own Threefold Flame, every bit of that substance which you have loosened through Astrea's activity of the Circle and Sword of Blue Flame.

Feel it transmuted there while it is within your body—qualify it as you hold the breath within the body, with the Resurrection Flame and then release it rhythmically, giving each vehicle as much as you want it to have, not as much as it wants to have. There is a great difference there, and this is one of the activities of becoming master rather than servant of your vehicles.

If you would practice this, in the first place it will slow up your breathing process, you will breathe more deeply instead of in those shallow surface breaths and YOU WILL LIVE LONGER. Now that may not be a promise that gives you any great joy! Do you know your breaths are

counted? Do you know that if you use them up in short breaths as people do in the West, you don't live so long? Do you know that those in the early activities of life, mentioned in the Old Testament, lived eight or nine hundred years, because they had control of and used the slow and rhythmic breath—qualifying it, drawing it in, just five minutes at a time at first?

TESTS AT LUXOR

At Luxor the students are asked to find the source of the Nile. At their own discretion, they either take the instruction literally and march up through the jungle, or plunge deep into their own hearts. In either case, the tests are similar: endurance, one-pointedness and perseverance. Few men ever saw the source of the Nile because of the tremendous cataracts and impenetrable jungle which surround it, but those who have achieved this stupendous task receive remuneration at the end of their journey. Other students seeking the "source of the Nile," through inner striving, meet with similar success and others with failure.

Another test which has come down through the ages is that of precipitation. Moses drew the children of Israel into the desert and for forty years they had to draw sustenance from the recesses of their own lifestreams.

At Luxor, the chela was placed in a steel room with no doors nor windows, no furniture and no food. Here he was faced with the necessity of using his knowledge and understanding to draw forth the sustenance for his body and the requirements of his daily needs by plumbing the depths of the authority that was within his own lifestream. In the outer world the same tests appear, the same initiations are brought forward, thus the soul is tested as to its strengths and weaknesses.

Healing is among the activities the initiate must draw forth from within his own life.

When all these examinations have been successfully achieved, the chela is master over the energy, vibration and substance of the physical world. He is, therefore, no longer bound to the schoolroom of human experience and is graduated from the humanity of Earth into the ascension.

THE BRIDGE

TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact
With the Great White Brotherhood and Cooperative World Service

JUNE 1959

KEYNOTE OF OUR SECOND SEVEN-YEAR CYCLE:
FREEDOM, PEACE, IMPERSONALITY, COOPERATION, EXPANSION

PERSONALITY – A BARRIER TO PRECIPITATION

To the Beloved Confucius and Beloved Lanto,

We send our gratitude for holding the focus of the Precipitation Ray in the heart of the Wyoming Rocky Mountains, so that all whose motives are sincere shall, again, receive the instruction from the Ascended Masters at the Temple of Precipitation, as to how they may consciously precipitate good from their own Causal Bodies, particularly to assist in the present cosmic hour, to bring in the beloved Ascended Master Saint Germain's Golden Age.

All mankind, of course, are constantly precipitating something in thought, feeling, word or action, but few are so humble, so reverent, so impersonal in their motives that they are qualified to precipitate their God-powers and virtues for the blessings of the human race.

Like the hierarchs of all the Ascended Masters' retreats, beloved Confucius and beloved Lanto easily perceive the motive behind each unascended chela's desire to again learn to precipitate consciously, and they, desiring the furtherance of the Earth's progress, desire to and will actually teach only those who are impersonally serving life in general, without the desire for personal gain.

Thomas Printz

THE MASTERS OF WISDOM SPEAK
THE ORIGIN AND USE OF THE CAUSAL BODY

THE MAHA CHOHAN

The Origin of the Causal Body

When the Father-Mother God first projected forth a part of itself, called the White Fire Being (from which in time the twin rays—divine complements—were developed), the aura around the White Fire Being was pure white, signifying that such a being had not yet voluntarily chosen to experiment with the use of energy and vibration and create, through its visit to and cooperation with the activities of the Seven Spheres, the color of any one of those spheres. The very instant that, through free will, such a divine intelligence began to so experiment with the use of primal life, through the Law of Cause and Effect, the first faint hues of color began to infiltrate the aura of such beings, and the Causal Body, referred to so often today, is the result of the further experimentation with primal life, constructively, and the use of that life becomes what is called the “momentum” of the lifestream.

EL MORYA

The Seven Spheres

As the use of free will is a God-given gift, many divine beings never chose to pass through the Seven Spheres and create a sevenfold Causal Body around their I AM Presence. These beings can always be distinguished by the pure white light which surrounds them, as they serve only in divine realms. The strong lifestreams, however, who passed through the Seven Spheres accumulating momentums of energy through service in each sphere, become possible choices of the Root Manu—according to the predominant color of the sphere which they enjoyed most, and in which they served the longest. Only those who passed through the Seven Divine Spheres, and have the band of color most advantageous for the great Manu and his disciples, are chosen to embody on this Earth.

LORD LANTO

Drawing the Good in your Causal Body

As the Divine Teachers dedicated to serving the human race, we always encourage the sincere and worthy students upon the spiritual path to accept all the good of their Causal Bodies, particularly in their feelings, as a living, palpable reality upon which (when they are pure enough in motive) they can draw without limit for the blessings of themselves and the entire human race of which they are presently a part. Thus, the worthy and sincere chela learns to remove impure motives (many of which are unknown to him) and can, at will, draw forth the gifts, powers and virtues of the Causal Body here on Earth where the blessing is so much required at this time.

PAUL (THE VENETIAN MASTER)

The Causal Body a Power House

It is for love's sake that the entire Spiritual Hierarchy have remained with the recalcitrant human race. All who have embodied on the Earth, since the First Root Manu brought his "holy innocents" to the Earth, have been encouraged by the actual outpouring of divine love to loose the good of their own Causal Body, for which the Manu chose them in the beginning to be a part of his root race or subsequent sub-races. While the Causal Body is somewhat vague to the average chela, it is his powerhouse of God-qualified energy which, when the outer personality cognizes it and is worthy of its release, makes the individual Master of circumstances and a beneficent channel for the impersonal blessing of the entire planetary scheme to which he belongs.

SERAPIS BEY

How the Root Manu Selects Individuals

Now, the actual ray to which an individual belongs, depends upon how much God-qualified energy each such a one spends in each of the Seven Spheres. The Root Manu, from whom nothing can be concealed, examines carefully the predominant virtue in the Causal Body of any individual whom he selects to become a part of his service to the Earth.

The outer personality often veers from the course set by his Root Manu and for a time feels that he belongs to a ray which is not his natural, divine reason for being. This causes a conflict between the individual's own I AM Presence and the personality, and the discontents of the

individual on the spiritual path, as well as the “misfits” among the masses.

Only the actual submission of the outer self to the direction of an Ascended Master can successfully bring the chela into alignment with the I AM Presence and the four lower vehicles of outer expression (emotional, mental, etheric, physical).

HILARION

Developing Symmetry in your Causal Body

As explained above, no two individuals have a Causal Body of exactly the same proportions, because one may have spent aeons of time in the First Sphere and very little time (humanly speaking) in the other six spheres. Individuals can, through self-conscious endeavor, create more symmetry in their Causal Bodies by using their energies, while unascended, in calling forth those virtues and talents which they have particularly developed through use in previous lives.

As the student uses the Flame of Cosmic Christ Truth, I will personally enable him to develop this symmetry of which I speak. USE THIS FLAME OF TRUTH, and you will not be misguided in gathering more of that God-qualified energy to which you already have an affinity. I can promise you, such an exercise shall be worth your time, perseverance and sincerity of purpose.

LADY MASTER NADA

The Power of Pure Divine Love

The very word “Causal” Body denotes that it is the vehicle of causation of good. Therefore, any and all individuals who desire more good of every description in their worlds or for planetary benediction will find that storehouse of good in their own Causal Bodies, from whence, under the necessary disciplines previously described can be magnetized and radiated forth the blessing and benediction of their own worlds and the masses.

In this particular year, dedicated to Cosmic Christ love, and while I am privileged to be one of the sponsors for the earnest chelas’ spiritual development, I can wisely recommend that they utilize, joyously, the power of pure divine love which is mine to give, in order to develop the symmetry of their Causal Bodies and the release of its powers in this cosmic hour.

JESUS

"Miracles" Explained

The word "momentum" does not convey much to the average being on the spiritual path, yet let me point out that, even in the outer world, "practice makes perfect." I, myself, in my ministry used the momentum (gathered power) of my own Causal Body and that of my Ascended Master friends, in order to perform the healings and so-called miracles accredited to me.

The efficacy of drawing upon the powers of one's own Causal Body depends primarily upon the purity of motive of the lower self and the impersonal use of those gifts for the blessings of the "just and unjust alike," for the glory of the Father-Mother God for which all men who tread the pathway of Earth were chosen by a Manu at one time or another.

Constancy in such one-pointed service, without allowing distractions from the primary purpose, is essential to God-success.

SAINT GERMAIN

The Violet Ray and the Seventh Root Race

As my own teacher, the beloved Divine Director, is waiting to bring into embodiment the glorious beings of the Seventh Root Race, I am, of course, greatly interested in the process of purification of the lower vehicles of those already in embodiment, through whom these incoming spirits will find the Earth a planetary home. Those chelas who have a predominant band of Violet in their Causal Bodies were chosen, years ago, to be at a point of maturity at this time for this particular service.

Those who have been invested with so much of my energy, through the years, are accountable to the Karmic Board to fulfill their vow to serve the Seventh Root Race and its great Manu AT THIS TIME!

DECREE FOR RELEASING THE GOOD IN THE CAUSAL BODY

Beloved Presence of God I AM in me,
Release the good in my Causal Body manifest today!
Release the good in my Causal Body on God's Fulfillment Ray!
Release the good in my Causal Body and bless all life God's way!

THE CHARTS AT THE RETREAT IN CEYLON

By the Beloved Maha Chohan

The First and Second Chart

In our retreat, and in some of the unascended Masters' retreats, particularly in Asia, we have seven representations of an individual chart. As the chela develops in consciousness to the point where he is ready for the next step, he is taken from the novitiate chamber. where the activity of purification and transmutation are taught him through this first chart, to the chamber where the second chart is externalized and certain activities concerned with the removal of etheric impurities are presented. In that second chamber. the chart shows not only the physical body, an expanded flame with a larger figure of the Christ within the heart, but it also shows the aura of the etheric body purified and opalescent. The student looks upon that chart before he has achieved that state.

The Third and Fourth Charts

When the etheric body has been cleansed and purified, he is allowed to enter the third chamber where the mental body is pictured on the chart outside the etheric garment, and the radiation from the Presence and the expanded flame of the heart reaches through the mental body as well. He stays within that chamber until he finds certain control and mastery of the mental processes, then he is allowed to enter into the fourth chamber where the emotional body is shown. The lower figure is here depicted surrounded. very lightly. by the purified etheric, the purified mental and the purified emotional bodies. At this stage. when he comes to classes, he pauses here for instruction and remains in application in that chamber until he has learned the control of the emotional body. In this process, beloved ones, he has arrived at a certain alignment of the four lower vehicles, preparatory to the receipt of more-than-ordinary assistance from the Hierarchy.

The Fifth, Sixth, and Seventh Charts

After he passes this initiation, he enters the fifth chamber. where the chart illustrates the Christus fully developed from the feet. Upward, through the four lower vehicles. This is the chamber where the Christ-man is fully depicted on the chart.

From there he passes to the sixth chamber. where the Christ-man (in full command of his lower vehicles) is shown drawing from the Causal Body its full magnificence and consciously projecting it forth.

In the seventh chamber you will find that the upper and lower figures are the same and the Causal Body above and below are the same. Such a one has BECOME a manifest expression of the Holy Spirit. That is what we teach at Ceylon. It has been taught elsewhere in the East, but very seldom in the Western Hemisphere!

It is worth your careful study, your private understanding and contemplation, and you will see how the development of the divinity through the sublimation of the outer self can take place.

THE TEMPLE OF PRECIPITATION
The Ascended Master Retreat of the Month
June 15th through July 14th, 1959

In the heart of the beautiful Teton Range in the Wyoming Rocky Mountains, is the Ascended Master Temple of Precipitation where, twice each year the Great White Brotherhood and their worthy chelas gather together to discuss ways and means of forwarding the progress of the sweet Earth and her attendant evolutions. If not in person, through pictures, most of the chelas have seen the outer face of the majestic Grand Teton, within whose heart is the focus of the Precipitation Flame, Chinese Green in color, with an outer radiation of gold.

Because of the added interest in the activities of the Ascended Masters' retreats, seven great ante-chambers have been builded around the great council hall, wherein the Brothers and Sisters who have volunteered to guide and guard this Flame of Conscious Precipitation of GOOD into the world of form, abide.

Reverence of Life Defined

Reverence for life, in essence, besides being a deep feeling that proceeds from within the heart as to the truth that all life is truly of God, goes further. It stirs within those motivated an impersonal desire to qualify life with a constructive vibration, which will be a sustained benefaction for all using the schoolroom of Earth in order to learn the lesson of consciously mastering energy.

Gold or, for that matter, any of the so-called material expressions of wealth, while necessary at this hour, are but a small part of the art of precipitation of good. Many a "rich man" suffers still from agonies of mind, soul, body and affairs. These, of course, are merely the result of his own destructive karma created in this embodiment or ages past.

Purity – A Requisite

If chelas will purify their four lower bodies, they can magnetize, radiate and sustain the far more important God-gifts into the emotional, mental, etheric and physical strata. This will help to set imprisoned life everywhere free of all distresses of every kind and description.

In order for the unascended chela to so prepare himself to become a precipitating presence of good, it must be understood that the wisdom of God has of a purpose withheld the release of the good of the Causal Body into their personal hands and use until all the causes and cores of greed, selfishness and glorification of “personality” are removed from the four lower vehicles through which these natural gifts should flow.

One of the Tests

One of the subtle tests given in the Temple of Precipitation is that of presenting to the chela something of specific material value. Then according to the reaction of such aspirants it is easily discernible as to whether the mystic teaching of the Law of Precipitation shall, in truth, begin. Many such a one seeking to receive these beloved Ascended Master gifts are caught up in the enjoyment of such a material possession, which of course shows in their aura. They are allowed to keep the gift, but the teaching—far more valuable—is withheld.

A focus as old as the Rocky Mountain Retreat, wherein mankind first took embodiment ages ago, contains a tremendous reservoir and momentum of God-qualified energy. To humbly, gently and selflessly while under the direction of his Guru, prepare himself to hold this focus of light, allowing Lord Lanto greater freedom, was a feat of spiritual accomplishment on the part of Lord Confucius, comparable to that of Lord Gautama to help his Lord, Sanat Kumara, to greater freedom to serve with his own star.

By his very nature, Lord Confucius is reserved and modest and it came upon him as a rather great surprise that he was worthy to act as the new hierarch of the Rocky Mountain Retreat. For this reason his Guru, Lord Lanto, has offered and does come upon all official occasions to assist him, until he builds into himself more confidence in his own God-accepted ability.

Chelas upon the spiritual path will do well to take the humble and reverent attitude of Lord Confucius in their preparation to serve in a greater capacity for the benefaction of the race.

**YOU ARE INVITED TO THE
TEMPLE OF PRECIPITATION**

(Monthly Letter to Transmission Flame Class of June 20, 1959)

Beloved Children of God Seeking the Power of Precipitation,

I am so grateful that you are interested in restoring this power, which you had before the shadows of human creation entered your consciousness, thus temporarily closing the door to the use of this power for the benefaction of the Earth and her attendant evolutions.

All of those chelas who are in embodiment, have already developed Causal Bodies within which lie the powers, gifts and virtues of the God-head, so much required at this time. It is our desire to help you to purify your lower vehicles so that those gifts and powers can quickly be released through you as channels of God-perfection.

We have met, all of us, many times, in Lord Lanto's magnificent focus of precipitation. The unascended chelas can enjoy the beauty and the general magnificence of the rituals which take place there. This year, however, we are eagerly seeking those who are motivated by a heart desire to become a precipitating power in themselves, so that all the glory of their Causal Bodies may be released like the rainbow of many colors into the lower strata wherein most of humanity abide.

Take my hand, beloved ones, and, like Lord Lanto and beloved Confucius, let us look upon the Flame of Precipitation with a deeper sense of spiritual recognition of its powers to inculcate you each and every one with the impersonal feeling of benefaction for all life, necessary to become a trusted and worthy chela of these Great Beings.

Love and blessings, Maha Chohan

Statement for the Transmission Flame Class of June 20, 1959:

1	2	3	4	5	6	7	8
I AM inbreathing	Confucius'	grateful	reverence	for	life	everywhere	
I AM absorbing	"	"	"	"	"	"	"
I AM expanding	"	"	"	"	"	"	"
I AM projecting	"	"	"	"	"	"	"

Hierarchs: Lord Lanto and beloved Confucius. Color of Flame: Chinese Green with a golden radiance. Musical Keynote: "Oh Thou Sublime Evening Star."

THE LAW OF PRECIPITATION REVEALED

An Instruction by the Beloved Venetian

I beg you to take my notes in consecutive order, for they are like the scientific steps in a chemical process, none of which may be omitted in order to have a successful achievement.

They represent the action of the Holy Spirit and must not be considered as entertainment or mere accretion of more useless knowledge.

I expect every student to study and make this instruction a part of himself that the hue and cry about precipitation may be stilled and this law be utilized to the fulfillment of the divine plan.

Neither breathing nor walking nor any other process of living can be accomplished in a haphazard manner, nor can the laws that govern the universe be applied by mere wishful thinking or wild ejaculations or incomplete application of cosmic principle. Please get that straight.

PRELIMINARY DEFINITIONS

1. THE PERMANENT ATOM—a nucleus of the physical form.

Some time back Kuthumi mentioned the projection of the permanent atom into the mental form of the desired precipitation. This permanent atom is the nucleus—the cohesive power—around which the electronic substance is drawn to create the perfect physical form required.

2. THE ELECTRONIC LIGHT—the universal light substance unformed, but intelligent. The electronic light to which we refer, which fills the universe, contains within itself a central core of blue-white flame.

3. THE CREATIVE POWER—the Godhead, the Threefold Flame.

The GODHEAD is the creative activity of life—the Threefold Flame, the triple activity: the Father, Son and Holy Spirit, and this is the ONLY creative power in the universe.

PLEASE RE-STUDY the above paragraphs until you can differentiate between the CREATIVE POWER and the LIGHT SUBSTANCE, which is the essence that obeys and becomes the clothing of the creative flame.

4. THE THREEFOLD FLAME—the fire of creation, as powerful in the heart of the man in the gutter, as in the heart of the Great Central Sun.

The great THREEFOLD FLAME may multiply itself without limit and form points of consciousness anywhere in the universe. Whether it is the Godhead direct (the Solar Logoi) or whether it is a spark from the God-

head—the mighty I AM Presence in the individual—this makes no difference. The fire of creation is equally powerful whether it is in the heart of the Great Central Sun or in the heart of the man in the gutter.

THE ELECTRONS AND THE FIRE OF CREATION

As the electrons flow down the lifestream from the mighty I AM Presence into the physical heart, they contain the fire of creation, and each electron may become the nucleus or cause of whatever form the individual decrees into existence—thus, the electron may become the body of a child, the seed of a spiritual idea, the nucleus of a great international movement, the heart of a novel or a celestial symphony.

The electron which enters the heart and becomes part of the lifestream of a self-conscious intelligence, may be consciously projected into the electronic substance and around that minute particle of the fire of creation the universal substance is drawn.

Without the permanent atom, the universal substance remains unformed. The permanent atom is the cohesive power and the divine will that draws the electronic substance into form.

The electronic light descends through your lifestream into the heart, which is the cup that receives the light, and then, according to the divine plan, the electrons ascend again through the throat into the head. (The sub-normal expression is when the electronic light descends below the heart and becomes sexual depravity.)

When the electronic stream of energy reaches the heart and begins again its upward ascent, the inner eye can see that stream of light pour downward and another ascend, in such rapid succession that it looks like the shading of the same stream, but if you interpenetrate that stream of energy, you will see that half is descending and half is ascending.

FOUR STEPS TO CREATE THE PERMANENT ATOM OF YOUR DESIRE OR PLAN

FIRST STEP: Make a mental picture of that which you wish to precipitate.

SECOND STEP: Know and feel that the fire of creation flowing through you is ONE with that which created the universe.

THIRD STEP: You absolutely withdraw all power from the personality (outer self) as the doer.

FOURTH STEP: From the three centers, the HEART, the THROAT, and the HEAD, you consciously project a stream (ray) of electronic substance into the mental picture.

RESULT: The formation of the permanent atom of your picture is formed. As the rays coalesce, they become the THREEFOLD FLAME—the PERMANENT ATOM—which draws the substance of the universe around it, and your precipitated form is completed.

HOW TO PROJECT A STREAM OF ELECTRONIC SUBSTANCE FROM YOUR THREE CENTERS

FIRST: We use the pink ray, the cohesive power of love. Let me show you. From the heart, the electronic substance flows in a pink ray, which is the cohesive power of LOVE, the magnetic force that draws the blue light of the electrons into form.

SECOND: Using the gold ray, the mental picture is outlined in golden light. From the head comes the gold ray, which is the mental picture of the divine will, which has projected the divine plan into a mould or matrix. Thus your mental mould is usually outlined in golden light.

THIRD: The blue ray is the focus of power. From the throat goes forth the blue ray, which is the focus of power, which gives to the precipitation its strength, endurance, and ability to stand against the disintegrating powers of the outer world.

This is as simple an accomplishment as breathing, but it must be worked out in orderly succession.

THE MASTERS OF WISDOM SPEAK

DETECTING THE INTEGRITY OF YOUR TEACHER

MAHA CHOCHAN

The Power in Impersonal Divine Love

The God-virtue of FAITH is within the beating heart of every individual belonging to Earth's evolution, as well as those who have come from other stars and planets to hasten this evolution. It is represented as the blue plume of the immortal victorious Threefold Flame on the left side of the individual's Holy Christ Flame, and is also known as the power flame. However, FAITH or POWER without constructive works, is "dead." Thus, particularly at this time of planetary crisis, we are endeavoring to instruct the chelas, through wisdom (the golden plume in the exact center of the Threefold Flame) to use faith and power in impersonal DIVINE LOVE for the blessings of themselves and all mankind.

EL MORYA

Blind Faith Undesirable

As one of many divine beings particularly interested in the Blue Flame or Ray, I can confirm the beloved Maha Chohan's statement that blind faith (or power) can do more harm than good. It is the chela who is carefully instructed in the use of faith and power to bless the race, upon whom we count for efficacious service in this activity.

Mankind, through the ages, have (through free will), placed their FAITH in other unascended individuals who, using that FAITH and POWER

for nefarious purposes, created great chaos and destructive manifestations by the assumption of the power of their faithful followers. Thus have the dictators of the world secured the very energies wherein and whereby they promoted vicious and harmful causes.

Chelas who have ILLUMINED faith refuse to tie their energies into these destructive activities and, rather, use that FAITH to set themselves and others free from distresses of every kind, replacing such distresses always by happiness and freedom. TEST, TEST, TEST, every activity in which you place your faith and to which you give the power of your attention (your very life, itself) before you are led into the unhappy experiences which result from blindly accepting as truth that which is presented to you, from the seen as well as the unseen.

LORD LANTO

“Many Will Come in my Name, But I Shall Not be with them.”

Wisdom in your use of the energy of your faith and power is taught by the Brothers and Sisters of the Second Ray. In the days of “Lo here and lo there,” the chela is reminded that the words of beloved Jesus are as true today as when he first spoke them. “Many will come in my name, but I shall not be with them.” Those who consciously practice and use the power of faith to forward their own destructive ends, will be held accountable before the Karmic Board at the close of this embodiment.

Those who have had spiritual instruction, and yet choose to give of their energies to sustain such unfortunate individuals, are also held accountable to the Cosmic Law and greatly hinder their own progress thereby. All destructive activities require more power than can be generated by one individual and the conscious faith and power of their constituents is the only means wherein and whereby they can sustain these unfortunate activities for a time.

PAUL (THE VENETIAN MASTER)

Pride Before a Fall

Seeing, as we do, the overall picture of the Earth and its atmosphere, we know that many disembodied individuals, still determined to have their own way in the world of form, utilize an embodied individual who has an affinity of vibration to them.

All psychic and astral creations, as well as their creators, are actually

vampire activities, living on the faith and power of foolish peoples who desire, for personal reasons, to build their personal egos. "Pride (especially of a so-called spiritual nature) always goes before a fall." In this cosmic hour, the fall will come more quickly and be more evident to the spiritually discerning than in ages past.

Therefore, we on the Third Ray do implore each earnest chela to call to Lord Michael, the Archangel, to cut you free NOW from all known and unknown sources that could, at any time, use you as a channel for the expression of their destructive activities, and to help you to cognize and express always the good, the true, the lasting goodness of God, here on Earth, as it always expresses in heaven.

SERAPIS BEY

Use of the Power of Exorcism

I have always been an advocate of EXORCISM in the very finest of its use, because many well-meaning peoples are unknowingly caught in the astral realm, or suffer the many "hexes" placed upon them by those well trained in the use of psychic magnetism. Even on Atlantis, such individuals, called the black priesthood, were enabled to enamor thousands of peoples, thus using their God-given energies to sustain the very forces which eventually caused the sinking of that continent and its peoples.

Exorcism is the freeing of all individuals bound, consciously or unconsciously, to discordant and distressing appearances, and we, the White Brotherhood, will assist you in the use of this power of God, given in mercy, to set all imprisoned life free, from conscious or unconscious pressures of a discordant nature. All through the ages, since the coming of the laggards to the planet Earth, individuals have been taught the power of exorcism, but, alas, too many have kept this power within their own use and, through the inversion of the Law, have exercised the dominating power which can and does hold other individuals from expressing their divine plan.

One of the greatest of the dangers of such domination is fear, which we, presently, are endeavoring to remove (at inner levels) so that the thinking man can have access to his own I AM Presence and the Divine Hierarchy. When the cause and core of such fear and domination are removed, the effects upon millions of peoples on Earth will be removed. Hasten that day.

HILARION

Watch Where You Place Your Faith

There is a definite mathematical measure of the use of energy (God's life) entrusted to any individual, whether embodied or disembodied. Therefore, man is truly held accountable for the use of every electron which has been given, in love, by God to him to externalize his divine plan. FAITH is a beam of energy which ties into the person, place, condition or thing in which the individual places it.

Upon the return of that energy, along the same beam directed, consciously or unconsciously, towards some objective, there flows into the individual's world the fully-gathered momentum of the project or activity in which he has knowingly or unknowingly placed his faith. Therefore, it behooves the wise chela to examine very carefully the motive behind the activity or project into which he has directed his very life.

NADA

Detecting the Integrity of Your Teacher

As we desire so much, in this year of 1959, to set all imprisoned life free, we invoke all the faith of God and his goodness and direct it in, through and around every chela whose motives are honest, earnest and sincere. Thus, even if they are enamored of their own personal importance to the expression of God's kingdom of heaven here on Earth, the destructive invisible or visible forces which play upon their faith can be quickly melted away. That is our service to God, his divine messengers, and all the imprisoned life belonging to the Earth and her attendant evolutions. The further one progresses upon the true spiritual path, the more humble and selfless he becomes. This is a good guide as to the integrity and honor of your teacher.

JESUS

How to Exorcise Evil

As all the gentle readers know, I used in my ministry, the power of exorcism as taught me by my Guru, Lord Maitreya, the present Buddha. I keep my consciousness always reminded that it was not I, but the Father through me, that performed all the so-called miracles accredited to me, and many more, not recorded at this time. There is no greater power than the God who, in love, created both you and me. When you cognize this fact, you also shall be able to consciously exorcise evil wheresoever you see it manifest and replace it by wholeness of body, soul and nature! Practice, for you have many opportunities so to do!

SAINT GERMAIN

Don't Consent to be Hypnotized

The use of the Violet Transmuting Flame is one of the greatest natural activities of exorcism, as the Violet Fire actually changes the quality of the energy used by embodied and disembodied individuals into a constructive expression. The sincere chela, knowing and feeling the efficacy of this Violet Flame, can dissolve hexes of the past and present, and also help well-meaning individuals to place their faith in God and his divine messengers. Thus, they become channels for the externalization of God's kingdom of heaven on Earth, hastening the establishment here and now of freedom's holy star.

Hypnosis (except as used professionally for medical relief) is one of the greatest known expressions of domination of the outer personality over others. It is well known that individuals respond to hypnosis only when they are lethargic, submissive to its powers, or easily influenced, usually due to the past record of previous lives.

People of today! You are not like the innocent chicken who can be hypnotized by an imaginary ring through which it will not pass. You are sons and daughters of God, himself! Arise to that Godhood and, in so doing, help me to help all imprisoned life free! I expect this service in this hour, for you have vowed so to do and I hold you to that vow with my faith in the goodness inherent within you!

DAILY DECREE FOR PROTECTION

I am but an open door, surrounded by blazing flame. I am invisible, not only to human discord and distress, but to the forces that oppose good—embodied and disembodied. There is no one to oppose, no one to strike at, no one to reach—for El Morya, the Maha Chohan and all the Ascended Host are behind "The Bridge to Freedom Activity," within it, above it, below it, inside it, outside it, NOW AND ALWAYS. I am NOW enjoying boundless peace, protection and health, and an overwhelming supply of all good things, to enable me to serve this cause bountifully.

SERVICE IS THE LAW OF LIFE (I)

**An Original Treatise by the First Krishna
With Introduction by our Beloved Lord, the Maha Chohan
In Two Parts**

AN INVITATION TO THE COSMIC LIBRARY

The Gifts Of The Godhead—Today I am going to take you through projected consciousness into my own home in that belt which lies around the Sun behind the Sun. I come to all who are willing to join me. There are relatively few who, of an entire planet accept my presence and my hospitality.

The gifts of the Godhead are given freely, with no thought of the number of the beneficiaries, and there is as much joy in serving one as a multitude, for the joy is in the service itself, and not the response—so into the heart of my home I shall take you.

The Cosmic Library—The Office of Cosmic Librarian, like that of the Maha Chohan, is filled by different intelligences in the course of the evolution of an entire race.

The Temple of the Holy Spirit and the “rectory” are likewise part of the Office but the permanent individual homes are separate from these, shall we say, office buildings.

The great cosmic record that has been written in every civilization has been transferred, preceding the usual cataclysm, into this cosmic library. They are sustained here in their original form and manuscripts because the various styles are part of the heritage of the race and is representative of its culture, its nature and its evolution.

The Homes of the Masters—These cosmic temples which are the foci of the cosmic officers, are situated around the Great Central Sun, but the individual homes of the Masters are around the various planets which represent either the birthplace of their awakened consciousness or an adopted planet which, by vibration, forms a sympathetic attraction, more or less, for the individual.

For instance, the Temple of the Violet Flame of the Ascended Master SAINT GERMAIN is included in the office buildings above-mentioned, but his personal home is in the aura of VENUS, while that of EL MORYA is in the fiery orbit of MERCURY, and so on. But today I bring you to MY COSMIC HOME which is connected with the Temple of the Holy Spirit from whence is drawn the Third Aspect of the nature of the Godhead, to be dispensed in rhythmic pulsation to the mankind of the race.

II

The Original Krishna

When Did The First Christ Come? The very first Christ provided for

mankind came when individuals first chose to use the creative forces of thought and feeling independently of the direction which previously all had respected and honored within and through their own hearts. It was the period referred to in Genesis “when a mist arose and covered the Earth.”

The “Mist” Explained—This mist was the effluvia or externalization of thought and feeling processes of willful souls who, having seized the rein of authority from their own Godhead, chose to experiment and externalize through their own free will, and which has since become the psychic and astral realms and the atmosphere of lower Earth.

The First Golden Age—When this “fall” did occur and the mist arose on the face of the Earth, the race had already known almost a million years in which a Golden Age reigned without interruption. It was not necessary during this long period of harmonious God-expression to present a Christus, as there was no veil or mist between heaven and Earth, no separation between Gods and angels and men.

The Purpose of Cosmic Messengers—When mankind, in great numbers, chose to emit the human veil and shut off the light of heaven, the mercy of the cosmic intelligences instituted the rhythmic release through the cosmic messengers to bring a remembrance and to sustain, in the consciousness of the people, enough of the truth of life to assist the soul and purify it on its return journey to its perfected estate.

The Need of Cosmic Messengers—Since then, there has always been a Christ provided by mercy, who was able to reach into the higher and purer consciousness of Godliness and by and through the medium of his own expression, bring a portion of the truth to the people.

At this period it was necessary to secure a Christ from another chain, because even those who had not “eaten of the forbidden fruit” were still children—innocent as the first description of the paradise.

From this small group, who did not desire separate human authority, the future Christus would be developed—the Buddha, beloved Jesus and others.

The First Krishna—The original Krishna, however, came from the Great Central Sun, itself, and abided for some hundreds of years in a body sustained in beauty and perfection which was an expression, an externalization, of all that Godliness could mean.

Heritage of the First Krishna—This exquisite being, not only through his disciples, but also through written documents, left a heritage which survived cataclysm after cataclysm and has been moved by the

wise and elect across the face of the Earth. These documents formed the basis for the most ancient writings and documents which are in the heart of India and the East today.

In the Himalayan Mountains, there are yet several of these original documents and all the Vedas and other holy documents that are based mainly upon the wealth of material which came from the Great Central Sun, and through the hands of this original Krishna, were written into the substance of earth for all succeeding generations. In some of these monasteries there are individuals who have seen, have touched, have transposed into modern languages these valuable and imperishable documents, and it is one of these that I shall now take from its cradle for your perusal.

III

Preservation Of Krishna's Teachings

Preparation Of The Fiber—In this early age of which we spoke, a very fine fiber was woven out of flax, and a similar growth later was cultivated in the Egyptian kingdoms. When it was bleached in the sun, it was rolled on great spindles made of bamboo, similarly light, but sturdy bobbins. This material was then placed in large buildings, which were covered with an arched roof and finely-screened sides, where both wind and the sun could treat the fibers until they were to be used.

How Manuscripts Were Made—When the Krishna desired some particular treatise preserved, one of these rolls of linen was coated with a soft wax and then the Master privileged to transpose his dictation into words, stamped in this wax the message, word for word, as it came from the mouth of the Krishna. The entire document would sometimes cover several hundred feet.

When it was completed, the Krishna, himself, passed along the entire message, and from his own hands the substance of his consciousness flowed into and merged with the impression, which was then left to harden. When the process was completed, the entire roll was glazed, yet it was pliable enough to re-roll it on its spindle.

How Manuscripts Were Read—To read one of these marvelous documents, there were provided certain wooden pedestals into which the first side of the spindle was placed, and it was rolled under from right to left and spun again on an empty spindle on the opposite side and conversely rolled back, for the successive lines.

Why This Method Was Used—The Krishna, himself, did not evolve this method, which was the gift of the Golden Age, and which had come

through the consciousness of the race. He used, as all Avatars, the perfection present, but was not by cosmic authority privileged, any more than Jesus would have been privileged, to use the airplane, to precede his time in his gift.

The Reason For This Description—The reason why I have given you this description is that the booklet which I will show this morning is the earliest known written record antedating the fall of man, by a Christ from another planet who pierced through the human veil, to leave a permanent heritage to the people.

Why Chelas Took Down The Krishna's Dictations—The Krishna seated before the vast unrolled scroll could have externalized, by thought, the hieroglyphics, but he gave to his chelas not only the happiness, but the training and the share in the merit which came from his execution of the document. There is a further and more far-seeing note—he knew that in far distant centuries, chelas having written the word could read it, and in the heart of India and Tibet the energy of the chela being in the word and his own consciousness having stamped it upon the scroll, it would take but little to reveal the meaning of the hieroglyphics and awaken the capacity to interpret the message into a language known in that particular century, so that it might not be lost to succeeding generations.

Vitalization Of The Strength In Words—All individuals who have more than ordinary interest in the root languages of the race, are among that group who either studied at the feet of the original Krishna, or succeeding Krishna's, in the following Golden Ages.

The strength of the word was vitalized by the blessing of that Christ, and that makes these documents more than an historical record, but a vital, living and present force.

There are written documents at present in the hands of initiates from the hand of the Master Jesus, as well as the Lord Buddha, and all beings who had a permanent effect on the progress of the race. (Part II in next issue)

MISREPRESENTING THE TRUTH IS NOT THE WILL OF GOD

To the Beloved Lord Michael, Archangel of the Resurrection of the God-nature in Angel, Man and Elemental,

Songs of joy, admiration and gratitude are perennially breaking forth from the hearts of angels, men and elementals for all you have done for their evolution! Praise be to you also, in the name of the Hierarchy, for being a staunch defender of the faith in the will of God!

It has been repeatedly said that sickness is not the will of God, that to be a victim of dishonesty is not the will of God, but you must not be concerned only about what happens to you or is done to you, but with what you do to others.

To steal another's means to carry on honest endeavors is not the will of God—to misrepresent the truth is not the will of God—to gullibly accept statements without intelligently discerning their truth or falsity, is not the will of God.

So, gentle reader, if, in introspection, you find that you are doing any of these things, know that you are not doing the will of God, and repent, for the kingdom of God is truly at hand.

Not to do to others what you would not like to be done to you, is the will of God.

Thomas Printz, Editor

THE TEMPLE OF ILLUMINED FAITH The Ascended Master Retreat of the Month near Banff, Canada July 15th Through August 14th, 1959

The blazing focus of illumined faith, guarded, guided and sustained by the beloved Archangel Michael, is located in the Canadian Rocky Mountains, near Banff. The temple is circular in design, with four magnificent entrances at the cardinal points of the compass—north, east, south and west. Around this temple are magnificent gardens, wherein the many visitants, who desire to amplify their own personal faith in the goodness of God, are enabled to sit upon the large marble benches or upon the lovely grass sward, just absorbing the illumined faith of Lord Michael, protector and defender of the true faith in God and his righteousness.

Archangel Michael's Invitation

Beloved Archangel Michael, himself, often visits with his pilgrims in these gardens, and, during this thirty-day period (July 15th through August 14th, 1959), he invites into his temple all those from the human, elemental and angelic kingdoms who desire the acceleration of their own feeling of illumined faith, so that they, in turn, can be conductors of that faith to others who, for one reason or another, have temporarily allowed their faith to burn low and require the resuscitation of the integral feeling of illumined faith, in order to continue upon their service of liberating imprisoned life everywhere in the earth, on the earth and in its atmosphere!

Lord Michael is the Prince of the Heavenly Host, the director of his brothers—the other six Archangels—as well as the entire group of angels who serve under them upon the seven rays.

Becoming a Focus of Illumined Faith

It is not enough to “lean” upon the strength of Lord Michael and his ascended legions of light for freedom from distress and discord in this cosmic hour. Now every chela of Lord Michael shall learn to become a focus of illumined faith, wheresoever they abide in the earth, on its surface, or in its atmosphere!

During this thirty-day period, all applicants for such instruction as he alone can give, are invited into the Temple of Illumined Faith to receive, not only the blessing and benediction of his presence, but also to learn how to become such a focus of illumined faith in their own spheres of influence. The great Archangel, himself, complying with this cosmic fiat, is willing to assist all earnest, worthy, sincere and capable chelas to achieve this illumined faith at this time!

Avail yourselves, beloved, of his hospitality and become an arm of the deliverer from evil—seen and unseen—by entering his focus and absorbing his feeling of illumined faith in the all-power of God to not only overcome evil, but to remove it permanently from the Earth and her attendant evolutions, so that the pristine purity and perfection of the Earth can be resuscitated here and NOW!

Freedom From Distress

Limitless are the opportunities afforded each such a chela to call upon the great deliverer, Lord Michael, to set free earthbound souls (who have left the physical body in so-called death) but who are yet, through unsatisfied appetites of the flesh, living upon the energies of those who yet wear physical bodies.

So many of the destructive appetites of human beings are stimulated by such disembodied individuals, who seek and gain a certain satisfaction from using vulnerable individuals, who have not attained the momentum of illumined faith themselves, to cut themselves free from these distresses.

Also, even if human beings are unknown to the outer consciousness of the chelas of Lord Michael, they can be given inestimable assistance in freeing them from these distresses, not only in the short span of earth-life, but in the afterlife called "death."

To assist those beloved individuals who are engaged in social welfare, call to beloved Lord Michael and his ascended angels of light to help them and those whom they are endeavoring to restore to the dignity of their natural God-estate. He will help you!

Humble Service Needed

Illumined faith gives the chela true insight into the cause and core of the temporary distress, as well as the divine love to render such service. Blind faith is merely the enjoyment of a personally-accepted doctrine, to which a person has an affinity.

Remember always that the service of Lord Michael and all divine beings, is a voluntary one, and that the worthy chelas, unascended, will do well to follow his example in this hour of cosmic initiation. Following the pattern of Lord Michael and his divine helpers, be sure that you feel only humility in serving with them. This is the invisible but evident expression of the chela's true worth!

Note: For further description of Lord Michael's Temple of Illumined Faith, read "The Bridge Journal," Books 2 and 3.

**LORD MICHAEL'S LIGHT RAYS DIRECTED
INTO ALL DECEIT**

Letter to Transmission Flame Class of July 18, 1959, Maha Chohan
Beloved Children of My Heart,

I am grateful, indeed, for the faithful chelas who seek illumined faith and who are eager and desirous of cooperation with the divine and As-cended Beings of the First Ray—beloved Hercules, blessed Michael, the Archangel of Deliverance from evil, and the beloved El Morya—all of whom have served so long and so diligently to bring illumined faith into the outer consciousness of mankind. Together, we shall enter Lord Mi-chael's Temple of Illumined Faith, which casts its rays upon all deceit, known and unknown, and gives to the worthy and illumined chelas, a true prospectus of faith that can and does perform so-called miracles, not only in the world of form, but in the psychic and astral realms, wherein so many of the causes and cores of the temporary evil live, at-taching their intelligent energy to embodied lifestreams for one pur-pose—to expand their nefarious practices that distress imprisoned life everywhere.

To this service, we all, of the Great White Brotherhood, have pledged our very life, consecrating that life to the freedom of Earth and her at-tendant evolutions from discord of every description. Come now, be-loved, and look upon the Flame of Illumined Faith, so that the shadows in your own worlds and that of mankind can quickly be dissolved. This is the purpose of opening the Ascended Masters' retreats to you, through description and projected consciousness, carefully guarding your coming and going by an Ascended Master sponsor of faith of the illumined as-cended legions of Lord Michael during this thirty-day period!

**FAITH AN ACTUAL SUBSTANCE
OF WHAT YOU DESIRE
By the Beloved Cosmic Being Faith**

Even the most discerning and contemplative student has not tied into a fragmentary part of my nature and capacity to draw forth manifestation. Without raw material such as coal, iron, timber, such as wool, silk, and fur, you could not have a manifestation of the particular third-dimensional forms which have blessed mankind in the essential requirements of life, the comforts and the luxuries.

When the student receives the divine idea from the Presence—the blueprint of some desire or design or form by which to enrich or beautify life, his own or the universal—there must be provided the substance, the raw material, from whence, according to the efficacy of his designing faculties, the finished product will ensue. We come, then, to the time-worn statement which has been glossed over by the thinking mind for centuries, “Faith is the substance of things hoped for—the evidence of things not seen.”

The desire and design released to the intellectual consciousness from the Presence represents the **THING** hoped for. We see then, that **FAITH** is the raw material, is the **ACTUAL SUBSTANCE**, which is emanating from the lifestream working upon the manifestation through cooperation with my Cosmic Ray and that this substance becomes the electronic force that fills the thought and feeling form.

Saint Germain, in his endeavors to impress upon the mind of the student this point, defined faith thus: “Faith is a conquering, emanating power.” The word “emanation” signifies radiating forth from a center. These two phrases, when joined, give a tremendous blessing in precipitation, namely, “Faith is the substance that emanates from some center and the substance thus emanated becomes the evidence or manifestation of the idea not seen.”

I marvel that mankind so long has prattled about faith without realizing its palpability, its tangibility, its moldability, and its essential presence before manifestation can ensue. How, we will say, does faith emanate from the timid outer self? By correlating the mind with the realization that the divine idea comes from God and presses through into the intellectual consciousness as a message from the Father to the Son that more beauty is God’s design by the Son’s hand in the world. Then, by disabusing the human consciousness again, again and again of undue responsibility and unconscious arrogance as being the doer, the doing and the

deed, we then have the mind-consciousness accepting the desire of the Father into the mental body. We must then turn the faith nature to the power of the Presence as the ONLY POWER that can act, and this self-surrender begins the radiation of faith, which is a release of substance from the Presence which puts at ease the outer self and actually draws, coalesces and precipitates the electronic light which will form the clothing of the manifestation.

The love of the outer self for the Presence allows the conquering, emanating power from the Presence, which becomes the quality known as FAITH to flow through the individual. Of course, when one is acquainted with myself as a definite, intelligent God-focus of this quality, you can couple your invocation to me with your devotion to the Presence, and the faith of my cosmic ray will flow forth freely.

Faith

THE PURIFICATION OF THE ETHERIC BODY
Excerpts From an Address by Beloved Archangel Michael

May I speak to you just for a moment about the etheric body? The etheric body, beloved ones, is like a mirror. It records instantly the thoughts and feelings, the actions of the spoken words into its very self. It imitates that which you do, what your attention rests upon, and mirrors that as well.

The etheric bodies of mankind have been so scarred, so mutilated, so deeply marred by the experiences of life, that they look for the most part a sorry sight. They are what you would call in earth-life seemingly "pock-marked." These garments carry the scars of all the disappointments, the disillusionments, the hurts, all of the experiences wherein mankind has destroyed faith and trust and confidence.

These experiences imbedded, in the etheric body, seemingly lie quiescent. Even as your flesh mends a cut or a wound, so does the intelligence and light within the etheric body weave over the scars and wounds a similar semblance or repaired tissue. But under tension of stress and strain, those inner experiences and weaknesses are likely to burst forth again in renewed hatreds, renewed antagonisms, and it is my counsel to you to set about in earnest purifying those etheric garments, making them shine, as they once were pure white, exquisite, when you received them first and began to record through cause and effect the experiences of life into them. What mankind does to one another in cre-
